

## Resolution of Council

**29 June 2026**

### **Item 3.2**

#### **Extended Trading Hours for Special Events**

##### **Minute by the Lord Mayor**

To Council:

The 2026 FIFA World Cup is bringing together communities across Australia as we support our national team. In our area, more than half of our population have both parents born overseas. The FIFA World Cup unites the people of the more than 200 nations in our area.

Now that the Socceroos have progressed to the knockout Round of 32, residents, visitors and businesses are embracing the excitement and harmony these games create. SBS is broadcasting and streaming the FIFA World Cup to ensure all Australians have free, equitable access to one of the world's biggest sporting events. Businesses from convenience stores to barbers are streaming the games while open for business.

For licensed venues, the NSW Government granted extended trading under section 13 of the Liquor Act 2007 for FIFA World Cup games.

Given the early morning games, non-licensed businesses should also be able to trade early mornings to provide food and other services to people out watching the games.

In 2026, the Sydney Marathon will be held on 30 August 2026 and begin at 6.15am. The marathon attracts around 50,000 runners and even more spectators to our city. Participants and visitors alike should be able to visit retail, food and other services before and during the marathon. The route travels through Sydney, Pyrmont, Darlinghurst, Surry Hills and Paddington.

Special event extended trading, introduced in 2025 under section 2.132A of the State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 (Codes SEPP), allows councils to declare extended trading hours for unlicensed premises, but only until midnight for events of regional, state or national significance.

As currently drafted, this section does not enable venues to open early for special events, such as the FIFA World Cup and the Sydney Marathon.

On 7 April 2026, I wrote to the Minister for Planning and Public Spaces requesting that the Department of Planning, Housing and Infrastructure make the necessary changes to the Codes SEPP to allow Councils to set any hours for extended trading during special events, rather than limiting it to midnight. We hope this change can be made with urgency.

The City of Sydney has flagged with the Minister for Planning and Public Space's office the need for an urgent amendment to the SEPP to amend this section to enable greater flexibility for non-licensed venues.

I propose that Council endorse the granting of additional trading hours for the remaining FIFA World Cup games, starting with Australia vs Egypt which will kick off at 4am on 4 July 2026. Should the NSW Government make the required amendments to the Codes SEPP, this resolution will automatically enable the extended trading hours to apply to eligible venues. Venues already able to trade beyond the extended hours can trade as usual.

Eligible venues include community facilities, entertainment facilities, restaurants, cafés, shops, and takeaway food and drink premises. Home occupations (sex services), restricted premises and sex services premises are excluded.

I am recommending that Council declare the 2026 FIFA World Cup and the 2026 Sydney Marathon special events to allow extended trading for unlicensed premises, supporting local businesses and contributing to a lively economy.

The areas to which the extended hours will apply will be:

- (a) For the 2026 FIFA World Cup - the City of Sydney Local Government area; and
- (b) For the Sydney Marathon - the suburbs of Sydney, Pyrmont, Darlinghurst, Surry Hills and Paddington (in the City of Sydney Local Government Area).

## **THE RT HON CLOVER MOORE AO**

Lord Mayor of Sydney

Moved by the Chair (the Lord Mayor), seconded by Councillor Gannon –
