CITY OF SYDNEY

As part of our democratic process, the City invites members of the community to speak directly to Members of the Local Planning Panel (LPP) about items on a meeting agenda.

Webcast

In accordance with the *Environmental Planning and Assessment Act 1979* and the *City of Sydney Local Planning Panel Operational Procedures,* LPP meetings are audio visually recorded and webcast live on the City of Sydney website at www.cityofsydney.nsw.gov.au.

Members of the public attending a LPP meeting may have their image, voice and personal information (including name and address) recorded, publicly broadcast and archived.

Consent

By attending a LPP meeting, members of the public consent to this use of their image, voice and personal information.

Disclaimer

Statements made by individuals at a LPP meeting, and which may be contained in a live stream or recording of the meeting are those of the individuals making them, and not of the City/LPP. To be clear, unless set out in a resolution, the City/LPP does not endorse or support such statements.

The City/LPP does not accept any liability for statements made or actions taken by individuals during LPP meetings that may be contrary to law, including discriminatory, defamatory or offensive comments. Such statements or actions are not protected by privilege and may be the subject of legal proceedings and potential liability, for which the City/LPP takes no responsibility.

To enable the LPP to hear a wide range of views and concerns within the limited time available, we encourage people interested in speaking at meetings to:

1. Register to speak by calling Secretariat on 9265 9702 or emailing secretariat@cityofsydney.nsw.gov.au before 10.00am on the day of the meeting.
2. Check the recommendation in the LPP report before speaking, as it may address your concerns so that you just need to indicate your support for the recommendation.
3. Note that there is a three minute time limit for each speaker and prepare your presentation to cover your major points within that time.
4. Avoid repeating what previous speakers have said and focus on issues and information that the LPP may not already know.
5. If there is a large number of people interested in the same item as you, try to nominate three representatives to speak on your behalf and to indicate how many people they are representing.

At the start of each LPP meeting, the Chair may re-order agenda items so that those items with speakers can be dealt with first.

LPP reports are on line at www.cityofsydney.nsw.gov.au

Item 1.

Disclosures of Interest

In accordance with section 4.9 of the Code of Conduct for Local Planning Panel Members, all Panel members are required to sign a declaration of interest in relation to each matter on the agenda.

Pursuant to the provisions of Clause 15 of Schedule 4B of the Environmental Planning and Assessment Act 1979, members of the Local Planning Panel are required to disclose pecuniary interests in any matter on the agenda for this meeting of the Local Planning Panel.

Panel members are also required to disclose any non-pecuniary interests in any matter on the agenda for this meeting of the Local Planning Panel.

In both cases, the nature of the interest must be disclosed.

Item 2.

Confirmation of Minutes

Minutes of the following meeting of the Local Planning Panel, which have been endorsed by the Chair of that meeting, are submitted for noting:

Meeting of 29 April 2026

Item 3.

Section 8.2 Review of Determination: 116 Lang Road, Moore Park - RD/2023/897/B

File Number: RD/2023/897/B

Summary

Date of Submission:	27 March 2026
Applicant:	The Trustee for Carsingha Investments Unit Trust
Owner:	The Centennial Park and Moore Park Trust
Planning Consultant:	Colliers
Zoning:	Site zoned under SEPP (Precincts - Eastern Harbour City) 2021. Continued use of entertainment facility permissible with consent in the zone
Proposal Summary:	A request for a review of the refusal of modification application D/2023/897/B under the provisions of Section 8.2(1)(a) of the Environmental Planning and Assessment Act. Modification application D/2023/897/B sought approval for the continued use of the time-limited approval for the use of Level 5 of the multi storey Entertainment Quarter car park for an electric go-karting entertainment facility until 1 July 2028. The modification application was refused by Council under delegated authority on 26 February 2026. The reasons for refusal included the following: • The proposal is likely to result in unreasonable parking and amenity impacts. • The continued occupation of 296 on-site spaces for the commercial activities reduces the precinct's ability to manage future parking demands, which has the potential to adversely affect the amenity of the area. • The closure of the Lower Kippax grass car park (EP2) within the Moore Park precinct is scheduled to occur on 1 July 2026.

- The new Venues NSW multi-level car park, currently under construction, will replace existing and previous parking areas at the northern end of the Moore Park precinct and will not offset or compensate for the 296 car spaces being occupied by the proposal.

- The proposal fails to demonstrate that satisfactory parking provisions will be consistently maintained throughout the precinct for the duration of the development.

- The proposal does not promote the orderly use of land.

- The proposal is not in the public interest.

The applicant is requesting that the Panel review the decision to refuse D/2023/897/B.

Notification

The review application was notified between 30 March 2026 and 14 April 2026. The proposal was notified to 4,470 properties and 3,739 submissions were received. 3,735 submissions were received in support of the proposal to extend the current use. Two submissions were received as comments, and 2 submissions received raised objections to the proposal.

Assessment

The review application includes the following additional information for consideration as part of the review application:

- a letter from the Greater Sydney Parklands advising that they are progressing the making of a regulation to extend the date for parking of vehicles at Lower Kippax car park within the Moore Park precinct

- previous approvals of the Moore Park Showground site to demonstrate the approval of a maximum number of car parking spaces for the Family Entertainment Precinct within the Entertainment Quarter

- car parking data and traffic reviews of the Moore Park precinct and Entertainment Quarter

The NSW Minister for Planning and Public Spaces has written to Council to confirm that a regulation has been approved extending parking at the Lower Kippax car park to 1 July 2027.

This additional information has been assessed with respect to the assessment of modification application D/2023/897/B and the reasons for refusal. The additional information addresses the reasons for refusal and it is recommended that the Panel change the determination of the refusal of D/2023/897/B and that the proposed modification be approved for the use to continue until 1 July 2028.

Summary Recommendation: The review application is recommended to change the determination of modification application D/2023/897/B to an approval.

Development Controls:

(i) Sydney Development Control Plan 2012

(ii) SEPP (Transport and Infrastructure) 2021

(iii) SEPP (Biodiversity and Conservation) 2021

(iv) SEPP (Precincts – Eastern Harbour City) 2021

E. Letter from the Minister for Planning and Public Spaces

F. Submissions

Recommendation

It is resolved that the decision to refuse the proposed modifications in modification application D/2023/897/B be changed to an approval and that the consent be modified as follows:

(A) Condition 2 amended as follows (additions shown in ***bold italics***, deletions shown in ~~strikethrough~~):

(2) Time Limited Consent

The use may operate ~~for a period of two years from the date of consent~~ **until 1 July 2028**. If the use is to be retained after this period, a further application may be lodged with the Council before expiration of the consent. Council's consideration of the continuation will be based on, among other things, compliance with the development consent conditions, any substantiated complaints received and the capacity of parking provisions.

Reason

To limit the use of Level 5 of the Entertainment Quarter carpark building as an entertainment facility.

Reasons for Recommendation

The application is recommended for approval for the following reasons:

(A) The review application has submitted additional information in response to the reasons for refusal.

(B) The proposal is substantially the same development.

(C) The submissions made in relation to the review application have been considered.

Background

The Reason the Application is Reported to the Local Planning Panel

1. The application is reported to the Local Planning Panel for determination as it is a review application for which the applicant has requested the review be conducted by the Local Planning Panel under s8.3(4)(c) of the EP&A Act 1979.

The Site and Surrounding Development

2. The subject site is identified as Lot 101 in Deposited Plan 1246842 and is commonly known as the Moore Park Entertainment Quarter (EQ). The site has a street address of 116 Lang Road, Moore Park. The Entertainment Quarter is adjacent to Moore Park to the south and west with Centennial Park located further to the east. The site is irregular in shape, with an area of approximately 11.08ha.

3. The area of the site to which the application relates is level 5 of the Entertainment Quarter car park which fronts to Errol Flynn Boulevarde within the site.

4. The Entertainment Quarter contains a mix of cafés, restaurants, cinema complexes, media and film related offices, Brent Street Studios, the Australian Film, Television and Radio School (AFTRS), shops, weekly markets, a multi storey car park and open space area, including a permanent showground and parade ring.

5. The site is bounded by the Fox Studios and the Sydney Cricket Ground to the north, the showground and Cook Road to the east and Driver Avenue to the west. Further to the north and east are the predominantly residential areas of Paddington and Centennial Park. The surrounding areas are characterised by a mixture of land uses including commercial, sports and recreational facilities.

6. Centennial Park and Moore Park are State Heritage items and adjoin the site to the east and south, with Busby's Bore, also a State Heritage item (listing No. 00568), running north to south through the Entertainment Quarter.

7. The site is located approximately 200m from the Moore Park Light Rail Station. Vehicular access to the site is provided from the signalised intersection at Lang Road and Errol Flynn Boulevard. Pedestrian access is gained primarily from Errol Flynn Boulevard.

8. Photos of the site and surrounds are provided below.

Figure 1: Aerial view of site and surrounds with the EQ car park shown dashed

Figure 2: EQ car park viewed from Errol Flynn Drive

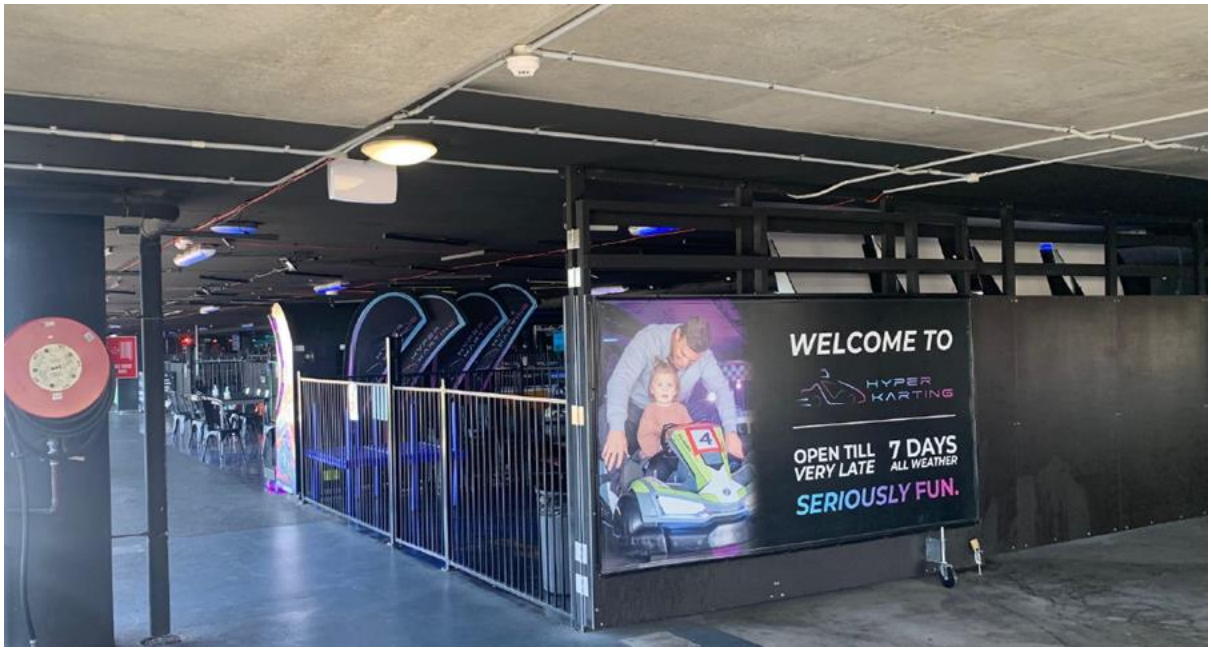

Figure 3: Entry to level 5 electric go-karting tenancy

Figure 4: Electric go-kart track

History Relevant to the Development Application

Development Applications

9. The following applications are relevant to the current proposal:

- **D/2020/24** – Development consent was granted on 2 July 2020 for the temporary use of Peter Finch Avenue, Bent Street, Studio Plaza, Cinema Plaza, Heritage Park and a portion of the existing multistorey carpark building within the Entertainment Quarter for temporary events for a 5-year period ending 1 July 2025.

- **D/2023/897** - Development consent was granted on 15 February 2024 for continuation of the temporary use of Level 5 of the multistorey Entertainment Quarter car park for electric go-karting and associated entertainment activities. The approval also included the expansion of the existing go-kart track and ancillary entertainment activities to occupy the whole of Level 5, with a maximum capacity of 448 patrons. The approved operating hours are 7am and 12 midnight, 7 days per week with amplified performance activities to cease at 10pm. Condition 2 of the consent restricts the approved use to a period of two (2) years from the date of consent – i.e. until 15 February 2026.

- **D/2023/897/A** - application number not used.

- **D/2023/897/B** - Section 4.55(2) modification to continue the use of Level 5 Entertainment Quarter car park for electric go-karting and associated entertainment activities until 1 July 2028 was refused by Council under delegated authority on 26 February 2026. This application seeks a review of that decision.

Proposed Review

10. The review application seeks to change the refusal of the modification sought under modification application D/2023/897/B to allow for the continued use of Level 5 Entertainment Quarter car park for electric go-karting and associated entertainment activities until 1 July 2028.

11. The review application has provided the following additional information in consideration of the review.

- response document prepared by Colliers dated 24 March 2026

- a letter from the Greater Sydney Parklands (GSP) dated 10 April 2026 advising that the GSP are progressing the making of a regulation to extend the date for parking of vehicles at Lower Kippax car park (EP2). This letter is included as Attachment D. The letter notes that the Venues NSW car park will not be operational by 1 July 2026, and that subject to ministerial approval, on-grass parking within the Lower Kippax area at Moore Park East (EP2) will be extended until the new carpark is operational

- previous approvals of the Moore Park Showground site to demonstrate the approval of a maximum number of car parking spaces for the Family Entertainment Precinct within the Entertainment Quarter including:

- DA No. 1/96 for the Moore Park Showground Masterplan redevelopment approved by the Minister for Urban Affairs and Planning on 24 April 1996.

- DA No. 37/96, a detailed development application for the demolition of existing structures and the erection of new buildings including the subject car parking building approved by the Minister for Urban Affairs and Planning Minister for Housing on 22 April 1997. Condition 15 of this consent amends the car parking provision for the development to a maximum of 2,000 spaces within the Family Entertainment Precinct.

- DA No. 382-11-00 a development application for operational details of approved tenancies within the Family Entertainment Precinct approved by the Minister for Urban Affairs and Planning on 13 July 2001. Condition 16(j) of the consent states that the top level of the multi storey car park shall remain closed at all times unless the capacity of the car park exceeds 75% on any day.

- Car parking data collected by the applicant of the capacity of the Entertainment Quarter between 12 February 2024 to January 2026, recording instances of full capacity and when reaching 75% capacity.

- Car parking data for the Moore Park Precinct from Transport for NSW for major sporting and concert events from 2022 and 2023.

- Minutes of the Moore Park Events Operations Group meetings.

- Traffic impact assessment report prepared by Traffix, dated August 2023.

Assessment

12. The review application is made within six months of the date of determination of the modification application.

13. The development to which the proposal relates is substantially the same as that originally granted.

Reasons for refusal

14. The notice of determination for modification application D/2023/897/B is included as Attachment B. The reasons for refusal of the modification application are summarised as follows:

    (a) The proposal is likely to result in unreasonable parking and amenity impacts, as:

        (i) The proposed development would result in the ongoing exclusive use of 296 on-site car parking spaces for a commercial activity, thereby reducing parking availability for the range of uses throughout the Moore Park precinct.

        (ii) The continued occupation of 296 on-site spaces for the commercial activities reduces the precinct's ability to manage future parking demands, which has the potential to adversely affect the amenity of the area.

(iii) Parking availability across the precinct has reduced since the commencement of the development.

(iv) Closure of the Lower Kippax car park (EP2) is scheduled to occur on 1 July 2026.

(v) The new Venues NSW multi-level car park, currently under construction, will replace existing and previous parking areas at the northern end of the Moore Park precinct and will not offset or compensate for the 296 car spaces being occupied by the proposal.

(vi) The proposal fails to demonstrate that satisfactory parking provisions will be consistently maintained throughout the precinct for the duration of the development.

(b) The proposal does not promote the orderly use of the land, given that:

(i) The ongoing operation and exclusive use of the Entertainment Quarter Level 5 car park would prevent use of 296 parking spaces which are intended to support activities within the Entertainment Quarter and the broader Moore Park precinct.

(ii) The ongoing removal of 296 car parking spaces from public use undermines the orderly provision of parking for the existing and potential future uses within the Moore Park precinct.

(c) The proposal is not in the public interest as:

(i) The continued occupation of 296 on-site spaces for the commercial activities results in a reduction in publicly available on-site parking.

Discussion

15. The additional information submitted as part of the review application seeks to address the reasons for refusal.

16. The letter provided by the Greater Sydney Parklands (GSP) dated 10 April 2026 states that the Venues NSW car park (MP1) currently under construction will not be operational by 1 July 2026, and that subject to ministerial approval, on-grass parking within the Lower Kippax area at Moore Park East (EP2) will be extended until the new carpark is operational.

17. The NSW Minister for Planning and Public Spaces has written to Council to confirm that a regulation has been approved extending parking at the Lower Kippax car park to 1 July 2027. This letter is included as Attachment E. The letter confirms the intention for the new Venues NSW car park to be operational by late 2026 or early 2027 and that on-grass parking would remain available until the car park is operational.

18. A map showing these parking areas as included in the modification application assessment report is included below.

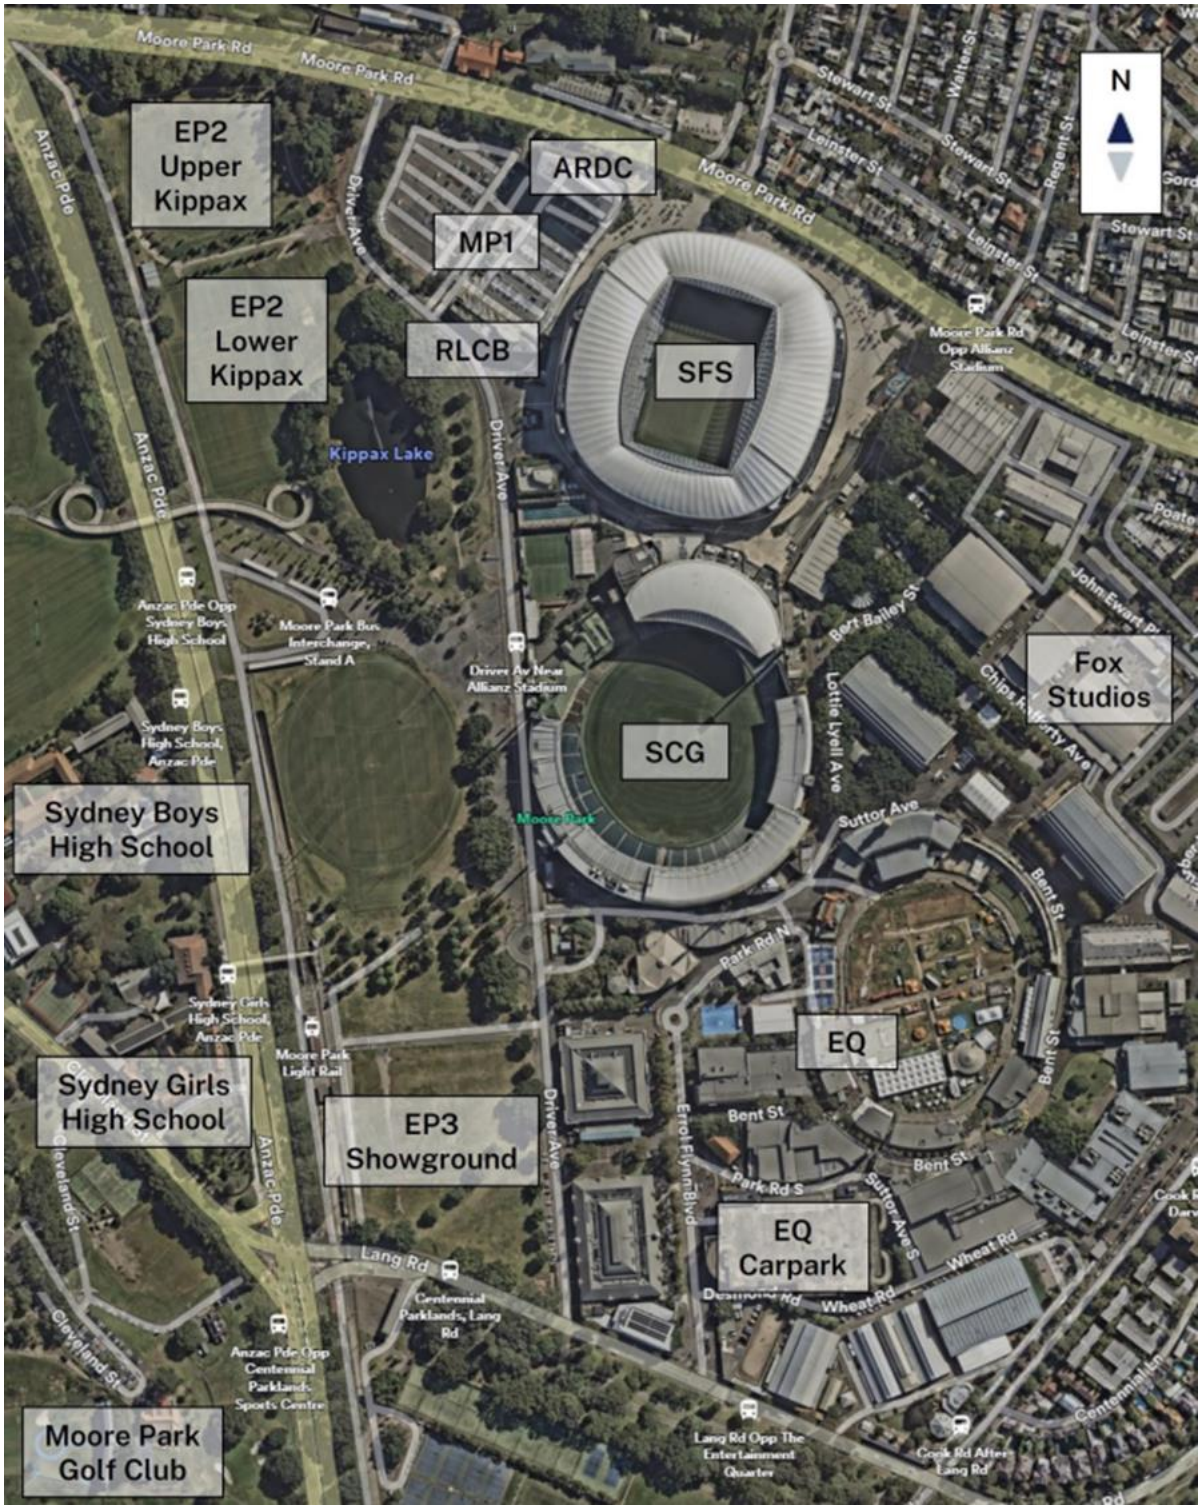

Figure 5: Aerial view of Moore Park precinct with parking areas labelled (Source: SSD-9835-Mod-9 Assessment Report)

19. As part of the assessment of modification application D/2023/897/B, the following was noted in terms of the parking availability across the Moore Park precinct (in summary):

Parking Area	Number of Spaces	Note
EP2 Upper Kippax	650	Not in use since 1 July 2022
EP2 Lower Kippax	350	Use to end from 1 July 2026
MP1	1,342	Under construction - estimate early 2027
EP3 Showground	950	Use to end from 1 July 2028
EQ Car Park	2,003 (total)	296 spaces on Level 5

20. The letters provided from Greater Sydney Parklands, the Minister for Planning and Public Spaces, and the additional parking assessment information addresses the reasons for the refusal of the extension of use in relation to unreasonable amenity impacts and the public interest and shows a managed approach to car parking across the Moore Park precinct. Extension of the use until 1 July 2028 aligns with the overall parking strategy for the precinct, including the increased usage of public transport with the operation of the light rail.

21. The details provided of the previous approvals for the site issued by the Department including DA No. 1/96, DA No. 37/96, and DA No. 382-11-00, demonstrate that the parking approved within the Family Entertainment Precinct is a maximum provision of parking for this precinct (2,000 car parking spaces). The proposed continued use of the car parking spaces on level 5 which results in a reduction in parking within the Entertainment Quarter as proposed is not inconsistent with these approvals. A diagram of the Family Entertainment Precinct included in Attachment 3 of DA No. 37/96 is shown below.

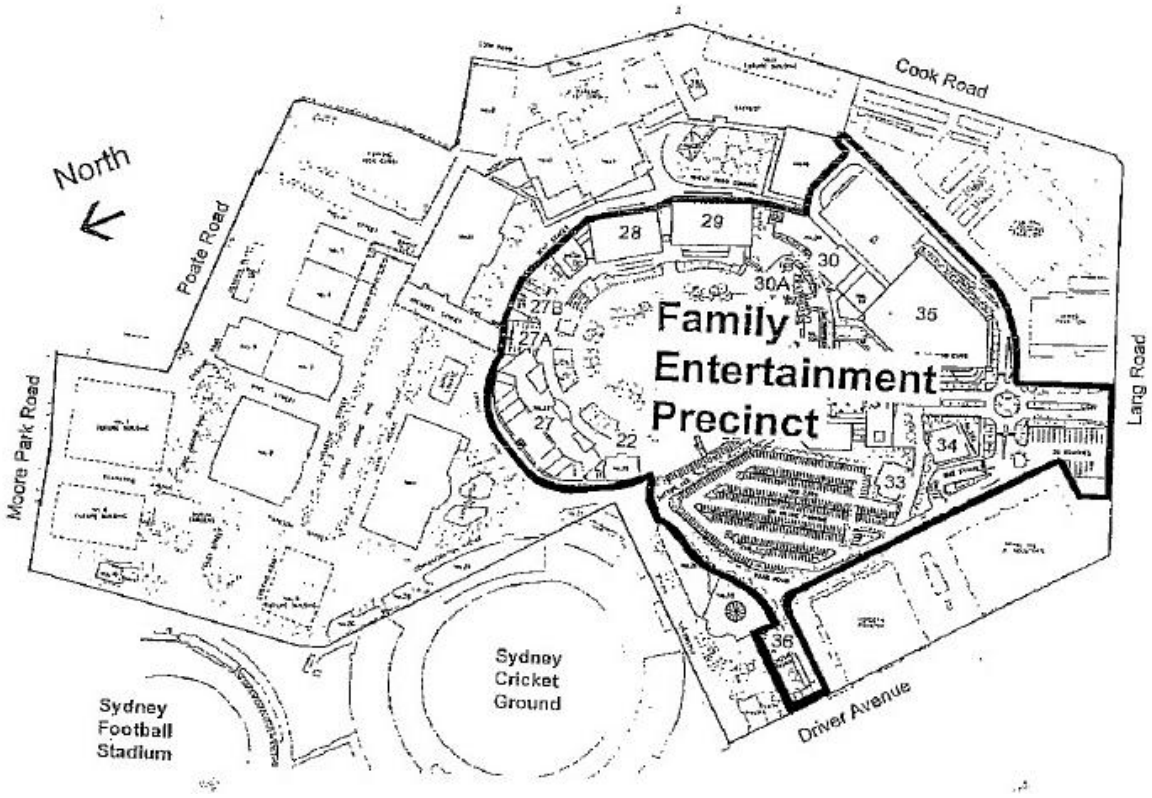

Figure 6: Plan showing the area comprising the Family Entertainment Precinct (Source: Appendix 3 DA No. 37/96)

22. This additional information addresses reasons for refusal in relation to orderly use of land and the public interest and identifies the provision of parking within the Family Entertainment Precinct is primarily to serve those uses. When considered with the applicant's submissions and letter provided by the GSP in relation to car parking management, there is sufficient justification provided to change the decision to refuse the extension of the use to 1 July 2028.

External Referrals

NSW Police

23. The original modification application was referred to the NSW Police for comment.

24. A response was received raising no objections to the proposed extension of use and recommended measures to reduce thefts.

Transport for NSW

25. Pursuant to Section 245(3) of the EP&A Regulations 2021, the review application was referred to Transport for NSW (TfNSW) for comment.

26. Comments were received on 20 April 2026 advising that TfNSW has no requirements for the proposal.

Advertising and Notification

27. The review application was notified between 30 March 2026 and 14 April 2026. The proposal was notified to 4,470 properties and 3,739 submissions were received during the notification period (358 blank submissions were also received in addition to this number).

28. A total of 3,735 submissions were received in support of the proposal to extend the current use. Two submissions were received as unrelated comments, and 2 submissions were received raising objections to the proposal.

29. The receipt of 3,735 submissions in support of the proposal to extend the current use demonstrates a high level of wider community support for the proposal.

30. The submissions received in objection raised the following issues which are considered as follows:

    (a) **Issue:** Use of open space for car parking

    A concern was expressed regarding the use of public open space for car parking within the Moore Park precinct and that the extension of the use of the Entertainment Quarter car park should cease as per the original consent.

    Response:

- The subject open space areas within the Moore Park precinct that are utilised for car parking is managed by the Greater Sydney Parklands, under the Centennial Park and Moore Park Trust Act 1983, independent of Council. The original modification assessment was based on the information available at that point in time in terms of the closures of on grass parking areas and available parking within the Moore Park precinct. Additional information has been provided with this review application, including details of the extension of car on grass parking until the new Venues NSW car park is completed. A strategy remains in place for parking on the open space areas within the Moore Park precinct to cease as noted above within this report.

    (b) **Issue:** Operation grievances

    Response:

    Particular grievances regarding a personal experience of the facility do not relate to the subject application.

Financial Contributions

Levy under Section 7.12 of the Environmental Planning and Assessment Regulation 2000

31. Not applicable as the Central Sydney Development Contributions Plan 2020 does not apply to the site.

Contribution under Section 7.11 of the EP&A Act 1979

32. The City of Sydney Development Contributions Plan 2015 applies to the site. A contribution was not applied under the original consent D/2023/897 and a contribution does not apply for the proposed continued use as a modification.

Contribution under Section 7.13 of the Sydney Local Environmental Plan 2012

33. The City of Sydney Affordable Housing Program does not apply to the site as it is not land to which SLEP 2012, SLEP (Green Square Town Centre) or SLEP (Green Square Town Centre - Stage 2) 2012 applies.

Housing and Productivity Contribution

34. The development is not subject to a Housing and Productivity Contribution under the Environmental Planning and Assessment (Housing and Productivity Contribution) Order 2024.

35. While the site is located with the Greater Sydney region, the development as a continued use is not a type of commercial not a type of development to which the Housing and Productivity Contribution requires a contribution.

Relevant Legislation

36. Environmental Planning and Assessment Act 1979.

Conclusion

37. The application for a review of the determination of modification application D/2023/897/B has been assessed under the provisions of Section 8.2(1)(a) of the EP&A Act. Modification application D/2023/897/B sought approval for the continued use of the time-limited approval for the use of Level 5 of the multi storey Entertainment Quarter car park for an electric go-karting entertainment facility until 1 July 2028. The modification application was refused under delegation on 26 February 2026.

38. As part of this review application the applicant included additional information to address the reasons for refusal including:

    (a) A letter from the Great Sydney Parklands advising that they are progressing the making of a regulation to extend the date for parking of vehicles at Lower Kippax car park.

    (b) Previous approvals of the Moore Park Showground site to demonstrate the approval of a maximum number of car parking spaces for the Family Entertainment Precinct within the Entertainment Quarter.

    (c) Car parking data and traffic reviews of the Moore Park precinct and Entertainment Quarter.

39. The review application was notified between 30 March 2026 and 14 April 2026. The proposal was notified to 4,470 properties and 3,739 of submissions were received. 3,735 submissions were received in support of the proposal to extend the current use. Information received in submissions has been considered as part of this review.

40. The additional information provided with the review application addresses the reasons for refusal. The letters provided from Greater Sydney Parklands and the Minister for Planning and Public Spaces, and the additional parking assessment addresses the reasons for the refusal of the extension of use in relation to unreasonable amenity impacts and the public interest and shows a managed approach to car parking across the Moore Park precinct. The details of previous approvals for the Entertainment Quarter issued by the Minister addresses reasons for refusal in relation to orderly use of land and the public interest and identifies the provision of parking within the Family Entertainment Precinct is expressed as a maximum parking allowance and is primarily to serve the demand within the Family Entertainment Precinct.

41. Sufficient justification has been provided to change the decision to refuse the extension of the use to 1 July 2028, and it is therefore recommended that the review application be approved with the extension of the use to 1 July 2028 with the amendment of Condition 2 of development consent D/2023/897.

NOTICE OF DETERMINATION OF A DEVELOPMENT APPLICATION

Application number	**D/2023/897** **PAN-375767**
Applicant	THE TRUSTEE FOR CARSINGHA INVESTMENTS UNIT TRUST 180 George Street SYDNEY NSW 2000
Description of development	Fit out works and ongoing use on Level 5 of the Entertainment Quarter car park for electric go-karting and associated entertainment activities.
Property	116 Lang Road, MOORE PARK NSW 2021 Lot 101 DP 1246842
Determination	Approved Consent Authority o Council
Date of determination	15 February 2024
Date from which the consent operates	15 February 2024
Date on which the consent lapses	15 February 2026
Building Code of Australia building classification	Before commencing *building work or subdivision work*, a relevant Construction Certificate must be obtained from Council or an Accredited Certifier. Council must be appointed the Principal Certifier for any *subdivision work* under the Act.

Under section 4.18(1) of the EP&A Act, notice is given that the above development application has been determined by the granting of consent using the power in section 4.16(1)(a) of the EP&A Act, subject to the conditions specified in this notice.

Reasons for approval

1. The propisal is consistent with the aims and objectives of the Moore Park Showground in that it will contribute to the Entertainment Quarter as an entertainment and cultural destination.
2. The proposal, subject to conditions, is consistent with the State Environmental Planning Policy No 47 – Moore Park Showground.
3. The proposal, subject to conditions, will not result in unacceptable impacts to nearby residential properties and the operation of other facilities within the Entertainment Quarter.

Community Consultation

Four submissions have been received. Issues raised in all submission have been taken into account in the reoort, and where appropriate conditions of consent have been included in the Notice of Determination to address these issues.

Right of appeal / request a review of the determination

If you are dissatisfied with this determination:

Request a review

You may request a review of the consent authority's decision under section 8.3(1) of the EP&A Act. The application must be made to the consent authority within 6 months from the date that you received the original determination notice provided that an appeal under section 8.7 of the EP&A Act has not been disposed of by the Court.

Rights to appeal

You have a right under section 8.7 of the EP&A Act to appeal to the Court within 6 month after the date on which the determination appealed against is notified or registered on the NSW planning portal.

Objector's right of appeal against the determination

An objector who is dissatisfied with the consent authority's determination to grant consent, has the right to appeal to the Court against the determination under section 8.8 of the EP&A Act within 28 days after the date that the objector was notified of the determination appealed against.

The Dictionary at the end of this consent defines words and expressions for the purposes of this determination.

per
GRAHAM JAHN AM
Director - City Planning, Development & Transport

Person on behalf of the consent authority

For further information, please contact **Emily Cartwright telephone. 02 9246 7720, or by email ECartwright@cityofsydney.nsw.gov.au.**

Terms and Reasons for Conditions

Under section 88(1)(c) of the EP&A Regulation, the consent authority must provide the terms of all conditions and reasons for imposing the conditions other than the conditions prescribed under section 4.17(11) of the EP&A Act. The terms of the conditions and reasons are set out below.

GENERAL CONDITIONS

(1) APPROVED DEVELOPMENT

(a) Development must be in accordance with Development Application No. D/2023/897 dated 29 September 2023 and the following drawings prepared by loopcreative:

Drawing Number	Drawing Name	Date
001 Revision 01	Site Plan	27 July 2023
100 Revision 03	Level 5 – Zoning Plan	04 September 2023

and as amended by the conditions of this consent.

(b) In the event of any inconsistency between the approved plans and supplementary documentation, the drawings will prevail.

Reason

To ensure all parties are aware of the approved plans and supporting documentation that applies to the development.

(2) TIME LIMITED CONSENT

The use may operate for a period of two years from the date of consent. If the use is to be retained after this period, a further application may be lodged with the Council before expiration of the consent. Council's consideration of the continuation will be based on, among other things, compliance with the development consent conditions, any substantiated complaints received and the capacity of parking provisions.

Reason

To limit the use of Level 5 of the Entertainment Quarter carpark building as an entertainment facility.

(3) HOURS OF OPERATION

The hours of operation are regulated as follows:

(a) The hours of operation must be restricted to between 07:00am and 12.00 midnight Monday to Sunday.

(b) Notwithstanding (a) above, any amplified performance activities are to be restricted between 10.00am and 10.00pm Monday to Sunday.

Reason

To ensure the entertainment facility operates within the approved hours of operation and to protect the amenity of the surrounding area.

(4) PLAN OF MANAGEMENT

The use must always be operated/managed in accordance with the Plan of Management prepared by Que Consulting and dated 15 December 2023 that has been approved by Council (TRIM ref: 2024/015382). In the event of any inconsistency, the conditions of this consent will prevail over the Plan of Management.

Reason

To ensure all parties are aware of the approved supporting documentation that applies to the development.

(5) COMPLIANCE WITH MANAGEMENT STRATEGIES

Except where amended by any conditions of this consent, the entertainment facility must be managed in accordance with all relevant development consents relating to the site including all relevant Management Plans, which include the following (and any subsequent amendments):

(i) Lighting Management Strategy Part 2: Family Entertainment Precinct (March 1997);

(ii) Noise Management Strategy Part 2: Family Entertainment Precinct (March 1997);

(iii) Water Quality, Drainage and Waste Management Strategy Fox Site (November 1996);

(iv) Public Transport Management Strategy (August 1999); and

(v) Parking Management Strategy (August 1999).

Reason

To ensure that the impacts of the entertainment facility are appropriately managed.

(6) WASTE AND RECYCLING MANAGEMENT - GENERAL

The proposal must comply with the relevant provisions of Council's *Guidelines for Waste Management in New Developments 2018* which requires facilities to promote the efficient storage, separation, collection and handling of waste to maximise resources recovery.

Reason

To ensure that waste and recycling is appropriately managed.

BUILDING WORK
DURING BUILDING WORK

(7) HOURS OF WORK AND NOISE – OUTSIDE CBD

The hours of construction and work on the development must be as follows:

(a) All work, including building/demolition and excavation work, and activities in the vicinity of the site generating noise associated with preparation for the commencement of work (eg. loading and unloading of goods, transferring of tools etc) in connection with the proposed development must only be carried out between the hours of 7.30am and 5.30pm on Mondays to Fridays, inclusive, and 7.30am and 3.30pm on Saturdays, with safety inspections being permitted at 7.00am on work days, and no work must be carried out on Sundays or public holidays.

(b) All work, including demolition, excavation and building work must comply with the City of Sydney Code of Practice for Construction Hours/Noise 1992 and Australian Standard 2436 - 2010 Guide to Noise Control on Construction, Maintenance and Demolition Sites.

(c) Notwithstanding the above, the use of a crane for special operations, including the delivery of materials, hoisting of plant and equipment and erection and dismantling of on-site tower cranes which warrant the on-street use of mobile cranes outside of above hours can occur, subject to a separate application being submitted to and approved by Council under Section 68 of the Local Government Act 1993 and Sections 138/139 of the Roads Act 1993.

Note: Works may be undertaken outside of hours, where it is required to avoid the loss of life, damage to property, to prevent environmental harm and/or to avoid structural damage to the building. Written approval must be given by the Construction Regulation Team, prior to works proceeding.

The *City of Sydney Code of Practice for Construction Hours/Noise 1992* allows extended working hours subject to the approval of an application in accordance with the Code and under Section 4.55 of the *Environmental Planning and Assessment Act 1979*.

Reason

To protect the amenity of the surrounding area.

(8) COMPLIANCE WITH NATIONAL CONSTRUCTION CODE

All proposed work must comply with the *National Construction Code (previously known as Building Code of Australia*).

Reason

(Prescribed condition - EP&A Regulation 2021 clause 69(1)).

(9) LOADING AND UNLOADING DURING CONSTRUCTION

The following requirements apply:

(a) All loading and unloading associated with construction activity must be accommodated on site, where possible.

(b) If, it is not feasible for loading and unloading to take place on site, a Works Zone on the street may be considered by Council.

(c) A Works Zone may be required if loading and unloading is not possible on site. If a Works Zone is warranted an application must be made to Council at least 8 weeks prior to commencement of work on the site. An approval for a Works Zone may be given for a specific period and certain hours of the days to meet the particular need for the site for such facilities at various stages of construction. The approval will be reviewed periodically for any adjustment necessitated by the progress of the construction activities.

(d) Where hoisting activity over the public place is proposed to be undertaken including hoisting from a Works Zone, a separate application under Section 68 of the Local Government Act 1993 and Sections 138/139 of the Roads Act 1993 must be submitted to and approved by Council.

Reason

To protect the amenity of the public domain.

(10) NO OBSTRUCTION OF PUBLIC WAY

Unless otherwise approved by Council, the public way must not be obstructed by any materials, vehicles, waste receptacles, skip-bins or the like. Non-compliance with this requirement may result in the issue of a notice by Council to stop all work on the site.

Reason

To protect the amenity of the public domain.

(11) USE OF MOBILE CRANES

The following requirements apply:

(a) Mobile cranes operating from the road must not be used as a method of demolishing or constructing a building.

(b) For special operations including the delivery of materials, hoisting of plant and equipment and erection and dismantling of on site tower cranes which warrant the on-street use of mobile cranes, permits must be obtained from Council for the use of a mobile crane. The permits must be obtained 48 hours beforehand for partial road closures which, in the opinion of Council will create minimal traffic disruptions and 4 weeks beforehand in the case of full road closures and partial road closures which, in the opinion of Council, will create significant traffic disruptions.

(c) The use of a crane for special operations, including the delivery of materials, hoisting of plant and equipment and erection and dismantling of on site tower cranes which warrant the on-street use of mobile cranes outside of approved hours of construction can occur, subject to a separate application being submitted to and approved by Council under Section 68 of the Local Government Act 1993 and Sections 138/139 of the Roads Act 1993.

Reason

To ensure mobile cranes are used appropriately.

BEFORE ISSUE OF AN OCCUPATION CERTIFICATE

(12) COMPLIANCE WITH THE ACOUSTIC REPORT PRIOR TO CONSTRUCTION AND OR OCCUPATION CERTIFICATES

(a) All relevant performance parameters (including but not limited to requirements, engineering assumptions and recommendations) in the DA Acoustic Report prepared by Beau Weyers, dated 1st September 2023, ref 237401.0102.R01V02, titled HYPER KARTING, The Entertainment Quarter Noise Impact Assessment and Noise Management Pan, Council Ref 2023/564858 must be implemented in the development prior to the commencement of its use.

(b) Prior to the issue of any relevant Construction Certificate, the final construction drawings and final construction methodology must be assessed and reported to be in accordance with the requirements of the DA Acoustic Report in (a) above, with reference to relevant documentation. This must be done by a Suitably Qualified Acoustic Consultant* (see definition below). This work will be to the satisfaction of the Registered Certifier.

(c) Prior to the issue of any Occupation Certificate, a Suitably Qualified Acoustic Consultant* is to provide a written Acoustic Verification Report to the satisfaction of the Principal Certifier that the development complies with the requirements set out in the Report and in (a) and (b) above.

Note: Suitably Qualified Acoustic Consultant means a consultant who possesses the qualifications to join the Australian Acoustical Society, Institution of Engineers Australia (grade of member) or the Association of Australasian Acoustical Consultants (grade of member firm).

(d) All physical aspects of the building's structure installed in order to meet performance parameters in accordance with this condition must be maintained at all times.

Reason

To ensure all parties are aware of the supporting documentation that applies to the development.

(13) SANITARY FACILITIES – DETAILS TO BE LODGED WITH AN OC

A performance solution addressing the non-compliance with sanitary facilities on Level 5 of the carpark building must be lodged to the principal certifier prior to the issuing of the occupation certificate.

Reason

To ensure compliance with *National Construction Code (previously known as Building Code of Australia*.

(14) CONSTRUCTION TRAFFIC MANAGEMENT PLAN

(a) A Construction Traffic Management Plan must be submitted to and approved by Council prior to an Occupation Certificate being issued.

(b) The approved plan must be complied with during any demolition and/or construction work.

Reason

To ensure that the impacts of construction traffic is appropriately managed.

(15) TRANSPORT ACCESS GUIDE

A Transport Access Guide must be implemented and maintained by the operators of the premises and be made available to staff, clients, customers and visitors at all times. The following information shall be submitted to and approved by Council prior to the issue of an Occupation Certificate for the site/use.

The Transport Access Guide is to include (but not limited to) the following:

- A Transport Access Guide detailing sustainable transport options to access the site including public transport, cycling and walking or a combination of these modes
- Suitable nearby drop-off/pickup locations.
- Suitable nearby Taxi Zones.
- Public Transport options adjacent to the site.
- Pedestrian access to the site.
- Bicycle Parking and cycleway networks to the site.
- Communication methods by which the Transport Access Guide will be made available to staff, clients, customers and visitors.

Reason

To protect the amenity of the surrounding area.

OCCUPATION AND ONGOING USE

(16) OCCUPATION CERTIFICATE TO BE SUBMITTED

An Occupation Certificate must be obtained from the Principal Certifier and a copy submitted to Council prior to commencement of occupation or use of the whole or any part of a new building, an altered portion of, or an extension to an existing building.

Reason

To ensure the site is authorised for occupation.

(17) NOISE – COMMERCIAL PLANT / INDUSTRIAL DEVELOPMENT

(a) Noise from commercial plant and industrial development must not exceed a project amenity/intrusiveness noise level or maximum noise level in accordance with relevant requirements of the NSW EPA *Noise Policy for Industry* 2017 (NPfI) unless agreed to by the City's Area Planning Manager. Further:

(i) Background noise monitoring must be carried out in accordance with the long-term methodology in *Fact Sheet B* of the NPfI unless otherwise agreed by the City's Area Planning Manager.

(ii) Commercial plant is limited to heating, ventilation, air conditioning, refrigeration and energy generation equipment.

(b) An $L_{Aeq,15\ minute}$ (noise level) emitted from the development must not exceed the $L_{A90,\ 15\ minute}$ (background noise level) by more than 3dB when assessed inside any habitable room of any affected residence or noise sensitive commercial premises at any time. Further:

(i) The noise level and the background noise level must both be measured with all external doors and windows of the affected residence closed.

(ii) Background noise measurements must not include noise from the development but may include noise from necessary ventilation at the affected premises.

(c) Corrections in *Fact Sheet C* of the NPfI are applicable to relevant noise from the development measured in accordance with this condition, however duration corrections are excluded from commercial noise.

Reason

To protect the acoustic amenity of surrounding properties.

(18) FOX STUDIOS AUSTRALIA NOISE MANAGEMENT STRATEGY PART 2; FAMILY ENTERTAINMENT PRECINCT

This strategy shall comply with the following development consent conditions:

(a) For the period 10pm to 7am a maximum noise planning level (MINPL) being an LA90 of 40dB(A) measured during any fifteen minute period shall not be exceeded.

(b) For the period 7am to 10pm a MNPL being an LA90 of 48dB(A) measured during any fifteen minute period shall not be exceeded.

(c) If any of the noise sources on site generate tonal, frequency varying, repetitive or impulsive noise then a 5dB(A) penalty be applied to the LA10 operational control objectives. The way in which such a penalty is to be applied is detailed in the EPA's Environmental Noise Control Manual; and

(d) Noise generated should not exceed the MNPLs in paragraphs (a) and (b) at the nearest residential receive

(19) NOISE CONTROL

The speakers of amplification equipment shall face inwards and away from the direction of residential premises. The vertical axis of speakers should be directed towards the ground.

Reason

To protect the acoustic amenity of surrounding properties

(20) EMISSIONS

(a) The use of the premises must not give rise to the emission of gases, vapours, dusts or other impurities which are a nuisance, injurious or prejudicial to health.

(b) Gaseous emissions from the development must comply with the requirements of the *Protection of the Environment Operations Act 1997* and *Protection of the Environment Operations (Clean Air) Regulation 2010*.

(c) Uses that produce airborne particulate matter must incorporate an effective dust collection system.

Reason

To protect the amenity of the surrounding area.

General advisory notes

This consent contains the conditions imposed by the consent authority which are to be complied with when carrying out the approved development. However, this consent is not an exhaustive list of all obligations which may relate to the carrying out of the development under the EP&A Act, EP&A Regulation and other legislation. Some of these additional obligations are set out in the *Conditions of development consent: advisory notes*. https://www.planning.nsw.gov.au/sites/default/files/2023-07/condition-of-consent-advisory-note.pdf The consent should be read together with the *Conditions of development consent advisory notes* to ensure the development is carried out lawfully.

The approved development must be carried out in accordance with the conditions of this consent. It is an offence under the EP&A Act to carry out development that is not in accordance with this consent.

Building work or subdivision work must not be carried out until a construction certificate or subdivision works certificate, respectively, has been issued and a principal certifier has been appointed.
A document referred to in this consent is taken to be a reference to the version of that document which applies at the date the consent is issued, unless otherwise stated in the conditions of this consent.

Dictionary

The following terms have the following meanings for the purpose of this determination (except where the context clearly indicates otherwise):

Approved plans and documents means the plans and documents endorsed by the consent authority, a copy of which is included in this notice of determination.

AS means Australian Standard published by Standards Australia International Limited and means the current standard which applies at the time the consent is issued.

Building work means any physical activity involved in the erection of a building.

Certifier means a council or a person that is registered to carry out certification work under the *Building and Development Certifiers Act 2018*.

Construction certificate means a certificate to the effect that building work completed in accordance with specified plans and specifications or standards will comply with the requirements of the EP&A Regulation and *Environmental Planning and Assessment (Development Certification and Fire Safety) Regulation 2021*.

Council means the City of Sydney.

Court means the Land and Environment Court of NSW.

EPA means the NSW Environment Protection Authority.

EP&A Act means the *Environmental Planning and Assessment Act 1979.*

EP&A Regulation means the *Environmental Planning and Assessment Regulation 2021.*

Independent Planning Commission means Independent Planning Commission of New South Wales constituted by section 2.7 of the EP&A Act.

Local planning panel means the City of Sydney Local Planning Panel.

Occupation certificate means a certificate that authorises the occupation and use of a new building or a change of building use for an existing building in accordance with this consent.

Principal certifier means the certifier appointed as the principal certifier for building work or subdivision work under section 6.6(1) or 6.12(1) of the EP&A Act respectively.

Site work means any work that is physically carried out on the land to which the development the subject of this development consent is to be carried out, including but not limited to building work, subdivision work, demolition work, clearing of vegetation or remediation work.

Stormwater drainage system means all works and facilities relating to:
the collection of stormwater,

the reuse of stormwater,

the detention of stormwater,

the controlled release of stormwater, and

connections to easements and public stormwater systems.

Strata certificate means a certificate in the approved form issued under Part 4 of the *Strata Schemes Development Act 2015* that authorises the registration of a strata plan, strata plan of subdivision or notice of conversion.

Subdivision certificate means a certificate that authorises the registration of a plan of subdivision under Part 23 of the *Conveyancing Act 1919*.

Subdivision works certificate means a certificate to the effect that subdivision work completed in accordance with specified plans and specifications will comply with the requirements of the EP&A Regulation.

NOTICE OF DETERMINATION FOR MODIFICATION OF DEVELOPMENT CONSENT

Application number	D/2023/897/B PAN-601357
Applicant	The Trustee for Carsingha Investments Unit Trust Level 4 180 George St SYDNEY NSW 2000
Description of development	Section 4.55(2) modification of consent to extend the time limited development consent D/2023/897 to facilitate the continued use of Level 5 of the Entertainment Quarter car park for electric go-karting and associated entertainment activities to 1 July 2028.
Property	116 Lang Road , MOORE PARK NSW 2021 Lot 101 DP 1246842
Determination	Refused Consent Authority ○ Council
Date of determination	26 February 2026

Refusal

Under section 4.55(2) of the EP&A Act and section 118(3)(a) of the EP&A Regulation, notice is given that the above application to modify D/2023/897 has been refused, for the reasons specified below.

Reasons for refusal

Unacceptable parking and amenity impacts

1) The proposal is likely to result in unreasonable parking and amenity impacts, as:

   a) The proposed development would result in the ongoing exclusive use of 296 on-site car parking spaces for a commercial activity, thereby reducing parking availability for the range of uses throughout the Moore Park precinct.

   b) The continued occupation of 296 on-site spaces for the commercial activities reduces the precinct's ability to manage future parking demands, which has the potential to adversely affect the amenity of the area.

c) Parking availability across the precinct has reduced since the commencement of the development.

d) Closure of the Lower Kippax car park (EP2) is scheduled to occur on 1 July 2026.

e) The new Venues NSW multi-level car park, currently under construction, will replace existing and previous parking areas at the northern end of the Moore Park precinct and will not offset or compensate for the 296 car spaces being occupied by the proposal.

f) The proposal fails to demonstrate that satisfactory parking provisions will be consistently maintained throughout the precinct for the duration of the development.

The proposed development is therefore contrary to and fails to satisfy:

g) Section 4.15(1)(a) and (b) of the Environmental Planning and Assessment Act, 1979.

Incompatible with the locality

2) The proposal does not promote the orderly use of the land, given that:

a) The ongoing operation and exclusive use of the Entertainment Quarter Level 5 car park would prevent use of 296 parking spaces which are intended to support activities within the Entertainment Quarter and the broader Moore Park precinct.

b) The ongoing removal of 296 car parking spaces from public use undermines the orderly provision of parking for the existing and potential future uses within the Moore Park precinct.

The proposed development is therefore contrary to and fails to satisfy:

c) Object (k) at Clause 1.3 of the Environmental Planning and Assessment Act 1979.

d) Section 4.15(1)(c) of the Environmental Planning and Assessment Act 1979.

Not in the public interest

3) The proposal is not in the public interest, as:

a) The continued occupation of 296 on-site spaces for the commercial activities results in a reduction in publicly available on-site parking.

The proposed development is therefore contrary to and fails to satisfy:

b) Section 4.15(1)(e) of the Environmental Planning and Assessment Act, 1979.

Right of appeal / request a review of the determination

If you are dissatisfied with this determination:

Request a review

You may request a review of the consent authority's decision under section 8.3(1) of the EP&A Act. The application must be made to the consent authority within 28 days from the date that you received this notice provided that an appeal under section 8.9 of the EP&A Act has not been disposed of by the Court.

Rights to appeal

You have a right under section 8.9 of the EP&A Act to appeal to the Court within 6 months after the date on which the determination appealed against is notified or registered on the NSW planning portal.

The Dictionary at the end of this consent defines words and expressions for the purposes of this consent.

- the collection of stormwater,
- the reuse of stormwater,
- the detention of stormwater,
- the controlled release of stormwater, and
- connections to easements and public stormwater systems.

Attachment C

Development Assessment Report
D/2023/897/B

CITY OF SYDNEY

Modification Application Assessment

Application Number:	D/2023/897/B
Application Type:	Section 4.55(2)
Site Address:	116 Lang Road , MOORE PARK NSW 2021
Proposal:	Modification of the time limited development consent D/2023/897 to facilitate the continued use of Level 5 of the Entertainment Quarter car park for electric go-karting and associated entertainment activities until 1 July 2028
Date of Lodgement:	19 December 2025
Notification:	14 January 2026 to 29 January 2026
Submission(s) (total):	2
Recommendation:	Refusal
Officer:	Rebecca Gordon

Site and Surrounds

1. The subject site has a legal description of Lot 101 in Deposited Plan 1246842 and is commonly known as Moore Park Entertainment Quarter. The Entertainment Quarter is adjacent to Moore Park and The Centennial Parklands and is located at 116 Lang Road. The site is irregular in shape, with an area of approximately 11.08 hectares. The site is identified as being subject to flooding.

2. The Entertainment Quarter contains a mix of cafés, restaurants, cinema complexes, media and film related offices, Brent Street Studios, the Australian Film, Television and Radio School (AFTRS), shops, weekly markets, a multi storey car park and open space area, including a permanent showground and parade ring.

3. The site is bounded by the Fox Studios and the Sydney Cricket Ground to the north, the showground and Cook Road to the east and Driver Avenue to the west. Further to the north and east are the predominantly residential areas of Paddington and Centennial Park. The surrounding areas are characterised by a mixture of land uses including commercial, sports and recreational facilities.

4. Centennial Park and Moore Park are State Heritage items and adjoin the site to the east and south, with Busby's Bore, also a State Heritage item (listing No. 00568), running north to south through the Entertainment Quarter.

5. The site is located approximately 200 metres from the Moore Park Light Rail Station. Vehicular access to the site is provided from the signalised intersection at Lang Road and Errol Flynn Boulevard. Pedestrian access is gained primarily from Errol Flynn Boulevard and Chelmsford Avenue.

6. Photos of the site are provided below:

Figure 1: Aerial view of site (shaded blue) and surrounds

Figure 2: existing Entertainment Quarter multi-storey car park viewed from Horden Pavilion

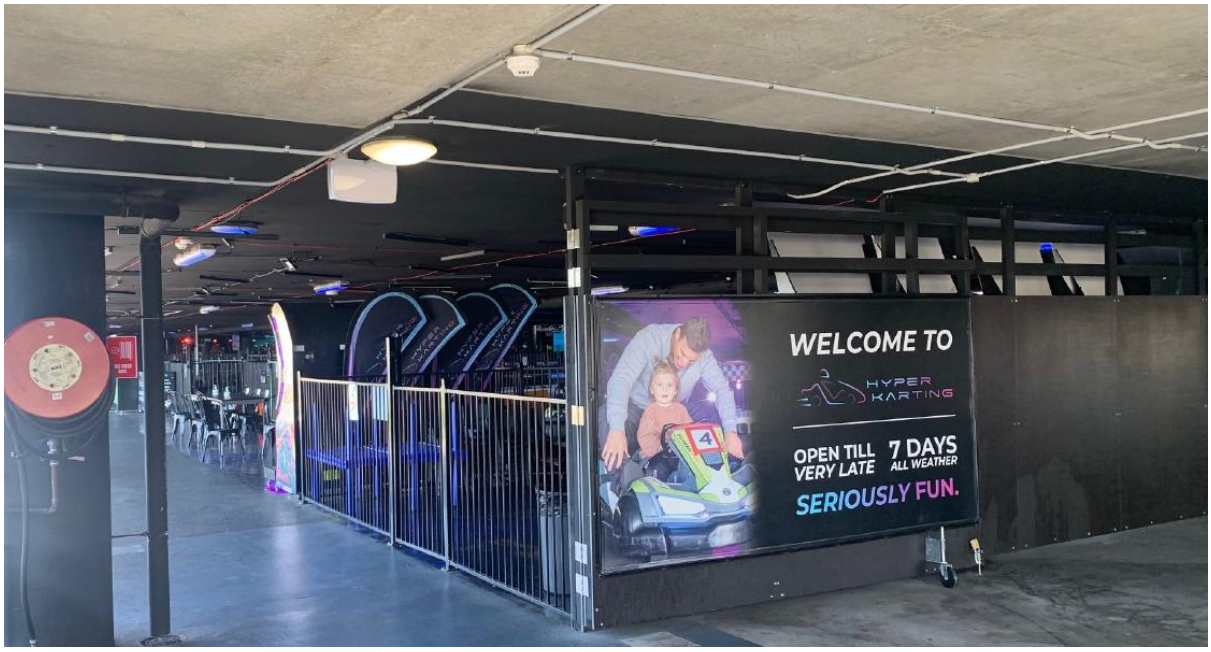

Figure 3: Go-kart use at Level 5 of the multi-storey car park

Relevant Background

Development Applications

7. The following applications are relevant to the current proposal

- **D/2020/24 –** Development consent was granted on 2 July 2020 for the temporary use of Peter Finch Avenue, Bent Street, Studio Plaza, Cinema Plaza, Heritage Park and a portion of the existing multistorey carpark building within the Entertainment Quarter for temporary events for a 5-year period ending 1 July 2025.

- **D/2023/897 -** Development consent was granted on 15 February 2024 for continuation of the temporary use of Level 5 of the multistorey Entertainment Quarter car park for electric go-karting and associated entertainment activities. The approval also included the expansion of the existing go-kart track and ancillary entertainment activities to occupy the whole of Level 5, with a maximum capacity of 448 patrons. The approved operating hours are 7am and 12 midnight, 7 days per week with amplified performance activities to cease at 10pm. Condition 2 of the consent restricts the approved use to a period of two (2) years from the date of consent – i.e. until 15 February 2026.

Proposed Modification

8. The application seeks approval for ongoing use of the Level 5 of the Entertainment Quarter car park for electric go-karting and associated entertainment activities.

9. To facilitate this, the application seeks to amend the wording of Condition (2) as follows:

> (2) TIME LIMITED CONSENT
>
> *The use may operate* ***~~for a period of two years from the date of consent~~ until 1 July 2028****. If the use is to be retained after this period, a further application may be lodged with the Council before expiration of the consent. Council's consideration of the continuation will be based on, among other things, compliance with the development consent conditions, any substantiated complaints received and the capacity of parking provisions.*

Threshold Test

10. The development to which the proposed modification relates is substantially the same as that originally granted.

11. The reasons set out in the granting of the original development consent have also been considered to satisfy Section 4.55(3) of the EP&A Act.

Assessment

Existing time limited consent

12. Under section 20AA of the *Centennial Park and Moore Park Trust Act 1983*, on-grass parking will end on:

    - 1 July 2026 for carpark 2, Lower Kippax (EP2); and
    - 1 July 2028 for the grassed area adjacent to the Royal Hall of Industries and Hordern Pavilion (EP3).

13. While the original assessment acknowledged that the use of the Level 5 Entertainment Quarter (EQ) car park for the proposal would be acceptable in the short term, a time limited consent was required to ensure that the full capacity of the EQ car park would be available once the on-grass parking areas at Moore Park were closed.

14. Condition 2 of the existing consent (D/2023/897) therefore restricts the approved use to a period of 2 years from the date of the consent (i.e. until 15 February 2026).

Car parking availability in the precinct

15. The Moore Park on-grass parking areas are shown in Figure 4. The Lower Kippax parking area (EP2) has capacity for 350 spaces. The applicant has advised, however, that the capacity of this area has already been reduced from 350 to 100 spaces. The available capacity of the on-grass parking area adjacent to the Royal Hall of Industries and Hordern Pavilion (EP3) is 1,100 spaces but has been reduced to 950 spaces.

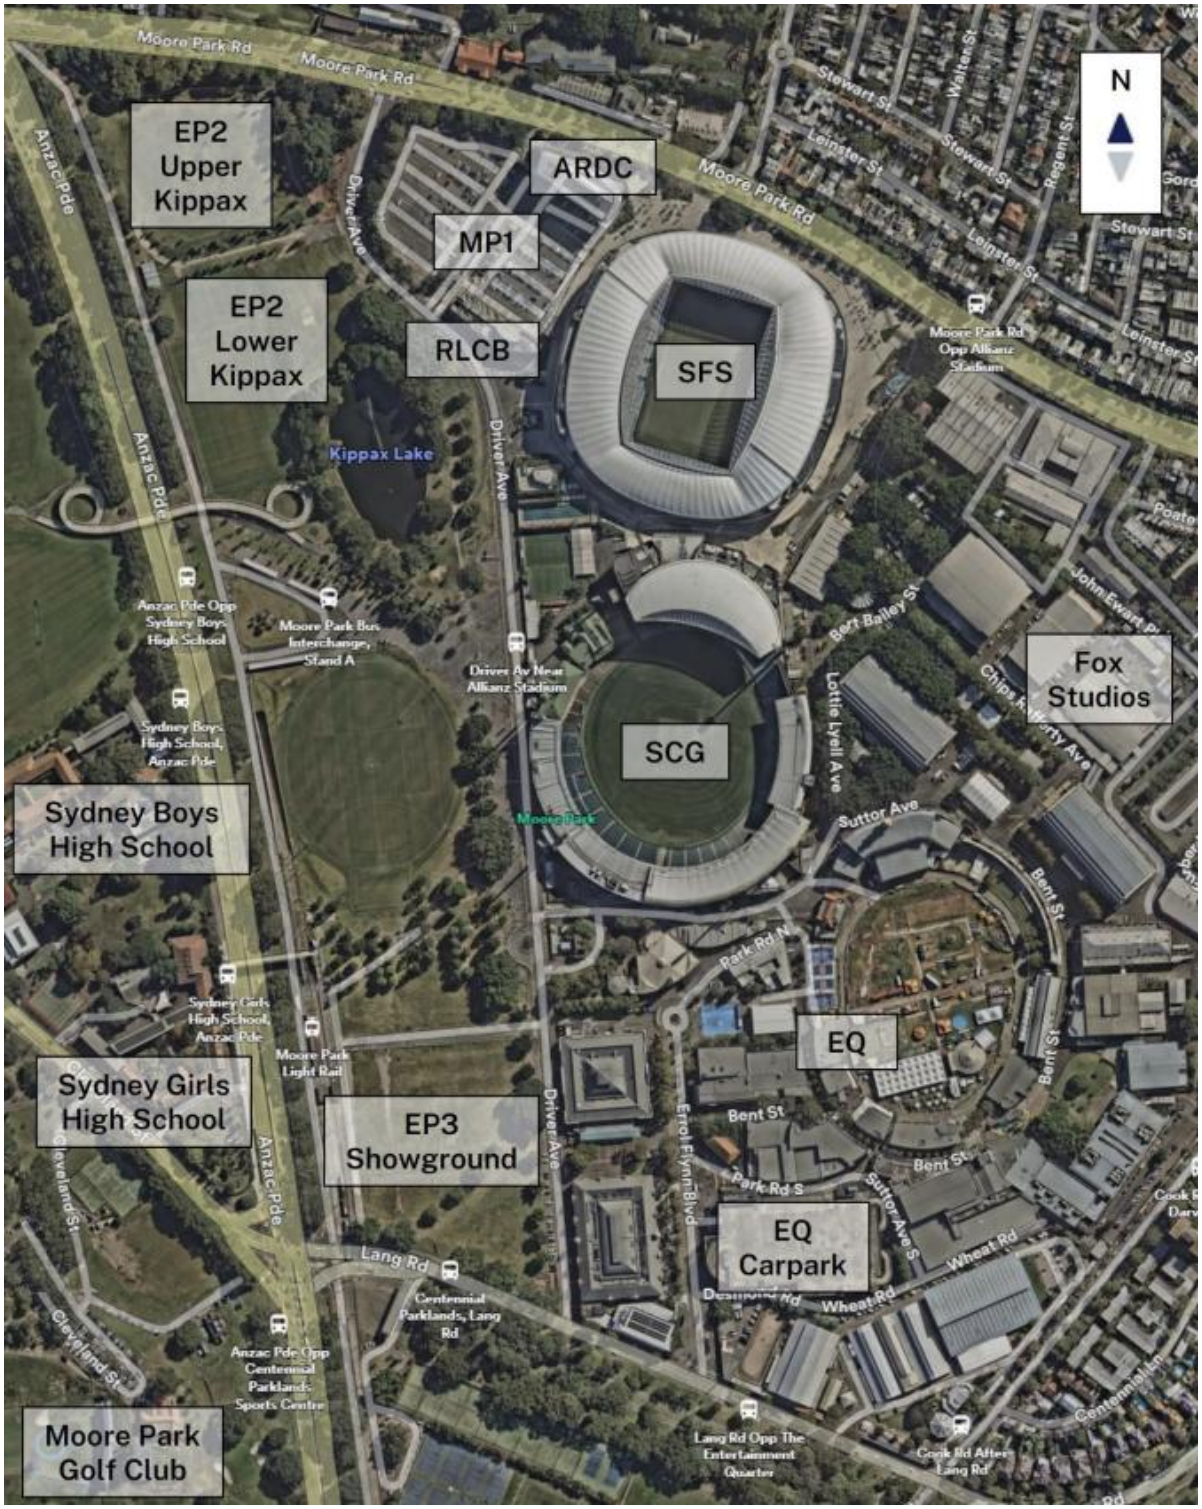

Figure 4: Local context map and parking areas (Source: Department of Planning, Housing and Infrastructure, SSD-9835-Mod-9 Assessment Report)

16. Venues NSW is currently constructing a new multi-level underground car park adjacent to the Sydney Football Stadium (SFS) pursuant to SSD-9835 (marked MP1 at Figure 4). Although condition B49A of SSD-9835 refers to the car park providing 1,500 car parking spaces, the condition allows the Planning Secretary to agree to lesser car spaces following the design refinement process. The applicant has advised that the car park will provide 1,342 parking spaces upon completion.

17. In relation to the new Venues NSW car park (MP1) and the closure dates for the on-grass parking, the applicant states:

> *We understand that the car park will be complete and operational in approximately 12 months' time. Therefore, it is highly likely that the 1 July 2026 date will be extended, in which case there will continue to be the existing quantum of on-grass parking available for the foreseeable future, until the new Venues NSW car park is completed.*
>
> *Whether or not the new Venues NSW car park is completed and operational by 1 July 2026, the current supply of on-grass parking will continue. Once the new car park is completed, car parking capacity in the precinct will substantially increase.*
>
> *This demonstrates that there is no need for D/2023/897 to be time-limited to 15 February 2026. The current parking supply in the precinct will continue until the new Venues NSW car park is complete, at which time parking supply will substantially increase by another 1,242 spaces.*

18. Council officers disagree that the parking supply will substantially increase. In this regard, the new Venues NSW car park (MP1) replaces:

- 600 at-grade space which were originally located on the site of the new MP1 car park;
- 650 on-grass event spaces from Upper Kippax (EP2) (which have been inaccessible from the commencement of the Greater Sydney Parklands Trust Act 2022 on 1 July 2022); and
- 350 on-grass event spaces from Lower Kippax (EP2) (which will be closed from 1 July 2026).

19. The purpose of the new multi-level basement car park (MP1) therefore is not to provide additional stadium event parking, noting the original and replacement SFS both having the same capacity (i.e. a maximum of 55,000 persons). Instead, MP1 replaces the parking that was originally on site and removes the need for the 1,000 on-grass event parking spaces. This allows the grassed areas to be returned for permanent recreation and community uses and for new recreation uses to be provided above the basement car park.

20. Pursuant to section 20AA(1A), the Minister can extend the 1 July 2026 closure date for Lower Kippax (EP2) if the *"… new car park on Venues NSW's land adjacent to the Sydney Football Stadium is not built and open to the public and operational".*

21. While the applicant is of the opinion that it is highly likely the 1 July 2026 date will be extended, Greater Sydney Parklands (GSP) has advised Council officers that:

- the current estimate for construction completion of the Venues NSW's multi-storey carpark (MP1) is late 2026/early 2027; and

- they are not aware of any current request to the Minister to extend the 1 July 2026 date by regulation.

22. Based on the advice of GSP, there is no evidence that the Lower Kippax carpark (EP2) will remain open after 1 July 2026 or that the current supply of on-grass parking will continue until the new Venues NSW car park is completed.

Entertainment Quarter car park capacity

23. The Entertainment Quarter (EQ) is located to the south and east of the SFS and Sydney Cricket Ground (SCG). The EQ includes a range of venue such as the Hordern Pavilion, Royal Hall of Industries, Show Ring and Comedy Store that are important spaces for hosting events in Sydney. The EQ car park is one of the only permeant car parks in the area, being a multi-storey car park accessed off Errol Flynn Boulevard and Park Road with 2,003 parking spaces.

24. Under development consent D/2020/24, the electric go-karting and associated entertainment activities occupied 218 spaces at Level 5 of the EQ car park. Under D/2023/897, approval was granted for the go-karting to occupy the remaining 78 spaces at Level 5 (i.e. 296 spaces in total). This results in the capacity of the EQ car parking being reduced from 2,003 to 1,707 spaces.

Request to extend the operating period

25. The EQ carpark plays a role in supporting the Moore Park Precinct. Greater Sydney Parkland (GSP) advised in response to D/2023/897, that in order to facilitate the future closure of on-grass parking in line with the legislated deadlines, it would be working with Venues NSW, Transport for NSW and other stakeholders to deliver a plan to address transport needs, including parking, in relation to events at the SCG and SFS. This would require the full capacity of the EQ car park to be available following 1 July 2026. A time limited consent of 2 years was therefore considered necessary to address this possible future impact.

26. As outlined above, there is no proposed change to the scheduled 1 July 2026 closure date of the Lower Kippax carpark (EP2). The above advice from GSP therefore remains relevant. Furthermore, it also noted that the on-grass parking areas have already been reduced (i.e. EP2 down from 350 to 100 spaces and EP3 down from 1,100 to 950). The continued use of the 296 car parking spaces is therefore not supported.

<u>Conclusion</u>

27. The proposed modification is not supported for the following reasons:

    - The proposed extension to the operating period, until 1 July 2028, is inconsistent with Council's original assessment.

    - The proposal would result in the ongoing exclusive use of 296 on-site car parking spaces for a commercial activity, reducing the availability of parking for the range

of uses throughout Moore Park. This is unacceptable when parking availability across the precinct has already been reduced and the closure of Lower Kippax (EP2) is scheduled to occur on 1 July 2026.

- The ongoing operation would not represent an orderly or economic use of the land, as it would prevent the use of 296 parking spaces intended to support activities within the EQ and the broader Moore Park precinct.

- The new Venues NSW car park (MP1), currently under construction, will replace existing and previous parking areas at the northern end of Moore Park. It will not offset or compensate for the 296 car spaces being occupied by the go-karting use. The reduction in the number of car parking spaces in the EQ car park is therefore not justified by the construction of the new multi-level car park.

- The continued occupation of 296 on-site spaces for the commercial activities has the potential to reduce the precinct's ability to manage future parking demands and adversely affect the amenity of the area.

- The proposal fails to demonstrate that the supply of parking, that was originally available when the use was approved, will be consistently maintained for the duration of the operations.

- The continued occupation of 296 on-site spaces for the commercial activities results in a reduction in publicly available on-site parking and is not in the public interest.

28. The relevant planning instruments have been taken into consideration in the assessment of the proposal.

29. The consent authority is not satisfied the proposal meets the requirements of the matters for consideration under Section 4.15 of the Environmental Planning and Assessment Act 1979.

Notification

30. The proposed development was notified in accordance with the City of Sydney Community Engagement Strategy and Participation Plan and 2 submissions were received.

31. The submissions raised the following issues:

- **Issue:** No objection is raised provided the noise levels do not disturb families living nearby.

  Response: The existing consent includes appropriate acoustic conditions to ensure that there are no unreasonable noise impacts from the activity. In the event the application was recommended for approval, continued compliance with these conditions would be required.

- **Issue:** The ever-increasing consents granted by Council and other Government authorities to activities applied for, involving the Sydney Football Stadium, Sydney Cricket Ground, Entertainment Quarter and Centennial Park/Moore Park, have been having a devastating “cumulative impact” on local residential areas. This is due to the absence of obvious fundamental conditions to first provide the necessary facilities to fix existing problems and to duly cater for the increased activity.

  Response: While the subject application relates only to Level 5 of the EQ car park, the on-going use of the activity would reduce the availability of parking for all uses throughout Moore Park. This has been assessed as being unacceptable given that parking availability across the precinct has already been reduced and further parking reductions are scheduled to occur on 1 July 2026. Reinstatement of the 296 spaces at Level 5 would also assist in catering for any increased activity in the precinct.

External referrals

32. The development application was referred to NSW Police for comment.

33. In response, the Police advised that there has been a history of patron’s belongings being stolen from the open-style pigeonholes. Police therefore recommend that lockable lockers be provided for patrons which would allow patron items to be secured when participating in the activity.

34. In the event the application was recommended for approval, this matter could have been considered as a condition of consent.

Financial Contributions

Contribution	Comment
Section 7.11 Development Contribution	The proposed development will not modify the amount of contribution payable.
Section 7.12 Central Sydney Contribution	Not applicable as the Central Sydney Development Contributions Plan 2020 does not apply.
Affordable Housing Contribution	The proposed development will not modify the total floor area nor the amount of contribution payable.
Housing and Productivity Contribution	Not applicable.

Determination

35. The proposed development has been assessed under Section 4.55 of the EP&A Act and is refused.

36. The subject application is determined under delegated authority of Council and CEO by the Area Planning Manager.

37. The undersigned declare, to the best of their knowledge that they have no interest, pecuniary or otherwise, in this development application or persons associated with it and have provided an impartial assessment.

Greater Sydney Parklands Letter

10 April 2026

Ms Monica Barone
Chief Executive Officer
City of Sydney Council

Attention:
Mr Michael Soo
Senior Area Planning Manager – East

via email: msoo@cityofsydney.nsw.gov.au

Dear Ms Barone,

116 Lang Road, MOORE PARK - RD/2023/897/A
Division 8.2 Review of the refusal of a Section 4.55(2) Modification Application
Level 5 of the Entertainment Quarter car park for electric go-karting

I refer to Council's email received 31 March 2026 regarding the Division 8.2 Review of the refusal of a Section 4.55(2) Modification Application to extend the time limited development consent (D/2023/897) to allow continued use of Level 5 of the Entertainment Quarter car park for electric go-karting and associated entertainment activities to 1 July 2028.

The purpose of this letter is to provide an update on precinct car parking arrangements, further to the information provided to Council by Greater Sydney Parklands prior to its assessment of the above application.

Consistent with discussion in Council's Modification Application Assessment Report section 20AA of the *Centennial Park and Moore Park Trust Act 1983* requires that the Lower Kippax area at Moore Park East (EP2) be closed to parking of vehicles by 1 July 2026, or a date prescribed by the regulation. The Minister for Planning and Public Spaces (the Minister) may recommend the making of a regulation to extend the date that Lower Kippax is closed to parking if the new Venues NSW car park is not built, open to the public and operational.

The Venues NSW car park will not be operational by 1 July 2026. As a result, Greater Sydney Parklands is progressing the making of a regulation to extend the date for parking of vehicles at Lower Kippax, subject to ministerial approval. This will ensure the on-grass parking remains available until the new carpark on Venues NSW land is operational. If you have any questions please contact Paula Tomkins on paula.tomkins@gsp.nsw.gov.au or 0418 967 392.

Yours sincerely,

Joshua French
Chief Executive
Greater Sydney Parklands

Attachment E

Letter from the Minister for Planning and Public Spaces

The Hon Paul Scully MP
Minister for Planning and Public Spaces

NSW GOVERNMENT

Ref: IRF26/4041

Ms Monica Barone
Chief Executive Officer
City of Sydney
mbarone@cityofsydney.nsw.gov.au

Dear Ms ~~Barone~~ Monica

I refer to the Division 8.2 Review of the refusal of the Section 4.55(2) Modification Application to extend the time limited development consent (D/2023/897) to allow the continued use of Level 5 of the Entertainment Quarter car park for electric go-karting and associated entertainment activities until 1 July 2028.

I understand that the City of Sydney's reasons for refusal of the application related to parking and amenity impacts, including the proposed closure of the Lower Kippax car park on 1 July 2026.

The *Centennial Park and Moore Park Trust Act 1983* (CPMPT Act) allows for the extension of the date for closure of the Lower Kippax carpark if the new car park on Venues NSW's land adjacent to the Sydney Football Stadium is not built, open to the public and operational. This can occur via the making of a regulation.

The new car park on Venues NSW's land is due for completion in late 2026 or early 2027. In light of this timing, and consistent with the requirements of the CPMPT Act, I requested that a regulation be made and have now approved the proposed Regulation extending parking at Lower Kippax to 1 July 2027. This date is beyond the anticipated opening date of the new Venues car park and will make sure that on-grass parking at Lower Kippax remains available until the new carpark on Venues NSW land is operational.

Should you have any further questions, Lindsay Banffy, A/Chief Executive at Greater Sydney Parklands, can be contacted on 0407 610679 or lindsay.banffy@gsp.nsw.gov.au.

Yours sincerely

Paul Scully MP
Minister for Planning and Public Spaces

Dear Cr Moore

According to reports on the weekend, the City of Sydney Council will be forcing the closure of the GoKart track at the Entertainment Quarter in Moore Park and converting that space into another car park level.

I am deeply concerned about what this means for (i) those who will lose their jobs, (ii) for the many young (and older) people who frequent the Go Kart track, (iii) the vibrancy of the EQ, and (iv) the message this sends which runs counter to the approach the Council has taken to make our city less dominated by cars.

Sydney needs more, not fewer, activities for young people. Parents across our city want their kids off their phones and being active. This venue is fun, safe, well organised and (so I read) it employs 150 people - many of them young job seekers.

I also work in the nearby film studios, and I am acutely aware that the EQ desperately needs more activities to enliven the area and support its businesses. Moreover, as you know, it is only on very rare occasions that the lower levels of the car park are full. Additional public transport could easily service this to account for the approximately 300 car spots that would replace the Go Kart track. And, as your council is also aware, the new car park at Allianz stadium will replace much of the on-grass parking around Kippax lake.

Your council is trying to remove the influence of cars on our city in so many ways - reduced car spaces in new apartments, more plazas, bike lanes etc. In that context, this moves seems all the more puzzling. I respectfully urge you to reconsider.

Kind regards

Nick Sinclair, Moore Park

Dear Lord Mayor
I read in today's paper that the City of Sydney Council is considering closing the GoKRT track at the Entertainment Quarter in Moore Park and converting it into a parking lot (remind you of Joni Mitchell??). I certainly hope this is a media build up and not a serious consideration.
The city needs more, not fewer things for young people to do . At a time when we want to lure young people away from their phones, this venue is fun, safe and well organised.
Rarely have the lower levels of the car park been full and when they are, it's because of a game at the SCG. Additional public transport could easily service this to account for the approximately 300 car spots that would replace the GoKart.
The Entertainment Quarter needs more activities to bring people there - otherwise it's another of the city's dead zones.
Your council is trying to remove the influence of cars on our city in so many ways - reduced car spaces in new apartments, more plazas, bike lanes etc etc. Why therefore encourage more driving and parking at the detriment of young people?
If this is more than a thought bubble, please burst it.

Yours sincerely
Manuela Epstein

Hi there
I'd like to write to you to express my disappointment in regards to the refusal of hyper kartings DA extension.
My kids absolute love the venue, we travel by metro very regularly and it's an awesome family fun day out. When I mentioned the venue might be closing to my kids they were absolutely distraught! If you could please review this decision in a positive manner that would be hugely appreciated. This venue provides a very affordable value for money attraction which is very much required in this area!
I thank you in advance and for allowing me to voice my feedback.

Kind regards,

Matthew Psaltis

To whom it may concern,

My family and I love going to hyper karts together. It has brought us so much family fun. Plus we use public transport all together to get there.

Please do not let it close down.

Warm Regards,
Aaron Starr

Hi,

I own a property in Cook Rd so am considered a neighbour. I can confirm that on occasion I take my grandkids to the electric go karts on Level 5 and I enjoy the experience. I've never had trouble finding parking so I support leaving the go karts on Level 5 until 1July 2028

Thank you for the opportunity to provide a comment.

Regards

Alan Hoppe

Dear Council,

I am writing to express my view that the recent decision regarding Hyper Karting is not in the best interests of the community.

Hyper Karting is a fantastic facility and a great feature of the community. It provides a unique recreational activity for families, young people, and visitors, and adds to the vibrancy and appeal of the area. Facilities like this contribute positively to local businesses, community engagement, and entertainment options, which are important for a growing community.

I believe decisions like this should carefully consider the broader community benefit, and in my view, Hyper Karting is a valuable asset that should be supported rather than restricted.

I hope the Council will reconsider its position and take into account the positive impact Hyper Karting has on the local community.

Kind regards,

David

Dear Planning Assessment Team

I am a resident in the local and received a notice requesting community feedback on the refusal in respect of the development application RD/2023/897/A.

I am disappointed to learn that the application to extend the permission for the use of level 5 of the entertainment quarter car park for electric go-karting has been refused. I was especially disappointed to read that one of the reasons for the closure is that the current use of level 5 if the car park is not in the public interest. This is a great business, which I have used, and I know brings people regularly to the area. It adds to the amenity of the entertainment quarter, provides for a great activity and helps build the vibrancy of the area (which has until recently struggled).

With respect to the reasons for the refusal (specifically the loss of parking), I think it is very strange to suggest that the loss of car parking spaces from of the go-karting is a problem, when the go-karting is one of the reasons that people come to the entertainment quarter to use parking in the first place. It would be solving a parking scarcity a problem by removing demand for the parking, especially where there is significant public transport options available anyway!

I hope the council will reconsider this refusal and keep the business open/keep the entertainment quarter a vibrant space for the community.

Kind regards

Robert Allen-White

Hey, hope you're well.

It will be very disappointing if we see Hyper Karting have to close its doors. As a contractor I have contributed a lot to the development of HK over the past 5 years and have watched it grow from what was a small pop up business into a thriving establishment.

I urge you to take into consideration the effect which closing HK would have on the 100+ staff who are employed there, the greater community who will lose a venue unlike anything in Sydney and also the owner who will undoubtedly be shattered by losing something he has worked endlessly for over the past 7 years.

I say this as a small business owner and someone who is one step removed from Hyperkarting and has no skin in the game, but I can see the positive effects it has on the community.
I have made many friends over the years, both staff and customers who will be deeply saddened and frustrated by the loss of this institution over what boils down to a few car spaces.
I too would be extremely frustrated to see it end, but am staying positive and assuming these further considerations will allow HK to continue operating and provide the community with entertainment for years to come.

Thanks,

Hi

I have visited Hyper Karting a number of times since its opening.

It is a venue without peer in the area, nor in greater Sydney.

It would be an absolute travesty to see it shut down, given those levels of the carpark would very rarely get used anyway.

You're putting many jobs and livelihoods at risk.

I'd urge you to reconsider, and extend the existing arrangement.

Cheers

Ben

To whom it may concern,

I am writing to express my disagreement with the decision to close Hyper Karting on the basis of car park capacity concerns.

From my personal experience visiting the Entertainment Quarter on numerous occasions, I have often observed that the car park is not at full capacity, even during periods when events, concerts, or other activities are taking place. It is not uncommon to see entire levels with significant availability, which suggests that parking demand may not be as constrained as indicated.

In addition, Hyper Karting plays a positive role in attracting visitors to the Entertainment Quarter. Many patrons, including myself, make use of public transport such as the tram to access the venue, which helps reduce reliance on parking while also supporting surrounding businesses like restaurants and cafés in the area.

Hyper Karting contributes not only to the local economy but also to the sense of community by providing a unique recreational activity that draws diverse groups of people. Its presence enhances the vibrancy and appeal of the precinct.

I respectfully ask that you reconsider the decision to refuse or close Hyper Karting, taking into account its broader benefits to both the local economy and community.

Thank you for your time and consideration.

Kind regards

Michael Wan

[PLEASE KEEY MY EMAIL ADDRESS AND NAME PRIVATE]

I would like to raise concerns regarding the proposal to prioritise additional car parking over the continuation of Hyper Karting.

Firstly, allocating more space for car parking does not appear to serve the broader public interest when compared to a unique recreational facility like Hyper Karting, which provides entertainment, local engagement, and economic activity.

Secondly, the current car park egress is already quite difficult and congested. Introducing additional vehicles into this space is likely to exacerbate existing traffic and safety issues rather than improve overall accessibility.

For these reasons, I do not support the proposal in its current form and encourage consideration of the wider community benefit.

G'day,

I'm not one to normally reach out to argue against local council decision-making, but this is a case that I am passionate about.

I am formally reaching out in objection towards the decision to remove the level of parking in Moore park.

Not only is it a band-aid decision for increased parking that has come years after such massive investment (from the tax payer) to improve public transport to and from the moore park precinct, it's one that directly affecting the go kart track and ENTERTAINMET quarter as a whole.

My family and I love visiting the track, which has brought us so much joy in the past.

To hear it might be getting replaced by more car parks that would only suit for 12 days of the year, it has me very concerned in the decision making process.

I hope this is reaching the right people.

Good day,
Luke

Submission in Support of Development Application to Extend Hyper Karting Lease

I support of the Development Application to extend the lease for Hyper Karting, a valued and well-established facility within the Entertainment Quarter.

Hyper Karting is a family-friendly venue that caters to both adults and children, providing wholesome, affordable, and enjoyable entertainment options for families. The facility has made excellent use of the previously disused car park on Level 5, transforming an underutilised space into a vibrant and engaging entertainment hub.

Employing over 150 people, Hyper Karting is a significant contributor to local employment and economic activity. Its continued operation and growth add substantial tourism value to the Entertainment Quarter, attracting visitors from within Sydney and beyond.

Moreover, Hyper Karting enhances the Entertainment Quarter's reputation as a premier destination for entertainment, effectively putting the "entertainment" back into the Entertainment Quarter. The facility is well managed and has demonstrated a strong commitment to safety, accessibility, and customer satisfaction.

In light of these benefits, extending the lease for Hyper Karting will sustain and enhance the positive contributions this facility makes to the local community, economy, and visitor experience. I strongly support the approval of this Development Application and the continued success of Hyper Karting.

Thank you for your consideration.

Timothy Senkalski

Hi,

I'm emailing to express my strong support of Hyper Karting, an absolutely brilliant venue in the heart of Sydney.

The continued operation of this fantastic business on a daily basis far outweighs the car spaces it takes up, which would otherwise only be used incredibly rarely.

Sydney should be a city for people, not cars, and as such a I strongly urge council to reconsider their determination of this DA.

Regards,
Peter

Hyper Karting is a great facility to all ages.

It would be a shame to close this down. There aren't many activities for kids these days that does t involve a mobile phone.
I regularly visit this place with my nephews via transport an it's a great attraction that's causes no impact on area.

Thanks

To the City of Sydney Council,

I am writing to urge a review of the recent decision regarding the Entertainment Quarter.

For years, this precinct was the pinnacle of Sydney entertainment and a primary destination for families.

While it went through a period of decline, recent additions like Hyper Karting have sparked a significant turnaround, bringing the "spark" back to the area and creating a new generation of visitors.The current decision threatens this momentum.

Please reconsider your position to ensure the precinct continues its trajectory as a premier entertainment hub.

Best regards,
Nicholas

Afternoon,

I would like to raise concerns regarding the proposal to prioritise additional car parking over the continuation of Hyper Karting - a brand built by the trust of over thousands of customers over the past few years. Allocating more space for car parking does not serve the broader public interest compared to a unique recreational facility like Hyper Karting. Additionally, the current car park egress is already difficult and adding more vehicles is likely to worsen congestion and safety issues. There appears to be plenty of parking spaces during events in EQ and adding in more in exchange for a venue which contributes so much to what EQ encompasses definitely does not seem to be the right move in a lot of people's opinions. For these reasons, I do not support the proposal in its current form.

Regards,
Nishant.

Submission in Support of Hyper Karting

I am writing to express my strong support for Hyper Karting and to advocate for its continuation as a valued part of the Entertainment Quarter.

Hyper Karting is a family-friendly facility that caters to both adults and children, offering an inclusive environment where people of all ages can participate in safe and enjoyable activities. It provides a rare opportunity for families to engage in shared recreational experiences that are both exciting and accessible.

The venue also represents an example of adaptive reuse, making effective and innovative use of a previously disused car park on Level 5. Rather than leaving this space underutilised, Hyper Karting has transformed it into a vibrant destination that contributes positively to the precinct.
Importantly, Hyper Karting is a significant local employer, providing jobs for over 150 people. Its continued operation supports these workers and their families, contributing to the local economy and workforce stability.

From a broader perspective, the facility adds meaningful tourism value to the Entertainment Quarter. It has gained recognition through features on well-known programs such as *Sydney Weekender* and *Getaway*, helping to promote the area as a destination for both locals and visitors.

Hyper Karting is also a well-managed venue that delivers wholesome and affordable entertainment. In a time where cost-of-living pressures are increasing, accessible recreational options like this are more important than ever for families.

Additionally, the facility demonstrates a strong commitment to inclusivity by supporting the disability sector. It provides a safe and welcoming environment where individuals with disabilities can participate in recreational activities with confidence and enjoyment.

In summary, Hyper Karting is more than just a venue—it is a community asset that supports families, employment, tourism, and inclusivity. I strongly urge decision-makers to recognise its value and take the necessary steps to ensure its continued operation.

Yours sincerely
Olivia Senkalski

To whom it may concern,

I am writing in support of application RD/2023/897/A, which seeks to extend the development consent for electric go-karting at Level 5 of the Entertainment Quarter car park at 116 Lang Road, Moore Park.

I strongly urge the City of Sydney to approve this review and allow the go-karting to continue operating until 1 July 2028.

I am a regular visitor to the Entertainment Quarter, attending the precinct at least 10 to 15 times per year. In my experience, the area struggles significantly with activation outside of major sporting events. When there is no game on at the stadium, the precinct feels flat and lacking in atmosphere. The food and dining venues in particular are poorly patronised — in fact, I will regularly walk to Paddington rather than eat at the Entertainment Quarter, as the dining options are uninspiring and inconsistently run.

What does draw people to the precinct — and what makes it worth visiting in its own right — are entertainment uses like the cinema, the go-karting, and similar activities. These are the kinds of offerings that give people a genuine reason to be there, regardless of whether there is a major event on. They appeal to a wide range of people: families, groups of friends, and visitors of all ages.

Converting the go-karting space to additional car parking would do nothing to address the precinct's activation challenges. The Moore Park area already has substantial parking infrastructure, and more car spaces will not make the Entertainment Quarter a more appealing or vibrant destination. It would simply remove one of the few genuinely engaging things the precinct has to offer.

I respectfully ask the Council to support this review and allow the go-karting facility to continue operating. It is one of the better reasons to visit the Entertainment Quarter, and its loss would be a step in the wrong direction for a precinct that already struggles to generate a consistent sense of life and energy.

Thank you for considering this submission.

Hello

I'm writing to express my support for the extension of Hyper Karting's operations at the EQ car park.

I believe it is in the best interest of the community and I really enjoy going to Hyper Karting. I think Hyper Karting has done a lot to revive social and entertainment activity in that precinct.

Attention Shannon Rickersey

My name is [redacted] living in NSW, and have lived here my whole life. I've always thought of Sydney to be boring, and lack activities we can do all year round, with the only options being Luna Park and some arcades here and there. I was introduced to HyperKarting by my brother, and I immediately fell inlove.

I usually get there by light rail as it's most convenient, however i've never had any issues with driving there as there is always parking to be found on multiple levels. I enjoy the convenience of the area as I can always swing past before a concert/event, or if i'm in the city with friends and i'm feeling bored. It's always brought me joy and peace, being the one thing I can do that isn't repetitive as the tracks are always different, yet something I can rely on to have a good time. I've never experienced any negatives inside or outside the business, and infact found it brings more foot traffic to the EQ, boosting surrounding businesses.

However one of the best things about HK is the fact that unlike fun things in sydney like the easter show or the halloween markets, it's reliable and year round, bringing more life to sydney especially for the night life. This small business is an amazing powerhouse, supporting about 150 jobs and around 300,000 patrons annually, with many regular customers that hold a life loyalty to this business, factoring the amazing service of the employees, the welcoming vibes it presents, and always leaving with a smile on your face. I can confirm this as being one of these regular customers, and can also say from the friends i've made and the people i've seen, the EQ is supported by the light rail much more than cars, with only about 18% of people driving to the venue.

In conclusion, I ask that you please consider keeping this business, as experience and community attraction will always benefit a place more than parking. There is nothing to park for if not the entertainment. I believe your concerns would be better managed through restrictions and conditions, improving your issues whilst also keeping the public entertained and boosting surrounding businesses.

Thank you for taking your time to read and consider my feedback.

Kind regards,

[redacted] Greenacre 2190

I was disappointed to hear that the lease for Hyper Karting will possibly not be extended.

My family have been to Hyper Karting and have enjoyed the experience. It is family friendly and a good use of the space in the Entertainment Quarter.

It would be a shame to see such a good facility fold. I would like to see the lease extended.

Subject: Submission – DA 2665169

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Hi,

I'm writing in relation to Development Application **DA 2665169** for the site at:

116 Lang Road, Moore Park NSW 2021

I wanted to express my support for the venue and, in particular, for it continuing to operate long term. It's a well-established place that a lot of people in the community use and value — somewhere families can go, kids can spend time, and people can enjoy a casual, social environment.

It would be great to see any changes handled in a way that keeps the venue open and active as much as possible. Ongoing access and continuity are really important for places like this, both for the people who visit regularly and for the overall atmosphere that makes it what it is.

Venues like this play a bigger role than people sometimes realise — they support local jobs, bring people into the area, and provide something genuinely positive for the community.

Thanks for taking the time to consider this.

Kind regards,

Simon McCoy

I support Hyper Karting in their application to extend their lease to utilise Level 5 of the Entertainment Quarter carpark.

This is a great family friendly activity that I have been to. This previously under-utilised carpark has been a great boost to tourism in Sydney. It has featured on Sydney Weekender and Getaway TV programs.

It would be a great loss for the Entertainment Quarter to lose such valuable entertainment. It is an excellent facility and should be allowed to continue in this space.

I sincerely hope that the lease will be extended.

Your sincerely

Alison Senkalski.

To whom it may concern,
I wanted to send an email in support of the application to keep HyperKarting open in the Entertainment Quarter.
We have frequented this business as a family many times and my husband works there so rely on it for our family income.
Whenever we have attended parking is no trouble at all, as many levels of the lot are completely vacant.
I support keeping this family business open, instead of an empty parking lot.
Best,
Rosie

I would like to express my strong support for application RD/2023/897/A relating to the existing Hyper Karting facility.

Hyper Karting has already proven to be a valuable recreational asset within the City of Sydney, offering a safe, well-managed, and engaging environment for people of all ages to enjoy motorsport in a controlled setting. Supporting this application will allow an established and successful venue to continue operating and contributing positively to the local community.

The facility plays an important role in activating the area, drawing visitors, supporting local businesses, and providing a unique entertainment option that is not widely available elsewhere in the city. It is particularly valuable as an all-weather, indoor activity that appeals to families, young people, and corporate groups alike.

Importantly, as an existing operation, Hyper Karting has demonstrated its ability to manage safety, noise, and patron behaviour responsibly. Continued approval will ensure that these high standards are maintained while preserving jobs and ongoing economic benefits for the area.

Overall, this application supports the continuation of a proven, well-run facility that enhances Sydney's recreational landscape. I strongly encourage its approval.

Dear Shannon Rickersey,

I am writing to implore you to amend the decision to close HyperKarting at Moore Park.

Being a local resident I've had so many enjoyable events at HyperKarting. The EQ having an attraction like go karts reminds me what the venue was like when I was growing up! I can't imagine why council would take this away to add a level of car spaces in a carpark that consistently has parking available during concerts, sporting events and other seasonal events. Plus there is already a new carpark being built at the stadium up the road.

As a parent I have been excitedly waiting for my son to come of age to be able to have parties at the go kart track instead of just bringing him to watch our friends and loved ones, I hope to be able to let him experience some of the nostalgic fun similar to what I had in my youth at the entertainment quarter.

All the best,
Molly

Dear Council

Re: RD/2023/897/A

The whole point of the Entertainment Centre is to provide … Entertainment! Whether you are aware or not, as both an owner/resident and business operator in this vicinity we can absolutely confirm this in-door electric kart track is hugely popular with adults and kids alike. Often when accompanying my two boys we have to book. Frankly I'm of the view refusing to allow this kart track to continue trading in not in the best interest for Sydney's residents and visitors.

Let's be perfectly honest, we don't rank highly in this city when it comes to entertainment, so why on earth close down another venue.

Kind Regards

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

I am writing to express my strong support for this application relating to the continued operation of the electric go-karting facility at the Entertainment Quarter.

As a local resident and regular visitor, I have attended this venue many times with friends. It is a unique and valuable recreational facility that provides a safe, engaging, and social activity that is not widely available elsewhere in Sydney. In my experience, it is well-managed and contributes positively to the vibrancy of the Moore Park precinct.

Importantly, the venue supports local employment and provides meaningful jobs for young people. I personally know individuals who work there and benefit from these opportunities, which reinforces the broader economic and social value of the operation.

More broadly, I believe it is important that Sydney continues to support diverse entertainment and recreational uses, particularly those that appeal to younger demographics. Facilities like this help create a more dynamic, inclusive, and engaging city. Without them, Sydney risks becoming increasingly limited in its cultural and social offerings.

I understand that the current application relates to extending the existing, time-limited approval to allow continued use until 1 July 2028 . In my view, allowing this continuation is both reasonable and appropriate, particularly given the existing infrastructure and the demonstrated demand for the facility.

It would be disappointing to see this venue lost due to regulatory or technical constraints, especially when it is already operating successfully and providing clear community benefits.

For these reasons, I strongly support the approval of this application.

—
Thanks,
Seb

Dear Shannon Rickersey,

I just wanted to write to share my strong support for the electric go-karting at the entertainment quarter. Being a long term resident in the eastern suburbs I am concerned that we already lack family friendly, sporting activities and being a father of two kids (8 and 12) we have and continue to love this activity.

I truly hope the facility is allowed to remain.

Kind regards,

Alistair Champion

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To Whom It May Concern,

I am writing to formally object to the decision to refuse the extension of consent for Hyper Karting at the Entertainment Quarter in Moore Park.

Hyper Karting at Moore Park has been an incredible venue my family has visited countless times since its opening. The Hyper Karting business operation has proven to be a valuable recreational, economic and social asset since opening in 2021. With more than 500,000 customers to date and over 150 jobs supported, it has contributed meaningfully to the activation of the Moore Park precinct beyond peak sporting and concert events. The facility attracts families, young adults, corporate groups and interstate visitors broadening the precinct's appeal and strengthening its viability as a year-round destination.

The recent refusal of Hyper Karting's extension application appears primarily based on the projected need to reinstate the 298 parking spaces currently occupied by the karting track business operation, in light of the phased removal of on-grass overflow parking near Allianz Stadium and Sydney Cricket Ground. However, available utilisation data suggests that the Entertainment Quarter car park has only reached capacity on limited occasions since the reopening of Allianz Stadium. This calls into question whether the immediate removal of an established and high-performing attraction is proportionate to the potential future parking demand.

Importantly, Hyper Kartings business operation has functioned without substantive adverse impacts. There have been no reported noise complaints and its location within a structured car park inherently limits off-site amenity impacts. The operation makes productive use of under utilised built infrastructure without requiring new construction or permanent structural change.

In assessing orderly development, I respectfully submit that consideration should extend beyond the technical designation of a space as "car parking" and instead weigh the broader planning objectives of place activation, employment generation, and community recreation. Retaining Hyper Karting as a business operation within the Entertainment Quarter precinct supports the strategic goals of encouraging diverse uses within established entertainment precincts and reducing reliance on single-event traffic surges as the primary driver of

economic activity.

With the above said, I therefore urge the City of Sydney to reconsider the refusal upon review and to adopt a balanced approach that recognises:

- The demonstrated success and community benefit of the facility;
- The limited historical evidence of parking capacity stress;
- The absence of measurable amenity impacts; and
- The broader strategic ambition to revitalise Moore Park as a dynamic, year-round destination.

The continuation of Hyper Kartings business operation would reflect a forward-looking planning approach that prioritises activation, employment, and community experience alongside transport considerations.

Thank you for the opportunity to provide this submission. I respectfully request that it be taken into full account during the review process.

Yours sincerely,

Mark Jones

Dear whom it may concern/ Shannon Rickersey,

I was shocked to hear of the decision by council to refuse the extension of hyperkarting DA. Even more surprising, the reason cited, for additional parking. I am surprised as parking is a non-issue at the EQ. For even the vast majority of major sporting events, the car park is not even at capacity. Yet, hyper karting is always busy with the activity of families, athletes, and groups of friends. Hyper karting is a safe and social activity that bring people together and one of very few karting venues in Sydney. What's more hyper karting is electric - unlike other offerings in Sydney. It is baffling how anyone could see greater value for the people of Sydney in ~200 car spaces.

I hope you can consider the good that hyper karting brings to Sydney and extend this DA

Kind regards,
Dr Byron Crimmins

Dear council,

I am a local resident who has grown up and lived across the eastern suburbs my whole life. When hyper karting first opened I was so excited to have local electric go karting.

Growing up going out west to petrol run lawn mowers disguised as go karts, having a local clean track that wasn't thick with fumes and deafening engines echoing through a warehouse was amazing. As a father now, taking my child to go karting is something we both love. Something I wouldn't consider for the tracks I used to have to travel to.

Hearing that hyper karting could be shut down is genuinely upsetting and confusing.

As someone who frequently drives to music events at hordern pavilion and liberty hall and cricket games at the SCG and football/union at allianz, I have never entered that car park that contains hyper karting and not been able to find a spot. I've been told there is still access to the roof floor parking, but have never needed it. The idea that these spots are needed for these events is completely inaccurate. I have attended all types of events; parking in that car park, walking past thousands of people lining up to get into hordern to get to at big bash game with over 10,000 people at the SCG. No issues finding a spot at all.

The fact that there is a new car park being built for Allianz makes your decision to close hyper karting even more confusing.

For the last 20 years getting into the city (city of Sydney) has become harder and harder with more bike lanes, bus lanes and trams that don't service where I have lived. The idea that for this specific business you are prioritising cars goes against every piece of transport infrastructure I have witnessed in your council since childhood.

Please amend your decision and allow this business to continue to serve our community.

Kind regards,

David Hutchinson

Please note I am happy for my name and suburb to be published, but request that my address and contact details be withheld from public record.

Dear Shannon Rickersey and the Assessment Team,

I am writing in strong support of the review application RD/2023/897/A for Hyper Karting at 116 Lang Road, Moore Park, and urge the City of Sydney to approve a continuation of its operation.

I am a Bondi resident and have been a regular visitor to Hyper Karting for several years. Living in the eastern suburbs, it is genuinely local to us - we typically drive to Moore Park, which takes under 15 minutes from Bondi. After our sessions we almost always continue the outing at the nearby markets or local restaurants, making each visit a broader contribution to the precinct's economy and atmosphere.

Hyper Karting is the venue I turn to for the occasions that matter most. My brother lives in New Zealand and visits twice a year - it is the activity we reliably plan together, and it has become a meaningful part of how we spend our limited time. Beyond those visits, I organise group events there regularly: friends' birthdays, bucks parties, and work team outings. It is simply the best option for a shared, active, social experience that suits a wide range of ages and fitness levels. No other comparable venue exists within an hour's drive of the eastern suburbs, and I say that with confidence - I have looked.

I want to highlight that karting is not passive entertainment. Unlike a cinema, it demands physical engagement, genuine competition and real interaction between participants. The social value of that kind of shared activity - people laughing, competing, encouraging each other - is meaningfully higher than sedentary alternatives. For groups, corporates, and families, it offers something increasingly rare: a reason to be present together.

In all my visits over the years, I have never witnessed a safety incident, nor have I experienced any issues with noise or parking that I would consider unreasonable for an entertainment precinct. The facility is well-managed and the staff are professional.

I am aware that both the Lord Mayor and State MP Alex Greenwich have expressed concern about the council's decision to refuse the extension. That bipartisan signal reflects what I suspect many eastern suburbs residents feel: that losing Hyper Karting would be a genuine and disproportionate loss to the community, with nothing available to replace it.

A managed extension - with appropriate conditions if needed, is clearly preferable to closure. Hyper Karting is one of the few year-round active attractions the Entertainment Quarter offers, and its removal would leave a gap that passive retail or dining simply cannot fill.

I respectfully ask that the council give serious weight to community voices in this review and approve the continuation of Hyper Karting's operation.

Thank you for your time and consideration.

Yours sincerely

Elliott Etheridge

Dear Shannon,

As a member of Hyper Karting at Fox Studios, I am writing to express my concern and disappointment upon hearing that the venue may be at risk of closure.

Hyper Karting has been an incredibly positive experience for both myself and my son. It has provided us with valuable bonding time and created many memorable moments together. Watching his confidence and skill improve over time, while also challenging myself to improve my own performance, has made it far more than just a casual activity—it has become something we genuinely look forward to.

Beyond the racing itself, the venue fosters a fantastic sense of community. We have met new people, formed friendships, and enjoyed spending time in the precinct even after racing. The staff are consistently welcoming, professional, and passionate, which adds greatly to the overall experience.

Hyper Karting offers a rare all-weather activity in Sydney. Regardless of conditions, it provides a safe, engaging, and social environment for people of all ages. It is the main reason we visit Fox Studios at all—without it, we would have very little reason to return to the area.

From my perspective, it is a unique and valuable addition to Sydney's recreational offerings. It brings people together, supports local employment, and contributes to surrounding cafes and retail businesses.

I would be genuinely saddened to see it close and strongly urge the Council to consider the broader social, community, and economic value it provides. Losing such a facility would be a real loss for Sydney.

Thank you for taking the time to consider this feedback.

Kind regards,
Dan Mousley

Hyper karting has been an important place for people, particularly men, to meet and chat and build connection. Visiting early in the mornings would show this. It has racing and etc, but the true value is the community it allows people (again mostly men) to build. There isn't many places that allow this.

Hello Shannon,

I'm writing offer my thoughts for the above DA submission.

I fully support this proposal.

I'm an electrical sub-contractor to Hyperkarting, located on Level 5 of the Entertainment Quarter (EQ) carpark.

Since its inception, Hyperkarting has injected new lease of life to the EQ precinct. It brings in many paying visitors to the area & had made use of largely unused car parking level.

It has provide part-time employment to myself, but more importantly, full time employment to many people in the operation & management areas of the business.

Its carbon footprint is minimal, compared to other fossil fuelled kart tracks, using rechargeable electric karts.

Its future should not be in question, rather, encouraged to continue to provide high class entertainment in a precinct known as 'The Entertainment Quarter'!

Regards Michael.

Dear Shannon,

I hope this finds you well. I'm writing because I was really disheartened to hear about the potential closure of Hyper Karting at the Entertainment Quarter, and I wanted to reach out as someone who genuinely uses and enjoys the venue.

I live locally and have gone to Hyper Karting on multiple occasions over the last few years - from 6 year old birthday parties, corporate events, parties and with friends / my partner personally. My partner has attended the venue twice in the last two weeks, as he can go with his young nephew, and his dad. There aren't many places in Sydney that can offer genuine entertainment and attraction across ages and demographics. It's also one of the few places where adults can enjoy an activity that doesn't revolve around drinking.

The venue is well connected and serviced by public transport, particularly the light rail which can easily connect people to the CBD, meaning it's a genuine hub for people to meet from across the city, Inner West, Eastern Suburbs etc. I've never had any issues with noise, safety or parking when I've visited, and I'd hate to see it go based on concerns that don't reflect the experience most people are actually having there. It also brings consumer spending into an area that has historically been a bit of a dead zone except for the Hodern - people come for Hyper Karting but stay for a meal, a movie or other activities.

Losing it would leave a real gap in the precinct that I don't think another restaurant or bar is going to fill.

Thank you

Sophie

To whom it may concern,

I am writing to express my strong support for Hyper Karting and to urge you to reconsider any decisions that may lead to its closure.

Hyper Karting is far more than just a traditional venue — it plays an important role in the local community. It provides a unique space where people from all walks of life can come together, often forming friendships well outside their usual social circles. In a time where genuine, in-person connection can be hard to come by, venues like this are incredibly valuable.

It also serves as a much-needed entertainment option in an area that benefits from attractions that draw people in. Hyper Karting brings energy, activity, and economic flow to the surrounding businesses. Without it, there would be a noticeable gap in both entertainment and foot traffic.

On a personal level, the experience of karting offers something that is difficult to replicate elsewhere — a controlled environment where people can safely experience speed and improve their driving skills. It provides an outlet that promotes responsible behaviour by allowing individuals to explore driving performance in a structured and supervised setting, rather than on public roads.

I have had memorable experiences at Hyper Karting, from competitive races with friends to meeting new people who share a similar interest. It’s a place that creates lasting memories and positive social interaction.

Beyond the personal benefits, the potential loss of over 150 jobs is significant and would have a real impact on many individuals and families. The value of those livelihoods, combined with the broader community and economic benefits, should not be overlooked.

For all of these reasons, I strongly believe Hyper Karting should remain open. It is a vital part of the community, offering social connection, entertainment, and a safe environment for skill development.

Thank you for taking the time to consider this submission.

Kind regards,
Adam Lackey

Hello.

My friends and I frequency race at hyper kart. That is the one and only reason why we visit entertainment quarter. Whilst there were usually have a meal or beers at the pub.

Taking away hyper karting will also take away customers from the other businesses. Hyper karting serves the community .

There allot of car parking spots being built down the road. Please leave hyper karting alone.

Regards.
David Del Castillo.

Hi There,

I am writing to express my strong support for the continued operation of Hyper Karting on Level 5 of the entertainment Quarter cark park, and to encourage its retention as a valued part of the local community.

This business offers a safe, inclusive, and engaging environment that brings together families, young people, schools, local and corporate businesses, and community groups. It has become a destination where people of different ages and backgrounds can connect, participate, and build positive shared experiences within our local area.

This is the exact type of business that should be based in the Entertainment Quarter precinct. It contributes to foot traffic, supports surrounding businesses, and enhances the overall appeal of the location.

Retaining this business would demonstrate a commitment to supporting small business and the value of recreational activities to the community. I believe this is a much better use of community space than additional car parking, when there are a number of transport options available to commuters to the broader precinct. Its removal would represent a loss not only of a business, but also an experience that has proven value to the local area.

I strongly encourage consideration of extending the use of the space for this business. It will continue to deliver a number of social and community benefits that additional car spaces simply cannot.

Thank you for your time and consideration on this matter.

Kind regards,

Daniel Ferrara

Hi Shannon,
This is a response to the decision to not extend the lease for HyperKarting at the Entertainment Quarter in Moore Park and the subsequent DA application that has been submitted to have the decision reviewed.

My daughter is actively employed by Hyper Karting, working 5 days a week for the company, and my husband is an electrician who also provides HyperKarting with his electrical services on a regular basis. I support this DA application for extension of the lease as the company is the employer of more than 150 people.

HyperKarting brings a substantial customer base into the Entertainment Quarter, a business district that would see relatively little passing trade otherwise, therefore substantially supporting other small businesses in the precinct.

On the numerous occasions that I have visited the site, the car park is generally close to empty, only filling to capacity (and an hour long grid lock at the end of events)semi-regularly during large sporting and entertainment events. I would also think the annual rental revenue from HyperKarting would substantially outweigh the revenue received from a few sell out days each year.

As a resident of the City of Sydney's LGA, I am also concerned that the decision to not renew HyperKarting's lease in favour of opening up the carpark floor to more parking spaces is in direct conflict with Clover Moore's vision for a city with reduced car movement. Perhaps the emphasis should be on more public transport access in and out of the Moore Park area rather than increased vehicle movements and the aforementioned grid lock that comes with it at the end of each and every event.

Kind regards,
Helen Thompson

To Whom It May Concern,

I am writing to express my strong support for Hyper Karting and to urge decision-makers to find a solution that allows this incredible venue to remain open.

Hyper Karting is far more than just a leisure facility — it is a genuine community hub that brings people together. I have personally enjoyed karting with friends and colleagues alike, and every single time, the experience has been outstanding. The professionalism of the staff, the quality of the facilities, and the sheer excitement of the karting experience make it truly one of a kind.

Beyond the personal enjoyment, Hyper Karting plays an important role in the wider community. It provides a venue for kids and oldies like me to enjoy competitive karting at the minimal of costs… ie i Dont have to be rich to do this.

It would be devastating to see this venue close over a parking dispute involving 296 car spaces, when so much more is at stake. I sincerely hope that a practical and fair resolution can be found — one that preserves both Hyper Karting and the livelihoods of everyone who depends on it.

If the concern was parking space availability, I urge the city to put more emphasis on the new tram line, make more sense to us public transport rather than driving.

Thank you for taking the time to read my message. I hope it demonstrates just how much this place means to so many people.

Yours sincerely,
Cuong Nguyen

Attention: Shannon Rickersey

Hello,

I am writing to provide my support and ongoing use of the Entertainment Quarter car park by Hyper karting. I have attended many sporting events at the Entertainment Quarter and have found there has been adequate parking for all major events I have attended. I have also tried go-carting and it is such a fun and great activity for all ages to enjoy.

As Sydney City, moves to become a more walkable and public transport city and more members of the public utilise public transport instead of private commuting will assist even further with the current capacity of the car parking spaces.

Referring to the S4.55 modification refusal. I believe that the proposal **is** within the public interest as so many members of the community utilise the go karting for a wide variety of different events and caters to a wide range of people of all different ages,

Regards,
Harrison Weir

Hi,

I am writing as a local resident to express my strong support for the continued operation of the electric go-karting facility at the Entertainment Quarter, Moore Park.

As someone who regularly walks to the precinct, I value having accessible and engaging activities available beyond occasional major events. The go-karting contributes meaningfully to the vibrancy of the area and encourages consistent visitation throughout the week.

Removing this attraction does not align with the NSW Government's vision to revitalise the Entertainment Quarter into a year-round destination. The stated objective is to create a lively, activated precinct that attracts both locals and visitors through a diverse mix of entertainment offerings. The go-karting facility directly supports this by driving foot traffic, activating the site during non-event periods, and contributing to the overall experience of the precinct.

From a local perspective, the proposal to remove the facility would result in underutilised space for much of the time and reduce the appeal of the Entertainment Quarter as a place to visit on a regular basis. Retaining it supports both community use and the broader strategic direction for Moore Park.

I strongly encourage approval of this application.

Kind regards,
Evan

To City of Sydney,

To be very honest, 1 floor of parking is definitely not going to solve Sydney's parking issue. Its would be much better if tax payer's money is not used for something this vague. Executives must focus on building better plans for future prospective parkings instead of taking away one of the major sources of entertainment at the entertainment quarter.
I hope common sense will prevail in the lobby.

To whoever is reading this, it is imperative that HyperKarting is not shut down. HyperKarting is a place where people of all backgrounds can come together and race as a community. Each year, hundreds of thousands of people come to HyperKarting to enjoy the services they provide.

It is unfortunate that your end goal is to shut the place down just for another level of parking spaces that provide no extra bonus towards the Moore Park Entertainment Precinct, this creates zero job opportunities for the community, putting more people at risk of being kicked towards the street. Is that really the outcome you want for Sydney, risking people's livelihoods just for some meager parking spaces.

I truly hope that you reconsider the decision to shut down HyperKarting, it would be truly detrimental for the community if the business is shut down to make space for more parking that won't be used most of the year.

Dear Shannon Rickersey

It was very disappointing to see that Council is not renewing Hyper Karting lease of the top level of the Entertainment Quarter parking lot.

Hyper Karting provides for a fun day out for all ages and my kids absolutely love it. Aside from the usual visits to have fun, we have had birthday parties there and twice been there for work-related team building activities. It is also good fun as it can operate regardless of the weather.

It seems illogical to revoke a thriving business' premises in favour of very occasional parking for events. I live in the East and if I am going to an event at or near the EQ precinct, I take transport most often and walk down from Oxford Street, or get an Uber, or get dropped there. Very occasionally for a footy game, I may park on Oxford Street as EQ parking is very expensive and near-gridlocked to get out of at peak times. I certainly have never in my nearly 20 years of living and driving in the East parked on level 5 of the EQ parking - for an event or an everyday visit to the Entertainment Quarter.

I urge Council staff and Councillors themselves to visit that parkade and to see the thriving nature of the Hyper Karting business (which provide employment to youngsters and fun for the whole family) vs the empty nature of that parking garage ~90% of the time; and I strongly urge Council to reconsider and reverse their decision.

Regards

Stacia Super

Dear City of Sydney Council

I'm writing as a parent to ask you to please reconsider any decision that could lead to the closure of Hyper Karting in Moore Park.

Finding activities that are fun, safe, and genuinely engaging for kids isn't always easy—especially ones that the whole family can enjoy together. Hyper Karting has been one of those rare places. It gives kids (and adults) something exciting to look forward to while also being a great way for families to spend quality time together, away from screens.

Losing a venue like this would be disappointing for families like mine. It's more than just entertainment—it's an experience that brings people together and adds real value to our community.

I respectfully ask that you work with the operators to find a way for Hyper Karting to continue operating.

Thank you for your time.

Jasreen

Hi there!

I have been a member of this council my entire life. I have also been a fan Hyper Karting! I have been coming here for 5 years since its opening! I love this place and am saddened by the potential of it closing! It is places like this that gives Sydney its identity and draws in visitors. Please allow it to stay open!

Michael

Hi team,
Just writing here to give feedback on hyperkarting in Moore Park. This place is incredibly special to me, it's helped me celebrate a 10th birthday, a 30th birthday and a 40th birthday. It's the most fun I've had in Sydney, without having to drive to the outer reaches of Sydney for another karting experience. It's fun, it's safe. It's actually the only reason I'm drawn into the entertainment quarter, but once I'm there I have always visited cafes and restaurants in the quarter.
Please don't get rid of hyper karting.
And for what.. car spaces? That's a brutally poor excuse. Hyper kartjng is part of this community and it's the highlight of the entertainment quarter. Please keep it !
Pat

Don’t close this down.

You’re getting rid of a business that trades all day, every day, just so that you can have more parking for three-hour events every now and then.

Don’t you want more people to take public transport? Isn’t there a light right that stops out the front? Sydney (city) is already lacking vibe. We don’t all want to go to overpriced restaurants and influencer spots. Don’t close this down, let some people have some fun!

Nick

To whom this may concern,

Hyper Karting has been such an integral feature to building such a fantastic community and atmosphere at Moore Park, bringing more family and friends together.

Hyper Karting is the only genuine karting experience that Sydney holds, and it could not be in a more designated area, which is so close to the City CBD.

I have enjoyed the facility of Hyper Karting on many occasions and have brought together many friends and family to enjoy as well to bring joy to us all.

Given the state of climate around the world right now, isn't the idea to keep more cars off the road and more public transport to work/sporting events/other events around the city? It does not make sense adding an extra 200 odd car spaces in a carpark that RARELY gets filled to capacity just to make money off parking!

I am strongly supporting Hyper Karting to remain open and trading for many years to come!

Thanks,

Daniel

Dear Shannon and members of the Development Assessment Panel,

I am writing to express my strong support for the continued operation of **Hyper Karting** in Moore Park, and to oppose any proposal that would convert this space into a car park.

Hyper Karting is a valuable recreational and community asset within the Moore Park precinct. It offers a unique, accessible experience that contributes to the area's diversity and vibrancy, attracting a broad cross-section of visitors including families, young people, corporate groups, and tourists.

In contrast, replacing this active use with a car park would significantly diminish the site's social and economic value. While parking infrastructure serves a functional purpose, it does not contribute to the same level of community engagement, employment opportunities, or local economic activity that a destination-based venue like **Hyper Karting** provides.

It is also important to note that the majority of the existing building is already dedicated to parking, with four of the five levels currently operating as a car park. Based on observable usage, these levels are rarely at full capacity. This suggests that existing parking provision is already sufficient and expanding it further would represent an inefficient use of valuable urban space.

Retaining **Hyper Karting** aligns more closely with contemporary urban planning principles, which prioritise activation, experience-based destinations, and the efficient use of space for community benefit rather than passive vehicle storage.

Additionally, Moore Park is already well-served by existing parking facilities and public transport options. Expanding parking at the expense of an established and successful business does not appear to be a balanced or forward-thinking outcome.

I respectfully urge the Panel to consider the broader social, cultural, and economic benefits of maintaining **Hyper Karting** in its current location, and to reject any proposal that would result in its displacement.

Thank you for your time and consideration.

Kind regards,

--

Dear City of Sydney

I am writing to express my support for Hyper Karting Sydney and to ask the Council to reconsider any decision that may lead to its closure.

This venue provides a valuable community space and supports over 150 jobs. Replacing it to increase parking—especially when existing capacity is already high—does not seem to deliver greater benefit to the community.

Sydney needs vibrant, social spaces like this, not fewer of them.

I respectfully urge the Council to explore alternatives that allow Hyper Karting to remain.

Kind regards,

Gabriel Hoffmann

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Ms Rickersey,

I am writing to lodge a formal submission in relation to RD/2023/897/A concerning 116 Lang Road, Moore Park.

I strongly oppose any proposal that would result in the closure of Hyper Karting to enable additional parking.

Hyper Karting is a valuable and well-utilised community asset. It provides employment, supports local businesses, and offers a unique recreational experience that attracts families, young people, and corporate groups to Moore Park. It contributes to the vibrancy and economic activity of the precinct in a way that simple car parking cannot.

My family and I recently spent a day there over the Easter long weekend. We travelled in via the light rail from the city, had lunch locally, and enjoyed the Hyper Karting experience. It is exactly the type of accessible, integrated destination that Moore Park should be encouraging — one that supports public transport use and broader visitation to the precinct.

Replacing this type of destination venue with additional parking represents a missed opportunity and, in my view, a step backwards in urban planning. Moore Park is already well serviced by public transport, particularly with the light rail and frequent bus connections. Planning decisions should be encouraging increased use of these services, rather than incentivising greater car dependency through expanded parking.

There is also an environmental dimension that should not be overlooked. Hyper Karting uses electric karts, aligning with the transition to lower-emission technologies. The primary alternative venues, such as those at Eastern Creek, rely on petrol-powered karts and are not easily accessible via public transport, requiring most visitors to drive. Closing Hyper Karting would effectively push people toward higher-emission activities and increased car usage.

Beyond the direct loss of jobs and a popular community facility, the removal of Hyper Karting risks reducing visitation to the broader precinct, with flow-on impacts to nearby hospitality and retail businesses that benefit from its presence.

I respectfully request that this proposal be reconsidered, and that priority be given to retaining and supporting existing community-focused, employment-generating uses of the site. Alternative solutions to transport and access challenges should be explored that align with broader sustainability and public transport objectives.

Thank you for the opportunity to provide this submission. I trust these concerns will be given due consideration as part of the assessment process.

Yours sincerely,
Dave Page

To whom it may concern.

I greatly enjoy hyperkarting as an activity. My uncle and I do not see eachother often, but our quarterly meet up to race is something I hold extremely dear to me. There are no other karting experiences that we are able to both attend as easily as hyperkarting.

I could not imagine how this proposal to close this business has come about, as it is a busy, high energy environment which (as far as I'm concerned) is the only thing people really know Moore Park / the EQ for.

I believe the parking spaces are not anywhere near as important to the EQ simply because of the amount of people who park there FOR hyperkarting. Apart from the fact that you could not convince me to pay the ridiculous carpark price if not for hyperkarting. Perhaps a request to the council to extend the parking limits around the EQ could be a simple solution instead of closing a business that is important to people.

I have worked at the EQ, and I have gone to concerts, restaurants, and shows there. The ONLY thing that makes the EQ stand out is hyperkarting, considering restaurants, concerts/shows, and employment, exist EVERYWHERE. Hyperkarting does not.

Thanks for your time.

Kieran

Dear City of Sydney,

I am writing to express my strong support for keeping Hyper Karting open and to encourage consideration of making it a permanent venue. It is one of the best entertainment attractions in Sydney and a place that many people, including myself, regularly enjoy with friends.

Hyper Karting's electric go-karts make it a modern and more environmentally considerate form of entertainment. It provides a fun, social, and accessible activity that adds real value to Sydney's recreational options and offers a unique experience within the city.

It is also important to note that the nearest alternative go-kart track is nearly an hour's drive away, which makes Hyper Karting an especially valuable local option. For many of us, it is a favourite pastime and a great way to spend time with friends, unwind, and enjoy the city.

Rather than shutting it down, I believe there is a strong case for supporting Hyper Karting as a permanent venue. It is a well-loved attraction that contributes positively to Sydney's lifestyle, entertainment, and social culture, and it deserves long-term support.

I respectfully ask that you reconsider any decision to close Hyper Karting and instead explore the opportunity to make it a permanent part of Sydney's entertainment offering.

Kind regards,
Gus

From: J S <[redacted] on behalf of J S <[redacted] <J S <[redacted]

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

I was extremely disheartened to hear of Hyper Karting at Moore Park potentially being shut to make space for additions car spaces. This seems absurd and counter to other measures to reduce car dependence in Sydney. This is not about accessibility for those that need it, but reeks of greed and short sightedness from a few money hungry and selfish parties.

This venue has become a reliable and accessible source of fun for days and nights out that doesn't rely on going drinking. I brought my friends here on a stags day when I was my friend's best man, I battled out against my brothers who live interstate multiple times, I had team-building events here with workmates, and I came here with friends after a night of dancing in the rain at liberty hall. I have fond memories here, also do hundreds of thousands of others.

Shutting down this business or otherwise moving it out of this central, sensible, convenient, accessible location is stupid and I am wholeheartedly against it. The City of Sydney should be pushing for MORE conversions of otherwise lifeless spaces like these and should use this business as a case study for what could be.

Please reconsider this proposal to shutter this facility.

Regards,
Jake Spaccavento, Sydney.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To Whom it May concern,

The potential closure of hyper karting has caused much sadness for the motorsporting enthusiasts as well as the general Sydney population. The thought that this joyful place could be torn out from under them for more (or moore..) parking is just ridiculous.

Sydney has some of the best transport infrastructure which makes servicing events easier and should be utilised more often rather than forcing 150 people into finding new work as well as hundreds of thousands of people losing a form of entertainment.

I urge the city of Sydney to rethink this and let the people keep creating memories in this awesome place.

Regards,
Daniel Cornish

Dear Shannon

Hyper Karting is fun for kids and the community in general.

Its place that's brought so many people together is at risk and created 150+ jobs
Do not get rid of this fun activity just to increase the car park's capacity by 296 car spaces.

Note, this is a car park which already has 1700 spaces and is rarely ever at capacity.

Do the right thing for the community.

Keep Hyper Karting at EQ.

Regards.

Submission in Support of Retaining Hyper Karting

I am writing to strongly support Hyper Karting remaining open within the Entertainment Quarter and not being replaced by additional car parking.

For our family, Hyper Karting has been a huge highlight. Our children, aged 9 and 6, have celebrated birthday parties there and regularly visit on weekends with friends. It is one of the few venues in the precinct that is genuinely designed for children and families, offering an active, safe and exciting experience that keeps them engaged and coming back.

These visits are not isolated; they are often part of a full day out, supporting nearby cafés, restaurants and other entertainment options. Hyper Karting plays an important role in making the Entertainment Quarter a destination rather than simply a place to park cars.

Replacing a well-used family attraction with additional parking would be a real loss to the community. Active venues like Hyper Karting create memories, encourage repeat visitation, and support the long-term vibrancy of the precinct in ways that car parking cannot.

I strongly encourage council to retain Hyper Karting and not displace this valued family-focused attraction, in support of more parking in an already under-utilised car park.

Regards

Beata

Hi City of Sydney,

Please reconsider your decision to deny Hyper Karting to proceed in Moore Park.

As a part of the motorsports community in Sydney I can attest that Hyper Karting has been a key part of my social life.

Hyper Karting has also helped me get into the motorsports industry by supporting my University's motorsports team and providing a platform to socialise. We love Hyper Karting!! The location is prime and the space is much better used for go karting than it is as a car park. My friends and I are only brought to Moore Park for Hyper Karting in the first place, then later we go to the surrounding stores.

Thank you for your consideration, please acknowledge what a huge impact this has on society and the community.

Kind regards,
Kat

Dear Council,

I am writing to formally object to the proposed closure of the Hyper Karting facility.

This venue is a valuable asset to the local community. It provides a safe and structured environment for people of all ages to engage in recreational activity, while also supporting local jobs and nearby businesses. It encourages social connection, offers a positive outlet for young people, and contributes to the overall vibrancy of the area.

For many in the community, Hyper Karting is more than just an driving facility—it is a place where people gather, celebrate milestones, and build lasting memories. Its closure would remove an accessible and inclusive activity that caters to a wide range of interests and age groups.

I understand that councils must balance development, planning, and community needs. However, I strongly urge you to consider alternative solutions that would allow the facility to remain operational. This could include reviewing zoning considerations, implementing noise or operational adjustments if required, or engaging directly with the community and business owners to find a workable outcome.

The loss of this facility would not only impact those who regularly attend, but also reduce the diversity of recreational options available within the area. Retaining spaces like Hyper Karting is important for maintaining a well-rounded and livable community.

I respectfully ask that you reconsider this decision and take into account the strong community value and support behind this venue.

Thank you for your time and consideration.

Kind regards,

Maree

hi,

I'm writing regarding the proposal to shut down hyperkarting from its current location.

I was shocked to hear that such a fun and successful business is at risk of being closed down, simply to reclaim the parking spaces.

When I have attended, there has been ample parking, and so I see little need to reclaim this space.

Additionally, while attending hyperkarting my friends and I went to several of the other businesses in the area for food and drinks.

Please reconsider your decision to reclaim this space, and allow a great business to continue to operate!

Regards,

Adrian

Dear [Recipient Name],

I am writing to you regarding the news of the upcoming closure of Hyperkart.

Hyperkart has been a valued part of the community, and I am reaching out to see if there are any options or steps that can be taken to help prevent the facility from shutting down. Please let me know if there is a petition, a fundraising effort, or any other way that supporters can assist in keeping Hyperkart open.

Thank you for your time and for all you have done for the go-karting community.

Best regards,

Darry Danny

Now why why why would you consider shutting hyper karting down!!! It stimulates night time economy in the area, livens up that whole entertainment precinct too. There is not much fun activities to do in Sydney late at night and hyper karting always hits the spot. It's a disservice to the community that this wonderful place would be shut down!

Please leave it open. One by one these places go until there's none left. Are we not allowed to have fun anymore?

KEEP IT OPEN!!!

Regards,
Thomas Papallo

To whom it may concern,

I think the proposal to shut down hyperkarting would be unwise financially for the city and unproductive for the community. This location provides ongoing entertainment and engagement for the people of Sydney while also providing a reason for people to visit the ever struggling entertainment Quarter and using the purpose belt light rail that was installed at great cost.
Closing this business in favour of using it for empty parking spaces is not something I am in favour for.

Regards,
Oliver Howden

Hello,

Please do not close down Hyperkarting.

It's a beautiful third place in our city where the community can come together and enjoy each other's company whilst having fun. It's one of few after work activities open til late and is great idea to boost business in the local economy/ EQ precinct .

Many thanks,
Beau

Dear Council,

I write in respect of RD/2023/897/A.
Hyper karting is the first place I ever experienced electric go-karting. I would kindly request the Council to reconsider removing hyper karting from the place.
I'm sure of the fact that the revenue generated from hyper karting will be more than converting the place into a parking space. I have celebrated my birthday and friends' meetups there.

Hello People,

Hyper Karting must stay:

- Whenever we have been on site, the carpark has not even been remotely full
- The people working are hardworking individuals, passionate about their jobs
- We have seen how much joy this organisation brings to thousands of people from all walks of life
- It seems incredible that it has taken so long for this issue to now surface
- It is a unique business model & offers a great experience

Hyper Karting & its associated businesses must be allowed to continue.

Hello,

I am writing to express concern that the above will be shut down. The hyper karting venue is not only great for the local economy but provides fun for my children and friends.
My son started to karting here at the age of 3 and is now almost 5. This business provides very accessible go kart practice for kids and adults alike.

Please reconsider closing this venue, we do not need another carpark, particularly with such ample public transport to the area.

Kind regards,
Aaron M

Dear city of Sydney

I'm writing to you in opposition of the proposal to cancel Hyperkarting's use of level 6 of the current car park at entertainment quarter. It had become a regular staple of family fun for my wife and kids in a safe environment using a space that is neglected 6 days a week and devoid of cars. I urged you to reconsider the social and economic impacts of the current position and enable hyperkarting to continue its business and provide families with fun safe activities that are a point of difference in inner Sydney. There are no other options like HK available within a 10km radius minimum.

Regards

Layton Hinga
Concerned Sydney City resident

Dear Ms Rickersey

I refer to the above mentioned submission number.

I strongly urge you to extending Hyper Karting's permit to allow them to remain in the car park at the Entertainment Quarter, Moore Park.

The car park is a ghost town. Using it for an entertainment purpose means that the building remains in use.

In addition, Hyper Karting brings business to other retailers in the precinct, many of whom would have less patronage if Hyper Karting was not an excellent attraction.

Hyper Karting brings together people from all walks of life, and brings much joy and happiness to many. It gives people of all ages something to do, somewhere to go. A community within itself.

I strongly recommend that Hyper Karting remains in the car park for many years to come.

Sincerely
Michelle Aginsky

Hello,
Why close down a place full of such fun for a carpark?
I have not heard of anywhere else in Sydney or surrounds that has different options for go karting. It is a rare entertainment experience and will take away from the community by replacing it with a carpark. Do cars fill up the existing carpark everyday? I doubt it. Why spend more money on demolishing the hyperkarting entertainment area with a useless, unnecessary carpark. Why not spend that money elsewhere?
I am set to go to the hyperkarting in early June. No way will I miss going there because of the unnecessary close down!!!

Kind regards,
Keep the hyperkarting open and move your carpark elsewhere.

Objection to Proposed Closure of Hyper Karting – Misaligned Parking Justification

Dear City of Sydney,

I am writing to formally object to the proposed closure of Hyper Karting (HK), justified on the basis that the space is required for additional car parking.

Before outlining my concerns, I want to be absolutely clear: I have no financial or business connection to Hyper Karting. I do not receive any compensation, benefit, or incentive related to this matter. This is my independent view as a member of the public who values practical, well-reasoned planning decisions.

The rationale presented does not align with reality on the ground.

The existing Entertainment Quarter car park is demonstrably not at capacity. Replacing a functioning, high-value business with underutilised parking is not a neutral decision — it is a net loss for the community, for employment, and for the local economy.

Hyper Karting is not just another tenant. It is a destination that enables activity that would otherwise not occur. Corporate events, group bookings, and social gatherings depend on venues like this - experiences that cannot simply be relocated or replaced. Removing it does not “free up space”; it eliminates opportunity.

There are also real human consequences. Around 150 people are employed through this business - individuals with families, responsibilities, and livelihoods. Closing HK for the sake of parking that is not demonstrably needed raises serious questions about proportionality and decision-making priorities.

More broadly, this proposal reflects a recurring issue in urban planning: decisions justified by theoretical demand rather than actual usage. Sydney has seen similar missteps before - where changes made in the name of efficiency or optimisation have led to backlash or reversal because they failed to reflect how people actually use spaces.

Equally concerning is the perception that community input often has limited influence on outcomes. Many residents and stakeholders feel that consultation processes can become procedural rather than genuinely responsive. I would strongly encourage the Council to avoid reinforcing that perception in this case by giving this objection the serious consideration it warrants.

I am not opposed to planning for future needs, including parking. However, planning must be grounded in evidence and balanced against existing value. In this instance:

- The parking demand does not appear to justify displacement
- The social and economic value of HK is clear and immediate
- The site currently enables activity that would otherwise not exist

This is, fundamentally, a question of trade-offs -and the current proposal appears to trade a proven, vibrant use of space for a speculative and underutilised one.

I ask that the Council :

- Reassess the actual parking utilisation data before proceeding
- Consider alternative solutions that do not require closure of HK
- Provide a transparent explanation of how this decision serves the broader community interest

Sydney benefits from places that bring people together. Removing one in favour of empty space risks sending the opposite signal.

I would appreciate a clear and substantive response.

Kind regards,
[redacted]

Subject: Future of Hyper Karting @ EQ Moore Park

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To who it concerns,

I am a regular visitor and member of Hyper Karting at Moore Park and I regularly traveled 45 minutes from my previous residence at Dural to participate in the sport of karting. I am now a resident and rate payer of the City of Sydney and as such would like to express my concern at this facilities potential closure.

Hyper Karting enjoys high participation, is family friendly and actually one of the more affordable forms of entertainment available not only to the local community but those from outside. The decision of council employees to reinstate the location to parking is short sighted and to the detriment of the City of Sydney.

We often talk about wanting the city to be an entertainment hub that has facilities that are available outside regular hours, are safe for the public however this decision does the exact opposite.

I hope that council can see the light and reverse this decision so that we may all continue to enjoy karting while also continuing to limit the impact of cars within the city precincts.

Thank you for your consideration.

James Alexander Stillone

Hyperkarting, has been a place for me to destress and enjoy myself, the shear thought of it being closed for more parking is extremely sad to hear.

I hope you hear everyone's outcry of support and reverse your decision to keep jobs secure and to keep a place for the community to grow and converse in a meaningful way that allows for Sydney to become a more friendly place

Hello,

I am writing to formally express my strong opposition to the proposed redevelopment of Hyper Go karting at Moore park back into a standard car park. While I understand the ongoing discussions regarding urban infrastructure, replacing a unique, high-value recreational space with asphalt and parking bays would be a significant loss for our city's character and community spirit.
As someone who frequently visits the track, I have seen firsthand the joy and connection this venue provides. Most recently, I attended a groom's party there, and the experience was a perfect example of why this place matters. It isn't just about racing; it is one of the few local spots where friends and families can gather for milestone celebrations, creating memories.

The value of a city is measured by its vibrancy and the quality of life it offers its citizens. I urge the committee to consider the long-term social impact of removing this landmark. We have plenty of space for cars, but we have very few places where we can truly engage with one another.

Sincerely yours,
A local citizen and member of our caring community

Hi Shannon, in just emailing to show my support for the business Hyper Karting, which has caused the enjoyments of thousands of people over the last 5 years. I would hate for this to be removed for unnecessary car space. The field is opened up for large events so it has no purpose to add these extra spots as the car park is never full anyway. Hyper karting provides an attraction for people from all over to visit and provide a boost to the local community, the same cannot be said for a car park.

Thank you and kind regards,
Mario krivosic

Hi, it is very disappointing to hear that the council is considering closing Hyperkarting in EQ.

That place has been a great spot that is loved by kids all over Sydney.

My son and daughter both had numerous birthdays there and are regulars at the track. There is no analogous alternative anywhere in Sydney, and closing this spot for the sake of a carpark that will be infrequently used is ridiculous.

Please consider the entertainment value that this business brings to the precinct and allow them to stay. It is invaluable and almost impossible to replicate.

To Whom It May Concern,

I am writing to express my strong support for keeping Hyper Karting open. In South Eastern Sydney, there are very few safe, engaging, and positive recreational options for both young people and adults. Hyper Karting fills an important gap in our community by providing a fun, safe, and well-supervised environment where people of all ages can enjoy themselves.

My daughter will be celebrating her 16th birthday in the coming weeks, and she has chosen Hyper Karting as the place she wants to celebrate with her friends. She is a passionate Formula 1 fan, and this venue gives young people like her the chance to enjoy the excitement of racing in a controlled, safe setting rather than being exposed to dangerous behaviour on the streets, which can make the community feel unsafe at times.

Hyper Karting offers a positive outlet, keeps young people engaged, and provides a safe space for families and friends to come together. It is open throughout the day and night, which makes it accessible and convenient for many households with different schedules.

Closing it down would remove one of the few valuable recreational spaces we have in this area. I strongly urge you to reconsider any plans to shut it down and to recognise the important role it plays in supporting community wellbeing.

Thank you for your time and consideration.

Warm regards,

Kim Cerniglia.

Slowly the government is taking away any joy and activity there is to do in Australia.

You ban everything and stop any fun, and wonder why so many people are glued to their phones, or don't go out and enjoy the country.

And yet again… you're doing the same.

If you shut down Hyper Karting, it just proves how much of a worthless government we have, that don't give a shit about Australians at all.

You may think it's something so little, but you're literally shutting down a business, over what? 100 parking spots? So much for catching public transport…

You're putting many people out of jobs. Over what? 100 parking spots?

Get a grip on yourself. You work for us, we don't work for you. Just remember that.

To whom this may concern,

Hyper karting is a family friendly atmosphere welcoming children from as young as 3 years old.

I took my 3 children aged between 4-8 years old for the first time just last week and they had an amazing time.

It would be such a shame to see this fun place go where it brings many people of the same interests together.

Thank you,
Dina.

Dear Sir/Madam,

I am writing to express my concern regarding the potential decision to shut down Hyperkarting in Sydney.

Hyperkarting provides a unique and valuable recreational experience for the community, offering a safe and controlled environment for motorsport enthusiasts and casual visitors alike. It is not only an exciting activity but also an important social venue where people can gather, compete, and unwind.

Shutting down Hyperkarting would remove a positive outlet for young people and adults, potentially pushing individuals toward less safe or unregulated alternatives. Additionally, the venue contributes to the local economy by creating jobs and attracting visitors, which benefits surrounding businesses.

Rather than closing the facility, I strongly encourage the City of Sydney to consider alternative solutions, such as reviewing operational concerns, implementing stricter regulations if necessary, or working collaboratively with the business to address any issues.

I believe that preserving venues like Hyperkarting is important for maintaining a vibrant, diverse, and engaging city environment. I respectfully urge you to reconsider any plans for its closure.

Thank you for your time and consideration.

Kind regards,

Nik Koncarevic

Dear Sir/Madam,

I am writing to express my strong support for Hyper Karting and to urge you to reconsider any plans that may result in its closure.

Hyper Karting is more than just an entertainment venue—it's a place that brings people together. I've personally had great experiences there, whether it's the adrenaline of racing, the competitive atmosphere with friends, or just having a fun and unique activity to enjoy. It's one of the few places that offers something genuinely exciting and different.

The memories created at Hyper Karting are hard to replace. It's a go-to spot for social events, group outings, and even just a spontaneous night out. Losing it would mean losing a valuable part of the local entertainment scene.

Beyond personal enjoyment, Hyper Karting plays an important role in the community. It provides jobs for over 150 people and offers a safe, engaging environment for people of all ages. Replacing it with additional parking spaces does not provide the same social or economic value that this venue currently brings.

I strongly believe Hyper Karting should remain open. It contributes to the community in ways that go far beyond what a car park ever could, and its closure would be a significant loss for many people.

Thank you for taking the time to consider my perspective.

Kind regards,
Hayden

I just heard you want to turn an epic place where families and friends come to celebrate and enjoy life together, racing the night away, instead of on the streets, into a car park? Surely you got better things to do?

Hyperkart and its community want to be just that a community, right where it's been.
I kindly suggest you find another spot for a carpark. I mean your the city of Sydney. Act like it and find another spot.
Hold places of value such as this in high regard. They are what make Sydney great. Not carparks.

Dear City of Sydney Council,

I am writing to express my strong opposition to the proposed expansion of car parking at the Entertainment Quarter. As a resident, I am struggling to understand how this proposal aligns with the City's stated environmental and transport priorities, particularly given the significant impact it would have on HyperKarting — a climate-friendly, community-focused small business that has become a valued part of the precinct.

HyperKarting operates fully electric, zero-emission go-karts and has invested heavily in sustainable recreation. It is exactly the kind of business the City frequently highlights as part of its vision for a greener, more innovative Sydney. Yet this proposal places HyperKarting at risk of closure, despite the fact that the existing EQ car park isn't operating anywhere near capacity. The potential loss of 150 jobs — real people with families, bills, and livelihoods — should be a central consideration in any planning decision.

HyperKarting is not just another tenant. It is an anchor business in the Entertainment Quarter. It draws families, young people, tourists, and locals into the precinct, supporting foot traffic for surrounding restaurants, hospitality venues, and retail operators. Removing an anchor business has predictable consequences: reduced visitation, declining revenue for neighbouring businesses, and a cascading effect that makes the entire precinct less relevant and less viable over time. Decisions like this do not just eliminate one business — they destabilise the ecosystem around it.

HyperKarting also attracts visitors from across Greater Sydney, as well as interstate and international tourists seeking out unique, family-friendly experiences. It is one of the few activities in the precinct that consistently draws people who would not otherwise visit the Entertainment Quarter. Undermining a business with this level of regional pull does not just affect local trade — it reduces the precinct's relevance to the wider metropolitan economy and weakens Sydney's appeal as a destination. The knock-on effects of removing such a drawcard would be felt well beyond the boundaries of the LGA.

Around the world, sustainable motorsport is expanding rapidly, with electric karting and electric racing seen as key pathways for engaging young people in low-emission technologies. HyperKarting is one of the few venues in Australia that offers this kind of accessible, climate-aligned recreation. It stands out as a genuinely sustainable alternative to traditional go-karting venues such as Eastern Creek, which remain fully dependent on internal-combustion engines. At a time when Australians are already dealing with fuel price shocks driven by global instability, it is difficult to understand why the City would consider shutting down an electric, zero-emission motorsport business during a fuel and cost-of-living crisis. Removing a business that actively reduces reliance on fossil fuels — and replacing it with additional car parking — sends the opposite message to the one the City claims to champion.

At a time when Australians are already under immense pressure from rising rents, fuel prices, and the broader cost-of-living crisis, decisions that risk unnecessary job losses are not just local issues. They have consequences for the NSW Government and the Commonwealth, which are both actively trying to prevent unemployment and support industries that contribute to a "Future Made in Australia" economy. Eliminating 150 positions in a sustainable, electrified small business — and risking further job losses through the flow-on effects to surrounding hospitality and retail — runs counter to those broader economic objectives. A decision that destabilises employment in the Entertainment Quarter does not remain a local issue; it becomes a matter that affects state and federal labour market pressures, industry confidence, and the

economic resilience that governments at all levels are trying to strengthen.

This proposal also sits uneasily alongside the City's long-standing justification for removing on-street parking and converting functional two-way streets into constrained one-way corridors to support active transport. Whether or not residents agree with every decision, the message has been consistent: reducing car dependency is essential. Expanding car parking in a high-traffic precinct while simultaneously reducing parking and road capacity elsewhere creates a planning landscape that feels inconsistent and difficult for residents, commuters, and small businesses to navigate.

Many in the community are frustrated by what they perceive as contradictory decision-making under the current leadership. This proposal unfortunately reinforces that perception. It raises legitimate questions about the coherence of the City's environmental strategy and whether the impacts on residents, workers, and small businesses are being fully considered.

Sydney voters are paying close attention to decisions that worsen cost-of-living pressures, eliminate sustainable jobs, or undermine innovative local businesses. These choices matter, and people will remember which leaders protected community assets — and which ones allowed them to be lost.

I urge the Council to reconsider this proposal and to engage in genuine consultation with HyperKarting, its staff, and the broader community. Sydney deserves planning that is transparent, consistent, and aligned with the environmental values the City promotes — planning that supports sustainable businesses rather than undermining them.

Sincerely,
Matthew Ross

Good Evening,

I was saddened to see a post and email regarding the closure of Hyper Karting due to the carpark space being reclaimed.

Do we really need more car spaces? I have been to the entertainment quarter many times and I have not seen the upper levels full ever, even when large sporting events were on. And trust me I know as I travel 1.5 hours from the Hawkesbury to come so no public transport for us! We always park in this carpark and have never had an issue.

I have been here many times over the years for birthdays, dates and more recently getting a chance to drive with my partner who races professionally. As no way in hell you're getting me on a serious race field LOL I prefer the indoor track to others we have gone to as I like the lights and music as silly as that might sound, it really sets it apart for me.

The staff have always been really great, trying to get us into sessions that are less busy so we can go faster and understanding we know how to race so giving us the faster karts LOL On top of this I have had the pleasure of meeting some of the staff off-site when they started endurance karting, young guys who are passionate about what they do.

Please don’t shut them down, it will be a massive loss to the local area and it will also impact the entertainment quarter as a whole. I can personally say when I have visited, the dinner or lunch was just an add on to having some races here. Without Hyper Karting I have no real reason to come back to EQ.

I hope this will be reconsidered and they can stay open!

Kind Regards,

Lisa Hilleard

Ms Rickersey,

I wanted to reach out in strong support of keeping Hyper Karting open. As a local resident and regular patron, I know firsthand how valuable this venue is to our community.

Our area already has limited recreational options, and with increased residential density on the way, the demand for quality leisure facilities is only going to grow, not shrink. Venues like Hyper Karting provide something increasingly rare: a unique, accessible, and genuinely fun experience that brings people of all ages together.

Losing HK would leave a real gap in the community that would be very difficult to replace. I sincerely hope the right decision is made to keep it operating, rather than adding additional car parking, which is neither needed nor a meaningful alternative for our community.

Kind regards,
Brooke Kennewell

To whom it may concern,

I am astonished I am even having to write this email. After years of disaster the entertainment quarter is slowly but surely coming to life and finding its purpose.

Hyper carting is a huge part of that success. The car park is NEVER full. If we are talking about closing a day in day out institution for what a handful of major events a year that is surely the wrong approach!

Catch public transport, whatever it takes! I mean the new stadium parking will cover that 5th floor easily!

I think this is a huge mistake and will impact many on a frequent basis including jobs and the overall EQ experience for adults and kids alike.

I know my 5 and 8 year old girls will be devastated.

Thanks for your consideration.

Avi

Hi,

Replacing HyperKarting with parking is not only dumbfounded but also an attack on society, is parking profit really better than having another big reason to visit Entertainment Quarter, which effectively would reduce visits...

Kind Regards,
Joshua Watson

I think it's silly to close down something that children and adults have a time of their life at. Hyper karts puts a smile on so many people's faces and to close it down to accommodate more parking spaces seems absolutely ludicrous and unfair.

Hyper karts is not just a business it's a place where families go to feel like family. They are welcomed and treated great and I don't think you need more parking in this place. Close down parks or something and make some space for parking or take signs down and allow people to park on the street.

Don't be silly in removing family fun for silly parking spots so you can make more money.
Kind Regards,

Ceylan Demir

Hi,

I am writing as a member of the local community to express my support for Hyperkart and to request the council's consideration regarding the parking concerns associated with its go-karting activity.

While I am not directly affiliated with the business, I have observed that Hyperkart provides a unique recreational outlet for the community and contributes positively to the local area. Importantly, the operation supports approximately 156 employees, and any disruption may have a significant impact on local jobs and families.

I understand and respect the council's responsibility in managing parking availability, traffic flow, and public safety. At the same time, I believe there is an opportunity to work collaboratively with Hyperkart to address these concerns without requiring a full cessation of operations.

From a community perspective, measures such as better parking management, clearer signage, and adjustments to operating hours could help mitigate the current challenges while allowing the activity to continue.

I kindly request that the council take a balanced approach in considering this matter, supporting both community access to recreational activities and local employment, while ensuring appropriate safeguards are in place.

Thank you for your time and for your continued efforts in supporting the local community.

Thanks,
Bharat

Hi DA Submissions,

I'm writing to share my support for Hyper Kart and to ask that the DA allows the venue to remain open.

Hyper Kart has become a valued part of the local community. It's not just a business - it's a place where families, friends, and young people come together to enjoy a safe and well-run activity. For many people, it's one of the few recreational options around that's exciting, inclusive, and professionally supervised.

Thanks

Dear City of Sydney Council,

I am writing to express my strong support for keeping Hyperkarting Sydney operational and to urge the Council to consider its significant value to the local community.

Over the past several years, Hyperkarting has become an important part of my family's life. All three of my children have celebrated their birthday parties there, and it has consistently provided a safe, engaging, and genuinely memorable experience for them and their friends. As a parent, it is increasingly difficult to find venues that cater meaningfully to a wide range of ages, but Hyperkarting stands out as one of the very few in Sydney that successfully does so.

What makes Hyperkarting particularly valuable is its accessibility and inclusivity. It offers an activity that both younger children and older participants can enjoy together, creating shared experiences that are rare in today's entertainment landscape. In a city where many activities skew either very young or adult focused, this kind of all ages offering is incredibly important.

Beyond personal experience, venues like Hyperkarting contribute positively to Sydney's social fabric. They provide a structured, supervised environment where families and groups can gather, celebrate, and connect. They also support local employment and contribute to the vibrancy of the city's recreational offerings.

Losing Hyperkarting would mean losing more than just a business. It would remove a unique and valuable community space that serves families across Sydney.

I respectfully ask the Council to take these factors into account and to support the continued operation of Hyperkarting Sydney.

Thank you for your time and consideration.

Kind regards,
David Dwyer

To whom it may concern!

Hyper karting is worth more to the area than more car spaces. Removing a key feature of the entertainment quarter would significantly downgrade the area and take away from the idea in the name of"entertainment quarter". If access to public transport was improved instead of adding more carports, more people would likely choose public transport over driving to the venues! Public transport as you well know is better for the environment than individual cars.

Thank you from a hyperkarting fan

Can we have something in this city that isn't apartments or car parks?
Fox Studios is such a soulless husk of a place, the hyperkarts is the only reason to go there.
The Comedy Store, the Cinema, the Hordern - these places are doing just fine with the parking available. They don't need another level of spots at the cost of the only place in that shithole complex where you can hear people actually enjoying themselves.

Don't do it.

PLEASE REPLACE THIS EMAIL TO SHOW YOUR SUPPORT FOR HYPER KARTING

Hyper Karting is currently at risk of closing down, making over 150 people lose their jobs just to increase the car park's capacity by 296 car spaces and we need your help.

If you're a supporter of Hyper Karting, we encourage you to use this email to share your experience and express why Hyper Karting matters to you. Your message can make a real difference.

In your email, please include:

- Why you enjoy Hyper Karting
- Any memorable experiences you've had
- Why you believe it should remain open
- How it has impacted you, your friends, or the community

Every message of support helps show how important Hyper Karting is. Thank you for taking the time to help us keep trading.

Alex C

Dear Ms Rickersey,

I am writing to you as a long-term Sydney parent whose family has been actively involved with Hyper Karting since it first opened. Our son began racing there at just three years old, and the venue has become an irreplaceable part of his childhood and our family's weekly routine.

Hyper Karting is not simply another entertainment venue; it is a true community institution in the Entertainment Quarter. What sets it apart is its unique ability to welcome children as young as 3, allowing them to safely start their motor racing journey in an exciting, electric, and controlled environment. Our son celebrated his birthday there with friends and family, introduced numerous schoolmates to karting, and we continue to visit almost every week, often combining it with the vibrant Saturday markets in the precinct.

In a time when encouraging children to move away from screens and engage in active skill-building activities is more important than ever, Hyper Karting delivers precisely that. It builds focus, coordination, sportsmanship, and confidence while operating reliably rain or shine. For hundreds of young Sydneysiders, it serves as their first real introduction to motorsport, nurturing dreams and healthy ambitions. Closing it down would be a significant loss, especially for the youth of our city, by removing one of the few accessible and safe entry points into this world.

Beyond families like ours, Hyper Karting supports local jobs and draws consistent visitors to the Entertainment Quarter, adding genuine vibrancy and foot traffic to the entire precinct. Converting this high-energy attraction back into underutilised parking spaces feels counterproductive, particularly when the council has long promoted a vision of a city for people, not cars. Hyper Karting embodies that vision far better than empty bays ever could.

I understand the council's concerns regarding parking availability in the Moore Park area. However, given Hyper Karting's proven success since 2021, welcoming hundreds of thousands of visitors, and its temporary approval history, a short extension would allow time for a more balanced solution. Prioritising the return of two car spaces over a thriving community asset that brings people, families, and economic activity to the precinct does not seem to serve the broader public interest.

I respectfully urge you to reconsider the refusal and support an extension or alternative approval that enables Hyper Karting to continue operating.

This decision would protect jobs, preserve a beloved youth-focused venue, and maintain the Entertainment Quarter as a genuine destination rather than just a car park.

Thank you for your time and for the important role you play in assessing developments that affect our community. I am more than happy to provide further details about our family's experience to discuss how deeply this venue matters to families across sydney.

Yours sincerely

Demetrios Christou

Proud parent and regular visitor to Hyper Karting

Dear City of Sydney Team,

I'm writing to sincerely ask you to reconsider the decision to close Hyper Karting in Moore Park.

This place is more than just an entertainment venue—it's a space where people connect, unwind, and create lasting memories. When I visited, it wasn't just about racing; it was about the experience. I shared genuine moments of joy, met new people, and built friendships that I still value today. Opportunities like that are rare, especially in a busy city where meaningful social connection can be hard to find.

Hyper Karting offers something unique. It brings together people of different ages and backgrounds in a positive, energetic environment. For many, it's not just a one-time activity but a place they return to—whether to celebrate, relieve stress, or simply enjoy time with others.

Closing it would mean losing a vibrant community space that contributes to the social fabric of Sydney. I truly believe places like this play an important role in making the city feel alive, welcoming, and connected.

I respectfully urge you to consider the impact this decision will have on the community. For many of us, Hyper Karting is not just a venue—it's a place full of memories, friendships, and meaningful experiences.

Thank you for taking the time to read this and for considering the voices of those who value this space.

Kind regards,

Jasmeet Singh

To whom it may concern,

I am writing to express my staunch opposition to the City of Sydney's decision to reject the extension of HyperKarting operations on level 5 of the Entertainment Quarter car park until 1 July 2028. Not only does this decision threaten the employment of over 150 (primarily young) employees in a cost of living crisis, but effectively eliminates many Sydney residents' access to a legitimate, accessible and affordable motorsport venue for very little gain.

With almost all Sydney karting venues being found tens of kilometres west of the CBD and costing upwards of $50 per 10 minute race, HyperKarting has operated as the only affordable (<$20 at times) and accessible karting venue for a significant proportion of Sydney's population and its closure would heavily restrict access to this sport for all of these residents.

Beyond this, the proposed addition of 296 car spaces used to legitimise this decision is misguided and out of touch with the present state of Moore Park and the Entertainment Quarter. It goes without saying that the dual Allianz-SCG complex comprised of two 40,000+ seat stadiums will simply not benefit substantially from an additional 296 car spaces. The proximity of Moore Park to Central station and the addition of frequent, reliable light rail since the 2019 opening of the L2/3 line improves access to the facilities in a way that this additional parking just never could. To deem a well-regarded business offering affordable, beginner-friendly access to a growing sport less valuable than a 7.7% increase in available parking (taking availability all the way from wildly insufficient to *still* wildly insufficient) is just so disappointing for myself and for many others who frequently make use this venue.

I urge you to reconsider this rejection and to recognise the immense value added to the area by this business: something that could never be equated to such an insignificant increase in parking availability for a venue that has long outgrown the car.

Kind Regards,

Maxwell Forbes

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Sir/Madam,

I am writing as a local resident to express my strong support for the Section 8.3 review application seeking approval for the continued use of Level 5 of the Entertainment Quarter car park for electric go-karting until 1 July 2028.

This facility has become a genuinely valuable part of the local community. My own children absolutely adore it, and it has been the venue for children's birthday parties and family outings. It provides a safe, engaging and unique activity that is not easily replaced elsewhere in the area. From a parent's perspective, it is exactly the type of offering that makes the Entertainment Quarter a destination for families rather than just a transient commercial precinct.

While I understand Council's concern regarding the loss of approximately 296 parking spaces, I do not believe this outweighs the community benefit provided by the facility. In practical terms, the value of an active, well-used recreational venue for hundreds of thousands of visitors each year is far greater than the value of retaining several hundred car spaces that are only intermittently required, primarily during major events.

The precinct is already well serviced by public transport, and many visitors, including families, are increasingly using light rail and bus services to access Moore Park. Outside of peak event periods, it is my understanding that a significant proportion of parking capacity remains unused.

Importantly, removing the go-karting facility would not simply restore parking. It would result in the loss of a vibrant community asset, reduce foot traffic to surrounding businesses, and remove a much-loved activity for local families and children.

In my view, retaining this use represents a far more meaningful and productive outcome for the community than reverting the space to underutilised parking.

For these reasons, I strongly support the application and respectfully request that Council reconsider its decision.

Regards,

Robert Mathews

hi there

As a Sydney local and a regular attendee to hyperkart, I urge you to reconsider extending the licence. Prior to hyperkart, we would hardly ever visit EQ. Hyperkart has driven a lot of traffic to that area and I don't see how bringing an extra car park level would benefit the overall area, esp given the light rail now services that area.

Thanks

Derrick Ttt

To whom it may concern,

What a disgrace to try and close down a business that actually brings people to a precinct that is otherwise becoming defunct - apart from when sports are on at the nearby stadiums and for which public transport has been created for.

During school holidays, for team building days, for birthdays and for family get togethers, we have enjoyed hyper karting as an outing to have fun and bond, and usually follow this with lunch or dinner at one of the restaurants at the EQ.
Without hyper karting, we won't be then also going to the restaurants so the effects will flow over into other businesses- businesses already struggling and that have had a high turnover in recent years.
Black star pastry - gone
The place that was prior to winghaus
Numerous other restaurants that can't survive on the number of people that would only be going to EQ on game days because there is no other reason to go.
Movies? Got to Bondi.
There is nothing like hyper karting nearby and it is for all ages.

Keep it open.

Emma brannigan

To whom it may concern,
Hyper Karting is a one of a kind venue, central to much of Sydney. In the heart of the Moore Park precinct, as you know.

I for one have attended many time with different groups of friends, and the fun we had karting brought us closer together.

The trade off for a few parking spaces is not worth the value of hundreds of thousands of people like my friends coming together to enjoy themselves.

Especially when there are alternative options, like the light rail and Uber available.

I strongly hope you will reconsider shutting HyperKarting.

Sincerely,
Alex Bahn

SAVE HYPERKARTING AT MOORE PARK!!!

We have been hyper carting since the place first opened. It was the ONLY highlight of Covid for our two young boys at the time.

Both of our boys had birthdays there - both of our boys are STILL carting there.

They are now old enough to catch the bus and light rail there. Every school holidays they are there: carting with mates instead of causing trouble with mates and roaming the streets as young teens seem to be doing! AND it means they are OFF THEIR DEVICES! And in environmentally friendly electric carts to boot!

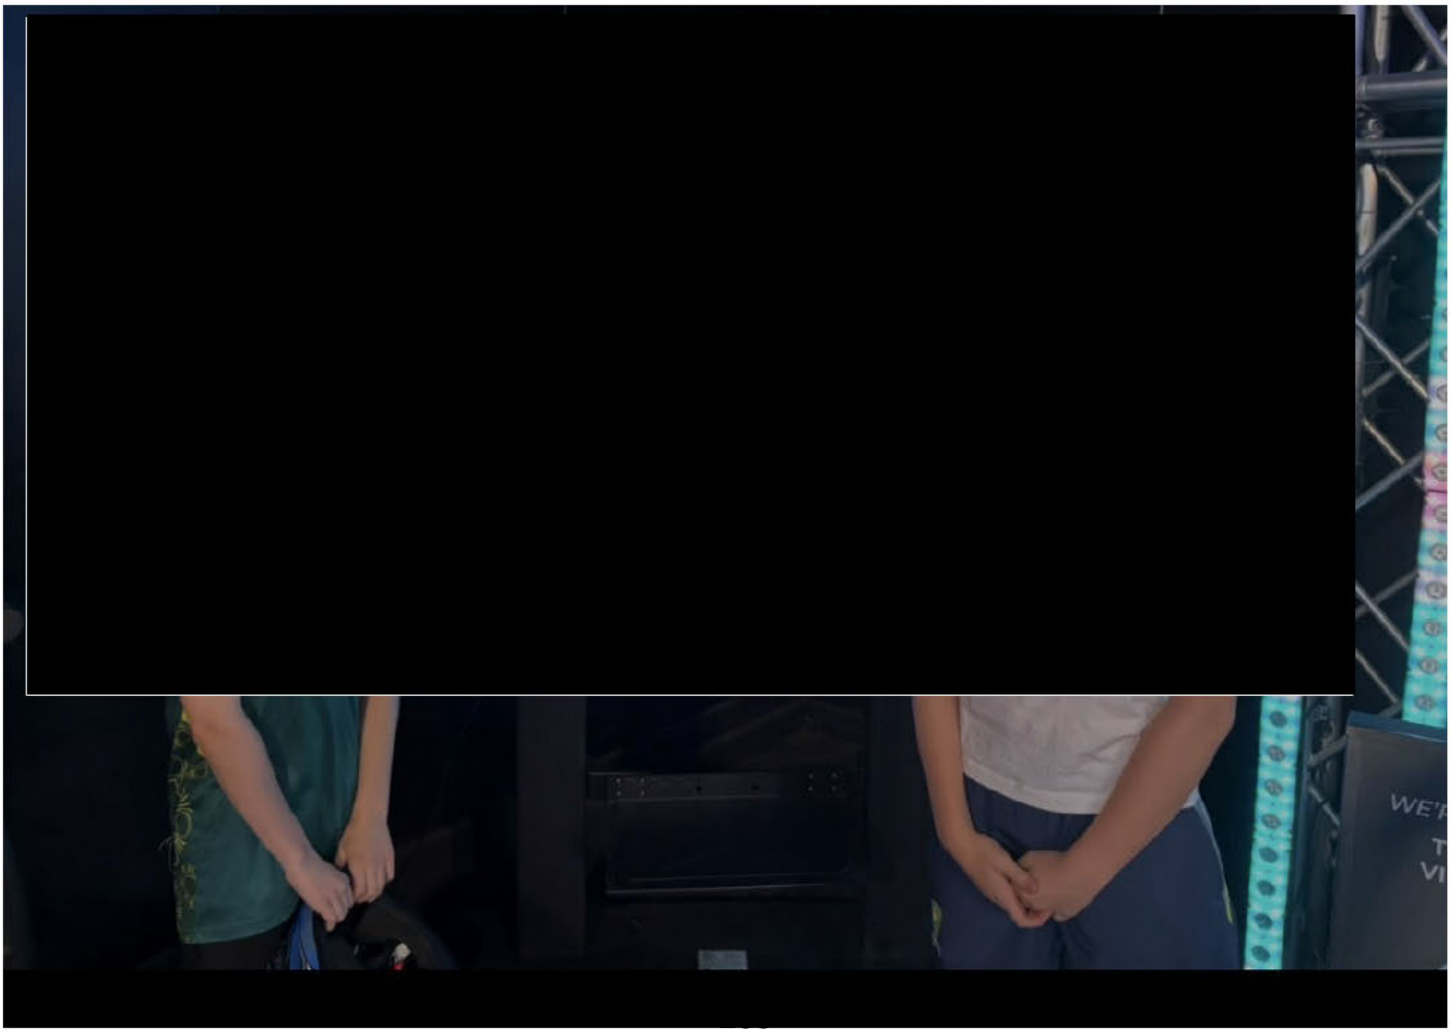
The operators at Hypekarting are first class. Even when we have had to cancel sessions due to illness - they have never had a problem crediting our session for future sessions. Compare this to any other business - cancelling anything pre booked these days means no refund and money lost! The team there has always filled us with confidence.

We live in the inner west - and with both of us parents working - there are no other alternatives that allow our boys to make their own way safely to … Bankstown carts are way too far - Concord go carts just feel unsafe with petrol carts and fumes.

The light rail has been a game changer for the boys - making it so easy for them to get there on their own. How can government you deliver a light rail and then want to close down the one business that draws an audience to that precinct consistently and not just for a cricket game, footy game or concert!

Our boys - like a lot of others - don't just cart there - they spend (our money) at the various food outlets - which - let's not kid ourselves - struggles to thrive there when there isn't a major event.

And you guys are now wanting to close this place and increase … PARKING? At a time when we are transitioning away from cars and governments are encouraging public transport (in all forms) … you want more parking?! This can not be real? In 2026 you really believe that a family friendly, family run business is to play second fiddle to … car spaces????



For the sake of the young boys and girls that need something wholesome to do on weekends and school holidays and on those random 'school teacher development' days - keep this place running!!!

Do right thing for the kids (and adults!) and keep this place opened! Sydney needs MORE of these places … not less!

Thank you for considering my email.

Hi,

It is incredibly disappointing to hear that Hyper Karting is at risk of closing down.

It is a fantastic venue convenient to the cbd for karting. My friends and I have enjoyed many nights out there competing, and I even went on one of my first dates with my now-wife there.

Hyperkarting employs many young people and is a significant draw card to the Entertainment Quarter precinct, also bringing business to surrounding businesses such as cafes and restaurants.

I ask you to reconsider this proposal as so many people enjoy Hyper Karting both for competition and socialising. It would be a great loss to the Entertainment Quarter for it to go.

Yours sincerely,
Chris Lawn

Dear Sydney City Council,

I am writing to express my support for keeping Hyper Karting open. It is a great entertainment venue that provides a fun and safe activity for families, young people, and visitors to Sydney.

Places like this are important for the community because they create jobs, attract visitors, and give young people positive activities to enjoy.

Closing venues like Hyper Karting would mean losing an important recreational space that many people enjoy. I strongly encourage the council to consider the community benefit it provides and look for ways to support it staying open.

Thank you for taking the time to consider community feedback on this matter.

Kind regards,
Cagla Ongel

Closing down Hyper Karting at Entertainment Quarter Moore Park would be a major loss not just for motorsport enthusiasts, but for the wider Sydney community. This venue offers a rare, accessible way for people of all ages to experience high-performance electric karting in a safe and controlled environment, fostering both recreational fun and grassroots interest in motorsports. In a city like Sydney, where space for unique, active entertainment is increasingly limited, Hyper Karting provides an important alternative to passive leisure activities while also supporting local jobs and nearby businesses. Its presence contributes to the vibrancy of Moore Park as a social and entertainment hub, drawing in visitors and boosting the local economy. Shutting it down would not only remove a popular attraction, but also diminish opportunities for community engagement, skill-building, and tourism in the area.

Hello,

I am writing to appeal the decision to close down hypercarting Sydney.

It is one of the more accessible entertainment options near the city for children and adults alike, and one of the main reasons why myself and my peers visit Entertainment Quarter.

We understand parking facilities are important, but so are the reasons why people would visit the quarter to use said facilities.

If there is an alternative which can be found to save Hypercarting Sydney and find alternative parking options that would be great!

Thank you,
Tas

Please do not close down hyperkarting from the carpark. It is such an amazing location and I've been organising events there for years. Brought at least 100 people and been 30+ times myself.

It will make me very sad if it were forced to shutdown and used for car parking :(

To whom it may concern

As a business owner of one of the shops at Entertainment Quarter (Popelino Cafe) I would like to mention the negative consequences that could affect my business if Hyperkarting were to close. We are a small café that relies heavily on the traffic generated by Hyperkarting, as well as on its employees. The large number of people who come because of its operation allows us to stay afloat in this highly competitive industry. We also have six direct employees. Thanks to the customers in Entertainment Quarter, we are able to continue employing these people and avoid the consequences of a future closure if we don't have enough traffic. Therefore, we ask that you allow Hyperkarting to continue operating, as it benefits both the businesses surrounding Entertainment Quarter and the community.

We await your understanding

Kia Ora,

As a kiwi who loves Sydney as a city and a place I call a second home, Hyper Karting is one of the most important places that have drawn me to Sydney. Every trip I take to Sydney. I make sure to take as many sessions as possible, which I'm sure for many others is what draws people to your city.

Clearly here it's not just a space for tourism but something that creates community and most importantly, a wonderful third space. It's a unique and fun activity that thousands come to consistently

Please consider the jobs of those who make the HyperKarting community special. Please consider how many people are drawn to Moore Park because of HyperKarting.

Thank you for your time and consideration.

Dear Sydney Council,

Hyperkarting is the only reason why many people including myself head to the entertainment quarter outside of a footy game. It brings people to the area on all days of the week at all times of the day. I regularly go there from the cbd for a lunch time session and then have a few drinks and get food at nearby venues.

It is one of the best things to happen to the EQ and a fun day out for people from all parts of Sydney.

I hope you reconsider and approve the continued usage of the carpark for Hyperkarting.

Cheers,
[redacted]

Dear City of Sydney,

I am against the closure of Hyper Karting in the Entertainment Quarter. I've had so much fun there with so many of my mates, we've had great battles there on track. It would be extremely disappointing if Hyper Karting was closed for some extra car parking spots.

Hyper Karting makes the Entertainment Quarter what it is, people come to the Entertainment Quarter for Hyper Karting and end up eating there or visiting other attractions, ITS IS THE MAIN FOCUS OF THE ENTERTAINMENT QUARTER. I have yet to see the carpark full on an off day where there is not a major event on, so what is the point of closing it when there is no interest when there is no major sporting event?

Hyper Karting bas created so many memories for not only myself but many of my friends as well. I will be greatly saddened if it does close.

I hope Hyper Karting remains active and running into the far future.

Vinson

This is the Lam family.

We're here to support Hyper Karting!

It's the only place in Sydney where our toddlers can truly enjoy the ride. We visit every month, and always talk about with the kids in just a few more years, they'll be ready for the bigger go-karts!

This is a place we recommend to all our friends with young kids. Because of it, we can easily spend a whole day at Moore Park as a family.

Please don't close this special place.

Regards
Lam

Hello,

Hyperkarting at Moore Park is a fantastic way to have fun for heaps of people who live nearby or come to visit.

We need to rethink how big concrete car parks are used. City of Sydney have championed fewer cars not more with the light rail and public transport to the area.

Moore Park is known as an entertainment destination, so it's fitting that Hyperkarting is kept at Moore Park!

Matiu.

Dear City of Sydney Council,

I am writing to express my strong support for Hyper Karting at Moore Park and urge you to reconsider the decision to close this fantastic venue.

I truly enjoy Hyper Karting because it offers thrilling, electric go-kart racing on Australia's longest indoor track, right in the heart of Sydney's Entertainment Quarter. The futuristic setup with changing layouts keeps every visit exciting and accessible year-round, rain or shine.

I've had multiple memorable trips there with different groups of friends aged 18 to 70, from young adrenaline junkies to older family members celebrating birthdays. Everyone leaves buzzing with excitement and competitive stories. We've had friends travel from all over Sydney to race at this fantastic location.

Hyper Karting should remain open as it provides a unique, family-friendly entertainment option that has drawn over 500,000 visitors since 2021, boosting the local economy and precinct vibrancy.

It has positively impacted me, my friends across generations, and the broader Sydney community by creating jobs for over 150 people and filling a gap for safe, high-energy fun in Moore Park.

The carpark is already a disaster when trying to leave after a significant event; so adding additional parking spots is only going to make it worse due to the poor traffic management plan and inability to clear vehicles quickly.

It really is a mind boggling proposal.

Thank you for considering my submission. Please keep Hyper Karting racing!

Best regards,
Dean Morgan

Dear Lord Mayor Clover Moore and City of Sydney Council,

I am writing as a Sydney resident and supporter of Hyper Karting to strongly urge you to approve the extension of its operations at the Entertainment Quarter in Moore Park.

Since opening in 2021, Hyper Karting has become one of Sydney's most popular and unique attractions. The electric rooftop go-kart track has welcomed over 500,000 visitors, created unforgettable experiences for families, friends, corporate groups, and tourists, and turned the Entertainment Quarter into a genuine destination for fun and connection.

This venue employs more than 150 local people and brings real vibrancy and economic activity to the precinct. Closing it to reclaim approximately 298 parking spaces on Level 5 of a car park that already holds around 2,000 spaces (and is rarely anywhere near capacity) makes no sense. It directly contradicts the Council's stated vision of a city for people, not cars.
Hyper Karting is exactly the kind of innovative, family-friendly, sustainable attraction Sydney needs.

Replacing it with empty car spaces would be a major loss for jobs, community spirit, and the entertainment offering in an area literally named the Entertainment Quarter.

I respectfully ask that Council supports the formal review and grants the short extension so Hyper Karting can continue operating and contributing to a lively, people-focused Sydney.

Every voice counts, and mine is firmly behind keeping Hyper Karting open.

Thank you for your time and for prioritising what truly matters to our community.

Kind regards,
Aco Kovaceski

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

As a regular visitor to the Entertainment Quarter and a member of the local community, I am deeply concerned that the proposed development threatens the viability of**Hyper Karting**, a facility that provides unique social, recreational, and safety benefits to Sydney.

My objection is based on the following key points:

1. Loss of Vital Community Infrastructure

Hyper Karting is far more than a simple entertainment venue; it is a premier sports and recreation hub. It serves as a cornerstone for:

- **Community Milestones:** A go-to destination for birthdays, family gatherings, and youth engagement.
- **Mental Wellbeing:** A space where residents and workers go to decompress and "cool off" in a safe, controlled environment.
- **Professional Development:** It provides a platform where aspiring racing professionals train for real-world motorsports, contributing to NSW's sporting excellence.

2. Public Safety and Road Awareness

There is a significant, often overlooked safety argument for maintaining high-quality karting facilities. By providing a high-performance outlet for driving, Hyper Karting encourages speed and technical driving to stay off public roads. It is demonstrably safer for individuals to "cool off" and test their limits on a regulated track rather than on our public streets. Removing such a venue risks losing this vital outlet for road safety education and adrenaline management.

3. Misalignment of Land Use

The proposal suggests a need for increased parking or generic parkland, yet the Moore Park precinct is already well-served in these areas.

- **Redundancy:** Adding more car park spaces is a regressive step that contradicts modern urban planning goals of reducing car dependency.
- **Underutilisation:** We do not lack "green space" or empty lots in this immediate vicinity; we lack high-quality, high-engagement facilities that bring people together.

The Entertainment Quarter thrives because of its unique attractions. Replacing a highly regarded and well-attended venue with redundant infrastructure would be a significant loss to the cultural and social fabric of Moore Park.

Not only am I a public attendee of this venue, but also a decorated member of the racing community and retired professional motorsport athlete, I have seen first hand how people learn and develop from services and venues such as Hyper Karting, kids as young as 8 mature incredibly fast compared to everyone else their age, they become more responsible, more independent, completely changing how I view younger generations which seem lost to technology.

Seeing these kids develop gives me hope for the future of not only our community but the world, having venues such as these enables children and adults alike to have these such experiences and lessons, do not be the ones to take this amazing venue from them.

I urge the council to reject this application and protect the diverse recreational offerings that make this precinct a destination.

Best Regards,

Vaughn

Hi there

Closing HyperKart would be an absolute crime. The idea of having the go-kart track spread over a car park top level is genius. We have visited for a birthday event and a team building event. We have also brought the kids and attended as a family.
Do not shut them down.

Regards Angie

Hello,
I have been informed that the city is considering to repurpose the venue of hyperkarting. I must say this feels like one of many poor decisions that a global city like ours would be taking. May I ask for further details regarding this consideration? I can personally attest to the value this place has added to me and my family. My 5 year old son absolutely loves the track and the proximity of the location to where we live helps us spend weekends here.
Shouldn't the city consider making places more accessible via pubic transport than adding more private car spaces, it seems counter productive to our sustainability goals.
I would vote for hyperkarting to stay and continue to provide the fun family entertainment that it does so well.

Cheers,
Mandar Jadhav

PLEASE REPLACE THIS EMAIL TO SHOW YOUR SUPPORT FOR HYPER KARTING

Hyper Karting is currently at risk of closing down, making over 150 people lose their jobs just to increase the car park's capacity by 296 car spaces and we need your help.

If you're a supporter of Hyper Karting, we encourage you to use this email to share your experience and express why Hyper Karting matters to you. Your message can make a real difference.

In your email, please include:

- Why you enjoy Hyper Karting
- Any memorable experiences you've had
- Why you believe it should remain open
- How it has impacted you, your friends, or the community

Every message of support helps show how important Hyper Karting is. Thank you for taking the time to help us keep trading.

Dear City of Sydney Council & Shannon Rickersey,

I'm writing to express my strong support for Hyper Karting continuing to operate in the carpark at the Entertainment Quarter.

Hyper Karting has become a genuinely meaningful activity for me and my family. It's something my son and I regularly enjoy together, and it's given us a fun, active way to spend quality time bonding. In a world where it's increasingly hard to pull kids away from screens, having an experience like this, exciting, social, and outdoors, is incredibly valuable.

Some of our best memories together have come from visiting Hyper Karting. Whether it's the friendly competition, the excitement of improving lap times, or just sharing a laugh after a race, it's created moments that stick with you. It's more than just an activity it's an experience that brings people together.

Importantly, Hyper Karting offers a form of entertainment that is not centred around alcohol. In a city where many social activities revolve around bars or drinking, it's refreshing to have an option that is family-friendly, inclusive, and suitable for most ages in the family. This makes it especially valuable for families, young people, and those simply looking for a different kind of social experience.

I also believe Hyper Karting adds something unique to the local community. It attracts families, groups of friends, and visitors, contributing to the vibrancy of the Entertainment Quarter precinct. It provides an accessible and engaging activity that appeals across age groups, and I've personally recommended it to friends who have also gone on to enjoy it.

From my own visits, I've noticed that the carpark has never been close to full, which suggests that the space is not under pressure and is being put to good use by hosting Hyper Karting. Repurposing part of it for a community-focused activity like this feels like a positive and practical use of the space.

I strongly encourage the Council to allow Hyper Karting to continue operating in this location. It offers clear benefits to families, the community, and the local area, and it would be a real loss to see it removed.

Thank you for considering my feedback.

Kind regards,
Gavin Burns

Hi Shannon, hope this email finds you well.

I am emailing in regarding the potential closure of Hyper Karting at Moore Park.

I have been frequenting the premise for the past year on a weekly basis. It has been a place for me and my friends to have a good time after work and it would sadden me deeply to see it go as we do not have anything similar to it nearby.

The staff there have been more than hospitable to their clients/customers and it would be unfair for them to have to find new employment as I genuinely think they enjoy their work and the environment they have been provided.

I hope you reconsider the approval of the premise.

Kindest Regards,
Vinson Xu

Dear Council Members,

I'm writing to express my strong concern regarding the proposed closure of Hyper Karting.

This venue is more than just entertainment, it's a dynamic, community-driven space that supports local engagement, small business activity, and a unique recreational outlet that is difficult to replace. Its impact extends beyond its walls, contributing to the local economy and offering a safe, structured environment for people of all ages to connect and unwind.

Closing Hyper Karting would not only remove a valued attraction, but also diminish the vibrancy and diversity of our community. I urge you to reconsider this decision and explore alternatives that allow it to continue operating while addressing any concerns constructively.

This is an opportunity to support something that is already working, successfully and responsibly.

Thank you for your time and consideration.

Just another member of the community voicing out to keep Hyper karts alive in Moore Park, this place has been my go to for go karting for the past 3 years. Every time ive come the bottom level carparks were never packed and finding parking was a breeze, so why would you want to shut down such a iconic place for people the meet up and have fun. Plus they always have track variety so it's always something different every time I go compared to other places.

Not to mention with the current fuel crisis you'd really think the 'extra' car spots will be needed at all since a lot of people have opted for public transport.

This is something id highly reconsider and continued to let Hype Karts thrive!

You'd also be forcing hundreds of people to lose their jobs to just by wanting 'extra' car spots.

Regards,
Jamie

Hi

Why are you closing such a beautiful spot that encourages the economy to grow. Hyper karting is a community highlight where friends come to race and when people are encouraged to have some fun safely off the main city streets

Hyper karting as a business must stay in business as there are many beneficial factors that are good for the greater Sydney community.

1. They offer competitive pricing between other go karting businesses and they environmentally friendly. Their go karts are electric.
2. Tracks encourage people to not race on the main roads. Hyper karting is a safe space where we can get the adrenaline rush of racing while in a safe space and off the main city streets. Additionally if we have safe spaces to race each other. This reduces the possibilities of higher performance vehicles on our main roads.
3. Hyper Karting is a main attraction. Hyper Karting a a business are operating as a main attraction to the city. They attract people to the entertainment quarter in Sydney where the general public may only visit for the SCG. Allowing hyperkarting to remain operational allows the surrounding businesses to remain afloat especially in this hard social economic time. Businesses are struggling as well as mums and dads across SYD. Having Hyper Karting to be a attraction in Sydney benefits more than having a couple parking spots blocked off

Avenues to work arround

If the city of Sydney requires more parking spaces encorage the use of public transport more. The Middle East crisis has encoraged more people to utilise public transportation more and this should be more encouraged. The decrease of use of personal vehicle will allow more parking spaces to be free. Realistically the main use for that parking space is on major events. Major events will require more parking spaces however INCREASE THE WAYS TO GET THE VENUE. MORE BUSSES. MORE LIGHT RAIL. Increase the ways to get to the venue. Increase capacity on the lines like the L2 And L3 lines. This mass transportation is being used but add more capacity. Run special service busses to get people there and back to a major hub like central. Increases capacity and the use of public transportation to the venue for stadium use.

ALTERNATIVELY

You could take a slight fraction of the level that hyperkarting operates in to allow vehicles to park on the roof of the car park. Missing one level and only taking a slight bit go the operating area that Hyper Karting utilisise FOR ECONOMIC BENIFIT FOR THE GREATER SYDNEY BASIN would allow vehicles to park on the roof of the car park. This could be a semi permanent solution so the city of Sydney can get addition spaces for parking which probally wont even be used at all on off peak times. Working around and with the business is a must to allow both parties to benefit. PLEASE SPEAK TO HYPERKARTING AND WORK WITH THEM TO FIND SOLUTIONS. For all I care youcan take my idea. Small ares of the business will be taken however they can still operate safely as a business and gain profit and revenue. If more businesses operate in Sydney YOU GET MORE TAX MONEY. THINK OF THAT COUNCIL.

The business Hyperkarting is adding benefits to the surround businesses allowing the economy to grow even in harder times. They employ people and they are allowing a safe space that is right in the heart of the city to SAFELY RACE each other with fun track layouts that are changing constantly. Hyperkaritng is a benefit to this city and IT WILL BE A SHAME IF THEY CLOSE. If hyper karting is to close under your government just for a couple parking spots I hope they you are aware of the wider impact that you will have on the surrounding businesses within the entertainment quarter. I truely wish you are aware are speaking to relevant bodies to assess the wider economic benifits that hyper karting builds for the entertainment quarter. The entertainment quarter has a staple that encourages people to visit when major events are held.

If you wish to contact me with any ideas or even if I could consult on some ideas please feel free to reach out to myself

Hope you had a great Easter long weekend
Kind Regads
Ryan

Dear Sir/Maam

I write out of concern for the closure of Hyper Karting at Moore Park. It is one of the few places in Sydney, and the only place in inner city Sydney where both kids and adults can enjoy Go Karting. In order for Sydney to be a diverse city offering a multitude of different experiences for all age groups it is essential to make space for activities like go karting. It is extremely shortsighted to remove a well functioning activity and business in favour of parking spaces.

Kind regards

Andy Brown

Dear Sir/Madam,

I recently visited Hyper Karting at the Entertainment Quarter and wanted to express how impressed I was with the experience. It is one of the few places in Sydney that offers something genuinely unique and exciting for all age groups.

The energy, the crowd, and the overall vibe made the precinct feel alive. It's not just about karting — it's about creating an experience that keeps people staying longer, spending more, and enjoying the area.

Removing such a popular attraction for a car park would take away a big part of what makes the Entertainment Quarter special. I strongly encourage you to reconsider and preserve Hyper Karting as part of Sydney's entertainment future.

Dear Council,

I am writing to formally express my strong opposition to the proposed works that would result in the closure of Hyper Karting.

As a regular customer, I have personally experienced the value this venue brings-not just as an entertainment facility, but as a unique community space that fosters connection, enjoyment, and a sense of belonging. It is a place where people of all ages can come together, unwind, and engage in a safe and exciting activity.

The justification that this space is required for car parking is difficult to reconcile, particularly when the current use delivers clear social and economic benefits. Hyper Karting supports local employment, contributes to the local economy, and provides a recreational outlet that is not easily replaced.

Closing this venue would have a tangible negative impact- not only on the employees and their families, but also on the broader community who rely on and enjoy the service it provides.

I respectfully urge the Council to reconsider this decision and explore alternative solutions that preserve this valuable business while still addressing infrastructure needs.

Thank you for taking the time to consider my perspective.

Kind regards,
Hunter

Hi,

I'm emailing about the potential shutdown of Hypercarkting. This would be a massive loss to the community, speaking as someone who was born and brought up in Sydney and now a mother myself, the community is in need so spaces for fun and enjoyment. Hyperkarting bring joy, connection, sense of community, and we need that in a city like Sydney. We lost Wonderland, the monorail decades back, and continually we lose places with the pretence of efficiency but the places you consider inconvenient are what make Sydney so lively and iconic. This city should be more than a place for people to just work and function, and places like Hyperkarting remind us of that.

Regards,

Fariha Khaled

Dear Shannon,

I hope you don't mind me reaching out, but I felt I had to say something.

I recently heard about the possibility of Hyper Karting Sydney shutting down, and honestly, it hit harder than I expected. It is not just a venue or an activity. It is one of those rare places that truly brings people together.

In a world where everything is becoming more digital and disconnected, Hyper Karting is somewhere people can switch off and be present. The adrenaline, the competition, and the laughter between races create real memories. It is where friends bond, couples go on fun dates, and people step away from their routines for a while.

Places like this are becoming rare.

For many people, it is more than just karting. It is where they celebrate birthdays, unwind after stressful weeks, or simply feel like themselves again. There is something special about the atmosphere you have built. It is exciting, welcoming, and full of life. Losing that would leave a gap that cannot easily be filled.

I can only imagine the challenges behind the scenes, and I respect that decisions like this are not easy. But from the outside looking in, Hyper Karting feels like something worth fighting for. It adds real value to the community, not just economically, but emotionally.

If there is any way forward, any alternative, any chance to keep it alive, I truly hope it is considered.

Because once places like this are gone, they do not come back the same way.

Thank you for everything you have created there. It genuinely means more to people than you might realise.

Warm regards,
Alex

To whom it may concern,

You have spent large amounts of money providing nearby rail services to Moore Park, closing down a legitimate local business for a floor of car parks is essentially saying you've failed. It's saying you haven't done due diligence.

As someone who frequents this venue, as well as the Hordon for gigs and the SCG for sports, I've never had an issue with making the events.

If car parks over local businesses is your answer, then you need to seek better advisement.

Thanks,
Jeremy Burtenshaw

Hi there,

Hyperkarting Moore Park is a great facility that I've frequented many times over the last few years.

There is no equivalent facility so near to the city. It would be a huge loss for it to be closed for parking.

Thanks,
Kento

I would implore council to leave Hyperkarting to continue operating. Not only is it a fantastic venue that brings patrons to the local area for you from all over Sydney, th car park that it resides in is the worst car park in Sydney and when major events are on has taken me over 2 hours on multiple occasions to exit, the car park. Adding more vehicles to this will only cause further delays.

My recommendation would be to find alternate parking solutions for major events in the area, that flow out onto surrounding roads much smoother, and leave a fantastic attraction loved by many to continue to provide entertainment and bring patrons to an area that struggles for foot traffic for the many hospitality venues around the Showgrounds when there are no major events

Hi team,

I am writing to express my strong concern and disappointment regarding the potential closure of Hyper Karting.

Hyper Karting is more than just a recreational venue — it is a unique community asset that provides safe, engaging entertainment for people of all ages. I have personally enjoyed spending time there with friends, and it has consistently been a place that brings people together in a positive and social environment.

Some of my most memorable experiences have been at Hyper Karting, whether it's friendly competition, celebrating occasions, or simply having a fun and active day out. It offers something that very few venues in Sydney do, particularly in terms of accessible, indoor motorsport-style entertainment.

The prospect of closing this business over parking constraints is deeply frustrating, especially considering the broader impact. Over 150 jobs are at risk, and the community stands to lose a valuable social and recreational outlet. Decisions like this should carefully weigh not just infrastructure concerns, but also the economic and social contributions of local businesses.

Hyper Karting has had a positive impact on myself, my friends, and many others in the community. It provides a safe alternative for entertainment, keeps people active, and contributes to the local economy. Losing it would be a significant step backwards.

I strongly urge the council to reconsider this decision or work collaboratively to find a practical solution that allows Hyper Karting to continue operating.

Thank you for taking the time to consider my concerns.

Kind regards,
Steve Moore - [redacted]

Dear City of Sydney Council,

I am writing to respectfully ask that you reconsider the decision to close Hyperkarting kart track.

For my family and many others, this track has been far more than just a place to race. It has brought genuine joy to our lives. Watching my kids laugh, compete, and grow in confidence as they race has been incredibly rewarding. Just as memorable are the moments where kids gather trackside, cheering and laughing as they watch parents like me have a go ourselves. It is a rare place where different generations can share in the same simple excitement.

Beyond family enjoyment, the track has also created unexpected and meaningful social connections. On one occasion I found myself racing wheel to wheel with someone who turned out to be an old university friend who had moved abroad after graduation. This reunion only happened because we both happened to be there. Moments like that are difficult to replicate elsewhere and speak to the unique community the track fosters.

Additionally the Hyperkarting track plays a valuable role in supporting grassroots motorsports and engineering pathways. It serves as a pactical and accessible environment for my alma mater, the University of Sydney, particularly for students involved in Formula SAE. Facilities like this are essential for nurturing hands-on skills, innovation, and passion in the next generation of engineers and competitors.

In a city where spaces for recreation, community, and hands-on learning are increasingly limited, Hyperkarting's facilities stands out as something truly special. Its closure would mean the loss of not just a recreational venue, but a place that brings people together, supports learning, and creates lasting memories.

I sincerely hope the Council will reconsider this decision and explore ways to preserve and support this valuable community asset.

Thank you for your time and consideration.

Kind regards,

Vincent Vo

Good Evening,

I've just heard the news of the City of Sydney's plan to close HyperKarting. I absolutely object to this preposterous idea.

The fact of the matter is Sydney is still recovering from the COVID-19 pandemic when it comes to activities. When I think of what's left to do here as the entertainment industry returns to normal, HyperKarting was one of the most fun places I have ever been. 100's of jobs for our young people, 1000's of hours of entertainment, all to be ripped up for what, car spaces? How ridiculous. At least you can sleep at night knowing there's a whole level of empty space of car spots during the week!

Shannon Rickersey get your councils act together and do not close this place down. If you really want some more car spaces, stop wasting money on the useless Town Hall square master plan and build some more multi storey car parks somewhere else.

Alex

Do not close down hyperkarts!!! Hyper karting is iconic in the moore park area, everyday hundreds of people go to race including myself. We use it as a way to meet up with friends and family. Getting rid of hyper karts will cause a massive outrage. There are plenty of carparks go look elsewhere.

Please reconsider the action of shutting down Hyper Karting Sydney in Entertainment Quarter.

I myself and so many others have made the trip to Sydney to solely visit this business making it one of the few decent attractions in the city that is very easily accessible.

This business has built a massive brand in such a short amount of time and to get rid of it for a car park space is absurd.

Regards,
Nicholas.

Hi
Please keep hyperkart open, it is a great activity for many generations, is an cultural
Contributor to sydney, and excellent to have the space accessible and so close to the city/inner suburbs. Replacing it with car parking is a sad idea and would not even solve a parking issue particularly well.

Please confiding keeping this open

Thanks
Cristy

To whom it may concern,

Hyper Kart is a much loved activity for not only my young family, but many families we know.
To have a service that is local and provides access to ALL Ages is unique to find - kids and adults alike can have the best time ever.

Our family is devastated to hear of the potential closure - especially due to the fact that the car park is never full.

We truly hope you reconsider.

High Five,

Adrian Rokman

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

I am writing to express my strong support for Hyper Karting and my deep concern regarding the possibility of its permanent closure.

Hyper Karting is far more than an entertainment venue, it is a vital part of the local community. Over the years, it has created a space where people from all walks of life can come together, connect, and share meaningful experiences. The social value it provides cannot be easily replaced.

I have been working at Hyper Karting for the past five years, and during this time it has had a profound impact on my life. It has given me not only financial stability, but also a sense of belonging and emotional security that I had not experienced before. Many of my closest friendships were formed here, and I have witnessed countless others build lasting connections through this shared passion.

Every day, I see people walk through the doors excited to spend time with friends and family. It is a place filled with energy, joy, and inclusivity. Hyper Karting brings together individuals from diverse cultural backgrounds and fosters a genuine sense of unity within the community.

Importantly, I have also seen the positive impact it has on individuals living with disabilities, including those with non-visible or “hidden” disabilities. For many, karting provides not only a sense of excitement and achievement, but also an opportunity to build confidence, develop teamwork skills, and feel included in a supportive environment. This kind of accessible recreational outlet is incredibly valuable and not easily replicated elsewhere.

The proposed closure, which would result in over 150 job losses, would have a significant and lasting impact on employees, their families, and the broader community. Replacing such a meaningful community space with additional car parking, while potentially beneficial in a limited sense, does not offer the same social, economic, and human value that Hyper Karting provides.

I respectfully urge the council to carefully consider the broader consequences of this decision. Preserving Hyper Karting means preserving jobs, community connections, and a unique space that contributes positively to the wellbeing of so many people.

Thank you for your time and consideration.

To whom it concerns,

I am writing to express my strong support for keeping Hyper Karting Sydney open.

Hyper Karting is more than just an entertainment venue it is a unique space that brings people together through fun, competition, and shared experiences. For many individuals, families, and groups, it serves as a go to destination for social connection, celebrations, and stress relief. Its presence adds real value to the local community and contributes positively to Sydney's recreational landscape.

From a broader perspective, Hyper Karting also supports local employment and attracts visitors, contributing to the local economy. Closing such a venue would not only impact staff and customers but would also reduce the diversity of activities available in the area.

There are very few venues that offer the same combination of accessibility, excitement, and community engagement. Losing Hyper Karting would leave a noticeable gap that cannot easily be replaced.

I strongly urge you to consider all possible options to keep Hyper Karting Sydney operating. Whether through operational adjustments, partnerships, or community support initiatives, I believe there is a viable path forward that preserves this valuable asset.

Thank you for taking the time to consider this request. I hope to see Hyper Karting continue to thrive for years to come.

Sincerely,
Jonah

To Whom It May Concern,

I am writing to provide a submission in support of the continued operation of Hyper Karting within the precinct, in consideration of the current appeal proceedings.

I understand that the primary driver for the proposed cessation is the reallocation of Level 5 for parking. If this is a mutually exclusive use, then the decision must be assessed on which outcome delivers the greatest overall value to the precinct.

Hyper Karting is a unique and well-utilised facility that provides an active, engaging and structured recreational environment. It caters to a broad cross-section of the community, including families, social groups, and regularly hosts children's parties and group events. This demonstrates that the venue is not limited to motorsport enthusiasts, but instead provides inclusive access across multiple demographics.

In addition, the facility provides a safe and regulated outlet for motorsport interest, particularly among younger people. This supports positive engagement and helps reduce the likelihood of unsafe or illegal behaviour occurring outside controlled environments.

The value of the facility extends beyond direct participation. From personal experience, my attendance is rarely individual. I consistently attend with three to four additional participants. Each visit typically extends beyond karting to include café or hospitality use within the precinct. This reflects a broader pattern where the venue drives group visitation, increases dwell time, and supports surrounding businesses. The cumulative economic contribution of this activity is not replicated by parking infrastructure.

The facility also supports a substantial workforce, estimated at approximately 150 employees, including university students and younger workers who rely on flexible and accessible roles within the local area. These positions contribute to workforce participation and provide practical experience in operational and customer-facing environments. The removal of the facility would result in a direct loss of these employment opportunities.

While parking is necessary to support access to the precinct, it is inherently a passive land use.
In contrast, Hyper Karting represents an active, revenue generating and community focused use that contributes to ongoing precinct activation. Replacing an active use with passive parking reduces the functional and social value of the site.

Given that shared use is not feasible, the complete removal of an established, high value community facility in favour of additional parking capacity represents a disproportionate outcome when considering overall benefit.

In summary, Hyper Karting delivers social, economic, and community value across a wide demographic. Its removal would result in a net loss of activation, engagement, employment, and local business support.

Where a direct trade-off exists, priority should be given to uses that actively generate economic, social, and community value over those that merely support access.

I respectfully submit that continued operation represents a more appropriate and balanced outcome when assessed

against the broader objectives of precinct activation and community benefit.

Thank you for your time and consideration.

Kind regards,
Derryn Lunson.

Dear Council,

I would like to express my support for the continued operation of Hyper Karting at 116 Lang Road, Moore Park. I believe it provides a valuable recreational facility for the community, and the benefits it brings far outweigh the impact of any lost car parking spaces.

Kind regards,

Bronson Sutton

Hi Shannon,

Please do not shut down hyper karting.
My boys absolutely love this place. So
Much fun for the kids and adults. It would be ashame if this was to close down.

Regards
Huey

Don't close HK. This place brings so much joy to the little child in all the big adults who don't have the time or budget to live their racing dreams. The kids love it too. The carpark is never full. Even during full events don't bring enough people to close the car park.

Dear Sir/ Madam,

Hyper Karting provides an outlet for social development and engagement of adults and children of a wide range of ages. It provides a social glue for intergenerational interactions and cross cultural sharing of fun and memorable experiences for people.

Your argument about needing more car park space has NOT been backed by data of parking utilisation over weekdays and weekends. Car parks are also dead spaces with no societal cohesion based on an exhilarating experience for families and social networks.

With global climate warming accelerating throughout the planet Earth, indoor spaces for social and cultural interactions will become more important and more valuable. Human outdoor activities will become increasingly curtailed by surface temperatures exceeding 30 ° C on land. Past 45° C means death for fit, young human beings. I refer to the jillaroo who died outdoors riding her horse while mustering cattle in the Pilbarra region of Western Australia.

A long term view for utilisation of space in urban areas requires thoughtful consideration by current town planners, as cities are known heat islands.

Best regards,

Elizabeth Li/ aunty Liz,
Regular customer of Hyper Karting,
Regular donor of Climate Council and Greenpeace Asia Pacific,
Australian citizen by birth in 1965.

Dear Councillors,

I am writing to respectfully urge the City of Sydney to reconsider the decision that would force Hyper Karting to cease operations at Moore Park.

From an outside perspective, this appears to be the loss of a high-performing entertainment venue, a significant employer, and a strong contributor to the Moore Park precinct in order to restore rooftop parking capacity. That is a disappointing outcome, particularly when Sydney continues to speak to the importance of vibrant, diverse and experience-led destinations that support both community participation and local economic activity.

Hyper Karting is not a marginal operator. It is a successful and well-regarded attraction that has added genuine value to the Entertainment Quarter precinct, drawn visitors to the area, supported surrounding businesses, and created substantial employment. Decisions of this nature should be assessed not only through a narrow compliance or asset-use lens, but through a broader strategic lens that considers economic contribution, activation of place, jobs, community benefit, and the overall attractiveness of Sydney as a destination.

Importantly, venues such as Hyper Karting also serve a broader public good by providing a controlled, supervised and purpose-built environment for people to enjoy vehicles safely off public roads. At a time when road safety remains a serious community issue, it is difficult to see the benefit in removing a venue that gives people an appropriate outlet for this kind of recreational activity in a managed setting. Facilities that encourage responsible, off-road participation should be seen as part of a safer and more balanced community recreation offering.

I fully appreciate that council must balance competing land use, transport and planning priorities. However, where a business is demonstrably delivering value to the community, local economy and broader public safety outcomes, it is reasonable to expect a more commercially pragmatic and constructive pathway than closure. At a minimum, there should be scope for a transitional extension and genuine engagement on options that preserve both operational requirements and public benefit.

I would strongly encourage council to revisit this matter with a view to reconsidering the current position, working directly with Hyper Karting on an interim solution, and identifying a practical longer-term outcome that avoids unnecessary business disruption and job losses.

Sydney should be backing successful operators that create energy, employment, safe recreation opportunities and positive community experiences — not removing them where a workable compromise may still be available.

I ask that council take a more balanced, strategic and solutions-focused approach in this case.

Kind regards,

Chris Connolly

Dear Council,

I'm writing in support of Hyper Karting at Moore Park.

I've visited Hyper Karting several times and have always really enjoyed the experience. One of the things that makes it special is its location within the Entertainment Quarter - being able to go karting and then easily walk to nearby restaurants or spend time in the area makes it a unique and social experience.

I don't believe there are many places in Sydney, especially so close to the CBD, that offer this combination of activity and surrounding amenities. It contributes to the vibrancy of the area and gives people a reason to spend more time there.

From my experience, the current offering feels well-balanced, and I would personally value retaining unique experiences like this over additional parking.

Thank you for considering my submission.

Kind regards,

Vivian

Hi there,

I would like to express my sincere disappointment to hear about the decision not to renew HyperKarting lease. Having visited this business on several occasions it is quite amazing and one of the star attractions of your so called 'Entertainment Quarter' - without it there is really not much to go there for on a day to day basis.

The carpark is never full outside major events which are on much less often than the enjoyment people get out of HyperKarting.

I would encourage you to reconsider this decision and think about what you will be loosing from the area by forcing such a great, family entertainment venue out.

Kind regards,
Daniel Walsh

Removing Hyper Karting for more car park spaces is absolutely nonsense. I've seen the car park to be full only a couple of times, while HK is a major entertainment centre in Moore Park. It attracts many Sydneysiders and visitors to the area, being responsible for hundreds of direct and indirect jobs. Please, allow them to operate. Closing it would be a massive loss to the city.

Regards,

Keoma Borges

Dear Council,

Given its popularity over the past five years Hyperkarting being seen as an “unacceptable” use of parking spaces not only goes against the councils own past judgement (to allow it initially) but also against the nature of why the Entertainment Quarter (EQ) exists in the first place.

What a privilege it is to have something of substance that draws in friends and families together bringing life into the EQ. With the downtrend in night life in many areas of Sydney it’s been incredible to experience busy late night karting, a rare night event that doesn’t involve drinking. Spurring competition amongst friends and families to come together and enjoy not just karting but the surrounding EQ and ultimately what it means to live in our interesting city of Sydney.

The EQ has had a rich and diverse history from horse racing to public recreation, zoo’s and more. With a focus on providing a unique experience for families in Sydney. Hyperkarting is another step in this history and I hope the council looks to continue in this legacy and reverse their decision to not extend HyperKarting’s submission

Kind Regards,
Benjamin Sargant

I am writing to oppose the proposed closure of Hyper Karting (HK) at Moore Park.

As a parent living in Sydney, Hyper Karting has been a wonderful and valuable place for my family. My son loves going there. It provides an affordable and accessible way for children and families to experience go-karting without having to travel long distances or incur high costs. Opportunities like this are rare in Sydney.

Hyper Karting is more than just a business. It is a place of joy, confidence-building, and community, particularly for young people. It offers a safe and inclusive environment that encourages participation in sport and recreation.

I am concerned that the closure is being justified by a need for additional car parking, despite the nearby EQ car park not being at full capacity. Replacing a thriving community venue with parking that does not appear to be genuinely needed is difficult to understand.

The proposal would also place around 150 jobs at risk, affecting workers and families who rely on this business for their livelihood.

I respectfully urge Council to reconsider this decision and allow Hyper Karting to continue operating. Preserving HK supports local families, workers, and the broader community far more meaningfully than additional car parking.

Regards,

Gary Chen

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Hi City of Sydney,

I am a 17 year old employee at Hyper Karting and I would like to give you my reasons why I love working at Hyper Karting and why it should stay open.

It is a great casual job for people 16+, learning more about the go karting/motorsport industry, learning on the notations on damaged equipment and flat tires, making lots of new friends, and it is a good work experience (especially for my age) for me because it helps learn to build teamwork, time management, deal with complaints or feedback, customer service, and most importantly, providing customers to have a good time on the track, especially with 4 different tracks for different age categories, so all ages can experience.

I enjoy Hyper Karting's control of speed, they set you on a speed you can control and decreases crashes and people who are anxious/nervous as a first timer. I also love how close to the city and public transport it is, so there's not much of a problem having to travel to the western suburbs to go kart.

I believe Hyper Karting should stay open because it brings tourists to experience go karting in Australia, or in NSW particularly, as it is the only electric go karting place in NSW. It also saves a lot of people travel who live in the inner west or the city area to go kart and has accessible public transport like buses and the light-rail.

I hope you take this to consideration.

Kind regards

Scarlett de Roo

Good evening,

It is imperative that Hyper Karting remains operating at its existing location. Hyper Karting is a venue for all ages and abilities, where so many incredible memories are made daily.

I have personally shared so many irreplaceable occasions with friends and my partner at Hyper Karting since it opened, and have seen first-hand how many more people it brings to the EQ on a daily basis.

I personally know a number of people employed at Hyper Karting that would lose their job that they thoroughly enjoy and source of income if this booming business is forced to close. The closure of Hyper Karting at this venue is strictly against so many accounts of public interest.

Thank you in advance for your consideration of my submission and wishing you a wonderful rest of your week.

Warm regards,

Olivia

Dear Shannon,

I am writing to express my strong support for Hyper Karting and to raise concerns about its potential closure.

Hyper Karting is more than just an entertainment venue—it is a place where people come together to enjoy, compete, and create lasting memories. It offers a unique experience that is not easily replaced, and it plays an important role in the local community.

Personally, I have really enjoyed visiting Hyper Karting. The atmosphere, the excitement of racing, and the overall experience make it a standout destination. It's also a place where friends, families, and colleagues can spend quality time together. Many of my most memorable moments have come from racing there and sharing those experiences with others.

The proposed closure, which would result in the loss of over 150 jobs, is deeply concerning. Beyond employment, Hyper Karting contributes to the local economy and provides a recreational outlet that benefits the wider community. Replacing it with additional car park spaces does not offer the same social, economic, or community value.

I strongly believe Hyper Karting should remain open. It is an important part of the community, and its impact goes far beyond what can be measured in numbers alone.

I urge you to carefully reconsider this decision and take into account the voices of those who value and support Hyper Karting.

Thank you for your time and consideration.

Kind regards,

Chaitanya

Hyper karting brings people to Moore Park. It brings in money to the precinct.

All you're worried about is parking when there is an event at the scg or Allianz. Which is probably once a fortnight on average. So one day out of every fortnight you wish to have more parking. What do you do then on the other 13 days of the fortnight when the car park is empty.

The other 13 days, people are still coming to Moore Park because of hyper karting

Why don't the council build a multi level car park on the empty space of grass outside the order.

Hello,
I wish to oppose the closure of HyperKarting at Moore Park.
We have enjoyed HyperKarting with our four children since it opened, visiting well over one hundered times. It's a fantastic family activity which we can do with all ages and genders in our family - from the 21 and 18 yr old sons to our 16 yr old daughter and 13 year old son. It is a great activity for the older children to do with their friends and they have enjoyed thousands of laps together. We have also been to many children's parties at Hyperkarting - very memorable experiences.
I cannot understand why it is being closed to make room for more parking - never EVER have I seen that car park full - not when I've been for shows, for special market events or for a normal days activity at Hyperkarting. In this day and age, aren't we encouraging people to take public transport for a sustainable future anyway? Is sustainability part of your mandate for the future?
When we come to Hyperkarting we also eat in the EQ, and partake in other activities on offer there, as do all the other customers who use Hyperkarting. Without Hyperkarting to draw us there, the other businesses in the EQ will suffer. They never seem to be that busy, so this will have a huge impact on them.
Hyperkarting has given us as a family and my children as they grow independent, a safe, enjoyable, cool place to enjoy some fun. I imagine it has done so for many kids, keeping them out of trouble, safe, and enjoying their community.
Please keep this important social meeting place, family fun centre and thriving business open.
Regards,
Felicity

Dear City of Sydney,

I am writing to express my strong support for the continued operation of Hyper Karting at Moore Park and to urge the Council to reconsider any plans that may result in its closure.

For over five years, Hyper Karting has been a standout attraction within the Entertainment Quarter precinct. It has provided a unique and engaging experience for individuals, families, and groups, becoming one of the primary reasons many people choose to visit the area. In a city with no shortage of dining and retail options, Hyper Karting offers something genuinely different - an active, social, and memorable form of entertainment.

Importantly, it serves as a regular weekly activity for many families and friends, fostering community engagement and providing a safe, fun environment for people of all ages. Its presence contributes significantly to the vibrancy and appeal of the precinct, supporting surrounding businesses by drawing consistent foot traffic.

Replacing such a well-loved and well-utilised facility with something like an empty car park would be a considerable loss, not only in terms of entertainment value but also for the overall atmosphere and identity of the Entertainment Quarter. Spaces like Hyper Karting are what transform an area from simply functional into a destination.

I respectfully ask that the Council take into account the strong community value, economic contribution, and unique offering that Hyper Karting brings to Moore Park. Preserving it would ensure the precinct continues to thrive as a dynamic and engaging destination for locals and visitors alike.

Thank you for your time and consideration.

Jake

To whom it may concern,

Please do not close down hyper karting. It is a place which brings us so much joy. It brings so many people together, there is nothing quite like this anywhere else. The fact it is under cover also makes it the perfect activity that can be done even while it's raining.

Please do not shut this place down 🙏

Kind regards
Yash

Dear Shannon,

I want to voice my concern at the prospect of the closure of the Hyper Karting business due to the proposed reclamation of their operating space.

Since its founding, Hyper Karting has become one of Sydney's favourite attractions. The businesshas taken wasted space and turned it into a cherished venue for parents with kids, young adults, and corporate events.

The company is pioneering homegrown Australian technology in amusement operations.It is led by a young, energetic, and innovative founder who has built something remarkable from nothing.

I implore the council to reconsider its position on this issue, for the sake of the business, its employees, the wider community, and, of course, the Entertainment Quarter,for whom the venue is a major boost of foot traffic to the restaurants and other attractions.

Losing Hyper Karting could only be a setback for the City of Sydney and its goals.

Sincerely,

Nathan

Keep hyper karting open!

It is a very innovative business & one of the few reasons to visit the entertainment quarter outside of events.

The light rail was built to alleviate pressure on roads and carparks. Community spaces and businesses should be prioritised over car parking.

Dear Council,

I am writing to express my strong support for Hyper Karting and to respectfully urge you to reconsider any decision that may result in its closure.

I have visited Hyper Karting many times over the years, especially throughout COVID and in the period since. During a time when options for safe, social activities were limited, it provided an incredible outlet for myself and my friends. The experience of racing together, competing, and simply enjoying each other's company created some of our most memorable moments.

Beyond personal enjoyment, Hyper Karting plays an important role in the community. It offers a unique, high-quality recreational activity that brings people together across all age groups. It supports local employment, with over 150 jobs at stake, and contributes to the vibrancy and appeal of the area.

While I understand the importance of infrastructure and planning considerations, replacing a thriving business and community hub for additional parking spaces does not seem to reflect the broader social and economic value that Hyper Karting provides.

I strongly believe Hyper Karting should remain open. It has had a genuinely positive impact on my life and the lives of many others, and it would be a significant loss to the community if it were to close.

Thank you for taking the time to consider my perspective.

Kind regards,

Daniel

To Whom it may concern,

I did read about the recent dispute in carrying on with the lease agreement for Hyper karts.

Until Hyper karts, I actually had not been to the entertainment quarter ever. I am 38 and live in the Western suburbs of Sydney and come all the way because of how good the experience is. Every time I come, I then go for food and drinks at the surrounding venues.

I have hosted our companies Christmas party every year for three years, hosted many other groups and my sons Birthday which we hired a bus and brought all the families out from Western Sydney to the ET and from all of these events all surrounding businesses benefit from. There are no other go karting experience that is quite like this, and we have Eastern Creek racetrack next to us. Hyper karting and the ET are a full experience now. The Go karting starts with the youngest single driving karts in Sydney, starting at 3 years old, whereas other do not offer this. There are so many reasons why the go karting experience at the ET is what is driving so much foot traffic to the businesses in the surrounding area. If it was to leave, I would welcome them out west as I will be there every other week. The entertainment Quarter will be very much impacted if Hyper karts was to leave or move on. Their battle Kart facility is not the most sort after option, of the almost 100 people I have entertained at Hyper karts; it is the racing that is the winner.

In summary, I think this would be madness to think it would be removed, and this decision needs a serious think about the severity of how this will impact the surrounding businesses.

Thank you,

Ben Lyons

Hi City of Sydney,

I'm writing to you to express why Hyper Karting should not be closed.

First, it brings genuine entertainment to the "Entertainment Quarter." Isn't that exactly the purpose of a precinct like this? It allows people to come together and enjoy activities every day of the week, rather than just on weekends when a game is on.

For a city that prides itself on public transport and cycleways, it makes no sense to close a business like this just to create a few extra parking spots that will sit vacant for over 95% of the year. The city should be promoting public transport and encouraging fewer vehicles on the road, not more.

Lastly, through Hyper Karting, I have made some of the best friends anyone could ask for. Quite a few of us have even taken the skills we learned at the venue and moved into racing as a hobby

Please don't close it, the venue brings so much more to a community than am empty space with yellow lines painted ever will.

Kind Regards,
Joe.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear City of Sydney,

I'm writing to express my deep concern about the potential closure of HyperKarting to make way for additional car parking. As a regular visitor and supporter, I believe removing this facility would be a significant loss for our community — not just for racing enthusiasts, but for families, young people, and local businesses alike.

HyperKarting is far more than an entertainment venue. It's a safe, controlled space where people of all ages can experience the excitement of driving, learn sportsmanship, and connect with others in a positive, healthy way. In a city where recreation options are often limited, especially indoors and close to the CBD, this venue brings energy and community life that car spaces simply can't replace.

Beyond recreation, HyperKarting contributes to the local economy. It attracts visitors who dine, shop, and explore nearby businesses — driving revenue for the area. The facility also creates employment for staff, technicians, and support workers, helping sustain small-scale local jobs.

Repurposing this unique place for additional parking sends the wrong message about city priorities. In a time when we should be encouraging active, social, and sustainable uses of urban space, replacing an innovative indoor kart track with more concrete areas for idle vehicles feels like a step backward. We should be striving for a city that invests in experiences and community spaces, not just convenience for cars.

I urge you to reconsider any plans that would force HyperKarting to close or relocate. Please explore alternatives that preserve this exceptional venue, whether through revised zoning, shared-use arrangements, or transport planning that balances recreation with infrastructure needs.

Thank you for your time and for listening to the voices of the residents who love HyperKarting and what it represents.

Sincerely,
Bryce Tickner

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Good evening,

My name is Neve Doughty, and it has come my attention that the establishment of 'Hyper karting' is at risk of being shut down to create more parking space. I am sure your facility has already been bombarded by emails, and that is for a good reason.

With the Metro line being so close to Moore park and the multitude of car parking spaces around the Horden Pavillion, it is absurd that even more parking space is deemed necessary, and it is incredibly apathetic to consider closing such an important social space for the community. The karting enjoyers of the Northern beaches, wider community, and especially myself urge you to reconsider or even relocate your development plan.

We ask this of you to protect our beloved social outlet, to avoid overwhelm to the karting establishments of Western Sydney, and to avoid exclusion to karting enjoyers who may not be able to travel to Western Sydney, or whom are too young or inexperienced for their stricter regulations.

As a young females in a male dominated hobby, karting is something that my friends and I adore. However, as we live on the Northen Beaches, Hyper Karting is the closest place that we can go to, and even that is an hour from home. The devastating news that Hyper Karting is at risk of being closed means that my friends and I would have to travel to the borders of Western Sydney, just to pay an even more expensive rate to go karting. My younger sister and her friends are also under the age of 18, meaning that some of the karting establishments in Western Sydney will not even allow them to drive. Karting is something that has always brought my family and friends together, and so to have an karting establishment somewhat close to home is incredibly important to me and to other karting-enjoyers from the Northern Beaches Community.

The Sydney karting community, my friends, my family and I are hoping that you will consider our plea and will not let us down with our request.

Thank you for taking the time to read my message.

Kind regards,

Neve Doughty.

Hi there,

I am writing to express my concern regarding the proposed closure of Hyper Karting for more car spaces. This establishment is not only a source of employment but also an important part of the neighborhood's character and economy.

Closing Hyper Karting would have a significant impact on both the employees who rely on it for their livelihoods and the customers who value its services. It contributes to the vibrancy of our area and supports the sense of community that makes this place special.

Please consider this email and do not move forward with repurposing their space.

Kind regards,

Ali Heffernan

Dear City Council Members,

I am writing in strong opposition to any proposal that would result in the closure of Hyper Karting.

I currently work at Hyper Karting. My income from this role directly covers my rent and living expenses. The closure of Hyper Karting would leave me and more than 150 colleagues without work, causing immediate and serious financial hardship across our community.

It is truly disheartening that this situation has arisen just for expanding parking spaces at the Entertainment Quarter. In my opinion, the value provided by 296 additional parking spaces simply cannot outweigh the livelihoods of the 150-strong workforce at Hyper Karting especially since the light rail stop is less than a 5-minute walk from the EQ.

During my time here as an employee I have realised Hyper Karting is more than a business. It is a place where families celebrate birthdays, friends make lasting memories, and people of all ages enjoy a unique experience together. Venues like this are rare and very hard to replace once they are gone. I implore the Council to attempt to address the parking needs in some alternative form, rather than sacrificing the entertainment venue.

I trust the Council will consider the human cost in making any decisions that would involve the closure of Hyper Karting.

Thank you for your time and consideration.

Sincerely,
Mihir Suman Avalakki
Team Member, Hyper Karting

Attention: Shannon Rickersey

Good afternoon Shannon and Colleagues,

I am writing to provide my support and ongoing use of the Entertainment Quarter carpark by Hyper Karting. I have attended many sporting events at the Entertainment Quarter and have found there has been adequate parking for all major events I have attended. I have also attended Hyper Karting and it is such a fun and great activity for all ages to enjoy.

Sydney City is becoming a more walkable and public transport-oriented city and more members of the public utilise public transport instead of private commuting, which will assist even further with the current capacity of the car parking spaces.

My view is that the proposal **is** within the public interest.

Kind regards,
Lara Fitton

Hi Shannon

I was disappointed to learn of the refusal to extend the consent for the operation of Hyper Karting at EQ.

This carpark has NEVER been full in the whole time since it opened. There is no way extra parking demand is needed, other than MAYBE on the odd peak-use occasions. Furthermore, any suggestion that car parking should be prioritised over other uses goes directly in the face of environmental progress, which is the responsibility of all levels of government.

Hyper Karting is a community asset of the highest order that adds materially to the attraction of EQ as a precinct, and is a major contributor to the viability of the other businesses in the precinct. The loss of Hyper Karting will have negative implications to the broader use of this important community precinct.

I wish to object in the strongest possible manner to the actions that have been taken by an unelected panel that does not represent the wishes of the people. I urge you to reconsider and reverse this ill-conceived decision.

Regards
Andrew

Dear Shannon,

As a mother of a young child in the eastern suburbs we have been recently introduced to Hyper Karting, by using the 'mini' track for young children.

My son absolutely loves it and it is a great addition to the Entertainment quarter offering, of which we wouldn't visit if it wasn't for Hyper Karting.

Living in the eastern suburbs we are blessed with beautiful beaches and parks such as Centennial and Queens Park's. Despite this there is a real lack of options for children's activities in the area. We often travel long distances to access options such as Tree Tops (St Ives and Baulkham Hills), Indoor activity centres (eg Five Dock) and Bounce trampolining (Northern Beaches), amongst many others including in the outer Western Suburbs of Sydney, all of which involves lengthy travel times.

I do find the lack of child focused activities in the east, which is no doubt in part due to property prices and rents, as incredibly frustrating and would be devastated if Hyper Karting in Moore Park was forced to close, in particular if this was for additional car parking which in my mind is ridiculous given there is always ample capacity there. The only time I imagine there is a need for the parking spaces would be during events at the stadiums, and if we were to lose a much needed and enjoyed activity for our local children, for more parking for the 'footy' I would be both devastated and angry.

I am available at anytime to discuss further.

Kind regards,

Jennifer Griffiths.

Dear Council,

I believe the public interest is positively served by the extension of D2023/897 for continued use for electric go-karting and a section 8.3 review is warranted.

Indeed, the increase in carparking usage prima facie seems as odds with the strategic direction of Council to plan for 'a city for walking, cycling and public transport' (https://www.cityofsydney.nsw.gov.au/strategies-action-plans/community-strategic-plan)

This minor exhibition of motorsport is arguably a small piece of cultural infrastructure which Council recognises the strategic need to retain as per its Cultural Strategy 2025-2035 (https://www.cityofsydney.nsw.gov.au/strategies-action-plans/cultural-strategy-2025-2035)

In line with Councils Community Strategic Plan (Sustainable Sydney 2030-2050), this usage promotes a 'lively, cultural and creative city' for those in our community who are young and those young at heart - what an enjoyable way to encourage tourism for a sustainable activity in line with Council's strategic aims of 'eliminating fossil gas use' as per its Environmental strategy 2025–2030 (https://www.cityofsydney.nsw.gov.au/strategies-action-plans/environmental-strategy)

Yours sincerely,

Sam Bush

Good Evening,

To Whom It May Concern,

Me and the lads have little time off work in our lives. We are a group of registered nurses and doctors working in a busy metropolitan ED (across a few hospitals and care flight services now) who come to hyperkarting to have some fun and get our stress levels under control. Every time we come to the venue the car park is nearly not even 1/4 full.

I personally and my friends who I am messaging on behalf of would really appreciate this venue staying open. They have been providing us with lots of good experiences and memories for a while now and they put in effort in keeping track well maintained and up to date.

Thank you for your attention.

Kind Regards,

Andriy Pyanov

To whomever it may concern
I came across news that Hyperkart is going to be shut.
I have had great experience there.
And since after my marriage I am waiting for perfect time to be there again . And bring friends and family there .
There are lot of jobs lot of people going to get out of business .
A lot of homes going to starve.
Plus Sydney is going to loose such a good place for fun and entertainment.

Please do reconsider the closure of the Hyper Karting rink.

It is rare to see people in western Sydney have opportunities for nightlife and I fear that if you shut down this place you are risking alienation with future voters of your electoral and also diminishing the economic value of the area by its closure.

We do not need more profitable businesses that have a tandem-positive effect with other local businesses that help generate revenue for your local landlords it would be a real shame for patrons to have less of a reason to spend money in your area.

Do better or risk votes simple as.

Dear City of Sydney,

I'm writing to express my support for Hyper Karting remaining open.

I understand that at times it may seem that additional parking could be useful for certain events. However, for the vast majority of the time there is already a large amount of parking available in the area. The occasional need for extra parking, essentially one more level, does not outweigh the value of keeping this business operating.

Hyper Karting brings people into the area, creates jobs, and offers a unique entertainment option in Sydney. It's something that families, groups of friends, and visitors can enjoy. It also adds to the local atmosphere and is a small attraction for people visiting the city.

Personally, the last time I went I brought three of my mates from South Australia who were visiting Sydney for the weekend. We decided to go to Hyper Karting and they absolutely loved it. They all said it was a great experience and something they didn't expect to find in the city.

Places like this are rare and worth keeping. The community value, tourism appeal, and employment it provides far outweigh the limited benefit of a small amount of additional parking.

Kind regards,
Nicholas Barr

Hello Council,

Given the carpark capacity is rarely filled, there must be a solution to share the space.

I have used the Hyper karting facility many times for clients and for leisure and I believe it contributes to our city. Please find a way to make it work and benefit all, thank you.

Regards,
Mark.

Dear Council,

I am writing to express my strong opposition to the proposed closure of Hyper Karting.

Hyper Karting is far more than just a business—it is a vibrant community hub that brings people together, offering a safe, exciting, and inclusive space for individuals and families alike. It provides a unique form of recreation that is not easily replaced, contributing significantly to the social fabric of our community.

The justification for closure—that the space is needed for additional car parking—raises serious concerns. From all indications, the existing EQ car park is not operating at full capacity. Replacing a thriving, well-utilised community venue with underutilised parking infrastructure does not appear to serve the best interests of the public.

Equally important is the human impact of this decision. Hyper Karting supports approximately 150 employees—real people with families, financial responsibilities, and livelihoods that would be abruptly disrupted. Closing the venue would have immediate and far-reaching economic and social consequences for these workers and the broader community.

I urge the council to reconsider this proposal and explore alternative solutions that preserve both the existing parking needs and this valuable community asset. Decisions like these should reflect not only infrastructure priorities but also the wellbeing, employment, and social connection of the people they affect.

Please take into account the significant role Hyper Karting plays in our community and the unnecessary harm its closure would cause.

Thank you for your time and consideration.

Jacqui Ledger

I am writing to share my support towards HyperKarting.

This place means a lot to me, both as a workplace and just somewhere I genuinely enjoy being. It's honestly the most fun I've ever had working anywhere. The environment is something special. Everyone gets along, people support each other, and there's a real sense of community that you don't usually find in jobs like this.

Some of my best memories have come from being there. Whether it's working alongside an awesome team or just seeing how much fun customers have, it always feels like a place full of energy and good vibes. It's not just a job, it's something people actually care about.

It also brings so much life to the Entertainment Quarter. Hyper Karting is one of those places that people go to for fun, to hang out, to make memories. Replacing that with more parking just doesn't feel right. You'd be taking away something unique and meaningful for a lot of people.

It's also really hard to ignore the fact that over 150 people could lose their jobs. That's a huge impact, not just on individuals but on the whole community around it.

I truly believe Hyper Karting should stay open. It's more than just a business, it's a place that brings people together and actually makes a difference.

Thank you for taking the time to read this.

Kind regards,

George Hatzi

Dear Council,

I am writing to express my strong support for Hyper Karting and to respectfully request that you reconsider any decision that would result in its closure.

Hyper Karting is far more than just a recreational venue. It is a valuable community asset that provides employment for over 150 people, many of whom are young workers gaining important skills and experience. At a time when job security is increasingly important, preserving these opportunities should be a priority.

In addition to its employment contribution, Hyper Karting offers a unique and inclusive space for families, friends, and local businesses to connect. It promotes social engagement in a safe, controlled, and positive environment, something that is increasingly important in today's communities.

Importantly, this is an electric go-karting facility, which aligns with broader environmental and sustainability goals. Supporting businesses that invest in cleaner, more sustainable technologies reflects a forward-thinking approach and sets a positive example for the wider community.

Closing a thriving local business to accommodate additional parking raises concerns about the long-term vision for our area. While parking is important, it should be balanced against the social, economic, and environmental value that businesses like Hyper Karting bring.

I respectfully ask that Council consider alternative solutions that allow Hyper Karting to continue operating while addressing any parking concerns in a more balanced way.

Thank you for taking the time to consider community feedback on this matter.

Kind regards,

Vitia Bejsak

Dear City of Sydney,

I am writing to respectfully request that you reconsider the decision to close Hyper Karting.

Hyper Karting has become a much-loved venue that provides a safe, exciting, and inclusive space for families, friends, and members of the community to spend quality time together. It offers an activity that appeals to a wide range of ages and encourages people to get out, be active, and connect socially in a positive environment.

Places like Hyper Karting are increasingly rare — somewhere families can go for shared experiences away from screens, celebrations with friends, and memorable outings that bring the community together. For many people, it is more than just an entertainment venue.

I kindly ask that you consider the strong community value Hyper Karting provides and explore any possible alternatives that would allow it to remain open. Preserving spaces that promote fun, safe recreation for families has a lasting positive impact on the local area.

Thank you for taking the time to consider this request and the voices of community members who value what Hyper Karting brings to our area.

Kind regards,

Sarah G

Dear Ms Rickersey
We have found great social and community benefit from the Moore park hyperkarting facilities and community. An extension of lease for the venue serves many great outcomes as opposed to just parking that is available in many other guises around the complex.
My children love the ability to learn to kart in a safe environment and as a parent the ability to park and have multiple options for food and other entertainment at the same location is incredibly valuable that is not available elsewhere in the inner city
I trust you will consider this broader community good and outcome in your thoughts.
Kind regards
Ralph [redacted]

I'm writing to you because I'm genuinely gutted to hear that Hyper Karting might be forced to close just to make room for more parking at the EQ.

The Entertainment Quarter is supposed to be about *entertainment*, and Hyper Karting is one of the only things actually bringing people there. My friends and I go there specifically for the track—we definitely don't go there for the car park.

It feels like a massive step backward to tear down a world-class, electric racing track. we should be encouraging people to use it, not building more levels of concrete for cars that sit empty most of the week.

Please don't let a thriving local business and a great community spot get paved over. Sydney needs more fun things to do, not more places to park.

Council can't be serious to take away a very popular recreation facility for a few upper level car spaces that are rarely used?? The karts also bring in more business for the bars and restaurants at Fox. Isn't it good to let kids have some fun under supervision than causing problems elsewhere with nothing to do. Isn't it the owner of the Carpark that should decide how it is used?

To whom it may concern,

I'm writing in support of the HyperKarting team based at Entertainment quarter. I think this is a fantastic small business and should be supported, instead of ousted for more car parking. It's a perfect activity for this location and should remain there.

NSW Government needs to get its act together with regards to public transport to this venue. Not eliminate going concerns for more parking.

Yours sincerely

Alex Manchester.

Good evening,
Hyper Karts is the only go karting option close to the City of Sydney. I live in Redfern and my sons enjoy this as a holiday and wet weather option. I wish to support Hyper Karts remaining at the Entertainment Quarter. I do not support the extension of the car park given the public transport options available to the EQ, Allianz and SCG (where I am a member of both). This DA runs counter to the significant investment made in public transport and keeping the EQ appealing to wide market segment.
Regards,
Andrew

Hyperkarting at Moore park is a central part of our family's routine. It helps my girls with their confidence and is so much fun. The place is always busy and a great community. You must be nuts to force it shut for car park. You have heaps of unused concrete spaces you can convert. Leave huperkarts alone.

Besides why suddenly the need for more parking? Shouldn't people be walking or using public transport? Don't enable more laziness.

I wanted to write in support of hyper karting which is the only facility of its type and provides driving skills and enjoyment for all ages over yet another multi story car park.

Many families in the greater area have this as the driving place they can utilise regularly

It would be a huge loss to the area if it were to go . There are few things at the entrainment quarter that provide this kind of interactive fun that is safe for children and young adults . So many are passionate about it in this area

Please note all local schools also use this for constant children's parties

Best
Charlie

Hi,

I have worked for Hyper Karting for nearly two years now, but way before that I was already a loyal customer of the business.

Shutting it down due to car spaces doesn't make any sense since firstly, that car park is never full, but not only that, a new entire car park is being built right next to the stadium.

As an international student, as a motorsport fanatic, but also as an employee, please don't take such a special place away from us.

Businesses and places like this are what make me proud to call Sydney home.

Thank you.

Kind regards,
William

Dear Council Member,

I am writing to express my strong support for HyperKarts in the EQ, and to encourage the City of Sydney Council to consider ways in which it can actively support and promote businesses of this kind instead of transitioning it to car parking space.

Having frequently gone to Hyper Karts with friends/family and corporate events alongside other events at the EQ I can say with confidence that I have never had any issues parking at the location - nor seen the car park full at any time day or night. It seems beyond ridiculous to include additional carapace in an area that has empty spaces and public transport available all for a corporation to marginally make more profits.

Thank you,
Sophie

Dear City of Sydney Council,

Keep hyperkarting at the entertainment quarter. I go there almost weekly & end up having dinner at the local restaurants prior.

If hyperkart leave the entertainment quarter every restaurant & pub will be directly effected negatively as it will greatly lower their customer base.

Dear Shannon Rickersey,

I hope this email finds you well.

Hyperkarting has been one of the best attractions Sydney has ever had.
This venue attracts thousands of people to have fun filled evening with friends and family.
We cannot afford to loose this amazing entertainment venue.

I hope to see the continuation of this thriving business for many years to come.

Regards,

Michael.

Dear Shannon,

I am writing to express my strong support for the continued operation of Hyper Karting at the Entertainment Quarter in Moore Park.

This venue represents a highly successful and valuable use of space that delivers clear economic, social, and community benefits. Since opening, Hyper Karting has attracted hundreds of thousands of visitors, created more than 150 jobs, and contributed meaningfully to the vibrancy of the precinct. Its presence aligns directly with the broader vision of activating Moore Park as a year-round destination for entertainment, hospitality, and recreation.

From a user perspective, the argument around parking constraints does not reflect the lived reality. Having attended the venue multiple times, I have not experienced any issues with parking availability or access, including during busy periods. In addition, the location is well-served by public transport, further reducing reliance on parking capacity. It also appears that the car park has only reached full capacity on a limited number of major event days, indicating that the current allocation is both practical and sustainable.

Importantly, Hyper Karting has transformed an underutilised section of the car park into a thriving, high-quality attraction we all enjoy for various personal events (Birthdays, dates, buck's/hen's parties). Not to mention this is a healthy alternative to drinking in a pub. It is not easily replaceable - there are no comparable experiences within a wide radius in Sydney - and it plays a key role in drawing visitors to the area, supporting surrounding businesses and increasing overall foot traffic.

The public response further reinforces its value. I have just noticed that with over 5,800 Google reviews and an average rating of 4.7, it is clear that Hyper Karting is widely loved and strongly supported by the community.

Retaining Hyper Karting is not only a logical decision based on current usage data, but also a forward-looking one that prioritises people, experience, and economic activity over underutilised space. Reverting this area back to parking would represent a step backward in the evolution of the precinct.

I strongly urge you to reconsider the decision and support the extension of Hyper Karting's operation.

Kind regards,
Bogdan Turinskyi

Dear Council Members,

I am writing to express my strong support for Hyper Karting and to urge you to reconsider any decision that may lead to its closure.

Hyper Karting is far more than just an entertainment venue - it is a vibrant community hub that brings people together from all walks of life. It provides a safe, engaging space for families, friends, and colleagues to connect, celebrate, and unwind. The social and recreational value it adds to our community cannot be overstated.

Additionally, the potential loss of over 150 jobs is deeply concerning. At a time when job security is so important, removing a business that actively contributes to local employment would have a significant negative impact on many individuals and families.

The proposed replacement - expanding car parking capacity - does not appear to offer the same level of community benefit. With an already substantial number of parking spaces available that are reportedly underutilised, it is difficult to see how this change serves the broader interests of the community.

I respectfully ask that you take into account the social, economic, and community value that Hyper Karting provides. Please prioritise preserving spaces that foster connection, support local employment, and enhance quality of life.

Thank you for your time and consideration.

Sincerely,
Rose Tweedale

Dear City of Sydney team,

I am writing to express my strong support for keeping Hyper Karting open at Moore Park. As someone who regularly visits Hyper Karting with family and friends, I have seen firsthand how valuable it is as a safe, family-friendly activity that is easily accessible from the city.

The venue provides a rare, positive recreational option for people of all ages, and its central location makes it an ideal place for families, young people, and visitors to enjoy time together. Closing it to create an empty car park would remove a vibrant community asset that brings joy, activity, and connection to many Sydney residents.

I respectfully urge the City of Sydney to reconsider the decision and explore alternatives that allow Hyper Karting to continue operating for the benefit of the community.

Thank you for your time and consideration.

Kind regards,
Richard

Good evening

I'm writing to express my support for Hyper Karting at the Entertainment Quarter.

It's a valuable space for the community, giving people a place to come together and enjoy an active, social experience. It's also clearly well regarded, with strong Google reviews reflecting the positive experiences of many visitors.

The location is highly convenient and accessible, making it easy for a wide range of people to visit. Importantly, it also supports surrounding businesses, as many visitors stay in the area to dine, shop, and spend time locally, contributing to the broader local economy.

Overall, Hyper Karting adds real value to the area, and I hope it continues to be supported.

Best regards

Dinar Izmagilov

To Whom It May Concern,

The Hyper Karting tracks and electric karts are a much loved pastime of many kids, teenagers and adults in the community, including my own family. It provides a place for teenagers to enjoy themselves, preventing them from getting up to mischief. There are karts and tracks to suit a wide range of ages. My youngest son drove for the very first time in a kart at Hyper Karting. I look forward to Hyper Karting hosting my sons' birthday parties but the actions of the City of Sydney might, sadly, prevent this.

My work colleagues enjoy it, also. My team at work has had a team bonding evening competing against each other. I look forward to my next work team bonding event at Hyper Karting and I'm sure my colleagues would too. It'd be both a shame and an outrage to close Hyper Karting - just a short trip away by tram for many adults working in the Sydney CBD.

There is no need for extra car parking at the Entertainment Quarter. Whenever I have used the car park, it has not been full. Instead, we should be encouraging more people to catch public transport such as the convenient tram line nearby. With a national fuel supply issue, should we be encouraging more car use?

The Hyper Karting business at the Entertainment Quarter is inimitable - it's truly a unique experience with activities such as Battle Karting where interactive images are projected on the floor for the drivers of the karts to interact with.

The community needs Hyper Karting to remain open at the Entertainment Quarter. Hyper Karting creates joy and happiness for the community whereas allowing more cars to park at the Entertainment Quarter just encourages and would contribute to pollution.

Regards,
Paul Lange

Hello,

I am writing this email in support of retaining the licence for the Hyper Karting venue at the Entertainment Quarter. (Not the car parking quarter).

I strongly believe that it is councils role to prioritise the reduction of car parking spaces overall and invest in and support public transport options, leisure facilities and employment as a priority. I would be interested to know how increasing car park spaces aligns with the council sustainability / net zero targets?

I have attended a work function and children's birthday party at Hyper Karting and believe it is a wonderful use of the rooftop space.

I am aware that there are longer term plans to reinvigorate and redevelop the overall EQ site, but in the interim I would be surprised if adding a few additional parking spaces in place of a vibrant and unique entertainment attraction is going to increase utilisation of the site overall.

The decision to not renew the current lease for Hyper Karting does not make sense, unless there are other factors that have not been publicly disclosed.

Best Regards
Jane Crocker

To the City of Sydney

Hyper karting is an iconic sydney business that delivers great benefit to the community, drawing many people to the fox studios precinct.

Before closing the venue it would be sensible to investigate the impact on surrounding businesses before permanently closing the business.

If the business is forcibly closed, what is sydney council doing to help the employees find alternative employment?

There are many reasons to close the existing grass parking areas. But the net impact of these changes is negative and affects those who are less able to mitigate these impacts to their lives.

This is before considering current economic uncertainties that are increasingly affecting living costs.

Now is not the time for this change. Hyper karting should be allowed to continue operating.

Jason Mallia

Dear City of Sydney,

I am writing to express my strong support for the Hyper Karts development application (RD/2023/897/A) at 116 Lang Road, Moore Park.

As a karting enthusiast who has personally enjoyed Hyper Karts many times, I can attest to its vital importance as a community gathering space. This venue is far more than a business—it is a thriving hub for socialising, recreation, and entertainment that brings people together from across the region.

Every time I visit, the facility is bustling with families, friends, and enthusiasts enjoying quality time together. Hyper Karts provides an irreplaceable outlet for entertainment and community connection that enriches the lives of hundreds of people regularly.

Beyond its social value, Hyper Karts is also a significant local employer with over 150 jobs on the line. The modest additional parking being requested is a practical and necessary measure to ensure the venue can continue serving our community sustainably.

I strongly urge Council to approve this application and support the continuation of this essential community asset.

Yours sincerely,

Safwaan Shaikh

To whom it may concern,

The decision to potentially close Hyper Karting represents a clear lack of judgement when it comes to what the public actually wants / needs from the entertainment quarter. To strip the precinct of one of its busiest attractions serves little purpose other than to alienate potential visitors for what may seem like a short term gain, but from what I have seen in my years of visiting the entertainment quarter, will prove detrimental to the future of the facility.

The increase in public parking will not increase the volume of visitors, based on my experience in fact it may serve to have the opposite effect. As a membership holder for the Sydney Sixers, me and my dad used to always park in the entertainment quarter carpark when we first started visiting. However we realised the carpark was expensive and slow, often being stuck in there for hours. Such was the enormous wait we would play street cricket in the carpark with strangers until the traffic finally cleared. In recent years, we have simply taken the train/light rail, and found this to be far easier and cost effective. Increasing the capacity of the carpark will only increase the slow exit times, and further discourage new and current users to use the facilities. Nobody will be encouraged to buy extra tickets to events or be encouraged to drive, as these people will have already figured out the parking facilities are unintuitive compared to the much more convenient public transport. You would be serving a target audience of people who won't use your facilities, or people who will, come to learn how impractical it is, and be encouraged to stop using it.

Visits to Hyper Karting has been the only reason I have ever entered the entertainment quarter in the past couple of years. It has served as an excellent experience for both friends and family, and is somewhere I can see myself continuing to visit for many years to come, which I'm certain is the case for a great many people. Stripping the space of its main attraction will prove an extremely terrible blunder, especially at a time where electric go-karting facilities will only increase in popularity due to the ongoing fuel crisis. Conventional petrol karting facilities have already begun to increase their pricing, which will no doubt send customers to Hyper Karting in droves. Depriving the Sydney CBD of a popular facility which only has the potential to become more popular in the very near future makes no sense at all.

I hope some serious consideration is given into the potential consequences this choice could have if the wrong decision is made. From the perspective of someone who frequents your facility, the choice is extremely simple. Strip the facility of Hyper Karting, and I will no longer visit the entertainment quarter, a decision which will be taken by many others like me both young and old. The people who use the new parking spots will come to learn how impractical the EQ parking is and soon they will become parking spots for ghosts. Keep Hyper Karting, and me and many others will continue to visit and spend money at the quarter for many years going forward.

Thank you very much for your attention in this matter.
Regards,
Eric Stuart-Jones

Dear Shannon,

We are alarmed to hear the council wants to shut down Hyper Karting in Moore Park. There is plenty of parking available and it is not always full.
So why this decision to shut the karting when it serves a large constituency of carters from many suburbs apart from Eastern Suburbs. I come from Drummoyne and my group of friends come from suburbs around here like Glagesville, Hunters Hill etc.

You guys shut it down and we have to go all the way to Minto or Wollongong to enjoy karting. Please give it your deepest consideration as it is the step to F1 for the kids as a sport.
Thank you.

Dear Sydney Council,

I am writing to express my concern regarding the closure of Hyper Karting Sydney and the broader impact this decision will have on the community.

While the venue itself has been a much-loved entertainment space, what is particularly worrying is the potential loss of employment for around 150 staff members. This represents a significant number of individuals and families who may be affected, creating financial stress and uncertainty at a time when job security is already a major concern for many.

Beyond the direct job losses, the closure of a venue like this also impacts the local economy, surrounding businesses, and the vibrancy of the area. Hyper Karting Sydney has been a unique attraction that draws people in, and its absence will be felt across the community.

I urge the Council to carefully consider the wider social and economic implications of this closure and to explore any possible alternatives or solutions that could help preserve jobs or support those affected.

Thank you for taking the time to consider this matter.

Isabella Scaunich.

> Objection to Proposed Closure of Hyper Karting – Misaligned Parking Justification
>
> Dear City of Sydney,
>
> I am writing to formally object to the proposed closure of Hyper Karting (HK), justified on the basis that the space is required for additional car parking.
>
> Before outlining my concerns, I want to be absolutely clear: I have no financial or business connection to Hyper Karting. I do not receive any compensation, benefit, or incentive related to this matter. This is my independent view as a member of the public who values practical, well-reasoned planning decisions.
>
> The rationale presented does not align with reality on the ground.
>
> The existing Entertainment Quarter car park is demonstrably not at capacity. Replacing a functioning, high-value business with underutilised parking is not a neutral decision — it is a net loss for the community, for employment, and for the local economy.
>
> Hyper Karting is not just another tenant. It is a destination that enables activity that would otherwise not occur. Corporate events, group bookings, and social gatherings depend on venues like this - experiences that cannot simply be relocated or replaced. Removing it does not “free up space”; it eliminates opportunity.
>
> There are also real human consequences. Around 150 people are employed through this business - individuals with families, responsibilities, and livelihoods. Closing HK for the sake of parking that is not demonstrably needed raises serious questions about proportionality and decision-making priorities.
>
> More broadly, this proposal reflects a recurring issue in urban planning: decisions justified by theoretical demand rather than actual usage. Sydney has seen similar missteps before - where changes made in the name of efficiency or optimisation have led to backlash or reversal because they failed to reflect how people actually use spaces.

Equally concerning is the perception that community input often has limited influence on outcomes. Many residents and stakeholders feel that consultation processes can become procedural rather than genuinely responsive. I would strongly encourage the Council to avoid reinforcing that perception in this case by giving this objection the serious consideration it warrants.

I am not opposed to planning for future needs, including parking. However, planning must be grounded in evidence and balanced against existing value. In this instance:

- The parking demand does not appear to justify displacement
- The social and economic value of HK is clear and immediate
- The site currently enables activity that would otherwise not exist

This is, fundamentally, a question of trade-offs -and the current proposal appears to trade a proven, vibrant use of space for a speculative and underutilised one.

I ask that the Council :

- Reassess the actual parking utilisation data before proceeding
- Consider alternative solutions that do not require closure of HK
- Provide a transparent explanation of how this decision serves the broader community interest

Sydney benefits from places that bring people together. Removing one in favour of empty space risks sending the opposite signal.

I would appreciate a clear and substantive response.

Kind regards,

To Whom it May Concern,

Dear City of Sydney Council DA,

I am writing in regards to Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021.

Hyper Kart ('HK') is more than a business. It's a place of joy and belonging. And behind it are 150 real people with families to feed and bills to pay - who will lose their jobs overnight if this closure goes ahead. All because of a car park that doesn't even need the space.

I have regularly attended corporate events hosted at HK. It's contribution is not just for children on weekends but provides a venue space mid-week when traffic in the general area is low. Following events at HK, groups regularly spill over into the entertainment center.

I hope all the above will be taken into consideration when renewing HK's lease and access over the space.

Yours sincerely,

Jonathan Lee

Dear City of Sydney

My son is an employee at Hyper Karting Moore Park. Is it true you're trying to shut it down just in order to gain a couple more car spaces?

My son makes his living out of it, absolutely loves that place and it would be a shame to see it vanish.

I myself have gone there to race with him a couple of times and it is great fun, a very nice family venue.

This venue generates more customers for the whole entertainment quarter and really makes the EQ thrive.

Now with the new car park that is being built next to the Allianz Stadium, it would be honestly nonsense to give all of that up for just another hundred or so spaces, and removing one of the nicest options in the EQ.

Thank you.

Ana Paula Graziottin

To whom it may concern,

I'm completely shocked to hear about the planned closure of Hyper Karting at Moore Park. Not only have my children loved being patrons of this business but HK have also supported my preschool by providing us with kart tyres for our sustainability projects. I can't fathom the reason being the need for more parking as not once in the numerous times I've been to Moore park have I ever seen the car park anywhere near capacity and highly doubt with the current petrol crisis this will change.

Please reconsider this plan, maybe look at laying off the person who said there isn't enough parking, and leave Hyper karting where it is.

Thanks,
Naomi Smyth

Hi Shannon

The decision to not renew the contract for a Hyper Karting show a lack of foresight of Sydney City Council.

1. The number of car parking spots this would free up during major sporting events is insignificant compared to the number of patrons attending SCG or Alliance Stadium. The car park will be empty for the majority of the week.
2. Sydney City Council has been actively encouraging the use of public transport (light rail) to attend major events, why the change of stance ? Should you not be liaising with Transport NSW for increased services ?
3. Other businesses in the Moore Park precinct will suffer a loss in income - after my employer's event at Hyper Karting we went 10 pin bowling then went to one of the bars for a drink and dinner. How many other businesses will close as a result of the loss of income.

Honestly, Sydney City Council is required to reverse the decision to allow this thriving business to continue - this is a fantastic place for people to meet and have some great fun.

Louis Richard Geroge Calleja
49 Brown Street
Paddington
NSW 2021

Dear Council Representatives,

I am writing to formally and strongly object to the proposed removal of the Hyper Karting facility at the Entertainment Quarter.

This decision, if implemented, would represent a significant and deeply disappointing loss to the local community. Hyper Karting is not merely a recreational venue it is a vibrant, engaging, and constructive outlet for families and young people. My children, in particular, have developed a genuine passion for the facility. It provides them with enjoyment, social connection, and a safe, structured environment that is increasingly rare.

The removal of such a facility raises serious concerns about the council's broader commitment to supporting family-oriented, accessible, and positive community infrastructure. Decisions of this nature should not be taken lightly, particularly where there is clear and ongoing public value being delivered.

To be direct eliminating a well-utilised, much-loved facility without a compelling and transparent justification risks alienating families and undermining confidence in the council's stewardship of community assets.

I urge the council to:
Reconsider this decision in full
Engage meaningfully with the community before proceeding
Provide clear reasoning and explore viable alternatives that preserve access to the facility

For many families, including my own, Hyper Karting is not an incidental attraction — it is a valued and regular part of our lives. Its removal would leave a noticeable and unwelcome gap.

I would appreciate a formal response outlining the rationale behind this proposal and any opportunities for community consultation or reconsideration.

Yours sincerely,
Louis George Richard Calleja

To whom it may concern,

I'm writing to express my strong support for the review of the DA application relating to Hyperkarting at the Entertainment Quarter, Moore Park.

Hyperkarting is more than just a recreational facility, it is a significant contributor to the economy supporting 150+ jobs. The loss of these jobs would have an immediate impact on the workers as well as the broader community benefitting from the venue.

Prioritising car spaces over an established entertainment venue raises grave concerns about alignment with the city's broader vision. A people focused city should prioritize activities that brings life to precincts rather than increasing car spaces.

The entertainment quarter, by its name is intended to be a destination for entertainment and community engagement. However, removing key attractions like Hyperkarting is stripping the precinct of what makes it appealing.

Additionally, existing evidence suggests that the parking in the area is sufficient with the car parking reaching capacity only a few times in the last 5 years. Moreover, future developments under the Allianz stadium are increasing the capacity further. It really is difficult to see how converting hyperkarting to car spots delivers more public benefit than a thriving and well utilised entertainment venue.

I urge the council to reconsider its position and support the continuation of Hyperkarting, in line with a vision that prioritises people and jobs over car dependence.

Regards
Ansh Nayar

Council, please reconsider the move to shut down Hyper Karting.

Not only are they an incredible business that has made memories, but brought much needed life to the entertainment quarter district that has been lacking for so long.

I would not have dined or otherwise visited the EQ over the last few years if it weren't for Hyper Karting. Shutting them down would have far reaching impacts on local businesses in their vicinity.

Thank you,

Matt Watson

To whom it may concern,

I along with many residents of Sydney, condemn in the strongest terms the proposal to get rid of the Hyper Kart facility on Moore Park. I not only have enjoyed visiting but have taken friends and family there from both overseas and interstate. It is a world class facility and being so close to the city easily accessible. Please consider the impact not only to the community but to the people that would lose their jobs. Please consider this feedback as part of the proposal.

Mark F

Keep Hyper karting alive!!!!!

It's community, laughter, joy!!!

Dear Scumbags!!!

I'm writing to you not just as a customer, but as someone who has witnessed firsthand the impact Hyper Karting has had on its community—on individuals, families, and the broader local economy.

Closing Hyper Karting would not simply mean the loss of a business. It would mean the loss of a space where people come together, where friendships are built over shared adrenaline, where young drivers find passion and purpose, and where countless memories are created every single day.

In a time where genuine, real-world experiences are becoming increasingly rare, Hyper Karting stands as something different—something important. It gives people a reason to get off their screens, to engage, to compete, to laugh, and to connect. That is not easily replaced.

From a business and community standpoint, its value goes far beyond entertainment. It provides jobs, drives foot traffic to surrounding businesses, and contributes to the vibrancy and identity of the area. Removing it leaves a gap that no ordinary venue can fill.

If there are concerns—financial, operational, or regulatory—then let's address them. Work with the community, engage with stakeholders, explore solutions. There are always pathways forward when the will is there.

Because once it's gone, it's gone. And with it goes something that cannot simply be rebuilt elsewhere—the culture, the energy, the loyal following that Hyper Karting has earned.

I urge you to reconsider any decision that leads to its closure. Preserve what has been built. Support what continues to bring value. Fight for something that matters.

Hyper Karting is not just a business.

It's an experience.
It's a community.
It's worth saving.

Sincerely,
Chris

Hi there

I am a local resident and oppose the closing of hyperkarting in favour of extra car park space at EQ.
Hyperkarting adds a unique entertainment option at the EQ. Adding car park spaces seems ridiculous at a time where cities should be moving to favour mass transit systems. Additional car spaces will only encourage more congestion, pollution and less reason to go to EQ.

Thank you
Vidit

Hi,

I would like to submit that, at a time when we are trying to move towards greener cities. I find it puzzling that an entertainment location, while privately owned, however enjoyed by the community, would be abandoned in favour of parking spaces.

Kind Regards,
Jack

Dear City of Sydney council members,

I am writing to respectfully urge you to reconsider the proposed closure of Hyper Karting, a venue that has meant far more to my family—and many others—than just a place for recreation.

As a parent of two young children, aged five and four, I have witnessed firsthand the incredible impact this venue has had on their lives. What started as a fun outing quickly became something much deeper: a genuine passion for karting. In a world where safe, engaging, and confidence-building activities for young children can be hard to find, Hyper Karting has been exactly that—a rare and valuable space where my children feel excited, capable, and inspired.

Beyond the activity itself, what truly sets this venue apart is the environment created by its staff. The workers are some of the kindest, most patient, and genuinely caring people we have encountered. They go above and beyond to ensure every child feels safe, included, and encouraged. As a parent, there is nothing more reassuring than knowing your children are in such capable and compassionate hands.

Hyper Karting is more than just a business—it is a community hub. It brings families together, fosters confidence in young children, and provides a safe environment for them to explore new interests. Closing it would not only take away a beloved local venue but also remove a meaningful outlet for families like mine.

I understand that councils must make difficult decisions, balancing many competing priorities. However, I sincerely ask that you consider the broader social value this venue provides to the community—particularly to young families. Opportunities like this are not easily replaced.

Please reconsider this decision and explore alternatives that would allow Hyper Karting to continue operating for the benefit of the community it serves.

Thank you for your time and consideration. to my family—and many others—than just a place for recreation.

Kind regards
Shehan Rajakumar

Entertainment quarter doesn't need more car park space - it needs places to gather and to entertain. Hyper karting is an awesome business and venue which allows friends, racing enthusiasts and corporate events to gather and have fun.

Please reconsider the move to close hyper karting to simply regain car park space.

It adds so much to the entertainment quarter.

To whom it may concern,

Just wanted to express our sincere concern about Hyperkarting potentially closing down.
My family and I think that having a place as such is an excellent added value to the Entertainment Quarter and that Sydney needs a place like this that welcomes all patrons, Especially in this area.
Not long ago, we celebrated my son's birthday there and we couldn't have chosen a better place. The smiles and simple thrills the kids and parents got out of their experience there was unmatched.
I'd encourage you to take sometime and go for a gokart drive there, enjoy your time and live that experience with your friends before a decision is made.
Please keep this place operating for the sake of all customers and for the sake of the workers who do their best in running this amazing place!
Thank you for your attention to this matter.
Regards,
Joelle

My family have been loyal patrons of hyperkart since 1875. It's such a shame to see an icon, older than both the SCG and QVB, forced closed over something so silly as some extra parking.

The light rail was introduced to disincentivise driving to the eq.

Hourly parking fees were introduced to disincentivise.

Free pt initiatives, rail link busses, personalised drone drops, all introduced to incentivise non-car transit.

So many initiatives exist to bring people to the EQ by public transport.

Now they're being done away with so the pool of parking can be increased by 7%.

And who's going to drive anyway what with the energy crisis

Dear City of Sydney Planning Team,

I am writing to express my strong support for the Section 4.55(2) modification application D/2023/897/B by Carsingha Investments Pty Ltd. Hyper Karting on Level 5 of the Entertainment Quarter car park at 116 Lang Road, Moore Park, provides a unique, family-friendly entertainment option in Sydney.
This electric go-karting facility creates jobs, attracts visitors, and enhances the vibrant Moore Park precinct without compromising parking availability. With the original consent expiring on 1 July 2026, approving the extension to 2028 would preserve this community asset amid growing demand for experiential activities.

Please consider the public benefits and prior operations in your review. Thank you for your attention.

Best regards,
Hugo

Dear Sir/Madam,

We are strongly against the closure of Hyper Karting.

Sydney city council has done everything it can to limit cars coming into Inner Sydney. Now it claims it needs more parking spaces when the car park is never full. We use the car park weekly and we have never had to go any higher than level 3.

On top of this forcing 150 employees to find new jobs in the current climate is not acceptable for an additional 250 parking spaces that will be used once or twice a year.

Our family has been using hyper karting for more than 12 months and it will be missed if it is closed. The next closest facility is over 45 minutes away.

The entertainment quarter needs hyper karting.

Don’t take away the carting!! It’s one of the best things to do in Sydney. Encourage people to use public transport instead of bending over backwards to add car parking spaces. Better for the environment anyway.

To whom it may concern,

I'm writing to share a few thoughts on the upcoming closure of Hyper Karting at Moore Park. It's a bit of a shame to see it go, though I suppose the priority is returning that rooftop to its original state as a car park.

It is worth noting, however, that the car park rarely seems to struggle with capacity as it is. It's an interesting choice to trade a popular, active business for extra empty spaces, especially when the city often talks about reducing car dependency and supporting local entertainment.

If there is any flexibility to let them stay for another year or two, it would certainly be a more useful use of the space than what is currently planned. I'm sure I'm not the only one who would prefer to see people using the area rather than just more concrete.

Regards,

Vik

Please don’t close Hyperkart. It is such a fun track I have so many fond memories there. the parking in that area is already great There is zero need for another car park. The city has plenty of car parks we have very few all inclusive kart tracks. As a citizen of this fine city I beg you not to close hypercart.

Dear Shannon Rickersey,

I write to formally object to the proposed development at 116 Lang Road, Moore Park, which would see the removal of the karting track in favour of additional car parking.

This is a deeply disappointing and short-sighted decision that warrants serious reconsideration.
Hyper Karting is not a trivial operation. It employs approximately 150 people and represents exactly the kind of entrepreneurial, community-facing business that Sydney should be actively supporting, not displacing. To sacrifice 150 jobs and a thriving, year-round attraction for the benefit of additional car spaces used on a handful of game days per year is difficult to justify on any reasonable cost-benefit analysis.

Car parking that sits largely idle for the majority of the year is not a productive use of valuable inner-city land. The Sydney Cricket Ground and Allianz Stadium host events on limited dates. Hyper Karting activates this precinct 365 days a year. The trade-off being proposed here benefits the few on event days at the direct expense of the many, every single day. The NSW government also funds free public transport on game and concert days. We should not be encouraging driving.

Sydney has an opportunity and an obligation to be a vibrant, entrepreneurial city. Decisions like this send entirely the wrong signal to business owners who take risks, invest in their communities, and create employment. Replacing a 150-person employer with a car park is not progress.

I strongly urge the Council to review this decision and explore alternative solutions that preserve the karting facility and the livelihoods that depend on it.

Yours sincerely

Harry Wilson
Local resident

You CANNOT get rid of hyper karting, it is literally the one TRUE go karting experience with a real competitive nature to it, I've been going with my friends for over a year now, it's our one escape from the rest of this garbage filled world and I'd hate to be completely honest with you but because of what you're trying to do stuff I don't care, the rest of your "entertainment" quarter absolutely sucks, quite frankly it's utter shit. There is NOTHING that is open as long as hyper karting in your entertainment quarter, not even the crappy over priced bowling alley or arcade around the corner are open as early and as late as hyper karting. You lot want to improve the "night life" in the Sydney area and you think taking hyper karting away for an extra level of parking is going to do that?! Straight up you're stupid, the lot of you. Outside of concerts I go to once in a blue moon at the Hordern or liberty hall I don't give 2 shits about the rest of your crappy entertainment quarter unless I'm going to hyper karting & I'm telling you now, me and my mates drive out to hyper karting and use your shitty parking lot we always get stuck in for so long on nights there are concerts & if you get rid of our hyper karting you're not going to get not ONE DOLLAR from me and quite a few other people any more coz your parking lot will be rendered useless to us without hyper karting. So you can shove your "extra level of parking" that'll only make people be stuck for even longer coz no one on lower floors will let them out so they'll have to pay even more for parking up your ass you greedy selfish pigs & leave my hyper karting out of your bull shit. You're taking away so many jobs by trying to do this, you're taking away a great community by trying to do this, me and my mates have been going for so long now we've become friends with so many staff members there so cut the selfish act & honestly from the bottom of my heart, [redacted] off. Sincerely, go[redacted] yourselves & don't touch my hyper karting. You lot disgust me & many many people agree that you're disgusting, [redacted]

Dear, Shannon et al.

I think the decision to close Hyper Karting is a mistake.

This business is not only a popular entertainment option in a designated entertainment quarter, it also is an employer of many young people from the surrounding localities.

This sort of business endeavour should be supported by local government, not closed down.
Especially not in the interests of a few more car parks in a world which would be better served by reducing the movements of as many fossil fuel burning vehicles as possible.
It's important to note that all vehicles used by Hyper Karting are battery powered.

Please reconsider what seems to be a very short sighted decision.

Thank you for the opportunity to give my opinion on this matter.

Best regards,
Mark Rowley.

Dear Shannon,

I am writing in support to extend the tenancy of the Hyperkarting facility in Moore Park.

I appreciate the importance of parking space for the local area (especially with the further removal of parking nearby), however this facility holds a fair bit of significance for those in the Motorsport community.

There is already so little when it comes to options for karting in Sydney, with the next closest options located in Eastern Creek. These are great facilities - but for many of us, the commute is so long it becomes unrealistic to spend up to 3 hours commuting to and from the venue. This especially becomes an issue for people whose only available method of transport is public transportation (something which the city of Sydney has long been encouraging). Along side this; the karts at Moore park are electric, meaning they make very little noise, pollution and more importantly are a step towards a greener future for Motorsport and our city alike.

I would also like to mention positive impact this facility has on young motorists, providing them an outlet for their competitive spirit and need for speed in a safe environment, and away from other motorists. With hooning on public roads already a prevalent problem in the local area, I would not like to imagine the impact this may have if motoring enthusiasts have even fewer places to practice their hobby in a safe and responsible environment.

Alongside the already well-established argument regarding the loss of 150 jobs, I hope these points I have made outweigh the benefits of some extra car spaces located on the top floor of a parking garage, which will only be filled during the occasional concert, and in doing so, completely going against the supposed ‘encouragement’ for the use of public transport to and from these large scale events.

Regards,

[redacted]

Dear Shannon,

I am writing to express my dismay at the potential closure of the Hyper Kart facilities. It appears that more and more amenities are being closed down across the city and for what? More car spaces when the car park at EQ is rarely full? This would be a great loss to the community for
No additional benefit. The city is gradually becoming more expensive and leas attractive. There are so few attractions for kids- please do not take this joyous venue away.

Kind regards,
Olivia

Dear Sir/Madam,

I am writing to express my strong support for keeping Hyper Karting open.

Over the years, Hyper Karting has been far more than just a go-karting venue to me. It has been a place where friends, family and professionals come together to connect, unwind and build relationships. Whether it's friendly competition with mates, team outings with colleagues, or introducing family members to something new and exciting, the venue has consistently provided a welcoming and engaging environment for people of all ages.

Spaces like Hyper Karting play an important role in the community. They offer a safe and social environment where people can disconnect from daily pressures, spend quality time with others, and create lasting memories. In a busy city, venues that encourage genuine social interaction and recreation are increasingly valuable.

Closing Hyper Karting would mean losing a unique space that brings people together and contributes positively to the local community. I strongly encourage you to consider the impact the venue has had on so many individuals and groups who regularly enjoy and support it.

Thank you for taking the time to consider this perspective. I sincerely hope that a path can be found to allow Hyper Karting to continue operating and serving the community.

Kind regards,

Andrew

Attention: Shannon Rickersey

Dear Shannon and City of Sydney

I am a rate payer and work in the City of Sydney.

I write to expressing my support for the ongoing operation of Hyper Karting in the EQ car parking. Even as an infrequent visitor to the race course, I see it is clearly having a positive impact on the centre and it a much higher and better use of the space.

I encourage council to further extend their right to operate in the car park.

Phil Wu

To whoever this may concern,

I am writing to request that you please keep Hyperkarting open in Moore Park.

To close this down for new parking spaces is quite ridiculous, given that hyperkarting is one of, if not the, entertainment quarter's main attraction.

It's open from 7 to midnight and I was literally just there 5 days ago and races were entirely full at 11:30pm. Meanwhile you want to bring back parking spaces even though the car park is virtually empty majority of the year…

It is unique, it brings people to the quarter of all ages, and with growing popularity of racing in Australia with things such as a the formula one, but a lack of places to try it out, hyperkarting is the perfect place. Everytime I mention it to people, it starts a conversation of how they went when they tried it. It just goes to show that so many people go there and give it a go.

So please keep it open. Sydney already lacks a night life and variety of things to do, and this move to close the venue down would be a huge mistake and outrageous.

Make the right decision.

Neelaabh

Hi, the idea of closing hyper karting a fun space where people can get together and have a good time is ridiculous. Another parking lot is not what we need, not everything should be about the money that would be made from parking spots, it should be about what the community wants and enjoys. I hope you don’t go through with this decision.

Sincerely Charlie

Hi guys,

It has come to my attention that a local institution is at risk of being closed.

Hyper Karting poses no threats and is super necessity for the community.

It's situation on the top of the carpark is perfect & it should be left in order to give Entertainment Quarter a top attraction.

It provides fun for people of all ages & great business for the community.

It really is disheartening to see that this place is at risk and I dearly hope you can listen to your community.

Thank you for your time.

Kindest regards,

Jordan G

Dear Sydney City,

I write to you today not as a politician, not as a lawyer, and admittedly not as a great gokarter but as a TV producer and a deeply concerned citizen…

While producing a gokart themed episode of LEGO Masters Australia I was tasked with meeting the friendly team at Hyperkarting, so friendly in fact that one of them remains my best friend to this day. Once I met the team they encouraged me to have a go in my first ever race and my god I was hooked. I came into Hyperkarting a lot over the coming weeks to 'test' the challenge and make sure it would run smoothly on the day. I had never tested a challenge so much in my life and of course with the help of the expert staff at Hyperkarting the episode was a huge success.

My journey with Hyperkarting didn't end there because we still work enormous hours on set and it has become a ritual for many of us to sneak over at least once a week to destress and even visit the other offerings of the Entertainment Quarter for food and drinks (but never drinks before gokarting)

When I think of Hyperkarts I don't just think of the adrenaline, the competition, the camaraderie, I think of the birthdays, holiday seasons and new relationships, a real timestamp that decorates the history of our lives.

I hope my letter was entertaining and a reminder of the importance of entertainment in our otherwise dull lives. Please reconsider turning Hyperkarts back into extra parking spaces, It would break my heart.

Sincerely,
Cooper

Please consider an alternative plan to enhance the parking experience at Moore Park, it has already gotten the Light Rail station to alleviate the need to drive in. Meanwhile, the side car park on the field adjacent to this venue has recently been scrapped but the key to parking is taking out one of the main entertainment pillars in "Entertainment Quarter"?!

As someone who frequents the location by all modes of transport losing Hyperkart to parking spaces will only reduce visits to the area. It is an attraction for all ages and provides safe, clean fun and value to the space. It generates jobs and revenue, whereas the additional car spaces won't, Wilson Parking have already committed to AI automation in their management of parking spaces and that has seen even less people engaged in their sites.

This is not a fair trade of resources in the area and smells of corporate influence for council decision making. This is a pathetic excuse of an "enhancement" to the city. Another strategy must be available.

Kind Regards,
Eric

Hyper karting should stay. It provides a space for talent to be developed in karts. A place for people to cut loose and test their skills and to enjoy the rush. The place is well set up that it makes you want to go there instead of other places that may be closer. I prefer to go there and I live in Quakers Hill. Please keep hyper karting.

Hi Shannon,

Please save Hyperkarting (Moore Park). I have been there plenty of times, it is more important to have this venue open than to have parking for the stadiums.

The attendees to the concerts should be using public transport to get to the event, not driving. So this initiative will help reduce traffic congestion.

Regards,
Joseph Chow

Dear city of Sydney,
I love hyper karting with a passion and I will be distraught if this beautiful octane fueled outpost is shut down. I have been coming here for half a decade and it provides me with great excitement and brings families together. I think I can say that almost everyone agrees that the floor is better to be a go-karting venue than un-needed car spaces, and it provides a big boost to the entertainment quarter, in turn making a decision to shut down the venue a double edged sword which will hinder the business of the entertainment quarter. Please take my word into consideration as a voice for the people and a lover of hyper karting.
Kind regards

Louis Toussaint

Hi Shannon,

I hope all is well.

I ma writing to express my support for the continuation of hyper cart's use of the space.

I believe that hyper carts adds a unique flair to the entertainment quarter and is a great use of space for families, couples and events.

I have personally been there on a number of occasions for a variety of reasons (bucks party, catching up with friends, etc.) and think it is a great alternative to going to a bar or a cafe.

Finally, I feel like when I drive to entertainment quarter there are often plenty of car parks available, thus I don't believe that hyper carts detracts from peoples' ability to park at the centre.

For the reasons outlined above I believe that it is a great use of space and should be allowed to continue trading.

Thank you,

Denis Mytcak,

To whom it may concern

As a business owner of one of the shops at Entertainment Quarter (Popelino Cafe) I would like to mention the negative consequences that could affect my business if Hyperkarting were to close. We are a small café that relies heavily on the traffic generated by Hyperkarting, as well as on its employees. The large number of people who come because of its operation allows us to stay afloat in this highly competitive industry. We also have six direct employees. Thanks to the customers in Entertainment Quarter, we are able to continue employing these people and avoid the consequences of a future closure if we don't have enough traffic. Therefore, we ask that you allow Hyperkarting to continue operating, as it benefits both the businesses surrounding Entertainment Quarter and the community.

We await your understanding

To the Lord Mayor and Councillors,

I'm writing to oppose the decision not to renew Hyper Karting's permit at Moore Park, and the plan to replace it with more car parking.

I have two daughters. Hyper Karting is one of the few places I can take both of them and have it actually work. One races properly, the other does the mini track, and they both leave happy. We go regularly. It is not a special occasion thing.

So when I looked into why it is closing, I expected a real reason. What I found was parking.

Transport for NSW data shows the Entertainment Quarter car park has hit capacity only a handful of times across 84 major events since Allianz Stadium reopened in 2022. A new 1,500-space underground car park at Allianz is also due to open this year. There is no parking crisis this decision is solving.

What is being lost is straightforward: over 500,000 visitors a year, jobs, disability programs, and one of the only entertainment options in the precinct that runs seven days a week. The replacement is a car park that the data suggests will mostly sit empty.

I am asking the Council to extend Hyper Karting's permit. The venue is working. The parking argument is not.

Yours sincerely,
Felipe Jara Saba

Hi

It would be a shame to entertain closing Hyper Cart at the Entertainment Quarter, a quarter whose "Entertainment" has already been significantly diluted by the lack of diverse entertainment options.

Hyper Cart gas been a staple of the quarter and turned a carpark into a summit of entertainment. Being indoors and in central CBD means any weather entertainment which is a rarity here.

It's adds a unique and diverse attraction to the area.

Finally I work often at EQ and am a Sydney City Rate Layer (lol iving on Lachlan Street in Waterloo), I don't agree with displacing attractions for the want of more carparks when there is ample public transport to EQ and 90% of the time EQ carpark isn't full - in the 9 years I've lived here I've only ever experienced the car park max capacity once.

Please preserve this unique and important attraction which has become the second heart and a recognisable part of Entertainment Quarter.

Thanks
Josh

Dear Sir/Madam,

What stood out to me most was how memorable the experience turned out to be.

Interestingly, I hadn’t even planned to visit Hyper Karting — it was a completely spontaneous decision.

And yet, it became the best part of my day and it became I spoke so proudly about having done.

It’s moments like these — unexpected and unplanned — that truly leave an impression, unlike something routine or predictable like a car park.

Kind regards,
Nissi

Hello

My child and I are frequent Hyper Karting visitors especially during the holidays.

It is the only karting place we have in our area, otherwise we are forced to go way out west to have a fun driving experience. Closing it will be a shame especially when parking spaces are only limited during sporting events. Truth be told, there are plenty of other parking options as well as our Light Rail option to the Moore Park area from Central as well as Randwick and Kingsford/Maroubra.

It would truly be a shame to lose a space like Hyper Karting for a car parking spaces.

Yours sincerely
Fotis Kalis

Hi Shannon,

I'm writing to you regarding the proposed removal of Hyper Karting at Moore Park, and to strongly urge the City of Sydney to reconsider this decision.

This venue is far more than just a recreational activity. It is a community hub, an employer, and a forward-thinking example of what sustainable entertainment in Sydney can look like. Removing it would have a number of significant negative impacts that I don't believe have been fully considered.

Firstly, the economic impact cannot be ignored. Hyper Karting supports a large number of jobs, both directly and indirectly. From staff operating the venue to suppliers, maintenance teams, and surrounding businesses that benefit from increased foot traffic, this decision risks putting hundreds of people out of work or reducing their income. At a time when cost of living pressures are already high, this feels like a step in the wrong direction.

Secondly, this is currently the only venue of its kind in Sydney offering electric, eco-conscious karting. In a period where there is increasing emphasis on reducing emissions and encouraging sustainable practices, removing one of the few genuinely low-emission recreational options sends a confusing message. We should be investing in and promoting initiatives like this, not replacing them with infrastructure that encourages more car use.

Which leads to another major concern. Replacing this space with additional car parking does not align with the broader goals of reducing congestion and encouraging public or active transport. If anything, this is an opportunity to rethink how people access Moore Park. Improving transport links, encouraging public transport use, or even enhancing pedestrian and cycling infrastructure would be a far more progressive and future-focused approach, particularly given ongoing fuel cost pressures and the need to reduce reliance on private vehicles.

There is also the matter of community value. Hyper Karting has become a destination for families, friends, corporate groups, and visitors to Sydney. It contributes to the vibrancy of the Moore Park precinct and provides a safe, controlled environment for motorsport enthusiasts who might otherwise take risks on public roads. Losing this kind of venue reduces the diversity of experiences available in the city and diminishes what Moore Park has to offer as a leisure destination.

In addition, a significant amount of investment has already gone into establishing this venue. The infrastructure, technology, and facilities represent a substantial financial commitment. Removing it prematurely not only undermines that investment but also raises questions about long-term planning and support for innovative businesses in Sydney.

Sydney should be striving to position itself as a modern, sustainable, and experience-driven city. Retaining and supporting venues like Hyper Karting aligns with that vision. Replacing it with more parking does not.

I strongly encourage you and the City of Sydney to engage with the operators, the community, and local stakeholders to explore alternatives. Whether that is retaining the venue, relocating it within Moore Park, or integrating it into a broader transport and sustainability strategy, there are surely better outcomes than simply removing it.

Thank you for taking the time to consider this. I would welcome any opportunity to discuss this further or to support efforts to keep Hyper Karting as part of Sydney's landscape.

Kind Regards,

Daniel Black

Our uncle visited us for the long weekend, from Perth, and we took him to EQ, with our son, on the Saturday night. We easily got a car space, on level 3, many empty spots around 6pm onwards, there was a concert at Hordon, we ate at Mary's, the place was buzzing, but he couldn't stop talking about how cool it was to go to the karts, how awesome it looked and and fit in and added to the experience of the place. Parking was not an issue, why would you want to close the karts, it works so well there and we cant wait to go back!

Dear Sir/Madam

This is a submission in support of the application by the Trustee for Carsingha Investments Unit Trust to extend the time limited development consent allowing the continued use of the level 5 car park at the Entertainment Quarter for electric go-karting and associated activities until 1 July 2028.

The submissions and arguments advanced on behalf of the applicant in the letter from Colliers dated 24 March 2026 are compelling and in particular, I note that:

- the temporary removal of the 296 car parks does not mean that the requirements of the original approval for the EQ is non-compliant;

- a key consideration for the Council in rejecting the application appears to revolve around considerations for the broader Precinct which is not relevant for the purposes of assessing the application given the EQ approvals and standing are separate from the Precinct more broadly;

- even if the considerations around event day parking and the broader Precinct accessibility were relevant, the retention of the exclusive use of the level 5 car park for the operation of the karting facility would be consistent with the broader policy imperative of incentivising people to access the Precinct via public transport or other means not involving private cars.

In addition to the above, the operation of the present facility from the car park provides a highly valuable means of drawing people to the EQ and is an important activation concept. The popularity of the facility and investment that it has driven is a great example of innovation and driving the highest and best use of space that is underutilised for the vast majority of the time.

The fact that the karts used at the facility are all electric is a further bonus and should be held up as a great example of why renewables and electric powered vehicles should be prioritised over traditional combustion engine vehicles.

I support the application to extend the operation of the facility for a further period of time and believe that the benefits derived from the continued operation (community engagement, activation, support for small business and alignment with Council policy objectives around public transportation) greatly outweigh the perceived negative associated with the continued (albeit temporary) removal of a number of car parks.

Regards

Hugh O'Brien

DO NOT CLOSE DOWN HYPER KARTING! Apart from being at election risk for the area, hyper karting is a staple go karting spot for ALL OF SYDNEY the amount of people it brings to the area alone is enough for it to be kept open. It's literally the ONLY time I go to Moore Park and the same can be said for countless people. Look at all the sites, the number 1 thing to do in Moore Park is hyper karting, TripAdvisor even has it ranked as number 1. Moore Park will be a boring and dead suburb without karting, no one travels across sydney to go to hoyts or golfing, sure there's allianz stadium but games aren't on every night. The one thing Moore Park has for people to travel across sydney for every night is hyperkarting. It's unique as it's the only indoor car park go karting spot, closing it down would be one of the biggest mistakes Moore Park council could make.

Hyper Karts is amazing.

It's a place that I've been attached to and has led me to meeting new friends, both on and off the track. It has also been a very special place, where I've celebrated not only many of my own birthdays, but some of my closest friends and family.

Keep Hyper Karting, one of Sydney's best attractions and places to connect with family and friends!

Objection: Keep HyperKarting Moore Park Going

The decision to remove Hyper Karting and return the space to car parking is a step backwards for the community. My family and I have made some amazing memories through this experience.

HyperKarting has transformed an underused car park into a vibrant, year-round destination, attracting thousands of visitors, supporting local businesses, and creating jobs. Replacing it with empty parking spaces—used only occasionally during major events—is poor planning and ignores the real value this facility brings.

In a precinct that has long struggled with activation, Hyper Karting is one of the few proven successes. It delivers economic, social, and community benefits with no significant negative impacts.

Prioritising cars over people—especially in a well-connected, public transport–accessible area—goes against modern planning principles and the City's own revitalisation goals.

Do not remove what is clearly working. Keep HyperKarting.

Sincerely,
Chris T

To whom it may concern,

My name is Saumya and I am a resident of Macquarie Park. I am writing to express my wholehearted support for Hyper Karting at Moore Park and to urge you to reconsider any decision that may lead to its closure.

I'll be honest Moore Park is not around the corner for me. The commute from Macquarie Park takes time and effort but every single time, Hyper Karting is worth every minute of it. That alone says everything about the value this place holds. It is not somewhere I stumble upon, it is somewhere I choose joyfully time and time again.

Some of my most cherished memories over the past years have been made within those walls, be it birthdays, celebrations, spontaneous catch-ups with friends and family. In a world where it's increasingly hard to find something that brings people of all ages together, Hyper Karting does it effortlessly. It is my go-to for any occasion where I want to strengthen a bond and create a memory worth keeping.

What's more, before Hyper Karting, I had little reason to visit Entertainment Quarter. I simply didn't know much about it. But Hyper Karting brought me there and in doing so, introduced me to the surrounding cafes, restaurants and businesses I now frequent. Hyper Karting doesn't just serve its own customers it breathes life and foot traffic into the entire precinct. The economic ripple effect it creates for neighbouring businesses is something that should not be underestimated.

Closing Hyper Karting would be an irreplaceable loss not just for the people who depend on it for their livelihoods, but for thousands of families, friends and communities like mine who depend on it for joy.

Please keep Hyper Karting open. It matters more than words can fully capture.

Yours sincerely,
Saumya Khandelwal
Resident, Macquarie Park 2113

Dear City of Sydney

I implore you to please NOT revoke the operating licence for Hyper Karting at Moore Park.

We have visited this venue multiple times for birthdays, celebrations and team-building activities, it is a fantastic venue that Sydney desperately needs.

The car park is rarely (if ever) full and to give this space back to dead-use for cars is absolutely wrong on so many levels, it makes no sense.

If you can please consider what is right for Sydney locals then please do not force this venue to close.

Your sincerely

Mathew Thompson

Dear law maker,

NOOOO DONT CLOSE IT NO DONT CLOSE IT MOORE PARK IS ALREADY SO BORING NO ONE EVEN GOES THERE ANYWAY HYPER KARTING WAS THE ONLY ONLY COOL THING THERE

WHATS THE POINT OF AN ENTERTAINMENT QUARTER IF NOTHING YHERE IS ENTERTAINING YOU ALWAYS WONDER WHY SYDNEY GIRLS BARELY GO THERE ITS BECAUSE ITS SO BORING AND INACCESSIBLE TO SO MANY PEOPLE

YOU HAVE a DAILY TOTAL OF LIKE 1400+ people + UNSW + SURROUNDING SCHOOLS THAT WOULD BE MORE THAN HAPPY TO GO TO A LOCAL AREA BUT EQ IS SO BORING AND EXPENSIVE ITS BASICALLY NEVER WORTH IT

good job getting rid of all potential profits ����������

Kind regards, Aleena Kazi

To the City of Sydney Council,

I am writing to formally express my strong opposition to the decision to refuse the operational extension of Hyper Karting on the rooftop of the Entertainment Quarter car park.

As someone who goes to Hyper Karting, I have seen first-hand the vital role this business plays in Sydney's cultural and social landscape. It is more than just a go-karting track; it is a significant employer and a primary drawcard for families and tourists visiting Moore Park.

The decision to shut down this unique entertainment venue in favor of an additional 200 car spaces is particularly difficult to justify given the broader context of local infrastructure. With a new 1,200 space car park due to open shortly near Allianz Stadium, there is no evidence that these 200 rooftop spaces are critical enough to warrant the destruction of a successful local business and the loss of jobs.

Converting a vibrant, community focused entertainment space back into empty asphalt, especially when massive parking capacity is being added nearby, is a retrograde step for the Entertainment Quarter.

I urge the Council to reconsider this decision and allow Hyper Karting to continue its operations, preserving both the jobs of local workers and a key part of Sydney's recreational appeal.

Sincerely,
Tejas Patel

I would like to express my concern about the possible removal of the karting area.

I really love karting. It is one of my favorite activities, and I go there almost every week. I enjoy playing and spending time there regularly. The place is very fun and important to me.

Replacing it with parking spaces does not feel right, because many people like me come to enjoy this activity. It is not just a game, it is something we look forward to.

I kindly ask you to reconsider this decision and keep the karting area. It is a great place that brings joy to many people.

Thank you for your time and understanding.

Dear Shannon Rickersey,

I am writing to express my concern regarding the potential closure of Hyper Karting at Moore Park and its proposed replacement with additional car parking. This decision warrants careful reconsideration given the significant economic and social value the facility delivers to Sydney.

From an economic perspective, Hyper Karting represents a high-performing activation of otherwise underutilised infrastructure. Since opening in 2021, the venue has attracted over**500,000 visitors** and operates seven days a week, contributing consistent foot traffic to the Moore Park Entertainment Quarter (SMBtech). This level of activity supports surrounding businesses including food vendors, retail outlets, and event venues, creating a multiplier effect across the local economy. In contrast, data indicates that the existing car park rarely reaches full capacity, even during major events, raising questions about the marginal benefit of reinstating approximately 300 parking spaces (SMBtech).

The employment impact is also material. The potential closure places over **150 jobs at risk**, directly affecting workers and their families while reducing economic participation in the precinct (SMBtech). In a broader context, this runs counter to ongoing efforts to revitalise Sydney's nighttime economy and entertainment sector.

Beyond economics, Hyper Karting provides substantial social value. It functions as an inclusive community hub, offering recreational opportunities that are accessible, alcohol-free, and appealing to a wide demographic including families, young adults, and tourists. The venue has also supported community and disability programs, including participation by individuals under the NDIS, demonstrating meaningful social inclusion outcomes (SMBtech).

Importantly, the facility contributes to youth development and sporting pathways. It has been used as a training ground for aspiring drivers, with young talent progressing into professional development programs. This highlights its role not just as entertainment, but as grassroots infrastructure for motorsport and skill development.

Replacing such a multifunctional asset with car parking presents a clear opportunity cost. While parking availability is a valid consideration, the evidence suggests that demand is intermittent and increasingly supplemented by public transport improvements and new parking developments in the precinct. Meanwhile, Hyper Karting provides continuous activation, economic output, and social engagement.

In summary, the decision to prioritise static infrastructure over an active, community-oriented, and economically productive venue **risks undermining the broader vision** for a vibrant, year-round Entertainment Quarter. A balanced approach, such as extending the venue's operation while exploring integrated transport and parking solutions, would better align with Sydney's strategic objectives.

I respectfully urge you to reconsider the current position and engage with stakeholders to identify a solution that**preserves the substantial value Hyper Karting contributes to the community.**

Sincerely,

Joshua Vidler

Dear Council,

I am writing to express my strong opposition to the proposed closure of Hyper Karting in Moore Park's Entertainment quarter.

I have visited Hyper Karting on countless occasions, including celebrating my birthdays and as a going away event before I left for my 6-month exchange program in January to name a few. Each time has been an incredibly positive experience, and I have also introduced many of my friends to the venue who have all loved it and since returned themselves. Hyper Karting provides a space for the community to interact and makes karting way more accessible due to the lack of centrality of other karting places in Sydney/NSW. I myself would never have gone if my brother, who is passionate about cars and racing, didn't try it first himself.

The proposed closure being based on the "need for additional car parking" in my opinion is ridiculous. From my own consistent experience, parking at the Entertainment Quarter car park has been easy and I've always managed to find a spot even when major events such as sporting matches were taking place. Based on my experiences, it is difficult to understand how reclaiming Hyper Karting's space for parking is necessary and a justifiable decision let alone the hundreds of employees who would be directly impacted by this decision.

I urge the Council to reconsider this proposal and take into account the already adequate existing parking measures and the broader economic and social value that Hyper Karting provides.

It would also be a massive disappointment if when I return to Australia, I could not go back to Hyper Karting.

Thank you for your time and consideration,

Warm Regards,
Laura Legovich

Hi,
I am a lifelong Sydney resident and long term patron of hyper karting. I would be extremely disappointed to have them closed just for some car spaces. It would be a total misuse of the space and would ruin a business that has brought to much benefit. I strongly suggest you reconsider.

Thanks you.

Dear City of Sydney DA office,

I am writing to formally object to the proposed development application that would result in the closure of Hyperkarting at Moore Park in order to make way for a carpark.

As a member of the community, I find this proposal deeply disappointing. Hyperkarting is a vibrant, active recreational facility that brings genuine joy to thousands of Sydneysiders; families, friends, corporate groups, and individuals of all ages who come together in a shared experience that is increasingly rare in our city.

To replace this with a carpark represents, in my view, a significant step backwards for the Moore Park precinct and for Sydney as a liveable, people-centred city. At a time when our communities are in need for engaging, accessible recreational spaces, the loss of a venue like Hyperkarting should not be taken lightly.

I would urge the City of Sydney to consider the following:

- The irreplaceable community and social value that Hyperkarting provides to the area
- The contrast between an active, people-centred use of the space versus static car storage
- The precedent this sets for prioritising vehicle infrastructure over human experience in our public precincts
- The economic contribution the business makes to the local area through employment and visitation

I respectfully request that this DA be refused, and that alternative solutions for parking needs in the area be explored. Preferably solutions that do not come at the cost of a cherished community facility.

Thank you for considering this submission. I trust that the City of Sydney will weigh the broader community interest carefully in its assessment.

Yours sincerely,

Jonathan

Jonathan & Lily Michael

Dear Shannon Rickersey,

I was recently informed that the Hyper Karting group at EQ are potentially closing down due to apparent car parking needs in the EQ car park.

Personally I think closing this company down would be a huge mistake and a big loss to the community.

Over the years it has been known that EQ was a struggling entity with huge government interventions for revitalising this location for business and community use. In my and many others opinions, Hyper Karting is a great representation of reviving a major part of EQ and bringing in business for the entire area. Not just with Hyper Karting customers, but those customers like myself who would often utilise dining and other options at EQ at the same time.

The company also embodies an environmentally friendly ethos with electric (not petrol) karts that are suitable for all ages. They run a fantastic company that appeals to a massive part of the community that enjoy motorsports and embracing a fun and competitive environment with friends and family. There is nothing like this In Sydney's eastern suburbs or the CBD and it would be a huge loss to see this company be shut down due to apparently requiring more parking. I have yet to see this car park full, even on the busiest days of football games at the SCG and surrounds.

If the parking is the issue, some public transport options that come closer to EQ for members of the public need to be made available. Or centennial park needs to be made available as an alternative parking option for busy game / event days etc.

I have had countless memorable times at Hyper Karting with groups of friends where we have been part of social race events where we can race competitively in a friendly, fun and safe environment. Hyper Karting is a great way for the large and growing number of motorsports enthusiasts like myself to get their competitive needs met in a safe arena and not in an illegal more risky way on public roads where we've seen countless preventable accidents in the past. In my opinion companies like Hyper Karting enable customers of all ages to improve their driving and karting skills in a safe and monitored environment.

With so much talk in the media of trying to get teenagers and youths outside socialising in person and minimising the known negative effects of screen time and social media use, it would be an unfortunate circumstance for something that embodies this concept to then disappear when there is literally nothing available like this even close to the eastern suburbs or CBD.

In an unstable world where employment, economic and housing issues are at the forefront of many people's minds, it would be a huge loss to this company who actively employ over 150 staff who have families, bills and mortgages to pay at the expense of a few parking spaces which will be seldom filled.

Please see that Hyper Karting remains as a permanent fixture of EQ's dynamic community and ecosystem.

Thank you.

Kind regards, Sam Harrison.

Hi,

Just my two cents - the light rail from the city has made Moore Park more accessible than ever by public transport. Increasing parking is becoming less relevant and will only continue to do so as the metro rolls out and our public transit system becomes better than ever. What we need is a city full of soul and great precincts and places worth making the journey though and to, places like hyper karting. What we don't need is one more level on a car park.

A lot of people would be very sad to see it replaced with empty car spaces.

Thanks,
Rory

To whom this may concern,

I am writing to respectfully express my strong support for keeping Hyper Karting operating and to urge you to reconsider any decision that may lead to its closure.

This venue is far more that just a recreational facility. It provides employment for approximately 150 staff members, many of whom rely on these jobs to support themselves and their families. The closure of this venue would have a significant and immediate impact on those employees and the wider local community.

Equally important is the value this venue brings to families and children. As a parent, I have personally seen how much joy and excitement this track provides. My 4 year old son absolutely loves going there, it is one of his favourite activities. Knowing that a safe, enjoyable, and positive entertainment option like this could disappear would be incredibly upsetting for him and many other children who benefit from the experience.

Facilities like Hyper Karting help kids active, engaged, and excited about positive activities outside the home. They offer a fun, social environment that supports well being and creates lasting memories for families across the community.

I strongly believe that preserving this venue is the best interest of both the employees who depend on it for work and the families who depend on it for recreation and enjoyment. Once a venue like this is lost, it is extremely difficult to replace.

Thank you for taking the time to consider this appeal. I sincerely hope you will take the staff, families, and broader community impact into account and work toward a solution that allows Hyper Karting to continue operating.

Kind regards,
Michael

Regards to not renewing Hyperkartings permit to operate, i feel as though it adds quite a lot to the entertainment quarter surrounding, it is a go to for interstate visitors that i host frequently as its a good gateway into a lively sydney evening. The unique experience it provides given its surroundings surely makes it more important than another level of parking to the area. I and i'm sure many others think not renewing them for the sake of parking spots and revenue damages part of our already frail nightlife.

Regards,
Robbie Rifai

Hyper karting is one of the best go kart tracks in Sydney. Closing it down for car park spots would be a huge mistake as hyper karting is one of the only reasons I actually visit the Sydney entertainment area at More park otherwise I would see no interest in traveling there. Closing it down would be a huge mistake for Australians as well as the thousands of tourists that would visit the venue.

To Whom It May Concern,

I am writing to express my support for Hyperkarting. It would be a significant loss to the community to see them go.

In my view, a parking facility cannot provide the same value to the council and the community that Hyperkarting does. I urge you to consider an alternative arrangement or a new deal that would allow them to remain at their current location.

Please consider letting them stay.

Thank you.

To whomever it may concern,

I am writing to express my strong concern regarding the potential closure of Hyper Karting in Moore Park.

Hyper Karting is a unique community asset that contributes meaningfully to the local area. It provides a safe, controlled environment for motorsport enthusiasts, particularly young people, to engage with driving in a responsible way. In doing so, it promotes skill development, practice and passion.

It also serves as a key community place for friends to meet up or for birthdays to be celebrated. Its value in this regard goes beyond just the go karting experience, and fosters genuine connection.

Beyond its social value, Hyper Karting plays an important economic and cultural role. It attracts visitors to Moore Park, supports local employment, and adds diversity to the area's recreational offerings. In a city where accessible, engaging activities for young adults are limited, its presence is especially valuable.

Closing Hyper Karting would not only remove a popular and well-utilised facility, but also diminish the vibrancy and appeal of Moore Park as a destination.

I urge the council to carefully consider the broader impact of this decision and to explore all possible avenues to preserve this important community space. It's value transcends plain economic contribution to Moore Park, forming an essential component of the local community

Thank you for your time and consideration.

Kind regards,
[redacted]

Dear City of Sydney council,
I am writing to you to express my strong dissent to the decision to convert Hyper Karting back into parking spaces.

Hyper Karting employs locals, builds friendships and draws customers in to the entertainment quarter. It's such a fun place to go. Please reconsider this decision and prioritise the livelihood of Hyper karters and employees over more parking spaces.

Regards
Hamish

Hello,

I am reaching in regards to the continuation of HyperKarting making use of the top car park level in the Entertainment Quater.

The consideration of parking for sporting events and special events is significant, but it should not come at the expense of a different sporting facility.

The requirement of parking for special events is irregular and sparse. Most of the time, the car park is quite empty. HyperKarting runs a fantastic operation, proving high quality racing facilities for adults and children alike.

There is nothing like it anywhere close by, even when compared to the professional racing facilities - I believe that this facility does a superior job.

It is an excellent addition to Sydney's sporting facilities, and a brilliant use of the mostly unused space.

It would be a real shame to the Sydney community to lose HyperKarting from this space.

Kind regards,
Alex

To whom it may concern,

I am writing to express my support for Hyper Karting and my concern regarding the proposal that may lead to its closure.

Hyper Karting is a genuinely unique venue that adds energy and character to Sydney's entertainment landscape. It provides an experience that goes beyond typical hospitality or leisure options. It's social, active, and brings people together in a way that few venues can. I've personally had great experiences there, from competitive races with friends to events that have created lasting memories.

What is particularly concerning is the broader contradiction this decision represents. The City of Sydney has consistently promoted the vision of a more vibrant, walkable, and experience-driven city. Venues like Hyper Karting directly support that vision by giving people a reason to stay, socialise, and engage locally. Replacing a destination like this with additional parking prioritises cars over people and undermines those stated goals.

Hyper Karting has been a staple entertainment option for me since its initial inception, and I still remember coming there for some much needed exercise (and mental health break) when we were all enduring a pretty grim covid lockdown in 2021.

Beyond its entertainment value, Hyper Karting also supports a large number of jobs and contributes to the local economy. Losing over 150 roles, along with a well-loved community space, is a significant impact that should not be overlooked.

I strongly encourage you to reconsider this direction and recognise the value that Hyper Karting brings, not just as a business, but as part of what makes Sydney an engaging and enjoyable place to live.

Thank you for your time and consideration.

Kind Regards,
Max Loiterton

Hi Shannon,

I hope all is well and you had a good Easter.

Writing to you about closing Hyperkarting. This is one of the venues that keep that spot alive, turning it into a car park is going to reduce the semblance of life left in that spot. This is a venue me, my friends, and my work team go to for our events and we find the vibe fun and relaxing. Please reconsider this decision.

Thank you!

Kind regards

Dear Council Representative's,

I am writing to formally and strongly object to any proposal to shut down the local kids go-karting business.

I am a regular customer, and I take my children there frequently. It is one of the few places where they are genuinely excited, active, and fully engaged. They absolutely love it and look forward to every visit. The thought of this facility being closed is not just disappointing, it would be deeply upsetting for my children and many others in the community.

This business is far more than just entertainment. It provides a safe, supervised environment where children can build confidence, develop coordination skills, and enjoy healthy, active recreation. In a time when screen time is a growing concern, venues like this are incredibly important and should be supported, not removed.

Closing this business would take away a valuable and much-needed outlet for local families. It would also negatively impact the local economy, including jobs and small business sustainability. Many families, including mine, rely on accessible, family, friendly venues like this.

While I understand the council has responsibilities regarding regulations and compliance, shutting the business down should be an absolute last resort. I strongly urge the council to work constructively with the owners to resolve any concerns and find a practical solution that allows the business to continue operating safely and within guidelines.

The loss of this facility would be felt widely across the community. I ask that you seriously reconsider any decision to close it and take into account the real impact on families, children, and local livelihoods.

I appreciate your attention to this matter and hope the council will make a decision that reflects the needs and wellbeing of the community.

Kind regards
Tommy El

We love hyper carts and would hate to see them go! There aren't many carting places around so really need this business to stay.
Please don't send them packing. I've always found a parking spot without issue during big events. The main issue with parking is how slow it is to leave after a big event. Can take an hour. Would be much worse for anyone parking on very top level.

To whom it may concern.

Not renewing HyperKartings lease will be a travesty for the Eastern Suburbs of Sydney.
There is nothing like this anywhere close, my kids and I love it as it is an escape from the hustle and bustle of life.
Having it so close the shops and entertainment of the Entertainment quarter means it is an adventure not just a destination.
Please reconsider the lease and allow families to enjoy this unique entertainment for years to come!!

Kind Regards

Simon Martin

Dear City of Sydney Council,

I am writing to express my strong support for the preservation of Hyper Karting in Sydney.

Hyper Karting provides a unique recreational experience that combines motorsport, community engagement, and safe entertainment for people of all ages. It offers an accessible entry point into karting and motorsport culture, which is especially valuable in a city where such opportunities are limited.

Beyond entertainment, the venue contributes positively to the local economy by attracting visitors, supporting jobs, and activating the surrounding area. It also serves as a social hub where friends, families, and enthusiasts can connect in a safe and controlled environment.

Losing Hyper Karting would mean losing an important part of Sydney's recreational landscape. I strongly encourage the Council to consider the community, economic, and cultural value it brings, and to explore all possible options to support its continued operation.

Thank you for your time and consideration.

Kind regards,

Jackson Norman

To: dasubmissions@cityofsydney.nsw.gov.au
Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

I am writing to express my strong support for HyperKarting and to respectfully urge Council to reconsider any plans that would lead to its closure.

HyperKarting is far more than a commercial operation. It is a unique recreational facility that brings genuine value to the community by providing a safe, inclusive and engaging environment for people of all ages. Facilities like this are rare and play an important role in fostering social connection, family activities and local tourism.

The justification that the space is required for additional car parking appears difficult to support, particularly if existing parking capacity is not fully utilised. Replacing a vibrant, well-used community venue with underused parking infrastructure does not represent the best outcome for the area or its residents.

In addition, the impact on employment should not be overlooked. The closure of HyperKarting would directly affect a significant number of staff and their families. At a time when supporting local jobs and businesses is critical, this decision would have real and immediate consequences.

HyperKarting contributes positively to the local economy, activates the precinct, and enhances the overall appeal of the area. Removing it would diminish the diversity and vibrancy of the community.

I respectfully ask that Council carefully reconsider this decision and explore alternative solutions that allow HyperKarting to continue operating.

Thank you for taking the time to consider this submission.

Yours sincerely,

Samuel Crane

Dear Shannon Rickersey,

I am writing to formally submit my opposition to the development application regarding the Moore Park area.

I am concerned that the proposed development would lead to the closure of the Hyperkarting facility. This facility is a valuable asset to the community, and its removal would be a significant loss to the recreational landscape of Moore Park.

I kindly request that my concerns be taken into consideration during the assessment of this application.

Thank you for your time and for considering my feedback.

Best regards,

Justin Sue

I didn’t graduate with any special degree but Im pretty sure shutting down a place that makes money for empty car spaces that will only get used once a month and will earn significantly less is not a very good business decision.

So keep HyperKarting open.
Unless u can offer an alternative of similar locations, size, quality and price it doesn’t make any sense.

Regards

Good morning,

I am writing to express my strong support of Hyper Karting remaining at its current location in the EQ car park.

We regularly attend the EQ with our sons, primarily to visit Hyper Karting, and then stay for lunch or dinner.

Hyper Karting is an excellent use of the 5th level. Please reconsider your plans to turn it into car parking. While parking at EQ can get busy when there's an event on, the light rail and bus network are more than capable of managing overflow.

Thanks,
Dylan

To Whom It May Concern,

I am writing to express my strong concern regarding the potential closure of Hyper Karting. I respectfully urge the City of Sydney to reconsider any decision that would result in shutting down this establishment.
Hyper Karting is more than just a business, it is an important part of the local community. It provides a safe, welcoming space for people to gather, socialise, and support local culture. For many residents, it is one of the few accessible venues that contributes positively to the area's social life and sense of connection.
Closing this venue would not only impact its owners and staff, but also the wider community who rely on it as a place of recreation and engagement. Small and independent venues like this play a vital role in supporting local employment, encouraging economic activity, and maintaining the vibrancy of our city. Shutting down a valued community space should be a last resort, not the first option.
I urge the City of Sydney to take into account the broader social and economic impact of this decision and to support local businesses that contribute positively to our community.
Thank you for your time and consideration.

Sincerely,
Andy Chea

Dear City of Sydney,

Why you would get rid of this business in favour of another level of car parking is absolutely baffling. That whole precinct is one big car park at the best of times and you would be doing serious damage to the entertainment factor of that precinct if you proceed with your silly plans.

Regards,
Mark

To the city of Sydney,

Hyper karting shutting down will make a city with already limited activities for young people a lot more difficult. It's easily accessible and is amazing on foot traffic. When searching "things to do in Sydney" hyper karting is always in the top 10 and is now iconic. Letting that go to waste would be an extremely poor decision and set a very bad precedent for how Sydney supports growing businesses. Please do not let hyperkarting shut down.

Hyper Karting is a place I hold dear. My grandfather used to take my cousins and I whenever he travelled to Sydney before his passing. I continue to go with my mates and girlfriends family regularly. Removing this would be saddening to most likely not only me but many others with similar experiences. I'm attending my grandfathers funeral next week and this message could not come at a worse time. One of the last places I hung out with him. Parking I understand is a need. But unless relocation is on the cards this cannot be. There is sentimental value, aswell as a great attraction for not only tourism but locals and Sydney wide "wannabe" racecar drivers. Coming from the Sutherland shire myself, hyperkarts is a close by way of having fun and remembering my family. Only next week I was planning on going, and many times after that.

I hope this message can help.

Cheers,
Bailey

Hi,

Hyperkarting is one of the main reasons people bother going to the Entertainment Quarter.

Parking spaces are usually easy to find. Pulling them out to give more parking might help with large events but will lower patronage to the area the rest of the time.

Plus if we don't get petrol sorted soon people will be more on public transport anyway.

Please keep hyperkarting open.

If it's not possible to keep them there please find them a suitable space in the EQ itself and provide with a suitable period of rental relief to offset the cost to move.

Cheers,

Kathie & family

We hope Hyperkarting is saved!

Our family loved coming together and having a great time at your venue and we look forward to many more visits at Hyperkart.

It would be a terrible shame and disservice to the community to close this venue down.

On top of this, when we attended there was plenty of parking!

It was Hyperkarting that bought us to the facilities. We then also went for a walk and had dinner at the Mexican place as well, icecream shop and the little corner store (i forget the name) - all of these places we only discovered because we attended Hyperkarting.

SAVE HYPERKARTING!

Yours sincerely
Angela & [redacted] families

Dear Shannon,

I am writing in relation to submission RD/2023/897/A concerning 116 Lang Road, Moore Park, and the proposed closure of Hyper Karting to facilitate additional car parking spaces.

I would like to express my concern regarding this proposal. Hyper Karting provides a unique recreational offering within the Moore Park precinct, contributing to the diversity of activities available to families, young people, and the broader community. Facilities like this are increasingly rare in inner-city areas, and their removal represents a loss of accessible, active entertainment options.

Replacing such a venue with additional car parking raises questions about the long-term vision for the area. Moore Park is already well-serviced by public transport and is widely promoted as a destination for recreation, sport, and entertainment. Prioritising car parking over community-focused attractions appears misaligned with these goals, particularly at a time when there is growing emphasis on reducing car dependency and enhancing public spaces.

Hyper Karting also supports local employment and brings regular visitation to the precinct, benefiting surrounding businesses. Its closure may have a broader economic and social impact beyond the immediate site.

I respectfully ask that consideration be given to retaining or relocating this facility, or at the very least ensuring that any redevelopment includes comparable recreational opportunities for the community.

Thank you for the opportunity to provide feedback on this matter.

Kind regards,
Rebecca

To whom it may concern,

I want to express my support for Hyper Karting and that I am against the closure of it to accommodate more car parking spaces. Is there not enough public transport in the area? Why create more car spaces by taking away a community and family space. This is very disappointing to see and does not look good for the City of Sydney Council.

Hyper Karting has been part of my family for many years and not only do we visit frequently we also go to the many fabulous cafes and restaurants there. The closure of Hyper Karting would also affect these business and immediately there will be less people in the area daily if this was to close.

The council needs to think about community and families, not car spaces.

Regards,
Stephanie Williams

There aren’t many places you can go where all the staff are consistently 10/10 in helpfulness, passion and friendliness which is a testament to how loved and important this place is.
It provides a much needed facility and the benefits outweigh a car park especially when there are transport options

Thank you
Oliver

To destroy what is such a great use of a barely utilised space in order to create more under utilised space is insanity.

Hyper karts is such a great idea, business and fun time. It would be an absolute shame to lose such a great addition to what there is to do in Sydney. Not to mention the loss of jobs that will occur if this ridiculous plan goes ahead.

For once it would be nice to see the city of Sydney not make a stupid decision.

Hi there,

Hyperkarts has been a fantastic venue that my friends and I regularly attend. We grab dinner in the entertainment quarter then spend the evening racing round the track. The continual changes to the track and layouts makes it interesting to keep coming back.

It would be a shame for it to close for the sake of carspots - on event days it takes an hour to get out of the carpark anyway! There is plenty of parking in Sydney Boys High for event days.

I hope that the council can reconsider the place that hyperkarts has in the community and continue to keep it open into the future.

Regards
Darryl

Dear City of Sydney Council,

I am writing to urge you to reconsider your recent decision to deny Hyper Karting's application for a two-year extension at the Moore Park Entertainment Quarter.

Since opening in 2021, Hyper Karting has become one of Sydney's most beloved entertainment destinations — a genuinely unique venue that serves families, young people, and groups of all kinds. Closing it would mean the loss of over 150 jobs, the removal of a major recreational attraction, and a real blow to the surrounding local economy and the broader Entertainment Quarter precinct.

I understand the Council's concern about the commercial use of parking spaces, but I'd respectfully ask: is this the right trade-off for our city? The venue operates on a rooftop level of a car park, and the remaining floors continue to serve the public. The modest inconvenience of reduced parking spaces is far outweighed by the cultural, economic, and community value Hyper Karting provides.

A short two-year extension is not an unreasonable ask. It would allow the business, its staff, and the community that relies on it to plan for the future — and it would give the Council time to work collaboratively on a long-term solution that serves everyone.

Sydney deserves world-class entertainment options. Hyper Karting is one of them. I sincerely hope the Council will reconsider this decision and find a way to keep this wonderful venue open.

Thank you for taking the time to read my submission.

Kind regards,
Jordan House, Prospect NSW

Dear Council Team,

I hope this message finds you well. I am writing to express my heartfelt support for Hyper Karting, a place that has become a vibrant hub for both kids and adults in our community. Over the years, Hyper Karting has offered countless families and friends a unique, joyful environment where everyone can share memorable experiences, enjoy fun activities, and strengthen community bonds.

This venue has not only provided entertainment but has also encouraged healthy competition, teamwork, and the development of valuable life skills among young people. It is rare to find such spaces where all ages can come together and create lasting memories in an engaging and safe setting.

I kindly urge the council to consider the positive impact Hyper Karting has on our local community and to support its continued operation. Preserving this joyful place means ensuring that both children and adults have access to a space that promotes happiness, connection, and wellbeing.

Thank you for your attention and for all you do for our community. I hope you will help us keep Hyper Karting thriving for future generations.

Warm regards,

Hi, please do NOT close hyper karting. There is no second one near the CBD, and it adds so much needed diversity into entertainment in Sydney, which is already lagging behind most European cities.

They bring much more benefit to community than extra parking for polluting cars and people who can't walk half a mile.

Best regards, aussie citizen and Sydney resident
Dmitry

Hello,

Please do not convert the top floor into another car park level. I visit Moore Park regularly and rarely see the car park even remotely full. The hyper karting on the top floor is such an amazing place to hang out with friends and have a fun go kart race. It's truly one of its kind and it will be a real shame if they disappeared just to increase car parking capacity.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Hyper Karting is more than just a venue — it's a place that genuinely brings people together and creates real experiences that are hard to replace.

Personally, I've spent time there with friends, and it's one of the few places where everyone can disconnect from day-to-day stress and actually enjoy something together. It's not just about karting, it's about the shared moments, the competition, and the memories that come from it.

Closing it down to increase car park capacity by 296 spaces , which may not even be fully utilised feels like a significant loss for the community. In exchange, we risk losing over 150 jobs and a venue that actively contributes to social connection and local engagement.

Spaces like Hyper Karting are rare. They provide safe, inclusive entertainment and play an important role in community wellbeing.

I strongly urge the council to prioritise people, local jobs, and community value over unnecessary infrastructure expansion.

Please keep Hyper Karting open.

Regards,

a citizen of Australia

Dear Ms Rickersey,

I'm writing to you to request Council reconsider its decision to reinstate the 298 car spaces on the upper level of the Lang Road parking station, which would require the closure of the Hyperkarting venue.

Hyperkarting is an important part of Sydney's night economy, brings a lot of joy to a wide cross-section of the community, and is an activity entirely consistent with the objectives of the*Centennial Park and Moore Park Trust Act 1983 No 145*, namely:

8 Objects of Trust

The objects of the Trust are—

(a) to maintain and improve the Trust lands,

(b) to encourage the use and enjoyment of the Trust lands by the public by promoting and increasing the recreational, historical, scientific, educational, cultural and environmental value of those lands,

(c) to maintain the right of the public to the use of the Trust lands,

(d) to ensure the protection of the environment within the Trust lands, and

(e) such other objects, consistent with the functions of the Trust in relation to the Trust lands, as the Trust considers appropriate.

The Trust was created in 1983 when public transport wasn't as developed as today. The requirement for parking has diminished, particularly for major sporting events. Notwithstanding, the Trust appears to be silent on where parking is required; instead, stating where it is prohibited. To my mind, a space that facilitates parking on the lower levels with entertainment and recreational facilities on the upper levels better aligns with the intended use of the land under the Trust's objectives.

Similarly, while Council is an important stakeholder, the principal authority appears to be the Chief Executive of the Centennial Park and Moore Park Trust and then the Minister, not the planner at CoS. I'd strongly urge CoS to review this decision.

Hi,
I've been going to hyperkarting at Moore park for over 3 yrs now and I have never come across parking issues.
The venue is open all 7 days of the week,365 days a year and the only problem we've had is reaching the venue when there is a major event happing around. It has nothing to do with parking.
This is probably the only activity me and my wife love doing together cos it's fun, clean and competitive (if someone wants to).
We celebrated our friends and family's birthdays here getting kids and adults both to taste the fun of racing in a safe environment.
It would be a complete failure if this place is shut down especially for parking concerns.
The amount of times I've been there in over 3yrs, it's definitely not worth shutting down the place for parking issues.
Please keep this place running, the staff and customers deserve to have this.

Regards,
Kushagra

Dear Lord Mayor Moore, Shannon Rickersey, and Councillors,

This correspondence is submitted as a formal part of a community-led petition to prevent the closure of Hyper Karting Sydney, currently located at the Entertainment Quarter (EQ) in Moore Park. As the City of Sydney and the NSW Government deliberate on the future of the EQ redevelopment, we urge you to recognize Hyper Karting not merely as a tenant, but as a vital piece of social, economic, and technological infrastructure that is essential to the vibrancy of our city.

1. A Pillar of the Non-Alcoholic Night-Time Economy

Hyper Karting is a rare example of a successful, high-traffic night-time venue that does not rely on alcohol sales. Operating until midnight, it provides a safe and active alternative for young adults and families. Its removal would be a direct bl1ow to the City's goal of fostering a diverse 24-hour economy.

2. Exemplary Adaptive Reuse and Sustainability

The venue's location on the Level 5 car park is a masterclass in urban space efficiency. By using all-electric karts, Hyper Karting aligns with the City's net-zero targets and minimizes the acoustic and environmental impact on the Moore Park precinct. Replacing this with traditional commercial space would be a step backward for sustainable urban planning.

3. Essential Social Infrastructure for an Increasing Population

With thousands of new residents moving into the Waterloo and Green Square precincts, the demand for local, active recreation is higher than ever. Hyper Karting's participation in the NSW Active Kids program makes high-quality recreation accessible to families across the socio-economic spectrum.

4. Economic Innovation and Trip Generation

Hyper Karting is a primary drawcard for the Entertainment Quarter. Its constant innovation—including the new BattleKart, Pixel rooms, and professional recording features—drives the foot traffic that supports surrounding small businesses. A redevelopment that displaces such a high-performing anchor risks the economic collapse of the remaining EQ hospitality and retail sectors.

Our Request:

We request that the City of Sydney use its planning and advocacy powers to ensure that any future master plan for the Entertainment Quarter includes a guaranteed long-term lease or a purpose-built relocation for Hyper Karting within the precinct. The "Entertainment" in Entertainment Quarter must be protected from homogenization and short-term developer interests.

We look forward to your support in preserving this unique Sydney institution.

Sincerely,

On behalf of the "Save Hyper Karting Sydney" Initiative 601

Dear Council,

I am writing to express my concern regarding the potential closure of Hyper Karting.

This venue is more than just a business—it's a place that has brought people together, created lasting memories, and supported a strong sense of community. The possibility of losing such a space is deeply disappointing, especially considering the impact it would have on over 150 employees who rely on it for their livelihoods.

Closing Hyper Karting to increase car park capacity by 296 spaces seems disproportionate, particularly when those additional spaces may not even be fully utilized. The social, economic, and community value of this venue far outweighs the benefits of expanding parking.

I strongly urge you to reconsider this decision and take into account the voices of those who value what Hyper Karting provides. Preserving spaces that foster connection and employment should be a priority.

Thank you for your time and consideration.

Hi Shannon,

Thank you for taking the time to read this submission. When I first heard that they'd put go-kart's into an carpark, I thought that it sounded like a good idea.

It wasn't until I took my son, my nephews, their grandparents, parents and my partner to multiple days out that I truly understood how great of an idea, venue and experience it was to have such a great day out so close to the city, all with the benefit of being able to catch the metro, rail and light-rail from our homes to the venue.

It really is a remarkable venture that I cannot get enough of. I support the continuation of this business in it's current form, and feel like we would be far worse off without it. That is after all the benefit of having the best public transport systems in the world, is that we can re-purpose these spaces for more interesting and entertaining purposes.

Thank you and kind regards,

Dear Shannon,

I am writing to express my strong concern regarding the proposed closure of HyperKart Sydney to make way for a car park. This venue is far more than just an entertainment facility—it is a vibrant community hub that brings people together from all walks of life.

HyperKart provides a unique recreational experience for families, young people, and motorsport enthusiasts, offering a safe and controlled environment for enjoyment and skill development. It supports local employment, attracts visitors to the area, and contributes positively to the local economy. Replacing such a dynamic venue with a car park would represent a significant loss to the community's social and cultural fabric.

At a time when cities around the world are striving to create engaging, active spaces for their residents, removing a well-loved destination like HyperKart seems counterproductive. There are alternative solutions that could address parking needs without sacrificing a thriving local business and community asset.

I respectfully urge the council to reconsider this decision and explore options that would allow HyperKart Sydney to continue operating. Preserving this venue would demonstrate a commitment to supporting local businesses, fostering community engagement, and maintaining the unique character of our area.

Thank you for your time and consideration.

Kind regards,

Adam Fraser

To whom it may concern,

Do not close hyper karting for some irrelevant car park. Isn't there enough revenue raising options around the council?
Hypercarting a place of enjoyment and one of the only family fun areas around this location.
Don't ruin another fun thing to do in Sydney.

Think of the children.

Dear to whom it may concern,
I believe the hyperkartng establishment is a very good venue in a very well established location where many people come from all over the state and country to experience the hyperkarting experience. Please keep this venue open and allow them a longer lease, it means more to the community than just another go karting venue.
thank you.

Hi there,
I have just learned that City Of Sydney council is going intending to not extend the 5-year license that would allow Hypercart citizens to ntinue operating at the Entertainment quarter.
We could me here every month, and this is the mail reason we come to the Moore Park precinct.
I urge the council to re-consider their plan and extend the license for HyperKarting at Moore park. This venue is the only karting place that is well accessible via public transport and removing it would largely affect accessibility to karting facilities for those families that rely exclusively on public transport to get around the city. Besides, the fact that it is undercover is a huge advantage allowing it to operate in any weather.
At a time when it's so challenging to keep kids off the screens and get them to interact with peers in the real world, the decision to remove a business like HyperKart that provides unique engaging experience for the whole family would be short sighted and not in the best interest of community.
Thank you,
Yulia Medvedeva

Hey guys I agree about keeping hyperkarts, not only is it a great place for memories but to cut that many people out of a job, for a car park ? That's wild, help the youth have jobs and get out into the community instead of taking things like this away from us
Keep hyper karts, don't pave a little paradise just to put up a car park!

Hi there

Please don’t get rid of the Hyper Karting. If is a fanatic venue for kids and adults alike. There is nothing else like it in the area and provides some much needed and different entertainment.

To remove it for additional car spaces just does not seem like a good use of space.

Many thanks
Daniel

Good evening

Please kindly retain the hyper cart centre at Moore Park.

This facility provides 150 local jobs and a unique attraction for the area.

Given the area is now well serviced by trams and other parking exists in the precinct it would be a huge loss to local economy and jobs to close the centre only to regain a few car spaces.

Kind regards
Karla

Hi there,

As a regular customer, I'm writing to express my strong support for this business.

It's disappointing to see a successful and well-supported venue at risk, especially one that brings clear value to the Sydney community. Why would you choose not to promote and retain a business that is already proven to be popular and beneficial?

If this space becomes available, what is the actual plan for it? Will any alternative realistically deliver the same level of engagement, economic return, and community value that Hyper Kart currently provides?

Decisions like this have real consequences. Please don't be the reason another genuinely good thing disappears from our city.

Regards,

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon Rickersey,

Don't get rid of hyperkarting for some car spaces, it's really the only reason I visit entertainment quarter and by removing it, those empty care spaces will remain empty. Moore Park is one of the most well connected places by public transport in Sydney, it would be a massive step backwards to try to then encourage people to drive there.

If these car spaces are so crucial then please ensure arrangements are made to relocate hyperkarting in the EQ or consider removing "Entertainment" from Entertainment Quarter because that's what you'll be doing.

Regards,
James

I 100% disagree with not renewing Hyperkarting's lease for so many reasons.
*This place brings joy to over 200,000 people per year
*It employ's aprox 150 people.
*It teaches thousands of kids such as mine to drive before being put on our roads.
*It helps bring joy to so many people with mental health issues.
*It helps keep youth off the streets.
*It's close proximity to a heavily populated area help reduce traffic and pollution to motor enthusiasts that would otherwise travel out west to go carting.
*It brings thousands of people to the entertainment quarter who stay there to eat and drink.
*The company has invested a lot of money into setting up. You as a government should be supporting business. Not crushing them.

On top of this. I go the the entertainment quarter a lot and have never not been able to park.

If you keep taking away the entertainment such as carting you certainly won't have any parking issues as know one will visit the place that was designed to be an "Entertainment" quarter as there will be nothing left to do there.

You need to re think this and renew the lease.

Hi,
Please do not close hyper karting. My friends and I have been going for years and it brings us a lot of happiness and good times. The community which visits hyper karting is massive and many people will be upset if it is closed. There's barely any karting places in Sydney and it will be a great loss if this one is shut down. Thankyou.

Regards,
Isaac

This is the only go karting in the inner city. No one wants to drive 45 minutes plus to do go karting. It gives children in the area SOMETHING TO DO. Instead of adding more parking, why not give the kids of sydney a cool, exciting activity to get involved in.

To whom it may concern,

I am deeply distressed to hear that Hyperkarting is at risk of closing down because of a plan to build more parking lots. This place has been a cornerstone of the local community. It is a place where our kids have an opportunity to experience safe fun and activity with friends and family. In a time where opportunities for in person social connection and physical activity are increasingly limited, places like these are more important than ever.

Losing Hyperkarting would not only remove a much loved local attraction, but also diminish the sense of community it helps foster.

I strongly urge that this proposal to shut down Hyperkarting is reconsidered and alternative solutions are explored to preserve this important community asset.

Sincerely

Freddie Hauva

Hi there,
To the respected member of the council, I am hereby writing to vote my support for the hyper karting company. Just because the council needs few more parking spaces doesn't mean they will put an end to one of the places where emotions and memories are made. It's not just about racing. It's someone place to relive their stress, someone's practice ground, someone's way to make friends and someone's way to make a living. Think about all the people this will impact not just a business but all the lives connected to it.
You can find many solutions to a problem of parking, but you won't find a solution to solve someone's mental health, financial growth and overall community's growth.
Yours sincerely,
Bishal Kafle
A member of Hyperkarting community.

Please reconsider closing down hyperkarting, Sydney is a city for people, not for cars and carparks.

Hyperkarting is a place for enjoyment, competition, excitement, and is one of the greatest ways people of all ages and backgrounds can pursue an interest in motorsports safely.

There are precious few venues that can offer all that in Sydney. Don't rob the community of what already exists in such limited capacity for car spaces that won't be utilised for a majority of the time.

Thank you.

-Finlay

Dear Shannon Rickersey,

I am writing to you today to formally express my strong opposition to the City of Sydney's decision to refuse the extension of Hyper Karting's operations at Moore Park.

As a resident who values the vibrant, multi-use nature of the Entertainment Quarter, I believe the closure of this facility would be a significant loss to the community.

It is a shame to consider dismantling a year-round, successful business and employer to provide car storage that will sit vacant for the vast majority of the week. Hyper Karting provides a unique space for socialisation that bridges age gaps. In a city where active, alcohol-free entertainment options are becoming rarer, this venue serves as a crucial hub for friends, families, and colleagues to get together.
Providing youth with high-quality recreational outlets is essential for community well-being; removing such a popular facility leaves a void in local active entertainment.

Rather than prioritising temporary parking solutions for cars, I urge the Council to encourage people to use public transport more to attend events.
I ask that you reconsider the extension for Hyper Karting to ensure it remains a fixture of Moore Park.

Thank you for your time and for considering my feedback on this matter.

Kind regards,
Rinu

Dear Council Representative,

I am writing to formally appeal the recent decision to reject the extension of the operating licence for Hyper Karting and to return the premises to its previous use as a car park.

At face value, this may appear to be a straightforward reversion to the site's historical purpose. In reality, it risks turning a currently vibrant, well-utilised space into one that is underused—if not entirely dormant.

Hyper Karting has demonstrably transformed the site into a destination. It attracts consistent foot traffic, supports local economic activity, and contributes to the broader vibrancy of the precinct. It is the kind of adaptive reuse that cities like Sydney should be encouraging—breathing life into infrastructure that might otherwise sit idle.

The alternative—returning the space to car parking—appears increasingly misaligned with both current demand and near-term supply. With the imminent opening of a new 1,500-space parking facility at Allianz Stadium, the local area is about to experience a significant increase in parking capacity. This raises a very practical question: what unmet demand is this site expected to serve?

There is a real risk that the premises will simply become surplus parking—unused for large portions of the day, contributing little to the community, and offering no meaningful economic or social return. In contrast, Hyper Karting provides activation, employment, and a unique recreational offering that aligns with Sydney's ambitions as a dynamic, experience-led city.

More broadly, this decision appears at odds with contemporary urban planning principles, which prioritise activation, mixed-use environments, and the reduction of reliance on single-purpose car-centric infrastructure—particularly in well-connected inner-city precincts.

I respectfully urge the Council to reconsider this decision with these factors in mind:

- The demonstrated success and utilisation of Hyper Karting as an active use of the site
- The forthcoming increase in nearby parking supply (Allianz Stadium's 1,500 spaces)
- The risk of underutilisation if the site reverts to parking
- The broader strategic objective of fostering vibrant, activated urban spaces

Cities are shaped not just by policy, but by the choices they make about how space is used. This is an opportunity to support an initiative that adds energy, diversity, and economic value to the area—rather than reverting to a use that may no longer be justified.

I appreciate your consideration of this appeal and would welcome the opportunity to discuss this further if helpful.

Yours sincerely

Simon Brice

Dear Sydney Council,

I did read a few months back that you were reviewing the above submission about HyperKart at Moore Park. I live in Dural some 25+ kms from this venue.

I recently gave taken both my 11 and 13 year old daughters to drive for the first time at HyperKart because I strongly beyin driver education and experience. You might think that driving a kart is not relevant but I strongly disagreed as it build confidence even in steering, braking and manoeuvring a moving object.

My girls loved it and we went back with my younger nephews as well.

There is nothing like it in Sydney where safety and fun for our kids to experience driving and learn and I strongly implore you to please reconsider the closure of this business for car parking.

The staff and management at HyperKart are exceptional and professional.

I am writing as a father and health professional to please reconsider this application to be approved and extended for our communities across Sydney.

Yours Sincerely

Peter Holland

Hi,

I just want to vouch for Hyper Karting, the site is the best casual (And even a good hardcore (For a rental kart only place) karting place in Sydney, considering the track layout change.) It's fun for younger people but I can also vouch for the 27-35 range as-well, it's in a great location and attracts a good crowd.

I have also been on weekdays, weekends and weekends around major event times and from my observation 1 floor of parking is not the issue here, traffic, queues and others will still be the same with the extra spots. Please reconsider and look at other options such as increasing traffic flow in the area to prevent congestion.

Kind regards,
Ryan

Dear Council Team,

I'm writing to express my strong support for Hyper Karting Sydney and to urge the council to consider the broader value this venue provides to the community before making any decision that could lead to its closure.

Hyper Karting Sydney is more than just a recreational facility. It contributes meaningfully to the local economy, creates employment opportunities, and offers a safe, structured environment for people, particularly younger individuals, to engage in motorsport in a controlled setting. Facilities like this play an important role in fostering interest in engineering, driving skills, and community participation.

From a social perspective, it is one of the few venues that appeals across age groups, providing an accessible and engaging activity for families, friends, and corporate groups. Removing it would leave a noticeable gap in local recreational options.

I also believe it is worth considering whether any concerns raised, whether related to noise, planning, or other regulatory matters can be addressed collaboratively with the operators rather than resulting in closure. A balanced approach that preserves community assets while managing impacts would be in the best interest of all stakeholders.

I strongly encourage the council to work constructively with Hyper Karting Sydney to find a path forward that allows it to continue operating.

Thank you for your time and consideration.

Kind regards,
Aden ��

Dear Shannon Rickersey and the City of Sydney Assessment Team,

I am writing in support of Hyperkarting at 116 Lang Road, Moore Park, and urge the Council to allow this business to continue operating.

Hyperkarting is a valuable community venue that provides entertainment and recreation for families, groups, and individuals of all ages. Losing it would mean losing one of the few active leisure experiences available in the inner city.

I would also like to address any concerns around parking. In my experience visiting Moore Park, the car park in the surrounding area is rarely, if ever, at full capacity. The parking spaces in question are genuinely not needed — they sit unused for the vast majority of the time. It would be a great shame to see a thriving, community-loved business impacted over parking resources that are demonstrably underutilised.

I sincerely hope the Council will take community sentiment into account and find a way to support Hyperkarting's continued operation at this location.

Thank you for your time and consideration.

Dear City council,

I am writing to express my strong support for Hyper Cart. I truly love the service it provides and believe that it should not be forcibly removed.

In addition to the value it brings to users, I am deeply concerned about the potential job losses that would result from its removal. Please consider the impact this decision would have on the many individuals whose livelihoods depend on this platform.

Thank you for taking my perspective into account.

Best regards,

Aria A

Hi
Please do not close down Hyperkarting.
It is what makes the area so unique and is one of the only attractions City of Sydney has!
Sydney is already one of the most dead, boring and sanitised cities, hardly a global capital city. Don't know why you would then sanitize it further by remove hyper Karting

If anything, we should be building more attractions and bars, activation around hyper Karting.

I believe that we need more spaces for family entertainment, especially ones that are real and not screen based. Losing another space where people come together in a social and jovial manner will have a wide reaching negative effect on inner Sydney. In a time where we should be nurturing community based activities, we cannot afford to lose an institution such as Hyperkarting. I urge you to please reconsider closing down this fantastic venue especially in light of the necessity for more, not less, interactive entertainment venues in inner Sydney

Kind Regards

Rafal Dabrowski

Hi,

Not sure what you're thinking is turning this place which is much better utilising the space back into a car park that's empty on the top floor 95% of the time.

Too many people use this space and for once Sydney has an opportunity for karting in the inner city area, something we should be happy about, so please don't ruin it.

Enough has been ruined in this city over the years.

Thanks.

Hello,

I am emailing as I saw on Hyper Kartings Instagram that they are at a risk of closing down.

I have recently moved to Sydney from Nz and thought that Hyper Karting was such a cool idea and how unique it is to be on a floor of a parking building. Would be a dream of some Nz people, specifically car enthusiasts that visit the Bayfair shopping Centre parking lot in Mount Maunganui.

It was the first thing on the list of things to do for when my family visited for Christmas and we had a blast!

It would be so sad if this got shut down as it is definitely somewhere I would take my friends and family when they visit.

Kind regards, Tracey Marr

Dear Lord Mayor Clover Moore and City of Sydney Planning Team,

As a Sydney resident, I urge you to reconsider the decision and approve the extension for Hyper Karting at the Entertainment Quarter.

This popular electric go-kart track has welcomed over 500,000 visitors since 2021. It supports 150+ jobs, activates the precinct, and delivers fun, family-friendly entertainment in line with a vibrant, people-focused Sydney.

Reverting the upper-level space to underused parking contradicts the council's own vision. I ask you to approve the two-year extension (or a reasonable alternative) and prioritise entertainment over empty car spots.
Thank you for your consideration.

Kind regards,

Dimitrios Kanis

Dear Shannon Rickersey,

I am writing to express my strong opposition to the proposed closure of Hyper Karting at Moore Park to make way for additional car park spaces. Stripping away a vibrant community asset for the sake of an under-utilised parking lot is a profound step backward for our city.

As an educator and coordinator of youth sports programs, I see firsthand the critical importance of maintaining engaging, safe, alcohol free and accessible recreational facilities for young people in Sydney. Hyper Karting is much more than an entertainment venue; it is a true community staple. For my son, Harry, and countless other children, it has provided a fantastic environment to celebrate birthdays, build friendships, and engage in safe recreation.

Furthermore, during the intense pressures and isolation of the Covid lockdowns, this facility offered an invaluable outlet. The mental health benefits of having a local, accessible recreational space during that highly stressful time cannot be overstated, and losing it now would leave a significant void in the community.

In our current climate, we should be championing sustainable initiatives, not tearing them down. There are very few non-petrol racing options in NSW, and Hyper Karting leads the way in supporting sustainable, electric motorsports. It is baffling that a facility providing forward-thinking recreation and that hyper karting reports, supports over 150 local jobs is at risk of being dismantled for parking spots.

I strongly urge the council to reject this proposal. Please prioritise the wellbeing, employment, and sustainable recreational opportunities of the community over an unnecessary reclamation of parking infrastructure.

Sincerely,

Nick Spencer

Hi Shannon

Just wanted to show my support for keeping the Hyper Karting electric go-kart track in Moore Park.
I never used to come into Moore Park to eat at the restaurants, but since Hyper Karting opened it's given me a reason to head in — we'll go for a race and then stay for dinner after. I'm sure I'm not the only one.
It's a great, low-noise setup that suits the area and brings people in.
Would be great to see it stay.
Appreciate your time.

Dear City of Sydney Council,

Closing Hyper Karting is an astonishingly reckless decision that demonstrates a complete lack of understanding of motorsport, community needs, and public safety. Karting is already a compromise in a cost-of-living crisis where $30 for a 10-minute session is not trivial, but enthusiasts accept it because it is one of the only accessible, safe, legal, and spontaneous outlets for motorsport thrills in central Sydney, particularly late at night. Hyper Karting is electric, fully contained, and silent, generating no noise complaints, yet you are considering eliminating it for a car park, despite ample surrounding parking.

This is punitive, illogical, and frankly insulting to a community that already plays by the rules.

I anticipate the council's predictable defenses, all of which are deeply flawed:

1. "Do track days at Sydney Motorsport Park / Eastern Creek, Luddenham, or other race tracks."
Track days are not practical alternatives. Sydney Motorsport Park (Eastern Creek) is technically within Sydney, but entry fees often exceed $300 per day, and additional costs for fuel, transport, and safety gear make it inaccessible for most enthusiasts. Tracks at Luddenham and Goulburn are even farther away, requiring a multi-hour drive each way and the same logistical and financial overhead. Even when booked, participants typically get only a few short sessions during a full-day event. These options are not spontaneous, affordable, or practical. Hyper Karting provides immediate and legal laps whenever enthusiasts want including late at night something no distant track can replicate. Removing Hyper Karting leaves enthusiasts with only extremely costly, time-consuming track days or illegal, unsafe street activity.

2. "Public safety will improve if we remove these venues."

This is completely backwards. Removing safe, sanctioned, electric karting increases unsafe, unregulated activity. People with a passion for driving will go where they can — Old Pacific Highway, Royal National Park roads, Macquarie Pass, Galston Gorge — roads already dangerous due to traffic, blind corners, wildlife, and mixed users. These roads are used precisely because legal, affordable alternatives are unavailable. Closing Hyper Karting does not eliminate risk; it redistributes it to uncontrolled public roads.

3. "These activities are antisocial / 'hoonish'."

Hyper Karting provides lawful, contained activity. Punishing law-abiding enthusiasts for the illegal behavior of a minority is irrational. Removing legal venues incentivizes illegal street use, creating exactly the behavior the council claims to prevent.

4. "Noise / disturbance complaints."

Hyper Karting is electric and silent. Noise complaints are nonexistent. Any bureaucratic argument invoking "disturbance" is invalid.

5. "Track closures improve community wellbeing."

There is no evidence for this. Motorsport interest does not disappear when venues close — it migrates to streets with no

rules, no barriers, and no emergency support, creating real danger for both enthusiasts and the public.

6. “We’re prioritizing public use, like parking."

There is already sufficient parking in and around the Entertainment Quarter. Removing Hyper Karting solves nothing but punishes enthusiasts and reduces legal recreational options.

And remember.. public roads will be the inevitable outlet if Hyper Karting closes:

Closing Hyper Karting will not stop enthusiasts.

It will outrage the community and push people onto public roads: Old Pacific Highway, Royal National Park roads, Macquarie Pass, and Galston Gorge.

These roads are inherently unsafe — narrow, winding, with blind corners, mixed traffic, wildlife, and pedestrians. Enthusiasts will use them anyway because there are no accessible, legal alternatives nearby.

The state is fully aware these roads are dangerous, yet continuing to remove the safe nearby outlets available ensures people will take matters into their own hands.

This is not a hypothetical. This is a predictable consequence of your decision. If Hyper Karting is closed, responsibility for the inevitable risk and outrage falls squarely on your council. Removing safe venues does not eliminate desire, it channels it into public spaces where accidents, injuries, and chaos are far more likely.

I urge your council to seriously reconsider before causing more damage to our community.

Regards,
Jordon Pollock.

Hi shannon

Email you About go karting possible closure.

I have enjoyed
The go karting at hyper karting
At Moore Park for many years since they opened .

They have a great space
That's safe
Fun and enjoyable
A great place for community to enjoy
It would be a loss to the local community with 150+jobs

Its close to everything
Its a great use of space
That was barely every used
Unless football was on or a concert.

The small amount of car spaces that could be gained from
Returning it to its former use
Is not a very good use of the space
In my opinion

Its employs many people the parking does not employ 150 + people
By changing it

Go karting at fox studios gives
More reasons to go to the fox studios precinct
There is no other go karting facility in the East
The closest one is blacktown

If its just to make more parking
Doesn't make sense .

The loss hyperkarting
Would be a big impact
On fox studios
Less people visiting
The loss of jobs for mostly younger people

Regards
Michael

Hey there,

Firstly, since hyperkarting has been a thing in Sydney, it's absolutely become a spot for tourist for people to go. When I have friends come from interstate or overseas, we always go and they always have a great time!

Being close to the cbd then really isn't another experience around like it unless you want to travel 1 hr plus to go out west.

I genuinely believe it's a place that SHOULD keep its place as it brings some much to the area.

Please reconsider this

Hi,

Hyper karting is one of the only karting places that allows kids as young as 3 to give it a go. My son is obsessed with this place.
The Eastern Suburbs has nothing for kids anymore, not even a trampoline park and not even a decent play land.
Even kids aside, adults love this place too.
I've grown up in Phillip Bay my whole life then moved to Woodbine and now back to Philip Bay. The best part of living west was the abundance of things for people to do.
Please reconsider getting rid of hyperkart for more parking. Isn't the light rail meant to encourage public transport to sport games, outings etc to reduce pressure on the roads? Just imagine the car park was built with one less level.
I really hope you reconsider.
Thank you for your time.

To: dasubmissions@cityofsydney.nsw.gov.au

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To the City of Sydney Council,

My name is Ethan Redwin, and I am from Caringbah. I am writing to respectfully appeal the proposal to shut down Hyper Karting at Moore Park in order to repurpose the space for additional car parking. I strongly urge you to reconsider this decision and preserve what has become a valued recreational institution for many in the local community.

I go out of my way to travel from Caringbah specifically to visit Hyper Karting. It is not something that is just convenient for me — it is a destination I deliberately choose. When I make the trip, I spend time in the surrounding area, buying food and drinks and often staying long enough to pay for parking. Without Hyper Karting, I would have little reason to travel to Moore Park, and that activity and spending would not occur.

Hyper Karting is far more than just a track occupying a few car spaces. It is a place where people gather, build friendships, develop skills, and create lasting memories. Personally, I have spent over 20 hours at the track and driven more than 700 kilometres there. Those hours represent meaningful time shared with friends, moments of excitement, and a safe, structured environment to enjoy motorsport. The joy and community value this facility provides far outweigh the limited benefit of additional parking spaces that often sit unused.

It is also one of the few places where I have genuinely connected with strangers. I have never interacted more with people I didn't know than at Hyper Karting. Through our shared passion for motorsport, I even made a great friend there — someone I likely never would have met otherwise. That kind of organic community-building is rare, and it speaks to the unique social value the track provides. For me, there is no greater entertainment.

If the intention behind removing the track is to increase financial return from the space, I believe keeping Hyper Karting is actually in the City's best interest. It attracts people like me from outside the immediate area, keeps us there for extended periods, and encourages spending within the precinct. Removing it would likely reduce the number of visitors who deliberately come to Moore Park.

In a time where many recreational venues are disappearing in favour of expansion and short-term financial gain, spaces like Hyper Karting are increasingly rare. Removing it would mean losing one of the few accessible motorsport experiences available to the public in the local area. For many people—especially younger enthusiasts—it provides a safe alternative to unsafe driving elsewhere, while fostering responsibility, skill development, and social connection.

I respectfully ask the Council to consider the community value, the friendships created, and the positive role Hyper Karting plays. Please do not take away a place that brings so much enjoyment to so many people for the sake of a small increase in parking capacity. Preserving Hyper Karting would demonstrate a commitment to community wellbeing, recreation, and maintaining the character of Moore Park as more than just a place for cars.

Thank you for your time and consideration.

Sincerely,
Ethan Redwin

To Whom It May Concern,

We oppose the closing down of Hyperkarting in Moore Park. It is an incredibly important entertainment venue in the area that we go to and the closest Go Karting place for miles. By closing this you'll reduce the number of people coming to Moore Park in addition to reducing available entertainment in the area.

Kind Regards
Priyanka Wijekumar

To whom it may concern

The Hyperkart facility is important for entertainment for the young and the not so young. It is a good way to actually practice driving before getting behind the wheel as an L plater. Young people can also get some thrills without resorting to stupidity on the roads.

A few more parking spots might be useful but perhaps these can be found elsewhere. If the Hyperkart facility is solvent and paying their rent and their other bills, then my suggestion is to leave them alone to provide entertainment, driving experiences and employment to many people. I doubt a few more car parking spots can directly offer the same. In fact, if you have any facts to demonstrate otherwise, please feel free to share those with myself and other interested parties.

Kind regards

Dear Council Members,

I am writing to strongly express my opposition to the proposed closure of Hyper Karting.

Hyper Karting is one of the very few recreational and social activity venues available in the eastern suburbs. For many residents, particularly young people and families, it provides a safe, accessible, and engaging space to spend time, socialise, and participate in a unique activity that is otherwise unavailable in the area. Removing it would significantly reduce already limited entertainment and community-building options within our local region.

For university students especially, this is one of the only activities where people genuinely come together and bond outside of academic settings. It has created countless memories for me and many others in the community. When my brother visited from overseas, Hyper Karting was one of the highlights of his trip — a place where we were able to spend meaningful time together and share a unique experience. For many of us, this venue represents shared experiences, friendships, and lasting memories that cannot simply be replaced.

Beyond its social value, Hyper Karting supports over 150 jobs and contributes meaningfully to the local economy. The proposal to replace a thriving community venue with additional car parking is difficult to justify. Existing parking spaces in the area are already utilised, and increasing capacity by an additional 296 spaces does not appear to provide a comparable community benefit. Hyper Karting represents a far more effective and valuable use of this space — one that actively serves people rather than remaining underutilised infrastructure.

Community spaces that encourage connection, activity, and local engagement are increasingly rare and should be protected, not removed. Once lost, venues like this are extremely difficult to replace.

I respectfully urge the council to reconsider this decision and prioritise the social, economic, and community value that Hyper Karting provides to residents.

Thank you for taking community feedback into consideration.

Kind regards,
Surina Saini

Hello

I was very surprised to see th at Hyperkarting might be closed down for a some more parking spaces.

As a parent of teenagers, this is the main reason we visit the Entertainment Quarter these days. We visit at least once a month and always stay on for a meal. Surely removing this unique offering will significantly reduce the attractiveness of a visit to the Entertainment Quarter?

Please reconsider this policy.

Regards
Jennifer Rhodes

Dear council,

I am writing to express my strong support for Hyper Karting and to request that Council reconsider any proposal that would result in its closure.

Hyper Karting is more than just an entertainment venue — it is a valued community space that brings families, young people, and local residents together in a safe and supervised environment. It provides a positive recreational outlet, especially for teenagers and young adults, and contributes to community wellbeing.

The venue also supports over 150 local jobs. Closing it to increase car park capacity by approximately 296 spaces does not appear to provide a comparable community benefit, particularly when those additional spaces may not be fully utilised. Removing a thriving business and community hub for underused parking would be a significant loss for the area.

Hyper Karting attracts visitors, supports the local economy, and offers a unique activity that is not easily replaced. Losing it would reduce recreational options for families and young people and negatively impact local employment.

I respectfully ask Council to:

- Consider the social and economic value of Hyper Karting
- Explore alternative parking solutions
- Work with the operators to allow the venue to remain open

Please prioritise preserving a facility that serves the community, supports jobs, and provides a safe and enjoyable space for people of all ages.

Thank you for considering community feedback.

Kind regards,
Suzy Bechaye

I'm writing regarding the City of Sydney's proposal to pave paradise and put up a parking lot.

This is where I go to de-stress and enjoy myself when I'm feeling down.

You can't say the same for another level of parking.

It's currently a well-loved brilliant use of space.

You're looking for a few extra bucks in milking Sydney residents for parking. You're removing joy rather than adding to it.

Could you honestly put this through and kick out the karting, get some extra parking spots (which should instead be facilitated by public transport), and then go pat yourself on the back and say "yeah we did good today"

Pull your heads in.

Most warmest regards,

Adrian Andreacchio

Dear City of Sydney Council,

I am writing to express my support for Hyper Karting and to respectfully urge you to reconsider any decision that may lead to its closure.

Personally, I have had many unforgettable experiences there, and it holds significant value not only to me but to many other friends and family of mine.

Local businesses like Hyper Karting contribute to the liveliness of Moore Park and The Entertainment Quarter. They support local employment, attract visitors, and offer recreational opportunities that have driven the Moore park and surrounding suburbs for a number of years.

Why try and fix something that isn't broken. It has always been beneficial for the city. It is one of the biggest amusements in the Sydney City area and it makes no sense to replace it with parking spots.

I would like to hear as to why you think parking spots would be more beneficial than this amazing venue. Maybe there is something I'm missing and I it would be great to get a better understanding of that were to be the case.

Thank you for taking the time to consider my perspective. I sincerely hope you will take steps to support Hyper Karting and allow it to remain operational.

Yours sincerely,

Theo Jenkinson

To whom this may concern,

I want to express my concern to hear Hyper Karting at Moore Park is potentially at risk of shutting down to make way for circa 300 car spaces.

Hyper Karting is a fantastic edition to the weekend calendar and complements the EQ perfectly. It employs a substantial amount of staff and adds excellent value to the community.

There are plenty of overflow car spaces available to commuters in the park across the road (from the Hordern). Additionally, light rail services are provided by NSW government, noting these are increased for major events.

Best,

Lachlan

To whom it may concern,

I am writing to you as someone who has worked at Hyper Karting for the past four years. This job is not just something I do on the side. It is my livelihood, and it is also something I genuinely care about. I have poured a huge part of my life into this place, and it is heartbreaking to see it facing closure.

Over the years, I have watched Hyper Karting become more than just a business operating in Moore Park. It is a place where people come to celebrate birthdays, build confidence, connect with friends and family, and enjoy something exciting and positive. I have met so many guests who return again and again because of the experience, the atmosphere, and the community that has been created here.

From the perspective of someone on the ground every week, it feels incredibly unfair and, honestly, silly that Hyper Karting could be shut down over planning concerns when the real world impact is so significant. Behind the venue are real people, real jobs, and real families who depend on this work. For many of us, there is no easy backup plan. We are not faceless numbers in an application. We are staff who show up, work hard, and take pride in what we do.

Hyper Karting has been a stable part of my life for four years. It has given me purpose, helped me build skills, and allowed me to support myself. The idea that it could all be taken away is devastating.

Please reconsider the decision, or at least provide a pathway that allows Hyper Karting to remain operating while concerns are addressed in a fair and realistic way. I am proud to work here, and I know I am not the only one whose future depends on it.

Thank you for taking the time to read this and for considering the real impact this decision has on the people behind the venue.

Dear Madam,

I am disappointed that to hear that the above submission to council is choosing carparks over go-karting. The go-karts add amenity to the Moore Park precinct, without it, there are fewer reasons to visit.

So much for the City of Sydney's green credentials in favouring carparks over an area well serviced by public transport.

I recently patronised Hyper-Karts because the karts are electric and low pollutant and are within easy reach of the CBD. Without this venue, there is little else to recommend in terms of entertainment at the so called Entertainment Quarter.

Yours sincerely,

Romi Zerbini

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Hi City of Sydney,

My name is Scott Sinfield. I am writing against the closure of a company due to poor city management.

Why not build another car park on one of the grass areas and charge some cheaper rates for light rail users to park and go to the city. Then have the pricing as per normal for event days.

If anyone who has been to a footy match and parked at Entertainment Quarter. They know the car parks take too long to exit due to the poor management around the area. Close roads, have police get the car parks emptied quickly. Taking the spots back from a business isn't going to make it any better for the victims on game day.

You are not only taking away jobs but you are taking away a place for families to go to enjoy Go Karting from around the area. Forcing families to go out West to enjoy the activity.

Please wake up and make better decisions for the people of Sydney and for a specialist business in the area.

Cheers,
Scott

Dear Council Members,

I am writing to express my concern regarding the planned closure Hyper Karting.

This venue is more than just a recreational space—it is a meaningful part of our community. For many people, including myself, it has been a place to connect with friends and family, relieve stress, and enjoy a safe and accessible form of motorsport.

It also provides opportunities for young people to engage in a positive, skill-based activity that fosters responsibility and confidence.

The closure of this facility would represent a significant loss, not only in terms of recreation but also in community engagement. Spaces like this are increasingly rare, and once they are gone, they are very difficult to replace.

I respectfully ask the council to reconsider this decision or explore alternative solutions that could allow the venue to continue operating—whether through modified hours, relocation, or community partnerships.

Thank you for taking the time to consider the perspectives of those who value this facility. I would greatly appreciate any opportunity for community input before a final decision is made.

Please do not close Hyper Karting. It is a place that means a lot to the community.

Noooo!

In an ever growing city where our social amenities are becoming less and less, WHY on earth would you consider closing down such an amazing facility for car park spaces???

How is this even possible?

We have attended hyperkarting since our children were little. Now they are all teenagers and we still attend with other families for a social outing. It is soo much fun. There is NOTHING ELSE LIKE THIS IN OUR CITY! (Or inner city location)

Please don’t take it away!!!

On behalf of the Maquarie University Formula One Society, I urge for Hyper Karting to remain as this is the best place for a racing event located within Sydney and easily accessible by public transport. This makes getting people to attend karting events very easy due to travel and the amazing facilities this place offers.

This place MUST NOT GO. IT MUST STAY.

Thank you

To the City of Sydney,

I am writing as a member of the public to formally object to the Council's recent decision to refuse the continued operation of Hyper Karting (D/2023/897/B) at the Entertainment Quarter (EQ). Replacing this active recreational hub with 296 parking spaces is a poor use of land that ignores the actual transport needs and social value of the Moore Park precinct.

I request that the Council reconsider its position based on the following points:

The Precinct Has Sufficient Parking Capacity

The primary reason for refusal, that the 296 car spaces are needed to offset the closure of on-grass parking, is not supported by the facts. Traffic data shows that the EQ car park reached capacity only 30 times between February 2024 and January 2026 due to wider Moore Park events. For over 80% of the year, this parking level would sit largely empty, providing no benefit to the public.

High Public Transport Accessibility
Moore Park is now one of the best-connected areas in Sydney. Light rail patronage has steadily surged since 2021, which more than compensates for the reduction in on-grass parking. The site has a "Very High" public transport accessibility rating (PTAL score of 6) and is within walking distance of major light rail and bus nodes. Council should be encouraging the use of this infrastructure rather than mandating more car parking.

Serious Social and Economic Loss
Closing Hyper Karting would result in the immediate loss of approximately 150 jobs, many of which are held by young people. Furthermore, the facility attracts around 300,000 patrons annually who support other local businesses in the Entertainment Quarter. Removing this venue would decrease foot traffic and negatively impact the vibrancy of the entire precinct.

Promotion of Orderly Land Use
Retaining Level 5 for electric go-karting is a far more orderly and productive use of land than a surface parking lot. The facility aligns with the*Sustainable Sydney 2030-2050* goal of fostering a thriving cultural and creative life. A parking lot provides zero social value, whereas Hyper Karting provides a high-quality, all-weather entertainment option for the community.

The decision to prioritize 296 mostly empty parking spaces over a successful business and 150 local jobs is not in the public interest. I urge the Council to approve the Section 8.3 review and allow Hyper Karting to continue serving our community.

Thank you.

Dear Shannon Rickersey,

Don't close the Hyperkarting track. It's that simple.

For generations growing up in Sydney, I have seen the continual decomposition of anything that is accessible by the community or a point of interest for the younger generations. I have seen all structures made of concrete erected in place of parkland, reserves and shared spaces.

Frankly speaking, Sydney is turning into a place where there is nothing to do unless you have a wallet like Warren Buffet or a liver designed like an industrial bioreactor, and nothing to see unless you enjoy the slow autogenous healing process of lime.

Don't take away yet another thing for adolescents to do so you can have another car park where you charge $30 an hour. Perhaps you could be of use insteas and solve the engineering problem of how to install an underground car park in Australia's shale surface.

Regards,
Jack

Hey people,

Hyperkarting is one of the most accessible forms of racing in the whole of Sydney. Options are really limited here, and as a city notorious for cracking down on fun, you guys really don't want to be perpetuating a stereotype. Id argue it's worth is much greater than that of the car park, especially as that space goes completely unused outside of major events. Push public transport more (50c fares guys, it can be done!!!) and then you can keep an icon of Sydneys racing scene whilst keeping racing off the roads. Please don't shut it down we love it :(((

Regards
Harry

Don’t shut down hyper karting! It provides jobs and a place of community for so many people all over Sydney. There are plenty of other options to open more parking in the area instead of just 1 level of the car park. The alternative should not just be shutting down a business that has remained open for multiple years and been a part of Sydney’s night life and entertainment that continues to be deficient.

The Hyperkarting venue facility has been a great, unique activity to do in Sydney. Given these is no other electric karting available in Sydney or surrounds, it would be a real shame to see this facility close down. I've attended this venue multiple times with friends and family, and have always highly rated it. It has great potential to expand.

Please reconsider before shutting this facility down.

Thanks
Varsha

If it is a place that is giving our future racers their inspiration to become the next professional athlete there's no reason to take away what can provide a life changing experience right down to the mother seeking a mental health break while the kids go have fun and are looked after by the hyper kart team. , don't take away something that impacts people of all age's and all potential opportunities to our future.

Yours sincerely, Jack

Hi Shannon,

I am writing to express my strong opposition to the proposed closure of Hyper Karting.

Hyper Karting has been a place our family has truly enjoyed over the years. It offers a unique and exciting experience that brings people together, and it has become a valued part of our community. Spaces like this are rare, and they contribute far more than just entertainment—they create lasting memories for families like ours.

It is deeply disappointing to see such a vibrant and well-loved venue at risk of being shut down, particularly for the sake of additional car space. I believe the value Hyper Karting brings to the community far outweighs the benefit of replacing it with parking.

I strongly urge you to reconsider this decision and explore alternative solutions that allow Hyper Karting to remain open.

Kindest,

Zena

Hi Shannon,

I'm writing because I'm really concerned about the possibility of Hyper Karting at Moore Park closing down.

I live in Sydney and Hyper Karting is one of those places that actually gives people something different and fun to do. There really isn't many places like it around. It's become a staple of the area and a lot of people enjoy going there with friends or family recreationally.

It seems crazy to lose something unique and popular just to turn the space back into more parking, especially when there are already other parking options nearby, and new ones popping open anyway. Once something like this is gone, it probably won't come back.

I know there are bigger issues in Sydney too, but I think it's important to support businesses and venues that make the city more interesting and give people somewhere to go.

Please do what you can to support Hyper Karting and help keep it open.

Thanks,
Jake Gazzana,
Just a local Sydneysider.

Please don’t close hyperkarting

Its such a great place for the community with tracks for the young kids and the older drivers who want to blow off steam with a quick race.

The prices are also competitive and the closest place for entry level drivers is Concord West and then further west.

Please reconsider and overturn this.
Let Hyperkarting stay open!

It may sound superficial but ive had so many precious memories at hyper karting. parking lots can be anywhere, there are a million in the area, but you cant tear down a business that means so much to so many people.

Lost jobs, lost memories, and a valuable piece of the community, lost.

To whom it may concern,

Hearing about the possible closure of hyperkarting deeply saddens me. The entertainment quarter, for years, has lacked a genuine attraction outside of live music. For a Western Sydney local, the trip out to Moore Park can take upwards of an hour. I myself, gladly make this venture out to Moore Park for things such as hyperkarting. Whether it's with mates, work colleagues or partners, hyperkarting has provided genuine excitement, healthy competition and a sense of adrenaline you can achieve without participating in a more extreme environment. With affordable prices and a wide variety of activities within the space, it has become a staple outing for myself and friends. The staff have been nothing short of professional, friendly and accomodating and have shown myself and others the upmost respect. Due to this, myself and two close friends have become regulars to which the staff have treated us with even more respect and care.

Closing it down for an extra level of car parking makes little to no sense logistically. I have been travelling to the Entertainment Quarter years prior to the opening of Hyperkarting and have always despised the layout and the difficulty of exiting the car park back onto Lang Road. I have worked jobs at Hordern Pavilion during event times at the venue as well as when sporting events are on at the neighbouring stadiums. Regardless of the event, the exiting of the area has always been frustrating and mind-numbing. Even with police assistance, the lights conjoining Lang RD & Errol Flynn Boulevard results in a tight bottleneck that can take upwards of 30mins plus to be clear of. This is without taking into account the traffic from Driver Avenue which creates a gargantuan traffic pile up which adds even more to the waiting time. An extra level of parking will just add more traffic to an already packed area and increase the waiting times for those stuck at the top.

Keeping HyperKarting at the Entertainment Quarter is imperative in order to maintain genuine interest in visiting the area outside of event blocks. If we are serious in "reigniting" Sydney's nightlife, then you shall understand that abolishing a business that has worked hard to build its popularity, is nothing short of foolhardy. If numbers dropped in visiting consumers within the area then it stands to reason that this decision was seriously ill-advised. To truly "reignite" our nightlife, a simple beginning step would be to keep a business such as HyperKarting alive and well. What needs more urgent attention, is the poorly designed layout of the area. There's an entire grass area next to Driver Avenue that patrons park on during events due to the poor parking options. One level of parking which equates to 300 odd parking spots will not make any difference to the larger problem. If more car parking is what is required, consider using the more obvious space across from Driver Avenue. The enormity of this space in comparison to ONE level of parking makes a lot more sense logistically and could ease the burden that is leaving Moore Park.

Hopefully, with these points in mind, you can come to a consensus that this is a much loved and adored place that many people from all parts of Sydney come to visit. If we are serious in reigniting our nightlife, which is in dire need of improvement, then you'll understand that the plan to abolish HyperKarting is foolhardy and unjustified.

I appreciate your time.

Kind Regards,
B. Rodriguez

We absolutely love Hyperkarting!y husband celebrates his birthday there every year and my son could not wait to host his as soon as he turned 13.
It's a great sadness that they'd shut due to more parking space …what a waste of space!
There's nothing like hyperkarting in Sydney so there's a huge demand for it.
Please don't shut it down!

Hi,

Please keep hyper karting open. It is great for work events and a close and easy access to race friends that complements the other food options in the entertainment quarter.

I am surprised you want to remove this with such a big push for people to catch public transport to events as this would encourage more driving.

Hope to continue to see this open for the future!

Thanks,
Ben

Hello Shannon,

I'm writing to support the application to keep Hyperkarting operating in the Level 5 car park at Moore Park.

There is little reason to head to the entertainment quarter unless there is an event on, this business provides a reason to go there anytime. I have held several of my work Christmas parties there along with four team building events always staying after for drinks and lunch or dinner at the surrounding restaurants or pub.

It's also had a bigger impact than just a one-off activity. It actually got me interested enough to buy my own kart, and now my kids are getting into it too and have been to Hyperkarting several times. That kind of flow-on effect is brilliant and shows the value of having something like this in the city as you have to travel a long way out of the CBD for anything remotely as good as Hyperkarting.

What doesn't make much sense to me is replacing it with more car parking. The City of Sydney is generally trying to reduce the number of car spaces in developments and encourage people onto public transport, so it feels inconsistent to remove a successful business just to add more parking—especially when the car park hasn't really been full most of the time from the data reports I have looked at. I understand there might be a short period where parking demand is tighter while the Venues NSW car park is being completed, but that seems like a temporary issue. Losing a business like this long-term, along with over 200 jobs and the flow-on benefits to nearby restaurants and venues, feels like a much bigger downside.

Hyperkarting is also pretty unique, there's nothing else like it close to the city. It's bringing people in, creating jobs, and supporting other businesses nearby. Businesses like these provide a great boost to the local and state economy with many flow on effects to other businesses which additional car spaces just cannot do.It would be a real shame to lose something that's proven to add so much value just to bring back car spaces that don't seem to be in frequently high demand.

For those reasons, I support the application to allow Hyperkarting to continue operating.

Thanks.

Regards,

Michael Hughes

Hi City of Sydney

Please keep hyper karting alive. This is an amazing entertainment venue that we frequently go to with mates for an evening out. There is fewer and fewer entertainment venues of its calibre around the Sydney City area.

Additionally you don’t need more carpark spaces congesting the roads around Moore park. People should be utilising the public transport infrastructure.

Kind Regards
Vincent

Dear Councillors,

I am writing with urgency and genuine concern about the proposal to close HK. The stated reason — that the land is needed for car parking — simply doesn't reflect what we see every day. The EQ car park is not full. It is difficult to understand why a beloved community space should be sacrificed for parking that isn't even needed.

HK is not just a venue. It is a home for many. It is where people find joy, connection, and belonging. It is a place that brings life to the precinct and brings people together.

As a resident in the Geroges River Council, HK is the only accessible place for carting and my family and friends would lost the usual place to go. Carting space is very rare these days already, and I do not see why are you not supporting the business running under such difficult circumstances. HK in fact, needs more support than any other kinds od entertainment business, like cinemas or amusement centers.

The business is taking it seriously, never let down of customers and have given quality services. I do not understand the reason about the car park. The public needs a proper explanation if that really happens.

Behind HK are 150 staff members — real people with families, mortgages, rent, and responsibilities — who will lose their jobs overnight if this closure goes ahead. The human cost of this decision is enormous and cannot be justified by an unnecessary expansion of parking capacity.

I am asking the Council to reconsider. To look at the real data. To listen to the community. And to recognise the value of HK not just as a business, but as a vital part of our shared social fabric.

Please do not let this place be lost.

Sincerely,
Jessica

To whom this may concern,

I am writing to express my support for Hyper Karting remaining open in Moore Park.

Hyper Karting is a popular karting venue across Sydney, and many of my friends and I choose to kart there over other local venues because it offers a unique recreational activity close to the Sydney CBD. It is accessible to people of all skill levels and remains relatively affordable compared to many other entertainment options in the city. It is also one of the main highlights of the Entertainment Quarter and adds variety to the activities available in Sydney, particularly when the city already lacks nightlife and unique recreational experiences.

There appears to be growing interest in karting and motorsport with the rising popularity of Formula 1. Seeing the races fully booked during the recent long weekend only supports this trend. So, closing such an exciting and well-used venue in order to build additional parking seems like a significant missed opportunity, especially when the existing car park appears to remain largely empty for much of the year.

I kindly request that you explore options that would allow Hyper Karting to remain open and continue providing this unique experience for the broader Sydney community.

Kind regards,
Nishant Goyal

Just putting my email in with issues about reverting the venue to a parking lot… it's such a beloved business and would be absolutely heartbreaking to see something so loved shut down… hyperkarting brings so much life and business to the EQ. I personally work on the Disney film lot and we would all be sad to see it go.

Dear Shannon Rickersy and Council,

I write as a resident of the Eastern Suburbs to oppose the decision not to renew the operating licence of Hyper Karting, and to urge the Council to reconsider before the space reverts to general car parking.

Hyper Karting has, over the years it has operated, become a genuine community institution. It employs local staff at above-average wages, provides an accessible recreational venue for residents across a wide range of ages and backgrounds, and has demonstrated continuous improvement in its operations and community engagement. It is the kind of business that rarely appears in a suburb like ours: active, affordable, locally staffed, and genuinely beloved.

The stated rationale for non-renewal, the need for additional parking capacity during peak event periods, is one I understand. However, I would respectfully put to the Council that it is disproportionate. Converting a thriving, job-creating recreational facility into overflow event parking represents a significant and permanent loss of community value in exchange for a periodic and arguably manageable inconvenience.

I would also note that event-driven parking demand is intermittent and predictable. There may well be alternatives worth exploring: dynamic pricing for existing spaces, partnership arrangements with nearby private operators, improved transport activation on event days, or temporary arrangements that do not require the permanent loss of the karting facility. I would encourage Council to consider these before taking an irreversible step.

Finally, I note that the Council's broader planning policy has, commendably, moved in the direction of reduced car dependency and more active, people-centred land use. The permanent expansion of a surface car park runs counter to that direction, and it would be a shame if the pursuit of short-term parking supply came at the cost of a business that embodies exactly the kind of vibrant, community-oriented land use the Council's own policies aspire to encourage.

I would ask the Council to answer the following questions before proceeding:
- Has any modelling been done on alternative approaches to event-day parking demand, including transport incentives or demand management?
- What community consultation has taken place with residents who use and value Hyper Karting?
- How does this decision accord with the Council's stated commitments on reducing car dependency and supporting local employment?

I ask that the Council delay any final decision, consult with Hyper Karting and the broader community, and genuinely consider alternatives before proceeding.

Thank you for your time and consideration.

Yours sincerely,
Jack Beck

Hi Shannon,

I hope all is well.

I ma writing to express my support for the continuation of hyper cart's use of the space.

I believe that hyper carts adds a unique flair to the entertainment quarter and is a great use of space for families, couples and events.

I have personally been there on a number of occasions for a variety of reasons (bucks party, catching up with friends, etc.) and think it is a great alternative to going to a bar or a cafe.

Finally, I feel like when I drive to entertainment quarter there are often plenty of car parks available, thus I don't believe that hyper carts detracts from peoples' ability to park at the centre.

For the reasons outlined above I believe that it is a great use of space and should be allowed to continue trading.

Thank you,

Denis Mytcak,

Dear Shannon Rickersey & Council Members,

I am writing to express my concern regarding the proposal to close the long-standing Hyper Karting in the Entertainment Quarter to make way for a car park.

This business is a valued part of the local community and contributes significantly to the character and vibrancy of the area. Replacing it with a car park would mean losing a much-loved establishment that locals and visitors alike appreciate.

I respectfully ask the Council to reconsider this proposal and explore alternative solutions that preserve the businesses and culture that make our entertainment precinct special.

Thank you for taking community feedback into consideration.

Kind regards,
Shannon Bowie

Dear City of Sydney Council,

I'm writing to urge you to support and preserve HyperKarting in Sydney.

It's a valued recreational venue that brings people together, supports local jobs, and adds to the city's appeal. In a growing urban environment, spaces like this are increasingly rare yet highly valuable—especially for young people and community engagement.

Losing HyperKarting would mean losing a safe, accessible, and exciting activity that contributes positively to Sydney's culture and economy. I encourage the Council to explore options to retain or support it.

Thank you for your consideration.

Kind regards,
[Your Name]

To the Members of the DA Council,

I am writing to formally express my strong opposition to the proposed closure of Hyperkarting at the Entertainment Quarter (EQ).

It is my understanding that the council is considering shutting down this vibrant community hub under the premise that the space is required for additional car parking. However, I urge the Council to reconsider this decision based on the following critical points:

1. Lack of Necessity for Additional Parking
The primary justification for this closure—a need for more car parking—does not align with the current reality of the EQ. The existing car park is rarely at full capacity. Replacing a thriving, high-demand recreational facility with redundant parking spaces is not only an inefficient use of urban space but a step backward for the precinct's vibrancy.

2. Significant Job Losses
Hyperkarting is not just a track; it is an employer. There are 150 real people behind this business—individuals with families to support and bills to pay. If this closure proceeds, 150 workers will lose their livelihoods overnight. In the current economic climate, the Council should look for ways to protect local employment, not eliminate it for the sake of empty concrete.

3. Social and Community Value
Hyperkarting has become a landmark for joy, belonging, and healthy recreation in our city. It provides a unique social outlet for people of all ages and contributes significantly to the EQ’s reputation as a premier entertainment destination. Closing it would strip the community of a vital asset that fosters connection and excitement.

In summary: Hyperkarting provides immense value to the community and provides jobs for 150 people, while the proposed car park offers no proven additional utility to the area.

I ask the Council to prioritize people, jobs, and community spirit over unnecessary infrastructure. Please do not shut down Hyperkarting.

Sincerely,
Anish Ghai

Hi
Closing hyper karting would be a huge loss for the entertainment quarter and Sydney overall.

Honestly it's incredibly near-sighted that the city of Sydney is even considering shutting these guys down as hyper karting so clearly gets more people to the Moore park area and into the surrounding shops/restaurants. You wouldn't remove el Camino.

Kind regards and hoping for the right outcome.

Hi Shannon,

Just a quick email to say that as a long term customer of Hyper Karting I'm making this submission to try to keep them alive. Our family has gone many times to their kart track and we've had at least 3 kids parties there over the years. I really don't understand the logic behind kicking them out as the Entertainment Quarter is very quiet and dead most weekends. I've seen multiple other businesses come and go because of lack of foot traffic. Hyper Karting is the only business that keeps us going back there.

One of the reasons we do go there is because of the ease of parking, as there are heaps of available parking. So it seems out of place to remove a business to make way for more parking than is usually needed.

I will say that if Hyper Karting leaves EQ then our family will have very little reason to visit that area. We are from the lower north shore and make the effort to travel there for it too.

Cheers,
Ben Lee.

Dear Council Members,

I'm writing as a Sydney resident who is genuinely disappointed to hear about the proposed closure of Hyper Karting in Moore Park.

This venue isn't just another entertainment option—it's one of the few places in the city where people of all ages can come together, switch off from daily pressures, and share something genuinely fun and memorable. I've personally spent time there with friends and family, and it's always been a rare space that feels energetic, social, and inclusive.

Replacing it with a car park feels like a step backwards. Moore Park is already a heavily built-up area, and what makes it valuable is the mix of open space, recreation, and experiences—not just more infrastructure for cars. Removing a unique activity like Hyper Karting diminishes what makes the area special and reduces the diversity of things Sydney has to offer.

Cities thrive when they prioritise experiences, community, and vibrancy. Once a place like this is gone, it's very unlikely to be replaced with anything similar.

I strongly urge the council to reconsider this decision and explore alternatives that preserve spaces like Hyper Karting. They contribute far more to the social fabric of the city than a car park ever could.

Kind regards,
Julian

Hi,

I wish to make a submission to support the continued operation of Hyper Karting.

I have been a member for the past two years. My sons, 17 and 15 years old have also been members for the past year. My daughter, 9 years old, also has started racing in the past 6 months.

I truly believe that the venue is an important asset to the community. It provides my kids the opportunity to participate in a sport where there are very limited opportunities in greater Sydney.

For my children it has provided them an opportunity to increase skills, confidence whilst enjoying a sport they enjoy. It is a very well run operation, safety is impeccable and cost is excellent given the limited alternatives.

[redacted]- I didn't receive any notifications around the proposed closure. Jack told me. I imagine you also want to send your support for the continued operation of the venue for you and your kids.

Kind regards,

Ben Henderson

Dear city of Sydney,
I love hyper karting with a passion and I will be distraught if this beautiful octane fueled outpost is shut down. I have been coming here for half a decade and it provides me with great excitement and brings families together. I think I can say that almost everyone agrees that the floor is better to be a go-karting venue than un-needed car spaces, and it provides a big boost to the entertainment quarter, in turn making a decision to shut down the venue a double edged sword which will hinder the business of the entertainment quarter. Please take my word into consideration as a voice for the people and a lover of hyper karting.
Kind regards

Louis Toussaint

Hi there,

Hyperkarting adds so much life to EQ, which otherwise is completely dead. An extra 150 car spaces isn't going to do much during an event, and hyperkarting adds so much value to the precinct as a whole.

Dear team,

I strongly oppose the idea of closing down Hyper Karting in the EQ. It simply doesn't make sense to remove such a beloved and popular attraction just to create parking. Traffic is bad for the environment and the health of our community. The EQ is well served by public transport, which should be encouraged. I have thoroughly enjoyed my visits to Hyper Karting and hope to continue visiting. Please do everything in your power to avoid closing down Hyper Karting.

Many thanks,
Tim

Dear City of Sydney,

I am writing to express my concern regarding the closure of HyperKarting and to highlight the significant value this venue has provided to the community.

Hyper Karting has been a unique and highly accessible entertainment facility within Sydney, offering an affordable and enjoyable experience for people of all ages and all skill levels. This is one of the most kitted out go kart facilities that I have ever seen having visited a few and one of the best. It has served as a recreational hub where families, friends, and individuals could engage in a fun, safe, and engaging activity. Its presence has contributed positively to the vibrancy of the city, and supports visits to its local area. I know this by being a western Sydney resident who made the journey out to the location and went and explored the local area. This was a fun activity for me to do with friends and provided a unforgettable night experience in the city.

Affordable entertainment options such as HyperKarting are essential in a city like Sydney, where many recreational activities can be costly or inaccessible to a broad range of residents. The go karting scene in particular is fading away and is hard to reach in some areas with many locations becoming farther and farther away. The closure of such a venue reduces the availability of inclusive entertainment and limits opportunities for community engagement.

I respectfully encourage the City of Sydney to consider the importance of the venue and to maintain its current location and status.

Thank you for taking the time to consider this matter. I hope that the council will take into account the community value of such venues.

Yours sincerely,

Jayden

Good Evening,

Please keep hyper karting open.

This venue helped me during times when I needed it most. This place is somewhere where I've built a community, made friends and met like minded people.
My friends and I still go here to this day and don't know what we'd do without it.

This a safe community place, where anyone can feel at home, troubled youth, new immigrants and anyone looking for something to do late at night. We don't need a place like this closing down, as it helps take people off the streets.

With Sydney being Sydney, there is already limited places people of all ages can go, without getting intoxicated or into trouble.

Hyper Karting is a very important part of the community and I hope it will continue to be so. We don't need more parking at Moore Park and we need to prioritise day to day activities.

Kind Regards,

Jonathan D'Mello

Dear City of Sydney,

I am writing as a local resident to express my support for hyper karting at Moore Park.

It is a unique and inclusive activity that brings people together, encourages social connection, and adds to the diversity of things to do in Sydney. For many, it is a regular and valued way to relax and spend time with others - something we should value deeply in our city.

I encourage those decision makers to consider the strong community value it provides and to explore ways for it to continue operating responsibly.

Kind regards,

Cliff

Hi Shannon,

I am writing to express my strong concern regarding the proposed closure of Hyper Karting.
Hyper Karting is a cherished community institution that serves thousands of Sydney residents each year. We respectfully urge the Council to reconsider this decision for the following reasons:

Community Value - Hyper Karting provides a safe, well-managed, and highly rated entertainment option for families, young people, and groups across Sydney. With a rating of 4.7 stars from nearly 6,000 reviews, it is clear that this venue holds enormous value for the community.
Safe Spaces - The venue provides a structured, supervised environment where young people can enjoy motorsport-inspired activities safely.
Tourism & Local Attraction - The venue is a recognised attraction that draws visitors from across New South Wales and interstate. Its presence enhances Sydney's reputation as a world-class leisure destination.
Economic Contribution - Hyper Karting supports 150+ local employees and contributes to the vibrancy of the Moore Park entertainment district.

We respectfully ask the Council to explore alternative solutions that address any concerns raised, without resorting to closure.

Yours sincerely,

Marlan Hapuarachchi

To whom this may concern,

My name is Lucas McKillop, I started going to Hyper Karting around January this year with friends. A few days later, we all bought memberships because we loved it. Since January this year, I have completed almost 200 races and have just about kick started a potential go karting career which I never thought was possible beforehand, I even gone out and bought my own gear to start taking the sport seriously. None of this would have been possible without Hyper Karting and their amazing team!

Please back the community!

Regards,
Lucas

Hi there, can you PLEASE find another way to accelerate the bori-fication of Sydney, and leave hyperkarting at Moore park alone?

If it must go, the only acceptable terms I can see which would benefit our community would be to completely demolish the entire entertainment quarter, the studios and all of the stadiums, and build dozens of large and medium sized venues to replace those stolen from the LNP during its last tenure as chief in destruction of nsw.

So far successive councils and state governments have managed to demolish about 50 billion per year in entertainment revenue in Sydney, kill its globally calibrated mardigras, nuke practically every nightclub, destroy the festival scene, and come 2050 will have finished the job by deleting Sydney Olympic park to the west with no plans to replace any entertainment asset.

What will it take for people in the public service to actually understand that:
A - you are not the demographic
B - what you think is cool isn't
C - what you think sucks doesn't
D - most of the decisions you make cause more harm to communities than good (especially if they involve tourism, nightlife and entertainment)

While I have you, why don't you evict the AFL?
Why on earth did you build a stadium without a roof?
Do you know there is a venue crisis in Sydney and that it has nuked touring Australia wide?
Do you and your team and your colleagues know what fun is?

The entertainment quarter should be turned into an internationally renowned red light district. That should be your only goal. There should be nothing there but nightclubs, raves, festivals and all of the infrustructure that eco system needs to thrive.

This includes novel activities like hyperkarting which don't actually suck like everything else on offer in Sydney.

Thanks for your time.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

I am writing to express strong support for the continued operation of Hyper Karting at the Entertainment Quarter, and to respectfully urge reconsideration of any plans to convert this space back into standard car parking.

Hyper Karting is not simply a recreational offering—it is a destination experience that contributes meaningfully to the precinct's identity, visitation, and economic activity. In a city like Sydney, where entertainment venues must constantly evolve to remain competitive and relevant, Hyper Karting provides a unique, high-energy attraction that draws both locals and tourists. It encourages longer dwell times within the precinct, supports surrounding businesses such as dining and retail, and strengthens the overall appeal of the Entertainment Quarter as a vibrant, multi-use destination.

Reverting this space to car parking would represent a step backward in terms of land utilisation. Parking facilities, while necessary, typically generate minimal engagement and often sit underutilised outside of peak event periods. In contrast, an active attraction like Hyper Karting delivers consistent foot traffic, repeat visitation, and a dynamic atmosphere that aligns with contemporary urban planning priorities—priorities that favour experiential spaces over passive infrastructure.

Furthermore, retaining Hyper Karting aligns with broader trends in city development, where entertainment precincts are increasingly designed to prioritise experience, community engagement, and economic vibrancy. Removing such a feature risks diminishing the uniqueness of the Entertainment Quarter and could impact its competitiveness against other lifestyle and entertainment hubs across Sydney.

Rather than reverting to traditional parking, there may be opportunities to further enhance or expand the current offering—integrating events, corporate functions, or partnerships that maximise the value of the space while continuing to meet transport needs through alternative solutions.

I strongly encourage decision-makers to consider the long-term cultural, social, and economic value that Hyper Karting provides. Preserving this attraction supports not only the immediate precinct but also the broader vision of a lively, modern Sydney.

Thank you for your time and consideration.

Yours Sincerely

Brett Sutherland

To whom it may concern,
I'm writing to express my sadness around the potential closure of Hyper Karting at the Entertainment Quarter. This venue is one of the only Karting venues I know of that is close to public transport as well as also being undercover. It is also a lively event location in a vibrant area of the city for nights out, seeing movies, attending the markets or seeing a live show. If this venue were to shutdown, it would not only affect the lives of many workers in a very hard economy but also take away something fun and interactive for people of all ages to enjoy for what would be empty spots in a car park, how boring.

Please consider these points in your approach with this matter and think of the joy we need in these times over the monotony and hourly rate income over some cars filling spots.

Sincerely,
Nick Karras

Emailing about the decision to turn the hyperkarting arena into a parking lot.

It's an absolutely terrible decision, the good the business brings to the community, the jobs and the tourist attraction absolutely dwarf the benifit of an extra level of parking. Forcing the business to close down would be a great loss to the community, do better

I am writing to express my strong support for Hyper Karting Sydney and to urge the City to consider allowing it to continue operating.

Hyper Karting is more than just an entertainment venue—it is a valuable community space that provides a safe, controlled environment for motorsport enthusiasts of all ages. It offers young people and adults alike an accessible way to engage in a structured and supervised activity, which is far preferable to unsafe alternatives such as illegal street racing.

Beyond its recreational value, Hyper Karting attracts visitors to the area, supports employment, and encourages spending at nearby businesses. Losing this venue would not only impact customers but also employees and the broader local community.

Sydney is a global city that should support diverse and modern recreational activities. Closing down a unique venue like Hyper Karting would be a step backwards in providing engaging and positive outlets for the community.

I respectfully ask the City to reconsider any decision that would lead to its closure and instead work collaboratively with the business to address any concerns and allow it to continue operating.

Thank you for your time and consideration.

Kind Regards,

Nilesh Banga

Hi CoS,

If you want to maintain a vibrant and diverse nightlife, especially at EQ where there is comedy, movies and food, the karting needs to stay too.

Hire a shuttle bus, it's cheaper and you get more people.

Regards,

Vishnu Hebbar

Dear city of Sydney,

Hyperkarting is truly one of a kind in Sydney offering a unique experience that's accessible across all age groups unlike most other carting places they are electric making them quite safe and you're not sniffing fumes across the entire experience

Moreover, with the light rail connection Moore Park entertainment quarter is more accessible than ever through public transport

This experience is a unique experience in Sydney that we stop by every time we're at the entertainment quarter and it would be a shame to see it go for a few more car spots

Regards,
Steven

Hi,

Hope you all had a good Easter break.

As a resident of Randwick I just wanted to say that Hyper Karting in the EQ is a source of joy and belonging in the community and it would be a shame if it shuts down.

Hope you can find a solution to keep the track alive.

Thank you for your time and attention to this request.

Kind regards,
Resident of Randwick 2031

Dear Sir/Madam,

I am writing to express my strong objection to the council's decision to force the closure of the go-kart business at its current premises.

This action is deeply concerning and appears arbitrary, heavy-handed, and lacking in both transparency and procedural fairness. Shutting down an established local business simply because the council "wants the premises back" demonstrates a disregard for the livelihoods of those employed, the investment made by the business owners, and the community that relies on this facility.

The go-kart business is not just a commercial operation—it is a valued part of the local area, contributing to the economy, providing jobs, and offering a safe and accessible recreational outlet. The council's decision to displace it without clear justification, meaningful consultation, or a viable alternative raises serious questions about governance and accountability.

It is unacceptable for a local authority to exercise its power in a manner that undermines business confidence and destabilises the local economy. Decisions of this magnitude must be supported by proper process, fair notice, and genuine efforts to mitigate harm. At present, it appears none of these standards have been adequately met.

I therefore formally call on the council to:

- Immediately halt any action leading to the closure of this business
- Provide full disclosure of the reasons and legal basis for reclaiming the premises
- Engage in genuine consultation with the business owners and affected parties
- Offer a fair and reasonable alternative solution, including relocation support or compensation

Failure to address these concerns will leave affected parties with little choice but to consider escalating this matter through formal complaints, public scrutiny, and potential legal avenues.

This situation demands urgent reconsideration. The community expects and deserves better from its council.

Thank you
Maha

Submission in Support of RD/2023/897/A
Property: 116 Lang Road, Moore Park NSW 2021

I request that my name and contact details be redacted from any publicly available documents associated with this submission, for confidentiality and privacy reasons.

I am writing to express my support for the proposed extension of use of Level 5 of the car park for Hyper Karting.

My family and I regularly travel from Sydney's North Shore to visit Hyper Karting at Moore Park. It has become a valued recreational destination for us, and importantly, our visits consistently extend beyond the venue itself. We typically spend time shopping and dining within the Entertainment Quarter precinct, contributing to the broader local economy.

We have also hosted a children's birthday party at Hyper Karting, catering through local restaurants and inviting guests from across Sydney. This brought additional visitors into the precinct who likewise engaged with surrounding businesses.

In our experience, the availability of parking at the EQ car park has been more than adequate. We have visited during peak periods, including Saturday mornings when the markets are operating, during major concerts at nearby venues, and throughout school holidays, and while it has been busy on occasion, we have never not been able to find a park in a timely manner.

Based on our consistent and positive experience, we do not consider that the continued use of Level 5 for Hyper Karting would create adverse parking impacts. Rather, the venue enhances the attractiveness of the precinct and supports increased visitation and economic activity.

For these reasons, I strongly support the proposed extension.

Yours sincerely,
[redacted]

I am writing to formally request reconsideration of the proposed closure of HyperKarting at Moore Park.

The venue is a unique and highly valued recreational facility that contributes significantly to the community. Its closure would result in the loss of an experience not readily available elsewhere.

I respectfully urge that the decision be reviewed and that measures be taken to allow HyperKarting to continue operating.

Best Regards,
Akash

Hi City of Sydney,

Please do not let hyper Karting close. They worked hard on keeping the place interesting and fresh. A great for family fun as well as friends hangout.

Pleaze reconsider your plans and give them a chance.

Thank you

Yours faithfully

Kelvin

I am the manager of a hostel in Sydney and I have personally enjoyed hyperkarting so so much with my own friends and heard a lot of people talk about how enjoyable their experience(s) have been there too. For new people to, not just the city but, country, it offers such a fun experience that anyone can be involved in. It's a great way for new friend groups to become closer, allowing their competitive side out in a safe but exciting way.
I will be so disappointed if it goes, for personal reasons and, for the great people who work there, I've always had a pleasant experience with the staff who deserve to keep providing this activity to people from all over the world, making them feel comfortable and excited somewhere new.

Dear Sir/Madam,

I write in support of RD/2023/897/A concerning the continued operation of Hyper Karting at 116 Lang Road, Moore Park.

This proposal represents a high-quality activation of space within the Entertainment Quarter precinct. Hyper Karting contributes to the area as a destination by providing a unique recreational offering that attracts visitors beyond major event times, supporting a more consistent and vibrant use of the precinct.

From a planning perspective, the adaptive reuse of car park space for an active recreational use aligns with broader strategic directions to optimise land use and reduce reliance on passive, low-productivity infrastructure where appropriate. Car parking is inherently a low-value use outside peak periods, whereas venues such as this provide continuous economic and social benefit.

Importantly, there does not appear to be clear evidence that the current use has resulted in material or unmanageable impacts on access, traffic, or precinct function. Moore Park already operates with established event-based traffic management systems and is supported by public transport, including light rail.

The venue also delivers tangible public benefits, including:
- Ongoing employment opportunities
- Increased activation of the precinct throughout the week
- A distinctive entertainment offering that enhances the appeal of Moore Park

Reverting an established, functioning recreational use back to passive car parking risks setting an undesirable precedent. It signals that activation within the precinct is temporary and reversible, which may discourage future investment and undermine confidence in the long-term evolution of Moore Park as a consistent, experience-driven destination.

On balance, the current use represents a more productive and community-beneficial outcome than its prior function as car parking, particularly outside peak event periods.

I respectfully encourage Council to support the continuation of this use.

Thank you for considering this submission.

Kind regards,
Cuneyt Ada

Please don’t close down hyperkarting, it’s genuinely one of the highlights of my trip when visiting Sydney. U can’t get this type of speed anywhere else but here!!!! Also global warming is becoming an issue with the rise of temperature, we should encourage the use of public transport to minimize emission of CO2. Please please don’t close down hyperkarting as I wish to come back in the future to meet the lovely staffs and experience the adrenaline again!!

Hi there,

I'm writing in support of Hyper Karting to remain in the EQ car park in Moore Park.

I have had many fun memories at Hyper Karting itself and also enjoyed the facilities at the Entertainment Quarter and surrounds numerous times and never had an issue parking due to the Hyper Karting operation.

My kids are just approaching the age where they can enjoy Hyper Karting for themselves. There are no other karting facilities nearby the CBD.

If anything I would support the increased footprint of Hyper Karting in the parking structure.

Thank you for your consideration.

Warm regards,
James

Hi city of Sydney,

I'd like you to reconsider the need to close the hypercarting facility in Moore park.

It's a fantastic facility that people travel to from all over Sydney and beyond, and to get rid of it will actually add less value to the precinct. I'm planning a visit there this week with a friend of mine, both traveling via public transport to venue. I'm coming from Baulkham Hills, and my friend from Moss Vale. I'm sure there are many more people do the same thing, all the time, so closing the facility would be a big loss to the area simply for more parking spaces.

Please reconsider.

Cheers
Brent

Dear Shannon,

Please leave Hyperkarting in Moore Park alone.

It is a place that’s brought so much joy to the public and sustains 150 jobs.

Unless there is a real negative impact to the Moore Park community, please just let it be.

The world is already a negative place right now, please don’t take away jobs and a place where people can escape to.

Henry

To whom it may concern,

Hyperkarts has been a welcome addition to Sydney where myself, my colleagues and my family have gone many times since they opened in the COVID era.

It's a well run business that many people enjoy and felt like a good use of otherwise empty carparks. I would say it also helps the whole entertainment quarter as whilst myself, my colleagues and our family would go for the karts, we'd also stay for the restaurants, arcade and other options.

Please keep it open, it's actually one of the cooler businesses in Sydney.

Dear Sir/Madam,

I am writing to express my strong support for the continued operation of Hyper Karting at Moore Park.

Hyper Karting has become a key attraction within the Entertainment Quarter, contributing to both foot traffic and the overall vibrancy of the precinct. It offers a unique recreational experience that appeals to a broad demographic, including families, young adults, and corporate groups.

The removal of this venue would diminish the diversity and appeal of the area, and in my view, negatively impact the precinct's ability to attract visitors.

I respectfully urge the Council to reconsider any proposal that would result in its closure and to support the retention of this well-utilized and valued facility.

Kind regards,

Damian Ng

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Council Members,

I am writing to express my deep concern regarding the proposed closure of the Hyperkart racing venue to make way for additional car parking.

For many in our community, Hyperkart has been far more than just a recreational facility—it has been a vibrant hub for connection, celebration, and shared experiences. Over the past several years, families, friends, and local groups have gathered there to celebrate birthdays, milestones, and community events. It has created lasting memories for people of all ages and backgrounds, and its loss would be felt profoundly.

Beyond the emotional and social value, Hyperkart also contributes positively to local engagement, youth activity, and small-scale economic participation. It offers a safe and structured environment for motorsport enthusiasts and provides an accessible outlet for recreation that is increasingly rare in urban settings.

While I understand the pressures of urban planning and the need for infrastructure such as parking, I respectfully urge the council to consider alternative solutions that could preserve this much-loved venue. Some possible options might include:

- Exploring underutilized land nearby for parking development
- Implementing multi-level or shared parking solutions
- Adjusting zoning or layout plans to accommodate both parking and the venue
- Engaging with the community and stakeholders to identify creative compromises

The closure of Hyperkart would not just remove a facility—it would take away a meaningful part of our community's identity and shared history.

I kindly ask the council to reconsider this decision and engage with the community before moving forward. Preserving spaces like Hyperkart is essential to maintaining the vibrancy and wellbeing of our local area.

Thank you for your time and consideration.

Sincerely and with best regards,
Dinesh

To whom it may concern,

I am writing to express my deep concern regarding the proposed closure of Hyper Karting. I strongly urge you to reconsider this decision, as the facility plays a meaningful and positive role in the lives of many individuals in our community—particularly those who rely on inclusive and engaging recreational spaces.
As a disability support worker, I regularly take my NDIS client to Hyper Karting. For him, this is far more than just a leisure activity. It is something he genuinely looks forward to every single week. The excitement, joy, and sense of freedom he experiences while racing on the track are truly invaluable.

More importantly, Hyper Karting has provided him with an environment where he has been able to build confidence and social skills. Through interacting with staff and other participants, he has gradually become more comfortable engaging with new people—something that was once very challenging for him. These moments may seem small, but they represent significant personal growth.

There are very few places that offer this unique combination of accessibility, excitement, and social opportunity. For individuals supported under the NDIS, finding safe and enjoyable spaces that encourage independence and confidence-building is incredibly important. Hyper Karting is one of those rare places.
Closing this facility would not only remove a source of entertainment, but also take away a space that fosters inclusion, personal development, and happiness for people who benefit from it the most.

I kindly ask that you take into consideration the broader social impact of this decision. Places like Hyper Karting are not just businesses—they are community hubs that support wellbeing, connection, and growth.
Thank you for your time and consideration. I sincerely hope you will reconsider the closure and allow this important space to continue serving the community.

Yours sincerely,
Mustafa Syed

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Please re-consider extending the Hyperkarting at the EQ car park. It is a unique facility which serves the community everyday in a car park which is normally pretty empty. This small space will make little difference to parking for major events where public transport should in any case be encouraged over cars.

Regards

Richard Whitfield

To: dasubmissions@cityofsydney.nsw.gov.au

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear City of Sydney Council,

I'm writing as a local resident and regular visitor to the area to express my strong support for the continued operation of Hyper Karting and to urge the Council to carefully consider its value to the community before making any decisions that could impact its future.

Hyper Karting is more than just an entertainment venue — it provides a rare, accessible, and engaging recreational experience for a broad cross-section of the community. It offers a safe and structured environment for people of all ages to participate in motorsport, something that is otherwise difficult to access in an urban setting like Sydney.

From a community perspective, the facility plays an important role in activating the area, particularly during evenings and weekends. It attracts visitors, supports local businesses, and contributes to a vibrant, diverse city culture. These are outcomes that align strongly with the City's stated objectives around place-making and economic activity.

Chappy thinks this is where decisions like this can sometimes miss the bigger picture — it's easy to assess a venue through a narrow lens (noise, planning constraints, etc.), but the broader social and economic value often outweighs those concerns when managed appropriately. If there are issues, the focus should be on working collaboratively with operators to mitigate them, rather than removing the asset altogether.

There is also a broader equity consideration. Facilities like Hyper Karting provide an inclusive form of recreation that doesn't rely on elite-level access or expensive memberships. Removing it would further reduce the diversity of activities available to residents, particularly younger people and families.

I respectfully ask that Council:
- Recognise the social, recreational, and economic value of Hyper Karting
- Explore practical mitigation strategies for any concerns raised, rather than closure
- Engage with the community and stakeholders transparently before any final decision is made

Sydney benefits from having unique, experience-based venues that differentiate it from other cities. Losing Hyper Karting would be a step backwards in that regard.

Thank you for considering this submission.

Kind regards,
Cameron Schoer

Dear Assesment Officer,

I write to formally object to Development Application RD/2023/897/A, which proposes the removal of Hyper Karting Sydney to facilitate increased car parking capacity for intermittent sporting events.

This application raises significant concerns from a strategic planning, land use, and community value perspective—particularly within the policy framework of the City of Sydney.

1. Inconsistent with City of Sydney Strategic Planning Priorities

The City of Sydney has consistently prioritised:
- Active, engaging, and experience-based uses
- Year-round economic activation
- Reduction in car dependency and more efficient land use

This proposal directly conflicts with those priorities by:
- Replacing a high-activity, experience-driven venue
- With low-activation, car-dominant infrastructure used only intermittently

The outcome represents a regression in urban planning terms, shifting from activation to passive, underutilised space.

2. Disproportionate Trade-Off: Permanent Use vs Occasional Demand

Hyper Karting Sydney is a permanent, operational recreational facility delivering continuous value across:
- Social and community engagement
- Tourism and visitor economy
- Employment and local business activity

The justification for its removal—occasional peak parking demand during events—does not represent an equivalent or reasonable trade-off.

Planning outcomes should not prioritise infrequent peak demand over consistent, daily use.

3. Inefficient and Low-Value Land Use Outcome

Car parking—particularly for intermittent use—is widely recognised as a low-value urban land use, especially in a dense metropolitan context such as the City of Sydney.

The proposed outcome would:
- Leave the site underutilised for the majority of the time

- Reduce economic productivity per square metre
- Diminish the experiential and cultural value of the precinct

This is inconsistent with best-practice urban planning and the City's own strategic direction toward higher-value, activated land uses.

4. Loss of a Unique and Irreplaceable Facility

Hyper Karting Sydney is a specialised recreational offering with limited comparable venues within the metropolitan area.

Once removed, it is highly unlikely that:
- A similar facility would be reintroduced within the City of Sydney
- The lost recreational capacity would be replaced elsewhere

This represents a permanent erosion of recreational infrastructure, which should be carefully protected rather than displaced.

5. Availability of Alternative Event-Day Solutions

Event-based parking demand is a known and manageable challenge that should be addressed through:
- Integrated transport strategies
- Public transport utilisation
- Temporary traffic and parking management measures

It is not appropriate to remove an established business to accommodate non-permanent demand that can be addressed through established planning mechanisms.

6. Precedent Risk

Approval of this DA would set a concerning precedent whereby:
- Established, compliant businesses can be displaced
- Long-term land uses are subordinated to short-term operational convenience

This undermines planning certainty and sends a negative signal to businesses investing in experiential and community-oriented uses within the City.

Conclusion

This application prioritises occasional convenience over sustained community, economic, and strategic value, and is inconsistent with the City of Sydney's planning vision.

I strongly object to Development Application RD/2023/897/A and request that Council:

- Refuse the application in its current form; or
- Require a revised proposal that retains Hyper Karting Sydney while addressing event-related parking through alternative strategies

Thank you for considering this submission. I would appreciate being kept informed of any updates or determinations relating to this application.

Kind regards,

Craig Warren

Good morning

I would just like to make the statement that especially at a time like this with financial pressures and so forth that any business that is actually offering jobs to people should be retained over car parking spots.

The area has been notoriously bad and expensive for car parking that is true but that is not to say that this is the solution, by removing the hyper cart business.

This is also the only facility of its kind for those living near to the city and so it would be a significant loss to not be allowed to continue to operate.

Regards

Nina Rossi

Good day,

I am writing to strongly support the renewal of Hyperkarting's license and contract.

Hyperkarting is more than just a karting track. It provides a valuable place for people like me to go, compete with friends, and enjoy a safe and exciting activity. As someone who enjoys Formula 1, it gives me a real sense of the thrill of racing and a chance to experience that enjoyment in a hands on way.

It would be a real loss to the community as it is already being used for something that brings people together and creates a unique recreational experience. I believe Hyperkarting should be allowed to continue operating in its current location.

Please consider renewing their license and supporting the continuation of the track.

Thank you for your time and consideration.

Kind regards,
Krish

To: dasubmissions@cityofsydney.nsw.gov.au
Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Summary
I strongly support the continued operation of Hyper Karting Sydney at Moore Park and oppose the decision not to extend its approval.
This is not simply an entertainment venue—it is a proven, high-utilisation activation of otherwise underutilised space, delivering economic, social, and precinct-level benefits that outweigh its displacement for additional parking.

1. Efficient Use of Existing Infrastructure
The karting facility sits on an existing car park structure, representing a dual-use model of urban land:
Activates space that is otherwise idle outside peak event periods
Generates consistent daily visitation, rather than sporadic peak loads
Improves overall land productivity per square metre
Reverting this space back to full-time parking reduces the intensity and diversity of use, particularly outside major event windows.

2. Economic Contribution
Hyper Karting contributes to the local economy in ways that static parking cannot:
Direct employment (operations, hospitality, maintenance)
Indirect spend across the Entertainment Quarter precinct
Increased dwell time and cross-visitation to surrounding businesses
Replacing an active business with parking is a net downgrade in economic output per square metre.

3. Alignment with Strategic Planning Objectives
The removal of an active recreational use in favour of parking appears inconsistent with broader planning goals:
Encouraging activation of urban spaces
Supporting experience-based destinations
Reducing reliance on private vehicle use in inner-city precincts
Prioritising parking capacity over active use sends a conflicting signal about the future direction of inner-city planning.

4. Questionable Necessity of Additional Parking
Before removing an established, high-performing venue, there should be clear, evidence-based justification that:
Existing parking supply is insufficient across typical (non-event) conditions
Alternative solutions (pricing, traffic management, shared use) are not viable
In many precincts, parking demand is peaky and manageable, rather than requiring permanent reallocation of space.

5. Precedent and Risk
Allowing successful temporary activations to be removed despite strong performance creates risk:
Discourages private investment in similar adaptive-use projects
Signals that short-term approvals carry high uncertainty, even when successful
Reduces innovation in how Sydney utilises constrained urban space

Conclusion
Hyper Karting is a rare example of successful, high-engagement urban activation. Removing it in favour of additional parking represents a step backwards in land-use efficiency, economic output, and precinct vibrancy.
I urge the City of Sydney to reconsider its position and work towards a solution that retains this asset within the Moore

Park precinct.

Subject: Submission - RD/2023/897/A - 116 Land Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon Rickersey and City of Sydney Council,

Hope you are well.

I strongly object to the refusal to extend the time limited development consent which had allowed the use of L5Entertainment Quarter car park for entertainment facilities (used by Hyperkarting in my experience), detailed in RD/2023/897/A. I declare no conflicts of interest, and am writing this as a life-long resident of Sydney, and someone who thoroughly enjoys the Go-Karting and entertainment provided by Hyperkarting.

I find it difficult to reconcile the effective closure of Hyperkarting byRD/2023/897/A, with the broader cultural context of Sydney and Australia. Sydney lags behind global major cities (and honestly even much smaller cities), when considering accessible cultural and entertainment infrastructure. Speaking personally, I do not believe I would have developed into as productive a member of society as I am today (now working in neuroscience and medical sciences) without exposure to entertainment and recreational environments growing up (such as visits to Hyperkarting). Informal recreational venues and “third spaces” are often where curiosity, community, and creativity develop, and are critical for societal wellbeing. Take the widespread cancellation of major music festivals across Australia as an example (e.g. Splendour in the Grass, Groovin the Moo), this prompted the NSW Government itself to intervene with emergency funding packages to prevent further collapse of the live music sector. The fact that the government has had to establish multi-million dollar support programs simply to keep festivals operational highlights how fragile the cultural ecosystem currently is, and the recognised importance of entertainment accessibility. So then, the sensible decision for a location called the 'entertainment quarter' is to ... close an entertainment venue? This is repugnant.

I also do not see how removing one of the precinct’s distinctive entertainment offerings benefits the Entertainment Quarter in the long term. State government communications acknowledge that it EQ currently “falling short of meeting its full potential” as a major entertainment hub (see: https://www.nsw.gov.au/ministerial-releases/tender-process-opens-today-for-entertainment-quarter-redevelopment), definitely a sentiment I feel and see in society around me when visiting EQ. So eliminating an attraction that actively brings people to the precinct seems counterintuitive. While the current cost-of-living climate may temporarily depress popularity, true for many entertainment venues, the appropriate long-term response would appear to be increasing the diversity of attractions, not reducing them. If the EQ gradually loses the entertainment experiences that draw people there in the first place, it is difficult to see what demand the additional parking would ultimately be serving. This decision may just cause EQ to be on the long list of Sydey's suburbs/precincts to rot away, seeming to fall in slow motion, and eventually be a shell that peopleonly really visit for the odd large-scale event, remarking "Why is this place so dead?" while lamenting EQ's wasted potential.

Finally, I struggle to understand the logic of prioritising car parking. Moore Park has already seen substantial public investment in the light rail connection, which stops within walking distance of the Entertainment Quarter and major surrounding venues. This was a huge development for Sydney's public transport, and in my experience attending events at Moore Park, the light rail is already the predominant way people arrive. The clear intention of that investment was to reduce reliance on private vehicles and improve access to the precinct via public transport. Replacing a functioning entertainment use with additional parking therefore seems obstinate, and the result of an insufficient cost/benefit analysis.

I hope it is clear how the refusal to extend the use of L5 EQ carpark for Hyperkarting/entertainment use (RD/2023/897/A) is a poorly thought out decision, seriously hurting Sydney, and in fact a major blunder for the long-

term viability of EQ.

Kind Regards,
Yash Agarwal

Keep this space open! Any where people can enjoy this kind of fun, where people can gather, is slowly being eradicated from our city. If youre continuing to jam people into the city, at least leave an outlet for those who want to chase their adrenaline fixes in a safe manner that also supports the livelihoods of the staff within the business but of the businesses around them too!

To whom it may concern,

I am writing to formally express my opposition to the proposed plans for the Entertainment Quarter parking as it pertains to direct impact of Hyper Karting.

Over the course of some 1-2 decades, this precinct steadily lost what it is at its core and in its title - Entertainment. Since it's introduction, Hyper Kart personally has been a breath of fresh air on a personal and business level.

I have used this in my spare time with friends randomly or before sporting events, as a team outing and celebration in my work arena and I too am hoping to give my 3yr old daughter her first taste of karting in a fun and safe environment.

I implore you to reconsider this decision.

Kind Regards,
Julian Baumbach

Hi Shannon

This place is such a good atmosphere for young and old!!
Please maybe think of incorporating the facility into the new car parking area if that's what's going to happen!!

Please think about it!!

Kind Regards
James G

Hello City of Sydney,

The removal oh Hyper Karting would be an abhorrent decision by your council. You'd be taking activities away from the public and jobs away from so many young people in the area, whilst at uni or early stages of life will work there this is a great place to earn money.

Furthermore, I am not from the area, yet I've travelled there many times with different groups of friends, family and colleagues and turned it into a day where we then have lunch, visit a pub/restaurant in the evening or then go to watch a sporting event.

It is truly the reason we visit, without it I'd be unlikely to return to the area as all of those other things I can do in my local area of Cronulla.

Motorsport in general is so hard to come by in Australia, this is also a place where potential "hoons" can come to legally scratch that Motorsport itch, thus keeping our public roads safer. I hope to take my children there in the future and teach them that it's ok to have fun in vehicles in a safe environment, just like my dad taught me.

Taking things like this away from the public damage things in so many ways. The closest (decent) karting track if you remove this is in Liverpool, or Picton, or Luddenham, ridiculously far for us to travel.

We do not need more parking, a few extra spots will do nothing to stop the overflow that occurs on game days there for the swans etc, we need better public transport and infrastructure like the best cities in the world have.

The very small impact this will make on parking does not come close to the huge impact the removal of the business will have, and the flow on effects to follow.

Do the right thing.

Thanks,
A concerned citizen,
Matt.

To Whom It May Concern,

I am writing to strongly oppose any proposal to remove Hyperkarting from its current tenancy within the Moore Park multi-storey car park. I urge the City of Sydney to reconsider and allow Hyperkarting to continue operating in this space.

Hyperkarting occupies a single level of an existing parking structure, a level that currently serves a far more meaningful purpose than storing cars. I have visited on multiple occasions, and so have many people I know, ranging from complete beginners experiencing motorsport for the first time through to more experienced enthusiasts. It is the kind of activation that brings people together around a shared, energetic experience, and it adds genuine life and character to the Moore Park precinct. Venues like this are rare, and once they are gone, they rarely return.

Reclaiming that level for additional car spaces is, with respect, a poor trade. The evidence on induced demand is well established: expanding parking supply in urban areas does not relieve congestion, it simply generates additional vehicle trips to fill the new capacity. Adding one more level of car parking to a structure that already exists will not meaningfully ease pressure on the precinct. What it will do is remove a popular community venue in exchange for parking bays that will be full on event days regardless, and largely empty the rest of the time.

Moore Park is already well-served by public transport, with bus and light rail connections close by. For a precinct of this kind, active encouragement of those options is the right approach, not the quiet expansion of car parking at the expense of the things that make the area worth visiting.
I would ask the Council to consider what is actually being exchanged here. On one side: an active, community-facing entertainment venue that generates genuine economic activity and gives people a reason to come to Moore Park. On the other: a partial floor of a car park.

Please allow Hyperkarting Moore Park to stay. It is an asset to the area and to Sydney, and its removal would be a real loss.
Thank you for taking the time to consider this submission.

Yours sincerely,
Daniel Mobbs

Hyper karting is a unique, fun and safe way to entertain our youth and adults alike. Without it we end up with bored kids riding escooters and e bikes around for thrills risking public safety. Let hyper karting continue with their business.

Hello

Its come to my attention that there is a plan to not support the continuation of a wonderful business at Moore Park.

This business has significant positive flow on effects for the restaurants in the area and should remain open.

Hyper Karting is well run and even GREEN with electric power!

thanks
James Evins

To whom it may concern,

I, Anthony Damcevski, would hate to see Hyper Karting forced to leave Sydney's entertainment quarter. This venue is immensely valuable to the community...

I am a former employee & regular customer of Hyper Karting. I can say, with absolutely certainty, that I took all the great things about Hyper Karting for granted during my tenure. It wasn't just a job - its an amazing place where like minded people, both staff members and customers alike, have the opportunity to meet others who share the same passion for racing and make lifelong friendships (across various ages and different walks of life). This is what makes Hyper Karting special.

My time at Hyper Karting provided me, and many others, with exactly what I have described above. Some of us always wanted to race at a higher level but never had the chance, some who used to race but gave up on their dreams, and others with little experience but a tonne of enthusiasm to get behind the wheel and sharpen their skills. Our ages, across the group of regular goers, spanned between late-teens all the way to 50+. Different ages, different races, united by our passion to go racing. Hyper Karting made us all excited to show up in the mornings/evenings for the dedicated "expert" sessions, almost everyday, to enjoy each other's company, strive for new personal best's on the track and enjoy the friendly competition too!

Where did this lead me and my new, large group of unlikely friends..? We formed multiple endurance racing teams, bought karts and currently race, semi professionally, in NSW's premier Endurance Karting Series - SEK NSW. No longer are we a group of strangers searching for a way to satisfy our need for racing. No...we got much more than we bargained for. Friends, Team-mates; a second family i dare say.

None of this would've been possible without Hyper Karting...

If you have read this far, I thank you very much for taking the time to do so. And I hope my submission has done justice to show how important and valuable Hyper Karting is on a social and communal level - I implore you to consider this deeply before pulling the plug...

Sincerely,
Anthony Damcevski

Hello,

I'd like to express my disappointment at hyperkarting being closed down for more car parking spaces.

My 6 year old son is a huge fan of the hyperkarting track. We had his 5th birthday there as have many of his friends.

I'm a local resident, who is a swans members, who uses the Moore Park facilities regularly and strongly believe we should retain the good, family friendly activities at Moore Park, rather than replace them with more car parking space.

That carpark is a nightmare to get out of already after sporting events - adding another level of parking trying to use the same number of exits is just going to increase the bottle neck and make things worse.

Keep hyperkarting!

Regards,
Scott Abbot

Hypercarting isn't just a go-kart track. It's where kids have their first taste of real excitement. Where mates celebrate birthdays, couples go on dates, and families actually put their phones down for an hour.

And you want to replace it with a parking lot.
Parking lots don't create memories. They don't give teenagers somewhere safe and thrilling to spend a Saturday. They don't employ local staff or draw visitors to our community. They just sit there, grey and empty, collecting pigeon droppings.

Once Hypercarting is gone, it's gone. No one is getting that back. Please — don't trade something genuinely irreplaceable for a slab of concrete that could go anywhere.

Dear City of Sydney Council,

Please don’t neglect what the general public is saying regarding the closure of Hyper Karting.

It simply doesn’t seem practical to close down one of the most entertaining activities in this city for some empty car park spaces.

The entertainment centre was lose its vibe if this place gets shut down.

To whom it may concerns,

This venue has become much more than just a recreational business for families like mine. It serves as a positive, safe, and inclusive environment where families, friends, and community members can come together to spend time together.

In an era where many Gen Alpha children are increasingly drawn to screens and iPads, Hyper Karting has become our go-to destination on weekends and during school holidays. It provides a much-needed opportunity to engage them in active, real world experiences and helps draw them away from excessive screen time.

At a time when engaging and accessible community spaces are more important than ever, Hyper Karting offers a unique environment that promotes social connection, physical activity, and shared experiences.

The facility has consistently demonstrated a strong commitment to safety, responsible operation, and community engagement. It offers a structured and supervised activity in a controlled environment, making it a valuable and reliable.

I strongly support the continuation of its permit to operate on Level 5 of the car park.

Thank you for your time and consideration.

Sincerely,

Fifi

Hi to whom it may concern,

Removing hyper karting from the entertainment quarter would remove such a huge part of why people go there, to be entertained and hyper karting provides so much of that. We don’t need more parking, and for events such as concerts or sporting events there is public transport within walking distance, it literally does not make any sense to remove a flourishing business that people love for maybe 100 car spaces.

Thanks

Please save hypercarting! It has a huge cultral benefit for Sydney and the community.

myself and my family don't see any logical reason to:

1. Remove more fun from sydney
2. remove jobs from the people
3. revert back to a lifeless car park that offers nothing to the city vs the minuscule convenience to a tiny few on a rare occasion.

Sort it out!

We should be opening more places like this, giving grants to make Sydney more fun and exciting, not trying to make it duller than it already is.

Thankyou for your time!
Mark

Hi Shannon,

I hope you're doing well.

I just wanted to share a quick thought regarding Hyper Karting. I understand it may be coming to a close, but I think it would be really worthwhile to preserve it in some form rather than letting it disappear entirely. In a time where more and more kids are becoming increasingly attached to their phones and screens, places like Hyper Karting offer something genuinely valuable a space for real-world interaction, activity, and fun. It gives kids and families the chance to step away from screens, be active, and create meaningful memories together. For many people, Hyper Karting has been a place of excitement, connection, and unforgettable experiences. It would be a real shame to lose something that has had such a positive impact on the community. Even preserving a small part of it, or recognising what it has meant to so many, could go a long way. Thank you for taking the time to consider this.

Kind regards,

I'm sorry but how sick in the mind do you have to be to be removing hyperkarting to replace it with parking. I'd doesn't at all align with city of Sydney's vision to reduce car reliance, and everybody loves hyperkarting there. Take your rubbish nimby policies and quit and go elsewhere this is probably the most ridiculous thing I've ever heard only some disillusioned stuck up politician would come up with such a joke of an idea.

Good morning,

I am deeply concerned for the proposed removal of Moore Park's hyperkarting facility.

This poses a threat to local leisure and community engagement, and it undermines Sydney's position as a thriving city.

Additionally, the removal of Hyperkarting for parking spaces is counter to the City's development towards environmentally conscious movement. Any promotion of private vehicle usage (particularly vehicles with combustion engines) is a threat to the environment.

Please reconsider this decision, for the sake of thriving attendance of Moore Park, and for our environment.

Regards,
Hayley, resident of Sydney.

To Whom It May Concern,

The way I see it, we want people to take public transport and to have safe environments to enjoy themselves. Hyper Karting does both those things.

Not only is it easy to get to but I have been multiple times with family and co workers.
Every time I have visited on public transport.

It's also an outlet for people like me who love the feeling of speed but who like to be responsible on public roads. This facility is a brilliant space for all ages and its closure would be yet another dagger in the recreational heart of Sydney.

Please think carefully about the people employed, the users and the negative consequences of removing it. Do you really want to encourage more cars? It's the worst carpark to get out of after events and we refuse to use it anymore, especially with the light rail now.

Please think long term and give back to the community rather than take away.

Thanks
Paul Harvey

Hi,

I am a Sydney local, and would like to express my support for Hyper Karting to remain in operation in the EQ carpark.

It is a unique, efficient, and fun activity within near reach of the CBD, and its closure would be massively detrimental to Sydney's culture.

I hope their closure is reconsidered by the City of Sydney.

Kind regards,
Ben Fraser

Hyper kart is a local institution. A place I take my son and his friends. Its loss will be felt by the community. It should not be replaced by more car spaces that will mostly go unused. Listen to the community.

Dear City of Sydney,

Writing in regards to the plan to reject the extension of Hyper Karting's operating approval. Not only do I belive the removal of the Karting facility would be a great loss, it is in fact one of the few activities that me and my friends go to the EQ for. But more importantly, what the EQ needs is not more parking, but rather much improved public transport connectivity. Getting there on public transport from somewhere as close by as Bondi is terribly inefficient. And the same goes for many other areas. The trams are 700m away which is not good enough for a major location like this. It is due to the poor connectivity my friends and I don't go to the EQ more frequently to enjoy what is on offer.

In order for the EQ to really reach its full potential, it needs to be easier to reach on public transport, ideally a train or metro station. I recognize this would take time, but needs to be worked into the plan. Until then you need to add more direct and frequent buses to key destination.
Removing Hyper Karting would be a massive loss, and more parking is not the solution for the EQ overall.
Hoping you will reconsider.

Many thanks,

Andreas Askero

Dear Shannon and the Planning team

With respect to the decision to not extend the temporary lease for Hyper Karting, and return the space to a private car park operator, there seems to be no public benefit. Statistics would prove the point, and the space would unlikely see high usage.

It is important to come clean about who would benefit from your decision. For instance, it is important such matters would not be subject to an ICAC investigation.

As a business who has used this facility for team building events (where we arrived and departed by public transport), with nothing similar anywhere near the CBD, your decision represents a return to the dark, cold days of concrete jungle emptiness that has plagued this city centre since the 1960s.

Sincerely

Paul

Dear Shannon,

Please accept this email as a letter of support for the ongoing operations of Hyper Karting at Moore Park.

I have used the facility many times over the last five years with both family and friends. It is a great way to have fun, and I find it is also helpful to get together with other Dad's to have some time to destress. We typically also support the surrounding cafes, etc. in the Entertainment Quarter when we go karting.

Hyper Karting is well located, accessible, available in all weather conditions and nice to have natural light and airflow with the open sides. I have never seen the carpark full so I don't see any problem with letting the operation continue.

Regards,
Owen Burnie

Dear City of Sydney Council,

I am writing to express my strong support for the petition to preserve Hyper Karting Sydney and to urge the Council to carefully consider the broader community impact before making any decisions that could affect its future.

Hyper Karting Sydney is more than just a venue—it is a unique and valuable recreational space that brings together people of all ages and backgrounds. It provides a safe, engaging, and social environment that promotes community connection, supports local tourism, and contributes to Sydney's vibrant entertainment landscape.

For many residents and visitors, Hyper Karting offers an accessible and exciting activity that is not easily replaced. Its presence adds diversity to the city's leisure offerings and helps make Sydney a more dynamic place to live and visit. Additionally, the business supports local employment and contributes to the local economy.

I respectfully ask the Council to take into account the strong community support demonstrated through the petition and to explore all possible options to ensure that Hyper Karting Sydney can continue to operate. Preserving venues like this is essential to maintaining the character and livability of our city.

Thank you for your time and consideration

Andrew Lyons

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

I've had numerous great experiences racing friends at Hyper Karting at Moore Park and it has been a great place to go to socialise and race friends, close to my my home. The news that it was at risk of shutting down a surprised me as the go karting track is a place that has brought so many memories, and is a very popular spot among many people n the area.

Why are you going to force them to close? Shutting down 100s of jobs and removing one of the few gokarting places in Sydney (they are already few and far between, and very far away travel). Youre going to force hyperkarting to close just so you can add another level to a carpark?

Sure, im sure another level to a carpark will make a whole lot of difference. We have to many car parks, we dont need more, especially when you are removing a go karting centre that the community loves.

I urge you to reconsider, you're going to force one of the few go karting places in Sydney and that is close to the city to close only so you can build an extra level onto a carpark. Please reconsider.

Declan

Dear Shannon,

I am writing to express my strong support for Hyper Karting and to respectfully request that Council reconsider any actions that may result in its closure.

Hyper Karting is a unique and valued community facility that provides a place for families, friends and young people to come together and enjoy themselves, rain, hail or shine. In a city where weather and limited options can restrict activities, venues like this play an important role in keeping communities active and connected.

Importantly, the venue also supports approximately 150 local jobs. Its closure would have a significant impact not only on those employees, but on the broader local economy and vibrancy of the area.

While I understand the need to balance competing priorities, including car parking, I strongly encourage Council to consider the broader community and economic value that Hyper Karting provides, and to explore alternative solutions that allow it to continue operating.

Thank you for your time and consideration.

Kind regards,

Concerned resident, Marnie Rogan

To the Assessment Officer,

I write in support of Hyper Karting's application for a continued temporary use approval at Level 5, Entertainment Quarter Car Park, Moore Park.

I am a regular visitor to the facility and a resident of the Sydney metropolitan area. I ask that Council reconsider its refusal on the following planning grounds.

1. Parking demand does not justify the refusal

Transport for NSW data shows that since Allianz Stadium reopened in 2022, the Entertainment Quarter car park has reached capacity only a handful of times across 84 major events. The 298 spaces occupied by Hyper Karting represent approximately 15% of the car park's 2,003 total spaces - spaces that sit empty the vast majority of the time. The forthcoming 1,500-space underground car park at Allianz Stadium will more than offset both these spaces and the planned phase-out of on-grass parking at Lower Kippax and Hordern Pavilion.

2. The refusal is inconsistent with the NSW Government's stated precinct objectives

The NSW Government is actively seeking proposals to transform the Entertainment Quarter into a year-round destination for hospitality, events and culture. The Premier has publicly acknowledged the precinct has fallen short of its potential outside major event days. Removing a venue that operates seven days a week, has attracted over 500,000 visitors, employs more than 150 people, and has generated zero noise complaints directly contradicts this revitalisation objective.

3. Community and social value

The facility serves NDIS participants through structured social programs and has contributed to developing young racing talent, including drivers scouted for international development programs. These community outcomes are consistent with the social objectives of the Sydney Local Environmental Plan.

4. The temporary use has demonstrated no adverse impact

Since 2021, the facility has operated without a single noise complaint and has activated a previously disused section of the car park. There is no evidence before Council that the continued temporary use would cause unacceptable impacts on the amenity of the precinct.

I respectfully submit that Council's stated justification - that exclusive use of parking spaces for commercial activity is unacceptable - does not withstand scrutiny when weighed against actual parking utilisation data, the incoming Allianz Stadium car park capacity, the precinct's revitalisation goals, and the demonstrated community benefit of the facility.

I urge Council to approve the extension.

Yours faithfully,

Jason Chisholm

Hyperkarting should remain at Moore Park. It is such a fantastic addition to the entertainment quarter and has provided me and my friends many hours of laughs and fun over the five years it has been opened. Hyperkarting provides much more benefit than 1 more floor of a carpark.

Hi - I am a go kart enthusiast living in central Sydney. I've been to Hyperkarts many times.

It's rare to have a such a quality operation so central. An excellent team who run a tight ship, karts are great quality - and electric! - which is really cool.

Closing hyperkarts for the sake of one more level of car parks would be a great loss to Sydney and the entertainment quarter.

Thanks,

Cam

To whom it may concern,

I am writing in support of Hyper Karting Sydney to continue their operation at Moore Park parking space.

This place has been and will always be one to make great memories with my friends and family. With it being in the vicinity of Sydney CBD, it's the only one accessible for me and my friends to meet up with and catch up regularly.

I firmly believe that having Hyper Karting still operational will benefit foot traffic and interest around the entertainment square area much more than the proposed parking space area.

I appreciate your continued commitment with time and efforts in improving the local scene for the better. But I sincerely request for a re-consideration in your decision in this matter involving potentially removing Hyper Karting from the space.

Thank you in advance for your time in reading this email and consideration. Have a wonderful day ahead.

Best regards,
Alvin Ho

Hi, this is Ved, you probably dont know me but im a regular at hyper karting. Please do not close this place for car parking space and nobody will use, there's also heeps of floors or car parking that have never been fully filled, for crying out loud there's 4 levels or parking in the hyper kartign building, isn't that enough? Closing down hyper karting is ruin a lot of the income and revenue for moore park as since hyper karitng is so popular, most of the time people only go to moore park to go kart and then eat, restaurants there will suffer big losses aswell, just because of 1 more level for car park no one will use, mind you literally everyone doesn't want this to happen. Its going to be a waste of the councils, the governments and the citizens tax money. Please keep hyper karting open

To the councillors

I am part of a large group that attend Hyperkarting multiple times a week, it's become a meeting point for drivers of a diverse age and cultural background range, all of which I would not have gotten to know had it not been for hyperkarting.

Hyperkarting has become a huge part of my life, it's where I go to unwind after a hard day and also where I go when I just want to have some fun, I can unwind and have a laugh with friends there after races, it's a meeting point for peoples who enjoy the same activity as myself.

Hyperkarting is where I go to get a racing fix when my racecar is not fit for the track.

Hyperkarting has also become a introduction and development into the karting world for some that go there, with drivers I've seen arrive with limited knowledge of the sport go on to make their competitive karting debut.

Everything previous has been about my connection to the venue and to a precinct(entertainment quarter) that over the past 2-3 years I've been attending I've only been to 3 other times, the same has been said multiple times by others who frequent Hyperkarting. Hyperkarting itself brings in so much business for the surround precinct that will disappear if it closes.

Onto the parking situation, I've been at Hyperkarting on a few limited occasions where the carpark is full due to other events taking place at the entertainment quarter precinct, and the exit from that carpark is abysmal, it can take hours to get out from the top floors and adding more spaces to an already comprised exit will only exasperate the situation. The grassed areas that are used for parking are much more efficient and they have held up to being in use for over 20 years(well before Hyperkarting was even a concept), so I struggle to understand why they need to be closed due to preservation.

In addition there is a new carpark being built adjacent to the Football stadium that is supposed to add more spots than both the grassed areas and the top 2 levels of the entertainment quarter carpark combined, coupling that new structure with the light rail and the public transport to the area there really shouldn't be a need to add so many car spaces to the area, there has been an initiative by government to get major event attendees to leave the car at home and use those new and incumbent public transport options, this decision to close Hyperkarting goes against that, so this decision to close a thriving busines that brings thousands of people into the precinct each week does not make sense to me.

As stated Hyperkarting has become a major part of my life and I've met friends that I otherwise would never have met, it's kept me sane when life has not been kind and given me an outlet other than the streets to get my racing fix when I can not attend track days at race tracks, it's introduced and developed me young karting talents, most with hopes to make it into supercars and beyond(F1) and the decision to close this venue due to the need to more car spaces when there is amazing public transport readily available with a new parking structure of considerable size is being built does not make sense.

I do hope the decision to revoke the license to operate Hyperkarts is reversed and we can go on enjoying an activity that brings value into the area.

Thanks
Benjamin Theocharous

To the Assessment Officer,

I write in support of Hyper Karting's application for a continued temporary use approval at Level 5, Entertainment Quarter Car Park, Moore Park.

I am a regular visitor to the facility and a resident of the Sydney metropolitan area. I ask that Council reconsider its refusal on the following planning grounds.

1. Parking demand does not justify the refusal

Transport for NSW data shows that since Allianz Stadium reopened in 2022, the Entertainment Quarter car park has reached capacity only a handful of times across 84 major events. The 298 spaces occupied by Hyper Karting represent approximately 15% of the car park's 2,003 total spaces - spaces that sit empty the vast majority of the time. The forthcoming 1,500-space underground car park at Allianz Stadium will more than offset both these spaces and the planned phase-out of on-grass parking at Lower Kippax and Hordern Pavilion.

2. The refusal is inconsistent with the NSW Government's stated precinct objectives

The NSW Government is actively seeking proposals to transform the Entertainment Quarter into a year-round destination for hospitality, events and culture. The Premier has publicly acknowledged the precinct has fallen short of its potential outside major event days. Removing a venue that operates seven days a week, has attracted over 500,000 visitors, employs more than 150 people, and has generated zero noise complaints directly contradicts this revitalisation objective.

3. Community and social value

The facility serves NDIS participants through structured social programs and has contributed to developing young racing talent, including drivers scouted for international development programs. These community outcomes are consistent with the social objectives of the Sydney Local Environmental Plan.

4. The temporary use has demonstrated no adverse impact

Since 2021, the facility has operated without a single noise complaint and has activated a previously disused section of the car park. There is no evidence before Council that the continued temporary use would cause unacceptable impacts on the amenity of the precinct.

I respectfully submit that Council's stated justification - that exclusive use of parking spaces for commercial activity is unacceptable - does not withstand scrutiny when weighed against actual parking utilisation data, the incoming Allianz Stadium car park capacity, the precinct's revitalisation goals, and the demonstrated community benefit of the facility.

I urge Council to approve the extension.

Yours faithfully,

Geoff Mortimer
Co-Founder

Hi,

Given the excellent public transport link via light rail, and the fact that plenty of parking is already available, I see no reason why a business that is adding value to the area should be shut down.

Please reconsider this decision.

Regards,

Rob

Dear S. Rickersey,

If you're fortunate enough to one day look back on your life, you might find yourself reflecting on what you achieved whilst alive.

I hope in that moment, the profits you've delivered to shareholders and the decisions you've insulated from scrutiny bring you genuine satisfaction. The way you've learned never to be challenged, and how much of yourself you've kept hidden from a shrinking circle of friends and an insular family—stand tall in that. It takes effort to build walls that high.

Please, by all means, add "demolishing a beloved local attraction to build a car park" to that deathbed reflection. Just another small, gleaming achievement in a career of gloriously antisocial choices, I'm sure.

Removing joy and enrichment from public spaces must align with several religious traditions—or at least with a particularly bleak corporate playbook.

I have every confidence you'll do the wrong thing. The fact that the people fighting to save HyperKarts have been reduced to begging on an Instagram ad tells me your mind is already made up. So, well done.

Personally, I would absolutely love another car park. Nothing would make me prouder as a Sydneysider. I'm genuinely passionate about concrete, poor planning, and the quiet death of things that make a city worth living in.

Satire aside: you hold an incredibly privileged position. Don't knock down this business. Do something that actually improves lives.

Hopeful regards,

Storm Andersson

To Whom Itat Concern,

This is probably the first time I've written in respond to an application, but I am getting fed up with the slow erosion of anything unique in this city.

The decision to close Hyper karting to reclaim a couple of hundred parking spaces is despicable, particularly given the council's rhetoric of wanting less car based travel.

In typical Sydney fashion, anything remotely interesting or different from an entertainment perspective is squeezed out, often due to the bottom line that more money can be made by developing the property into housing, or on this case carparks. Sydney used to have a vast array of activities such as roller and ice skating rinks, go-karting businesses and the like that both kids and adults could enjoy but sadly these are being squeezed out one by one due to escalating costs. As exciting as it is to see more carparks and luxury apartments in Sydney, let's not forget about the importance of entrainment that doesn't take place in stadiums.

Appreciate your time,

Josh Onikul

Hi Team,

It deeply troubles me that I have to send this email to justify the existence of this business. I can only imagine the impacts this has had on the owners.

Racing and Karting are my personal escapes, they help me with my mental health issues and bring me genuine joy in my grim existence in this particular troubling time in history.

I've shared many memories here with my friends and strangers. Together we have had over 100 races. We travel from all across Sydney to visit Hyper Karting because of the venue, staff and service quality. It would be a major loss for the local and extend community, for the local businesses in the precinct where we eat and drink. For the businesses all across the city that host their corporate events here.

This decision makes absolutely no sense. I hope your team truly takes the time to consider the impacts of your decision. We dont need more car spaces here.

Thanks,
Daniel

Love this place, can't possibly get rid of such an awesome venue!! It's a great way to fill that space, there's nowhere else like it in Sydney. Would be such a waste, along with decreasing the amount of people who eat out nearby because that's what most people do after a sesh in the karts, and surrounding businesses wouldn't want that, would they?

Hi,

I've gone to Hyperkarting before with my family and it was a great experience. It was really good to be able to do go-karting in the inner city with electric cars instead of carbon emitting fuel go-karts. Please reconsider shutting down this community experience.

Kind regards,
Winston Parry

Hi City of Sydney,

Hyperkarting has been an amazing place in which I have make many connections with people, as someone who came from another country it has been one of the only places in which karting and racing as a sport and hobby can be done, and I think it makes the Moore park entertainment quarter so much better, please re-evaluate and keep it open.

Kind regards,
Jason

Good afternoon,

I write to you today to reconsider closing down businesses, specifically HyperKarting, in the EQ Carpark in Sydney.

Not many facilities are suitable for indoor go karting tracks, but the EQ Carpark is a safe and regulated space where all can enjoy racing go karts, as there is adequate Wilson and numerous other parking garages in Sydney currently.

I also ask that you reconsider due to the cost of living crisis, as myself and many others have hundreds of dollars worth of gift cards to use towards participating in a go kart race at HyperKarting, and shutting them down leaves people like myself out of pocket.

Thanks for taking the time to read and I sincerely hope that HyperKarting is not shut down for capitalist greed.

Cheers,
T Stevenson

Hello,

I am writing as I've heard that the city is considering shutting down Hyper Karting for additional parking.

I am part of four middle aged men that come together to ride. This has become a healthy hobby for us. It's our version of golf.

In a time when mass transit should be encouraged, it doesn't make sense to shut down a community for extra parking that will only be used a limited amount of days a year.

Please renew the lease for hyper karting.

Thanks,

Dereck Hooker

I've been coming to Hyper Karting for a few years now.

It's a great way to get out and have fun. Not only for my kids who love it but for me. Getting some adrenaline going after a tough day's work is very helpful.

Every time I'm there, new people experience this fun, including tourists.

Taking a unique go-karting experience out of Sydney city is ridiculous. Of all the times I've been here the car park isn't even close to full. On game day events I wouldn't park there due to the cost and inconvenience alone. Aren't we trying to get cars off the road?

The next closest karting experiences are in Bankstown in Concord. Too far out of the city.

I strongly don't believe getting rid of this company outweighs the benefits of having more empty spots on most days.

To be honest it's the only reason I come to EQ. You'll be doing a disservice to the whole place itself.

Please reconsider closing down hyperkarting, Sydney is a city for people, not for cars and carparks.

Hyperkarting is a place for enjoyment, competition, excitement, and is one of the greatest ways people of all ages and backgrounds can pursue an interest in motorsports safely.

There are precious few venues that can offer all that in Sydney. Don't rob the community of what already exists in such limited capacity for car spaces that won't be utilised for a majority of the time.

Thank you.

-Finlay

To whom it may concern,

I'm a mum of 2 and this place is such a core memory for our kids and their generation! Please don't replace it with a car park when the area is already well connected with bike lanes, buses and the light rail. More cars is not what we need.

This place also draws people to the area- we only visit to go hyperkarting and will then visit the markets or other restaurants and cafes after.

F1 is also on the rise and someone our kids are getting more and more into. Hyperkarting is one of the only outlets in the Sydney area that means our kids can get involved without driving hours.

Hope you will reconsider this decision.

Tula

To the City of Sydney,

We oppose the proposed removal of HyperKarting at the Entertainment Quarter in Moore Park to make way for on-grass parking.

HyperKarting is a valuable community space that brings people together for recreation, celebrations, and social connection. For many of us, it holds meaningful memories and plays an important role in making the Entertainment Quarter an active and engaging destination.

Replacing this venue with parking prioritises cars over people. Moore Park is already well-served by public transport, including the nearby light rail stop, which represents a significant public investment intended to reduce car dependency and support accessible, sustainable travel.

The removal of HyperKarting would reduce the diversity and appeal of the precinct, weaken its ability to attract visitors, and diminish opportunities for young people and families to gather and celebrate.

We call on the City of Sydney to:
- Retain HyperKarting or ensure the site continues to be used for active, community-focused purposes
- Prioritise people-oriented spaces over additional parking
- Align planning decisions with sustainable transport and public space goals

We urge you to reconsider this proposal and protect spaces that contribute to a vibrant, inclusive, and accessible Moore Park.

Sincerely,
Tazmin Barter - Planning student at Macquarie

To all who it may concern,
I write to you today with great concern regarding Hyper Karting at EQ and the possible termination of their space and as a result, the business as a whole.

Hyper Karting is one of the only things in the EQ that actually makes it feel like an entertainment precinct. Removing it for more parking doesn't really make sense, especially when it comes at the cost of around 150 jobs.

There's clearly a lot of people speaking up against this change, and it's hard to see where the demand is coming from to replace an active, functioning business with passive parking space. This is a step backwards for the city, the local economy and EQ holistically.

Extending their contract seems like a straightforward option. They provide jobs, they don't cause issues for neighbours, and they bring people into the area, particularly at night. That kind of activity is exactly what keeps a precinct like this alive, not benign parking spaces.

For a city that is trying to build up its nighttime economy and reduce reliance on cars, replacing a venue like this with more parking feels inconsistent with those goals. It removes something that adds energy and replaces it with something that doesn't contribute much beyond convenience.

There's already a fair amount of public attention on this, and it would be disappointing to see a decision like this go ahead without properly considering the value that businesses like this bring to the area.

Please think of this change with greater consideration for what you are doing.

Jackson Parker

Hi,

Don’t close down hyperkarting it’s a great place for a fun time with family and friends. Hope you guys can reconsider the plan to dismantle the track and return it to a carpark.

Kind regards,
Aaron

To whom it may concern.

The reality is that for most of us, there is little to no reason to visit the entertainment quarter if hyperkarting is removed. They are by far the most popular attraction in the area, please, keep this place safe. Additionally for any uni student attempting a quick race after class, the only other option is to drive to eastern creek. In this economy, thats not possible for many of us.

Thank you,
Noah tabone

Hi Shannon,

Iam writing to you regarding Hyper karting closing down due to reclaiming the top level back to a carpark spots, if possible please keep the venue where it is as its convenient to have a karting track in the cbd and the kart of perfect location within the "entertainment park" ��

Thank you for your time.

To whom it may concern,

This is my submission regarding the plans to close down Hyper Karting in favour of a carpark. This is a wonderful place that I've only had the opportunity to visit once and would love to go back, myself and a large portion of the community loves Hyper Karting and we do not want to see it closed down.

We do not need more parking, we need whimsy and things that bring people together in a world that is hard enough already.

Please please don't let this place go, the community wants it to stay!

Thank you
-Kacie

Hello,

I'm sending this email to please consider keeping the hyper karting at moore park open.
99% of the time the car park is empty but all throughout the day you can find people coming into the go karting place from kids to adults who also spend time and money in the entertainment quarter.

Additionally our workplace go their for many work bonding events visiting from the Disney lot.

People who visit the go karting place also have no choice but to pay for parking at the same car park that it resides in. Increasing revenue of the car park.

the go karting place and it's a great addition to the area. It's one of a kind and hard to find something similar anywhere in Sydney.

To whom this may concern.

I am writing to express my strong support for Hyper Karting and for the approval of its continued operation at its current facility.

Hyper Karting is a valued entertainment and sports venue that brings people together. It is a place where friends, families, and work teams can connect through shared experiences in a safe and enjoyable environment. I have frequently visited this venue for social gatherings with family and friends, and also brought colleagues along for team-building activities. Hyper Karting plays a meaningful role in social connection and wellbeing for many people.

The business also provides clear benefits to the surrounding area, with visitors often supporting nearby cafés, restaurants, and bars, helping to sustain local hospitality and create a more active and vibrant Moore Park precinct.

I have been a customer of this venue since it first opened. What started as an excellent initiative to utilise unused space has evolved into a very popular venue with a product offering that is continually improved. It is also evident that the organisation employs over 150 people, many of whom are young people with an interest in Karting.

I believe Hyper Karting makes a positive contribution to Sydney's recreational and social offering, and I strongly support the continuation of its operating approval so it can remain an active part of the community.

Thank you for considering my submission.

Kind regards,

Niall Powers

Hi,

Really saddened to hear that Hyper Karting at Moore Park is under threat of closing down due to a desire to return the space to car parking.

It'd be such a shame to see one of the greatest activities available in the area and so easily accessible for many be shut. Hyper Karting provides so much fun and enjoyment and makes the entertainment quarter a destination to head to.

Additional food businesses in the area also benefit from HK, as the activity brings in a crowd, we'd always end up hungry and wanting to eat afterwards, enjoying the food and pubs on offer after karting.
Spent many work functions at hyper karting, which gave everyone something fun to do and new experiences for many.

Please don't shut them down. It'd be a lose for the city of Sydney.

Cheers,
Michael

To Whom It May Concern,

I'm writing as a Sydney resident and regular patron of the Entertainment Quarter to express my strong opposition to the closure of Hyper Karting at Moore Park, and to urge the City of Sydney to reconsider its refusal of the DA extension application.

Hyper Karting is one of the most genuinely unique recreational offerings in inner Sydney. As a parent, I introduced my children to motorsport through this venue and they have chosen it repeatedly for their birthdays. That's not something I can say about many experiences in this city. It sits in a rare category: an activity that is thrilling, accessible, and appeals to a wide age range, right in the heart of Sydney.

The Parking Argument Does Not Hold Up

The council's stated justification, reclaiming car spaces on Level 5 of the EQ car park, is difficult to reconcile with observable reality. The EQ car park holds approximately 2,000 spaces. Under normal daily trading it operates well below capacity, with the first two hours offered free. Adding 298 spaces back to a car park that is regularly under-utilised does not meaningfully address any genuine parking shortage.

On the days when parking in this precinct is actually under pressure, such as major events at Allianz Stadium, the SCG, or Hordern Pavilion, the existing car parks have well-documented exit constraints that prevent efficient throughput regardless of total capacity. An additional 298 spaces will not resolve a systemic traffic management problem. Event-day overflow already spills to grass car parks, school grounds, and surrounding streets. The bottleneck is exit lane capacity, not the total number of bays.

Removing an active, 500,000-visitor venue to recover a fraction of that footprint is a disproportionate solution to a problem those 298 spaces simply cannot fix.

Public Transport Investment Should Be Leveraged, Not Undermined

The L2/L3 light rail was extended to service the Moore Park precinct, a significant public infrastructure investment. Services run every 5 to 15 minutes, connecting Moore Park directly to Circular Quay and Central from 5am to 1am daily. The Moore Park stop is a short walk from the Entertainment Quarter.

Closing one of the precinct's most popular daily attractions and replacing it with underutilised car parking sends the opposite signal to the one this investment was designed to support. It prioritises car dependency at the exact location where the government has invested to encourage the alternative.

Sydney is Losing City-Based Recreation

Inner Sydney has seen a steady contraction of recreational venues that offer real, active experiences for families and young people. Go-karting at this scale and quality, within reach of the city, is genuinely rare. Hyper Karting operates a 410-metre electric circuit, the kind of facility that would ordinarily require a trip well out of the urban area. Its location makes it accessible to a huge catchment of Sydney residents and visitors who don't own cars and rely on public transport.

At a time when the NSW Government has publicly committed to revitalising Sydney's entertainment and leisure offerings, this decision moves in precisely the opposite direction.

Jobs, Livelihoods, and Community

Over 150 people are employed at Hyper Karting. These are real jobs supporting families who would lose their income overnight if this closure proceeds. The venue has welcomed over 500,000 visitors since opening in 2021 and operates seven days a week. It is not a marginal or seasonal operation. It is an active, contributing business in the precinct.

Conclusion

I respectfully urge the City of Sydney to grant Hyper Karting's extension application and to undertake genuine public consultation before any decision to permanently repurpose this space. The case for closure, recovering underutilised car spaces that will not

meaningfully resolve the precinct's parking dynamics, does not justify the loss of a unique recreational venue, 150 jobs, and a place that thousands of Sydney families, including my own, genuinely value.

Thank you for your consideration.

Hey City of Sydney,

Stop being woke!. Stop the bullshit! Stop the over development! Stop forcing business's to close down for your own benefit! Do the right thing and let Hyperkarting stay.

They are a great venue. Ive been a customer for years , bringing all my mates along.

Forget about the money, or about the extra car spots you'll get after kicking Hyper Karting out. Think about what your doing to this business, and how it will affect the community and the public.

I hope you take that into consideration. Im with Hyper Karting all the way on this one. Lets keep their doors open!

Regards,

Anthony

To Whom It May Concern

I am sending this email in regards to Hyper Karting and the possibility of closure to build a car park.

This is a terrible idea & will be a tremendous loss for the community - not only for jobs, but also what this venue offers.
Memories. Experiences. A hobby. An outlet. A sense of belonging. Excitement. Passion. Celebrations.

They are so few places left that everyone can go to and leave their worries behind and do something different.

Please, reconsider this proposal and help save Hyper Karting. Save this amazing place for everyone not only for more, but also into the future.

Regards,
Peta

Dear Council Members,

I am writing to express my strong support for keeping HyperKarting open and operational.

HyperKarting provides a valuable recreational space for people of all ages in our community. It offers a safe, structured, and engaging environment where individuals, families, and groups can come together, stay active, and enjoy a unique experience that is not easily found elsewhere. Facilities like this play an important role in promoting social connection, local tourism, and overall community wellbeing.

In addition to its social benefits, HyperKarting contributes economically by creating jobs and attracting visitors to the area, which in turn supports other local businesses. Closing such a venue would not only remove a popular activity but also have a ripple effect on the local economy.

I understand that councils must balance a variety of concerns when making decisions. However, I strongly encourage you to consider the positive impact HyperKarting has on the community and explore any reasonable options that would allow it to remain open.

Thank you for your time and consideration.

Yours sincerely,
Riley Schwarz

Why close Hyper Karting? It is such a fun and popular place, takes hooligans off the streets, giving a place to go fast without hurting others. It also serves as a stepping stone for prospective race car drivers, allowing them to practice to become professionals. Hyper Karting is also much cheaper than other places, and actually close to civilisation.

Is it really worth putting 150 people out of jobs and thousands more people out of a local track for some grass?

Reconsider your priorities please.

Thanks,

Rishab

> Dear Shannon Rickersy and Council,
>
> I write as a resident of the Eastern Suburbs to oppose the decision not to renew the operating licence of Hyper Karting, and to urge the Council to reconsider before the space reverts to general car parking.
>
> Hyper Karting has, over the years it has operated, become a genuine community institution. It employs local staff at above-average wages, provides an accessible recreational venue for residents across a wide range of ages and backgrounds, and has demonstrated continuous improvement in its operations and community engagement. It is the kind of business that rarely appears in a suburb like ours: active, affordable, locally staffed, and genuinely beloved.
>
> The stated rationale for non-renewal, the need for additional parking capacity during peak event periods, is one I understand. However, I would respectfully put to the Council that it is disproportionate. Converting a thriving, job-creating recreational facility into overflow event parking represents a significant and permanent loss of community value in exchange for a periodic and arguably manageable inconvenience.
>
The purpose is running events is to create employment and economic development. Shutting down a business that so strongly contributes to employment and economic development to create more event parking totally at odds with these objectives.

The current parking congestion is significantly caused by the fact that the car park at the stadium is under construction. Once construction is complete, the parking situation will materially improve.

> I would also note that event-driven parking demand is intermittent and predictable. There may well be alternatives worth exploring: dynamic pricing for existing spaces, partnership arrangements with nearby private operators, improved transport activation on event days, or temporary arrangements that do not require the permanent loss of the karting facility. I would encourage Council to consider these before taking an irreversible step.
>
> Finally, I note that the Council's broader planning policy has, commendably, moved in the direction of reduced car dependency and more active, people-centred land use. The permanent expansion of a surface car park runs counter to that direction, and it would be a shame if the pursuit of short-term parking supply came at the cost of a business that embodies exactly the kind of vibrant, community-oriented land use the Council's own policies aspire to encourage.
>
> I would ask the Council to answer the following questions before proceeding:
> - Has any modelling been done on alternative approaches to event-day parking demand, including transport incentives or demand management?
> - What community consultation has taken place with residents who use and value Hyper Karting?
> - How does this decision accord with the Council's stated commitments on reducing car dependency and supporting local employment?
>
>
> I ask that the Council delay any final decision, consult with Hyper Karting and the broader community, and genuinely consider alternatives before proceeding.
>
>
> Thank you for your time and consideration.
>
> Yours sincerely,
> John Beck
> 17 Albemarle Avenue, Rose Bay.

City of Sydney - don't dump hyper karting!!

I regularly work at moore park and park in the car park. There has never been a shortage of car parks on level 2 or 3. I don't think I've ever made it to level 4, even when there are sporting events on.

Moore Park is a weird place at the best of times. The only entertainment thing that makes sense there is the hyper kart. Maybe the cinema.

It would be a huge loss to kick them out!

Sent on: Wednesday, April 8, 2026 9:24:37 AM

To: dasubmissions@cityofsydney.nsw.gov.au

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon Rickersey,

I am writing to express my support for Development Application RD/2023/897/A for 116 Lang Road, Moore Park NSW 2021, specifically in relation to retaining Hyper Karting at the site rather than reverting the space back to parking.

My children regularly use Hyper Karting, and it has become an important recreational outlet for our family. It provides a safe, structured, and engaging activity that keeps young people active and socially connected. Facilities like this are increasingly valuable and should be preserved where possible.

I understand that there is a proposal to return the site to parking use. However, I strongly believe that this would be a step backwards. Moore Park already has substantial parking capacity, particularly to service major events, whereas unique recreational facilities like Hyper Karting are far less common and deliver far greater ongoing community benefit.

Retaining Hyper Karting contributes to a more vibrant, family-friendly precinct and supports a shift away from prioritising car storage toward more active and engaging uses of space. It enhances the overall appeal of the area for both locals and visitors.

For these reasons, I urge that the application be supported in a way that allows Hyper Karting to continue operating at this location, rather than replacing it with additional parking.

Thank you for considering my submission.

Kind Regards,

Heather Hibbert

To the Decision Makers regarding Hyper Karting Precinct,

I am writing to you today not only as a supporter of Hyper Karting, but as a dedicated member of the team. As an Accountant for the business, I see the real human impact this business has on our staff and the wider community.

Hyper Karting is more than just a track, it is a livelihood for over 150 people. In my role, I see the payroll and the personalities behind the numbers. These are individuals who rely on this business to support their livelihood and build their careers. Closing a thriving, high-growth business; effectively terminating 150 jobs simply to increase a car park's capacity by 296 spaces is, quite frankly, an unacceptable trade-off. It is a step backward for local employment and a blow to the hardworking people who have built this brand.

From a financial and community perspective, Hyper Karting acts as a massive anchor for the area. We draw thousands of visitors who don't just visit the track; they spend money at neighboring cafes, restaurants and retail outlets. After analyzing our growth and reading through countless customer reviews, it is clear that we are a primary reason people visit this precinct. Replacing a revenue-generating, high-traffic destination with static car spaces is a poor economic decision that will lead to a dead zone in the community, ultimately hurting other local businesses.

I see the feedback every day. People don't just come here to drive, they come here to create memories. Whether it's a kids' birthday party or a corporate team-building event, the reviews consistently highlight the joy and energy our facility provides. To lose such a vibrant hub of activity for the sake of more asphalt and concrete is a tragedy for the culture of our city.

I strongly urge those in the position of power to reconsider this decision. Hyper Karting is a successful, loved and vital part of this community. We provide joy to customers and stability to 150 employees. Please do not choose 296 parking spots over 150 human lives and a business that brings so much value to the area.

Kind regards
Ishit Patel

Dear City of Sydney council,

Hyper Karting is exactly the sort of business and activity that adds colour, interest and amenity to our wonderful city.

It is a smart and innovative business idea and use of space, the sort of thing that should be encouraged and rewarded. I know that the council likes to think of itself as a champion of these ideas.

I understand it is not high-brow, or a cultural endeavour but it does give may people, including kids, an opportunity to engage in an activity that is engaging, good exercise and most of all fun. Without this business, go karting will be effectively off limits to most young people in the city of Sydney, being replaced by effectively nothing.

Hyper Karting is an example of the innovation of use of space our city needs more of, while also providing a truly unique and otherwise off-limits experience to the resident of the City of Sydney. It should be celebrated and used as inspiration, not removed.

Sincerely

Duan Wong

Redfern Resident

I am writing in opposition to the decision to shut down Hyper Karting in Moore Park.

In a time when we're expected to use fuel moderately, it makes little sense to reconvert the Hyper Karting space back into a car park, especially when there's at least 2 public transport options in the area.

Regards,

Hunter Clarke

Hyper karting remains to be a key entertainment location that is extremely accessible to many people, not limited to motorsport fans.

Its existence would be much more impactful than a potential conversion into car spaces.

Please consider Hyper karting's great impact to the community.

Dear Assesment Officer,

I write to formally object to Development Application RD/2023/897/A, which proposes the removal of Hyper Karting Sydney to facilitate increased car parking capacity for intermittent sporting events.

This application raises significant concerns from a strategic planning, land use, and community value perspective—particularly within the policy framework of the City of Sydney.

1. Inconsistent with City of Sydney Strategic Planning Priorities

The City of Sydney has consistently prioritised:
- Active, engaging, and experience-based uses
- Year-round economic activation
- Reduction in car dependency and more efficient land use

This proposal directly conflicts with those priorities by:
- Replacing a high-activity, experience-driven venue
- With low-activation, car-dominant infrastructure used only intermittently

The outcome represents a regression in urban planning terms, shifting from activation to passive, underutilised space.

2. Disproportionate Trade-Off: Permanent Use vs Occasional Demand

Hyper Karting Sydney is a permanent, operational recreational facility delivering continuous value across:
- Social and community engagement
- Tourism and visitor economy
- Employment and local business activity

The justification for its removal—occasional peak parking demand during events—does not represent an equivalent or reasonable trade-off.

Planning outcomes should not prioritise infrequent peak demand over consistent, daily use.

3. Inefficient and Low-Value Land Use Outcome

Car parking—particularly for intermittent use—is widely recognised as a low-value urban land use, especially in a dense metropolitan context such as the City of Sydney.

The proposed outcome would:
- Leave the site underutilised for the majority of the time
- Reduce economic productivity per square metre
- Diminish the experiential and cultural value of the precinct

This is inconsistent with best-practice urban planning and the City's own strategic direction toward higher-value, activated land uses.

4. Loss of a Unique and Irreplaceable Facility

Hyper Karting Sydney is a specialised recreational offering with limited comparable venues within the metropolitan area.

Once removed, it is highly unlikely that:
- A similar facility would be reintroduced within the City of Sydney
- The lost recreational capacity would be replaced elsewhere

This represents a permanent erosion of recreational infrastructure, which should be carefully protected rather than displaced.

5. Availability of Alternative Event-Day Solutions

Event-based parking demand is a known and manageable challenge that should be addressed through:
- Integrated transport strategies
- Public transport utilisation
- Temporary traffic and parking management measures

It is not appropriate to remove an established business to accommodate non-permanent demand that can be addressed through established planning mechanisms.

6. Precedent Risk

Approval of this DA would set a concerning precedent whereby:
- Established, compliant businesses can be displaced
- Long-term land uses are subordinated to short-term operational convenience

This undermines planning certainty and sends a negative signal to businesses investing in experiential and community-oriented uses within the City.

Conclusion

This application prioritises occasional convenience over sustained community, economic, and strategic value, and is inconsistent with the City of Sydney's planning vision.

I strongly object to Development Application RD/2023/897/A and request that Council:

- Refuse the application in its current form; or
- Require a revised proposal that retains Hyper Karting Sydney while addressing event-related parking through alternative strategies

Thank you for considering this submission. I would appreciate being kept informed of any updates or determinations relating to this application.

Kind regards,

Craig Warren

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

I'm writing to express my strong support for Hyper Karting remaining at Moore Park. I request that my name and contact details are**not** published with my submission.

Since opening, Hyper Karting has been a great entertainment asset in the inner city. It fills a gap that very few venues in Sydney manage to fill - a fun, safe, any-weather activity that appeals to families, friends, corporate groups, and visitors alike. I have hosted multiple work events there, bringing many colleagues into the precinct and directly supporting surrounding businesses for lunch and post-event drinks. I have also attended and organised numerous social outings with friends at Hyper Karting, all of which have been consistently positive and memorable.

As a long-term resident of Sydney, I have watched the city invest heavily in public transport, particularly the light rail connection with Moore Park. That investment has finally made the precinct accessible without relying on cars. In that context, the proposal to remove a thriving entertainment venue - one that employs more than 150 people - simply to reinstate 296 car spaces is difficult to justify. It runs counter to the city's own transport strategy and undermines the purpose of the light rail.

Hyper Karting brings people into Moore Park, supports local jobs, and adds real value to the area. Closing it would be a loss for the community and for the many businesses that benefit from the activity it generates.

I strongly urge that Hyper Karting be allowed to continue operating.

Attention: Shannon Rickersey

Dear Shannon and City of Sydney

I am a rate payer and work in the City of Sydney.

I write to expressing my support for the ongoing operation of Hyper Karting in the EQ car parking. Even as an infrequent visitor to the race course, I see it is clearly having a positive impact on the centre and it a much higher and better use of the space.

I encourage council to further extend their right to operate in the car park.

Good morning,

Please keep Hyperkarting at Moore Park, it was part of my recovery from carer burnout. I had such lovely memories with other young carers with Carer Gateway and continue going back there for a fun, safe, friendly time. It is the safest gokarting venue in NSW and one of the few venues for young people that are safe and do not involve any alcohol. Sydney has a great lack of third spaces that are affordable, please consider keep Hyperkarting open.

Thank you for your consideration

Audrey Wang

Please do reconsider the closure of the Hyper Karting rink.

It is rare to see people in western Sydney have opportunities for nightlife and I fear that if you shut down this place you are risking alienation with future voters of your electoral and also diminishing the economic value of the area by its closure.

We do not need more profitable businesses that have a tandem-positive effect with other local businesses that help generate revenue for your local landlords it would be a real shame for patrons to have less of a reason to spend money in your area.

Do better or risk votes simple as.

Council, please reconsider the move to shut down Hyper Karting.

Not only are they an incredible business that has made memories, but brought much needed life to the entertainment quarter district that has been lacking for so long.

I would not have dined or otherwise visited the EQ over the last few years if it weren't for Hyper Karting. Shutting them down would have far reaching impacts on local businesses in their vicinity.

Thank you,

Matt Watson

Hyper karting is one of the best go kart tracks in Sydney. Closing it down for car park spots would be a huge mistake as hyper karting is one of the only reasons I actually visit the Sydney entertainment area at More park otherwise I would see no interest in traveling there. Closing it down would be a huge mistake for Australians as well as the thousands of tourists that would visit the venue.

Hi Team,

Please keep this great venue alive. We are local residents and take our young children here frequently. With the light rail links and additional Allianz Stadium parking I can’t see the reason to shut this down for one extra level of parking. Especially given the city’s push for public transport and green transportation.

Cheers. Phil

Is the City of Sydney council really this ridiculous??!! Closing down a fantastic go-karting entertainment activity for kids when Sydney is already pretty much the most boring city in the world!! What's there to do?! Time zone?! The beach?! We don't have a single theme park!! At least let kids and adults have a speck of entertainment in their lives!! What a deadbeat Government we have

Hi,

I am so sad to hear the news that Hyper Karting is at risk of closure. My nephew loves this place so much.

This is such an immersive experience and just a peaceful one, I hate go karting with petrol yuck it stinks!!! But this place is so fun, clean, doesn't stink lol. And is actually such a fun time.

It would truly sadden me if this place closed and 150 people + were affected or without any work.

This feels inhumane and people should do better! This is the most empty car park in Sydney unless there's a concert but I always find parking on the residential streets nearby.

It would be a true loss to lose Hyper Karting

Jasmine

DO NOT SHUT DOWN HYPER CART RACING!

This place is such an amazing attribute to the community and the entertainment quarter. I've had so many great memories racing there with friends and family, and countless birthday parties hosted there too. Please do not shut it down, there's no reason too it will only affect other businesses and the markets in the entertainment quarter. Parking is not what Sydney needs - it is simply greed, there is also more than enough parking in the area too.

DO NOT SHUT IT DOWN PLEASE!!! It will be a very big mistake.

Hi Shannon,

I wanted to reach out regarding the future of Hyper Karting at Moore Park, as I understand there are plans that may see it removed. I felt it was important to share some concerns from a community and visitor perspective.

Moore Park has increasingly become a destination precinct, not just a place people pass through. Venues like Hyper Karting are a big part of that. They give people a reason to spend time in the area outside of major events, which supports surrounding businesses and keeps the precinct active throughout the week. Removing an attraction like this risks creating quieter, underutilised spaces rather than vibrant ones.

From a visitor point of view, it also fills a unique gap in Sydney's entertainment offering. There are very few experiences that are accessible, group-friendly, and suitable for a wide range of ages while still being something a bit different. It is often one of the only options for team events, birthdays, and casual group outings that isn't centred around food or drinking. Losing that kind of offering makes the city feel more limited.

Another important factor is the sustainability aspect. The electric karting setup is a strong example of how recreation can evolve in a more environmentally responsible way. It feels counterintuitive to remove a low-emission facility and replace it with additional car parking. If anything, this feels like an opportunity to double down on reducing car dependency in the area. Better public transport access, event-based transport planning, or incentives to reduce driving would be a more forward-thinking approach, especially with fuel costs continuing to be a concern for many people.

There is also a broader signal this sends to businesses. Hyper Karting represents a significant private investment into Sydney's entertainment landscape. When a venue like this is removed despite its popularity and uniqueness, it can create uncertainty for other operators considering investing in similar concepts. Supporting innovative, experience-based businesses should be a priority if Sydney wants to remain competitive with other major cities.

The employment side is also worth highlighting. Venues like this provide accessible jobs for younger people and those looking to build experience in customer service, operations, and events. Removing it reduces those opportunities and impacts a large number of workers who rely on consistent shifts.

It's also hard to ignore the optics of replacing a high-engagement community venue with more parking. With ongoing conversations around congestion and urban planning, this feels like a missed opportunity to rethink how Moore Park evolves. Encouraging people to stay longer, engage more, and access the area without relying on cars would deliver far greater long-term value.

I completely understand that planning decisions are complex and involve competing priorities, but I would strongly encourage reconsidering this direction or at least exploring alternatives. Whether that means retaining the venue in its current location or identifying a suitable relocation within the precinct, it would be a positive outcome for both the community and the city.

Thanks for taking the time to read this. I appreciate the work that goes into these decisions and hope this perspective is helpful.

Kind regards,

Dan

Save Hyper Karting!

Do we really need another soulless car park in congestion central anyway? That car park is a nightmare to get out of as is, at least Hyper Karting is easily accessible.

Hi Shannon

After hearing some of the recent media coverage around the potential closure of Hyperkarting at The Entertainment Quarter I felt compelled to send a short note to express my views.

I live somewhat local to EQ and visit there semi regularly for events (Swans/NRL/A League games as well as movies and dining at EQ). I have been to Hyperkarting many times with my teenage sons who over the years have held and attended birthday parties there. It is a brilliant small business and we would be seriously disappointed if it was denied an extension to its DA approval by Council.

My understanding of the Council's reasons for the refusal all relate to the issue of car parking. In a world class city like Sydney with an amazing transport network (including a recently completed light rail system servicing the Moore Park Precinct), why are we trying to cater for car parking as opposed to encouraging the use of public transport?

In the many occasions I have been to EQ I have never experienced the car park facility to be at capacity. Whilst I admit that I have not attempted to park there for any major sporting events (for which I would use the light rail), I again make the point that the general public should be encouraged to take other forms of transport to this area which becomes choked with traffic during significant events. The reduction of parking spaces would be the ideal means to achieve this, with the added benefit of extending the Hyperkarting operation into the future which brings other benefits (including social and commercial) to this area.

Council should be looking to encourage and increase the commercial entertainment/activities in and around EQ, not diminishing them.

These 296 spaces will remain unused for the vast majority of the extension period sought by Hyperkarting and would be better used in their current format which would also result in financial benefit to Council and the precinct generally.

I sincerely hope Council reconsiders its decision and allows this small business to continue its use of the car parking spaces. I have no interest in this apart from being an occasional visitor to Hyperkarting and EQ, but strongly urge Council to weigh the benefits attached to Hyperkarting's existence against a mostly empty car park through to July 2028.

Thanks for considering my views.

Hi there,

We were really saddened to hear that Hyper Karting is at risk of closing.

This place is so much more than go-karts. We held our Christmas party at Hyper Karting, and it was one of the most genuinely fun and memorable team events we've had. It's rare to find a venue that brings people together across ages — Hyper Karting does exactly that. It's not just a place for kids, but a space where adults can let loose, have fun, and reconnect with that sense of joy we don't often get in everyday life.

Beyond the fun, there's a real sense of community when you walk through the doors. You can feel the energy, the passion of the staff, and how much effort has gone into creating a place where people belong. Losing Hyper Karting wouldn't just mean losing a venue — it would mean losing jobs for real people, families, and livelihoods, all for a car park that isn't even being fully used.

Hyper Karting adds life, character, and vibrancy to the area. It's the kind of place people talk about, recommend, and come back to. Sydney needs more spaces like this — not fewer.

We truly hope this decision can be reconsidered and that Hyper Karting gets the support it deserves to continue operating. It would be a real loss to the community if it didn't.

Thank you for everything you've created and for the joy you've brought to so many people.

Kind regards,

Jesse

Dear Council,

I am writing to respectfully request that you reconsider any plans to close Hyper Karting.

This venue provides a safe, engaging, and family-friendly activity for the community. It offers a valuable space for recreation, social connection, and youth engagement, which are especially important in a growing city like Sydney. Closing Hyper Karting would mean the loss of a unique and accessible entertainment option that many families and individuals rely on. I strongly encourage the Council to explore alternative solutions that would allow the venue to continue operating while addressing any concerns.

Thank you for your time and consideration.

Kind regards,
Livin

Dear council,

Please don't close the EQ Hyper Karting.

The **ENTERTAINMENT** Quarter is a space of music, sports, socialising and so many activities-- with Hyper Karting being one my family have loved and visited often.

Given the volume and amount of events in that area on a regular basis, the public transport system to get there has been established and operated so well for many years.

So why do we need more parking? Your focus should be continuing to work towards our climate crisis goals in Australia, and the development of our public transport. With recent laws also trying to promote more night life and social activity in Sydney, taking away a beloved experience for the sake of more parking is ridiculous and goes against everything Sydney siders are working towards.

Regards,
Alyssa

Hi there,

I just heard that Hyper Karting at Moore Park is at risk of closing and I had to reach out.

This place is a genuine gem for Sydney. Over 500,000 people have visited since it opened in 2021, it employs more than 150 people, and it runs seven days a week for families, kids, and anyone looking for something fun to do in the city. It also runs programs for NDIS participants and has helped develop real motorsport talent. That's not nothing.

I get that parking is a concern, but turning a packed, well-loved entertainment venue back into an empty car park doesn't feel like the right call — especially when a new underground lot is apparently on the way anyway.

All that's being asked for is a two-year extension. That seems very reasonable given everything Hyper Karting brings to the precinct and to Sydney as a whole.

Please reconsider. Grant the extension, work with the Hyper Karting team, and let's find a solution that works for everyone.

Thanks for reading.

Jack

Hello,

I am devastated to learn there is a plan to close down Hyper Karting in Moore Park.

My son had his 14th birthday party there with 10 friends and had the best time ever. Good, clean, wholesome fun! To close such a wonderful place for teens to hang out would be a terrible move by the council. On the day of the party, we saw hugely diverse groups of people having a brilliant time. There were bachelor parties, families, work-bonding groups, first dates, as well as lots of lots of laughing children, amongst others.

It seems crazy to lose a place that anyone can access, centrally located in the Entertainment Quarter - the location name says it all, “entertainment”. Hyper Karting is a fantastic entertainment venue for all ages.

Replacing it for more car parking space would be a great loss for the community.

I sincerely hope the plan is reconsidered.

Kind regards,
Eva Chui Loiterton

Please do not let this amazing facility shut down. It’s the only place we can go with our foster children that provides a safe and exciting time for them every Saturday.

We know so many families that go here every single week. Why are more car spaces more important than the thousands of people that use this facility.

Another iconic sydney location closing.

Hi Shannon,

I'm writing to express my concern regarding the potential closure of Hyperkarting in Moore Park.

Hyperkarting is one of the few engaging and accessible recreational activities available for young people and families in Sydney. Opportunities for safe, enjoyable nightlife and social activities are already quite limited. Therefore, venues like this provide an important space for connecting with friends and family, weekend and holiday entertainment and freedom around the community.

For many, hyperkarting is more than just an activity, it's a place to spend time with friends, celebrate special occasions and create lasting memories, especially within Sydney where late night activities are limited. Losing such a unique and well-loved attraction would be a significant loss for the community.

I strongly believe this is a valuable facility that should be preserved rather than shut down.

Kind regards,
Shantel Keegel

Dear Sharon and those to whom it may concern,

I am emailing in regards to the submission proposal RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021. My three young sons have been fortunate enough to enjoy Hyperkarting (go-karting) at this location since its opening. Shutting down another children's activity to make way for a car park is not the answer.

Gone are the days where kids could go to places like Vert X indoor skate park and Skate Plus on a Friday or Saturday night. We are continuously seeing the very activities that keep young children and teenagers out of trouble and off the street close down just to make room for more carparks, shopping centres and apartments.

I am sure during your childhood you would have enjoyed these activities yourself or known of someone who did. Please don't take away anymore from the youth of today and the future. There has to be an alternative. A dystopian future is not the answer. Kids will either be home on their devices becoming more disconnected from society or potentially out in the streets looking for something to do.

Please don't close down Hyperkarting. It may seem like an obvious choice right now but there has to be another option. Putting 150 people out of their jobs to lay some concrete and paint some lines for a car park is not a fair exchange for what will be lost if Hyperkarting closes.

Thank you for taking the time to read my submission.

Kind regards

Tanya Baker

Hyper Karting needs to stay.

I have been at the entertainment quarter parking lot before the establishment of hyper karting and every time the upper levels were completely empty. Hyper karting brings so much to the area. Its accessibility really differentiates it from other karting businesses.

Sincerely,
Orchlon

Hi Shannon

I do not agree on the closure of Hyperkarting in Moore Park carpark.

Karting is fun and exciting, so why do we need to force closure?

I know you're probably looking for more parking space, but our city will never have enough parking spaces, as it's the last item any planner thinks of when developing facilities.

Please save the karting, it's now an institution, fun for all ages and part of the entertainment in the 'Entertainment Quarters' of Moore Park.

Please feel free to contact me at your convenience for any further assistance.

To the Sydney City Council Planning Committee,

I am writing to formally express my strong opposition to the proposed closure of the go-karting venue located within the Entertainment Quarter (EQ).

As a frequent visitor to the precinct, I believe the removal of this facility would be a significant loss to the community for several reasons:

• Vitality of the Entertainment Quarter: The precinct is specifically designated as a hub for leisure and recreation. Currently, the "entertainment" offerings at the EQ are relatively sparse, removing one of the few active, high-engagement social activities contradicts the very purpose of the area and further reduces the incentive for people to visit.

• Minimal Environmental Impact: Unlike traditional tracks, this venue utilises modern, quiet electric karts. They produce negligible noise pollution and zero exhaust emissions, ensuring that the operation remains a "good neighbor" to the surrounding Moore Park area.

• Optimal Land Use: The facility occupies a section of the carpark that is consistently under-utilised. Even during peak periods, the carpark has more than enough capacity to house both the venue and visitor vehicles. Keeping the track open utilises this space productively without negatively impacting local infrastructure or traffic flow.

• Central Accessibility: This is the only go-karting location in central Sydney. Forcing its closure would require residents to travel significant distances to the outer suburbs to access similar recreation, increasing cross-city traffic and removing a unique amenity from the inner-city landscape.

• Economic & Social Value: Closing the venue will inevitably lead to reduced visitation to the Entertainment Quarter as a whole, which will have a secondary negative impact on nearby cafes, restaurants, and retail businesses.

Sydney’s nightlife and social scene have faced numerous challenges in recent years. Rather than removing established social anchors, the Council should be protecting venues that provide safe, inclusive, and active entertainment.

I urge the Council to reconsider this closure and instead support the continued operation of a business that contributes positively to the city's vibrancy.

Sincerely,

Bobby Tan

Dear Shannor Rickersey,

I am writing to express my support in the current application RD 2023/897 A and the continued operation of Hyper Karting at the Entertainment Ouarter I'm a local resident visitor member of community from Brighton Le Sands. Hyper Karting has brought back life to the Entertainment Quarter. which it previously struggled to maintain its liveliness and culture in a looming Sydney, in terms of activities to do and entertainment. I've genuinely enjoyed my experiences at Hyper Karting over the years as a regular visitor. Sharing the experience of Hyper Karting with my friends has created great memories. it's become one of our go-to activities when we're looking to spend time outside of the city. Without Hyper Karting, EQ lacks any life, a very monotonous atmosphere that struggles to grasp the wants of the community and people from not just Sydney city itself, but surrounding suburbs too.

I myself, typically travel to this location by light rail which is why It has taken me bv surprised to see the focus on parking as a primary concern. Mv experience aligns with what's stated in the application documents. That an abundance of visitors to the Entertainment Quarter do not rely on driving to get there. Even when I have driven, I haven't personallv experienced major parking issues outside of large event days. As a requlr visitor to this location, I can attest that the Entertainment Quarter car park, is fairly accessible in terms of parking, in which I do not struggle to find parking. From what I understand, the traffic assessment also found that the actual parking demand generated by Hyper Karting is relativelv low (around 27 spaces), and that the broader car park still has significant capacity most of the time. That reflects what I've seen myself when visiting.

Hyper Karting plays in keeping the Entertainment Quarter alive. It is the primary source for the vivacious energy and excitement it brings to the location. It promotes higher foot traffic in off peak seasons when there is no events at surrounding venues, supports nearby businesses, and provides a space for family gatherings and social connection, especially for younger communities and groups. Losing Hyper Karting at the Entertainment Ouarter wouldn't just mean losing a business. It would take away from an already diminishing Svdney entertainment life, reduce foot traffic and revenue and make the location less worth visiting. This highlights the broader contribution Hyper Karting upholds within the Entertainment Quarter and local economy and community. It is also noted within the application notes, that the venue supports roughly around 150 jobs, in a Svdney economy where the cost of living is incredibly significant, the impact this could have on the individuals who need this iob for survival and living, is exasperating to think about. Keeping this business up and running, is clearlv in the best interest for the public. If there are concerns. it seems far more reasonable to manage them through other conditions, such as utilising the grass fields as additional car spaces, continue encouraging the use of the fairly new established light rail, rather than allowing the venue to close altogether.

I respectfully ask that you take my email into consideration, as a valued member of the community and to please reconsider the review application status. We do not deserve to lose this business and to be stripped off the very entertainment we sought for within the Entertainment Ouarter
Thank you for taking the time to consider mv submission, looking forward to hearing from you.

Many thanks,
Shamik

One of the best places in Sydney to enjoy, have fun, and celebrate with friends. In a great location and accessible to everyone, including people with disabilities. We know not all places offer this. The staff are excellent and the service is outstanding — any issues are always resolved smoothly, with a proactive and helpful attitude.

Thank you
Gustavo

To whom it may concern,

I was really saddened to hear the news this morning about the possible closure of Hyper Karting. This place holds so many special childhood memories for me, and I know I'm not the only one who feels that way.

I strongly urge you to reconsider this decision. Closing it would mean taking away an experience that future generations may never get the chance to enjoy the way we did. Places like this create lasting memories for young people and are part of what makes a community feel alive.

I truly hope you take this into consideration.

Kind regards,

Malak O.

Hello City of Sydney,

Please do not reject the application. hper Karting is needed and is really unique compared to other karting businesses.

It lives up to the culture of the area, and all about karting community which we are sort of losing. We need these spaces and events like hyper karting, it’s probaly the best karting I’ve been to compared to other because of the location.

Justice for Hyper Karting!!!!!

Hi

I have a 6 year old and 10 year old and this has become an amazing way of entertaining them. They thoroughly enjoy going on the go karts and have been to numerous birthday parties there.

There is nothing like this anywhere in the area. Please consider the community and the joy it brings to people.

Kind regards
Tali

Hi

Hyper-Karting has been enjoyed by adults and kids alike, as a corporate team activity and for birthday parties, and especially for the older kids looking for an activity. It does bring another activity to EQ, and bring patrons to the restaurants and bars.

There is no doubt the Hyper-Karting will continue its success if it stays at EQ.

Thanks
Angela Clapham

Hi Shannon,

My family and other friends love Hyperkarting. It's offers great entertainment rain, hail or shine for most ages - and my 7 year old would be absolutely disappointed if he hears it's closing down for extra car spaces. He learnt how to drive there, has a passion for racing and has also attended birthday parties in this space.

It would be such a shame to lose such a unique venue which employs a lot of staff simply to fit more parked cars that will probably not get used. Never have a problem parking at Entertainment Quarter so wonder if it is really necessary?

And to be honest - we probably won't come anymore if Hyperkarting is closed.

Thanks
Sarah

Don’t close hyper karting for some car park spots, it’s great fun and you’re just deincentivising public transport for some parking ticket revenue. Think about the overall happiness of the community, not to mention the jobs being lost.

Hi Shannon!

This venue has been keeping fox studio's alive when most things shut and closed down for the night. It gives people an enjoyable experience that doesn't involve alcohol and is centrally located. It's one of those few activities for the older folk that doesn't revolve around a pub or drinking or gambling…

We don't need more car spaces there it does fine now as is. It was created for a reason and now everyone sees the value and loves it there.

Be about the community and the people and how exciting it is to have it around us.

Don't close it down.

Regards,

Kathleen Hoyos

To whom it may concern:

Please do not proceed with the closure of Hyper Karting. It is a unique venue which offers fun for the whole family. There is nothing like it throughout the Sydney metro area. I have celebrated a special milestone birthday with my son and a big group of friends & family. Everyone from that group would be devastated to hear about this pending closure.

I kindly ask you to please seriously reconsider your plans and allow more special memories to be made with the continued operation of Hyper Karting. The staff are amazing, the venue is outstanding, and the memories are special. Please allow jobs to be saved, preserve the race tracks, and let Hyper Karting continue making magical memories.

Thank you for your time and consideration.

Sincerely,
Aldo Vaccarezza

Dear Shannon Rickersey,

I am writing regarding submission RD/2023/897/A for 116 Lang Road, Moore Park, to express my strong disagreement with the proposed closure of Hyper Karting. I am saddened to see this unique and accessible recreational venue potentially lost, as it provides a valuable activity for the community and adds to the vibrancy of the Moore Park precinct. I respectfully urge you to consider maintaining the operation of the facility or approving an extension so that it can continue to benefit the public.

Kind regards,
Jay Hutchison

Good evening,

I'm writing regarding the proposed closure of Hyper Karting. I wanted to express, honestly and sincerely, how much this place means not just to me, but to so many others in the community.

This isn't just a venue. For many of us, it's been a space where we've grown, connected, and created meaningful memories. Personally, it played a role in helping me get my life back on track, and it's even where I met my partner. Moments like that aren't easy to come by, and places that make them possible are rare.

Hyper Karting has always been more than just a place to drive it's been a safe and positive environment where kids turn into adults, where friendships are built, and where people find a sense of belonging. It's one of those spots that quietly does a lot of good without asking for much in return.

I understand that decisions like these involve many factors, but I truly believe this is something worth preserving. It's not overcrowded, it doesn't cause disruption, and yet it holds deep value for those who use it. Closing it would mean taking away a meaningful part of people's lives and the local community.

I respectfully ask that you reconsider this decision. Sometimes doing the right thing isn't just about regulations or planning it's about recognising the human side of what's at stake. This place matters, more than it might seem on paper.

Please let this one stay. It means more than words can fully express.

Kind regards,

Aryan Sharma

From a long time customer.

Please do not take away this incredible business. Hyperkarting is what makes entertainment quarter, entertainment quarter. Ironically, if you remove hyperkarting you'll remove the need for the additional carparks altogether.

Please do not remove this incredible business that pulls people into the precinct from all over Sydney. When we go hyperkarting we also support the other businesses there. The cafe on the corner, the sushi shop and the Vietnamese diner specifically in our case. Every visit. The positive impact hyperkarting has on these businesses cannot be overlooked.

It is a place for all ages to enjoy. I race here frequently, and so does my 3.5yo daughter. I expect this experience together to flourish as she ages and moves up the ranks.

This place is always humming. It's a fantastic experience. I would encourage anyone at the council reviewing this to go and do it for themselves. Grab a friend or two, or take your families, enjoy what's been put together for yourselves and then you'll never let it return carparking.

Thank you.
Gabe & Briana
Dad & Daughter Hyperkarters

To the City of Sydney Council,

I am writing to formally express my strong support for the lease extension of Hyper Karting, located on the rooftop of the Moore Park parking structure.

I was concerned to learn of the Council's recent decision to deny a short-term, two-year extension. While I understand the Council's desire to maintain original infrastructure purposes, I believe that prioritizing vacant parking spaces over a thriving, award-winning community asset is a step backward for Sydney's nighttime economy and local culture.

I urge the Council to reconsider this decision based on the following points:

Economic Impact: Hyper Karting provides employment for over 150 staff members. At a time when job security is paramount, the closure of such a significant employer would be a blow to the local workforce.

Support for the Entertainment Quarter: Hyper Karting is a primary "anchor" attraction. Its presence drives foot traffic to surrounding restaurants, cafes, and businesses within the Moore Park precinct that are still recovering from the impacts of recent years, and I can attest to attending multiple events here with after-parties in the surrounding restaurants.

Community & Social Value: Since 2021, the track has become a unique destination for families, tourists, and social groups. It utilizes an otherwise underused urban space to provide a safe, high-quality recreational activity that is rare within the city limits.

A Balanced Compromise: A two-year extension is a reasonable request. It allows the business to continue contributing to the economy while giving all stakeholders more time to find a long-term solution that doesn't result in an immediate loss of jobs and vibrancy.

Hyper Karting has proven itself to be more than just a temporary fixture; it is a key part of Sydney's modern entertainment landscape. I respectfully ask that the Council works collaboratively with the Hyper Karting team to find a path forward that preserves these 150 jobs and keeps this iconic experience open.

Thank you for your time and for considering the voices of the community.

Sincerely,
James Simon

Please do not let one of the most innovative businesses in Sydney die. As a young person we are fast running out of affordable places to meet, have fun and go out at night without alcohol.

I have been to Hyperkarting about 20 times and I live over an hour away. I would be ashamed to continue living in a city that would do this to a business that has been nothing but a massive positive for the EQ and has been the only reason my friends and I go there.

We will all watch how you vote and remember your choices in the next election.

Sincerely,
An incredibly disappointed voter

Dear City of Sydney

As a regular customer at hyper carting with friends and family during school holidays it's disappointing to hear that a unique all age experience in Sydney is going to be taken away.

Sydney is a city lacking of diversity in activities that people can enjoy and come together on. We aren't lacking car parks I would rather see 150+ employees keep their jobs and our community has opportunities to come together and have fun rather than 296 new car spots. Surely we should be promoting more use of public transport given impact on the environment aswell as the current fuel crisis.

Dear City of Sydney Council,

I am writing to express my strong opposition to the proposed closure of Hyper Karting at Moore Park.

HK is far more than just a business. It is a place of joy, connection, and community for so many people across Sydney. It provides a unique recreational space where families, friends, and enthusiasts can come together and create lasting memories. Losing a venue like this would mean losing an important part of what makes our city vibrant and inclusive.

Beyond its community value, HK plays an important role in attracting visitors and activity to what is otherwise a relatively quiet area. It brings consistent foot traffic that benefits surrounding businesses and contributes to the local economy. Removing it would likely reduce overall visitation rather than enhance it.

HK is also especially convenient for university students and student societies. Its location makes it an accessible and popular social destination after classes. I personally drop by after university at times, and it serves as a great way for students to unwind and connect outside of campus. Spaces like this are increasingly rare and valuable.

I am particularly concerned about the impact this decision will have on the 150 employees whose livelihoods depend on HK. These are real people with families, responsibilities, and futures at stake. Closing the venue would result in significant and immediate hardship for them, which feels disproportionate especially given that the justification appears to be for additional parking space that is not currently in high demand.

It is difficult to understand why such a valued community space should be sacrificed for a purpose that does not seem urgently needed. I urge the Council to reconsider this decision and explore alternative solutions that preserve both employment, local business activity, and community wellbeing.

Sydney should be a city that supports local businesses, fosters community, and values experiences that bring people together. Keeping HK open aligns with those values.

Thank you for taking the time to consider my perspective. I sincerely hope you will reconsider the proposed closure and work towards a solution that benefits both the community and the people who depend on HK.

Yours Sincerely,
Eric

Hi

Hyperkarting needs to stay. Honestly I pay council rates and I am. Not sure why the council is continuous making bad decisions like this.

More car parks are not the answer.

To the Planning Department, City of Sydney,

I am writing to formally express my objection to the proposed closure of Hyper Karting (HK), which I understand is being considered to facilitate additional car parking at the Entertainment Quarter.

I wish to clarify that I have no financial or commercial interest in Hyper Karting; I am submitting this as a concerned member of the public who values evidence-based urban planning and the preservation of Sydney's recreational diversity.

My objection is based on the following points:

1. Lack of Demonstrated Demand for Parking The current Entertainment Quarter multi-level car park frequently operates below capacity. Replacing a high-utilization, active business with additional parking infrastructure—without transparent, independent data proving a deficit—is an inefficient use of land. It risks creating a "dead zone" of underutilized asphalt in place of a vibrant commercial hub.

2. Economic and Employment Impact Hyper Karting is a significant employer, providing jobs for approximately 150 individuals. In the current economic climate, the removal of a viable employer for the sake of passive infrastructure is counter-intuitive. Furthermore, HK acts as a "destination tenant," driving foot traffic to neighboring hospitality and retail businesses within the EQ precinct.

3. Loss of Social Infrastructure HK provides a unique social utility that cannot be easily replicated or relocated. It serves as a vital venue for corporate engagement, youth recreation, and tourism. Removing this venue effectively removes these social opportunities from the inner-city landscape, diminishing the EQ's appeal as a premier entertainment destination.

4. Alignment with Modern Planning Principles Modern urban planning for Sydney emphasizes "Place Making" and reducing reliance on private vehicle infrastructure. Prioritizing more car parking over active recreation contradicts the Council's broader goals of creating a walkable, lively, and sustainable city.

Requested Actions: I respectfully urge the Council to:

- **Require an Independent Parking Utilization Study** to verify if the existing supply is truly insufficient before approving any change of use.
- **Examine Multi-use Alternatives** that allow for the retention of Hyper Karting alongside any necessary infrastructure upgrades.
- **Provide a Public Benefit Test** to explain how additional parking provides greater value to the community than an active, job-creating recreation business.

Sydney thrives when we protect the spaces that bring people together. I ask that the Council considers the long-term character of the Moore Park precinct and rejects the proposal to replace a proven cultural asset with underutilized parking.

I request that my personal identifying details associated with this submission remain confidential and be redacted from any public registers.

Thank you for your time and for considering this submission.

Kind regards,

[redacted]

Please do not sacrifice a thriving, community-driven attraction like Hyper Karting for the sake of car पार्किंग spaces that sit largely unused except during occasional sporting events at the nearby stadiums.

Hyper Karting has revitalised the Entertainment Quarter, injecting energy and foot traffic into an area that was previously struggling. It has played a critical role in supporting surrounding businesses, breathing new life into restaurants, bars, and other venues that were once on the brink.

Closing this facility would not only undo that progress but also put more than 150 young people out of work—individuals who rely on these jobs and contribute to the local economy.

There is no justification for this trade-off. The area is already well-serviced by public transport, including a multi-billion dollar light rail system with a dedicated stop. Visitors have viable alternatives that do not depend on parking availability. Furthermore, as a regular patron, I can confidently say that parking spaces in the area are frequently underutilised.

Shutting down a successful, widely enjoyed venue for the sake of sporadically used parking is a step backward—economically, socially, and culturally.

Regards

Hyper karting was where I discovered a passion for karting even at 14 years old. My friends and I went just last year and it was so fun. The intermediate was where I took overtook friends and battled, this race was so much fun that we ended paying for a second one. That's how fun it is. These two races made upset to leave and I begged and waited eagerly for my parents again just so I can race. It's on of the most accessible tracks in Sydney since it's just a metro/train away. If you tried it, you would see why people are defending 150 jobs, you would see why people want this to stay alive. Please I urge you keep this alive for people to experience and for the 150 people living off the money made from this great company.

To whom it may concern,

This is a business widely enjoyed by the community. The council has had ample opportunity to create more space for the wider community in areas such as stables adjacent or within the grounds of the precinct which affect less people and have failed to do so. Hyper Karting is enjoyed by many and should continue to do so.

I do not support this DA.

Such a great venue for kids. There's no real alternatives close by.
Maybe people coming to Moore park should use public transport rather than getting more car parking and encouraging people to drive.

Keep Hyper Karting open!

I have always loved the EQ, however over the last 10 years, I've felt that the activities have not changed a great deal. Hyper Karting helps to remedy this, and offers an exciting and engaging activity that is not available elsewhere in the city (the closest go karting is in Picton and is a completely different type of go-karting).

Opportunities for different whole-family activities and attractions are already limited in Sydney. While there are many opportunities for young families and children, there is a lack of outings that can be enjoyed by both children and adults. I have enjoyed going to Hyper Karting as an adult child with my parents and husband.

Substantial infrastructure has been developed to encourage walking and the use of public transport around the precinct. This is wonderful and much needed. Therefore, more parking seems counterproductive to this goal of encouraging increased use of active and public transport. An extra level of parking will not benefit the community as much as a safe and engaging attraction for all to enjoy. What is the point of more parking if there is nothing there to draw patrons in?

Please keep Hyper Karting open.

Thank you,

Ashleigh Young

don’t close down hyper karting because the car park is barely used as much as hyper karting is and without it then the whole entertainment place will lose so many loving customers that go to enjoy a friendly race with their friends or even to celebrate birthday parties and taking it away would be bad and make many people upsetty spaghetti

As a member of the community in Sydney I think it would be a great loss to lose a place like Hyperkarting, which I've enjoyed for the last 5 years a lot more then a couple of extra car spaces.

It would be a mistake to replace a place of recreation that's fun for all and accomodating to everyone for just a couple extra cars to be able to park there, for what? If it's not game day what's the point of the extra spaces?

Hi,

Really upset to hear Hyperkarting at Moore Park is set to be closed down just to facilitate a few extra car parks.

For families with kids Hyperkarting is often the single reason to visit this area… at any time, not just when there are special events nearby.

I support an immediate rethink on removing Hyperkarting as a key attraction from this precinct (the alternative… more parking for less attractions, appears ill-considered).

Sincerely,
B Braund

Hi,

I am writing to formally express my opposition to the proposed closure of the Hyperkart facility for the purpose of reopening it as a car park.

Closing a popular recreational venue to increase parking space contradicts our broader goals of encouraging public transport use and reducing emissions. The Hyperkart facility currently makes excellent use of the space and serves as a major draw for the area, providing significant benefits to all surrounding businesses. It makes little sense to dismantle a successful local attraction in favor of additional car parking.

I urge you to reconsider this decision and maintain the Hyperkart facility for the benefit of the community and the environment.

Thank you for your time and for considering my feedback on this matter.

Best regards,

Matthew Paynter

Hi Shannon Rickersey,

Hope you are well.

Just writing to you on the back of hearing news that City of Sydney plans to close down Hyper Karting at Moore Park to make space for additional car parking. I understand that this is purely for overflow in the event of demand for larger events at SCG / SFS and Hordern?

I'm am strongly objecting to this for many reasons.

- With all the banging on about net zero and increasing public transport usage, opening up more car spaces seems contradictory to your own Environmental strategy 2025 - 2030
  - NSW Government spent $3.1 ***billion*** dollars on a light rail with a specific stop at Moore Park.
  - There are two pedestrian bridges across Anzac Parade that cost $54 million dollars.
- Clearly light rail and walking should be preference to allowing more car spaces. Also given the unbelievable costs, should be the only options to EQ.

- The overflow in 98-99%% of the year is never used. I've been to EQ many times and once you get above the 4th floor it is a ghost town. To reserve for 200 odd spaces on the odd occasion they*may* be used is wasteful.

- *Every* commenter on this article is against your plans, which given the sample size is probably reflective of the majority of Sydney and surrounds. https://www.smh.com.au/national/nsw/inside-the-battle-to-save-sydney-s-rooftop-go-karting-track-20260309-p5o8rk.html

- You are effectively destroying a business that is clearly viable, as it has been around for a number of years, to open majority dormant car spaces - why exactly? They pay taxes, they employ people, they are a benefit to society (regardless if you use them or not), so to destroy a business for overflow parking is against Sydney's progress. Also it is a place where people create enjoyable memories by using. A parking lot is not this.

- Finally, this seems like a common sense issue that most of Sydney would be against. To be going against the clear majority of the 5,640,000 people who live in Sydney is anti-democratic at best and tending to authoritarianism at worst.

I hope enough emails can change your mind.

Stephen Wirth

Dear Shannon Rickersey

I am writing to express my strong support for Hyper Karting and to respectfully ask that you reconsider any decision that may result in its closure.

Hyper Karting is more than just an entertainment venue—it is a highly recommended, family-friendly activity that brings people of all ages together. It provides a safe, fun, and engaging environment where families, friends, and the wider community can connect and create positive memories.

Beyond its recreational value, the venue plays an important role in the local community. It supports jobs, contributes to the local economy, and offers a unique experience that cannot easily be replaced. Losing Hyper Karting would not only impact employees but also remove a valued social space for many families.

While I understand the need for development and infrastructure improvements, I believe the benefits of keeping Hyper Karting open outweigh the proposed changes. It is a well-loved facility that continues to serve the community in a meaningful way.

I respectfully urge you to consider the strong community support behind Hyper Karting and to explore alternatives that would allow it to remain open.

Thank you for your time and consideration.

Kind regards Natasha

I write to oppose the DA proposing that Hyper Karting Moore Park be demolished and turned into more parking. Hyper Karting is a key part of the culture at Moore Park.

We have seen almost all inner city karting facilities lost. Hyper Karting is a family friendly place to bond with friends, improve on real world skills, and spend quality time.

Please don't take that away, when there are literally no other karting facilities left in the area.

Kind Regards,

Reef Gaha

I'm extremely disappointed to hear that hyperkarting in Moore Park is at risk of closing in favour of using the space for car parking. The idea that a beloved, busy and successful business be closed to free up a few car spots makes absolutely no sense. Not to mention that this is one of precious few venues around Sydney that accommodate any kind of interest in Motorsport, and does so in a way that is more accessible and more completely compatible with the surrounding area than any other.

Please reconsider this decision. Losing hyperkarting would be a huge mistake.

Sincerely,
James Carpenter

Dear Shannon Rickersey,

I am writing to express my strong objection to the proposal to replace the Hyper Karting facility at Moore Park with additional parking spaces.

The Hyper Karting venue is a unique and valuable recreational asset that contributes significantly to the vibrancy and appeal of the Moore Park precinct. It provides an engaging, family-friendly activity that attracts a diverse range of visitors, including young people, families, and groups seeking safe and enjoyable entertainment. Facilities like this are essential in creating dynamic urban spaces that encourage community engagement, physical activity, and social connection.

Replacing such an attraction with more parking would represent a step backwards in urban planning priorities. Moore Park already serves as a major destination with existing transport links and parking infrastructure. Increasing parking capacity at the expense of active, experience-based amenities diminishes the area's character and reduces the variety of activities available to the public.

In a growing city like Sydney, it is increasingly important to prioritise experiences, green spaces, and recreational opportunities over car-centric developments. Retaining Hyper Karting aligns far more closely with these goals and supports a more vibrant, people-focused environment.

I strongly urge the City of Sydney to reconsider this proposal and preserve the Hyper Karting facility as a key part of the Moore Park precinct.

Thank you for considering my submission.

Kind regards,

Alissa Farran

I am writing regarding the closure of HyperKarting Moore park. HyperKarting is a strong supporter of up and coming engineers. As a sponsor of UTS Motorsports FSAE team, HyperKarting supports the development or Australia's future engineers, allowing for their passion to develop and the future of our country. Furthermore, on top of sponsorship, HyperKarting nurtures social growth for many adults around the Easter suburbs, where there is ZERO access to motorsports. This is no different to having swimming pool facilities and sports fields, residents of the eastern suburbs deserve to have access to recreational motorsports. The additional parking is only required due to the construction works around the SFS, restricting access to parking for football matches. Why punish business because of the greed of a landlord. HyperKarting is a favourite for locals. It would be a real shame for it to be removed.

Kind regards,
Aaron

Dear Ms Rickersey,

I am writing in support of Hyper Karting remaining open.

We recently visited to celebrate my father's 60th birthday and were thoroughly impressed with the setup, staff, and overall experience. It was a genuinely inclusive activity that our whole family could enjoy, which is rare to find in a single venue. Our 3- and 5-year-old loved the mini track, while my husband and father thoroughly enjoyed the adult track. It created a shared experience across generations that is not easily replicated elsewhere.

Whilst I was unable to drive on that day, I was still able to spend quality time with the children using the arcade facilities, which ensured the venue catered to all members of our group.

As a frequent user of this car park for Sydney FC matches and other events, I would genuinely prefer Hyper Karting to remain as an option, rather than additional parking. We plan to incorporate visits before games going forward, as it adds to the overall experience of attending events in the precinct.

The central location is also a real advantage. Being close to the city makes it easy to combine with nearby venues before or after, which would support surrounding businesses as well.

Since our visit, our children have been asking to go back, and I sincerely hope this remains possible in the future.

More broadly, it feels like a valuable community asset - a place that encourages families to spend time together and brings people into the area outside of just attending events. In contrast, additional parking feels like a more passive use of the space.

With over 150 staff supported by the venue, it would be a shame to see this replaced, particularly in the current economic climate.

I strongly support Hyper Karting remaining operational.

Kind regards,
Rachel

To the relevant planning authorities,

I am writing to you as a frequent visitor to express my strong support for the continued operation of Hyper Karting in Moore Park, and to register my firm opposition to any plans to replace this venue with additional car parking.

For my family, Hyper Karting has become an invaluable and regular destination. Finding high-quality, engaging, and active entertainment that kids and adults can genuinely enjoy together is surprisingly difficult in Sydney. Hyper Karting provides exactly that—a safe, thrilling environment for family outings, birthday parties, and a great way to get kids away from screens and doing something active.

It is incredibly disappointing to hear that such a well-loved, family-oriented business is facing pressure to close simply to expand parking infrastructure. This is especially frustrating because, as a regular visitor to the precinct, I see firsthand that the existing car spaces in Moore Park are frequently underutilized.

Replacing a thriving recreational hub that brings genuine joy to kids and families with a concrete parking lot that will sit empty for much of the week defies common sense. It is a poor trade-off for the community. We should be protecting and encouraging spaces that bring people together for shared experiences, not paving over them for unnecessary parking.

I strongly urge you to look at the actual day-to-day parking usage in the area, listen to the families who rely on venues like this for recreation, and ensure Hyper Karting remains a permanent fixture in Moore Park.

Yours sincerely,

Robert Wan
Resident in Sydney

Hi,

I'd like to lend my strong support to this campaign. There's plenty of other parking in the vicinity, but nothing quite like hyper karting in all of Sydney. It's brought me closer to colleagues, friends, partners - conveniently and with an unabating smile on everyone's faces. There is simply no replacement for that kind of experience.

It's Council's duty to act in the interests of the broader community, and it's clear Council would be failing in that duty if it were to proceed with the proposed plans to terminate the lease.

I urge you to reconsider.

Kind regards

Attn:: Shannon Rickersey

I am writing to object to the closure of Hyperkarting at Moore Park. It brings many people to the Entertainment Quarter, to spend money. It gives 150 staff jobs! We need a place like this in the area. If you're after parking spots, isn't Allianz opening up 1500 new car spaces? I've been to Hyperkarting multiple times on event days and always managed to get a car spot. The roof is always empty.

Hyperkarting is an affordable hobby, that helps relieve stress from work and day to day mental health. Please don't take this away, reconsider your decision to deny the lease extension. Please let Hyperkarting continue.

Kind regards,
Chad D Beeby

Dear City of Sydney Council,

I am writing to formally express my strong support for the continued operation of **Hyper Karting** at the Moore Park Entertainment Quarter. As a resident/visitor of Sydney, I believe that Hyper Karting is a vital asset to our city's entertainment landscape.

The decision to refuse a further extension for this venue would be a significant loss for several reasons:

- **Community & Tourism:** It provides a unique, world-class recreational activity that attracts both locals and tourists to the precinct.
- **Economic Impact:** The venue supports over 150 local jobs and drives foot traffic to surrounding businesses in the Entertainment Quarter.
- **Sustainability:** As an all-electric karting facility, it aligns with modern environmental goals and provides a low-impact use of existing infrastructure.
- **Youth Engagement:** It serves as a safe and engaging social space for families and young people in an area that often lacks late-night, non-alcohol-centric entertainment.

The argument that the space must return to "original parking use" overlooks the fact that Hyper Karting has successfully utilised an under-occupied rooftop for five years without negative impact on the precinct's accessibility.

I urge the Council to reconsider this decision and grant the necessary approvals to allow Hyper Karting to continue operating. Sydney needs more vibrant hubs like this, not fewer.

Sincerely,
Tony

Dear City of Sydney Council,

I am writing to express my strong opposition to the proposal to remove Hyper Karting at Moore Park and replace it with approximately 300 car parking spaces.

This proposal reflects a deeply misguided set of priorities. Replacing a vibrant, community focused recreational venue with more parking is not progress it is regression. Hyper Karting is not merely a business; it is a unique destination that provides entertainment, social connection, and economic activity for Sydney residents and visitors alike. Removing it would deprive the city of an experience that cannot simply be replaced by rows of idle vehicles.

Sydney is already grappling with well-documented challenges related to urban congestion, environmental sustainability, and the over prioritization of automobiles in city planning. Expanding parking capacity actively encourages increased automobile use, contributing to traffic congestion, emissions, and a less livable city. In contrast, venues like Hyper Karting promote active recreation, tourism, and local spending, all of which align with the kind of dynamic, people focused city Sydney aspires to be.

It is also important to recognize the social value of this venue. Hyper Karting offers a safe, engaging space for families, friends, and young people to gather. In an era where meaningful, in person entertainment options are increasingly important, removing such a facility sends the wrong message about what the city values.

From an economic perspective, the decision is equally questionable. A thriving entertainment venue generates jobs, attracts visitors, and contributes to the local economy in ways that a car park simply cannot. The long-term benefits of retaining a successful business far outweigh the short-term convenience of additional parking spaces.

This proposal demonstrates a lack of vision. Great cities invest in experiences, culture, and community—not more asphalt. If Sydney is serious about being a forward thinking, world class city, then decisions like this must reflect that ambition.

I strongly urge the City of Sydney Council to reconsider this proposal and prioritize retaining Hyper Karting as a valuable component of Moore Park's recreational and social landscape.

Sincerely,
Emmanuel

Dear Whom may read this email, Please keep hyperkarting open, This is the best option for go karting anywhere in sydney, with the amazing facilities like the car park it is currently using and still hope to use in the future, from the fastest karts in a 100km radius, electric, gaming, You name it. This place has everything. It's where people make friends, have tremendous fun and even have new experiences. I have gone to hyperkarting 6 Times now, My friends always come with me, 5 of us in total to be exact. We love this place, Best we've been to, it just does not compare to any like picton karting, entertainment center or eastern creek. With your help of lending them the car park, They are able to change the track layout every week/month as they have just enough space needed, dare I say they may need more. This place has had a huge impact on everyone who has gone. I have strengthened my relationships with my friends, made new friends on the track, and have personally applied for jobs there multiple times just so I can kart more often. By removing this, you would be taking the jobs of over 200+ men and women who have worked hard to keep this place amazing. There are already 200+ people who kart here, adding on me and everyone who has filled out the petition would easily be over 1000+, which is more people then parking spaces. On the average day, the carpark would have so many empty spaces, most of which are staff and on weekends when I go karting, I'm always able to find a spot, and there are plenty of open spots for more people on levels 1,2,3 and 4. Also, leaving hyper karting at this location, would force more people to take public transport, making roads less busy, resulting in better traffic, less accidents. And how about instead of removing a place loved by many, we help it. Instead of taking the car park back, we just make a new one with tax payers money. This is coming from all 20000 followers on instagram, 2000 on tiktok and all the people who don't happen to follow this amazing facility, KEEP IT OPEN. Don't take this away from us.

Im 14, and to have written this big of a email to keep it open, should say alot.

Please please please ����

To whom this may concern,

Please do not destroy and abandon another Sydney attraction. This city already has so little of entertainment like this. Why destroy another one.

I have regularly over the years been a customer of Hyperkarting and was extremely disheartened to hear the council was looking to revoke their agreement for Hyperkarting to continue in operation.

I have never had an issue with finding a parking spot inside the car park since Hypercarting opened. Granted, I'm not there every weekend, but I have gone on event nights and still manage to find parking. Even with Hyperkarting functioning on the top level.

Im not into real estate, but I imagine the rent accrued from a business already in operation would far exceed the possibility that cars would require to reach the top level for parking.

I hope you sincerely consider maintaining the top level of the carpark as is and the operation of Hyperkarting continues for many years to come.

Devoted customer of Hyperkarting.

Dear Shannon,

I am writing to you today to express my deep passion and support for keeping Hyperkarting open at its current Moore Park location.

As a frequent visitor and a member of the local community, I believe Hyperkarting is a vital hub for recreation and social connection in Sydney. It provides a unique, high-quality experience that brings people together and contributes significantly to the vibrancy of the Moore Park precinct. Losing such an innovative and well-loved facility would be a major loss for the thousands of enthusiasts who value the safe and exhilarating entertainment it provides.

I kindly urge you to consider the positive impact this establishment has on our community and to support its continued operation at Moore Park. We need places like Hyperkarting that offer healthy, engaging entertainment for all ages.

Thank you for your time and for considering my perspective on this important matter.

Best regards,

G’day

I haven’t even been here but it brings me great sadness to think I’ll never get the opportunity.
Sydney needs More; not Less.

If our city is serious about attracting tourism, increasing its night time economy and securing its place as an International City; we need to foster and encourage more businesses like this.

Our city has enough public transport and we don’t have enough venues like this one. Let’s be smart about this and make our city more fun!

Kindest Regards, Alex Likk

Dear City of Sydney council,

I am writing to you as a concerned parent and a local resident to express my deep distress regarding the potential closure of **Hyper Karting Moore Park**.

This venue is far more than just a racetrack; it is a cornerstone of our community's social life and a vital contributor to the vibrancy of the Moore Park precinct.

A Place for Unforgettable Memories

Last year, I hosted my son's 7th birthday party at Hyper Karting. The joy on the children's faces was incomparable. To this day, his classmates still talk about it as the "best party ever," and many of them have since returned with their own families. For children in our city, Hyper Karting provides a safe, exhilarating, and unique environment to develop confidence and celebrate milestones. Losing this venue would leave a significant void in the recreational options available to Sydney's youth.

An Economic Engine for Moore Park

Beyond its value to families, Hyper Karting acts as a critical "anchor" for the surrounding businesses. It is a well-observed pattern:

- **Increased Foot Traffic:** Families don't just visit the track; they spend the entire day in the area.
- **Synergy with Local Business:** After a session of karting, groups naturally flow into nearby restaurants for meals, visit the cinemas, or engage with other entertainment venues.
- **Economic Vitality:** Hyper Karting provides the initial drawcard that keeps the Moore Park precinct thriving. Without it, many neighboring shops will undoubtedly see a decline in their turnover.

A Heartfelt Request

We often talk about making Sydney a more family-friendly and liveable city. Hyper Karting is a shining example of a business that achieves this. To see it disappear would be a heartbreaking loss for the thousands of children who consider it their favorite place in the city.

I sincerely urge the Council to consider the social and economic impact of this closure. Please find a way to support Hyper Karting so it can continue to bring joy to our children and prosperity to Moore Park for years to come.

Best Regards

Socrates

Dear City of Sydney Council,

I am writing to express my concern regarding the proposed closure of Hyper Karting at Moore Park.

This venue represents one of the very few accessible go-karting facilities within Sydney, offering a unique recreational experience for a wide range of people, including families, young people, and community groups. In a city where open, active and engaging leisure opportunities are increasingly limited, spaces like this are incredibly valuable.

It is disappointing to hear that such a facility may be replaced, particularly if the proposed use is for something like additional car parking. While I understand the pressures around infrastructure and development, I would urge Council to carefully consider the broader social and community value of retaining spaces that support recreation, connection, and enjoyment.

Facilities like Hyper Karting contribute to a vibrant, liveable city. They provide safe, structured environments for people to gather, engage in active recreation, and experience something different from the usual retail or passive leisure options.

I strongly encourage Council to explore alternatives that would allow this venue, or a similar recreational offering, to be retained within Moore Park or the surrounding area.

Thank you for considering this perspective.

Kind regards,

Katrina Ackermann

To: dasubmissions@cityofsydney.nsw.gov.au

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear City of Sydney Council,

I am writing to formally express my strong support for the continued operation of Hyper Karting in Moore Park, and to respectfully oppose any proposal to remove this business in favour of converting the site into a car park.

Hyper Karting represents far more than a recreational venue—it is a vibrant community asset that contributes meaningfully to the social and economic fabric of the area. It provides a unique and engaging experience for individuals, families, and groups, encouraging active participation, local tourism, and community connection. Facilities like this are increasingly rare in urban environments, and their preservation should be prioritised.

From an economic standpoint, Hyper Karting supports local employment and drives foot traffic to surrounding businesses within Moore Park. Its presence enhances the attractiveness of the precinct as a destination, rather than simply a transient space for parking.

Replacing such a dynamic and community-focused venue with a car park would represent a step backwards in terms of urban planning and community value. While parking infrastructure is important, it should not come at the expense of established businesses that actively contribute to the vibrancy, wellbeing, and identity of the area.

I strongly encourage the Council to consider the broader, long-term benefits of retaining Hyper Karting and to explore alternative solutions that support both accessibility and community engagement without displacing this valued business.

Thank you for your time and consideration.

Kind Regards,

Matthew Burke | Director
Burkey's Venture Capital Pty Ltd

Hi Shannon,

Just wanted to write in support of keeping the Hyperkarting at EQ.

There is such a limited amount of fun kids activities like this for kids in the east.

My 6 year old loves this, my 3 year old had his first go today and loved it. It’s such good activity for the kids.

Please keep the Hyperkarting alive!

Thanks,
Erin

To Whom It May Concern,

I am writing to express my strong support for the preservation of the Hyper Karts track.

I believe the track should be maintained rather than replaced with additional car parking. The facility provides significant value to our community, and its removal would result in a regrettable loss of local jobs and recreational opportunities. Preserving this space ensures that the community continues to benefit from the unique services and employment the track provides.

Thank you for taking the time to consider this feedback and for your commitment to the community's interests.

Best regards,

Jack

296 spots? What a money grab!
Zero care by the council for all these people's jobs, who by the way collectively would pay a constant lot of income tax with that many staff.
Save the hyperkarting business.
Do better and get your money elsewhere and less of an embarrassment.
Disgusting and pointless this is.

Dear Shannon

I am writing in relation to the carpark proposal that will essential be at the detriment of losing a well known family friendly business Hypercart Racing.

I have visited Hypercart Racing several times with my family including my two children and have really enjoyed the use of the Premises and all it offers.

Living in Sydney we are far behind other cities and states in regards to entertainment such as the Gold Coast and their Theme Parks and many different entertainment options Victoria also has to offer.

I OPPOSE the proposal to shut down Hypercart Racing for the unjustified reasoning to add more carspaces.

Our family, children and adults need more entertainment and fun venues. Sydney lacks so much in this area and is already struggling with many businesses and cafes closing down all around the city and inner west and this decision should not be made lightly.

We need to keep jobs going and keep Sydney thriving with fun locations such as Hypercart Racing and look upon what is actually beneficial for the community.

Keep Hypercart Racing open and thriving and dismiss the proposal for further carspaces.

Kind regards

Marie Isler

Hi there,
I'm concerned that council wants to revoke the lease of Hyper Karting at Moore Park for parking of all reasons!
This facility is very popular, brings a lot a secondary trade to the Fox precinct which otherwise wouldn't occur & brings a lot of enjoyment to a lot of people.
This facility also employs a lot of young people from the local area & it would be devastating for them if they became unemployed especially in this environment.
Hyper Kart is also a world class venue when compared against It's overseas peers.
This action if it goes ahead will be very disappointing & won't refect positively on council.
Regards
Andrew Thompson

Hi City of Sydney,

By closing down Hyper Karting you are enabling more people to be driving cars instead of taking public transport.

Isn't saving fuel, being good to the environment and taking the tram, train or bus instead what you encouraged us to do in these times?

Instead you want more parking spaces to more people can drive cars.

You blame it on people parking on the grass at the moment instead. Why don't you push back for more public transport instead? Free public transport to more concert and events so that the community will opt for this instead?

Hyperkarting gives joy to so many kids, families, tourists and friends who come to enjoy the EQ.

To whom it may concern,
It deeply saddens me to hear that Hyper Karting at the Entertainment Quarter may end up shutting down. I have loved my times at Hyper Karting and this would be a great loss to the Sydney community especially the Entertainment Quarter. We don't need more parking - we need places like Hyper Karting to go and have fun at. In all the years I have visited the Entertainment Quarter for various outings, events, times and days of the week I have never had an issue with parking - in fact there has always been heaps of parking available.
Getting rid of this business not only is a disservice to the people of Sydney but also impacts so many peoples lives beyond participants, current employees, other businesses at the Entertainment Quarter etc. I hope that you listen to the people as I know I am aligned with many in the community and that we can enjoy many more years of fun times at Hyper Karting at the Entertainment Quarter.

Best regards,

Rosa Milin

I am fine with go karting to continue in this area until 2028.
I hear that alternatively, there will be more car parking spaces here, which I am very much against.
I work at Centennial Park, and on the rare occasion I have to drive to work, it is painfully slow. I don't want to encourage other people to drive and park here. I would like less car lanes and less car parking spaces.

People should take the light rail to go karting.

Kind regards,

Imogen

Hi Team,

On febuary 8th 2026, I was at your venue to celebrate my partners birthday with all his friends and we truly had the best time.

It felt different to what everyone usually does and I have been reccomending to everyone go a try it as it was so much fun!!

Please don't close, I would love for my kids one day to be able to go there for their birthday parties and take my nieces and nephews.

In a world like today we need unique and excitement activities that include both adults and kids.

Regards
Isabella

To whom it may concern,

I write to formally request that you reconsider the current planning proposal and approve the extension of the permit permitting Hyperkarting to continue its operations. The closure of this facility would constitute a significant detriment to the local community, the economy, and the broader Moore Park precinct.

I respectfully ask that the following matters be given due consideration prior to any final determination:

Traffic and Parking Considerations
The suggestion that Hyperkarting contributes to ongoing issues of patrons parking on surrounding grassed areas is no longer reflective of the present circumstances. Should parking capacity remain a concern, it would be more appropriate to examine the limitations of the SCG parking facilities, which are highly restricted and not readily accessible to the general public.

More broadly, the traffic and parking challenges within the precinct are the result of systemic infrastructure and traffic management shortcomings, rather than the operations of Hyperkarting. As anyone attempting to leave the Allianz Stadium or SCG after major events will have observed, the Entertainment Quarter car park experiences severe congestion due to inefficient exit traffic sequencing, which permits only a minimal number of vehicles to depart at any given time. This regularly results in significant delays for patrons. The closure of Hyperkarting would not address, nor resolve, these underlying deficiencies.

Economic Impact and Employment
The refusal of the permit extension would result in the immediate loss of approximately 150 positions, mostly filled by young adults. Such an outcome would have a material and adverse impact on the local economy and on the individuals whose livelihoods depend on this employment. It is imperative that decisions of this nature give due weight to their broader economic consequences.

Impact on the Entertainment Quarter Precinct
The Entertainment Quarter is presently facing notable challenges in sustaining consistent visitor engagement and commercial activity. Hyperkarting serves as a key attraction within the precinct, generating regular foot traffic and supporting surrounding businesses. Its closure would not only remove a successful and well-utilised facility, but would also have a consequential negative effect on neighbouring enterprises that rely on this patronage.

In light of the above, I respectfully urge you to support the continuation of Hyperkarting's operations by approving the requested permit extension. Such a decision would safeguard employment, support the local economy, and contribute positively to the ongoing viability of the Moore Park precinct.

Yours faithfully,

Dr Alexandra Richardson

Hi,

We are avid users to Hyper Karting at Moore Park both for our kids aged 5 & 7 as well as adults. We live in Coogee & frequently visit Hyper Karting in Moore Park, probably 2-3x a month. It will be a big loss to the community if the space is turned in to more car parks, I think a better solution would be investing in better infrastructure & extending the tram line to EastGardens & even the airport as this would greatly reduce the need to drive & park no to mention a positive impact on emissions & the environment.

Thanks
Jade

Save hyperkarting. It’s a great small local business for families and date nights

From: Nick Ramsay [redacted]

Sent on: Thursday, April 9, 2026 7:51:42 PM

To: dasubmissions@cityofsydney.nsw.gov.au

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Ms Rickersey,

I am writing to lodge a formal submission in relation to **RD/2023/897/A** concerning the ongoing operation of**Hyper Karting Sydney** on Level 5 of the Entertainment Quarter car park at**116 Lang Road, Moore Park**.

I wish to express my strong opposition to the City of Sydney's decision to refuse the application to maintain the existing Level 5 karting centre.

Hyper Karting has become a major and genuinely successful attraction within the Entertainment Quarter since commencing operations. It has transformed what was previously underutilised rooftop parking space into a year-round destination that attracts families, young people, corporate groups, tourists, and the broader Sydney community. Its contribution to the vibrancy, economic activity and public life of Moore Park is significant and measurable.

Public reporting indicates the refusal is primarily based on the loss of approximately 298 parking spaces and the Council's intention to return the area to vehicle parking to offset the staged removal of grass parking in Moore Park. I respectfully submit that this reasoning does not adequately reflect current transport behaviour, parking utilisation, or the City of Sydney's own strategic objectives.

In particular,

- The Entertainment Quarter already benefits from strong public transport access, including the Moore Park light rail, bus services and pedestrian connectivity to major venues.
- Parking demand at the Entertainment Quarter is highly event-driven, with the rooftop level historically underutilised outside major stadium events.
- Significant new parking supply is being delivered nearby, including large underground parking facilities, which will mitigate future reductions in surface and grass parking.
- The City of Sydney has consistently articulated a vision of reducing car dependency, encouraging activation, and prioritising people-focused uses over private vehicle storage.

Removing a proven, high-performing entertainment venue in order to reinstate parking appears inconsistent with these objectives.

Beyond planning theory, the real-world impacts of this decision are substantial. Hyper Karting employs more than 150 people (as reported in March 2026 media coverage), many of them young workers gaining their first employment experience. The venue supports local hospitality and retail businesses and contributes to Moore Park functioning as an active destination outside of major event days. Its closure would remove a unique, inclusive and weather-independent activity with no clear public benefit gained in return.

Importantly, Hyper Karting was established with Council approval and has operated without material amenity impacts on surrounding land uses. The facility is electric, enclosed, and subject to operational controls that have demonstrably worked. The proposal does not seek to expand the footprint or intensify impacts beyond what the community has already embraced.

I respectfully request that the City of Sydney reconsider its position, or at minimum give further weight to

- the demonstrated social and economic benefits,

- the low-impact adaptive reuse of existing infrastructure,
- the availability of alternative parking supply,
- and the long-term value of maintaining Moore Park as an active, diverse and people-focused precinct.

Thank you for the opportunity to make this submission and for your consideration.

Kind regards,
Nick Ramsay

To whom it may concern,

I'm writing to express my concern about the potential closure of Hyper Karting at Moore Park.

This venue is a unique recreational facility that provides entertainment, jobs, and a safe environment for people to engage in motorsport. Replacing it with additional car parking would be a significant loss to the local community and the broader Sydney area.

I strongly urge you to consider the community value of Hyper Karting and advocate for its preservation.

Thank you for your time and consideration.

Cheers,
Sinan

Hey Shannon,

I wanted to voice my objection to the idea of shutting down HyperKarting.

I live in Surrey Hills, work in the city, and make regular use of Centennial Park, Moore Park, the stadium precinct and Entertainment Quarter. I also go to HyperKarting twice per year, with work teams or friends.

In an Entertainment Quarter which is otherwise a dead zone for entertainment, HyperKarting is a standout experience. They provide a unique activity that lots of people can enjoy, invested significantly to build a business, and bring life to the precinct compared to many of the other “attractions” there.

Particularly given the reopening of the stadium car park in the near term, and the major investment in public transport options, it seems unnecessary to bring back a small number of car parks. Better cycle infrastructure and more co-ordinated bike share parking would be a much better option!

Thanks for taking the time to read my input.
Will

We need more carpark spots 296 car spots if all full is space for another 1300-1400 people which for sports games, concerts and all other attractions held around this area would be very handy for a lot of different people more so than a go kart track in which I love going to.

To whom it may concern,

I am emailing you today in regards to the decision made to remove hyper karting, in replace of a new car park level.

This decision is entirely unjust, and damaging to the sydney community.
Hyper karting is a vital part of the sydney community.
In a world where cost of living is hitting us all hard. The removal of the hyper karting facility not only removes job opportunities, but also a night of fun for many such as myself trying to relax from daily stressors.

I implore you to reconsider your decision to replace hyper karting with another car park level, rather focus on what makes sydney so fun.

Kind regards,
Harriet.

I am writing to express my profound disappointment regarding the decision to close HyperKarting. This establishment has consistently provided an exceptional and innovative recreational experience for the residents of Sydney. It is concerning to observe a trend where our city appears to be increasingly catering to an older demographic with potentially antiquated perspectives, a stark contrast to the progressive environment fostered in Melbourne. This development is deeply regrettable.

Dear City of Sydney Council,

I am writing to express my strong concern regarding the proposed closure of the Moore Park Hyper Karting facility to accommodate additional parking spaces.

This decision risks removing a unique and highly valued recreational venue that serves not only as a source of entertainment, but also as a safe, structured environment for young people and motorsport enthusiasts to engage in their passion. Facilities like this are rare within Sydney, and their value to the community extends far beyond the physical space they occupy.

Moore Park Hyper Karting provides a controlled alternative to unsafe street driving, offering individuals a place to develop skills, socialise, and participate in motorsport in a responsible setting. Removing such a facility may unintentionally push these activities into less safe environments, which would be counterproductive to public safety goals.

Additionally, the cultural and economic contributions of the venue should be considered. It attracts visitors, supports local employment, and contributes to Sydney's broader identity as a vibrant and diverse city that supports youth engagement and recreational innovation.

While I understand the need to address parking demands, replacing a long-standing community asset for approximately 150 parking spaces presents a significant trade-off. I respectfully urge the Council to explore alternative solutions that balance infrastructure needs with the preservation of important recreational facilities.

I ask that you reconsider this proposal and engage with the community to find a solution that does not result in the permanent loss of Moore Park Hyper Karting.

Thank you for your time and consideration.

Kind regards,
Sydney resident

You are quite possibly the worst council in Australia. Your council has single handedly devastated the Sydney economy, night life and recreational facilities. And are looking to do so again at 116 Lang Road.

You continue to impact business, community and individuals with your blatant disregard for what the public actually wants - a prosperous city to enjoy recreational activities in which make the city liveable.

Stop another one of your stupid, corrupt and anti social developments. Keep what is there and stop fucking with Sydney siders who pay your bills.

Dear City of Sydney,

Please do not close down Moore Park Hyperkarting, the small gain from the extra parking is minimal compared to the indescribable joy the venue brings so many people. It is the cheapest option for karting in Sydney and has great access from public transport and to local students.

Not only that, but being an indoor, meticulously regulated and monitored karting track, it is much safer than other alternatives, my younger sister is super interested in trying karting but the outdoor options are quite intense to start off with and have a lot more risk, whereas hyperkarting is a great introduction for enthusiasts of any level or experience with peace of mind for parents, older siblings and carers.

The value gained from this venue is irreplaceable and such a large part of the karting/racing community and those interested in giving it a go.

Kind Regards,
Ryan, Self-Appointed Ambassador of Hyperkarting

Dear Council Members and Committee

First I would like to start off by acknowledging that there have been many emails sent through, which there should be, so I am honoured if you are reading mine to begin with.

HyperKarting is a place I've been able to connect with friends, family, and even sprout new relationships. I've had parties there, I've met amazing people, and I've developed so many connections. And if it wasn't for Hyperkarting, my first date with my girlfriend would have never been as good as it was. We went to Hyperkarting expecting to just have a fun, enjoyable time, but in fact it was so much richer than that. Every day we catch up, we hold so many inside jokes from that first date, funny crashes, competitions, and it was a great way to break the ice. Even if that meant crashing into her just a few times.

HyperKarting holds an environment that is impossible to capture anywhere else, the staff are wonderful and it's so clear that they are enjoying every second of their job, which develops the environment even more. I remember one of the most recent times a staff member came up to me and offered me a second race for free as he noticed that I was frustrated by the other drivers in my heat. If that doesn't demonstrate their ability to go above and beyond, and serve the community, I don't know what else does. And I definitely don't think a couple car spots that likely won't even be used will ever capture what HyperKarting can.

What is a parking spot worth, if there is no reason to park there in the first place.

If you have read this far, I do appreciate it, but I hope that you can do more than just read, and take the right action that our community is fighting to seek.

Thank you.

To the City of Sydney,

I'm writing to express my concern about the plan to close Hyper Karting to create more parking spaces.

Having previously worked there, I saw how much it meant to people. It wasn't just somewhere to go karting — it was a place where friends, families, and coworkers came together and actually enjoyed spending time. It also provided jobs and added something different to the local area.

It's hard to see how replacing a popular, social venue with more parking benefits the community in the same way. Spaces like Hyper Karting give an area its energy and character, and once they're gone, they're not easily replaced.

I hope you'll reconsider and look at other options that don't involve losing something that so many people value.

Yours sincerely,

Andrew Kelly.

To Whom It May Concern,

I am writing to express my strong opposition to the proposed closure of the go-karting facility at Moorpark in order to accommodate additional car parking spaces.

The Moorpark go-karting venue is a valuable recreational asset that serves the local community, particularly young people and families. It provides a safe, controlled environment for motorsport activities, encouraging skill development, social interaction, and engagement in a positive outdoor activity. Removing such a facility would result in the loss of an important community space that promotes both physical activity and responsible driving awareness.

Furthermore, the decision to replace an active recreational facility with car parking prioritizes convenience over community wellbeing. While parking demand is an understandable concern, it should not come at the expense of established and widely used amenities that contribute to the character and vibrancy of the area. Alternative parking solutions should be explored that do not require sacrificing community infrastructure.

The go-karting track also likely contributes to the local economy by attracting visitors and supporting small businesses in the surrounding area. Its removal could have a negative economic impact, reducing foot traffic and diminishing the appeal of Moorpark as a destination.

In addition, facilities like this are increasingly rare, and once removed, are unlikely to be replaced. Preserving such spaces demonstrates a commitment to maintaining a balanced community that values recreation, youth engagement, and diverse land use.

I respectfully urge the council to reconsider this proposal and explore alternative solutions that address parking needs without eliminating a valued community facility.

Thank you for your time and consideration.

Hi there,

I am writing this email to ask the council to allow hyper karting to continue creating fun experiences for people all over Sydney.

Moore park is such a hub of entertainment and hyper karting is a unique experience that many people enjoy, and have been doing so for years.

Sydney needs more community and entertainment spaces, not parking zones.

Thank you,
Isha

Hi City of Sydney,

Please do not replace the hyper karting venue with more parking lots. This place holds a special place in the hearts of many locals and is one of the key attractions which brings foot traffic to the area.

In fact, the focus should be retaining and increasing traffic into the entertainment quarter. I've visited on multiple occasions for hyper karting, concerts, and corporate events (for bowling and other activities) and every single time, the parking lots and overall space is eerily empty. We should be trying to attract more people to visit through more activities and events, not through removing them!

Also, I've noticed that almost everyone who travels to the entertainment quarter uses public transport because road traffic is a nightmare there. Sydney public transport is one of the best in the world, despite all the complaints by entitled locals, so let's use it to it's fullest potential. Let's keep encouraging people to use the light rail and bus.

So please, if your interest lies in bringing the community together and supporting local businesses, keep the hyper karting venue.

Kind regards,
Sandra, a lower north shore resident who frequents the eastern suburbs for the entertainment venues, fantastic food options and beautiful beaches

To Whom it May Concern,

There is no need to shut down a place where people come together and have a go a racing. You want to keep people off the streets illegally racing but close down tracks where it's legal. It's a disgrace to shut down such a facility just for the sake of a couple extra parking spots. Please reconsider.

Kind Regards
-Tom

To the City of Sydney Council,

I am writing to formally submit my support for the continued operation of Hyper Karting at Moore Park.

As a regular visitor, I believe Hyper Karting provides a unique and vital recreational space for the Sydney community. I enjoy the facility because it offers an accessible, high-tech, and safe environment for all ages to engage in competitive sport. I've had several memorable experiences here, specifically racing with my friend after our formal. It serves as a major drawcard for the Moore Park precinct, bringing people together and supporting local vitality. Their commitment to electric karting shows a forward-thinking approach to sustainable entertainment that I believe the city should encourage.

Hyper Karting has had a positive impact on my social life and provides a healthy outlet for my friends and family. Losing this venue would be a significant loss to the diversity of entertainment options in the area.

I strongly urge the Council to approve this application and allow Hyper Karting to remain open.

Kind regards,

Dear Council and Shannon Rickersey,

I am writing to express my strong support for Hyper Karting and to ask that it be allowed to remain open.

As a young father of two daughters, places like Hyper Karting are incredibly important to me and my family. It's not always easy to find activities that are exciting, safe, and genuinely enjoyable for both kids and adults. But Hyper Karting is one of those rare places that delivers all of that.

My daughters absolutely love going there. It gives us a chance to spend real quality time together, doing something fun and active, and creating memories that we genuinely look forward to repeating. In a world where so much entertainment is screen-based, having a place like this that gets people out, engaged, and interacting is hugely valuable.

What also stands out is that there really isn't anything else like Hyper Karting around Sydney. It offers a unique experience that you simply can't replace with other venues. Losing it would mean losing something special not just for my family, but for many others across the community.

Beyond our personal experience, it's clear that Hyper Karting plays an important role in bringing people together, supporting local jobs, and adding to the vibrancy of the area. It would be a real loss to see it go.

I strongly encourage Council to recognise its value and support its continued operation.

Thank you for your time and consideration.

Kind regards,

Alex Novotni

Dear City of Sydney Council,

I am writing to express my concern regarding the proposal to remove HyperKart at Moore Park to make way for additional car parking.
From my experience, the existing car park in the area is rarely at full capacity. Expanding parking in place of a well-utilised recreational facility does not appear to address a genuine need. Instead, it risks replacing a vibrant, community-focused attraction with infrastructure that may remain underused.
HyperKart provides a unique and engaging activity for families, young people, and visitors, contributing to the overall appeal and activation of Moore Park. It encourages people to spend time in the precinct, which in turn supports surrounding businesses and enhances the social atmosphere of the area.
Removing such an attraction for additional parking, particularly when current capacity is sufficient, would be a step backwards in creating lively, people-focused urban spaces. I encourage the Council to prioritise maintaining and enhancing recreational and community amenities rather than increasing car dependency where it is not clearly needed.
I respectfully ask that you reconsider this proposal and retain HyperKart at Moore Park.
Thank you for your time and consideration.

Kind regards,
Yasas

Hi I'm Samuel Clarke,
I haven't been to hypercarting very much however when I did it was a great experience. Hearing it is at risk of shutting down breaks my heart as I said I barely went but it is such a core memory of happiness and fun I hate to see it on the risk of shutting down. Additionally being under the age of 18 there isn't much to do in Sydney, hypercarting however is a great option for groups and even by yourself and kid the competitive aspect brings a level of fun you just can't get doing anything else in Sydney.
This is why hypercarting must stay!!!!

Dear Council DA Submissions Team,

We love Hypercarting and the entertainment it offers the community of Sydney. It's perfectly placed on the Entertainment Quarter grounds and it would be remiss of the City of Sydney to partake in its removal.

Kind regards,

Lutfi Hady
Director

Dear council,
The HyperKarting at moore park has been one of the greatest things to happen to the area. I remember going when it first opened 5 years ago. It was a small track with a few employees. And now, i'm amazed at how far they have come. They are always booked out, so much so that me and my friends wake up at 6am on saturdays to get the 7am races. My many races at hyperkarting over the last few years have really brought me closer to the friends and family around me, and has provided an awesome experience that sydney for the most part cannot provide. I genuinely thought my mate was lying when he said the council is going to remove this area for a few car parks. Then I did a bit of digging and found out it was true. The first thing i did was tell my dad and friends and we genuinely just started laughing. Just for one SINGLE level of car parks? Guys, come on you can't be serious. The positive effect this place has on the community and will continue to have for years (hopefully) is immense compared to the benefit of a few parks. I truly am going to miss hyperkarting at Moore park.

Hi

Why is the Hyper Karting ending?

Its a great place to go - which I use all the time with my friends. Otherwise this center/ area is dying & actually needs places like this to attract people.

Please advise??

Thanks
Jamee

To whom it may concern,

Dont close hyperkart.
In the last decade we've seen the erasure of night-life and festivals in this city. Teens have little activities as it is and are instead taking over the streets and footpaths on electric bikes.
Hyperkart carters to all ages in all weather conditions, dont take it away this multigenerational activity.
My child cant wait for his birthday party there.

Afternoon,

I am writing to express my strong support for Hyper Karting and to formally urge you not to close it down.

Hyper Karting is a vital part of our community, providing a unique recreational space that brings people together. It serves as a significant attraction for both locals and visitors, contributing positively to the local economy and the vibrant culture of our area. The facility offers a safe, professional, and exciting environment for enthusiasts of all ages to enjoy.

Closing this establishment would be a great loss. Not only would it remove a popular venue for social gatherings, team-building events, and family outings, but it would also impact the staff and the various partners who rely on its continued operation. Hyper Karting has consistently proven itself to be a well-managed and valued asset to the Sydney area.

I hope you will reconsider any plans to close the venue and instead look for ways to ensure its long-term future.

Thank you for your time and for considering my feedback on this important matter.

Kind Regards,
Dany Alkasrany

Hyper carting is a key community space and a central piece of Sydney's social life.
With the increasingly globalised world of today, locals young and old need spaces to share laughter and love.

We need to keep hyper carting open to reduce potential antisocial behaviour that does arise in disconnected communities as government data has shown countless times across the board and NOT build a god awful, community KILLING, car park in its place.

Have a good reflection and thank you for reading.

Lots of love,
A taxpayer named Abby.

To whom it may concern

I'd like to express my support for the appeal of the decision to refuse an extension of the permit to run hypercarting.

Hyperkarting has completely reinvigorated the entertainment quarter. I've been multiple times and it is a lot of fun. It employs 150 people and uses an otherwise dead space. It attracts patrons to the precinct.

It makes no sense to turn this space back into an unused car park.

As a resident of the city of Sydney I am requesting you grant the extension!

Thanks

Kind regards

Eddie Pegoraro

Dear City of Sydney,

I am writing to strongly urge the City of Sydney Council to reconsider the decision to reclaim the top level of the Entertainment Quarter (EQ) car park (currently the site of Hyperkarting) for the use of private vehicle parking. As a lifelong City of Sydney resident and landscape architect, I am deeply invested in the City's vision for a pedestrian-prioritised, 30-minute city. However, removing a thriving, community-focused business to create dormant car parking directly contradicts this progressive ethos.

The Entertainment Quarter is currently struggling to maintain its status as a vibrant cultural hub. In this dying public realm, Hyperkarting stands out as one of the few genuinely dynamic attractions keeping the precinct alive. It acts as a vital social anchor, drawing families, friends, and tourists, which in turn injects much-needed foot traffic and economic stimulus into the surrounding local businesses.

Replacing this activated space with parking is fundamentally flawed from both an urban design and a logistical standpoint:

• Dormant Infrastructure: Outside of major sporting events, the top levels of the EQ car park sit vacant. Reclaiming this space means sacrificing a 7-day-a-week economic and social driver for concrete that will sit empty 99% of the time.

• Traffic Chaos: Funnelling thousands of game-day attendees into this car park will inevitably result in severe localised congestion. With an entrance limited to three lanes and an exit bottlenecked to just two, this decision guarantees traffic gridlock rather than efficient movement. It also will cause further traffic congestion on the already crowded Cleveland St during peak periods.

• Undermining Public Transport Investment: The NSW Government has invested $3.1 billion into the CBD and South East Light Rail to safely and efficiently move large groups of people directly into the stadium precinct. Reintroducing high-capacity parking directly competes with this infrastructure, incentivising private vehicle use and deterring people from utilising the mass transit network built explicitly for this purpose.

• Reversing Pedestrian Connectivity: The City of Sydney recently directed a $220 million contribution toward the transformation of the light rail corridor and the Devonshire Street upgrades. This was a significant step toward linking Central Station and the stadium precinct with a strong, pedestrian-friendly active transport corridor. Prioritising car parking takes a massive step backwards, compromising the "30-minute city" model these funds were meant to achieve.

The City of Sydney has consistently championed the reallocation of space away from cars to create a more livable, activated, and sustainable environment. Sacrificing a successful, high-amenity destination like Hyperkarting to warehouse empty vehicles flies in the face of the Sustainable Sydney 2030–2050 vision.

I respectfully ask that the City of Sydney and relevant stakeholders reconsider this decision, and choose to support the businesses and the urban design principles that actually bring our public spaces to life.

Sincerely,

Miles Agius

City of Sydney Resident

Landscape Architect

Hi,

I'm a local resident writing to oppose the closure of Hyper Karting. It's one of the few places in our area where people of all ages can get together and have a genuinely great time — the battle karts in particular are an absolute blast and keep us coming back.

Replacing that with more car parking would be a real loss for our community. Please reconsider.

Kind regards,
Sogol Zarsav

To whom it may concern,

I vehemently oppose the decision that's been made to close down hyperkarting in Moore Park.

As someone who has attended this facility multiple times and is classified under their expert racer category, I have experienced firsthand the value it brings.

This facility is a unique and valuable recreational asset that offers an experience not easily found elsewhere in Sydney. It attracts a wide range of visitors, contributes to the local economy, and provides a safe, engaging environment for both casual visitors and enthusiasts.

Importantly, Hyperkarting also supports local employment. The closure of this business will directly impact staff who rely on these jobs, while also affecting surrounding businesses that benefit from the increased foot traffic the venue brings. At a time when supporting local jobs and small businesses should be a priority, this decision moves in the opposite direction.

The reasoning behind replacing it with additional parking is difficult to understand, particularly given that the facility already exists within a multi-level car park that is not consistently at full capacity.

Removing an active, revenue-generating and community-oriented business to create more parking—especially on an upper level—does not appear to be an efficient or community-focused use of space.

Beyond its entertainment value, Hyperkarting brings life and activity to the precinct. Decisions like this risk diminishing the vibrancy of Moore Park and replacing it with underutilised infrastructure.

I strongly urge the council to reconsider this decision and explore alternative solutions that preserve existing businesses, protect local jobs, and better serve the community.

Please do better City of Sydney, our city is running out of enjoyable things to do!

Regards,
Anna

Dear City of Sydney Development Assessment Team,

I am writing to express my concern regarding the proposed closure of Hyper Karting at the Entertainment Quarter.

I have been involved with Hyper Karting since day one and have previously worked there, so I have seen firsthand the value it brings. It is a unique attraction in Sydney that supports jobs, draws consistent visitation, and contributes to the vibrancy of the Moore Park precinct.

The current decision to shut it down, largely due to planning and parking constraints, overlooks the significant economic and social benefits the venue provides. Hyper Karting offers a safe, well-run environment and creates meaningful employment opportunities, particularly for younger staff.

Closing a successful and well-supported business like this would be a loss for Sydney's entertainment offering and the local community. I strongly encourage the City of Sydney to reconsider and work with the operators to find a solution that allows it to remain open.

Kind Regards,
Nick

Dear Council,
I am writing as a local resident to express my concern about the potential closure of Hyper Karting.
This venue plays a genuine role in our community — it brings people together in a fun way, supports local employment, and provides recreational space that our area benefits from. Replacing it with additional car parking, in a facility that already holds 1,700 spaces and is rarely at capacity, does not seem like a sound use of that land.

I respectfully ask that the Council reconsider this decision and prioritise the long-term wellbeing of our community over expanded parking.

Thank you for your time.

Hi, I recently became aware of plans to get rid of hyper karting at Sydney Olympic park in favour of more car spaces.

I'm a regular visitor to the EQ and opposed to this proposal of removing hyperkarting.

The entertainment quarter needs entertainment and hyperkarting should be kept for this reason. It's a unique entertainment offering in a convenient central Sydney location. It's great for children and adults alike and I have many fond memories of hens parties and friends gathering for a race and some games.

Whenever I've driven to the EQ, I haven't experienced any difficulties in finding parking whatsoever. In fact, there is always an abundance of parking, even when there are events nearby.

It would not be in the community's interest to get rid of a business that brings so much life and fun to the precinct in favour of more space for people to park cars. Especially when many people already use and are encouraged to use public transport to get to the area and there is already an abundance of parking available.

Thanks for taking the time to read my submission.

Dear Shannon Rickersey,
While the idea of removing the Hyperkarts and reinstating the car parking spaces is the “low hanging fruit” to cater to the growing need for parking spaces for the CBD, it will also take away a very unique entertainment function which does not exist in the inner city area. I have fond memories of going there as do my sons. What I really like about Hyper Kart (other than the experience to race in a safe area) is that the staff are not only professional but they’re quite creative as they frequently change the track layouts to mirror real life racing car circuits from across the world. This is quite unique as other race kart businesses do not do this.
Please come up with an alternative to find additional car parking spaces and retain the Hyper Kart business. It really complements the Entertainment Quarter.

Thank you for your kind attention,

Daniel Goodyear

Dear City of Sydney Planning Department,

I am writing to express my concern regarding the City's decision not to grant an extension of the lease for Hyper Karting at the Moore Park car park. I believe this outcome risks losing a unique and valuable recreational asset that contributes meaningfully to Sydney's culture and vibrancy.

From a broader planning perspective, it seems inconsistent that car parking requirements are often reduced or removed in new residential developments under the vision of a public transport-focused city, while at the same time existing parking and car-based recreational uses are being displaced. This approach can place increased pressure on surrounding street and commercial parking, and does not fully reflect the ongoing importance of personal transport within a growing city.

While public transport investment is critical, the need for well-planned, purpose-built parking infrastructure remains. There is an opportunity to better integrate parking within new developments in a way that supports both residents and the wider public, rather than shifting the burden onto existing facilities or removing established uses.

In this context, I suggest the City consider a more structured mechanism to secure public parking supply through the development process. For example, where a developer seeks approval for reduced or nil onsite parking, the City could require the delivery of basement parking in lieu of those spaces, or facilitate it through infrastructure contributions as part of a Voluntary Planning Agreement (VPA). These basement levels could then be dedicated for public use, with the City retaining ownership and operation, or leasing the asset similar to how other VPA works such as internal roads and public infrastructure are delivered and managed. This would provide a long-term, scalable solution to parking demand while

aligning with broader planning objectives.

Hyper Karting, in particular, provides a strong drawcard for the Moore Park precinct. It is widely used for social and team-building activities I, along with friends and colleagues, regularly attend and its removal would represent a significant loss to the area for what appears to be a relatively modest gain in parking capacity.

I also note that parts of the existing structure, such as the open-air upper level, appear underutilised. There may be opportunities to activate this space potentially through complementary uses such as hospitality or entertainment offerings to further enhance the precinct's appeal and economic activity.

I appreciate that balancing competing planning priorities is complex. However, I encourage the City to reconsider this decision or explore alternative solutions that retain Hyper Karting while addressing parking and congestion challenges in a more strategic, long-term manner.

Thank you for your time and consideration. I would welcome the opportunity to hear your thoughts on this matter.

Kind regards,

Brendan monagle

Dear City of Sydney,

I am writing to express my concern regarding the potential reclamation of space currently occupied by Hyperkarting in Moore Park.

While I understand the need to manage event parking and traffic, Hyperkarting is a valued local business that serves thousands of families. For my family, it holds significant sentimental value; it was one of the first places we visited after moving back to Sydney from abroad, and it remains a primary venue for my husband and son to spend quality time together and for celebrating birthdays.

Given that there are no other go-karting facilities within a 45-minute drive of our home north of the harbour, this venue is a unique and essential recreational asset for the community.

I respectfully petition you to reconsider reclaiming this space so that families like mine can continue to enjoy it for years to come.

Regards,

Laura Galimam

Hey,

Just sending this email to let you know that this is a big mistake, this place is an icon and adding an extra level of parking isn't going to stop idiot nsw drivers from not finding a spot…

Please consider this my formal submission against this decision.

Kind regards
Alec G

Good evening,

I thought closing hyper karting and turning the level back into car parking was an April fools joke when I first heard about it. Apparently it is not.

The venue has brought my family so much joy over the last few years and I'm sure for the 500000 other people who have used it they can say the same. You are prioritising what will be an empty carpark most of the time for something that provides genuine entertainment and actually gets people to the entertainment quarter.

I thought the light rail was built to get people to and from the entertainment quarter, so why does this business need to shut down if there's already a mechanism in place to get people to and from the area during major events? Do you really believe that an extra 298 carparks will make any difference? The carpark is already one of the worst to use for major events and the area is a nightmare to get to and to drive out of. You should be encouraging use of the light rail instead of encouraging more cars into the area.

This is genuinely one of the dumbest ideas of all time. Shame on whoever signs this off if it goes ahead.

Kind regards,
Laurent

Hey Shannon

Me and the boys have Been going to hyper kart at Moore park twice every year on Eid, it’s become a tradition for me and the lads for at least 3 years now and the council wants to shut down a successful small business for what? Car spots? That’s pretty lame, don’t ruin Eid guys let the racers have fun too!

Good evening,

I am very disappointed to hear the potential of Hyper Karting being demolished and replaced by extra parking.

I had the pleasure of going to Hyper Karting last year for a bucks party and left with very fond memories. It is truly a place that offers something you can't get anywhere else in Sydney.

To be able to do Go Karting in the heart of a city CBD is quite special. It would be a big mistake and a backwards step for Sydney to take this away from the community.

Please save Hyper Karting.

Thanks,
Jack Jeyaston

Hello,

I have been going to Hyperkarting for the last couple of years and am devastated to learn you plan to get rid of this for car parking?!

Have you been to the entertainment quarter? There is always parking available in that parking complex except for major events which is a nightmare to drive to the events anyway.

The last thing you should be doing is encouraging more people to drive when major events there the road is always gridlock traffic.

It is such a waste to get rid of something that provides entertainment for all ages. Young children and a bit of fun for us adults late at night when there is nothing else like that or no entertainment open late at night like that.

Please don’t get rid of something that brings so much happiness for car parking!!! And not to mention cutting so many jobs.

Encourage the use of public transport for major events!

You should see all the posts online the community is upset over this proposed change.

So many other businesses will suffer at entertainment quarter if you remove hyperkarts it’s one of the main attractions there.

If you want to discuss it further I would be happy to

[redacted]

Please don't shut down hyperkarting. This is the only venue in the eastern suburbs which offers karting. The rest are miles away in the west.

The staff are helpful and friendly. Their loss will certainly be felt. Construct a multi level car park outside the EQ on empty land near the light rail stops instead

To whom this may concern ,

My name is Yannick and I am a resident living on 9 Crystal Street. It genuinely saddens me to hear that Hyper Karting is at risk of being closed down by the city and be replaced by additional car parking.

I have been to Hyper Karting a two times with friends and it was great fun. I think having a great selection of local entertain options is very important to the vitality of the neighbourhood and it brings more people and businesses to the neighbourhood too. The last thing we need is more car parking.

I would greatly appreciate it the decision to replace Hyper Karting could be reconsidered.

Regards,
Yannick

City of Sydney,

Forcing the closure of this well-loved and exceptionally well-operated business would be a significant mistake by the City of Sydney Council. This venue offers a truly unique experience and has become an important part of Sydney's entertainment landscape.

The negative impact would extend well beyond this single business. Surrounding businesses within the Entertainment Quarter rely on the activity and foot traffic it generates, and its closure would cause unnecessary and avoidable harm to the broader precinct.

The existing Light Rail network already provides an ideal solution for access to this location. Rather than removing destinations that attracts people to the area, further investment in promoting public transport use would deliver far greater benefits to the community and the environment than discouraging successful, compliant businesses.

Destroying a business like this represents a step backwards for the City of Sydney. At a time when venues such as Hyperkarting should be fully supported for the role they play in bringing people together, fostering economic activity, and enhancing the cultural life of the city, it would be deeply disappointing and frankly unacceptable to see council take action that undermines these outcomes.

I respectfully request that the City of Sydney Council refuse any proposal that would result in the closure of this venue and instead support its continued operation at the Entertainment Quarter. Protecting successful, community-focused businesses like this is essential to sustaining a vibrant local economy and a connected, forward-looking city.

Kind regards,

Henry Naylor | Director

This is the best wet weather (and great weather) activity in Sydney. The eastern suburbs lacks so many fun activities that are in other areas (mostly due to cost of land). How dare you remove this for the sake of car spots…. At other times, when it suits you, your council couldn't care less about cars!

Hyperkarting Moore Park is a thriving hub, one of only venues welcoming all drivers - young to old, new to experienced - to take part in races at their venue. Taking this away means 100+ jobs lost and more than 100,000 hobbies, pursuits and interests from regular Sydney siders.

Adding more car spaces is an unjustified reason to closing down the venue, as the car park it is situated in never reaches full capacity.

The venue has inspired many drivers including to stay passionate about racing, thanks to it being an all welcoming venue where I could race with my friends and set new records.

Closing down Hyperkarting is not a good idea.

Good evening,

I was disappointed to learn today of the proposed closure of Hyper Karting at Moore Park, one of the major attractions and drawcards of the Entertainment Quarter.

Without Hyper Karting, all those empty parking spots on the extra floor probably won't be filled anyway.

It is one of only a handful of totally family friendly activities at the site while also catering to a passionate community of workers and patrons that would be adversely impacted by its closure. I urge council to reconsider this proposal.

Yours sincerely,
Nicholas Zengoski

Dear Shannon

I would like to add my support to hyper karting remaining open.

The venue provides a fun outlet for sydneysiders and is an important recreational facility for the whole city. I have friends who recently used hyper karting for a birthday party and really enjoyed it. It's also a great employer of young people who **desperately need** jobs.

Please do not make the mistake of converting to car parks when Sydney is relying more on public transportation through the metro, Uber and driving less.

Please contact me if you have any questions.

Kind regards,
Lee Wright

Hi City of Sydney

I cannot believe I'm writing this because I didn't think of myself as into "hyper carting" or requiring to explain the importance of amenities but I'm writing to support the continued opening of hyper cart.

I am a parent of two primary school girls who are under 145cm. This makes them ineligible for most carnival/ go karting in nsw. For example Mario cart down at Moore park they can't access due to height restrictions.

Hypercart is the only place accessible to them to try out some form of go-karting.

We went this week and on the intermediate track there were a lot of girls racing. The one way track is a safe managed introduction to driving - steering, breaking etc. I was so chuffed seeing girls participating. Whereas Mario kart downstairs was just a bunch of boys hooning around an unregulated track.

I also have a neurodivergent child and the joy on her face being included and being able to race individually was priceless.

The staff were lovely. There's lots of opportunities for the city of Sydney to consider using their tracks for hazard perception simulation driving for kids. When I was a kid we learnt if go karts and they would place oil of the track and teach us how to break (this is before abs breaks).. think about potential partnerships is necessary to keep them open.

Kind regards

Rezana

To Whom it May Concern

I am writing as a loyal customer and strong supporter of Hyperkarting Sydney to express my deep concern about the possibility of the venue closing.

Hyperkarting Sydney is far more than an entertainment business. It is a unique motorsport facility that brings together families, friends, corporate teams, and motorsport enthusiasts from across Sydney and beyond. It provides jobs, supports the local economy, and offers a safe, inclusive, and exciting environment that simply cannot be replaced.

The venue plays a vital role in:

- Supporting local employment and skills development
- Attracting visitors and tourism to the area
- Providing a positive recreational outlet for young people and adults
- Strengthening the local community through events, leagues, and group activities

The loss of Hyperkarting Sydney would be a significant setback for customers, staff, and the broader community who rely on and value what it offers.

I respectfully urge you to explore **all possible alternatives** before allowing the business to close—whether that involves revised lease arrangements, temporary financial relief, community-backed initiatives, partnerships, or other creative solutions. I am confident that many in the community, myself included, would be willing to support efforts that help secure the venue's future.

Please consider the long-term value Hyperkarting Sydney brings, not just financially but socially and culturally. Saving this venue would mean preserving a much-loved experience and an important local asset.

Thank you for your time and consideration. I sincerely hope a positive path forward can be found.

Kind regards,

Shinta Hapsari

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To Shannon,

I am writing to express my strong opposition to the proposed closure of Hyper Karting Sydney and its conversion into a parking facility.
Hyper Karting Sydney is far more than just a traditional venue, it is a vibrant community hub that provides entertainment, skill development, and a unique social experience for people of all ages. It offers a safe and exciting environment where families, friends, and enthusiasts can come together, fostering a sense of community that cannot simply be replaced by a parking lot.
The venue also contributes to the local economy by creating jobs, attracting visitors, and supporting nearby businesses. Its presence adds character and diversity to the area, making it a destination rather than just another utilitarian space.
Replacing such a dynamic and engaging facility with a parking lot would represent a significant loss to the community. While infrastructure needs are important, they should not come at the expense of spaces that bring people together, promote recreation, and enhance quality of life.
I respectfully urge you to reconsider this decision and explore alternative solutions that preserve Hyper Karting Sydney while addressing any logistical or development concerns. Protecting spaces like this ensures that our community remains lively, inclusive, and forward-thinking.
Thank you for taking the time to consider my concerns.

Yours sincerely,
Dominic D'Souza

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To Shannon Rickersey,

I am writing to express my support for Hyper Karting's continued operation at the Moore Park Entertainment Quarter.

While I have not yet had the opportunity to visit, it is a venue I have been genuinely interested in experiencing. From what I understand, it offers a unique recreational activity that adds real value to the area and contributes to Sydney's broader entertainment offering.

As a small business owner, I am particularly supportive of businesses like this that create jobs, activate underutilised spaces, and provide engaging experiences for locals and visitors alike. It seems counterintuitive to restrict an established and functioning business in favour of additional parking that may only be required during a limited number of major events each year. This is especially the case given the significant investment in public transport infrastructure in the Moore Park and surrounding areas, which is designed to reduce reliance on private vehicles and improve access without the need for additional parking capacity.

Hyper Karting appears to be making productive use of space that would otherwise sit idle most of the time. Supporting this type of operation aligns with fostering a vibrant local economy and enhancing the usability of existing infrastructure.

I respectfully ask that you take these considerations into account when reviewing the proposal, and support a pathway that allows Hyper Karting to continue operating.

Kind Regards

Samuel Andersen

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

I am writing to express my disappointment in the decision not to renew the Development Application that allows karting on the top floor of the car parking at 116 Lang Road, Moore Park.

This would be a net negative for the community and Sydney as a whole. The space is a great outlet and activation in its current state as an electric go kart track.

I suggest the city and relevant planning authorities reconsider the implications of this decision and I hope common sense prevails allowing the facility to remain open.

Kind regards,
Andrei Gudas

Hi there,

I’m writing in for my support to keep hyper karting open at Moore park. I believe Sydney should be a city that looks to add and keep enriching and entertaining opportunities for the residents and visitors of this city. The city should be focused on what adds value to the residents, another level of parking in a car park that has never been full anytime I’ve gone does not add any value especially when compared to the value that will be lost by closing hyper karting. Hyper Karting is a stimulating and enriching activity where people can gather and compete in healthy competition while developing skills not otherwise offered within the city.

Best,
Tania

Hi, this is Pranay Juneja.
A long time karter at hyperkarting in the entertainment quarter.

I just wanted to share my thoughts on helping hyperkarting stay in the carpark.

Hyperkarting has been a very fun part of my life for the last 2/3 years. Coming here and karting with people so passionately brings a very close sense of community.

The staff and manager here have been good friends and its a shame that hyperkarting it at risk.

So many businesses have a symbiotic relationship in entertainment quarter when a game or event is NOT ON.
Me and my friends going to hyperkarting often results in having a coffee or a snack in any restaurant nearby and vice vera

Please if my thoughts can contribute in helping hyperkarting stay as it is i would really appreciate it.

Thank you

Regards
Pranay Juneja

Hello,

Hyper carting is an amazing part of Sydney's entertainment culture. Amazing facility, lots of fun, very safe.

If this was to go, it would be just another example of old out of touch bureaucrats getting in the way of industry and the people they represent.

Why don't you go fix some potholes instead of closing businesses that people enjoy and supports jobs.

Thanks
Shane

Dear City of Sydney,

We understand that the use of the EQ car park for Hyperkarting at Moore Park has been challenge led by Council.

Two points that I would like to make here is that parking is plentiful and that Hyperkarting is a key draw for the area.

I know that the EQ hosts lots of events, and have been to the venue with sporting events, multiple concerts at the Horden Pavillion and Liberty Hall etc and despite this have found parking very straightforward. Thus it is a great use of what is unused space.

The other is that Hyperkarting has consistently been a great attraction to the area. I have taken colleagues, my family and recently took a bunch of 21yos for a birthday celebration. The fact that is fully electric, well run, well staffed and a great attraction it would be a terrible shame for us and those who frequent the venue for the same reasons. We live in Turramurra and work close by. It is Hyperkarting that consistently takes us to Moore Park.

Please do not hesitate to to discuss with me.

Best regards,
Adam Callender

Hi there

Let people have fun! Please don’t replace hyper rating with more car parking. We’ve had great bday and family fun at HK Moore Park. It’s safe and fun for teenagers - something that’s hard to come by!

Why do we need more car parking when the light rail runs right through Moore park?

Please don’t take away HK!

Thanks
Amanda Mather

Sending this submission in strong support to Save Hyper Karting at EQ.

This is a flourishing business, employing hundreds of staff and also an amazing outlet for kids and adults!

There is a public transport system within the vicinity, and a carpark being built down at the stadium, so why force this business to close for (another) carpark which is a logistical nightmare?

Warmest
Lisa Rudham

Dear City of Sydney,

I am a long time resident of Alexandria, on [redacted]. I find it absolutely jaw dropping that you will remove parking spaces in Alexandria and Redfern communities in favour of a garden bed, but want to add parking spaces somewhere where it isn't needed, and get rid of one of the most family friendly, accessible activities in our community in the process. It's mad.

Yesterday, the http://urlscanner.mailmarshal.cloud/?c=16815&d=gPHX6aqbdqjCeP8wvZpd1KTJekcldfNJHD1YBKkEdQ&s=115&u=http%3a%2f%2fMonday%2ecom APJ leadership team went to hypercarting after our QBR as a team building exercise. It was one of the only activities we could find close to the city that wasn't drinking, VR or an escape room, and we had a BLAST. Our Singapore and Japan VPs were amazed that this was something we could do, as in both countries that don't have an activity like this that they can do.

We speak about being a "global" city, but at every chance it feels like the City of Sydney doesn't really consider what makes a global city - accessibility, livability and community.

Losing something like hyperkarting is detrimental to our community - from kids birthday parties, to leadership team building. Don't make this mistake.

Kind Regards,

[redacted]

What a joke SCC is got to be one of the greatest place Sydney CBD has to offer fun for everyone close to food outlets gets people out and about. You put in all your shit bike lanes to remove cars out of the city but when it comes to money you're happy to piss a successful business off in order to money grab from over priced parking.

Leave Hyperkarting alone go build a bike lane or hug a tree.

Hi there,

Please do not close down one of the few places in Sydney that is genuinely fun for basically all ages and doesn't require alcohol or extreme physical fitness or a lot of money, just to provide more parking spaces.

I am happy to provide a full and lengthy submission if necessary, but I am genuinely confused and disgusted that this is even being considered. It is incredibly short-sighted.

Best regards,
Sasha

Dear Shannon,

I am writing to formally express my strong support for the continued operation of Hyper Karting at Moore Park, and to oppose any proposal that would result in its closure.

I am Thomas James, a regular patron who has personally experienced the value this facility brings to our community.

The karting centre provides far more than recreational activity. It serves as an important local venue that:

- Encourages youth engagement in a safe and structured environment
- Promotes interest in motorsport, mechanical skills, and discipline
- Supports local employment and small business activity
- Offers a unique recreational outlet that is not easily replaced

Facilities like this are increasingly rare, and once lost, they are extremely difficult—if not impossible—to re-establish due to zoning, cost, and regulatory barriers.

In addition, the centre contributes to the local economy by attracting visitors who spend at nearby businesses. Its presence supports a broader network of economic activity within the area.

I acknowledge that concerns may exist regarding issues such as noise or land use. However, I strongly encourage council to work collaboratively with the operators to implement reasonable mitigation measures, rather than pursuing closure. Solutions such as infrastructure improvements should be considered before irreversible decisions are made.

Removing this facility would represent a significant loss to the community, particularly for young people and families who rely on accessible, structured recreational activities.

I respectfully urge council to consider the long-term social, economic, and community impacts of this decision, and to support the retention of Hyper Karting at Moore Park.

Thank you for considering my submission.

Yours sincerely,
Thomas James

Please do not close down Hyper Karting for car parking spaces that only get used when a sporting event is on at the adjacent stadiums.

Hyper Karting has brought life back to the Entertainment quarter creating business for the other facilities there which had been struggling to survive before the opening of what is an extremely popular leisure activity for all ages.

Not only has it revived the restaurants and bars within the EQ but provided employment to over 150 young people who will all be out of work should the facility close down.

There are plenty of public transport options including a multi billion dollar light rail which has a stop dedicated to the area which can be utilised by people who want to attend events at the EQ and as a regular customer of this facility I know for a fact that there is always an abundance of empty car spaces.

Please save Hyper Karting!!!

Attention Shannon Rickersey

CITY OF SYDNEY COUNCIL

I have just heard of your plans to close HYPERKARTING and I am writing to object this! HYPERKARTING brings sooooo much to the community. It brings people to the Entertainment Quarter, to food outlets and other entertainment venues. It supports 150 valued staff and gives them jobs! We need attractions like this in the area, the movies just isn't enough. I understand parking is important, but with todays petrol prices, everyone is light railing and using public transport. They cannot afford to drive as they are saving their money to come go kart as it keeps them happy. It supports the mental health of many. Today was a prime example of how empty your car park is and that is during Easter School Holidays!!! In addition, there is more parking underway at Allianz Stadium, where they have secured funding to build a multi-storey 1500 space car park which they have commenced.

Please RECONSIDER your decision to deny the lease extension. Please let this wonderful place of enjoyment continue. It is such a key part of Sydney. My family attend the track frequently and we will be so disappointed if you close this.

Kind regards,
Katie Board

To whom it may concern,

I'm writing to express my shock and disappointment to hear you are considering shutting down Hyper Karting to make way for additional car parking spaces.

This establishment is a genuine attraction at Moore Park. As a community we must support this kind of business. Additional car spaces are no use without businesses such as Hyper Karting making it worth while for people to visit the area.

I ask that you consider this decision carefully. Make the right one. Save Hyper Karting and all of the wonderful staff members jobs along with it.

Thank you for your time.

Kind regards,
Dean Mifsud

To the City of Sydney Planning Department,

I am writing to formally support the license extension for Hyper Karting at the Entertainment Quarter. As a resident who frequently visits the Moore Park precinct with my family, I'm concerned by the suggestion that this venue might be closed to make way for additional parking.

Hyper Karting is a huge drawcard for us and one of the main reasons we choose to spend our time and money at the EQ. It's a unique, well-run business that creates a genuine sense of activity on a rooftop that would otherwise be dead space. It seems counter-intuitive for the Council to prioritise more car parking over a business that is clearly contributing to the "vibrant, 24-hour city" ethos that the City of Sydney has been championing lately.

The argument for more parking also feels a bit short-sighted given the broader changes happening in our immediate area. With the new car park infrastructure being built next door at Allianz Stadium, and the upcoming transformation of the Moore Park Golf Course into public green space.. which I expect will include its own considered transport and parking solutions - the need to sacrifice a successful entertainment business for a few extra spots on a rooftop just doesn't seem to add up.

If we want the Entertainment Quarter to actually live up to its name, we should be protecting the businesses that people actually want to visit. Replacing a major attraction with vehicle storage would be a real blow to the local atmosphere and would certainly give my family one less reason to visit the precinct.

I really hope the Council considers the long-term value of keeping the track open and grants the extension.

Kind regards,

Tai James

We need attractions like this in the area, the movies just isn't enough. I understand parking is important, but with todays petrol prices, everyone is light railing and using public transport. They cannot afford to drive as they are saving their money to come go kart as it keeps them happy. It supports the mental health of many. Plus there is more parking underway at Allianz Stadium, where they have secured funding to build a multi-storey 1500 space car park which they have commenced.

Please RECONSIDER your decision to deny the lease extension. Please let this wonderful place of enjoyment continue. It is such a key part of Sydney. My family attend the track frequently and we will be so disappointed if you close this.

Kind regards,
Katie Board

There is no need for the extra car spaces. For majority of the year the car park is empty. Hyper Karting is one of the main attractions for the Entertainment Quarter - you take this away and you will be affecting all the other retailers who rely on this entertainment offering to bring them customers. Why have you decided to build a hotel next to the stadium? That is not needed, there is so many other hotels close by, this should have been a car park for the stadium. For someone who was a member of Sydney FC we only started parking in the EQ car park as we would take our son to hyper karting before or after the game depending on the time. Otherwise we would find street parking and walk - and every time we did park in EQ car park it was still half empty or god forbid the few times you have multiple events on, it was full (that is hardly ever) it took you hours to get out and the both the cost and the time to get out was not worth it. And what has happened to Sydney being carless, but adding more car spaces are you not increasing the cars coming into the city of Sydney? Why contradict yourselves?

You should be ashamed removing a thriving retailer and a retailer who is providing entertainment options to not only the greater Sydney but to the eastern suburbs which besides natural resources is lacking entertainment venues.

Dear City of Sydney,

I would like to submit a Do Not Approve request for this development application.

This venue is irreplaceable in the Sydney City area. I am completely against this DA and cannot understand why the City of Sydney would remove this venue, to replace it with a car park.

Read the room City of Sydney. Removal of this venue is selfish, non-productive and a slap in the face of Motorsport loving Sydneysiders. Not to mention the termination of 150 employees jobs.

If this venue is shut down, from where is Australia's next inspirational F1 superstar going to come from?

It is a HARD NO from me.

Sincerely,

Ben Wrigley | **m:** [redacted] | **e:** [redacted]

Hi I'm curious why one of the only family friendly places In the whole area is being considered to be shut down for car parking?

and will this be replaced with something else where teens of this age demographic go to instead of being bored and resorting to crime like in the country?

thanks
Jeremy

Good Evening,

I am writing to raise my concern in relation to the proposal from City of Sydney to remove HyperKarting from the Entertainment Quarter at Moore Park.

As someone who has frequently atte ded large events at the facility including cricket, AFL, Soccer and even the sell out Elton John concert (twice), parking was never an issue.

The premises has ample carparking when using the outside grass blocks for major events such as sporting events and there is ample public transport with buses and the L2/L3 Light Rail lines both meeting at Moore Park.

The news that City of Sydney arw proposing to remove this small business from an under used section of a carpark is utterly ridiculous.

I actively avoid parking in the facility at all costs as it is over priced, difficult to navigate and honestly better options exist. For those that do Park in the area, plenty of parking exists.

HyperKarting is a business that brings significant attendance to Moore Park and the Entertainment Quarter. Removing them would in actual fact reduce overall patronage to the area and this in turn has a significant adverse affect on surrounding businesses.

I hope that the City of Sydney strongly reconsider this abhorrent proposal and come to their senses to save a genuine business and community resource in the area.

Kind Regards,

Nathan

Please do not close Hyper Karting!
Places like Hyper Karting, where people of all ages and demographics, can get together are the heart of Australia.
Parking can be put anywhere, please find somewhere else.
From a life long Sydney sider who has been wanting to take her children to Hyper Karting for years, guess where we are going as soon as possible!

To whom it may concern,

I am writing to express my strong concern regarding the potential closure of Hyper Karting, operating within the Moore Park car park.

I have been a long-time user of this facility, and I would be genuinely disappointed to see it shut down. It is one of the few activities of its kind in Sydney that is accessible, social, and enjoyable for a wide range of people. Places like this matter. They are not just businesses occupying space — they are part of the social fabric of the city.

What concerns me even more is the broader pattern this seems to fit into. Over the years, I have watched many of my favourite places and activities in Sydney disappear, only to be replaced by more commercial development or dense residential expansion. Each year, it feels like there are fewer unique recreational spaces and community-oriented facilities left. Once these places are gone, they are rarely replaced with anything of equal value to the public.

The potential loss of this venue is also about more than recreation. It has been reported that around 150 jobs could be lost if the track closes, many of them held by young people. That matters. Sydney already does a good enough job making things harder for young people without stripping away both recreational spaces and employment opportunities at the same time.

Cities need more than apartments, retail, and sterile mixed-use development. They need places where people can actually go, do something memorable, and enjoy living there. Facilities like this contribute to Sydney's character and livability in a way that cannot simply be measured in commercial terms.

I urge council to seriously consider the value this venue provides to the community before making any decision that could lead to its closure. Losing yet another activity-based venue would be a real disappointment and, in my view, another step in the wrong direction for a city already losing too much of what makes it enjoyable.
Please take community use, public enjoyment, and the long-term cultural value of spaces like this into account.

Yours faithfully

Cameron Maughan

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon Rickersey,

I am writing to express my support in the current application RD/2023/897/A and the continued operation of Hyper Karting at the Entertainment Quarter.

I'm a member of the community from Sydney. Hyper Karting has brought back life to the Entertainment Quarter, which it previously struggled to maintain its liveliness and culture in a looming Sydney, in terms of activities to do and entertainment. I've genuinely enjoyed my experiences at Hyper Karting over the years, as a regular visitor at this business. Sharing the experience of Hyper Karting with both my friends and family has created great memories, it's become one of our go-to activities when we're looking to spend time and have some enjoyment in the city of Sydney.
When I visit the Entertainment Quarter, It's one of the few places near the city where there is consistent and fun to do outside of major events within this location. Without Hyper Karting, it lacks any life, a very monotonous atmosphere that struggles to grasp the wants of the community and people from not just Sydney city itself, but surrounding suburbs too.

I myself typically travel to this location by light rail, which is why It has taken me by surprise to see the focus on parking as a primary concern. My experience aligns with what's stated in the application documents, that an abundance of visitors to the Entertainment Quarter do not rely on driving to get there. Even when I have driven, I haven't personally experienced major parking issues outside of large event days. As a regular visitor to this location, I can attest that the Entertainment Quarter car park is fairly accessible in terms of parking, in which I do not struggle to find parking.

From what I understand, the traffic assessment also found that the actual parking demand generated by Hyper Karting is relatively low (around 267 spaces), and that the broader car park still has significant capacity most of the time. That reflects what I've seen myself when visiting.

Hyper Karting plays in keeping the Entertainment Quarter alive. It is the primary source for the vivacious energy and excitement it brings to the location. It promotes higher foot traffic in off peak seasons when there are no events at surrounding venues, supports nearby businesses, and provides a space for family gatherings and social connection, especially for younger communities and groups. Losing Hyper Karting at the Entertainment Quarter wouldn't just mean losing a business. It would take away from an already diminishing Sydney entertainment life, reduce foot traffic and revenue and make the location less worth visiting. This highlights the broader contribution Hyper Karting upholds within the Entertainment Quarter and local economy and community.

It is also noted within the application notes, that the venue supports roughly around 150 jobs, in a Sydney economy where the cost of living is incredibly significant, the impact this could have on the individuals who need this job for survival and living, is exasperating to think about.
Keeping this business up and running, is clearly in the best interest for the public. If there are concerns, it seems far more reasonable to manage them through other conditions, such as utilising the grass fields as additional car spaces, and continuing encouraging the use of the fairly new established light rail, rather than allowing the venue to close altogether.

I respectfully ask that you take my email into consideration, as a valued member of the community, and to please reconsider the review application status, we do not deserve to lose this business and to be stripped of the very entertainment we sought for, within the Entertainment Quarter.

Thank you for taking the time to consider my submission, looking forward to hearing from you.

Many thanks,

Lara Kayabas
Sydney, NSW

I enjoy hyperkarting as it is a fun experience, a great social event and is reasonably priced. I have shared many memorable experiences and moments within hyperkarting with friends and other individuals, racing and enjoying karting among ourselves. It should not be closed down. 293 car spaces does not justify the loss of over 100 jobs, the loss of a great and fun social experience, and especially considering the car space which already exists isn't even fully utilised as it stands at the moment.

The only go karting center in the eastern suburbs has so much more value than parking spaces!! Why not encourage public transport to a major entertainment venue rather than encouraging more cars to be on the road.

From what I've seen least 30% of people on a given day go to the entertainment quarter specifically for hyperkarting, in such a central position for commuter to get to wether by car (where capacity in the parking building is still present), or by lightrail, what help would just one floor of extra parking space provide to an area already adequately served by the moore park light rail stop, it would be foolish to remove such an establishment just for parking.
(this was good practice for my English persuasive essay that I have to do next term)

Hyper carts has been a great place for our friends & family to meet for a fun day out. It would be a real pitty to lose it to “extra parking” that’s not really called for . There is soooo much parking as it is & it’s only a $$$$$$$$$$$$$$$$$ venture

Hyperkart is a great place for families to gather and have fun. Whenever I've been there. There are lots of car parks a available so removing them from their current place seems like a lake of vision especially for the precinct.

To Whom This May Concern,

I am wholly in support of Hyper Karts to remain at Entertainment Quarters Moore Park. It is a great source of entertainment for all ages and greatly contributes to the great community at Moore Park.

As a resident of Queens Park, I do not agree that the area requires more parking. The carpark of Entertainment Quarter is always empty except for during special events (which is uncommon).

Please allow Hyper Karts to remain in the current space.

Dear Council Members,

I am writing to express my strong support for the continued operation of the Hyperkarts go-karting facility within our local community.

Hyperkarts provides a safe, structured, and engaging recreational outlet for people of all ages, particularly young people. In a time where communities are actively seeking positive activities that promote skill development, social interaction, and outdoor engagement, facilities like Hyperkarts play an essential role. It encourages responsibility, coordination, and respect for safety rules—qualities that are valuable both on and off the track.

Beyond its recreational benefits, Hyperkarts contributes meaningfully to the local economy. It creates employment opportunities, attracts visitors to the area, and supports nearby businesses. The presence of such a venue helps strengthen the vibrancy of our community and offers an alternative form of entertainment that keeps people engaged locally rather than seeking activities elsewhere.

I understand that there may be concerns surrounding factors such as noise or environmental impact. However, I strongly encourage the council to work collaboratively with the operators to explore reasonable solutions—such as adjusted operating hours, sound mitigation measures, or community consultation—rather than considering closure. Maintaining the facility while addressing concerns would be a balanced approach that benefits all stakeholders.

Closing Hyperkarts would result in the loss of a valuable community asset that promotes healthy recreation and local economic activity. I respectfully urge the council to consider the broader positive impact of this facility and to support its continued operation.

Thank you for taking the time to consider this matter. I appreciate your commitment to making decisions that reflect the best interests of our community.

Yours sincerely

Dear Shannon Rickersey,

Hyper Karting has been an institution for the last 5 years to everyone who has been there.
Birthday parties, social events and everything in between have been celebrated here.
It would be awful to see this place close down.
The community has had such an incredible time here and will continue to as long as hyper karting will stay open.
On behalf of myself and the community, hyper karting must stay open.
It is a safe space to have fun and rsce against friends.
Please consider this.

Yours Sincerely,
Joshua Hasanoff

I am writing to express concerns regarding the closure of Hyper Karting and its proposed replacement with a car park.

As a highly utilized recreational space, this venue provides essential community value for team-building events and celebrations. Please reconsider this decision and preserve Hyper Karting as a local asset.

Thank you for your time and consideration.

Best regards,
Mansi Mahna

To whom it may concern,

I am writing to express my support for retaining Hyper Karting at Moore Park (Submission RD/2023/897/A – 116 Lang Road, Moore Park NSW 2021).

Hyper Karting provides a unique, accessible recreational activity that contributes positively to the local community. It offers a safe, controlled environment for motorsport enthusiasts of all ages, encourages social engagement, and adds diversity to the entertainment options available in the Moore Park precinct.

Importantly, the venue attracts visitors, supports local businesses, and contributes to the vibrancy and economic activity of the area. Facilities like this are increasingly rare in urban environments, and once lost, they are difficult to replace.

Retaining Hyper Karting would ensure that Moore Park continues to offer a broad mix of activities that appeal to a wide range of people, rather than losing a distinctive and valued attraction.

Thank you for considering this submission.

Kind regards,

James Weaver

Dear Sydney Council,

Hearing the news that Hyperkarting is potentially shutting down has deeply upset me. I may not be an employee or a paid member of Hyperkarting, but my story of go-karting began there, which is why its continuation is so important to me.

Closing down one of Sydney's most iconic go karting tracks would be devastating, not just for me, but for countless others who have created memories and learned skills there over the years. Hyperkarting is more than a business; it is a hub for community, competition, and family fun. Its closure would represent a significant loss to Sydney's recreational and sporting culture.

I urge the Council to consider the value Hyperkarting brings to the community and explore options to ensure it can continue operating. Preserving this iconic venue would mean protecting a space where young people, families, and enthusiasts can enjoy a safe and exciting activity.

Thank you for your attention and consideration.

Sincerely,

Collin

Do you want to know what Hyper Karting has brought to me? A bundle of fantastic memories that I will cherish forever, and this is solely to the fact that I get to beat my friends, over and over again. Now this may sound cruel and you think me a boaster, but it is because of what this great place was able to provide for me, the competition, the thrill of getting that fastest lap, the joy of racing against my friends, this is why it should stay. Because who would even use that top floor anyway, no one, legit.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Fantastic place that adds so much to the community in a consistent manner. Not just in periods during games and events. This is a consistent thrill and joy to people in the vicinity. Also keep in mind gas prices are higher, people are not going to drive around more. Additionally, if you want to boost revenue in restaurants like el caminos, hoyts, winghaus and the entertainment quarter in general, you need primary attractions like hyper karting.

Very few people are travelling distances to come eat at entertainment quarter. They primarily come for hyper karting and use entertainment quarter as an added bonus.

Furthermore, keep in mind that NSW and Australia is not funded by your rich and frivolous customer base. It is funded by each and every student, casual, part-time employee, and generally people with a lower threshold on expenses. Take away all the more affordable options you have and you drive demand out of the city.

Moore park is already quite deserted during times it should be busy, the only consistent traffic is always at hyper karting, dont take that away and ruin every business established in entertainment quarter.

Please take the research and proven logic under consideration and see whether a decision like this is really beneficial or is just a fake promise of result.

I am writing to express my strong support for Hyper Karting Moore Park and to urge you to reconsider any plans regarding its closure. This venue is far more than just an entertainment facility, it plays a meaningful role in bringing together families, friends, and the wider community in a way that is increasingly rare.

On any given day, the track is filled with a mix of people, parents watching from the sidelines as their kids take cautious first laps, groups of friends laughing and competing over lap times, and coworkers unwinding after long workdays. There's a unique energy in the space, one that blends excitement with connection. Conversations don't feel forced there, they happen naturally between races, over shared wins, close finishes, and even the occasional spin-out.

For families especially, it offers something that is hard to find an activity that genuinely engages all ages. Teenagers who might otherwise retreat into their own worlds are suddenly animated, comparing speeds and techniques with their parents. Younger kids look up to older siblings or adults, building confidence as they improve with each session. It becomes more than a race; it becomes a shared experience that strengthens relationships.

The venue also provides a safe and structured environment for excitement and competition. In a time where many social activities are becoming increasingly isolated or screen-based, Hyper Karting Moore Park encourages people to be present with each other. It fosters teamwork, friendly rivalry, and communication, qualities that benefit individuals well beyond the track itself.

Additionally, the social impact extends beyond immediate groups. It's common to see strangers striking up conversations, offering tips, or congratulating each other after a race. There's a sense of community that forms naturally, even among people who have never met before. That kind of spontaneous connection is something communities should be protecting, not losing.

From a broader perspective, venues like this contribute to local vibrancy. They give people a reason to gather, celebrate milestones, or simply break routine. Whether it's a birthday, a casual weekend outing, or a spontaneous meet-up, Hyper Karting Moore Park provides a space where memories are made, often the kind that are talked about long after the engines

have gone quiet.

Closing such a place would mean more than the loss of a recreational facility. It would remove a social hub that actively brings people together in a positive, engaging way. In its absence, there are very few alternatives that offer the same combination of excitement, inclusivity, and connection.

If necessary, I am also prepared to raise this issue further. I will be contacting my local member of federal parliament, Allegra Spender, as well as my local member of state parliament, Alex Greenwich, to ensure that the importance of this venue to the community is properly recognised.

I strongly encourage you to consider the wider impact this decision would have, not just on business or operations, but on the community that relies on it. Preserving spaces that foster genuine human interaction is essential, and Hyper Karting Moore Park is a clear example of such a place.

Thank you for your time and consideration.

Kind regards,

Frankie Amante

Dear City of Sydney Council,

I am writing to express my strong support for Hyper Karting and to respectfully urge the Council to reconsider its decision regarding the future of this facility.

Hyper Karting represents far more than just a recreational venue. It is a valuable community asset that provides a safe, engaging, and affordable activity for people of all ages. In a city where there are already limited options for nighttime entertainment that are inclusive and accessible, Hyper Karting fills an important gap. It offers a space where families, friends, and colleagues can come together to enjoy a fun, challenging, and safe experience.

From a practical standpoint, the proposal to replace the venue with additional parking raises concerns. Moore Park and its surrounding areas already have substantial parking infrastructure. Removing a well-utilised entertainment venue to create more parking does not appear to reflect the best use of this space, particularly when considering the social and economic benefits currently being delivered.

The potential closure would also result in the loss of many jobs, impacting employees and their families. At a time when secure employment opportunities are so important, preserving a business that actively contributes to the local economy should be a priority.

Hyper Karting also plays a role in supporting Sydney's night-time economy. Cities thrive when they provide diverse and engaging activities beyond standard business hours. Removing venues like this risks making Sydney less vibrant and less appealing, especially for younger people and families seeking safe alternatives to traditional nightlife.

In summary, I respectfully ask the Council to:
- Reconsider the decision to deny an extension for Hyper Karting
- Recognise the existing adequacy of parking in the area
- Consider the social, economic, and community value the venue provides
- Support initiatives that enhance Sydney's night-time economy rather than diminish it

Thank you for taking the time to consider this perspective. I hope the Council will make a decision that reflects the interests of the community and supports vibrant, inclusive recreational spaces.

Kind regards,
Aznabi Hossain

Dear Council Representative’s,

I am writing to formally and strongly object to any proposal to shut down the local kids go-karting business.

I am a regular customer, and I take my children there frequently. It is one of the few places where they are genuinely excited, active, and fully engaged. They absolutely love it and look forward to every visit. The thought of this facility being closed is not just disappointing, it would be deeply upsetting for my children and many others in the community.

This business is far more than just entertainment. It provides a safe, supervised environment where children can build confidence, develop coordination skills, and enjoy healthy, active recreation. In a time when screen time is a growing concern, venues like this are incredibly important and should be supported, not removed.

Closing this business would take away a valuable and much-needed outlet for local families. It would also negatively impact the local economy, including jobs and small business sustainability. Many families, including mine, rely on accessible, family, friendly venues like this.

While I understand the council has responsibilities regarding regulations and compliance, shutting the business down should be an absolute last resort. I strongly urge the council to work constructively with the owners to resolve any concerns and find a practical solution that allows the business to continue operating safely and within guidelines.

The loss of this facility would be felt widely across the community. I ask that you seriously reconsider any decision to close it and take into account the real impact on families, children, and local livelihoods.

I appreciate your attention to this matter and hope the council will make a decision that reflects the needs and wellbeing of the community.
Kind Regard's

Hi City of Sydney,

I'm writing in support of Hyper Karting at Moore Park. I thought the council was in favour but of small business. Here is a business that has built a following, is loved by many, and now the City is shutting it down … go car parking. Wasn't the point of the tram for people to catch that in for games? (The only time the car park might fill up).

Kind regards,

Dominic

Hello,

Hyper karting is one of the best uses of that space and I've never ever ever seen that car park full in most cases. In fact, the second top floor is always empty every time I've been there, including weekends, etc..

Why destroy a business and a reason for people to come to the area?

Almost every time I've come and spent money in that area, including the entire EQ was being attracted there by hyper karting.

Mike

Hello,

I am sending a email as a sign of my support that the Hyper Karting should not be shut down and should not be replaced with car spaces.

I believe there is enough car spaces and have personally never struggled to get a parking space and feel as if one of the only reasons I go to Moore park if not for a event is for the hyper karting.

Kind regards,
Siena

To whom it concerns,

Writing in support of the extension of Hyperkartings lease at Moore park.
We have so few facilities in the metro area for such pursuits as karting that losing this central facility would be a shameful blow.
We have used the centre ever since its opening for my family, as well as colleagues from our work, and consider the potential loss of this as a blow to the community as a whole as extremely disappointing.
Please do everything in your power to extend the life of this facility,

Regards,

Nick Byrne

Dear CoS and Mr. Rickersey

Hyperkarting is one of the few places close by that is not just a shopping centre or a cinema. It is the only place I can go that is guaranteed to lift my spirits when I'm low.

Aren't we meant to be reducing the number of cars on the road, not increasing them? What is the reason that the carpark wasn't built into the ground to provide more spots in the first place.

Please don't get rid of Hyperkarting for some as counter progressive as more parking spaces.

Thank you,
Veronica

Hello,

I am unsure why you would be wanting to shut this business down. It’s been great to have something close to us that we can take our son and his friends to instead of driving out west.
This is called the Entertainment Quarter.
Stop with taking fun away from people that enjoy it.

Dear City of Sydney.

My two children and I all use this facility frequently. I have been to many other children's birthday parties there. There is nothing like this available within economical distance of the eastern suburbs. Please allow this business to remain where it is so our families can have some fun here in Sydney.

Kindest

Randal Misch

Why would we close down an active business with a thriving community just to slot in a few extra cars in a carpark during events. People should be catching public transport to big events anyway, not clogging local roads. Don’t kill a business for a dead carpark.

To whom it may concern,

Additional parking spaces in an area that is already very easy to reach with public transport is an absurd decision. Councils should be working hard to make our areas more fun and livelier, not just to cater to people who don't want to use public transport. Hyper karting is also a big attraction to the area and the nearby businesses will definitely suffer from the reduced traffic into the area.

Kind regards,

Sajjad Saleh

Dear Council,

I'm writing to support keeping Hyper Karting open.

It's a great local activity that gives people something fun and safe to do. It keeps people out of trouble and is especially good for younger people. It also supports local jobs and brings people into the area.

I understand there may be concerns, but I believe these can be managed without shutting it down.

Please consider keeping Hyper Karting open for the benefit of the community.

Regards,
Hugo Watson

Dear Clover

Hyper Karting – RD/2023/897/A

I write in support of the review application RD/2023/897/A to allow the continued use of level 5 of the Entertainment Quarter car park for electric go-karting and associated entertainment activities until 1 July 2028.

Hyper Karting currently operates on level 5 of the Entertainment Quarter (EQ) precinct car park and employs 156 staff to run the entertainment facility seven days per week.

I understand the City of Sydney recently refused Hyper Karting's application for an extension to D/2023/897/B due in part to the impact of parking spaces being unavailable for use.

Records show that often during large events at the Sydney Cricket Ground, Allianz Stadium, Hordern Pavilion and EQ precinct parking spaces go unused and Venues NSW is building an underground car park that will replace on-grass parking provisions. The light rail was also built to reduce car use during events.

Documents from the applicant show a comparative cost analysis of parking provision and the loss of a business that brings approximately 500 000 patrons annually to the precinct.

The EQ is public land and community recreation needs must be given priority over the parking needs of the sporting stadiums. Any concerns about future parking provisions should be addressed through a transport plan. Thriving businesses such as Hyper Karting support recreation and contribute to the vibrancy and success of the area.

Could you please review and overturn the refusal of Hyper Karting's application to continue use of level 5 of the Entertainment Quarter car park?

Yours sincerely

Dear City of Sydney Councillors,

I am writing to urge you to reconsider the decision to deny Hyper Karting's application for a two-year extension at the Entertainment Quarter, Moore Park.

I visit the Entertainment Quarter regularly, and I can tell you firsthand: Hyper Karting has transformed it. The precinct is busier than I have seen it in years, perhaps decades. That energy doesn't stay on Level 5 of the car park. It flows through the entire quarter. People who come for karting eat at the restaurants, drink at the bars and shop at businesses that were visibly struggling before Hyper Karting gave people a genuine reason to be there. You are not just deciding the fate of one venue. You are deciding the fate of the entire precinct's foot traffic and economic vitality.
The council's stated reason for the refusal is that the commercial use of 298 parking spaces is "unacceptable." I would ask you to weigh that against the reality: Transport for NSW data shows the Entertainment Quarter car park has reached full capacity only a handful of times across 84 major events since Allianz Stadium reopened in 2022. The spaces Hyper Karting occupies are not in high demand. Meanwhile, the venue itself operates seven days a week, from early morning to nearly midnight and has welcomed over 500,000 visitors since 2021. That is an extraordinary utilisation of space by any measure.

To replace an attraction that draws hundreds of thousands of people with empty parking bays, especially at a time when the NSW Government is actively trying to revitalise Sydney's entertainment culture, is a decision that runs directly counter to stated government policy. It is also financially illogical for the Entertainment Quarter as a whole.

I also want to raise something personal. My son is three years old. Hyper Karting is one of the only venues in Sydney, possibly the only one, that caters to children as young as three with dedicated karts and a purpose-built mini track. The joy it brings him is immeasurable, and that experience simply does not exist anywhere else in this city. Removing it doesn't just affect businesses; it removes something genuinely irreplaceable for families.

Hyper Karting also supports over 150 jobs. These are real livelihoods, attached to a business that is thriving.

Your decision to close them down has wide ranging effects that I hope you will absolutely reconsider and take more thought on

Rebecca fanning
Local business owner and supporter of Hyper Karting

To whom It may concern,

With the limited amount of activities available in the eastern suburbs for kids and adults alike in this space, removing it would be highly detrimental to entertainment within the city.

Hyperkarts has been a staple for so many friends and family over the years, and it's removal to make way for greater parking spaces would be incredibly disappointing and not in the spirit of increasing the things to do in this city. Parking can occur anywhere - on the grass across the road, or better still, a better attempt at getting public transport messaging to people coming in for events, where as a business like Hyperkarts is severely limited in scope.

Another important aspect is mentioning the difficulty in creating a profitable business, with an active local and visiting community, of which is what Hyperkarts have done. Taking this away, and the livelihood of people it employs, companies it procures from and tourists that it entertains is not what I believe to be in the best interest of Sydney.

Kind regards,

Myles Sgammotta

Good morning,

Please do not close down Hyper Karting.
As a resident of the City of Sydney, I love having this entertainment nearby my home so that I can drop by with my friends and family.

Go Kart Racing is a prime Australian sport.
Think of the all the great racers from Australia that started with Go kart racing. Daniel Riccardo, Oscar Piastri. Sydney could have our very own Oscar Piastri!

I once saw famous race car driver Renee Gracie racing at Hyper Karting before her movie premiere. It was so cool to see celebrities in our backyard.

Please do not close Hyper Karting, thank you.

Yours sincerely,
Nina Gee

Hi,

We cannot lose hyperkarting for more parking spots. We have plenty of overflow parking infrastructure in Moore Park to facilitate events as is. This is not to say the space itself can't be society to appropriate rental adjustment, but we shouldn't cut a thriving business unless absolutely necessary.

Warm regards,
Kevin

I'm writing as a member of the Sydney community to urge the council to reconsider any plans to close or displace Hyper Karting at the Entertainment Quarter in favour of additional parking spaces.

Hyper Karting is one of the very few dedicated go-karting venues available to families in Sydney. Replacing it with a car park would be a significant loss — not just for the venue's 150+ employees, but for the thousands of families who rely on it as one of the rare active, screen-free entertainment options in the city.

Go-karting isn't just fun — it's genuinely developmental for children. It builds hand-eye coordination, spatial awareness, and focus. It teaches kids to manage speed, make split-second decisions, and understand consequences — all in a safe, controlled environment. For many children, venues like Hyper Karting are their first real introduction to motorsport and mechanical curiosity, which can spark lifelong passions in engineering, physics, and motorsport careers.

Beyond the developmental angle, places like this are increasingly rare in Sydney. The city has no shortage of parking garages. It has a significant shortage of affordable, family-oriented, active entertainment. Every time a venue like this disappears, families are pushed further toward passive, sedentary activities — or simply staying home.

The Entertainment Quarter already serves as a destination for families specifically because of attractions like Hyper Karting. Removing it doesn't just affect one business — it undermines the entire precinct's value as a place people want to visit.
I strongly encourage the council to find an alternative solution that preserves this venue, its 150 jobs, and its irreplaceable role in the community. Parking can be engineered around. A community hub like Hyper Karting, once gone, is nearly impossible to replace.
Thank you for your time and consideration.

Sincerely,
-Ted

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Hi, I am writing this email to inform you that it is not okay for you to close down Hyper Karting. I love coming here it is so much fun for a date night or even just a fun night out with your friends. I have come a couple times with my partner and it's one of our favourite date night spots! We are so competitive so, Hyper Karting is perfect for us. We have the best time and we would be very disappointed if you were to shut down. We drive just over an hour to get there, that's how much we like it! And what's the point of turning it into a car park when your other car parks aren't even full?
Thank you for taking the time to read those email, I hope I have made an influence on you to keep Hyper Karting open!
Sincerely,
Chantel Morris

Dear Shannon

I am writing to express my strong opposition to any decision that would result in the closure of Hyperkarting at 116 Lang Road, Moore Park.

Hyperkarting is a genuinely loved venue — enjoyed by countless individuals, families, and groups across Sydney. It offers a rare and exciting recreational experience that simply cannot be replaced. To remove it from the community would be a real loss, and one that I believe many residents would feel deeply.

What makes this situation even more frustrating is the reason behind it. The idea of displacing a much-loved, thriving business in order to create additional car parking spaces — spaces that are not needed — is frankly difficult to understand. Moore Park's surrounding car parks are consistently underutilised. Anyone who visits the area regularly can see that the existing parking is more than adequate and frequently far from full. Adding more car spaces to an already underused car park, at the cost of a beloved community venue, does not represent a sound or sensible use of this land.

I urge the Council to reconsider this proposal and prioritise what actually benefits the community — keeping Hyperkarting open. Please do not trade a vibrant, active, people-filled business for empty concrete.

Thank you for considering this submission.

Kind regards,

From: Georgia Kordos <[redacted] on behalf of Georgia Kordos <[redacted] <Georgia Kordos <[redacted]

Hello!

Hyperkarting is a place where residents come together as a community and it is essential for it to remain open - as an employer of residents as well as a place for community.

Warm regards,
Saketh.

To the Council,

I am writing to express my strong support for Hyper Karting and to urge you to reconsider any decision that may lead to its closure.

Hyper Karting is more than just an entertainment venue—it is a safe, structured environment where people of all ages can engage in a fun and controlled motorsport experience. It provides young people and adults alike with an outlet that promotes responsibility, coordination, and community engagement, all within a supervised setting.

Closing Hyper Karting would remove one of the few accessible motorsport venues in Sydney where individuals can enjoy high-performance driving in a safe and regulated way. Without places like this, there is a real risk that people—especially younger drivers—may seek out unsafe alternatives on public roads.

Additionally, Hyper Karting contributes positively to the local economy by creating jobs, attracting visitors, and supporting surrounding businesses. It is also a social hub where friends, families, and communities come together, strengthening local connections.

Rather than closing the venue, I encourage the council to work collaboratively with Hyper Karting to address any concerns, whether they relate to noise, safety, or operations. With the right adjustments, it can continue to operate in a way that benefits both the community and the council.

Please consider the broader impact this decision will have—not only on the business itself, but on the people who rely on it for recreation, employment, and community connection.

Thank you for your time and consideration.

Sincerely,
Axel ondevilla

Dear Shannon,

Please reconsider closing down Hyper Karting in Moore Park. This is such a great place for kids and parties and makes use of space that is not needed. The eastern suburbs has a shortage of indoor spaces for kids when the days are cold and wet.

This is a great business that is thriving and brings lots of people to the area.

Kind regards,
Sarah Frost

Hi,

I think hyperkarting is a really important and unique business for the community. I have been several times with friends and colleagues and had an amazing time every time. Its location and proximity from the city make it accessible to a lot of people who may otherwise not be able to experience gokarting.

I hope it possible to prevent this business from closing.

Cheers,
Lena

Hyper karting has become a main attraction at Moore park entertainment. Putting an extra level of parking spots won't make a difference as "busy nights" still have many parking spots available. This will put a lot of people out of jobs and may struggle to find a new job straight away.

Closing this down will also reduce the amount of people that visit Moore park

That is not right to close the hyperkarting for parking… who cars about that the cars parking on the green feeld in the end Of the day there parking there anyway… so pointless to close the HyperCard….

People what wanna go to stadiums can try to not use a car easy like that…
Or when the stadium was building why you don't build a car park as well?

Hi Shannon,

I hope you're well

I'm just writing to express my disappointment in learning there is a consideration to close Hyper Kart

I am a regular attendee of Moore Park EQ in all respects, dining, concerts (etc.) and I understand the need for additional car spaces especially when there is several events running at a time

That said, there's a section of grass (EP2) which is quite significant in size which would be far better to develop for this, rather than remove a valued business?

One of the key issues I find with EQ isn't the car parking, but the flow of traffic exiting EQ in the evening when all events are said and done - adding more carparks to the current zone will exacerbate this. It seems more constructive to separate the zones so there are two clear exit points. A multi level car park adjacent Sydney Cricket Park or Allianz Stadium with a forced exit of LH only onto Driver Ave and then adding a roundabout at Driver Ave & Moore Park to aid flow of traffic

This is only a suggestion and granted I don't have experience in city planning, but you may need to experience peak hour exit (if you haven't already) to understand that adding more car parks to the existing Wilson Parking off Lang Road would be a nightmare to say the least

More importantly, the council's proposal means shutting down an existing business, with significant employment (mostly younger staff from what I can tell), in a population-dense council area with minimal available work, as is.

Hyper Kart is a business I've used for both kids parties and corporate team building events, and it has always been highly rated and enjoyable - I travel from the Hawkesbury to go there.

I hope you take into consideration not just "utilising what's already there" but take a pragmatic approach to cure the real issue which is volume of car parks, but efficiency as well.

I'm sure Wilson's would be happy to capitalise on an additional parking multi level section on Drivers Ave, if this isn't already in discussion

Thank you for taking the time to read this, appreciate your support

Alice

To whom it may concern,

I must say, your proposal to shut down Hyper Karting in favour of reclaiming a handful of glorified, perpetually empty parking spaces is nothing short of astonishing — and not in the way you might hope.

Let me be abundantly clear: Hyper Karting is not some disposable afterthought tucked away on Level 5. It is a thriving, high-performing, revenue-generating operation that people actually use, value, and respect — three things those parking bays have categorically failed to achieve for what I can only assume has been their entire, uneventful existence.

The idea that you would willingly dismantle something dynamic and successful in exchange for dead space is, frankly, baffling. It suggests either a spectacular lack of awareness or a commitment to inefficiency so bold it almost deserves recognition.

I would strongly encourage you to revisit this decision with a touch more realism and a lot less attachment to empty concrete. Because from where I'm standing, this isn't just a poor call — it's an avoidable embarrassment.

Hyper Karting adds value. Those parking spaces do not.

I trust you'll make the right decision — or at the very least, a less absurd one.

Regards,

Harvey Webergene Betts

Hi,
Please don’t evict Hypercarting from EQ. It’s a fantastic activity to have in the eastern suburbs, and now that they have the mini & junior options it’s a great activity for the kids.
We need these types of activities to keep people coming in to EQ to support the restaurants & cafes here. Without hypercarting, I expect the battle carts & pixel will also leave, so it doesn’t give me much of a reason to come here.
Please don’t evict them.
Simon

Dear Lord Mayor and Councillors,

I am writing to formally express my strong opposition to the recent decision to deny the lease extension for Hyper Karting at the Entertainment Quarter.

As a resident of the Sydney area, I believe this decision is a significant step backward for the Moore Park precinct. Hyper Karting is not just a commercial tenant; it is a major drawcard that brings life to the Entertainment Quarter outside of major stadium events.

The rationale that 298 parking spaces are more valuable than a thriving business that employs over 150 people is, in my view, flawed. Transport for NSW data suggests the car park rarely reaches capacity. Prioritising empty concrete over a high-tech, sustainable entertainment venue contradicts the NSW Government's stated goal of revitalising the precinct into a year-round destination.

I urge the Council to reconsider this refusal and grant the two-year extension to allow Hyper Karting to continue contributing to Sydney’s night-time economy and community culture.

Sincerely,

Kendro Andonovski

Dear Shannon,

I did read a few months back that you were reviewing the above submission about HyperKart at Moore Park. I live in Dural some 25+ kms from this venue.

I recently took both my 11 and 13 year old daughters to drive for the first time at HyperKart because I strongly believe in driver education and confidence and experience. You might think that driving a kart is not relevant but I strongly disagreed as it builds confidence in steering, braking and manoeuvring a moving object.

My girls loved it and we went back again with my younger nephews as well.

There is nothing like it in Sydney where safety and fun for our kids to experience driving and learning new skills and I strongly implore you to please reconsider the closure of this business just for car parking which has never been full when myself and our family has previously visited.

The staff and management at HyperKart are exceptional and professional.

I am writing as a father and a health professional to please reconsider this application to be approved and extended for our communities across Sydney.

Yours Sincerely

Peter Holland

I am writing to express my strong concern regarding the proposal to discontinue Hyper Karting at the Entertainment Quarter, Moore Park, and replace it with additional car parking infrastructure.

Hyper Karting is not just a recreational activity — it is a key attraction within one of Sydney's most important entertainment precincts. Located in the heart of Moore Park, the Entertainment Quarter attracts approximately millions of visitors annually, contributing significantly to Sydney's visitor economy and night-time culture.
Within this ecosystem, Hyper Karting plays a vital role in:

- ***Driving foot traffic across all days of the week (not just event days)***
- ***Supporting surrounding businesses including restaurants, cinemas, and retail***
- ***Enhancing Sydney's reputation as a modern, experience-driven city***
- ***Creating a hotspot for people of all ages looking for Entertainment in Sydney especially in the racing sport as F1 becomes more popular these days.***

Notably, Hyper Karting has already attracted over 400,000 visitors, demonstrating strong and consistent public demand and featured in so many popular news channels, blogspots and more .
One big important thing that makes this place better than a car park is because of its ability to retain visitors to Moore Park.

Why Hyper Karting retains visitors after events — and a car park doesn't:

- *Moore Park already draws massive crowds on event days, but without a compelling reason to stay, visitors leave the moment the event ends.*
- *Hyper Karting gives event-goers a reason to arrive early and stay longer, turning a single-purpose visit into a full evening out*
- *Families finishing a match can cap the night with a race; groups can move seamlessly from dinner to the track*
- *This post-event retention drives real secondary spend across restaurants, bars, and retail in the precinct*
- *A car park generates none of this — it empties the moment an event ends, while Hyper Karting keeps the precinct alive and trading*

Beyond its economic contribution, Hyper Karting has also established itself as a recognized hotspot for celebrities, influencers, and high-profile guests visiting Sydney. Since its launch, the venue has hosted VIP events, Corporate Events , countless birthday parties fulfilling every kid's interest to be a racer and continues to attract well-known personalities, making it not only a local attraction but a globally appealing entertainment experience.

This level of visibility brings significant public relations value to Sydney especially Moore Park. When celebrities and influencers visit and share their experiences, it generates organic global exposure, positioning Sydney as a vibrant, world-class destination. This type of promotion cannot be replicated by traditional infrastructure such as a car park.

From an economic perspective, Sydney's tourism sector generates billions of dollars annually, and experiential attractions like Hyper Karting play a crucial role in sustaining and growing this revenue. Entertainment-driven venues increase visitor dwell time boost spending across multiple businesses, and create employment opportunities.

Replacing a high-engagement attraction such as Hyper Karting with a car park would likely result in:

- ***Reduced visitor dwell time (people leaving immediately after events)***
- ***Lower spending across food, retail, and entertainment outlets***
- ***Loss of jobs linked to operations, events, and hospitality***
- ***A decline in Sydney's competitive positioning as a global entertainment destination***

and many more to add to this.

By contrast, car parks are passive infrastructure. They generate limited economic activity and do not contribute to the vibrancy, culture, or identity of the precinct.
Especially when most of the Sydney siders from the East, West, North and South consider Moore Park as the hotspot of Entertainment and Hyper Karting is a part of this exposure and represents the type of modern, inclusive entertainment that Sydney needs more of — especially as the city continues to revitalise its night-time economy and attract both locals and international visitors.

In Conclusion,
The removal of such a venue would contradict the broader vision of transforming the Entertainment Quarter into a thriving, world-class destination.

I respectfully urge the City of Sydney and relevant decision-makers to reconsider this proposal and prioritise developments that enhance economic activity, community engagement, and cultural value — rather than replacing them with underutilised infrastructure.

Preserving Hyper Karting is not just about saving a business; it is about protecting a proven contributor to Sydney's economy, identity, and global image.

Thank you for your time and consideration.

--
Kind Regards,
Abhishek Jordan Kona

I strongly oppose the closing of Hyper Karting in Moore Park.

We need entertainment options like this in Central Sydney.

The idea of removing that for the sake of some extra parking spaces is very disappointing.

I urge you to reconsider the proposal and let Hyper Karting remain in place.

Greg Fonne

DO NOT DESTROY HYPER KARTING! The last thing we need is more parking lots! You have already gutted and destroyed so many spaces for the community to enjoy, and turning Sydney into a soulless bland place.
City of Sydney has it all backwards, we need to be less car-centric & people focused.

Hyperkarting offers what no one else does in the precinct

Why add additional parking spaces if there is so many transport option.

Adding more car spaces will show the city has failed to provide sufficient public transport

I am requesting a reconsideration in shutting down hyperkart Sydney in doing this you’re erasing memories and jobs that we so desperately need right now all for parking spaces. This decision is extremely disappointing and as someone who puts a lot of money in to this car park yearly for events I will personally never park my car here again if hyper karting is removed as I’d feel guilt contributing to something people lost their livelihoods for please reconsider for the community

Seriously, there is not enough for young people to do in the city and you're looking at removing an engaging business to allocate more parking space. It also is an attraction to bring people to the quarter. In a city encouraging public transport, why allocate more car spaces?

Please save hyperkarting

Regards

Dear Council Team,

I am writing to express my strong concern regarding the proposed closure of the Hyper Karting facility.

This venue is an important part of our local community. It provides a safe, engaging environment for families, young people, and motorsport enthusiasts. Closing it would not only remove a valuable recreational space but also impact local employment and small business activity in the area.

Facilities like this help keep people active, connected, and off the streets. It offers a positive outlet, especially for younger members of the community, and contributes to the vibrancy of our local area.

I respectfully ask the council to reconsider this decision and explore alternative solutions that allow the facility to continue operating while addressing any concerns that may exist.

Thank you for taking the time to consider community feedback.

Kind regards,
Siraj Uddin

Dear Shannon Rickersey, Dear City of Sydney DA Team,

RE: REQUEST: HyperKart Lease Extension - Entertainment Quarter Car Park Level 5

I am writing to request an extension of the HyperKart lease at Entertainment Quarter Car Park.

As a customer and parent, HyperKart has provided my daughter and her friends with a safe, supervised space to learn go-karting with modern, electric-powered karts that are speed-controlled for younger drivers.

Key benefits worth extending:

- Safe family entertainment with real-time speed monitoring and professional supervision
- Educational road safety experience for young drivers in a controlled environment
- Modern electric karts (zero emissions, sustainable operations)
- Community asset supporting local employment and Entertainment Quarter foot traffic

I urge the Council to prioritise this lease extension to ensure continuity of this valuable community facility. I'm happy to discuss further if needed.

Yours sincerely,

Andrew Miehs

Hello

I am reaching out regarding the potential shut down of Hyper Karting to allow for more parking spaces at the Entertainment Quarter.

I am deeply concerned that this thriving small business which has provided a fantastic and unique form of entertainment for many years is under threat for a mere 296 parking spaces. It is unfathomable that in 2026 your council is prioritising car spaces even after the construction of an excellent, efficient, and more environmentally friendly light rail service. Adding more parking spaces will only encourage more people to drive to Moore Park when the added spaces would only allow at maximum an extra 1480 people (assuming every car is a full car) to attend the Quarter. Considering the capacity of the venues this parking is meant to help provide access for, the proposed action to shut down an entire business is extremely drastic and disproportionate to the very minimal capacity gained. Additionally, this capacity will generally be left unused as extra parking is only required for major events, which are less than regular at the Quarter.

The value of keeping Hyper Karting in its current location far exceeds that of adding a few parking spaces. Hyper Karting is a uniquely positioned business, being the only karting venue available and within reasonable access for those residing in the CBD, Eastern Suburbs, and Inner West. It serves as a great place for friends to go after school, university, or work, and is in a central location for gatherings such as birthdays and corporate events. Their business gets people going out of their way to visit the Entertainment Quarter, boosting the economy for other local businesses in an area which has historically been fairly empty outside of major events. Each time I have visited the Entertainment Quarter Hyper Karting has been busy with customers, even during quieter days and times of the week. The Entertainment Quarter would lose a vital life source if Hyper Karting were to be shut down.

Please strongly consider the long term ramifications of a decision like this. A small business will be forced to close, jobs will be permanently lost, the local economy will be negatively impacted, and so much of Sydney's population will completely lose the opportunity to ever go karting.

Thank you for taking the time to address my concerns. I look forward to your response.

Kind regards,

[redacted]

Please keep hyper karting…
I've used you car park for events such as sports or concerts… it took me over 2 hours to get out of the Wilson car park… I can give you the dates and you can check your cameras… Andrea Bocelli concert, Tyler the creator concert, drake concert… so adding more car spaces will jus add on to the delay of getting out of there… I've been to hyperkarting a few times with my family. And my kids have gone with their friends. We all still remember each time and that is priceless, creating g memories together as a family, wig friends… and we all spread the word and more of us go each time… so please do not get rid of it…

Dear Shannon,

Re: Submission - RD/2023/897/A - 116 Lang Road, Moore Park NSW 2021
Attention: Shannon Rickersey

I am writing to formally request that Council reconsider the proposed decision to shut down Hyper Karting at the above location to make way for a car park.

Hyper Karting is a valuable recreational facility that provides a unique, safe, and engaging experience for people of all ages. It contributes positively to the local community by offering an accessible activity that promotes social connection, entertainment, and tourism within the Moore Park precinct. Its presence adds vibrancy and diversity to the area, supporting not only visitors but also surrounding businesses.

The removal of such a facility in favour of a car park would represent a significant loss to the community. While parking is important, Moore Park already accommodates substantial parking infrastructure, and the long-term benefit of preserving an active recreational venue should be strongly considered against the short-term gain of additional parking spaces.

I encourage Council to explore alternative solutions that balance accessibility with the preservation of community-focused amenities. Retaining Hyper Karting would ensure the continued activation of the space in a way that aligns with community wellbeing and local economic activity.

Kind regards,
Domenica Crisafi

Good morning,

Please consider NOT closing down Hyper Karting in Moore Park. As an adult living and working in Sydney, there are already very little things to do for fun (when you don't drink alcohol) and this is one of the favourites.

I understand having an extra 200-300 parking spaces would be ideal, but it is not necessary and I certainly don't think it should be the reason to close down a business that brings community, fun (for all ages!!) and a safe, easy outlet for those who are into racing. This is a classic and timeless hobby that would be an absolute shame to lose.

It is also one of the few electric karting places which is extremely sustainable and much healthier than others. It also is a unique, memorable venue in an extremely convenient location for everyone across Sydney suburbs. I have attended work events, casual family/friend outings, as well as hosted my own birthday here.

Getting rid of this place would be doing a disservice to Sydney! And the extra car spaces should not be necessary after recent years of increasing and updating the public transport services in the area.

I myself work nights across the city, and often see the large crowds from the events in Moore Park, happily walking down the streets toward Crown St and Central Station after big events. Everyone is too pissed to drive anyway! PLEASE!! Keep this place alive ��

With hope,
Courtney

Stop the unnecessary overdeveloped and focus on ensuring we have places of recreation and entertainment to socialise.

The benefits from the entertainment quarter far outweigh the short-term financial incentives that have been used to try justify the submission.

Not only will this impact employment but also general cost of living. It absolutely baffles me that councils who are designed based on principal to be for the community continue to enable decisions to be made that aren't supported by the community.

Kindly,
Cameron

Dear council member/s,

I kindly request that HyperKarting Moore be allowed to continue operating at their current location. It is the primary reason my friends and I would go to Moore park and spend money at other local attractions.

It would be a great disappointment to lose to such a high quality e-karting business which has provided many really fun nights out for friends and family.

Thanks you for your consideration.

Kind regards,
George M

Dear Council,

I'm writing to express my concern regarding the proposed closure of Hyper Karting. This venue offers a unique and enjoyable recreational space. After a long day of work, it's a perfect place to unwind with friends or enjoy quality time with your partner. Personally, it's been a fantastic spot for me to spend time with my partner and our friends, sharing great moments together. Replacing it with 296 parking spots seems unnecessary, as existing parking levels are often underutilized in this busy area. I strongly believe keeping Hyper Karting would be of greater benefit to our community.

Kind regards,

Javiera Soto

Good morning to whomever receives this

It has come to my attention that hypercarting is at risk of closure

This place has given many great memories, before my uni friends split ways to go join the work force and it would be a real blow to see it go, as it was always packed.

There are not any other places to do anything like this within the city and it would knock out a whole genre of hobbies and sports accessible to metro residents

A reconsideration would benefit the whole community

Thank you
Liam Hoffmann

Expanding parking to a fifth level is counterintuitive given the current infrastructure; exiting from the fourth floor already takes upwards of 1 hour following major events. Adding more capacity would only worsen this gridlock.

Furthermore, Sydney suffers from a shortage of engaging recreational spaces. Venues like Hyper Karting provide essential community hubs for social connection and healthy competition.

Sacrificing such a venue, and the 150 jobs it supports in favor of redundant parking during "no event days" is a significant step backward for the City of Sydney.

Sincerely

C Parisi

To whom it may concern,

Once again, Sydney looks to become a little bit more boring, taking away yet another unique adventurous activity. For what? Car spaces.

So whoever had this brilliant idea, pull it back, calm down, we don’t need more car parks. We need more fun things to do.

Keep hyper karting where it is, and allow us, the people who get the most out of it, to have our fun.
Regards, Darren.

Rickersey,

I am once again deeply troubled to hear yet another 3rd space in Sydney is being shut down. 3rd spaces are so important to the cultural landscape of Sydney and they are quickly becoming endangered. You constantly hear on the news and social media that Sydney has no culture or night life anymore because everything we have keeps getting shut down. Local government should take action and support recreational activities in Sydney it's beneficial for tourism the economy and for the health and wellbeing of its residents. You can't complain that children and Teens don't go outside and play anymore when all of their options become more and more limited every day. Let's draw the line here and save Hyper karting Moore Park and maybe one day we can talk about reviving Sydney's recreational scene.

Dear Sir/Madam,

I'm writing to express my support for Hyper Karting and to share why it means so much to me and others in the community.

I truly enjoy Hyper Karting because it offers an exciting, high-energy experience that's both fun and accessible. Whether it's friendly competition or just a way to unwind, it consistently delivers a unique and memorable activity that stands out from other entertainment options.

One of my most memorable experiences was racing and celebrating certain events with friends, family coworkers and even achieving a personal best at times. Moments like these are what make Hyper Karting special, it brings people together and creates lasting memories.

I strongly believe Hyper Karting should remain open because it provides a valuable recreational space for individuals, families, and groups. It's not just about racing, it's about connection, enjoyment, and having a place where people can gather and share great experiences.

Personally, Hyper Karting has had a positive impact on me and those around me. It's been a go-to activity for spending quality time with friends and has also contributed to the broader community by offering a fun and engaging environment for all ages.

Thank you for taking the time to consider my thoughts. I sincerely hope Hyper Karting continues to operate and bring joy to so many people.

Kind regards,
Alem

Dear Shannon,
This letter is to support the continuing operation of hyperkart in the car park at EQ.
As a parent I have seen how much enjoyment this activity brings to people of all ages. This is an activity that does not include alcohol which can be hard to find. It is also not dependant on the weather. It is an activity that we have enjoyed with our kids and it is impossible not to laugh while enjoying this activity.
Please consider the enjoyment this brings to many people before canceling.
Yours sincerely,
Celeste Thomson

Hi City of Sydney,

Hyper Karting is a key part of the culture of Sydney.

Many Sydney Siders and tourists love this place.

I've been here with friends and had many work team events and enjoyed frequenting the Entertainment Quarter businesses afterwards.

Surely all the public transport upgrades to Moore Park have negated the needs for the extra levels of parking at Moore Park?

Encouraging more cars into the area seems very counterintuitive to what the City of Sydney should trying to achieve in making the city as liveable as possible for its residents.

I oppose this application convert the Hyper Karting premises into parking.

Please don’t remove hyper karting from their location.

I enjoy going karting here because it gives me a sense of speed. It’s an exhilarating experience.

I’ve come many times with friends and it’s always a fun afternoon!

It’s a great amenity for Sydney’s eastern suburbs and provides a safe and fun activity.

To whom it may concern,

I would hate to see Hypercarting close down.
It has been such a great source of entertainment for my kids who are at an age where they no longer want to go to parks.

It will be a real shame to do this. With not many options for kids entertainment, it would be sad to see this go. We always make a day of it as well and have lunch at one of the local restaurants. You would also be doing a disservice to them, making them lose money.

Please reconsider this.

Are you ridiculous or what, your aiming to close downs good local entertainment business for parking? Where in the city/east can you get green energy efficiency fun like this? Wtf the point of the light rail then if you need more parking? Where do you want families to go, To the west? How about give yourself a snap kick to wake up and stop trying to ruin Sydney. Absolute incompetent, you idiots built the bridge across Anzac for what? Built a light rail for what? Cut/rerouted public transport for what? Increased bike lanes for what? Wake up to yourselves and stop justifying your jobs by having to change things the community don't need changing. Looks what you e done to Sydney night life. Hypocritical dumb dumbs. Keep Moore park golf course open to. wtf do you want to change it for park lands everyone can use the golf course and there's already a massive park land next door, ever heard of centennial park? Let people play golf, it's an asset to the community, instead you want to take a good thing and that employs people and adds to the communit, is dynamic and lively and stop that when we have a issue with jobs in Australia and good fun in the area and make it something stagnant. Gosh you guys really are the anti fun, it amazing how out of touch and horrible your ideas are.
Deeply concerned,
John sSmith

Hi there,

Please reconsider your proposal to change Hyper Karting into car parking. The business brings in thousands of people who all have a great time and create lasting memories.

I've been going for a few years now and love it every time I go. Not having this opportunity would be a real gut punch.

I urge you to please reconsider, as losing this attraction and social hub would do irreparable damage to Sydney's entertainment hub.

Thank you,
Nick

Dear Council,

I am writing to express my strong support for the go karting business remaining at the Fox Studios complex and not being removed to make way for additional parking spaces.

This venue is one of the key entertainment attractions within the precinct and provides a unique, family-friendly experience that draws visitors of all ages to the area. It adds significant value to the overall appeal of the complex and helps increase foot traffic for surrounding businesses and venues.

Importantly, the karts are electric, which means they operate very quietly and have minimal impact on the surrounding environment. In this respect, the venue offers modern, low-noise entertainment that aligns well with community expectations and urban development standards.

Replacing such a popular and well-utilised attraction with additional parking would diminish the appeal of the Fox Studios precinct. The go karting business is not only a strong entertainment offering, but also a destination in its own right that encourages people to visit and spend time in the area.

I respectfully ask that Council reconsider any proposal to remove this valuable attraction

Kind Regards

To whom it may concern,

Please do not close hyper karting for more parking spaces. I have never seen the car park full each time I've been there and have never had an issue parking at the Moore Park parking complex.

The shops below are extremely busy but adding an additional 300 parking spaces doesn't seem neccessary as there has always been hundreds of empty spaces each day.

Closing hyper karting would take a lot of joy out of the karting community as they operate one of the best electric kart tracks in Sydney.

Thank you and I hope you have a lovely day.

Kind regards

Michael

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

I strongly oppose the decision to permanently shut down Hyper Karting in order to create additional car parking space. Hyper Karting has felt like a second home to me ever since I started working here five months ago. It has given me the opportunity to meet incredibly talented individuals, as well as dedicated staff and crew who work tirelessly day and night to keep it an exciting experience, not just for the people of Sydney, but for countless tourists as well.

Additionally, Hyper Karting has been an overall great place to work, a job that helps me pay my bills and put food on the table. It is also a place where people come to create lasting memories. Losing all of this simply to add more car parking space- space that may not even be fully utilised-feels deeply disappointing.

Aside from this, I believe the people of Sydney should be encouraged to use public transport, as it is both more economically responsible and environmentally sustainable. Prioritising additional parking over valuable community spaces sends the wrong message about the kind of city we want to build.

Sincerely,

Marium Nafees

Hyper karts has provided so much entertainment to our family and generates so many customers to the EQ precinct (which up until recent years ago was pretty dead) - it would be a shame to close it down, especially for reason of more parking.

I have never had an issue finding a car space when attending EQ, even in busy times there are always spaces - I believe the current car parking is sufficient. And the parkland out the front is available in case of events or when more parking is required.

To whom it may concern:
I would love to keep Hyperkarting Sydney open and operating because of the opportunity to have fun in this beautiful city.

More and more of the opportunities to enjoy life are being closed and shutdown due to lack of interest and limited resources, but this place has so much to offer. With the council's proposal, a place that is purely excitement and childlike joy will be reduced to a parking lot as if the city needs more parking spots.

I would hope that Hyperkarting would be able to stay in operation and that with support from the city, that they would be a highlight attraction that encourages more families to visit together.

Thanks for taking the time to read this

Sincerely,

K. Ray Jones

To City of Sydney Council & DA Team,

I'm writing to express my strong support for keeping Hyper Karting at Moore Park and to urge the City of Sydney to reconsider any decision not to renew their agreement.

Hyper Karting is a genuinely valuable recreational asset for the city, particularly for residents in the Inner West and Eastern Suburbs. For many of us, it's the only practical, accessible option for karting without travelling significant distances out to Western Sydney.

Beyond that, it contributes positively to the local area by:
- Activating an otherwise underutilised car park space
- Providing a safe, structured recreational outlet
- Supporting local jobs and small business activity
- Adding to Sydney's broader entertainment offering

Losing it would remove a unique experience that isn't easily replaced elsewhere in the city.

I understand there are competing priorities for space and planning, but this feels like a high-value, low-impact use of the site that benefits a wide cross-section of the community.

I'd strongly encourage the council to explore options to retain Hyper Karting at Moore Park, or at the very least work with the operators to find a viable alternative within the local area.

Appreciate your consideration.

Kind regards,

Sam Reeder

Please save hyperkarting! My 10 year old son and his friends love it there!

Hoping council can find a way. The community needs it and people travel from all around Sydney and outer metro to attend. I'm sure the venue brings in money for other surrounding businesses too.

Also, please continue to do what you can to fix the roof leaks at King George V Recreation Centre. The users of the stadium have understood the issue and that it has been going on ever since the place was built. But, with respect, it's a bit of a laugh among many basketball WhatsApp groups that indoor basketball is cancelled once again due to a rain event or humidity issues.

Thanks for your time.

Kind regards,
Alan

To Whom It May Concern,

I am writing to submit feedback on the proposal to close Hyperkarting Sydney in order to vacate its current space for additional parking.

I write with the support of at least 40 to 50 friends and family members who are regular visitors and passionate advocates of the venue. Hyperkarting Sydney represents one of the very few well-maintained, high-quality karting and adrenaline experiences available in Sydney. Its combination of a unique karting format, consistent upkeep, and late evening operating hours makes it genuinely distinct from anything else on offer across the city.

The venue is a meaningful anchor for the Entertainment Quarter. It draws visitors for a night out, social catch-ups, and corporate team bonding events, the latter of which I have personally attended on multiple occasions. Removing it would further erode an entertainment precinct that is already struggling to retain diverse, accessible activity options for Sydney residents.

This concern sits in a broader context: Sydney city continues to lose ground to Western Sydney when it comes to the availability of reliable, varied recreational venues that support foot traffic and surrounding businesses alike. Closures like this accelerate that trend.

I respectfully urge the Council to reconsider this proposal. Hyperkarting Sydney is a genuinely unmatched entertainment experience across the city, and replacing it with what would amount to senseless excess parking, spaces that already go largely unutilised due to the prohibitive costs in the area, does not represent a net benefit to the community or the precinct. The city would be trading something irreplaceable for something unused.

I hope this feedback is given genuine consideration alongside the voices of the many others who value what Hyperkarting Sydney offers.

Kindest regards

Joshua Park

To: dasubmissions@cityofsydney.nsw.gov.au

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To Whom it may concern,

I am writing to express my opposition to the proposed closure of 'Hyper Karting' in the Entertainment Quarter to make way for additional parking spaces.

Hyper Karting is a valuable community asset. It encourages social interaction, supports local employment, and contributes to the vibrancy and diversity of our city's recreational offerings. Removing such a facility would mean the loss of a unique experience that does not exist elsewhere within the city. It's a place in which children can celebrate birthdays and friends and colleagues can gather and spend quality time together - simply put, where the people of Sydney can have fun.

Replacing this venue with parking spaces prioritises short-term convenience over long-term community value. There is already ample parking within the Entertainment Quarter, and even on major event days it rarely reaches full capacity. A significant number of attendees travelling to venues such as Allianz Stadium and the Hordern Pavilion use alternative transport options, including light rail, walking, and ride-share services - none of which require additional parking.

Additionally, at a time when cities around the world, including Sydney, are working to reduce car dependency and promote sustainable transport - expanding parking infrastructure feels like a counterproductive choice.

I urge the City to reconsider this decision and explore alternative solutions that preserve community spaces like Hyper Karting.

Thank you for taking the time to consider my concerns.

Kind Regards,
Sophie

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Sir/Madam,

I write to strongly support the continued operation of Hyper Karting within the entertainment precinct. It is a valuable part of the precinct's offering, creating a vibrant, social, and family-friendly destination. I have personally used Hyper Karting for both my business team activities and visits with my children. It provides accessible, local and fun entertainment that brings people together, especially since current options are very limited.

The proposed closure to make way for additional car parking is difficult to justify in my opinion, particularly when existing parking in the precinct is not fully utilised. In our personal experience, parking has never been an issue during our visits, outside of major events at neighbouring stadiums. The focus of such a well-located precinct should be on encouraging access via public transport and reducing reliance on private vehicles to attend the stadiums, rather than prioritising more parking at the expense of active, community-oriented uses.

Removing a thriving venue that contributes to the precinct's purpose, in favour of parking that is underutilised for most of the year, would result in unnecessary social and economic loss. As a local resident and business owner, I find this outcome unnecessarily bureaucratic in nature. I respectfully urge Council to allow Hyper Karting to remain in operation.

I cannot believe Hyperkarting in Moore Park is under threat of closing down. That place was opened due to the carpark being dead 11 out of 12 months of the year. We visit there all the time with our son who is disabled. He has learned to drive a kart which is unbelievable in itself. It has given him skills and coordination that would have taken years to learn at OT. It's not just this, the joy of participating in activities like this with family and friend in the East is a rarity.

There is truly nothing else in the area. The jumping parks, the indoor kids parks are all gone since lockdowns. This is all we have and you want to take it away?? For what? Car parks.. ridiculous.

Find somewhere else to build your paved paradise to justify your job.

Have the day you deserve.

Dana

Dear Sir/Madam

I would like to voice my concern and strong opposition to the proposal that Hyperkarting at Moore Park is being considered to be shut down and turned into nothing more than more car spaces! Think it would be a terrible loss to the community in general but especially to young people especially under 18s whose options are constantly being squeezed out in particularly in the Sydney and Eastern Suburbs area for entertainment options. So many indoor venues have been shut down since the lockdowns. Hyperkarting provides a family entertainment option where both adults, young adults and kids participate, provides local employment and inspires the next generation of both racing drivers and technicians. Please reconsider this move!

Regards
Ivan

To the Lord Mayor and Councillors,

I write as a regular visitor to Hyper Karting at the Entertainment Quarter to formally object to the City of Sydney's decision to refuse an extension of the venue's operating approval.

This decision is deeply disappointing and, in my view, fundamentally at odds with the Council's own stated goals for Sydney.

Hyper Karting has welcomed over 500,000 visitors since opening in 2024. It employs 156 people. It serves NDIS participants, young athletes, families, and the broader community. It operates on a level of a car park that was previously sitting empty and unused. It has not generated a single noise complaint. By any reasonable measure, it is exactly the kind of activation the Entertainment Quarter needs and has long lacked.

The Council's justification that those 298 car spaces may eventually be needed does not withstand scrutiny. Transport for NSW data shows the car park has reached capacity only a handful of times across 84 major events since Allianz Stadium reopened. A new 1,500-space underground car park at the stadium is expected to open later this year. The parking supply argument is not supported by the evidence.

What is supported by the evidence is this: removing Hyper Karting will cost 156 jobs, eliminate a thriving community attraction, and leave a multi-storey car park with empty bays that nobody needs all while the NSW Government is actively seeking proposals to make the Entertainment Quarter a year-round destination. The Council's decision directly undermines that ambition.

I strongly urge the Council to reconsider this refusal and approve the requested two-year extension. The precinct deserves entertainment. Its workers deserve job security. Its visitors deserve better than this.

I request that this submission be formally noted and that I be advised of any review or appeal proceedings.

Regards
Cory

To whom it may concern,

I am writing to express my strong objection to the proposed closure of Hyper Karting at the Entertainment Quarter, reportedly to make way for additional parking.

As a family living in Western Sydney, the Entertainment Quarter is not a quick or convenient destination for us … it is somewhere we choose to travel to because it offers a unique and well-rounded experience. Between three families and eight children, our visits are intentional and planned, centred around the variety of activities available. Hyper Karting is not just an add-on, it is one of the key reasons we make the trip.

A typical visit for us includes karting, followed by movies, dinner, and time at the fun fair (if on). It's the combination of these experiences that makes the Entertainment Quarter worth the distance. Removing Hyper Karting would significantly diminish that appeal and, quite honestly, reduce our likelihood of returning as frequently … if at all.

Facilities like Hyper Karting are what set the Entertainment Quarter apart from countless other locations that already offer dining and parking. Replacing a unique, high-engagement attraction with additional parking feels like a step backwards in terms of community value and overall visitor experience.

Beyond our own family, Hyper Karting provides an active, engaging, and memorable experience for children and adults alike, something increasingly rare in a landscape dominated by passive entertainment. Its removal would be a loss not just for families like ours, but for the broader community.

I strongly urge you to reconsider this decision and to prioritise the experiences that draw families to the Entertainment Quarter in the first place.

Thank you for taking the time to consider this feedback.

Kind regards,

Tayba Moukhallalati

Attention Shannon Rickersey
City of Sydney

Dear Shannon,

I am writing as a regular customer of Hyper Karting to lodge my submission in support of application RD/2023/897/A at 116 Lang Road Moore Park, and to ask that Council allow Hyper Karting to continue operating at the Entertainment Quarter.

I have visited Hyper Karting many times with friends and family. It has become one of the genuinely great social outings in Sydney. In an age of disconnection, Hyper Karting gives people a reason to get off their phones, show up in person, and share an experience. I have used it to reunite with mates I had not seen in months, to celebrate birthdays, and to bring family together in a way that a restaurant or a bar simply cannot replicate. That kind of in-person, shared experience is exactly what a healthy city needs more of, not less.

The community impact is real. It is one of the few venues in Sydney that works across ages and groups, from kids through to adults, and from casual customers through to work teams. It supports more than 150 jobs, activates the Entertainment Quarter precinct, and draws people into Moore Park who then spend money at surrounding cinemas, restaurants and bars. Losing it would leave a meaningful gap in Sydney's entertainment and social fabric.

I also want to address the stated reason for refusal, which as I understand it is that the space is needed to return to car parking. I find this hard to reconcile with what I actually see on the ground. Every single time I have visited Hyper Karting, including on weekends and evenings, the surrounding levels of the Entertainment Quarter car park have been largely empty. The idea that roughly 300 rooftop spaces are urgently required, when the existing 1,700-plus spaces in the same structure regularly sit unused, does not pass a common sense test. Before displacing a successful, job-creating, community-activating business, I would expect Council to be able to demonstrate actual, sustained parking demand at that level of the structure. From an outsiders perspective, that demand does not appear to exist.

I would encourage Council to work with Hyper Karting on a sensible extension that keeps the venue operating while any genuine future parking needs are properly assessed. Shutting a thriving business to create empty bays would be a poor outcome for Moore Park, for the Entertainment Quarter precinct, and for the wider Sydney community.

Thank you for considering my submission.

Kind regards,

Lachlan MacLeod

To whom It may concern

I am writing in support of keeping level 5 of the Moore Park carpark as a hyperkarting track.

The city of Sydney, and the greater state of NSW have been moving forward with their Vibrancy reforms in one way or another- so it makes zero sense to transform a vibrant and entertaining business into car spots.

Furthermore it ignores the push to reduce congestion and traffic, in favour of public transport.

Short and sweet, Hyperkartings application to extend their operation should be approved, and I would be greatly disappointed if a business like this was terminated, jobs lost, and entertainment value gone, all for the addition of a small amount of car spots which would do nothing to solve any congestion or traffic issues.

Kind regards

Jiri hylak

To whom it may concern,

Saw the disappointing news that
hypercarting is at the risk of being shut down. The moore park precinct has ep2 and ep3 plus the stadium has the new carpark construction under development. You've taken away the street parking along moore park. How much more do you want to take away from the community?

It'll be an extreme shame to remove a business that provides levity in the face of bleakness that sydney is becoming.

Dear Planning Lodgements Team,

Thank you for your email and for giving me the opportunity to provide my comments regarding RD/2023/897/A at 116 Lang Road, Moore Park.

I am writing to express my strong support for keeping Hyper Karting open. Hyper Karting has become a valuable part of the community, providing a safe, exciting, and inclusive space for people of all ages to enjoy motorsport in a controlled environment. It not only encourages healthy activity and friendly competition, but also offers a unique recreational experience that brings together families, friends, and visitors from all around Sydney.

The facility has demonstrated a commitment to safety, professionalism, and community engagement, which I believe are essential qualities for any successful operation. It also contributes positively to the local economy by attracting visitors to the area and supporting jobs.

I sincerely hope that Hyper Karting can continue to operate at Moore Park, as its closure would be a significant loss for the community. Please consider this submission as a show of support for the ongoing presence of Hyper Karting.

Thank you for your time and consideration.

Kind regards,

Nadashe Tuaineiti

Dear Shannon

I am writing to express my strong **support for Hyper Karting continuing to operate** at its current location.

Hyper Karting is a rare example of a **fun, locally focused business** that brings**energy, foot traffic, and diverse activity into our city**. It contributes to Sydney's vibrancy and offers something**genuinely different** for residents and visitors alike. Losing businesses like this diminishes the character that makes our city appealing.

The stated need for additional parking is difficult to reconcile with the reality that the car park is frequently not at capacity. Removing an active, successful business for underutilised parking feels disproportionate, particularly when**City of Sydney policies consistently champion small businesses, activation, and community-oriented spaces**.

I strongly encourage Council to consider alternative solutions that allow Hyper Karting to continue operating as is while addressing parking needs in other ways. Supporting innovative, small businesses is essential to a lively and resilient city.

Thank you for your consideration.

Dear Shannon,

I strongly oppose the plan to close Hyper Karting. It's a great place to go with friends and family, and it's a place that I have personally had a great time and would be very said to see closed in favour of a floor of car parking. One additional level of car parking will not genuinely solve any problems in the Entertainment Quarter, but the closure of hyperkarting would be a loss to the community.

I urge you to reconsider.

Kind regards,
Jade

Hyper Karting is a fantastic safe way for kids to learn the coordination required to drive. With so many young drivers lacking experience and resulting in accidents why would you want to remove it.

There is sufficient parking in the area for events. With an ever increasing number of obese people in the country it would also not hurt them to park a little further away from the facilities and walk in.

Please keep Hyper Karting, it is a fantastic set up and inclusive fun for the family.

With thanks and kind regards

Tom Barrett

Hi Shannon,

I enjoy Hyper Karting because it is a central place that is easy for everyone to get to, which makes it a convenient place to meet with friends.

It also helps support the local area because we often get food nearby afterwards, so it brings more business to local restaurants and adds to the atmosphere of the precinct.

I believe it should remain open because it gives the community an accessible and social place to spend time together.

Kind regards,

Joseph

Hi,

To whom it may cocnern,

Following the recent announcement of potential closure of Hyper Kart at the Entertainment Quarter, I wanted to outline the anticipated impact this will have across our venues—Fratelli Fresh, Winghaus, and El Camino Cantina.

As a key entertainment anchor within the precinct, Hyper Kart played a significant role in driving consistent footfall, attracting a broad mix of families, corporate groups, and social gatherings.

This steady flow of guests contributed not only to direct partnerships but also to the overall energy and traffic within the area.

For Fratelli Fresh, the impact is particularly significant. Our long-standing partnership with Hyper Kart, especially through tailored catering and group dining, provided a reliable stream of pre-booked business and repeat clientele. The loss of this channel will likely result in a decline in event-driven revenue and advance bookings, particularly during peak periods.

Winghaus and El Camino Cantina will also feel the effects, primarily through a reduction in walk-in traffic. Both venues have historically benefited from the high-energy, social audience drawn to Hyper Kart, with guests often dining before or after their activities.

Without this driver, we can expect softer visitation, particularly across weekends and key trading times.

More broadly, the closure is expected to impact overall footfall and traffic within the precinct.

As a major drawcard, Hyper Kart contributed to making the Entertainment Quarter a destination, encouraging longer dwell times and cross-venue visitation. Its absence may reduce the frequency of visits, shorten guest stay, and limit incidental spend across the area.

This highlights the importance of continuing to drive visitation through our own initiatives. A stronger focus on local marketing, partnerships with remaining operators, and creating compelling in-venue experiences will be key to maintaining traffic and performance across all three brands.

Please reach out if you would like to discuss this further..

Good afternoon, Shannon.

It has come to my attention that HyperKarting Sydney is at risk of losing their venue in service to enhanced parking capacity at the facility in which their business resides.

I attend HyperKarting every time I am in Sydney. I occasionally travel to Sydney for the express purpose of visiting the venue. I am eagerly awaiting the day my daughter is old enough to visit the venue and experience what I know will be a profoundly joyful time for her.

It would be tragic to lose a venue providing such value to racing fans who don't have the resources or the bandwidth to kart competitively. There's a healthy niche serviced by a business like this.

It appears to me when I visit that HyperKarting were able to acquire their place in the complex due to its low use compared to other parking structures in the city. I haven't been able to understand what would cause enough of a parking demand to require their current space to be withdrawn.

I'm sure you have plenty emails on the topic. I just want to register a vote for the preservation of HyperKarting at their venue.

Regards,
Curtis Bird

Dear City of Sydney Council,

Please do not shut down Hyperkarting. I feel it's a bad decision do to so, many individuals see this as a recreational area vital to their lives and wellbeing. I also think converting it to a carpark would attract more cars instead of using the nearby public transport, you should know why cars are bad. PLEASE DO NOT SHUT THEM DOWN!!!!!!!

Dear Shannon Rickersey

We do not need another car park.

We want Hyperkarting to Stay.

Please reconsider the Hyperkarting's application to continue it's operation at the Entertainment Quarter carpark.

Hyperkarting has been an amazing entertainment facility to the area, one place which I continually recommend take my friends and family visiting Sydney to experience themselves. It's been a place for a lot of memories especially for those in the go karting / car community.

It's also a place my partner and I routinely visit to burn out some stress on the tracks by having the adrenaline rush on bad days at work, and hyperkating has been one of the things which has helped us get through it.

Out of all of the venues at the entertainment quarter, I do not visit any other place besides Hyperkarting. If there is no hyperkarting then there really is no life there.

If the issue is with capacity of spectators and spacing for cars, maybe consider increasing the frequency of light rails instead on days of major events similar to how transport NSW increased their services for major concerts for Taylor Swift last year at Sydney Olympic Park if this is a. OR consider opening up temporary carpark venues on major events days on school gates rather than demolishing a well established facility.

Please take into consideration the views of the general public and residents living within the city of Sydney.

Kind regards,

Jennifer

City of Sydney

this would have to be the worst decision if you decide to close Hyper carting that I can imagine-

We live on the North Shore and we regularly organise group events to come to hyper karting. We always have dinner pre-or post the event and offer her a group of 20 to 30 people.

you need to be reducing car spaces, not increasing them to encourage people to use the public transport system around your area which is absolutely fantastic. You take away a business to generate so many jobs create so many amazing memories encourages people to come to the area seems completely insane to me

I strongly Hope that you do not go ahead with your insane proposal to close it down for more parking

Regards
Toby Withers

Good Afternoon,

I just wanted to reach out about the plan to shut down Hyper Karting, because honestly it feels like a big loss for the community.

That venue creates a genuinely safe, controlled, and fun environment for all people. It is a great social space where friends, families, and groups all come together there, and that kind of positive outlet is hard to replace.

It also brings a lot of energy and foot traffic into Moore Park. People don't just go there for karting, they eat nearby, hang out, and spend time in the area. It's part of what makes the precinct feel alive. I personally have visited multiple times and have spent hundreds of dollars in the venue each time - whether it be meals or visiting the cinema afterwards.

Trading a well-loved destination like that for another 300 parking spaces just doesn't feel like a fair exchange. I understand parking is useful, but it doesn't create the same community value, experiences, or memories that a place like Hyper Karting does.

It would be a shame to lose something that so many people genuinely enjoy, especially if it something that Moore Park AND the people of Sydney benefit from.

At the end of the day, Moore Park is a precinct for fun, whether it be Cirque, footy games, movies etc. Removing Hyper Karting from this will cause less foot traffic, less money to the precinct, and takes away from what the core of the entertainment quarter is really about - entertainment.

Thanks for taking the time to read this.

Kindest,
Tanya

Hello,

My name is Arda Sahin,

I am writing this email as a way to express my opinion on shutting down HyperKarting. I request for this decision to be rethought for a better outcome, they are not a large company, however they hold a place in Australia, they've earnt their right to stay there, being an Australians first type of business. Closing this business would give an additional 296 car park spots, but they've provided proof, proof that disputes any benefit for real Australians, even on the busiest of days the other levels aren't full, let alone anyone complaining about not enough space. Places that care about their customers are far and few between, HyperKarting doesn't deserve this, please allow them to operate in full capacity at their current location, it's the right thing to do, it's the Australian way.

Thanks,
Arda

To whom it may concern,

Please approve hyper karting to remain at its current location. From someone whom lived 5 minutes down the road for 20 years, this floor of the parking was basically vacant all year round.

Hyperkarting provides an option for the city community without taking up large commercial space.

Kind regards,
Sarah Sammut

Hi,
Like many other businesses,
We use Hyperkarting for our team bonding events. It's always a great evening out, and is an office favourite.

Sadly there aren't enough such businesses and experiences in the CBD.
We can't lose one of the good ones.

Regards
Anouar Bannouri

Dear Ms Rickersey,

I hope you are well.

I am writing to bring your attention to a growing community petition advocating for the continued operation of Hyper Karting. This venue has become an important recreational space for many individuals and families, offering not only entertainment but also a safe and engaging environment for people of all ages.

The potential closure of Hyper Karting would have a noticeable impact on the local community. It provides jobs, supports local economic activity, and serves as a popular social hub. Many community members, including myself, value the accessibility and unique experiences it offers.

The petition reflects the strong support from the community to keep Hyper Karting open, and I kindly ask that you consider this matter and the voices of those who have signed. We would greatly appreciate any efforts to review the situation and explore possible solutions that allow the venue to continue operating.

Thank you for your time and consideration. I would be happy to provide further information if needed.

Kind regards,
Pukhraj Sanghera

Subject: Strong Objection to the Proposed Closure of Hyper Karting at the Entertainment Quarter

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear City of Sydney,

I am writing to express my absolute frustration and anger at the Council's apparent efforts to shut down Hyper Karting at the Entertainment Quarter.

This decision is deeply disappointing and, frankly, makes no sense.

Hyper Karting is one of the few genuinely exciting attractions in the Entertainment Quarter. It brings people into an area that is otherwise often quiet, lifeless, and underutilised. Removing it will only make that problem worse. Instead of supporting a business that is actively drawing crowds, creating energy, and contributing to the local economy, Council appears determined to push it out.

As someone who has visited the Entertainment Quarter, I can say from experience that it often feels empty unless there is a major event on. Hyper Karting is one of the few attractions that consistently draws people in and gives the area life. Removing it sends a clear message that Council is not serious about activating this space or supporting businesses that succeed in doing exactly that.

This decision feels not only misguided, but actively damaging to Sydney's cultural and entertainment landscape. At a time when cities should be encouraging unique, engaging experiences that attract both locals and visitors, this move does the opposite.

I strongly urge the Council to reconsider this position and work with the operators of Hyper Karting to keep it open. Supporting businesses that bring life, energy, and economic benefit to our city should be a priority, not something to be shut down.

Hi,

I hope you are well. We are UNSW Motorsport Society, a community of over 400 motorsport enthusiasts.

One of our core events that we host are races at Hyperkarting. Hosting events at this venue has been an integral part of our society, serving as a place close to our university for people to have fun and make friends. Removing Hyperkarting would have a large impact on the culture within our community.

I ask you to please reconsider your decision to close down Hyperkarting, so we can continue hosting memorable events for our members and grow our community.

Thank you for your consideration.

Sad to hear the Hyper Karts may be shutting down
Have attended as a family, with friends and have also brought school groups, including students with disabilities. Every time it has been a fun a day enjoyable experience- giving opportunities to bond and make memories, and to get out of your comfort zone and try something new.

Would be a real shame if closes. No other experiences like it near by.

To whom it may concern,

I am writing to express my opposition to the decision to close Hyper Karting and replace it with additional car parking.

As a local resident of Cook Road, Centennial Park, I recognise the importance of having accessible local entertainment options and the positive impact they have on both the local economy and employment. Local government should be supporting and protecting small businesses, helping them to thrive rather than putting them at risk through short-sighted decision-making.

I am increasingly disheartened by the decisions the City of Sydney is making within our area. The Entertainment Quarter is already under-utilised, so it is difficult to understand why the City would choose to remove a successful business in favour of more parking. Surely a more constructive focus would be on improving public transport access (in partnership with the State Government) rather than encouraging increased car use through expanded parking capacity.

I strongly encourage the City to reverse this decision and support businesses like Hyper Karting that contribute meaningfully to our community and local economy.

Hello,

Please do not force Hyper Karts to close down. This is the only karting place in Sydney that caters for kids under 12. My children - now 9, 7, and 5 started using Hyper Karts 3 years ago and absolutely love it. It's their favorite thing to do, they ask to go all the time. They love cars and driving and it is the only place they can do this. Shut it down and they won't be able to go karting for years… 7 years for my 5 year old.

This place is special, it's formed the my kids fondest childhood memories, and we're not the only ones.

Thanks for your consideration.

James Beasley

Hello,

I recently heard about the potential termination of Hyperkarting at Moore Park and wanted voice concern over this possibility.

I have been to the venue multiple times as part of events held by university clubs as well as privately and have enjoyed every occasion.

To lose this establishment would be of great inconvenience to me as the nearest venue of this nature is beyond a reasonable distance to travel and would prevent me from enjoying an amazing experience with friends and family.

I hope that a reconsidered approach to this topic can found as the community as a whole would be affected by this potential closure, including myself.

No to more car parks.

Teenagers (adults and younger people alike) require more activities available other than screens. Hyperkarting provides a physical activity in a community based environment.

Additional car parks are not a solution - public transport should be encouraged.

I am against the proposal RD/2023/897/A.

Kind regards
Rebecca

To whom it may concern,

It has broken my heart to hear the news of HyperKarting having the possibility to shut down. This place holds so many special memories for me and shutting this second home down would be a massive mistake.

I remember my first race five years ago and being so excited to try something new. I remember my race results weren't the best, but that didn't matter. Because I had the time of my life. I've been a regular customer over the past five years, making a special tradition to race every Tuesday with my friend. We've met so many new people from all around Sydney and it feels like we have our own little special community. Without HyperKarting, I would lose the connection with all these people from all these different places around Sydney. You would be taking away my HyperKarting family.

I believe HyperKarting should stay open. There is a great amount of vacant parking spots within the EQ Carpark, and taking away something that has brought so many people of different backgrounds together would greatly impact many people's lives. People's jobs, people's hobby's, and most importantly, our family. If in need of more space, create other solutions - open up more grass space during events, or even suggest car parks that are easily accessible from the light rail. There are so many different ways to solve a problem, but taking away something so many people love is not the right solution.

Please reconsider your decision of shutting down HyperKarting and the complications that come with it. Is it really worth taking away my family for some parking spots?

Hope to hear good results soon.

Hey,

I've been made aware of the horrifying potential decision to shut down hyper karting to add more parking spaces.

The last thing our city needs is more parking, especially at the expense of one of the few things left that people can enjoy that doesn't involve food or alcohol.

The worst part about this decision is how it flies in the face of taxpayers investments in public transport, with billions being spent to increase car-free access to Moore Park through the new light rail line. To shut down the only place within 40km of the CBD to go-kart for more parking would be absurd.

This is a city for people not a city for cars. Stop destroying our few remaining entertainment venues.

Regards,
Ashur Chamoun

Hi Shannon,

I enjoy Hyper Karting because it is a central place that is easy for everyone to get to, which makes it a convenient place to meet with friends.

It also helps support the local area because we often get food nearby afterwards, so it brings more business to local restaurants and adds to the atmosphere of the precinct.

I believe it should remain open because it gives the community an accessible and social place to spend time together.

Kind regards,

Joseph

Dear Shannon Rickersey,

My wife and I recently received a letter from the City of Sydney regarding Hyper Karting's DA application and I wanted to write in to express my support of Hyper Karting's continued operation in the area. It is a fantastic business that adds real vibrancy to the broader precinct and is a huge driver of positive traffic to the Entertainment Quarter.

We feel Hyper Karting's use of the space is far superior to the car parking it takes up (parking has never been an issue and there are lower impact alternatives).

We encourage you to reconsider your decision and allow this great business to continue operating.

Thanks,
Sam

Dear City of Sydney,

I am writing to express my deep concern with the proposed closure of hyperkarting. Hyperkarting has been a source of joy and excitement for me over the years. And to see it closed for a measly and ultimately unnecessary 296 car spaces would be an immense shame and loss of a truly unique Sydney activity.

Over the years I have:
- visited hyperkarting with multiple workplaces for functions and events
- visited with friends and family and had a fantastic experience each time

To be frank, hyperkarting exists as one of the only reasons I have travelled to the area, spent money at local businesses, and look to return in future.

I strongly hope you reconsider the supposed need for these extra parking spots. If attendee numbers in the entertainment quarter during infrequent, busy events is such a concern, then there a lot more alternatives I hope you consider before forcing the closure of such a unique business (e.g improved public transport, event specific shuttle services, etc).

Kind regards,
Bennett Frerck

Dear City of Sydney Council,

I am writing to express my concern about the proposed closure of Hyper Karting.

Sydney already feels like it lacks enough engaging entertainment options for kids, families, and young people, and Hyper Karting is one of the few activities that genuinely brings people together. It is such a fun, inclusive experience that people of all ages can enjoy, whether you're going with friends or spending time with family.

Personally, I always look forward to visiting and taking my family there. It has become something we genuinely enjoy doing together, and experiences like that are hard to replace. The environment is always welcoming, the staff are kind and friendly, and it creates a really positive atmosphere for everyone who goes.

It's also important to consider the number of people employed there. Closing it down would impact many workers and take away jobs from a place that clearly contributes to the community.

Additionally, concerns about space and infrastructure don't seem justified, as there is already sufficient parking available, and further development plans suggest this will only improve. There doesn't appear to be a strong reason to remove such a well-used and valued facility.

Sydney needs more spaces like Hyper Karting, not fewer. I strongly urge you to reconsider this decision and support keeping it open for the benefit of the community.

Signed,
Mischa Hewitt
Queens Park 2022

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom this may concern,

I am writing to express my strong opposition to the proposed closure of Hyper Karting. This decision carries significant economic and political implications that I urge the Council to carefully reconsider.

From an economic perspective, Hyper Karting contributes meaningfully to the local economy. It generates employment opportunities, supports small businesses in the surrounding area, and attracts both local residents and visitors. The venue encourages spending across hospitality, retail, and transport sectors, creating a ripple effect that benefits the broader community. Closing it would not only result in direct job losses but also reduce economic activity in nearby businesses that rely on its foot traffic.

Additionally, recreational venues like Hyper Karting play an important role in sustaining Sydney's reputation as a vibrant and diverse city. In a competitive global environment, maintaining unique entertainment options is essential for tourism and for retaining young professionals and families who value lifestyle amenities. Removing such attractions risks diminishing Sydney's appeal as a dynamic urban centre.

From a political standpoint, the closure may also lead to public dissatisfaction. Facilities like Hyper Karting serve as accessible recreational outlets for a wide demographic, including young people and families. Eliminating such spaces can be perceived as a reduction in community investment and may contribute to a sense that public voices are not being adequately considered. Supporting community-oriented venues demonstrates responsiveness and commitment to residents' quality of life—an important factor in maintaining public trust and confidence in local governance.

Furthermore, preserving recreational infrastructure aligns with broader policy goals around community wellbeing, social cohesion, and active lifestyles. Rather than closing the venue, the Council could explore opportunities to work collaboratively with operators to address any concerns, ensuring the facility continues to operate in a way that benefits both the community and the city.

I respectfully urge the Council to reconsider this decision and to engage with stakeholders to find a solution that preserves the economic, social, and cultural value that Hyper Karting provides.

Thank you for your time and consideration.

Yours sincerely,
Dali Grieco

Hyperkarting is an amazing entertainment option bringing together large crowds of friends and family to enjoy an activity that is not readily available in this part of Sydney. Most karting venues are very far west, making hyperkarting the perfect opportunity to fill a void.

It also brings people, myself included, into other parts of the entertainment quarter where we would otherwise not go (eg drinks and food afterwards). I have held a work Christmas gathering there where we started with a 10 person group karting

Parking should not be prioritised over hyperkarting as there is light rail, which can be used to easily park in adjacent suburbs. This would not only allow hyperkarting to remain, but would help avoid the long wait times to leave the top floors of the carpark every time there is an event. I've personally waited 45 mins before even bothering to turn my car on and join the line of people waiting to leave. Encouraging vehicles to park a couple of light rail stops away and use the light rail would be of far more benefit than having the extra parking which only gets used on occasion.

Hyperkarting also looks to hire a lot of younger employees, a lot of whom I presume are their first jobs. It would be devastating to close the venue down which not only draws younger crowds, but is run by a younger crowd.

The staff are amazing, the prices are competitive, and it's been a great asset to the eastern suburbs of Sydney. Don't let this amazing facility disappear for the sake of parking that only gets utilised during a special event. There is plenty of street parking available to fill that void, along with buses and light rail to bring people from their cars to the venue.

Kind regards,
Jul.

To Shannon Rickersey,

I'm writing to ask you to help keep Hyper Karting in operation within the Entertainment Quarter. This is a wonderful fun and safe place for kids of all ages to go karting especially as all the cars are electric! They have such awesome courses and we've been a few times and are planning more visits with our daughter this year.

Whilst I appreciate parking spaces can be lined up gold in the city I've never had a problem finding a spot here when attending events or visiting to go karting. I have also begun using the tram to get here from the centre of Sydney as it's now so easy to get right there.

I do hope Hyper Karting can remain in place as it is such a great experience.

Kind regards
Nicki Fischer

Hi there,

I would like to raise my concern of the potential closure of Hyper Karting, Moore Park.

This will have a negative effect on the local community, as well as guests from near and far; not to mention the financial loss for both the business/staff and the local community with the loss of guests who would further spend nearby.

Please do what you can to keep it open, particularly with the way of the world right now, we need places like this.

I trust you will listen and do rights by your community.

Kind regards,
Sonia

To whom it may concern,

Please don't take Hyperkarting away for the Entertainment Quarter and our community

It's professionally run, employees 120+ young adults under 24 and provides a safe environment for our family to do an activity that really brings us together

We love the ever changing track configurations and when I get the alerts via socials, I sit down with my 13 and 11 year old girls and we discuss the layout the history behind it and when we save up the pocket money, we go and race the track.

It's a great community, the staff are warm and welcome and my girls feel very safe and respected.

There is zero tolerance for bad behaviour from others which always leaves us in a better mood than before when we walked in

The other serious component is that it's teaching my girls how to drive and understand the dynamics of a machine under different conditions, hot, cold, slippery, other drivers and how good or bad they are and teaches them to respect others on the track and to be patient and competent

From a driving perspective, this activity at Hyperkarting will make them safe and skilled drivers when they learn to drive on the road

If they are being closed down to make extra car spaces, then that is an absolute tragedy and beggars believe.

The Entertainment Quarter has so many options to get there via public transport, I thought the whole basis of our culture in the City of Sydney is too encourage us to take public transport?!

My family and I take public transport to the cricket and AFL, many do, for the drivers, if there is an overflow, the schools across the road open up to provide parking and they benefit with extra revenue get for their community.

I do not support the proposed closing of Hyperkarting. It's a central hub that benefits so many people while employing 120+ young Australians that is providing them a job, a solid work ethic which is having a positive impact on their community.

You don't need extra car spaces when the Entertainment Quarter is one of the easiest places to get to via public transport.

Many thanks,

Michael Lamb

Dear Sir/Madam,

As a young adult living in Sydney, Hyper Karting is exactly the kind of entertainment we need more of. It's fun, social, and gives people a reason to go out and enjoy the city.

Replacing it with a car park feels like a step backwards. I strongly believe venues like this are essential for keeping Sydney vibrant and engaging.

Kind regards,
Milind Joshua Kona

Good afternoon City of Sydney Council,

I am writing to **support** the review of the refusal of a Section 4.55(2) Modification Application to extend the time limited development consent (D/2023/897) to allow the continued use of Level 5 of the Entertainment Quarter car park for electric go-karting and associated entertainment activities until 1 July 2028.

I support the continued use of Level 5 of the car park as a commercial Hyper Karting venue.

I have read the reasons for Council's refusal of the limited development consent (D/2023/897). I understand the reasons for the refusal are that approving hyper karting on Level 5 are that it:

1. would reduce available car spaces and likely to result in unreasonable parking and amenity impacts,
2. does not promote the orderly use of the land, and
3. is not in the public interest.

I respectfully disagree with the Council's decision and request that Council overturn its refusal, and allow continued use of Level 5 of the car park as a commercial Hyper Karting venue.

Not in the public interest to prioritise car parking over unique amenities for children

I respectfully disagree that the ongoing development consent is not in the public interest. Hyper Karting at Moore Park offers a unique entertainment option primarily for children. There are no other equivalent carting venues in the City of Sydney or nearby.

My own children, and many others, benefit from being able to access such a unique facility in the area. Situating a unique venue like Hyper Karting in the Entertainment Quarter benefits the public interest by adding to the multifaceted entertainment options in the Quarter, making it a draw for families and others.

Shutting down the only hyper carting venue in the City of Sydney in favour of parking is not in the public interest to my mind.

Council's refusal is inconsistent with the City of Sydney Council's Environmental Strategy

The City of Sydney's own Environmental Strategy 2025 - 2030 is focussed on reducing harmful emissions from fossil fuels. The vast majority of cars on the road of NSW, and that patronise the car park at 116 Lang Road Moore Park are fossil fuel powered vehicles. The cars that use the car park are largely petrol powered. The hyper karts on Level 5 are only electric.

Removing hyper carting from Level 5 to provide additional car spaces only serves to discourage attendees from using more sustainable public transport to access the Entertainment Quarter. This is contrary to the stated aims of Council to advance more sustainable transport options.

I respectfully suggest it is inconsistent with the City of Sydney's Environmental Strategy 2025 - 2030 to prioritise parking for cars over electric powered amenities for children.

I would be happy to discuss my submission further, if required.

Many thanks

Vanessa Chan

Dear City of Sydney Submissions Board,

I am writing to express my concern regarding the proposal to close the Hyper Karting facility in exchange for an additional level of parking.

As a regular user and strong supporter of this facility, I believe Hyper Karting provides significant value to the community that extends far beyond what additional parking could offer. It is not only a recreational venue, but also a place where people—especially young drivers—can develop skills, build confidence, and engage in a safe, structured motorsport environment.

Facilities like this are rare within Sydney, particularly ones that are accessible and suitable for beginners. Removing it would reduce opportunities for community engagement, youth development, and participation in motorsport at an entry level. For many, including myself, it serves as a stepping stone into more serious forms of racing and fosters a genuine passion for the sport.

Additionally, Hyper Karting contributes to the local economy by attracting visitors, supporting jobs, and offering a unique experience within the city. Replacing it with parking may provide short-term convenience, but it does not deliver the same long-term social, economic, or cultural benefits.

I strongly urge the board to reconsider this proposal and explore alternative solutions that preserve this valuable community asset while addressing parking needs in a more balanced way.

Thank you for considering my submission.

Hamish

Dear Shannon Rickersey,

I am writing to express my strong support for HyperKarting and to respectfully request that the City of Sydney consider the significant value this facility brings to our local community.

HyperKarting is more than just a business - it's a vital community hub that brings together people from all walks of life. As a regular patron, I've witnessed firsthand how this facility fosters connection, provides a safe and accessible recreational outlet, and contributes to the vibrancy of Moore Park.

The potential loss of HyperKarting would be deeply felt across our community. There are very few venues like this in Sydney that offer such an inclusive and engaging experience for families, friends, and motorsport enthusiasts alike. The facility has become an integral part of the local landscape, and its closure would leave a significant gap that would be difficult to fill.

I understand that planning decisions involve balancing many considerations, but I would urge you to take into account the community benefit that HyperKarting provides. This is a well-loved local business that deserves the opportunity to continue serving the community.

I appreciate your time in considering this submission and would be grateful for any support you can provide in keeping HyperKarting open.

Kind regards,

Ben Chambers

Please reconsider your actions in regards to Hyperkarting.

This fantastic business provides so much fun and enjoyment to many of the visitors that it attacts.

I have attended this venue nearly 30 times and am constantly going with friends and family. Its one of our main attractions when visiting sydney

It provides a safe place to get your adrenaline going; not on the roads being a danger to others

It creates bonding experiences for all, making and strengthening friendships amongst friends, family, colleagues.

The business itself pays income tax to all its staff, pays GST on all of its income from the thousands of visitors every week. Closing this business so the carpark operator can have access to more spaces that will only be used once or twice a week is not a fair move on behalf of the State Government.

Please reconsider your choices. We love this business and would hate to see it go.

Kind regards,

Michael

Hi there

I hope you are having a good Easter holiday.

I am writing for your help to please save Hyperkarting. Please do not destroy this place. Please think about what the people want.

I wish you all the best,

Happy holidays,
Elaine

Massive fan of Hyper karting in Sydney!! One of our favourite places to go with family, for date nights and special occasions. We would be gutted if this place got shut down.

Do the right thing and listen to the public please.

Hyperkarting was there for me at my lowest... When I was just a small homunculus living in Sydney's streets Hyperkarting's bright neon glow gave me hope and a place to call home. I would sacrifice a hundred parking complexes before I let go of that. Please let Hyperkarting continue their operations so that I can continue all my birthdays there until the day I die, and when that happens my ashes can be spread across the iridescently luminous Hyperkarting tracks. This is all I ask...

We disagree with the intended demolishing of Hyper Carting in Moore Park Sydney.

This establishment has been a place of care, where beautiful memories are created a place that keeps young juniors enjoying innocent fun and away from dangers and off the streets. So many faces week in week out.

Please dont know this amazing establishment down.

Regards
Elle Trikilis

Hi there,

We are local residence and have frequented Hyper Karting over the last 2.5 years. It's a great community meeting venue and has given my kids the opportunity to experience karting. This has been life changing as my oldest son now races at state and national level. We are grateful for the encouragement and support given to us (and other families) by the staff at Hyperkarting. We have never experienced the carpark being close to full so struggle to see a benefit to the community by offering more spaces at the detriment of Hyperkarting. We support Hyperkarting remaining open as a vibrant community hub.

Regards,

Recently I've found out that you are planning to decline hyperkarting to stay at entertainment quarter car park. It is awful decision, my whole family of four has been a frequent visitor, we've had member subscription there and brought many of our friends there. People who visited went on to have dinner at Entertainment Quarter, some went to movies. if not for hyper karting, we would have gone somewhere else. Please consider how many people your decision will affect, this place is the best karting in Sydney and a lot of people enjoy it every day.

Hi,

I am writing to you today regarding the decision to remove Hyper Karting from Level 5 of the Entertainment Quarter carpark. As an employee of Hyper Karting, I am regularly in the Entertainment Quarter at a variety of times in the morning, afternoon, and night. Level 4 of this carpark very rarely has more than a couple of cars, and even on nights where there is both a sports game and a major concert in Moore Park I have never seen it at capacity. I feel that this demonstrates little to no need for more parking spaces in the entertainment quarter.

I understand that there is plans for further development at EQ which will involve the removal of a number of outdoor car parking spaces, however I also understand that there will be 1200 new car parking spaces nearby in 12 months. This means that the benefit of the car parking spaces gained by removing Hyper Karting would only matter in a significant way for one year. To me, it does not seem to be logical to displace the only consistently busy business in the Entertainment Quarter (one of the most accessible areas in Sydney by public transport) for what is essentially one year of 300 extra car parking spaces.

Kind regards,
Mitchell Cook

I used to go to this place almost every day before I was struck by a car on birrel street. Now almost fully recovered, I look to see when I could go to find it's being shut down, all for 298 car spots, even when there are other car parks near being built. All I ask is please, for the sake of everyone working and going to hyper karting, don't shut this place down.

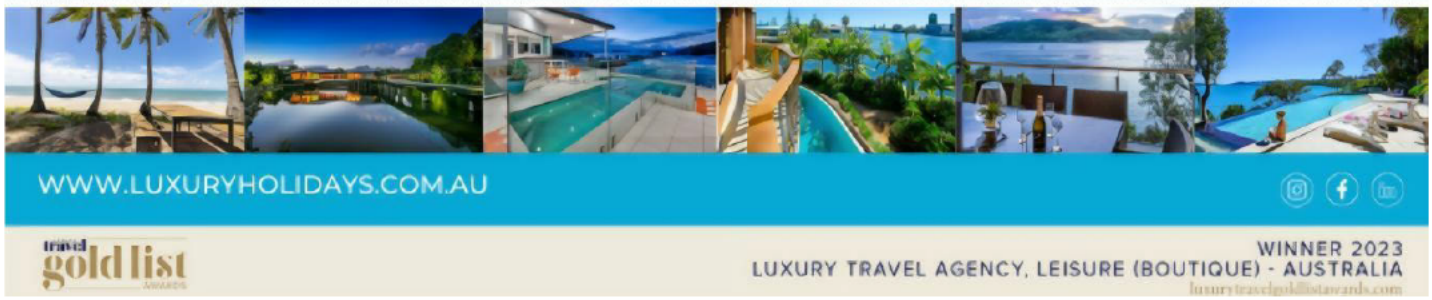
Hyperkarting is the highlight of my teenage daughter's trip to Sydney and one of the reasons she wants to go to Sydney for her birthdays and other occasions. Obviously, lots of people feel this way. There is not much entertainment for 18-year-olds in Sydney, and this is needed. Keeping youth entertained and out of trouble should be your priority.



You obviously don't need more parking there!!

The use of a single carpark level is a small price to pay for what Hyper karting brings to the local community and to the city of Sydney.

I've had so many fun, wholesome moments at the track with colleagues from the film industry, as it's only a short stroll. It's very convenient for us. But what I've noticed is the amount of international and interstate visitors I would meet at Hyper Karting. It's a genuine attraction outside of Sydney, and let's face it, we need more to do in this city not less.

Finally as an active participant and member of Motorsport Australia, I feel having a local karting track that is this accessible, helps with driver aggression on the roads. Give people an outlet in a safe environment, or potentially have more risky behaviour on public roads.

We need Hyper Karting. You should not take this away from the community.

Dear Shannon,

I first attended Hyper Karting as a university student looking for some fun with friends.

Since then I have been back numerous times with many different friend groups and have seen countless members of the community enjoy this amazing karting track.

To think it would be closing would mean Sydney would lose one of the best parts of the Moore Park Entertainment Centre.

It would also mean a great deal of people would be losing the chance to have a few moments of joy all to themselves, where they can forget about their worries in life and just have fun racing.

I would greatly appreciate if Hyper Karting was allowed to continue operating.

Thank you for your time

Dear City of Sydney,

Please don’t close hyper karting. It is one of the few affordable and accessible locations for entertainment in Sydney. This has been a place that me and my friends have come to on a number of occasions to enjoy karting and the thrill of speed which is specially very inaccessible or unaffordable. The parking spaces are not actually that beneficial if the carpark doesn’t even reach capacity during large sporting events and concerts in Moore Park.

Thank you for your consideration and i hope you consider the value of affordable entertainment for people across Sydney.

Regards,
Aidan
A racing enthusiast and enjoyer of karting

Hyperkarting has been one of the most enjoyable things to do in Sydney with friends, and has been the location where I've met so many new people and friends.

Turning this into a carpark makes a world already desolate of connections even smaller.

Please do not make Sydney less social, especially for a car park which we should be encouraging people to use world class public transport.

Hi Shannon,

I am writing to formally express my strong support for retaining the Hyperkarting facility and to respectfully oppose the proposed increase in car parking capacity at its expense.

Hyperkarting is a truly unique recreational offering in Sydney, one that is not easily replaced or replicated. It provides a high-quality, engaging experience that serves a broad cross-section of the community, from young people and families to visitors from interstate and overseas. I have personally brought friends and family visiting from overseas to experience it, and without exception, it has been a highlight of their time in Sydney.

Facilities like this contribute meaningfully to the vibrancy and liveability of our city. They encourage social connection, active recreation, and create memorable experiences that go beyond what standard infrastructure can offer. Removing such a distinctive attraction in favour of additional parking would represent a significant loss to the community.

It is also important to note that the area is already supported by existing parking options and accessible public transport. Increasing parking capacity in this context appears unnecessary and does not align with broader goals of encouraging sustainable transport and activating community spaces.

Retaining Hyperkarting would demonstrate a commitment to preserving unique, community-valued experiences and supporting local recreation. I strongly urge Council to reconsider the proposal and prioritise the long-term social and cultural value that this facility provides.

Betty

Subject: Opposition to the Proposed Development/Removal of Hyper Karting

Dear Shannon.

I am writing to express my strong opposition to the proposed development or removal of Hyper Karting. This venue has become an essential part of our community, offering a popular social activity that brings together people of all ages.

Hyper Karting not only provides an enjoyable recreational option but also supports a thriving local business. Its removal would be a significant loss to residents who value having such an engaging leisure activity close to home. Not to mention the jobs and contribution as a local business.

I urge you to reconsider any plans that may threaten the future of Hyper Karting and to explore alternatives that allow it to continue serving our community.

Thank you for taking my concerns into consideration.

Sincerely,

Emily

To Shannon Rickersey.

I write this email today as I have been following the submission to close Hyper Karting in Moore Park, in order to be replaced with extra car parking spaces.

As someone who has visited Hyper Karting on multiple occasions, I think that the City of Sydney will be losing a venue, integral to the ongoing DNA of EQ. There has never been a time where I have parked at EQ and not found a space to park. Aside from the busiest entertainment days of Thursday - Sunday, EQ is generally pretty quiet, and does not require extra car spaces (even on those said days). Aside from the stadiums, Hordern Pavilion and limited retail and food offerings, Hyperkarting provides a unique experience in an otherwise dead area.

Hyper Karting personally has been a venue for friend get togethers, work team nights, family functions and dates, and provides a karting experience that you aren't able to find so close to the city.

Furthermore, I find it somewhat hypocritical, that a council, with a Lord Mayor in Clover Moore who publicly aims to promote 'sustainability' by means of bicycles and public transport, is attempting to shut down an ELECTRIC karting venue, for the sake of an extra 270 vehicles to be able to drive to the carpark. Maybe planning better tram and bus services during events might be the way to go?

Whilst I appreciate the opportunity to express my opinion on this matter, I do hope the City of Sydney Council can come to it's senses, and reconsider the need of these extra car spaces, and keep hyper karting at EQ

Kind Regards,
Adrian McCann

Hi

Please do not cause the shutdown of Hyper Karting.

This is an awesome family venue and a green one at that (electric). The idea that the closing of another carpark should result in the refusal to the current DA for Hyper Karting is non-sense.

I oppose the opposition to the extension.

Please approve the extension

Thank you

Please keep hyperkarting open at EQ!

We have had so much fun there at our corporate events and taking the kids for a fun day out. We love that the cars are electric, quiet and still so fun to drive.

We live in Belrose and the transport is terrible, but we still went to see the Wrexham v Sydney game via public transport! The new light rail has made the trip so much easier than fighting the traffic going across the bridge. We will be doing the same again later this year for the Chelsea Tottenham game.

Adding more parking spaces will just encourage more cars on the road rather than encouraging the greener option of public transport.

The decision to close goes against what the City of Sydney has always stood for- promoting businesses, the city night life and reducing cars on the road! Why?!

Regards

Dear City of Sydney,

I strongly support the continuation of the electric go-karting facility at Level 5, 116 Lang Road, Moore Park.

This is a rare, accessible recreational activity that contributes positively to community wellbeing. Active leisure experiences like this are proven to improve mental health, reduce stress, and encourage social connection — something that is increasingly important in urban environments like Sydney.

The venue is well-utilised, family-friendly, and adds meaningful value to the Entertainment Quarter, supporting local visitation and economic activity. Losing it would remove a unique and beneficial community asset with no clear equivalent replacement.

Extending its operation until 1 July 2028 is a practical and community-focused decision that aligns with promoting active, healthy lifestyles and vibrant local precincts.

I strongly urge the City of Sydney to approve this extension.

Kind regards,
Ivan

Dear Council,

The Entertainment Quarter has one of the few things that is working well: the adaptive reuse of surplus parking.

Since opening in 2011, we have never seen the car park full.

I thought the introduction of Lime bikes and the misplaced Anzac Road pedestrian bridge were intended to reduce traffic.

Hyper Kart is an exceptionally well-run family activity centre.

It must be retained.

I urge you to make a sound decision.

Regards,

Ian O'Toole

To whom it may concern,

Hyperkarting provides jobs, entertainment and business for the restaurants in the area. Moore park is not a difficult place to reach and there is no shortage of parking in the area. Removing an area of joy for pointless infrastructure is an absurd decision.

Australia should be looking at improving public transport infrastructure, not waiting space and tax payer money on parking. This institution is a landmark providing as an amazing place for everyone to enjoy themselves whilst also employing so many in an economy where basics have become a struggle.

It would be an absolute shame if anything were to happen. Not the country that all its citizens are proud of.

Kind regards,
Ishmam Saleh

Dear Shannon
I am in support of keeping this business going at the car park at Moore Park
My family and I attend many events nearby and the majority of time there is plenty of parking
On the occasion that there is some sort of sell out game we get there earlier to find a car space or use public transport
The go kart track here has provided my kids and family with birthdays and other very special events
It seems that business in Sydney just don't get any more fair breaks
Please keep the karts open

Kind Regards,

Greg Mavridis

This is an absolute disgrace from the council.

Choosing to close a family friendly, fun and genuine positive activity (which there are so little off in this city) for some paid rooftop parking spaces.

What this council is doing no longer aligns with the constituents of the area.

Removing street parking in favour of garden beds.

Installing pedestrian crossings on back streets that have little to no foot traffic.

Not fixing or caring about dangerous pedestrian crossings that have been reported on numerous occasions.

Streets lined with garbage and broken glass.

Crime beginning to creep back into family areas.

The swarm of e-bikes littering our footpaths disrupting pedestrian traffic and a genuine issue for the disabled that require mobility devices.

No - what you decide to do is destroy a business, cost people jobs and livelihood. And remove any sort of fun from this city.

Sydney city is becoming one of the biggest “F**K YOU” cities. No fun, no entertainment. Only what someone in a boardroom has decided we can have without spending time in the public or listening to the people.

Regards,
[redacted]

Hi City of Sydney,

I am writing to urge the Council to reconsider its recent decision to deny the two-year lease extension for Hyper Karting in the Moore Park Entertainment Quarter. Shutting down one of Sydney's most popular entertainment venues to reclaim a fraction of car park spaces is a significant step backward for our local community and economy.

Since opening in 2021, Hyper Karting has transformed an underutilised concrete rooftop into a vibrant community hub. Forcing its closure overlooks the substantial value it brings to the city.

I urge you to consider the following points:

- The Parking Argument is Flawed: The council's primary reasoning is that the 298 spaces occupied by the track are needed to offset the phasing out of on-grass parking around Allianz Stadium. However, Transport for NSW data indicates that the 2,003-space Entertainment Quarter car park rarely reaches capacity, even during major events. Reclaiming this space will likely result in an empty concrete slab for 99% of the year.
- Significant Economic & Job Losses: Hyper Karting employs over 150 people. In an economic climate where job security is vital, putting 150 livelihoods at risk for the sake of redundant parking spaces is an unacceptable trade-off.
- Counterproductive to Precinct Revitalisation: The NSW Government and local leaders have openly stated a desire to turn the Entertainment Quarter into a thriving, year-round cultural and hospitality destination. Hyper Karting has attracted over 500,000 visitors since its inception, consistently drawing foot traffic outside of major sporting events. Removing a primary driver of this activity actively works against the precinct's long-term goals.

Sydney needs vibrant, innovative, and accessible recreational spaces—not more empty parking spots.

I respectfully ask that the Council work collaboratively with the operators of Hyper Karting and the Entertainment Quarter leaseholders to grant the two-year extension. Let us prioritise jobs, local businesses, and community entertainment over an unnecessary abundance of parking.

Thank you for your time and for prioritising the cultural heartbeat of Sydney. I look forward to hearing your thoughts on this urgent matter.

Kind regards,

Elliot

To whom it may concern

I'm emailing my support to keep hyper karting open. The eastern suburbs needs more family friendly activities, not less. I think it's also an important asset for EQ attracting visitors, it should be an entertainment precinct and for years it was dead unless a sports game was on. Recent additions like hyper karting have made a big difference to attracting people and families to the precinct and in turn new and better food places have opened. I am at EQ frequently and I 100% agree that parking is not an issue in that car park, even on the busiest days.

Please reconsider and save this venue.

Kind regards
Jacqui Shepherd

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Attention Shannon Rickersey,

I am writing to strongly object to Submission RD/2023/897/A relating to 116 Lang Road, Moore Park NSW 2021, and the proposed outcome that would force HyperKart to close.

This decision puts more than 150 jobs at risk and threatens the future of a much-loved Sydney venue that brings people together. HyperKart is not just a go-kart track. It is a place where families celebrate birthdays, friends gather, colleagues connect, and people of all ages enjoy a safe, active, social night out. It creates memories, supports local employment, and adds something genuinely valuable to Sydney's nightlife and entertainment offering.

At a time when Sydney is constantly criticised for losing its vibrancy, it is deeply disappointing to see the City of Sydney supporting an outcome that removes one of the few unique recreational venues available to the public. We should be encouraging businesses like HyperKart to exist and thrive, not driving them out. This feels like an outdated and out-of-touch approach to city planning that ignores what people actually want from their city.

We are in the middle of a cost-of-living crisis, and small businesses are already under enormous pressure. Closing a venue like HyperKart to create 296 additional car spaces seems completely disproportionate, particularly when the existing parking arrangements appear to function adequately and the car park is often not full. It is difficult to understand how this can be considered a better public outcome than preserving a successful business, protecting jobs, and maintaining an important entertainment venue.

If the City of Sydney is serious about improving the area, there are more pressing issues that deserve attention. Darlinghurst Road and the surrounding side streets are in poor condition and would benefit far more from investment and improvement than the loss of a functioning and popular local business. Prioritising underused car spaces over jobs, local trade, and community activity sends the wrong message about the City's values and priorities.

This proposal represents a failure to support small business, local employment, and the kind of activity that makes Sydney a more exciting and liveable city. Closing HyperKart would be a terrible decision for workers, customers, and the broader community. It would strip away one of the few venues that contributes energy, fun, and accessible entertainment to Sydney's nightlife.

I urge the City of Sydney to reject this proposal and take a more practical, community-minded view of what this city needs. Sydney does not need fewer places for people to gather, celebrate, and enjoy themselves. It needs more.

Please give proper consideration to the people whose jobs, livelihoods, and experiences will be affected by this decision.

Kind regards,

Mr Blake Tierney

Dear Shannon,

I hope this email finds you well.

I am writing to express my strong concern regarding the proposed closure of the hyperkarting business that has been operating in Moore Park for a number of years. As someone who works within the retail leasing sector, it is deeply upsetting to see established retail businesses and experiential offerings such as this being displaced to accommodate additional car parking.

We are currently in a period where the retail sector is already under significant strain. Across the industry, we are witnessing an increasing number of store closures and businesses struggling to remain viable. In this climate, it is incredibly frustrating to observe that, at a time when our retailers and operators need the most support, the focus appears to be shifting toward replacing them rather than preserving and strengthening these valuable commercial and community assets.

Experiential destinations like the hyperkarting centre play an important role in driving foot traffic, activating precincts, and contributing to the vibrancy of an area. Removing such a use not only impacts the business itself but also has broader implications for surrounding retailers who benefit from the increased visitation and engagement these attractions bring.

While I understand the need to address parking demands, I suggest that alternative solutions be considered instead. Given that the proposed parking structure is multi-level, there may be an opportunity to expand vertically by adding additional levels, rather than displacing an existing and functioning business. This approach could provide a more balanced outcome—meeting parking requirements while preserving the diversity and vitality of the precinct.

I strongly encourage council to reconsider this proposal and to explore solutions that support both infrastructure needs and the sustainability of our retail and leisure sectors.

Thank you for your time and consideration.

Kind regards,

Faye

Subject: Support to Keep Hyper Karting Open

Dear Council Members,

I am writing to express my strong support for keeping Hyper Karting open. This venue is not only a beloved local attraction but also a significant employer in our community, providing over 150 jobs. The potential closure to make way for additional parking spots would have a devastating impact on both the employees and the local economy.

I urge you to reconsider this decision and explore alternative solutions that preserve the jobs and community spirit that Hyper Karting brings to our area. Every effort to keep this venue operational is greatly appreciated.

Thank you for your attention to this important matter.

Sincerely,

Basil Scaravilli

Good afternoon,
I am here to tell you to stop the car parking spot as it is unnecessary and ridiculous. You guys need to pull your heads in and fingers out of arses to realise what you are doing here.

It is actually embarrassing. Put your parking somewhere else don't ruin someone's income and way of work. This is a dream builder. And a lot of thought has been put into this business.

I really hope you change your mind and realise what you are putting out into the community and realise the hate you have shot through Aussies.

Stop ruining Australia with this stupid plans

Hi DA team,

Please don’t close hyperkarting for more car spaces.

We drive 45 mins to go there, theres so few places in Sydney for teens, those between 14 - 18 can go for fun. Most places are for primary school age kids, there’s a big void in between for the teens to have fun & not feel it’s “lame” (to use the words of our teenage sons)
We need more places for teen entertainment, more than we need more car spaces.
When we come to hyperkarting, we then spend money elsewhere in the entertainment quarter e.g Jamaica blue, sushi, ice cream. I can imagine other businesses in the EQ will feel the effect of it closing.

We don’t live locally, but we do know many other people from all over Sydney visit hyperkarting, there’s no where else in Sydney like it.

Kind regards,
Leesa

Hello

'm writing in support of Hyper Kart that is threatened with closure

This facility is one of the genuinely exciting attractions across the centre of Sydney and it is rightly placed in the Entertainment Quarter Whether with my kids friends or overseas visitors it's a place regardless of day or time that we can easily go to park on site and have an exhilarating time This is regularly followed by a visit to the cafe restaurant or cinema

The irony is that this entertaining facility is to be closed to give way to more parking We have never ever had an issue with parking On occasion we have tried to go up to the roof top which it is usually closed off

We have a tax paying business with lots of tax paying employees providing a brilliant service that 100% adds to the 'entertainment' of the area alternatively we have some extra parking spots on level 5 that may get used for a few hours a few times a year

t's ridiculous the value proposition is even being questioned please help Hyper Kart to keep operating

As a final note Hyper Kart only recently opened when Covid lockdowns came to town nstead of closing they managed to stay open and provide my kids and the best 'outdoor exercise' you could wish for Fun exciting and serious amounts of energy expended in a really positive way We still tell the stories today

Thank you for your consideration

To whom it may concern

It is devastating to be writing this email. Hyperkarting is a much loved attraction in the Eastern Suburbs - don't take it away, PLEASE!

As a mum of two boys, I struggle to find venues to take my kids on holidays or even host their birthdays at, and Hyperkarting offers that unique experience that I would otherwise need to travel out west for.

The car park at Moore Park is rarely at capacity (even during peak periods). The entire EQ precinct is in much need of some revival but please don't take away one of the few things that make it worth the visit!

Gina

To whom it may concern,

I am writing in support of keeping the doors open for the hyperkarting venue at Moore park.

We watched this mornings today show and were shocked to see this is being considered & for the reason given was for “more parking spaces”! I mean how ridiculous.

We are fairly regular visitors there and even on the most crowded days we have never been unable to find a parking space.

In fact the karting venue is what would likely bring a lot of people to that complex and you will certainly find many of the surrounding businesses will suffer should it be taken away.

I mean what a joke to risk the jobs of so many people at such a popular venue for such a feeble excuse.. it really makes no sense as there is no comparable place in Sydney for kids/adults to go to.

Anyways, I’m sure there is a hidden reason as there always is with govt. Some way of sucking more profit out of the space I’m sure will be the real reason but hopefully you guys see some sense and leave this place alone as it is a great place for all ages to go and enjoy kart racing..

Regards
Holly

Dear Lord Mayor Clover Moore, Shannon Rickersey and Councillors,

I am writing as a local resident of Paddington to express my strong disappointment and objection to the recent refusal of the application to extend the temporary approval for Hyper Karting on Level 5 of the Entertainment Quarter car park in Moore Park.

Hyper Karting has been a major attraction and success story for the Entertainment Quarter since it opened. This vibrant, electric go-karting facility draws families, tourists, and locals alike, injecting energy and life into the precinct. It is one of the busiest and most popular destinations in the area, helping to support local businesses, create over 150 jobs, and bring people to the Entertainment Quarter for positive, family-friendly experiences. Turning this productive space back into empty parking spots would be a significant loss for the precinct and runs counter to the vision of making the Entertainment Quarter a lively hub of entertainment.

This decision also sets a concerning precedent. Hyper Karting is a clear example of entrepreneurial spirit — a creative business that has successfully repurposed underutilised space to offer a unique and exciting event. Supporting such initiatives encourages others to innovate and contribute to a more dynamic, people-focused Sydney. Removing it in favour of additional car parking sends the opposite message.

Importantly, the context has changed significantly since the original five-year temporary approval was granted. The light rail (L2 Randwick and L3 Kingsford lines) now provides excellent, frequent, car-free access directly to the Moore Park stop, just a short walk from the Entertainment Quarter. Combined with the growing adoption of e-bikes and other active transport options, there are now multiple convenient alternatives for visitors to reach the precinct without relying on cars. A large new car park is also under construction for the stadium precinct, further reducing any potential pressure on parking at the Entertainment Quarter.

As a local resident, I love having this high-quality attraction right on our doorstep. It is wonderful to see previously empty or underused space being put to productive, enjoyable use rather than sitting idle as additional parking that may not even be needed on most days.

I respectfully urge the Council to review and overturn this decision, or at minimum support a further short-term extension while a longer-term solution is explored. Prioritising a thriving entertainment venue over underutilised parking spaces aligns far better with the City of Sydney's stated commitment to a "city for people, not cars."

Thank you for considering my submission. I would appreciate an update on any review or appeal processes available for this application.

Kind regards

Andrew Coley

Hi team,

I support keeping Hyper Karting open, even if it means fewer car spaces. Our community needs a diverse range of activities, and venues like this add vibrancy and social value that parking alone cannot provide. Removing it would reduce what makes this area engaging and inclusive.

Thank you.

Dear city of Sydney.

How disappointing to hear that City of Sydney is considering closing down this facility for a carpark. I bring guests (visiting friends and family) to Sydney here, I do not take them to a carpark for peace and enjoyment. Any major events I go to, I use public transport.

The point of inner city living is to use public transport. To close down a facility that the community enjoyed for a couple extra car parks, but not considering improvements to public transport or car share services such as taxis and Ubers is appalling.

Kind regards,

Kylie Dixon

Hello,

I’m writing regarding the potential closure of the go karting track at the Entertainment Quarter.

Our family travels over an hour to visit and the go karting is a major reason why. It’s one of the few activities that genuinely keeps the kids excited and engaged and it has become a regular outing for us. It also makes the Entertainment Quarter feel like a true family destination.

When we visit for go karting, we also spend time at other venues in the area so it brings broader value to the precinct as a whole. Without it we would be far less likely to make the trip.

I believe many other families would feel the same, and it would be a real loss to remove something that adds so much to the overall experience.

I kindly ask that you reconsider this decision and the impact it may have on families who regularly visit.

Kind regards ,

Reyhan

Dear Councillors,

I am writing to strongly oppose the proposed closure of Hyper Karting at Moore Park to make way for additional car parking.

At a time when communities are grappling with how to better support children's wellbeing, it is deeply concerning to see the removal of a venue that provides active, social, and screen-free entertainment. Hyper Karting offers young people and families a rare opportunity to engage in physical activity, build confidence, and connect in a real-world environment which is something that is increasingly vital in an era dominated by digital screens.

This decision would also have a significant impact on local employment. Hyper Karting is a small business that supports approximately 150 employees. Closing it down risks not only livelihoods but also sends a discouraging message about how we value and support local businesses that contribute to the vibrancy and diversity of our community.

Furthermore, replacing a community-focused recreational facility with more car parking feels out of step with broader urban and environmental goals. Moore Park is already well-serviced by public transport and active travel options. Rather than prioritising increased car dependency, council should be encouraging sustainable transport solutions such as improved public transport access, cycling infrastructure, and pedestrian-friendly planning.

We have an opportunity to shape Moore Park as a forward-thinking, community-oriented space. Preserving venues like Hyper Karting aligns with this vision; prioritising people, local business, and healthy lifestyles over additional car parking.

I urge the council to reconsider this proposal and work towards solutions that support both community wellbeing and sustainable urban planning.

Thank you for your time and consideration.

Kind regards,

Ellana Costa

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon Rickersey,

I am writing to express my strong opposition to the proposed shutdown of our local go-karting track.

This is a beloved community facility where my children and their friends have celebrated many birthdays and created lasting memories. As the only such facility in the eastern suburbs, its closure would be a significant loss to our local area. If this track is cancelled, it will be yet another activity for which families like mine will be forced to drive west.

Regarding the proposal to repurpose the area for additional car park space, I believe the impact on event parking will be negligible given the existing parking capacity. While the change would only result in a slight increase in parking, it would represent a 100% decrease in go-karting facilities for our community.

I urge you to reconsider this decision and preserve this important local amenity for the families of the eastern suburbs.

Thank you for your time and for considering my concerns.

Best regards,

Dushan Arnautovich

To City of Sydney Council,

I am writing to formally express my strong support for the retention of HyperKarting Moorebank and to urge the City of Sydney to consider all possible avenues to prevent its closure or displacement.

HyperKarting is more than just an entertainment venue—it is a valuable community asset that contributes meaningfully to local employment, social connection, youth engagement, and the broader local economy.

Employment and Economic Impact

HyperKarting currently provides employment for approximately 150 individuals. The potential loss of this business would have a direct and immediate impact on these workers and their families.

At a time when job security remains a priority for many households, the displacement of a business of this scale would create unnecessary economic strain. In addition to direct employment, HyperKarting supports indirect economic activity through local suppliers, nearby businesses, and tourism-related spending.

Retaining HyperKarting helps preserve these jobs and supports the economic stability of the surrounding community.

Community and Social Value

HyperKarting serves as a unique recreational space that brings people together across all age groups. It provides a safe, structured, and engaging environment for:

Young people to participate in positive activities

Families to spend quality time together

Friends and community groups to connect

Facilities like HyperKarting are especially important in urban environments, where accessible recreational outlets can be limited. Losing such a venue would reduce opportunities for healthy social interaction and community engagement.

Youth Engagement and Wellbeing

In an era where young people face increasing challenges around mental health, screen time, and social isolation, venues like HyperKarting offer a constructive alternative.

It encourages physical activity, skill-building, confidence, and real-world social interaction. Removing this outlet risks further limiting safe and positive spaces for youth engagement.

Uniqueness and Cultural Contribution

HyperKarting is not easily replaced. Its scale, facilities, and experience offer something distinctive within the region. It attracts visitors not only locally but from across Sydney and beyond.

Losing HyperKarting would mean losing a unique part of the area's recreational landscape—something that cannot be quickly or easily replicated.

Request to Council

I respectfully urge the City of Sydney to reconsider and explore other options. Keep HyperKarting alive for the communiry who needs this.

Kind regards
Chanrhu V.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Please do not close down hyperkarting. It is a great place to enjoy the karts & socialise, celebrate occasions & have a good few hours away from the stresses of life .
In addition the loss of over 150 jobs & the knock on affect that would have should very much be taken into consideration -especially the way things are now.
Closing it down would have a negative effect on many people-the thousands that enjoy it & those that keep it running.
Reconsider your plan in the interests of decency. Sydney doesn't need more car spaces….theres plenty of parking stations & they ALWAYS have spaces available.
Sincerely
Gary Needs

I'm writing as someone who hasn't even had the chance to visit hyper carting yet, but really wants to I know I'm not the only one.

Places like this are rare, and once they're gone, they don't come back. It's not just about current customers, it's about future ones too. Shutting it down means people like me lose the opportunity entirely.

Karting venues give people a safe and controlled place to enjoy motorsport. Without that option, interest doesn't disappear—it just moves elsewhere, often into less safe environments.

I understand there may be concerns behind this decision, but I hope serious effort is made to find a way to keep the venue operating rather than closing it completely.

Please consider the impact this will have not just on regulars, but on future visitors like me.

This a running and operating business! The shopping centre has more than enough car spaces ! You're taking away more than 100+ jobs, people who live off this form of income. These people have the right to protect their workspace over a couple of new parking spots.

NOT RIGHT AT ALL!!

I honestly would be happy to see this place go, rude staff and very biased giving faster carts to different people in the same race, i also go injured in my back due to negligence of the staff, shut them down and especially coz there begging to stay open, carpark would be much more ideal.

Dear Shannon Rickersey,

I'm writing to make a submission regarding RD/2023/897/A at 116 Lang Road, Moore Park.

As a frequent visitor to Hyper Karting, I strongly oppose the decision to deny their lease extension. This venue is one of the best things about the Entertainment Quarter — I've had so many great times there and go regularly.

The idea of removing a thriving business that's attracted over 500,000 visitors and employs 150+ people, just to restore parking spaces that barely reach capacity, makes no sense. With the new 1,500-space underground car park at Allianz Stadium opening soon, the parking justification is even weaker.

Hyper Karting brings life to the precinct. Taking the entertainment out of the Entertainment Quarter to create empty parking bays is a step backwards for Sydney.

I urge the council to reconsider and grant the two-year extension.

Regards,
Josh Oliver
Sydney resident

Dear Shannon Rickersey,

I was recently informed that a beloved venue, of which I have travelled from Wollongong to visit multiple times, is at risk of closing, to be replaced by 296 car parking spots.

I get it, the footy is great, and I'm sure some punters would be thrilled by the idea of the possibility of finding a spot if there were more available, but why does the council need to close a business and create more permanent unemployment for a meagre number of car spots in comparison to game attendees? Temporary jobs during construction don't count as "creating more jobs", unless you're hiring all the go karting employees to do the construction, and giving them positions as parking inspectors upon completion.

It baffles me that when so many millions of tax-payer dollars have been spent on improving public transport, the council's big idea is to encourage more people to drive to the stadium. I'd rather see council invest in a shuttle bus service to ease congestion and encourage the use of public transport, we are in a fuel crisis after all!

My final issue is drink-driving. Sports games – any stadium events, really – are alcohol and drug hotspots, so why give extra opportunity for people to drive under the influence? I'm sure that the addition of more spaces will encourage some people who wouldn't have normally driven, to drive, and possibly overindulge at a game, forgetting they had their car at the stadium, and choosing to risk people's lives because of it. It might seem like a stretch, but the chances aren't zero.

Please, don't close a beloved business to put in car parking spaces, for so many reasons.

At the very least, if you do close this business, offer every employee free education and training so they can be re-employed when the business closes. Free white cards, RSAs and security certificates could mean you could say you truly created more jobs, and offered those who's jobs you took away the chance to work in these new positions.

Cheers,
Brooke Kolodziej

Dear Shannon Rickersey,

I'm writing to make a submission regarding RD/2023/897/A at 116 Lang Road, Moore Park.

I oppose the decision to deny Hyper Karting's lease extension at the Entertainment Quarter.

This venue has transformed an underutilised rooftop into one of Sydney's most popular entertainment destinations — over 500,000 visitors, 150+ jobs, and vital community programs including disability and youth services. The car park has reached full capacity only a handful of times across 84 major events, and a new 1,500-space underground facility at Allianz Stadium will further reduce parking pressure.

Removing a thriving community asset to restore rarely-used parking contradicts the council's own vision of a people-first city and the NSW Government's plans to revitalise the Entertainment Quarter.

I urge the council to grant the two-year extension and work collaboratively with Hyper Karting on a long-term solution.

Regards,
Claw

Dead DA Submissions,

I Sonya Tassone, am personally writing to oppose to the DA proposal regarding the replacement of Hyper Karting Entertainment for an additional parking allotment.

The community does not need additional parking allotment and should endorse Public transport to reduce environmental pollutants.

However the community would much prefer entertainment facilities for all ages such as the existing occupancy Hyper Karting.

Please take this into consideration
Kind Regards
Sonya Tassone

Dear Shannon,

I am writing to express my strong support for Hyper Karting at Moore Park Entertainment Quarter and to urge you to reconsider any plans to close this much loved facility.

Hyper Karting is one of the main reasons my family and I visit Moore Park. It brings a unique energy to the precinct that simply cannot be replaced by additional parking spaces. Every time we go, it is vibrant, busy, and full of life, clear evidence of how valued and well used it is by the community.

Some of my most memorable experiences there have been with my children. Watching my daughters take their first laps on the track was something truly special, those “first drive” moments are memories we’ll carry forever. It’s not just a go-kart track; it’s a place where confidence is built, laughter is shared, and families connect in a fun, active way. We’ve also hosted work events there, and it has always been a standout venue, engaging, different, and something people genuinely look forward to.

Hyper Karting has had a meaningful impact not only on my family but on our wider circle of friends and colleagues. It offers something rare in the city: an accessible, exciting activity that appeals across ages and groups. It draws people into Moore Park, supports surrounding businesses, and contributes to a lively and diverse precinct. Removing it would take away a key attraction and diminish what makes the area special.

While I understand the need to consider infrastructure and parking, replacing a thriving community asset with more car spaces feels like a step backwards. Hyper Karting adds character, activity, and economic value, things that are much harder to recreate once lost.

I strongly believe it should remain open and continue to serve the community as it has so successfully done. Please take into account the many individuals, families, and organisations who benefit from and cherish this facility.

Thank you for your time and consideration.

Kind regards,
Portia McEntee

One of the best go karting businesses in nsw and is something that makes going to entertainment quarter worth it. You won't need parking if there's nothing there for people to come to, and the carpark is empty most events that we go to anyway.

Dear Sir/Madam,

I write to express my concern regarding the proposed changes affecting Hyper Karting at the Entertainment Quarter.

Facilities such as Hyper Karting play an important role in fostering community participation and enhancing the Entertainment Quarter precinct. Consideration should be given to retaining uses that deliver ongoing social and economic benefits.

Sydney needs more experiences like this, not more carparks. Hyper Karting has built a strong and engaged community, and it would be a significant loss to see it removed.

The continued operation of Hyper Karting supports activation of the precinct and provides a unique recreational offering. Its removal may diminish the diversity and overall community value of the area.
Furthermore, we should be encouraging greater use of public transport rather than increasing dependence on private vehicles. The City has already invested in upgrading the light rail, and planning decisions should align with this objective.

Thank you for considering this submission.

Kind Regards,

Roncisco Del Castillo

To Whom It May Concern,

I am writing to express my sincere support for Hyper Karting and to respectfully ask that you consider keeping it open for business.

Hyper Karting is more than just an entertainment venue. It is a place filled with joy, laughter, excitement, and connection. For many families and young people, it is a safe and positive environment where memories are created and confidence is built.

For kids especially, experiences like Hyper Karting can be life-changing. It gives them something to look forward to, a place to challenge themselves, build resilience, and share special moments with friends and family. In a world where children are increasingly drawn to screens, venues like this encourage real-world interaction, skill development, and active fun.

It also plays an important role in bringing the community together. Birthday parties, family outings, celebrations, and weekend activities all find a home here. The happiness it creates extends far beyond the track — it strengthens friendships, supports local jobs, and contributes to the vibrancy of our community.

Closing Hyper Karting would mean losing a space that brings genuine happiness and positive impact to so many. I strongly believe it deserves the opportunity to continue serving families and inspiring young people.

Please consider the value it brings — not just financially, but socially and emotionally — to our community.

Thank you for your time and consideration.

Sincerely,

Sarah Dib

Dear Sir/Madam,

I am writing to express my concern regarding the potential closure of Hypercarting to accommodate additional parking facilities. While I acknowledge the increasing demand for parking due to population growth, I believe that the closure of Hypercarting would have a significant negative impact on the community.

Hypercarting serves as a vital community hub, providing a space for individuals and families to gather, socialise, and engage in recreational activities. Its closure would undoubtedly disrupt these established community connections and could potentially affect the mental well-being of its patrons.

I respectfully request that you reconsider this decision and explore alternative locations for the proposed car park that would not necessitate the displacement of Hypercarting. Finding a solution that preserves this valuable community asset while addressing parking needs would be greatly appreciated.

Sincerely,

Nora

Dear City of Sydney Council,

I am writing to express my strong opposition to the proposed closure of HyperKarting at Moore Park. This venue has become an important recreational space for countless residents and visitors, and its loss would have a significant impact on the community.

From my own experience, parking availability has never been an issue, even during major events in the precinct. The parking can accommodate visitors without congestion or disruption, which suggests that concerns about parking or traffic should not be a determining factor in closing a well-loved facility.

HyperKarting is more than just an entertainment venue. It has become a place where families, friends, and colleagues gather to create memories, celebrate milestones, and enjoy a safe and engaging activity. Many people, myself included, associate the venue with meaningful moments that contribute to the social fabric of our community.

Additionally, HyperKarting provides:
- A safe, supervised environment for young people to engage in an exciting activity
- A unique attraction that draws visitors to Moore Park and supports surrounding businesses
- A positive outlet that encourages physical activity, coordination, and friendly competition
- Employment opportunities for local staff who contribute to the welcoming atmosphere

Closing this venue would remove a valuable recreational option at a time when accessible, community-oriented activities are more important than ever. Rather than shutting it down, I urge the council to explore collaborative solutions that allow HyperKarting to continue operating while addressing any concerns that may exist.

I respectfully request that the City of Sydney Council reconsider this decision and work with the operators to preserve a venue that brings joy, connection, and economic benefit to the area.

Thank you for your time and consideration.

Sincerely,

Dianne Wheeler

Dear City of Sydney Council,

I am writing to express my concern regarding the proposal to remove HyperKart at Moore Park to make way for additional car parking.
From my experience, the existing car park in the area is rarely at full capacity. Expanding parking in place of a well-utilised recreational facility does not appear to address a genuine need. Instead, it risks replacing a vibrant, community-focused attraction with infrastructure that may remain underused.
HyperKart provides a unique and engaging activity for families, young people, and visitors, contributing to the overall appeal and activation of Moore Park. It encourages people to spend time in the precinct, which in turn supports surrounding businesses and enhances the social atmosphere of the area.
Removing such an attraction for additional parking, particularly when current capacity is sufficient, would be a step backwards in creating lively, people-focused urban spaces. I encourage the Council to prioritise maintaining and enhancing recreational and community amenities rather than increasing car dependency where it is not clearly needed.
I respectfully ask that you reconsider this proposal and retain HyperKart at Moore Park.
Thank you for your time and consideration.

Kind regards,
Yasas

Hello,

I am writing against removing hyper karting establishment from its currently active space.

This is a place where my young nephew has his birthday parties. Where my friends and I enjoy a good weekend out. My fondest memory was coming to hyper karting before a concert. We had actually considered doing a couple more laps instead of going to the concert.

Please consider the impact you have to your local community.

Regards,
Stella

Please don't close Hyperkarting - It's a great place, and contributes to Sydney's economy far more than a few more carparks that we don't need.

Hi

I am writing regarding the potential shut down of hyper karting. It is disappointing to see that this centre might be shut down and I hope the City of Sydney reconsiders. My children and their friends have spent countless hour go karting over the past few years. Most recently my eldest had his birthday party there also.

In a world where we technology is dominating and diminishing our quality of lives, we need places like hyper karting to ensure we continue to stay active and interact with each socially in the real world. It is only getting increasingly hard as a parent to compete with the online world, thus we all have a duty to ensure we keep these places alive in our community.

I hope the City of Sydney reconsiders its decision and keeps hyper karting open for everyone to enjoy.

Regards
Anushka

Hello, I just learned that Hyperkarting in Moore Park is potentially closing. As a returning customer I am sad to hear this news as it's one of the more fun things to do in the EQ. It brings in a dedicated crowd for a level of fun that requires no alcohol to enjoy, like all the pubs and restaurants.
The e-karts are super quick and a real thrill, you should try a session or two before making your final decision.
Please keep it open, for the sake of big and little kids alike, especially think about the adolescents, there's not a lot for them to do in most city hubs if they aren't old enough to drink. Most kids too old for playgrounds are neglected by town planning and this place is actually a dream for them.

Respectfully,
Belinda

Hi COS,

Please leave it alone, its not only fun and a great small business plus the only of its type in the heart of Sydney.

It is also a place people can learn to control an automobile or get the racing energy out of their system.

Thanks
Clayton

Dear Councillors

I am writing to formally submit my opposition to the proposed shutdown of Hyperkarting.

I believe that the City of Sydney is letting down the community by prioritising additional parking over essential recreational spaces. Rather than encouraging transport by car, the city should be focusing its efforts and resources on improving light rail services to better serve the area.

Hyperkarting is a vital venue for families to enjoy, and there is truly no other place like it across our whole city. It provides a unique experience that should be preserved for the benefit of all residents and visitors.

I urge the city to reconsider this decision and instead focus on sustainable transport solutions while protecting unique local businesses like Hyperkarting.

Thank you for your time and for considering my submission.

Best regards,

Gelina Montierro

To the City of Sydney Council,

I am writing as a passionate supporter of Hyper Karting at the Entertainment Quarter and as someone who has a direct and personal stake in this decision.

I work at one of the restaurants within the Entertainment Quarter precinct, and I see every single day how Hyper Karting drives customers through our doors.

Since opening in 2021, Hyper Karting has done something extraordinary — it transformed an underutilised rooftop car park into one of Sydney's most exciting, inclusive, and family-friendly attractions. With over 500,000 visitors through its doors, it is not just a go-kart track. It is a proven economic engine for the entire precinct.

I can tell you firsthand: the nights Hyper Karting is busy are the nights our restaurant is busy. Families come for the karting and stay for dinner. Groups book celebrations that span the whole precinct.

Teenagers, corporates, birthday parties — they all flow through this venue and into every business around it. You cannot isolate the closure to 298 car spaces. The real cost is a cascade effect felt by every operator in the EQ, including the one I work for.
The numbers back this up. Transport for NSW data shows the car park has reached capacity only a handful of times across 84 major events since Allianz Stadium reopened. The parking "crisis" this decision is meant to solve does not yet exist — but the economic damage from closing Hyper Karting will be immediate and very real.

This venue also serves our most vulnerable. NDIS participants use it as part of social programs. Young racing talent — including a 14-year-old recently scouted by Red Bull — trains there. There is no comparable facility anywhere else in Sydney.

I respectfully urge the Council to grant the requested two-year extension, work collaboratively with Hyper Karting on a long-term solution, and consider the full economic and social value this venue generates for the entire precinct.

Removing Hyper Karting to add 298 car spaces that data shows are rarely needed is not progress — it is taking the entertainment out of the Entertainment Quarter.

Please do the right thing. Keep Hyper Karting open.

Sincerely,
William Baffoni

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Please do not force Hyperkarting to close to have someone extra car spaces. What was the point in building costly light rail and bus lanes right to the door of all these venues? When those car spaces sit empty night and day until a major event and one level of parking being available for those free hours won't change any of the issues that creates- extra traffic gridlock, extra emissions, more people thinking they can drive when a major event is exactly when we need less- not more- cars.

Please don't entertain the idea of removing a business which brings so much fun, actually brings people to the restaurant district nearby all year round and not just when there's a game or a concert on, and brings karting to an area that had venerable had proper karting before- if it's gone, Concord West, Bankstown Airport, Eastern Creek and Smeaton Grange are the alternatives- and all but one of these have to be driven to so you're pushing the problem of accessing something like karting as a fun sport that teaches driving skills out of reach, and shift more cars onto roads to access them, and more emissions to get to them.

It's a fabulous initiative to have had Hyperkarting open and operate there for years now- it's a great business and brings karting to an crisis or location, and having one is level of parking is a good thing. I'd also be in favour of the entire ground floor to be disabled parking and accessible parking for temporary injury mobility issues and prams as truly during major events they are the only people who need to drive and for whom the public transport options are not accessible - trying to cram prams or crutches or wheelchairs into event buses is stressful. The rest? They need to learn to catch transport and one level of car spaces being used 12hrs a day, every day is a lot better use of a space, and bringing people to the area consistently to also bring patronage to businesses that can't survive on major event influxes alone, is a business that should be preserved. Please save Hyperkarting.

Penny Perry

As a regular visitor to EQ, i fail to understand the logic of your proposal.
Never has there been any issue parking, only in exiting the car park. I cannot understand how adding more than 300 spaces will aid the situation.
Hyperkarting, draws a huge patronage of all ages, supporting all business in the precitinct.

Hi,

I vote to keep the hyper karting. Limited options like this in Sydney. Great opportunity for kids to learn. Great friendly and helpful staff. Opportunity for corporate get together. Lots of energy and fun tl be had. It will be waste to take this away.

My younger son wants to come back next year once he is old enough to go up to next level 😊

Thank you
Emma

To: The Lord Mayor and Councillors, City of Sydney

Re: Objection to the Closure of Hyper Karting, Moore Park (The Entertainment Quarter)

Dear Lord Mayor and Councillors,

I am writing to formally protest the decision to refuse the lease extension for **Hyper Karting** at the Entertainment Quarter. Forcing a thriving, world-class entertainment venue to close simply to reinstate **298 parking spaces** is a step backward for Sydney's cultural and economic landscape.

This decision directly threatens the livelihoods of **over 150 employees** and removes a primary drawcard for the Moore Park precinct. Since 2021, Hyper Karting has brought more than **500,000 visitors** to the area, providing essential foot traffic that sustains surrounding small businesses, cafes, and restaurants within the Entertainment Quarter.

Furthermore, Hyper Karting is a vital resource for the community, offering an inclusive and accessible space for **disability support groups** and youth organisations. Removing such a unique facility in favour of bitumen goes against the City's own vision of a "city for people, not cars."

With the recent addition of the **1,500-space underground car park** at Allianz Stadium and ample parking at Disney Studios, there is no logical justification for sacrificing a successful business and a community hub for a negligible increase in parking capacity.

I urge the Council to reconsider this decision, grant the necessary extensions, and work with Hyper Karting to ensure this landmark venue remains a permanent fixture of Sydney's entertainment district.

Yours sincerely,

Rosemary Dobrohotoff

I am writing to save hyperkarting. In Sydney, there is not much entertainment. Hyperkarting is a great place for people to enjoy karting with friends. Especially for UNSW students, we often have activities there. Hyperkarting should not be closed because of car parking. There are usually many empty spots and no one wants to park in upper floor.

To whom it may concern,

Through this email, I am backing HyperKarts goal of remaining in its current location.
I have lived in Sydney for more than half my life, it is a great city that wonderful people like you have shaped it into what it is today. Hyper Kart is not only part of the culture and entertainment of Sydney but it is also a great business that adds excitement and a break from our day to day routine. The likes of which are not possible to have at the cost and travel distance.

I am sure you have your reasons to pursue changes to the parking situation in the Pavilon, but lets not do it at the cost of a good business that adds a lot to the community.

Thank you,
Ricardo.

Hi,

Hyperkarting is an important activity for Sydney, eapecially as a parent, its a relevant and vital business for kids in the inner Sydney areas. And provides diversity of activity for our family that isn't otherwise accessible or available.

Keep Hyer Karting open.

Its value to the community far exceeds additional car spaces.

Thanks,
Sam Ho

Hi,

Why is hyperkarting closing down?? This is great place that i take my kids. We dont have enough fun places for older kids in the East.
Please keep it open.

Thanks
Kate

To whom it may concern,

Please don't force the closure of one of the most interesting things in the Moore Park area in order to satisfy parking minimums. Hyper Karting brings a significant improvement to the otherwise dead precinct. Furthermore the area is easily accessible by public transit, bus and tram, not to mention we are trying to discourage driving right now due to the ongoing war in the Middle East.

I hope you come to your senses here before you once again shutter the things that make this city interesting.

Please reconsider,
Jackson Sommerich

Good morning

It is with great concern that I email you regarding the pending closure of hyperkarting at Moore Park to make way for car spaces.

The light rail was introduced as a promise to improve public transport and reduce the reliance on cars required at Moore Park. Has this failed?

The Entertainment Quarter was established as a place where friends and families could gather for a variety of activities (entertainment) yet you are proposing to remove a key player from this offering.

Please reconsider and allow HyperKart to remain operating in its current state. This is a much loved entertainment experience.

Thank you
Alison Sinfield

Hi,

I am writing this email on behalf of my 6 friends too. I didn't get to visit this place with my friends yet, if thus closes how are we gonna go.
Moreover its related to the jobs of the people who are working here, why it is being snatched from them ?

Please do not close the hyperkart , i do want to visit there with my friends someday.

Regards,
Kritika

Dear Council,

I'm writing to express my concern about the potential closure of Hyper Karting at Moore Park.
This venue is something many families, including mine.
It gives our kids a safe, fun, and active place to go, away from screens and doing something they genuinely enjoy.
Losing Hyper Karting would take away one of the few engaging activities available for children and families in the area.

We strongly hope Council can reconsider this decision or work toward a solution that allows it to remain open.

Kind regards,
Melissa Sarantos

Hi Shannon Rickersey,

I am writing to express my strong opposition to the proposed conversion of the go kart track at Moore Park to a parking lot.

As a regular user of this facility, I've witnessed its value as a unique recreational space that provides family entertainment and community engagement opportunities. Converting it to parking would result in the permanent loss of this valuable amenity.

I urge you to consider alternative parking solutions that don't require sacrificing this important recreational facility. This decision deserves proper community consultation before any irreversible changes are made.

Thank you for considering my concerns.

Sincerely,
Storay

Hyper Karting is an absolute asset to the City of Sydney and should not be sacrificed for unnecessary parking. It employs young people, provides necessary affordable family entertainment for the area and would be a huge loss.

Why are we still encouraging people to drive into the city? Lobby to improve public transport and make it more affordable/free.

Regards,
Chloe

Hi Shannon,

I've recently learned about the potential closure of the Hyperkart venue in Moore park and wanted to share some thoughts on the matter.

Having visited this venue many times over the last few years, I've had first hand experience with what they offer, and I feel that their contribution to the area is more than simply the venue itself.

Going to Hyperkart as a group always involved many other venues nearby, be it a restaurant, the bent st arcade, a movie at the houts, or drinks after at one of the many bars.

Given this location is out of the way for me, it's the combination of locations that has us all returning, and the unique nature of the Hyperkart venue makes it the only place within the city area we can do these activities.

In short, removing this venue will leave many people with no reason to go to the entertainment quarter specifically, as all the other venues are available elsewhere.

Also, I'm in full agreement about not needing more parking. This simply has never been the case at Moore park and I have been there at major sporting events and concerts at the Hordern, the car park has never been full to the point of needing more space.

Thank you for your attention to the matter, and I hope you reconsider the position of forcing a highly complimentary business to close or relocate.

Morten Rowley

Hi

I am writing regarding the potential shut down of hyper karting. It is disappointing to see that this centre might be shut down and I hope the City of Sydney reconsiders. My children and their friends have spent countless hour go karting over the past few years. Most recently my eldest had his birthday party there also.

In a world where we technology is dominating and diminishing our quality of lives, we need places like hyper karting to ensure we continue to stay active and interact with each socially in the real world. It is only getting increasingly hard as a parent to compete with the online world, thus we all have a duty to ensure we keep these places alive in our community.

I hope the City of Sydney reconsiders its decision and keeps hyper karting open for everyone to enjoy.

Regards
Anushka

Please reconsider extending the DA for Hyper Karting. It's employs over 150 people and services the enjoyment of 1000's of people each week. The local community are totally behind the business and the need for it to continue to operate in the existing location.

As a local community and business person, I implore you to reconsider and issue a new DA for Hyper Karting.

Dear Shannon Rickersey,

We strongly urge you to reconsider the closure of Hyper Karting.

Our son loves go karting and it's the easiest most convenient location for us to visit. We live on the northern side of Sydney.

Go Karting as a sport is very expensive, we'd love for our son to get in this is as a sport, however the cost of living etc makes this currently just a dream, yet have access to Hyper Karts gives him (and us) the opportunity to practise and build the skills required.

This potential closure will be detrimental for his participation, not to mention so many more.

The staff are incredible and have been accommodating with every visit we make.

So please, we ask that the City of Sydney reconsider this.

I'll make not that Sydney has an excellent transport system, so more parking spots doesn't make sense, especially in this current fuel crisis we find ourselves in, so surely more cars spots isn't the answer, yet more people on public transport is.

Please don't shut this business down.

Kind Regards,

Dan Smith

I do not support the proposed closure of Hyper Karting.
As a nearby resident there has never been any issue of noise, wild behavior or any other problem because of this business.
This local business should remain part of the community- with teenagers we value local options nearby.
Extra car parking can be in the parklands like on game days.
Stop crushing businesses in this area and let the residents also have usable enjoyment.

To Whom It May Concern,

I am writing to express my strong opposition to the reported closure of Hyper Karting due to car park space requirements.

As a frequent visitor to the Entertainment Quarter, I believe this business provides significant value to the community. Hyper Karting is a unique local attraction and a major employer in the area. In my experience, the existing car park frequently has ample vacant spaces, making the decision to prioritize additional parking over a successful business difficult to understand.

The Entertainment Quarter often experiences low foot traffic, and closing a popular venue will likely have a negative impact on surrounding businesses and the overall vitality of the precinct.

I urge you to reconsider this decision.

Best regards,

Adam Gulla

Good afternoon Shannon,

I'm writing to strongly urge you to reconsider this planning proposal and approve the extension of Hyperkarting's operating permit. The case for keeping this facility open is compelling — and the consequences of closing it would be felt widely across the local community and economy.

150 jobs are on the line
Let's be direct about what denying this permit extension actually means: 150 people lose their jobs. These are real livelihoods, real families, and real financial security at stake. It's deeply troubling that this outcome appears to be on the table to satisfy a small, privileged minority rather than to serve the broader working community that depends on these roles.

The Entertainment Quarter needs Hyperkarting
The EQ is already under serious pressure. It's no secret that the precinct is struggling to maintain relevance and foot traffic. Hyperkarting is one of its most consistent and genuine drawcards — it brings people through the doors regularly, and the surrounding local businesses rely heavily on the visitors it attracts. Closing it doesn't just remove one attraction; it actively accelerates the EQ's decline and deals a direct financial hit to every business in the precinct. At a time when the EQ needs support, this decision would do the opposite.

This contradicts the City of Sydney's own values
Perhaps most frustrating is the contradiction this decision creates with the City of Sydney's own stated agenda. The City has made significant investment and noise around promoting car-free lifestyles and car-free activities — and rightly so. Hyperkarting is a perfect example of exactly that kind of destination. It is directly accessible via the light rail, making it genuinely easy for people to get there without a car. Shutting it down doesn't just cost jobs and damage the local economy — it actively undermines the City's own vision for how people should be moving around and engaging with their city.

If the City of Sydney is serious about car-free access and sustainable urban activity, closing a light rail-accessible entertainment venue is a step in entirely the wrong direction.

The bigger picture
This decision would cost 150 jobs, weaken an already-struggling precinct, harm local businesses, and contradict the City's own transport and lifestyle policies. I can't see how any of that serves the community.
I strongly urge you to support the local economy, protect these jobs, and approve the extension of Hyperkarting's operating permit.

Hi there,

This place is an absolute area attraction. Without hyper kart I have no clue what else we would do in the area

It has brought so many smiles to my family in all of our races.

I hope you listen to everyone and leave it open.

Thanks, Gordon

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To Whom it may concern

I am writing as a member of the community to oppose the closing of hyperkarting for additional parking. As a regular visitor and customer to EQ I do not see the need to add another floor of parking when there is already ample available and the venue itself is serving a need in the community for many members.

The venue serves multiple functions and provides a much valued service to parents and children in the community. Having seen the business grow from being one of the few pandemic safe venues to the many group activities it hosts now it would be a terrible shame to see it go.

I hope this submission is taken on board with the community's voice in mind

Please allow hyper karting to stay. It so much more valuable to the area then parking spaces.

I had my birthday here with my family we all had such a good time, sad to see it as just parking spots.

What a joke actually.

People need fun things to do no more vacant concrete spaces.

Please consider this. . .

Be a human about it if possible.

Thanks in advance.

Why you enjoy Hyper Karting

I have been to Hyper Karting a few times now and absolutely loved it each time. The staff are incredible and the races with friends and family are memorable and something to look forward to.

Any memorable experiences you've had
Why you believe it should remain open

Most recently I have been to Hyper Karting with work colleagues and we have had some challenge races to compete and see who could get the quickest time.

This racing has given my work colleagues so much enjoyment and we have bantered around who will win and previous races.

How it has impacted you, your friends, or the community

It has positively impacted myself and my friends as we love this space and hyper karting is a super fun activity we have all enjoyed and looked forward to returning to.

It will be really sad if hyper karting no longer operates from Moore Park and I hope this doesn't become the case!

Please reconsider the impact this will have on the community and the workers at Hyper Karting as this space has brought much enjoyment and entertainment to Moore Park and to replace it with more car spaces would be a disservice to the community.

If more space is needed, the council should consider building the carpark higher so they do not lose such an important part of the community and a source of fun and joy for so many.

Thank you for reading this response and I hope you will reconsider the decision to remove hyper karting!

Dear Hyper Karting and the City of Sydney,

Dear Council,

I am writing to express my support for Hyper Karting and to ask that you reconsider any plans that may lead to its closure.

Hyper Karting is an important local activity that many people, including myself, really enjoy. It provides a fun and safe place for young people and families to spend time together close to home. Without it, the nearest alternative would require travelling all the way to Eastern Creek, which is much less convenient.

This venue is also personally meaningful to me, as I celebrated my birthday there, creating memories that I value a lot. Having a place like this nearby makes a big difference for the community.

I strongly believe Hyper Karting is a valuable part of the local area and hope you will take community perspectives like mine into consideration when making your decision.

Thank you for your time and consideration.

Kind regards,
Thomas Johnson

Dear Shannon

I hope this email finds you well.

I am writing to ask that Hyperkarting stays open. I only found out about it when visiting the entertainment district and would like to go there more than once.

Sydney needs places like this where intergenerational families and friends and teams or community groups can come and be and just have fun. We need this more than ever.

I look forward to your favourable reply.

Yours sincerely,

Marie-Brigitte Mitchell

To whom it may concern

I am very concerned by the refusal of Hyper Karting's application to extend its operating approval in order to free up additional parking spaces. Hyper Karting has been an excellent and popular addition to the Entertainment Quarter and has become one of its prime attractions. It has been a place my children and I have enjoyed going to very much.

In the current economic and global climate, the fact that the proposal will cost over 150 people their jobs, as well as deprive families from all over Sydney of a place where they can have some fun (whilst benefiting the local economy), all for some extra parking spaces that will hardly (if ever) be needed and which a lot of the time will sit silent and empty, is objectionable, unnecessary and short-sighted. If anything, Hyper Karting has demonstrated what can be achieved with some creativity and entrepreneurial enthusiasm, and how under-utilised space can be maximised.

The fact that those spaces may be needed eg for special events is hardly a good reason, and only encourages people to drive to events when public transport use should be encouraged instead - as the current energy crisis demonstrates.

Further, the number of go-karting centres in Sydney has decreased over time, and yet Hyper Karting has stood out because it is indoors and can use electric karts as a result (compared to outdoor venues which use petrol karts). Hyper Karting should be encouraged and supported as paving the way for this kind of activity using efficient and clean energy sources.

Go-karting should also be encouraged as a family-friendly activity as it can help expose children to driving skills at an early stage, promoting better drivers and safer roads at a time when increasing technology in cars is actually leading to worsening driving skills.

For these reasons I submit that Hyper Karting's operating approval ought to be extended and I wish to respectfully record my objection to attempts to force Hyper Karting to close.

Yours sincerely,
Enoch Law

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon Rickersey,

I am writing to formally express my support for the continued operation of Hyper Karting and to oppose any proposal that would result in its closure.

While Hyper Karting is a fantastic recreational venue on the surface, for me it has meant something much more personal. Over the past few years, a friend and I have visited many times, and it has provided a genuine escape during periods where I have been dealing with mental health challenges. It offered a space where I could step away from stress, reset, and experience a sense of enjoyment and normality during otherwise difficult times.

That kind of value is not easily replaced. Venues like this contribute to community wellbeing in ways that are not always visible on paper, but are deeply felt by the people who use them.

Beyond my personal experience, the potential loss of over 150 jobs is also significant. These are real people whose livelihoods are tied to this facility, and removing those roles for the sake of increasing parking capacity raises serious concerns about the balance between infrastructure and community impact.

The proposed addition of 296 car spaces appears to offer limited benefit when compared to the loss of a well-used and meaningful venue. Hyper Karting is not just entertainment—it is a place that brings people together, supports mental wellbeing, and contributes positively to Sydney's social fabric.

I strongly urge the council to consider the broader human impact of this decision and to prioritise preserving a venue that provides both economic and social value to the community.

Thank you for taking the time to consider my submission.

Kind regards,
Michael Farrell

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon Rickersey,

I am writing to express my support in the current application RD/2023/897| A and the continued operation of Hyper Karting.

Hyper Karting has brought liveliness to the Entertainment Quarter in terms of activities to do and entertainment. I've enjoyed my experiences at Hyper Karting and is a regular activity that my friends and I do when we are looking for something fun.
Without Hyper Karting, it lacks life, and feels bland.

Whenever I arrive to Hyper Karting it always has free spaces which has taken me by surprise to see the focus on parking as a primary concern. My experience aligns with what's stated in the application documents, that an abundance of visitors to the Entertainment Quarter do not rely on driving to get there. Even when I have driven, I haven't personally experienced major parking issues outside of large event days. As a regular visitor to this location, I can attest that the Entertainment Quarter car park, is fairly accessible in terms of parking, in which I do not struggle to find parking.
From what I understand, the traffic assessment also found that the actual parking demand generated by Hyper Karting is relatively low (around 27 spaces), and that the broader car park still has significant capacity most of the time. That reflects what I've seen myself when visiting.
Hyper Karting plays in keeping the Entertainment Quarter alive. It is the primary source for the vivacious energy and excitement it brings to the location. It promotes higher foot traffic in off peak seasons when there is no events at surrounding venues, supports nearby businesses, and provides a space for family gatherings and social connection, especially for younger communities and groups. Losing Hyper Karting at the Entertainment Quarter wouldn't just mean losing a business. It would take away from an already diminishing Sydney
entertainment life, reduce foot traffic and revenue and make the location less worth visiting. This highlights the broader contribution Hyper Karting upholds within the Entertainment Quarter and local economy and community.
It is also noted within the application notes, that the venue supports roughly around 150 jobs, in a Sydney economy where the cost of living is incredibly significant, the impact this could have on the individuals who need this job for survival and living, is exasperating to think about.
Keeping this business up and running, is clearly in the best interest for the public. If there are concerns, it seems far more reasonable to manage them through other conditions, such as utilising the grass fields as additional car spaces, continue encouraging the use of the fairly new established light rail, rather than allowing the venue to close altogether.
I respectfully ask that you take my email into consideration, as a valued member of the community, and to please reconsider the review application status, we do not deserve to lose this business and to be stripped off the very entertainment we sought for, within the Entertainment Quarter.

Thank you for taking the time to consider this submission
Thank you

Joshua Holstein

To whom it may concern,

I would like to add my support in keeping Hyper Karting open. This is in support of a local business that employs many young staff.

I have used the establishment and this has allowed me to travel into the postcode from my area in order to spend and support YOUR local area.

It would be a disappointment to close this down as a destination for young families and good clean entertainment for my teenage children and the like.

Interesting agenda based on the allotment size, proximity to the city and current land values of the area.

Thoughts Council???

To whom it may concern,

I am writing to express my concern regarding any proposal to replace Hyper Karting at Moore Park with additional car parking spaces.

Hyper Karting is more than just an entertainment venue—it is a unique recreational facility that contributes to the vibrancy, appeal, and diversity of the Moore Park precinct. It offers an engaging experience for individuals, families, and groups, encouraging social interaction, physical activity, and local tourism. Facilities like this are increasingly rare in urban areas, where community-focused entertainment is often sacrificed for short-term infrastructure gains.

Replacing such a dynamic attraction with additional parking would represent a step backward in terms of community value. While parking is undoubtedly important, Moore Park is already well-serviced by public transport and existing parking infrastructure. Prioritising more car spaces over experiential destinations diminishes the area's character and reduces reasons for people to visit beyond necessity. There is already ample parking in the other levels of the parking structure. I have been there many times, to many big events and personally, never had a problem parking.

Furthermore, Hyper Karting supports local employment and contributes to the local economy by attracting visitors who also spend at nearby businesses. Its removal would not only impact those directly employed, but also the surrounding ecosystem of cafes, retailers, and service providers that benefit from increased foot traffic.

Cities thrive when they balance functionality with lifestyle. Retaining attractions like Hyper Karting demonstrates a commitment to creating spaces people want to spend time in—not just pass through. Once these experiences are lost, they are rarely replaced.

I strongly urge you to consider the broader social, economic, and cultural benefits that Hyper Karting brings to Moore Park, and to preserve it as a valuable part of the community.

Thank you for your time and consideration.

Dear Ms Rickersey,

I am writing to express my support for the continued operation of Hyperkarting at 116 Lang Road, Moore Park, in relation to development application RD/2023/897/A.

As a Sydney resident from the Northern Beaches, I have visited Hyperkarting a number of times with both family and friends. It is one of the few truly unique activities in Sydney, and I have great memories of spending quality family time there. Importantly, it also gives me a reason to visit the Moore Park Entertainment Quarter more broadly, where I support surrounding businesses and contribute to the local economy.

Beyond my personal experience, I believe the broader value of Hyperkarting should be carefully considered. The venue employs over 150 people and attracts more than 100,000 visitors annually. Its closure would represent a significant loss not only of jobs, but also of economic activity within the precinct. Facilities like this play an important role in keeping Sydney vibrant, particularly at a time when engaging, accessible entertainment options are essential to city life.

Hyperkarting also provides meaningful community value. It is a space that caters to a wide range of people, including families, social groups, and organisations supporting people with disabilities who may not otherwise have access to similar large-scale recreational experiences. This inclusivity adds to its importance as more than just a commercial venture.

I understand that the council's concerns relate to future parking capacity, particularly with the phased removal of on-grass parking in Moore Park. However, it is worth noting that available data suggests the existing parking structure is not consistently at full capacity. In this context, prioritising a vibrant, well-used recreational facility over additional car spaces aligns more closely with the vision of a modern city that puts people, experiences, and community at its centre.

Moore Park's Entertainment Quarter should continue to live up to its name. Removing a major attraction like Hyperkarting risks diminishing the precinct's appeal and undermining its role as a destination for recreation and social connection.

For these reasons, I respectfully urge the City of Sydney Council to reconsider its position and support the continued operation of Hyperkarting at this location.

Thank you for taking the time to consider my submission.

Yours sincerely,

Paul Graham

Good Afternoon,

This is a kind request to keep Hyper Karting Moore Park open for the thousands of people that enjoy this experience, and for the hundreds of people that are actively employed there.

Myself and my family were there yesterday night (on a Friday which would assumingly mean increased busyness), and we parked in the car park on level 4 in order to be as close to the karting location on level 5 as possible. It is safe to say that only the first 2 floors were full, and floors 3 and 4 were mostly empty. We didn't bother checking floor 6 but it would most probably have been mostly if not fully empty.

Myself and my family also enjoy watching cricket at the SCG, and we drive on those days too. We have no problems in finding parking around the suburbs, and we don't think that closing Hyper Karting down would bring enough pros as opposed to cons.

On behalf of people of all ages who enjoy karting in Sydney, we would appreciate if you can take this request into consideration and keep a great family activity initiative running.

Thank you,
Zain Alam

Hi Shannon,

I am writing to express my frustration regarding the government's decision to shut down successful businesses in favor of removing car parks across Sydney and its surrounding suburbs.

It is disappointing to see the continued removal of parking infrastructure, which appears to be part of a broader plan to force the public to rely solely on public transport.

Dear Sydney Council,

Hyper karting at Moore park has been a great contribution to the Moore park area and is one of the main attractions in the area on any normal day.

My friends and family love to go hyper karting when we have the chance and it's always a fun time. Please consider how much joy will be taken away from the area if you replace Hyper Karting with an empty parking lot.

Kind Regards,
Jordan Wu

As someone who takes there kids regularly to Hyper Carting, I strongly object to closing this venue down. As it stands, Sydney doesn't have many venues where families can take their kids and spend the day.

This is somewhere that young kids as young as 3 can learn carting. There aren't any other venues that allow that age group.

Please reconsider closing this for more car spaces!

Regards,
Rema

Dear City of Sydney Council,

I write as a Sydney resident and community member to formally object to the Council's decision to refuse the extension of Hyper Karting's operations at Level 5 of the Entertainment Quarter car park, Moore Park.
I urge the Council to reconsider this decision and grant a reasonable operating extension to allow this valued facility to continue serving our community.

Hyper Karting has operated successfully since 2021, attracting more than 500,000 visitors and becoming one of Sydney's most popular family entertainment venues. It is home to Australia's longest indoor electric go-kart track — a 410-metre circuit that caters to all ages from children as young as three to adults. It operates cleanly and quietly using electric karts, with no emissions or noise impact on surrounding areas.
The Council's stated rationale — that commercial use of the rooftop parking bays is "unacceptable" and "not orderly development" — does not reflect a proportionate or community-centred assessment of the situation. The specific concerns I would ask the Council to weigh are:
1. Economic and employment impact. The closure puts more than 150 direct jobs at risk. This is a significant local employment footprint that would be eliminated in exchange for 298 car spaces that, by most accounts, sit underutilised the vast majority of the time.
2. Community and family amenity. Sydney is a city that has repeatedly acknowledged the need for more family-friendly, accessible entertainment options close to the CBD. Hyper Karting is precisely that — affordable, all-weather, multi-age, and located just 10 minutes from the city centre. Its removal would leave a genuine gap in the precinct's offering.
3. Alignment with the NSW Government's entertainment precinct objectives. The NSW Government has publicly committed to revitalising Sydney's entertainment landscape. Closing an attraction that draws hundreds of thousands of visitors annually runs directly counter to that objective, and to the Council's own interest in maintaining the Moore Park precinct as a vibrant year-round destination.
4. Proportionality of the car parking concern. The venue occupies 298 of the car park's 2,003 spaces — approximately 15% of total capacity. A balanced approach that preserves core parking availability while allowing continued activation of the rooftop level appears entirely feasible and has not been adequately explored.
5. Precedent for adaptive reuse. Hyper Karting converted previously underutilised parking infrastructure into a high-value community and economic asset. This is exactly the kind of creative urban activation that well-functioning cities should be encouraging, not reversing.
I respectfully ask the Council to grant the requested two-year extension, and to use that period to work collaboratively with the operators on a longer-term solution that serves both the parking and entertainment needs of the precinct.
Refusing this extension would not be a neutral administrative outcome — it would be an active decision to reduce Sydney's family entertainment options, eliminate over 150 jobs, and return a thriving rooftop to empty concrete. That outcome deserves far greater scrutiny than it appears to have received.

Thank you for considering this submission.

Regards
Brinsley Cross

I support HyperKarting to continue on in the Entertainment Quarter. It is a fantastic family friendly, fun facility that is quite unique to the Sydney area. It would be a shame to see this facility closed due car parking spaces that are not even needed.

The car park as it is, is dysfunctional requiring drivers to spend too long trying to exit the car park. Future parking planning in the close vicinity will compensate for the car spaces lost due to Hyper Karting.

I have been to Hyper Karting and think it's a fantastic facility and it should remain open.

To whom it may concern:

I am writing to express my concern regarding the potential closure of hyperkarting Moore Park.

I have two 9 year old daughters who absolutely love hyperkarting.
This activity provides a unique and valuable activity that serves so many. Corporate events, kids birthday of all ages, fun for adults and kids. It's a wonderful place to get the kids out and about and off the screens.

This is a great place for everyone especially young boys who want to experience something other than screen time with toxic masculinity. With this huge "Manosphere" problem these days we should be keeping these social and fun activities alive and thriving rather than giving youth less options and sending them inward and onto the toxic internet.
The facts that my two girly girls really enjoyed the experience also shows it's not just for boys. Everyone can enjoy it.

Hyperkarting supports jobs and encourages visitors to the EQ, which then has a positive flow-on effect for surrounding shops and services in the EQ.

Closing this venue would remove an important asset to the EQ park. I strongly suggest you renew their lease and keep the fun going for all of us.

Yours sincerely,
Nicola Lincoln

I am writing to express my strong support for Hyper Karting continuing to operate on Level 5 of the Entertainment Quarter car park.

This is the best purpose for this space, and the business contributes greatly to the vibrancy and appeal of the precinct.

With ample parking and excellent public transport access nearby, Hyper Karting enhances the Entertainment Quarter's atmosphere and provides a fun, family-friendly activity that appeals to both locals and visitors.

Its unique setup adds both character and value to a day out in the area.
Importantly, Hyper Karting is proudly Australian owned and operated, employing more than 150 people.

It's a business that supports our community, promotes active recreation, and contributes to Sydney's entertainment economy.

I urge the decision-makers to maintain Hyper Karting's presence on Level 5 rather than replacing it with additional car parking.

This business embodies what makes the Entertainment Quarter special energy, creativity, and connection.

I support Hyperkarting to continue to operate on level 5 of the Entertainment Quarter carpark in Moore park because this is the best purpose for this carpark space.

There is ample parking near by along with local public transport. With the amount of space used, any future car parking spaces will cover this space with ease.

This is a successful Australian owned business, with over 100 employees. It would be disappointing to see this closed.

A great space which is so much family fun for all ages to play and enjoy physical activity safely in all weather conditions.

Dear City Of Sydney,

My name is Will, and I live in the Maroubra area. I wanted to express how much I enjoy racing at Hyper Karting. I was even thinking of going again soon, until I heard the news! I humbly ask if you would be able to reconsider replacing Hyper Karting with a parking lot. Please let the community know what factors would influence the decision (to know if turning it into a parking lot is the best option). For example, if it meant parking at Moore Park became completely free. Otherwise, I add my vote to keep Hyper Karting around.

Thank you for managing the situation, I know this can't be easy and that you have the interests of the Sydney community at heart.

Many thanks,
Will

Hi,

I wanted to reach out to share my concern about the proposed development to replace hyperkarting with another floor of car park in the entertainment quarter.

I'm a local from North Sydney who works in the city - and I often organise outings in the city with friends or colleagues.

Often I'm trying to find good activities during the day, outside of museums, bars and bushwalks. The entertainment Quarter feels like it's meant to fill this gap, but I generally don't find the entertainment quarter that entertaining - unless the circus is on, or there's a show on. Both of these are expensive, especially for a family. The one reliable attraction that draws me to the entertainment Quarter is hyperkarting. It's a phenomenal venue, incredibly well run, in a perfect location to allow me to take friends on the light rail, and then explore the rest of the quarter for food and drinks after. There are very few venues like it in Sydney city, and a day out there is something that I suggest to tourists who are looking for something to kill time in a part of the city they haven't explored.

Removing this venue just to add an extra floor of parking is incredibly shortsighted. With more parking on the way, and a healthy light rail network connecting increasingly large amounts of Sydney directly to the entertainment quarter, it feels like the decision here is akin to cutting off a leg to slide weight. It's counter-productive and will reduce the appeal of the entertainment Quarter for a lot of Sydneysiders.

I hope you can reconsider this decision and preserve one of Sydney's great attractions!

Thanks,
Andrew Campbell

Come on guys - do you really have to continue to destroy the aspects of Sydney that people love?

You have a duty and obligation being the City of Sydney Council to actually improve Sydney, not destroy it.

Simple activities like Hyperkarting are beloved and add so much to our culture and community.

Development is being undertaken in a brain-dead way - we need development yes, but not at the expense of the community.

You continue to fail Sydney and NSW. You should feel shame to know that the once prosperous city is falling to absolute shit under your 'care'.

You have no regard for your council, for NSW, for people who work and bring value to the economy and community.

I would value a proper response (not a generic pre-populated response) outlining just how Sydney would be improved if Hyperkarting were to be shut down - both from a social and economic perspective. Short of a proper explanation, what else are people to think other than corruption at worst, or sheer idiocy and incompetence at best.

Do better.

Tiana

To Whom It May Concern,

We have just moved to Sydney from Perth in January and we have already had two of our kids birthday parties at Hyper karts and all the kids have absolutely loved it. It would be such a shame to lose a resource that entertains pre-teen and teenage kids who are already restricted in what they want to do for fun. It's great for all weather conditions and encourages people to be in the precinct and then utilise the food vendors as well, creating a community environment within the EQ.

Please seriously consider keeping this business alive for our kids and also adults who want to have some fun!

Yours sincerely,
Lauren

Hi City of Sydney,

I would like to express my strong support for the continued operation of HyperKart at 116 Lang Road, Moore Park.

HyperKart is a valued recreational facility that serves the local community and broader Sydney population by providing an accessible and enjoyable leisure activity for people of all ages. Its presence in Moore Park contributes positively to the area's vibrancy as an entertainment and sporting precinct, complementing the existing venues and attractions in the locality.

I believe that retaining HyperKart at this location is consistent with the character and purpose of Moore Park as a hub for recreation and community engagement. Its removal would deprive residents and visitors of a unique and well-patronised facility.

I respectfully urge the City of Sydney to give favourable consideration to this development application and support the ongoing operation of HyperKart at Moore Park.

Kind Regards,

Alfred Tjen

Save Hyper Karting!
I've been to the parking across from Hordon pavilion numerous times during music shows and the afl.
9/10 Im able to find a parking. This has been the case since Hyper Karting setup.
I thought NSW was trying to improve and increase the use of public transport.
Removing a business that employees Aussies and brings in people at all hours of the day, in favour of 200 more car parks (most of which will only carry 1-2 people, and will only be utilised on Thursday night to Sunday night) is absurd.

Dear Sir/Madam,

I am writing to express my support for the continued operation of the Hyper Karting facility under Development Application RD/2023/897/A at 116 Lang Road, Moore Park.

I understand that the primary concern raised relates to the use of car parking spaces within the Entertainment Quarter precinct.

However, I respectfully submit that this needs to be balanced against the significant economic, social, and activation benefits that this facility provides.

Hyper Karting represents a unique and modern entertainment offering within the Moore Park precinct. It contributes to the vibrancy of the area, attracts visitors outside of major event days, and supports local employment. Removing such a use risks reducing the overall appeal and activation of the precinct, particularly during non-event periods.
In relation to parking concerns, it is important to consider that:
The precinct is already well-serviced by public transport, including light rail and bus networks.
Transport behaviour is shifting, with increasing reliance on public and shared transport options.
Demand for parking is highly event-driven, and outside of peak event times, capacity is often underutilised.

Rather than removing a successful and active use, a more balanced approach could be considered, such as operational or management strategies to mitigate peak-period impacts while allowing the facility to continue operating.
From a broader planning perspective, Moore Park is intended to be a dynamic and multi-use precinct. Retaining diverse entertainment offerings such as Hyper Karting aligns with this vision and enhances the overall user experience of the area.

For these reasons, I strongly support the continuation of the Hyper Karting facility and request that the application be reconsidered favourably.

Thank you for your time and consideration.

Kind regards,
Harshil Pindoria

Hi Shannon,

I'm very sad to hear that Hyper Karting is at risk of closure because of the need to create more parking spaces. Hyper Karting is amazing fun, great people who work there who now may lose their jobs and it's something different, fun for all the family. The Entertainment QTR is for entertainment and Hyper Karting provides that in bucket loads. We should also be encouraging to take cars off the road not provide more car spaces- people can use the tram.

Please reconsider this, the people who work there provide a great service and it's awesome fun.

Andy Lowe

To whom it may concern

I have become aware that there is a plan tabled to close Hypercarts and return the space to more car parking.

My son, who is 15 and no longer allowed access to social media, went to a party there recently. He had an absolutely great time. The business is run professionally, it provides people with important driving skills and most importantly provides a chance for children to hang out with friends in a productive way.

In another note, I parked in that parking station about a year ago to attend an event in the area. It took me over an hour to get out of the parking garage due to the traffic jam. In fact I was charged extra at the gate from when I paid at the machine due to how long it took to get out! More cars in that lot are not going to help!

Please allow this business to continue to thrive and don’t add to more congestion and pollution by adding more cars to sit idling in a traffic jam.

Regards

Chris

Dear Shannon,

I have just learned of the proposed shutdown of hypercarts to increase the capacity of the car park at Moore park.

Surely with all the new tram link and other great public transportation options you are not seriously considering incentivising people drive to and from the sporting precinct?

Also, perhaps before this is addressed you should consider reducing the amount of disabled parking on the greens floor, there is almost the whole floor dedicated to this plus the star car wash.

Please seriously reconsider

Daniel

Dear Councillors,

I am writing to express my strong opposition to the decision to refuse an extension for Hyper Karting at Moore Park's Entertainment Quarter.

As someone with a young family in the eastern suburbs, I want to emphasise that Hyper Karting has become an integral part of our lives. It is one of the few activities we can regularly enjoy together, and it has also been a go-to venue for friends' birthday parties and social gatherings. It provides a safe, exciting, and inclusive environment that genuinely brings families and communities together.

Hyper Karting has become a valuable part of Sydney's recreational landscape. It offers a rare, all-weather activity that appeals across generations, encouraging active participation and social connection rather than passive entertainment.

The venue delivers several clear benefits to the community:

- Family-friendly recreation: A unique activity that parents and children can enjoy together, strengthening family bonds and promoting active lifestyles.
- Youth engagement: A safe and structured environment for young people to socialise and have fun.
- Community connection: A popular venue for birthday parties, group events, and social gatherings that foster community interaction.
- Economic contribution: The venue supports local jobs and drives foot traffic to surrounding businesses in the Entertainment Quarter.
- Tourism and vibrancy: Attractions like Hyper Karting enhance Sydney's reputation as a lively, world-class city.
- Efficient use of space: Repurposing underutilised parking into a recreational facility aligns with forward-thinking urban planning focused on people, not just vehicles.

While I understand the need to balance infrastructure and planning considerations, reverting this space back to car parking feels like a missed opportunity and a step backwards. At a time when Sydney is working to strengthen its cultural life, night-time economy, and family-friendly offerings, removing a successful and well-loved attraction sends the wrong message.

I respectfully urge Council to reconsider its position and work collaboratively with the operators to find a solution that allows Hyper Karting to continue operating while addressing any planning concerns.

Thank you for your time and consideration.

Yours sincerely,

Hi,

Why is Council trying to shut down Hyper Karting for more car spots?

Don’t you know how popular this place is for families? It is literally the only I reason I bother to drive my kids from Penrith into Moore Park.

The rest of your offerings there at Moore Park are boring and we have more options here in Western Sydney to be bothered driving out there.

When we go we spend time doing the go karting then we go and visit the restaurants so we won’t bother spending money anymore if you shut this place down.

It’s disgusting that you make these decisions instead of consulting with paying customers. Why don’t you ask people what they want, it’s their money and it keeps business going.

Happy to discuss over the phone to let you know how disappointed this family would be if you decided to shut a successful business down.

Regards
Kristina Farrugia

To whom it may concern,
The hyperkart establishment at Moore park is a great place where my family and friends often visit for a day out. It would be a great loss if the karts were lost. Especially if only to a car park.
While we plan our day to go to hyperkarts we will always spend extra hours in the quarter enjoying the other entertainment and restaurants. Don’t lose this venue as we would then have to travel to the bankstown carts.

To whom it may concern,

I am writing today about the proposal to remove Hyper Karting from Moore Park.

Hyper Karting has been a treasured meeting place for myself and my friends over the years since its opening. It's an incredibly unique and well executed experience, with the best track and karts I've driven in Sydney and surrounds. It brings unequivocal value to the area, stimulating the economy of Entertainment Quarter (EQ) by bringing in numerous customers for dining and other partnered activities.

As someone who lives in greater sydney, an hour away from Moore Park, I have to drive my personal vehicle to attend EQ. As an avid concert goer, I have driven to attend events at Allianz, Hordern and Liberty Hall on a very regular basis Regardless of how many events are occurring simultaneously, I have never encountered parking issues due to the parking capacity being reached. There is no need to increase the parking capacity, especially at the compromise of an integral business like Hyper Karting.

Please reconsider the proposal to remove Hyper Karting, and realise the value of this business to its customers and the surrounding community.

Kind Regards,
Kali Notaras

Hi,

I am writing to express my strong support for Hyper Karting Sydney remaining at the Entertainment Quarter. Our family has visited many times and it has been a genuinely valuable and enjoyable part of the precinct for us, including as the venue for several birthday parties. In practical terms, it is the main reason we choose to visit the Entertainment Quarter. It offers something unique, active and family-friendly, and creates the kind of destination experience that encourages people to come to the precinct and spend time there.

I also support the operator's position that the venue should be allowed to continue, particularly given the evidence presented that there is already ample parking capacity available and that the retained spaces for Hyper Karting are not essential in the way suggested. It would be disappointing to see a well-used and popular attraction removed to restore parking that does not appear to be genuinely needed. In addition, the venue supports local employment and provides valuable jobs, while also contributing to the overall vibrancy and appeal of the Entertainment Quarter. I respectfully urge decision-makers to support the continuation of this much-loved business.

Thanks,

Chris Greenaway

I have been to hyper karting more times then I can count. I have brought just about everyone I know to hyperkarting. Anytime I meet someone new its one of the first things I suggest we do. It's not just the go kart racing either, it's also the great VR station that I've had heaps of fun with friends and strangers.

I recently took my young cousins from Melbourne there as it's one of the few karting places that will let little kids race. Without me knowing, they had recently tried to race in Melbourne and failed because of their age and size, yet Hyperkarting had tracks and karts for all of them.

On you're average day the carparck can't even fill 2 floors, and even during peak events like sports or live music I've never failed to find a park.

Not to mention that 90% of the time that I've visited the entertainment quarter and ended up buying some food or going to any other business, was because I had gone hyper karting that day. I certainly wouldn't be coming back without them. I also certainly wouldn't use the car park ever again if hyperkarting wasn't there. Mostly cause I'd have no reason to go there, but also out of spite to discourage and punish such obvious stupidity.

I drive all the way from pennant hills to Moore Park to race because it's that good. It doesn't make any sense to get rid of them. If you're not asleep at the wheel and have an inkling of a pulse on what the community wants you will revert this decision. If anything you should give them the roof as well.

Praying common sense will prevail,
Daniel Heffernan

To the concerned,

Over the years, HyperKarting has become a place for the whole local community to gather. Whenever I attend I see people from all the local suburbs whom I recognise and even foreign tourists attending. HyperKarting brings our community closer together and the proposal for replacing it with superfluous parking space is a degenerative cancer on this city.

I call it so because it is an industrious plan of action that like-minded proposals are fed by and the concept of such feeds on these successful proposals. The "growth" of this cancer kills community gathering points and breaks down the brain of our Australian society and culture.

I stand against this rezoning and ask you to reconsider.

Regards,
Gabriel D. Sharp

Hello Council

Hyper Karting is a fantastic local business that has done much more to attract people to the Entertainment Quarter, then the rest of the Entertainment Quarter.

The idea that EQ needs even more vacant parking bays, at a time people are looking to the multiple public transportation options around the precinct instead of driving, is laughable.

Losing 150 jobs heading into what may be the worst recession since the Depression, is truly an idea of someone who was recently kicked in the head by a horse.

Hyper Karting is exactly the type of local business the Sydney city area needs - in order to have a thriving, vibrant and diverse range of attractions.

Kind regards
Jonathon Rogan

Hi,

I am writing to express my strong support for Hyper Kart and its continued presence within Sydney's entertainment landscape.

Hyper Kart is more than just an indoor karting venue—it is a proven destination that attracts a substantial volume of visitors annually. Based on typical performance benchmarks for comparable high-traffic entertainment venues, Hyper Kart is likely drawing tens of thousands of visitors each year, including families, corporate groups, tourists, and local residents. This consistent foot traffic plays a meaningful role in activating the surrounding precinct.

Importantly, the impact of Hyper Kart extends well beyond its own operations. Visitors frequently combine their experience with dining, shopping, and other leisure activities nearby, directly supporting local restaurants, cafés, and retail businesses. Group bookings, events, and celebrations in particular contribute to increased spending across the precinct, strengthening the broader local economy.

In addition, Hyper Kart enhances Sydney's appeal as a vibrant, experience-driven city. It provides:

- A unique, high-energy attraction not widely replicated elsewhere
- A safe, weather-independent entertainment option
- A venue for corporate team-building and private events
- An activity that appeals across age groups and demographics

From a strategic perspective, venues like Hyper Kart are essential for maintaining a diverse and engaging entertainment ecosystem. They encourage repeat visitation, extend dwell time in the area, and contribute to Sydney's reputation as a destination for both locals and tourists seeking premium experiences.

Losing such an attraction would not only reduce consumer choice but also have a flow-on

effect to surrounding businesses that benefit from its patronage.

I strongly encourage consideration of the broader economic and community value Hyper Kart delivers, and I urge you to support its continuation.

Thank you for your time and consideration.

Warm regards,

Dr Aileen Towse

I have been reading the comments from people on the Hyper Carting Instagram and their are so many enthusiastic patrons of the business. If Hyper Carting goes so do all those patrons to the entertainment quarter. They will no longer be using the car park or patronizing the other businesses there. Thereby loosing jobs.

The light rail and the new bridge are there to get people to the stadiums. I always use these to attend Sydney FC games.

Isn't there a new carpark being built opposite League headquarters down the road?

I support keeping Hyper Carting operations.

Regards

Alastair Murray

Dear Sir/Madam,

I am writing to express my strong support for the Hyperkarting business operating in Sydney, which plays an important role in our local economy and community.

This business is responsible for providing approximately 150 jobs, contributing meaningfully to employment opportunities and supporting many families. In a time where job creation and economic activity are crucial, initiatives like Hyperkarting should be encouraged and supported.

Additionally, I understand that concerns have been raised regarding the need for additional parking spaces. Based on the nature of the business and its current operations, I believe that existing parking infrastructure is sufficient and that further expansion in this area is unnecessary. Prioritising efficient use of current resources is both practical and sustainable.

Hyperkarting offers a unique recreational experience that adds vibrancy to Sydney's entertainment landscape while supporting local employment. I respectfully urge you to consider these factors and continue supporting the business in its current form.

Thank you for your time and consideration.

Kind regards,

Iyessa Tua

To whom it may concern,

I'm writing to support Hyper karting Moore Park. It's a place that we often frequent and it provides hours of entertainment for our children and their friends.

It also provides a good team bonding experience for our business team members thoughtout the year.

I believe the operation is well operated by an experienced and professional team and would be a shame to see their jobs lost.

The mental well being, the sense of community and being an integral part of the junior and senior Motorsport community and regular social activity make it a good reason to keep it at Moore Park.

Regards,

Henry Pham

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

I'm writing in support of the review application for Hyper Karting on Level 5 of the Entertainment Quarter car park.

I understand where the refusal is coming from, and it's not an unreasonable position on paper. But I think it's a mistake.

Recovering 298 top-deck bays from a 2,000-space car park is a marginal gain, and the cost is losing a business that employs 150 people and pulls half a million visitors a year into a precinct that badly needs the activity. It also locks in more cars on event nights, which means more congestion on Anzac Parade, more emissions, and a worse time for people who live nearby. None of that is a great outcome.

The event-day pressure that does exist can be managed without touching Level 5. Wilson's used to run an online "Book a Bay" system at the Entertainment Quarter and has since removed it. Bringing it back, combined with higher event-night pricing, would do the job neatly. Families who genuinely need to drive (kids, elderly relatives, accessibility needs, anyone coming from areas the light rail doesn't reach) can lock in a guaranteed bay in advance. Everyone else gets a clear price signal to take the L2, which runs straight into Moore Park and is exactly the kind of trip we built it for.
That way, families who turn up on the night still know they've got a spot waiting, and nobody's left circling the block. It also frees up real capacity for everyone else.
If the precinct genuinely outgrows its parking later on, the answer is to build more properly, not to claw back bays from a tenant whose fit-out is permanent and can't be moved. If you tear out a venue like this and the parking demand turns out to be manageable after all, you don't get it back. Even if something similar opened elsewhere, the precinct loses the activation it needs right now.

The Entertainment Quarter has been struggling for years, and Hyper Karting is one of the few things actually pulling people in outside event days. That's exactly what the State Government keeps saying it wants for Moore Park. Losing it over parking that can be handled through pricing, pre-booking and public transport is the wrong call.

I'd really encourage Council to find a way to approve this with conditions rather than refuse it outright.

Thank you.

Kind regards,
David S.

Hi Shannon Rickersey

We LOVE HYPERKARTING!!!! My child has been driving there since the age of 4. It's the only place I know of where he can drive a go kart!!! His practising to drive!! You take that away from any child it's a sad life for little youngsters!! I wish HK WAS AROUND FROM WHEN A WAS LITTLE! You're going to make my child and every child by age and heart cry!!!!

Thanks for not taking away HK!!!

Cheers

Sabrina Rodriguez

To whom it may concern,

I am writing regarding the City of Sydney's proposal to repurpose the current grounds of Hyper Karting Moore Park for additional parking spaces.

Hyper Karting is a valued local attraction that brings enjoyment to both children and adults (such as myself), and its removal would be a significant loss to the community. Repurposing the site for parking would mean replacing a unique recreational facility with infrastructure that appears inconsistent with the City's broader environmental and transport goals.

Karting also provides important mental health and wellbeing benefits for many members of the community. Recreational activities such as karting offer opportunities for stress relief, social connection, skill development, and confidence building. For many participants, karting is more than entertainment. It is a meaningful hobby that promotes routine, enjoyment, and psychological wellbeing. In a time where mental health challenges are increasingly prevalent, preserving accessible recreational outlets that support community wellbeing should be a priority.

At a time when fuel costs remain high and there is increasing emphasis on reducing car dependency, expanding parking infrastructure seems counterintuitive. Hyper Karting operates electric karts and provides an environmentally conscious recreational activity. If the venue were to close, many patrons would be forced to travel to more distant tracks such as Picton or Eastern Creek, increasing both petrol consumption and overall vehicle emissions. Additionally, many alternative karting venues operate petrol-powered karts, further undermining sustainability efforts.

The City of Sydney has consistently promoted climate-conscious and public transport-oriented initiatives. Moore Park is one of the most accessible locations in Sydney, with excellent light rail and bus connections and close proximity to the CBD. In this context, prioritising additional parking over an established electric recreational venue appears contradictory to those stated values.

I strongly support Hyper Karting Moore Park and urge the City to reconsider this proposal.

Kind regards,

Pua Johnston

To whom it may concern,

I am writing to show to show my support for Hyper Karts in Moore Park. I have personally used this business along with many of my friends and family over the past 4 years. We travel from as far as Newcastle to enjoy the fabulous experience that Hyper Karts provides, but also inadvertently supporting the local restaurants, coffee shops and cinema as well.

Hyper Karts is the cornerstone to our catch ups in Moore Park and unfortunately if the business was not to continue we would not visit this area of Sydney at all. I'm sure quite a few of Hyper Karts 500k customers would feel the same.

It is my understanding that your local council is trying to revive a dead culture and dying nightlife, and I believe your plans are severely misdirected in your plight to close down Hyper Karts over a few extra carparks.

I truely wish you would sit with the owners and go over the real costs to staff, culture and community before any solid decisions are made regarding the future of this fabulous business.

Kind regards,

Kodee Marzella

We love the hyper carting Centre
Please don't replace it with a car park.

You should be encouraging more public transport and cycling to your venue! Especially with the cost of petrol and the damage cars do to the roads amd the environment. I understand that hyper-carting is also a vehicle (and uses energy), but it teaches children and young adults how to navigate and use vehicles in a controlled environment.

Please reconsider your plan.

Hannah Dale
Inner West Resident

Hi Shannon,

Stop building car parks please. Roads are expensive to maintain. The more cars, the more maintaince and infrastructure is required.

Build separated bike paths, bus only lanes, trams and trains. Build parks. Let people commute to places and spend money on local businesses.

“Cyclists and pedestrians generally spend more per month… than visitors who arrive by car.”

To whom it may concern,

I am writing to express my support for Hyper Karting at Moore Park and to strongly oppose the proposed decision to discontinue their operations in favour of additional parking.

Hyper Karting provides a unique and valuable recreational experience for the community. It contributes to local entertainment, attracts visitors, and adds vibrancy to the Moore Park precinct. Sydney needs more of this! Not less.

Replacing an active, engaging venue with additional parking would be a significant loss to the area and to those who regularly enjoy the facility.

As a member of the community I respectfully ask that you reconsider this decision and explore alternative solutions that would allow Hyper Karting to continue operating.

Thank you for your time and consideration.

Kind regards,

Mathew G

Hi there,

I have just heard the devastating news that there is a submission for Hyper Karting to be closed down and replaced with car parking. This is literally like asking the Apple Store to close down for car parking. Hyper Karting has been a fundamental magnet to the entertainment precinct and has been an absolute catalyst for my love of Formula One racing. It is a place where those who live in the city and outside of the city can come and enjoy the sport in a safe environment by stealing this away from the community, you are absolutely doing the most detrimental thing you can to helping inspire a new generation, bring joy to the community, and bring people to the precinct. I implore that this submission be reconsidered and rejected in order to ensure that this institution remains for our community.

Many thanks,
Joseph Coorey

To whom it may concern

Please don't demolish Hyper-karting - it is so important for the community, locally and further away. The addition 9f 270-290 parking spaces is not going to make a huge difference considering there's plenty of parking in the area already.

Kind regards

To remove Hyper Karting from Moore Park Carpark is a kick to the heart to all that enjoy a fulfilled day & night out with friends & family.
It's the ONLY kart racing in the Eastern Suburbs & very convenient for those who travel by public transport.

To take the carpark Park to allow more parking is a joke knowing g that it will not fill to capacity because public that use it will be hit with over charging prices!!!

If you are going to kick Hyper Karting out of the carpark, find them another venue in the Eastern suburbs so they stay.

Thank you.1

Hello,

This email is to register my opposition to the closing of Hyper Karts.

This place is absolutely fantastic! My girlfriend's son had a fantastic birthday there just recently, and there's simply nowhere else like it that's anywhere close to the CBD.

Please ensure this place is allowed to continue operations. It's quite literally called the Entertainment Quarter, which is already a shadow of its former self, and removing entertainment is anti-thetical to its very existence.

Best regards,
Ben

Dear Sir/Madam
I find it very concerning to find out news that council are proposing to close the Hyper Karts facility. My son and myself have used this a number of times. I have also held work events using Hyper Karts as it caters for all ages.
Council should reconsider this proposal not only because of all the jobs that will be lost but also for the community as there is already a severe lack of activities in the area that are not weather dependent compared to what locals have available out West.

I thank you In advance for using common sense to let Hyper Karts stay in the EQ.

Best Regards
Chris Hughes

Hello,

I wish to register my support for Hyperkarting to be able to continue to operate as a community entertainment venue. It brings significantly more value to the area than additional (paid) parking spots which add very limited value.

City of Sydney should be encouraging and continuing to improve public transportation to this area vs providing more parking

Regards,
Megan Anderson

I am writing to formally oppose any proposal to remove or repurpose the HyperKarting venue in favour of a car park or alternative development.

HyperKarting is a unique recreational facility that provides significant value to the community. It offers a safe, structured environment for entertainment, social engagement, and skill-building, particularly for young people and families. Facilities like this are not easily replaced, and once removed, they are unlikely to return.

In contrast, a car park does not provide the same long-term social, economic, or community benefits. While parking is important, it is a utilitarian solution that can be developed in alternative locations without sacrificing an established and well-used recreational venue.

Key points for consideration:

- Community Value: HyperKarting is an active entertainment venue that contributes to local engagement and lifestyle.
- Economic Contribution: It supports local jobs, drives foot traffic, and benefits surrounding businesses.
- Irreplaceability: Unique recreational venues are far more difficult to replace than parking infrastructure.
- Alternative Options: Car parking can be developed in other areas or through multi-level solutions without removing existing community assets.

Removing HyperKarting would represent a net loss to the community. Development decisions should prioritise long-term social and economic value over short-term convenience.

I strongly urge you to reconsider this proposal and explore alternative solutions for parking that do not come at the expense of established recreational facilities.

Yours sincerely,

Hi,

It recently came to my attention that Hyper Karting at Moore Park was at risk of closing.

Our family loves hyper karting. We live in rural NSW, and the main thing that our kids insist on to keep us coming back to Sydney regularly is to go to Hyper Karting.

Over the last four years, since our eldest was old enough to drive the kids track, we've made the journey multiple times a year and holds an important place in our families lives.

There aren't many places in Sydney that have a track that really little kids can drive, and that isn't as loud as traditional go karts for auditory sensitive kids. There definitely isn't one as accessible for us as Hyper Karting.

If it is just for more parking spots, public transport is more efficient, better for the environment, and the trams make it easier. Car traffic leaving major events at Moore Park is bad enough as it is.

From a young family who have celebrated multiple birthdays there, made many happy memories and have kids that love this place, please keep hyper karting open.

Thank you for your time and consideration,

Katyana Harvey

To whom it may concern,
Hyper Karting has been a significant part of my life and one where I've made friendships that have lasted to this day. It's been a great place to have some fun, burn off stress from work and just enjoy the company of those around you.

When I moved to Sydney in 2025 I found it difficult adjusting after coming from a small rural town. One thing kept my friends and I entertained and distracted me while I adjust to this change was Hyper Karting. It gave my friends and I as well as thousands of like minded individuals a safe place to have fun.

Hyper Karting is such a unique place and to get rid of it for the sake of extra parking spaces is frankly ridiculous. Think about how many extra people come into the city for Hyper Karting, for birthdays and other special events. No one is coming into the city for car parks.

Regards,
Tom

To whom it may concern,

I am emailing my support for Hyper Karting to remain open and not be denied an extension for the excuse of more parking spaces. As someone who has attended Hyper Karting numerous times, as well as parked in the carpark for other events, I have not seen the carpark anywhere near capacity for this to be warranted.

It is an inclusive space for people of all ages to have fun and find joy, and these types of activities are few and far between in the local area.

Kind regards,
Olivia Dilanchian

Dear Shannon Rickersey,

I am writing to express my concern regarding the potential closure of Hyper Kart due to reported "parking issues".

Growing up, Moore Park was never somewhere I would choose to visit or spend time. However, since Hyper Kart opened, that has completely changed. My partner and I now visit regularly—it has even become a meaningful place for us, as it's where we had our first date. It has brought a new energy and appeal to the area that simply wasn't there before. We hoped that with us planing to start our family. We would be able to take our children there for family time.

From my personal experience, I have never found parking to be an issue, even during busy periods when major venues such as the SCG, Allianz Stadium, and the Hordern Pavilion are all operating simultaneously. The area is designed to accommodate large volumes of visitors, and Hyper Kart's presence does not seem to negatively impact this.

Beyond personal sentiment, I am also concerned about the broader impact of a closure. Hyper Kart provides jobs for many people, and shutting it down would directly affect their livelihoods. It would also remove a unique and engaging activity that attracts people to the precinct and supports the local economy.

Closing a venue like Hyper Kart over parking concerns feels disproportionate, particularly when the area already manages significantly larger crowds for major events.

I strongly urge you to reconsider this decision and explore alternative solutions that allow Hyper Kart to continue operating while addressing any concerns.

Thank you for your time and consideration.

Kind regards,
Michelle

Hi

We operate the café at Australian Film, Television and Radio School in the EQ and have a long established relationship where HK clients utilise our café pre and post race.

Closing the track would have a detrimental effect on, not only our business, but also the other businesses in the EQ.

With EQ rental costs showing no sign of abating, this decision will have far reaching ramifications.

Has a study been done on the occupancy of the car park and an independent conclusion been made including the mitigating factors of surrounding business impact?

I hope this email goes someway towards the submission being reconsidered.

Cheers
Dan Wilson, [redacted]
AFTRS Café.

Shannon,

I have to the understanding you are re-assessing the Hyper Karting lease.

I feel very strongly that the business adds material value to the community. It is an important part of the neighbourhood and broader Sydney culture.

I have many fond memories of spending birthdays and family milestones at hyper karting. If you revoke the lease that will strip future generations of Sydney from the opportunity to experience such a unique entertainment offering.

Please do the right thing and keep hyper karting running.

Regards,
Michael

Dear Sir/Madam,

I am writing to express my concern regarding the potential closure of the Hyper Karting facility and to respectfully request that the Council reconsider this decision.

This venue has been an important recreational space for my family and many others in the community. I have personally spent many enjoyable moments there with my children, creating positive memories in a safe and engaging environment. It offers a unique activity that encourages outdoor participation, family bonding, and social interaction, which are all essential for a healthy and connected community.

Beyond personal experiences, Hyper Karting contributes to the local area by supporting small business activity, creating employment opportunities, and attracting visitors. Facilities like this help give the community character and provide alternatives to more passive forms of entertainment.

Closing such a venue would mean the loss of a valuable space that promotes fun, skill-building, and community engagement, especially for young people. In a time where encouraging active lifestyles is increasingly important, retaining places like this should be a priority.

I kindly ask the Council to consider the broader social and community benefits that Hyper Karting provides before making a final decision. Exploring options to support its continued operation would be greatly appreciated by many local families, including mine.

Thank you for your time and consideration.

Yours sincerely,
Constantin Bucur

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To the City of Sydney Council,

I am writing to express strong opposition to the proposed removal of Hyper Karting at Moore Park Entertainment Quarter in order to repurpose its space for additional parking. This decision would result in the loss of a valuable recreational, economic, and community asset, and I urge Council to reconsider.

1. Community and Social Value

Hyper Karting provides a unique, accessible recreational activity for a wide demographic, including families, young people, and corporate groups. In a dense urban environment, opportunities for safe, engaging, and social entertainment are limited. Removing this facility diminishes the diversity of activities available within the precinct and reduces its appeal as a destination.

2. Lack of Comparable Alternatives in the Eastern Suburbs

There are currently no comparable go-karting venues or similar high-energy recreational activities in the far eastern suburbs of Sydney, either during the day or late at night. Hyper Karting fills a critical gap by offering an activity that is both accessible and available beyond standard business hours. Its removal would leave a significant void in local entertainment options, particularly for young people and groups seeking safe, structured activities at night, when alternatives are especially limited.

3. Economic Contribution

The venue contributes to the local economy by attracting visitors who also patronize nearby businesses, including restaurants, retail outlets, and entertainment venues within Moore Park. Its removal risks reducing overall foot traffic and economic activity in the precinct. Additionally, the business supports local employment, which would be negatively impacted.

4. Alignment with Strategic Urban Goals

Modern urban planning increasingly prioritizes activation of spaces, experiential offerings, and reduced reliance on private vehicle use. Replacing an active entertainment facility with additional parking appears inconsistent with broader sustainability and place-making objectives. Encouraging car usage through expanded parking supply may also conflict with environmental and transport strategies aimed at reducing congestion and emissions.

5. Availability of Alternative Solutions

Before displacing a successful and established operator, Council should explore alternative solutions to parking demand. These may include improved public transport access, shared parking arrangements, or more efficient utilization of existing parking infrastructure. The complete removal of a high-value tenant should be considered a last resort.

6. Cultural and Precinct Identity

Hyper Karting contributes to the identity of Moore Park Entertainment Quarter as a vibrant, multi-use destination. Its presence enhances the precinct's reputation as a place for entertainment and leisure, rather than solely a transit or parking hub. Losing such an attraction risks diminishing the distinctiveness of the area.

Conclusion

The proposed removal of Hyper Karting represents a net loss to the community, the local economy, and the strategic vision for vibrant urban spaces. It would also eliminate one of the very few accessible, late-night recreational activities available in the eastern suburbs. I respectfully request that the City of Sydney Council retain Hyper Karting at Moore Park Entertainment Quarter and pursue alternative approaches to address parking needs without sacrificing valuable community infrastructure.

Thank you for considering this submission.

Kind Regards,

Noa Cthurmer

Hi there,

I am writing to voice my concern about the closure of Hyperkarting at Entertainment Quarter.

It is a place of great entertainment. I work at Disney Studios and think it is a great part of the whole precinct.

Please reconsider the closure of Hyperkarting for car parks that will used only a fraction of the time. The inner city will no longer have anything like this, we don't want to lose it.

Thank you for your time
James

Attn: Shannon Rickersey

I write concerning the above-mentioned DA, in support of Hyper Karting.

Having attended this venue I wish to attest to its value to the community and would wish to see this preserved for some time to come.

The local area has ample transport options including parking and public transport, I myself utilised the light rail to attend which was extremely convenient.

We trust Council to support the community on this matter.

Kind regards,
Lachlan Bunn

Hello

I just wanted to make a submission against the proposal to replace Hyper Karting with car park spaces.

Hyper Karting is such a fun and unique activity at the Entertainment Quarter and it would be a shame to get rid of it just for car parking especially when there's a light rail stop nearby and surely a large proportion of people attending for events at EQ are getting Ubers anyway. The only reasons I have even visited the EQ in recent years is for Hyper Karting, seeing something at Hordern and maybe a comedy show. Whenever I have driven to EQ, I have never had an issue finding parking.

I hope the proposal is revisited and doesn't go ahead and hopefully council can find an alternative solution.

Thank you

Good afternoon Sydney council,
I have spend numerous birthdays and holidays at hyper karting, I've enjoyed time after time with my long distance friends and close family at hyper karting. Hyper karting means more then just a small go karting business, it's how I connect with those I don't see anymore. It's how many of us come together during holidays to enjoy racing without huge expenses, without the restraint of everyone pressuring us. Hyper karting is a place that brings people together and gives not only adults but kids the chance to experience racing, on and around a changing track. Please consider this email and Pleae not a demand, this place mean a lot to a lot of people, I understand the desire for more parking and revenue, but if it's at the cost of a community then I believe there are better options.

Thankyou for your time,
Jake Gilmour

Dear Shannon Rickersey,

Hyper Karting has been a valuable contribution to the city of Sydney since opening many years ago, it brings regular patronage to the Entertainment Quarter.

Go Karting, particularly EV karts are typically out in the western suburbs or regional areas and with Hyper Karting opening at the EQ it has brought the opportunity to regularly visit for our family rather than just the odd holiday experience.

If gives adults and kids the thrills of fast action and has evolved to continue to support customers over the years.

The opportunity for Hyper Karting to open in this venue was amazing and would be a tremendous shame for it to close down just to make way for a few more car parking spaces.

The council should encourage more public transport usage to the area and reduce the need for the additional car spaces and allow this business to continue to operate and contribute to the local community.

Thanks for your time and consideration.

Regards,
Martin Andrew

Attention Shannon Rickersey

Hyperkarting, at Entertainment Quarter -Moore Park is my 14yr old son Go to in the holidays.
He attends Hyperkarting as part of group therapy who develops his social, emotional and life skills due to having Autism and an intellectual disability.

Each time he attends group therapy the teens/young adults get to choose and discuss what they would like to do, plan transport and budget. Hyperkarting is always selected as a common interest and a fun activity they would all enjoy, amongst all their quirky and unique personalities. Plus, the number#1 activity when my son has a 1:1 session with his support therapist.

Please think how this decision effects the community as a whole, we tell teens they need less screen time and e-bikes are dangerous on the streets. We need more interactive/social activities for them to connect.

Many thanks, Corienne Boal

Good day,

I am writing to advise my disappointment that City of Sydney council is considering closing the hyperkarting centre in the Fox Studios Moore Park car park.

We go to the Fox studio car park quite often, to take our grandkids for the go carts and the car park has never been full from what I could see. As well lots of jobs will be lost if this proposal goes ahead.

We hope this proposal is stopped, jobs are retained and some common sense prevails.

To whom it may concern,

I am writing to express my strong support for the continuation of hyper karting in our community, and to urge you to prioritise it over additional car parking spaces.

Hyper karting offers far more than just recreation, it provides a unique, engaging activity for people of all ages, encourages social interaction, and contributes to the local economy by attracting visitors and supporting nearby businesses. It is an important part of our community's identity and vibrancy.

In contrast, increasing car parking spaces does little to enhance community life. Prioritising parking over active, social, and recreational spaces risks making our area less dynamic and less appealing. Even with several concerts and sporting events coinciding the car park is very very rarely ever at capacity.

Removing or reducing hyper karting facilities in favour of car spaces would be a significant loss. I strongly encourage you to recognise the broader benefits hyper karting brings and to ensure its place in our community is protected.

Thank you for considering my perspective.

Kind regards,
Alana Judge.

Sydney is already far too dependent on personal motorised transport. You built an "entertainment quarter" with poor public transport links, away from the rest of the city's entertainment areas. Your incompetence is laughably farcical. The only thing that makes the EQ easily accessible is ride sharing and electric bikes. The one competent thing you've done in the operation of the EQ is surrender dead end multi storey parking spaces to the operation of Hyper Karting. How about you spend your time and energy improving the active transport links and bike parking opportunities, which are frankly pitiful, at and around the EQ, instead of dismantling one of the few business/attractions that provide a unique draw card to the area? Pull your head out of your derriere, and do your job properly, with your eyes open.

Dear Shannon Rickersey,

Shutting down Hyper Karting at Moore Park would be a mistake. If a car park is the only upgrade the local area is going to get then what is the point? There are plenty of parking in Wilson Parking and public transport is viable with both light rail and bus options. Who will the extra parking spaces serve?

Kind regards,
Mandy Wu

Hi Council

I'm a local resident living on Marriott St, Redfern and own a local business operating in Surry Hills with 10 employees.

I would like to make a submission in support of hyperkarting. I have been karting with my family and also taken my employees there on a weekday for a celebratory work function.

I've always known it to be a really inventive enterprise - always evolving and improving the track, the technology and club like social element. It's always packed and they really do try to provide an accessible experience for everyone. Just today I took my 4 year old for his first ever time in a kart (he loved it!)

It seems so destructive and antithetical to everything Clover and the city are trying to do to close it down in favour of car spaces. We should be encouraging more walking, better use of the tram, bike infrastructure and expensive tibby cotter bridge. That level of the carpark will be empty the vast majority of the time, as opposed to the current situation where everyday it serves as a vibrant place where people of all ages come to enjoy themselves while employing loads of staff and being an anchor attraction driving customers to other businesses in the EQ for lunch or to hang out after.

Surely common sense can prevail here.

Regards
Harry Curotta

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Ms Rickersey,

I write to formally object to the proposed shutdown of the go-karting venue at 116 Lang Road, Moore Park. This facility is a well-loved and longstanding recreational destination in Sydney, and its closure would represent yet another regrettable loss of fun and community activity in our city.

Go-karting is one of the few genuinely exciting, accessible, and family-friendly entertainment options still available in inner Sydney. It attracts locals, tourists, corporate groups, and families alike, providing safe adrenaline-fuelled fun that appeals across age groups — from teenagers to adults. In a dense, fast-growing city like Sydney, venues like this are essential for relieving stress, building social connections, and offering something more engaging than shopping centres or screens.

In my lifetime I have only seen Sydney become less and less fun. One by one, the unique, lively, and character-filled venues and activities that made the city vibrant have disappeared or been restricted — replaced by high-rise apartments, sterile developments, and endless traffic. Moore Park and the surrounding area should be a place where people can actually enjoy themselves, not just commute through or pay premium prices to live near. Closing a popular go-karting track sends the message that recreation and enjoyment are low priorities for our city's planners.

This venue also supports local jobs, brings economic activity to the area, and contributes to Sydney's appeal as a tourist destination. Removing it would diminish the city's livability at a time when residents are already feeling the pressure of rising costs and fewer outlets for enjoyment.

I strongly urge you to reject any proposal that would result in the shutdown of this go-karting venue and instead look for ways to support and retain active recreational uses at 116 Lang Road.

Thank you for considering my submission. I trust that community feedback like this will be given proper weight in your decision.

Sincerely,

Jamie Michael Munton

Dear Council Members,

I'm writing to express concern about the proposed closure of Hyper Karting to create additional parking.

While I understand the need for parking, removing a recreational facility that supports community engagement and safe motorsport activities seems short-sighted. Spaces like this offer value that parking alone cannot replace.

I encourage the council to consider alternative solutions that preserve the facility while addressing parking needs.

Sincerely,

Rita

Hello,

I am emailing you today to include my voice as part of the many whom support Hyper Karting in Moore Park, and wish for it to remain open. I request that you reconsider the plan for more parking. I support the building of new and better infrastructure, but not at the cost of the attractions and business that Sydney has to offer.

Cheers,
Martin Brennan

Hi,

I am writing in support of hyper karting which provides a significant community benefit. I believe council should be encouraging diversity of entertainment options within the city, in particular in this precinct. Alternative karting venues are not locally accessible and without hyper karting, community are forced to travel afar. This venue is a great option for patrons.

Regards
Anthony Felice

Good evening City of Sydney,

I would like to show my support for Hyper Karting in Moore Park. As a motorsport enthusiast and president of Thornleigh Car Club Inc (est 1954) , Hyper Karting provides a track that is available in all weather conditions, throughout the year, for patrons to enjoy.

I have enjoyed their facilities with my friends, some first timers and some experienced drivers. It provides a fun and safe space to enjoy our sport.

Finding venues to cater for enthusiasts is becoming harder, with very few facilities available in the Sydney area. With councils committing to sports fields, proving spaces for football, rugby and the like, there are disproportionally low motorsport facilities for enthusiasts to use, unfortunately leading some to drive on the streets in an unsafe manner.

Facilities like Hyper Karting are needed, as a space to enjoy motorsport in a safe and controlled manner, provide entertainment (in the entertainment quarter) and create jobs for the community.

Regards,
Matthew Rath

To whom it may concern,

This place cannot be shut down! It has brought so much joy to my son, and our family!! This is one of the best places in Sydney for children, teenagers and adults to explore gokarting! It is the best.

It would be such an absolute shame to see this place go, just to use it for extra parking!!
We went to the Easter show at fox studios today and there was plenty of parking. People can fine other parking spaces around the area/stop driving and use public transport/light rail! With so many other options, fuel prices so high - don't encourage people to drive their cars more… support and promote public transport options instead.

Thanks
Yours sincerely,

Amy, a mother to my 6 year old son, Leo - who absolutely LOVES hyperkarting!!!

Please don't get rid of Moore Park hyper kart. It's a ton of fun and there are very few indoor go karting places like this in Sydney.

Kind regards,
Gil

Dear City of Sydney Council,

I'm writing to express my strong objection to the proposed closure of Hyper Karting. This venue has become a beloved part of Sydney's entertainment landscape and a place where countless memories have been made. It's more than just a go-karting track — it's a space that brings people together through fun, laughter, and friendly competition.

Hyper Karting provides an engaging and safe activity that appeals to people of all ages, families, and friendship groups. It helps keep our city vibrant, offering a unique recreational experience that encourages community spirit and healthy fun. For many of us who live and work in Sydney, it represents a rare escape from the urban rush — a chance to connect, unwind, and celebrate the city's energetic culture.

Closing Hyper Karting would mean losing an iconic local business that adds immense value to Sydney's social and cultural life. I strongly urge the council to reconsider this decision and support its continued operation.

Thank you for your time and consideration.

Best regards,

Robert D

Good evening,

Rather than supporting car dependency in a city with various public transport options, support should be shown to the business that has created life long memories to thousands of Sydneysiders and tourists alike. More car spaces is not a solution, and only eliminates an entire customer base from paying for parking on the premises. Sydney lacks so much of what hyper karting brings to our city. It is an inter generational space where people can just have fun, and one that does not promote drinking alcohol to do so.

Please take this into consideration.

Best,

Mikaela
