Sydney Planning Strategy

2

Three linked city squares

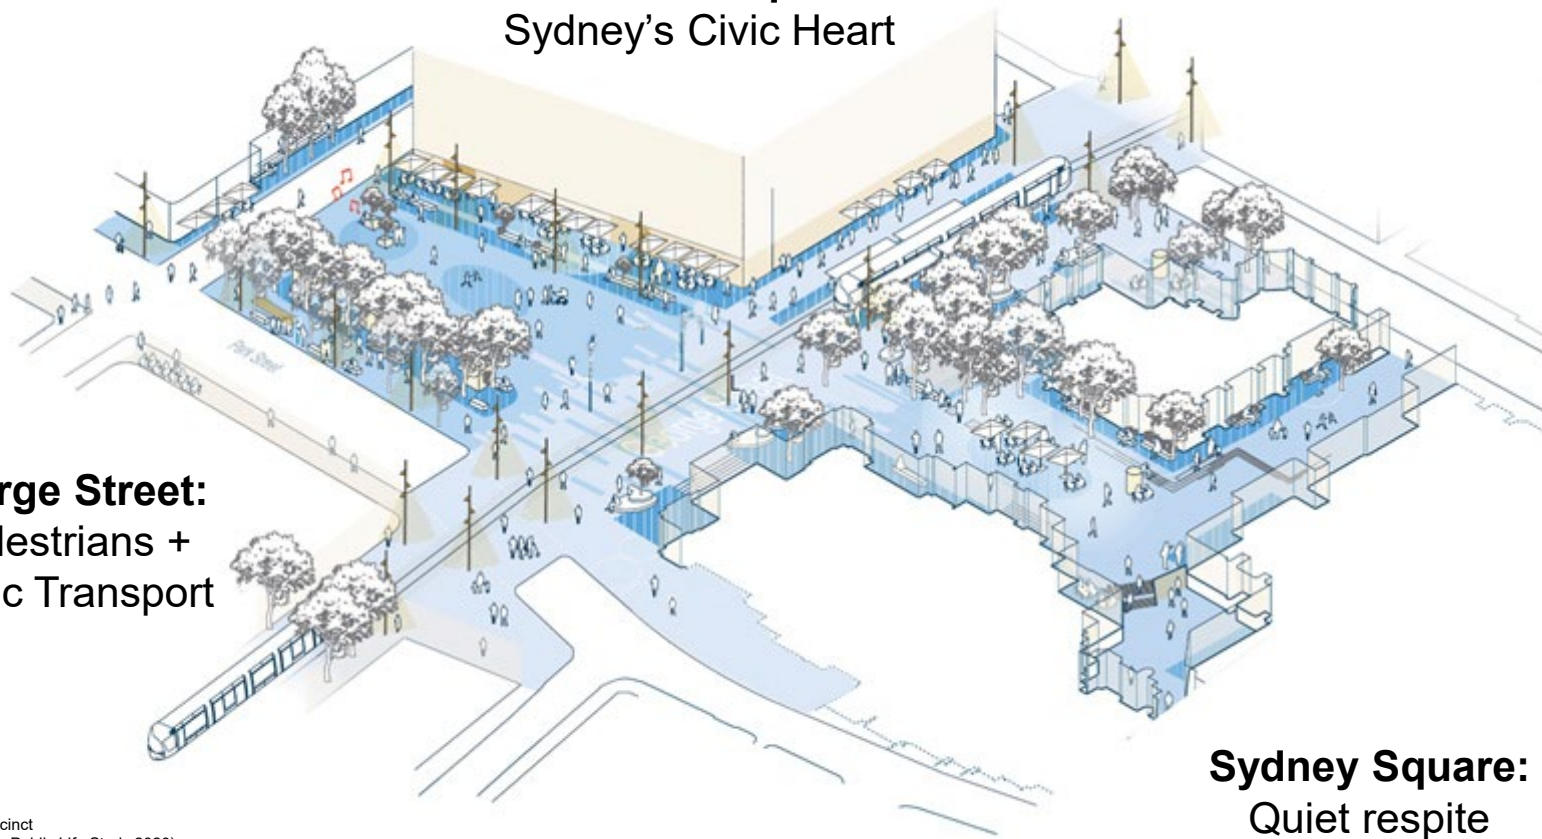

The 3 squares at Circular Quay, Town Hall and Central linked by a transformed George Street will provide more space for public life in the heart of our city. These public spaces are essential to ensure our city remains liveable and sustains its role as a global economic centre.

Precinct Vision

Town Hall Square:
Sydney's Civic Heart

George Street:
Pedestrians +
Public Transport

Sydney Square:
Quiet respite

Project Vision

A civic space (Sydney's civic heart)

Provide a significant public space for Sydney - the civic + public centre of the City

Project Vision

A space for everyday life and events

Comfortable spaces with lighting, seating, active edges and essential infrastructure to support everyday life, events, public gathering, protests + celebrations

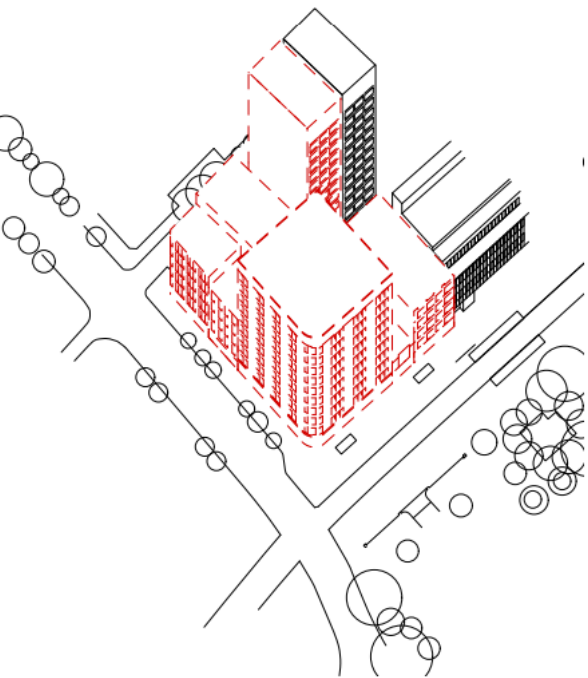

Project Vision

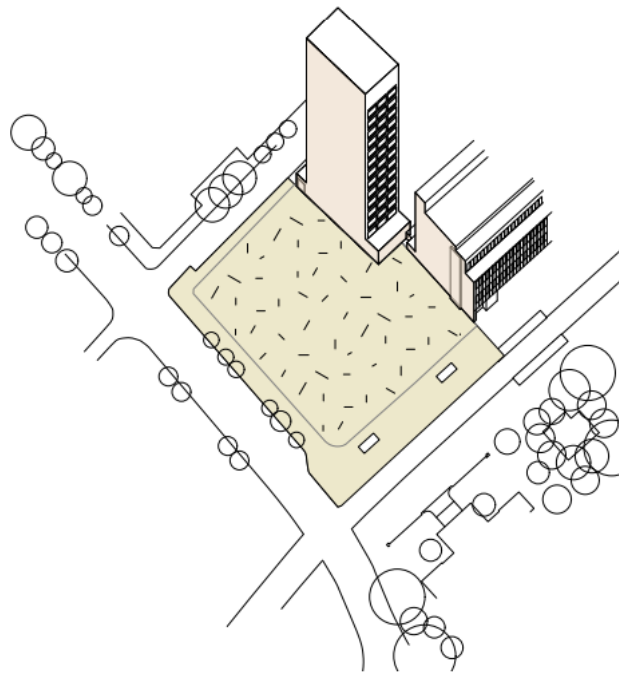

Increasing City greening

New significant trees (deep soil) to mitigate exposed sun conditions + contribute to canopy / greening targets

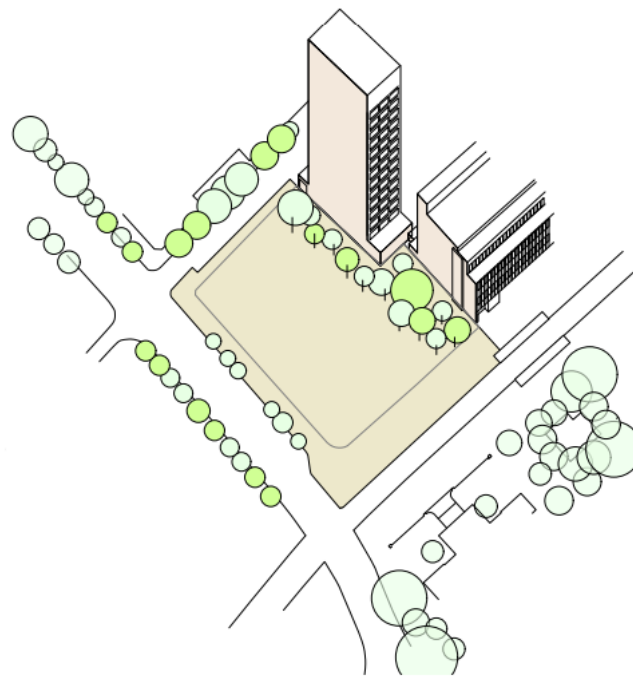

Project scope

Demolition

A major new civic space

City greening

Next steps

Sydney Your Say

Have your say on our consultations from parks and playgrounds, to planning the future of our city.
