I am shocked to learn that Hyperkarting is at risk of closing down to make space for more car spots. I am disappointed that 150 people might lose their jobs because of that. We should encourage more people to make use of the light rail and to take public transport instead of driving themselves. I spent countless hours of fun at Hyperkarting and if it closes down, there is no reason for many people to come back to the EQ, meaning the other venues located at Moore Park will suffer too. I hope you will take the feedback from many loyal Hyperkarting customers to heart and reconsider.

Kind regards

Lisa Gebhardt

To those who are reading this email especially to the government. You have no idea how much attraction Hyperkarting brings towards the community over something that will be completely useless in the long run. Like car spaces? How about actually put your heads into problems that need to be focused on?? like the housing crises, increase pay with healthcare and teachers. These are definitely worth looking into than some car spaces, it brings entertainment, tourism attraction and so much more.

Hello

I am writing in regards to the potential closure of Hyper Karting in Moore Park.

One of the most exciting reasons for young kids (and those young at heart) to return to Fox Studios is for the Hyper Karting experience.

I have been once for a birthday party and my friends as well as our kids of various ages had a wonderful time.

I was hoping to bring my cousins there this year for a silly and fun day out (we are all adults mind you!) and in future have Hyper Karting host my son's birthday party.

There is no other place like it that I know of in Sydney. It should be heavily advertised and franchised out because it would make an absolute killing in other suburbs where there are more families.

Please reassess and keep this unique concept going. It is a wasted opportunity to grow it.

Thank you
Joanne C

I write to express my extreme opposition to the proposal to shut down the Hyperkarting operation at the Entertainment Quarter.
This is a very popular, much loved venue and a huge drawcard for the area.
I strongly believe it must be allowed to continue.

Yours sincerely,

Robert Weiss

To Whom it may concern,

I am a resident of the City of Sydney who regularly takes my 12 year old son and his friends to Hyperkarting. I was saddened to hear that their application to extend their development consent so they can continue operating Hyperkarting has been refused. I am writing in support of their application for review of the refusal.

Hyperkarting is one of the few venues in our local area available for tweens and teenagers to amuse themselves - away from screens - and burn off some energy. I know my son and his friends would be really disappointed should Hyperkarting close.

I also observe each time we go that the business employs a number of young people, who will presumably out of work if the business closes. It would be sad to see this happen during a time when many young people struggle to get their foot in the door where employment is concerned.

Lastly, I understand that one reason that may have been given for the refusal of an extension is the fact Hyperkarting occupies a floor of the EQ carpark and therefore reduces the parking available. I frequently park in the carpark - when I take my son to Hyperkarting and at other times - and the only time I have seen the carpark at capacity is when there is a major sporting event at one of the stadiums. Even on the Easter Sunday just passed, with the Family Easter Show in full flight, we were able to find a parking space without any great difficulty. I therefore do not think the reduction of parking spaces Hyperkarting causes is a major issue.

Thank you for taking my comments into consideration.

Yours sincerely,
Bridget Andersons.

Please keep hyperkarting open and support this excellent local business.
They provide a great drawcard to the entertainment quarter and it would be a great loss to have it replaced with car spaces when there is ample event posting in the grass area adjacent to Anzac Pde .

Hi there

Hyperkarting is a great place for the kids to go in Sydney as we do not have a Go Karting place accessible by public transport in Sydney. My kids asked to go hyperkarting every school holiday. I don’t understand why we are shutting a place that kids can drive safely, which is much safer and better than E-bikes on the road!

Council should allow Hyperkarting to stay where it is now.

Regards

Susan Lai

Subject: Objection to Proposed Closure of Hyper Karting – Moore Park Entertainment Quarter

Dear Shannon,

I am writing to formally express my concern regarding the proposed closure of Hyper Karting, currently operating within the car park precinct at Moore Park Entertainment Quarter.

It is my understanding that this decision is being considered in order to expand parking capacity and address instances of vehicles parking on nearby green space. While I appreciate the importance of protecting public areas, it is important to note that this overflow parking typically occurs during occasional, large-scale sporting events, rather than as an ongoing, everyday issue. As such, removing a permanent and thriving business to solve what is an intermittent challenge does not appear to be a balanced or proportionate response.

Hyper Karting has only been in operation for approximately five years, yet in that time it has established itself as a highly successful and valued recreational venue. It contributes to the local economy, supports employment, and offers a unique and accessible entertainment experience for families and visitors.

On a personal note, this venue holds particular significance for my family. My now four-and-a-half-year-old son had his very first go-karting experience at Hyper Karting, as it was one of the only places that allowed children of his age to safely participate. That opportunity sparked a genuine passion in him, and today he is on a path toward becoming a professional driver. Opportunities like this are rare, and venues like Hyper Karting play an important role in nurturing interest, confidence, and skill development in young people. You can view his profile on Instagram [redacted]

Replacing a dynamic, community-focused business with additional parking infrastructure represents a considerable loss of social and economic value. Issues relating to parking overflow are more appropriately addressed through improved event planning, traffic management, and enforcement, rather than the removal of an established and beneficial enterprise.

I respectfully urge the City of Sydney to reconsider this proposal and to explore alternative solutions that preserve both the integrity of public green spaces and the vitality of local businesses.

Thank you for your time and consideration. I would appreciate being kept informed of any developments regarding this matter.

Yours sincerely,

Veronica Moore

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

PLEASE DO NOT remove Hyperkarting at Moore Park.

It is so well located for Sydney suburbs, it is very well run and managed, it employs a lot of people who clearly enjoy their work and who provide excellent service, it is a wonderful opportunity for kids to get off screens and learn varying skills.

And there is NOT an established need for additional parking in the area.

WHY destroy a successful business, and a community facility, for a few surplus parking bays???

Regards

C J (Chris) Conway

Dear Sir/Madam,

I am writing to express my strong support for the renewal of the Development Approval (DA) for Hyper Karting at Moore Park.

Hyper Karting has become a unique and valuable attraction within the Moore Park precinct, contributing significantly to the vibrancy and activation of the area. Its presence offers an engaging, family-friendly recreational option that complements the broader mix of entertainment, sporting, and hospitality venues nearby.

The venue helps draw a diverse range of visitors, including families, young adults, corporate groups, and tourists. This increased foot traffic supports surrounding businesses and contributes to a more dynamic and economically active precinct. In particular, Hyper Karting enhances the appeal of Moore Park as a destination beyond major events, encouraging consistent visitation throughout the week.

It is my understanding that the proposed reason for declining the renewal is to convert the space into additional car parking. However, this appears to be a poor trade-off, particularly given that existing parking capacity in the area is often underutilised outside of major event days. Replacing a vibrant, experience-driven attraction with largely empty parking spaces would detract from the precinct's appeal and undermine efforts to create a lively, people-focused destination.

Additionally, the facility promotes social interaction, safe recreational activity, and community engagement. It provides an accessible and exciting experience that is not widely available elsewhere in Sydney, helping to distinguish Moore Park as a leading entertainment hub.

From an urban planning perspective, retaining attractions like Hyper Karting aligns with broader goals of activating public spaces, encouraging local tourism, and fostering a lively and inclusive environment. Removing such a facility would diminish the diversity of experiences available in the area and reduce its overall appeal.

For these reasons, I strongly support the renewal of Hyper Karting's DA and encourage the relevant authorities to recognise its positive contribution to the precinct's vibrancy, economy, and community life, rather than replacing it with infrastructure that does not meaningfully enhance the precinct.

Thank you for considering this submission.

Yours sincerely,
David Loiterton

To whom it may concern and Major of Sydney,

I am writing regarding the potential decision to shut down Hyper Karting at the Entertainment Centre.

I strongly believe this would be a mistake for Sydney's inner-city nightlife and broader entertainment offering. At a time when there is significant discussion around revitalising the city and creating more engaging experiences, it seems counterproductive to remove a venue that consistently brings people together and provides a unique form of entertainment.

From personal experience, the Entertainment Centre precinct often feels underutilised, even on nights with AFL, NRL, or major concerts. I have never experienced difficulty finding parking at the multi-storey car park, even when multiple events are running. For that reason, it is difficult to understand how parking constraints alone justify closing a popular attraction like Hyper Karting.

Additionally, this decision appears to contradict ongoing messaging around encouraging public transport use and reducing reliance on cars. Removing a central entertainment option due to parking concerns sends a conflicting message.

Decisions like this contribute to the perception that Sydney lacks vibrant, accessible nightlife and entertainment options. Retaining venues like Hyper Karting is exactly what helps counter that narrative and keeps people engaged in the city.

I strongly urge you to reconsider this decision and explore alternatives that support both infrastructure needs and the continuation of valuable entertainment experiences.

Kind regards,
Jake Loiterton

Hi,

My name is Reece Shannon-Purcell and I am emailing to show support for RD/2023/897/A and stress the importance of keeping Hyper Karting at the EQ.

I am asking for the approval of the review, or a further time-limited approval with conditions.

As mentioned above, my name is Reece, I am a local Sydney resident and regular customer at Hyper Karting.

I have been visiting the Hyper Karting site for the past several years for solo experiences, catch ups with friends and quality family time. I typically go to Hyper Karting a few times a year.

I typically travel to the Hyper Karting site by light rail or by driving my personal motor vehicle. When I do happen to drive, I've never found finding a parking spot to be an issue.

Removing Hyper Karting from the EQ would be a mistake. Hyper Karting brings life to the EQ and if I visit the site, I typically find myself eating / drinking at a restaurant or cafe at the EQ. The activity is something I genuinely look forward to and its central location allows for frequent visits every year. I'd personally find it distressing if I couldn't continue accessing this activity. I wouldn't have any other reason to visit the EQ.

I believe keeping Hyper Karting in the car park at the EQ is a better outcome than returning the area to underused parking (most of the time).

I'm sure concerns could be managed through conditions rather than closure.

Thank you for the opportunity to provide feedback.

Kind Regards,

Reece Shannon-Purcell
Artarmon Resident

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Members of Council,

I write in support of the extension of car parking approval for Hyper Karting Sydney and urge Council to reject any proposal that would result in the closure of this venue.

I understand the matter before Council turns principally on whether there is a shortage of car parking in the surrounding precinct.

On that question, the evidence should be assessed honestly and proportionately. By all accounts, the car park in question operates well below capacity the overwhelming majority of the time. What is being proposed, in effect, is the removal of a significant community asset in order to accommodate an edge-case scenario a marginal and infrequent parking shortfall that, on any balanced weighing, does not justify the harm that would result.

Hyper Karting is not a trivial amenity. It is an entertainment and recreation venue that provides meaningful social benefit to the community, a place where families, young people, and groups gather for leisure and connection.

Hyper Karting is not a trivial amenity. It is an entertainment and recreation venue that provides meaningful social benefit to the community, a place where families, young people, and groups gather for leisure and connection. It is also a legitimate employer contributing wages, superannuation, and tax revenue to the local economy. To close it in response to a carparking concern that arises only in fringe circumstances would be to cause real and lasting harm to address a problem that is, at best, occasional and manageable.

Critically, closure is not the only tool available to Council. If there is a genuine, evidence-based concern about peak-period parking demand, there are proportionate measures that address that concern without destroying livelihoods and community access.

These include:

- time-limited or condition-based parking approvals tied to occupancy monitoring;
- signage directing patrons to nearby overflow or public parking options during high-demand periods;
- a requirement that the venue implement a travel demand management plan or active transport incentives for patrons;
- engagement with nearby landowners about shared or overflow parking arrangements; or
- a trial extension with a formal review mechanism at a defined interval.

Any one of these measures would address the stated concern far more proportionately than closure. Council has an obligation to consider the least harmful means of achieving its planning objectives and no such consideration has been satisfied here if the only option on the table is to shut the venue down.

Council is asked to weigh two competing interests:

- the inconvenience experienced by a small number of motorists on peak occasions, against
- the permanent loss of a recreational venue, jobs, and community amenity.

Hyper Karting is, moreover, a genuinely novel and unique asset, there is few comparable facility readily accessible to the local community and broader Sydney community that frequent it, and once lost, it will not be easily replaced.

Those two outcomes are not comparable. The proportionate response is to extend the parking approval, impose reasonable conditions if necessary, and allow Hyper Karting to continue operating.

I respectfully urge Council to give this submission proper weight and to find in favour of the extension.

Yours sincerely,

Robert Bucci

To whom it may concern.

Hyperkarting is a phenomenon in the area. Prior to this opening, we had to travel for a long time out west to drive inferior karts. Please don't turn it back to unnecessary extra parking again.

With thanks.

Michael Dotch

Subject: Submission Opposing the Closure of Hyper Karting Sydney

To Whom It May Concern,

I am writing to formally oppose any proposal to close Hyper Karting, a unique and highly valued recreational venue within the Sydney CBD.

Hyper Karting is not just an entertainment facility — it is an important part of Sydney's urban lifestyle and night-time economy. It provides a safe, controlled, and engaging environment for people of all ages to participate in recreational activity, particularly in a city where options for interactive entertainment are limited.

From a community perspective, Hyper Karting plays a significant role by:

- Offering a safe alternative to nightlife that does not revolve around alcohol
- Supporting social connection through group events, families, and corporate bookings
- Encouraging physical activity and skill-based engagement in a controlled setting

Economically, the venue contributes to:

- Local employment across operations, hospitality, and event management
- Increased foot traffic to surrounding businesses in the CBD
- Tourism appeal, particularly for visitors seeking unique urban experiences

Sydney is a global city, and venues like Hyper Karting contribute to its vibrancy and diversity. Removing such facilities reduces the attractiveness of the city for both residents and visitors, and limits the range of experiences available in the CBD.

If there are concerns regarding compliance, safety, or operational impacts, I strongly urge Council to work collaboratively with the operators to address these issues rather than pursue closure. Solutions such as revised operating

conditions, noise management, or safety upgrades should be explored as alternatives.

Closing Hyper Karting would represent a loss not only for its patrons but for the broader community and local economy.

I respectfully request that the City of Sydney reconsider any action that would result in the closure of this venue and instead support its continued operation under reasonable and balanced conditions.

Yours sincerely,

Ali Nasser

Hi There,

Just writing to ask you to reconsider the closure of hyperkarting / re opening of the carpark.

I'm both a regular customer at hyperkarting, and a frequent attendee of hordern pavillion and other entertainment quarter events.

This area is already chaos to get in and out of during peak periods, the only way in/out during these busy times is by public transport as the car traffic in the area is usually insane.

I say this as someone who actively loves driving, and often prefers to drive places (hence my interest in hyperkarting). Moore park is just not a place to drive to during peak times. Any other method of getting there is so much quicker and easier.

I don't feel that the local area can actually accomodate the traffic, making the additional parking useless as the streets/intersections to get to and from the carpark are completely gridlocked during substantial events.

Hyperkarting is such a great activity and the space is perfect for it, allowing karting during all weather conditions, and at night. It's also more eco friendly and clean (in many ways) due to the karts being electric, and the courses being indoors, meaning you're not just covered with debris like regular karting.

Each time myself and friends attend hyperkarting, we often go to other restaurants in the entertainment quarter afterwards for lunch or dinner. I often see many of the hyperkarting customers doing the same thing.

Please reconsider the closure of hyperkarting. It will kill a great community, business, and may impact other businesses in the area who rely on hyperkarting to bring people into the area for food.

Regards,
Brad.

To Shannon Rickersey

I regularly use the parking area around Moore Park and have never experienced difficulty finding a space. I have also visited the Hyper Karting facility, which provides a unique and engaging attraction within this precinct.

As a city that actively promotes cycling, public transport, and access to open space, I am surprised by the suggestion to remove an existing recreational facility in favour of additional car parking. This approach appears to contradict broader urban planning and sustainability objectives.

With a Master's degree in Urban Design and a Bachelor of Landscape Architecture, I find this proposal difficult to justify. Successful urban environments rely on public amenity, activation, and mixed use. Replacing an active, engaging space with passive car storage diminishes the overall value of the precinct.

Rather than removing such attractions, there should be a stronger focus on integrating uses retaining parking where needed, while also enhancing spaces for recreation and community engagement. In fact, if the goal is to create a greener, more liveable city, we should be looking to transform more car dominated areas into active, people-focused environments.

As I know the CofS would be aware the amount of hard spaces that are taken up by car parks in the city to be quite high. I am flabbergasted that it has not been looked at how these could become mix use rather than just "car parks' becoming 'parks' hasn't not been considered previously. The current use for this space is a perfect example of a SUCCESSFUL use of a carpark in a multifaceted way.

I strongly encourage a reconsideration of this proposal and do not support the closure of hyper karting.

Regards,

Georgia Falconer

Hello,

I hope this message finds you well. I am writing to express my objection to the proposed closure of Hyper Karting in Moore Park to make room for additional car spaces. After careful consideration, I genuinely believe that removing Hyper Karting would not result in any significant increase in available parking, and the impact on the community would far outweigh any minor benefits.

Hyper Karting has become a vibrant feature of Moore Park, providing recreational opportunities and fostering a sense of community. Eliminating this facility for the sake of a few extra parking spaces seems unnecessary, especially since it will not meaningfully address parking shortages in the area.

I strongly urge you to reconsider the decision and explore alternative solutions that support both local amenities and practical needs. Thank you for taking the time to review my concerns.

Best regards,

Mathew Mcgrory

Hi,

My name is Mehreen Ali, I am writing to formally submit this email as part of a petition to save Hyper Karting at Moore Park, as the official submission form is currently inaccessible.

I strongly oppose the closure of Hyper Karting, as it is a unique and valuable recreational venue that brings enjoyment to the community, supports local employment, and contributes to the vibrancy of Moore Park. Losing this facility would remove an important entertainment option for both residents and visitors.

Through this email, I am adding my name in support of keeping Hyper Karting open and respectfully urge you to reconsider any decisions that would lead to its closure. I ask that community feedback be genuinely taken into account before any final actions are made.

Thank you for your time and consideration.

Kind regards,
Mehreen Ali

Hey there!
I am writing to express my opinion of hyper karting shutting down to become a car park?!! As a 25 year old who is in love with everything thrill seeking, hypercarting has been a place that i absolutely love, I take my friends, my family there to go and have fun. It's such a shame if it would close as there is nothing like this, Sydney city night life needs OPTIONS! Some of us want to have dinner followed by some fun! Without always getting drunk and partying . I speak for myself but also for many others. Save their jobs, leave us to have fun and let people pour more money into public transport or Uber /taxi to come into our city. WE LOVE HYPERKARTING

I'm writing to push back on the proposal to remove Hyper Karting at Moore Park for more parking.

It doesn't make much sense to replace a unique, active venue with something as generic as extra car spaces. Hyper Karting isn't just entertainment — it's one of the few places that actually gets people out, moving, and doing something social in a controlled environment.

Moore Park already has a fair amount of parking, especially outside of major events. But there aren't many venues like this around, and once it's gone, it's not coming back.

Hyper Karting brings real value:

- It creates jobs and supports local business
- It gives people something different to do (not just shops or passive entertainment)
- It encourages social interaction and skill-based activity
- It adds to the overall appeal of the Moore Park precinct

Swapping that out for more parking feels like a step backwards. There has to be a better way to manage parking demand without removing something that actually contributes to the community.

I'd strongly encourage you to reconsider and look at alternatives.

Please extend the lease for hyperkarting! It's disgraceful to be closing down a community like hyperkarting just for some extra car spaces.

Young ppl need a safe fun place to go to and hang out and make new friends and learn a new skill!

What do young kids have to do these days if you close fun things like hyperkarting down! I don't even live in the area and come with the kids.

Please listen to the community and do not close it down!

Thank you
Marcia

To whom it may concern,

I am writing regarding the closure of Hyperkarting in the Moore Park car park area. I strongly oppose the shutting down of this venue simply to increase the number of car parks. This car park is never full unless there is an event on at Moore Park or nearby, and this level of the car park is otherwise unneeded during other times. There is already sufficient public transport to the venue.

Removing a business from this location just to replace with a few car spaces is a big waste of time, space, and money, and I see no reason why it should be done.

Kind regards,
Brandon

To the City of Sydney,

I'm writing to express my concern about the closing of Hyper Karting at Moore Park. It has been an amazing place for both recreation and social activities, and I've personally really enjoyed spending time there.

It's not just a go-karting venue, but a space where people can unwind, connect with friends, and experience something unique in the city. Losing it would take away one of the few engaging and accessible entertainment options available in the area.

I strongly hope you reconsider this decision or explore possible alternatives to keep it running. It would mean a lot to many people who value the place.

Thank you for your time and consideration.

I confirm I support the save hyper karting campaign.

It is a fantastic asset to Sydney to have hyper karting available. Why this would be sacrificed to having more car spaces is incomprehensible

Kind regards

Raphael Hudson

Dear Council,

I just wanted to reach out regarding the proposed changes to Hyper Karting.

It would honestly be a real shame to lose or change it. It's one of those places that actually brings people together. I've taken my kids there for their birthdays over the years and it's something they genuinely look forward to every time. It's not just the karting — it's the whole experience of getting out, having fun, and spending proper time together.

Places like that are hard to come by, and once they're gone or changed too much, you can't really replace what they offered.

I just hope this is taken into consideration before any final decisions are made.

Thanks for your time,

Sebastien

Hi there,

I'm writing to ask you to please reconsider removing Hyper Karting in Moore Park.

It's a really fun place and a great way for people to spend time together, whether it's for birthdays or just hanging out with friends. It adds something special to the area that a lot of people enjoy.

I also don't think replacing it with more parking is necessary, as there has always been plenty of parking available when I've visited Moore Park.

I'd really appreciate you taking another look at this decision and considering the value it brings to the community.

Kind regards,

Imogen

Hi
I would like to express my concerns about the closing of hyperkarting Moore park Sydney.
The venue was my bucks party location and was one of the few places in Sydney that isn't a bar or restaurant where people can gather socially. It was such a fun night. I've also been there in the past for many social occasions and it's been great. I strongly urge those in power to reconsider any decision to close or shutter the venue

Hello,

I'm sending this email to support the effort in keeping Hyper Karting open. I'm aware that this is a key place for fun and recreation within Sydney and has positively impacted families and individuals across a wide range of age groups, providing experiences that are unforgettable for many. It truly does not seem justified to close down something so significant for many and eliminate countless jobs solely for parking spaces.

Save hyperkarting! I'm actually going to never come back to Moorpark ever again if you don't extend their lease. I think it's extremely stupid of you. There are so many people who enjoy the experience. I actually went on a first date there and even though it wasn't a good date the only thing that was good about it was I got to Hyperkart.

Do better.

Dear City of sydney council

I am writing to express my deep concern and disappointment regarding the decision not to extend the contract for Hyper Karting, which now faces imminent closure.

Hyper Karting is more than just an entertainment venue — it is a place where families, friends, and the wider community come together. It has provided a safe, engaging, and inclusive environment for people of all ages to connect, unwind, and create lasting memories. For many, it is one of the few accessible recreational activities available locally.

The closure of this facility will not only impact loyal customers but also the hardworking staff who depend on it for their livelihoods. It will remove a valuable community space that contributes positively to social wellbeing and local engagement.

I respectfully urge the council to reconsider its decision and explore possible solutions that would allow Hyper Karting to continue operating. Whether through extending the contract or working collaboratively with the operators, I believe there are options that can benefit both the council and the community it serves.

Please take into account the voices of the many individuals and families who value this facility and wish to see it remain open.

Kind regards,

Thirith

To Shannon Rickersey,

I'm writing this email in hopes you take my objection into account for the application.

To close down Hyper Karting would, in short, be a disservice to your community. I live in the City of Sydney LGA (postcode [redacted]), and as a resident of the area you're supposed to be serving, I find it immensely disappointing to see the amount of entertainment and places of enjoyment for your residents (and all of Sydney) that have been closing because of what can only be described as greed.

Everyone I know, knows someone who's had the pleasure of visiting Hyper Karting and making memories there. I have legitimately, in complete truth, had multiple clients of my workplace (the corporate division of one of the Big 4 banks), describe their weekends to me and include Hyper Karting in their details.

You would be taking away a place of excitement, socialisation, and pure joy. It's not the first time my LGA would have done so. I implore you to consider that a*carpark* is not as important as the public transportation system (to which there are multiple forms servicing Moore Park) you have spent billions of dollars on, which you should be encouraging use of instead. If it's residential; you would not be fixing the housing crisis your government has caused with taking away a facility that enhances the lives of thousands, not to mention the value of surrounding properties.

Go-Karting of any form in our area (instead of in Greater Sydney) is few and far between. Do not take away an attraction and push money out to the western suburbs when we are already struggling to keep people interested in what the CBD has to offer. You'd be making a mistake to process and approve this application. I hope you can see that.

Thank you

Hi, I hope this finds you well.

Regarding the situation revolving around the car space confining the well liked business of “Hyper Karting”, it would be a tragic and severe blow to the community as if this place of entertainment would go under in the sake of a slight increase in space even as these urban designs are known to not be the most efficient in parking space management.

Hi Syd City handler,

Let the Hyper kart stay. Why would someone in a right mind would choose to build few hundred more car parking space over a place where people meet, celebrate and enjoy.

I would rather park 5min down and walk up to the hyper kart. If you remove it for more 290s car parking space 500 more will be empty because it was the reason we go there. It was a fun place to be with friends.

There is already so less things to do in the city that are fun and thrilling. Please don’t make the list shorter.

Thanks
Hyper karting boy

Hi there, please don't close down hyperkarting

We really don't need like 30 more parking spaces in exchange for a place that brings actual value... Why not just encourage public transport use rather than encouraging car usage, the world is making car usage less and less viable, why not embrace that and change, rather than go backwards for no reason.

Attention: Shannon Rickersey / City of Sydney Planning Department

Dear Shannon Rickersey,

I am writing to express my strong support for the Division 8.2 Review (RD/2023/897/A) regarding the Section 4.55(2) Modification Application at 116 Lang Road, Moore Park. I urge the Council to overturn the initial refusal and grant the extension for the continued use of Level 5 of the Entertainment Quarter car park for electric go-karting and associated entertainment activities until 1 July 2028.

As a Sydney resident, I am deeply concerned by the decision to close a thriving, low-impact community asset. The refusal earlier this year, which cited the "exclusive use of on-site car parking spaces" as having an "unacceptable" impact on parking availability, is fundamentally flawed and contradicted by real-world data.

I respectfully ask the assessing officers to consider the following critical points for overturning the refusal:

The Parking Justification is Factually Unsupported: According to Transport for NSW data, the Entertainment Quarter car park has reached full capacity only a handful of times across 84 major events since Allianz Stadium reopened in 2022. While the Council has pointed to the forthcoming closure of on-grass overflow parking at Lower Kippax and Hordern Pavilion as justification, this event data demonstrates the car park has not reached capacity, even without that overflow parking being factored in as a realistic substitute. The 298 spaces consumed by the track are rarely needed, and closing a vibrant venue simply to reinstate an empty concrete parking deck is a highly inefficient use of urban space.

Significant Economic and Social Value: Hyper Karting is one of the precinct's busiest daily attractions, having breathed much-needed life into the Entertainment Quarter. Since opening in 2021, the facility has safely hosted over 500,000 visitors. Refusing this extension puts over 150 jobs directly at risk, delivering an unnecessary economic blow to the local community.

Zero Amenity Impacts: Despite operating extended daily hours, the electric facility has generated zero noise complaints across its entire operational life. It is the perfect, low-emission tenant for a designated entertainment precinct.

Strategic Misalignment and Broad Opposition: Closing this venue actively contradicts the NSW Government's own push to revitalize Moore Park as a year-round destination. Furthermore, the decision has drawn rare and significant political backlash; Lord Mayor Clover Moore publicly expressed she was saddened by the decision, alongside vocal support from multiple local councillors.

Dangerous Precedent for Precinct Decline: Documented patterns from entertainment venue closures across NSW show that when anchor tenants are removed from mixed-use precincts, foot traffic collapses and surrounding businesses suffer. The city cannot afford to lose another established entertainment venue, particularly one seeking only a modest two-year extension.

The applicant is not seeking a permanent rezoning or to fundamentally alter the use. They are only to extend a temporary consent for an existing, proven operation while long-term plans for the EQ are developed. A car park that is rarely full cannot credibly justify closing a venue with half a million visitors, 150 jobs, zero complaints, and the active support of the Lord Mayor.

I strongly encourage the City of Sydney to correct this error, look favorably upon this review, and approve the extension until 1 July 2028.

Yours sincerely,

Kieran Campbell-Davis

Hello there,

Please find close hyper carting.

We've been hyper carting customers since it opened. With lots of young kids in our family it's been a great day out for us on many occasions. If it closes down it'll be a really sad day for us a we lose another great activity for the kids big and small in the city. It's rare and unique and so important for us all.

Please don't get rid of this for the sake of more car parking. There are fields near by where you can park loads of cars. And lots of public transport options.

Please don't close hyper carting.

Thanks
Fiona

We love Hyperkarting!! Please do not close this down!

While this is for everyone, if all ages, tween / teen Boys have hardly any options of cool things to do, while Giles have a gazzilion options !! I love doing this with my son, it’s clever use of unused space!

Please do not close this down!

Hyperkarting is one of the only few remaining activities left in the Sydney metro area.
Sydney is supposed to be an international city full of life, yet the NSW govt and Sydney city council have managed to ruin it.
Lock out laws, noise restrictions, bike lanes, operating hours, capacity issues etc have made our beautiful city BORING. Now you want to close down another activity for a carpark!? Wake up to yourselves

Dear Council,

I am writing to express my strong support for Hyper Karting at Moore Park and to urge Council to reconsider its recent planning decision.

Hyper Karting has become a valuable recreational asset for Sydney, attracting significant community use and offering a unique, family-friendly activity in an area that benefits from diverse entertainment options. Reports indicate it has already drawn hundreds of thousands of visitors, demonstrating clear public demand and community value.

While I understand concerns around parking and land use, the activation of underutilised space for recreation aligns with broader community interests and contributes positively to the vibrancy of Moore Park. In a growing city, it is important to balance parking needs with engaging, accessible experiences that encourage people to spend time in shared public spaces.

I respectfully ask Council to work collaboratively with the operator to find a practical solution that allows Hyper Karting to continue operating.

Kind regards,

Chris Timmer-Arendt

Subject: Support for Hyper Karting – Keeping the Entertainment Quarter Vibrant

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Lord Mayor and Councillors,

I am writing to you as a Clovelly resident to express my strong support for Hyper Karting remaining at the Entertainment Quarter (EQ).

My teenagers visit the venue every school holidays, and birthday parties.
It is one of the few high-quality, all-weather recreational activities available in the East that engages young people and brings families into the precinct.

I am concerned by the proposal to prioritise car parking spaces over this venue.
This move seems fundamentally contradictory to the City's goals of encouraging the use of light rail and bus services and lime bikes.

To remove a major attraction in favour of more parking—at a time when you are encouraging reducing car dependency—is a contradictory step backwards for the Moore Park area.

Venues like Hyper Karting keep the EQ a viable cultural and entertainment hub.

I urge the Council to support its retention rather than sacrificing it for asphalt.

Kind regards,
Anabella
Clovelly, NSW

Save HyperKarting!

Over 150 jobs are at risk, and the precinct faces losing a major, popular, and accessible entertainment venue.

The city should be more focused on increasing public transport options and increasing jobs and small business.

Thank you.

Hi Shannon

There is no real reason why hyper karting needs to go .
It's tucked up top floor of empty carpark .
There electric so no fumes no noise.
And of course fun.
Don't take away fun .
We can't just work and go home
Kids can't just sit on ipads all day.

Thanks for reading

Anthony mastro

Dear Council,
I am writing as a resident of Sydney. We regularly go to the entertainment quarter for many events- music concerts, movies, AFL games/Swans HQ, the sporting club etc.
we have never had issues with parking as most of the time when we go we get public transport. We have had multiple celebrations at Hyper Karting and its a great activity for families.
Sydney doesn't need another corporate owned paid parking area.
Thanks,
Jana

DO NOT REPLACE A THRIVING BUSINESS WITH MORE CAR SPACES!!!

The Moore Park Car Park building has enough spaces for cars.

This is a unique business without any realistic option for relocation any near the area in which it was founded and now booms. Hyperkarting has nowhere else to go and it is PERFECT WHERE IT IS NOW!

Dear Shannon,
I would like to make it known that I reside in the city of sydney (Pyrmont) and regularly attend the entertainment quarter.

I urge you to please rethink your current plans to close hyper carting down. You may not view it as “closing them down”. You may view it as “investing in additional parking”, however closing them down is exactly what you’re doing. I agree additional car parking is required, however there are many ways that this can be achieved.

My strong suggestion is to invest in the future. Construct significant parking facilities underground at one of the close by fields and return the above ground field/turf over the top once complete. In fact why not put a 5000+ bay parking lot underneath a park (the whole place is surrounded by parks) and convert the current parking lot into more entertainment spaces. It’s a win, win situation long term. More infrastructure without taking away from the beautiful parklands, more entertainment spaces by reusing the existing parking facilities, you can make the old parking lot look a lot nice aesthetically, additional parking during major sporting and other events would help, and lots of people do to lose their jobs!!!!

We managed to get the state government to spend a billion dollars on a stadium and a whole lot more on a foot traffic bridge before that. Why not ask for a significant underground parking lot. I’m fairly certain you can make it happen.

Also, can you please put in a big underground parking lot underneath the fields opposite the fish markets. The new fish markets is incredible, but the local parking has taken a significant hit.

Kind regards
Jay Boyle

To whom it may concern,

Please do not shut down Hyper Karting at Moore Park, especially not to create more car spaces.
Hyper Karting is an incredible experience for family and friends entertainment, in a well located spot.
As well as it appears that the vast majority of visitors to Moore Park attractions utilise public transport, as demonstrated during peak occupancy periods with plenty of car spaces still readily available, even whilst concurrent major events are occurring.

We hope you will reconsider the proposed decision to remove Hyper Karting. It would be truly appreciated by both staff and community to keep it as is.

Yours sincerely,

Sasha Turner Smith

Hi Shannon.

Please please please reconsider the closing down of Hyper Karting at Moore Park for the access of car spaces.

I have been indirectly involved in Hyper Karting since the opening and it's struggle through the covid period. I have (from the outside) watched the skills development of the motivated young people who's work has become so proficient they have moved on to great jobs at larger corporations and in government positions. Many others have continued to work their for love and pride in the job they do.

I have watched individuals, friend groups, and families enjoy the track and facilities. I have seen many kids celebrating special occasions including birthday parties at the premises.

I have seen young people who have found a passion in racing the cars who had now interest in anything before hand.

The precinct is called the Entertainment Quarter. I cannot think of anything more entertaining than the Hyper Karting facilities.

Regards

the potential closure of Hyper Karting. This venue is far more than just an entertainment facility—it is one of the best family-friendly activities in Sydney, bringing people of all ages together in a safe, exciting, and memorable environment.

Hyper Karting offers families and friends a rare opportunity to share quality time, build connections, and create lasting memories. In a city where meaningful, inclusive activities are so important, losing such a place would be a significant blow to the community.

Beyond its value as a recreational space, it also contributes to the local economy and supports jobs. Most importantly, it has become a cherished part of many people's lives—a place where friends gather, families bond, and visitors experience something truly unique about Sydney.

Closing Hyper Karting would not just mean the loss of a business; it would mean losing a vibrant community hub. I strongly urge you to reconsider any plans that would lead to its closure and to recognize the important role it plays in enriching the lives of Sydney residents.

This place is exciting and fun we go there every week the children look forward to it
The space is amazing g

People should drive less with petrol plus we have been on busiest days and 1/2 of yellow level is empty
So u don’t need extra space
But we need kids activities like these that teach children amazing driving skills and are fun

Hi,

I strongly object to the proposal to convert the Hyper Karting space back into public car parking. The current use provides a unique recreational and community asset that supports local businesses, attracts visitors, and adds vibrancy to the area.

As a council ratepayer, I believe this represents a poor decision and an inefficient use of public funding. Reverting the space to parking offers limited long-term value and undermines opportunities for active, engaging urban spaces.

I urge the City to prioritise innovative, community-focused uses over additional car parking.

Thanks
Andy Morris

Hi

I'd like to complain about the parking submission as hyperkating should not be removed and replaced with a car park. We have built many memories and highly enjoy the children's activity every year. It's a unique Sydney entertainment experience one that our kids of all ages have enjoyed on weekends and school holidays. I would like the council to not agree to removing it from its premises and keep it there where citizens and locals like me can enjoy it.

Thanks

Annabel Badilla

I oppose the closure of hyperkarting. Fun and jobs for so many far outweigh a few parking spots for an already empty carpark, with easily accessible public transport. You can’t encourage people to catch public transport and then remove the amenity for parking - it’s contradictory!

Thanks,

Daniel

Hi

I am writing to submit my support for keeping hyper karting active and operating in preference to creating more car spaces.

I believe drawing more business to the area is more valuable than 296 parking spaces.

Thanks

Ben Adamson

Dear City of Sydney Council,

I strongly urge the Council to reconsider the decision to close Hyper Karting at the Entertainment Quarter in Moore Park.
This popular electric go-karting venue has been a major success, attracting hundreds of thousands of visitors, creating jobs, and providing fun, family-friendly entertainment in the precinct. Closing it to create more parking spaces would be a step backwards for a vibrant Entertainment Quarter.
I respectfully request that you approve the extension of its operating approval so this great local attraction can continue.
Thank you for your consideration.

Yours sincerely,
Marv

Dear City of Sydney Council,

I am writing to you not just as a resident, but as someone who truly values what makes our city feel alive, connected, and full of joy.

The potential closure of Hyper Karting at Moore Park is deeply upsetting. For many of us, it's not just a go-kart track—it's a place where families come together, where friends laugh, where kids experience pure excitement, and where our community feels vibrant and alive. In a time where so much of life is busy and stressful, spaces like this matter more than ever.

As a local, I've seen firsthand how much energy and life Hyper Karting brings to the area. It has transformed what could have been just another empty space into something meaningful—something that people actively choose to be part of. Taking that away to return to a car park feels like a step backwards for our community.

This decision doesn't just affect a business—it affects people. It affects the employees who rely on it, the families who enjoy it, and the local businesses that benefit from the foot traffic it brings. It affects the character of our neighbourhood.

Sydney is growing, and with that growth should come more spaces for connection, recreation, and shared experiences—not fewer. We often talk about building a vibrant, world-class city. Places like Hyper Karting are exactly what contribute to that vision.

I respectfully urge the Council to reconsider this decision. Please work with the operators to find a solution that allows this much-loved venue to continue operating while balancing the needs of the precinct.

Please don't let our community lose something that brings so much happiness to so many.

Kind regards,
Sara

To whom it may concern,

I am writing this email in support of Hypercarting Moore Park. Myself, my family and friends were extremely disappointed to hear that you are thinking of replacing hypercarting with more car spots. This means the community would be losing a place where we have celebrated birthday parties and family celebrations. There's also a plethora of public transport in the area. We shouldn't be encouraging more people to drive.

We respectfully ask that you reconsider.

Kindest,
Lilly Kristensohn

Hi,

I'm writing to support Hyper Karting to stay open at Moore Park.

It's such a fun and unique place in Sydney, and it brings a lot of life to the area. It would be really disappointing to lose something people actually enjoy just to turn the space back into more parking.

Hyper Karting gives people somewhere to go with friends and family, supports jobs, and makes the Entertainment Quarter feel more active and exciting. I'd much rather see the space used for something like this than as a car park.

Please reconsider the decision and find a way to keep Hyper Karting open.

Thank you

Dear Council,

There's never been a lack of parking when we have been the EQ. And the only reason we go is for hyper karting! Don't get rid of such a unique facility in the area when there is currently no pressure on parking spaces.
Have been here for kids parties, work patties, take visitors to Sydney - it's so much fun, so different and always growing. Save hyper karting!

Regards,
Karly & family

To whom it may concern.

As a local resident and motor racing enthusiast, I value the ability to go go karting in the city. Without Hyperkarts I would be forced to travel to the unsafe go-karting track out at Western Sydney.

Hyper karts offers a unique go-karting experience which is accessible to 1st timers and experienced karters. It would be an incredibly sad outcome, were this viable and valuable to the community business forced to close as a result of a perceived need for further parking.

Further parking is unnecessary, I've had no issues with it, and there is easily access with public transport to the Entertainment Quarter.

I urge the relevant decision makers to maintain hyper karts lease.

Kind regards,

Kristen Stanton

Dear council,

The decision to revert Hyperkart back into a carpark is completely unacceptable.

I regularly attend major events at Moore park and have never ever seen the current car park close to capacity. Besides, aren't we supposed to be promoting public transport? Tax payers funded the new metro and light rail to make travel into and through the city easier. Why increase Moore parks environmental footprint by encouraging more car traffic? Insanely stupid.

You are meant to be revitalising my city and its night life, not squashing it.

Hi,

I don’t understand why you’re considering such a great place that brings people together for enjoyed fun.

I’m assuming for more car spaces? Make public transport like every other 1st world city and you wouldn’t have this issue. The government has spent $60-$80 billion over the past 15 years building toll roads in Sydney alone, invest in public transport, get the cars off the road and you won’t be shutting down successful enjoyable business like this one to create a few more spaces, the car park can’t even handle the amount of people leaving on busy days as it is.

I do not support closing this business at all, City of Sydney use some common sense!!

Thanks,
Ryan

Hyper karting brings in so many people to Moore park area, it's the only go karting venue within a 1 hour radius, it benefits all the businesses in the area and brings so much joy to every person who participates, removing this venue, removes and option, a place in every families life to do something they enjoy, something they feel is so available, accessible and great to have in their community. The roof parking is never open and this car park is never full, I've been multiple times, for concerts at the Hordern, to watching a movie, to go karting, and finding a park is never ever a task. You can't hear the venue from the ground floor. I honestly do not see a benefit from the removal of this venue, it hasn't bothered anyone, it brings in revenue, it brings in joy, it's never been "in the way". So why remove it?

To whom it may concern,

This is a message to implore you to reconsider your intentions for the hyper karting venue at Moore Park. Sydney is sick of businesses not being able to hold on to their venues, and council action like this is what drives that instability. Please reconsider your destructive decision.

Hyper karting is a source of joy for many people in Sydney, and this easily accessible venue is a convenient option, being so close to the light rail. I would think the rest of the entertainment centre, since the construction fo the light rail, would be moving away from parking, not closing down entertainment venues to create more. This decision befuddles me.

Please take the time to reconsider and make use of the light rail rather than encouraging more traffic in the area.

Thank you,
Jack O

To Shannon Rickersey,

I trust you are well. As community member who has visited this establishment numerous occasions, I would please urge you to reconsider shutting down Hyper Karting at Moore Park, entertainment quarter.

As one of only a handful of Electric Vehicle technology-based entertainment venues around Sydney and surrounding suburbs, Hyper Karting provides a great, environmentally friendly alternative to fuel powered karting, and is a fantastic spot for families, not to mention an employer to the local community.

At a time when Australians are doing it tough and looking for ways to relieve the pressures households face due to the current fuel crisis, I would suggest that taking away an entertainment activity based on electric vehicle technology would also be a bad look given the ongoing climate debates.

Other implications include loss of revenue to surrounding restaurants and businesses as patrons who would normally visit Hyper Karting and then go to any number of the surrounding businesses would simply cease.

I am unaware of the reasons behind this potential decision however, I would once again please urge you to reconsider before taking away an environmentally conscious entertainment alternative, revenue and jobs from the community.

Sincerely,
Ben Tudosa

Dear City of Sydney Team,

I'm writing as a regular visitor and a big supporter of Hyper Karting to ask that you please reconsider any plans to shut it down.

Places like Hyper Karting add something genuinely valuable to Sydney. It's one of the few activities that brings together families, friends, tourists, students, and work groups in a way that is active, social, and safe. It gives young people and adults alike a fun alternative to nightlife centered around drinking, and it supports local jobs and nearby businesses at the same time.

Beyond the entertainment side, it has become a real community space. Birthday parties, team events, and casual weekend outings all happen there, and for many people it's tied to great memories with friends and family. Losing it would mean losing a unique venue that helps make the city feel vibrant and welcoming.

I understand the reason for the proposed closure is to return the top level of the Entertainment Park car park to standard parking spaces. While parking is certainly important, it feels disappointing to lose such a unique and well-loved community attraction for something that may have other workable solutions.

I sincerely hope the city will consider alternative parking arrangements. Replacing a one-of-a-kind recreational venue with additional car spaces seems like a significant loss for the community, especially when spaces that create joy and bring people together are increasingly rare.

Please consider exploring a solution that preserves both practicality and the character of the area by keeping Hyper Karting open.

Thank you for your time and consideration.

Kind regards,

Oliver Freeman

Hi,

I'm writing to ask that you do not close Hyperkarting. It has been one of the best parts of Sydney and a truly memorable activity for families to come. Without Hyperkarting in Sydney, I feel that Sydney will be missing something important that would make many people upset especially me. I believe it is one of the most unique and cherished experiences in Sydney and closing it will not just come affect customers that love it like me but also jobs for many. Please reconsider this decision. Thank you.

Rida Saif

Dear City of Sydney Council

I am writing to formally request that you reconsider the decision to close Hyper Karting at the Entertainment Quarter.
As a resident and supporter of local entertainment, I believe losing this venue would be detrimental to our community. Hyper Karting is not just a business; it is a vital recreational hub that provides:
A unique, accessible, and safe attraction within the inner city.

Employment for over 150 staff.

A space for community, families, and youth to enjoy a healthy activity.

With over 150 jobs on the line, I urge the council to work with Hyper Karting and the Entertainment Quarter to find a solution that allows them to continue operation.
Please support the retention of Hyper Karting.
Sincerely,

Pratham Vasisht
Glebe

To whomever receives this email,

The entertainment quarter provides all sorts of entertainment for all ages in a range of ways. Hyperkarting does this alone, a place that welcomes all ages for all occasions.
In saying this, I question why you would want to shut this down for extra parking spaces, especially in a time like today.
Firstly, why remove something that brings a whole community together, and brings so much joy into our lives.
Secondly, in a time when we should be promoting the use of public transport, wanting to make more car spaces seems not only contradictory to this but just not the smartest idea.
Finally, the hyperkarting brings in customers into the car park so you would be losing revenue into the car park which is ironic.

I appreciate your time to read this email, and the consideration you're taking in this process.

Kind regards
Charlotte Kirkham

Please save this track. I went for the first time last month for my son's birthday party and we loved it. The kids said it was the best party ever and I have been looking forward to going back.
There is plenty of parking not being there when there are events and they always open up those fields for invent parking. This doesn't need to go. There is nothing like this in the area.

To Whoever this concerns,

Why on Earth would you get rid of such a family friendly and fun establishment? All for - what is it? More parking for people who want to get to work only to have their jobs replaced by AI in 2-5 years?

Don’t be so short sighted, keep Sydney human and keep it a place where people have more reasons to go out and connect. The city of Sydney is failing in such a heartbreaking fashion when it comes to culture and the loss of such a fun and innocent experience that is suitable for all ages does have a significant impact in the long run.

Let a business like this win for once please Sydney. One that lives for fun just for fun’s sake. The place that might inspire the next Daniel Riccardo and give hundreds if not thousands of people a reason to smile. Just let them be and allow for the community to have some fun in these fucking bleak times.

I hope for everyone’s sake that a business like this can stay around.

Please don’t miss the opportunity to go for a kart yourself and not have a smile on your face. Give yourself the reason to keep it open.

To whom it my concern

Hyper Karting is more than just a venue! it's a place where memories are made. Families laugh together, friends celebrate birthdays, colleagues bond, and young people have somewhere safe and exciting to go. It's one of those rare places that genuinely brings people together.

Losing Hyper Karting would mean losing over 150 local jobs, but it would also mean losing a piece of our community. So many people have celebrated milestones, built friendships, and created lasting memories there. You can't replace that with extra car spaces!! Not needed!

Adding 296 parking spots that may barely be used, at the cost of a thriving community hub, feels deeply disappointing. Our city needs more places that bring joy, connection, and opportunity — not fewer.

Please protect Hyper Karting and the community it supports. Once a place like this is gone, we don't get it back!

Thank you for your time…

Kind Regards

Chanel and family

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To Shannon Rickersey,

Dear Council Members,

I am writing on behalf of my family to express our strong opposition to the proposed closure of HyperKarting.

HyperKarting has been an outstanding venue for both kids and adults, offering a safe, exciting, and unique recreational experience. There are very few places left in our community that provide this kind of active, family-friendly entertainment. It has become a valued space where families, friends, and young people can come together, stay active, and enjoy a memorable experience.

Closing such a well-used and well-loved facility simply to create additional car spaces feels deeply disappointing and, in our view, unnecessary. The social, recreational, and community benefits of HyperKarting far outweigh the limited value of extra parking.

We urge the council to reconsider this decision and explore alternatives that allow HyperKarting to continue operating for the benefit of the community.

Thank you for taking the time to consider our submission.

Kind regards,
Dani and Emma Andres

Please keep hyperkarting where it is. The more activities there are for young people, the better off the city is. It gives them a fun alternative to being on their phones, and also, it is a space where they can meet up with their friends.

The busier things get, the less opportunities there are like this, as it becomes too expensive to run this kind of business.

Thanks for taking the time to read this.

Dear Shannon,
It’s disappointing to see that Hyperkarting is at risk of closure in the entertainment quarter - particularly if the space is to be left empty in an already under-utilised carpark. The track is a lot of fun and a much needed attraction to the EQ, as well as a key provider of jobs in the community - please rethink this refusal.
Kind regards
Nick

Hi there,

Please don’t shut down the Hyper Karting centre. I went yesterday with my sister to celebrate her birthday. It was her first time and we had so much fun and would love to go again some time.

The staff were all lovely and helpful, and it would be really disappointing for them to lose their jobs over this.

Thanks,
Jimmy

To whom it may concern.
Hyper Karting has been a meeting place and great catch up venue for our group of 5 families (26 people) With something for everyone. From the 5year olds, tweenies ages and adults, it is a great venue at a reasonable price. Followed by lunch/dinner and a few drinks at the near by venues. It would be a real shame to loose this in a time when I feel it's very important to get the kids out of the house, experiencing things in 'real life' as opposed to screens.
I hope this aids in your decision to keep HyperKarting our #1 venue for years to come!

Dear Shannon Rickersey,

I am writing to express my support for Hyper Karting at 116 Lang Road, Moore Park, and to encourage the City of Sydney to allow this unique venue to continue operating.

Hyper Karting contributes meaningfully to Sydney's goal of creating a vibrant, diverse, and engaging city. It offers a unique, experience-based activity that attracts both locals and visitors, helping strengthen Sydney's reputation as a destination for entertainment beyond traditional dining and retail. Experiences like this are increasingly important in activating the city and encouraging people to spend time within Sydney rather than traveling elsewhere.

The venue also supports the local nighttime economy in a safe, structured environment. It provides an inclusive activity suitable for different age groups, friend groups, families, and corporate events. This aligns with broader city objectives around increasing social connection, activating underutilised spaces, and providing alcohol-optional entertainment options.

Additionally, Hyper Karting contributes to local employment and supports surrounding businesses by increasing foot traffic to the Moore Park precinct. Visitors often combine their trip with dining, shopping, and other nearby activities, which helps strengthen the local economy.

Sydney benefits from having distinctive, memorable experiences that bring people together. Hyper Karting offers something genuinely different and adds to the diversity of entertainment options available in the city. Losing venues like this would reduce the variety that makes Sydney exciting and competitive with other global cities.

I strongly encourage the City of Sydney to support Hyper Karting and allow it to continue operating.

Kind regards,
Tripti Gupta

To Shannon,

Why do you want to close down hyperKarting at more park, we have been going there for birthdays and get togethers with family and friends for many years. I have been there multiple times during the week and the car park has never been full with a lot of the levels empty. The only vehicles I see parked there are either employees or tradies, the general public and that includes me preferably use the public transport system as it is a lot cheaper than driving and paying for parking.
Please don’t close hyperKarting down and remove another Sydney attraction for residents and visitors alike.
Regards
John

I'm so upset you would replace HyperKart with just parking spaces. My gf and I went there for our first date. Even though she has severe eye problems and can't see well and is hot headed they gave her a chance like everyone else. She beat in the race even though I wouldn't trust her to park a car. Leaving this space makes it safer. She may try to park in the new park. Causing damage as well as mental and financial strain against any that choose to park there. Please leave our happy place alone.

I'd wish you to oppose the closing of Hypercarting.

We have spent many birthdays and school holidays enjoying this venue. It is a place where family and friends connect. My son who is 12, suffers from epilepsy. Unfortunately epilepsy restricts the activities he can participate in, such as swimming, rock climbing, nippers, at hypercarting he can feel like a normal kid.

Yours sincerely

Dear Sir/Madam

I am writing to express my deep concern regarding the possible closure of HyperKarting in Sydney and its conversion into a car park. This venue has become a unique and much-loved recreational space for families, visitors, and motorsport enthusiasts. It would be a terrible shame to lose such a valuable community asset.

Whenever I visit Sydney to see my children, HyperKarting is a highlight for us. It offers an exciting, safe, and accessible activity that brings families together and supports local tourism. The team who run it have created something truly special — an indoor karting venue that promotes fun, fitness, and friendly competition while showcasing innovative use of urban space.

Converting this venue into a car park would remove one of the few affordable, family-friendly recreational options in the city centre. Its closure would not only impact the staff and business owners but also the wider community who value it for the sense of connection and enjoyment it brings.

I urge you and your department to explore all possible options to allow HyperKarting to continue operating. This is an opportunity to preserve an inclusive, engaging space that embodies the best of Sydney's spirit.

Thank you for your attention to this important matter. I hope the DA Council will support the continuation of HyperKarting for the enjoyment of local residents and visitors alike.

Yours sincerely,
Bronwen Yensch

To: The Lord Mayor and Councillors, City of Sydney

Re: Objection to Closure of Hyper Karting – Loss of Vital Community Hub

Dear Lord Mayor and Councillors,

I am writing to express my deep concern regarding the planned closure of Hyper Karting at the Entertainment Quarter. While the Council cites a need for 298 parking spaces, this decision completely overlooks the social value this venue provides to our city's most vulnerable groups.

Hyper Karting is one of the few high-energy, accessible recreational facilities in Sydney. It serves as a critical hub for **disability support organisations** and youth groups who rely on the electric karts to provide inclusive experiences for their members. Closing this venue doesn't just remove a "business"—it removes a safe, welcoming environment for community connection.

With more than **500,000 visitors** since 2021, the track has proven itself as a cornerstone of the precinct's identity. Prioritising car storage over a community asset that supports 156 local jobs and provides accessible recreation is a failure of modern urban planning. I urge you to grant the two-year extension to allow this vital social infrastructure to continue serving Sydney.

Yours sincerely,

Annarita Foutrel

Hi,

I've been a patron of hyperkarting for years and it's brought so much to the community, I feel as if it would be a true shame to get shut down for such minimal gain. The amount of times I've come with friends and then supported other local businesses by getting food or coffee straight after is something I know many others do and I can't imagine these businesses would be happy with a reduction in patronage.

Please reconsider the closure.

Kind regards,
Justin van Hulsen

Dear Development Approval Team,

I write to formally object to the proposed replacement of Hyper Karting Moore Park, with a parking lot.

The existing facility provides significant social and community value that extends well beyond its primary recreational purpose. For many in the local area, including myself, it has been a place to build connections, strengthen friendships, and engage in a safe, structured activity. In my own experience, it has been a consistent and accessible space where my friends and I have been able to spend time together in a positive environment.

From a planning perspective, the proposed change raises several concerns:

First, the loss of an established recreational facility reduces the diversity of community infrastructure available in the area. Facilities such as this contribute to active lifestyles and provide important social outlets, particularly for young people and working adults seeking local recreational options.

Secondly, replacing the facility with a parking lot appears to offer limited community benefit in comparison. While parking may support surrounding uses, it does not provide the same level of social, recreational, or economic contribution. The current use attracts visitors, supports local activity, and contributes to the vibrancy of the area in a way that passive infrastructure cannot.

Thirdly, the proposal does not appear to align with broader planning objectives that prioritise community wellbeing, activation of spaces, and the retention of recreational amenities where possible.

I respectfully submit that the approval authority should give significant weight to the existing community use and consider whether alternative solutions could be explored that retain or enhance recreational opportunities, rather than removing them entirely.

Thank you for considering this submission.

Dear Shannon,

Hyper Karting at Moore Park should stay because it offers something genuinely unique - an accessible, high-energy experience right in the heart of Sydney that appeals to all ages and backgrounds. It's one of the few activities that blends fun, skill, and a bit of adrenaline in a safe, controlled environment, making it ideal for families, friends, corporate events, and even tourists looking for something beyond the usual attractions.

Beyond entertainment, it contributes to the local economy by creating jobs, driving foot traffic to nearby businesses, and activating the Moore Park precinct both day and night. Venues like this help keep the area vibrant and relevant, especially as cities increasingly look for ways to create engaging, experience-led destinations.

Importantly, Hyper Karting provides an inclusive activity that doesn't rely on alcohol or nightlife culture. - it's about connection, competition, and shared experiences. In a time where people are seeking more interactive and memorable ways to spend their time, spaces like this are valuable.

Concerns around parking can also be managed without removing the venue. Additional parking infrastructure is not necessary, as Sydney High School already makes its grounds available for parking, and the space near Kippax Park can be utilised during peak periods. This demonstrates that practical solutions already exist to accommodate demand without compromising the experience or the surrounding area.

Removing it would mean losing not just a fun activity, but a dynamic part of Moore Park's identity. Keeping Hyper Karting ensures Sydney continues to offer diverse, modern experiences that cater to a wide community.

Thank you and Warm Regards,

Maéva O'Donnell

Hi,

I’m writing to express my support for HyperKarting.

It is one of the few genuinely competitive recreational activities available in Sydney. The city already has limited options for community based competitive experiences, and HyperKarting helps fill that gap. Comparable alternatives, such as the track at Eastern Creek, are not only significantly farther away but also offer a more basic, single-track experience with little variation.

The team at HyperKarting has done a commendable job in building and maintaining this facility. Unless there are clear plans to provide a similar or better alternative in another location, it would be disappointing to see it removed, particularly when the need for additional car parking in the area does not appear compelling.

Regards,

Rahul

I've been hyper karting every holiday and the fact that it's closing down over more "parking spaces" is outrageous. There's so many other ways to get to stadiums through public transport, uber, etc.
I go here quite often with my brother and dad and we don't want it closing.

Hi,

I am writing to complain about the proposal to add more car park spaces and get rid of Hyper Karting at Moore Park.

Why in the world would you want to encourage more driving for starters?? There is a new light rail which needs to be encouraged to be used over driving. What a ridiculously tone deaf idea to add more car spaces.

I spent some time at the EQ as a graduate of AFTRS, so I have a good idea of what the area is like at any given time of the year. To get rid of one of the few recreational activities is an absolute abomination. We should be encouraging MORE recreational activities in the area. Adding more car park spaces is absolute backwards thinking and the community does not want this.

Strongly reconsider this proposal. Sydney does not need more car park spaces. In a political climate like now, we need to discourage driving. The EQ absolutely doesn't need it! It's a ghost town when there's no major events on. Even when there's major events on, there's still parking spaces available because as common sense has it, people use public transport.

Hyper Karting actually attracts people to the precinct, people who then spend money on retail and hospitality - and guess what, their customers (myself included) use the actual carpark.

Seriously disappointing that we even need to write in about this. The money you'll make is not worth it and you should be ashamed to even consider it.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Hyper Karting in Sydney's Entertainment Quarter (Moore Park) should be allowed to stay open because it delivers substantial economic, social, and recreational value that far outweighs the marginal parking gain from reverting the top floor of the car park to empty spaces.

Since opening in 2021 Hyper Karting has attracted over 500,000 visitors. It's Australia's longest indoor electric go-kart track with innovative features like twice-weekly layout changes, augmented reality BattleKart, and an arcade. It serves families, groups, juniors (with dedicated tracks), and enthusiasts, operating extended hours (often 7am to near midnight). This has helped revive a precinct often described as quiet outside major events at nearby Allianz Stadium, SCG, or Hordern Pavilion.

Major Economic and Employment Impact

• It supports over 150 jobs directly.

• As one of the busiest attractions in the Entertainment Quarter, it drives foot traffic, spending at nearby venues, and tourism/recreational activity in Moore Park.

• Closing it would remove a vibrant, year-round draw in favor of underused parking, contradicting goals to boost Sydney's nightlife, entertainment, and "city for people, not cars" vision.

Parking Concerns Are Overstated

The council's refusal centers on the track occupying 298 spaces out of the car park's ~2,003 total, claiming an "unacceptable" impact on availability for a commercial use. However:

• Transport for NSW data shows the car park has reached full capacity only a handful of times across 84 major events/concerts since Allianz Stadium reopened in 2022.

• The spaces would mostly sit empty 99% of the time—especially on the top level—while the track operates daily and brings consistent activity.

• The precinct already struggles with traffic flow during peaks Reverting to parking doesn't solve broader event parking shortages (which need thousands of spaces).

this prioritizes empty asphalt over a proven attraction.

Broader Benefits

• Sustainable and family-friendly: Electric karts are quieter, zero-emission indoors, and safer with tech like anti-collision systems.

• Health, skills, and social value: Promotes active fun, racing skills (with junior programs), team-building, birthdays, and events—creating memories rather than just storage for cars.

• Aligns with reviving Sydney's entertainment scene post-lockout laws and post-COVID, rather than hollowing out precincts.

In short, converting a high-traffic, job-creating, memory-making venue into rarely used parking spaces is a poor trade-off for a city aiming to be lively and people-focused. Supporting the extension (or a longer approval) makes far more sense for the local economy, community, and Entertainment Quarter's identity.

Hi

I wanted to express my concerns with the potential removal of Hyper Karting from the tenancy that occupies Level 5 of the EQ car park in Moore Park.

Hyper karting is one of the most unique and successful businesses that have operated in the Moore Park area in years, and it's removal will decimate the ability for Council and the EQ to provide compelling activities that appeals to a wide range of ages. There is no other activity like it in the area. The closest karting activity is extremely far away. EQ is slowly become a fleeting shadow of its former self and removal of Hyper Karting will turn it into a ghost town. Council has failed the community in creating a vibrant cultural EQ hub and this further change will be a disaster

The rationale of requiring additional car spaces as the basis of removing Hyper Karting is entirely invalid and alternative spaces are available at Councils disposal.

Unless Council finds Hyper Karting another site in close proximity then they should remain operating at the car park for the foreseeable future

Peter

Dear,

I am writing to express my deep concern regarding the news that Hyper Karting is scheduled to be shut down and replaced with a car park.

Hyper Karting is a significant part of our community and holds a great deal of sentimental value for many people. It is a place where countless memories have been made, and its closure would be a great loss. Furthermore, I am deeply concerned about the impact this decision will have on the many dedicated job holders whose livelihoods depend on the facility.

We believe that Hyper Karting is a valuable asset that should be saved. I urge you to reconsider the plan to convert this space into a car park and instead explore ways to keep this iconic venue open.

Thank you for your time and for considering the voices of those who wish to see Hyper Karting preserved.

Best regards,

Kazi Fahim Omi

To whom it may concern,

I am writing today in support of Hyperkarting Moore Park, as I have just found out they are at risk of being shut down to make room for more car parking.
As a mother of three children, I find this news very disappointing. We live up near Hornsby, where our local bowling alley and Inflatable World venues have been shut down, and great venues for birthday parties and activities to take children to are few and far between. In particular, there are literally zero locations to take kids go-karting, such that we are happy to travel into the city to go go-karting.
Please don't make this venue shut down, we will all be very sad if it is made to close! Not to mention the people who own and run Hyperkarting - it is such a great set up, and they do a fantastic job running it.

Many thanks for reading this email, I'm really hoping it makes a difference.

Sally Harvey

I had a corporate function at Hyperkarting. It was an excellent event. Well run, safe and a lot of fun for all.
By getting rid of Hyperkarting to open up a few more parking bays for the busy periods doesn't make sense. The parking facility is empty the majority of the week and probably most of the time on weekends.
Save the facility and jobs

Hi,

I would like to request that Hyper Karting remains open and does not close down.

As a member of the city of Sydney I think it's important we have activities not only for local community members but also for the rest of Sydney and tourists. Hyper Karting is enjoyed by people of all ages

Please consider to keep hyper Karting open.

Thanks,
Mehrdad Ghasemzadeh

Dear City of Sydney

I am writing to express my support for Hyper Carting and to urge you to help save this facility for the community.

Hyper Carting provides a valuable space for local residents, and it is important that we keep it available for everyone to enjoy. I believe that preserving this venue is vital for our community's recreational needs.

Thank you for your time and for considering this request.

Best regards,

Deesha Bhatt

To Whom It May Concern,

I'm writing as a local resident in Darlington to express my strong support for Hyper Karting at the Entertainment Quarter, and my concern about the proposal to replace it with additional car parking.

As someone who lives just a short distance away, having an active, family-friendly entertainment venue like Hyper Karting nearby is genuinely valued. It's the kind of place that gives the area energy and character — somewhere you can take friends visiting from out of town, or simply enjoy as part of a social outing in the neighbourhood.

I've visited Hyper Karting on a number of occasions and it's consistently been a great experience — well run, accessible, and exactly the kind of venue that makes inner Sydney a more interesting place to live. Replacing it with car parking would be a significant loss, not just for residents like me, but for the broader community that the Entertainment Quarter is meant to serve.

I strongly urge the City of Sydney to reconsider this decision and allow Hyper Karting to continue operating. Vibrant, active venues like this are far harder to create than car parks, and once lost, they rarely come back.

Thank you for considering this submission.

Kind regards,

Alex

Hello City of Sydney,

I am writing to you after discovering the news that Hyper Karting may potentially close to provide more vehicle parking. Please consider this email a formal vote against this decision.

Hyper Karting has brought so much happiness to me, my friends, my coworkers, and even friends visiting from overseas. Removing it from the Entertainment Quarter will only take away from the energy of this buzzing area. To know that 150 people will be out of a job just to turn this level of the car park into a "concrete jungle" space that may not even be used is incredibly sad to hear.

As someone who regularly drives to the EQ, I can personally attest that there is already plenty of parking available in this car park.

Is there a bigger plan in the works? I don’t understand this decision.

I urge you to reconsider this move and keep Hyper Karting open.

Kind regards,

Jenn Bronfenbrener

To whom it may concern,

I frequent Moore park and entertainment quarter. I play padel there, I play basketball there, I have been to comedy shows there, I go bowling there, I go to the movies there and I play tennis across the road there. I have never struggled to get parking. I have been to hyper karting several times and it has always been a good time for me, my friends, and my guests in Sydney. To shut it down for extra empty parking spaces would be ridiculous, and dystopian. There is plenty of parking at entertainment quarter, and the public transport there is pretty good. There isn't another go karting location inside an hours commute. It would be unfathomable to get rid of the only one of something to add extra of what we already have 100s of.

Regards,
Sam.

Hi,

Sydney is becoming so boring.

We focus only on Money over populating areas with apartments.

I've had bucks parties, birthday parties and kids parties here.

Do not close this place just for a car park.

Leave this place alone as its somewhere fun for the kids to go and let lose.

Kind regards,

Alexander Favaloro

Don't close down hyperkarting, it's one of the main go karting places for the entire north and east of Sydney, while also being sustainable as the karts are electric unlike a lot of the other karting places many kilometres away. Another point is that life isn't just about money, no one cares once youre gone how much EXTRA money you made from a decision for a big corporation, life is about making the world a better place and in a comparison between karting and parking we all know which one brings more fun and community to the "ENTERTAINMENT QUARTER".

I've also never seen that car park full in my life, I doubt it will even increase profit margins by any standard.

Regards, Charles

Hi,

This seems a ridiculous approach to take, to shut down a small business that drives traffic to the EQ to create more car parking when the car park is rarely if ever full. Net-net you'll end up with less activities at the EQ (I hear Hyper Karting is actually the largest activity going on there) which means less revenue for the restaurants etc that rely on activities to drive customer flow which will mean less people using the car park outside peak times.

May I suggest you introduce dynamic pricing for the car park as is - cheaper rates at times when it is under-utilised and higher fees when large events are on at the football stadium or cricket grounds such that utilisation rates there are at [95]% to maximise revenue from the existing facility. This is what an economist would do or what someone in the private sector would do that had a profit motive

Best,

[redacted]

To whom it may concern,

I am writing to express my strong support for Hyper Karting and my concern regarding its potential closure.

Hyper Karting is a key part of Sydney's family entertainment scene. It is truly unlike any other venue, offering a unique experience that you simply cannot replicate elsewhere. It caters to all ages in a way that very few places do, making it a standout destination for families, friends, and the wider community.

I've shared great experiences at Hyper Karting with friends and family. It's a place you can return to again and again and still have a fresh and exciting experience each time. Each visit also highlights the continuous effort put into improving the venue, enhancing the overall experience, and maintaining a high standard of customer service that you don't see at many other entertainment venues. Hyper Karting delivers a well rounded experience every time from start to finish.

I believe the proposal to replace Hyper Karting with additional car parking is misguided. Increasing parking capacity does not outweigh the loss of a unique and well established community destination. With the growing use of light rail and other public transport options, the need for additional parking is becoming less critical, making the removal of a venue like this even harder to justify.

I strongly believe Hyper Karting should remain open. Replacing a unique and well loved destination with additional car parking would be a significant loss, both socially and for the character of Sydney. Once something like this is gone, it cannot simply be recreated.

I respectfully urge you to reconsider this decision and recognise the value Hyper Karting brings as a space for new experiences, enjoyment, and community.

Thank you for your time and consideration.

Kind regards,
Ivy Thompson

Hello City of Sydney and NSW Government,

My name is Hugo Foster and I am an upcoming city planner studying at UNSW. This DA amendment has caught my attention as it puts a major threat on the entertainment economy and success of the establishments in the entertainment quarter. A major contradiction to the NSW government and City of Sydney's 24 hr economy plan .

Since establishment in 2021 hyperkarting has been incredibly successful bringing back the entertainment industry in this part of Sydney post covid lockdowns. It is a great use of the car park floor that would not normally be used. Other events and performances that have used level 4 and 6 of this carpark have also been incredibly successful including open air cinemas and dance performances. This use of space has a greater positive impact economically and culturally than paid car parking will ever have.

Large events at the SCG and Allianz stadium should not impact this property. Both state and local governments have made it clear that it is unsafe and inefficient to prioritise any form of private vehicle movement, to, from or around these areas during these events. Transport movement plans for events like Mardi Gras provide valid evidence with major modifications to public transport and pedestrian access like 24 hr public transport operations. Major infrastructure investments like the $3BN light rail provide further justification. Therefore the handful of times this space might be used for car parking directly incentives private vehicles which is yet another major contradiction to policies supported by voters in NSW.

As a young person in the Sydney urban planning space, I strongly oppose the decision to not renew this business lease and DA.

Kind Regards

Hugo F

Hi Hyper Karting Team,

I just wanted to say how much Hyper Karting means to me, and to ask you to please keep it open.

When I first moved to Sydney, Hyper Karting was the first karting spot I checked out. I didn't know anyone yet, and walking through your doors turned out to be one of my first great memories here. There was this rush of excitement, a feeling of belonging, and suddenly the city didn't feel quite so new and strange anymore. That's why Hyper Karting will always be more to me than just a place to race.

What really sets it apart is the vibe. The energy is amazing—the roar of the karts, the thrill of racing, that edge of competition. Every time I visit, I walk away with stories to tell. Doesn't matter if I'm there to crush my own lap record or just for a few laughs, the whole place makes it easy to forget everything else and just live in the moment.

Some of my best times in Sydney have happened at Hyper Karting. It's the kind of spot where friends naturally come together, joke around, cheer each other on, maybe even talk a little smack, and those moments stick with you. It's more than a race track; it's memories, rivalries, and a lot of laughter that people keep talking about later.

Places like this don't come along often. That's why I think Hyper Karting deserves to stay. Sure, it's a business—but it's also one of the few spots where people can put their phones down, actually hang out, and make real connections. In a world where everyone's staring at screens, that's a big deal.

Hyper Karting means so much to the community, not just to regular racers like me but to families, friends, and groups looking for a genuine experience. If you close, Sydney loses a place full of joy and connection. We really need places like this—it makes the city better.

So please, don't let Hyper Karting just become another story we tell about what used to be. Let's keep the engines humming, the track alive, and give people here the chance to keep making new memories.

Thanks for everything,
Maddox

I am writing to express my strong support for Hyper Karting and to advocate for its continued operation within the Entertainment Quarter.

Hyper Karting is a well-established, family-oriented facility that caters to both adults and children, providing an inclusive and safe environment for people of all ages to participate in recreational activities. It offers a unique and accessible experience that encourages families to engage in shared leisure activities.

The venue is also an excellent example of adaptive reuse, having transformed a previously underutilised Level 5 car park into a vibrant and functional destination. This innovative use of space contributes positively to the overall activation and appeal of the precinct.

Importantly, Hyper Karting is a significant local employer, supporting more than 150 jobs. Its continued operation is vital in maintaining employment opportunities and contributing to the economic stability of the local community.

From a broader perspective, the facility enhances the tourism profile of the Entertainment Quarter. It has received exposure through reputable programs such as Sydney Weekender and Getaway, helping to promote the precinct as an attractive destination for both residents and visitors.

Hyper Karting is also a well-managed venue that delivers safe, affordable, and high-quality entertainment. In the current economic climate, where cost-of-living pressures are increasing, accessible recreational options such as this are essential for supporting community wellbeing.

Furthermore, the facility demonstrates a strong commitment to inclusivity, particularly through its support of the disability sector. It provides a welcoming and accommodating environment where individuals with disabilities can confidently participate in recreational activities.

In summary, Hyper Karting represents a valuable community asset, delivering benefits across employment, tourism, recreation, and social inclusion. I respectfully urge decision-makers to recognise its importance and to take the necessary steps to ensure its continued operation.

Yours sincerely,

Ryan Stack

Hey there,

I'm Lucas I've been to a Hyperkart a couple of times of the years and looking forward to do it again with friends in the future. Is such a good plan that the city can offer and there's nowhere like them in city.

Please don't close it.

Thanks,

Kind regards.
Lucas.

Dear Sir/Madam,

I am writing to express my strong support for keeping HyperKarting operating in Sydney.

As a parent, I have seen firsthand how much my children absolutely love the experience. It's more than just an activity—it's something they genuinely look forward to, talk about long after, and share with their friends. In a time where engaging, active, and family-friendly entertainment options are so valuable, HyperKarting stands out as something truly special.

It provides a safe, exciting environment that encourages confidence, coordination, and fun. For families like ours, it has become a go-to activity that brings us together and creates lasting memories.

Losing HyperKarting would be a real disappointment for many local families and children who benefit from having such a unique and high-quality experience available in Sydney. I strongly urge you to consider the positive impact it has on the community and to support its continuation.

Thank you for your time and consideration.

Kind regards,
Iain Davidson

I'm writing about potential closing of hyper karting at the entertainment Quarter. As the only karting venue in the inner city, it really is the only place that anyone can undertake this activity without going many many miles away to the western suburbs.

Please do not jeopardise the employment of hundreds of people and the enjoyment of tens of thousands of people in the eastern suburbs, For a few more car spots when we are trying to get people to take public transport anyway.

Thank you
James Page

Hello and to whom it may concern, I am very disappointed to hear that there is a chance that hyperkarting is at risk of shut down. We live in crystal street Waterloo and often attend with our kids and other families to drive the cars. The kids love it.
Please don’t close this venue down it is great and there is nothing like it around our area. Infact I feel if hyperkarting was to be shut down it will have a huge detrimental financial affect on the other business at the EQ.
Thankyou for giving me the chance to share my thoughts and we really hope your reconsider the decision to shut this business down

Hi Shannon,

Please don’t allow Hyper Karting to shut down just to make way for more parking spots.

The contributions of Hyper Karting as a business is far more valuable to the community than a few hundred extra parking spaces.

Regards,
Tasneem

To whomsoever it may concern,

With all due respect, I will cut right to the chase, this place has done more for me than dozens of therapy appointments would ever have done. I have some of my fondest memories here, with friends, with family....I have had some of the best first dates here and this place always had a magical thing about it. Please don't ever mess it up for something as dead and dull as a damn parking lot. It's Sydney, we already have more than enough parking lots. You can't just give into corporate greed and slowly take magical places like this away. This place means too much to too many people.

Kindest regards,
Ari

Hi,

I am writing to express my strong support for Hyper Karting and why I believe it should remain open in Sydney.

Hyper Karting provides an incredibly fun and engaging activity for young kids, giving them something unique to look forward to, especially during the school holidays. It is a vital addition to the local community, offering a safe and exciting environment for children to stay active.

On a personal note, I always enjoy bringing my whole family there for a fun day out. It is one of the few places where we can all enjoy an activity together and create lasting memories.

I hope you will consider how much value Hyper Karting brings to Sydney families and the younger generation.

Best regards,

Pooja Priyanka

Our family has loved Hyperkarting since it opened in 2020. We come over the bridge from manly and it is the only high quality karting facility within 40 minutes of home. Our young nephews have now been for the first time and want to come back down from the central coast to do it again next holidays.

I don’t know why it is being shut down and can’t work out any reason it should be so please keep it open.

Dear Shannon
I am writing to support hypercarting continuing on the top floor of the car park at the entertainment precinct.

This is a great attraction to the Moore Park precinct. We take our grandkids there and they love it. We live at Cronulla and travel to the hypercarting by car, or if there is a sporting or other major attraction in the Moore Park area we take public transport. This is a very easy place to reach by public transport from around Sydney, so what is the is the point of more parking spaces other than attracting more traffic?

This reminds me of the Joni Mitchell song 'Big Yellow Taxi' - '…you don't know what you've got till it's gone…They paved paradise and put up a parking lot..'.

Hi,

I'm writing to express my concern about the decision to close Hyper Karting.

At a time when there is so much focus on encouraging people especially young peopleto get out of the house, be active, and engage in real-world experiences rather than spending more time on video games and social media, removing a facility like this feels like a step in the wrong direction. Hyper Karting provides a fun, social, and active outlet that is increasingly hard to find.

Replacing it with a car park that isn't needed only adds to the frustration. It's difficult to understand why a unique and engaging recreational space would be sacrificed for something that offers far less value to the community.

Facilities like Hyper Karting bring people together, support local activity, and give people a reason to get out and do something different. Once they're gone, they're rarely replaced with anything of equal benefit.

I strongly urge you to reconsider this decision and explore alternatives that would allow Hyper Karting to remain open for the community to enjoy.

Kind regards,

Jessica Colley

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Hyper Karting gave me some good memories for a friend's buck's party. It brought a bunch of people together who haven't seen each other for a couple of years to have a good time racing. I got to challenge friends who were great at racing that I didn't think I could hold a candle to and got to let loose some driving skills, and compete, in a way I could never do on the road.

I don't believe a 5th floor of parking is good for Moore Park anyway. After major events, it's already super packed and takes ages to get out. A fifth floor would simply make that unappealing and worse, so it wouldn't serve the purpose intended by opening the fifth floor and wouldn't be worth the investment. On top of that, we already have the relatively new light rail, which has been a big investment to alleviate parking issues. While I understand the practicality of a multi-faceted approach to solving public crowds and transport issues, I don't see a fifth level of parking space that replaces a business that makes people happy being the right solution. Why not invest in additional public transport or create a second building of parking instead that creates more space, spreads more of the traffic so there's less congestion in one building, and creates more parking space, if that's what's desired?

I still believe investing in improved public transport options is the better approach. Failing that, due to costs, a separate building or other solution is better. Closing a valued business shouldn't be the option.

Sincerely,
Keelan

Dear Council Representatives,

I am writing to express my support for the continuation of Hyperkarting and to highlight the value it brings to the local community.

Hyperkarting is more than just an entertainment venue. It plays an important role in supporting local employment, particularly during a time when the cost of living continues to rise. Many individuals, including students and part-time workers, rely on opportunities like this to earn income and manage increasing financial pressures. The business provides flexible job opportunities that are essential for those balancing study, training, or other commitments.

In addition to its economic contribution, Hyperkarting offers a valuable recreational outlet for the community. It provides a safe and engaging environment for people of all ages to socialise, unwind, and participate in an enjoyable activity. Facilities like this contribute to the overall wellbeing of the community by promoting leisure and social interaction.

From a broader perspective, Hyperkarting also contributes to the local economy by attracting visitors, encouraging spending in surrounding businesses, and adding to the diversity of entertainment options available in the area. Losing such a facility would reduce both employment opportunities and recreational choices for residents.

For these reasons, I strongly encourage the council to support the continued operation of Hyperkarting. Its role in job creation, community engagement, and local economic activity makes it a valuable asset that should be maintained.

Thank you for considering this submission.

Kind regards,
Thayan

Dear City of Sydney Council,

I am writing to respectfully urge the Council to reconsider its decision regarding the lease extension for Hyper Karting in the Entertainment Quarter.

Hyper Karting has become a valuable part of the community and offers families a unique and enjoyable activity within the precinct. It provides an excellent option for parents and children attending the Entertainment Quarter, particularly when one parent may be attending a sporting match, concert, or other event nearby while the other spends time with the children. Having a family-friendly activity such as Hyper Karting available in this location greatly adds to the accessibility and appeal of the area for visitors.

The closure of Hyper Karting would represent a significant loss to the local community. It is more than just an entertainment venue—it is a place where families can spend quality time together, children can enjoy a fun and active experience, and visitors can make full use of the Entertainment Quarter as a multi-purpose destination.

In addition, the venue contributes to the vibrancy of the precinct and supports local employment, making it an important asset both socially and economically.

I kindly ask the Council to reconsider the extension request and explore possible alternatives that would allow Hyper Karting to remain operational while addressing the Council’s broader planning needs.

Thank you for your time and consideration.

Regards

Maxine McLaughlin.

To: dasubmissions@cityofsydney.nsw.gov.au
Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Assessment Team,

I am writing to formally express my **extreme dissatisfaction and deep concern** regarding the potential closure of**Hyper Karting Sydney** at the Entertainment Quarter, Moore Park, as part of the above-referenced application.

Hyper Karting is not a marginal or low-impact operation. It is a **highly successful, well-managed, and much-loved venue** that attracts locals, families, corporate groups, and tourists alike. Its presence at the Entertainment Quarter aligns perfectly with the precinct's purpose as a destination for recreation, sport, and entertainment. The prospect of its closure is both alarming and, frankly, difficult to justify.

The loss of Hyper Karting would represent:

- A **significant reduction in recreational offerings** for Sydney residents
- A negative impact on **local employment**
- A blow to the **vibrancy and commercial viability** of the Entertainment Quarter
- An erosion of Sydney's reputation as a city that supports innovative, modern entertainment experiences

For many patrons, Hyper Karting is a unique venue that cannot simply be replaced elsewhere. Removing it from Moore Park would be a**net loss to the community**, with no clear public benefit that outweighs the social and economic harm.

I strongly urge Council to **reconsider any outcome that would lead to the closure of Hyper Karting** and to give appropriate weight to its proven track record, community support, and contribution to the precinct. Decisions of this nature should enhance Sydney's lifestyle and cultural fabric — not diminish it.

Please ensure this submission is given serious consideration as part of your assessment process.

Kind regards,

Mark McLean

To whom it may concern,

My name is Lachlan and I am a City of Sydney resident who has been to Hyper Karting several times. I am writing because I am concerned about the recent decision to refuse their application for extension so they can keep operating on level 5 of the EQ car park.

Hyper Karting has been running since 2021 and has brought in more than 500,000 visitors. It supports over 150 jobs and is used regularly by friends, colleagues, families and people who enjoy go karting. It is one of the busiest spots in the Entertainment Quarter and runs most days, not just during big events. It's a great, social, active, and healthy activity, and an exceptionally run business.

The plan to close it so some parking spaces can go back to general parking does not make much sense to me. Those extra car spots would mostly sit empty except for the occasional big event at the SCG or nearby. In the meantime you would be losing a business that actually brings people into the area every week and creates real activity. A business that is one of very few draw-cards to the otherwise tired EQ precinct.

I understand the original approval was temporary, but a two-year extension seems reasonable given how well the venue has done and how many people rely on it. Closing it down feels like the wrong priority, especially from a council that talks about making Sydney a city for people rather than just cars.

I ask that you support the formal review of this decision and allow Hyper Karting to continue operating. It would be a real loss for the precinct and for everyone who uses it, or will use it in the years to come.

Thank you for taking the time to read this. Happy to share more details if needed.

Kind regards,
Lachlan

Dear City of Sydney Council,

I am writing to express my concern regarding the decision to shut down Hyper Karting.

This venue has become an important part of the local community, offering a unique and exciting experience that brings people together.

Hyper Karting is more than just an entertainment venue. It creates a space where friends, families, and visitors can connect, have fun, and make lasting memories. It contributes to the vibrancy of the area and gives people, especially young adults, something positive and engaging to do.

Closing it down risks taking away a source of joy and activity that benefits both locals and visitors. It also has an impact on the local economy, drawing people into the area who may also support nearby businesses such as restaurants and shops.

I strongly encourage the council to reconsider this decision or explore alternative solutions that would allow Hyper Karting to continue operating safely and successfully.

Preserving spaces like this is important for maintaining a lively, welcoming, and enjoyable community.

Thank you for taking the time to consider my concerns.

Kind regards,
Luke Randle

Hello there .

I do not support what you are doing this this business , I live in Barangaroo and I take my 3 kids there 2 times a month.

Your support will go a long way with us. And will remember your position on this matter , when it really counts.

Regards

Bill

Hi All,

Please don't shut down hyperkarting, it's a great all-ages activity that doesn't involve drinking, and I've had heaps of fun there with friends over the years.

Kind regards,
Alex Findlay - 87 Day St, Leichhardt NSW 2040, Australia

Hi,
Please keep Hyperkarting open. My 9 yr old nephew celebrated his bday there recently. It's of much more value to the community than a few extra car spaces at the entertainment centre.
Many thanks
Pauline Reilly

Dear Shannon Rickersey,

I am writing to you in my capacity as a Director of Beyond Bounds Group, an organization that provides services to participants under the National Disability Insurance Scheme (NDIS). I wish to highlight the significant and positive impact that the Hyper Karting venue located at Sydney Fox Studios has had on members of the local community, particularly individuals living with disability.

Within my time working in NDIS we have encouraged multiple participants to participate at Hyper Karting, mainly as Hyper Karting supports Companion Cards and is all inclusive of individuals with disabilities, unlike other venues. We have never had a negative review from any participants; they always have a great time and feel accomplished for the day.

One of the participants we support, Mr. Shane Drake exemplifies the profound benefits that this facility provides. Shane is currently the record holder for the most laps achieved at Hyper Karting, with an outstanding total of 1,000 laps accumulated over the past two years through his membership.

During his first year, Shane's participation was supported through NDIS funding under community participation. However, following changes to funding arrangements, this support was discontinued. Despite financial hardship, Shane has demonstrated remarkable determination by securing Centrelink loans and pursuing entrepreneurial ventures to maintain his membership, which is ordinarily $1,100 annually. In recognition of Shane's circumstances, the CEO of Hyper Karting, Mr. Andrew Richardson has shown exceptional compassion by reducing Shane's membership fee to $500. This gesture has made an enormous difference in allowing Shane to continue accessing the venue.

Shane attends Hyper Karting almost daily. For a person diagnosed with ADHD, Complex PTSD, and an intellectual disability, as well as facing challenges with literacy, finding an activity where he can excel has been extremely difficult. Compounding these challenges, Shane has experienced severe childhood trauma and abuse, which has significantly impacted his ability to form connections within the community.

Hyper Karting has provided Shane with a rare and invaluable sense of belonging. His exceptional skill and consistency on the track have earned him recognition and admiration from other patrons, fostering positive social interactions and greatly enhancing his self-esteem. This environment has been instrumental in improving his mental health and overall wellbeing.

Importantly, Shane has a history of depression and suicidal ideation. His engagement with Hyper Karting has provided him with purpose, routine, and meaningful social connection—factors that have been critical in stabilizing his mental health and reducing maladaptive behaviors that were previously of significant concern.

It is my professional and personal opinion that the continued operation of Hyper Karting is vital not only for Shane but for many individuals who benefit from inclusive, community-based recreational spaces. The potential loss of such a facility would likely have serious negative consequences for his mental health and could lead to a regression in the substantial progress he has made.

I respectfully ask the Council to consider the broader social and community value that venues like Hyper Karting provide, particularly for vulnerable individuals who rely on such spaces for connection, personal development, and wellbeing.

We strongly feel that the Hyper Karting venue is the heart of Fox Studios.

Thank you for your time and consideration.

Regards

Lana Susak (she/her)

To whom it may concern,

I am writing to express my concern regarding the potential closure of Hyper Karting at the Entertainment Quarter and to respectfully urge the council to reconsider this decision.

Hyper Karting is more than just a recreational facility. It is a unique and valuable part of Sydney's entertainment landscape. It provides an engaging, safe, and accessible activity for people of all ages, including families, young adults, and tourists. In a city where inclusive and active entertainment options are increasingly important, venues like this play a vital role in supporting community wellbeing and social connection.

Additionally, Hyper Karting contributes to the local economy by attracting visitors to the Entertainment Quarter, supporting nearby businesses, and creating employment opportunities. Its presence enhances the precinct's vibrancy and helps maintain its reputation as a dynamic destination.

Closing such a facility would not only remove a popular attraction but could also have a ripple effect on surrounding businesses and the broader community. I believe there is significant value in preserving diverse recreational spaces that encourage participation, enjoyment, and local engagement. I ask the council to consider the positive impact Hyper Karting has on the community.

Thank you for your time and consideration.

Kind regards,

Sophie Murphy

Hi City of Sydney Council,

I had a great time at Hyper Karting as I'm sure many others do. The staff were very nice and the place was awesome. It would be a shame and a loss to Sydney's already limited entertainment scene if Hyper Karting were to close down, as well as a loss to the community and also a loss of jobs for the staff.

I hope this email reaches you and I hope to hear that Hyper Karting will stay. Thank you.

Bernice

Dear City of Sydney,

I'm writing as a parent and a regular Hyper Karting customer to ask Council to grant the two-year extension currently under review, and to keep the venue at the Entertainment Quarter open.

My two young sons love it. It's one of the few places in Sydney where they can do something genuinely exciting, active, and off-screen, with real safety briefings, trained staff, and age-appropriate tracks from the Mini Track up. There is nothing comparable anywhere within an hour. Once it's gone, families like mine don't get another one.

I've read the reasons for the refusal: that the commercial use of 298 of the 2,003 car park spaces is "unacceptable" and not "orderly development.". What's on that rooftop today is:
- 500,000+ visitors since 2021 and over 150 jobs.
- Electric karts, zero noise complaints on record.
- NDIS programs and youth driver development pathways.
- A heavily-used attraction in a precinct the State Government is actively trying to revitalise.

What the alternative looks like is 298 rooftop car spaces that, sit empty outside major event days.

I understand the long-term parking picture around Moore Park is changing, and I'm not asking Council to ignore that. I'm asking for the two-year extension so a proven community asset isn't demolished ahead of a long-term plan being settled.

Please grant the extension.

Kind regards,
Rob Scott

Dear City of Sydney,

It is rare to find such a great family friendly venue with staff and facilities that hyper racing has.

I have worked in events including at Horden Pavilion and both stadium, I can promise you more parking isn't needed off event and will only heavily increase the congestion.

I hope you reconsider.

Thanks,
Tayla

Dear Lord Mayor and Councillors,

I wish to protest Sydney Council's decision to refuse the lease extension for **Hyper Karting** at the Entertainment Quarter.

Closing a thriving business for a couple of hundred parking spaces simply does not make sense.

HyperKarting employs many young people and will increase unemployment in a time when many jobs are under threat and people are facing higher costs of living. This decision also removes a primary drawcard for the Moore Park precinct. Since 2021, Hyper Karting has brought more than **500,000 visitors** to the area, providing essential foot traffic that sustains surrounding small businesses, cafes, and restaurants within the Entertainment Quarter.

Hyper Karting is a vital resource for the community, offering an inclusive and accessible space for **disability support groups** and youth organisations. Removing such a unique facility in favour of bitumen goes against the City's own vision of a "city for people, not cars."

With the recent addition of the **1,500-space underground car park** at Allianz Stadium and ample parking at Disney Studios, there is no logical justification for sacrificing a successful business and a community hub for a negligible increase in parking capacity.

Could you please reconsider this decision, grant the necessary extensions, and work with Hyper Karting to ensure this landmark venue remains a permanent fixture of Sydney's entertainment district.
Yours sincerely,

John Dobrohotoff

Hello Shannon,

I am emailing you with regard to the possible closure of Hyper Karting at Moore Park entertainment quarter.

In my personal opinion I think this would be a devastating blow to the community at a whole.
You actually have an activity that brings people together for entertainment and enjoyment, many of which have used the metro system to get there, and once their session is over stay within the precinct to avail themselves of both food and beverage outlets.
Actually having somewhere within Sydney that is 'working' as an entertainment venue and you wish to pull the contract to reutilise a carpark space.
Somewhat ironic when so much has been invested within better public transport systems, and the fact that the venue itself runs electric ' green' karts instead of petrol based engines.

If only councils at large were based on logical decisions for the betterment of community. Hmmm if only.

Just to make my position quite clear - I am against the closure of Hyper Karting at the Entertainment Quarter.

Dear Council,

I am writing as a regular patron of Hyperkarting to express my strong support for its continued operation, and to urge the council to do everything in its power to ensure it remains open.

Hyperkarting is far more than just a recreational facility, it is a genuine community hub. As someone who visits frequently, I have seen firsthand the range of people it brings together: families celebrating birthdays, groups of friends catching up, corporate teams building rapport, and young motorsport enthusiasts discovering a passion for the sport. It offers a unique, active experience that is increasingly rare in our area.

Beyond the fun it provides, Hyperkarting contributes meaningfully to the local economy, supporting jobs and drawing visitors to the region. Losing it would leave a real gap, not just for regulars like me, but for the wider Sydney community looking for quality entertainment options.

I respectfully ask that the council consider the significant social and economic value this venue brings, and act in support of its future. Facilities like Hyperkarting are what make our community a vibrant and exciting place to live.

Thank you sincerely for your time and consideration.

A proud and regular Hyperkarting customer

Hi Team,

Shutting down a thriving business for a parking area is unfair to not only the business, but it's staff and loyal customers as well as the community around it.

Please rethink this decision. There is already an issue with increasing prices and the fact alone that 150 employees will lose their jobs should make y'all rethink this decision.

Thank you for your time,
Sophie

Dear Sydney City Council,

I strongly oppose the proposed removal of Hyper Karting at the Entertainment Quarter to make way for additional car parks.

Hyper Karting is a popular, high-quality recreational attraction that adds energy, foot traffic, and economic value to the precinct. Replacing it with more parking reduces the area's vibrancy and runs counter to modern planning priorities that favour active, experience-driven spaces over increased car dependency.

This change would diminish the appeal of the Entertainment Quarter for residents and visitors, while offering limited broader benefit. Existing parking solutions and alternative transport options should be prioritised instead.

I urge the Council to reconsider and retain Hyper Karting as a key part of the precinct.

Yours sincerely,
Tom Gardener

Hi Team,

Disappointing to hear that 296 car spots are being treated as priority over a venue (Hyper Karting) that is very important for our younger generation.

Given the state and local government has invested significantly in improving public transport options to & from Allianz Stadium, the SCG and EQ - I don't understand why you would need to expand a car park that is rarely at full capacity.

The community needs more venues like this - not more parking spaces.

Please use this email as a formal objection of the proposal to remove Hyper Karting.

Thanks
Anthony

To whom it may concern,

I am writing to express my strong feelings against the closing of Hyper Karting in Moore Park.

For my friends and work colleagues it is the only reason to visit the EQ other than for music at the Hordern Pavilion. We love the proximity to public transport links and EQ pubs for drinks after.

Laser tag and bowling doesn't convince half my office to join, or my friends with young children to set aside an evening. Alexandria's climbing gym and pub scene would be the clear alternative.

Thank you for your consideration.

Curtis

To whom it may concern,

I am writing as a concerned community member to formally object to the refusal of the Modification Application to extend the time limited development consent for Hyperkarting at Level 5 of the Entertainment Quarter car park, Moore Park.

I respectfully request that the decision be reviewed, and that the following considerations be weighed carefully:

1. Hyperkarting provides meaningful social and recreational benefit to the community. Hyperkarting is a rare example of an inclusive, non-alcohol-based entertainment venue accessible to a wide range of ages and abilities. At a time when community spaces that promote active, sober recreation are increasingly valued, particularly for younger generations, the removal of such a facility in favour of passive car parking represents a poor outcome for the public interest. The City of Sydney's own strategies emphasise the importance of diverse, vibrant entertainment precincts; Hyperkarting directly supports this goal.

2. The loss of a functioning small business to car parking is difficult to justify on planning merit. Hyperkarting represents local employment and economic activity within the Entertainment Quarter. Replacing an active, community-facing land use with underutilised car parking is inconsistent with the principles of orderly and economic use of land. A temporary extension to 1 July 2028 would allow the business to operate while longer-term precinct planning is considered, which represents a reasonable and proportionate outcome.

3. Increased car parking capacity at Moore Park is not aligned with current transport policy. Moore Park is well-served by public transport, including the CBD and South East Light Rail with stops at Central and Randwick, as well as event bus services during major nearby events. NSW Government transport policy actively encourages a shift away from car dependence. Reclaiming Level 5 of the car park to increase parking supply risks inducing additional car trips and runs counter to these broader policy objectives. Retaining Hyperkarting on that level is a more productive use of the space.

I strongly urge the City of Sydney to reconsider this refusal and to grant the requested extension of development consent to 1 July 2028, and beyond in due course. I would welcome the opportunity to discuss this matter further.

Kind regards,
Daniel Picone

Hello,

Due to the lack of use of the existing car spaces (as shown on hyperkarting's instagram profile where multiple levels were nearly empty during what should have been a busy thursday) there is no intelligent reason to close down a recreational centre providing over 150 jobs, especially when there are more pressing issues that can be focused on.

Car reliance shouldn't be encouraged, especially during the current fuel crisis. Please reconsider your current proposal.

Dear City of Sydney,

I am writing to express my deep concern regarding the potential closure of Hyper Karting and the serious impact this could have on the community.

At a time when Australia is already facing a severe cost of living crisis, the possibility of jeopardising 150 local jobs is extremely alarming. My concern is especially for the many workers who rely on these roles to support themselves, particularly students who depend on casual and entertainment industry work while completing their studies. Both domestic and international students often rely on jobs like these to afford rent, food, and the basic cost of living while studying.

It is extremely concerning to hear that a small business that has already agreed to a lease and established itself within the precinct could now be removed simply to repurpose a car park space. Decisions like this do not only affect a business. They directly affect the livelihoods and stability of the people who work there and the wider community that supports it.

Hyper Karting also offers the Entertainment Quarter a unique venue that stands apart from the many restaurants, bars and cinemas already within the precinct. Not every entertainment experience needs to revolve around food, alcohol, or film. Hyper Karting provides an active, engaging experience that attracts a different audience and adds diversity to the precinct. There is a real question about how many similar hospitality venues can realistically compete within one small space before the market becomes oversaturated.

I have personally spent time at Hyper Karting with friends, bonding and getting out of the house for something engaging and fun. It provides an activity for adults that does not revolve around alcohol, which is something cities need more of. Spaces like this contribute to social connection, mental wellbeing, and healthy community engagement.

Closing a business that appears to be successful and generating revenue raises serious questions about priorities and who ultimately benefits financially from these decisions within the Moore Park entertainment precinct.

This situation is not just about losing jobs. It is about people losing their wages, their ability to pay rent, their superannuation, and their financial stability. In the current economic climate this kind of disruption can have very real human consequences.

I ask you to seriously consider the human impact of these decisions. How would anyone feel knowing that a decision like this could push someone into homelessness, severe financial distress, or a mental health crisis. For some people, losing their job can mean losing their stability, their security, and sometimes even their sense of hope.

In a job market that is already extremely difficult, can our community realistically afford to push another 150 people back into unemployment in such a small local workforce?

I strongly urge you to reconsider any decision that could lead to the closure of Hyper Karting. Businesses that provide employment, community engagement, and unique entertainment experiences should be supported and protected.

Thank you for taking the time to read my concerns. I sincerely hope a solution can be found that protects both the workers and this valued community space.

Kind regards,
Angel Ferraro

Whilst I don't pretend to understand the full picture the CoS may have of this situation, I do however fail to see how the removal of HK from the 'Entertainment Quarter' for the sake of car parks, is a benefit.

Improve the public transport, keep the entertainment.

Dear Shannon,

I am writing to lodge a formal submission regarding RD/2023/897/A for 116 Lang Road, Moore Park.

I would like to express my strong support for the continuation of Hyper Karting at Moore Park and my concern regarding the potential closure of this venue.

Hyper Karting has become a much-loved recreational facility for not only myself and my husband, but for a wide cross-section of the community. It offers a unique, safe, and engaging activity that caters to a broad demographic. From families and young people to corporate groups and social communities. In a city where accessible and active entertainment options are limited, this venue fills an important gap.

Beyond personal enjoyment, venues like Hyper Karting contribute positively to the local economy, support jobs, and activate the Moore Park precinct in a meaningful way. It encourages people to gather, be active, and engage socially in a controlled and well-managed environment.

From our experience, the venue is professionally run, with a clear emphasis on safety, organisation, and customer experience. It is evident that considerable effort has gone into creating a high-quality facility that aligns with community expectations.

The potential loss of this venue would not only impact regular patrons like ourselves, but would also remove a valuable recreational offering from the area. I strongly believe that spaces like this are essential in fostering vibrant, connected communities.

I respectfully urge the Council to take into consideration the positive impact Hyper Karting has on the community and to support its continued operation at Moore Park.

Thank you for taking the time to consider my submission.

Kind regards,

Briden Starr

To Shannon Rickersey and the City of Sydney Planning Department,

I am writing to express my strongest possible opposition to any Development Application or administrative decision that results in the closure of Hyper Karting Sydney. As a resident/frequent visitor to the CBD precinct, I view the potential loss of this business not merely as a commercial vacancy, but as a significant blow to the social and economic fabric of central Sydney.

Hyper Karting is a rare, successful enterprise that provides genuine utility and enjoyment in a city that is increasingly becoming a cultural vacuum. My support for its continuation is based on the following critical points:

- Hyper Karting is a thriving, successful business that employs a significant number of people. In the current economic climate, the forced closure of a profitable entity that provides stable jobs is a counter productive use of bureaucratic oversight.
- The venue serves as a vital "glimmer of light" for the community. It is a primary destination for milestone events—birthday parties, Christmas functions, and corporate team building. These activities are essential for social cohesion and the "delight" that is currently missing from the city centre.
- Central Sydney is at risk of becoming an "empty city" dominated by over-regulation rather than activity. To veto the existence of a high-draw, high-energy recreational facility in favor of further bureaucratic refinement is a disservice to the public.
- There is a growing frustration among the public regarding the role of bureaucracy in stifling successful local enterprises. The city needs more venues that promote active engagement and happiness, not fewer.

I urge the City of Sydney to recognize the tangible value Hyper Karting brings to the Entertainment Quarter and the broader Sydney community. I request that the council exercises its power to protect this business and ensure it remains a fixture of our city's landscape.

The focus of urban planning should be the enrichment of the citizen experience; closing Hyper Karting achieves the exact opposite.

Sincerely,

Matt Moore

Dear Councillors,

HyperKarting at Entertainment Quarter is practically the only reason we eBike every Saturday and sometimes Sunday morning, all the way from Crows Nest.

It also means we usually have breakfast there afterwards and on occasions a whole day of movie & meals. What's more, it's become the favourite place among our family and friends for birthday gatherings and catch ups.

If it wasn't because of Hyperkarting, we'd practically have no reason to go to Entertain Quarter, as everything else is easily accessible in Chatswood or just as easily by Metro, at Macquarie Shopping centre.

Please reconsider the closure of the Hyperkarting. It's an extremely unique and addictive attraction that its nearest competitor is in western Sydney.

Thank you.

Best regards,

Dr. Alex Nafari

Dear Council Representatives,

I am writing to oppose the proposed closure of Hyper Karting at Moore Park.

I have organised two corporate events there, both of which were highly successful. The venue offers a unique experience that attracts visitors to the area, many of whom also support nearby restaurants and businesses.

Closing a thriving destination for a relatively small increase in parking seems short-sighted. Attractions like Hyperkarting are what bring people to Moore Park in the first place.

I urge the council to reconsider and explore alternative solutions that preserve this valuable venue.

Kind regards
Cathareen

Objection to Proposed Conversion of Hyperkarting Premises to Parking

To whom it may concern,

I am writing to strongly oppose the rejection of the lease extension for Hyperkarting in Moore Park, and proposal to revert the current site to back to a parking facility.

Parking is already abundant and offers zero social, economic, or cultural heartbeat to our community. In contrast, Hyperkarting has transformed an underutilized space into a **premier recreational destination** that drives foot traffic, supports local employment, and provides a unique alcohol-free entertainment option for families in the community.

Replacing a vibrant, high-use indoor attraction with a static parking lot would be a significant step backward for the following reasons:

- **Loss of Community Amenity:** The site currently serves as a vital hub for social connection, team building, and youth engagement—needs that a parking garage cannot meet.
- **Economic Impact:** As a major drawcard, this facility brings visitors into the precinct who then frequent surrounding cafes, restaurants, and retail businesses.
- **Urban Vitality:** Converting active spaces into car storage diminishes the vibrancy of our streets and contradicts modern urban planning goals of creating walkable, livable cities.

I urge the Council to prioritise **people over parking** and protect a venue that contributes so much to the character and economy of our area.

Sincerely,
Rose Nguyen
Paddington resident

To whom it may concern

Closing down Hyper Karting will be a great loss to the community of Sydney. We urge you please to keep their business open. There are not many places for young families to take their kids for some cheap thrills that is indoors. In particular, go karting and even more so, go karting that caters for the little kids.

This was my boys' first experience at go karting and it left such an impression and fond memory for us all. To tell them it has closed down would just devastate them.

Please keep their doors open and think of the young hearts who would feel the loss of no more go karting for their age.

Hoping you seriously reconsider.
Thank you for your time.

Dear City of Sydney Council Members,

I am writing to you as a concerned parent and local resident to express my deep frustration and disappointment regarding the reported decision to terminate Hyper Karting's lease at the Moore Park Entertainment Quarter to make way for a car park.

Recently, I took my children to Hyper Karting, and seeing the pure joy and engagement it provided them—and the hundreds of other families there—made it clear that this is a vital community asset. In a city where we are constantly told to prioritize green space, physical activity, and youth engagement, the decision to replace a world-class, all-weather recreational facility with an "empty car park" is, frankly, baffling.

Why Hyper Karting matters to Sydney families:

- **Active Recreation:** It provides a safe, high-tech, and physically engaging environment for kids and adults alike.
- **Tourism & Economy:** It draws people into the Entertainment Quarter, supporting surrounding businesses that rely on the foot traffic.
- **Accessibility:** As an indoor electric karting track, it offers a sustainable, low-noise, and weather-proof activity that is rare in the inner city.

Removing a thriving hub of activity to prioritize more asphalt feels like a massive step backward for Sydney's urban planning. We need vibrant spaces that bring people together, not more vacant spaces for cars.

I urge the Council to reconsider this decision and work with the operators of Hyper Karting to ensure this facility remains a part of our city's fabric. Our children deserve better than another parking lot.

I look forward to hearing how the Council plans to protect local recreational spaces like this one.

Sincerely,

Regards,
Mervin

Dear City of Sydney team,

The decision to reject the application to extend the Hyperkarting use of the EQ car park level makes zero sense to anyone.
This is a venue that offers so much to the community, young and old.
I've been frequently since it first opened and my kids have loved the small track and are only just old enough for the big track. Many families use the venue for birthday parties or just for a fun family time out.
It is a large car park and very rarely fills up unless there is a large sporting event, though, as is always recommended by your council, people should be using public transport or walking to the sporting venues. Opening up more parking spaces just opens up more cars on the road, more traffic, and more pollution.

I know that your whole M.O. is to take as many parking spaces away from the community to open more bicycle lanes that nobody uses cause the cyclists still ride in the middle of the car lanes, so why try to change that by taking away something that brings so much to the community.

Why do you take so much pleasure in taking away something that so many people love? You seem to really enjoy making Sydney a bland, stale, boring and backward city, when other cities are excelling at bringing nightlife and fun activities back to life.

I would highly recommend you reconsider your decision for the good of the community.

Regards

Peter Greenland

To whom it may concern,

Please consider our request to keep Hyperkarting in Moore Park in business. I believe they are at risk of closing down due to the council's plan to create more care spaces at EQ Moore Park. However, this place is one of the activities many kids, family and friends love. It would be such a shame to lose another destination that many people love to visit. Not many of this recreational place like this in the area.

Divine Giannini

Dear Shannon,

I was surprised to hear that Hyperkarting is at risk of closing to make way for additional car spaces. I would like to raise concerns about the number of jobs and the economic contribution to the community that would be jeopardised as a result.

This venue provides an excellent space for young people to spend their time on weekends and during school holidays, helping to reduce issues and incidents on the streets. We encourage the council to reconsider this decision and to continue promoting the use of public transport among patrons.

Regards,
Danny

I am writing to formally express my strong opposition to the planned closure of Hyper Karting at the Moore Park Entertainment Quarter.

As a resident and frequent visitor to the precinct, I believe that converting this space back into a 296-space car park is a significant step backward for our city. Hyper Karting provides a unique, world-class recreational facility that attracts thousands of visitors, supports over 150 local jobs, and offers a safe, alcohol-free environment for young people and families.
At a time when Sydney is striving to revitalise its night-time economy and boost local tourism, sacrificing a thriving community hub for more asphalt is counterproductive.

I urge the Council to reconsider this decision and grant an extension to Hyper Karting's operating approval, ensuring that this vital asset remains part of Sydney's future.

Kind regards,
Conor Clune

Hi! Ever since hyper karting had first came out I have been wanting to go, at the time when I first found out about the place I was still in highschool. Since then, Ive been in and out of the hospital and had financial issues growinfup especially during my last few years of highschool. Only now am I able to mentally and financially experience things as fun as hyper karting, something that can act as pedestal of proof that I had gotten through all of that.

Please dont take that away from me.

Kind regards,

Francine Ariel Dumandan

Please dont close down Hyperkarting..

Hi, Im 19 years old and live in Sydney located in the inner west.

When I was young, I went there for the first time, my first ever non-gasoline karting experience. It was fun and the opportunities were endless. Each cart had a camera to watch back the race, it had a very detailed app where you can see you best lap times, speed etc and even compare yourself to the other people you raced against.

This is the place that inspired me to become the Software Engineering student I am today. I was Intrigued by the complexity of their backend systems and the structural design of the electric karts which sparked my interest in engineering.

I believe in making people happy at little expense. People's health and happiness is what comes before everything.

It is truely an amazing place and closing it down would devastate many…It would also hurt my personal motivation as an engineer.. as if "why build something only for someone to take it away from you".

Please reconsider the choices being made… Dont do it for me, do it so that you and the people are happy..

Dear sir/Madame

My niece and nephew frequently come from Kiama for Hyper Karting as it's one of their favourite Sydney activists. My brother, their father and I also join in the fun!

We hope you reconsider and find a better solution for everyone.

Thank you.

Kind regards

Layla

Dear Shannon Rickersey,

I am writing to express my support in the current application RD/2023/897/A and the continued operation of Hyper Karting at the Entertainment Quarter.

We actually travel from Sydney Olympic Park to the Entertainment Quarter just for HyperKarting. It is the only go-karting attraction in Sydney that caters to children as young as 3 years old. HyperKarting was the place where my child and his friends got their first go-karting experience. My kid and his friends tried the Mini track when they were just 5 years old, and just recently they've moved up to Junior Track. They are now looking forward to trying the Intermediate track in the future, which seems no longer possible. Other than HyperKarting, there is nothing special Entertainment Quarter offers. There are many more entertainment and dining options in our area, and closer suburbs.

Removing this attraction would be a mistake for your suburb. It is a major draw for families all over Sydney, and losing it to gain a few extra car spaces—which would otherwise sit empty outside of occasional events—would severely diminish the area's appeal.

One more thing, we never had an issue with finding parking space whenever we go here - even if we experienced heavy traffic on the way. It is surprising that a council backed parking space requirement is the main reason for a successful business to close.

I do hope you reconsider and retain this vital business for your suburb.

Sincerely,

Clarissa Del Rosario

Hello,

Please keep my personal identifying information private from the public objections website and records. Thanks.

This is a direct comment and objection on the proposed development of 116 Lang Road in Moore Park NSW.

The proposed development is detrimental not only to the workers and internal stakeholders of Hyper Karting, but also to the community and thousands of Sydney tourists and general residents who enjoy the diverse offer of entertainment in Sydney.

Whilst parking spaces are at a premium, even more important to preserve is the livelihood and engagement Hyperkart brings to the community.

Thank you for your time in reading this email.

Cheers,
Oliver

To Clover Moore and City of Sydney Council,

I, Kyda Bryson, am in full support of renewing HyperKarting's lease in Moore Park. As a previous City of Sydney resident for 9 years, I frequented Hyper Kart with friends who were visiting Sydney and have recently begun taking my eldest to enjoy the junior track during holidays. I attend the entertainment quarter for shows and while it can reach capacity on busy evenings, the public transport system has provided a great alternative to reach EQ. I have seen how many patrons the go kart facility brings to the EQ bars and restaurants, of which unless there is a Hordern Pavillion event, football game or similar, leaves the place eerily quiet. Please reconsider renewing it for at least another year. It saves many of us for having to travel further out west to enjoy this activity.

Kind regards,
Kyda Bryson

Dear City of Sydney Council,

I am writing to formally request a justification regarding the decision to close Hyper Karting.

Hyper Karting is a valuable asset to our community, providing consistent entertainment for patrons and creating numerous jobs for local residents. The business operates throughout the year and is frequently utilized by the public.

It appears the decision to close this facility is intended to create extra parking spaces that may only be needed a few days out of the year. There is no clear overall benefit to the people of Sydney in sacrificing a year-round recreational business and employer for occasional parking availability.

I look forward to receiving a detailed explanation regarding the reasoning behind this decision and whether any alternative solutions were considered.

Best regards,

James R

Dear council,

I’m writing to ask you to reconsider any plans that would see Hyper Cart removed or replaced.

Places like this don’t just serve a function, they quietly support the rhythm of everyday life. Hyper Cart is convenient, familiar, and valued by the people who rely on it. Losing it would leave a gap that’s bigger than it might seem on paper.

I hope you’ll take a moment to consider the community impact before making a final decision.

Thank you for your time.

Kind regards,
Ruby

Dear Shannon,

Hyperkarting at Moore Park is a world class go-karting facility that is a star attraction for the entertainment quarter. Removing this facility will reduce the visitor numbers and lose a star attraction for Sydney city. It cannot be justified closing just to increase car parking spaces. There has to be an alternative build project at the site that could practically increase parking without affecting the hyperkarting.

When I've visited Moore Park many times for hyperkarting or the cinema there has never been an issue finding parking. The only time that parking is in short supply is when there is a music event on. However, you just need to look at Olympic park to realise that substantial parking facilities are quickly booked up for such events and visitors should be encouraged to use public transport.

Dear Council Team,

I am writing to express my strong support for Hyper Karting and to ask that council carefully consider practical solutions regarding the current parking concerns.

Hyper Karting is a valued local business and an important recreational venue for families, young people, and the wider community. It provides a unique activity that is not easily found elsewhere and brings people into the area, supporting local businesses and creating a vibrant community space.

While I understand that parking availability is an important consideration, I strongly believe this issue should be addressed through practical traffic and parking management solutions rather than allowing it to negatively impact the future of Hyper Karting. Challenges with parking are common in growing precincts and should be managed in a way that supports both local businesses and community access.

Removing or limiting support for a business that clearly brings enjoyment, employment, and economic benefit to the area does not seem like the best outcome for residents. Alternative measures such as improved parking management, designated event parking, time restrictions, shared parking arrangements, or encouraging the use of nearby public transport should be explored first.

Hyper Karting is an asset to the community, and I respectfully ask council to work collaboratively toward a solution that allows the business to continue operating successfully while addressing parking concerns in a fair and balanced way.

Thank you for your time and consideration.

Kind regards,
Dianne

I'm writing to express my concern that the City of Sydney would change the conditions making it possible for Hyper Karting to exist.

We as a whole city, not just the direct City of Sydney council area are short on entertainment options.

I've taken my kids Karting so many times, and each time we spend money parking, shopping, eating and of course Karting.

I've also attended events at the EQ, and Moore Park and always choose to park in that centre, and have never ever had an issue even at the busiest of times.

Council should be supporting small business, and employment as well as finding as many reasons for people from all across the Sydney basin to visit the City of Sydney.

Change your plans, keep Hyper Karting.

Please do not shut this place my daughter who lives with an Intellectual Disability and is non verbal loves going here - if i had to tell her that she can't go there anymore that would be devistating.

It's a great family venue and one of very few activities that my son and daughter get to do together - seeing the joy on both their faces as they race each other is priceless.

The staff have always been great in accommodating my daughter which we have greatly appreciated.

Please have a heart and think about the amount of joy this place brings to many families.

Thank you
Michelle Bittle (North Turramurra)

Dear Shannon,

As a ratepayer in your LGA I support the retention of the HyperCarting business at its present location.

This is a fabulous business at adds value and diversity to the community.

The Councils and State Government has done excellent work in creating various transport options and services to access the Moore Park entertainment precinct and as such the removal of relevant and lawful business that adds value to this precinct to gain a few additional car parks is counter intuitive.

Please keep this lawful business in its present location as it is a highlight of the precinct enjoyed by families of all ages and continues to provide necessary employment for many young people too.

Thank you

Karen Adamson

Dear Shannon Rickersey,

The hyperkart at Moore Park is an important local business for our community. It keeps children off of devices, out of trouble and into a sports hobby within our local community. It is a positive environment for kids in the entertainment quarter encouraging competitive skills with friends. It is also a great space for young kids birthday parties and a safe meeting space for families.

To remove this business is a detriment to our local community and families who utilise this business. As such we are one of these families and appreciate this safe space for our children and their friends.

There is no need to offer more parking at the entertainment quarter.
- There is over flow car park provided on the grass across from the EQ for sports games in the evenings adhoc
- There is a public transport for commuters who visit the local area.
- We are attempting to encourage communities to utilise our extensive upgraded public transport system and local trams.
- We do not want to cause increased traffic and disruption on Lang Road in Moore Park exiting the entertainment quarter.

Thank you,

Sarah Cox

Hi

My name is Annette and my family and I have been utilising Hyper Karting for our entertainment for some time now.

We absolutely love the facilities Especially the fact that the staff are so friendly and passionate about their work; we are always made to feel welcomed; the karts are maintained to a high standard; there's been ample parking spaces available on lower level no matter what time of day we arrive.

We luv the centre so much that we travel for over an hour to attend Hyper Karting. We are back there again tomorrow.

Please please please don't close down the centre. Hyper Karting is our go-to for entertainment.

Kind regards
Annette and family

To whom this may concern,

I want to express my support for Hyper Karting and I kindly implore you to reconsider the closure of this amazing business. It doesn't simply mean a loss of income to over 100 people, it also means the dissolving of a passionate community who has formed strong connections over a shared love of go-karting.

When I went to Hyper Karting with my partner for the first time, he loved it so much he attended sessions regularly and talked about how amazing the other people and the workers were. Even without knowing each other beforehand, racers formed connections complimenting each other after the races and appreciating each others' skills. Hyper Karting is more than a business, it's a place where people can connect and it's a community with many passionate and loyal fans who would be devastated by its closure.

I strongly urge you to reconsider your needs, as each time I've attended Hyper Karting, many car park spaces were empty and I hope that an alternative can be found because this would be an immense loss to the go-karting community.

Thank you for your consideration.

I have heard on the Today show this morning that you intend to ruin a very profitable business, take away jobs and replace the space with a carpark that is not required.

This is a council funding rort at the highest level. This is a council who clearly doesn't value necessary entertainment for people of all ages, doesn't value jobs (which for our youth are extremely hard to find) nor small business who are paying taxes and rates etc to fund necessary infrastructure.

Your decision is wasteful and certainly not in the best interest of the community who you are supposed to represent.

Please reconsider your decision or face higher unemployment of your youth leading to higher centrelink dependence, lower socio-economic living and a lack of funds spent in your district as this brings in hundreds of thousands of people to your district. It is a fun family-oriented venue which is much needed in these hard times.

Hi Shannon Rickersey,

I am writing to express my concern that Hyper Karting may be forced to shut down to allow additional car parking spaces. This should not be allowed to occur.

Sydney needs more and to keep the entertainment and culture it has. Hyper Karting allows people of all ages to have fun and have positive experiences. Why remove that?

What would be the economic impact of job losses by the closure of the business? What would be the culture impact of removing another entertainment venue?

A better use of development would be to improve public transport to the area.

Best Regards,
Kelsey

Subject: Support for Hyper Karting – RD/2023/897/A – 116 Lang Road Moore Park

Dear City of Sydney,

I am writing to express my strong support for Hyper Karting and to respectfully request reconsideration of the decision relating to Development Application RD/2023/897/A at 116 Lang Road, Moore Park.

Hyper Karting has become an important part of Sydney's entertainment landscape, providing a unique, modern and accessible recreational activity for individuals, families, and groups. It contributes positively to the local economy, creates employment opportunities, and activates an existing urban space in a productive and innovative way.

The venue attracts visitors to the Entertainment Quarter, supporting surrounding businesses and enhancing the overall vibrancy of the Moore Park precinct. It offers a safe, controlled and environmentally conscious activity through electric kart technology, aligning with broader goals of sustainability and contemporary urban experiences.

Closing Hyper Karting would not only impact the livelihoods of employees but would also remove a valued destination enjoyed by locals and visitors alike. Sydney benefits from diverse entertainment options that encourage social interaction, tourism, and economic activity.

I respectfully ask that Council reconsider the decision or explore a balanced solution that allows Hyper Karting to continue operating while addressing planning and transport considerations.

Supporting businesses that contribute positively to the community helps ensure Sydney remains a dynamic and engaging global city.

Thank you for your time and consideration.

Kind regards,

Rafael Babao

Dear Shannon,

I am writing to express my dismay that Sydney City Council has refused to extend the time limited consent for the go-karting site at Level 5, 116 Land Road, Moore Park.

I have been a nearby resident of EQ for nearly three decades. Having lived on Cook Road, Centennial Park and now Church St, Paddington I have been a neighbour and visitor to EQ since it was converted from the Showgrounds to Fox Studios and now EQ.

What is at stake here is a limited number of car spaces that would be otherwise be vacant for most of the operating hours of EQ. From my own observations, the car park is rarely full. It takes high capacity events nearby before the car spaces would be utilised. This is exceedingly rare and supported by data supplied by Carsingha Investments Pty Ltd. On top of that, the number of spaces is negligible compared to the 40,000+ attendees at major events and ignores the improved access to the precinct created by the light rail. Furthermore, the council is encouraging the use of cars and traffic congestion by freeing up these limited spaces. The council can't have it both ways: it can't be supportive of public transport over cars and yet simultaneously removing a drawcard business to accommodate more cars to the area at the worse possible times.

EQ, overall, is poorly utilised resource. It needs innovative businesses like the go-kart track to attract people to the area on a regular basis. The venue also gives residents of the nearby high density areas around Green Square a chance to experience a unique form of entertainment in a region bereft of options. Again, Sydney City Council can't be claiming to its support for residents of high density areas while removing innovative businesses for sake of under-utilised car spaces. These car spaces are not residential, they are not crucial to any local amenities: they are a wasteful luxury for a small group of individuals choosing not to use a well-connected public transport system to access Moore Park precinct events.

Sydney City Council claims to be supportive of small business. From documents provided as part of the is DA, the go-kart track provides employment for 150 individuals. These employees are also likely to support the local EQ businesses through the use of other venues such as food and entertainment. Given EQ has poor patronage, removing this local workforce and their customers is going to have a further negative impact on EQ overall.

Finally, it is surprising and disappointing that the council is choosing to favour poorly utilised and unneeded car spaces over the support of a thriving local business. This also goes against much of public policy statements made by Sydney City Council and it's Mayor, Clover Moore.

Your sincerely
Scott Mendham

Hi City Of Sydney.

Hyper Karting at Moore Park has been a great & friendly place to take my kids to experience go-karting. There is nothing like it in reach of the Eastern Suburbs without a drive out west + the public transport access via light rail has been fantastically easy. My boy & his friends have always enjoyed this unique experience which is one of the few genuine draw cards left at Moore Park Entertainment Precinct. They try to go at least once each school holiday break, sometimes more & we have had many birthdays there. Adults enjoy it too. In no way should car parking requirements take precedence over its location. It's a great use of level 5 of the car park and there are enough cars & car parks to service the area without level 5. Please allow them to continue this much loved business.

Hi

We operate the café at Australian Film, Television and Radio School in the EQ and have a long established relationship where HK clients utilise our café pre and post race.

Closing the track would have a detrimental effect on, not only our business, but also the other businesses in the EQ.

With EQ rental costs showing no sign of abating, this decision will have far reaching ramifications.

Has a study been done on the occupancy of the car park and an independent conclusion been made including the mitigating factors of surrounding business impact?

I hope this email goes someway towards the submission being reconsidered.

Cheers
Dan Wilson, [redacted]

Hello,

I am writing against removing hyper karting establishment from its currently active space.

This is a place where my young nephew has his birthday parties. Where my friends and I enjoy a good weekend out. My fondest memory was coming to hyper karting before a concert. We had actually considered doing a couple more laps instead of going to the concert.

Please consider the impact you have to your local community.

Regards,
Stella

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

I am writing to express my strong support for the renewal of the Development Approval (DA) for Hyper Karting at Moore Park.

Hyper Karting has become a unique and valuable attraction within the Moore Park precinct, contributing significantly to the vibrancy and activation of the area. Its presence offers an engaging, family-friendly recreational option that complements the broader mix of entertainment, sporting, and hospitality venues nearby.

The venue helps draw a diverse range of visitors, including families, young adults, corporate groups, and tourists. This increased foot traffic supports surrounding businesses and contributes to a more dynamic and economically active precinct. In particular, Hyper Karting enhances the appeal of Moore Park as a destination beyond major events, encouraging consistent visitation throughout the week.

It is my understanding that the proposed reason for declining the renewal is to convert the space into additional car parking. However, this appears to be a poor trade-off, particularly given that existing parking capacity in the area is often underutilised outside of major event days. Replacing a vibrant, experience-driven attraction with largely empty parking spaces would detract from the precinct's appeal and undermine efforts to create a lively, people-focused destination.

Additionally, the facility promotes social interaction, safe recreational activity, and community engagement. It provides an accessible and exciting experience that is not widely available elsewhere in Sydney, helping to distinguish Moore Park as a leading entertainment hub.

From an urban planning perspective, retaining attractions like Hyper Karting aligns with broader goals of activating public spaces, encouraging local tourism, and fostering a lively and inclusive environment. Removing such a facility would diminish the diversity of experiences available in the area and reduce its overall appeal.

For these reasons, I strongly support the renewal of Hyper Karting's DA and encourage the

relevant authorities to recognise its positive contribution to the precinct's vibrancy, economy, and community life, rather than replacing it with infrastructure that does not meaningfully enhance the precinct.

Thank you for considering this submission.

Yours sincerely,

Hugh Loiterton

I just heard that hyperkinetic is at risk of being closed down! I don’t know why this would be, another car park is not what Sydney needs. This is a beautiful part of our Neighbourhood and community and bring so much joy to all our kids. It’s already hard enough to find something accessible within the inner city that is fun for the kids.

Other businesses in the entertainment court would benefit from hyper carting being open. We should be supporting small businesses not just letting the large ones take over. This is a beautiful activity and excellent fun for the kids and they’ve just expanded so that all ages could play.

Please review and don’t close it down!!! who needs more car parks it’s just one level of a car park!!!

Thank you

To whom it may concern,

I am writing to in support of the Hyper Karting community to express my strong concern regarding its potential removal at Moore Park in favour of expanding parking facilities.

Hyper Karting offers a unique and exciting experience that is not readily available elsewhere nearby. It provides a weather friendly, inclusive, family-friendly activity that caters to a wide range of ages and abilities, making it a valuable destination for our community.

For families like mine, it has become one of the main reasons we continue to visit Moore Park, particularly following the loss of (yet another) children's venues such as Monkey Mania. The area has already seen a reduction in engaging, kid-friendly experiences, and removing another would significantly diminish its appeal for families.

Replacing a vibrant recreational space with additional parking sends a discouraging message. It prioritises cars over community, and convenience over connection. Spaces like Hyper Karting create memories, encourage active play, and bring people together - things that parking lots simply cannot offer.

I urge the council to reconsider this decision and explore alternative solutions that preserve and support family-oriented attractions within Moore Park. Please don't take away another piece of what makes this area special for children and families.

Thank you for your time and consideration.

Kind regards,
Michelle Serrato

Hi,

Please don't evict Hyperkarting!

It's a great venue and myself and many of my friends have had many memorable races here. It's a unique thing to have in the city - there's nothing else like it. The benefits I'm certain are greater than having a few more car spots.

Dear board of City of Sydney,

I hope this message finds you well.

I am writing to express my view that additional car parks are unnecessary and that Hyperkarts contribute significantly to the vibrancy and appeal of both Sydney and Moore Park. Hyperkarts provide a unique entertainment experience, attracting visitors and enhancing the cultural and recreational offerings of the area. I also took my partner on our first date there.

Preserving/saving this attraction benefits the community far more than expanding parking facilities.

Thank you for considering this perspective.

Kind regards,

Stevie Knight

To Whom It May Concern,

I write to you today as someone who believes in small business as a small business owner myself. Small business is the lifeblood of the economy and Andrew is doing a fantastic job with this business. It's truly a credit to him and his hard working staff.

The decision to close this venue is nothing short of ridiculous in the current economic climate. It must remain open!

I remember City Of Sydney Council wanting less car spaces at Moore Park in the past, so why the sudden interest in wanting more? Your council doesn't make sense!!!!!! You are more up and down than my waist line!!!!

No extra car spaces are needed in Moore Park, the karting track must remain.

Kind Regards,

Michael Psaltis

Hi, I'd like to write an email in support of hyper Karts

My family and I really enjoy participating in this activity and there really isn't anything like it within their area. It's really developed some great dad/ daughter time and some fond memories over the years.

I think it's disgraceful that we would lose that form of attraction for car parking when there are some great options nearby including parking on the oval.

Regards
Daniel

Adding 300 car spaces to the already congested car park seems quite mad. It takes more than 45 minutes to get out of the car park at the end of an event due to the lack of outlets from the carpark, adding 300 cars would push that to an hour.

The best option for this center is not to fill it with more cars that have no way to get out as the streets cant handle the traffic (you can only turn right towards busy south Dowling st already). It would be to encourage more use of public transport, surely?

Dear Sir/Madam,

I am writing to express my strong opposition to the potential closure of Hyper Karting. Having recently visited the venue for my child's birthday, I have seen firsthand how it serves as a perfect environment for individuals of all ages to experience the thrill of driving.

Given that there no other options available around the CBD, I believe it would be a significant loss to the community to close such a unique and accessible venue. Could you please provide more information regarding why the decision is being made to close a facility that offers such a distinct experience?

I strongly urge you to reconsider this action and maintain Hyper Karting as a staple of our local community.

Best regards,

Nikita Smelov

Good Evening,

Please do not shut hyper karting as we need a unique activity such as hyper karting in the city of Sydney area. We do not need more parking spaces and I have never has an issue with parking in the area when attending events there and hyper karting previously. It is not necessary to destroy this business for this purpose. Please reconsider your decision and allow hyper karting to continue running as normal. Thank you.

Regards,

Jamie Ashley O'Sullivan

Dear City of Sydney Council,

I am writing to share my concerns about the proposed closure of the HyperKarting facility in the entertainment precinct.

This proposal would have a serious impact on both workers and the wider community. Around 150 employees could lose their jobs, which is a significant consequence for a decision that does not appear to deliver clear benefits.

The reasoning behind replacing the venue with additional parking is also questionable. Even during major events, such as football matches, there seem to be ample parking spaces available. With a new car park already under construction nearby, increasing parking capacity further feels unnecessary.

Additionally, this move seems inconsistent with the broader goal of encouraging sustainable transport. Public transport options, such as the light rail, already make the precinct easily accessible without relying on cars. Expanding parking sends the opposite message at a time when reducing car dependency should be a priority.

HyperKarting itself provides something genuinely valuable to the community. It offers a safe, social, and engaging environment, particularly for younger people. The atmosphere is welcoming, with friendly and supportive staff who help create a positive experience for everyone.

It is also a unique venue that operates year-round, regardless of weather conditions. The use of electric karts is another major benefit, reducing environmental impact by avoiding fuel emissions and supporting a cleaner, more sustainable activity.

Losing a place like this would take away an important recreational and social space in a city where many similar venues have already disappeared. It would be disappointing to see such a positive community asset replaced by infrastructure that may not even be needed.

I respectfully ask the Council to reconsider this proposal and to recognise the value that HyperKarting brings to Sydney.

Kind regards,
Jasmine Cronin

Hello To whom it may concern,

Recently Heard the decision to close hyperkarting for more parking space.
This doesnt seem like a sensible decision considering the Loss of over 150 jobs and the availability of more parking spaces without the closure of hyperkarting.
Please kindly review this decision.
If the council proceeds with this decision against the wishes of the people, everyone who participated in this decision will be under an audit & scrutiny and investigated to justify this poor decision.
This will not be one of those "run of the mill" council decisions we turn a blind eye to. This will have consequences involved, if any enquire leads exposing any underlying ulterior motives.
Thank you.
The council serves the tax paying public, we get a say in how things are run on our behalf, not vested intrest.

Subject: Objection – RD/2023/897/A

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear City of Sydney Council,

I am writing to provide a submission in relation to Development Application RD/2023/897/A concerning 116 Lang Road, Moore Park NSW 2021.

I would like to express my concern regarding the potential relocation or removal of the Hyper Karting facility as part of this proposal.
Hyper Karting is a unique and valuable recreational attraction in Moore Park that contributes positively to the area's vibrancy and appeal. It provides an accessible, enjoyable activity for a wide range of people and adds to the diversity of entertainment options available locally.

I question the rationale behind removing or relocating such a well-utilised and engaging facility in favour of additional car parking spaces. Given the existing transport links and ongoing efforts to encourage public and active transport use, prioritising more parking over established community amenities seems counterproductive.

I respectfully request that Council carefully reconsider this aspect of the proposal and place greater value on preserving recreational facilities that enhance community experience and local character.

Thank you for your time and consideration. I would appreciate confirmation that this submission has been received.

Kind regards,
Adrian L. Testa

Please don't shut down hyperkarting. It's a very well run, fun and unique activity in the area - with no other karting options within the inner city area (and the only serious karting option with electric carts comparable to the petrol fume options at eastern creek).
This business is an important part of the entertainment provided at the entertainment quarter, and to close this business, especially to provide more parking when the parking is very rarely full, would be a very sad and unnecessary decision, which I sincerly hope you will reconsider and retract.
Kind regards,
Jane

Hi team,

Getting in touch to express my concern over the possibility of Hyperkarting shutting down.

The community that this establishment has built is phenomenal and it would be a massive shame to see it go, especially with the contribution it is making to Sydney's recreational landscape. It's a wonderful place to spend time with friends and one of the few activities that one can participate in at the EQ. There are very few other gokarting locations within Sydney that deliver the quality that they do.

Please consider keeping them open! Making them close would reflect very poorly on Sydney's supposed efforts to bring the city to life.

Warmest,

Liam Seymour

Don’t take away Hyper carting. It’s a great business that whilst expensive is lots of fun and a great destination to come to with the family. Also means that we visit other establishments within EQ as it’s central and we can just be at one location for the night.

Cheers
K

Hello

I am writing to you to lend my support to the continuation of Hyperkarting at the current Moore Park site.

The joy that Hyperkarting brings to my grandsons is incredible. This facility is unique in the Eastern Suburbs in terms of the experiences offered as well as the accessibility.
I know of many families in the East (and from adjacent suburbs) who access this facility. To lose it would remove a major source of family entertainment in the Eastern Suburbs.

It is fair to say that the Entertainment Quarter has for many years suffered a decline in visitors with the resultant effect on business there. To remove a commercially viable operation such as Hyperkarting would be counter intuitive.

To convert the Hyperkart area back to parking spaces which would quite clearly remain empty on most days of any year is quite confusing to me. Especially so when additional car parking is being constructed at the football stadium.

In summary, my objections to reverting the space to car spaces;

1. Hyperkarting provides a much needed facility for family oriented entertainment
2. It is unique in the Eastern Suburbs, with any comparable facility being quite remote to the East.
3. It makes good commercial use of a space that would otherwise be empty most days of the year
4. It attracts much-needed patronage to the Entertainment Quarter
5. At the very least, this does not present Sydney City Council in a favourable light. I view this proposal as contrary to being mindful of the need for family activities available within the City of Sydney.

Regards

Tony Szabo

Everytime I have visited, all at varying times to middle of the day to night to late on weekends and weekdays, the carpark has never even been close to capacity. Reclaiming parking spaces doesn't even make sense from an economical sense because the revenue generated from hyperkarting itself would far exceed the revenue generated from the reclaimed parking spaces, espescially with hyperkarting itself being a big reason for driving consistent traction to the local moore park area. It is a great spot where I've taken many friends and it is enjoyed by people of all ages with different experiences and is a location I keep coming back to. Don't take it down!

Dear City of Sydney DA submissions,

We've had so much fun go-karting with our friends—it's been such an exciting way to connect and spend time together. It would be truly devastating to see it go. Please keep the go-karting at Fox Studios.

Kind regards

Liz Short

Dear Council Members,

I am writing to express my strong concern about the potential closure of Hyper Karting.

This venue is far more than just an entertainment space—it is a community hub that brings people together, supports local engagement, and provides employment for over 150 individuals. Losing such a place would have a significant social and economic impact.

While increasing car park capacity may offer some benefit, replacing a thriving community facility with additional parking spaces—especially ones that may not be fully utilised—does not seem like a balanced or forward-thinking decision. The long-term value that Hyper Karting provides to the community far outweighs the short-term gain of extra parking.

I respectfully urge the council to reconsider this proposal and explore alternative solutions that preserve both community spaces and infrastructure needs.

Please take into account the voices of those who value what Hyper Karting contributes to our community.

Thank you for your time and consideration.

Kind regards,
Praveen

Dear City of Sydney,

Not only do you have more than enough parking currently available for the entertainment quarter, but removing Hyperkarting will reduce the number of cars and therefore increase space due to the fact that nobody will go there anymore.

Not only does it provide good jobs and a great attractor to the space, benefiting both economically and socially too, but keeping Hyperkarting would be a statement that as a city Sydney is actually good enough to have some original attractions.

Karting (albeit a tried and tested form of fun) is hard to come by in the Sydney area, but it generates much joy and passion from myself and other motorsport enthusiasts alike.

It is truly sad to see you want to remove the entertainment from the entertainment quarter.

Please feel free to reach out to me if you would like to hear my thoughts in person, and good luck making the easiest decision for not only me but the entire entertainment quarter and by extension the entirety of Sydney.

Sincerely and emphatically,

William Raymond

Hi Guys,

I'm writing in support of hyper Karting.

They are the best business located in the entertainment quarter & give people a genuine reason to go there without sporting events and gigs.

All the restaurants in the EQ are low quality chains, hyper is great fun for all my family from kids to grand parents & it's really well placed for public transport.

It's not worth closing it for the sake of a few extra car park spaces that will only be used a small number of days a year.

CF

This decision is rubbish! First you want to take half the golf course away, and now you want to take my beloved Hyper Karting too!? Jeeze, wouldn't want any of the local residents to have fun, would you.

But seriously. I live locally in Zetland and love Hyper Karting, we've had multiple work christmas parties here, I've taken nephews, nieces, friends, family. It's a great idea, great entertainment that isn't hurting anyone. And the EQ car park is barely ever so full that it needs the top floor back!? Surely that's a joke.

This article says it all. I'm a council rate payer for CoS, what a waste of my dollars entertaining this ridiculous idea this is!

Dear Shannon

I am writing to you in the hope that my message will make a difference in the decision of saving Hyper Karting from closure.

Hyper Karting is a place my family and I have visited on a number of occasions including celebrating my son's birthday in August of last year. It is the only go-karting venue in Sydney that caters to young children, which I discovered when my 4, turning 5 year old little boy so desperately wanted to go go-karting for his birthday. This venue caters to people of all ages, genders and ethnicities which is more than 90% of entertainment venues around.

For my family, this is the venue that brings us to Moore Park and whilst we are there we make the most of the surrounding cafes and restaurants however, without Hyper Karting, we would have no reason to come to EQ as everything else in the complex can be found elsewhere in Sydney and much closer to our home in the Hills District.

Hyper Karting is a Sydney icon and must be saved.

Regards

Danielle Nicolaides

Hi, hope this email finds you well.
Hyper karting in Moore Park is my go to place for weekends, holidays and with mates or family. The staff are passionate and the experience never disappoints. I have been there multiple times taking new people with me, they have also had a wonderful time there. They have other interesting attractions, which are equally fantastic from my experience even though their focus is on Hyper Karting. Shutting down Hyper Karting means people loose their jobs, which they are passionate to do so and I as well as the community will be very dissatisfied to see it go. Evidence from the owners shows that the parking spaces aren't even completely full, therefore there is no reason to shut it down.
Thank you for taking the time to read this email.
Kind Regards

Lakshmi

To whom it may concern,

I am writing to express my concern regarding the proposed parking issue at Moore Park.

I have visited this car park numerous times over the past year travelling from Roseville 2069 and have never encountered any difficulties finding a space when attending concerts, movies, restaurants, games at the SCG or Rugby ground.

My family of three children has also held birthday parties in this area and we have participated in hyperkarting during those celebrations as the facility offers a range of activities.

I am particularly concerned about the proposed displacement of Kyperkarting for what….!! 80 extra car spaces max.. This decision appears to be poorly considered and will have a detrimental impact on the local business community.

I urge the council to reconsider this proposal and to ensure that businesses such as Kyperkarting are not adversely affected.

Ridiculous and idiotic thinking that only councils would do. Some real dinosaur thinking.. makes me want to leave my senior corporate and join the council to make real change in this city..

Sincerely,

Craig Bunting

Hi there.

This place is such a good family attracting for the area and a safe late night venue. It should be supported. Especially when I am there often and never is the car park needing more space. It would be a real shame to not understand the significance businesses like this provide the community around them. I beg you to re evaluate the position and look at the positives this business provides the community.

Thanks

Keelan.

Subject: Objection to DA D/2023/897/B - Continued Operation of Hyper Karting, EQ

To the Planning Department,

I am writing to strongly urge Council to reconsider the decision to refuse the extension of the development application for Hyper Karting (DA D/2023/897/B) on Level 5 of the Entertainment Quarter car park.

As a visitor who values the vibrancy and community facilities in Moore Park, I believe this decision will have significant negative impacts on the area.

I urge you to support the extension based on the following grounds:

1. **Retention of Valuable Community and Economic Activity:** Hyper Karting is not merely a commercial operation; it is a major attraction that has engaged over 500,000 visitors since 2021, fostering a family-friendly atmosphere at the EQ. Closing it would remove one of the most popular attractions in the precinct, directly undermining the goal of creating a thriving entertainment destination. My kids and I often attend the and enjoy this vibrant and exciting offering. There is no other option nearby.
2. **Protection of Local Jobs:** This closure places over 150 jobs at risk, many of which are filled by local youth and students, at a time when the community needs sustained employment opportunities.
3. **Misguided Parking Strategy:** While I understand the goal of removing "on-grass" parking at Moore Park, replacing a thriving, popular attraction with 298 car parking spaces is a poor use of space. With the new 1500-space underground car park at Allianz Stadium coming online, the need for this rooftop space for parking is unnecessary.
4. **Support for Community Inclusivity:** The venue provides accessible and inclusive entertainment, including valuable social programs for disability groups, which cannot be replaced by a parking lot.

I request that council re-evaluates the assessment, prioritizing people-focused entertainment over the unnecessary return of parking spaces.

Regards

Parking at Moore Park has ALWAYS been a nightmare due to a lack of foresight in that regard when it was built many years ago before Hyper Karting was even there. Everybody has always known to never park at Moore Park for any event. Let the community enjoy the go carts. Stop ruining everything.

Best regards,
Cameron Hughes

To whom it may concern,

This email is being written to address a certain matter that is deeply affecting the community and will continue to affect immensely if the application to close down Hyper Karting is approved.

Hyper Karting has been fruitful within the Moore Park community for many years and has generated laughter, happiness, joy, a sense of belonging and bringing the community in unity especially in times of trouble, hardship, and challenges.

Where would the people of the community turn to in order to let out their stresses and frustrations? Where would these loyal employees go if their jobs get taken away from them? Where would the children, teens or adults go to celebrate milestone birthdays or form lifelong relationships with their peers or significant others?

You must reconsider the application currently being processed to close this business. It is highly essential for them to stay open and continue supporting the community, the same way it has been for many years.

Thank you for considering my request.

Kind regards,
Maryanne Abouharb

Hello City of Sydney,

I am writing this email to share my disappointment in the decision to change the HyperKarting space to parking at Moore Park Entertainment Quarter. This seems like a very silly decision given the usage of HyperKarting by so many people day and night to instead offer another layer of parking that would only be used during events. This area of Sydney does not have any other karting options and would be a terrible loss. Investment in public transport (Light Rail) which has already been completed is a much better solution than just offering another floor of parking.

Myself and my kids love Hyperkarting and hope to see it exist in the future.

Please reconsider this decision.

Regards,

Nick Esse

Good Afternoon

There only reason I come to Moore Park os for hyper karting , with my kid very regularly, n then will support a local Cafe/ restaurant. If hyper karting wasn't there wrd never bother coming back
Think about what the area needs, not carparks. Plenty parking, never ever struggles to find a spot

Hyper karting is easily the best thing to open in the entertainment quarter in Sydney, I've gone multiple times across the years and it's a place where I go to have fun and to compete against family and friends, it only takes up 1 floor of parking you guys can't be this greedy it brings buisness to your venue

Another thing my children and family won't be able to enjoy. Such a fun safe positive day/evening out with the kids, making memories and now my 12 year old who can't wait to experience the big track will be let down if it's no longer around.
I work at the venues near by and have never seen an issue where the parking is full and require this level. Not to mention the jobs that it keeps people in. We live in such a crazy world. Such a shame and backwards thinking of the city of Sydney.

Dear City of Sydney Council,

I am writing as a resident who truly values Hyper Karting at Moore Park and would like to express my sincere support for its continued operation.

I have visited this place personally (on my husband's birthday). The experience was amazing, which motivated me to organize a corporate event at the same venue hosting approx 50 guests. Even the feedback from my colleagues has been tremendous. The experience was not only well-organised and enjoyable but also stood out as something different from the usual corporate activities. It created a lively and engaging environment that people genuinely appreciated and still talk about. In fact, most of them were committed to bringing their kids during school break, as they were sure they would enjoy it equally. It sounded like it offered another opportunity for the parents to bond with their kids.

One of the key reasons Hyper Karting stands out is its convenient location in the heart of the city. With easy access to public transport and with ample parking available, it allows people from across Sydney to visit without difficulty. This accessibility makes it an inclusive recreational option for families, students and working professionals who may not have the means to travel far for such experiences.

Closing down such a well-utilised and accessible venue would mean losing an important space that serves a wide and diverse community. It would also impact many employees and reduce the variety of recreational options available within the city.

I strongly believe that businesses like Hyper Karting, which are accessible, popular and positively contribute to the community should be supported rather than removed.

Thank you for considering my perspective.

Yours sincerely,
Mansi

Dear Shannon,

I recently came across the notice about the closure of HyperKarting in Moore Park. This is devastating news! I frequently visit HyperKarting as an opportunity to catch up with my friends, and as a shared hobby that my partner and I enjoy working on together. It's a truly special experience which I can take part in despite having long hours of work, due to the convenient location.

I just wanted to send an email to express my hopes that an agreement can be reached to keep HyperKarting operating! I often look forward to seeing the new track layouts and exciting changes that pop up on Instagram. There's really no similar substitute anywhere nearby, or of a similar standard.

Thanks for taking the time to hear my thoughts!

Eden

There is a lack of options for kids birthday parties and outings in the area, this go kart track needs to stay.

The EQ carpark is never full and I am there every week.

This needs to be reversed.

Dear Council Team,

I am writing to express my strong support for Hyper Karting and to respectfully ask the Council to reconsider any plans that may lead to its closure.

For over half a decade, Hyper Karting has been an important part of Sydney's entertainment landscape, providing a unique, safe, and engaging experience for people of all ages. It is more than just a venue — it brings the community together, supports local jobs, and contributes to the vibrancy of the area.

The overwhelming community response, with over 1,900 supporters already, clearly demonstrates how valued this facility is. Replacing such a well-loved destination with additional parking would be a significant loss to the community.

I strongly encourage the Council to explore alternative solutions that allow Hyper Karting to continue operating while balancing urban planning needs.

Thank you for your time and consideration.

Kind regards,
Steven Q

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon Rickersey & City of Sydney,

I am writing to formally object to the proposed closure of the top level car park at 116 Lang Road, Moore Park, currently occupied by Hyper Karting, under submission RD/2023/897/A.

This proposal is deeply concerning, not only from a business and economic standpoint, but also from a community and social perspective. Hyper Karting is not just a recreational venue, it is a destination that contributes significantly to foot traffic within the Entertainment Quarter, supports surrounding businesses, and generates ongoing economic activity and tax revenue. Removing it would directly reduce the vibrancy and attractiveness of the area.

More importantly, this decision appears to be proceeding without genuine community consultation. There has been no meaningful engagement such as a town hall meeting or open forum where local residents, patrons, and stakeholders can voice their views. This lack of transparency gives the impression that community sentiment is being overlooked entirely. Decisions that impact public spaces and well utilised venues should not be made in isolation.

From a personal standpoint, Hyper Karting has been a place of enjoyment and connection. I have visited it occasionally throughout the years with friends, and it has consistently provided a unique, energetic, and social experience. It contributes to the identity of Moore Park as an entertainment precinct. Removing such a venue does not solve an existing issue, rather, it creates one by stripping away a proven and valued attraction.

There has been no clear justification presented that demonstrates Hyper Karting is causing harm or disruption significant enough to warrant closure. Without this, the decision appears arbitrary and dismissive of both community value and economic benefit.

I strongly urge the City of Sydney to reconsider this position, pause any action toward closure, and actively engage with the community through proper consultation. Listen to the people who use and support this venue before making a decision that cannot easily be reversed.

At present, this proposal does not reflect the interests of the community it is meant to serve. I ask that you respond constructively and ensure that community voices are heard and genuinely considered in this process.

Kind regards,

Bill

Dear Shannon,

I write in strong support of the application by The Trustee for Carsingha Investments Unit Trust to extend the development consent for the electric go-kart facility on Level 5 of the Entertainment Quarter car park to 1 July 2028.

I am a regular patron of Hyper Kart and have been for some time. My children and I have spent many wonderful hours at the track, it is genuinely one of the best family experiences the Entertainment Quarter has to offer. The team runs a safe, professionally managed, and welcoming facility at very reasonable pricing, making it accessible to a wide cross-section of the community.

Beyond the entertainment value, Hyper Kart contributes meaningfully to the vibrancy of the precinct. In a challenging economic climate, businesses like this, that bring families together, drive foot traffic, and offer genuine community value, deserve to be supported and retained. The values it instils in young people through friendly competition, sportsmanship and shared experience are something I see first-hand every visit.

The Entertainment Quarter is a stronger, more vibrant destination because of Hyper Kart. I wholeheartedly support the extension of their consent and encourage Council to approve this application.

Please feel free to contact me should you require any further information.

Regards
Doron

Hi Shannon
Hyperkarting Moore Park needs to remain open in it current form and location.
First and foremost for the people of Sydney from all walks of life.
Secondly for the local community
Thirdly for the staff. My daughter who is 17 drives 40mins to a job she absolutely loves. Hyperkarting have a unique way of making their staff wanting to work their which is more than most workplaces.
These days it's hard enough to get young people to go to work and actually enjoy what they do.
I hope common sense prevails here and that Hyperkarting continues to succeed in it current location for Sydney and the Hyperkarting Staff.

Regards
Mel Tiani

To whom it may concern.

I am writting to give my support to Hyper Karts at Moore Park. I have attended the venue many times with my partner and friends. We wish we had time to attend more and want to continue visiting in the future. Its an absolutely fantastic faciltilty to have in the City surrounds which is easy to get to and has great staff. The electric powered karts are quiet, fume and grease free which in my opinion us a very sustainable way to use the space.

We park at the multi level carpark when we attend Hyper Karts and when we do, there is a plethora of parking spaces available.

Do you require the extra level of car parking space just for events at the nearby stadiums on game days and concerts? If so the extra parking this level would provide would not be anywhere sufficient. An abundance of money has been spent on adding and upgrading public transport to these venues, most with free travel included to encourage a more eco-friendly way to attend these events.

In my opinion, adding extra parking would be a negative impact on the environment and keeping hyper karts on one level of the car park would continue with the councils greener plans for the area and lessen traffic congestion.

Thank you for taking the time to read my submission.

Yours Sincerely,

Hayley and Ace

Hi,

Hyper Karting is a unique business to Sydney, allowing the local community access to a fun, safe and wholesome experience for people of all ages.

There is no other facility like this one in Sydney offering a unique experience. If it wasn't for hyper Karting my family and I (living in Ashfield) would not visit Moore Park precinct. It gives us a reason to go.

please do not make them close.

James

Hyper Karting has been a core memory for my go karting experience in Sydney. I love go karting so much and to have an affordable and sustainable option in Hyper Karting i couldnt ask for more. To close down such an iconic venue would be a tragedy, i love this venue and not once have I ever seen that car park full. If anything the cost to travel to the city are and also to park is a driving factor in keeping people away from car parks like these. The only thing bringing people to this car park to begin with is hyper karting. With all of the business they bring, the experience leaves many people hungry, the business' around the area deeply benefit from this venue, the constant flow of people to this area is astonishing and i see why, my love for this venue has even drove me to write this email even at work. I do not see any reason why closing this venue is logical, i beg the council, please do the right thing for the people of Sydney, keep Hyper Karting open.

Kind regards
Lachlan Bajema

It astonishes me that a business that is doing well, encourages community interaction and brings business into what traditionally has been a struggling precinct is being closed for allocation to parking.

Yes events at the stadium bring people to the area and require parking but why not get better with public transport as these sporting events are generally only every other weekend.

Yes my vote is to support hyper karting and not car spaces!!!

Thanks for your time.

Hey Shannon,
Can we please Save the Hyper Carting, it's such a great thing to do for a child's birthday party.
We've been a few times and always had the best time. I don't think there are any similar go carting businesses around Sydney, or they are few and far between.
Would be a real shame to lose this place. Please reconsider the options.

Kind regards
J Grant

Dear Shannon Rickersey,

It is deeply disappointing to hear that council will be revoking the tenancy agreement for Hyper Karts, when the space used would be predominantly empty all year round.

Hyper Karts in the heart of the city, and what was known as the Entertainment Quarter for years, is losing a major draw card to the area.

The car park currently seems adequate, and you have public transport options for patrons. It would be a mistake to no longer have Hyper Karts in the Sydney CBD.

I urge council to reconsider their decision.

Regards,
Damien Tang

Hello

I am writing to you today to express my support for Hyper Karting at Moore Park to remain open.

Not only is it an important small business that employs a lot of people . It is also a business that provides an attraction that is becoming a rarity in Sydney.

I urge The City of Sydney to ensure it remains open now and well into the future.

Dear Councillors

I'm writing in support of HyperKart's application to extend its lease.

The first reason in support is that HyperKart has brought a new and innovative service to the precinct, generating employment and providing enjoyment for thousands of patrons. I've personally taken friends there, hosted work events there etc: there is nothing else in the precinct that would attract me.

Second is the - frankly bizarre - argument from Council that more car parking is required. Council has traded for years on its green credentials, and yet it is now trying to argue that, in the heart of the city, the only way to make transport viable is by encouraging private vehicle use. This is hypocrisy from the Council. The area is well served by public transport, and there is of course the opportunity for council to follow the Olympic precinct's approach of including free public transport (and putting on additional services) if it feels the current options are inadequate for major events. Increasing private car use, and the associated congestion and pollution, is a ridiculous position for this council to take.

Sincerely

Graham

Dear Shannon

I'm writing to object to stopping hyperkarts from operating at their venue in the EQ car park.

I've never had an issue parking my car there, even on the busiest of days and also am happy to use other abundant transport options in the vicinity such as walking, biking, bus or light rail.

Hyperkarts is a great enterprise that should be supported in its endeavours which cater to all ages and abilities and provides a welcoming and inclusive environment and activates the vicinity in a vibrant manner.

Best
Anouchka

Dear City of Sydney Council,

I am writing to express my strong opposition to the proposed closure of the local go-karting facility in favour of a car park.

This facility is more than just a place to drive, it is a valuable recreational space for the community. It provides a safe, controlled environment for people, especially young individuals, to engage with motorsport in a responsible way. Removing it takes away a positive outlet and replaces it with something that adds far less value to the community.

At a time when there are already limited spaces for youth activities and skill-based recreation, it is disappointing to see a unique venue like this being considered for removal. Facilities like this help keep people engaged, active, and off the streets, while also supporting local jobs and small business.

Replacing a community asset with a car park does not feel like a forward-thinking or community-focused decision. I strongly urge the council to reconsider this proposal and explore alternative solutions that preserve this important space.

Please take into account the voices of the community who actively use and benefit from this facility.

Kind regards,
Akira

Submission in Support of Retaining Hyper Karts at the Entertainment Quarter

I am writing to formally support retaining the Hyper Kart go-kart track at the Entertainment Quarter as it is a valuable community asset.

1. **Community Value and Recreation**
   The go-kart track provides an accessible and affordable recreational activity for people of all ages. It serves as a unique venue for families, young people, and motorsport enthusiasts to engage in a safe and structured environment. Its removal would reduce local recreational diversity and limit opportunities for active leisure.
2. **Local Economic Contribution**
   The track contributes to the local economy by attracting visitors, supporting jobs, and generating revenue for surrounding businesses. Events, group bookings, and casual visitors all provide consistent economic activity that would be lost if the facility were removed.
3. **Social and Community Connection**
   The venue is a gathering place that encourages social interaction, community events, and group activities. Its presence strengthens local cohesion and provides a shared space for celebrations, team-building, and informal community engagement. We have hosted corporate events and our children's birthday parties at this venue.
4. **Controlled and Safe Environment**
   Unlike informal or illegal alternatives, the track provides a regulated and supervised environment for motorsport activities. Removing it may unintentionally push enthusiasts toward unsafe or unauthorized locations.
5. **Lack of Equivalent Alternatives**
   There are limited comparable facilities within convenient proximity. Closure would create a gap in local infrastructure that is unlikely to be replaced.
6. **Youth Engagement and Skill Development**
   The facility plays an important role in engaging young people in positive activities. It fosters hand-eye coordination, concentration, mechanical interest, and responsible driving behaviour. For some, it is an entry point into broader motorsport pathways and careers in automotive industries.

Retaining this facility aligns with community interests, economic vitality, and the promotion of active, social lifestyles.

Yours Sincerely

John Vagenas

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon,

I would like to state my objection to revert the area occupied by Hyperkarting back into a carpark.

Since opening in 2021 Hyperkarting has welcomed over 500 000 people, including myself, my family, and friends. It has created a social space where people from all over Sydney come together for fun and entertainment.

Replacing Hyperkarting with the original parking spaces will significantly reduce the amount of people visiting EQ which can often resemble a ghost town between events.

The green space to be returned to the community in exchange for the parking spaces would not be utilised or enjoyed to the level that Hyperkarting has since it opened.

Please reconsider closing a much needed all weather family friendly venue for an empty floor of parking spaces and a grass area that does not offer anything new or exciting.

Kind regards,

Kimbali Cook

Dear City of Sydney Council,

I am writing to express my strong support for keeping Hyper Karting at Moore Park.

Hyper Karting is a unique and valuable recreational facility that contributes positively to the local community. It provides an accessible, fun, and safe activity for a wide range of people, from families and young adults to corporate and social groups. It plays an important role in bringing people together and creating memorable experiences, as well as employing 150 staff.

More broadly, there has been ongoing discussion about revitalising Sydney and making it as lively and vibrant as it once was. Removing attractions like Hyper Karting moves us in the opposite direction. Instead of reducing what is available, we should be focused on keeping, growing and adding to Sydney's entertainment offering, not taking away from it.

Hyper Karting also supports the local economy by attracting visitors to Moore Park and surrounding businesses, contributing to a more dynamic and appealing precinct.

Losing this facility would mean removing an experience that is not easily replaced elsewhere in Sydney. I strongly encourage the Council to consider the broader social, economic and cultural value it provides to the community.

Thank you for taking the time to consider this submission.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon,

I am writing to formally express my position regarding the future of Hyper Karting. It is my sincere wish for the space to remain as it is, rather than being converted into a car park.

I believe that replacing a vibrant community space with a parking facility, essentially transitioning a place for people into a place of nothingness, is a step in the wrong direction. Prioritizing short-term profit at the expense of a community's social fabric is, in my view, highly detrimental and ultimately inhumane.

As a trained architect, I was taught to try to protect the community. While I don't have this type of power, you do.

I hope we can reconsider the value that this space provides to the community and explore alternatives that preserve its current function.

Thank you for your time and for considering my perspective on this matter.

Best regards,

Mark David Teo

Closing down Hyper karting is a dumb idea, its's probably the most successful business in that area and it brings so much joy and memory to people, plus every time I go there I found the carpark is always half empty,

If the local council wants it closed there will be no reason for me and my friends to go to the Entertainment quarter, its just a big, dead parking lot to me.

Dear Sydney Council,

I am writing to formally express my strong opposition to the proposed closure of Hyper Karting at Moore Park.

This decision is not only disappointing, but short-sighted in terms of its impact on the broader Moore Park precinct and the community it serves.

Hyper Karting plays a critical role in activating the area outside of major event times. When concerts, sporting matches, and large-scale events are not running, Moore Park is otherwise quiet and underutilised. Hyper Karting consistently brings in foot traffic, ensuring the precinct remains active, safe, and economically viable throughout the week, particularly during midweek periods when there is otherwise very little to attract visitors.

It is also one of the few high-quality, accessible attractions located so close to the city that caters to a wide audience. Families, groups of friends, and visitors alike are drawn to the venue as a reliable and enjoyable experience. Removing it strips Moore Park of an important offering that appeals to both locals and tourists.

Additionally, Hyper Karting is not just another entertainment option. It is a well-run, premium operation that clearly exceeds many comparable venues in both quality and professionalism. Businesses of this standard should be supported, not removed.

The Entertainment Quarter benefits significantly from having dynamic, interactive attractions that give people a reason to visit beyond dining or retail. Hyper Karting adds diversity to the precinct and strengthens its identity as a true entertainment destination rather than a space that only comes alive during major events.

At present, it is one of the only consistent drawcards keeping Moore Park active during quieter periods. Without it, there is little incentive for people to visit midweek, which will inevitably impact surrounding businesses and the overall vibrancy of the area.

I urge the Council to reconsider this decision and recognise the broader economic, social, and community value that Hyper Karting provides. Removing a successful, popular, and well-utilised attraction is not in the best interest of the precinct or its patrons.

I look forward to your response and hope to see a reconsideration of this proposal.

Kind Regards
Alanah Paras-Cho

Hi,

I'm a member of Hyperkarting and visit every week. It's great fun and often is the major attraction in the entertainment quarter outside of the comedy house. While I'm not a resident of your council, I do think Hyperkarting is a great attraction that draws people to Moore Park. During my times there, I've seen friends, families, business groups, international travellers and many more people frequent the venue.

I hope the desire for a few more parking spaces doesn't result in the closure of a really great attraction that promotes Sydney city life.

Kind regards,

Adnan Hameed

To whom it may concern,

I am writing to object to the proposal to replace Hyper Karting at the Entertainment Quarter with a car park.

This decision feels out of step with the location. The precinct is well connected by light rail and is one of the few places families can access easily without relying on a car. Replacing a destination with more parking undermines that advantage.

Hyper Karting is one of the few activities in the area that gives kids something active and social to do. It draws families in and creates a reason to visit. Without it, there is very little left that appeals beyond passive or screen-based options.

Sydney already has limited spaces where children can engage in real, physical activities in a safe setting. Removing one of them to make way for more cars is hard to justify.

Please reconsider this plan and prioritise retaining attractions that bring people to the area, rather than replacing them with parking.

Kind regards,
A concerned local resident

Hello,

As a long-time patron of Kyper Karting, I wanted to express my disappointment and confusion at this extremely short-sighted and counter-productive idea.

Why would you rob Sydney of an environmentally-friendly, fun-for-all-ages activity purely to reclaim part of the car park, when Hyper Karting is one of the popular attractions that people literally travel to Fox Studios for?

Go-karting has also experienced another resurgence due to the growing popularity of Formula 1 and Drive to Survive, and surely you should be putting improved public transport links in place, which would allow more people to enjoy electric go-karting?

Hyper Karting also people to gather with friends and/or family to do something fun and different, for people across a wide age bracket, where alcohol is (obviously) not required or encouraged, which is unfortunately rare in Australia.

Additionally, during an international fuel and cost-of-living crisis, why would you remove this business only to reclaim car parking spaces?

I must politely and respectfully insist that this entire decision is stripped back and reconsidered, because it is neither logical or sensical.

Best regards.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon,

I am writing to object to the plan to close Hypercarting at Entertainment Quarter Moore Park. As a family of four with two kids, we really enjoy the tracks and it's a major drawcard to the precinct. We like to come for a race, grab a bite after and hang out at the playground / markets.

This business creates job opportunities for over a hundred employees and is one-of-a-kind in the eastern suburbs. It totally makes no sense to replace it with another level of parking when the spaces are never at capacity anyway. We often find parking easily so do not agree with the proposed plan.

I hope you will keep this hypercarting open for our community and the employees of this wonderful business.

Kind regards,

Elita Liu

Dear Shannon,

I am writing to strongly object to the proposed closure of Hyper Karts at the Entertainment Quarter.

Hyper Karts has been a regular and valued part of our family's activities. I have visited most school holidays and on several weekends throughout the school term with my daughter, her friends, and other family members. It has consistently been a highlight for us and something we actively plan around.

In addition, my husband has attended Hyper Karts for team-building days with his company, which speaks to the broader appeal and versatility of the venue beyond just family visits.

Importantly, Hyper Karts is our primary reason for visiting the Entertainment Quarter. Our trips there don't just begin and end with karting—we often stay for lunch or spend the entire day enjoying other activities. As a result, many other businesses within the Entertainment Quarter benefit directly from our visits.

Closing Hyper Karts would remove a major drawcard that brings families and groups like ours to the precinct, and I believe this would have a wider negative impact on surrounding businesses.

I strongly urge you to reconsider these plans and recognise the value Hyper Karts brings to the community and the broader Entertainment Quarter.

Kind regards,

Katie Penman

Dear City of Sydney team,

I am writing to express my strong support for keeping Hyper Karting open at Moore Park. As someone who regularly visits Hyper Karting with family and friends, I have seen firsthand how valuable it is as a safe, family-friendly activity that is easily accessible from the city.

The venue provides a rare, positive recreational option for people of all ages, and its central location makes it an ideal place for families, young people, and visitors to enjoy time together. Closing it to create an empty car park would remove a vibrant community asset that brings joy, activity, and connection to many Sydney residents.

I respectfully urge the City of Sydney to reconsider the decision and explore alternatives that allow Hyper Karting to continue operating for the benefit of the community.

Thank you for your time and consideration.

Kind regards,
Richard

This is the most popular attraction at the Moore Park entertainment precinct.
The place was rescued from being a white elephant by the opening of this outlet.

It may not be entertainment that suits the aging in-group that appears to be in charge at the moment, but that does not mean it should be shut.

The go kart track means more business for the food outlets, and makes it more likely that he cinemas will be attended (they are otherwise in massive decline, you must acknowledge).

This area will revert to windswept emptiness without the go kart track.

The reason I think hyper karts should stay is cause they are my number one spot for when me and my mates have nothing specific to do and we love hyper karting and they are so cool compared to other go karting places they have multiple tracks that they always cycle through making sure there's alway a new experience everytike yo go and honestly don't see why the council would wanna close them down thy are the best company in that entertainment space and I think they have no actual reason to close them down and hyper karts has every reason to stay and the whole parking lot issue they apparently have is not even a worthy reason the owner on live news proved that they don't have that issue and I think if anything hyper karts should extend to that upper level having tracks that Could be two stories could truly open up they're possibilities like they could tracks like Suzuka and Monaco with split levels. So yes I think hyper karts should stay and I'd be very disappointed if they were to go.

Dear Ladies and Gentlemen,

I am writing to formally express my support for the license renewal of Hyper Karting, located within The Entertainment Quarter at Moore Park.

As the government considers the future of this site, I urge you to weigh the significant positive impact this business has on the local community and economy against the proposed alternative of additional parking spaces.

Please consider the following key points:
Preservation of Jobs: Hyper Karting currently employs approximately 150 staff members. At a time when supporting local employment is crucial, renewing their license ensures job security for these individuals and contributes to the economic stability of the precinct.
Proven Public Value: The venue maintains an exceptionally high level of customer satisfaction. It serves as a premier recreational destination for Sydney residents and tourists alike, fostering community engagement and providing a unique, safe, and modern entertainment option.
Inefficiency of Additional Parking: It has been observed that the existing parking facilities at The Entertainment Quarter are frequently underutilized and often remain nearly empty. Converting a vibrant, revenue-generating business into more parking spaces appears to be an unnecessary measure that would yield little to no public benefit while sacrificing a thriving local enterprise.

Hyper Karting is a vital part of the Moore Park ecosystem. I trust that the New South Wales government and the relevant planning authorities will recognize the long-term value of maintaining active, high-employment entertainment venues over redundant infrastructure.

Thank you for your time and for considering this perspective on the future of The Entertainment Quarter.

Sincerely,

Luciano Rangel

Hi Sydney council,

It would be incredibly sad to see Hyper karting close. It's a huge part of the karting community in Sydney, and a huge tourist attraction.

I and thousands of others would greatly appreciate it if another solution could be found.

Thanks,
Kyan.

RD/2023/897/A

The current 'decision' that appears to be swinging towards removing Hyper Karting's rights up operate on Level 5 of the Entertainment Quarter's car park is disgraceful! Please clarify what good reasons are there to remove over 150 jobs?!? To save a couple hundred parking spots when there's a new 1000+ space stadium car park being constructed within the next year or so? Where is the logic for this???

Moore Park, Sydney, Australia... it doesn't matter where we are in the country. We aren't the United States with their ridiculously sized parking lots circling around stadiums. Our sporting and event culture has always encouraged as much of the general public as possible to utilise the multiple public transport options we have, and we should continue to do so! The traffic situation around Entertainment Quarter / Moore Park (Lang Road) is already severe on big event nights and you want to exacerbate that? Right now, it often takes up to an hour if not longer to exit the car park, get through Lang Road and onto Anzac Parade. Lang Road is a narrow two lane road and there are no plans to increase the lanes for more capacity (mainly because it's not physically possible without cutting down dozens of trees) . So please explain what's with the need to open up more car spaces?

As you have probably received photographic evidence from the team at Hyper Karting which apparently has been ignored rather conveniently, the car park at EQ is often barely half full during the day time. And on nights where there's concerts at Hordern Pavilion, games at the SCG and Allianz Stadium, there's usually still many parking spaces still available. As a customer of Hyper Karting who frequents the venue consistently at night once a week, if not multiple times, I can also confirm their evidence.

The Entertainment Quarter is usually void of life outside of the occasional concerts, sporting and seasonal events. Hyper Karting is literally the main reason EQ is still relevant in these periods, having attracted over several hundred thousand visitors in the last few years. Do better and pay attention to what's really the source of energy and entertainment to the precinct!

To Whom It May Concern,

I am writing to express my strong support for Hyper Karting at Moore Park. As a family with four boys, Hyper Karting is a favorite destination of ours and the primary reason we regularly visit the area. Our routine typically includes enjoying the track and then staying for lunch at the surrounding local businesses.

It would be a significant loss to see such a wonderful venue close. It brings a great deal of joy to my family, and we truly value having it in our community.

Best regards,

Alice Sassine

To whomever this reaches,

I am writing this to express my concern regarding the proposal to shut down Hyper Karting to allow space for parking.

Hyper Karting is far more than just a Go-karting venue; it is a place where people come together to have fun, connect and build lasting memories. Not many places offer what Hyper Karting does to the community, It plays such a vital role in strengthening our community, friends, families and even coworkers by being a place where we can all gather, not only for entertainment but for meaningful shared experiences.

I have been an employee of Hyper Karting for 3 Years. I can say from personal experience this venue has brought many people together and given them lifelong memories or even friends, the people that I have met due to the sole reason of Hyper Karting has changed my life for the better this was my first job starting at 17 years old and I have grown with it, seeing so many people having fun, settling competitions between friends and family and finding love this isn't like any other place.

Closing Hyper Karting for parking would mean losing a unique, vibrant environment that fosters positive experiences and healthy competition. It's a place dedicated purely to enjoyment and connection, offering an outlet that benefits both mental well-being and community spirit. While parking is important, replacing a community-focused venue for parking spaces would be a significant loss.

I strongly encourage reconsideration of this decision. Hyper Karting is a significant and genuine part of the community and the value that it brings to it is unmatched.

Sincerely,
Halouf Gafour

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Hi,
I am emailing you regarding the forced closure of the local go karting venue.
To my understanding the primary reasoning for this is lack of space for cars to park.
Adding more car parking space would not fix the root cause of this alleged issue of lack of space as time and time again it has been proven that increasing the traffic capacity of infrastructure often simply results in a magnification of congestion or in this case lack of parking spaces as more people are incentivised to drive and park on site.

I propose a more effective, efficient and environmentally friendly long term solution to this issue. It is to instead focus your efforts on promoting, incentivising or improving public transport.
This would allow for the preservation of the hyperkarting business that remains a staple of the space and draws in many customers which in turn benefits the surrounding area. This would also minimise traffic congestion that occurs as a consequence of large stadium events where many individuals choose to drive or take public transport.

In conclusion, shifting your focus on improving the public transport experience would benefit the individual, local businesses through the retention of the popular hyperkarting venue, keep communities safer and more pleasant with lower traffic numbers and minimise the negative environmental effects of automobile pollution.

If you have any questions, comments or feedback please feel free to reply to this email and thank you for taking time to read and understand multiple views regarding this situation.

Sincerely,

Kalp Vora

Please keep hyperkarting! It is one of the best ways to spend time with my friends and truly build our relationships. It has forged some new bonds and rekindled some old ones cause it's one of the best ways to have some fun out in Sydney. I think that it has a lot more left to give and so we should allow it to continue to be part of the activity landscape of the Sydney we know.

Thank you,
Ahir

Hi, hope this email find you well.
Hyper karting in Moore Park is my go to place for weekends, holidays and with mates or family. The staff are passionate and the experience never disappoints. I have been there multiple times taking new people with me, they have also had a wonderful time there. They have other interesting attractions, which are equally fantastic from my experience even though their focus is on Hyper Karting. Shutting down Hyper Karting means people loose their jobs, which they are passionate to do so and I as well as the community will be very dissatisfied to see it go. Evidence from the owners shows that the parking spaces aren't even completely full, therefore there is no reason to shut it down.

Thank you for taking the initiative to read this email.
Kind Regards.

Hey there, this proposal for added carpark spaces is extremely short sighted, as an entertainment precinct we do not need another car park. We should actively be promoting activities like this that have late night options as well. Don’t ruin what we have that’s fun, and help promote some diverse activities for the area.

Dear Ms. Rickersey and Citu of Sudney Authorities

A few months ago I visited Sidney as a tourist coming from Peru, and had an amazing time, your city is truly beautiful! One of the planned stops I had in my agenda was to visit Hyperkarting. The experience I had there was unforgettable, making the overall trip one that I will cherish forever.

Please keep Hyperkarting operating!

My name is Alicia
I believe hyper-carting should stay. It is the only go karting that isn't far away and it central to a lot of people, It creates jobs, fun for people and Sydney doesn't have enough of these types of attractions.

Sydney will eventually lose its tourism over decisions like this.

Please keep it on behalf of Tourism and on behalf of the people

Hyper karting has been the catalyst for new friendships for me. It's is a place that I meet regularly with friends, we share a meal in the entertainment quarter and make an evening out of it. These evenings together have become a kind of men's mental health support group for the five of us who attend.
If Hyper Karting were to be closed down, we would have no reason to visit the entertainment quarter, and this friendship group may struggle to find a new home. That is very concerning for me, as someone who has struggled to make friends throughout his life. I know one of the other gentlemen feels the same way too. He is newly emigrated from Brazil and is a keen go-kart enthusiast. Please don't take this away from me and my friends. Please.

Regards,

David Wilson

Hi,

I am writing to express my concern regarding HyperKarting potential closure, which I found disheartening.

This venue is excellent and provides a vital space for such a wide range of community members. Its accessibility—being within walking distance of Surry Hills and close to the metro—is quite unique for these types of activities. Please consider the significant impact that losing this space would have on local residents.

As a Surry Hills resident since 2000, I regularly visit this area for movies, concerts, markets, and restaurants. In my experience, parking has never been an issue, though we typically walk when attending larger events.

I urge you to reconsider this decision.

Regards,

Narinder Chackan

Dear Shannon,

I am writing in relation to Submission RD/2023/897/A concerning Moore Park Hyper Karts at 116 Lang Road, Moore Park. I strongly urge the council to support the continuation of this facility and reject any proposal that would result in its closure for the purpose of additional parking.

Moore Park Hyper Karts represents a significant investment of both time and capital. The facility occupies only a single level of parking within the broader precinct, yet delivers substantial value in return. Replacing a vibrant, community-focused attraction with additional parking offers minimal public benefit while eroding something that has already proven its worth.

The venue supports local employment, providing jobs across operations, maintenance, hospitality, and event management. At a time when job security and local opportunities matter more than ever, removing an established employer would have a direct negative economic impact on workers and their families.

Beyond employment, Hyper Karts creates meaningful opportunities for accessible and affordable motorsport. It allows people of all ages and backgrounds to engage in racing in a safe, structured environment, something that is otherwise difficult to access without significant cost. This kind of recreational infrastructure is rare and valuable, particularly in an urban setting.

The broader community impact must also be considered. The facility contributes to Moore Park's appeal as a destination, drawing visitors who in turn support surrounding businesses. Its removal would diminish the diversity of activities available in the area and reduce overall foot traffic.

It is also important to acknowledge the overwhelming and record-breaking public response in support of keeping Hyper Karts open. This level of engagement clearly demonstrates the value the community places on the facility. Ignoring such strong public sentiment risks undermining trust in the decision-making process.

Ultimately, replacing a unique recreational facility with additional parking is a short-sighted outcome. The council should carefully weigh the long-term social, economic, and community costs against the limited benefit of increased parking capacity.

I respectfully ask that you take these factors into consideration and support the retention of Moore Park Hyper Karts.

Yours sincerely,

From: Daniel Attia <[redacted] on behalf of Daniel Attia <[redacted] <Daniel Attia <[redacted]

Hi DA Submissions,

For as long as I can remember hyperkart has not only served as a source of fun for myself & mates on a day out, co-workers for team building activities or now my young family to come out
& learn how to put pedal to the medal in a fun & safe environment.

I implore you to please not rob myself & others of the chance to make future memories & enjoy this place into the future to make more room for carpark spaces.. deadset. My children love this place & the carts are safe vs the petrol ones at other tracks & they cater to almost all ages.

We travel from western Sydney to enjoy the facilities & have never had issues parking, we also end up spending +$500 each time between the go-karting & the meals we purchase whilst we're there.. good old Fratelli fresh. If you removed Hyperkart you'd leave us with no reason to attend & subsequently removed at least $2-3k of spend annually just from my family alone… imagine the others that we go with.

Please don't close down hyperkarting. I think it would be a grave error.

Thanks,
Yassine Family

To Whom It May Concern,

I am writing to strongly oppose the proposed closure of the go-kart track at Moore Park to make way for additional car parking.

The go-kart track is a well-used, accessible and unique recreational facility that provides ongoing value to the community. It is consistently busy throughout the week and is a rare example of an affordable, active entertainment option in the eastern suburbs. In contrast, the proposed replacement—additional car parking—would only reach capacity during major events and would otherwise remain underutilised for much of the year.

Moore Park should be prioritised as a recreational and sporting precinct, not converted further into car-dominated infrastructure. The go-kart track encourages active recreation, supports families, young people, and groups, and contributes to the vibrancy and liveability of the area.

Importantly, the facility has become a recognised attraction that has helped put the eastern suburbs on the map as a destination for accessible urban recreation. Removing it would be a loss of a valued community asset that cannot be easily replaced elsewhere.

There is already significant transport infrastructure in the precinct, including public transport links and existing parking capacity that already services major events. Increasing parking capacity at the expense of a thriving recreational facility does not represent the best long-term use of public land.

I urge Council to retain the go-kart track and protect Moore Park's role as a diverse, active, and community-focused recreational space.

Thank you for considering this submission.

Yours sincerely,

Karen

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Council Members,

I am writing to express my strong opposition to the proposed replacement of the Hyper Karting facility with additional car spaces.

Hyper Karting is far more than just a recreational venue—it is a valuable community asset that provides a safe, structured environment for people of all ages to engage in motorsport, develop driving skills, and participate in healthy, social activities. It serves as an important outlet for youth engagement and fosters a sense of community that cannot be replicated by a standard car park.

Removing this facility would mean the loss of a unique attraction that contributes to the local economy, draws visitors, and supports small business activity in the surrounding area. In contrast, additional parking offers limited long-term community value and does not provide the same social, economic, or cultural benefits.

I urge the council to reconsider this proposal and explore alternative solutions to parking needs that do not involve sacrificing such a well-used and beneficial community space. Investment in recreational infrastructure like Hyper Karting reflects a commitment to community wellbeing, not just convenience.

Thank you for considering my perspective. I hope the council will act in the best interests of the community by preserving this important facility.

Yours sincerely,

Dana Meng

Dear Mr Rickersey and City of Sydney Council

I am writing to express my strong support for Hyper Karting and its continued operation within the Entertainment Quarter car park.

Hyper Karting provides a safe, well-managed, family-friendly activity that delivers meaningful social and economic value. The venue has become a major drawcard for young people, families, and visitors. Since opening, Hyper Karting has played a significant role in revitalising the Entertainment Quarter, bringing consistent foot traffic and energy to an area that has long struggled to maintain vibrancy.

I understand that a key reason for the DA being refused was concerns raised about reclaiming parking spaces. However, this does not reflect the actual needs of the precinct. The Entertainment Quarter already has more parking than is typically required, even during major events. Replacing a thriving recreational venue with additional parking, particularly when the existing supply is under-utilised, runs counter to the City of Sydney's own policies, which aim to reduce car dependency and encourage more sustainable land use. This is especially relevant given that a new car park with over 1,000 spaces will open nearby within the next year, making the small number of spaces used by Hyper Karting negligible in the broader context.

The human impact of closure is also substantial. Shutting down Hyper Karting would result in the loss of 156 jobs, many held by young people and casual workers who rely on this employment for income, skills development, and stability. The ripple effects on local families and the community would be significant.

It is also important to recognise that Hyper Karting is not a faceless corporation but a home-grown success story. The business was built from the ground up by a local resident who has invested years of effort, personal resources, and genuine passion into creating something unique. Supporting businesses like this is essential if Sydney is to remain a city that champions local entrepreneurship, innovation, and community-driven ideas. Removing a successful local venture that has demonstrably revitalised the Entertainment Quarter sends the opposite message.

Hyper Karting contributes far more to the area than the modest parking footprint it occupies. It supports local employment, strengthens the Entertainment Quarter, provides a healthy and engaging activity for residents, and exemplifies the kind of local innovation the city should be proud to champion. I strongly encourage Council to reconsider its position in this matter.

Kind regards

Maxine

Writing in support of Hyper karting operating on level 5 of the EQ Carpark

Its the only place in close proximity to Sydney CBD where you can go karting. I've been going with friends and family for the last few years, for birthdays or get-togethers. Its something that gives us all joy and a little bit of fun on a weekday or weekend. From my understanding the proposal was refused on the basis of needing more parking which, while understandable from a city planning view, means taking away an activity and something fun to do in place of parking that could potentially be found anywhere else in the city.

I hope that receiving this submission from myself and others shows how much value Hyper karting adds to the city

Regards,
Tawfiq Altai

Hi Team,

Please do not shut Hyper Karting down. This does not make economical sense.

We do not need more car spaces for the Entertainment Quarter. If parking is truly an issue, improvement needs to be done with public transportation lines.

Placing more parking in the area will only create further congestion and frustration for families and individuals attending events at the grounds, also causing them to waste more fuel. And lord knows we need to preserve as much of that as we can right now.

Please don’t take yet another thing away from our beautiful city. This is one of the only family friendly all age attractions in the city. Children don’t care about the fish market, or shopping and one can only visit the zoo or aquarium so many times. By taking away Hyper Karting, you are destroying opportunity for people of all ages to create fun loving experiences and great memories.

I seriously hope you will reconsider this risk to our community value.

Thank you.

Jennifer Dwyer

To whom it may concern,

I strongly oppose the closure of Hyper Karting in favour of "296 car spots." They've presented very clear evidence of the unnecessary nature of opening these places, nor does it present Sydney as moving forward in its goal of promoting public infrastructure and transportation, especially in a world where our future becomes increasingly weary of the impacts of light transport vehicles to CO2 emissions. According to the NTC, recorded in January 2025, the average emissions intensity has decreased ~3.9% from 162.7g/km to 156.3g/km. Whilst this isn't the primary point of the argument, it's to present that our city has evidently been shifting its focus towards lower emissions and greater eco-friendly transport, and it's unfortunate that our efforts lie in increasing and exacerbating dependence on light vehicle transport through 'useless' parking space expansions such as this.

Nevertheless, Hyper Karting has been an experience which I have also personally attended alongside my friends, and one of the few places that we've gone on multiple occasions in the Entertainment Quarter. I've seen many families, some I've seen on multiple occasions, attend and have their kids enjoy the experience. It's pretty unique, and to a similar scale there is nothing like it in Sydney. It's unfortunate that such a unique attraction is instead being replaced by redundant spots, when it could otherwise be serviced so well by this small business.

I urge you to reconsider, take your community's call into action, and truly understand the actions being taken. 296 spaces is not worth the attraction, joy, and uniqueness which Hyper Karting otherwise presents.

Kindest regards,

--

Dear Shannon,

I am writing to express my support for Hyper Karting to remain at its current location.

As a parent, I have seen firsthand the positive impact this venue has on young people.
My son Lincoln absolutely loves going there.
It is not just an entertainment venue for him, it is something he genuinely looks forward to, talks about constantly, and feels excited and engaged by.
Spaces like this are increasingly rare, especially ones that provide a safe, structured, and active experience for kids.

Beyond our personal experience, Hyper Karting clearly plays an important role in the broader community.
It brings people together across all age groups, provides employment opportunities, and contributes to the vibrancy of the Moore Park precinct.
Losing a facility like this would be a significant reduction in the diversity of activities available in the area.

While I understand the need to consider infrastructure and parking, it seems disproportionate to replace a well-used and valued community attraction with additional car spaces, particularly when those spaces may not deliver the same social and economic value.
I am often parking in that car park for work and for pleasure and I have never had a problem getting a park in that car park even during fully booked events at venues in the area.

I respectfully ask that you take into account the community benefit, family engagement, and employment impact that Hyper Karting provides when considering this proposal.

Thank you for your time and consideration.

Kind regards,
Adrian Davis

To submissions board,
Hyperkarting is a fantastic venue for kids and I have gone there several times just for karting and ending up using more facilities in the vicinity thus increasing patronage to the whole entertainment quarter
I have never seen that car park full on a normal day and the overflow carparks (ovals and golf centre) for big concerts and sporting events are more than enough
With the introduction of the light rail in the last few years its high patronage there is even less need for an extra level of car park
I have travelled from the north shore to hyperkarts by public transport many times
Please let this booming business continue to trade in the moore park car park and get a good return for all they have invested, the space they have created and the jobs the have made for the youth of the area

Cheers Alex

Dear City of Sydney,

What a terrible decision it would be to close such a prosperous and influential business. So many jobs and experiences gone for some parking spaces that are used once a week max.

The upmost dissatisfaction,
A disgruntled taxpayer.

To Whom It May Concern,

We have been travelling to Fox Studios/EQ precinct for many years and we have **never** had any issues whatsoever parking.

Not only is that ample parking for all vehicles, but there is also an ample amount of disabled parking which is never ever fully utilised.

When I realised this Hyper Karting venue had first opened, we considered it was an ingenious and brilliant way to utilise an unused/unneeded space.

Please reconsider...

Thank you, The Myers Family.

Dear Shannon,

I am writing to express my disappointment at the news of the possible closure of Hyper Karting.

As a mother of two boys under 10, we have visited Hyper Karting many times since it opened, including for birthday parties, and have always had a wonderful experience. In fact, it is often the primary reason we visit the Entertainment Quarter as a family.

The location is incredibly convenient—close to the city and easily accessible by both car and light rail from the Inner West, where we live. **It is also the only go-karting venue we can attend regularly**,**as it uniquely caters to younger children**. I first took my sons when they were just 3 and 6 years old.

Most other tracks do not cater at all to under-13s; if they do, they have very limited availability, require group bookings, and/or are located far away.

Being in the Entertainment Quarter lets us combine a visit to Hyper Karting with other area activities, making it more appealing and valuable for families and big kids alike!

In my experience, parking availability has never been an issue, and I regularly attend music and sporting events at EQ venues. My only criticism relates to exiting the car park, where traffic flow and signage can be challenging on busy nights, and where there is no supervision or staff to assist with the process.

A recent example, after attending G Flip at the Hordern Pavilion on Tuesday, 3 March, it took my friends and I over an hour to exit the car park. We found a space easily (not even on the top level), but the delay in leaving was frustrating and made for a horrible end to an otherwise enjoyable evening—especially on a weekday. I also had a similar but slightly shorter exit time when we attended Benee at Liberty Hall in February 2026. **Both these experiences and others suggest the parking issue lies more with traffic management at the exit than with overall parking capacity.**

I have also attended numerous events at the SCG and Allianz Stadium, both by car and public transport, and have not experienced significant access issues beyond the same exit congestion.

I strongly urge you to reconsider this decision. Hyper Karting provides a unique, accessible, and family-friendly activity that enhances the Entertainment Quarter's appeal throughout the day and year. I hope it continues as my boys get older and more independent.

It is a valued destination for many families like ours, and its loss would be deeply felt by many, including the wonderful staff.

Thank you for your consideration.

Alison Steele

Dear Shannon Rickersey,

I'm writing to respectfully request you to reconsider the decision to close Hyper Karting in favour of additional parking.

The go-karting facility offers a valuable recreational outlet for the community, providing a safe and engaging environment for people of all ages. It supports local activity, creates jobs and adds character to the area.

I have visited hyper karting once, invited by a friend, and thoroughly enjoyed it. It's one of the largest go-karting venues in the country. I may not be that keen of a driver, but I do agree that it provides a valuable recreational outlet for the wide go-karting community. It supports local activity and creates jobs and adds character to the area. In contrast, the proposed parking expansion may not consistently meet demand or provide the same level of community benefit, especially if additional parking is not needed.

Losing Hyper Karting would be a significant setback for both residents and visitors, and would affect jobs. I urge you to explore alternative solutions that preserve the facility while effectively addressing parking needs.

Sincerely,
Anthony A.

This is a letter of protest in regards to the closure of hyperkarting.

There are a myriad of public transport options for big events at moore park. At all big events people are encouraged not to drive.

There are contingencies in place with transport for big events but there are no other karting options on the north shore, eastern suburbs or shire.

Thanks for your time

Aysha

You can't close Hyper Karting. It's a great place and there are no other karting venues anywhere else near this part of the city.

It makes no sense doing it to create more parking space either. The carpark is almost always near empty except for a few events. In those few events you need more spaces than just that one extra floor though, so you're not even solving the lack of parking problem for said events by removing hyper karting.

To whom it may concern,

Please note my objection to the closing of Hyper Karts at EQ in place for car parking. My children regularly enjoy outings to Hyper Kart - it is a great family friendly activity, especially for tweens and teens.

There is plenty of parking at EQ and Moore Park, we don’t need to replace this great company with more parking.

Hyperkarting should not be closed down. It makes use of the upper floor of the carpark which would be mostly vacant and attracts lot of additional visitors to the precinct. When I visit with family/friends we also visit the restaurants and bars in precinct which helps them with their businesses.

Hyperkarting uses sustainable emissions free karts, and provides employment opportunities for young people.

It would be shame to see them closed down.

Please consider extending the approval for Hyper Karting to continue operating at the Moore Park carpark.

I believe small businesses should be supported, and it would be extremely disruptive for them to have to move. Not only to customers but to the many people employed there.

Personally, Hyper Karting means a lot to me. It has been an invaluable outlet for me to let off excess energy and experience fun and adrenaline, which has helped me during a time of dark mental health issues.

Hello,

I'm writing this email to support hyper karting staying.

Hyper karting is a great 3rd space I've started going to with friends, and far healthier option than the alternative of going to a bar drinking or just staying at home.

Also, I don't believe we should be actively encouraging people driving by providing them additional spaces when Moore parking already has sufficient public transportation options, and the car park has plenty of spaces 95% of the time.

Thank you for your time, and consideration.

Kind regards,
Christopher

Hyperkarting in the entertainment quater is an excellent venue for kids parties and adult team building and fun which is not available at any other locations in the eastern suburbs. The entertainment quarter carpark is rarely full as there is a lot of long term parking available in streets around the entertainment quarter. I think that to remove this entertainment option to facilitate more parking is a poor use of the space and goes directly against the central purpose of the entertainment quarter. Please do not allow this hyperkarting venue to be closed down.

Regards

Christopher White

I have driven to Moore Park during school holidays, for big nrl games, Sydney FC games and afl games and never ever have I had to park on the roof of that car park even on the busiest days.

When the state has invested so much in trams to make it easier to get to that precinct without driving, and with so many people utilising that transport (I have used it too on occasion - it's great) why would you need to add more parking to this car park when there is a thriving business there that is a draw card to the very precinct you're trying to draw customers too. It makes no sense.

I support this business keeping their doors open, and do not support the car park being reclaimed, and I hope others do too.

Kind regards
Claire Scott

Subject: Opposition to Hyper Karting Closure - Entertainment Quarter

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

I'm writing on behalf of Josh Oliver, a regular patron of Hyper Karting at the Entertainment Quarter, to oppose the council's decision to deny the venue's lease extension.

Hyper Karting has transformed an underutilised rooftop car park into one of Sydney's most popular entertainment destinations — attracting over 500,000 visitors, employing more than 150 people, and serving as a community hub for families, youth programs, and disability groups.

The justification of restoring 298 parking spaces is particularly difficult to understand given that the Entertainment Quarter car park has only reached full capacity a handful of times across 84 major events, and a new 1,500-space underground car park at Allianz Stadium is set to open shortly.

Removing a thriving business and community asset to create parking spaces that will sit empty runs directly counter to the council's own vision of making Sydney a city for people, not cars — and undermines the NSW Government's efforts to revitalise the Entertainment Quarter as a year-round destination.

We urge the council to reconsider this decision and grant the two-year extension.

Regards,
Claw

Public Submission – Hyper Karting Development Application

To Whom It May Concern,

Entertainment Quarter Car Park, Moore Park

I write as a Randwick resident and regular patron of Hyper Karting in support of approving the venue's continued operation at the Entertainment Quarter car park, Moore Park.

I visit Hyper Karting frequently, typically alongside other local residents, and take my children there regularly. It is a well-run, modern facility that serves a genuinely broad cross-section of the community including families, young adults, and enthusiasts alike, and contributes meaningfully to an area that has few comparable entertainment options.

On the question of parking, I would respectfully submit that the Council's concerns are not borne out by real-world conditions. I personally used the Entertainment Quarter car park over the Easter long weekend this year, during which the Children's Easter Show was simultaneously running at the adjacent showground. Even under those conditions, a family-oriented event that draws significant crowds to the immediate precinct, parking was readily available and I experienced no difficulty whatsoever. If the car park functions adequately during one of the busiest family events on Sydney's calendar, the contention that 298 spaces are critically needed is difficult to sustain. This is before accounting for the additional parking supply coming online in the area, and the well-established modal shift driven by light rail and bus access to Moore Park.

Beyond parking, the case for keeping Hyper Karting open is compelling on its merits. The venue has welcomed over 500,000 visitors since opening in 2021, supports over 150 jobs, and provides programming for NDIS participants and community groups. As a father who brings his children there, I can attest to how rare and valuable a genuinely family-friendly entertainment venue of this quality is in Sydney's inner east.

I would also urge the Council to consider the broader character of the Moore Park precinct. It was not long ago that this area was lifeless and uninviting, the kind of place Sydneysiders drove past rather than to. The increased foot traffic that venues like Hyper Karting have generated has transformed that. Closing it in favour of an empty level of car parking would be a significant step backwards, returning the precinct to exactly the soulless character that residents and visitors alike have been glad to see the back of.

Closing a thriving, well-patronised venue to recover underutilised parking runs counter to every stated objective of Sydney's night-time and entertainment economy strategy. I urge Council to approve the extension.

Yours faithfully,

Clyde Wesson
Randwick, NSW

Dear Shannon,

I hope this message finds you well.

I wanted to reach out to express my strong support for Hyperkarting. I've never previously contacted the council or engaged in matters like this, but I feel compelled to speak up because of how meaningful this venue has been to me and those around me.

For many of us, including my friends and myself, Hyperkarting offers something that Sydney's nightlife has lacked—an alternative to simply going out to the pub in the evenings. It provides a fun, engaging, and social activity that brings people together in a unique way and I have brought friends from overseas.

Personally, it has brought a great deal of joy into my life and helped strengthen friendships. It's not just entertainment—it's an experience that connects people. I've even brought my corporate team there, and it was incredibly valuable in building camaraderie, encouraging friendly competition, and creating a shared experience that appealed to everyone regardless of age or background.

I myself, have grown confident in taking decisions by driving in that space.

I believe we should be supporting community-driven activities like this in Sydney—spaces that foster connection and engagement—rather than limiting options to more conventional or one-off activities that don't have the same lasting impact.

I ask that you please reconsider any decisions that may affect the future of Hyperkarting. It is a valuable part of the community and deserves support.

Kind regards,
Em

Hello,

I am writing to note my opposition to the development proposal to remove hyperkarting for parking.

Recreational settings like this so close to the Sydney CBD are rare and should be preserved.

With excellent public transport links additional parking is unnecessary and would only be really utilised on very busy event days.

As a resident living close by I strongly opposed to develop a proposal.

Kind regards

Kind regards,
Emily Wooden

Hi Hyper Karting Team,
I'm writing to show my support for keeping the Moore Park track running. I was really gutted to hear that the license might be ending soon and that the venue could be shutting down.
Honestly, Hyper Karting is such a blast, it's easily one of the best things to do in Sydney, and it would be a huge shame to lose it. It's a great spot for the community, and I'm definitely keen to put my name down to vote extend the license.

Cheers,
Enver

Shannon,

I'm a local in Surry Hills, fond of the hyper karting track, where I regularly take friends who visit. We usually walk from my house or take the tram to moore park and walk from there. We will usually visit on weekends and hang out in the entertainment quarter afterwards, where we will spend our money on dinner & drinks.

There would be no other reason for me to visit the entertainment quarter if Hyper Karting was removed. We would be quite content with hospitality options elsewhere in the city.

Closing the go kart track will not only remove a local entertainment option but also stop us spending time in the area.

I urge you to reconsider your options.

George

Hi,

To think the council would take away a vital point of human connection away from the heart of the city. this place has been running for years and I have visited for years, seeing myself and many other people connect over something we all enjoy. Removing this would see people needing to travel west from the city to part take in activities like this. Makes no sense.

Dear City of Sydney,

I strongly urge Council to approve the DA for Hyper Karting to continue operating at The Entertainment Quarter.

I have raced there over 400 times over the last three years.

I have brought my family and literally dozens of friends to the track.

Hyper Karting is a massive attraction at the precinct.

We have gone for meals and drinks at other businesses before or after karting, when we wouldn't have gone otherwise.

I personally have spent thousands of dollars there.

I have been there at 7am, at 11pm, and every time in between. Sometimes, multiple times a week.

In the hundreds of times I have been there, there has always been ample parking in the car park. I can probably count on one hand when there has been a major event where the car park was full.

It makes no sense to turn the venue into additional parking spaces when that is mostly not needed.

Should the track be turned back into parking spaces, I really see no reason for myself to go back there.

And that would be pretty sad really. For the thousands upon thousands of customers, as well as the wonderful Hyper Karting staff.

There really is nothing like Hyper Karting in Sydney.

Yours sincerely,

James

Dear City of Sydney,

I am writing to express my strong opposition to the proposal to close Hyper Karting and convert the site into car parking.

As a local resident and frequent visitor, I believe this change would be a significant loss to our community.

Hyper Karting provides a rare, high-quality indoor recreational space for families and young people. In an increasingly dense urban environment, we should be prioritizing active entertainment over vehicle storage.

Our community is well supported by existing transport links. Replacing a thriving business and social hub with a car park does not align with a modern, sustainable vision for Sydney.

This venue is a key site for social cohesion. In fact, I am currently involved in organizing several upcoming group events there. These events bring people together and support the local economy, something that a car park cannot provide.

I urge the Council to reconsider this plan and instead protect venues that contribute to the vibrancy and culture of our city. Please keep Hyper Karting open as a dedicated space for the community to enjoy.

I look forward to hearing how the Council plans to support local recreation over further vehicle infrastructure.

Sincerely,

Janet

To council:

Hyper karting had been one of most fun experiences I've ever had when it comes to in door carting. There are no other experiences like it anywhere near central CBD.

Sydney has more spaces to accommodate when it comes to parking spaces, perhaps an underground parking space externally could help remediate the issue that hyper karting has caused.

I sincerely hope that you would be able to keep hyper karting alive and running, please do reconsider this option.

Regards,
Jason

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To Hon Clover Moore AO - Lord Mayor of Sydney, and Shannon Rickersey - City of Sydney Council,

I'm a City of Sydney resident who first went to Hyper Karting for a bucks party a few years ago. Since then, I've been back several times and more importantly I've taken groups, gone with other groups, on a date night and been to both of their venues within the Entertainment Quarter.
The venue has provided me, and others, a space to be able to go and experience some good quality, all weather and safe entertainment close to the CBD. In fact looking online, it seems that the closest go karting is Play Spitfire, Concord West - not close.

While thinking about this email, there were 100 things I wanted to say, but I'll try keep it under just a few topics.

CBD Entertainment
This venue is one of the few affordable things that anyone can do close to the CBD, and somewhere that younger people love to go.

- While Museums and Libraries are exciting, they are really a once and done style place, and not really a 17 year old's birthday party venue.
- Madame Tussauds and Sea Life are $49 & $55 per adult placing a family day out in the higher price range - and again are a one and done venue.
- Luna Park, outside your council area, if I was to book this week, it has an average adult price of $62 for their park pass.

Hyper Karting's races start at $24 with the average 'day' price of $29, and the track changes every few days allowing you to go back and experience something different nearly every time.

Sustainability
Hyper Karting is a 100% electric go-karting experience. With the cost of fuel these days, temporary or not, other venues like Play Spitfire are going to have to either increase their prices massively or go under.
This will further reduce the accessibility of these venues, and your 218,096 (June 2022) residents will also need to make the long trip to access these services, again making the day out rather expensive.
Every council wants to be working towards ZERO emissions, and right now, the City of Sydney has this advantage over others by being able to call Sydney the Home of Electric GoKarting.

The Entertainment Quarter (EQ)
This is probably my biggest one, and it doesn't actually have anything to do with Hyper Karting.
The EQ is in a weird spot where there are always heaps of venues there, food and otherwise, but honestly - I already have 3 cinemas really close to me. I've got arcades, darts, and everything I need living in the heart of the CBD.
There would be absolutely no reason for me to venture to EQ if Hyper Karting wasn't there, and I would argue that there are many others in the same situation.
This would have a serious impact on all other venues in the EQ with the reduced attendance.

My first venture to HyperKarting was with a bucks party (~25 people) and after HyperKarting we went to Strike Bowling, and to laser in the same venue. We then went and ate at El Camino Cantina and ventured to another 2 venues for drinks before heading off.
I would also argue that a high percentage of people that attend this venue would also stay to spend money at other

EQ businesses for lunch, dinner or a drink before or after.
Short of HyperKarting, there is no reason for me to go to EQ, meaning that other businesses in the EQ loose out as well.

Lord Mayor, Clover Moore
This proposal was rejected, in part, because the proposal is "**not in the public interest**". I challenge you to provide reasons as to how it isn't.
On the 19 March 2025, when discussing the draft Entertainment Sound Management Development Control Plan, you said Sydney needs "**a nightlife we can be proud of**" and said the proposed reforms would make it easier for venues to trade later and create "**new, fun and affordable options**" for people going out at night.
Then in March 2026, you said the community had asked council to let some areas "trade even later" and that**council had listened**.
While these are not directly related to HyperKarting and this DA, this only strengthens the argument that people in your electorate are wanting entertainment venues that are**fun** and **affordable**. Given my cost examples earlier - HyperKarting meets all these objectives.
Reviews online state "**LOVE this place! A great experience for people of all ages.**" and "**We loved our experience at Hyper Karting! If you want a great family experience and love to go fast, this is the venue for you!**"
How can you let a unique experience that's already in the council area slip by? What value do you attach to attracting these businesses to operate in the council area? What is going to replace the hole in the market their loss will create?
How will you bring 500,000 people to the entertainment quarter in the next 12 months to replace the people that wont attend because Hyper Karting wont be there?

Cars & Parking
Over the last 10 years, the council has done an amazing job of removing cars from the CBD. Every year more and more roads have had a lane removed, are closed to traffic or another measure to reduce traffic implemented.
The idea of 'adding more car parking' to an already empty car park is just ridiculous. The council should be prioritising rideshare services and public transport to the venue. Build a large pick up/drop off bay in that u turn area for this.
Lastly, the price of fuel means people are going to be using their cars less and less.

The long and short of this is the loss of Hyper Karting to the area would have a direct impact on all the other venues in the EQ, would mean that I have one less place to take interstate and overseas travelers to and means I would loose the ability to go Go-Karting close by.

Please reconsider your decision and extend their lease. At a minimum, give them another year and do your due diligence with surveys to patrons about their other spending and travel habits within all EQ venues.
It's not like they will be replaced with another attraction, they will be replaced with car parks - something that doesn't attract any further patrons to the EQ complex.

Thanks

Jay Antoney

Hi Shannon

Our kids first drive experience was at this track and they had a blast! Stayed in their memories forever and they've been back multiple times since then.

I also drove here in multiple occasions - personal and professional. Such an amazing venue that transformed a boring infrastructure into something totally unexpected.

Also important to underline this amazing company and entertainment area is unique in our city - Sydney lacks significantly of covered entertainment areas for rain days.

Please allow this business to keep running and keeping the jobs of the amazing friendly team that runs it.

We look forward to hearing the updates on this submission.

Kindest regards,
Martim and Joce

Dear a City of Sydney council,

I am writing to formally express my strong opposition to the proposed redevelopment of the car parking facility at Moore Park.

The current proposal to increase the car park's capacity by 296 spaces comes at an unacceptable cost: the potential closure of Hyper Karting. This venue is a vital part of our community that brings people together and provides employment for over 150 individuals. Losing these jobs and such a significant recreational space is a disproportionate price to pay for additional parking spaces that, in my view, will hardly be utilized.

Hyper Karting is a unique destination that contributes far more to the vibrancy and economy of our area than a marginal increase in parking capacity ever could. I urge the council to reconsider this redevelopment and find a solution that protects local businesses and jobs rather than prioritizing unnecessary parking infrastructure.

Thank you for your time and for considering my concerns.

Sincerely,

Justin Zheng

Hi,

There is already a significant supply of car parking in the area, and increasing it further will only encourage more traffic, congestion, and environmental impact. Prioritising additional parking over a recreational venue is not an efficient or forward-thinking use of space.

The karting venue provides clear social and economic value, while more parking offers limited additional benefit and contributes to ongoing urban challenges.

I urge the Council to support the appeal and retain this valuable facility.

Kind Regards
Karl

Hi,

I strongly support the appeal to retain the hyper karting venue.

It is a far better use of space than additional parking, contributing to local jobs, tourism, and Sydney's entertainment offering. Removing it in favour of more car spaces feels outdated and counter to creating a vibrant, modern city.

Please support the appeal and allow the venue to continue operating.

Kind Regards
Karl

Hi

I've just learnt that you're looking at closing down Hyper Karting to free up more car parking space in a car park that doesn't need more parking spaces?

I find the decision very odd considering this is a thriving well established business that people enjoy and brings in more foot traffic to the local area? I've been going to hyper karting for years and it's always a fun afternoon or evening out. It will be a real shame to see it go!

Kind regards
Katherine

I wish to express my concern with Carsingha applying to refuse an application to extend tenancy of an established Entertainment Quarter attraction, utilisation of an existing space for a business, a draw card across a large age range, an entertainment offering in the Entertainment Quarter.

I recently parked in this building for a capacity concert at Hordern Pavilion that coincided with a Sydney Swans game at the SCG. Despite two busy events on the same night, we were able to park.
Exiting was not quick at the end of the night but it was tolerable.

What is potentially being lost for the sake of maybe 100 or so extra parking spaces?

Kendall Miles

Hi City of Sydney,

I am the President of the Kiwi Students Society at the University of Sydney, and I am offering a perspective from students.

HyperKarting (HK) has become an integral partner of our society. Through this partnership, they provide our members with gift cards and exclusive discount codes; support that is especially valuable given the current cost-of-living pressures faced by students. We also host our annual go-karting event with HK, which is one of our most popular and well-regarded activities.

Given the significant benefits HyperKarting provides to our student society, it is difficult to understand the rationale behind its removal in favour of an alternative that appears to offer comparatively limited value to the general public.

We strongly encourage the City of Sydney to reconsider this decision, taking into account the positive impact HyperKarting has had on student engagement and affordability.

Thank you for your consideration.

Kind regards,
Eric Huang

Hello,

This is a submission to save Hyper Karting that my family and I regularly visit.

It would be such a shame to see great use of space be turned back into another row of parking. Since Hyper karting was set up I haven't noticed any issues or further difficulties parking and see no reason to change this except improve public transport if that is the issue.

Sydney is seeing the closure of so many activities and enjoyment for kids, and it would be a shame to see this one go as well and be moved out west somewhere.

Kind regards

Hello !

Greetings..

I genuinely believe that hyperkarting deserves a chance. The hyperkarting provides a safe and controlled environment for people to experience fun and excitement in a responsible way. Instead of engaging in unsafe driving on public roads, individuals have an outlet that promotes both safety and enjoyment. It helps keep the our community alive.

Additionally, the facility contributes to our local economy by attracting visitors, supporting jobs, and encouraging nearby businesses.

Removing this facility would mean losing a unique and valuable form of entertainment that benefits both individuals and the wider community. I respectfully ask the council to explore alternatives that would allow the hyperkarting venue to remain open.

Thank you

Sincerely ,

Marie

Dear Shannon Rickersey,

I would like to voice my opinion that the DA for Hyper Karting should be extended - it is a fantastic venue that brings significant cultural value and entertainment to the people of Sydney. There are no alternatives to Hyper Karting in the inner city or Eastern Suburbs, making it uniquely valuable. Being electric, it makes no significant noise or air pollution. I thoroughly enjoy attending Hyper Karting and I believe its value is more beneficial than the parking spaces that would only get used on match days (if then).

Kind regards,

Mark Nerwich

Please don’t close down hyperkarting.
Hyperkarting has been the heartiest moments for my family, as we bond closer and closer each day just through small activities. The services hyperkarting provide just make us wanna come back more and grateful that families can come back and feel excitement and fun through the company’s uniqueness. All of the staff are wonderful and it’s a creative concept to all of the community. Shutting it down will break us further.

Hyper karting is a safe leisure activity for our community, if brings people together in a safe environment. It is creating jobs and revenue for our community.

City of Sydney will be very ill advised to abolish it.

Regards,
A concerned Sydney city business owner

Dear Shannon,

I'm writing to support keeping Hyper Karting at Moore Park open.

It's a safe and fun place for my 5-year-old and for adults and it brings people into the Entertainment Quarter. We often go for karting and then stay to eat, explore and sometimes even catch a movie, it helps support the whole precinct.

Closing it wouldn't make sense and would be a real loss for families and the wider community.

Kind regards,
Maydah Wallman

I'm writing to object to the proposed closure of Hyper Karting at the Entertainment Quarter. It's a great addition to the precinct and an innovative use of a rooftop carpark. Our family has enjoyed many sessions there for birthdays and other events and hope you will reconsider its closure.

Regards
Mel Burgess

Please save Hyperkart! It's meant to be the Entertainment Quarter (hint is in the name) but typical government is prioritising rich people who drive to football and cricket when we have the multi billion $ light rail! Makes no sense at all, please save the last bit of fun remaking in the Entertainment Quarter (it's only one floor of the carpark).

Kinda regards

Hi there,

Sharing a note on support of the hypercarting venue.

This is a great venue, for all ages fun, and a central location. At a time where entertainment is in short supply, and Sydney has become all work and no play, it would be a sad day if this venue is also forced to close.

Please keep this venue where it is, and open.

Thanks,
Nastassia

To whom it may concern,

I regularly attend hypercarting and find it an excellent source of fun and recreation. I really value the close proximity to where I live as all other carting tracks are too far for me to travel. I would love to keep attending hypercarting and protest it's forced closure.

Please reconsider the closure of hypercarting as it would be a great loss for the community.

Hi,

As a resident living in Kensington, who has frequented the entertainment quarter for over 10 years, I am deeply saddened to hear that the hyperkarting lease is not being extended. There is nowhere else in the inner city of Sydney where anyone can do go-karting.

It is by far the best attraction at the entertainment quarter and consistently brings lots of people to the area. The majority of people in Sydney that I know personally have gone on at least one occasion and it is their only time going. Go-karting. It acts as an introduction to Motorsport for so many people in Sydney. it adds a lot of value to the inner city of Sydney.

It is a well-run business and very fairly priced making go-karting accessible to most.

To lose this successful business that adds so much amenity for a few hundred car spots is complete madness. It's a nightmare to get out of the parking lot when it's at current capacity anyway. For that reason I personally would catch public transport anyway.....who wants to park upstairs and then wait an hour just to get out of the parking lot. Then as many have highlighted, the parking lot isn't even fully utilized most of the time.

In summary, I ask that you review the decision. It would be travesty to lose this great attraction.

Thank you,
Orin

Hi there,

I'm writing in support of Hyper Karting's application for a two-year extension at Moore Park's Entertainment Quarter.

I'd like you to consider the economic ramifications of kicking them out of the car park. Hyper Karting employs over 150 people, has brought in more than 500,000 visitors, and runs seven days a week pumping real money into the surrounding businesses. The 298 parking spaces it sits on are on Level 5 of a 2,003-space car park that - according to Transport for NSW data - has only hit full capacity a handful of times since Allianz Stadium reopened.

So we'd be losing a thriving small business, 150+ jobs, and one of Moore Park's most popular attractions - all to get back a rooftop that'll sit empty almost every day of the year. That's not a good trade for anyone.

It also feels completely at odds with what the NSW Government keeps saying about wanting to bring life back to Sydney's entertainment scene. You can't revitalise a precinct by shutting down the things people actually come there for.

I'd really encourage the Council to reconsider and approve the extension. It's only two years, and the community impact of losing this place would be felt for much longer.

Kindest regards,
Riccardo Menon

Dear Lord Mayor and Councillors,

I write as a regular visitor to Hyper Karting at the Moore Park Entertainment Quarter to formally oppose the Council's decision to deny an extension of the venue's operating approval.

Since opening in 2021, Hyper Karting has attracted over 500,000 visitors and become the most popular daily attraction in the Entertainment Quarter. It is home to Australia's longest indoor electric go-kart track, serves families, young people, and corporate groups alike, and supports more than 150 jobs. Its loss would leave a significant void in one of Sydney's key entertainment precincts.

The stated justification — reclaiming 298 car park spaces — is not proportionate. The Entertainment Quarter is directly accessible by light rail and bus, and Moore Park is precisely the kind of high-density entertainment precinct where active encouragement of public transport use should be a policy priority. Restoring 298 spaces to an already large and underutilised car park undermines that goal, and does nothing to address the genuine event-day congestion caused by the car park's bottlenecked single-lane exit. The answer to parking pressure around the SCG and Allianz Stadium is not more spaces — it is better promotion of the excellent public transport connections that already exist.

This decision also contradicts the NSW Government's stated commitment to revitalising Sydney's entertainment and night-time economy. Closing a venue that operates seven days a week, is well-served by light rail, and draws consistent year-round patronage sends entirely the wrong signal.

I respectfully ask the Council to:

1. Approve at minimum the requested two-year extension to allow time for a longer-term solution to be developed.
2. Engage in genuine consultation with Hyper Karting operators and the community before any final decision is made.
3. Redirect focus toward promoting public transport to Moore Park rather than prioritising car parking over a thriving community venue.

Yours sincerely,
Rowan Whiteman

Hi there,

Hyperkart has, and I hope continues, to be a fantastic event space for local birthdays, business corporate events, date nights, right through to competitive go kart racers.

The hyperkart community has added exponential value to the otherwise somber entertainment quarter. Something no amount of car parking will ever bring to the area. There is still ample parking in the building during most periods and the new precinct parking will add more.

In a world where people are leaving the keys at home and turning to public transport more and more, there is simply no need to reclaim the parking spaces - if anything give hyperkart another level to set up and run a second track!

Any additional parking at EQ will only amplify the traffic chaos after games at the SCG or concerts at Allianz stadium. City of Sydney should instead be looking at ways to bring light rail and/or bus services on event days. Or at the very least work with TfNSW for a better platform solution for easier boarding and alighting at Moore park light rail stop.

More carparks, just like more lanes on a road, rarely solve anything.

Kind regards,
Ryan

We support Hypercart as a business that draws us to the EQ (from Inner West). It is a fun and immersive activity that's great for teen boys and connection. We spend in the EQ when we come- always get a meal. We would not attend EQ if it were not for Hypercart- there are restaurants and movie theatres closer to our home. Hypercart brings lots of people in who otherwise would not come to Moore Park.
Yours sincerely
Siobhan

I am writing to strongly object to this development application, which threatens the ongoing operation of Hyper Karting at the Entertainment Quarter, Moore Park.

Hyper Karting is a genuinely unique Sydney venue — housed on Level 5 of the Entertainment Quarter car park, it offers Australia's best indoor electric go-kart track in a one-of-a-kind setting that simply cannot be replicated elsewhere. Losing it would be an irreplaceable loss for the community.

I visit Hyper Karting regularly, roughly every couple of months, and have consistently found the staff to be outstanding and the experience exceptional. The venue is particularly popular after events at nearby stadiums — many patrons, like myself, choose to stay and race rather than sit in post-game traffic, making it a practical and enjoyable use of what would otherwise be dead time.

I also work as a youth worker, and Hyper Karting is an important part of our annual program. We bring young people here at least once a year as a structured recreational activity. It is one of very few venues in Sydney that offers accessible, exciting, and inclusive entertainment for our group. The impact of its closure would be felt well beyond individual visitors.

I urge the decision-maker to carefully consider the significant community, cultural, and recreational value of this venue before approving any development that would result in its closure or displacement.

Thank you for considering my submission.

Dear City of Sydney Council Team /NSW Gov,

I am writing to you today to express my strong support for Hyper Karting and to urge the council not to proceed with its closure.

Hyper Karting has been an exceptional venue, and as a proud Sydneysider, I continue to be a loyal customer and patron. There are several factors that make this location unique and valuable to me and the wider community: its indoor setting, its accessibility during late-night hours, the use of sustainable electric karts, and its convenient location.

Beyond its role as an employer, Hyper Karting serves as a vital community hub. It is a place where friends hang out, karting/f1 fans unite, people have fun, and residents take their local friends and international visitors to showcase a great local attraction. Closing this venue would deeply affect the community that has grown around it.

If a closure is absolutely necessary, I respectfully request that you DO NOT proceed without having an equivalent alternative already in place, operating, and live.

Thank you for your time and for all the positive work you do for our city. And much love to Team Hyper Karting!

Best regards,

Vamshi Kris
Sydneysider

To Shannon Rickersey

I love Hyperkarting and am opposed to its closure to add more parking spots to Moore Park.
I believe that venues such as Hyperkarting are strong fixture amongst communities that have a passion for cars, racing & driving and it diverts people away from going onto public roads to drive recklessly for fun. There isn't anything else in the surrounding area that offers the same outlet and it's allowing people who would other wise endanger themselves and others to pursue their hobbies & interests in a safe & controlled environment.

Furthermore, I think that adding additional cars parks to the Moore Park facility is contrary to the goals of Sydney City and it's move away from personal car reliant infrastructure. Sydneysiders should be encouraged to catch public transport and cycle, not to park their cars for convenience & capital gain of private car parking companies.

Please consider this email a vote against the development proposal to convert the Hyperkarting facility back into a carpark and strong vote for the continuation of accessible motorsports outlets for local motorsports enthusiasts

To whom it may concern,

There's no way you could consider removing HyperKarting with how much joy, passion and excitement it brings out of people.

You'd be destroying an entire community by going through with this and a massive tourist activity - I have many friends that travel 100's km occasionally just to come hang out and take part in HyperKarting.

Cheers,
Zachary.

Hi City of Sydney Team,

Please reconsider your plans of converting the hyperkarting location into a parking space. I believe that our city is pursuing sustainability and that the gov is trying to encourage more people to use public transport as a result of that. It makes no sense to convert a vibrant community hub that took years to build into a souless parking space.

Times have been tough, and I would hope that the council we have believed in and elected to governs us would choose community and culture over big corp profit. Culture that is built and loved by the community occurs organically and cannot be recreated once destroyed.

There is enough space for both small and big businesses to coexist symbiotically. Let's not trample on what the community has built in order to further enrich the other.

Kindest regards,
Lily

Hello,

Hyper Karting has provided many enjoyable outings with my fiends and children. A rare activity that can be done even in wet weather and by residents of all ages and gender. The fact that it is green and there are no emissions and noise is minimal makes it very appealing and unique. It is disappointing to learn of its pending closure and I ask for council to extend lease and reconsider.

Regards,
Cameron Spencer

Hyperkarting shouldn't be closed to make way for car spaces. It's a really great and fun experience for the community and offers great value for customers. I've been there many times myself and had a blast every single time. The workers are super friendly and give really great deals occasionally too which has been greatly appreciated.

Dear Shannon,

I am writing to express my strong support for Hyper Karting and to ask that you reconsider any decision to close this venue.

I regularly bring my kids to Hyper Karting, and it has become a really important place for our family. It's somewhere we go to spend quality time together, celebrate birthdays, and just enjoy being out as a family. There's honestly nothing else like it around.

It's also clearly a place that means a lot to the wider community. The number of submissions shows how many people value it, not just as a business, but as a space where people come together.

For many families, it's one of the few local options where kids, parents, and even extended family can all enjoy something together. It creates lasting memories, keeps kids active, and provides a safe, supervised environment for socialising and celebrations.

We are also currently facing significant cost of living pressures, and many families are feeling that strain. Places like Hyper Karting provide an accessible way for families to spend time together without having to travel far or spend excessively. Losing a venue like this would make it even harder for families to find affordable, local activities.

On top of that, it supports a large number of staff and their livelihoods. Closing it would have a real impact on many people, not just the business itself.

I strongly encourage you to take into account the level of community support and allow Hyper Karting to continue operating.

Kind regards,
Ali Fattah

Electric go-karting is a rare find, but is the most environmentally friendly and sustainable way for us to enjoy our hobby.

Encouraging more people to drive to a football match with 40,000 others is ridiculous in a city such as Sydney. The precinct is already very well served with trams and buses. Encouraging more driving fuels congestion for all Sydneysiders.

Please don't shut down Hyper Karting.

To the City of Sydney,

I am writing to express my concern about the proposed removal of Hyper Karting at the Entertainment Quarter in Moore Park.

From what I understand, the main reason this venue may be forced to close is due to the loss of car parking spaces, rather than any issues with noise, safety, or impact on the surrounding area. This feels like the wrong priority for a precinct that is meant to be focused on entertainment, experiences, and public life.

Hyper Karting has become a really popular and unique attraction in Sydney. It brings people into the area, supports local businesses, and adds something genuinely fun and different to the city's entertainment offering. Losing it would make the precinct less vibrant and less appealing, especially for younger people and groups looking for social activities.

It's also important to consider that:

- The go-karting operates inside an existing structure and doesn't require new development
- It uses electric karts, meaning minimal noise and environmental impact
- The space it occupies appears to have previously been underused as car parking

In a city that is trying to move toward better public transport use and more activated spaces, it seems counterproductive to remove a successful entertainment venue just to restore car parking—especially if that parking is not consistently needed.

Moore Park and the Entertainment Quarter should be evolving into places where people want to spend time, not just places to store cars.

I strongly encourage Council to reconsider this decision and support the continuation of Hyper Karting, or at the very least explore a more balanced approach that doesn't prioritise unused parking over a thriving community asset.

Thank you for considering this feedback.

Kind Regards,

Chloe

To whom it may concern,

I am writing to express my disappointment about the potential closure of the Hyper Karting at Moore Park to make way for a relatively small number of car spaces.

While I appreciate that there is increased demand for car parking due to a number of live events taking place in the precinct, to close down a successful business and mainstay of the area to provide parking for events on a limited number of occasions seems a backward step.

The area is relatively well served by public transport and event attendees regularly walk to and from central station. To encourage the use of private cars to attend events seems to be a backward step.

Yours sincerely
Damien Nedeljkovic

To whom it may concern,

Regarding the plans to close down Hyper Karting, I strongly suggest you reverse the decision to have the business close for sake of parking spaces.

Objectively there aren't many places to kart around the Sydney City area. Keeping this location means a huge amount for karting enthusiasts like myself who wish to return to then venue after my time there in 2023.

Subjectively, this venue is unique, provides character to Moore Park/EQ beyond the sports stadiums and concerts. Removing a critical aspect of what makes the EQ the EQ is a decision that I feel is more detrimental to the community than it is beneficial to give more parking places.

Allow Hyper Karting to exist.

Sincerely,
Damon

Hi Shannon,

Please extend Hyper Karting's licence to operate at the Entertainment Quarter carpark.
Hyper Karting is the most affordable and most convenient Karting track in my area, and I visit the track frequently. Not extending their operating licence and forcing the business to close would be a huge loss to the area.

I have also previously parked in this carpark to attend a concert at the Hordern Pavillion and was absolutely awful trying to leave the carpark from the upper levels when the concert was over. I must've taken 30 minutes to an hour to leave the carpark. Absolutely terrible. Opening up two more levels for parking would only make this issue worse.

I also think driving to events in the area should be discouraged, and more of an emphasis should be put on taking public transport to events. Reverting level 5 and 6 back to a carpark does not align with this belief.

Regards,
Gordon Aviet.

My son and I love Hyper Karts at Moore Park. Compared to other karting set ups, it is very clean, safe and professional, and it is such a wonderful use of what is otherwise a rarely used piece of infrastructure. Its proximity to the city centre makes it easy for us and our friends to attend. We all travel there by public transport, and we then spend time and money in the adjoining precinct.

In the age of encouraging people to use public transport to attend large sporting events, and the reduction of the ability to park on the grass at Moore Park, it is surprising that the top level of an otherwise sparsely occupied car park is deemed as required for cars.

Hi everyone

I wanted to share our experiences with you all

My son has a very rare genetic disability. Now normally this would limit ones persons participation in many activities and I will admit I was thinking that also in the early years, as his brain doesn't work the same way mine does

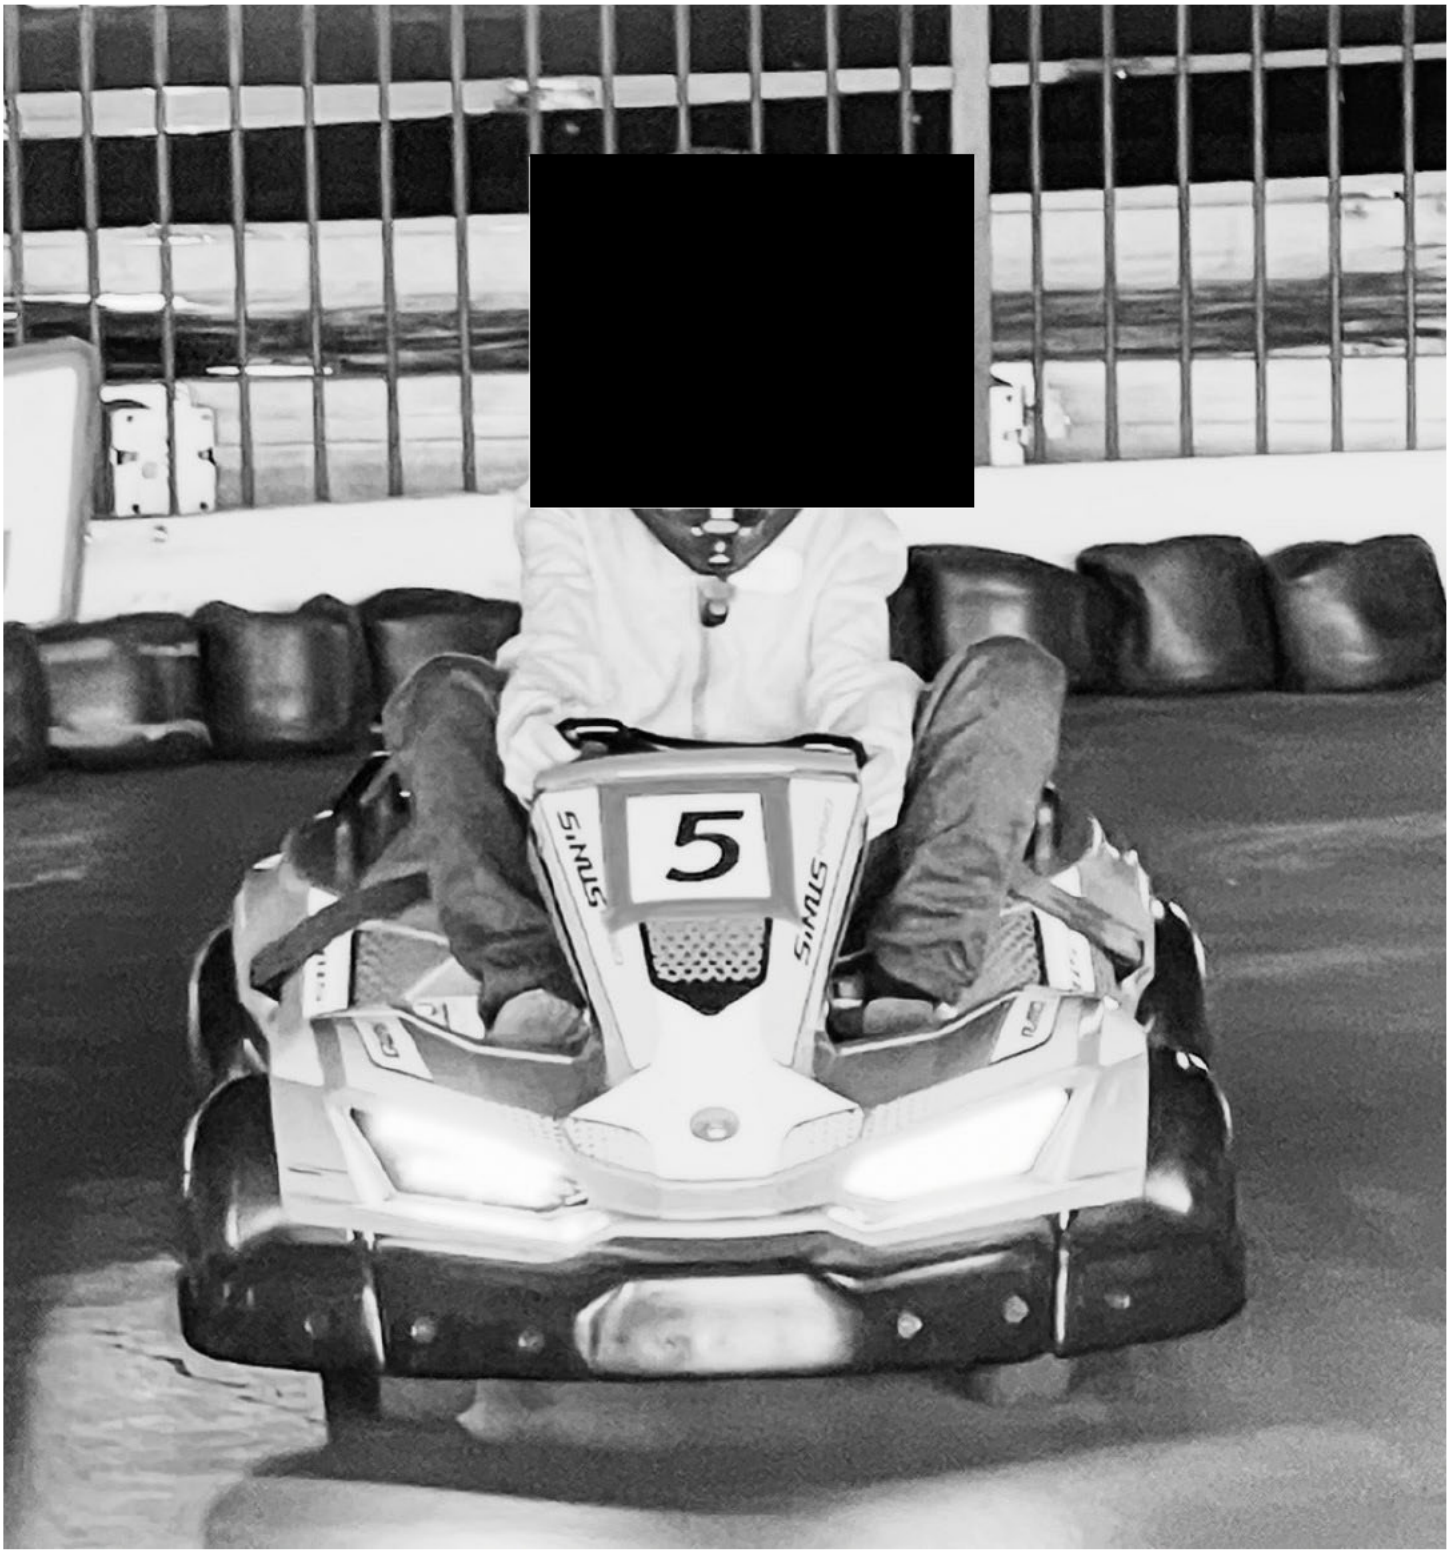
BUT that hasn't stopped him, yes a very happy and determined little man and we first introduced Henry to go karting at his birthday many years ago

From that day I on he has developed an interest in not only go karting but all things cars.

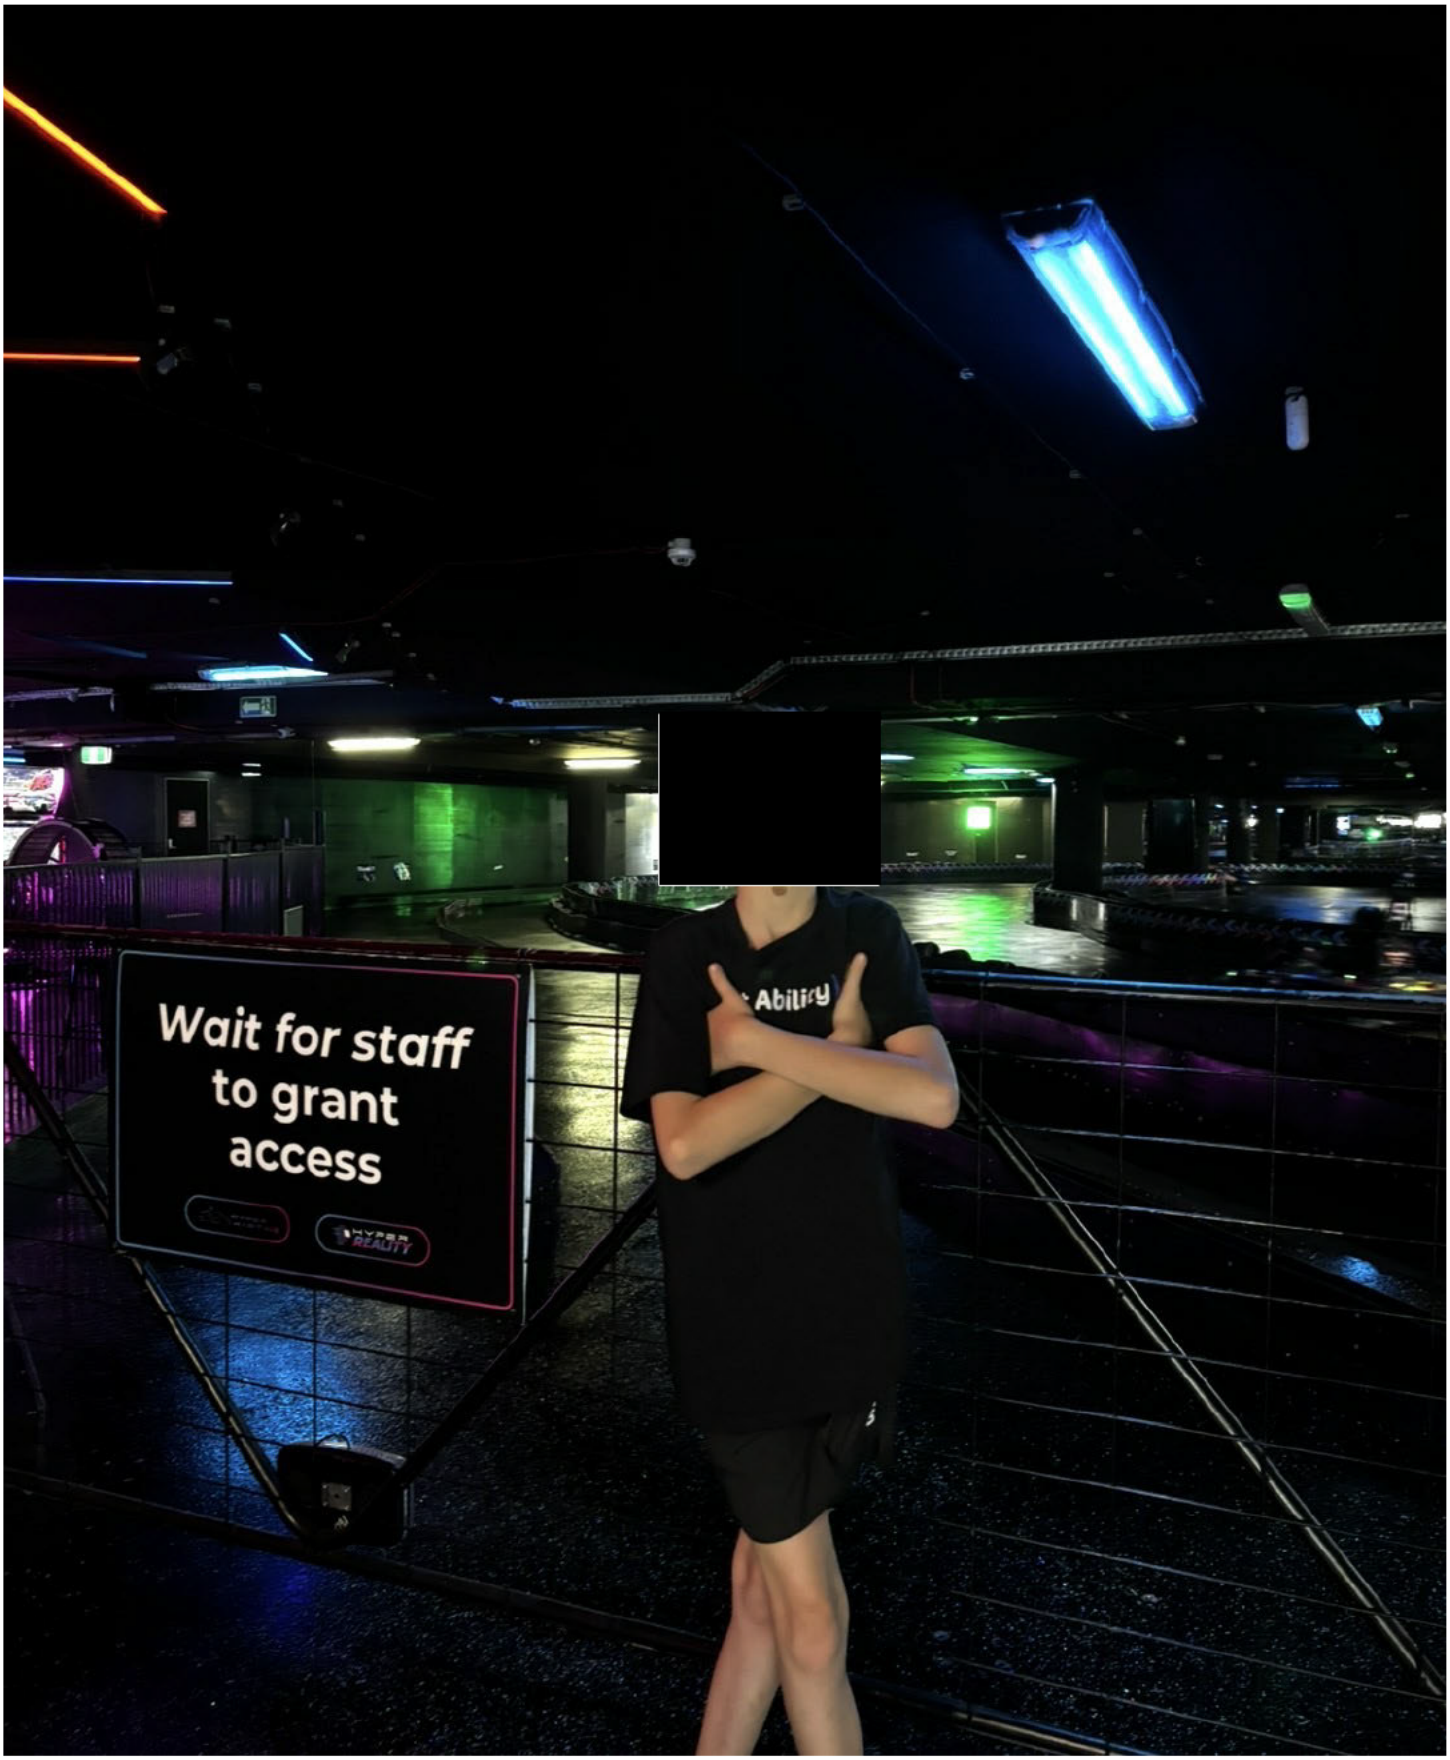
You see when there are people like yourselves, setting up a business like this, where you not only have an incredible product but also a staff to match, each time we have been to you we have ALWAYS been greeted and accepted with energetic kindness

Henry's carers at What Ability now host some of their activations with you and Henry has a ball as he's in a community of like minded people who accept him and want him to succeed

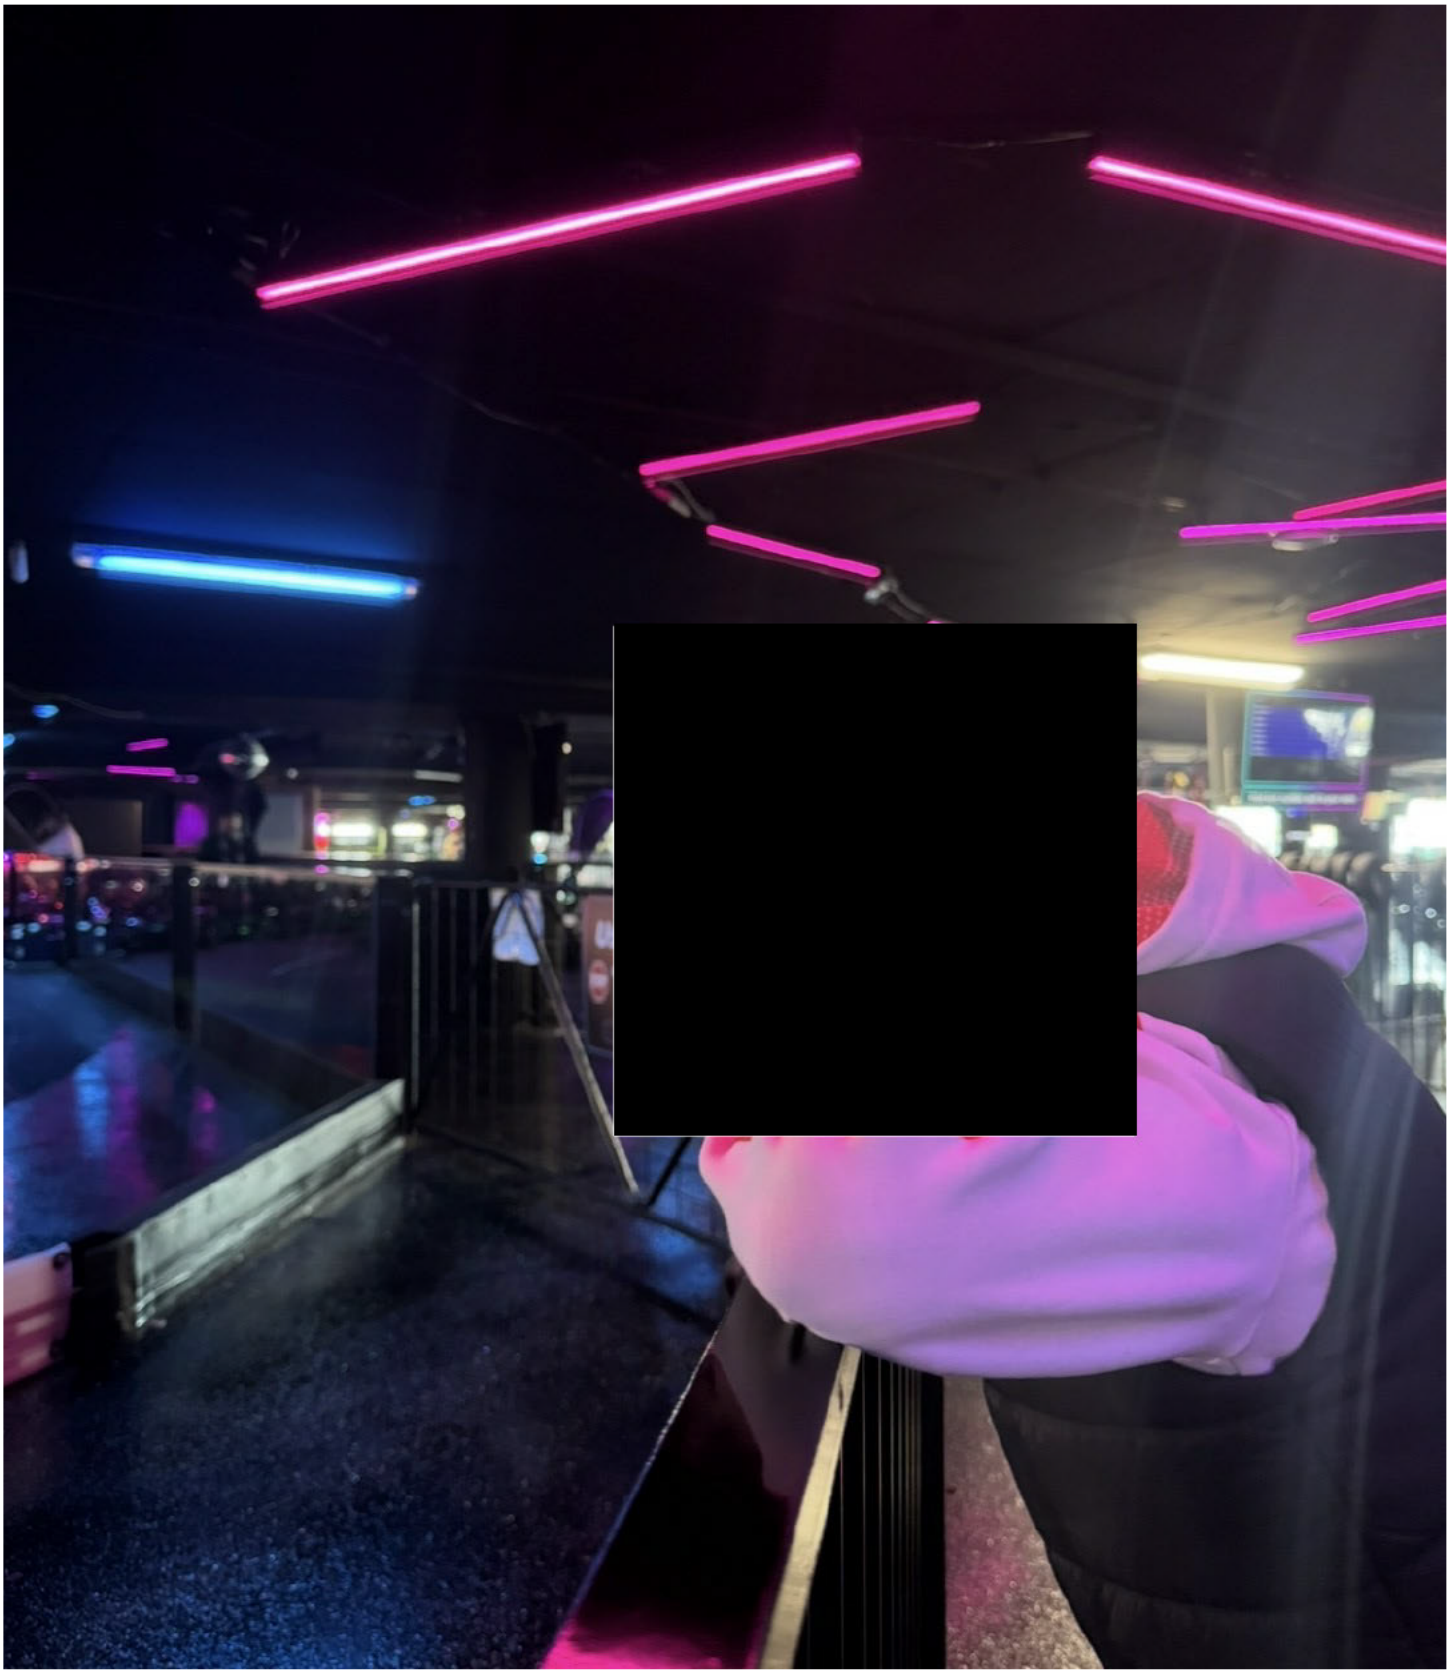
Over the past years, you have unlocked his curiosity in so many areas - washing our car, the driven project, visiting car dealers, learning about the mechanics of a car, visiting Western creek for events, we even have had Harry take him in a special drive for his bday….. and our most favourite weekend was him being a Grid Kid at the Gran Prix - all because you gave him a go. No one in your team has ever said no, you have always worked around him and along side his disability. I even remember once he had the track to himself!



He now loves the adult track. He has his own helmet. His carer was super impressed he could drive (as was I)



We need hyperkarting, you are a business of inclusion and values. And like it was mentioned in the video the location is fantastic. We often combine it with a football game, dinner, bowling and the fact we have something this interactive in the eastern suburbs makes it super accessible for families like ours.



Please accept my signature as support to keep you at EQ and in continuing to provide these opportunities for everyone

I've included some pics and links below to show Henry over the years and to share with you our experience

Best of luck

Save Hyperkarting!

Its a great family spot, a positivie contributor to the economy, gives young people something to do (rather than cause trouble) and have nice memories together.

Parking spots do nothing like this.

Sincerely
Kathleen Maher

We love Hyper Karting!

My kids go to boarding school in Sydney and this is the place they most want to go to for their weekend excursions. It's a place they're safe, they're occupied and they're not getting themselves into trouble because they're bored.

Please consider how demolishing something that's fun, to build a carpark, when there's already numerous carparks close by, will affect so many people.

Regards
Khali Horwood

There's not many fun things to do close to Sydney's city. Hyperkarts is one of the very few things that people come just to try it, it must stay, I'm surprised that it's even an idea to let it go. Please keep this wonderful highlight of the area.

Dear Shannon Rickersey

I’m writing to you regarding Hyperkarting at Moore Park. Sydney needs diverse activities close to the city. My daughter had her 17 year old birthday party there. They were all too young to go dancing at a club and as her birthday falls in a winter month it was so limited on what to do. They were all at an age where they were all learning how to drive. They could catch public transport to the venue. The youth of Sydney need fun activities to socialise, gain independence and are in a safe controlled environment and able to have fun Sydney.

Kind regards

Laura Holding

Hey, I know this probably doesn't mean much, but if you just think that hyper karting is more than just a random race course, it's a community of many people, and if you're all about supporting small businesses then just think about what your doing to this one. If you're that worried about one floor of a carpark, then I know that there is another place in or close to Moore park that can accommodate that, so please just think, not just for the company, for the people who rely on that company for money, friends and family, I myself have enjoyed my time at the place but just think what your doing. Please just hear us out.

Dear City of Sydney,
Your decision to block the continued existence of Hyperkarting as an entity is a disgraceful and utterly nonsensical move. By converting the space to car park spaces, you remove a key part of the community in the entertainment district, removing not only business and commerce, but fracturing a fragile balance that has been bringing people and allowing for social cohesion in the area.

Please reverse your decision

how can removing entertainment from the entertainment precinct make sense to anyone?
if anything, this place should get more levels of the car park.
this place is genuinely the only entertainment that gets the heart pumping - and i love watching football & cricket.
additional car spaces should never be a priority in this day & age, particularly with the alternate options available.
regards,
mark johnson.

Dear City of Sydney Council Planning Team,

I am writing to strongly support the development application extension for Hyper Karting on Level 5 of the Entertainment Quarter car park in Moore Park.

Hyper Karting is a vibrant, family-friendly electric go-karting attraction that has become a major success since opening. It draws thousands of locals and tourists to the precinct every year, creating a lively entertainment hub in an area that should prioritise people and experiences over empty car spaces.

Shutting down Hyper Karting would be a significant loss. It directly supports over 150 jobs and contributes to the local economy through visitor spending on activities, food, and other attractions in the Entertainment Quarter. As a popular tourist and community drawcard, it brings energy and fun to Sydney's inner city, aligning perfectly with the council's vision of a "city for people, not cars."

The current temporary approval has proven the venue operates successfully without causing the parking issues claimed. Turning this active, job-creating space back into underutilised parking contradicts the goal of making Sydney more vibrant and people-focused. I urge the council to approve the extension (whether the requested two years or longer) so Hyper Karting can continue operating and thriving.

Please reconsider the refusal and allow this valuable attraction to stay open. Decisions like this shape the kind of city we want to live in — one that values entertainment, employment, and community experiences.

Thank you for considering my submission. I would appreciate an update on the review process.

Kind regards,

Mack Bowman

Hi there,

We park at the car park at EQ regularly across many if the busiest days eg Saturdays and Sundays, events etc, and it is usually mostly empty.
Only very occasionally have we had to go up to level 3 or above. The only time is every very busy us when multiple events are on but surely this peak should be managed using the overflow carparks around the area used for cricket games etc?
The area is well connected by PT, why are people driving anyway? Does the city encourage PT use? Maybe better bicycle storage would be a more useful option to allow people to ride? There are hardly any bike storage options.
The city does not have enough amenities for kids etc to do, we need places like hyper karting, we don't need more carparks.

Thanks

Mal

I live in the neighbourhood and support the retention of the Hyperkarting facility at 116 Lang Rd Moore Park.
It looks as though Sydney City Council have lost their compass when they're considering favouring car parking over a recreation facility. Entertainment trumps parking every time.

To whom it may concern,

Hyper Karting contributes significantly more to the community than a car park ever could. I would never have visited the entertainment quarter outside of SCG games if it wasn't for HK.

To think it's going to be bulldozed so more people can drive their cars instead of getting public transport stands in opposition to every sustainability and environmentally friendly claim the City of Sydney makes. As a council the imperative is to support local businesses which boost the appeal of your council area and to increase the prosperity of the area and businesses to improve the lives of the people in it.

A car park does none of that.

Kind regards,

Massimo Henderson

I am writing in support of Hyper Karting at Moore Park and urge City of Sydney to support its continued operation.

Hyper Karting provides real value to Sydney as a social, recreational, and community venue. I have personally gone there on dates, spent time there with friends, and also used it for work related events. My office is based in Surry Hills, within the City of Sydney, and Hyper Karting has been a genuine option for bringing people together both socially and professionally.

What makes this decision especially frustrating is that I specifically use public transport to get there. City of Sydney has invested heavily in trams, cycling, and public transport, and that policy direction is meant to encourage people to leave their cars at home. I have done exactly that. I take the tram to Hyper Karting. Removing a venue that people actively access by public transport, on the basis of preserving parking, feels inconsistent with the broader transport vision the city has been promoting.

Hyper Karting is exactly the kind of destination that should be encouraged. It activates the precinct, gives people a reason to visit Moore Park, supports social connection, and contributes to the local economy. It is also a venue that can support informal gatherings, social outings, and work events for people and businesses based in the city. We ran a work event there last year for 20 people, then spent money at local food outlets adjacent to the venue. Without Hyper Karting, we would not have gone to Moore Park.

I also think there is a broader city building issue here. Sydney should not be moving toward a model where more and more urban space is preserved purely for cars. We do not want to become a city shaped by endless parking lots. Hyper Karting does something rare and valuable. It takes a space that many people would otherwise experience as just another car park and turns it into something social, active, memorable, and useful. That feels far more aligned with the kind of city Sydney says it wants to be.

In many ways, this venue is a strong example of the City of Sydney vision in practice. It gives people a reason to use public transport, brings life into an otherwise unremarkable space, and creates a destination that people actually want to visit. That should be seen as a success, not a problem.

If the concern is parking pressure, that should be managed in a balanced way rather than shutting down a popular and well used venue. I strongly support the continuation of Hyper Karting and ask that the public value of this venue, including the fact that people can and do access it by tram and other transport options, be given proper weight in the decision.

Thank you for considering my submission.

Kind regards,

Matt Jordan

Classic example of how to make Sydney shit. Enjoyed by thousands, putting jobs at risk and all surely, for monetary gain within council.

Getting rid of hyperkarting is a travesty. Shame on the dumb fucks that would propose such a thing. Save something good for the 'entertainment quater', which frankly, without hyperkarting would be shit.

Dear City Of Sydney Council,

Talk about government incompetence.

I am writing as a thoroughly disgusted Sydney resident to express my complete outrage and disbelief at your council's utterly ridiculous decision to force the closure of Hyper Karting at the Entertainment Quarter.

It requires a spectacular level of bureaucratic stupidity to deliberately destroy one of Sydney's most successful and popular attractions, a venue that has welcomed hundreds of thousands of visitors, supported over 150 local jobs, and actually brought life and energy to Moore Park, simply to hand back 298 parking spaces on the top level of a multi-storey car park so they can sit empty and useless for the vast majority of the year. Bravo. You've turned the slogan "a city for people, not cars" into a sick joke.

Hyper Karting has been a genuine success story: electric, family-friendly, exciting, and economically beneficial. Yet your planners have decided that phantom parking demand, spaces that data clearly shows are not required most of the time, is far more important than real people enjoying themselves, local employment, and a vibrant precinct. The hypocrisy is staggering, and the short-sightedness is breathtaking.

This isn't sensible planning. It's mindless, killjoy nonsense that rips the entertainment out of the Entertainment Quarter and replaces it with yet another patch of underutilised concrete. Prioritising ghost car spaces over a thriving attraction is not "orderly development", it's petty bureaucracy at its worst, actively making Sydney a duller, less enjoyable place.

I demand that you immediately reverse this brain-dead ruling, approve the extension without any more pointless delays or excuses, and stop this embarrassing war on fun and economic common sense in favour of preserving empty tarmac.

Sydney residents deserve far better than this level of clueless, tone-deaf decision-making from their council.

Matthew Hayward

As a long term resident and business owner in the area, with children who have also loved their time on occasions visiting hyperkarting, please save it and let it continue.

It has been a great addition to the area. I am a frequent visitor to the Entertainment Quarter complex since it was first developed, and have never needed to park on level 5 or the roof. I can barely recall ever having to park above level 3.

There is always plenty of parking whenever I have visited and more is not needed if it means losing Hyperkarting. By all means review the situation in maybe 2 years, but keep it going as long as possible.

Kind regards
Neil Sharma

Dear Sydney of City Council,

I believe that you are planning to close HyperKarting in order to get back 200+ car spaces for events. This feels very backwards for a council championing a less car-heavy culture through bike lanes and public transport. Maintaining 150+jobs and allowing kids and adults alike to continue HyperKarting would be a better council initiative. I urge you to reconsider this plan.

Warm regards,

Olivia

Hello,
I support hyper Karting staying open!

My sons love this place.
My husband and his mates enjoy this place.
My father enjoys taking his grandsons to this place.

It's absurd Council is apparently so concerned about parking when it approves entire developments in much more populated areas without a single car space.

The eastern suburbs has limited indoor/undercover entertainment options (for children especially!), yet here we have a Council wanting to close down a successful and environmentally sustainable business because of an expected parking forecast that isn't even close to being realised.

What are you thinking Council?!
Keep HK open!

I strongly support keeping Hyper Karting open. It's a great place that I've visited many times with my family, brought friends to, gone on dates, and even attended work events.

The environment is always welcoming and enjoyable, and it's one of the most fun and unique things to do in Sydney. Losing it would be a real loss for the community.

I urge you to reconsider this decision.

Dear Shannon R.,

I just wanted to share my concern about the possible closure of Hyper Karting.

It's a great spot for families and locals to spend time together, and there aren't many places like it around. It gives kids and adults something fun and active to do, and it really adds to the community.

It would be a shame to lose it, so I hope you can reconsider or find a way to keep it running.

Thanks for your time

Hi Shannon,
I am supportive of allowing the continued use of Level 5 of the Entertainment Quarter car park for electric go-karting and associated entertainment activities until 1 July 2028.
It is a great facility that employs people in the City of Sydney and it a great use of space that is not required for car parking and is accessible to people in the area.
Please review the refusal to extend the time and allow Hyper Karting to continue to use this space for a good business use of the space.
Regards,
Peter Walker

Dear Sir/Madam,

I am writing to express my support for the continued operation of Hyper Karting.

This venue is not just another entertainment option, it is a place that brings people together. My young children (aged 8 and 6) absolutely love going there, and it has become a regular activity for our family. In fact, it's the place my child has asked to celebrate his next birthday. It's one of the few venues that caters so well to both kids and adults in a safe, engaging environment.

In addition, my company has used Hyper Karting for team-building events, and it has proven to be an excellent venue for bringing colleagues together outside of the workplace. It offers something different from the usual options and adds real value to the local business community.

Beyond my personal experience, the venue supports over 150 jobs, and its closure would have a significant impact on those individuals and their families.

Replacing a well-used and much-loved community and corporate venue with additional parking does not appear to reflect the needs or preferences of the community. From what I have observed, there is no clear shortage of parking that would justify the loss of such a unique facility.

I strongly encourage the Council to consider the overwhelming community support and the social and economic value Hyper Karting provides, and to allow it to continue operating.

Kind regards,
Ricardo Fainbaum

Dear Council Members of the City of Sydney,

I am writing to express my strong support for the Hyper Karting venue and to respectfully oppose the recent decision to close it down.

This venue provides a unique and valuable recreational space for the community. It offers safe, engaging entertainment for people of all ages, including young children in my family who greatly enjoy and benefit from the experience. Facilities like this encourage active participation, social interaction, and family bonding in a controlled and enjoyable environment.

In contrast, replacing such a venue with additional car parking spaces does not provide the same level of community value. While parking is important, it is difficult to see how it would better serve residents compared to a vibrant, family-friendly attraction that brings people together and contributes to the local economy.

Hyper Karting represents the kind of engaging infrastructure that makes Sydney a more livable and dynamic city. I strongly urge the Council to reconsider this decision and explore alternative solutions that preserve this much-loved community asset.

Thank you for taking the time to consider my views.

Yours sincerely,
Richard Lunn

Dear Sir/Madam,

I am writing to express my concern regarding the potential closure of Hyper Karting in Sydney.

I have visited Hyper Karting a couple of times and it has been a fantastic experience each time. It offers a unique and accessible way to enjoy the thrill of racing right in the heart of the city. For someone like me, it has truly fulfilled my wish of experiencing driving and racing in a safe, controlled and exciting environment.

Its central location makes it incredibly convenient - not just for locals but also for visitors - adding to Sydney's vibrant entertainment options. Additionally, some of my friends are employed there and the venue provides valuable job opportunities while fostering a fun and inclusive community.

Closing such a well-located and engaging recreational space would be a loss for both the community and the city's cultural and social landscape. I kindly request the Council to reconsider this decision.

Thank you for your time and consideration.

Kind regards,
Roshni

I am writing to express my strong opposition to the proposal to replace Hyper Karting at Moore Park with a carpark. The karting facility provides a unique recreational space that promotes community engagement, safe motorsport participation, and an active lifestyle for people of all ages. It offers an important alternative to passive entertainment and contributes to local tourism and small business activity in the area. Replacing it with a carpark would reduce valuable recreational infrastructure and diminish the character and vibrancy of Moore Park. I urge the council to consider the long-term social and community benefits of retaining this facility rather than prioritising additional parking.

Hi there,

I hope this email finds you well.

I am writing in my capacity as a Support Coordinator to advocate for the continuation of a local hyperkarting facility that is due to close. This venue has become a vital community resource, particularly for individuals living with disability, including one of the participants I currently support, Shane Drake.

For Shane, who lives with an intellectual disability and Complex Post-Traumatic Stress Disorder (c-PTSD), hyperkarting is far more than a recreational activity. It represents a safe, structured, and meaningful way to engage in the community. The predictable environment, clear rules, and individual nature of the activity provide a rare opportunity for him to participate in something that promotes confidence, independence, and emotional regulation without triggering the distress typically associated with crowded or unpredictable settings.

As you may be aware, individuals with psychosocial and cognitive disabilities often face significant barriers to community participation. Traditional social or recreational environments can be overwhelming, leading to withdrawal, isolation, and deterioration in mental health. In contrast, this hyperkarting venue has provided an accessible and inclusive space where Shane can engage at his own pace (with the support of his support worker), supported by familiar routines and minimal social pressure. This has had a demonstrably positive impact on his wellbeing, motivation, and overall quality of life.

The proposed closure of this facility is therefore of significant concern. The loss of such a unique and supportive environment is likely to result in reduced community engagement, increased social isolation, and a decline in mental health and functional capacity for Shane and potentially others in similar circumstances. There are very limited alternative activities that offer the same combination of structure, accessibility, and personal interest, making this venue particularly difficult to replace.

From an NDIS perspective, access to meaningful community-based activities is essential in achieving the scheme's core objectives of promoting social and economic participation. Facilities such as this play a critical role in enabling participants including Shane to build capacity, maintain routine, and engage in activities that align with their goals and interests. Without access to appropriate community infrastructure, the effectiveness of funded supports is significantly diminished.

I respectfully urge the Council to consider the broader community impact of this closure, particularly for individuals living with disability who rely on such spaces to participate safely and meaningfully in their local community. Exploring options to retain, relocate, or support the continuation of this facility would make a substantial difference in preserving inclusive opportunities for vulnerable community members.

Thank you for taking the time to consider this matter. I would welcome the opportunity to provide further information or discuss the impact in more detail if required.

Kindly,

> Dear City of Sydney,
>
> Please note my disappointment at your intention to shut down Hyper Karting Mike Park in favour of more car spaces.
> Firstly your car park is not even equipped to deal with the amount of cars it already holds. I was there on Friday and took my daughter to a Pierce the Veil concert - it took an hour to get out of the car park. It is worth than leaving Sydney Olympic Park. I paid for my parking before I left then had to pay for another hour because you aren't even equipped to deal with the spaces you have during key events.
> Secondly hyperkarting is a big draw park for Moore Park. When I have been I visit the other facilities such as dining or cinema with my family and we make a day of it. My daughter's recent 16th birthday was hyperkarting, el Camino for lunch and Hoyts luxe in the evening. Great day but without the hyperkarting more park isn't even offering anything that we can't get elsewhere.
> Moore park is also readily accessible by public transport so finding ways to encourage this particularly with the fuel crisis makes far more sense. Hyperkarting is an electric eco friendly way for people to test their driving skills, have fun with family and friends and you want to take that away to either have empty spots sitting there, more jams in your carpark traffic after major events and to encourage people to use more petrol. Strange and disappointing choice.

Dear Sir/Madam,

I am writing to express my concern regarding the recent shutdown of HyperKart Sydney.

HyperKart has been a unique recreational venue in Sydney, offering an engaging and safe environment for individuals, families, and groups to participate in an innovative activity. It has contributed positively to the local community by promoting social interaction, supporting local employment, and attracting visitors to the area.

The closure of such a facility not only limits entertainment options within the city but may also have broader economic impacts on surrounding businesses that benefit from its presence. Importantly, the loss of HyperKart Sydney also means the loss of local jobs - roles that support individuals and families who are already navigating a challenging economic climate and rising cost of living. At a time when job security is critical, the removal of these employment opportunities is particularly concerning.

Additionally, venues like HyperKart provide an important outlet for leisure and community engagement, which should be preserved.

I respectfully urge the council to reconsider this decision or explore alternative solutions that would allow HyperKart Sydney to continue operating.

Thank you for your time and consideration.

Kind regards,

Tabitha

hey mate.
dont close hyperkarting. it brings great vibes to moore Park and lets kids hang out and socialise w one another. and besides, u shut down one of the more budget friendly go karting place, almost guaranteed ppl will start to speed on the streets instead. definitely worse than letting us drive on a slower and safer track, where the workers can decrease our speeds when necessary.

Thomas Skinner
Unit 78, 788 Bourke Street
Waterloo
NSW
2017

To whom it may concern,

I am writing to strongly object to any proposal to remove Hyper Karting from Moore Park in order to create additional car parking.

Hyper Karting is a valuable part of the Moore Park precinct. It brings people into the area, supports surrounding businesses, and adds to the entertainment offering that makes Moore Park more than just a destination for major sporting events.

At a time when Sydney should be investing in vibrant, accessible spaces that encourage recreation and community connection, it seems entirely counterproductive to replace an active leisure attraction with more parking. Moore Park already benefits from excellent public transport links, including the light rail, which was introduced in part to reduce reliance on cars.

Replacing an attraction like Hyper Karting with more parking would send the wrong message about the future of Sydney's public spaces. The Entertainment Quarter should prioritise experiences that attract visitors, support local businesses, and contribute to the area's long-term appeal.

Moore Park needs more reasons for people to visit — not fewer. I strongly urge you to reconsider any plans to remove Hyper Karting and instead focus on enhancing the precinct's entertainment and community offerings,

Kind regards,

Thomas Skinner

Dear Council Representatives,

I am writing to express my concern regarding the proposed closure of Hyper Karting, located within the Entertainment Quarter at Moore Park.

Hyper Karting is not just another commercial tenant—it is a unique recreational facility that delivers significant social, economic, and community value. As an indoor, electric-powered go-karting venue, it provides a safe, environmentally conscious, and weather-independent activity for a wide range of age groups, from young children through to adults. The venue caters to families, youth, corporate groups, and community events, making it one of the few inclusive, multi-generational entertainment options in the area.

Importantly, the facility has been designed with modern technology, including German-engineered electric karts that eliminate fumes and reduce noise, offering a cleaner alternative to traditional motorsport. It also operates multiple track formats for different age groups and skill levels, ensuring accessibility and safety for all participants.

Beyond recreation, Hyper Karting contributes meaningfully to the local economy. The business employs an estimated 50–200 staff and supports surrounding hospitality and retail operators by increasing foot traffic to the precinct. It is also a destination venue for corporate events, team-building activities, and celebrations, bringing consistent patronage into the area throughout the week—not just during major events.

The proposal to replace this facility with additional car parking raises several concerns. While parking is important, it is a passive land use that does not actively contribute to community wellbeing, youth engagement, or local economic vibrancy in the same way an active entertainment venue does. In fact, retaining recreational facilities like Hyper Karting can help stagger visitor departure times after major events, potentially easing congestion rather than worsening it.

At a time when there is increasing emphasis on creating activated, experience-driven urban spaces, removing a unique attraction such as this appears counterproductive. Cities thrive when they offer diverse activities that encourage people to stay longer, engage more deeply, and return frequently.

I respectfully urge the council to reconsider this decision and explore alternative solutions that allow both infrastructure needs and community amenities to coexist. Preserving Hyper Karting would demonstrate a commitment to supporting local business, fostering community engagement, and maintaining vibrant public spaces.

Thank you for your time and consideration.

Kind regards,

Toby Whyatt

Hi,

I hope this message finds you well.

I am writing to express my concern regarding the potential closure of Hyper Karting at Moore Park. As a regular visitor and member of the local community, I believe this venue provides significant recreational, social, and economic value to the area.

Hyper Karting is not only a unique entertainment facility but also a space that brings together families, friends, and enthusiasts in a safe and engaging environment. It contributes to local tourism, supports jobs, and enhances the vibrancy of Moore Park as a leisure destination.

Closing such a facility may reduce the diversity of activities available in the area and impact both local businesses and community engagement. I respectfully request the City of Sydney to reconsider this decision or explore alternative solutions that would allow the venue to continue operating.

I would greatly appreciate any opportunity for community consultation or further discussion on this matter.

I have also attached few photos of memories from my time there. Thank you for your time and consideration.

Kind regards,
Vivek Singh

The hyperkarting is one of a kind and always busy because its so good. It ain't a good idea to change it back to a carpark which is usually empty and will most likely remain empty because of how good the light rail system is.

Thanks
Vivek

Dear City of Sydney,

I am writing to express my strong support for the retention of Hyper Karting.

Hyper Karting serves as a significant source of entertainment for thousands of people. Given its popularity and the value it adds to the community as a unique recreational venue, I believe it is much more important to preserve this facility than to utilize the space for additional parking.

I hope you will take the impact on the thousands of people who enjoy this entertainment source into consideration when making decisions regarding the future of the site.

Thank you for your time and for considering my perspective.

Best regards,

David K

To whom it may concern,

Please don’t remove Hyper Karts! We love coming up every time we visit Sydney! It’s been a fixture for my kids growing up and it’s something that all ages can do!

If you remove it just for car parks it’s so sad and one less thing that will ever bring us to that area while visiting.

I really hope you will reconsider and keep Hyper Karts.

Kind Regards,
Aimee King

Dear Shannon,

Re: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021

I am writing to express my extreme frustrations that the City of Sydney appears to be refusing to support this established and thriving business and, indeed, an attraction for tourists and locals, on the basis of arbitrary planning considerations.

I'm a lifetime Sydney resident living here with my partner and her two children.

Hyperkarting at Moore Park has become a regular family activity for us. We visit several times a year, and we're not stopping. It's genuinely one of the best entertainment options Sydney has to offer, particularly given that entertainment options for us adults were decimated by the disastrous lockout laws enacted in 2014. As for the kids, they love it.

More importantly, it's the only reason we go to the Entertainment Quarter.

When we're there for karting, we visit other venues: restaurants, the cinema, shops. Without Hyperkarting as the drawcard, we simply won't make the trip, as we have better options locally. I am sure we are not alone in this.

The decision to close Hyperkarting to recover 298 parking spaces that sit empty most of the time defies logic. Rigid adherence to "car parks are for parking" ignores the obvious commercial, social and cultural benefit this facility delivers to the community. It also evidently misses the point of an "Entertainment Quarter", perhaps we should rename it the parking district.

Meanwhile, you're eliminating 150 jobs and the Quarter's most popular year-round attraction. The flow-on impact to other businesses in the precinct will be significant.

Hyperkarting serves locals and tourists alike, operates every day of the year, and has attracted over 500,000 visitors since opening. The City has spent fortunes creating events that don't come close to doing this much for the community.

If Sydney cannot support thriving attractions like this in favour of largely unused parking spaces (aren't we meant to be prioritising public transport?), we will continue to lose status as a global destination. This appears to be yet another example of local government deprioritising entertainment and culture.

In the strongest possible terms, I support Hyper Karting in their application for an extension.

Best regards
Alex

It would be such a shame to see a place that brings so much joy to so many young kids, older kids and adults be taken away. It is one of the main reasons we come to Moore Park Precinct and are planning on coming back this school holidays. There is ample parking an even during the busiest of times there is still loads of parking around.
I would love to know why an extra almost 300 spots would be required and what the data shows regarding the usage of parking spaces during prime times and then the day to day usage. I am very sure there would be more than ample spaces for cares 92% of the year for visitors to the area and its main sports hubs.
Don’t waste this space on car parking spaces, keep the space as an extension of the precinct and a thoughtful and intentional space for people’s enjoyment.

Regards,
Amanda Moore

I totally support this extension application. The go-karting facility draws people to the precinct, provides harmless/positive fun for attendees, brings life and activity to the area and enriches the community.

To lose the go-karting facility, and to replace with parking spots, would be totally self-defeating to the EQ precinct. Fewer people would be attracted to EQ, parking spaces would go to waste, and a significant number of jobs would evaporate.

Yours faithfully
Andrew Finch

hi there,

I am a local in the area and occasionally use the hyperkart facilities as does my friends and family.

this venue brings alot of utility to what is a pretty dry part of the city and really livens up the eq precinct.

the car park in question is virtually never full...well I have never seen it full so I am not sure what the rationale is in moving karting track out given its a dead space anyway?

additionally we know have the light rail which provides great public transport options to the venue.

thanks ,
andrew

To whom it concerns,

I am alarmed at the decision to not extend HyperKartings use of the space that it currently has at Moore Parks Entertainment quarter. I have attended get togethers and functions at the entertainment quarter and am often left wondering what more can be done with the empty space on other levels for a night out, however that thought is usually accompanied with the pleasure of knowing that space is being used effectively by the hyper karting team.

Frankly, removing HyperKarting from running its operations 7 days a week to accommodate the very occasional large scale event is short sighted, and not conducive to a long term and vibrant environment/community in the area. It would also be a statement that the council is unable to plan long term for a growing and diverse community, which I don't believe to be the message you want to share.

Finally, reinstating the additional car park spaces is only going to create a greater level of chaos and angst for event goers as the carpark is poorly designed with respect to flow of traffic. That there is only one street to exit too only compounds that issue, and therefore will be a reminder to commuters about the poor planning practices of the council.

I believe the council will do well to extend HyperKartings use of the carpark in the Entertainment Quarter, reminding the community that it stands for a vibrant 24/7 economy, multi-use facilities and a pragmatic approach to underutilised spaces (which this was prior to HyperKarting, and would be again if they were to be removed).

I appreciate your time and consideration in this matter.

Kind Regards,
Ani

Hyper Karting is enjoyed my many families including my own which consists of three generations. It is very rare to find a place that caters for all age groups and, where long-lasting memories are formed. The location of the Entertainment Quarter is ideal. It is serviced by public transport and, families make a day of it, enjoying the surrounds. I hope that it will be there for many generations to enjoy. I do not want it to close. I think it should be permitted to continue taking care of the community's need for wholesome, healthy fun.

I'm a student at University of technology Sydney,

Me and my friends go to spot to enjoy a evening after uni classes is HYPERKARTING @ Moore park,

Seeing this venue close is heartbreaking and removes one of the best things to do in the sydney city,

VERY POOR form from the council and shows their complete disconnect from the avg citizen if this venue is to be closed

Best of luck to the team at hyperkarting, i wish you the best and hope to god that we win this fight against council and can continue to remain open and running,

Regards
Aren Beni

Dear whom it may concern,

Please do not close down Hyper Karting as they are an invaluable part of the community and Sydney as a whole.

Please help encourage people to choose a more active lifestyle by keeping Hyper Karting open so we can continue enjoy kart riding as part of our general exercise and movement.

Additional car parks do not encourage this active lifestyle and if anything, it encourages driving which is damaging for the environment and economy, especially during this time of national fuel crisis.

Please do the good thing and keep Hyper Karting open.

Sincerely,
Ashley Kim

Dear Sir/Madam,

I am writing to express my concern regarding the proposed closure of Hyper Karting at Moore Park.

This venue offers more than just entertainment — it provides a valuable space for people to build skills, confidence, and discipline in a safe, controlled environment. Karting can be an entry point into motorsport, helping individuals develop racing ability, focus, and mechanical awareness, which are difficult to access elsewhere in Sydney.

Hyper Karting is also a positive outlet for young people and the broader community. It encourages participation in an engaging activity that is social, structured, and skill-based, rather than passive or less constructive alternatives. Facilities like this help foster a sense of community while promoting active lifestyles.

In addition, the venue contributes to the local economy through employment and increased foot traffic to the Moore Park precinct. Its popularity shows there is strong demand for accessible, non-traditional recreational options.

Closing this facility would remove an important pathway for skill development and a well-used community space. I respectfully urge Council to reconsider this decision and explore options that allow Hyper Karting to continue operating.

Thank you for your time and consideration.

Kind regards,
Bertie Jones

Dear Shannon,

I am writing to you as a resident and an active member of the local community to express my deep concern and strong opposition regarding the upcoming closure of Hyperkart.
Hyperkart is far more than just a recreational facility; it is a cornerstone for the local racing community and a vital social hub. For many of us, it represents:

- **A Safe Outlet for Passion:** In a city where road safety is paramount, Hyperkart provides a controlled, professional environment for racing enthusiasts to express their passion for motorsport without endangering the public.
- **Mental Wellbeing and Connection:** It serves as a primary gathering point for friends and families. In an increasingly digital world, the importance of physical spaces where people can bond over shared interests and healthy competition cannot be overstated.
- **Supporting Local Culture:** Racing culture is a significant part of Sydney's identity. Removing one of the few accessible tracks in the area diminishes the character of our local sports scene and leaves a void for those who find purpose and community through the sport.

The loss of this venue would be a significant blow to our social infrastructure. I urge the Council to reconsider this decision and explore alternative solutions that allow Hyperkart to continue operating, whether through a lease extension, a new location agreement, or a zoning compromise.

We need spaces that bring people together. I hope the Council recognizes the immense value Hyperkart brings to our lives and acts to preserve it.

I look forward to your response and hope for a positive outcome for the community.

Sincerely,
Brian Zhu

Dear Council Members,

I am writing to express my strong opposition to the proposed closure of Hyper Karting Moore Park in order to convert the space into additional parking.

Hyper Karting is far more than just a recreational venue. It is a unique, high-quality entertainment facility that contributes significantly to the local community, economy, and lifestyle of Sydney residents. Removing such a venue to replace it with more parking would be a step backwards in terms of community value and urban experience.

Firstly, Hyper Karting provides a safe, engaging, and social activity for people of all ages. In a time where there is increasing concern around screen time and limited recreational outlets, venues like this encourage physical activity, social interaction, and mental wellbeing. It is especially valuable for young people and families who benefit from accessible, structured entertainment options.

Secondly, the venue supports local employment and small business activity. From staff to suppliers, Hyper Karting contributes to the local economy in a meaningful way. Its presence also drives foot traffic to surrounding businesses within Moore Park, benefiting the broader precinct.

Additionally, Sydney is a global city that should be investing in experiences, not reducing them. Unique attractions like Hyper Karting help make the city more vibrant, appealing, and competitive as a destination. Replacing such a facility with additional parking does not enhance the cultural or social fabric of the area.

While parking is important, it should not come at the cost of removing valuable community infrastructure. There are alternative ways to address parking needs that do not involve eliminating established recreational venues that already serve the public effectively.

I respectfully urge the council to reconsider this proposal and prioritise the retention of Hyper Karting Moore Park. Preserving spaces that bring people together, support local

business, and enhance quality of life should remain a key focus in urban planning decisions.

Thank you for your time and consideration.

Kind regards,
Cagdas

To: dasubmissions@cityofsydney.nsw.gov.au

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Council,

I am writing as an employee of Hyper Karting at Moore Park to respectfully ask that Council reconsider the decision affecting the venue.

I have worked at Hyper Karting for more than two years, and during that time I have seen firsthand the value it brings to the Moore Park precinct. It is not only a great place to work, but also a venue that attracts people to the area and provides customers with a fun, safe and memorable experience. Many of our customers genuinely enjoy what Hyper Karting offers and often return with friends, family and work groups.

I understand that Council's main concern relates to parking. However, based on my experience working on site, I have very rarely seen the car park actually full. On busier days, the main issue often appears to be the traffic lights at the exit, which can slow cars leaving the area and make congestion seem worse than it really is.

I also believe it is important to consider the broader context. The government has already invested billions of dollars into the light rail network to encourage people to travel to Moore Park by public transport rather than relying on cars. The Moore Park light rail stop was clearly built to support this precinct, and that investment was intended to ease pressure on parking.

In addition, a major new car park near the stadium is already under construction and is expected to provide up to 1,500 spaces. With this extra parking set to become available, it seems unfair for a popular and well managed business like Hyper Karting to be forced out because of parking concerns.

Hyper Karting is more than just a business. It supports local employment, provides stable work for young people and other staff, and offers a unique entertainment experience that many people in Sydney genuinely value. As someone who works there, I can say it has been a positive and well run place to be part of, and it would be very disappointing to lose it over a parking issue that does not reflect what I have personally seen on the ground.

I respectfully ask Council to reconsider the decision and to give proper weight to the venue's contribution to local jobs, visitors and the wider precinct, especially in light of the major public transport investment already made and the additional parking that is expected to open nearby.

Thank you for your time and consideration.

Kind regards
Charbel

To dear Shannon,
Having attended hyper karts on numerous occasions, I'm struggling to understand why the enormous parking facilities would need additional spaces at the expense of the go kart track. Having attended many times while the car park is absolutely empty, Hyperkarts operate a wonderful experience and given the opportunity I'm sure they can continue to grow and prosper at this facility.
This seems another example of local government not supporting local businesses and taking away from the highlights of Sydney under the guise of more parking.
Please reconsider any plans to stop Hyperkarts in Sydney, Moore Park as a matter of urgency!

Regards,
Chris Dixon

Dear Sir / Madam.

It would be a tragedy if HyperKarting Entertainment Quarter Moore Park was forced to close, for cynical reasons.

HyperKarting is a significant employer in Sydney's eastern suburbs, that provides joy and excitement and competition for tens of thousands of Sydneysiders of all ages and backgrounds.

Thousands of children - and adults - will be disappointed and upset.

I personally have been there a dozen times, with my young children as well as adult friends, for birthday parties (including my son's), men's nights out, and just for a fun afternoon.

It is healthy and great bonding time, and the only facility of its type for many miles.

Shutting it down to have a few extra car park spots - which will sit vacant most of the week, and year - is ridiculous and hypocritical.

State and local Governments are constantly encouraging Sydneysiders to take public transport and leave the car at home, especially for major events.
Shutting down Hyperkarting to free up some extra car spaces is the height of hypocrisy, and should be condemned across the political spectrum and business community.

If this fine and much-loved business shuts, it will never reopen.
And the shame will be on your and your entire department's heads, for the rest of your lives!

Yours sincerely,

Daniel Lemish

Dear Shannon

Hyper Karting has been instrumental in keeping my neurodivergent son active. In a world of ever increasing screen time, a facility like this is critical in such a central area and servicing both south and north of the city

I just wanted to reach out and share how much Hyper Karting means to me and my family.

It's such an incredible attraction for Sydney, truly something unique. The experience they have created is exciting, high-quality, and something that brings people together in the best way.

I take my son every time he visits me from Tasmania, and it's become "our thing." We've made so many special memories there; laughing, racing, competing, and just enjoying that time together. Those moments are priceless!

It would be such a shame to see Hyper Karting go. It's not just a business, it's a place where families connect and create memories that last.

I really hope a way can be found to keep it running. Sydney needs places like this.

Kind regards, Emilie

Hyper karting is an excellent venue in Sydney that brings friends and family together and it will be an utter disappointment to see it go. There's already enough empty parking spaces in the parking lot it doesn't need more. It's in the top ten karting places in world, making it more reason to stay. You shouldn't take away the jobs of so many people, just for some parking spots. Think about it.

Subject: Urgent Appeal to Preserve Hyper Karting Venue in Sydney

Dear City of Sydney Council,

I am writing to express my strong support for retaining the Hyper Karting venue in Sydney. This venue is not just a place for entertainment; it is a vital community hub that brings friends and families together, fostering a sense of belonging and camaraderie among its visitors.

Hyper Karting is recognised as one of the top ten karting venues in the world, a testament to its exceptional quality and the joy it brings to people of all ages. Its presence in Sydney is a source of pride and a significant attraction for both locals and tourists, contributing positively to our city's reputation and economy.

The proposed plan to replace this beloved venue with additional parking spaces overlooks the broader impact on our community. The current parking lot already has ample empty spaces, and sacrificing Hyper Karting for more parking would be a short-sighted decision. Moreover, the closure of this venue would result in the loss of numerous jobs, affecting many families who rely on this employment.

I urge you to consider the long-term benefits of keeping Hyper Karting open. It is not just about preserving a venue; it is about maintaining a cherished part of our community that enriches our lives and supports our local economy. Let us work together to find a solution that respects the needs of all stakeholders while ensuring that Hyper Karting continues to thrive in Sydney.

Thank you for your attention to this important matter.

Sincerely
Euan Woods

To whom it may concern,

I would like to express my desire for Hyper Karting Sydney to continue trading.

Hyper Karting Sydney is a successful, well-loved business contributing to the NSW economy. It also is an incredibly popular leisure activity suitable for many age groups and occasions.

Forcing Hyper Karting Sydney to shut down operations will result in the loss of a key asset to community building within NSW. With the rising popularity of racing games, racing networks (e.g formulae racing/F1), this institution provides a common ground of unity amongst Sydneysiders.

Please kindly reconsider this decision.

Warm Regards,
Faith P

Dear City of Sydney

Thank you for the chance to make a submission

As the parent of a formula 1 obsessed 4 year old, it is disappointing to hear of the proposed closure of Hyper kart Moore park.

We've attended the to mini track a number of times in the last year. We looked forward to watching our son move up to the junior karts and the full track as he grew up.

As a life long Sydney resident, our trips or hyper kart have been the only reason we've ever visited the entertainment quarter. (Despite attending many events at the SCG and Allianz stadium) These visits have then usually included trips to other businesses in the precinct such as Watsons for lunch or Ben and Jerry's for ice cream. Removing a business that draws on so many people with have an overflow to the other ones in the EQ.

Most disappointing is that the reason for this is that is just to return level 5 to car parking for an already under utilized car park. In all our trips we've never had to park higher than level 1.

The only time the car park is full is for major events for which we should be encouraging the use of the world class light rail and integrated transport. Additionally there will be further car parking available at Allianz stadium.

That this is being driven by the City of Sydney who are usually the only sane voices in NSW in reducing car dependence, providing services for the people live here and intelligent use of public space is such a shame.

I hope that the city rethinks this decision

Greg Robertson
Hurlstone park NSW

Dear Council Team,

I'm writing to express my strong support for Hyper Karting and to share why it means so much to me and many others in the community.

I genuinely love Hyper Karting because it offers an experience that is both exciting and inclusive. It's not just about racing, it's about the atmosphere, the energy, and the chance to unwind and have real fun. Every visit feels like an escape from the usual routine, and it's something I always look forward to.

One of my most memorable experiences was going with a group of friends and competing lap after lap, pushing each other while laughing the whole time. It created a sense of connection and friendly competition that is hard to find elsewhere. Those moments stick with you long after you leave the track.

I strongly believe Hyper Karting should remain open because it provides a unique recreational outlet that caters to a wide range of people. It brings together individuals, families, and groups in a safe and engaging environment. Facilities like this are rare, and once they're gone, they're very hard to replace.

The impact it has had on me and my friends has been incredibly positive. It's given us a place to spend quality time together, build stronger friendships, and create lasting memories. More broadly, it contributes to the local community by offering a fun, social activity that encourages people to get out, connect, and enjoy themselves.

I sincerely hope you take into consideration how valuable Hyper Karting is to people like me and many others. It would be a real loss to see it close.

Thank you for your time and consideration.

Kind regards,

Subject: Hyper Karting lease extension

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Lord Mayor and Councillors,

I wish to protest Sydney Council's decision to refuse the lease extension for **Hyper Karting** at the Entertainment Quarter.

Closing a thriving business for a couple of hundred parking spaces simply does not make sense.

HyperKarting employs many young people and will increase unemployment in a time when many jobs are under threat and people are facing higher costs of living. This decision also removes a primary drawcard for the Moore Park precinct. Since 2021, Hyper Karting has brought more than **500,000 visitors** to the area, providing essential foot traffic that sustains surrounding small businesses, cafes, and restaurants within the Entertainment Quarter.

Hyper Karting is a vital resource for the community, offering an inclusive and accessible space for **disability support groups** and youth organisations. Removing such a unique facility in favour of bitumen goes against the City's own vision of a "city for people, not cars."

With the recent addition of the **1,500-space underground car park** at Allianz Stadium and ample parking at Disney Studios, there is no logical justification for sacrificing a successful business and a community hub for a negligible increase in parking capacity.

Could you please reconsider this decision, grant the necessary extensions, and work with Hyper Karting to ensure this landmark venue remains a permanent fixture of Sydney's entertainment district.
Yours sincerely,

John Dobrohotoff

Dear councillors

I am writing to formally express my concerns regarding the proposal to add car parking spaces over a business that currently serves as a vital hub for our community, Hyperkarting.

This space, and this business provides an essential environment where people can connect, build relationships, and develop new skills. It is a place where the community can come together to engage in activities they truly enjoy. Given the significant social value this business provides, I believe that prioritizing additional parking over such a community asset reflects poorly prioritized thinking.

I would appreciate it if the council could explain the reasoning behind this decision and consider the long-term impact on community cohesion and well-being.

I have raced at this track a number of times now and I want to be able to do so again in the cute.

Thank you for your time and I look forward to your response.

Submission regarding proposed redevelopment impacting HyperKarting, Moore Park

To whom it may concern,

I am writing to express my opposition to the proposed redevelopment that would result in the removal of HyperKarting at Moore Park.

The current site is already a multi-level car park, with HyperKarting operating within it. As such, the proposal effectively removes a well-used and unique attraction in order to replace an existing, functioning car park with another car park offering unnecessary additional capacity - an outcome that is difficult to justify from a community perspective.

HyperKarting is a genuinely valuable part of the Moore Park precinct. I have visited many times with different groups including friends and family, and it has consistently been busy and enjoyable. It's one of the few activities in the area that gives people a reason to come beyond major events, and it adds energy and life to the precinct.

Importantly, it also attracts traffic to the other businesses in the area. When we go, we often spend time at other nearby businesses after HyperKarting - food, drinks, or just walking around the area. In that sense, HyperKarting acts as a drawcard that supports the wider local economy and makes the precinct feel more active and engaging.

In contrast, increasing car park capacity feels like a much less valuable outcome. Moore Park is already a well-established public transport destination, with the light rail and event-based transport strategies designed specifically to reduce reliance on private vehicles. Expanding parking capacity also risks inducing additional car traffic, which is inconsistent with contemporary planning principles focused on sustainability, congestion reduction, and mode shift toward public and active transport.

There is also a question of whether this represents a good use of public resources. Replacing an existing, functional structure - while removing a popular and well-used attraction within it - seems difficult to justify from a ratepayer perspective. It's not clear what meaningful additional value is being created for the community compared to what would be lost.

It would be disappointing to see a decision like this made without strong community support, given how well-used and appreciated HyperKarting clearly is.

I strongly urge council to reconsider this proposal and explore alternatives that retain HyperKarting.

Thank you for your time and consideration.

Kind regards,
Jordan Gates

Dear City of Sydney Council,

My partner and I have recently moved to the area and discovered that Hyper Karting may soon be closed for further parking spaces.

We believe this would be a great shame, and a great loss to the many activities the Entertainment quarter offers.

I urge the City of Sydney council to reconsider their proposal.

Best regards,

Please reconsider the ill advised decision to shut down this excellent venue of family friendly fun. There is nothing comparable anywhere within a comfortable distance from the CBD. We routinely make the trip from northern beaches to enjoy this unique experience and would sorely miss it if it had to shut down.

Dear Shannon,

I'm a local Sydney resident living just around the corner from EQ and Hyper Karting. My address is 64 Cook Rd, Centennial Park.

I'm very supportive of the submission on behalf of Hyper Karting and its affiliate businesses. They add significant value to both the local economy and the wider community. Therefore, allowing their business to continue is in the best interests of Sydney residents.

Thanks,
Joshua David

Dear City of Sydney,

I just wanted to reach out and say how much I absolutely love Hyper Kart and the experience it provides. Every time my boyfriend and I visit, it's such a fun and exciting experience – there's nothing quite like it!

The atmosphere, the energy and the thrill it creates when racing is unforgettable.

It's such a unique place and has brought so much enjoyment, not just to me but to so many others as well.

A place like Hyper Kart is not something you can easily replace, and it would be a huge loss to the community.

I strongly urge you to reconsider this decision or explore any possible options to keep Hyper Kart open.

Thank you,

Julia Vasilevski

Hi. I am in support of hyperkarts staying in business in Moore Park. As the entertainment hub in Sydney there is a lack of fun and physical activities for kids and families to enjoy.

Hypedkarts are so much fun and something different for everyone to enjoy. Please consider their appeal to stay open.

Kind regards, Karita Crossman

This is absurdity at its best. Hypercarting is one of the best features and drawers the most attraction to the dying Moore park/ fox studio precinct.
You need to listen to the people. Hypercarting, movies, pickle ball/paddle tennis is what is keeping that area going.

Hi,

I am writing to express my objection to the closure of Hyper Karting to repurpose to car parking. Moore Park entertainment precinct is already well serviced by public transport and reverting the car parking spaces that could only provide parking to a small amount to people relative to the tens of thousands of people utilising the precious urban space for electric go karting is a terrible decision on land use. Keeping the carpark level for go karting is highly beneficial to the area and community. Car parking should continue to reduce in this area as to encourage the use of public and active transport.

Kind regards,
Levin Lam

Hi,

Just submitting my support for the Hyper Karting to continue operating. Myself & my 3 x sons regularly go to the go karting & to be honest, that is the main reason we visit the entertainment quater. It would be very disappointing to lose this great venue. It seems at no point have i ever seen the entertainment quater car park full, so im my opinion i dont believe the extra car spaces are 'needed '.

Dear city of Sydney

I find hyperkarting so fun I've been many times with friends and every time it has been a blast. I know someone who works there and he always talks about how great it is to work at hyperkarting and taking it away is pointless.
There is so much parking at the eq already I've never seen it full what will 1 level add and on top of this there is another carpark in construction at Allianz Stadium. I've never missed that one level at the eq car park, I've never not been able to park and I've had fun at hyperkarting so I think removing them is a decision that makes no sense especially for Sydney's entertainment industry. Hyperkarting is the only thing keeping the eq fun and alive nowadays the rest of the things there are boring and need a revamp and hyperkarting has already revamped

Thank you
Orlando van der Starre

do not close down hyperkarting please

afaik council is always prioritising public transport even on new commercial builds. the EQ is well served by light rail and busses. additional parking spaces go against the trend

hyperkarting is an innovative business that as a parent has benefited greatly by taking my once 3yo kids gokarting in a safe environment. a market served by no other gokarting place. afterwards the varied businesses like bowling and food places get a visit.

hyperkarting is a unique and id say the main attraction or EQ. removing it will hurt the other businesses too.

keep it alive
thankyou

Sydney already suffers from a lack of diverse recreational activities, and Hyper Kart offers a rare high-quality experience close to the CBD. The Moore Park location is uniquely accessible via multiple modes of public transport, sacrificing a premier entertainment venue just to add more parking spots feels like a step backward for the city's offering. We should be prioritizing active entertainment over shoving in more vehicles.

Hi,
I want to send a message of support for hyper carting to be allowed to continue to use its current location at Moore Park rather than the proposed additional parking level. There are few other options like this around and we should be encouraging public transport, not more cars into the venue. The carpark is jammed up at peak times now when people are departing without adding another level.
The carting brings extra business to the food and beverage venues that the additional carparking will not as it will generate little additional attendance.
The location of the carting track is good too, as it is not adjacent to residents.

To whom it may concern,

I am concerned that Hyper Karting is being asked or forced to shut down. I am writing from the US to ask that you reconsider this request or decision.

This is one of the most unique experiences, go karting in a parking lot is straight out of a Fast and Furious movie. My fiancé and I visited during our engagement trip to Sydney, Australia and is a memory that we will never forget.

We plan to visit Sydney again (this would be the 4th time for me, 3rd for her) in the future and are definitely looking forward to visiting Hyper Karting again and would be deeply sadden if it was no longer there.

Thank you for your attention to this matter, Ray Kwong [redacted]

To Whom it may concern,

Hyperkarting Australia has opened its doors to the public to promote safe and fun, driving and racing for the past 5 years.

The lack of facilities like this in Sydney as a whole is devastating to every fellow rev-head and driving lover, and to be potentially taking one away would negatively affect any and all of these communities near and far.

As someone who drives an hour to this location, this is a testament enough to how loved and needed this facility is in the Sydney region as a whole.

We shouldn't be taking these things away, we should be adding more.

Thank you for your time.

Hi,
I have visited HyperKarting many times over the last few years with my family and mates. It is a place when fun can be had for all ages at a relatively low cost. Easy to get to and with great operating hours this place is a great asset to the community as well as being a boost to the local economy and jobs.

This business must be allowed to continue and prosper into the future. It must not and should not be forced into closure for the sake of a few extra car parking spaces.

With Council having been on a push for many years regarding the need for less cars to be on our roads and for better use of public transport hubs it seems nonsensical for council to now want to have even more car parking spaces to the detriment of the broad cross section of the community who use this great facility.

Don't close it!

Regards,
Scott Cootes

To the City of Sydney Council,

I am writing to express my strong support for Hyper Karting's continued operation at the Entertainment Quarter in Moore Park, and to oppose any proposal that would see it displaced to make way for additional parking.

Hyper Karting represents a unique and highly valued recreational facility within Sydney. It provides an accessible, family-friendly, and innovative activity that contributes significantly to the vibrancy and diversity of the Entertainment Quarter precinct. Facilities like this are increasingly important in creating dynamic urban spaces that attract both locals and visitors.

The Entertainment Quarter has evolved beyond a simple events and parking hub—it is now a destination in its own right. Hyper Karting plays a key role in that transformation by offering an experience that cannot be easily replicated elsewhere in the city. Removing such an attraction in favour of additional parking would diminish the precinct's appeal and undermine broader efforts to activate urban spaces with engaging, non-passive uses.

At a time when cities worldwide, including Sydney, are working to reduce car dependency and encourage public transport, active travel, and shared mobility, prioritising more parking over unique recreational infrastructure seems counterproductive. Moore Park is already well-served by public transport and event-based transport planning, which should continue to be the focus rather than expanding car parking capacity.

Furthermore, Hyper Karting supports local employment, small business activity, and the night-time economy. Its presence encourages longer stays within the precinct, benefiting surrounding retailers, hospitality venues, and the broader local economy.

I respectfully urge the City of Sydney to support the retention of Hyper Karting at the Entertainment Quarter and to consider the long-term social, economic, and cultural value it brings to the community. Protecting distinctive attractions like this ensures Sydney remains a vibrant, engaging, and forward-thinking global city.

Thank you for considering this submission.

Yours sincerely,

Steve Gandel

Hello City of Sydney,

I am writing to strongly oppose the proposed closure of Hyper Karting at Moore Park.

As someone who has visited Hyper Karting on numerous occasions and recommended it to friends and family, I have seen firsthand the value it brings to the community. It is a unique, accessible recreational venue that appeals to a wide range of people, and contributes meaningfully to Sydney's social and entertainment landscape.

Facilities like this are increasingly rare in Sydney. Hyper Karting provides a safe, engaging, and active form of entertainment that encourages social interaction and offers an alternative to nightlife centred around alcohol. Its presence in Moore Park enhances the vibrancy of the area and supports local visitation.

The loss of this venue would not only remove a well-loved activity, but also reduce the diversity of entertainment options available in the city. Sydney already faces criticism for lacking accessible and exciting recreational spaces, and closing venues like this only reinforces that perception.

I respectfully urge the City of Sydney to reconsider this proposal and explore alternatives that would allow Hyper Karting to continue operating.

Thank you for considering my submission.

To Whom It May Concern,

We were shocked and saddened to hear the plans to close down our most loved go karting track.

I am writing to you not as a statistic, not as a line item in a budget review, but as a parent — one of many in this community who is heartbroken at the prospect of losing our local hyper-kart track.

Please hear me out, because what is at stake is far greater than an indoor track and a set of small engines. What is at stake is the heart of our community's childhood.

I remember the first time I buckled my child into one of those little karts. The wide eyes. The grip on the steering wheel. The look they gave me before pulling away — equal parts terrified and exhilarated. In that moment, I watched my child discover something about themselves: that they were capable, that they were brave, that the world was full of adventure waiting to be seized.

That moment did not happen on a screen. It did not happen in a living room. It happened here — at our hyper-kart track — and it is a memory my family will carry forever.

This track is not a facility. It is a gathering place. It is where birthday parties overflow with laughter. Where children who barely knew each other's names at the start of a race are best friends by the end of it. Where parents stand side by side at the barriers, strangers one moment and neighbours-in-arms the next, united by the shared joy of watching their kids race.

In a time when screens increasingly isolate our children and public spaces seem to be disappearing one by one, this track offers something increasingly rare and precious: genuine, joyful, face-to-face connection.

If this track closes, we lose more than a weekend activity. We lose a tradition. We lose the Friday evening ritual, the "one more race" that stretches into evening light, the smell of rubber and electric sparks that our children will one day describe to their own kids as "the place we used to go."

We lose a safe space — a supervised, active environment in a world desperately short of them. We lose the track where our shy children grew bold, where our competitive children learned to lose with grace, and where every single child, regardless of background or ability, got to feel like a winner.

I ask you to think back to the places of your own childhood that shaped you. The field, the park, the local pool, the corner that was just yours. Imagine being told that place was being taken away. Imagine the loss not just of the physical space, but of everything it represented.

That is what our children face today. They are not old enough to write these letters themselves,

but they feel this deeply. I am writing on their behalf, and on behalf of every family who has ever left that track with sore cheeks from smiling, and children who fell asleep in the car on the way home — content, happy, and tired in the very best way.

I implore the council to reconsider this decision. Explore every avenue — funding alternatives, community partnerships, revised planning — before closing a door that, once shut, cannot easily be reopened. The children of this community deserve better than to have their joy quietly decommissioned.

Please. Keep the track open. Keep the memories alive. Keep our community whole.

Yours sincerely,
Tal Allen

This email is in support of hyperkart being able to remain operating from the car park at the Entertainment Quarter.

Our family love the place and there is nothing else like it. To think that they would be displaced for a “just in case”need for parking of so few cars on so few days, just makes no sense.

Please don’t go ahead with this change and let us continue to enjoy our time there and keep those great staff employed!

Thank you,
Aylie Brutman

Dear Shannon Rickersey,

I'm reaching out regarding the proposed removal of the Sydney HyperKarting arena, and I would like to express my strong hope that this decision can be reconsidered.

Sydney HyperKarting is a source of great memories for me and my friends, it's a place that provides a fun and positive way to let off steam and hang with friends.

Replacing the arena with a carpark would remove a one of the few remaining good and interesting things about Sydney. It's rare to have a facility that contributes so much to the vibrancy and spirit of city, both the day and nightlife. HyperKarting offers an experience that goes well beyond utility, helping to shape positive memories for both locals and visitors alike.

I truly believe that preserving Sydney HyperKarting would be more beneficial than converting the site into a carpark. It adds value to the community in ways that a carpark simply cannot, and its loss would be felt by many who have come to love everything it represents.

Thank you so much for considering this perspective. I hope you'll agree that some places are worth keeping, not just for their function, but for the joy and sense of belonging they create.

Best regards,

Tom M

Dear Sir/Madam,

This pertains to the above DA to remove HyperKarting as a tenant at the above address.

Keeping this business is extremely pivotal to Sydney's success and the ongoing development to make it a worldwide city.

The experience to go kart is like nothing else and it's such a bonus having such a great activity at the door steps of the CBD. Usually these kinds of activities you'll find way out west and to have this hear makes it's much more accessible to everyone.

I've had the best experiences at this place of business and have met some amazing friends and the team at HyperKarting.

Please reconsider and keep this wonderful and unique business at the forefront of Sydney's vision.

Best,
Troy

To whoever it may concern,

Without Hyper Karting, a significant slice of the “Entertainment” is removed from the EQ. It brings me and my friends together and we love how accessible it is for all skill levels to experience the excitement of racing in a safe and affordable away.

I’ve never seen the parking level below HyperKarting more than 10% full and for the 5 days of the year where the extra parking is needed, there is enough at the grass field next to the light rail stop and at centennial park.

Regardless, the council should be advocating for the use of public transport for large events instead of accomodating for more cars which creates even more delays and risks on our already overcrowded roads.

Shutting down HyperKarting would be a massive mistake, costing thousands of fans of a hobby and a place to celebrate and socialise as well as the 150 jobs it provides.

Regards,
Vincent Vangi

I am writing to express my strong support for the Hypercarting facility and to urge the council to reconsider any plans to revert this vibrant space into a standard car park.

Hypercarting represents a bold, innovative use of space that brings genuine value to our local economy and community. Simply returning this area to asphalt would be a significant step backward. I encourage the council to consider the following benefits of maintaining this site:

- Activating the Parklands: This facility successfully draws people toward an underutilized area, transforming it into a high-energy destination that breathes life into the precinct.
- Vertical Innovation: Hypercarting demonstrates how we can maximize a footprint by building upward, creating a multi-dimensional experience for both residents and tourists.
- A Unique Vision: Our community deserves distinct recreational hubs that set our area apart from neighboring councils.
- Smart Parking Solutions: We do not need to sacrifice local business for parking. A more creative approach would be to open the field for overflow parking on weekends only, maintaining the facility's operations during the week while addressing peak traffic demands.

Converting this site back into a permanent car park would be a waste of a high-potential community asset. I ask that the council continues to support local business and "outside the box" thinking for our public spaces.

Sincerely,

Sam Whitaker

Subject: Submission - Review RD/2023/897/A – 116 Lang Road, Moore Park NSW 2021 - Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Att: Shannon Rickersey

Dear Shannon

I write to lodge an objection in relation to the above-mentioned application, following the City of Sydney's decision to refuse an application to extend the operating approval for Hyperkarting at 116 Lang Road, Moore Park NSW 2021.

The Hyperkarting facility provides a well-utilised recreational use that is consistent with the established entertainment and sporting character of Moore Park. Its continued operation contributes positively to the activation of the precinct, supports local employment with over 150 employees, and provides a lawful, managed recreation option for the community.

The proposed closure would materially diminish the diversity of recreational uses within the Moore Park precinct and is likely to reduce visitation outside major event times. This outcome would be inconsistent with planning objectives that seek to promote active use of public precincts and support a mix of leisure activities.

The proposed closure of the Hyperkarting facility would result in the site reverting to car parking, despite the existing car park being materially underutilised almost all of the time.

For these reasons, I respectfully request the operating approval for Hyperkarting be extended in accordance with the development application.

Kind regards
Ben

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

This is the most popular attraction at the Moore Park entertainment precinct.
The place was rescued from being a white elephant by the opening of this outlet.

It may not be entertainment that suits the aging in-group that appears to be in charge at the moment, but that does not mean it should be shut.

The go kart track means more business for the food outlets, and makes it more likely that he cinemas will be attended (they are otherwise in massive decline, you must acknowledge).

This area will revert to windswept emptiness without the go kart track.

Hi there,

Please allow hyper karting to stay open! A fixture for my family and friends and we visit often.

Jennifer

Dear Shannon,

I hope you are well. I wanted to send my sincerest support for keeping Hyper Karting Sydney at Moore Park.

Apart from the fun and exciting activity it provides people of all ages which is undeniable, I'd like to speak to the management of Hyper Karting which speaks volumes of the support it's getting.

I have two sons who have enjoyed hyperkarting as an activity for years. One of my sons started working there last year and I have been nothing short of impressed with how it's run. I have seen him go through training, get regular feedback, progress his skills all in an extremely well thought and positive work environment.

The comments I've read in many of the feeds, don't just speak to the fun of the activity but how great the staff are! This is a true testament to the management and staff who live what they do and do it with pride.

Activities in Sydney are few and far between so when HyperKart moved to EQ it was a game changer!

We'd be so grateful for your support in keeping Kyper Karting Sydney open.

I'd be very happy to answer any queries you may have if needed.

Very best wishes,

Mary

Hi there,

We are local residence and have frequented Hyper Karting over the last 2.5 years. It's a great community meeting venue and has given my kids the opportunity to experience karting. This has been life changing as my oldest son now races at state and national level. We are grateful for the encouragement and support given to us (and other families) by the staff at Hyperkarting. We have never experienced the carpark being close to full so struggle to see a benefit to the community by offering more spaces at the detriment of Hyperkarting. We support Hyperkarting remaining open as a vibrant community hub.

Regards,

Adam Cameron

Dear Shannon,
I am writing to express my concern regarding the decision to close Hyper Karting (HK).
My understanding is that the council had previously approved expansion plans for this site.
If that is correct, the decision to now move toward closure raises questions around consistency and long-term planning.
From a community perspective, Hyper Karting provides a valuable local recreational option for families.
In my experience, parking availability within the EQ precinct has not been an issue during visits or events, which makes the rationale for closure difficult to understand.
More broadly, the decision appears at odds with the council's stated commitments to sustainability and community engagement.
Removing a local recreational venue is likely to push families to travel further afield, increasing both cost and environmental impact.
At a time when many households are already under financial pressure, and local businesses are navigating challenging conditions, decisions like this have wider implications - not only for the business itself, but for employment and surrounding businesses that benefit from foot traffic in the area.
Decisions of this nature should be clearly justified, particularly where they impact community access, local employment, and small business viability.
I would strongly encourage the council to reconsider this decision, or at the very least provide greater transparency around the rationale and any alternative solutions that have been explored.
Kind regards,
Alan

Dear Sir / Madam

I am writing as a nearby resident of Renny Street in Paddington to express my strong support for Hyper Karting and to advocate for its continued operation.

Having a quality local entertainment option within close proximity is incredibly valuable for families in our area. Facilities like this provide safe, engaging, and accessible activities for children and adults alike, without the need to travel long distances. In a dense inner-city environment, this type of amenity plays an important role in community wellbeing and lifestyle.

My family and I have personally attended multiple children's parties at Hyper Karting, and each experience has been extremely positive. The venue is well run, enjoyable, and offers something genuinely different compared to typical entertainment options. It has become a reliable and much-valued destination for celebrations and social gatherings.

It is genuinely distressing to hear that the venue may close. The Entertainment Quarter is already, in my view, an underutilised asset, and Hyper Karting is one of the few attractions that actively draws families and visitors to the precinct. Removing it would be a step backwards.

Our area does not need fewer facilities like this-it needs more. Retaining Hyper Karting would support local families, encourage greater use of the Entertainment Quarter, and contribute positively to the community.

I strongly urge you to support the continued operation of Hyper Karting.

Yours sincerely,
Alan Bennett

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon Rickersey,

I hope you are well.

I am writing to express my strong support for the continued operation of Hyper Karting at the Entertainment Quarter in Moore Park.

Hyper Karting has become one of the most unique and exciting attractions in Sydney. It brings energy, entertainment, and repeat visitation to the precinct, while giving locals, families, groups of friends, and visitors another reason to come to the Entertainment Quarter beyond major event days. It adds real value to the area and helps make the precinct feel vibrant and active.

I understand there may be concerns about preserving parking capacity. However, from my own experience visiting the Entertainment Quarter, the case for replacing Hyper Karting with additional parking does not feel convincing. Even when there are popular events in Moore Park, the expanded car park does not always appear to be fully utilised. By contrast, Hyper Karting is an active attraction that contributes to the identity, appeal, and economic activity of the precinct.

Removing a destination like Hyper Karting in order to prioritise more car spaces would be disappointing, especially when Hyper Karting is exactly the kind of entertainment offering that helps the Entertainment Quarter stand out. It is not just a business; it is part of the precinct experience and something that many people genuinely value and want to keep.

I respectfully ask the City of Sydney to reconsider any decision that would put Hyper Karting at risk and instead support its continued operation. Keeping Hyper Karting open would help preserve jobs, encourage local visitation, and maintain a unique entertainment experience in Sydney.

Thank you for taking the time to consider this submission.

Kind regards,

Aldwin Arambulo

Please don’t get rid of this place. It’s been a staple for so many memories between me and my friends, their children and more. The staff are amazing and it would be such a loss for everyone involved to lose that magical space. We live in such a digital world, karting and the pure joy it brings it priceless.

Please reconsider.

Dear Council Team,

I am writing as a Sydney resident and supporter of Hyper Karting to express my strong support for this business and to urge Council to do everything reasonably possible to help it continue operating.

Hyper Karting is a unique and valuable attraction for Sydney. It provides a safe, engaging and memorable experience for families, children, young adults and the wider community. Venues like this are increasingly rare, and once lost, they are very difficult to replace.

Beyond entertainment, Hyper Karting contributes positively to the local economy, creates jobs, brings visitors into the area and adds to Sydney's diversity of family-friendly recreational activities. It would be a real loss to the community and my family if it were forced to close permanently.

I strongly encourage Council to work constructively with the operators to explore practical solutions that would allow Hyper Karting to remain open.

Please consider the significant community value this venue brings when making your decision.

Kind regards,

Anand Venkatachalam | [redacted]

Dear City of Sydney

I came to enjoy and promote Moore Park's Hyper Karting just earlier this year. So I'm saddened to hear it may be forced to close in less than a year.

I've attended the Entertainment Quarter for a number of events, and the parking has never been filled to capacity in the times I have visited.

The decision to not renew a popular attraction for people from all over Sydney for car spaces that are not required is unwarranted.

Furthermore, Hyper Karting also brings my friends and I to eat a meal at the surrounding food attractions. The removal of Hyper Karting is a loss to surrounding businesses.

If there are hidden motives for its forced closure, those reasons should be revealed so they can be either accepted or challenged by the public.

As it stands, there appears to be no justifiable reason for forcing Hyper Karting out of its current space.

Please renew the approval for Hyper Karting to operate in the Entertainment Quarter, providing ongoing fun, business, and entertainment options for many patrons for years to come.

Kind Regards
Andrew Drury

Hi team,

Hyper Karting should be able to stay where they are, the business has been a source of entertainment for myself and family for many years.

It's a fantastic contribution to the community, there are not many places left that offer the entertainment and environment Hyper Karting do.

Regards,
Andrew Horinka

The hyperkart track must remain open. It provides an action experience which is safe and quiet (electric karts). We have used it for business outings and friend outings.
It is easy to get to and gets people away from screens. It is vital to support any recreational activity like this.
Regards, Andrew.

Dear Shannon Rickersey,

I write in support of Hyper Karting at 116 Lang Road, Moore Park. I have attended the venue on multiple occasions, both as a workplace team activity and as a leisure outing with friends, and consider it a genuinely valuable recreational asset for the area.

As a venue easily reached on foot and light rail, it serves the community without relying on private vehicles, which aligns well with inner-Sydney planning priorities. Replacing or reducing this use in favour of parking would be a poor outcome. Car parking generates minimal community benefit and counters efforts to reduce car dependency in well-connected urban areas.

I respectfully urge that Hyper Karting be prioritised over any parking proposal in this location. Thank you for considering this submission.

Kind regards,

Ben Cardenas

Dear Council Members,

I am writing to express my strong opposition to the proposed closure of our local go-kart track, a valued facility that has long served as a cornerstone of recreation, employment, and community engagement in our area.

This track is far more than just a place for leisure. It provides employment for over 100 local residents, contributing significantly to our local economy and supporting many families. At a time when job security is increasingly important, the loss of these positions would have a tangible and negative impact on our community.

Equally important is the role the track plays in bringing people together. It offers a safe, structured, and enjoyable environment where children, young people, and adults alike can participate in a fun and engaging activity. For many families, it is one of the few accessible recreational outlets that caters to all age groups, encouraging social connection, outdoor activity, and skill development.

As a local resident, I would also like to address concerns that may relate to parking and traffic in the area. In my experience, I have not observed any significant or ongoing issues with parking availability. Additionally, during major events in the surrounding area, parking fees here are often set at a level that is excessively high and difficult to justify, placing an unnecessary financial burden on visitors. This broader context should be taken into account when assessing any claims regarding parking pressures.

Closing this facility would not only remove a beloved community asset but also reduce opportunities for positive, healthy recreation in our area. In an era where encouraging active lifestyles and community interaction is more important than ever, the loss of such a venue would be a step in the wrong direction.

I respectfully urge the Council to reconsider this proposal and explore alternative solutions that preserve the go-kart track while addressing any concerns that may have been raised. Protecting local jobs, supporting small businesses, and maintaining accessible recreational spaces should remain a priority.

Thank you for considering the views of residents who value this important part of our community.

Regards,
Brad Thomas

Dear City of Sydney,

I'm writing to express my support for keeping HyperKarting open and urge you to reconsider plans to replace it with a car park.

HyperKarting provides a unique recreational space for the community, offering entertainment, social connection, and an active experience that a standard car park simply cannot replace. Spaces like this add value to the city's lifestyle and appeal.

Please consider preserving this venue for the benefit of residents and visitors.

Kind regards,
Charlene

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear City of Sydney Council,

I am writing as a long-term patron of Hyper Karting at the Entertainment Quarter in Moore Park to express my strong opposition to the decision to deny a lease extension for this outstanding facility.

I have been visiting Hyper Karting for many years and it is, without question, the primary reason my family and I make the trip to the Entertainment Quarter. When we visit, we don't just race — we spend time and money across the entire precinct, enjoying the restaurants, bars, and other businesses that make up the quarter. Without Hyper Karting, I have no reason to visit the Entertainment Quarter, and I will not be doing so.

I appreciate that parking availability in the precinct is a genuine concern, particularly as on-grass overflow parking at Moore Park is progressively phased out. However, I understand that Transport for NSW data shows the car park has reached full capacity only a handful of times across 84 major events since Allianz Stadium reopened. This suggests there is room for a balanced solution — one that doesn't require the complete removal of a thriving, well-loved attraction.

I respectfully urge the Council to:

- Reconsider the decision to reject the two-year lease extension
- Engage with Hyper Karting to explore a compromise that addresses parking needs without eliminating the facility
- Consider the economic and social contribution this venue makes to the Moore Park precinct and the broader community

Sydney is actively working to revitalise its entertainment and nightlife offering. Closing one of its most popular and distinctive attractions — to restore car parking that data suggests is rarely needed — sends the wrong message entirely.

I hope the Council will reconsider this decision and work collaboratively toward a solution that preserves both parking capacity and this irreplaceable community asset.

Thank you for taking the time to consider my submission.

Chris Day

To Whom It May Concern,

We cam all the way from Perth Western Australia to do the Hyper Karting.
We attended on the Easter weekend

It was so much fun, extremely well organised and great value.
I cannot imagine a reason to shut this group down or relocate them.
The position was fantastic we were able to go and eat and drink afterwards.

Considering we heard about the Hyper Karts from other friends in Perth it clearly evidences the fact they puck a punch in the “things to do in Sydney” scene.

We really hope you keep this and something similar opens up in Perth

Many thanks and kind regards,

Dear Council Members,

To I am writing to formally object to the decision to reject the operating approval extension for Hyper Karting at the Entertainment Quarter <https://urlscanner.mailmarshal.cloud/?c=16815&d=joPV6Sgy-0SL3hmcqvpun_3hFG9gwkeLDs-7l7VODQ&s=115&u=https%3a%2f%2fhyperkarting%2ecom%2eau%2f> (EQ). This facility is a vital community asset, and its removal would be a significant loss to Sydney's recreational landscape for the following reasons:

* Loss of a Key Attraction: Hyper Karting is one of the busiest attractions in the precinct, welcoming over 500,000 visitors since 2021. Closing it removes a primary reason for families and tourists to visit the EQ outside of major sporting events.
* Job Insecurity: The closure puts more than 150 local jobs at immediate risk, which is a devastating blow to the local workforce and the economy.
* Misalignment with Future Vision: The NSW Government and Premier Chris Minns have expressed a desire to transform the EQ into a "year-round hospitality, events and culture destination". Replacing a high-tech, eco-friendly electric karting facility with empty car parking spaces contradicts this vision of a "city for people, not cars".
* Inclusive Community Resource: The track is a rare facility used by disability groups and provides an accessible, all-weather activity for various community sectors.
* Redundant Parking: With the opening of a new 1,500-space underground car park at Allianz Stadium, the need for Level 5 of the EQ car park to return to vehicle use is highly questionable.

I urge the Council to reconsider this decision and grant the requested extension to ensure Hyper Karting remains a centerpiece of the Moore Park precinct.

Regards

To whom it may concern,

I am writing as a regular customer to strongly support Hyper Karting's application to extend their operations on Level 5 of the Entertainment Quarter car park in Moore Park.

Over the past two years I have visited Hyper Karting approximately 10 times, travelling from the Northern Beaches each time. It is an excellent facility with friendly staff who consistently deliver a great experience. Importantly, it is by far the most affordable go-karting option in Greater Sydney — their top session price of $54 is roughly half what competitors in Eastern Creek, Villawood and other western locations charge for similar 10-minute sessions.

The location is also highly convenient, being just a short walk from the Moore Park light rail stop that connects directly to the CBD. After karting sessions, many customers naturally move on to the restaurants and pubs in the Entertainment Quarter. Removing Hyper Karting would likely reduce foot traffic and hurt these nearby businesses, especially on weekday evenings when there are fewer alternative activities in the precinct.

From my own experience attending major events at Allianz Stadium (including both nights of Travis Scott's concerts), I have never seen the Entertainment Quarter car park reach capacity. Even arriving without excessive earliness, I was able to find good parking on Level 3. This suggests the 287 spaces on Level 5 are not under constant high demand.

Hyper Karting has proven to be a popular, family-friendly attraction that supports local jobs and brings visitors to the area. I respectfully urge the Council to approve the extension so this valuable community and economic asset can continue operating while longer-term planning for the precinct is finalised.

I apologise if any part of this submission comes across too strongly — I simply feel very passionate about preserving one of Sydney's most enjoyable and accessible entertainment options.

Thank you for considering my views and for your work on the Moore Park precinct.

Kind regards,

Dale Spelman.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Please save the karting. Its a great place to spend birthdays and the weekends.

We need more entertainment options like this in Sydney.

We also need less car parks. The council should force people to use public transport, please dont make it easier for them.

Thanks,

David

To whom it may concern,

I am writing to express my concern regarding the decision to revoke the licence for Hyperkarting at Moore Park.

I've been attending the venue casually for several years, and it's consistently provided a unique and enjoyable recreational activity. It makes effective use of a space that is otherwise mostly underutilised, while offering a safe and accessible way for people in the city and surrounding communities to experience karting.

Facilities like this contribute positively to the local area by encouraging social engagement and providing an alternative form of entertainment. I believe its removal would be a loss to the community.

I hope that this decision be reconsidered.

Kind regards,

Dean Belcastro.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

I am writing to formally express my concern and disappointment regarding the refusal of the Section 4.55(2) Modification Application to extend the time-limited development consent (RD/2023/897/A). This application sought to permit the continued use of Level 5 of the Entertainment Quarter car park for electric go-karting and associated entertainment activities until 1 July 2028.

Hyper Karting is a well-established, family-friendly attraction that contributes meaningfully to the local economy, draws visitors to the Entertainment Quarter precinct, and provides a safe, engaging recreational option for families, children, and tourists alike. Facilities of this kind are precisely what makes Sydney a vibrant and liveable city.

The Council should reconsider this decision and reflect on its broader obligations to support businesses that activate public spaces, create local employment, and cater to the growing demand for family-oriented entertainment in our city. The Entertainment Quarter is ideally suited to this type of use, and the extension requested — a modest continuation to mid-2028 — is both reasonable and proportionate.

Regards,
Des Lim

Dear Shannon Rickersey,

I am emailing regarding the closure of HyperKarting at Moore park.

Closing hyperkarting would undoubtedly reduce foot traffic in the entertainment precinct. For me, it is the only reason I visit the precinct at all. There are no other go karting facilities nearby myself or close to the CBD for work events. Closing it would remove any incentive to visit the precinct.

Removing HyperKarting for extra parking is misguided. You will only induce demand for parking during short periods (like sporting events) while killing the precinct outside of these infrequent events.

Diarmuid

The refusal of this application on the grounds of impact to car parking spaces is contrary to your very own council mandated strategies.

Per council's transport and access strategy it is specifically quoted as:
"We are encouraging people to travel by public transport, bike or foot to ensure our city remains sustainable and attractive while still meeting the needs of businesses that have set up shop in the local area."

With the emergence of the light rail, why are you looking at reintroducing more parking spaces and increasing the congestion in the area. Furthermore, based on the parking data, the notion that the Hyperkart establishment should suffer as a result of <20 days where additional parking is mildy near capacity (i.e. 80%+) is somewhat ludicrous.

Hyperkarting is not only a family friendly and inclusive activity, the karts being electric are not only zero tailpipe emissions but also cause minimal noise. It remains the best use of a largely unused car park level I have ever seen.

Perhaps council time should be better spent on making decisions on how to better improve the access to the surrounding area instead of making decisions that encourage higher traffic congestion, greated carbon emissions and overall degrading the limited night time economy that exists in the EQ at the moment.

Subject: Save Hyper Karting

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Hi,
I hear City of Sydney wants to close Hyper Karting at Moore Park for more parking.
This is pretty sad news as parking in the Eastern Suburbs, in that area, is pretty reasonable, as are public transport options. I've taken my children to Hyper Karting before and will continue to take them as it's an experience that is fun, a little different and great for those who don't like traditional sports. It's what they want for their birthday present each year and a great activity for tweens and teens to participate in.

Please don't close Hyper Karting for parking - there are other options for parking nearby and people can use public transport. If parking is such an issue, put restrictions in place with new builds. There are huge numbers of apartment buildings in the surrounding area that have been built in the past 15yrs, with even more going in and with those apartments, not every one of them has a parking spot - start with changes to this, it would mean more cars off the street and give people the option who don't need it to lease theirs. Many apartments that do have parking only have one spot and, again, the option to add another to their title, or to hire from the strata would be better than forcing resident cars onto streets.
I know, you'd prefer people using public transport, it's simply not a reasonable option for many, which is why parking is important in apartment buildings.

We come from North Sydney to access Hyper Karting and using public transport isn't really feasible - it would take us 90-120 to get there via public transport.
I've also been with my Scout Group (we carpooled), 26 Scouts and they love it! They want to go again in May. The older Scout section also has 28 members and they also want to go. The closest similar opportunity for us is Western Sydney, which is 90-120mins driving and most of those are outdoor tracks so are weather dependent. The beauty of Hyper Karting is when it rains (which Sydney has had lots of in the past few years!) this is an activity that we can get out and do.
Hyper Karting is a fabulous experience for all the people living within a 45-60mins drive to be able to access, and many of those could use public transport to get there. It's also close enough to the city for tourists to use - it's something we look for on our holidays out of Sydney all the time now, the opportunity to go hyper or go karting because it's great for teenagers and families.

Kind regards,
Emma Vozzo

Hi Shannon,
Hyper Karting are wonderful contributors to the local community and to Sydney more broadly. I went karting there as part of my 40th birthday, and it was the most talked about part of the celebration, such a great experience~
Please do not shut them down. 🙏🙏

Hi,

I'm writing to express my support for keeping Hyperkarting Sydney open and operating.

Venues like Hyperkarting are exactly the kind of small business that makes Sydney's entertainment scene worth showing up for.
They're independently run, they create local jobs, and they offer something genuinely different, the sort of experience that big chains and shopping centres simply can't replicate.
Losing a business like this doesn't just affect the owners. It affects the staff who work there, the suppliers they rely on, and the community that genuinely enjoys having it around.
Small businesses fold quietly, and once they're gone, they rarely come back.
I'd really encourage any decision-makers involved to consider what's at stake here. Not just a karting track, but a locally run venue that contributes to the fabric of the area.
Thanks for your time.
Grischa

Closing hyper karting would result in so many job losses, the removal of something where people can unwind and forget about their daily stresses and slowly kill off the night life in the surrounding area. All for a few car spaces that would only be occupied when other venues in the surrounding area are booked out. The solution isn't closing hyper karting its finding more room and opening other sections to allow for parking.

Best of luck hyper karting team

Don't put a bloody carpark where there is an amazing karting, celebration and video game arcade venue there. Went there for the first time 2 days ago and had a blast with the karts.

There are people there that depend on their jobs at hyperkarts. Imagine if you or your family members had their jobs taken away because of a parking lot lmao.

Best of luck to Hyperkarting

Hello

For entertainment options such as this particularly for younger people close to inner urban locations this is priceless.

I would strongly support reconsidering this business continuing to have this space to provide this service in place if some additional parking to a car park that already provides many parking spots.

Kind regards

Ian Perry

To Shannon Rickersey and the City of Sydney Council,

I am writing to express my support for the continued operation of Hyper Karting. As there are very few high-quality karting venues available in Sydney, this facility is a vital entertainment facility for the community. I urge the Council to consider the value it brings to Moore Park and allow it to remain open.

Thank you for your consideration.

Best regards,
Isaac Lam

Good afternoon city of Sydney council
I'm once again writing to implore you do not shut down Hyper Karting at Moore Park. Not only is it a wonderful social spot and provides Jobs for over 100 people. But it's also a spot that prides itself on being accessible for those living with Disabilities, removing this would make the lives of those who are disabled harder than it already is.
Please make the best decision for everyone involved.
Regards
Jack McCutcheon

Submission in Support of HyperKarting – Moore Park, Sydney

To whom it may concern,

I am writing to formally express my strong support for the continued operation of HyperKarting at its current location in Moore Park, NSW.

HyperKarting represents a high-quality, modern entertainment offering that aligns with the evolving expectations of both local communities and visitors. As councils increasingly look to activate precincts, drive visitation, and support diversified economic activity, venues like HyperKarting play a critical role in achieving these objectives.

Economic Contribution
HyperKarting contributes meaningfully to the local economy through employment, ongoing operational expenditure, and by driving visitation to surrounding businesses. Attractions of this nature increase dwell time within a precinct, benefiting nearby hospitality, retail, and tourism operators. The flow-on economic impact should be considered a key positive in any assessment.

Community and Social Value
The venue provides a safe, structured, and engaging recreational activity for a broad demographic, including families, young adults, corporate groups, and tourists. In a time where active, social entertainment is increasingly valued, HyperKarting delivers an inclusive experience that encourages participation and connection.

Alignment with Modern Entertainment Trends
Across Australia and globally, there is a clear shift toward experiential entertainment—venues that combine activity, technology, and social interaction. HyperKarting is consistent with this trend and contributes to Sydney maintaining its reputation as a leading destination for innovative leisure experiences.

Activation of Space
The presence of HyperKarting activates what may otherwise be underutilised commercial or industrial space, transforming it into a vibrant destination. This type of activation enhances the overall appeal of the area and supports broader planning objectives around place-making and precinct vitality.

Operational Standards and Management
Facilities of this nature typically operate under strict safety, noise, and operational guidelines. If any concerns have been raised, a collaborative approach between council and operator—focusing on mitigation and compliance—would be a more constructive outcome than closure. Retaining the business while addressing specific issues ensures both community standards and economic benefits are preserved.

Risk of Precedent
The closure of a well-established, compliant entertainment venue risks sending a negative signal to current and future investors in the area. Businesses require confidence and stability to invest in high-quality attractions. Supporting HyperKarting demonstrates that council values innovation, investment, and business sustainability.

Conclusion
HyperKarting is a positive contributor to the local economy, community engagement, and the broader vibrancy of the area. I strongly encourage council to work collaboratively with the operator to address any concerns, rather

than pursuing closure.

Retaining and supporting venues like HyperKarting is essential to fostering a dynamic, economically resilient, and socially engaging Sydney.

Thank you for considering this submission.

Please keep Hyper Karting!
It's a great family outing and we've been there many times.
EQ is well served by public transport so there shouldn't be a need for parking…. We've managed without it for 5 years!

I truly believe closing hyper karting for more car spaces is a terrible decision.

We should be promoting public transport to access venues such as hyper karting.

Dear Sir/Madam,

I write with great concern in relation to the above proposed closure of the Hyper Karting facility to make way for car parking spaces.

I have visited the Hyper Karting facility on numerous occasions, both weekends and weekdays (and even on special event days), and have never noticed the car park coming even close to capacity such that the Hyper Karting facility could be considered to be occupying space where cars would be parked. There is essentially zero benefit to shutting down the Hyper Karting facility. On the contrary, the detriment to the local community is significant as there are no similar racing facilities anywhere near the city such that local residents will lose a rare source of hands-on motorsport action which cannot easily be replaced. On each occasion I have attended, I did not see anyone leave without a smile on their face, such that the loss of the Hyper Karting facility would be immeasurable.

Based on the above, I would strongly urge the Council not to proceed with shutting down the Hyper Karting facility.

Kind Regards

John Lim

Dear ,Shannon Rickersey
I am writing to express my strong support for Hyper Karting and to urge you to reconsider any plans that would lead to the closure of this business.

Hyper Karting is a fantastic social hub within our community, offering a unique space for people to gather and connect. Furthermore, it provides an accessible and affordable go-karting experience right here in the city, which is a rare and valuable asset for local residents.

It would be a significant loss to see such a vibrant business close down. I believe that the proposed need for extra parking space does not justify the removal of a venue that contributes so much to the local culture and social fabric.

I hope you will take these points into consideration and support the continued operation of Hyper Karting.

Sincerely,

Kesh K

Good morning Sir/Madam,

In regards to the hyper kart race area, I request for your support in their business to stay and let them continue.
I would love to visit places that leaves a good lasting impression and memory in life, and one of those amazing place is the hyper kart racing area.
Thanking you for your consideration in advance.

Yours sincerely,
Ledua

Hi

I don’t understand where car parking is now an issue in an already overcrowded high rise accommodation situation.

This business has created jobs and a way for kids to have fun but it actually helped my daughter get her license through driving the karts.

It should not be pushed out but stay.

Thanks

I think it is crazy to have Hyper Carting close down.
It is a great local asset fun for friends and family and brings more people to EQ.
I've never had a problem finding a car park in that facility it seems unlikely it is ever at capacity.

Dear Council,

I write in strong support of the renewal of Hyper Karting's lease.

The proposal to resume control of the car park, at the expense of an established and actively used recreational operator, does not appear to represent an efficient or beneficial use of the space.

From direct experience, I attend Hyper Karting 2–3 times per week. Parking availability has never been an issue. Even during peak periods or organised events, there is consistently surplus capacity within the surrounding car park. In practical terms, the space is not being utilised in a way that justifies displacing an existing, well-used tenant.

By contrast, Hyper Karting generates regular and repeat visitation to the area. This has a clear flow-on effect to surrounding businesses, particularly food and retail operators, which otherwise have limited natural foot traffic (to an extent, non-existent, in the circumstances where there are no events on). Many patrons, including myself, attend Hyper Karting and then spend time at nearby venues. Removing this use will likely reduce overall activity in the precinct rather than enhance it.

Hyper Karting also provides a unique and accessible community offering. It is one of the most affordable karting options in NSW and has created a consistent, engaged user base. In my case, it has developed into a regular activity and interest that would not have been possible without this venue. The facility contributes to local activation in a way that a passive car park simply cannot.

In summary, the current use of the site delivers ongoing economic and community benefit, while the proposed alternative does not appear to materially improve utilisation of the space. On that basis, I respectfully submit that the lease should be renewed.

Kind regards,

Mike

Hello, I love to go to hyperkarting and it would be at a great loss to turn it into unused car spots

This place has been a healthy outlet for me and many of my friends and family to do some exercise and have fun together in a good environment.

I also work in the event industry and have worked many times in the entertainment precinct and have never once seen the car park full.

The city of Sydney does not need more car spots but instead needs more businesses like hyperkarting to stay in operation.

Regards,
Nicholas

Hi Shannon and city of Sydney team

Hyper karting is an incredible venue that had been so helpful in bringing work teams together and lowering the anxiety of my kids as they venture towards car driving in real life. It's proximity to the city is critical to its usefulness and it would be a massive blow to Sydney to see it go.

Regards
Nolan

Dear Ms Rickersey,

I am writing to lodge a submission regarding RD/2023/897/A for 116 Lang Road, Moore Park (Hyper Karting Sydney).

I strongly support the continued long-term operation of Hyper Karting at the Entertainment Quarter and respectfully request that the City of Sydney reconsider the current time-limited approval.

Based on the assessment documentation, it is clear that the proposal performs well across all standard planning considerations. The development has demonstrated compliance with noise requirements, minimal traffic impact, and no significant adverse effects on the surrounding environment or residential amenity. Importantly, the operator has also maintained a strong record of compliance since commencing operations.

Given these findings, the primary reason for limiting the approval period appears to relate not to the merits of the use itself, but to future uncertainty regarding parking capacity in the Moore Park precinct following the planned closure of on-grass parking.

While I acknowledge the importance of managing transport and access to major events, I believe it is not appropriate to constrain an established, compliant, and popular recreational use solely based on projected future parking scenarios that may evolve over time. Sydney is actively encouraging a shift toward public and active transport, and Moore Park is already well-serviced by light rail and bus networks.

Hyper Karting contributes meaningfully to the Entertainment Quarter by:

- Enhancing the diversity of entertainment offerings in the precinct
- Supporting local economic activity and jobs
- Activating underutilised space within an existing structure
- Providing a unique recreational experience not widely available elsewhere in Sydney

Rather than imposing a strict end date, I encourage the City to consider alternative approaches, such as:

- A longer-term approval with periodic review
- Conditional continuation based on demonstrated transport and parking outcomes
- Integration into broader transport planning strategies for Moore Park

This would allow a balanced outcome that supports both precinct accessibility and the continued success of a well-performing local business.

Thank you for considering this submission.

Dear Shannon,

I am writing to express my strong support for Hyper Karting Moore Park and to urge that the venue be allowed to remain open.

Hyper Karting is a valuable part of the Moore Park precinct, providing a unique recreational experience for the community. I believe it is important to preserve such spaces that offer entertainment and engagement for residents and visitors alike.

Thank you for considering my support for this venue.

Sincerely,

Rupert Hoang

Hyperkarts is an amazing entertainment venue for families and should remain open. It’s a valuable asset and destination for locals and improves night life in the area.

Please save hyper karting. It adds so
Much more to Sydney than more car parking spaces, especially now as people can use the light rail to get there and don't need to drive.

Put families first and give more people a reason to go to the entertainment quarter to make sure the whole area stays vibrant.

Thank you
Sarah Carli

Dear Shannon

I have seen on the news that there is a proposal to close down Hyper Karting in Moore Park.

Hyper Karting is a Sydney icon and is one of the best facilities of its kind in Australia.

I am strongly against the proposal to close it down, and am sure many other Sydneysiders would be of the same view.

Please don’t hesitate to email me with any questions.

Kind regards
Sean Tang

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To the Councillors and Planning Authorities of the City of Sydney,

I write to strongly oppose the decision to refuse the extension of operations for Hyper Karting.

This decision represents a fundamental misstep in urban planning priorities, favouring underutilised infrastructure over a proven, high-value community asset.

1. Proven Community and Economic Value

Since opening in 2021, Hyper Karting has transformed previously underutilised rooftop space into a thriving recreational hub. It has attracted significant visitation and supports local employment, contributing meaningfully to the Moore Park economy.

Removing this facility would:

- Eliminate jobs
- Reduce foot traffic to surrounding businesses
- Strip Moore Park of one of its few consistent, non-event-based attractions

This is not speculative value, it is already proven.

2. Misplaced Priority on Parking Over Activation

The justification for removal centres on reclaiming parking spaces. However, replacing a vibrant, active destination with dormant parking capacity is not forward-thinking urban planning, it is regression.

Moore Park should be evolving into a destination, not reverting to empty infrastructure that sits unused outside of peak events.

3. Alignment with Government Objectives

The broader strategic goal for Moore Park is to create a year-round destination for culture, entertainment, and community use.

Hyper Karting already achieves this by:

- Driving consistent visitation
- Providing nightlife without reliance on alcohol
-

Offering structured, safe recreation

Removing it directly contradicts these objectives.

4. Social and Inclusive Impact

Hyper Karting provides more than entertainment. It offers accessible, structured activity for a wide range of people, including those seeking safe and engaging social environments.

Facilities like this are essential for:

- Youth engagement
- Social connection
- Inclusive participation

5. No Demonstrated Harm

The venue has operated without significant issues. Noise, safety, and operational impacts have been managed appropriately.

There is no clear justification for removal based on harm.

6. Personal Impact, What This Place Actually Means

For me personally, Hyper Karting has been more than just an activity.

It has been a **go-to place on late nights and quiet days**, when there is genuinely nothing else to do in Sydney that offers the same kind of experience. It is one of the few venues where you can show up with friends, switch off from everything, and just enjoy yourself in a safe, structured environment.

That matters more than it might seem on paper.

Sydney often talks about creating vibrant, engaging spaces, but places like this already exist, and they are rare.

Everything about the venue works. The concept, the atmosphere, the experience. It should not be altered, and it certainly should not be removed.

7. A Reasonable Compromise Exists

This is not an either-or situation.

A balanced solution is entirely achievable:

- Temporary extension
- Partial parking integration
- Inclusion in future redevelopment planning

Outright removal is the least effective option.

This decision risks replacing a successful, community-loved destination with underutilised infrastructure.

Sydney does not lack parking. It lacks engaging, accessible spaces that people actually want to use.

Hyper Karting is one of those spaces.

I strongly urge the City of Sydney Council to:

- Reconsider the refusal
- Engage with stakeholders
- Prioritise activation over inactivity

This is a chance to support something that already works, not remove it.

Kind Regards,
Sharul Kumar

I am writing to request Hyper Carts stay open. It is one of the best things to do in Sydney & adds to the benefit of other businesses. What do you do after an hour of racing? Go eat! At one of the yummy local cafes downstairs. It helps the location is so convenient. To hear Hyper carts could possibly be closing was devastating. My boyfriend (at the time, now husband) took me on a date there. It was one of the best dates. It was a sunday morning , we left the northern beaches at 6 am to get there for our 7 am session. It was such a fun way to start our day. Now being married I look forward to getting to do that in the future. I hope Hyper carts get the support they need to stay open & contribute to making Sydney a better city.

Subject: Submission - RD/2023/897/A - 116 Lang Road, Moore Park NSW 2021 - Attention: Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To Whom it May Concern,

I am writing to formally express my support for the continuation of Hyper Karting at Moore Park and to strongly oppose any proposal for its closure.

Hyper Karting has become a valuable recreational facility within the Moore Park precinct, offering a unique and accessible activity for families, young people, and the broader community. It provides a safe, controlled environment for motorsport enjoyment and contributes positively to local tourism, entertainment, and the local economy.

Beyond recreation, Hyper Karting plays an important role in community engagement. It creates employment opportunities, supports local businesses through increased foot traffic, and offers a social outlet that encourages people to gather in a safe and supervised setting. Facilities like this are especially important in urban areas where accessible, family-friendly activities can be limited.

Closing Hyper Karting would remove a well-utilised and much-loved attraction without offering a comparable alternative. For many in the community, it represents more than just entertainment—it is a place for celebrations, bonding, and shared experiences.

I respectfully urge the council to consider the significant social, economic, and community benefits that Hyper Karting brings to Moore Park. Retaining this facility aligns with supporting active lifestyles, local business, and vibrant community spaces.

Thank you for considering this submission.

Yours sincerely,

Stephanie Cvetanoski

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon Rickersey,

I am writing to express my strong support for Hyper Karting Sydney and to urge you to carefully consider the impact its potential closure would have on our community.

Hyper Karting is a truly unique offering within Moore Park. It provides an accessible, exciting, and social activity that brings people together in a way that few venues can. I have personally had wonderful experiences there, and it stands out as a place where people of all ages can connect, compete, and enjoy themselves in a safe and inclusive environment.

At a time when opportunities for in-person connection and shared experiences are more important than ever, venues like Hyper Karting play a vital role in supporting community wellbeing. They offer not just entertainment, but a sense of energy, belonging, and vibrancy that contributes to the broader cultural fabric of Sydney.

Additionally, Hyper Karting provides meaningful employment for many people. Its closure would not only remove a valued community space but also impact the livelihoods of those who work there.

I respectfully ask that Council take into account the social, cultural, and economic value of Hyper Karting Sydney and explore every possible avenue to support its continuation.

Thank you for your time and consideration.

Talia Noon.

Hi,

I was recently informed that Hyper Karting at the Entertainment Quarter level four car park, has a development application that will close down the business if approved. Could I please ask why this application is being considered?

My understanding is that it is for more car park spaces, which seems rather ridiculous considering that car park is never full. The only time is used beyond level two is during Swans games but it would be a shame to shut down such a popular business just for one evening a weekend compared to a business that operates all day every day and late into the night.
Successful Long-term businesses are something to be protected in this economy. What's more, the enjoyment of thousands of customers a month and the employment of hundreds of individuals at the business, should be taken under serious consideration too. All of the above seem far more important to a vibrant city than and extra 200 or so car park spaces in an area far from transport hubs.

Sincerely,

Thomas Metzner

To whom it may concern,

I am writing to address the outright absurdity of this DA to expand parking at the EQ by way of getting rid of Hyper Karting.

Hyper Karting is a fantastic local business that provides a ridiculous amount of fun for so many locals and tourists alike. It is a truly unique business to have in the heart of the city. I would also go so far as to say it is the main attraction at the EQ besides the stadiums and concert venues. It also provides a lot of support to the surrounding businesses, as every time i attend, myself and my friends get a bite to eat before from either Marys or Winghaus, usually followed by a few drinks after racing at one of the pubs that i would never otherwise attend.

There is 0 need for more parking. The government spent billions on getting the lightrail developed. Central station is also walking distance from the stadiums which of course now has added capacity from the metro. I parked at the carpark which hyperkarting is situated in on the night of the rabbitos game as well as the faithless concert at hordern and there were plenty of parks still in that one carpark.

You should be encouraging people to use public transport, not driving.

You should also not be looking to further destroy any ounce of fun left in the Sydney metropolitan area especially at the expense of a thriving local business that has invested a lot into this business as well as its 150 employees and to the city of sydney more broadly.

You are meant to act in the best interests of the people, which there is no way the current plan is fulfilling. Do your job properly and keep hyper karting open.

Warm regards,

Xavier Wilson

Dear City Of Sydney,

Hyper Karting is the only karting track thats near the eastern suburbs. This place means a lot to me and my friends as we had memorable memories of us trying to beat each other at racing. Hyper Karting is what i enjoy most at entertainment quarter and will be the only karting place we all love. It has brought many memories from meeting new people from racing and staff along the journey. We can not shut down Hyper Karting just for parkspace when it is the most iconic part of Entertainment Quarter.

Thank you
Jayden

Hi CoS,

This is a very disappointing proposal. There are little to no'space' to hold entertaining parties for children within CoS. This facility teaches new skills to children and young teens/adults.

It is very well run facility with nice helpful staff and fairly priced.

Please reconsider the proposal to turn this into parking spaces. I thought CoS was about bike tracks, make up your mind which side you are on!

Kind Regards,

Aisling O'Donnell

To whom it may concern,
Hyper Karts Racing in Entertainment Quaters has been a key source of joy for both me and my family and friends, who use these go karts as a way to connect and enjoy with one another. We believe strongly that Hyper Karts Racing should not be closed down because not only is it a close Entertainment recreation to people in the area, it also brings business to surrounding shops and restaurants as entertainment cannot be started on an empty stomach. We would be deeply saddened to see this place go, especially if replaced for more parking space.
We hope you consider how much this place means to us and let Hyper Karts Racing stay.

Hi Shannon,

I'm writing to make a submission regarding RD/2023/897/A for 116 Lang Road, Moore Park.

I've visited Hyper Karting many times over the past few years and it's one of the most enjoyable and unique activities in Sydney. It's something I regularly recommend to friends and visitors, and it has become a genuine attraction within the Entertainment Quarter. It would be very disappointing to see it removed.

The venue clearly brings people into the precinct and adds to the overall experience of the area. Replacing it with additional parking does not seem like the best outcome for Moore Park, especially when the track is consistently busy and actively used by the community.

From a visitor's perspective, Hyper Karting adds life and activity to the precinct and provides something genuinely different for Sydney. Losing it would remove a popular entertainment option without delivering much benefit to the public.

I strongly encourage the City of Sydney to reconsider the decision and allow the venue to continue operating.

Kind regards,
Alex Loke

Hi there,

My nephew goes to Hyper Karting for his birthday every year. Many of my friends with kids use this facility at least monthly. Please don't dismantle this place which is a great "third place" for kids especially.

I understand the need for car parking but you gave the business a foothold to build a viable operation and community only to take it away? Doesn't seem like council have the best interest of the community or small business at heart.

Thanks for your consideration.

Good evening,

HyperKarting is a vital institution that has provided myself and countless friends with great fun and immeasurable memories. The forced closure of this place would result in great loss for many. I am formally emailing to demonstrate my position against the closure of Hyper Karting.

Thank you,

Alyxandria Fuller.

Dear Council Team,

I am writing as both a nearby resident and a regular user of HyperKarting at the Moore Park Entertainment Quarter to express my strong support for its continued operation.

The suggestion that additional car parking is required does not reflect my experience. I visit the precinct frequently and have consistently found parking to be manageable, even during peak times. The current arrangements appear to support local demand effectively.

HyperKarting is also one of the most valuable and vibrant entertainment offerings in the eastern suburbs. It attracts families, young people, and visitors, contributing positively to the area's activity, safety, and economic vitality. Losing it would diminish the diversity and appeal of the Entertainment Quarter.

I encourage the council to consider the significant community benefit this venue provides and to support its ongoing operation.

Kind regards,
Andrew Roy

To the City of Sydney Council,

I am writing to formally object to the proposed plan to replace the Hyper Karting facility in Moore Park with additional car parking space. This venue is far more valuable to our local community than just another lousy car park.

Over the years, Hyper Karting has become a beloved entertainment hub. Countless people have made lasting memories there with friends and family, and it serves as a fantastic active recreation space. Losing a vibrant community venue just to accommodate more stationary vehicles would be a significant step backward for the culture and spirit of the Moore Park precinct.

Furthermore, replacing this facility with a car park directly contradicts the goal of encouraging sustainable travel. The council should be actively promoting public transport. Providing more parking only incentivises people to drive, which adds to local traffic congestion. Moore Park is already exceptionally well serviced by public transport, with perfectly fine trains and the light rail providing easy and reliable access to the area. We should be encouraging visitors to use these excellent public options instead of making it easier for them to bring more cars into the city.

I strongly urge the council to reconsider this proposal. Please protect our community spaces and support sustainable transport options rather than paving over our local venues for a car park.

Thank you for your time and consideration,

Aren

Dear City of Sydney Council Team,

I am writing to respectfully request that the City of Sydney reconsider any plans to shut down **Moore Park Hyperkarting**.

Moore Park Hyperkarting is a valued recreational venue that provides a safe, inclusive and enjoyable activity for people of all ages. It plays an important role in activating the Moore Park precinct, encouraging healthy recreation and offering a unique entertainment option that attracts both locals and visitors.

For many members of the community, the venue is more than just a leisure activity; it is a place where families spend time together, friends connect and young people engage in a structured and supervised environment. Closing the facility would remove a much-loved attraction and reduce the diversity of activities available in the area.

I would kindly ask the City of Sydney to consider alternative solutions, community consultation, or potential improvements that would allow Moore Park Hyperkarting to continue operating in a way that aligns with council goals and community interests.

Thank you for taking the time to consider this request. I appreciate the work the City of Sydney does in supporting vibrant, active, and inclusive public spaces and I hope Moore Park Hyperkarting can remain part of that vision.

Yours sincerely,

Arnav

Dear Sydney City Council,

I'm writing to express my deep concern regarding the proposed closure of HyperKarting Sydney. This venue has become an important part of our community — a place where families, friends, and workplaces can come together to enjoy a safe and fun experience in the heart of the city.

Removing this business for the sake of additional parking spaces feels not only unnecessary but also deeply short-sighted. HyperKarting contributes far more to the local area than simple entertainment; it promotes social engagement, tourism, and economic activity. Closing it would jeopardize around 150 local jobs — a serious blow to both employees and the wider community.

Council should be supporting small businesses like HyperKarting, not making it harder for them to operate. These are the kinds of enterprises that bring life and vibrancy to Sydney. I urge you to reconsider the decision and explore alternatives that allow HyperKarting to continue contributing positively to our city.

Thank you for your attention to this matter and for your ongoing service to our community.

Kind regards,
Brett Jones

To whom it may concern,

Hyperkarting provides an opportunity for people based close to the city to experience go karting without the large costs of travelling out west to traditional go karting tracks.

It also provides much needed entertainment for local kids and from surrounding areas.

It would be a huge mistake to close this down to provide more parking.

Regards,
Ben

Dear Moore Park Council,

I'm curious why after five years you've decided to say no and we don't want you here. This place we call Hyper Karting is an amazing experience, and I'm surprised you'd want to get rid of it after so many years. There's no reason to. This business hasn't hurt you or affected you in any way possible maybe the cars park on the grass, but it's not affecting anyone.

I've been to hyper karting countless times and every single time a fantastic experience. This upsets everyone working there having fun there. You can't ignore us and you can't stop all of us having fun we respect your wishes and help Moore park by make putting Moore park back on the map think of how much more popular it has gotten since hyper karting has been there

Please hear our voices and don't shut down the entertainment we all love and cherish

Kind regards Ben Segalla a proud fan of hyper karting

Don’t close Hyperkarting the parking lot is never full and there will be more parking in 12 months time so it won’t be a problem in the future. I’ve been going the for years and recently started working there for a second job. I’ve made many friends from racing regularly there, people I would have never met otherwise. There is nothing like it in the local area which for someone like me who lives near Maroubra means I need to drive minimum 30 minutes on a tolled motorway to get to the next nearest go karting place which can quickly rake up an expensive bill especially with the current fuel prices. I CAN’T EXPRESS THIS ENOUGH PLEASE DON’T CLOSE HYPERKARTING.

Dear Council Members,

I am writing to express my strong support for keeping Hyper Karting operating at the Entertainment Quarter.

Hyper Karting plays an important role as a family-friendly venue that provides a safe, engaging, and active environment for children and parents alike. In a time where screen time is increasing and opportunities for real-world interaction are becoming more limited, places like Hyper Karting give kids a chance to build confidence, learn new skills, and enjoy meaningful experiences with their families.

It is not just about entertainment — it's about connection. Families can spend quality time together, kids can develop coordination and social skills, and it creates positive, lasting memories. There are very few venues in Sydney that offer this kind of experience in such an accessible and inclusive way.

Replacing a thriving family destination with additional parking spaces would be a significant loss to the community. The benefit of a small increase in parking does not compare to the social and developmental value that Hyper Karting provides to families across Sydney.

Additionally, the potential loss of over 150 jobs would impact many local families who rely on this workplace for income and stability.

I strongly urge the council to prioritise community-focused spaces that support families, children, and local employment, and to reconsider any plans that would result in the closure of Hyper Karting.

Thank you for your time and consideration.

Kind regards

Hi,

I'd like to express our strong support behind Hyper Karting. This has been an incredibly valuable option to entertain kids and adults alike with no similar alternative of any quality close to the city.

It would be an incredible shame to lose it just to increase parking availability - which outside of large events - I imagine would be rarely fully occupied.

Kind regards,

Brionny Rogers

Hi,

I'm writing to ask that you please reconsider shutting down Hyper Karting. It's a great place that brings people together and attracts visitors to the city. Venues like this also help support nearby businesses by bringing in extra foot traffic and activity.

Closing it down would not only remove a popular attraction but could also result in lost jobs and less business for the surrounding area. In comparison, gaining a few extra car parking spots doesn't seem worth the loss of such a valuable community and entertainment space.

Please consider allowing Hyper Karting to remain open.

Thank you for your time and consideration.

Kind Regards,

Buddy

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

I'm writing to express my strong support for the continued operation of Hyper Karting at Moore Park and to respectfully oppose any plans for its closure.

Hyper Karting has become a valuable recreational and social asset within the community. It provides a safe, well-managed environment for people of all ages to enjoy motorsport, develop driving skills, and engage in a unique form of entertainment that is not easily found elsewhere in Sydney. Its accessibility and central location make it especially important for locals and visitors alike.

Beyond recreation, the venue contributes positively to the local economy by creating jobs, attracting visitors, and supporting surrounding businesses. It also offers a structured and controlled alternative to unsafe driving behaviors, promoting responsible engagement with motorsport in a supervised setting.

Closing Hyper Karting would mean the loss of a distinctive community space that brings people together, encourages active participation, and adds vibrancy to the Moore Park precinct. I strongly believe that its benefits far outweigh any concerns, and I urge decision-makers to explore solutions that allow it to continue operating successfully.

Thank you for taking the time to consider community feedback on this matter. I hope you will take into account the value that Hyper Karting brings to the area and support its ongoing operation.

Kind regards,
Cal French

Dear Shannon

I recently became aware that the Council intends to take over the lot currently occupied by Hyper Karting in order to create a few additional car parking spaces.

The Entertainment Quarter would benefit far more from expanded entertainment options than from a small increase in parking. Hyper Karting is a popular venue, particularly for corporate events, and it makes a valuable contribution to the precinct.

Requiring Hyper Karting to cease operations would also place 150 employees' jobs at risk.

I strongly urge the Council to reconsider this proposal and allow Hyper Karting to remain open.

Kind regards

Caroline Tsau

Dear Sydney council

I'm emailing today to send my words across that I think it's an absolute joke that ye are trying to get rid of hyper karting hyper karting brings noting but joy to family and friends for outings.
Ye want to get rid of hyper karting for the sake of one floor of a car park spaces that will only be used when there's a few games on.
Hyper karting should get a lot more of a priority the fact it's there 5+ years.
Build a new car park for the games why should a business that hires so many people and brings such joy to family and friends all over Sydney lose out on such a popular business

I hope ye get enough compliments and will come to the correct decision of not closing hyper karting.

Thank you for taking time to read this email

Kind Regards

Hi there

I live on Cook Road, Centennial Park and I was asked for feedback about this proposal.

I support the proposal for this karting business to remain on the top level of the car park at the Moore Park Entertainment Quarter.

It is a thriving and vibrant business that brings a lot of stimulation to the local entertainment function at Moore Park. Using this space as a car park again is unnecessary and would be a waste compared to the value of how the space is used now.

Thanks
Chris O'Connor

To whom it may concern,

I'm writing this email to oppose of Hyper Karting being shut down to make room for more parking spaces.

I've been there multiple times and without a doubt, every time has been such an enjoyable experience. Another car park is not what Sydney needs. With third spaces and activities being shut down day after day, a place where people can go and have fun is needed especially with current events. There's no reason for additional parking if there's no reason to even visit.

The other businesses in the Entertainment Quater would surely benefit from keeping Hyper Karting open.

I hope you strongly reconsider.

Hello

I am writing to express my strong support for Hyperkarting.

What has been achieved, turning an under-utilised car park into a thriving entertainment venue is astonishing.

Thousands of people enjoy the activity. It not only provides many jobs, but brings commerce into the precinct.

The car park spaces are simply not needed. When the new car park is finished there will actually be more spaces than are currently available, even once all the grass parking is removed.

How does is this decision in the public interest?

Many thanks for your consideration.

Colin.

Dear Shannon Rickersey,

I am writing to formally object to Development Application RD/2023/897/A, which proposes to expand the Moore Park car park and would result in the permanent closure of Hyper Karting at the Entertainment Quarter.

As a regular visitor to Hyper Karting, I urge the City of Sydney to reconsider this decision carefully before irreplaceable community value is destroyed in exchange for car spaces that will sit largely unused.

Hyper Karting is far more than a go-kart track. Since opening in 2021, it has become a genuine community hub — a place where families, friends, and colleagues come together to share experiences. I held my son's 8th birthday party there and have returned regularly during school holidays with him and his friends. These are the kinds of memories and milestones that a car park simply cannot replace. Closing Hyper Karting takes away a meaningful part of growing up for children across Sydney, and a place I will sorely miss being able to bring my family to.

The closure would result in the loss of over 150 jobs — real livelihoods belonging to hardworking, dedicated staff who go above and beyond to create a welcoming space for people who share a love of fun and freedom on the track. At a time when the NSW Government has publicly committed to revitalising Sydney's entertainment and nightlife, closing a venue that operates seven days a week and has welcomed more than 500,000 visitors since 2021 sends entirely the wrong message.

The proposed development would add 296 new car spaces — spaces that will hardly be used. Data already shows that parking usage in this precinct is low, and a new underground car park is reportedly forthcoming. The idea that 296 additional empty spaces represent a greater public good than a thriving, well-loved entertainment venue is simply not justified.

Hyper Karting transformed previously disused parking bays into something extraordinary and widely valued by the Sydney community. Reversing that in favour of empty concrete serves neither visitors nor the broader vision for a vibrant Sydney.

I respectfully ask that the City of Sydney Council:

- Refuse or defer Development Application RD/2023/897/A pending genuine community consultation
- Reconsider the decision to deny Hyper Karting's lease extension
- Explore a compromise solution that meets any legitimate parking needs without sacrificing 150+ jobs and a beloved community venue

Sydney deserves entertainment infrastructure that brings people together. I strongly urge you not to replace it with a car park that will go largely unused.

Yours sincerely,
Daniella Cvetkovski

Hyper karts has been the best thing about the entertainment quarter in 20 years and I've been going since I was a kid.

I strongly disagree with removing it for car spaces. It has brought life back to the eq that is has been missing.
Plus the employees there genuinely care and love their jobs and would be awful if that was taken away from them.

I hope the government reconsider this idea.

Kind regards

Dear Council Team,

I'm writing to express my strong support for Hyper Karting Sydney and to urge the council to consider the broader value this venue provides to the community before making any decision that could lead to its closure.

Hyper Karting Sydney is more than just a recreational facility. It contributes meaningfully to the local economy, creates employment opportunities, and offers a safe, structured environment for people—particularly younger individuals—to engage in motorsport in a controlled setting. Facilities like this play an important role in fostering interest in engineering, driving skills, and community participation.

From a social perspective, it is one of the few venues that appeals across age groups, providing an accessible and engaging activity for families, friends, and corporate groups. Removing it would leave a noticeable gap in local recreational options.

I also believe it is worth considering whether any concerns raised—whether related to noise, planning, or other regulatory matters—can be addressed collaboratively with the operators rather than resulting in closure. A balanced approach that preserves community assets while managing impacts would be in the best interest of all stakeholders.

I strongly encourage the council to work constructively with Hyper Karting Sydney to find a path forward that allows it to continue operating.

Thank you for your time and consideration.

Kind regards,
Dominic Bou-Samra

To whom it may concern,

I am writing to strongly object to the proposed closure of Hyper Karting at the Entertainment Quarter.

This decision is deeply disappointing and, from a community perspective, very hard to justify. Hyper Karting is not just another commercial venue. It is a rare recreational facility that provides families, teenagers, young adults, and groups with a safe, structured, and engaging activity in an area that should be encouraging exactly this kind of accessible entertainment.

Closing it would remove an important local attraction that contributes to the vibrancy of the Entertainment Quarter and the broader community. It offers people a legitimate, supervised, and active leisure option, supports local jobs, draws visitors to the precinct, and helps nearby businesses through increased foot traffic. In a city where people constantly complain that there are not enough things to do, especially for older kids, teens, and families, shutting down one of the few genuinely attractive activities sends the wrong message.

It is also hard to understand why council would move to shut down a venue that is already established, popular, and clearly valued by the public, rather than working constructively with the operator to address any concerns. If there are issues relating to planning, compliance, noise, traffic, or operational matters, then the sensible approach is to resolve them through cooperation and practical conditions, not closure.

A blanket shutdown feels disproportionate and out of touch with what residents and visitors actually want from this precinct. The Entertainment Quarter should remain a place for entertainment, activity, and community engagement, not become another example of unnecessary restriction and overreach.

I urge council to reconsider this course of action and to prioritise a solution that keeps Hyper Karting operating. At the very least, the community deserves transparency around the reasons for the proposed closure, the evidence supporting it, and what alternatives were properly explored before arriving at such a damaging outcome.

Please treat this as a formal objection. I strongly encourage council to preserve Hyper Karting and work towards a practical outcome that serves both the community and the precinct as a whole.

Yours sincerely,
Eli Levi

Hi Team

i'm writing in regards to the potential closing of hyper karts in moore park. i whole heartily don't agree with the possibility of them closing for more parking and revenue for the council

My son would religiously be at hyper karts at least one a month. we have also had his last two birthday parties with the Hyper Kart team

when it's wet and raining it's the perfect activity to get our kids out of the house and isn't super expansive especially given the current crisis i hitting all families at the moment

Council such seriously reconsider the potential closing of this guinea's as I know it will be a potential loss to the Moore Park Enternainment waiter in total as we have dinner there there's not one family I don't know in the east. It hasn't been to hyper karts

Dear people of the NSW government,
I would like to have my say in the closure of the Hyper Karting Moore Park. This place has brought me together with friends, my dad, and I'm having my birthday there on the 18th of April. I would really hope you could reconsider the expansion of the 5 year loan.
Kindest regards,
Gabe.

Hi there,

I strongly oppose the proposed increase in car park spaces at the expense of Hyper Karting.

Hyper Karting is far more than a business. It is a community hub that brings people together, supports local employment, and creates meaningful experiences for families, friends, and visitors. The loss of 150+ jobs and a unique local attraction cannot be justified by adding 296 additional car spaces, particularly when there is no clear evidence that this capacity is needed.

Replacing a vibrant, people-focused venue with underutilised parking is a poor trade-off for the community. Decisions like this should prioritise social, economic, and cultural value, not just convenience.

I urge the council to reconsider this proposal and support the continuation of Hyper Karting as an important part of our local community.

Thank you for your consideration.

Giles

The hyper karts venue in Homebush bay is fantastic.
My grandchildren love it and are looking forward to be tall enough to race in the adult race.
There is other place in Sydney where even very young children can race a car.
Please don’t close it

Regards
Heide

Dear Council Members,

I am writing to express my strong support for Hyper Karting and to urge you to reconsider any actions that may lead to its closure.

Hyper Karting is more than just a business — it is a valued part of our local community. It provides employment for over 150 people, supports local families, and offers a unique recreational space that many residents enjoy. Losing this facility would have a significant economic and social impact.

It is deeply concerning that such an important community asset is at risk of closing to accommodate additional parking. While infrastructure improvements are important, they should not come at the cost of local jobs, community engagement, and small business sustainability.

I respectfully ask that the council explore alternative solutions that allow Hyper Karting to remain open while still addressing parking needs. A balanced approach would better serve the entire community.

Please consider the broader consequences of this decision and the value that Hyper Karting brings to our area.

Thank you for your time and consideration.

Kind regards,

Jahanzeb Durrani

Hi all,
Hyperkarting in Moore park is a great and family fun activity and the only of its kind in the eastern suburbs which would be a huge loss to the people in this area not to mention the people who work here if it closes. I would be very upset if this closes and disappointed so I hope that the decision to close this business down is overturned as it is a great place to go

Dear Council Team,

I'm writing to express my strong support for Hyper Karting Sydney and to urge the council to consider the broader value this venue provides to the community before making any decision that could lead to its closure.

Hyper Karting Sydney is more than just a recreational facility. It contributes meaningfully to the local economy, creates employment opportunities, and offers a safe, structured environment for people—particularly younger individuals—to engage in motorsport in a controlled setting. Facilities like this play an important role in fostering interest in engineering, driving skills, and community participation.

From a social perspective, it is one of the few venues that appeals across age groups, providing an accessible and engaging activity for families, friends, and corporate groups. Removing it would leave a noticeable gap in local recreational options.

I also believe it is worth considering whether any concerns raised—whether related to noise, planning, or other regulatory matters—can be addressed collaboratively with the operators rather than resulting in closure. A balanced approach that preserves community assets while managing impacts would be in the best interest of all stakeholders.

I strongly encourage the council to work constructively with Hyper Karting Sydney to find a path forward that allows it to continue operating.

Thank you for your time and consideration.

Kind regards,
Jarrod williams

Dear Shannon,

I hope this email finds you well.

I am writing to you today as a frequent visitor and advocate for **Hyperkarting**. I wanted to take a moment to express just how vital this venue is to the Sydney community and urge you to support their continued operation.

My partner, friends, and I represent a broad demographic of Sydney residents, residing in Hornsby and all the way to Cabramatta. Despite the distance, we regularly make the trip to Moore Park because Hyperkarting offers an experience that simply cannot be found elsewhere. It has become our "go-to" destination to celebrate birthdays and milestones.

Beyond just being a fun day out, Hyperkarting serves several key roles that I believe are worth considering:

- **A Regional Drawcard:** Very few venues can convince a group of people to travel from the Hornsby Shire and the Liverpool simultaneously. Hyperkarting is a massive anchor for the Sydney of City, bringing in foot traffic that otherwise would not visit the area.
- **Support for Local Economy:** Our visits rarely end at the track. Because we travel so far, we pair our races with dinner beforehand and dessert afterwards - contributing to the broader economic health of the Moore Park area.
- **Community & Safety:** In a city where high-quality, alcohol-free (or alcohol-optional) evening entertainment can be hard to find, Hyperkarting provides a safe, inclusive, and high-energy environment for young adults and families alike.

To see such a unique and well-loved establishment shut down would be a massive loss for Sydney's recreational landscape. We would be absolutely devastated to lose this venue and sincerely hope that an agreement can be reached to keep them operating on-site for years to come.

Thank you for your time and for considering the voices of the community who rely on this space.

Kind regards,

Jason Liu

To whom it may concern,
The go karting facility at the entertainment quarter is the last remaining attraction at the place and many people would have no reason to visit the area without it, no doubt other establishments will suffer due to fewer crowds in an already quiet place.
It's a short sighted mistake to remove attractions such as this and the Moore Park golf course as the city is fast becoming a boring place to live if this kind of stance continues to be taken towards entertainment.
I suggest this idea is strongly reconsidered, and with any luck we can make common sense a little more common in this world.
Thanks in advance

Dear City Of Sydney,

Hyper Karting is the only karting track thats near the eastern suburbs. This place means a lot to me and my friends as we had memorable memories of us trying to beat each other at racing. Hyper Karting is what i enjoy most at entertainment quarter and will be the only karting place we all love. It has brought many memories from meeting new people from racing and staff along the journey. We can not shut down Hyper Karting just for parkspace when it is the most iconic part of Entertainment Quarter.

Thank you
Jayden

Good Afternoon,

I'm emailing about the potential closure of Hyper Karting to revert the space back to a car park at Moore park.
As someone who has been to hyperkarting as well as many events at the entertainment quarter, I firmly believe removing hyperkarting would be a disservice to the community. Sydney desperately needs more alcohol free entertainment options, and hyperkarting is a fantastic example of nightlife not fueled by alcohol.
Additionally, the car park is already terrible to get out of after concerts due to the design where there's a massive bottleneck to get out - particularly the higher floors and several concerts I've been to the car park doesn't even fill up. Public transport options should be bolstered for events. Adding an extra floor of parking adds little to no value, and the loss of a very good business would not be worth it.

Kind Regards,
Jennifer Cooper

Council should be encouraging sustainable businesses like electric go-karts instead of forcing people to use petrol options.

Council should also be encouraging/improving public transport options rather than opening up more car spaces for people to use. I don't understand the logic of this removing a public entertainment option from an entertainment precinct.

All in all quite disappointed with a Council that I thought was sustainable and community focussed.

Why would you close Hyperkarts?

My friends and family love this place! Kids and adults of all ages can come together and enjoy this experience and venue, whether it was for a work event or to watch my kid have their first time driving around and gaining independence.

I think it is criminal that you would even think about removing a place like this that aims at bringing people to places like entertainment quarters, especially since that area just seems to be mainly a place for adults to drink and be stupid. The families who love this place are the people who will suffer…

If you aim is to turn entertainment quarter in to an adult only venue full of drunks go ahead. I remember it being about families….

Kind regards

Dear Sir/Madam,

I am writing to strongly support this petition and to express how important Hyper Karting is to my family and our wider community.

My son is 7 years old, has ADHD, and is a very special kid. Hyper Karting has become a place where he can truly be himself. It gives him a safe, structured, and exciting environment where he thrives, builds confidence, and feels included. Opportunities like this are rare, and removing such a space would have a real and personal impact on children like him.

To be honest, the reason given for closure seems quite unreasonable. There is plenty of space in the area, and every time I have visited, it has not been overcrowded. It feels unnecessary to shut down a facility that is clearly bringing value to so many people.

Additionally, my workplace has held our end-of-financial-year celebrations there for the past three years. It has proven to be an excellent venue for team building and social connection.

Another important point is accessibility. We travel from the Northern Beaches using public transport, and the light rail connection makes it convenient and efficient. Supporting venues like this encourages people to use public transport instead of cars, which is exactly the kind of forward-thinking approach our city should be promoting.

Hyper Karting is more than just entertainment — it is a community space that supports families, children, and local businesses. I strongly urge you to reconsider any decision that would result in its closure.

Thank you for taking the time to consider my submission.

Kind regards,

Julia Hoffmann

To whom it may concern,

It's definitely devastating to learn that yet another facility that brings friends and family together is at risk of getting kicked out to make space for parking.

Hyper Karting not just an entertainment venue, but as a vital community and economic asset. Hyper karting is a shinning example of green entertainment that emits next to no noise and environmental impact.

Compared to other major cities, Sydney has very limited safe, engaging, and accessible activities for young adults as it is, and one that is conveniently located 15 mins from CBD, that attracts local and tourist alike are at risk of getting kicked out.

Cities thrive when they offer a diverse mix of residential, commercial, and recreational spaces. Losing Hyper Karting would be a significant step backward for the Entertainment Quarter and the community at large.

I hereby urge City of Sydney to reconsider its decision on the facility and keeping Sydney a vibrant and dynamic place to live.

Kind Regards,
Julie Liang

Dear Members of the City of Sydney Council,

I am writing to express my strong opposition to the proposed closure of Hyperkarting Sydney at Moore Park, and urge the Council to reconsider replacing this beloved recreational facility with a car park.

Hyperkarting Sydney is a unique, family-friendly venue that serves as a genuine community asset. It provides an accessible, exciting leisure experience for Sydneysiders of all ages — from families with young children to groups of adults looking for something fun and different to do. Venues like this are rare in the inner city, and once lost, they are almost impossible to replace.

Moore Park is already a destination that draws people from across Sydney. Adding another car park to the area does nothing to enhance the community's quality of life — in fact, it diminishes it. At a time when councils across Australia are investing in active recreation, entertainment, and people-centred urban spaces, converting a thriving leisure venue into additional parking would be a significant step backwards.

I would ask the Council to consider the following:

- Hyperkarting provides local employment and contributes to the local economy
- It is a rare inner-city recreational option that cannot easily be replicated elsewhere
- A car park offers no comparable community benefit and is at odds with Sydney's goals around sustainability and reducing car dependency
- The loss of this venue would be felt deeply by the many loyal patrons and families who rely on it for entertainment and safely building skills and confidence

I strongly encourage the Council to explore all possible alternatives before proceeding with this plan. The community deserves vibrant, people-friendly spaces.

Thank you for taking the time to consider this submission. I hope the Council will act in the best interests of the community and preserve Hyperkarting Sydney for years to come.

Kind regards,
Kate Boniface

Hi there

I am writing to you about the matter above mentioned as hyper karting should not be closed down; it is a business that offers such a unique go kart experience in a safer environment than traditional go karting spots which are usually based outside, where they have potential to be cancelled when wet weather arises.

The experience at hyper karting is like none other and it would be a detriment to the fun community of Sydney; in which, there is hardly anything to do.

Thanks
Lucas

Hello,

Hyper Karting Moore Park is a uniquely located business being in a car park and being the only hobbyist karting location in near the CBD. It's affordable, suitable for a variety of ages and would be a shame to lose an iconic business of EQ.

Do not evict Hyper Karting cost 150 people their employment for 300 odd car spaces. Have a heart.

Kind Regards

Lachlan Kaiser

I work in the city and Hyperkarting is the best after work activity I and many others have. It's also the only reason my friends and I ever go to Moore park.

Seeing this place reverted into an empty concrete patch is disappointing and completely goes against the idea of an "entertainment quarter". I have such good memories in this place, and even recently I got people who had never gone go-karting to come down and try it. And they loved it.

If there's any chance of saving this place, please consider it.

Thankyou.

Hello,

I strongly am against the idea of closing Hyper Karting in Moore Park. It's a genuine assist to Sydney. It's one of the few activities that is suited for all ages and it actually is FUN! In a city where I often hear "there is nothing to do", places like Hyper Karting is exactly what we should be protecting.

I was at HyperKarting 2 weeks ago on a BUSY SATURDAY at 6pm (PEAK TIME!!!) and managed to get a car park spot on the bottom level. Moore Park was busy, full of people and I had no trouble finding a car park. I was surrounded by empty car park spots and I gather all the levels above were also half empty.

Turning Hyper Karting into a carpark feels like a massive step backwards for our city. Sydney is already loosing enjoyable experiences, why would we want to lose more?

It's frustrating seeing councils take away what makes Sydney enjoyable. Boooo councils!

Lillia

Dear City of Sydney Council,

My name is Mario Andreone and I am writing to express my strong support for Hyper Karting at Moore Park, and to respectfully urge the Council to reconsider its decision to deny the extension of its operation.

Hyper Karting has become a unique and highly valued part of Sydney's entertainment landscape since opening in 2021. It has transformed an otherwise underutilised space into a vibrant, year-round attraction that brings consistent foot traffic, supports surrounding businesses, and contributes to the broader activation of the Moore Park precinct.

The potential closure of this venue raises several concerns. It places more than 150 local jobs at risk, removes a popular recreational facility enjoyed by hundreds of thousands of visitors, and diminishes the diversity of experiences available within the precinct. At a time when there is a strong focus on revitalising Sydney's nightlife and entertainment offering, removing a proven and well-utilised attraction appears counterproductive.

While I understand the importance of maintaining adequate parking infrastructure, it is difficult to justify prioritising the return of approximately 300 parking spaces over a thriving business that delivers clear economic and community value—particularly given reported data suggesting the car park is not consistently at capacity.

I encourage the Council to explore a balanced and pragmatic solution, such as granting a further extension or working collaboratively with the operator to ensure both parking needs and community activation goals can be met.

Sydney benefits from innovative, engaging spaces like Hyper Karting. Preserving and supporting these types of venues is essential to maintaining a dynamic and liveable city.

Thank you for your time and consideration.

Kind regards,

Mario Andreone

Dear Mayor,

Please do not close Hyperkarting, it's a ton of fun for kids and adults alike, very easily accessible, and using a space that otherwise doesn't ever get used.

I go to EQ twice a week for my girls dancing class and from time to time to go out, and I believe the entertainment in the EQ is arriving at a level that could lead to a transformative experience and turn it into one of the most entertaining night districts in Sydney.

Thanks,

Martin

PLEASE DONT SHUT DOWN HYPERKARTING

I graduated from high school last year I went to boarding school in Sydney however most of my friends were day schoolers who didn't board I now live 600 km from Sydney but visit every so often and the day before I moved me and my friends went to hyperkarting it was the best experience I'd ever had and we all promised that when we were all available we would return to hyper karting to meet, is 296 car spaces worth more than the relationships I have in sydney that so many have, built with hyperkarting, I ask you to please remember that 150+ jobs are on the chopping block but also that limitless memories and relationships hang in the balance of this decision

Hi,
I am writing to express my concern about hyperkarting being closed. It is a great place for teenage boys to drive and have fun with their friends. They get to do the risk taking they desire in a safe and well maintained environment that encourages them to have fun in a safe environment. We have celebrated many birthdays and fun family outings at the setting. It does not make sense to close it down when it is well placed, well runs and well patronised. You are removing an opportunity for our youth to be engaged beyond screens and hanging around bored on street corners. Please do not force closure for hyperkarting - rethink the environment for families in Sydney.
Kind regards,
Mercedes Wilkinson

Urgent: High

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

For the attention of Shannon Rickersey,

I write to you as the owner of Watson's EQ, a Pub operating within The Entertainment Quarter precinct at Moore Park, to respectfully submit my concerns regarding the potential closure of Hyper Karting — a neighbouring business and valued contributor to the economic and cultural fabric of this precinct.

Watson's has operated at Moore Park since 2021, and throughout that time Hyper Karting has been one of the most consistent drivers of foot traffic to our venue. Patrons who visit Hyper Karting regularly extend their time at the precinct by dining and socialising at Watson's EQ. Conservatively, we estimate this relationship generates approximately $500,000 in annual revenue for our business alone — revenue that directly supports our staff, our suppliers, and our ongoing investment in the precinct.

Hyper Karting is not simply an entertainment business. It functions as an anchor attraction that activates the Moore Park precinct, drawing visitors who might not otherwise engage with the broader range of businesses here. Its closure would not be an isolated outcome — it would create a ripple effect that diminishes the precinct's appeal and viability for every operator within it.

I respectfully urge the Council to consider the disproportionate economic impact that regulatory action against Hyper Karting would have on surrounding businesses, including my own. If the concerns prompting this action relate to compliance or operational matters, I would strongly encourage the Council to work collaboratively with the Hyper Karting team toward a resolution, rather than a closure that would harm multiple businesses and their employees who have done nothing wrong.

The Entertainment Quarter is a significant asset for Sydney — a precinct that supports hospitality, entertainment, sport, and events in close proximity to the CBD. Businesses like Hyper Karting are what make it worth visiting. I urge the Council to protect that.

I am available to discuss this matter further or to provide any additional information that would assist the Council's deliberations.

Yours sincerely,

MICHAEL WATSON

Dear Ms Rickersey,

Hyperkarting at Moore Park has been a meeting place and source of much joy for our extended family.

It is a healthy recreational activity available to all ages. It is also the only go-carting place in the centre of Sydney, making it accessible to families and young people.

I believe hyperkarting should remain open in its current location, so others can experience the fun we've had there over the years, in its highly accessible setting.

To Whom It May Concern,

To say closing Hyper Karting at Moore Park is the most tone-deaf decision made by another bureaucrat councillor would have to be the understatement of the decade.

Your lot are about to destroy another one of Sydney's main attractions and must stop.

To prioritise having spare car parking to be used once very pancake day for an AFL game, in the midst of a global fuel crisis, instead of prioritising and investing in public transport is totally nuts.

Imagine living in a world where people are able to take reliable public transport to events instead of having to rely on driving their private cars to INNER CITY destinations - totally absurd don't you think!? Quick, better create more car parking that will sit empty 90% of the time, that's a much more sensible idea…

This needs a rethink and fast. Stop destroying attractions and get your priorities in order. Instead of closing businesses that are employing people and generating revenue, spend your resources lobbying the state government to improve the pathetic public transport system so majority of people don't need to drive at all.

Regards,

Miles Austin

I believe this place is one of the only places that makes kids in the eastern suburbs have a way to RACE and interact with friend meanwhile not do it on the Sydney roads.

I strongly believe that getting rid of HYPER KARTING will put Sydney at BIGGER RISK of people speeding more frequently on the roads as well KIDS finding other means of spending their adrenaline rushes during adolescence.

I suggest YOU try your best to mitigate whatever issues you might have with the OWNERS OF HYPER KARTING by possibly finding a middle ground maybe just a compromise with the owners that works BOTH for the public as well as council, in order to keep this club in the eastern suburbs going.

Thank you for your time and consideration,

Regards,

Andrey Dinov

Hi,

I'm really sad to hear that the hyperkarting will be closing. It's the sole reason I visit the entertainment quarter. It provides something different in the Sydney city that would otherwise require a 40-45 minute drive. I am proud to pay membership with them and happy with the utility that it provides. There is ample event parking when it's needed and no reason this should be eliminated for more parking space that would sit mostly under utilized.

Regards,
Nurudeen

To whom it may concern:

I'm writing to provide my support to keep hyper karting open.

This is a fantastic facility, and it is the only place my young 4 year old son can go karting as every other go kart track is for 7 years and older. He has been going to Hyper Karting on their mini track since he turned 3 years old.

Please allow Hyper Karting to stay open, without this my son and many other under 7's won't be able to do go karting and have an opportunity to get into motorsport from an early age.

Dear City of Sydney team,

I am writing to express my strong support for keeping Hyper Karting open at Moore Park. As someone who regularly visits Hyper Karting with family and friends, I have seen firsthand how valuable it is as a safe, family-friendly activity that is easily accessible from the city.

The venue provides a rare, positive recreational option for people of all ages, and its central location makes it an ideal place for families, young people, and visitors to enjoy time together. Closing it to create an empty car park would remove a vibrant community asset that brings joy, activity, and connection to many Sydney residents.

I respectfully urge the City of Sydney to reconsider the decision and explore alternatives that allow Hyper Karting to continue operating for the benefit of the community.

Thank you for your time and consideration.

Kind regards,
Richard

Yo, pretty please could you guys renew the license for hyperkarting to operate. I've been going there since it opened it's a great way to hang with my friends, 99% of the time the car park in the entertainment quarter is under-utilised, with the floors above ground always being 60% empty and hyperkarting does much more with the space and community.

I know this reads kind of ironic but I do sincerely wish for hyperkarting to continue operating, they are a cornerstone of my life at this point and there's no real substitute this close to the city.

Thanks,
Sincerely Rishi

Dear City of Sydney Council,

I am writing to express my strong opposition to any proposal to close Hyper Karting Sydney in favour of additional car parking.

Hyper Karting is more than a recreational facility. It is a unique, accessible experience that contributes positively to the social and cultural life of Sydney. It provides a safe, inclusive environment for people of all ages to engage in an active, shared activity.

While parking infrastructure serves a functional need, it should not come at the expense of distinctive community assets that enhance quality of life. Hyper Karting represents an innovative use of space, supporting both local visitation and the broader appeal of the city as a vibrant destination.

Removing such a facility risks prioritising short-term convenience over long-term community benefit. Sydney should continue to invest in and protect experiences that make the city engaging, diverse, and liveable.

I respectfully urge the Council to reconsider any plans to close Hyper Karting Sydney and instead recognise its value as a meaningful part of the city's recreational landscape.

Kind regards,

Ruadhan Mac Ainmhire

please please please dont get rid of hyperkarting. Literally the best gokarting place in Sydney. Had so much memories with my friends back in uni here. Nightlife in Sydney will never be the same without it. Rather than turning it into a car park for occasional sport events (300 cars worth of people should easily fit in public transport, also in response to the fuel crisis at the moment) and for teenagers doing drugs, keeping it the way it is right now has more social significance (They are full electric as well!).

Closing this facility to create more parking is equivalent to demolishing a local library because the neighborhood needs more self-storage units. While storage is 'functional,' it adds zero soul, health, or vibrancy to the community. We are replacing a place of activity with a place of vacancy.

Hi City of Sydney,

I support the extension of the consent for Hyper Karting to operate in the Entertainment Quarter car park.

It is a significant attraction that has provided a lot of enjoyment for me and my friends. Without it there will be no good karting arena anywhere close to the CBD. As it is conveniently located with good public transport nearby, there is no good justification for converting the space back into car parking spaces, especially because the City has repeatedly expressed its desire to promote the usage of public and active transport.

The City of Sydney should support small businesses and allow Hyper Karting to continue its operation.

Kind regards,
Sasha Lawes

To Whom It May Concern,

I am writing as a regular customer of Hyper Karting to express my strong support for the business and urge the council to consider their application favourably.

Hyper Karting has been a fantastic venue that I have visited on numerous occasions, whether for a casual outing, a celebration with friends, or just a fun activity with family. It is one of the few genuinely exciting entertainment options in the area, and it always delivers a great experience.

I understand that the business is facing the possibility of closure due to a parking-related issue, and I sincerely hope the council can find a way to accommodate their needs. Losing Hyper Karting would be a real loss for the local community, not just as an entertainment venue, but also as an employer of over 150 people.

I ask that the council carefully consider the positive impact this business has on the community and support a resolution that allows them to continue operating.

Thank you for your time and consideration.

Kind regards,
Suhail Ahmed

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear City of Sydney,

Please note my disappointment at your intention to shut down Hyper Karting Mike Park in favour of more car spaces.
Firstly your car park is not even equipped to deal with the amount of cars it already holds. I was there on Friday and took my daughter to a Pierce the Veil concert - it took an hour to get out of the car park. It is worth than leaving Sydney Olympic Park. I paid for my parking before I left then had to pay for another hour because you aren't even equipped to deal with the spaces you have during key events.
Secondly hyperkarting is a big draw park for Moore Park. When I have been I visit the other facilities such as dining or cinema with my family and we make a day of it. My daughter's recent 16th birthday was hyperkarting, el Camino for lunch and Hoyts luxe in the evening. Great day but without the hyperkarting more park isn't even offering anything that we can't get elsewhere.
Moore park is also readily accessible by public transport so finding ways to encourage this particularly with the fuel crisis makes far more sense. Hyperkarting is an electric eco friendly way for people to test their driving skills, have fun with family and friends and you want to take that away to either have empty spots sitting there, more jams in your carpark traffic after major events and to encourage people to use more petrol. Strange and disappointing choice.

Regards,

Susan

To whom it may concern,

It is with great dismay that I have seen that you plan to shutdown the hyper carting Facilty. This place has been a great source of enjoyment and happiness and a place of bonding for me and my kids for the last few years. Shitting it down just to add a few more car spaces is seriously a misjudgment on the part of the council.

Please seriously consider reverting this decision.

Sincerely

Tareck

Good evening Shannon,

I am writing to urge you to reconsider the current planning proposal and allow the extension of the permit that enables Hyperkarting to continue operating. Forcing the closure of this facility would be a massive step backward for the local community, the economy, and the Moore Park precinct as a whole.

Please consider the following critical points before making a final determination:

Traffic and Parking Realities
The assertion that Hyperkarting contributes to an ongoing issue with patrons parking on the grass during events is outdated; this is no longer a continuing problem. If parking capacity is the primary concern, the focus should instead shift toward the exclusive SCG parking facilities, which are heavily restricted and essentially only accessible to the top 1% of Sydney.

Furthermore, the true parking crisis in the precinct is a known infrastructure failure, not a Hyperkarting issue. Working directly on the ground managing ticket scanning devices and network hardware at both Allianz Stadium and the SCG during major events, I see the traffic bottlenecks firsthand. The Entertainment Quarter (EQ) carpark becomes a nightmare on event days because the exit traffic lights only permit roughly two cars to leave every five minutes. Visitors are regularly trapped in the structure for hours. Shutting down a popular local business will do absolutely nothing to fix this poorly managed traffic flow.

Economic Damage and Job Losses
Denying this permit extension will result in the immediate loss of 150 jobs. This is a severe blow to the local economy and the livelihoods of those employees. Sacrificing these jobs appears to cater only to an elite minority, rather than supporting working people and the broader community.

Devastating Impact on the Entertainment Quarter
It is no secret that the EQ is already facing severe challenges and struggling to maintain relevance. Hyperkarting serves as a crucial anchor destination that actively draws regular foot traffic to the area. Forcing it to close will not only kill one of the precinct's most successful attractions, but it will also inflict direct financial harm on the surrounding local businesses that heavily depend on the visitors it brings in.

I strongly urge you to support the local economy, protect these 150 jobs, and approve the extension of Hyperkarting's operating permit.

Regards,

Tobey Luke

Please keep Hyper Karting on the rooftop. It's rare to have something fun to do for a big group so close to the city. Ive had work functions and birthdays here. It is a shame to replace it with a car park. Light rail is the only way I'd visit this area!

Hyper Karting is more than just a business; it contributes to the vibrancy of the community and gives residents and visitors an exciting alternative to traditional leisure activities. Its closure would leave a noticeable gap in Sydney's entertainment options.

I can’t believe you’re going to Chloes hyper carts. Just a few more parking spots. We never have any issue parking anyway what’s a few more car spots going to do? Every time we go to hyper cards, it’s so busy and so much fun. It actually is the only reason we go to the entertainment quarter. It would be a huge loss for you if you got rid of that.

Dear Ms Shannon Rickersey,

I believe any suggestion that retaining the electric go-karting be “not in public interest” is unfounded. The venue is well-loved by the community, and Sydney needs more year-round entertainment venues like it.

I find the Colliers letter to be highly compelling, and I ask that its arguments be strongly considered.

Thank you,
Zachary Ficker

I would be devastated if HyperKarting was closed down. There are very few venues close to our area where kids and adults can go and enjoy themselves together and drive meets. The next closest venue I am aware of is in Eastern Creek.

My son and I enjoy karting at the venue and challenging our friends.

Further, as a family that goes to the SCG and Allianz stadium for sporting events, inhale never found the parking in the Moore Park car park challenging, even when there are events at both venues.

Thanks
Narayan Sharma

Dear Council,

I am writing to express my strong opposition to the proposal to replace Hyper Karting with additional car parking.

Hyper Karting is a unique community landmark that provides significant recreational value. Replacing this vibrant space with a parking lot would be a disappointing loss for the area. I urge you to reconsider this decision and keep Hyper Karting open to preserve our local culture.

Regards,
Adrian S

We need to keep the Moore park go carting because it is the only thing that brings me and many others to Moore park in the first place I have no real reason to go without it. I am sure this is the same for many others and you will then obviously not even need the rest of the parking spots you are clearing space for.

Dear Sir/Madam,

We oppose your decision to not reinstate the lease for hyperkart.

Our sons and their friends a big fan of this area and entertainment and it one of the fewer larger scale forms of entertainment in the eastern suburbs. It enables safe outdoor play which is a healthy form of entertainment for them.

Please allow hyperkarting to stay on in their location.

Thank you
Amber Bondigo

The go kart track is one of the only reasons my friends and I visit the city anymore. There's only so many times you can visit the Opera House, or Sydney tower before it becomes boring. But I know there are Sydney locals who frequent this spot, and there are 150+ who work there. The city needs a night life outside of clubbing and drinking, this will not help. Every time I visit the city I use the Moore Park parking garage, and I rarely see cars parked above level 2. Level 3 and up is a ghost town, not to mention Level 5 where the go kart track resides. I pay my parking fee every time I visit, and as it's a condition to leave, I imagine everyone else does too. I know the stadium nearby would benefit from the small increase in parking, but having a year round activity that draws enormous numbers in its own right surely outweighs the few parking spots afforded to the stadium, not to mention the parking on the grass across the street, and the top level of the parking garage which has been barred off. I beg you to reconsider

To whom it may concern

I want to voice my opinion on why hyperkarting Moore Park should remain open and operating, and not be reverted to event carparking.

Hyperkarting is a valuable asset to the community, providing a legal and safe outlet for car, motorbike and racing enthusiasts who want to get together have fun and push the limits of motor vehicles on a closed course, under expert supervision, with first aid officers on site. If the council chooses to stop allowing this venue to exist, they would be encouraging young people to be reckless on the local roads, and supporting the notion that road safety is a trivial matter, not to be acknowledged or addressed, rather prioritising the needs of event attendees who choose to drive to events in the Entertainment Quarter rather than catch public transport.

Hyperkarting provides an attractive and fun workplace for young people in the local community, the employees at Hyperkarting always look happy and enthusiastic about providing a great service. It can be hard to find good places to work, especially that are flexible for young people who are juggling uni and other entry level jobs. Hyperkarting is important to employees and customers, it will be very difficult to replace with comparable replacement, and no doubt the council will not be willing to contribute to replacing to employment opportunity that Hyperkarting is facilitating.

I think a more appropriate stance from the council would be to reinforce the message of prioritising public transport usage by patrons of events held at the Entertainment Quarter, rather than closing down an important part of the community. This is an important place for many people, who see a value far beyond a mere carpark (that will otherwise be empty for the majority of the time)

Thanks you for your time and consideration, regards

Hi city of Sydney,

Please don’t close down Hypercarting for a few extra car spaces.

We should be increasing use of public transport, not creating more demand for cars.

My son and I have had some amazing experiences at hypercarting and I’d hate to see this innovative and enjoyable business be removed from this place.

Thanks,
Brendon.

Hello,

Id like to raise.my.support of Hyper Karting loxated in Moore Park. We are from Western Sydney and attend multiple events each year at the Moore Park Entertainment Quarter. We've checked out out Hyper Karting and are currently in the process of organising an event there with friends now that our children are of a more appropriate age. I think its a great addition to the quarter and as a motor racing fan, believe it offers central Sydney a taste of the sport without having to come out to Eastern Creek.

Happy to take a call and discuss further.

Kind Regards,
Cal

Dear Shannon,

I am writing to try and find a way around shutting down Hyper Carts at Moore Park. My family are frequent users for my now 15 year old son. We have held birthday parties here for him and he has attended other friends parties here over the years. He's also a keen go cart enthusiast and it's so handy to have this close to home, I think the next closest is in Concord. It's such a well used and loved recreation facility and we don't have many in the East. Please reconsider closing it down for the sake of parking, it's important to have adequate recreation amenities in our area for children and teens.

Kind regards
Carli

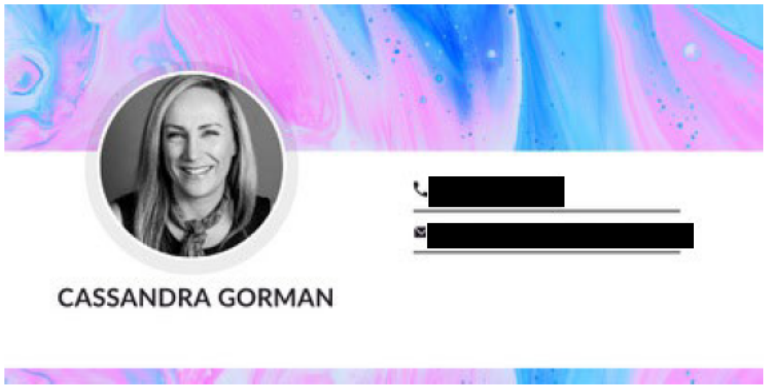
To whom it may concern,



My boys and my partner have enjoyed much fun at Hyper Karts. The team is fantastic, well organised and super safe and it is a perfect business to have in the Entertainment Quarter, to compliment the other entertainment options on offer.

It would be a real loss to loose this creative, clean energy promoting business.

I don't know of any other karting facilities in the near region.

Please keep Hyper karts open!

Thank you,

Hi,

I personally think it will be a massive loss for the community if Hyperkarting closes.

It is a great space for kids, young adults, adults and families. It is so great that you can celebrate your kids party while also adults can have fun having a race too.

We have so many fond memories, from birthdays celebrations to outing with friends.
Like us I think so many other people have such great memories and had great experiences in this place.

There is no other place like this in this part of Sydney.
That caters to a big variety of audiences offering them all an amazing experience.

Plus I think we need to consider the job loss that this will cause to 150+ staff working there. That in this uncertain times and economy can have a major impact on their livelihood.

I really hope you reconsider closing down this space and find another solution to create more car spaces elsewhere.

Kind regards,
Chiara

To the DA submission council,

I must express my frustration and disappointment in the rejection of the submission to extend the DA for Hyperkarts. We should be encouraging and supporting small businesses across the city; this decision is the opposite of that.
Hyperkarts is a well-run business that adds value to the EQ precinct. Personally, I have taken my team to Hyperkarts and used other businesses in the precinct as a result. We would not go to EQ without Hyperkarts.
I also find the argument that more parking is needed hard to understand. The light rail has recently opened, and we should be encouraging more people to use public transport.

Please reconsider this decision. We need unique small businesses that add to the diversity of offers at EQ, not more of the same.

Regards,
Chris Rodgers

Dear council team,

Our family has loved Hyperkarts for years. There are very few other venues in Sydney that provide a great place to gather at any time of day or night, across age groups, genders, abilities and interests. Everybody loves this venue. It would be a great shame and the end of an era to lose it.

Kind regards,

The Goh family (Drummoyne)

to whom it may concern,

i'm writing to express my concern about the proposed removal of hyper karting.

this venue isn't just a go-karting track — it's a place that brings people together. it provides a safe, structured environment for young people and adults to enjoy motorsport, socialise, and spend their time in a positive way. for many of us, it's a regular outlet that genuinely benefits our wellbeing and sense of community.

removing it to make way for approximately 298 car spaces feels like a poor trade-off. parking infrastructure, especially at that scale, often ends up underutilised, while the loss of a unique recreational facility like this is permanent. once it's gone, there's no real replacement for what it offers.

hyper karting also supports local jobs and small-scale economic activity. from staff to maintenance to events, it contributes to the local economy in a way that a standard car park simply does not.

developments should aim to enhance community life, not reduce it. spaces like hyper karting are rare — they give people something to do, somewhere to go, and a reason to stay engaged locally rather than elsewhere.

i strongly urge you to reconsider this decision and explore alternatives that allow hyper karting to remain while still addressing any infrastructure needs in a more balanced way.

thank you for your time and consideration.

To City of Sydney

The forced closure of this business to satisfy endless parking requirements is truly disgraceful.

It is government actions like this in the past few years that make me ashamed to be an Australian

RE refusal of Hyper Karting time limited development consent.

This business is the only low barrier to entry go karting venue in inner Sydney. Closure of the business would be a massive disappointment and remove the last easily accessible venue for go karting to inner city residents.

Please allow them to extend.

Concerned City Of Sydney resident,
Emmet

Dear Council Members,

I'm writing to show my support for Hyper Karting.

I currently work at Hyper Karting, and it's been a really positive place to work. It's not just a job, it's somewhere that brings people together and gives the community a fun, safe place to spend time.

The venue plays an important role locally by creating jobs and attracting visitors to the area, which also helps nearby businesses. It would be disappointing to see something like this lost, especially when it's enjoyed by so many people.

I understand the Council has a lot to consider, but I hope you'll take into account the value Hyper Karting brings to both employees and the wider community.

Thanks for your time and consideration.

Kind regards,
Ethan

Hello Shannon

As you would know the Hyper Karting facility is a wonderful asset for young drivers that allows them to drive in a fast and competitive manner away from public roads

It is a great meeting spot for a fun social night out

The closure of this facility for some additional park spots is a travesty

Please reverse the decision and keep Hyper Karting intact

Many thanks

Garrath

I wish to register my disapproval of the Council's proposal to close Hyper Karts in favour of car parking.
We have used Hyper Karts Karts numerous times for 3 generations of our family.

In every time we have visited and used the car park , it is never, ever approaching full capacity. The car park is never full.
We also regularly attend the Markets and the car park is never remotely full.

Please reconsider this proposal.
Thank you
Graeme Farmer

Hi Shannon,

I am writing to express my concern regarding the potential closure of Hyper Karting at the Entertainment Quarter.

I recently became aware of discussions suggesting that this venue may be at risk of shutting down. As a regular visitor and supporter of local entertainment and community spaces, I find this very disappointing.

Hyper Karting is a unique and valuable recreational facility that contributes positively to the community by providing a safe, controlled environment for motorsport enthusiasts and families alike. It offers an experience that cannot easily be replaced and plays an important role in the local leisure landscape.

If the decision to close this venue is not driven by public safety concerns, but rather by considerations such as increasing car parking capacity, I believe this would be an unfortunate outcome. Prioritising parking over an established and well-loved community facility does not seem aligned with fostering vibrant and engaging public spaces.

I would appreciate it if you could provide further information regarding the reasons behind this decision, including whether any safety, financial, or redevelopment factors are involved.

I would also like to express my support for Hyper Karting and the broader community that values and benefits from it. I strongly encourage decision-makers to carefully reconsider any plans that would result in its closure.

Thank you for your time and consideration. I look forward to your response.

Kind regards,
Ilhan

Dear City of Sydney,

I'm writing to express my frustration at the decision to revoke approval for HyperKarting.

This is exactly the kind of outcome that undermines confidence in the City's planning approach. You have before you a proven, privately funded activation that brings people into the precinct, supports a significant number of jobs, and aligns directly with your stated goals around the night-time economy and activating underutilised space. And yet the result is to shut it down.

It is particularly difficult to reconcile this with the City's broader policy direction. There is constant emphasis on reducing reliance on cars, encouraging vibrancy, and making better use of urban space. Replacing an active, popular destination with a largely dormant use like car parking runs directly counter to those objectives.

This is even harder to justify given the transport changes in the area. The introduction of light rail has clearly reduced the need for large volumes of parking, which is precisely why parking has been removed elsewhere across the city. In that context, reverting a successful activation back to parking feels not just inconsistent, but outdated.

From an external perspective, there is no obvious negative impact that would justify this outcome. The operation is contained, it does not meaningfully disrupt surrounding areas, and it provides a unique recreational offering that Sydney otherwise lacks. If anything, it is an example of the kind of initiative the City should be actively encouraging.

Even the Lord Mayor has publicly expressed concern about the prospect of this venue closing. That alone suggests a disconnect between the City's strategic intent and the way decisions are being applied in practice.

More broadly, decisions like this send a clear signal that innovative uses of space, even when they are demonstrably successful, can be reversed without a compelling rationale. That creates uncertainty for operators and discourages future investment in similar activations.

I would appreciate a clear explanation of:

- The specific planning or policy grounds for revoking approval
- Why an ongoing approval could not be supported given the evident benefits
- Whether there is any pathway to reconsideration or reinstatement

Because at present, this looks less like a considered planning outcome and more like a decision that prioritises procedural rigidity over practical, positive outcomes for the city.

Kind regards,
Ilya Zak.

I'm writing this email in support of keeping hyper-karting Sydney open.

This venue provides an experience that is both unique and thrilling to the people of Sydney that is incomparable to anything else within a 15-20 km radius. By calling for an end to this business's operations you'd be cutting people's access to a high quality go-karting experience that tens of thousands have enjoyed.

Importantly, many of those people are recurring visitors who don't see this venue as a tourist attraction, or just an experience you have to try once. This is place that customers frequent often, and one that I go to regularly to catch up with mates who I otherwise might not see enough of had there not been a venue like this that offers so much fun.

Please this business operational

James

Dear intended,
The following is regarding the closing of the go-karting spot at Moore park.
What you doing bro/shebro, more car park space is gonna do nothing more for Sydney. We need some variety, not more car space for people who lazily avoid taking the lightrail like a normal person would.

Kind regards,
A very concerned person for a place that keeps bringing me back to Moore park.

Hyperkarting is a massive value add to our community. Good for kids looking to be active and take risks without riding e-bikes in traffic!
Good for adults as well.

Way more important than having more places for petrol fuelled cars. People should be encouraged to use public transport when coming to EQ anyway!

To whom it may concern,

Just writing to let you know I am against the submission to turn the hyper karting track back into carpsaces. I've been to hyper karting with my nephews and nieces on a number of occasions (a few with my mates as well). It's brought so much joy to kids in the area.

I love nearby the ENT QTR and don't feel like the current car space issue affects our surrounding streets. Please keep it hyper karting and for it continue to bring to joy to kids around the area.

Thank you!

Josh Clark

Hi City of Sydney,

Please do not shut Hyperkarting down. We should not be closing this flourishing and joy making business down for the purpose of more parking. We should be allowing a business to thrive and survive whilst encouraging and making accessible good quality public transportation. We should not be making it easier for people to drive and park their vehicles, particularly when we have seen so recently how fragile the world is with regards to fuel usage. Hyper Karting is a key attraction and fixture of the Entertainment Quarter, the whole area becomes less appealing and attractive for visitors if you shut down such a critical entertainment activity.

Kind regards,

Katherine

Hi,
I understand that Hyper Karting is closing down for car park expansion. This venue has always been my favorite spot for fun in the city, the only place where I can truly enjoy quality time with friends. Such activities are rare in Sydney, hard to find, and difficult to replicate. Although it is situated in a car park further from the cbd, it has successfully cultivated a vibrant, supportive community. Closing the most enjoyable location just to replace it with an empty space that would remain unused most of the time is a poorly considered decision. Not to mention, it attracts more visitors to the area. I strongly hope you will reconsider this decision, which I believe is a mistake.

Hyperkarting is awesome. Great for young kids on the small circuit and then eventually mine will graduate to the big circuit. They will love it.

It would be sad to not get to see that in such a convenient and central setting.

Closing this business would be a major loss to the fun vibe of the area and fox studios. I probably wouldn't go back

Hi Shannon,

I'm writing to you to voice my support for Hyper Karting, and hoping my message and others save the business rather than it being forced to move out of Moore Park.

I've personally had many great experiences at this business, and know many others that have as well. It's providing a very positive impact on the community - open to all, with great opening hours and a central location so that racing is more available to everyone. It's a fun and healthy outlet for many, of all ages.

The business has also done an excellent job making consistent racing affordable. As far as I'm aware it's the most affordable karting venue in Sydney. So looking into the future, it's also a place that will foster talented drivers in Sydney and surrounds. It offers everyone a unique opportunity to practice a sport that can be otherwise prohibitively expensive.

It's also in the perfect location - Moore Park is an exciting venue offering all kinds of entertainment and experiences. The fact that there's a go karting track there is amazing.

It's a beautiful thing that has been developed - to turn a simple parking lot into a place where many have fun, grow, learn. Etc

I hope you can support this business and keep them in the same location. I believe this is best for the general Sydney community.

Best regards,

Lachlan Walker

Dear City Of Sydney,

Hyperkarting Moore park is a staple of entertainment in the east. It promotes a late nightlife which is so rare in Sydney and the evidence you need for them to stay in business is simply how busy it is. Without huperkarting Moore park, there is no go karting unless you drive 45+minutes out of the east.

It creates so much joy and fun reflected in the reviews and it would be a genuine loss to see it close.

Please reconsider closing it down for the sake of community value, the most important aspect of a happy Sydney.

Best regards,
Luca

There is an enormous lack
Of entertainment for kids and families in this part of Sydney and Hyperkarting is one of the very few places there is.

It is ridiculous to take away a much needed facility for parking spaces when there is lite rail put in place for that reason.

I feel the stadiums need to provide sufficient parking for their events or provide shuttle buses and the people who frequent Hyperkarting should not have to lose such an important part of their lives because of bad planning.

My grand children frequent Hyperkarting and at ages 3 and 5 the benefits it provides them in entertainment, skill and pleasure is immeasurable.

Kind regards
Michelle McKenna

I would be devastated if HyperKarting was closed down. There are very few venues close to our area where kids and adults can go and enjoy themselves together and drive meets. The next closest venue I am aware of is in Eastern Creek.

My son and I enjoy karting at the venue and challenging our friends.

Further, as a family that goes to the SCG and Allianz stadium for sporting events, inhale never found the parking in the Moore Park car park challenging, even when there are events at both venues.

Thanks
Narayan Sharma

To whom it may concern,

My name is Nicolay Alexiev, and I am the father of a six-year old boy who LOVES gokarting at Hyper.

Our weekly visits to the Entertainment Quarter location have grown into a beloved tradition, kindling a passion for motorsport that I'm now nurturing and protecting.

I'm not sure you realise the importance of this location and the role it has played for many Sydney families.

It has come to my attention that Hyper's future is at risk because of the need for more parking spaces.

The argument that Entertainment Quarter is in dire need (I assumed it's dire for the City of Sydney to consider shuttering a beloved business) is absolutely preposterous and indefensible given the proximity to light rail and the many alternative modes of transportation to get there.

Hyper is the single biggest reason we (and I'm sure many other families) even frequent Entertainment Quarter.

So this move from City of Sydney shows complete disconnect from the reality of what locals truly value.

Please avoid making tone deaf strategic decisions and listen to the people you serve and whose money you allocate.

I'm more than happy to provide more context and insight into how Hyper is a net positive for us Sydneysiders and our kids.

Cheers,
Nico

I am writing to strongly oppose the decision that may force Hyper Karting to close.

Closing a successful business that supports over 150 jobs and attracts thousands of visitors, simply to create more parking spaces, sends a deeply concerning message about the council's priorities. Removing a thriving entertainment venue that contributes to the local economy, tourism, and community engagement in favor of additional parking is short-sighted and harmful to local businesses and workers.

Hyper Karting is not just a recreational venue — it is an employer, an economic contributor, and a valuable part of the community. Decisions like this risk damaging the local economy, discouraging investment, and undermining confidence in the council's commitment to supporting businesses and jobs.

I urge the council to reconsider this decision and work with Hyper Karting to find a practical solution that protects employment, supports economic activity, and keeps a successful community venue operating. The community deserves decisions that promote growth and opportunity, not ones that remove thriving businesses.

I expect the council to carefully reconsider this matter and take community and economic impact seriously

Hyper Karting has been the best go kart entertainment centre I've been to, the staff is always so friendly and clear about everything and the parking lot before is the perfect size for an area like that.
I went there on a Friday/Saturday night and everything in the area brought me and my friend so much joy, the hyper karting should stay where it is otherwise the area will lose business and attraction in that area for just more parking spaces, could try to make more accessible public transport to that area like a link between Rosebery's area?

Dear Shannon,

We need to keep Hyperkarting at Moorepark. It is the only electric go kart establishment in the sydney metro area. This makes it much more rider friendly and suitable for a wider range of ages.
It's a fabulous place to race being undercover and suitable in all weather and also easy distance for people who don't live in the west where more others are located.
It'll be very disappointing if we no longer had an electric karting facility that was easily accessible and suitable for young and old.
So again please don't get rid of it.

King regards
Rachel

Dear Shannon,

I am extremely concerned to hear that Hyper Karting may be forced to close to make room for more cars.

This business has been a success story in a precinct that has been less than successful for years.

At a time when the council has promoted its green credentials it seems farcical that a successful business would be forced to close for the sake of a potential influx of cars that barely ever eventuates.

I believe council needs to reconsider this proposal for the sake of the precinct and all the jobs and enjoyment that it provides to patrons.

Yours sincerely

Richard Hogan.

To whomever reads this email,

Hyperkarting is an important piece of my adolescent life at this point and I go there frequently, I come there maybe once a month with friends and it's always a good time.

Especially now that people have come to love the place, to replace it with just another parking floor seems kind of tragic and is counter to what makes Sydney so special to me.

Perhaps if it was a limited time requisition for major events if that works better but realistically I'd like to be able to continue to go to hyperkarting year round

Thanks for reading,
Rishi

Dear Councillors,

I am writing to formally object to any proposal or consideration to close Hyper Karting.

This facility is not just an entertainment venue—it is a valuable community asset that provides a safe, structured, and engaging environment for people of all ages. Its closure would represent a significant loss to the local community, small business ecosystem, and recreational landscape of Sydney.

Hyper Karting plays an important role in:

1. Community Engagement and Youth Development
The venue offers a positive outlet for young people, keeping them engaged in a controlled, skill-based activity. In a time where screen time and inactivity are rising concerns, facilities like this provide a much-needed alternative that promotes focus, coordination, and social interaction.

2. Economic Contribution
Hyper Karting contributes to the local economy through employment, tourism, and partnerships with nearby businesses. Its presence drives foot traffic to Moore Park and supports the broader precinct. Closing it would negatively impact not only its staff but also surrounding businesses that benefit from its customers.

3. Safe Motorsport Environment
Motorsport interest is strong across Australia, and Hyper Karting provides a safe and professionally managed environment for individuals to experience racing. Removing such venues risks pushing enthusiasts toward unsafe or unregulated alternatives.

4. Unique Recreational Offering
Sydney is already facing a shortage of diverse, accessible recreational facilities. Hyper Karting is a unique attraction that sets Moore Park apart. Losing it would further limit options for families, young adults, and corporate groups seeking healthy and engaging activities.

5. Social and Mental Wellbeing
Facilities like Hyper Karting contribute positively to mental health by offering stress relief, social connection, and an enjoyable experience. Removing such spaces reduces opportunities for the community to unwind and connect.

I strongly urge Sydney City Council to reconsider any plans that would lead to the closure of this facility. Instead, I encourage Council to work collaboratively with stakeholders to ensure its continued operation and integration into the long-term vision for Moore Park.

Sydney should be investing in more community-focused recreational infrastructure—not removing it.

Thank you for your time and consideration. I trust that Council will make a decision that reflects the best interests of the community.

Please keep Hyper Karting open!! The only karting venue in Sydney that caters not only to adults but also children from 3 years old. My 3 year old boy drives the karts weekly and is loving it. He and many others would be devastated to lose this venue.

One thing that I don't understand is that so many roads have been closed for the light rail, money spent on bike paths/lanes to encourage the public not to drive into the City of Sydney area but now you want to increase car parking???? Doesn't make any sense to me.

It's a fun activity that brings lots of people to the entertainment quarter.
Keep Hyper Karting OPEN!!!

Hyper karting is one of the best facilities in Sydney, in an age of children focusing on virtual worlds and having low resilience in the real physical world, hyper karting bridges that gap and encourages children to take risks and build courage and confidence by testing themselves in a physical world that's safe and exciting in equal measures.

Cheers, Stuart

To Whom It May Concern,
I was really dismayed to hear of the apparent fate of Hyper Karting in the newspaper.
It seems frankly completely outsdide of CoS's mission of pushing people to more active transit and place making to turn what is the most successful attraction to join the EQ since I can remember, back into a carpark that sits unused 99% of the time.
The EQ should be allowed to rent the space to Hyper Karting and take that profit, rather than requiring the spaces to be left empty, only for them to be potentially filled a few nights a year, especially when the new car park at the football stadium is nearly ready. The space is already struggling, why not turn the dagger hey?

The Precinct is so well connected by public and active transit, it makes no sense to provide any further subsidy than we do already (because its my rates that go to do all of this), when I nor an increasing number (given how many units are approved with no carspace) of rate payers in the area will get zero use of the parking.

Make the people drive to the train and catch it, it is not in the CoS's best interests to, as John Mitchells 1970 hit puts it, "Pave paradise and put up a parking lot".

Dear Mr Rickersy,
This is a submission regarding the proposal to discs the closure of 116 Lang Rd Moore Park.

Please don't close this fantastic venue! There is plenty of space nearby for carpark, this venue is one of the only really fun venues for parents Sydney wide. It's really important to the community.

I sincerely hope you consider your own children and the families of all Sydney siders before you close one of the only places that is a destination for kids.

Kind regards,
Tracey Adamson

Hyperkarting is an amazing establishment and regarding the fact there aren’t many entertainment areas in Sydney, this is the cure for boredom for many locals around, shutting them down would be a negative sight to see and it’d be best to keep them running.

Dear City of Sydney,

I [redacted] would like to express my opinion that the closure and forced removal of Hyperkarting Sydney bestows a significant negative impact not only on those employed but also the community. In a world where being active and getting people off their phones is becoming increasingly important, taking this facility away will only give less options to do so. Please reconsider your thoughts with theses factors in mind. I personally find gokarting a form of mediation, in which all the troubles we have being switched off for the rounds travelled around the track. The facility provides thus a positive and valuable resource for the community which far outweighs the benefits of additional car parking spots.

Kind regards,

[redacted]

Dear Shannon Rickersey,

I'm sending this submission in the hope that the City of Sydney will make the correct decision in keeping Hyperkarting at Moore Park.

I have only karted once in my life, and it was only last year as part of a work event. I was so worried about it but the team made it the most amazing fun experience that I was so excited and pumped afterwards that I have been waiting for a chance to go back.

I moved to Melbourne 9 months ago without ever returning but when I return for a visit next week I have already booked in for 3 races the day arrive, and I would like to make this a regular event for me and my friends each time I visit.

I have also visited a jarring place in Melbourne and it couldn't compare to the awesome venue and setup that Hyper has at Moore Park.

In terms of community though, why would you want more car parking when you have one that isn't full and you have light rail running directly to the precinct that you should be encouraging more people to use. Isn't Sydney Council on the 'go green' bandwagon so why are you encouraging more cars?

People need some fun in their lives right now so please on the right side of history when it comes to Hyperkarting!

Regards
[redacted]

Dear Shannon,
I'm so sad to hear that hyper karting could be taken away from Moore Park entertainment Complex.
We have been going there for some time now, traveling from Terrigal on the Central Coast, and my son having a few parties there now.
It is such a great place to take the kids and I know all the big kids love it too.
It's a real disappointment for this to be taken away, just so the council can have more car space.
Please don't do this to this amazing business, and to the amazing staff that make this business what it is.
There is plenty of parking around, and whether going to a show, a concert, hypercarting, the movies, I have never struggled to get parking there or at surrounding parking.
My son, his friends & I know a lot of people that visit there from the Central Coast will be so disappointed, if you take hyperkarting away..,
Please don't do it..
Kind Regards
[redacted]
(Mother of a child that will be devastated if you take this place away)…

As a local community member to express my concern regarding the potential closure of Hyperkarting Sydney.

Hyperkarting is more than just an entertainment venue — it is a unique recreational space that brings together families, young people, and the wider community in a safe, engaging, and active environment. In a time where inclusive and positive social spaces are so important, venues like this play a valuable role in community wellbeing.

The loss of Hyperkarting would not only impact its employees and business operators, but also the many individuals and families who rely on it as a place for connection, celebration, and recreation. It also contributes to the local economy by attracting visitors and supporting surrounding businesses.

I respectfully urge the Council to consider all possible options to support the continuation of this business — whether through review of decisions, alternative arrangements, or any available pathways that could allow Hyperkarting to remain operational.

Preserving local businesses that contribute positively to the community should be a shared priority, and I hope Hyperkarting can be given the opportunity to continue serving Sydney.

Thank you for your time and consideration.
Kind regards,
[redacted]

Dear Shannon.

Please continue to allow the operation of the Hyper Karting business where it is at the moment as it's a cornerstone of entertainment and fun for families near and far.

It's beyond reason for councils to engage in this revenue raising tactics by closing a business to gain a few more parking spots.

Kind Regards,

To whom this may concern,

My friends and I highly value this gokarting venue as our preferred destination for socialising and recreation. It would be unfortunate if this establishment were to close its doors. I am confident that the local business community would also experience a decline in foot traffic due to the closure of this venue.

Kindly reconsider the proposed changes to ensure the continued operation of this institution.

Kind Regards,
Abrik

Dear Shannon,

I'd like to express my support for Hyper Karting. It's difficult finding active and affordable things for kids to do in the East. Losing Hyper Karting would be a major loss.

We are very impressed with the setup... clearly there has been a lot of investment. My son loves it. It would be a shame if it was forced to close after such a short stint.

Sincerely,
Adrian Atkins

Hyper karting Sydney is a fantastic venue that provides joy and entertainment for Sydneysiders all year round. I've personally been there numerous times and have had absolutely ZERO problems trying to find a parking space.In fact more often than not, the car park feels empty when I go there. Even when I've visited the entertainment quarter during peak hours, there's always MORE THAN ENOUGH space to find a park given the multiple levels within the building.

Closing down hyper karting is a distasteful decision and reflects very poorly when it comes to local governments supporting small businesses. It would be a real shame to see this happen. I, along with many other thrills seekers hope you can reconsider your options. Don't be a buzkill.

Aidan

Dear Sir/Madam,

I hope this message finds you well.

My name is [Your Name], and I am an international student currently studying in Australia. I am writing to express my concern regarding the plan to replace the sports field with parking spaces.

I truly enjoy this place and have visited it multiple times. It is not only a recreational area but also an important space for students and the community to stay active, relieve stress, and connect with others.

I kindly ask you to reconsider this decision. We genuinely need this field, as it serves a valuable purpose for many people, especially students like myself.

Thank you for your time and consideration. I hope you will take our concerns into account.

Sincerely,

Dear Sirs

The decision to look to shut down Hyper Karting would represent a gross failing of this responsible within government to support the local community.

Hyper Karting provides those of all ages to engage in sporting activity, learning skills, which cannot be experienced elsewhere. But most significantly it allows the youth to develop a love of motor sport in a safe and secure environment. Who knows whether it could lead to the identification of the next Mark Webber, Daniel Riccardo or Oscar Piastri. Having travelled and lived abroad, including in the UK which is concussed to be the open of open top racing, there is nothing like Hyper Karting. Instead of looking to close a venue that gives so much to the community, it should be supported.

Worse still is using the apparent need for parking spaces when even a cursory review would establish that the car park is never fully utilised. This is not a legitimate reason.

Show some leadership and firmly demonstrate that local business, supporting the local community, especially the youth, are supported by the governent not attacked.

Please do not shut Hyper Karting Down.

Just head to the business Instagram page and have a look at the comments people are making based on the threat this great business is facing.

We need more activities across Sydney not less. Closing it down is a massive failure to the public. People that do this just for fun and also people who actually aspire to race cars (safely off the streets of Sydney) will lose out. People that bond with friends over quality time together will lose out. People that work to bring the Sydney community a fun place to escape the daily grind will lose out. Not worth it for a few parking spots.

Sincerely,

Ben Anderson

I saw this and I thought surely this is a joke?
Congratulations council on continually taking away entertainment facilities that keep our children (and adults) safe and out of trouble.
I've visited many times and can also agree that the current car park is almost always empty. It feels like a ghost town.
Here you are tearing down peoples livelihoods and passions.
What a disgrace.

Dear Members of the Council,

I am writing to express my urgent request that the council reconsider the proposed closure of Hyper Karting at Moore Park.

As a regular customer, I wish to highlight the significant impact this closure would have on our local community:

Employment: They currently employ over 150 residents who would face immediate job loss.

Community Resources: Hyper Karting is one of the biggest entertainment businesses in the area and use to provide fun for the community, including people that comes all over Sydney to enjoy a safe, fun environment with friends and family, celebrating birthdays and company's events.

We ask that the council explore alternative solutions for parking spaces, once the business has also invested a massive financial resource to maintain a high standard of service provided to their clients.

Respectfully,

From: Daniel Ostermeyer [redacted]

Dear Sir/Madam,

I am writing in support of maintaining the Hyper Karting facility at Entertainment Quarter.

The go karting facility is an excellent leisure facility for young and old alike. I have taken my kids there many times and we would be very disappointed if it was to close.

There are no alternatives for go karting in the Eastern Suburbs - the nearest alternative facilities are a long drive away for us.

It does not make sense to me that a popular leisure facility like this would be forced to close to make way for parking spaces. There is already lots of parking available in the rest of the multi storey car park (this is not usually near capacity in my experience) and in the surrounding area. Entertainment Quarter is also well served by public transport (light rail and buses) and incorporating additional car parking spaces seems to run counter to most recent planning / transport proposals in the City of Sydney.

Yours faithfully,

Daniel Ostermeyer (Waverley resident)

Dear Councillors,

I am writing to express my strong opposition to the proposed closure of the Moore Park Hyperkart Track.
The Hyperkart Track is an important and unique feature of Sydney's entertainment and recreation landscape. It attracts a wide range of visitors, contributes to the vibrancy of Moore Park, and supports local tourism and hospitality.

Importantly, the venue also provides employment for a significant number of people, and its closure would negatively impact those workers and their families.
As a regular visitor to the Hyperkart Track, I have consistently observed that parking availability in the area is adequate. In my experience, there is always plenty of parking when events are held. For this reason, repurposing the Hyperkart Track space to "recover" parking does not appear to be an effective or necessary use of the land, particularly when it comes at the cost of losing a well-used and valued recreational facility.

I respectfully urge Council to reconsider the closure and to recognise the social, economic, and entertainment value that the Moore Park Hyperkart Track provides to Sydney. Retaining this facility would better serve the community than removing an established venue that is clearly meeting public demand.
Thank you for considering my views on this matter.

Yours sincerely,
David Bedelis

I am writing to express my strong support for the continued operation of Hyper Karting at Moore Park.
As a [local resident / frequent visitor / business owner], I believe Hyper Karting is a vital part of the Sydney community. Since its opening, it has transformed an underutilised space into a world-class entertainment hub that attracts thousands of visitors to the precinct, supporting nearby businesses and providing over 150 local jobs.
The venue offers a unique, sustainable, and inclusive recreational activity that is rare in the CBD area. Losing such a significant landmark would be a major blow to Sydney's night-time economy and tourism appeal.
I urge the Council to support the necessary approvals to ensure Hyper Karting remains a permanent fixture of Moore Park. Sydney needs more innovative spaces like this, not fewer.
Thank you for considering my feedback.
Sincerely,
Elaine Wager

Hi there,

I strongly believe the decision to shut down one of Sydney's best entertainment centres is absurd. Hyper Karting has created a community of likeminded go karting enthusiasts, who have gone on to compete in competitions and still frequent the establishment. This shows that despite racers being aware of petrol karting and competitions around sydney, they still want to return to Hyper Karting due to its atmosphere and friendly customer service. Countless of friendships and bonds have been formed through the camaraderie found at Hyper Karting. It is an essential venue for socialising and meeting likeminded people.

The amount of foot traffic that has increased in the Entertainment Quarter since Hyper Kartings open, has increased dramatically. Countless surrounding businesses have benefited from Hyper Kartings existence in the Quarter, and would suffer greatly in the event of its closure. Hyper Karting has also often done collaborations with various businesses in the area, to help drive customers to other venues after they race. The shut down of Hyper Karting would create a ripple effect that would ultimately make the Entertainment Quarter a dying spot, just as it was before 2021.

Hyper Karting hires mostly young people, and has over the years hired over 500 people. Finding a job as a young person with no working experience is an incredibly difficult task, and due to the insanely expensive living situation in Sydney, it is essential that young people are able to find a job to simply afford to live. Hyper Karting allows so many young people to work and pay for the essentials. Shutting it down would put so many people out of work, and prevent new young people from being able to find work, as the job market is so saturated.

Hyper Karting also supports many charities, and donates prizes and gifts to foundations, to incentivise their fundraisers. Plenty of these foundations return to Hyper Karting each year, expressing their gratitude and stating how helpful their donations were in supporting their causes. The shut down of Hyper Karting would also in turn affect these charities and foundations, who partially rely on the business to drive donations.

The accessibility and affordability of Hyper Karting also makes go karting a feasible sport for kids and adults of all ages to explore. It's important for there to be opportunities for new sports to keep people moving, and many people discover their love for go karting, just from a simple visit to Hyper Karting. Other go kart tracks in Sydney use petrol engines, harming the environment more than need be. Hyper Karting's electric karts provide a more environmentally sound option. The venue is also in a much more reachable location, being next to a light rail station and many bus stops.

The decision to shut down such a vital venue is simply outrageous and is not considering the community. There is no need for more parking spaces, the car park is almost NEVER full.

Please strongly consider this email.

Dear Sir
My family has enjoyed the Hyperkarting facilities on a number of occasions and have dined in the precinct following the karting.

For us it would be a great shame if this was turned into additional parking.

We have never had problems finding a car space so the decision to increase the parking seems superfluous.

Please do not force the closure of the Hyperkarting as proposed.

Thank you
Frank Antonini

Dear Council Members,

I am writing to express my strong opposition to the proposed closure of the hyperkarting facility in favour of additional car parking spaces.

Hyperkarting provides far more than just entertainment, it is a valuable community asset. It offers a safe, controlled environment for people of all ages to engage in motorsport, develop driving skills, and enjoy a unique recreational experience. For many, it serves as an accessible entry point into automotive enthusiasm without the risks associated with public roads.

Beyond recreation, the facility contributes positively to the local economy. It attracts visitors, supports local employment, and drives business to surrounding shops and hospitality venues. Removing such a destination in exchange for more parking risks diminishing the vibrancy and appeal of the area.

From a broader perspective, replacing an active community hub with additional car spaces sends the wrong message about urban priorities. Modern cities should aim to create engaging, experience-rich environments rather than simply accommodating more vehicles. Facilities like hyperkarting encourage social interaction, physical activity, and local tourism benefits that far outweigh the limited utility of extra parking.

I respectfully urge the council to reconsider this proposal and explore alternative solutions that preserve and support community-focused venues like hyperkarting.

Thank you for your time and consideration.

Kind regards,
Gab

Dear Sydney Council,

I'm writing to show my support for keeping the rooftop go-karting track in Sydney.

I've been there more than 10 times, and every time it's packed with people having a good time. It's one of those places that actually brings people together locals, tourists, friends, families. You don't get that from many places anymore, I am from Melbourne and this go-karting facility is easily the best in the country and ripping it apart and destroying a business for car park level while also getting rid of a large amount of jobs to young individuals.

Replacing it with a car park just doesn't make sense. Car parks are useful, sure, but they don't create energy, they don't bring people in, and they don't add anything to the community. A place like this does. It gives people something to do, somewhere to go, and a reason to stay in the area longer.

Australia is built around lifestyle. People want experiences, not just convenience. Places like this karting track are exactly what make a city feel alive and enjoyable.

I really encourage the council to think carefully before replacing something that clearly works and is loved by the community.

Kind regards,
George Vlahogiannis

Dear Council Members,

I am writing to you today to strongly oppose the proposed closure of Hyper Karting in the Entertainment Quarter.

Shutting down this beloved local venue is the wrong move for our city, and I urge you to reconsider this decision.

Hyper Karting is much more than just a place to race; it is a vital recreational outlet that brings our community together. For our youth and young families, it provides a safe, engaging, and incredibly fun environment to bond. Beyond the entertainment value, it teaches our young people valuable life skills.

They aren't just learning how to drive safely and develop spatial awareness; they are learning about sportsmanship, quick decision-making, and healthy competition.

Furthermore, the economic impact of this closure cannot be ignored. If Hyper Karting is forced to shut its doors, over 150 jobs will disappear. Destroying the livelihoods of so many hardworking individuals is a devastating blow to our local economy.

It is deeply disheartening to learn that a vibrant hub of community connection and employment is at risk of being demolished simply to increase the car park's capacity by 296 spaces.

Trading a thriving, joyous community space for a concrete parking lot-especially for spaces that will hardly be used-is incredibly short-sighted.

Please listen to the voices of the community. We need places that foster joy, connection, and local employment, not more empty parking spaces. Do not close Hyper Karting down.

Thank you for your time and for representing the best interests of our community.

Sincerely,

Gerry Fanos

Hi,

Why is Council trying to shut down Hyper Karting for more car spots?

Don’t you know how popular this place is for families? It is literally the only I reason I bother to drive my kids from Penrith into Moore Park.

The rest of your offerings there at Moore Park are boring and we have more options here in Western Sydney to be bothered driving out there.

When we go we spend time doing the go karting then we go and visit the restaurants so we won’t bother spending money anymore if you shut this place down.

It’s disgusting that you make these decisions instead of consulting with paying customers. Why don’t you ask people what they want, it’s their money and it keeps business going.

Happy to discuss over the phone to let you know how disappointed this family would be if you decided to shut a successful business down.

Regards
Helio Pedro

Closing down Hyper Karting at Entertainment Quarter Moore Park would be a major loss not just for motorsport enthusiasts, but for the wider Sydney community. This venue offers a rare, accessible way for people of all ages to experience high-performance electric karting in a safe and controlled environment, fostering both recreational fun and grassroots interest in motorsports. In a city like Sydney, where space for unique, active entertainment is increasingly limited, Hyper Karting provides an important alternative to passive leisure activities while also supporting local jobs and nearby businesses. Its presence contributes to the vibrancy of Moore Park as a social and entertainment hub, drawing in visitors and boosting the local economy. Shutting it down would not only remove a popular attraction, but also diminish opportunities for community engagement, skill-building, and tourism in the area.

Hi,

I am a local resident living on Cook Rd and am emailing to express my disappointment with the council plans to replace Hyperkarting EQ with additional parking.

I visited Hyperkarting recently to surprise my partner on his birthday, as it was something we had been wanting to do for ages. We went with a big group of our friends and had a very special time. Everyone loved it and we have been talking frequently about going back since. It's also compelling having it at such close distance, meaning I would more likely visit often.

If you remove this entertainment attraction from the EQ, there will simply be less reason for me and my friends to go there, and it will also detract business from other places in the EQ such as restaurants we would go to after visiting Hyperkarting. Therefore, this decision would not only impact Hyperkarting, but the quality of the EQ as a whole.

Thank you for your time.

Kind regards,
Isabel

To the City of Sydney,

I write to you as part of the growing number of community members and employees asking for Hyper Karting (HK) in Moore Park to remain open, as its closure would mean losing a deeply important local institution.

Needless to say, HK has become a key pillar of the Entertainment Quarter (EQ). Having grown up in the Eastern Suburbs, I remember visits to the EQ before HK opened. While the venues operating there before 2021 were of high-value, what should've been a vibrant area was largely empty.

Closing HK would also rob families and community members of an enjoyable venue that offers something for people of all ages.

I also remember what the car park was like before HK opened. Hyper Karting's recent social media activity quite effectively illustrates how empty the rest of that car park can be even on busy days, but prior to HK the fourth, fifth and sixth levels were virtually vacant all the time.

Crucially, however, I write to you as an employee of Hyper Karting. I first worked there between February 2022 and May 2025 — during which it served essentially as my university job — before I left for a full time job, but returned in late-2025 when my work situation changed.

HK is a wonderful place to work, especially as a university student. The nature of its rostering system allows it to fit perfectly into the busy schedules of its young employee base, many of whom are also students. Overall, it is an important income source for many young people within our community.

On a more personal level, I have formed a strong bond with my colleagues, a few of whom I have gone on to race go karts competitively with and against across New South Wales. These connections would not have been possible without HK.

Given its importance to the Entertainment Quarter and the community, and its role as an employer, and considering all it brings to the City of Sydney, I implore you to do everything in your power to keep Hyper Karting alive.

Kind regards,

Jack MacKenzie

Dear Shannon Rickersey,

I recently learned that the City of Sydney is planning to shut down Hyper Karting to create more parking spaces. Having visited it countless times, I genuinely can't recall the last time it was empty. It supports local jobs, businesses and fosters social connections among friends, family and mates. By attempting to force it out, you're dismantling a vital community culture.

I travel quite a distance to the entertainment quarter, but Hyper Karting is my sole destination. I don't visit the EQ for anything else.

Let me be clear: if you remove Hyper Karting, I won't be attending the EQ. This is a shame because many local businesses there deserve my and others' support.

If you care about local businesses, you'll reverse this decision.

Regards,
Jamie Salgo.

Hi there,

As a frequent user of Hyper Karting I believe that it is a huge mistake to replace this recreational activity which is an escape for so many with a Car Park.

Everyone I know loves hyper karting and would much prefer Hyper Karting there than some extra parking spaces. Please reconsider this decision.

Kind regards,
Jamie Stapleton

Hi Shannon,

I would like to express my strong support for Hyperkarting remaining in its current location. It has become a valued part of our local community and provides a fantastic, safe environment for families to enjoy time together.

My kids absolutely love going there—it's something they genuinely look forward to, and it gives them an opportunity to be active, build confidence, and have fun in a controlled and well-managed setting. As a parent, it's reassuring to have access to entertainment that is both exciting and wholesome.

Facilities like this are incredibly important for families, offering a positive alternative to screen time and encouraging social interaction and outdoor activity. Hyperkarting delivers exactly that, and it would be a real loss to the community if it were to relocate or close.

I strongly encourage you to allow Hyperkarting to remain where it is so that families like mine can continue to benefit from everything it offers.

Kind regards,

Jarrod Bryce

Dear Shannon,

Regarding City of Sydney Council's plans to shut down Hyper Karting Moore Park for extra car spaces.

I urge council to reconsider its decision. I request that Council supports Hyper Karting and let it remain at EQ Moore Park in its space.

Hyper Karting is wonderful entertainment for the area, and one of the best go kart tracks. There is nothing else in the area like it, and other go kart tracks are a significant distance away.

It has been fun for my son to drive there on the small and medium tracks on multiple occasions. In fact, he had one of his most fun times there with his best friend, and we have a photo of them from the Hyper Karting Photo Booth on our fridge right now.

That's a clear example of a positive impact that Hyper Karting has on kids, on friends, having a fun, memorable experience. Indeed, I am looking forward to driving on the same track there as my son as he gets older.

Taking away Hyper Karting would take away a community asset, something that brings the community together.

Also, having worked in the area and used that parking station frequently, and having attended a variety of sporting events, gigs and other events in the precinct (EQ, Allianz and SCG), I question how frequently whether the additional parking capacity would be utilized apart from a small number of major events, to justify its removal. The light rail and overflow parking in Moore Park and Sydney Boys HS should mostly address that need.

I understand and acknowledge that Council has responsibility to plan for a range of community uses and special events. Nevertheless, I ask Council to please consider that Hyper Karting is a great hub for the community, and I hope Council allows Hyper Karting to keep its place there in Moore Park.

Thanks
Javed

To Whom It May Concern,

I'm writing to express my strong disappointment regarding the decision to shut down the Hyper Karting facility on Level 5 of the car park.

This venue has become more than just a business — it's a genuine part of the local community. It provides a place for people to come together, unwind, and enjoy something unique that Sydney doesn't have much of. Removing it in favour of reinstating parking spaces that, from all observable use, are rarely in demand feels both unnecessary and short-sighted.

The impact of this decision goes beyond the business itself. It affects staff, regular customers, local events, and the broader community that has grown around it. Many people rely on this space not just for entertainment, but as a social outlet and a place to connect.

It's difficult to understand why something with such clear value is being replaced by something with far less demonstrated need. Decisions like this risk stripping away the character and vibrancy that make areas like this worth visiting in the first place.

I strongly urge you to reconsider this course of action and take into account the broader community impact before proceeding.

Hi!

I honestly cannot find the questions on Instagram to answer them here on this email - but I will freely write out from the bottom of my heart to say that hyperkarting is a place that makes family and friends come together on any day of the week. Through birthdays and other celebrations to funny moments from the track. You have created a remarkable place to go back to for more memories and a place is now our home.

I will say that I disagree with the decision of shutting hyperkarting forever due to local council's stupid money grab tactics. But think about how Sydney's entertainment and nightlife is truly dying here even the lockout laws are over. Please don't leave us, we have nothing else left to do in Sydney. Don't let the city be less vibrant like it was before during Covid and after.

To whom it may concern,

I strongly disagree with the plan to remove hyperkarting. This is a fun venue for everyone young and old. We need to bring the life back into these areas as businesses surrounding the area also thrive bringing revenue for many. The revenue hyperkart would be making would certainly outway the revenue of extra car spaces when the car park is rarely full during a normal day at best.

Kind regards,
Jessica Armstrong

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.
Dear Shannon Rickersey,

I write as a member of the community to formally oppose the proposed closure of Hyperkarting at 116 Lang Road, Moore Park NSW 2021, as referenced in Development Application RD/2023/897/A.

Hyperkarting is a valued recreational facility that serves a broad cross-section of the Sydney community - from families and casual visitors to corporate groups and motorsport enthusiasts. It is widely regarded as one of the best go-karting businesses in Sydney (with more than 5800+ reviews on google), and its location within Moore Park makes it a key destination for tourists and a popular venue for events and group activities. Its closure would represent a significant and deeply frustrating loss to the community.

It is extremely disheartening to learn that this beloved venue may be replaced by a car park. Trading one of Sydney's most vibrant and well-attended recreational attractions for additional parking is a very poor outcome for the precinct, for tourism, and for the thousands of people who visit Hyperkarting each year. This decision would prioritise vehicle parking over meaningful community and cultural value.

I wish to raise the following concerns regarding the proposed closure:

1. Loss of recreational amenity - Hyperkarting is one of the few dedicated indoor karting facilities in inner Sydney. Removing this facility reduces the variety of recreational options available to residents and visitors alike.

2. Tourism and events impact - Hyperkarting is a genuine tourist drawcard and a go-to venue for corporate events, birthday celebrations, and group activities. Its loss would diminish Moore Park's appeal as an entertainment destination and reduce visitation to the broader precinct.

3. Community and economic impact - The venue supports local employment and contributes to the Moore Park entertainment precinct. Its closure would have a negative flow-on effect on nearby businesses and the local economy.

4. Lack of comparable alternatives - There are limited substitutes for this type of facility within a reasonable distance of the Sydney CBD. Its closure would leave a meaningful gap in the city's recreational offering.

Replacing a thriving, community-loved business with a car park is not an acceptable outcome. I respectfully urge the City of Sydney to carefully reconsider this proposal and to explore all possible alternatives that would allow Hyperkarting to continue operating.

I am happy to provide further information or participate in any community consultation process regarding this matter.

Thank you for your time and consideration.

Regards,
Joe Barnier

Attention - Shannon Rickersey,

Please do not allow Hyper Karting to close down!!
This is such an amazing family fun and family friendly addition to Sydney!
What a shame and what a loss it would be to our city if it were to close down…

It is a unique attraction that brings people together.

Please help enable them to keep open and keep jobs available for the community!

Kind regards,

Jono Andison

To the City of Sydney Council.
To whom it may concern.

Hyper Karting has been such a great place for me.

It's a place I take relatives from overseas.

It's a place I race with friends.

I stimulate the economy by spending money.

Please please assist Hyper Karting to keep them open

Hi
It came to my attention that Hyper Carting is at risk of closing as there is a proposal for more parking spaces.
I am against that proposal, as the carpark is hardly ever close to full.
The precinct, outside of concerts in Hordern Pavillion, is generally eerily empty and hardly an entertainment quarter. Instead of diversifying and enriching the offer to draw patrons in, you are proposing closure of existing activities. Hyper carts are clean, well run, they employ a lot of people and bring people into the quarters.
Kind regards
Jovan

Subject: Formal Objection: Proposed Closure of Hyper Karting Sydney (Moore Park)

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To the Members of the Sydney City Council,

I am writing to formally object to the proposed closure of Hyper Karting Sydney. Deciding to terminate a landmark recreational facility - and the livelihood of over 150 employees - to make room for additional parking spaces is an incredibly short-sighted move that would leave a significant void in our city's cultural and social landscape.

Sydney is currently facing a shortage of diverse, high-quality entertainment options, and Hyper Karting is essential to the city for the following reasons:

1. A Rare "All-Weather" Destination

Sydney's entertainment scene is heavily reliant on outdoor spaces, leaving families and tourists with very few options during wet weather. Hyper Karting provides a premier, indoor, world-class experience that remains operational year-round. Removing one of the city's few reliable "all-weather" attractions would be a significant blow to Sydney's livability and its appeal as a tourist destination.

2. Vital for Youth and Families

There are very few safe, high-energy, and engaging environments for young kids and teenagers in the inner city. Hyper Karting is one of the best options for Sydney's youth, offering a controlled environment that promotes coordination and healthy competition. Losing this venue removes a crucial outlet for young people at a time when we should be investing in more youth-centric infrastructure, not less.

3. Devastating Employment Loss

The closure would result in the immediate loss of over 150 jobs. These are roles held by locals who contribute to the vibrancy of the Moore Park precinct. Sacrificing the livelihoods of 150 people to accommodate more stationary vehicles is an unacceptable trade-off that prioritizes asphalt over people.

4. Protecting the Entertainment Quarter's Identity

The Entertainment Quarter was designed to be a hub of activity and excitement. If the Council continues to prioritize parking over actual entertainment, the precinct loses its purpose. A world-class city is defined by its experiences, not its parking capacity.

Conclusion

I urge the Council to reconsider this proposal. Hyper Karting is a cornerstone of Moore Park that serves kids, families, and workers alike. Please do not trade away one of Sydney's best entertainment assets for a few more parking spots.

Sincerely,

Justin Calvi

To whomever it concerns:

Hyperkarting is the only cheap and accessible place for go-karting in Sydney. There is almost no alternative to an affordable karting experience this close to the CBD. The loss of hyperkarting risks the loss of the greatest attraction to the Moore Park entertainment quarter and will be a major blunder in the long run.

Let Hyperkarting Stay

Hi,

Why is Council trying to shut down Hyper Karting for more car spots?

Don’t you know how popular this place is for families? It is literally the only I reason I bother to drive my kids from Penrith into Moore Park.

The rest of your offerings there at Moore Park are boring and we have more options here in Western Sydney to be bothered driving out there.

When we go we spend time doing the go karting then we go and visit the restaurants so we won’t bother spending money anymore if you shut this place down.

It’s disgusting that you make these decisions instead of consulting with paying customers. Why don’t you ask people what they want, it’s their money and it keeps business going.

Happy to discuss over the phone to let you know how disappointed this family would be if you decided to shut a successful business down.

Regards

Dear council.

In a world that requires a shift to green, discouragement of unnecessary driving is essential. Moore park is one of the most accessible entertainment quarters via public transport. And unfortunately for you guys at council who haven't yet, everybody else can see this incredible feature, and it's for this reason that the Moore park car park is hardly ever filled to capacity.
Furthermore, it is the pinnacle entertainment centre of Sydney. Those cars that you are trying so hard to accommodate? Many of them are there for hyperkarting!!! How can you be benefiting the coming and goers of Moore park by removing their destination and reason to attend?

Think logically.

Hello City of Sydney Council

I am shocked to hear that you are proposing to close Hyper Karting.

Hyper Karting is an Institution in Moore Park. It is a fun space for young people (and old !) to unleash their inner racing driver in a safe, vibrant, and professional environment.

The staff who work there are young, and for many they have started their Customer Service careers there. Some have stayed on and have been trained to move to Managerial roles and others have used their experience as a springboard to other jobs/careers. Where will the **150** currently employed staff go? Where will the future of tomorrow's Customer Service Stars be able to work and train in such a fun and nurturing environment?

The Council should be encouraging the public to use public transport, not increasing car spaces. Especially in this current environment where the cost of fuel is astronomical. Surely it makes sense for patrons attending Moore Park precinct events to be using public transport and leaving their cars at home?

I strongly urge the Council to prioritise this space for the Community to be able to go kart in a safe environment with caring Customer Service staff, rather than setting aside car spaces which will inevitably sit empty.

Yours Sincerely

Maria Wrigley

To the City of Sydney Development/Planning,

I'm writing to express my support for Hyperkarting remaining in Moore Park.

Hyperkarting is a fantastic venue and a really valuable attraction for the area. I've been more than 15 times, including for several work functions, and it has always been a great experience. It clearly brings people into Moore Park, and many visits also flow on to nearby restaurants and businesses.

Losing a unique and popular venue like Hyperkarting in favour of more car parking would be a real loss for the community, and for the precinct. I respectfully ask that the City of Sydney support Hyperkarting staying where it is.

Kind regards,

Max Matthews

To whom it may concern,

I respectfully ask that you reconsider the decision to close Hyper Karting.

For many years, Hyper Karting has been more than just a recreational venue — it has been a place where families, friends, and communities come together to create lasting memories. It offers a rare space where people of all ages can connect, have fun, and build relationships in a fun and engaging environment. Losing such a place would mean losing an important part of our community.

It also plays a vital role in supporting local jobs, strengthening not only the local economy, but also the livelihoods of hundreds of individuals.

Although I'm sure you have your reasonings and desired outcomes from your decision, but this would diminish the character of our spaces we live and work in and call home.

I strongly encourage you to reconsider any decision that prioritises financial gain and profit over wellbeing, connection and sense of community, which at the end of the day and in a much broader sense, is much more important. There is always 'another way', please also consider environmental impacts that your decision may contribute to. Take inspiration from other countries and their innovative solutions.

Thank you for your time and consideration.

Kind regards,
Maya Njegovan

Dear City of Sydney Council,

I am writing to formally express my opposition to the proposed closure of Hyper Karting at Moore Park.

Hyper Karting has been a valuable part of the Moore Park Entertainment Quarter for years. Personally, I have visited many times celebrating birthdays with family, spending time with friends, and consistently having a great experience. It is one of the few activities in the area that offers something genuinely engaging and memorable.

Beyond personal enjoyment, Hyper Karting contributes significantly to the broader precinct. It brings consistent foot traffic and adds vibrancy to surrounding businesses, including restaurants and entertainment venues. In many cases, it has been a key reason for choosing Moore Park as a destination over other options in Sydney.

The proposal to remove such a unique and well-used attraction in favour of additional parking seems counterintuitive. Reducing experiential offerings diminishes the overall appeal of the precinct and risks negatively impacting nearby businesses that benefit from the activity it generates.

I strongly urge the Council to reconsider this decision and explore alternative solutions that preserve Hyper Karting while still addressing infrastructure needs. Retaining diverse and engaging attractions is essential to maintaining Moore Park as a thriving and competitive entertainment destination.

Thank you for re-considering.

Yours sincerely,
Melvin Rivera

Hello Sydney of Sydney,

I am a firm supporter of Hyperkartings importance for our community especially in such an accessible space the heart of Sydney. It is an incredibly unique form of entertainment, fueled by passion and love for the racing scene of all types, and is a strong part of the reason why the entertainment quarters of Moore Park is worth visiting for.

Please reconsider the future plans, especially knowing the messaging that a beloved facet of our community was destroyed over something as soulless as a few extra car spaces.

Hi there,

I'm writing to express my strong support for Hyper Karting and its continued operation. It's a unique and valuable entertainment venue that brings energy, community engagement, and local economic activity to the area and far outweighs the limited benefit of underutilised parking spaces.

I'd strongly encourage council to reconsider any plans to shut it down and instead support businesses that are actively contributing to the vibrancy of the precinct.

Kind regards,
Nathan Lee

To whom it might concern,

Hyper Karting is an amazing addition to the Moore park precinct and should be saved.

As the farther of 4 young kids our family has enjoyed many fun days at Moore Park with the hyper kart facility being the main attraction. With the venue being indoors also means the its isn't affected by weather and its the only karting track in NSW that allows kids under 8 year old to participate.

Please allow Hyper Karts to stay open!

Kind regards,

Nathan Lovett

To whom it may concern,

The proposal to replace something that adds to the character of Sydney with more car spaces is incredibly short sighted. Instead of replacing Hyper Karting with car spaces, wouldn't it be so much better for Sydney City, the environment and traffic to incentivise people to take public transport instead?

Keep something that adds life to the city of Sydney and do more to reduce car use in the city.

Thank you.

Regards,
Pawan

Dear Sir/Madam,

It is rather disappointing and disheartening to hear that Hyper Karting will have to close down soon in order to make room for more carparking spaces in an area which is already well-served by public transport.

I have been to Hyper Karting a couple times because it is the only go-karting facility in the Sydney metropolitan area that does not require a membership and/or full drivers license, and as a learner's license holder, it has helped me learn how to safely operate 4-wheeled motorised vehicles at speed and gain confidence with driving full-sized automobiles. Plus it's also fun!

Closing Hyper Karting, without offering an alternative venue location, would deprive the Entertainment Quarter of a popular venue which isn't linked to the occasional sports event or concert and give people less of a reason to come to Moore Park anymore.

Please reconsider the decision to close Hyper Karting.

Kind regards,
Perry

This place cannot be shut down. To lose 150 jobs for a carpark extension is a simple developer dream, but HK has been an adventure that takes you to another world of enjoyment. It's fairly priced fun away from the alcohol and gambling push, which most venues encourage.

Hello
Hi Angie not to close the hyper carting at Moore Park. I recently had my 50th birthday there where 26 people came and we hide out several sessions. Most people were about my age and my daughter is 15. My Daughter beat everyone in time and based on that we had the best day that is a convenient location easy for parking restaurants next to it it will be such a shame for that place to close I need you to leave it open thank you.

Dear Council,

As much as I do find it frustrating sometimes finding a car park at Moore Park on a busy night, I have never get not managed to eventually get one.

I think it's short sighted and unnecessary to force a successful and much loved business to close just for new car parking spaces.

Please could alternative solutions be pursued instead.

Kind Regards,
Robert Reynolds,
2095

Hi there,

Please don't close down HyperKarting!

They have helped to create many amazing memories between families, friends and the community. Their staff are incredible and work so hard to provide such amazing experiences.

This would be devastating if they had to close down.

Thanks,

Robyn Shuttleworth

Hi,

I'm writing regarding Submission RD/2023/897/A to request that Hyperkart not be closed.

It's honestly one of the most fun things in Moore Park and a place a lot of people genuinely enjoy. It adds a lot to the area and would be a big loss if it shuts down.

Please consider keeping it open.

Thanks
Saumya

Dear City of Sydney,

I'm writing to express my objection to the proposed closure of Hyper Karting (HK), which I understand is being considered to make way for additional car parking.

Just to be clear, I have no financial or business connection to Hyper Karting. I'm simply sharing my perspective as a member of the public who values practical and well-considered planning decisions.

From what I can see, the reasoning behind this proposal doesn't seem to reflect the current situation on the ground.

The existing Entertainment Quarter car park doesn't appear to be operating at full capacity. Replacing an active, well-used business with parking that may not be needed doesn't feel like a neutral change—it looks more like a loss for the community, local jobs, and the surrounding economy.

Hyper Karting is more than just another tenant. It's a destination that supports activities that wouldn't otherwise happen—corporate events, group outings, and social gatherings. These kinds of experiences aren't easily relocated or replaced, so removing the venue effectively removes those opportunities.

There are also real impacts on people. Around 150 individuals are employed through this business, many of whom rely on it for their livelihood. Closing HK for additional parking, especially when the need isn't clearly demonstrated, raises concerns about whether the trade-off is proportionate.

More broadly, this proposal highlights a common issue in urban planning—decisions based on projected demand rather than actual usage. Sydney has seen similar situations before where changes intended to optimise space didn't align with how people actually use it.

It's also important that community feedback is genuinely taken into account. Many people feel that consultation processes can sometimes be more procedural than responsive, and I'd encourage the Council to ensure that isn't the case here.

I'm not against planning for future needs, including parking. However, those decisions should be evidence-based and balanced against the value of what already exists. In this case:

The need for additional parking isn't clearly demonstrated
The social and economic value of HK is immediate and tangible
The site currently supports activities that would otherwise not take place

Ultimately, this is a question of trade-offs, and it seems like a proven, vibrant use of space is being replaced with something more uncertain.

I would ask the Council to:

Reassess actual parking usage data before proceeding

Explore alternatives that allow HK to remain
Clearly explain how this decision benefits the broader community

Sydney benefits from places that bring people together. Removing one in favour of underused space risks sending the opposite message.

I would also appreciate it if my identifying details associated with this submission could be kept private.

Thank you for your time, and I look forward to your response.

We have had some amazing fun times in Hyperkarting, both with work and family. It's our main reason for going anywhere near the area as we live in the northern beaches so it is a bit of a drive for us.

Sydney has enough parking. Don't take one of the best all weather activities for families out for more parking space.

Yours Sincerely

Simon Barrow

Dear Sir/Madam,

I'm writing to express my support for retaining the HyperKarting facility and to respectfully oppose any proposal to replace it with a car park.

HyperKarting offers a unique recreational experience in Sydney, providing a safe, engaging, and social activity for both residents and visitors. Facilities like this contribute to the vibrancy of the local area, support tourism, and encourage active leisure in a controlled environment.

Replacing such a venue with a car park would remove a valuable community asset and reduce the diversity of activities available in the area. While parking is important, it would be disappointing to lose a distinctive and well-used facility that brings enjoyment and economic benefit to the community.

I encourage the council to consider alternative solutions that preserve HyperKarting while addressing any parking needs in a more balanced way.

Thank you for your time and consideration.

Kind regards,
Stu

Dear Shannon,
Re: the proposal to close HyperKarting and increase parking at EQ, I would like to register my disagreement. I believe we have a responsibility - especially given the current global crisis - to improve public transport options, not increase car parking and car traffic in this already congested area. I am also concerned about the considerable job losses from HyperKarting that would result. This would be devastating for the young people employed there who rely on their incomes to survive in Sydney. The decision to close HyperKart and increase car parking is lose-lose.
Best,

[redacted]

I am writing in full support of the above application to extend the use of electric go-karting at Moore Park.
The Councils objections / refusal argument are flawed in its over reliance of the disputed 296 carparking spaces as part of the whole precinct .
The submitted traffic assessment logic is sound .

The major public benefit to the site is largely overlooked in discussions that are overly focused on empirical outcomes.
.
As part of the EQ, Hyperkarting is one of the major anchors / drawcards to the precinct from Inner Sydney, Eastern suburbs and wider Sydney overall.
Its activities draw significant footfall from demographics well beyond the reach of most of the tenants in the precinct and it makes significant patronage contributions to the Food and Beverage tenants by association.

Its operating hours contribute to a stronger day night economy aspiration, that is the stated objective of planning authorities.

This activity is part of the strategic solution to an entertainment precinct that has always underdelivered due to unsuccessful retail master planning. Carparking is not the problem.

For these reasons alone this innovative and adaptive reuse of mostly underutilised car parking spaces is justification for approving an outcome that adds to public benefit.

Yours Faithfully

My favourite go karting place
Come in regularly and it’s the only reason why I’d come to the entertainment quarter. I’d easily spend an extra 100 to stay there for a few more races with mates and we always have fun afterwards. Love that they let you use your own helmets too. And the track layout changing every week is so cool because the Bankstown one doesn’t do that (or let you do a bunch of stuff for that matter)
Hate to see this place close because I can easily spend 1 day just going around the track over and over again

Dear City of Sydney Council,

I oppose the closure of Hyper Karting Moore Park, as it is a valuable recreational venue that supports the local community and economy. I urge you to reconsider and explore alternatives to keep it operating.

Kind regards,
Ana Caron

To CofS DA Submissions,

I am writing to express my strong opposition to the proposed closure of**Moore Park Hyper Karting** and to urge the City of Sydney Council to support its continuation at the Moore Park site.

Moore Park Hyper Karting is a **unique recreational facility** that contributes meaningfully to Sydney's cultural, social, and economic landscape. It provides an accessible motorsport experience within the inner city—something that is increasingly rare due to space constraints and rising development pressures. Its presence enhances Moore Park's role as a diverse, multi-use recreational precinct that caters to a wide range of age groups and interests.

Community and Social Value

The facility is used by **families, young people, tourists, corporate groups, and motorsport enthusiasts**, offering a safe and controlled environment for karting that complies with relevant safety and noise regulations. It encourages social connection, active recreation, and skill development, particularly for younger participants who may not otherwise have access to motorsport pathways.

Importantly, Moore Park Hyper Karting offers a legitimate, structured outlet for motorsport interest, which helps discourage unsafe or illegal driving behaviours elsewhere. This aligns with broader road-safety and community wellbeing objectives.

Economic and Employment Contribution

The venue supports **local employment**, including casual and part-time jobs for students and young workers. It also contributes to the local economy by attracting visitors who patronise nearby businesses such as cafés, restaurants, and public transport services. Its closure would negatively impact these economic flows and remove a long-standing attraction from the precinct.

Fit Within Moore Park

Moore Park has historically been a destination for **sport, entertainment, and active recreation**, and Hyper Karting is consistent with this character. The facility coexists alongside major sporting venues and entertainment infrastructure, and its operation does not detract from public access to green space or broader community use of the parklands.

Request to Council

I respectfully ask the City of Sydney Council to:

1. Reconsider any decision that would result in the closure of Moore Park Hyper Karting
2. Recognise the venue's long-standing community, recreational, and economic value
3. Engage with operators and the community to explore solutions that allow the facility to remain viable and compatible with future planning objectives

Removing facilities like Moore Park Hyper Karting risks narrowing the diversity of recreational opportunities available in Sydney and undermines the inclusive, vibrant character of Moore Park as a destination for all.

Thank you for considering this submission.

Sincerely,

Andrew Santo

To: The Lord Mayor and Councillors, City of Sydney

Re: Objection to Closure of Hyper Karting – Loss of Vital Community Hub

Dear Lord Mayor and Councillors,

I am writing to express my deep concern regarding the planned closure of Hyper Karting at the Entertainment Quarter. While the Council cites a need for 298 parking spaces, this decision completely overlooks the social value this venue provides to our city's most vulnerable groups.

Hyper Karting is one of the few high-energy, accessible recreational facilities in Sydney. It serves as a critical hub for **disability support organisations** and youth groups who rely on the electric karts to provide inclusive experiences for their members. Closing this venue doesn't just remove a "business"—it removes a safe, welcoming environment for community connection.

With more than **500,000 visitors** since 2021, the track has proven itself as a cornerstone of the precinct's identity. Prioritising car storage over a community asset that supports 156 local jobs and provides accessible recreation is a failure of modern urban planning. I urge you to grant the two-year extension to allow this vital social infrastructure to continue serving Sydney.

Yours sincerely,

From: Anne Neville [redacted]

Hi Shannon,

If I am understanding the facts correctly, this seems an absurd decision being made by council. If anything, with the go-carting facility being on the top level it makes excellent use of the facility of which you would no doubt be receiving some form of revenue from. I, too, have never seen the car park at full capacity and have actually appreciated this as I know I'm guaranteed to get a park! If revenue is an issue, increase the car parking charges and add a levy to the businesses in the precinct. Councils are good at adding levies as a form of revenue generation.
And from a family perspective I find the go carting an invaluable wet weather activity for my boys. It's indoors, safe and keeps them active and off their screens.
With this decision of closing down the go carting facility you are doing the community a great disservice. Especially to those of boys. The facility has been a lifesaver for us.

Thank you for reviewing my submission.

Kind Regards,
Anne

Hello,

I have been informed that there is a risk of closing the Hyperkarting entertainment venue for the purpose of car park expansion.

As a father of two and a frequent visitor, I strongly oppose this proposal. The venue is unique not only for Moore Park but for the entire Greater Sydney region as there is no comparable establishment. It is also arguably the most entertaining and valuable venue in Entertainment Quarter, which is dominated by restaurant and cinema chains.

If this proposal is still being considered, I would request a further evaluation that takes into account the venue's broader value.

Hello City of Sydney,

I was very disappointed to hear that Council is not seeking to allow Hyper Karting to continue operating at their current location. Since Hyper Karting opened I have used their facilities on over 25 occasions, not only enjoying a first class karting facility but also bring benefits to the immediate area spending money on car parking there and enjoying meals and drinks at the various restaurants and cafe's within the Entertainment Quarter precinct. Whilst a few of my visits were just for me, on most occasions I came along with friends, family and work colleagues to enjoy using Hyper Karting (both main go kart track and the newer Battle Karts Arena) and enjoy some food and cold drinks after.

Whilst I can appreciate the primary use of a car park is to park cars, on all of my visits I have driven there (as using public transport from Hornsby LGA is not convenient for me as I would need to take Bus, Metro, then Light Rail each way taking 60-90 minute each way) the car parking facility has never been near capacity with me being able to obtain parking easily on the lower 3 levels.

As I live in Hornsby LGA , Hyper Karting has been directly responsible for bringing my business and support to the Entertainment Quarter precinct to which I would not otherwise have visited.

Whilst there are other hire karting venues in and around Sydney, Hyper Karting is the best and the closure of Hyper Karting will have a large impact not only on the business owners and employees, but also the many other businesses in the Entertainment Quarter who directly benefit from the patronage that Hyper Karting brings. The benefits Hyper Karting bring in almost every day of the year surely has to outweigh the loss of one level of parking on a handful of days when car parking in at capacity to support high profile sporting or concert events at the adjoining stadiums.

I please ask that Sydney City Council reconsiders their current stance of not allowing Hyper Karting to continue operating beyond the current consent period. Please extend the consent period for a further 5 years (or more) and I will continue to bring my support and patronage to Hyper Karting and the Entertainment Quarter businesses .

regards

Bretton Coghlan

Dear Members of the Council,
I am writing to express my urgent request that the council reconsider the proposed closure of Hyper Karting at Moore Park.

As a regular customer, I wish to highlight the significant impact this closure would have on our local community:
Employment: They currently employ over 150 residents who would face immediate job loss.
Community Resources: Hyper Karting is one of the biggest entertainment businesses in the area and use to provide fun for the community, including people that comes all over Sydney to enjoy a safe, fun environment with friends and family, celebrating birthdays and company's events.

We ask that the council explore alternative solutions for parking spaces, once the business has also invested a massive financial resource to maintain a high standard of service provided to their clients.

Respectfully,
Christine Pereira

Do no close down Hyper Karting. It is not worth closing down an iconic activity in EQ for a couple hundred car park spaces. Make public transport more accessible that's your issue. The car park is full enough as is during packed out venues, with people taking nearly 2 hours to clear it from top to bottom. Save the go karting. It is one of the only reasons people come to EQ during the week.

Good Afternoon,

I am very sad to hear the news that Hyper Karting could be closing.

Hyper Karting is such a fun activity and it makes for a great day out with family and friends. I've been here many times and want to continue visiting into the future. No other activity compares to this in the entire Sydney region. I have brought friends from overseas to visit and Hyper Karting was a highlight of their visit to Sydney.

This is extremely sad, I hope you will reconsider.

Many people will be very upset by this decision.

Ultimately it is the wrong decision.

Kind regards,
Daniel Bailey

We have used Hyper Karting on numerous occasions and it's great fun and exciting for all ages & no way should this be closed down with the pathetic excuse that it's taking up valuable car parking spaces! I have also used the car park to see bands, sporting events & even when driving up to Hyper Karting when events are on the car park never seems to be 100% full, so I do actually you're doing a disservice to the all the people who have enjoyed coming to this place over the years.

To whom this may concern,
The loss of hyper karting would be devastating for the local city of Sydney community and the staff who are employed at hyperkarting. The decision to turn this space into parking is a confusing one, when we have such great public transport to the area, and when we live in a time where encouraging people to not drive is more important than ever.
It would once again be another loss in activities available for people to do on the city, as Sydney continues to face the devastating consequences of the old lockout laws, and the current cost of living crisis. I hope this email reaches you well and will be considered when a final decision is made about the future of hyper karting. Thank you.

Hi Shannon,

I am writing to support Development Application RD/2023/897/A for 116 Lang Road, Moore Park.

I strongly support the extension of the electric go-karting facility. There is no reason to remove the track as it is a great use of the space and provides something genuinely fun and different to do in Sydney, which is something the city really needs more of.

In my experience, the facility is well run, does not cause any disturbance, and makes good use of an area that would otherwise just be additional parking. There has never seemed to be any real shortage of parking in the Entertainment Quarter, and there are consistently plenty of available spaces, so retaining this use does not appear to come at the expense of parking availability. The proposal represents an appropriate and beneficial use of land within an established entertainment precinct.

It is also an environmentally friendly and innovative concept, using electric karts rather than traditional fuel-based systems. It is great to see a locally founded Sydney business creating something unique and successful, while also providing jobs and opportunities within the community.

I have personally been there multiple times and really enjoy it, and I think it adds to the vibrancy of the area.

It would be disappointing to see it removed when it is clearly a positive and popular addition to the precinct.

Thank you for considering my submission.

Kind regards,

Emma Ash

Dear City of Sydney Council,

I am writing to express my genuine concern and disappointment regarding the proposal to convert the Hyper Karting track into a car park.

Hyper Karting is more than just a recreational venue, it is a place where people come together to enjoy themselves, create memories, and connect with others in a positive and active environment. I have personally visited the track and can say that it provided a unique and exciting experience that is not easily replaced. It is rare to find spaces that offer that kind of energy and sense of community.

To see such a well-loved and distinctive facility potentially replaced by a car park feels disheartening. While I understand that urban development and infrastructure are important, I believe it is equally important to preserve spaces that contribute to the social and recreational wellbeing of the community. Losing Hyper Karting would mean losing a place that brings joy, engagement, and character to the area.

I respectfully ask the Council to reconsider this decision or explore alternative solutions that would allow Hyper Karting to remain. Many people, including myself, value what it offers and would be deeply disappointed to see it go.

Thank you for taking the time to consider my perspective.

Kind regards,

Grace Cover.

To City of Sydney

Do you care about your rate payers?

Why are you not allowing the ONLY place in South East Sydney where your rate payers can take their pre teens for a cool birthday party!

Any alternate area with cool birthday activities is whoop whoop. The Western suburbs. Homebush.

We do NOT want to go there.

We pay our rates here. We want to keep this venue at Moore Park. There is NOTHING else in this area.

I'm sick of searching for cool kids activities and they're almost all at Homebush. NO. DO NOT want to go there!!

If parents lose Hyperkating you're going to rub a LOT of rate payers the wrong way!!

Kind regards

Dear Councillors,

I am writing as a local parent and community member to strongly urge the Council to reconsider any decision to close down Hyper Karting at Moore Park.

This venue has become an important recreational space for my children and their friends. It is a safe, supervised environment where young people can spend their time positively—building skills, confidence, and social connections through racing. Since its opening, Hyper Karting has provided a modern and inclusive activity that appeals to families and teenagers alike.

From a broader perspective, it is difficult to understand the rationale for closing an electric go-karting facility at a time when petrol shortages and sustainability concerns are front of mind. Hyper Karting represents exactly the kind of future-focused, low-emissions recreational infrastructure we should be supporting rather than shutting down.

I respectfully ask the Council to consider the significant community value of this facility—particularly for families—and to explore alternatives that allow Hyper Karting Moore Park to remain open.

Thank you for considering the views of local residents.

Kind regards,
Jade Fong

Dear Shannon,

I'm writing this email in support of keeping Hyper Karting open. As a regular visitor I was saddened and disappointed to hear it may be closing and also for the reasons why.

I've been visiting the Fox Studios/Entertainment Quarter precinct for decades and have seen it go through peaks and troughs. Hyper Karting ads a lot to the precinct and in reality doesn't take anything away. It provides important jobs, offers a unique experience for the area and brings people to the precinct which benefits all the local business'. I go at least once a week with friends and we then go for lunch or dinner at one of the local restaurants. It provides us with a fun activity and a chance to bond and talk. My therapist actually commented on how important it was as an activity for myself and my friends and I can only imagine that it offers the same for countless people. It's not just karts driving around in circles - it's so much more.
If Hyper Karting were to be removed it would take away an important community offering and for what - more parking spaces? I'm sure you have the data however the parking station was rarely full or even close to it before Hyper Karting opened and nor is it now. The parkland is obviously important and a great space and yes, maybe it shouldn't be used for parking during major events. Without it I believe there are still ample provisions for parking in the area and the improvements to public transport to the area recently only negate the need for more parking spaces.

Thank you for your consideration.

Jeremy

Don't close down Moore Park Hyper Karting. I love this place and is the only reason myself and my friends go to the precinct. We usually go for a coffee beforehand and a beer afterwards even though the cafes and bars in the area are average at best.

Thank you,
Jonathan Bayad

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

I'm writing to express my strong opposition to the decision to deny Hyper Karting's lease extension at the Entertainment Quarter.

As a regular visitor and Sydney local, Hyper Karting is one of the best entertainment venues in the city. I've had countless great experiences there — it's genuinely one of the few things that makes the Entertainment Quarter worth visiting outside of stadium events.

The idea of tearing down a thriving venue that's brought over 500,000 visitors and created 150+ jobs just to restore parking spaces that are rarely at capacity makes no sense. Especially with the new 1,500-space underground car park at Allianz Stadium opening soon, the parking argument doesn't hold up.

This decision takes the entertainment out of the Entertainment Quarter. I urge the council to reconsider and work with Hyper Karting on a compromise that keeps this venue alive.

Dear City of Sydney council,

I would like to let you know that the Hyperkarting go carts at Moore Park have been so much fun for my family and I.
I would like you to know that we would miss it terribly if it were to go.

When my daughter turned 15, we brought her and her friends to Hyperkarting for her birthday, then took them to lunch in the EQ.
It was so much fun.
The girls all thought it was the coolest birthday idea.
One of the party guests then went back the next week with her Dad, because he was so jealous she'd gone go-carting without him!
All these quality family moments brought to you by a safe and inclusive activity.

The only other go cart track around like it was at Bankstown, so we preferred to go to this one closer to home. And we have been back! Our photos on social media encouraged other friends to go with their kids. It's a bonus, too, having the food outlets and space at the EQ.
So you see, Hyperkarting is a bonus for the Entertainment Quarter as racers work up an appetite!!
Please keep Hyperkarting at Moore Park.

Kind regards,

Karen and the Owens Family

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon,

I would like to request the Hyperkart remains open for my family. It is a convenient location for us to enjoy a day out, as it is close to the city and all the restaurants and other amenities. It is my children's favourite activity and brings them great joy.

If it were not close, we would not be able to visit. I strongly advise that it remains open.

I have attended many games and events at the EQ and surrounding areas and have never experienced any issues with car parking.

I am unable to understand the reason for its closure, as it would make Sydney less appealing to families and increase the cost of travel.

Regards,

Kim Clayton

What a disgrace you want space for more car parking when it's not needed what is needed is hyper karting for families and friends to be able to enjoy what fun there is in these uncertain times. You will be taking away peoples right to fun and enjoyment . Workers will lose there jobs who love what they do . Please squash this proposal as it's not needed you don't even fill up the car spaces currently there . Common use some common sense
Cheers Leslie

To whom it may concern,

I understand there is a DA to change the access for the hyper Kart business in the EQ. As the owner of a business and leader of a large community that frequent that business, I am compelled to email and seek review to ensure the business continues to operate.

Her Karting is responsible for keeping bad/fast driving off the street. This is not to be underestimated and should be considered in any changes to this business I strongly suggest.

Happy to discuss with anyone council side accordingly.

Thanks
Lex

To Whom It May Concern,

I am writing to express my strong opposition to the proposed closure of the go-kart track in Sydney. This decision is not only disappointing, but fundamentally misguided.

Sydney is a growing, global city that should be investing in diverse, accessible entertainment options—not stripping them away. Attractions like this go-kart track provide valuable recreational opportunities for families, young people, and visitors alike. They contribute to the city's vibrancy, support local jobs, and offer safe, engaging alternatives to less constructive forms of entertainment.

Closing yet another attraction sends the wrong message: that Sydney is content to become less dynamic, less appealing, and less accommodating to its own residents. At a time when many cities are expanding their leisure and tourism offerings, this move feels like a step backwards.

If there are concerns driving this decision—whether financial, regulatory, or otherwise—those should be addressed transparently and creatively. There are always alternatives to outright closure, and those options deserve serious consideration before removing a valued community asset.

Sydney does not need fewer things to do. It needs more. I strongly urge you to reconsider this decision and explore ways to preserve and support this facility rather than eliminate it.

Sincerely,
Liam O'Donnell

To whom it may concern,

I strongly oppose plans to close Hyper Karting. I had numerous work-related and personal events there and hope to continue these in the future. The space brings joy to a wide audience and improves the city as a whole. It would be an incredible disappointment to shut it down, and contrary to the city's plans to improve entertainment. Replacing it with a car park, incentivising non-green forms of transportation, would also be a huge step backwards.

I urge you to reconsider.

Kind regards,
Mariusz Skoneczko

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Ms Rickersey,

I am writing to express my strong disappointment regarding the recent decision to refuse the two-year operating extension for Hyper Karting at the Entertainment Quarter in Moore Park,and to urge the council to reverse this ruling upon review.

While I understand the council's rationale for reclaiming parking spaces in light of the upcoming phase-out of on-grass parking around the precinct, prioritising empty car spaces over a thriving community attraction seems incredibly short-sighted. The Entertainment Quarter car park rarely reaches full capacity, whereas Hyper Karting has successfully brought hundreds of thousands of visitors to a previously underutilised rooftop.

Accessible, local venues like Hyper Karting are vital. They provide a rare, safe environment for people to experience the thrill of racing right here in the city, offering a unique recreational outlet that Sydney desperately needs to retain.

Removing a popular, active entertainment venue that brings life and economic activity to the precinct, in exchange for 298 parking spots, runs counter to the vision of a vibrant, forward-thinking Sydney.

I respectfully ask that the council re-evaluate the real-world usage of the Moore Park parking facilities and approve the extension for Hyper Karting so it can remain open to the public.

Thank you for your time and consideration.

Sincerely,
Mark Crowhurst

To the local council of concern, the minor addition of car parking spaces will not fix the issue at hand. Rather than closing down a small local business that will leave many people unemployed aswell as a decrease in social outings contributing to locals having some fun target the real reason that is the overbearing need for individual car transport. If public transport were to be subsidised or free aswell as a better developed urban infrastructure Sydney as a whole would require less individual transports such as cars.

The closing of this venue would make myself and many others reconsider being a part of your local council as you are supposed to help local residents not work against them, by trying to increase a few car spots that wouldnt even be fully utilised rather than lower the total number of cars on the road you directly work against your own community.

Hi Shannon,

I hope you're well.

I'm writing to share my concerns about the potential closure of Hyper Karting in Moore Park and the proposal to replace it with a car park.

From a community perspective, Hyper Karting is much more than just a business. It's a space where families, young people, and groups come together for birthdays, social outings, and team events. In a city where there are already limited accessible, alcohol-free entertainment options, losing a venue like this would be a real setback for the community.

There is also a significant employment impact to consider. Over 150 people would lose their jobs if the venue closes, many of whom are young workers, students, or locals relying on this income. Replacing the venue with a car park would not provide comparable employment opportunities, resulting in a clear loss for the local economy.

The venue has also proven to be highly popular, attracting hundreds of thousands of visitors since opening. It contributes to the vibrancy of the Moore Park precinct and supports surrounding businesses through increased foot traffic and visitor spending. Removing such a well-used and valued attraction in favour of additional parking, particularly when parking capacity concerns appear to be manageable does not seem aligned with the needs or preferences of the community.

More broadly, decisions like this contribute to the gradual loss of unique and engaging experiences in Sydney. Hyper Karting offers something different and inclusive, and its closure would be felt well beyond just its immediate users.

I strongly encourage consideration of the broader social and economic impacts before proceeding with this proposal. Retaining spaces like Hyper Karting helps support local jobs, community connection, and a more vibrant city.

Thank you for taking the time to consider this feedback.

Kind regards,

Nas Kumar

Member of the community!

To whom it may concern,

I am writing in support of continuing the use of the carpark for Hyper Karting.

It is the main reason I visit the area. If it was not there, I would not have a reason to go. When I do visit, I also spend money at nearby food outlets and other entertainment venues, so it supports more than just one business.

There is nothing else like Hyper Karting nearby. It offers a unique experience that you cannot easily find anywhere else, and that is what brings people to Moore Park. It also helps bring more people into the area, which benefits other businesses nearby. Without it, I believe visits and spending would drop.

If Hyper Karting was removed, I would likely stop going to Moore Park altogether, along with the extra spending that comes with each visit.

The main reason given for the removal of Hyper Karting is to return the use of those car spaces which Hyper Karting occupies. The NSW Government and indeed Sydney City have spent countless millions on the L2 and L3 Light Rail and forcing people to public transport through other projects (closing George St entirely, etc), I cannot believe there is not more of a push on those few days per year when there is large events being hosted at Moore Park.

I feel the reasons to retain Hyper Karting far outweigh the reasons to remove Hyper Karting and I encourage the council to support retaining Hyper Karting at Moore Park.

Thanks,
Nic

Subject: Hyper karting closure

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

The recent decision made to close the hyper karting venue in Moore park is a foolish one, from the perspective of someone who grew up abroad in a much more exciting city with plenty to offer, Sydney was a joke to me.

The very first few times I started hanging out with friends and going out took me to only 3 places, the gym, the pub and hyper karting for a racing session. Smiles, laughter and a ton of rude words directed at my mates led to me making some memories there I won't forget, it has always been
a good time and it's fun for the whole family.

The entertainment quarter would absolutely be less entertaining without hyper karting, let alone the whole city of Sydney, which in my opinion already needs an upgrade in terms of exciting events/activities. If hyper karting goes, there will be jobs lost and lots of angry citizens.

I hope I can be another voice convincing you of why not to shut it.

Regards,

Oliver Longe

Subject: Support for Hyper Karting – Opposition to Proposed Closure at Moore Park

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear City of Sydney Council,

I am writing to formally express my strong disagreement with the decision to reject the lease extension for Hyper Karting at the Entertainment Quarter. I am a supporter of this venue and believe it should remain at its current rooftop location.

Hyper Karting provides a unique, world-class entertainment experience that is rare in the Sydney CBD area. Since 2021, it has transformed an underutilised parking structure into a vibrant hub that supports over 150 local jobs and draws significant foot traffic to the Moore Park precinct.

Closing this venue would be a major loss for Sydney's night-time economy and for the families and young people who rely on it for safe, accessible recreation. The current location is ideal because it makes clever use of existing infrastructure without disrupting the surrounding area.

I urge the Council to reconsider this decision and work with Hyper Karting to ensure they can continue operating at their current site.

Kind regards
Omur Akdemir

Hi, I believe closing hyperkart in Sydney is just wrong, it's a great attraction for people to visit Sydney and overall to have a great time, families, kids and more have a great time and closing it down for more parking spaces is down right useless, please re think what you are doing.

Parsa.

To council.

Me and My family come down from brissy about three times a year just for the hyper karting.
It's a great venue. Have also been there when there is functions next door and games on and never had a problem parking at all.
It's a great family attraction.

Regards
Peter James

Hi,

I'm a gamer who loves go karting and brought to Hyper Karting some friends who are neither gamers or avid Go Kart'ers and they are raving about it! It was so much fun. I wish we had one in Brisbane because it would be booked out.

Please keep this going!!!

Kind regards,

Rosie

Hey,
Please save hyper karting, my best memories of my first year of uni has been at hyper karting.
For many of my mates, it was the first time we ever got into karting and have been a fan ever since. Losing such an iconic location, close to the city would not only hurt the local community but would also lose EQS overall appeal.
Please SAVE HYPER KARTING.

Thank you.

Regards,
Sam

To whom it may concern,

Hyper-kart has hosted many great memories for me. Many first dates, many birthdays, many going away parties on top of just going over there and settling racing scores between mates.

In fact all my cousins are gathering for the first time in years and we are planning on coming to this great venue.

It'd be a real shame to see this go just to accompany parking. Sydney is already short of social activities.

Please do not do this.

Thanks

Sammeer

Hi there,

We would like to support hyper karts remaining open and retaining the current space that they have. They're already very limited things for families to do in Sydney, there is always parking available at this venue so it would be a shame to lose you yet another thing for families to enjoy.

Our family hopes that you rule in favour of it remaining as it is. All the best with your decision.

To whom it may concern,

I am writing as an employee of Hyper Karting to express my deep concern regarding the proposal to shut down its operations at Moore Park.

For me and over 150 others Hyper Karting is not just a workplace but a primary source of livelihood. The potential closure would mean a sudden and significant loss of employment for many individuals who depend on this business to support themselves and their families.

It is especially disheartening to see a thriving and growing business being considered for closure to make way for additional car park spaces that, from my experience, do not even reach full capacity during major event days. This raises serious questions about the necessity and long-term value of such a decision.

Beyond employment, Hyper Karting plays a meaningful role in the community. On a daily basis I witness the excitement, joy and connection it brings to people of all ages. Families, friends and enthusiasts come together here creating lasting memories. It is more than just a venue, it is a space where the community engages, celebrates and unwinds.

Hyper Karting also contributes positively to the local economy through job creation, tourism and ongoing business growth. Losing such an establishment would not only impact employees but also the wider community and economy.

I sincerely urge you to reconsider this decision and take into account the human, social and economic impact that closing Hyper Karting would have.

Thank you for your time and consideration.

Yours sincerely,
Saumya Khandelwal

Hi there,

How are you?
I'm deeply disappointed that HyperKart is being forced to shut down and just return to being a bland lifeless parking lot level. Firstly, I think what is being failed to consider is how useful that lot was prior to the brilliance of HyperKart. Prior to the fun that is curated on level 5 via VR and Electric GoKarting, was nothing at all. Days of just nothing, and certainly days of nothing generating revenue. That level of the car park was hardly used and a matter of fact, and if it was… it was a miserable experience of being stuck trying to vacate it after a gig or a match.
What is in its place now is incredible! HyperKart has shown me (and my fellow rev-heads) my limits as a driver and a budding competitive driver. It created fun moments with friends, and bonding moments with family. Matter of fact: my now wife and I had our shared bucks/hens party there. All our friends had such a riot, that it created a new competition that lives on.

Now, you might see this as a strange email, and granted… it is (because of writing romantically about Go Karting is truly foreign). However, the situation that is currently at play is the loss of fun and also, the destruction of a successful business that services such a large and broad community. From kiddos to the young at heart, this place has given everyone a jolt of life. So, with that being said: please reconsider your idea of returning the space into a drab parking lot. It's more than that now: it's an escape for us all, a field of battle, and a pleasurable source of fun.

Lastly, I hope this finds you well, but alas, I will have to depart with some sad words - if this place closes, you're only perpetuating the sadness that is the loss of Sydney's soul. It's loss of culture, and most unerringly - it's loss of fun. This city has had such a strange identity crisis, and it's strange that a lot of it has to do with prioritizing systematic rules and procedures over fun, culture and the common man.
Please make the right decision, I/we all implore you. Please, let HyperKart remain open in its wonderful space.

Warmest regards,
Seb

Subject: FW: Reconsider the Hyper Karting Decision – This is the Wrong Call for Sydney

---

From: Karl Kovarik [redacted]
Sent: Saturday, 11 April 2026 9:43 PM
To: City of Sydney <council@cityofsydney.nsw.gov.au>; Media Team <MediaTeam@cityofsydney.nsw.gov.au>
Subject: Reconsider the Hyper Karting Decision – This is the Wrong Call for Sydney

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To the City of Sydney Council,

I'm writing as a Sydney resident deeply frustrated by the council's decision to refuse Hyper Karting's application for a two-year operating extension at Moore Park.

Let me be direct: replacing a thriving, zero-noise-complaint entertainment venue with empty parking spaces is exactly the kind of decision that makes people lose faith in local government. You are not managing infrastructure — you are removing something genuinely good from this city.

Hyper Karting has attracted over 500,000 visitors since 2021. It employs more than 150 people. It runs programs for NDIS participants, some of whom attend hundreds of sessions a year as part of their social development. It has produced young racing talent being scouted for Red Bull development programs. It generates foot traffic that benefits every surrounding business in the Entertainment Quarter. And it has done all of this without a single noise complaint.

The council's stated reason — that using 298 car spaces for a commercial activity is 'unacceptable' — does not hold up. Data shows parking demand in the precinct during major events does not justify prioritising those spaces over a functioning, well-loved business. A new underground car park is already set to open nearby. The arithmetic does not support this decision, and nor does any reasonable weighing of community benefit.

I am asking the council to:

1. Reconsider the refusal of the lease extension
2. Engage genuinely with Hyper Karting to find a workable long-term solution
3. Recognise that 'orderly development' should not mean trading a vibrant entertainment precinct for an underused car roof

Sydney is a city that constantly talks about activation, liveability, and attracting people back to its public spaces. Closing Hyper Karting contradicts every one of those stated goals. I urge the council to make a better decision here — one that reflects what this city actually wants to be.

Yours sincerely,
Karl
Glebe Resident

To: City of Sydney <council@cityofsydney.nsw.gov.au>
Subject: Keep hyperkarting open

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear City of Sydney,

I'm writing to strongly oppose the proposed closure of Hyper Karting at Moore Park to make way for additional parking.

This facility is not just another commercial venue—it's a unique recreational asset that brings energy, community engagement, and genuine enjoyment to the area. I've personally visited multiple times, and it consistently delivers a high-quality, memorable experience that is difficult to replicate elsewhere in Sydney.

Replacing a vibrant, active-use destination with more parking is a step in the wrong direction. Cities should be moving toward creating engaging, people-focused environments —not reducing them in favour of more space for cars. Hyper Karting contributes to Moore Park as a destination, encourages social interaction, and provides a safe, structured activity for a wide range of people.

There are already numerous parking options servicing the precinct. Removing a distinctive attraction to marginally increase parking capacity undermines the broader value Moore Park offers to residents and visitors alike. Once a facility like this is gone, it is unlikely to return.

I urge the City of Sydney to reconsider this proposal and prioritise retaining amenities that actively contribute to the cultural and recreational life of the city. Hyper Karting is exactly the kind of venue that makes Sydney more dynamic and enjoyable.

Please do not replace it with something as low-value and easily substituted as additional

parking.

Regards,

Sheree

Dear Council Team,

I'm writing to express my concern about the potential closure of Hyperkarting. Venues like this are incredibly important for our community, especially for young people.

They provide a safe, engaging space where kids can be active, build confidence, and socialise in a positive environment. In a time when many children are spending more time indoors, places like Hyperkarting offer a valuable and healthy alternative.

Closing such a venue would remove an important outlet for families and youth in our area. I strongly encourage you to consider the broader impact this decision may have on the community.

Thank you for your time and consideration.

Kind regards
Sheree

Hello,
The closure of the Hyperkart facility will lead to 156 staff members losing their jobs. As if the economy isn't hard enough. Not all of them would be able to get new jobs straight away, bills keep coming and the loss of their job for a carpark that doesn't fill just isn't fair. Please consider moving the carpark elsewhere or coming up with a solution that accompanies all parties to ensure everybody is happy. Isn't council supposed to be about the community? Making it a better and safer place for everyone? Taking people's jobs away for basically no reason doesn't sound like that.

Thanks

Dear Members of the City of Sydney Council,

I am writing to express my support for the continued operation of Hyper Karting at the Entertainment Quarter in Moore Park.

Hyper Karting is a unique recreational facility that provides an enjoyable activity for families, friends, and visitors to Sydney. It offers a safe and engaging experience that is not commonly available within close proximity to the city. Many members of the community value the opportunity to participate in activities such as this within an accessible location.

The venue also contributes positively to the surrounding precinct. Visitors to Hyper Karting often spend time at nearby restaurants, cafes, the cinema, and other local businesses before or after their visit. As such, the facility helps attract people to the Entertainment Quarter and supports the broader local economy.

Hyper Karting is also uniquely positioned close to central Sydney. Located approximately 3 km from the CBD, it is easily accessible for residents and visitors alike. The only comparable indoor electric karting venue is Entertainment Park at Bankstown Airport, which is approximately 22 km away. Without Hyper Karting, there would be no similar facility conveniently available to communities in the inner city and eastern suburbs.

For these reasons, I respectfully request that the Council and the Local Planning Panel consider the strong community interest in retaining Hyper Karting and allow it to continue operating at the Entertainment Quarter.

Thank you for your time and consideration.

Yours sincerely,

Thomas

Dear City of Sydney,

I am writing to express my concern regarding the potential closure of Hyper Karting.

This venue provides an outstanding recreational experience and offers a positive, engaging alternative to other social activities. For many, including myself, go-karting is an enjoyable and constructive way to spend time with friends, and I visit Hyper Karting regularly—at least twice a month.

The quality of the experience is exceptional, from the well-maintained karts to the regularly updated track layouts. In my view, other venues do not come close to delivering the same level of enjoyment and professionalism.

I understand that concerns may have been raised regarding parking availability; however, in my experience attending during major events nearby, there has consistently been sufficient parking available. This suggests that parking may not be a significant issue.

I respectfully urge you to reconsider and renew Hyper Karting's lease so that the community can continue to benefit from this valuable facility.

Kind regards,

Thrishan Pillay

Hello,
Hyperkarting has been the source of plenty of joy; from bucks parties, Christmas parties to birthday parties, we've been plenty of times and it's been great.

We don't need more parking spaces; we instead need to improve our public transport system as Sydney is trending towards a path of overpopulation which we are managing by reducing culture and fun.

I've lived in London for the last few years and they don't have beaches or as many huge national parks but they do have excellent entertainment which increases their local gdp and tourism.

Please reconsider this decision.

Thanks,
Tim

Good day.
I am but an Australian who has heard of a plan to expand the quantity of parking there by replacing the Hyperkarting venue.
I would like to request you reconsider that, as these parking spaces will always have vacancy considering it is in Moore Park. There is also another car park available near the light rail near the Hordern Pavilion.
Due to these factors, I believe it would be best to keep Hyperkarting instead of turning it into parking spaces, as I believe that the jobs and experiences brought by Hyperkarting will far outweigh the benefits of a few extra empty parking spaces.
As a frequent visitor of the area, I have never once seen a car parked on the roof of the building Hyperkarting is situated in, suggesting there is no current need for extra parking spaces in that area.
Thank you for listening to my concerns.
King regards

Hyper karting MUST STAY OPEN

You cannot let the jobs of 156 staff members go to waste their livelihood in this economy matters!!!!

In this economy The city should focus on expanding the area expanding its facilities its tourist attractions not hindering them, causes less interest in the Entertainment Quarter altogether.

The restaurants in the Entertainment Quarter are also supported by the business of karting customers who utilise the food facilities what are they to do if you begin closing facilities they will run out of business themselves and be forced to shut!!!!!

CONSIDER THE CONSEQUENCES

CONSIDER THE COMMUNITY

It’s simply impossible to consider closing A KARTING CENTRE TOP 10 IN THE WHOLE WORLD AND THE BEST IN THE SOUTHER HEMISPHERE ITS A BIG ATTRACTION TO SYDNEY WHY REDUCE THE CITYS COMMUNITY OVER SOME EMPTY PARKING SPACES if they close you’ve lost my business for the Entertainment Quarter and thousands of other locals too !!!!!!

ITS OUTRAGEOUS

THANK YOU

Dear there,

I am writing to express my strong support for maintaining Hyperkarting at its current location and to voice my opposition to the proposal of converting this space into a car park.

Hyperkarting provides a unique recreational value to the community that a parking facility simply cannot replace. It serves as a significant local attraction, drawing visitors to the area and supporting the local economy. Beyond the economic benefits, it offers a high-quality entertainment venue for families, friends, and enthusiasts, contributing to the vibrant social fabric of our city.

While I understand the ongoing need for infrastructure, I believe that preserving active, engaging spaces like Hyperkarting is essential for the character and appeal of the neighborhood. Replacing such a popular destination with a car park would be a loss for the community.

I urge you to reconsider the current proposal and look for alternative solutions for parking that do not involve the removal of Hyperkarting.

Thank you for your time and for considering my perspective on this matter.

Best regards,

Yung Sen Riady Budiman

Dear Shannon Rickersay,

I am writing to express my strong support for keeping Hyperkarting Sydney open and to highlight the significant value it brings to our local community - particularly for young people.

Hyperkarting is far more than just an recreational venue, it provides a safe, structured, and engaging environment where kids and teenagers can develop confidence, coordination, and a sense of responsibility. In a time when many young people are increasingly drawn to screens and sedentary activities, facilities like this offer a rare and important opportunity for active, real-world engagement.

For many families, Hyperkarting is also a place where meaningful connections are built—between parents and children, among peers, and within the broader community. It fosters social interaction, healthy competition, and teamwork in a controlled and supervised setting.

Additionally, it introduces young people to motorsport in a safe and accessible way. This can spark long-term interests in engineering, mechanics, and performance driving—pathways that extend well beyond recreation.

Closing such a facility would remove an important outlet for youth activity and community engagement in Sydney. Retaining and supporting venues like Hyperkarting demonstrates a commitment to fostering active lifestyles, youth development, and inclusive recreational spaces.

I respectfully urge you to consider the broader social and community impact before making any decision to close this facility. Its value extends far beyond entertainment - it is an investment in our community's wellbeing.

Thank you for your time and consideration!

Kind Regards
Zolia Yu

Subject: Please don't close Hyper Karts Moore Park

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Hi there,

I just wanted to reach out about the plan to close Hyper Karting at Moore Park.

Honestly, this feels like a really disappointing decision. Hyper Karting is one of the most fun things to do in that whole area — it actually gives people a reason to go to the Entertainment Quarter and makes the precinct feel alive.

Every time I've been there, it's been busy and full of energy. Without it, the area risks going back to feeling pretty flat.

If the issue is needing more parking, surely there are better solutions than shutting it down. Build a new car park, expand parking elsewhere, or look at alternative options — but replacing something like Hyper Karting with parking feels like a step backwards.

And if it really can't stay where it is, then at least work with the operators to find another central Sydney location and help facilitate a move. It would be a shame to lose it entirely.

Sydney already struggles with having enough genuinely fun, unique things to do — this is one of the few that actually delivers.

Would really encourage you to reconsider.

Thanks,
Sam

Hello,
In regards to the potential closure of hyper karting at Moore park. Please don’t ruin a great business and fun pastime just for more car parking. 98% of the time that car park isn’t full anyway and currently a massive car park is being built on the other side of the football stadium to accommodate extra parking.
Thanks for your time, kind regards. Ben

Hi team,

Throwing my support behind keeping Hyperkarting open!

Love this place! My son and I as well as our friends have been so many times. Had parties there as well!

Nothing else like it around and it's a great place to go.

I have lived in the area for nearly 20 years and the parking there is barely ever full enough to even need to shut this business down. It's ridiculous. I have never needed to go past Level 3 for parking ever!

Hyperkarting is a year round business that brings in people from all over for fun. Leave them alone to run their business.

Dear Council,

I've been going to Moore Park recently to take part in Hyperkarting with my 4-year-old son and his friends many times over the last six months, and it's one of his favourite things to do right now.

Hyperkarting is a great example of enterprise stacking. We can park right below, then head straight to EQ afterwards for lunch and ice cream. I have also noticed over the years, and I have worked at Fox studios, that the carpark is mostly always empty.

Before Hyperkarting, we would very rarely visit Moore Park, and if we did, it was just for the cinemas .

Please consider allowing them to keep their space.

Regards,
Daniel Barry and a very worried 4 year old [redacted]

I am writing to express my strong support for the continued operation of Hyper Karting at the Entertainment Quarter in Moore Park. The decision to deny a short two-year extension to their operations is, in my view, a short-sighted one that prioritises car parking over a thriving community asset. I urge the City of Sydney to reconsider this decision and work collaboratively with Hyper Karting to find a solution that allows the venue to continue operating.

Sydney has a well-documented and long-standing shortage of amusement and entertainment facilities. Since the closures of Wonderland Sydney in 2004, Fox Studios Backlot in 2001, and Sega World in 2000, the city has lost venue after venue without replacement. Today, Luna Park remains essentially the only traditional amusement facility in the entire Sydney metropolitan area — a city of over five million people. For a global city that markets itself as a world-class destination, this is an embarrassing gap in our recreational offering. Closing Hyper Karting only widens it further.

Hyper Karting is not just another business — it is one of the few genuinely unique, accessible, and affordable entertainment experiences left in inner Sydney. With tracks catering to children as young as three through to adults, it serves families, corporate groups, birthday parties, school holiday crowds, and tourists alike. It operates rain or shine, uses clean electric karts, and brings life to what would otherwise be a vacant rooftop car park. The venue directly employs over 150 people, and its closure would have real flow-on effects for surrounding businesses in the Entertainment Quarter precinct.

The justification that this rooftop space must revert to car parking does not hold up to scrutiny when weighed against the social and economic contribution Hyper Karting makes. Parking is important, but the Entertainment Quarter already has extensive parking facilities across multiple levels. Converting an active, job-creating, community-serving entertainment venue back into empty bitumen is a poor use of public space and sends the wrong message about what kind of city Sydney wants to be.

I strongly urge the Council to reconsider this decision, engage constructively with the operators, and explore a compromise that preserves both adequate parking and this valuable entertainment venue. Sydney cannot afford to keep losing the few fun, family-friendly attractions it has left. Hyper Karting deserves the opportunity to continue operating, and the community deserves a council that prioritises people and experiences over empty car spaces.

Kind Regards,

James Jelly

Subject: FW: Moore Park Business Closure - D/2023/897/B

From: Greg Beaumont <[redacted]
Sent: Monday, 13 April 2026 1:32 PM
To: Michael Soo <[redacted]
Subject: Moore Park Business Closure

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Michael,

I am writing to you as a concerned member of the Sydney community to express my strong opposition to the proposed closure of **Hyper Karting** in Moore Park and the subsequent plan to revert the space into additional car parking. As Senior Area Planning Manager I have confidence you'll be able to resolve this issue.

While I understand the complexities of urban planning, removing a thriving, innovative business in favor of stationary vehicles feels like a significant step backward for the Moore Park precinct. I urge the Council to reconsider this decision based on the following impacts:

- **Significant Job Loss:** Hyper Karting employs a large team of young, energetic locals. In the current economic climate, removing dozens of jobs to make room for empty cars is counterproductive to the City's goal of supporting local employment.
- **Impact on Local Ecosystem:** Hyper Karting is a "destination" business. It draws thousands of visitors to the Moore Park area who then spend money at surrounding restaurants, cafes, and retail outlets. Closing this venue will result in a measurable "trickle-down" loss for neighboring small businesses. I know this because I often have dinner at Watsons EQ or Mary's Pizza after a karting session with my friends.
- **Loss of Diverse Recreation:** Sydney needs more high-quality, all-weather recreational activities. As an **electric** karting venue, Hyper Karting provides a sustainable, low-noise, and modern entertainment option that aligns with Sydney's vision for a future-facing city. It is also a valuable alcohol-free activity that gives people a fun alternative to going out drinking.
- **Underutilization of Space:** Reverting a converted, productive commercial floor back into a car park is a poor use of urban space. We should be prioritizing people and activity over more traffic.

The Moore Park precinct is at its best when it is vibrant and full of life. Hyper Karting contributes to that vibrancy every day. I ask that you work with the business to find a solution that allows them to remain operational, rather than prioritizing additional car spots that offer zero cultural or economic growth to our city.

The conclusion of the Modification Application Assessment D/2023/897/B states "*The continued occupation of 296 on-site spaces for the commercial activities results in a reduction in publicly available on-site parking and* ***is not in the public interest***." As a member of the public i can confirm that this is **incorrect** and is in my interest.

I look forward to hearing how the City of Sydney plans to support local businesses and preserve the active spirit of Moore Park.

Sincerely,

Greg Beaumont

To whom it may concern,

I am writing to support Hyper Karting remaining at the Entertainment Quarter.

My son visited Hyper Karting during the school holidays and absolutely loved it. He still talks about it.

As a parent, what stood out to me was that it is not just another inner-city outing based around shops or food. It is something active, memorable and genuinely exciting for kids and families, and there is very little else like it in this part of Sydney.

I understand council is considering the future use of this space because of parking needs. However, I think it would be a real loss to remove a unique recreational attraction that has already been operating lawfully through formal planning approvals. Hyper Karting has clearly added something valuable to the precinct over a number of years, and that should be weighed properly against the benefit of simply returning the space to more parking.

Places like the Entertainment Quarter should offer more than just car access and event overflow. They should also include experiences that give families and visitors a reason to come, stay and enjoy the area.

Hyper Karting does exactly that. It brings energy and variety to the precinct, and once something like this is gone, it is unlikely to be replaced with anything as distinctive or accessible.

I also understand that the current issue is not because Hyper Karting was there improperly, but because of a time-limited approval linked to wider parking considerations in the Moore Park precinct. That makes this a policy choice, not a correction of something inappropriate. In my view, council should choose to support a proven, family-friendly use that adds to the character of the area.

I also think this decision should be looked at through the lens of how people access Moore Park more broadly. This is not an isolated suburban site with no transport alternatives. Moore Park is already well served by light rail, regular bus routes and walking access from Central. In that context, I do not believe the best outcome is to default this space back to additional parking if that comes at the expense of a unique, proven and family-friendly attraction that adds genuine value to the precinct.

I respectfully ask council to support retaining Hyper Karting at this site, or to work with the operator on a pathway that allows it to continue.

Yours faithfully,

Richard Duke

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear City of Sydney Council,

I am writing to express my strong opposition to the proposed closure of Hyper Karting at Moore Park. This decision, which reportedly stems from the refusal to extend its operating permit, risks dismantling far more than just an entertainment venue—it threatens a vibrant community hub that has become an integral part of Sydney's social and cultural fabric.

Hyper Karting is not simply a go-kart track. It is a dynamic, inclusive space that has attracted over 500,000 visitors and contributed meaningfully to the local economy. It has created jobs, supported local businesses, and provided a safe and exciting environment for people of all ages. Removing such a venue in favour of reclaiming parking space reflects a deeply flawed prioritisation—one that places cars above people, and convenience above community.

In a city that prides itself on innovation, sustainability, and liveability, this decision feels not only regressive but also selfish. Hyper Karting represents the future of urban entertainment: electric, environmentally conscious, and socially engaging. It offers zero-emission karting and immersive experiences that align with modern values. Yet, instead of nurturing this forward-thinking initiative, the Council appears willing to erase it for the sake of additional parking—despite evidence suggesting that parking demand in the area is already manageable and new infrastructure is underway.

Beyond economics and infrastructure, the most significant loss will be felt within the community itself. Hyper Karting is a place where friendships are forged, strengthened, and celebrated. It is a venue where people come together—not just to race, but to laugh, compete, and connect. For many, including myself, it serves as a rare and valuable third space: somewhere that is neither home nor school, but a vital social environment.

I personally go to Hyper Karting occasionally to hang out with my friends, and those experiences are genuinely meaningful to me. In a time where so much of social interaction has shifted online, having a physical space where we can meet, engage, and create memories is incredibly important. There is something uniquely special about standing on the edge of the track, helmets in hand, joking about who will come last—only to end up arguing over lap times minutes later. It is chaotic, competitive, and unforgettable.

One particular memory stands out. My friends and I had planned a visit during the holidays, and what started as a simple outing quickly turned into one of the best days we've had together. None of us were especially good at karting, but that didn't matter. We laughed at every spin-out, celebrated every small victory, and spent hours just being present with each other. It wasn't about the racing—it was about the connection. That kind of experience cannot be replaced by a car park.

Closing Hyper Karting would strip away a space that supports mental wellbeing, social interaction, and community engagement—especially for young people. It provides an outlet for stress, a break from academic pressure, and a setting where people can simply enjoy themselves. In doing so, it contributes to a healthier, more connected society.

Additionally, Hyper Karting has played a role in fostering interest in motorsport and engineering. It has even been used as a training and recruitment ground for university teams such as UNSW's Redback Racing, demonstrating its value beyond recreation. This highlights its broader contribution to education, skill development, and innovation.

The potential loss of over 150 jobs further underscores the gravity of this decision. These are real people whose livelihoods are at stake—individuals who contribute to Sydney's economy and rely on this venue for employment.

The closure would not only affect them but also ripple through the wider community.

It is difficult to understand how such a decision aligns with the City of Sydney's stated goals of fostering community, supporting local businesses, and enhancing urban life. Instead, it sends a message that spaces designed for human connection are expendable, while infrastructure for vehicles takes precedence.

I urge the Council to reconsider this decision. Cities are not defined by their parking capacity, but by the experiences they offer and the communities they nurture. Hyper Karting is one of those experiences—a place where people come together, where memories are made, and where Sydney feels alive.

To remove it would not just be a loss of entertainment, but a loss of identity.

Please prioritise people over parking. Please listen to the voices of the community. And please allow Hyper Karting to continue operating as the vibrant, meaningful space it has become.

Yours sincerely,
Aneesh

Hi Shannon Rickersey

As a property owner and rate payer in the City of Sydney, specifically in Redfern, I'd like to offer my support to the above mentioned submission and ask that the

I've been a regular karter at Moore Park over the last couple of years, going with friends and family. Hyper Karting is a huge draw card for the precinct and to be honest one of the key reasons I visit the area.

I regularly spend time at other vendors in the precinct either before or after my time karting, which simply wouldn't happen if I wasn't karting.

I understand there is a plan to grow the precinct to increase more entertainment options, I find it counter intuitive that the most popular entertainment vendor in the precinct would be shutdown.

Thank you for your time

Jeremy Nelson

Dear Council,

I am writing as a local resident to express my strong opposition to the proposed closure of Hyper Karting in favour of additional parking.

I am genuinely shocked and dismayed by this proposal. Hyper Karting is not simply a business. It is a community institution. As a nearby resident who has visited many times with my children and friends, I can attest firsthand to how much this venue means to the people who use it. It is consistently full of life, laughter, and families making memories together.

The parking justification does not hold up to scrutiny. I regularly attend sporting events and other activities in the area and have never experienced a parking shortage that would warrant the destruction of a thriving entertainment venue. Trading a vibrant, active community space for a carpark would be a deeply poor exchange, one that prioritises vehicles over people.

What concerns me most is what this decision says about our area's vision for itself. Our city's nightlife and family entertainment options are already limited. Hyper Karting is one of the few genuinely bright spots, a place that draws people in, keeps families engaged, and gives young people somewhere fun and safe to spend their time. Removing it would leave a void that a stretch of asphalt simply cannot fill.

I urge Council in the strongest possible terms to reverse this decision and instead explore alternative solutions to any perceived parking needs, solutions that do not come at the cost of one of our community's most valued assets.

Thank you for considering this submission.

Yours sincerely,

A Abrahams

****Email is in my personal capacity and does not represent my employer****

Hi all,

I would like to write to my support for HyperKarting continuing to operate at its current Moore Park venue (in my personal capacity as someone who resides near the venue and has been a repeat customer at HyperKarting).

In my view they are a tremendous cultural addition to the area (for the City of Sydney as well as the entire city of Sydney more broadly).

We are a city already in significant shortage of "interesting things to do". Hyper Karting seems to me like an ingenious win-win for everyone (with a creative use of carpark space – and doesn't preclude several floors of parking on the floors below). How incredible is it that we have an awesome unique activity for all ages (karting) this close to the CBD……in a super accessible venue (with parking)……that is making the entire EQ area much more lively.

I do not possibly understand what alternative use for the space would be an improvement vs. HyperKarting in that location. (Surely the council is not thinking of turning it back into more parking……)

Many thanks,

Mark Lin

Hi
I am writing in support of the kart facility at Moore park.
I have attended this place on a number of occasions and it is a community facility that is far more valuable than a couple of hundred parking spaces that will be very rarely used.
The Karts are environmentally friendly family oriented and a fantastic asset for the general Sydney community. It also employs a significant number of people, these are uncertain and worrying times and killing jobs is the last thing the community needs right now.
Please reconsider this proposed to force its closure. It would be a massive disservice to the community.
Clive Girling

Hi submissions team,

I'm writing to request that you review your decision not to extend Hyper Karting's license to use the parking lot at Moore Park.

This is a truly unique attraction, one me and my whole family have enjoyed numerous times and it would be such a huge loss to the city. And for the sake of what - a few more parking spaces to cater for polluting road traffic which is in decline due to the oil crisis anyway?

Moore Park is well-served by public transport. There is no good reason to prioritise private transportation over the significant public amenity provided by this fantastic small business.

I urge you to reconsider the decision and extend their permit.

Kind regards,

Cam Adams

HYPER KARTING DESERVES TO STAY!!!!! THE BEST KARTING IN SYDNEY ITS A TOURIST ATTRACTION TO THE AREA NOBODY IS IN MOORE PARK UNLESS THEY ARE KARTING or going to a the kid Laroi concert !!!!

Most people (including me) visit the Entertainment Quarter just for go karting, otherwise the place is pretty much a ghost town!!!!

More important than a few extra parking spaces that will remain empty why not have the upper level used for something fun and exciting and unique… who else runs a go karting centre in a car park!???? that unique positioning is what keeps the Entertainmet Quarter busy there's so many people who love Hyper Karting as

a place of Friendship
a place of fun and enjoyment
a place of community

Plus karting is the only activity in the area open late on weeknights which brings people to the quarter

I visit karting at least once a week and it's one of my favourite spots in the entire city because it gives you something to do during the week when the rest of the city is shut

DO NOT GET RID OF HYPER KARTING FOR SOME EMPTY PARKING SPOTS I BEG YOU I KNOW 50 people alone that love that spot and would never wish it to close for a few extra spots that won't even get used

Unless there is a big event The car park doesn't get busy enough on average for more spots to be necessary!!!!!!!

You would be taking away a key asset to the area of Moore Park just the same as if you decided to close the golf course !!!!!!!!!

PLEASE SAVE HYPER KARTING

Thank you for reading

Good afternoon

Just wanted to submit my support for the Hyperkarting at the Entertainment Quarter.

I've had numerous enjoyable times with friends and it would
Be a shame to remove more 'entertainment' from an area named to provide exactly that.
The restaurants and bars in the EQ benefit from this being on site and the area needs more entertainment options NOT less and the light rail stop services the area

Hope you agree and let the status quo continue in a car
Park which is empty most days on most levels

Many Thanks

Matt Whitaker

I am writing to express my strong support for Hyper Karting (hyperkarting.com.au) and to respectfully request that the council reconsider any decision that would result in the loss of its approval to operate.

Hyper Karting has been a valued recreational facility for myself, my friends, and many others in the community. It provides a safe, structured, and enjoyable environment for people of all ages to engage in a unique activity that promotes social connection, friendly competition, and stress relief. In a time where accessible and engaging local entertainment options are increasingly important, venues like this play a meaningful role in community wellbeing.

From my experience, the facility has been well-managed and offers a controlled alternative to more risky or unregulated activities. It gives people—especially young adults—a place to gather, have fun, and stay engaged in a positive setting. Removing such a venue would not only impact regular patrons like myself, but also reduce the diversity of recreational options available in the area.

I understand that councils must carefully balance operational concerns, but I encourage you to consider the broader community benefit that Hyper Karting provides. If there are specific issues prompting this decision, I would strongly support working collaboratively with the operators to address them rather than closing the facility altogether.

I hope you will take community feedback like mine into account and explore ways to allow Hyper Karting to continue operating for the benefit of local residents.

Thank you for your time and consideration.

To Whom it May Concern,

I am writing to express strong support for the continuation of Hyperkarting's lease at the Entertainment Quarter (EQ). As one of the precinct's most successful and consistently activated venues, Hyperkarting provides significant community, economic and place-making benefits that would be lost if the site were converted to additional parking.

1. Alignment with City of Sydney Strategic Objectives

1.1 Sustainable, Low-Emission Recreation

Hyperkarting operates fully electric karts, producing no on-site emissions and minimal noise. This directly supports the City of Sydney's sustainability and climate-action goals, which prioritise low-impact recreation and reduced transport emissions.

1.2 Activation of Under-Utilised Precincts

EQ has long struggled with low visitation and inconsistent tenancy turnover. Hyperkarting is one of the few attractions that reliably draws families, young people, corporate groups and tourists throughout the week. Its removal would undermine the city's broader objective of activating key cultural and entertainment precincts.

2. Economic and Social Benefits

2.1 Proven Driver of Foot Traffic

Hyperkarting attracts a broad demographic that would not otherwise visit EQ. This increased foot traffic supports surrounding businesses, improves precinct vibrancy, and contributes to the viability of other tenants.

2.2 Local Employment and Youth Engagement

The venue provides stable employment opportunities, particularly for young people. Replacing an active employer with additional parking would reduce job availability and diminish the social value generated by the precinct.

2.3 Accessible, Safe Indoor Recreation

Electric karting offers a rare, safe, weather-proof activity suitable for families, teens, adults and corporate groups. EQ has limited attractions of this nature, and the loss of such a venue would reduce recreational diversity for local residents and visitors.

3. Land-Use Considerations

3.1 Parking Supply vs. Precinct Activation

EQ already contains substantial parking capacity, and demand has declined in recent years due to changing travel patterns and reduced precinct activity. The carpark is under-utilised and rarely reaches capacity. Converting a thriving recreational venue into additional parking would not meaningfully improve transport outcomes but would significantly reduce activation and community use.

3.2 Opportunity Cost of Removing a High-Performing Tenant

Hyperkarting is one of the few tenants that consistently generates visitation and revenue. Removing a successful, low-impact attraction in favour of passive infrastructure represents a poor use of strategically located land within a designated entertainment precinct.

4. Conclusion

Hyperkarting delivers measurable community, economic and environmental benefits that align with the City of Sydney's planning priorities. Its continued operation supports activation of the Entertainment Quarter, provides sustainable recreation, and contributes to the precinct's long-term viability. Replacing it with additional parking would diminish the area's vibrancy and undermine the city's strategic goals.

For these reasons, I strongly urge Council to retain Hyperkarting as a key tenant at the Entertainment Quarter.

Kind regards,

Daniela Thompson

Hello

I'm writing to add my voice to the chorus of people who have opposed the closure of Hyper Karting.

It's a fantastic venue and I've had a great time there in the past as I'm sure have many others. It significantly adds to the facilities at the Entertainment Quarter.

I note the owner of Hyper Karting has also gone on the public record confirming that even when there is a blockbuster sporting contest at the nearby football stadiums, the existing carpark does not reach capacity. This fact alone would suggest that it is not necessary to increase the capacity of the carpark, especially given this would come at the cost of a small business and hundreds of jobs.

In fact dare I say that it would probably be prudent to discourage cars from converging on the entertainment quarter, rather than encourage it. From personal experience, the Sydney Swans playing at the SCG causes local traffic in the region to grind to a halt. The area is well served by public transport already and it would be a much better public policy decision to further encourage the use of public transport as an alternative to facilitating an even greater number of private vehicles parking in the Entertainment Quarter than the roads surrounding it were built to handle.

Yours faithfully

Brett Watts

Hi there

We are frequently karting at Hyper Kart in Moore Park, it really offers a unique experience in Sydney and so close to the CBD. Other experiences at Moore Park can be found elsewhere within short distance. It would be a real shame to lose something so unique at this location, I would have no other reason to make it out to Moore Park without it.

Best regards,

Carl Mazzolo

Good afternoon City of Sydney

I am writing in support of the HyperKarting venue in retaining their tenancy at the Moore Park Entertainment Quarter.

The HyperKarting venue has provided plenty of benefits to the wider community:

1) Creation of 150 jobs
2) One of the main attractions for visitors in the Entertainment Quarter - without HyperKarting, the precinct is very quiet.
3) To the previous point, the HyperKarting venue offers massive boost to the local economy in terms of patronage of nearby food and beverage amenities in Entertainment Quarter by ways of visitors of HyperKarting.
4) Provides residents in the Eastern Suburbs as well as visitors to the CBD a safe and viable karting facility that is easier accessible by public transport - karting facilities in Sydney are usually in the Greater Western Sydney area and NOT accessible by public transport.

Furthermore, the argument to permanently closed down HyperKarting in favour of more car parks is not solid as there is already construction of a larger car parking precinct nearby in Moore Park.

I hope that City of Sydney reconsider their plans to permanently shut down HyperKarting and grant them a two year extension while all parties explore alternate options for parking.

I look forward to hearing from you regarding this

Lawrie Han

Hi there,
I am writing to raise my concerns regarding the closure of one of the GoKart venues. I have been there in few occasions including my visit to EQ markets and have never experienced any issues finding the parking. I believe venues as such are critical to the local amenities as well as the locals. I would sincerely request you to review your decision to expand on car park at this time.

Good Afternoon,

Just wanted to say that it would be such a shame to close Hyper Karting. I've been many times, including my Bucks party and it's so much fun.

It's a rare thing to have go karting so close to a city.

It's also probably the most optimal utility of space for a go karting track possible to be in a multi-storey car park.

I think a lot of people make a day of it - go to hyper karting then head to Entertainment Quarter for lunch/dinner and a few drinks (again, I have done so many times...) or head back to the city via walking or light rail.

I don't really see the need for the increase in car parking. I've parked many times in the complex and I've parked on ground floor every time. For major events the light rail is readily available for use.

Thanks,
Matthew Slee

CC: [redacted]

Subject: Submission in Support of RD/2023/897/A – Retention of Hyper Karting at 116 Lang Road, Moore Park NSW 2021

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Attention: Shannon Rickersey

Dear Shannon Rickersey,

I am writing as a father of four young children living in Sydney to strongly support the review and approval of RD/2023/897/A.

We are regular visitors to Hyper Karting at the Entertainment Quarter and believe its closure would be a significant loss for families and the local community.

Hyper Karting has become one of our favourite family outings. The electric go-kart track is safe, exciting, and genuinely fun for kids of all ages. My children look forward to it every time – it's active, engaging, and creates lasting memories without the noise or fumes of traditional karts.

As a parent, I appreciate that it's an, inclusive activity right in the heart of Moore Park that encourages families to spend quality time together. It's exactly the kind of community asset that makes the Entertainment Quarter feel vibrant and welcoming rather than just a car park and stadium overflow zone.

I understand the application relates to extending the temporary consent for the track on Level 5 of the car park. From what I have read, the main reason for refusal is the loss of 298 parking spaces and the view that commercial use of parking areas is not "orderly development," especially with on-grass parking being phased out. However, as frequent visitors we simply do not experience the parking issues being cited. The precinct remains easy to access, and Hyper Karting actually brings families into the area who then enjoy the broader precinct.

Turning the space back into under-utilised parking (the car park is rarely at capacity outside major events) feels like a step backwards when the NSW Government is actively seeking to transform the 11-hectare Entertainment Quarter into a year-round destination for hospitality, events and culture.

Losing Hyper Karting would also put more than 150 local jobs at risk and remove one of the precinct's most popular attractions (over 500,000 visitors since opening). It would be a shame to lose this great community opportunity for kids and families at a time when Sydney needs more family-friendly entertainment options, not fewer.

I urge the City of Sydney to approve the extension (or a reasonable further period) so that this successful, low-impact attraction can continue. It aligns far better with a "city for people, not cars" than leaving a rooftop level empty most of the time.

Thank you for considering this submission. I am happy to provide any further information if required.

Yours sincerely

Troy Swan

Hey there,

Don’t know why you’re planning to get rid of the karting place. But it is one of my favourite go karting spots to go to. It should definitely be stay and not be extra car parking spots.

Thanks,
Dermott Chiang

Hi,

My family strongly oppose the suggestion to close down Hyperkarts for the sake of some extra parking spaces.
It has a unique offering, catering to so many families around the area. It brings more customers to the area which also benefits other businesses in the precinct.

The extra parking spaces are far less important than the jobs Hyperkart offers to their employees and the joy it brings to their customers.

Kind Regards

Camilla Hardy

Good afternoon,
I would like to express how sad i am when i heard Hyper Karting will be closed.

Hyper Kart is such an amazing place to forget my stress by making my adrenaline ups. My friends, my partner, and my self really enjoy this kind of place in inner city. Such a relieve that we can have fun without have to go to Strathfield, Ryde, or somewhere else only to find something similar.

At the other hand, i would like to say, please don’t close this place just to build more parking spots. Lots of people catching the tram and bus to Moore park. Should not be good if the car spaces will be just an empty place later.

I would be happy and really appreciate you if i hear that Hyper Karting will stay there and you changed your mind to build more parking space.

Thank you very much.

Best regards,
Aurelia Putri

Hi

Sending my support for keeping this great venue operating. I have been karting for years and it's a great place always accommodating. I how take my kids there they are one of the only places that young kids can drive carts on there own. My kids love going there.

Parking has never been an issue when I have gone to other events. Please keep the track there.

Thanks
Tristan

Hi ,

Hyper karting was amazing when i visited and the staff were so helpful when i was there to help my differenly abled sister fulfil her wish to self drive in kids karking. Thank you and i think they should bethere as there was no other place where i could allow my sister who is 16 but physically and mentally like a small child to have her dreams fulfilled to self drive her kart
They shoulddefibately stay. Rave and sarah was really helpful. And the young manager worling on 6 th april after 5 pm. Thank you and Ravi you are amazing person.
Regards

To whom it may concern,

I would like to express my support for hyperkarting remaining open.
As a local resident, I have enjoyed visiting this both as an individual and with groups of friends - it is a unique attraction for the area and it would be disappointing to see it close.
In addition, I have never had issues with getting a parking spot at the entertainment quarter. Rather than adding a few parking spots we should be encouraging people to use public transport.

Best Regards,
Luke Meehan

Dean Shannon,

I'm writing in support of Hyperkarting More Park.

I have personally used the venue many times, and I have brought our entire CBD-based workforce to Hyper Karting for a mid-year event.

It's a great venue that is well managed and one of a kind in the CDB-Eastern suburbs area.

I would also submit that it gives younger drivers an outlet to drive fast rather than having them do it dangerously on our roads.

I submit that Hyperkarting is of value to the community for the above reasons. **Please keep the venue open**.

Regards,
Dean

This institution has been a wonderful opportunity for me to spend time every school holiday with each of my 3 grandchildren.
I have been able to watch and enjoy the development of skills required to operate fast moving vehicles and to make quick decision making to avoid difficult situations. [This has been evident as I can see the control skills improving each year]

The downside??

My 2 eldest grandsons now consistently lap faster than me,
I was no slouch, having raced in sedans at Warwick Farm, Oran Park, Amaroo Park and Winton.

HyperKarting has many benefits.
1] Keeps adults and children off the street
2] Creates skills and friendly completion,
3] Promotes interaction with peers. [Keeps children off devices for a short time]
4] Assists parents and grandparents to have fun and meaningful time together with their children as families,
Plus
Plus.

It's too good an institution to shut down without offering another facility in close proximity offering the same or similar benefits.

Please do not shut this down
Thank you
Chris

Dear Council Members of the City of Sydney,

I am writing to express my strong support for the Hyper Karting venue and to respectfully oppose the recent decision to close it down.

This venue provides a unique and valuable recreational space for the community. It offers safe, engaging entertainment for people of all ages, including young children in my family who greatly enjoy and benefit from the experience. Facilities like this encourage active participation, social interaction, and family bonding in a controlled and enjoyable environment.

In contrast, replacing such a venue with additional car parking spaces does not provide the same level of community value. While parking is important, it is difficult to see how it would better serve residents compared to a vibrant, family-friendly attraction that brings people together and contributes to the local economy.

Hyper Karting represents the kind of engaging infrastructure that makes Sydney a more livable and dynamic city. I strongly urge the Council to reconsider this decision and explore alternative solutions that preserve this much-loved community asset.

Thank you for taking the time to consider my views.

Yours sincerely,
John Kan

To whom it may concern,

Closing HyperKarting at The Entertainment Quarter would be a massive oversight in my opinion. It is a wonderful venue, constantly busy and one of the only real reasons to visit the area outside of game times/Fringe Festival period.

There will be considerable knock on impacts for all the retailers at the site and will lead to an even more deserted complex.

I implore you to really really stop. Think. Look at the facts and reconsider the move to close the track. It is short sighted and naive.

Kind regards,

Olivia

Hi
Please don’t close this place
There is already not enough places for kids to go to. We travel all the way from Mount druitt every school holidays for the kids to play and we come multiple times
Once you close this place up where can we go?
The more places you close the more places kids will start to go onto the streets
Not only that, what about all these staff who will lose their jobs? Will you hire them?

Regards
Diana

Dear Sir/Madam

Re: RD/2024/897/A– Proposed Removal of the Hyper Kart Facility at the Entertainment Quarter Moore Park

I am writing to object to the proposed removal of the existing go-kart facility and its replacement with an expanded car park.

I am a resident of the eastern suburbs and regularly use or value local recreational facilities in the area. This go-kart venue represents one of the very few accessible, active recreational options available locally, particularly for young people, families, and groups.

My concerns are as follows:

1. Loss of Recreational Infrastructure
The proposal would remove a well-established recreational facility without providing any equivalent replacement. The eastern suburbs already have limited options for active, affordable recreation, and this change would further reduce opportunities for community engagement, physical activity, and social interaction.

2. Lack of Community Benefit
While additional parking may provide some convenience, it does not offer the same long-term social, health, or economic benefits as a recreational venue. The replacement of a unique activity with a passive use like parking represents a net loss to the community.

3. Inconsistency with Community Wellbeing Objectives
Local planning frameworks typically emphasise the importance of maintaining and enhancing recreational spaces and promoting active lifestyles. Removing such a facility appears inconsistent with these objectives.

4. Precedent and Cumulative Impact
Approving the removal of recreational facilities in favour of car parking risks setting a precedent that prioritises vehicle storage over community spaces. Over time, this can erode the character and liveability of the area.

For these reasons, I respectfully request that Council refuse the application or require that any redevelopment includes a comparable or improved recreational facility.

Thank you for considering my submission.

Sincerely,
Joanne Martinez

Dear City of Sydney Planning Department,

I am writing to formally express my strong opposition to the proposed closure of Hyper Karting at the Entertainment Quarter.

As a resident of the Greater Sydney area, I believe Hyper Karting is a vital recreational asset for our community. It provides a unique, safe, and accessible venue for young people and families to engage in social activities. Given the scarcity of high-quality indoor sporting and entertainment facilities in the city, losing such a popular destination would be a significant blow to Sydney's vibrant culture.
Hyper Karting is more than just a track; it is a hub for community engagement and one of the few places that offers modern, electric-powered recreation that appeals to a wide demographic.

I urge the DA office to consider the social and community value this venue provides and to find a solution that allows Hyper Karting to remain a staple of the Moore Park precinct.

Thank you for your time and for considering my feedback.
Sincerely

Honestly this is ridiculous that hyperkarting is at risk of closing down. It's quite literally one of, if not the only go karting venue that is accessible and also affordable.

With how few activities there are to do in Sydney, even more so at night, closing it down for more parking spot is simply stupid.

Hi,

We're very keen to throw our support behind the continuation of the lease for HyperKarting at EQ in lieu of more car parks.

That business has been a great source of joy for our family and children over the years, with many birthday's and gatherings held there.

Whilst I understand you have many other considerations to take into account, we feel the loss of this business would be a net loss for the area and community.

We thank you for your time and consideration,

Edward and Di Tanzil

Hyperkart is an amazing entertainment space and brings revenue to the whole area that surrounds it!

You will not see this return by simply having more parking.

I support this petition.

Please take it into consideration, as there's overwhelming evidence that carparks are being underused, while Sydney still craves for connection and entertainment.

Thank you,

Carolina Bosenberg Corso

Hi

I am writing to say that the go karting should be able to continue. It brings joy to many people from family to mates and is a place people can enjoy themselves.

Thanks
Sam

Lowkey don't know what to write here but I think it's stupid how they are trying to open a car park that NO ONE will use instead of keeping a go kart track that lots of people use??
Its so stupid

Hyperkarting is a great place for family and friends to meet and have fun. I'm a local resident and know for sure the carpark is never full enough to suggest hyperkarting should not renew its lease to operate to allow for more parking space. If it wasn't for the people that attended hyperkartng going to the shops and cafes in the EQ before and after races a lot of them would have closed long ago from lack of patronage. More people go to EQ for Hyperkarts than any other reason

UNOFFICIAL

Good afternoon

RD/2023/897/A

I write in support of retaining Hyer Karting at Moore Park car park (level 5).

I only discovered Hyper Karting in February when I attended my nephew Raphael's 21st birthday celebration there with his friends, and it was genuinely one of the most fun and inclusive experiences I've ever had in the inner city (as a resident of 28 years in Sydney CBD).

We enjoyed it so much that I immediately planned to make Hyper Karting a regular fixture for family and friend catch-ups, and it was clear from the atmosphere - it was buzzing - that others were enjoying it just as much as we were. It caters for all ages and abilities and all were present that birthday night. I've never got a driver's licence (I'm 54) and even I could participate fully and confidently! And the team who ran it were so friendly and efficient; it was so well organised. They were such good ambassadors for the sport, and there was great camaraderie among them which added to the occasion.

It's a wonderful addition to Moore Park - it offers a completely different kind of entertainment to what's otherwise available at the Entertainment Quarter, standing apart from movies and music venues with a more active social experience. I travelled there by light rail and family & friends attending the birthday part didn't rely on the car park at all, which reflects how accessible the venue is without driving. As the only go-karting option servicing Sydney's inner city and eastern suburbs, Hyper Karting adds a unique personality and energy to Moore Park that would be greatly diminished if it were lost.

Now that I've just discovered it, it's so disheartening to hear that level of fun – right on the city's doorstep only minutes away by light rail - may be a short-lived experience.

Thank you for considering my submission.

Dear Sir/Madam,

Statement of Support

I write to express my strong support for the above application, which seeks a review of Council's refusal to extend the approved timeframe for the continued operation of electric go-karting and associated entertainment activities within the Entertainment Quarter car park.

The proposal does not introduce any new development, built form, or intensification of use. It merely seeks a reasonable extension of an already approved, established and well-managed activity that has demonstrably operated without unacceptable impacts.

Parking Availability and Operational Impact

Based on my frequent personal use of the Entertainment Quarter car park, I have consistently found car spaces readily available on the ground floor and first floor levels. Even during busy periods, parking has been convenient and easily accessible without the need to use the upper levels.

This real-world experience clearly demonstrates that the temporary occupation of Level 5 for go-karting has not resulted in parking shortages or inconvenience for visitors. The car park continues to operate effectively for its primary purpose, and there is no compelling operational need to reinstate Level 5 for general parking at this time.

Environmental Performance and Alignment with Council Objectives

The facility is an **electric go-karting venue**, which is relatively unique within Greater Sydney and strongly aligns with both the Entertainment Quarter's sustainability objectives and the City of Sydney's environmental policies.

As an electric operation, it avoids combustion engines, fuel emissions and excessive noise, offering a low-impact alternative to traditional motorsport activities. This type of use reflects contemporary best-practice environmental outcomes and supports Council's stated commitment to reducing emissions and encouraging cleaner technologies.

Family-Friendly and Inclusive Recreation

The go-karting venue provides a valuable **family-friendly entertainment option**, including age-appropriate activities for children aged approximately**5 to 12 years**. This contributes positively to the diversity of recreational opportunities available within Moore Park and strengthens the Entertainment Quarter's role as an inclusive destination for families, young people and visitors of all ages. My six-year-old daughter experienced Hyper Karting for the first time late last year and thoroughly enjoyed the experience. It has since left a lasting impression on her, and she often talks about returning with her friends, reinforcing the value of the facility as a family-friendly recreational destination.

Economic Contribution and Employment

The facility is a highly successful small business that provides meaningful economic benefits, including employment for**more than one hundred employees**. Its continued operation supports local jobs, skills development, and

ongoing activation of the precinct, particularly outside standard business hours.

Providing certainty through extending the existing consent to 2028 would support business continuity, staff retention, and long-term operational planning.

Compatibility with Precinct Character and Amenity

The Entertainment Quarter is specifically intended as a major leisure, entertainment and destination precinct. The go-karting use is entirely consistent with this purpose and complements the broader mix of attractions within Moore Park.

The venue also provides a safe and controlled environment for motoring enthusiasts to enjoy their interest without transferring such activities onto public roads. It operates within an enclosed structure with managed access, resulting in minimal impact on the surrounding neighbourhood in terms of noise, safety, or disruption.

Strategic Transport Considerations

It is noteworthy that the proposal aligns with the City of Sydney's long-standing policy direction of encouraging**public transport and active travel** while discouraging unnecessary reliance on private vehicles.

Moore Park is already exceptionally well serviced by **light rail and bus infrastructure**, and Council has demonstrated through other projects (for example, the absence of a public car park at Gunyama Aquatic Centre, venue I visit 3 to 4 times a week) a clear policy position against prioritising additional parking supply.

In this context, it is surprising that the retention of an active, low-impact use on Level 5 would be refused on the basis of parking, particularly when there is no demonstrated shortfall and when broader transport policy objectives favour reduced car dependence.

Conclusion

In my view, the continued operation of electric go-karting at the Entertainment Quarter represents a highly appropriate, sustainable and community-beneficial use. The proposal maintains the status quo, has proven compatibility with its context, delivers environmental, economic and social benefits, and does not give rise to unacceptable impacts.

For these reasons, I respectfully encourage Council to support the Division 8.2 Review and approve the extension of the existing consent to allow the continued operation of the facility until 1 July 2028.

I would like to thank you in advance for your consideration.

Best regards,

Arnaud Balayer

As a City of Sydney resident, my three children have greatly benefited from visiting Hyperkart at Moore Park.

It is a safe venue for children of all ages to engage in screen free activities and do so alongside their parents and have fun.

Please reconsider closing hyperkart. The extra car parking spaces are not going to be the answer for match days at Moore Park. People should be encouraged to use public transport to venues with large crowds and not drive their car.

Save the jobs at Hyperkarting and provide families with safe fun activities.

There is nothing similar unless you drive out west.

Kind regards
Anastasia Georgiou

Hi,

I am just writing to add my support for Hyper Karting and keep it open long term, as I have regularly visited over the years not only with friends but numerous work events as well.
Losing such an iconic and popular space so close to the city would be a big hit to the community, especially with the falling number of third spaces across Sydney.

Please keep Hyper Karting open and thriving.

Thanks,
Will

Good evening,

Please don’t close Hyper Karting to create another car park! In this day and age where life is stressful for everyone, people need a space where they can have fun and forget about their worries! Also, the 150 people that would be without work would struggle and this would impact them terribly.

Please don’t close Hyper Karting!

Kind regards,

Isabella Polines

To Whom It May Concern,

I am writing to express my deep concern regarding the potential closure of Hyper Karting at Moore Park.

Hyper Karting is far more than just an entertainment venue. It is a vibrant community hub that brings together people of all ages and backgrounds. For many of us, it has become a place where friendships are formed, skills are developed and unforgettable memories are created.

The venue offers a unique experience that stands apart from other go-karting tracks. Its innovation, atmosphere and accessibility make it a standout attraction in Sydney. Beyond the fun and excitement though, Hyper Karting contributes positively to the local community by providing safe recreation, fostering social connection and supporting local tourism.

Equally important are the dedicated staff who make this experience possible. Their professionalism, enthusiasm and commitment to customer experience are second to none. The potential closure threatens not only a beloved community space, but also the livelihoods of the hardworking individuals employed there.

I respectfully urge decision-makers to reconsider any plans that would result in the closure of Hyper Karting Moore Park. Preserving this venue means protecting jobs, supporting local business and maintaining a valued community asset.

Sincerely,
Jason Jago

As a weekly visitor to hyper karting, the proposal to remove it for a couple more car parks is ludicrous.

I am appalled at this decision.

Appalled enough for me to reach out on this matter - something I've never done before.

Keep hyper karting alive!

Be better Sydney council.

Hi,

I have been a visitor to Hyper Karting over several years now. We have enjoyed it for work team building functions on several occasions, and for family days with my nieces and nephews. On each occasion we spent additional time and money at other Entertainment Quarter venues for meals and drinks, but the entire reason we visited Entertainment Quarter was for Hyper Karting. It is very professionally run and is the sort of fun, wholesome activity that I wish Sydney had more of. It would be a real shame if it were lost to parking, especially given the broader push in the community towards public transport alternatives.

Best regards,
Paul Kennedy

Hi Shannon,

I'm not aware why the lease won't be renewed for Hyperkart but I'd like to put my support behind their renewal given the great experience they provide for occasional guests/drivers like me. Most other go-karting places use petrol and aren't as clean and professional as Hyperkart. EV karts also keep the noise levels low. They cater really well for drivers of all skills and levels. Their location at Moore Park is also a central location for many who don't have a vehicle to get there, or don't want to travel out to western Sydney.

I honestly would not be going to Moore Park if it weren't for Hyperkart which would reduce business for surrounding shops and restaurants if it weren't there.

Regards,
Anthony Thunyin

Dear Council Team,

I am writing to express my strong support for Hyper Cart and its continued operation. Our team regularly uses the facility for team-building activities, and it has consistently provided a positive and enjoyable experience.

Hyper Cart is a valuable local business that brings convenience, character, and vibrancy to the area. It offers a unique service that benefits the community, and businesses like this are an important part of what makes Sydney engaging and enjoyable.

While I understand there may be concerns regarding the car parking spaces it occupies, I believe the presence of a well-used and well-loved business adds far more value and entertainment to the community than a few parking spaces.

I encourage the Council to support Hyper Cart's ongoing operation and to prioritise local businesses that contribute positively to the neighbourhood.

Thank you for considering my feedback.

Kind regards,
Daniela A Bilbie

Hi Shannon,

As a regular to the go karting track @ Moore Park since inception I see it as a massive loss to the local community and businesses should this precinct be shutdown for the sake of a few more car spaces.

From my understanding the main reasoning is due to cars needing to be parked on the nearby field yet truth is, even with major events that field would still need to be used.

Such a precinct is not available to greater sydney unless they travel all the way to bankstown which for friends and family of mine who live on the Northern Beaches is simply not feasible due to travel time.

Local businesses likely will suffer to as the Go Karting track has led to myself and friends usually grabbing lunch/dinner and nearby restaurants prior or after the go-karting event.

A similar issue occurred recently when a racetrack down south was shut to appease a single angry neighbour, despite the town of Goulburn estimating the visiting motorsport enthusiasts generated close to $35 million per year in economic impact.

Source: https://www.drive.com.au/news/wakefield-park-closes-september-1-2022/

Is such a closure worth the negative impact on the community?

Many thanks,
William Jeffree

To whom it may concern,
Our family has had so many great memories at hyperkart. It is an activity that people of many ages can enjoy and it would be such a shame to see it go.
Kind regards,
Bronti

Good afternoon,

As a fellow Sydney resident, my family and I love the hyper karting facilities at the Entertainment Quarter, in particular this event has provided so many fun experiences personally and even for work events in the past.

In support of the greater community asking City of Sydney to reconsider their planning, could you please re-consider your planning onto this place. I understand there is a big demand in residential facilities however there are other options in the greater area which should be considered.

Kind regards

Jacob

Dear team

I am writing to note my opposition to the closing down of Hyper Karting. This is an important place for the community and in a time where we are increasingly seeing a lack of third spaces for individuals, replacing it with more car parks is not an option that is best for the community.

Kind regard
Esther

To whom it may concern,

I have just heard that Hyperkarting Moore Park is in danger of closing down! This is a place I love to take the kids and it would be such a shame for the eastern suburbs to lose this amazing activity! This is the kind of place that gets kids out from behind their phones and enjoying themselves face-to-face through a very fun sport. Please reconsider this action. It would be a major loss for all.

Kind regards
Jane

Dear Shannon,

I am writing to formally express my opposition to the proposed closure of Hyperkarting at Moore Park.

As a local resident, I believe this facility provides a unique and valuable recreational space for the community. Its closure would be a significant loss to the area and to those who enjoy the services they provide.

I strongly urge you to reconsider this decision and keep Hyperkarting open at its current location.

Thank you for your time and for considering my feedback.

Best regards,

Catie McHugh

Hi there,

I am writing as a local resident with two kids, aged 10 and 13. We use the entertainment quarter regularly for the markets, movies, concerts at Hordern Pavilion, birthday parties at the AFL HQ, and most often Hyper Karting.

Since the Hyper Karting opened, it has been an amazing activity to get our kids out of the house and is always followed by a visit to the grea restaurants at the EQ.

Public transport is readily available to the EQ, with the light rail being a very convenient option during large events where traffic is a concern for the local York Road residents. This connects seamlessly to central station! In addition there are plenty of buses. The City of Sydney needs to DO MORE to encourage its residents to use the public transport it has!

It’s inconceivable that Clover Moore’s office would prioritise one level of a carpark over the civic opportunity that Hyper Karting offers as a one of Sydney’s few multigenerational activities.

It would be extremely disappointing to see the City of Sydney not extend the operating permit for Hyper Karting to continue trading in lieu of a mere 300 car spaces when the state has spent $3,000,000,000 on the light rail, $70,000,000 on cycle ways, and more on public transport. And there’s still ample parking within the parking lot.

I urge you to reconsider the decision to end Hyper Kartings operations license. It does way more for the community than 300 car spaces could ever do!

Kindest,
Jacqueline

To Whom It May Concern,

I am writing to oppose the City of Sydney's decision to revert Hyper Karting back to empty parking slots. Hyper Karting is a venue that is frequented by many; it provides entertainment to a precinct that would otherwise be rarely used majority of the time.

Hyper Karting is one of the busiest attractions in Entertainment Quarter, and it provides over 150 jobs as well as entertainment that operates 7 days a week, until late. It is a unique and irreplaceable form of attraction too.
The venue caters for experienced regulars, casual racers, kids, families, birthday parties, etc, in a convenient, weather friendly and central location merely 3.5km from the CBD, where otherwise a similar indoor karting venue would be almost 30km drive out of the CBD.

Meanwhile, the Entertainment Quarter parking lot rarely reach full capacity; remaining mostly empty majority of the time. In fact, in the times I have frequented Hyper Karting, I have seen the carpark busy just once.
Even then, the carpark was not at full-capacity; however, the one thing I noticed was the """not-so-efficient""" traffic flow of the carpark, which could only be described as being designed on an Etch A Sketch by a group of traffic/civil engineers with the collective IQ of a single frozen pea.
With cars literally taking an hour to exit from the upper floors (with some extremely frustrated drivers seen flogging their cars down the up-ramp just to cut the queues), I do not see how having an extra floor of parking on the very rare occasion when the carpark is busy, would make things any better.

Besides, vacating a mere 300 extra parking spaces, in the grand scheme of things, is quite insignificant. We're catering for give or take 1000 extra people (provided a lot of them carpools) for either SCG or Allianz Stadium, both of which have capacities of over 40000 (or the Hordern Pavilion if any event there ever cause overcapacity in the parking lots). I would imagine when theres an event big enough for the parking lots to be full, the parking spots are at overcapacity by a pretty significant margin, in which case, a mere 300 extra parking spaces do not solve the fundamental issue with overcapacity, and the parking traffic will only be much worse. But for the people that so desperately wants to drive in, isn't that the purpose of constructing the 1500 space underground parking at Allianz Stadium? Regardless, in this time and day where its all about environmental circlejerking, event-goers should really just be encouraged to take public transport and event shuttle buses.

Removing such a popular attraction and ridding 150+ jobs, simply to cater for the carpark overcapacity that occurs once in a blue moon, makes zero logical sense.
Hyper Karting, together with Battle Karts and Pixel Games, are the only attractions that really make Entertainment Quarter interesting and unique; a precinct that otherwise consists of mediocre and overpriced food, and every other entertainment facilities (arcades, cinema, etc) readily accessbile in any other major suburbs.
Okay, the Hoyts is pretty good with the Dolby Atmos + Samsung Onyx, but how many people genuinely travels from afar to watch movies there instead of their local cinema, or even know or care? Who travels to EQ from afar to eat and dine there, when there are better food locally? Who travels to EQ from afar, for the arcade games, when there are better arcades in the CBD, or at their local shopping centres?
Unless there are special events held in Moore Park (majority of which, the carpark does not even reach full capacity anyways), Hyper Karting is really the only entertainment venue where people regularly travel to, from further out.

Absolutely keep Hyper Karting there. Its what little remains of fun, unique entertainment pretty much in the heart of Sydney, which doesn't involve just eating and drinking alcohol. We basically have nothing else near Sydney CBD.

Kind Regards,

Dan Kanazawa

Dear City of Sydney Council,

I am writing to express my disappointment with the Council's decision to refuse Hyper Karting's application to continue operating at Moore Park's Entertainment Quarter.

This venue has welcomed over 500,000 visitors, supports more than 150 jobs, and is one of the precinct's most popular attractions. Reverting the space to a largely empty car park is a poor outcome for the community, especially when Sydney is trying to strengthen its entertainment offerings.

I urge the Council to reconsider.

Kind regards,
Henry

Hi sydney of City

Please consider the people like our family appreciate your facilities of what HyperKart brings to what is an area that struggles.

I have to say my kids use the karting but my husband and I don't. But saying that I've always been able to get parking for our movies we come to each week.

I feel safer knowing that there's constant activity in the top level of the car park when I go to the movies at palace and Hoyt's.
I prefer to go to EQ because of the safety set up.

The mere fact that it's one of the few fun zones for such a broad age range and employ so many people is great for our city and the entertainment quarter wouldn't be the same without them.

Our whole family of five supports your submission to fight for the right for Hyper kart to STAY at EQ!

I am not affiliated with HyperKart but what is the sense in evicting a professional and beneficial business like this? It's lifted the area and as I said the safety for my whole family.

Please let them stay.

Mindy Taylor

I have been to HyperKarting at least a hundred times, i've been to that car park even more. There is plain and simply no shortage of car spots and it's frankly outrageous to be to putting 140+ people out of a job for a few more car spots that literally no one asked for or needed. Even during sporting events I have never had any troubles finding a spot.

HyperKarting is an amazing venue that doesn't deserve this kind of treatment.

Dear City of Sydney,

I am writing to express my strong support for Hyper Karting in Moore Park.

This attraction has become a fantastic addition to Sydney's recreational landscape. It offers a unique and genuinely fun experience that appeals to a wide range of people, from locals to visitors. Activities like this bring energy and vibrancy to the city, helping make Sydney feel more dynamic and engaging, especially in the evenings and on weekends.

On multiple occasions, I have taken visiting friends (from overstates and seas) there, and it has consistently been a highlight of their trip. The Moore Park location is particularly well suited to this kind of attraction. It is accessible, already established as a hub for sport and entertainment, and capable of supporting venues that draw people together in a positive way.

Best,
Josh

I strongly support retaining the hyperkarting facilities at the Entertainment Quarter.

There is sufficient parking that can be made available at adjacent properties, including the land next to training ovals, the sydney girls and sydney boys carparks and the timed parking on surrounding streets.

Similarly, the area is well serviced with the light rail and buses.

Hyperkarting is an entertainment venue that is unique to thia part of Sydney and adds to the appeal of the Entertainment Quarter precinct.

Kind regards
Nallini

Dear Shannon Rickersey,

I am writing to express my strong support for **Hyper Karting** and to urge you to prioritise the preservation of this facility over the development of additional car park spaces.

Hyper Karting is much more than just a track; it is a vital community hub that provides a safe, controlled, and professional environment for enthusiasts to enjoy motorsport. For many years, I have been a regular visitor, sharing this experience with both close friends and my own children. It is one of the few local venues where multiple generations can come together to engage in a hobby that promotes skill, discipline, and healthy competition.

The value this venue adds to our community far outweighs the utility of extra parking. While urban infrastructure is important, we must also protect the spaces that foster social connection and provide safe outlets for recreational sports. Hyper Karting offers a convenient and secure location for drivers of all ages to practice their passion without the risks associated with unauthorised environments.

Losing such a unique facility would be a significant loss to the families and sporting enthusiasts who rely on it. I sincerely hope you will consider the long-term community benefits of keeping Hyper Karting open and thriving.

Thank you for your time and for considering the voices of those who call this place a second home.

Sincerely,

Francisco Buitrago

Hi
Please consider not closing down Hyper Karting. I travelled from Pendle Hill to attend as it's the only place that will allow my whole family to ride on their own. My little one has to ride with an adult and sometimes misses out on karting altogether. Hyper Karting is different. It lets everyone in the family to ride on their own allowing a whole family fun day out where we can all enjoy our time.

I've also personally never had any problem parking in and around Moore Park when I've visited.

Kind Regards,
Annette Hayek

Good evening,
We've been customers of Hyperkarting Moore Park.
It's quite disheartening to hear of a closure to this business. It's a family favourite, not just ours but many others we know.
With the current cost of living, I don't think it's quite reasonable to slash that many jobs and have these people out of employment.
Especially with the current parking space that is already available at Moore Park.
We have never had a problem with parking, no matter how busy the venue is. I honestly hope you do reconsider, for the workers, for the business and for the families that visit this venue.
Warm regards
Fatma

To whom it may concern

I write this submission to express my sincere support of the application, and therefore, for the continued operation of hyperkarting. Hyperkarting is a unique and valued community business, that I have been to countless times and thoroughly enjoy. Indeed, there is nothing similar in the City of Sydney - let alone in Central Sydney. I also understand it employs over 150 personnel.

In those circumstances, I do not consider that the interests of a few extra parking spots - in a venue that already has multiple levels of parking that are rarely, if ever, full and that is serviced by NSW's largest public transport project (the light rail) - justifies the closure of a thriving business that brings much entertainment and frankly joy to the community. Indeed, in my opinion, to reject the application would be against every principle of urban planning.

Accordingly, I strongly urge the Council to grant the application.

Kind regards.

Hi City of Sydney,

As a resident of Surry Hills, my three children and I are very disappointed at the potential of losing Hyper Karting that we visited last week and plan to go again soon.

We also frequent the car park for other events such as the cinema Karting, kids birthday and sporting activities almost weekly, and have never had trouble parking, even since hyper kart opening.

On rainy days we use either level 3 or 4 for my kids to skate as the car park is often empty.

This is a unique entertainment feature for the Moore Park entertainment Qtr and should imagine other business may be impacted be the removal and introduction of car park that will be less in demand as a result.
The nearest other go kart facility is over 20KM away.

If there is a genuine need for parking, could the grass grounds need the light rail not be considers as a more appropriate car park option. In additional the ample street parking along Driver Avenue. Or take public transport as we should more often.

Kind regards,

Joe O'Leary and Family

As a property owner in the City of Sydney, I am writing to make a submission to prevent the closing of Hyperkart at EQ.
It makes no sense to close a business that is providing a valuable community service for some car spaces that based on current usage will never be used. I understand that this was a temporary approval and parking will be removed from the grass areas adjacent to Driver Ave.
For a council that is anti car and has and is in the process of creating further havoc with more bike lanes it is a totally irrational decision.
Wake up and use some rational thinking for a change.
Happy to discuss.

To whom it may concern,

Please do not shut down Hyper Karting. Everyone has so much fun on these tracks. The kids and adults love it and we have created so many memories here along with many other family and friends.

It brings in so many people from all areas including tourists which I'm sure creates more business for all the restaurants etc in Moore Park.

Taking Hyper Karting away will change the feel of Moore Park.

People are already struggling with work and affording to live in Sydney, why would you put another 150 people in this situation!

Leave Hyper Karting alone, you don't need the space or the money.

Please really re-consider this decision.

Thank you for your time.

Carmelina

I am writing in my support of retaining the Hyper Karting at Moore Park.
This facility is one of the only electric kart facilities in NSW. Having it located centrally means it is accessible to many different people. The unique experience of being electric means drivers of many age groups can have a safe experience, training them to be better drivers and keeping kids off devices. Loosing this facility has the potential to impact far more than just fun day out. It teaches real world skills that translate to how our kids develop.

Hi there

I am writing to express serious objections to council's considering of reallocating the space used for hyperkarting to be used for carparking space.

Such a decision would fly in the face of reason. Hyperkarting is a fantastic addition to the eq precinct and the only karting option in the eastern suburbs - if it were gone anyone wanting to have this fun experience would need to travel over 30 minutes away. Go take a trip to the eq and have a look at how little of the carpark spaces are being utilised on an average weeknight and even weekend on game day - and then have a look at how well hyperkarting is utilised - kids and adults having fun and enjoying themselves throughout the week, rain hail or shine.

Make the right decision and please do not force them to leave, it would be a big blow to the local community.

Regards
Jake

Dear Sir,

You can not shut down such a popular event space. I travelled from Baulkham hills, in the school holidays and was easily able to park on the lower level. There were many spots available .
To take away Hyper Karting at this location would be at the detriment of all the food venues there

Regards
Lara

Hi,

I am writing to formally object to the Council's recent decision to refuse the contract extension for Hyper Karting on Level 5 of the Entertainment Quarter (EQ) car park.

For motorsport enthusiasts, Hyper Karting is more than just a venue; it is a critical bridge between professional racing culture and the general public. Choosing to shutter one of the precinct's most successful anchors in favor of 296 parking spaces—which data proves are seldom utilized—represents a significant regression for Sydney's cultural landscape and local economic vitality.

I urge the Council to reconsider this decision based on the following grounds:

- **Flawed Parking Justification:** The primary reason for refusal relies on the phased closure of the Lower Kippax on-grass parking. However, Transport for NSW data indicates that the EQ's 2,003-space car park has only reached full capacity a handful of times across dozens of major events since Allianz Stadium reopened. Forcing the closure of an active, daily attraction to provide overflow parking for a few isolated days a year is an inefficient and outdated approach to urban infrastructure.
- **Loss of a Vital Motorsport and Youth Hub:** For young adults, students, and the broader motorsport community in Sydney, Hyper Karting provides a rare, safe, and highly accessible environment to experience racing. In a city where interactive, weather-proof entertainment options are dwindling, stripping away a venue that has safely welcomed over 500,000 visitors without a single noise complaint is a massive blow to the community.
- **Devastating Economic Impact:** The refusal puts over 150 local jobs at immediate risk and removes a key driver of foot traffic that supports surrounding businesses in the EQ.

Hyper Karting is exactly the type of innovative, low-impact commercial activity Sydney needs to breathe life back into its entertainment precincts. I urge you to grant the two-year extension, and work collaboratively to keep this iconic venue alive while the broader Moore Park parking strategy is resolved.

Thank you for your time and consideration. I look forward to your response.

Sincerely,

Chun Ho Lee
Motorsport Enthusiasts

To the city of Sydney,

I disagree with your decision to close down hyper carting to make space for car parks that literally no one needs or will use.

Specifically I object to this statement in the submission:

The proposal is not in the public interest, as the continued occupation of 296 on-site spaces for the commercial activities results in a reduction in publicly available on-site parking.

I deem the proposal is in the public interest to provide entertainment for all age groups in the area which severely lacks such types of entertainment. I would also consider that for local residents whom you should pay particular focus on will not benefit from additional parking resources. Focus your resources on expanding the ability for people to get to the area without a car such as public transport or by bicycle. Taking away something close to the community is absurd. This place is the only thing that entertains at the entertainment quarter.

Please reconsider your proposal it just doesn't make sense. Think forward not backward.

Ps - you've come along way with the bike lanes in the last 5 years. I'm actually really impressed with a lot of what you guys do. This proposal may be well intended but it misses the mark by a fair shout.

It's my two cents, I'm not associated with hyper karting. I've gone a few times but pretty much everyone I know likes this place so leave it be.

Thanks !

To Whom it May Concern,
Hypercarting is such a fantastic part of the Entertainment Quarter at Moore Park. There's no other go carting available for people within the city of Sydney. We took our daughter there for her birthday and she and her friends had such an amazing time! It would be terrible to lose such a great family event place in the name of extra parking. Please keep Hypercarting where it belongs at Moore Park.
Sincerely,
Nic Owens

Under s.21 of the Australian Consumer Law, a party in trade or commerce must not engage in unconscionable conduct.
Shutting down an established entertainment business that has:
Invested significant capital fitting out the space;
Built a customer base and employed staff;
Operated in good faith under an agreement —
...purely to gain additional car parking revenue is arguably unconscionable, particularly if the Council exploited a superior bargaining position
Under both the Retail Leases Act and common law, if the Council terminates early it is likely liable for:
Compensation for fit-out costs — karting infrastructure (track, barriers, timing systems, karts) is expensive and largely immovable;
Loss of goodwill — an established entertainment business has quantifiable goodwill that is destroyed by forced closure;
Lost profits for the balance of the agreement term.

There are no other decent karting places within the eastern suburbs which is a problem given the pathway into motor sports begins mostly with rental karting before eventually transitioning into the much more costly owner karting and by shutting down hyper karting you are essentially lossing tax revenue giving less foot traffic to other businesses that visitors would pass on the way to hyper karting aswell as disabling a critical avenue into one of the most popular type of sports in the world

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon Rickersey,

I am writing in support of application RD/2023/897/A and ask that Council approve the review, or at a minimum grant a further time-limited approval with conditions rather than closing Hyper Karting.

My name is Adrian and I live in the Castle Hill area of Sydney. I am an engineer with a long-standing involvement in motorsport I work on drag racing cars and data systems as part of a race team. Karting is closely connected to that world, and Hyper Karting at the Entertainment Quarter has become a regular part of my routine. I visit at least once a month, sometimes more, either with friends, fellow motorsport enthusiasts, or simply as a way to decompress after a demanding week.

On that point, I want to highlight something that I think is genuinely undervalued. Hyper Karting provides a safe, controlled environment to release the pressure and frustrations that build up in daily life. Having a constructive outlet like that matters it is far better for the community that people have somewhere positive to channel that energy.

Beyond stress relief, regular time on the track has meaningfully improved my driving ability. My understanding of vehicle dynamics, spatial awareness, and reaction time on public roads is noticeably sharper because of it. I can say with real confidence that karting has made me a safer and more capable driver.

Hyper Karting is also one of the few venues near the city that genuinely caters for all ages. My family has organised surprise birthday parties for me there because it is one of the rare places where everyone from younger family members to older relatives can actually participate and enjoy themselves together. That kind of inclusive, all-ages entertainment is hard to find, and it is exactly the sort of use that should be thriving in a precinct called the Entertainment Quarter.

I typically drive to the EQ from the Hills District and in my experience, parking has never been a genuine problem on the days I visit. I can appreciate that major stadium events create pressure on parking, but on a normal visit to Hyper Karting, I have always found a space without difficulty.

When I visit, I rarely just go to the track. I'll grab food at one of the EQ restaurants or meet people for a drink nearby. Hyper Karting is often the reason I'm in the precinct at all, and it brings me there on quieter days when there is no stadium event drawing crowds. Without it, there is very little reason for me to visit the Entertainment Quarter regularly.

As someone involved in motorsport, I also want to highlight how few accessible, year-round karting and motorsport-adjacent experiences exist close to the Sydney CBD. Hyper Karting fills a genuine gap. It introduces families, young people, and casual visitors to something that is otherwise hard to access without travelling well outside the city. Closing it removes one of the few repeatable, active entertainment options in the precinct and leaves the EQ noticeably less vibrant.

I believe keeping Hyper Karting operating is clearly in the public interest. It activates the precinct outside event days, and any parking concerns can be managed through sensible conditions rather than outright closure. Returning those spaces to an underused car park level most of the time is not a better outcome for the community.

Thank you for the opportunity to provide feedback on this application.

Yours sincerely,

Adrian Labrie

Dear Council Members,

I am writing to express my strong support for keeping Hyper Karting open.

Hyper Karting has been an incredibly enjoyable and unique experience for me. It offers a safe, exciting environment where people of all ages can enjoy motorsport in a controlled setting. The combination of high-speed racing, modern facilities, and a social atmosphere makes it a standout activity that is hard to replace elsewhere.

One of my most memorable experiences at Hyper Karting was spending time there with friends, competing in races and pushing ourselves to improve lap times. It created a sense of friendly competition and brought us closer together. The excitement, adrenaline, and shared moments made it more than just entertainment—it became a place where lasting memories were made.

It is also far more accessible compared to other motorsport options. For example, sessions at Eastern Creek Raceway can cost around $365, which makes it unrealistic for many people. Hyper Karting provides a much more affordable way for everyday individuals to experience racing in a proper, supervised environment. Without venues like this, there are very limited options for people interested in motorsport.

Additionally, public roads are not a legal or safe place for racing. Facilities like Hyper Karting play an important role in keeping people off the streets by offering a controlled and lawful alternative. This helps promote road safety and responsible behaviour.

I believe Hyper Karting should remain open because it provides a positive outlet for the community. It encourages social interaction, offers a safe alternative to illegal or unsafe racing, and contributes to local business and employment.

The impact on myself and others has been significant. It has given my friends and me a place to regularly connect, unwind, and have fun. For the broader community, it serves as a valuable recreational venue that supports both social wellbeing and local economic activity.

Closing Hyper Karting would mean losing an important part of the community that brings people together in a safe and exciting way. I strongly urge the council to consider its value and keep it open.

Thank you for your time and consideration.

Yours sincerely

Dear Council,

I am writing to express my strong opposition to the proposed closure of Hyperkarting.

For me personally, Hyperkarting isn't just some attraction, it's the main reason I come to the Entertainment Quarter outside of concerts and major events. It's a place I genuinely enjoy spending time at, and it adds something fun and exciting that you simply can't replace with more parking spaces. Losing it would make the precinct feel less vibrant and take away one of the few activities that keeps people like myself coming back regularly.

Additionally, from my own visits, I've consistently been able to find parking at the Entertainment Quarter, even during busy periods and major events. Hence it's difficult to see a clear need for expanding parking at the expense of a well-loved attraction. Also knowing that over 150 employees could lose their jobs makes this especially difficult to understand, particularly when the benefit seems limited in comparison.

I respectfully urge the council to reconsider this decision and explore alternatives that would keep Hyperkarting open.

Sincerely,
Alison Chang

Hello,

Just a quick email to say, it would be a huge loss to sydney to remove the hypercart track. It is such a great venu that brings joy to so many.
To remove it and replace with car spaces when there is already lots of parking and public transport options would be im my personal opinion a big mistake
Keep the fun alive

Thanks for taking the time to read this.

To Whom It May Concern,

I'm writing regarding Hyper Karting at Moore Park.

I believe this karting has been doing a great job for years. It is certainly a very unique business that attracts lots of customers.

I think the idea of transferring the karting into a car park really doesn't make any sense because the carpark is hardly every used starting from level 3 going up.

I think council should seriously reconsider this decision not to close Hyper Karting.

Please hear the voice of the people and do not convert the space into a carpark.

Regards
Maria

Hi team

I'm writing to protest the proposed removal of HyperKarting.

I've been a frequent user of Moore park, both before and after Hyper Karting formed, and am struggling to understand why you would want to return the precinct (not just the carpark) to the graveyard it was prior to Hyper Kart. Benefits I see Hyper Karting adding:
- Uses dead space without being a costly fit out/refurb
- Generates business and jobs, not just for Hyper Karting, but also nearby businesses. Many of these jobs are to young people, putting them into productive work and away from anti social behaviours.
- Electric go karting - presumably(?) not too environmentally damaging
- Most importantly, Moore Park is dead 90% of the time. I would say this is the one business within that precinct that is consistently busy.

While I understand most of the coverage I have seen sides with Hyper Karting, and the council may have motives not clear to the general public, I am really struggling to understand the possible rationale for the removal of the business.

The aim I've heard is to repurpose the track into parking, as part of a parking lot that is consistently empty. I have a number of issues with this:
1. Moore park is well served by public transport. If the aim is to alleviate congestion, it would make more sense to make the public transport free on match day.
2. You would only be making space for max 1-2 days a week when the stadiums are being used, otherwise you would be depriving a strange part of the city one of its only consistent businesses
3. The cost benefit analysis of adding a mere 296 spots (when there will be net 1,200 added in ~12 months) is ridiculous. Assuming average 3 people per car, it will allow an additional 888 people to commute to a game, a mere 2% of the 45,000 capacity Allianz stadium.

The proposed changes are ridiculous and run counter to City of Sydney's reputation as one of the more innovative councils in Sydney. Unless there is a motive from the council that I haven't seen, I truely believe the council will regret this course of action

Luke

To the Members of the Sydney City Council and others involved in this matter.

I am writing to express my sincere concern about the potential closure of Hyper Karting, a place that has had a profound impact not only on myself but on many members of the community.

I have had the privilege of working at Hyper Karting for the past 3 years, and more recently, I stepped into the role of a manager. During this time, I've seen firsthand how much this venue means to people of all ages. It's more than just a go-karting track—it's a space where individuals come together, challenge themselves, and create lasting memories.

One of the most important aspects of Hyper Karting is the positive influence it has on young people. In a time where many kids are increasingly glued to their phones and screens, Hyper Karting provides an active, engaging alternative. It encourages them to get out, be social, and experience the excitement of real-world interaction and friendly competition.

Hyper Karting has introduced me to so many new people, some I can even call family and that really means something. I'm sure I am not the only one that feels this way too, I've seen staff become strangers to best mates and taking HyperKarting away would break said relationships which would be a cruel addition if this decision moves forward.

To add to all this, In the past 5 years of operations: The car park has been at full capacity a small handful of times (less then 10), this does not warrant a reason to shut an entire business down (and a small one mind you). For a council pushing to use public transport more, this is a move going against your own beliefs.

I strongly urge you to reconsider this decision. It is a place that truly makes a difference in people's lives, including my own.

Regards
Lachy Eliasson

howdy,

I am one of the owners of gelato messina and have multiple stores within the city of sydney.

I am writing to say hyperkarting is one of the best businesses to hit the EQ site.

That whole area is underutilised and hyperkarting is one of the rare, unique busineses that really needs to stay!
We regularly have staff events there and my kids also frequent the track regularly. Its amazing!

That carpark is never ever full!! its ridiculous to plan to keep more spots for no-one.

Please do not let this go!

Dear Council,

I am writing on behalf of 'Save Hyper Karting', based at Moore Park. This is a valuable entertainment option for the community, especially as it an all weather venue. It is a fun and active option, that is great for most ages. I would argue that the need for extra car parking is only during very specific circumstances, and at all other times that space is going to waste. Besides, just quietly, trying to get out of that carpark during a big event is an absolute nightmare - and that is with the current parking setup. Add back in that floor of parking and you are tacking on another 20-30 minutes of exit time for those at the top. Adding more parking into that carpark is not actually a viable solution, based on the exit infrastructure alone.
Please don't close Hyper Kart Sydney.

Thank you,
Belinda Phillips

To whom it may concern,

My friends and I have been regular customers of Hyper Karts. What a great business that employs a lot of people. Every visit we've noticed that there are plenty of car spaces available for us. When I saw that you were destroying this business to make more car spaces available I was perplexed and annoyed. There seems to be no real advantage to this. In a time where we want kids and adults to be out socialising and not spending time online I find this decision to be unbelievable. I know sadly that no matter how many people write to you that this will probably go ahead, however, I needed to express my concerns. No extra parking spaces , jobs for people.
Looking forward to a change of heart.

Kind regards,

Stephen Bamford

To whom it may concern,

I am apart of a group of doctors and nurses from RNSH ED who often go out as a group for team building, burnout management and stress relief. Closing it would be a detriment to the enjoyment of not only us but to the community/ The hyperkart racing is a reason to travel to the Moore park entertainment quarter where we would then spend extra time to go out to eat and explore the area and without it we would not travel to the area.

I hope you take into account not only this emails but the countless others you have received.

Kind regards,

Janet Adam RN

Dear City of Sydney Council,

I am writing to express my concern about the future of Hyper Karting and to respectfully ask the City of Sydney to consider supporting efforts to save this much-loved venue.

Hyper Karting is more than just an entertainment space. It is a place where families, friends, students, and community members can come together in a safe, active, and enjoyable environment. Great memories have been made in that place, and more memories will certainly be made in the future, if Hyper Karting Stays open.

Thank you for taking the time to consider community voices on this matter. I hope the City of Sydney will recognise the value of Hyper Karting and help ensure it remains part of Sydney's future, as it will be of much more benefit than a car park.

Kind regards,
Grace

Hi Shannon,

I write to you today to ask you to reconsider the removal of Hyper Karts at Moore park, my family has attended this venue on multiple occasions and despite it quite often being completely booked out we have never had an issue finding a parking space, on Many occasions the car park is almost empty on some levels so I can not understand the reasoning for this, we have used this venue for trading purposes to teach our kids kart control in a fun & safe environment prior to them starting in professional competitive karting.

Taking another family fun venue away from Sydney is a huge mistake we are fast becoming a city where there very little for families to do.

Regards
Daniel Vassall

Dear City of Sydney council,

I am writing to strongly disagree with the potential closing down of hyperkarting in Moore park. There are plentiful other car spaces in the same area, with a new project being built soon to add more car parks, so it is very unfair to do this to a thriving small business that provides some of the best entertainment and go karting track in the southern hemisphere. KEEP HYPERKARTING!

Yours sincerely,
Aarya S

Good day,

I am writing to advise my disappointment that City of Sydney council is considering closing the hyperkarting centre in the Fox Studios Moore Park car park.

We go to the Fox studio car park quite often, to take our grandkids for the go carts and the car park has never been full from what I could see. As well lots of jobs will be lost if this proposal goes ahead.

We hope this proposal is stopped, jobs are retained and some common sense prevails.

To whom it may concern,

It has come to my attention that HyperKarting is currently at risk of being shut down to make more space for car parking. HyperKarting is a favourite pastime for many young people in Sydney, providing a safe, engaging, and social environment that encourages community connection and active recreation.

Removing such a facility would take away an important space for entertainment and social interaction, particularly for younger people who benefit from having accessible and engaging activities outside of school or home.

Additionally, reducing facilities in favour of increased parking contradicts broader environmental goals. Fewer car spaces promote the use of public transport, bike riding, walking, and car-sharing, all of which are vital for minimising our carbon output and creating a more sustainable city.

I strongly urge you to reconsider any plans to remove HyperKarting. Preserving spaces like this supports both the wellbeing of the community and the push toward more environmentally responsible urban planning.

Kind regards
Sarah Eliasson

I've been to many large events at Moore Park (concerts, footy games, soccer games, even Cirque du Soleil) and never ONCE have I seen the parking space full. Hyper Karting is the only good, affordable karting track in Sydney. It is not worth it to remove such a community staple to try and solve a problem that doesn't even exist.

To whom it may concern,

I have been to hyperkarting for a long long time now and it's one of the few places that I genuinely love to be. I am devasted to hear that it's trying to be shut down for basically no benefit to the public when, even on extremely busy days, the carpark still has vacancy.
All this archives is the destruction of a community of tens of thousands, if not hundreds of thousands of people who come to celebrate birthdays, afterparties, or even to just have an awesome day out!
I have been planning to take my dad, who is getting on in age, to hyperkarting before he can't race anymore, as it is by far and away, the best place for karting.
I, and the whole community would be beyond grateful for it to stay. It doesn't deserve the fate of disapearing forever.

Sincerely, Ash, the rest of the hyperkarting community, and beyond!

Hi Shannon,

I am writing to express my strong support for the continuation of Hyper Karting under DA D/2023/897/B.

I have been working at Hyper Karting for the past three years. I started in an entry-level role on the track, helping guests gear up and ensuring their safety. Over time, through hard work and the support of the team, I was given the opportunity to grow within the company. Today, I am a full-time member of the support office.

Before joining Hyper Karting, I was working full-time in civil engineering, but I had to step away due to the impact it was having on my mental health. What began as a way to support myself financially quickly became much more - it became a place where I found purpose, growth, and belonging.

As someone who immigrated from Pakistan, I spent years in Australia without a strong social circle. It wasn't until I joined Hyper Karting that I found a real sense of community. The people I met here, both colleagues and customers have had a profound impact on my life. This is no longer just a workplace to me, it is something I genuinely consider home.

My experience is not unique. Hyper Karting creates opportunities for people to grow, contribute, and build meaningful connections. It rewards dedication and gives individuals a chance to develop both personally and professionally. Losing Hyper Karting would not only mean losing my job, but also losing a place that has had a life-changing impact on me and many others.

I respectfully ask that you reconsider this decision and allow Hyper Karting to continue operating.

Thank you for your time and consideration.

Dear Sir/Madam

As a parent, it's not easy to find activities for young boys that engages them and doesn't include a screen. This go kart track is one of these.

This is the only inner city karting experience in Sydney and should be allowed to stay. There is plenty of parking spaces for this centre yet very little suitable alternatives for a business like this to operate.

As a scout leader for an active northern beaches scout group, our youth love this karting experience. It is one of the highest rated experiences on reflection by our youth each term we run it.

This location is particularly important when parents and children make time to visit mid- week as a scouting activity or on weekends when time is tight between other activities. There is no other location available in the greater Sydney region that is accessible within one hours drive of the northern beaches.

My son (12 years) has attended this location at least twice in the last 12 months: once as part of a group birthday party, which still rates amongst his friends as the top party of 2026 to date! Not having access to this activity due to a council decision would be devastating for these young boys.

Each time we attend, the 2 levels of car spaces below this site are almost empty. Don't give that location up for car space when council should be encouraging less car usage, not more.

We hope to attend this location more frequently and support hyper karting in their submission.

You may contact me for further clarification on the number below.

Yours faithfully

KATRINA GREEVES

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

My name is Charmaine Chow, and I am a resident of the City of Sydney Council area. I am writing to strongly oppose the recent refusal to extend Hyper Karting's operating approval at Level 5 of the Entertainment Quarter car park in Moore Park, and to urge the Council to allow this popular attraction to remain.

Hyper Karting has been an important part of my life since the COVID period, when it offered one of the few safe, active, and enjoyable ways to get the heart rate up and escape the boredom of lockdowns. Since then, I have enjoyed subsequent sessions at Hyper Karting with friends and family.

After a session on the track, we typically continue the evening at the bars and other establishments in the Entertainment Quarter. Removing Hyper Karting would directly reduce foot traffic and demand for these nearby businesses.

The Entertainment Quarter was purpose-built as an entertainment, leisure, and retail precinct in the late 1990s. Yet for many years it has been widely recognised as underutilised and struggling, often described by locals and in media as a "dead zone," "ghost town," or "tired" precinct with low foot traffic and empty spaces, despite its enviable location beside the SCG, Allianz Stadium, Centennial Park, and excellent public transport. The NSW Government itself has publicly stated that the site "has more potential" and is actively seeking proposals to "bring the Quarter back to life" as a world-class entertainment destination.

In this context, why would Council choose to remove one of the EQ's busiest and most successful attractions - a venue that has drawn hundreds of thousands of visitors and supports over 150 jobs -only to turn the space back into underused car parking? Doing so would make an already quiet precinct even deader, directly contradicting the original vision of the Entertainment Quarter and the Council's own goal of prioritising vibrant, people-focused public spaces over empty asphalt.

As someone who lives in the inner west, where there is already a wide variety of dining and entertainment options, I can say with confidence that Hyper Karting is one of the main reasons I (and many others) choose to visit the EQ at all. Without active, engaging attractions like this, the precinct loses its drawcard and simply becomes another underutilised car park in an area that was explicitly built for entertainment.

I respectfully ask that the Council review and overturn this decision, granting Hyper Karting the requested extension (or a longer-term approval) so it can continue contributing to a lively, people-focused Entertainment Quarter.

Thank you for your time and for considering the voices of residents and regular visitors who value this attraction. I would appreciate any update on this matter.

Kind regards,

Charmaine Chow

To whom it may concern,

I strongly support keeping Hyper Karting Sydney open.

This venue provides an environment for all ages to enjoy karting and contributes positively to the local community by creating jobs, attracting visitors, and offering a unique entertainment option in Sydney.

Closing Hyper Karting would mean losing an important recreational facility that promotes social connection and attracts people to the Entertainment Quarter. I encourage council to work with the venue to address any concerns rather than shutting it down.

Kind regards,

Mei Wong

Hello,

I'm Felipe Santos Luz, currently I live at 56 Glenview Street, Paddington, 2021. I'm originally from Brazil and have been living in Sydney for almost 2 years now.
Since I moved here Hyperkarting has been part of my life. I have a group of 4 friends and at least twice a month we go to Hyperkarting to have slme fun and time together. This place is an important landmark and crucial entertainment spot for the area, to be fair I only go to Entertainment Park, because of Hyperkarting, having this option of entertainment in the area is crucial and loosing it would be a disaster from the perspective of the entertainment but also all the employees that works there.

Hi Council,

Please don’t close down the go kart track. I have been there a few times in recent years, and it’s probably the number 1 attraction in the entertainment quarter, the kids love it.

I would have virtually no reason to travel to EQ, without it.

We don’t need more parking. Encourage people to use public transport, or walk to the SCG and SFS.

Regards
Dan Westcott

Nothing would sadden me more than seeing a developing local business whose sole purpose is to offer entertainment to all ages hampered in favour of additional off street parking spaces for venues heavily supported by taxpayer funded public transport.

If the proposed shut down of the hyperkarts venue comes to fruition, then it is my expectation that the above is formally responded to as a complaint to the relevant minister.

Kind regards,

Paul Kruger-Davis

Dear City of Sydney,

It has come to the community's attention that you are seeking to shut down Hyper Karting. As a resident of Australia, I completely oppose such move and condemn this tyrannical conduct. Hyper Karting is beloved to all speed lovers and also an amazing spot where we gather as community and socialise. This decision to shut down a social hub is a reflection of complete disconnect from reality, as government it is your duty to serve public interest and the public demands Hyper Karting remains operational for the foreseeable future. We the public are the driver and you government are the vehicle, you will go in direction where the driver wants as late US president Ronald Reegan once said.

I hope that management comes to their senses and reverse nonsensical decision to shut down Hyper Karting.

Sincerely,
Farshid Zaman

Hello Shannon, I would like to express my concern regarding the proposal to re purpose the space currently used by Hyper karting at EQ Moore park for additional parking space.

I have personally had several extremely poor experiences particularly when I have used the car park during busy periods (after attending sports events). The car park design & location is very clearly not appropriate or capable of managing medium to high volume car movement. If the level Hyper karting currently use were to be opened up for additional cars, the issue especially during peak use, would be exponentially worse. I no longer use the car park for this reason & opt for public transport.

It is also not clear why council would be pursuing a decision that

a) encourages the use of personal vehicles to travel to EQ when there has been significant investment in a very capable public transport system including the light rail & buses.
b) exposing unsuspecting customers to a likely very poor experience if they choose to use the EQ parking facilities during busy periods. An experience that could very well discourage the return of customers to any of the facilities or businesses located in EQ
c) will result in the loss of hundreds of jobs that are primarily filled by hard working young adults who are funding study &/or trying to build a secure future for themselves.

I have experienced the Hyper Karting product, service & experience several times & would highly recommend it. I would also suggest consideration be made for the unique, high quality, high safety & low environmental impact entertainment the Hyper karting operation provides. The selection and use of such a unique space to operate this type of business is creative & innovative & should be encouraged.

Thank you for considering my submission & feedback.

Regards

Good afternoon Shannon,
I would like to request a review of the decision to effectively close Hyper Karting due to redevelopment of the site. I have been taking my grandchildren to the venue when they visit from interstate over the school holidays. The 5 children (3 from the Canberra and 2 from Brisbane) all look forward to an afternoon out with their grandparents going karting. The venue is ideal for this purpose and so well situated. Every time we have been the car park has been quite empty, so parking on site has been a breeze.

We have also used the cafes in the precinct with the grandchildren.

Could you please reconsider the decision so that our extended family can continue to enjoy this great facility.

Respectfully yours
Colin Hopkins OAM

Dear Mr Rickersey,

Please SAVE HYPERKARTING @ Moore Park!

Sydney Hypekarting is such a unique go-karting track.

The kids and the broader community in the eastern suburbs need it. It's accessible, caters to numerous karting age groups and it's safe.

There is nowhere else to go karting in the city CBD area. The other tracks are 17- 25km away.

As someone who frequently uses this car park, I am aware that there are plenty of unused parking spots at most times of the day. If the City of Sydney needs more parking during special events, why don't they open access to centennial park instead of closing the gates at 9pm? There are other options I'm sure.

Please put your thinking caps on and look at other solutions. This isn't it.

Respectfully,
Julie

Please don’t get rid of hyper karting!
I have been going there since 2022, and it was there that I fell in love with racing and have now started my own karting career. It’s the only place in the city that does karting for a reasonable price and has more availability and flexibility than the other karting places nearby (not very nearby). After being a regular customer for 2-3 years I even joined on to their staff while I was studying for uni which has helped me develop my understanding of working on go karts and increased my racing skills. It would be a real shame to lose my job, but more than that it would be irreplaceable to lose the karting experience that the business supplies to all members of the public.

Surely you can find a better solution to the limited parking spaces in the area than this? It shouldn’t be expected that there would be many parking spots in the city anyway it is a city after all, not a spacious place in nature

Make the right decision

To whom it may concern,

Please save Hyperkarts in the entertainment quarter.

It is such a great idea and a really wholesome activity for the whole family, birthday parties and team bonding experiences. There is nothing like this in the inner and central areas of Sydney. It would be such a great loss if they were forced out of the carpark. My 5 year old son had the best day of his life driving a cart a few weeks ago.

There is plenty of parking options nearby. We were here over the Easter weekend and visited the Easter family show and had no problem with parking.

Kind Regards,
Yolanda Nijmeijer

Dear Council Members,

I am writing to formally express my objection to the proposed removal of the Hyper Karting venue in favour of constructing an additional car park.

Hyper Karting is more than a recreational facility—it is a valued community space that brings people together, supports local engagement, and contributes to the area's identity. Replacing it with a car park would result in the loss of a unique and well-used community asset.

Additionally, existing evidence suggests that the current parking facilities are not operating at full capacity. This raises concerns about the necessity and justification for expanding parking at the expense of an established and beneficial venue.

I respectfully urge the Council to reconsider this proposal and explore alternative solutions that preserve community spaces while addressing any genuine infrastructure needs.

Thank you for your time and consideration.

Kind regards,

Laura Rooke

To the city of Sydney,

Hyperkarting has been such an integral part of my week with my friends for us to catch up and have a place where we are able to socialise and have fun of a weeknight.
It's allowed us all to find time in the busy work schedule for a couple hours of entertainment.
With the considered closure of this venue we'd be lost to have a place we can all locally go at times which allows us to.

Please reconsider this.

Dear Council Team,

I am writing to express my support for keeping Hyper Karting open.

My family, friends, and I have visited Hyper Karting many times over the years. It has become one of our favourite places to spend time together. It is a fun, safe, and unique activity that brings people of all ages together.

Hyper Karting is also important for the local area. It attracts visitors who often spend time at nearby restaurants, the cinema, and other local businesses before or after racing. This helps support the wider local economy and keeps the precinct active.

There is nothing else like Hyper Karting nearby, and losing it would mean losing a unique entertainment venue that many people in the community value and regularly use.

Please consider the strong community support for Hyper Karting and the positive impact it has on families, visitors, and surrounding businesses.

Thank you for taking the time to consider community feedback.

Kind regards,

Thomas Chan

Dear Councillors and Decision-Makers,

I am writing to strongly urge support for Hyper Karting remaining at the Entertainment Quarter, Moore Park.

Sydney should not be removing one of its few genuinely exciting, safe and accessible entertainment attractions near the CBD in order to restore more car parking for occasional event demand. That is not good city-making. It is a backwards trade-off.

From the public material I have reviewed, the issue is that Hyper Karting occupies 296 spaces on Level 5 of the existing Entertainment Quarter car park, and Council refused the extension of that use on the basis of parking impacts, orderly land use and public interest. But that framing misses the bigger point: this is an entertainment precinct, and Hyper Karting is exactly the kind of active, honest, family-friendly entertainment use that should be protected in such a precinct.

If Sydney loses Hyper Karting, the city becomes less fun, less distinctive and less generous to ordinary people looking for something social and memorable to do. It sends the message that when there is a choice between a vibrant destination and more dormant car storage, Sydney will choose dormant car spaces.

That is particularly frustrating when Moore Park is already one of the best connected event and entertainment precincts in Sydney. The Entertainment Quarter is close to the light rail, bus routes and major transport links. If there is pressure during major events, the answer should be better event transport management, better public transport frequency and better demand planning — not the removal of a successful entertainment venue.

There is also a real employment and local-business impact. Public reporting on the current review states that Hyper Karting supports 156 staff, while the operator's review material says the venue contributes significant year-round patronage to the precinct. Even allowing for some of these figures to come from the operator itself, this is plainly more than a passive parking use — it is an active business generating jobs, foot traffic and broader economic activity in Moore Park.

The comparison with Melbourne is telling. Melbourne has CBD-close karting. Auscarts in Port Melbourne promotes itself as being 7 minutes from the CBD. Hyper Karting has been described as close to Sydney CBD, but if it is removed, one of the nearest commonly promoted alternatives is much farther out at Milperra, meaning Sydney would be left with less central access to this kind of entertainment than Melbourne. Sydney should not be losing ground to Melbourne in the provision of fun, accessible urban entertainment.

Internationally, major cities do not treat karting as something that must be pushed to the urban fringe. Central London has K1 Speed in Canary Wharf, and Tokyo has CITY CIRCUIT TOKYO BAY, described as the only kart course within Tokyo's 23 wards. These examples show that world cities can accommodate modern, centrally located karting as part of a broader entertainment offering. Sydney should be aspiring to that standard, not retreating from it.

Cities need more than transport logistics and parking calculations. They need character. They need places where families, friends, tourists, students and workers can actually enjoy themselves. Hyper Karting contributes to that. Returning the space to car parking may marginally help event-day convenience at certain times, but it would make the city poorer in every other sense the rest of the year.

Please do not make Sydney more boring in order to provide more parking. Keep Hyper Karting. Support practical transport solutions for peak events. Protect the kind of venue that makes Sydney feel alive.

Yours faithfully,
Craig Barry

Regards

To whom it may concern,

Shutting down HyperKarting for more car parking is a hugely misguided decision. Below are a few points why I think so:

1. This city should be aiming for more sustainable transport and should not be making decisions that actively encourage people to drive. Such as having more parking spaces.

2. The current car park doesn't even reach capacity. I've been to HyperKarting many times and have never seen the car park at full capacity on level 2. To wonder how many are only level 6.

3. The entertainment quarter has been very unsuccessful, with many businesses closing down over the years. HyperKarting has been one of the few not only to survive but also to thrive.

4. Other go-karting businesses are far away. The closest go-karting place other than HyperKarting that I actually like is in Villawood, over 40 minutes away.

Kind regards,
A concerned citizen

To whom it may concern,

Hyperkart is more than just a go-kart track for us. It is a way for a group of local dads to meet up and enjoy some quality time together.

We live in the northern beaches of Sydney and find there is nothing else even remotely close to this experience close to us.
We try to make it to this venue at least once a month to use the go-kart track and sometimes share a meal and a drink at one of the venues in the entertainment quarter.
Without Hyperkart, I don't feel we would ever visit the entertainment quarter, as there is nothing else that would draw us there. I have been to a few gigs at the Horden pavilion and have only seen the car park full a hand full of times.
I feel that a go-kart track is a much better use of this space. The track is always busy whenever we go which shows that there is a need for entertainment like this in Sydney. This would be a detriment to the entertainment quarter, and Sydney as well.

Please, on behalf of a few Berowra dads, SAVE OUR HYPERKART.

Regards,
Richard Cetinić

Good Evening,

I was very concerned when I heard your plans to shut down hyperkaring at Entertainment Quarter. It's an awesome place to go with friends and bring the kids. Especially now that Oscar Piastri is spreading the appeal of motorsports across the country. There should be a sense of responsibility in the community to support a business which is difficult to operate, yet managed to be successful and provide a unique venue for entertainment and sport.

I'm not sure about the additional parking spots you wish to introduce. Parking at EQ is expensive as is, and the reason I'd drive there would be to go karting. It's the only experience EQ offers that can't be found in a more convenient location. Adding one more bus route from the south would do a lot more for parking there than 10% more spots.

I hope you reconsider this decision,
Djordje Minic

Dear Sir/Madam,

I am writing to express my opposition to the closure of Hyper Karting. It is an important recreational space that brings people together and supports the local community.

Having attending the venue many times, and making use of the car park during popular and high traffic events. I have never encountered and issue trying to find parking within the building. I believe the reason for refusing to extend the venues licence due to parking needs to be reconsidered due it's called nature.

I encourage you to reconsider this decision or explore alternatives that would allow the venue to remain open.

Thank you for your consideration.

Yours sincerely,

Jesse Miller

My family and I are very surprised about the decision to remove the institution that is Hyper Karting. I have enjoyed Karting there many times over the years and in fact this was the catalyst for me starting outdoor Kart racing. We have had friends and relatives visit from overseas and taken them to Hyper Karting.

We live on Bourke St Waterloo and believe the Entertainment Quarter would be compromised by the loss of Hyper Karting. Please reconsider.

Regards

Marcell

Please don’t close HyperKarting. It has been an amazing source of entertainment for our whole family for all the years it’s been at Moore Park.
We really need it to stay open as it keeps our kids off devices, we have a great family day out and our kids enjoy bringing their friends here regularly.

Kind regards
Samy Mills

I am writing on behalf of Hyper Karting. This is a unique and amazing place for all ages. I recently had my son's 18th birthday party there which included ages from 7 to 59. Everyone had an awesome time. We want Sydney to include various entertaining activities that not only unique yet fun, Hyper Karting falls into that category. We don't want Sydney to become a ghost town as it is not what it used to be entertainment-wise. When tourists visit Sydney, we want to have options that cater to all ages.

Keep Sydney alive! Keep Hyper Karting alive.

Sincerely,

Suzanne Marie Robar

Hey There!

Just sending an email on behalf of Hyper Karting Sydney.

Hyper Karting Sydney is a fantastic place, it's an amazing foundational space for the community to connect, make memories and enjoy experiences together. Removing it for the sake of extra car spaces would most definitely be a mistake.

It's unique and special in its location. It's a valued inclusion to the Sydney Council and a special gem of Moore Park. As someone who doesn't live directly in the area, I've still visited Moore park solely for the go karting centre, and by proxy the surrounding entertainment space. The entertainment centre will lose out from a financial perspective by removing Hyper Karting.

Please reconsider.

Thanks for your time!
Naumana Karim

Hi,

Please keep hyper go karting open! We don’t need more parking I thought this was something council was trying to reduce in and around the city?

What Sydney needs is more entertainment precincts and activities rather than more parking.

Best,
Leah

Please do not close!

People always make do with parking. It keeps transport business's running such as uber and Didi. Additionally public transport revenue.

The entertainment quarter should've been designed to entertain on a large scale and this is exactly what's driving business in the evenings. It's also helping restaurants at night.

To whom it may concern,

Are we really considering closing down hyperkarting at Moore Park which would be an absolutely dead joint if it was taken away? Not to mention we are in the middle of a global fuel crisis where car usage is being discouraged - oh great let's add more parking spaces in to encourage even more clogged roads and create even more empty spots.

Furthermore eliminating 150 jobs and an excellent asset of the entertainment quarter for more spaces that will likely go unused as you take away a great incentive for people to actually go to the EQ? Ridiculous proposition that should immediately be reconsidered. This sort of braindead policy is anti-fun, anti-consumer, and just incredibly dumb.

Kind Regards,
Nick Sabine

Subject: HYPERKARTING CLOSURE - community plea

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Sydney Council,

I am writing to formally express my strong opposition to the proposed closure of Hyper Karting at Moore Park.

This decision is not only disappointing, but short-sighted in terms of its impact on the broader Moore Park precinct and the community it serves.

Hyper Karting plays a critical role in activating the area outside of major event times. When concerts, sporting matches, and large-scale events are not running, Moore Park is otherwise quiet and underutilised. Hyper Karting consistently brings in foot traffic, ensuring the precinct remains active, safe, and economically viable throughout the week, particularly during midweek periods when there is otherwise very little to attract visitors.

It is also one of the few high-quality, accessible attractions located so close to the city that caters to a wide audience. Families, groups of friends, and visitors alike are drawn to the venue as a reliable and enjoyable experience. Removing it strips Moore Park of an important offering that appeals to both locals and tourists.

Additionally, Hyper Karting is not just another entertainment option. It is a well-run, premium operation that clearly exceeds many comparable venues in both quality and professionalism. Businesses of this standard should be supported, not removed.

The Entertainment Quarter benefits significantly from having dynamic, interactive attractions that give people a reason to visit beyond dining or retail. Hyper Karting adds diversity to the precinct and strengthens its identity as a true entertainment destination rather than a space that only comes alive during major events.

At present, it is one of the only consistent drawcards keeping Moore Park active during quieter periods. Without it, there is little incentive for people to visit midweek, which will inevitably impact surrounding businesses and the overall vibrancy of the area.

I urge the Council to reconsider this decision and recognise the broader economic, social, and community value that Hyper Karting provides. Removing a successful, popular, and well-utilised attraction is not in the best interest of the precinct or its patrons.

I look forward to your response and hope to see a reconsideration of this proposal.

Kind Regards
Alanah Paras-Cho

Hello,

I, along with every other parent in the Eastern Suburbs of Sydney am aghast at the potential closure of the Hyperkarting at Moore Park. I would like to request this venue stay open.

This is one of the best activities for our kids, young and old. On rainy days it is a life saver! It's wonderful for birthday parties, groups of friends, girls and boys, parents sessions also. We do not need more car parks at EQ, we need more attractions and activities for our kids!

I ask you to please take this into consideration and I hope you make the right decision to keep this venue open in this location.

Thank you,
Helen Coulston

To Whom It May Concern,

I am writing to express my strong support for keeping the Hyper Karting Centre in Sydney's inner city open, as it provides significant value to both local residents and those of us who travel in from Western Sydney.

I genuinely enjoy Hyper Karting because it offers a unique combination of excitement, competition, and accessibility. The quality of the facility and the energy of the environment make it a standout destination. It's not just about racing—it's about the experience, the challenge of improving each lap, and the enjoyment of spending time with others in a fun and active setting.

One of my most memorable experiences was visiting with friends from Western Sydney for a night out. What began as a simple activity quickly turned into a highly competitive and entertaining evening, filled with laughter and friendly rivalry. It created lasting memories and has since become something we look forward to doing again.

I strongly believe the centre should remain open because it plays an important role in the inner city's recreational landscape. It's one of the few venues that offers something truly different—an active, engaging experience that draws people into the area and contributes to the vibrancy of the city.

The Hyper Karting Centre has had a positive impact on me, my friends, and the wider community. It provides a reason for people to come together, disconnect from daily stress, and engage in a shared activity. For many, especially those coming from Western Sydney, it's a destination worth travelling for—supporting not just the venue itself but the surrounding local economy as well.

Closing this facility would mean losing a unique and valued space that brings people together and adds to the diversity of experiences available in Sydney's inner city. I strongly urge you to consider its importance to the community before making any decisions.

Thank you for your time and consideration.

Sincerely,
Samir Das

I support Hyper Karting's continued operation at the Entertainment Quarter and application for review.

Hyper Karting is a significant attraction for patrons of all ages, in close proximity to the city and operating over extended hours. It employs 150 staff. It is a superior karting venue in Sydney accessible to all and covering a need that is not otherwise addressed near to the city.

Its continued operation should be enabled promptly.

The alternative of using the space for car parking, which is clearly not necessary given the abundance of parking in the area, would result in a significant loss to the Sydney community.

Council's prioritisation of perceived car parking needs is at odds with the investment in public transport connections including light rail, and cycleways in the City of Sydney.

The fact that Council is prioritising car parking over a successful and widely visited venue that employs local staff and attracts visitors to the area is astounding and should be swiftly reversed.

Regards, Chris

I understand that carpark money funds lots of the work you do but an Entertainment Precinct needs clever ways to use their assets like this, the focus should be on working with NSW gov on improving active travel to and from site not closing down a not pollutant business like Hyper Karting!

Dear Shannon,

I strongly urge the City of Sydney and the Local Planning Panel to reconsider the decision affecting Hyper Karting at Moore Park.

Hyper Karting is a major attraction that brings consistent foot traffic to the Entertainment Quarter outside of game days, concerts, and major events. On ordinary weekdays and weekends, the precinct often experiences limited activity unless there is a stadium event scheduled.

Venues like Hyper Karting help activate the area, support nearby food and retail businesses, and encourage people to spend more time in the precinct. This benefits local employment, tourism, and the wider Sydney economy. The venue reportedly attracts over 500,000 visitors annually and supports more than 150 jobs, making it a significant contributor to the area.

Replacing a successful entertainment venue with additional parking is a short-sighted outcome, particularly when the Entertainment Quarter needs destinations that draw people in throughout the week, not only during major events.

A car park does not create community; a destination does.

Hyper Karting provides an important social space for families, young people, friendship groups, and corporate events, and helps make Sydney a more vibrant city.

I respectfully ask that this decision be reviewed with stronger consideration given to community use, precinct activation, local jobs, and long-term public value.

Sincerely,
Sandy
Residents of Bayside council.

Hi Shannon

I cannot beieve hyper karting is at risk for shutting down. It's the one place I always felt free to be myself and me and my husband love this place. It's fun for everyone and also a big part of community inclusivity. I used to love bumper cars but hypercartiig is just something else . It makes me amazing the adrenaline and the endorphins after that just makes you so so happy .
Had a bad day hyperkart , had a good day hyperkart, had a bad exam hyperkart, had a breakup hyperkart I mean it's better than drinking and smoking up don't you think.
And the staff are wonderful and the way they make sure everyone has a good time I mean ..... Whats more important community happiness ???

So please don't shut it down I would rather you take your whole group there and feel it for yourself before taking rash decisions.

Money comes and goes but true happiness is in hyperkating

Just think about it ...

Regards

Janani

To whole it may concern,

I had worked at hyperkarting from 2021-2025 and throughout that time I met amazing people, got amazing job opportunities, and got to see an amazing business that utilises empty space, give endless enjoyment to the public. Getting rid of this venue to make space for more car parks is a shameful move away from turning Sydney into a walkable city with fun activities. I kindly request that you reconsider this act and let hyperkarting stay.

Thank you

Llewellyn Medland

Dear Council,

I would like to object to the termination of Hyper Karting's lease/business.

It's the one place in Sydney that caters to 3 and 4 year olds and now that our youngest is finally of age we've been looking forward to bringing him to experience karting in a fun and safe environment.

Losing this business would be a travesty.

I implore you to reconsider.

Kind regards,
Adam Leung

Dear Shannon,

I am writing to formally object to the proposed amendment to convert the approved hyperkarting track into a car park.

As a local resident of over 30 years, I have seen firsthand how important it is for our area to continue evolving in ways that support community engagement, particularly for younger people. The hyperkarting facility represents a genuinely positive addition, offering a safe, structured, and engaging recreational outlet.

By contrast, the proposed shift to additional car parking feels unnecessary and short-sighted. From my perspective, there is already sufficient parking provision in the precinct, and prioritising further expansion of car spaces over community infrastructure does not align with the needs or character of the local area.

More broadly, developments like the hyperkarting track contribute to:

- Youth engagement and activity: providing a constructive and appealing option for young people.
- Economic benefit: increasing foot traffic and supporting surrounding businesses.
- Better land use outcomes: making productive use of the site rather than dedicating it to low-value parking.

Replacing this with a car park removes an opportunity to deliver something distinctive and valuable, in favour of an outcome that offers limited incremental benefit to residents.

I strongly encourage Council to reconsider this change.

Kind regards,

Eliza Allen

CC: [redacted]

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To the City of Sydney Council,

I write to formally object to any proposal that would see the removal of Hyper Karting in order to create additional car parking spaces.

As someone who works and commutes to the precinct daily, and attends regular events on the weekend at the precinct, combined with car park usage data available publicly, there appears to be no compelling community need or strategic justification for removing a valued recreational facility purely to increase parking capacity. In a global city such as Sydney, planning decisions should prioritise vibrant community spaces, family-oriented activities, and social infrastructure.

I have personally attended Hyper Karting on two occasions with my young family, and they absolutely adore the facility and am planning on returning the future. It is a rare and highly valued destination that provides meaningful social and recreational opportunities for young families, children, and the wider community. Facilities such as this contribute significantly to the liveability of our city and foster positive family experiences, active social engagement, and community connection. Its removal would represent yet another loss of accessible social activity options for families and young people across Sydney. At a time when communities are seeking more places to gather, connect, and enjoy shared experiences, it is deeply disappointing that consideration is being given to replacing such a facility with additional parking spaces.

With more car spaces set to be available with the completion of Venues NSW parking complex at the northern end of Moore Park, there is already a net increase in car spaces coming in the near future without having to remove a highly important social asset and local business. The venue currently employees more than 150 staff and has over 500,000 customers per year. This would represent a huge loss financially to the local area economy, especially when losing a business that contributes to both day and night economies of the city.

This decision would also be viewed by many residents as another blow following the Council’s treatment and backing of the minimisation of Moore Park Golf Club. When elected representatives are ignoring strong community support and communication to protect the recreational and social assets and support their own agenda's rather than that of the community it is shameful and short sighted serving only the personal vendettas of those elected officials.

I urge Council to listen to their constituents and the available facts and reconsider this approach by placing greater value on preserving local business that provides employment and family-focused recreational facilities that genuinely serve the people of Sydney.

Yours faithfully,

Luke Boncompagni
A concerned Sydney resident and parent

Hi,

I am emailing to support the ongoing operation of hyperkarting. I cannot see the need or benefit to the community of more car parking spaces. I frequent the area often (both for hyperkarting and other amenities) and have never had an issue parking. It is a real treat for my daughters when I take them to hyperkarting and I am sure for countless other families. I feel this decision should be reconsidered. Alternatively if there are compelling reasons for it to be closed (eg safety, compliance, traffic, acoustic etc) then allow the business to try to rectify rather than shutting them down.

Another concern is what message does this send to small businesses? Invest millions and work hard to build a business only for the rug to be pulled out under your feet by council with a nonsensical explanation?

Please explain the decision or reverse it! We need more parking doesn’t stack up.

Kind regards,

Mina

Dear City of Sydney,

It would be a travesty for you to shutdown Hyperkarting, one of the last bastions of recreational institutions in or near the eastern suburbs.

I am a busy solicitor and enjoy going there to let off steam after a long day of work. I have a young daughter and only have the chance to go there because it is close to home and I don't have that much spare time.

Even during busy periods at the entertainment quarter I have never had trouble finding a parking space in the car park or nearby area and there cannot possibly be any practical or legitimate reason for the planning officers to want to add more car park spaces at the entertainment quarter where Hyperkarting is located.

This will result in further reducing the available recreational activities and amenities available in or near the eastern suburbs, where such activities often require longer drives to the inner and outer west.

Please urgently reconsider this decision which will ultimately be highly detrimental to the community, area, and the many employees who will lose there jobs.

Kind Regards,
Raphael Grossman

Dear City of Sydney Council,

I am writing to object to the proposed closure of HyperKarting to create additional parking.

This is my job and main source of income, and I genuinely depend on it. Many of my coworkers are in the same position, and closing the track would directly impact multiple people's livelihoods.

Removing an active business and community space for more car spots feels unfair and unnecessary. The track is well used and valued, and I've personally seen how much it means to people. It's a place where people come to celebrate, have fun, and enjoy something different, where the community genuinely comes together. Replacing that with more parking cannot offer the same value.

Please reconsider this decision.

Sincerely,
Kaedi Schrader

Hello,

Please reconsider closing hyperkarting to replace it with a carpark.

It's such a great spot! My kids love it and it's probably one of the only places my husband goes socially to catch up with his friends. It's his main hobby, so for it to close, would be such a loss. Plus it's the entertainment quarter! How is a car park more entertaining?

I really hope this decision is reversed.

Thank you

Zoe Ashworth

To whom it may concern,

I am writing to express my support for Hyperkarting and to kindly ask the City of Sydney to consider keeping the venue open.

I have thoroughly enjoyed using this facility over the years, and it has become a valued part of my experience in the city. Beyond its recreational value, Hyperkarting provides a significant number of jobs for the local community, contributing positively to the area's economy and employment opportunities.

I hope you will take these factors into account when considering the future of this venue. Thank you for your time and for your dedication to our community.

Best regards,

Jason Ashworth

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Good evening,

I am writing to you to express my support for Hyper Karting remaining open. This is undeniably the best indoor karting establishment in NSW and to close it down - just to add another level of parking would be a colossal mistake. I am fairly new to Hyper Karting but I have enjoyed each time I have gone there and I'm utterly impressed with the level of detail and advanced technology they have implemented to make this such an exciting and cutting edge karting experience. As mentioned, I am new to it but there at least 20 people I know that have consistently gone over a few years and to take that away from them would be devastating.

I would imagine there is some sort of all alternative for your development plans aside from shutting this place down and would make at least most people happy. It still remains immensely popular even on weekdays, it is a huge moneymaker especially for parking and it is widely loved - to the point that it has received international recognition. This is a landmark for enthusiasts of karting and you'd be shutting down the state's best source for engaging this passion. An entire interest among people in Sydney would be heavily impact.

I also wonder that there are not just people like myself going for entertainment and a fun outing with friends, but customers who attend for even deeper and personal reasons. Please don't take this away from them.

Thank you.

Good evening,

I am writing (as I am sure many other people also are) due to the news that HyperKarting at the Entertainment Quarter in Moore Park is to be shut down and replaced with more parking spots.

I believe this is:

1. Detrimental to the Entertainment Quarter precinct - on non-event days the parking is never full (or even close to full), but there are always people at HyperKarting. It is a significant source of income for locals, entertainment for people all over Sydney and brings people to a place that (to be perfectly honest) would otherwise be much more boring. HyperKarting is one of the more reasonably priced things to do at the EQ and without it, the "Entertainment" value of the Entertainment Quarter would be significantly reduced. It would consist essentially of some overpriced restaurants, and activities which one can just as easily do anywhere else. HyperKarting is unique in all of Sydney (especially the City area) and is cheaper and more accessible than other go karting places (such as Eastern Creek).

2. Completely at odds with proven, effective city planning. The introduction of more parking spaces will only serve to induce more demand for drivers (especially on event days), leading to more traffic and just as much difficulty in finding parking near the SCG & Moore Park sports complex. It **will not** become easier (or cheaper) to find parking. It**will not** reduce delays (but rather increase them). The only thing it **will** do, is line the pockets of the owners of the EQ, who charge exorbitant amounts for parking on event days. I am of the firm belief that the City of Sydney does not require more parking spaces at Moore Park (in fact I think, especially given the effective light rail service, and the area's close proximity to Central Station, that having less parking spaces would be ideal to reduce traffic and improve pedestrian friendliness). I strongly believe that the community requires businesses like HyperKarting, more than the city requires parking, and certainly more than the owners of the EQ require more money.

3. At odds with the great work the City of Sydney has been doing recently to improve the city, including making it more bike and pedestrian friendly by limiting cars, and ensuring that other modes of transport are more convenient. People will travel however is most convenient for them, and if that is driving, then they will drive. I am definitely not against all parking, and the parking lot at the EQ is great for many reasons. I often drive there, but have never struggled to find parking, or felt that there should be more. I find it confusing that the City of Sydney council would decide to increase parking there, when they have made the informed decision to remove and restrict parking and vehicle access in other parts of the city, for good reason.

Therefore, I hope that the Council will consider these points (and those made by many others), re-evaluate their priorities and consider allowing HyperKarting to remain open in the same location.

Kind regards,
Noah.

Dear Councillors,

I am writing as a resident of Sydney's Eastern Suburbs and a regular patron of Hyper Karting at the Entertainment Quarter to express my strong objection to the Council's decision to shut down this venue and revert the space to car parking.

My son and I visit Hyper Karting regularly. We have celebrated birthday parties there. It is one of the few places in Sydney where children as young as three can safely experience the thrill of karting, alongside teenagers, adults, and families - all under one roof. It is not simply an entertainment venue. It is a place where our community comes together. Parents bond with their kids. Friends celebrate milestones. Children discover a passion for motorsport in a safe, emissions-free, all-weather environment.

Hyper Karting is not something we want to preserve temporarily. The community wants it here permanently. It has earned its place.

Since opening in 2021, the venue has welcomed over 500,000 visitors and supports more than 150 jobs. It operates seven days a week, from early morning to late at night, bringing consistent life and foot traffic to a precinct that desperately needs it. It has done all of this without generating a single noise complaint, using clean electric karts that produce zero emissions. The operators transformed what were previously disused parking bays into one of Sydney's most popular attractions. That is exactly the kind of innovative, community-minded use of urban space that a forward-thinking council should be making permanent - not dismantling.

There is nothing else like this in Sydney's Eastern Suburbs. I would argue there is nothing quite like it anywhere. A 410-metre indoor electric circuit, with purpose-built tracks for every age group from toddlers to adults, layouts that change twice weekly, augmented reality experiences, and an arcade - all located minutes from the CBD, accessible by light rail and bus, open rain or shine. Name another karting facility in the world that is this accessible to a major city centre, this inclusive across ages, and this thoughtfully designed. You will not find one. This is something that makes our part of Sydney unique, and we do not want it replaced with yet another car park.

And that brings me to the Council's reasoning. The justification for closure is that the 298 parking spaces on Level 5 are needed. But Transport for NSW's own data tells a different story - since Allianz Stadium reopened in 2022, the Entertainment Quarter car park has reached full capacity only a handful of times across 84 major events. The Council is proposing to destroy a thriving, job-creating, community-building venue to restore parking spaces that sit empty nearly every day of the year. That is not sound planning. That is a waste.
This decision also directly contradicts the NSW Government's stated ambition to transform the Entertainment Quarter into a vibrant, year-round destination. Premier Chris Minns has acknowledged the precinct has fallen far short of its potential. How does removing one of its most popular and consistently operating attractions help achieve that vision? It doesn't. It sets it back.

The Eastern Suburbs should not lose a world-class family entertainment venue so that concrete can sit empty. My son, and thousands of other children and families across Sydney, deserve better.

I urge the Council to reverse this decision and grant Hyper Karting permanent approval to continue operating. This venue is a proven asset to our community, our local economy and Sydney's entertainment landscape. Keep it.

Yours sincerely,
Harini Janakiraman

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear City of Sydney Council,

I am writing to express my deep concern regarding the proposal to close Hyper Karting in Moore Park in order to expand parking facilities within the Entertainment Quarter.

While I understand that urban planning often requires difficult decisions and trade-offs, I respectfully ask the Council to reconsider this approach in light of the significant impact it will have on a thriving local business, its employees, and the broader community.

Hyper Karting is more than just an मनोरतainment venue—it is a place where families, friends, and visitors come together to enjoy unique experiences in a safe and engaging environment. It contributes to the vibrancy of Moore Park and supports the local economy by attracting visitors to the area.

Most importantly, this decision directly affects approximately 150 employees whose livelihoods depend on the continued operation of this business. In the current economic climate, job security is critical, and the loss of these roles would have a meaningful impact on many families.

I kindly urge the Council to explore alternative solutions that balance the need for parking with the preservation of existing businesses. Options such as optimizing current parking infrastructure, improving public transport accessibility, or identifying underutilized spaces elsewhere may help address capacity concerns without displacing a well-established operation.

Sydney is a city known for supporting local businesses and fostering community spaces. Preserving venues like Hyper Karting aligns with these values and ensures that Moore Park continues to offer diverse and engaging experiences for residents and visitors alike.

Thank you for taking the time to consider this perspective. I sincerely hope the Council will engage with stakeholders and the community to find a solution that supports both infrastructure needs and the people behind this valued business.

Yours sincerely,

Jessica Arcila Lopez

Dear Sir/Madam,

Please reconsider closing down hyper karting to resume parking. The parking clearly wasn't in use and was available at the time of this franchise being built in covid times, it is a huge success, bringing huge revenue, entertainment, fun and jobs. This place massively popular. As seen today on the news the existing parking available around Moore Park has been seen very empty, so why this shift in saying parking is at capacity I don't know.

Please take this time to reconsider. Its a much loved place to entertain kids, families, couples and corporate events to the loc area.

Thank you for your time and consideration.

Kind regards
Abby Richardson

As a city of Sydney rate payer (Customer BPay Ref No: 1422120) I am disappointed to see that the City of Sydney wants to close Hyperkarting at Moore Park just to open up 1 level of car parking.

I have been to Hyperkarting many times and love the experience, please stop converting Sydney into the boring city it currently is becoming, and allow a diverse range of attractions for your citizens and ratepayers.

Thanks, Dale

To whom it may concern,

I'm writing to strongly oppose the closure of Hyper Karting . It's a vital community facility that our family, friends, and so many others use regularly, and it also provides local employment - even the staff themselves use and value the space in their time off,

It keeps kids and adults engaged, active, and off the streets, creating a positive environment that brings people together. Closing it for more car spaces makes no sense -we need community spaces like this, not less. Please reconsider and prioritise keeping Hyper Karting open.

Tali Fisher

Dear City of Sydney Council,
I am writing to express my concern regarding the imminent closure of the Hyper Karting Centre at Fox Studios.

As a regular visitor, I have had the opportunity to experience the facility on multiple occasions, and each visit has been genuinely enjoyable. The venue offers a unique, high-quality recreational experience that is not easily replicated elsewhere in Sydney. It provides not only entertainment but also a safe and well-managed environment for people of all ages to engage in motorsport-style activity.

The Hyper Karting Centre has become an important part of the local leisure landscape. It attracts visitors, supports surrounding businesses, and contributes positively to the vibrancy of the Moore Park precinct. For many, including myself, it is a go-to destination for social gatherings, celebrations, and simply unwinding.

Closing this facility would represent a significant loss to the community. I strongly urge the Council to reconsider this decision or explore alternative options that would allow the venue to continue operating in some capacity.

Thank you for taking the time to consider this feedback. I hope a solution can be found that preserves this valuable and much-loved attraction.

Thank you
Rob Scheeren

To Whom It May Concern,

I write to you regarding the frankly ridiculous position of the City of Sydney (CoS)'s refusal to extend the DA for Hyper Karting's operations at the 5th level of the EQ car park.

The details of why the refusal's rational is downrightincorrect - relating to the "need" for ~296 car parkingspaces while (a) the car parkbarely ever gets full as it is, even on the busiest of event days and (b)venues NSW's new underground parking will add NET 1200MORE SPACES and (c) this goesDIRECTLY AGAINST CLOVER MOORE AND THE CoS's aim to reduce car usage and encourage public transport, riding and walking. If this is the case,then why continue to drop speed limits across the CoS to 40kmh,even 30 in some areas? That's just a bit hypocritical to me...

In a joint government effort to "revive" the EQ, one would think that an entertainmentvenue, such as Hyper Karting, which welcomes over 500,000 visitorsper year, would be considered an essential partof an entertainment venue?

On a personal level, Hyper Karting has been a place of employment for me for 2.5 years, providing me with not only an income to support myself during my studies, but has also allowed me to meet and make great friends. Removing Hyper Karting would destroythis: removing my source of income, along with 155 of my other colleagues, many of whom are in a similar position to me - hard-working, university students that are just trying to make ends meet. By removing Hyper Karting, you directly plunge us into the worst cost-of-living crisis in recentmemory...without an income.

Looking past the vast NEGATIVE IMPACT this decision would have on the community and the economy (which the SoC isso desperately attempting to revive given recent law changes), this decisionis driven by a lack of formal planning, analysis and insight into the real world.

Not everyone drives.
The car park doesn't even get full.
You actively encourage public transport usage -
But then want more car parks.
That again, don't even get full.
While another 1200 NET parking spots will be available *sometime* next year.

You want to revive the night-time economy.
But remove the largest permanent attraction at the EQ.
Let alone putting my job, along with 155 other staff in the bin,
In the middle of a cost of living crisis.

Make it make sense.
Please contact me for further comment.

Yours sincerely,
--
Devan Fuchs

Incredible that the City of Sydney is taking steps to destroy even more of the entertainment of Sydney. Over the years, the city has taken a massive hit for options as to how people can enjoy themselves.

The EQ in Moore Park is a thriving centre point of Sydney and hyper karting is now an icon of the location. As someone who lives out west, if HK is no more, then there is no reason for me to venture out to Moore Park for a night out with friends and family.

Honestly, don’t be silly. There is no reason to force them to pack up shop. Leave the team there and let them keep on keeping on.

Kind regards,
Matej

Alright you selfish government pricks you take hyperkarting away for a few wee little parking spots is not on, you have a massive parking complex on the. Way yet you need more.
The footy game nights haven't even filled up that parking lot yet and still you're aiming to kill a small business that is thriving. It's not as if they haven't got anything going for them. So leave them be and go do something actually useful like stopping pollution

Hello,

Please do not shut down hypercarting. Sydney has already shut down most of the ice skating rinks. It is such a sad thing to see our communities replace leisure and places of fun and family with other developments. It is important that this decision to shut them down be changed. I have had my first baby boy and want him to grow up where I know he has fun activities to experience in his future - Sydney already has a reputation of not having much activities to do - why would we remove another beloved spot?

Many thanks
Alyssa Baptista.

To whom it may concern,

I do not believe closing hyper karting is a justified idea for a multitude of reasons. I will now list below

Firstly, it is a great attraction that brings people into the EQ who are also likely to spend money at other local businesses nearby (speaking as someone who has worked in the EQ).

Secondly, The only plausible reason to close the attraction is to increase car park space which will only accommodate more personal vehicles into the venue at peak times. This will not have the intended effect of boosting sales but rather an increase to the already congested and underbuilt infrastructure. Why not instead improve public transport to the area instead and support it's growth rather than tear it down. If people don't have a track there they will have to go to Bankstown, further congesting the highways and overall decreasing air quality.

Additionally, the car park has NEVER reached full capacity in recent times to the request is furthermore unjustified.

In conclusion, as a passionate resident I believe Hyperkarting should remain open and rather downstream problems should be addressed if bottlenecking is to arise.

Kind regards,
Cruz Kahlbetzer

The decision to revert Hyperkarting back to a car park is just ridiculous. EQ business would suffer massively all for the few game days that car parking is in higher demand. What about the other carpark in the area that is near completion.

Plus we have government constantly pushing for people to use public transport, but someone thinks it's a good idea to have an empty car park a majority of time.

I have been to so many kids parties at hyperkarting, the main reason I go to EQ, take that away and the whole place loses its vibe and the businesses will close because no one will go.

Council needs a reality check on this one.

Dear council

I am writing to express my concern regarding the potential removal of Hyper Karting at Moore Park in favour of additional car parking.

Sydney is at risk of losing something far more valuable than a small number of parking spaces. Facilities like Hyper Karting contribute to the character, vibrancy, and uniqueness of our city. They provide experiences that cannot be easily replaced and play an important role in supporting local businesses, attracting visitors, and creating a lively community environment.

Replacing a distinctive recreational offering with more car parking feels like a step backwards. Major cities around the world are actively moving away from prioritising cars, instead focusing on experiences, community spaces, and supporting small and unique businesses that make their cities stand out.

Once these types of businesses are gone, they are rarely replaced. The long-term impact is a loss of identity and a more generic urban environment.

I strongly urge council to reconsider this approach and prioritise protecting and supporting unique local offerings like Hyper Karting, rather than reducing them in favour of additional parking infrastructure.

Sydney should be investing in what makes it exciting, social, and memorable — not removing it.

Thank you for your consideration.

Amanda Lim

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Council Members,

I am writing to express my strong concern regarding the potential closure of Hyperkidz Play Park to make way for additional car parking in the precinct.

Hyperkidz is far more than just a play area, it is a vital community space that supports families, children, and local wellbeing. Removing it would have a significant negative impact on the community for several important reasons.

Firstly, Hyperkidz provides a safe, engaging, and active environment for children. In an age where screen time is increasing and adolescent mental health declining, spaces that encourage physical play, social interaction, and creativity are essential for healthy development. Losing this facility would reduce opportunities for children to stay active and connected.

Secondly, the park plays an important role in supporting families. It offers a reliable and welcoming place for parents and carers to bring their children, meet others, and build community connections. These social benefits are not easily replaced and contribute to stronger, more resilient neighbourhoods.

Thirdly, Hyperkidz contributes to the local economy. It attracts families to the precinct, which in turn supports nearby businesses such as cafés, shops, and services. Replacing it with additional car spaces may increase parking capacity, but it risks reducing the overall vibrancy and foot traffic that make the area appealing.

Additionally, prioritising more car parking over community infrastructure sends the wrong message about long-term planning. Modern urban development trends focus on creating people-friendly spaces that promote health, sustainability, and community engagement—not simply increasing space for vehicles.

Finally, there may be alternative solutions that address parking concerns without sacrificing such a valuable community asset. These could include better parking management, shared-use arrangements, improved public transport access, or redesigning existing spaces more efficiently.

I respectfully urge the Council to reconsider this proposal and to prioritise the preservation of Hyperkidz Play Park. Protecting spaces like this demonstrates a commitment to community wellbeing, family support, and thoughtful urban planning.

Thank you for taking the time to consider this submission. I hope the Council will choose to retain and support this important community space.

Nikki Galbraith

What kind of city do you want to foster? One with unique experiences for people to come together and connect? or one that prioritizes cars?

I am so disillusioned by City of Sydney and its constant destruction of everything that gives a city soul. Hyper-Karting is a successful small business that employs 150 people, and brings friends & strangers together to compete, and laugh, and feel the wind in their hair, and you want to CLOSE IT to replace it with empty car spaces?? What kind of psychopath is behind this??
I come to hyper karting with my Greek & Malaysian family as an annual event and it's a special night. go karting is universal fun, where kids, adults and even grandparents come from all over the city to get together and bond. Please rethink your decision to destroy this.

Sincerely,
Nisa East - resident of Marrickville. 2204

Hi there,

I am wanting to write in support of HyperKarting. My daughter has had many fun occasions there with her friends. The venue provides a unique space for kids to have really fun get togethers and birthday parties.

I am hoping that they get to keep there business running for the good of the community.

Cheers

David Auton

Hello,

I am writing in relation to the Hyperkarting facility. As one of the only venues of its kind in Sydney, it provides an important space for teenagers and families. It's a popular destination for social activities, including birthday celebrations, and offers a safe and engaging environment for young people.

It would be very disappointing to see this facility close, given the positive role it plays in the community. I support its continuation.

Thank you for your consideration.

Kind regards,

[redacted]

Hi,

I'm writing in support of Hyper Karting remaining at the Entertainment Quarter.

Spaces like this are incredibly valuable — not just as entertainment venues, but as places that bring people together and contribute to the energy and identity of the local area.

The track offers something unique, and losing a venue like this would be a real loss to the community.

I hope a positive outcome can be reached and that Hyper Karting is able to continue operating.

Kind regards,
Rory

You don't need any extra car spaces, there are heaps available that are never filled during the busiest times of the week and during busy events. There is video evidence of this. If anything, taking away businesses would decrease the need for extra car spaces. Use your brains, have some common sense and save this fun place for the community.

Dear Council,

I'm writing to ask you to reconsider the closure of Hype Karting.

It's an important space for young people and families, providing a safe and positive activity. It also supports local jobs and nearby businesses.

If there are concerns, I encourage the council to work with the operators on solutions rather than closing it completely.

Please consider keeping this valuable community venue open.

Kind regards,

Jay Lemos

To whom may be concerned,

I am writing to express serious concern regarding the proposed closure of the rooftop go-karting experience.

This decision goes beyond simply repurposing space, it will result in the loss of approximately 150 jobs, impacting a significant number of individuals and their livelihoods.

At a time when job security is increasingly important, this should not be taken lightly.

In addition, this space was previously underutilised. The go-karting experience has transformed it into a destination that brings energy, activity, and foot traffic into the area. Reverting it back to standard parking risks returning it to an empty, low-value space.

Sydney already struggles with a lack of engaging, accessible experiences, particularly within the city. Initiatives like this add character, attract visitors, and contribute to a more vibrant and dynamic environment. Removing it only reinforces the perception of a city that lacks activation and creativity (we like to call it the beige city).

This is not just about entertainment, it is about jobs, community engagement, and making better use of existing infrastructure.

I strongly urge you to reconsider this decision and to prioritise outcomes that support both employment and the activation of underused urban space.
Thank you for your time and consideration.

Kind regards,

Tessa Michniewski

Dear board of City of Sydney,

I hope this message finds you well.

I am writing to express my view that additional car parks are unnecessary and that Hyperkarts contribute significantly to the vibrancy and appeal of both Sydney and Moore Park. Hyperkarts provide a unique entertainment experience, attracting visitors and enhancing the cultural and recreational offerings of the area. I also took my partner on our first date there.

Preserving/saving this attraction benefits the community far more than expanding parking facilities.

Thank you for considering this perspective.

Kind regards,

Stevie Knight

Hi There,

I'm asking you to oppose the proposal to close Hyper Karting.

It's an all-weather, late-opening facility used by families, shift workers and visitors; the nearest alternative is petrol-powered and much further away. Closing HK would remove an important community amenity that brings people to the area and supports nearby businesses.

The EQ car park is not at capacity so removing HK to add parking feels unnecessary.

Please reject the closure and require a full impact assessment and parking-usage study before any decision is made.

Kind regards,
Nic Charlton

To whom it may concern,

This proposal to increase parking capacity at The Entertainment Quarter, by removing a business that brings significant financial benefits to the area, is beneath the usual standards of Councils.

To believe that reapplying maybe a couple of hundred parking spots, by removing an almost traditional thousands of spots in only high capacity events, on the grass adjacent the multiple sporting and entertainment venues is neither wisdom, nor any sort of environmental win.

The only win with this proposal, will be an almost empty carpark 90% of the time, to mistakenly repurpose the grassed areas, when the business being closed, HyperKarts, is open 100% of the time.

Further, you are attempting to make a significant number of young employees, unemployed. That alone makes this a foolhardy decision. Not wise given the recent spike in youth crime we are witnessing locally and nationally.

I have attended HyperKarts 30+ times in the last 4 years, usually in large groups. We almost always eat at The Entertainment Quarter when we visit, so that will be a significant reduction, just on me and my associates, not spending money within the precinct.

I believe any Council decision that reduces the businesses profitability, or worse still, closes a business, is a poor and misguided decision, no matter the assumed and rather esoteric benefits this path hopes to achieve.

Please, think again, and leave HyperKarts where it is for all to enjoy into the future.

Kind regards,

Kurt Jeffree

Hyper carts has been an incredible addition to the entertainment quarter.

Everytime I go there the car park is empty.

I would say majority of the reason I come to the entertainment quarter is for hyper carts.

I have never been there and not found parking. I think this is totally ridiculous to shut it down for extra parking.

This will be a terrible loss if you shut it down.

Dear City of Sydney

I came to enjoy and promote Moore Park's Hyper Karting just earlier this year. So I'm saddened to hear it may be forced to close in less than a year.

I've attended the Entertainment Quarter for a number of events, and the parking has never been filled to capacity in the times I have visited.

The decision to not renew a popular attraction for people from all over Sydney for car spaces that are not required is unwarranted.

Furthermore, Hyper Karting also brings my friends and I to eat a meal at the surrounding food attractions. The removal of Hyper Karting is a loss to surrounding businesses.

If there are hidden motives for its forced closure, those reasons should be revealed so they can be either accepted or challenged by the public.

As it stands, there appears to be no justifiable reason for forcing Hyper Karting out of its current space.

Please renew the approval for Hyper Karting to operate in the Entertainment Quarter, providing ongoing fun, business, and entertainment options for many patrons for years to come.

Kind Regards
Andrew Drury

Dear Shannon

I am writing to formally protest the imminent closure of the Hyper Karting track in Moore Park.

This facility is a family-friendly, clean, and safe destination enjoyed by a diverse range of people, from young children and families to adults. It offers a unique variety of recreation that simply cannot be found anywhere else in the city. Replacing such a significant community asset with a few additional car spaces or improved access to a restaurant does not bring anything new, different, or useful to the Sydney community.

I have personal experience with individuals who travel regularly from as far as Wollongong specifically to enjoy this fantastic track and the great community it fosters. In a modern era where many entertainment options revolve around gambling and alcohol, Hyper Karting provides a clean, family-friendly, and environmentally conscious sport.

Closing this facility in favor of more parking spots is both futile and extraordinarily shortsighted and frankly so disappointing I urge you to reconsider this decision and preserve a venue that provides genuine value to the people of Sydney and beyond.

Thank you for your time.

Best regards,

Deen

I am writing in support of hyperkart in Moore park.

I was thrilled to be able to take my son with ASD recently as he was set on go karting. I was surprised to hear in the news that an uncommon business such as this faces closure for car parking.

This is a business type that provides a quite hard to find service, we aren't exactly swimming in go karting places in every suburb - I had to travel to Moore park especially for it; I supported many of the other businesses there as a consequence of making the trip.

I have not had trouble parking in any trip to the entertainment quarter having been 4 times in the past 6 months.

I would appreciate your reconsideration of this matter.

Kind Regards
Rainer

Hi council,

I live in Normanhurst, so I'm an hour away from Moore Park. Regardless, my family have made the trip down to the entertainment district multiple times! Lots of good attractions there, great events going on all the time. However, even with all that exciting stuff happening, the ONLY reason my family have ever made the trip is for Hyper Karting. It's a genuinely fantastic attraction, and in my opinion and that of many in my social circle, it's the singular best part of Moore Park. This also comes from friends who are super involved in the sports events hosted there!

I'd really hate for it to be forced to close. I know your reasoning is to provide parking for other events, but without Hyper Karting I have a feeling quite a lot of people simply won't go to Moore Park any more. I certainly won't.

Thanks for reconsidering,
Xander Ridley-Smith

The benefits of hyper karting for the community as a recreational activity, not to mention employer of local people far outweighs the benefit of having a couple of extra parking spaces that are not required 99% of the year. Why are the spaces suddenly required after 5 years of them not being needed?

Dear City of Sydney Council,

I am writing to express my strong opposition to the proposed closure of the HyperKarting business in the entertainment precinct.

This decision would have a significant and deeply negative impact on the community. Most importantly, approximately 150 staff members stand to lose their jobs if this goes ahead. At a time when supporting local employment should be a priority, this outcome is extremely concerning.

The justification for replacing this venue with additional car parking is also difficult to understand. From my experience, even during peak times; such as busy football match nights, there are still dozens of available parking spaces in the area. With a new car park currently being developed nearby, it does not appear that additional parking is necessary.

More broadly, this direction seems at odds with the City's sustainability and transport goals. We should be encouraging greater use of public transport, not increasing reliance on cars. The light rail provides convenient and efficient access to the entertainment precinct, and it is what I personally use when visiting the area.

Beyond these practical concerns, HyperKarting offers real social and recreational value to the community. My own experience there has been overwhelmingly positive. Before visiting, I had never tried go-karting, but I found it to be an incredibly enjoyable and welcoming environment. The staff are friendly and helpful, and the venue fosters a strong sense of community. Particularly for young people, who gather there in a safe and engaging space.

It is also a unique, all-weather activity that can be enjoyed year-round. Importantly, the karts are electric, meaning they do not produce harmful fumes or rely on fossil fuels. This aligns far better with a sustainable future than expanding car infrastructure.

HyperKarting is more than just a business, it is a vibrant community hub that adds meaningful value to a city where many such spaces have already been lost. Removing it for unnecessary parking would be a step in the wrong direction.

I strongly urge the Council to reconsider this proposal and to support the continued operation of HyperKarting.

Yours sincerely,
Jasmine Cronin

Please keep this venue.

If it is to provide more parking spaces during event, the space won't be used efficiently as events go for a few hours on specific days only. And it will also encourage ppl to drive and create more traffic to the areas. Better public transport arrangements on event days will encourage more ppl to use shared public transport, which is also more green.

Dear Council,

I'm writing to ask you to reconsider the closure of Hype Karting.

It's an important space for young people and families, providing a safe and positive activity. It also supports local jobs and nearby businesses.

If there are concerns, I encourage the council to work with the operators on solutions rather than closing it completely.

Please consider keeping this valuable community venue open.

Kind regards,

Jay Lemos

Dear Council Member,

I live in the Eastern Suburbs and my son and I are constantly visitors at hyperkarting in Moore Park. I am writing to urge Council to do everything it can to protect and support Hyper Karting at Entertainment Quarter and to oppose any proposal that would replace it with additional car parking.

The Eastern Suburbs does not need another car park nearly as much as it needs places that bring people together. Hyper Karting is one of those rare places. It is not just a business or an attraction. It is a genuine community asset: a place where children, families, friends, and people of all backgrounds can come together, try something new, celebrate birthdays, build confidence, and create lasting memories.

Spaces like Hyperkarting are hard to replace. A car park may serve a practical purpose, but it does not create community, excitement, identity, or joy. Hyper Karting does. It gives Entertainment Quarter energy and character. It helps make Moore Park and the broader Eastern Suburbs distinctive, vibrant, and family-friendly. Replacing a unique destination with more parking would be a step backwards.

Hyper Karting also supports local jobs and livelihoods, draws people into the precinct, and contributes to the local economy in a way that a passive parking area simply cannot. People come for the experience, and that benefits surrounding businesses as well. It adds life to the area rather than taking it away.

In a growing city, it is important to protect places that foster recreation, connection, and community participation. Once a special venue like this is lost, it is very difficult to bring back. Council should be supporting destinations that make the area more livable and more memorable, not reducing them to more space for cars.

I strongly urge you to preserve Hyper Karting and reject any move to replace it with another car park or a less valuable use. Please help keep this special venue in Moore Park for the families and communities who value it so highly.

Thank you for your time and consideration.

Kind regards,
Bharath

To whom is may concern,

You are doing a disservice to past, current and future customers choosing to close down hyperkarting.

Hyperkarting is not only a kart track it's much more than that. It brings life to Moore park, it brings business to nearby businesses, it brings entertainment, It brings a reason to go to Moore park.

Reconsider your decision

Kind regards,
Matt

Hi,

I am completely taken back that I have to write an email like this as I never thought Hyper Karting would have been in this position.

I find it hard to put in words how much Hyper Karting means to me. It has helped me through difficult personal times and has changed the community around me. I have been an on and off again employee at Hyper Karting since early March 2021 and have been able to see the company grow not just itself but the community surrounding it throughout the years. From 2018 - 2021 I worked as a manager at the HOYTS Entertainment Quarter, this means I was at the EQ working day and night shifts pre, during and post COVID-19. The Entertainment Quarter was a ghost town. I remember the constant conversations between managers and staff about the small amount of foot traffic we were getting through the EQ and even speaking to other workers around the precinct about how their respective companies were struggling. This all changed what Hyper Karting came to town! At first, I heard about this cool go karting track in EQ from some mates. I didn't think it could have been that special as it was electric and in a car park, but boy I was wrong. I fell in love with the track straight away and ended up being upsold 3 more races then the one I had originally gone for. By the end of my time racing, I was able to speak to Andrew Richardson the founder of Hyper Karting and I was offered a trial for a job the following week.

Throughout my years at Hyper Karting, I have been fortunate to work in all different roles in the company from the on-duty manager, to facilities manager, to assistant venue manager. I have been able to make relationships with customers both coming for the first time and returning. During the second wave of COVID Hyper Karting was able to stay open (safely using social distance protocols) for people to come and race as a form of exercise. Every person that came during this time would go on about how this was what they were looking forward to most in the week and it was helping their mental state whilst usually being stuck at home by themselves. Around this time is when Hyper Karting became a house hold name. People would be constantly telling me about Hyper Karting and how amazing it is not knowing that I work there.

In 2022 I had to return from Europe after working a snow season as my father had gotten cancer. My mother had passed away from cancer as well in 2018 so it left me and my sister to support my dad and help financially with expenses around the house. I messaged Andrew about potentially returning to work at Hyper Karting and within 48 hours of being back in Sydney I was already working on shift. I am extremely grateful for everything that Hyper Karting and Andrew have done for me and I will do whatever I can to keep this venue operating. As someone who has grown up and lived in Paddington all my life, as well as working in the Entertainment Quarter for 8 years, I have never seen another establishment create such an amazing community and impact a precinct as much as Hyper Karting has been able to do.

I hope you are able to take everything I have mentioned into account,

Many thanks,
Jean-Claude Zust

Hello Shannon,

I'm writing to oppose the proposal to not extend the use of hyper karting to 2028 for numerous reasons. The statistical information has been clearly presented to you in the form of planning and impact assessments from external consultants as well as the raw parking data itself. Firstly, 15 peak capacity events in the whole year does not justify or warrant an increase in car spaces, particularly when compared to the inverse with the median maximum occupancy number is roughly 640 which is barely 30% capacity on the remaining 350 days of the year. This salient fact alone should be more than enough justification for the extended use of the space for recreational use.

Secondly, residential developments within the City of Sydney council are largely without car spaces under an initiative of your own organisation which makes sense in many cases not only environmentally but also in terms of easing traffic flow in medium to high density living. It is counter intuitive and hypocritical to go against this by promoting the usage of vehicles particularly when there is an established public transportation route adjacent to the site in the form of busses and light rails. Particularly in this current geopolitical climate resulting in a fuel shortage, it is an embarrassing decision to make as the forefront of NSW.

Lastly, this makes no sense economically. The statistics used as a counter argument are illogical, if the public want to go out and see a big event or star such as "Kendrick Lamar" they will make their way to the event regardless of the extra parking or not - a sold out event is still a sold out event. By denying the flow of foot traffic through the city by means of public transport, it removes potential customers from small businesses not only within Moore Park but also the city. Furthermore, this cuts jobs from younger population who no doubt recycles the money by spending it back in the economy. The master plan of calling this an entertainment hub and then subsequently removing said entertainment without proper factual or financial justification is bluntly idiotic, and there should be calls to investigate the motives behind the decision making within the council. I hope you reconsider your assessment on behalf of thousands of people who enjoy the use of this venue.

Regards,
Carl

To Whom It May Concern,

I am writing to express my concern regarding the proposed closure of Hyper Karting to make way for additional car parking spaces. As a current UNSW student who visits the area frequently at various times of the day including peak hours, lunchtime, and off-peak periods—I strongly believe that this decision is unnecessary and overlooks the actual usage patterns of the existing parking facilities.

From my consistent observations, the car park is rarely, if ever, fully occupied. Even during traditionally busy periods, there are ample vacant spaces available. In particular, the level directly beneath Hyper Karting often has a significant number of empty spots. This suggests that the demand for additional parking is not as pressing as it may appear on paper.

Hyper Karting, on the other hand, provides a unique recreational space that contributes to the vibrancy of the area. It offers students and the wider community a place to unwind, socialise, and engage in an activity that is not easily replaced. For many UNSW students, including myself, it serves as a convenient and enjoyable outlet between or after classes.

Replacing such a facility with additional parking—especially when current parking capacity is already sufficient where it risks diminishing the appeal and functionality of the precinct. It prioritises an underutilised need over a well-used and valued community space.

I respectfully urge you to reconsider this decision and to take into account the actual usage of the car park, as well as the social and recreational value that Hyper Karting provides. Maintaining a balance between infrastructure and community spaces is essential for creating a thriving and engaging environment.

Thank you for your time and consideration.

Sincerely,
A concerned UNSW student

Dear City of Sydney Planning Team,

I am writing to express my strong support for the Section 8.2 Review Application (RD/2023/897/A) regarding the continued operation of Hyper Karting at Level 5 of the Entertainment Quarter car park.

As a member of the Sydney community, I was deeply concerned to hear that this vital local business is at risk of closing due to a refusal to extend its development consent. Hyper Karting has served our city for over half a decade, and its loss would be a significant blow to Sydney's vibrant entertainment landscape.

I believe the Council should approve the extension until July 1, 2028, for several critical reasons:

* Economic & Social Impact:** Hyper Karting provides approximately 150 jobs, many of which are held by young people. Removing this business would directly contradict the Sustainable Sydney 2030-2050 target of creating 700,000 jobs in the local area.
* Vibrancy of the Entertainment Quarter:** With over 300,000 annual visitors, Hyper Karting is a major anchor for the EQ precinct, driving essential foot traffic to neighbouring small businesses and restaurants.
* Sustainability:** As an electric go-karting facility, Hyper Karting aligns with the City's vision for a modern, sustainable, and low-noise entertainment precinct.

Over 1,900 people have already stood up to support this case, and I am proud to be one of them. Every submission counts, and the voice of the community is clear: Sydney wants and needs Hyper Karting to stay.

I urge the Council to reconsider its decision and support the continued operation of this world-class facility that brings so much joy and opportunity to our city.

Yours sincerely,
SL Chan

To the City of Sydney Council,

I am writing to share my perspective regarding the proposed closure of Hyper Karting (HK). I would like to clarify that I have no personal or financial interest in the business; I am simply a community member who values thoughtful and sustainable urban planning.

While I understand the complexities of managing city infrastructure, I believe there is an opportunity to reconsider the current proposal for the following reasons:

- Optimising Existing Resources: Currently, the Entertainment Quarter's parking facilities often appear to have significant remaining capacity. Prioritising the retention of an active, high-value business over creating additional parking space could offer a greater long-term benefit to the local economy and community spirit.
- Supporting Local Livelihoods: Hyper Karting provides employment for approximately 150 people. Beyond the jobs themselves, the venue serves as a unique destination for social and corporate connection—a type of community value that is difficult to replace or relocate.
- Evidence-Based Planning: I would encourage the Council to look closely at current usage data to ensure that any changes reflect how the space is actually being used. Preserving a vibrant hub helps foster the feeling that community feedback and engagement are truly integral to the planning process.

With these points in mind, I respectfully ask that the Council:

1. Review the most recent parking utilisation data to confirm if additional space is a priority.
2. Explore creative alternatives that might allow Hyper Karting to continue its operations.
3. Share a clear explanation of how this proposal aligns with the broader goals of the community.

Sydney is at its best when it protects the spaces that bring people together. I appreciate your time and look forward to hearing your thoughts on this matter.

Thank you.

Kind regards,

Guillaume Canneton

Dear Shannon,

I am writing to express my strong support for the continued operation of Hyper Karting and to urge the Council to reconsider any decision to close it down.

This track is an important part of the local community. It provides a valuable recreational space for residents, families, and motorsport enthusiasts, and it offers people of different ages a safe and structured environment to enjoy the sport. For many in the area, it is more than just a business. It is a community asset.

The karting track also contributes positively to the local economy by supporting jobs and employment. Businesses like this help sustain livelihoods, bring visitors into the area, and add to the variety of activities available in the community. Closing it would have a real impact not only on the owners and employees, but also on the wider community that benefits from its presence.

I also understand that space and parking may be concerns, but in this case, parking does not appear to be a genuine issue at Moore Park, as there are already plenty of car spaces nearby. Given that this practical concern can be managed, it seems even more important to preserve a venue that offers such clear social and economic benefits.

I believe the continued operation of Hyper Karting track would be greatly beneficial for the community. It provides enjoyment, supports employment, and makes good use of an existing local facility. I respectfully ask the Council to support this business and allow it to continue operating.

Thank you for taking the time to consider my views.

Yours sincerely,
Maggie Liang

Hello City of Sydney,

Please save Hyperkarting, there are enough car bays and car parks there.
Hyperkarting moving to a different place is not the same as it is in the convenient location, we need some good entertainment here, and hyperkarting is seriously the best the city has to offer.
Especially, when we are out in the city meeting friends, having a meal, and think about what fun to do to pass some time.
Plus, don’t shut them down, think about the 150 employees whose jobs will be at risk if they don’t plan to rebuild somewhere.
I worry about their financial burden and mental stress even now just thinking about it.
Please don’t be heartless.

Kind regards,
Kira

Good Evening,

I am writting to you on support of Hyper Karting continuation at EQ Car park. It has been an activity that integrates many of my friends and work colleagues.

We don't have access to any venues like this in the Eastern Suburbs. Not even to mention the impact it will have for EQ businesses as the cater for many of the staff and attendees.

Hope you re-consider your position and the importance to give us access to these activities.

Regards
Nicolas Tobon

To Whom it may concern

I am writing to express my strong support for the continued operation of HyperKarting at the Moore Park Entertainment Quarter.

As a frequent visitor to the precinct for various events, I regularly use the carpark and have found that their presence within the carpark has a negligible impact on overall parking availability. Even during major events, finding a space has never been an issue for me, and I believe the entertainment value they provide far outweighs the loss of a few parking bays.

Your track is one of the primary reasons I, and many others, choose to visit the Entertainment Quarter. It would be a significant loss to the community and the precinct's atmosphere if the track were forced to close.

Please keep the karting going! I stand with you in your efforts to remain open and hope to see your approval extended.

Best regards,

Jason North

To whom it may concern,

I am writing to express my concern and rejection over the recent carpark submission which will in turn close the doors of HyperKart.

This will be a huge loss for the community and the wider Sydney families. I travel with my 3 children from Western Sydney, over 40 minutes so my kids can come to this track. The only track in Sydney that is inclusive of all ages so my 3 young children can all join in.

We visited on the weekend for my sons birthday whilst the family easter show AND the sausage dog festival was on and had no issues finding parking.

Please consider the impact this will have.

Regards,
Katie

Dear City of Sydney,

As an NDIS support coordinator, I have referred so many children with disabilities to Hyper Karting. It is a place that helps to keep people engaged in their community.

I was just speaking to a young child yesterday about his strong interest in karting, and I referred him to Hyper Karting. I was shocked this morning to find out that Hyper Karting may close down to accommodate for a car park.

We urge you to consider how many people, especially children, this would disappoint and consider the smiles and joy that this place brings them.

Thank you,

Elena Zgheib

Please save this amazing venue!

My husband has has raved about hyper karting for so long and even got me into karting and I love it, the expert grip sessions have brought me so much joy and my husband has loved me coming with him as morning dates and I've loved being able to blow off steam and see my times get better and gave so much enjoyment to this 40 year old chick beating out young guys in times lol.

The taking back of this space for parking makes absolutely no sense to me as I thought the government was moving people and encouraging everyone coming to the area to sue pubic transport, so what was the point of the light rail?? The grass area has survived all these years for parking and will survive there is no need to take this space back for parking you are destroying something that brings hundreds of people to the area when there is no events on and forcing the loss of jobs to all those workers at the venue for nothing!

Save this space!!

Regards
Mel

I would like to register my objection to the decision to close Hyper Karting. In the face of clear evidence of a successful business that is not detracting from the demand for car parking in the area, the decision makes no sense.
Please feel free to publicly justify your decision beyond ‘unacceptable use of onsite car parking spaces’.

Regards

Steve Dickfos

Good morning Shannon, and whomever this may concern,

I hope you are keeping well, and that this is not too late for me to express my concerns.

As a former university student, and resident leader, at ICMS, Hyper Karting was the one thing that Students loved and looked forward to each trimester. The opportunity to compete against their floormates (and in some cases, other floors) to obtain the fastest times and college bragging rights is something that cannot be understated.

In Manly, we have a semi-decent nightlife with the Ivanhoe Hotel and Hotel Steyne, but outside of drinking at bars, there isn't a lot of nightlife activity. While most people would take a ferry across to Circular Quay for their nightlife method of choice, there isn't another venue quite like Hyper Karting (believe me, I've spent hours looking for cheap quotes in accessible locations).

For a generation that has an increased number of people that choose not to drink alcohol, don't want to spend their nights in the clubs, and care about the environment, electric karting is one of the most ideal outlets for the university students. With this, and the multitude of options to contribute to the economy, such as going out drinking at El Caminos, eating wings at Winghaus, experiencing the Australian staple of Harry's Cafe de Wheels, watching a movie at Palace Cinemas, or heading into the bowling alley at Strike Bowling, Hyper Karting provides a much needed reason for Manly students to head into the CBD, whereas they can get a wide variety of the additional options mentioned on the North Shore without having to catch the ferry over.

Ultimately, I fear for the closure of Hyper Karting. In an era where people are concerned about the Nightlife in the Sydney CBD, closing Hyper Karting will damage the efforts to improve nightlife with the public wanting unique and fun attractions to serve as social catalysts.

I thank you for your time in reading this concern, and outreach of support for Hyper Karting, and I hope you consider saving one of the few unique nightlife attractions that Sydney has to offer.

Kind regards,

Corey Bate

I have been going to Hyper Karting for the last 3 years with some of my best friends. It's been a place where we go to have fun, beat our previous records and compete with others on the track.

An empty carpark is not a place to enjoy. There is plenty of parking at this venue even on a busy day. If Hyper Karting closes just to have more unnecessary car spaces, there will be no place to go and have a great time with friends like Hyper Karting, not to mention jobs being lost to this.

Keep Hyper Karting open.

To Whom It May Concern,

I write to express my strong opposition to the City of Sydney's decision to deny Hyper Karting's application for an operating extension at the Moore Park Entertainment Quarter.

I have been a regular patron since Hyper Karting opened during the COVID period and have experienced firsthand the value it brings to the precinct. It operates seven days a week, attracts over 500,000 visitors, supports more than 150 jobs, and is by far the most activated daily destination in the Entertainment Quarter. To replace it with largely empty car parking — at a time when NSW Government is actively trying to revitalise Sydney's entertainment economy — is a poor trade-off for the community.

The council's stated rationale — that 298 spaces are needed as overflow supply declines — does not stack up against the demonstrated low utilisation of that car park during non-event periods, particularly given a new underground car park is set to open nearby. A compromise that allows continued operation with agreed parking access arrangements during major events appears entirely workable, and I urge the council to pursue it.

I respectfully request that the council reconsider its decision, grant the extension, and engage constructively with the operators on a long-term solution.

Yours sincerely,

Frank Danieli

Hi,

I am writing in regard to the closure of Hyper Karting at Moore Park.

I sincerely hope you will reconsider this decision, as it is a fantastic venue that people of all ages enjoy. I have personally attended many birthdays, bachelor/bachelorette parties, and social gatherings here, and it consistently provides a fun, accessible, and reasonably priced experience.

There are very few places like this that offer such a unique and engaging activity, and it plays an important role in adding vibrancy and variety to the area.

While I understand concerns regarding parking during events, Moore Park is well-connected via light rail and public transport, with additional parking options available nearby. Closing one of the area's key recreational attractions feels like a significant loss, particularly when there is a growing need for activities that are fun, inclusive, and accessible.

I strongly encourage you to reconsider this decision and take into account the value this venue brings to the community.

Kind regards,
Mallory

Hello,

I am a regular visitor to the Entertainment Quarter and frequently attend events at Allianz Stadium, the SCG, Hordern Pavilion and other restaurants and venues in the precinct. I use the Entertainment Quarter Parking when convenient but often utilise public transport links.

I am also an occasional visitor to Hyper Karting and am disappointed to learn that the centre is scheduled for closure by council. It is unclear why the council would prioritise parking spaces over the obvious benefits and utility that Hyper Karting provides to the area. The precinct is named the Entertainment Quarter and was developed to offer a diverse range of entertainment options for the community. Hyper Karting fits this role and it is illogical that a small increase in car parking is being prioritised over this proven public utility.

I do not recall City of Sydney Council being so car-centric in opposition to the needs of its residents and visitors.

Sincerely,
Hugh Taranto

Dear Council,

I am writing to support the Development Application for the continued operation of HyperKarting at the Moore Park Entertainment Quarter.

HyperKarting is a valuable small business that adds real appeal to the precinct. It attracts people to Moore Park who might not otherwise visit, increasing foot traffic and helping support the surrounding businesses. It adds variety to the Entertainment Quarter and complements existing uses rather than detracting from them.

From my experience, the business is well managed and operates responsibly, with no unreasonable impacts on the surrounding area. It provides a fun, safe activity for families, groups and visitors, and helps keep the precinct active outside of major events.

Supporting businesses like HyperKarting helps maintain a vibrant, diverse and economically sustainable precinct. Losing an attraction like this would reduce the overall draw of the Entertainment Quarter.

For these reasons, I strongly support approval of this DA.

Kind regards,
Daniel

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon,

I am writing to express my strong support for retaining Hyper Karting at its current Sydney location in Moore Park. While the need for urban infrastructure like car parks is a reality of city growth, it should not come at the expense of unique, world-class entertainment venues that define our city's culture.

Hyper Karting is more than just a racetrack; it is a significant draw for both locals and tourists, providing a high-tech, accessible, and sustainable form of recreation. Replacing such a vibrant hub with a traditional car park would be a step backward for Sydney's "liveable city" goals.

Why Hyper Karting Matters

- Unique Tourism & Economy: It is a destination venue that brings foot traffic to the surrounding area, supporting nearby small businesses and cafes.
- Sustainable Innovation: As an all-electric karting facility, it aligns with Sydney's shift toward greener technology and carbon-neutral entertainment.
- Community Space: It provides a vital outlet for social connection, team-building, and youth engagement in a safe, controlled environment.

A "Best of Both Worlds" Approach

Instead of a binary choice between recreation and parking, I urge the planning committee to consider an integrated development strategy. Modern urban design frequently utilises mixed-use structures where:

1. Lower levels or basement tiers are dedicated to expanded parking.
2. Upper levels or rooftop spaces are preserved and optimised for entertainment venues like Hyper Karting.

By building for both, we can address the logistical needs of the city without stripping away the experiences that make living in Sydney worthwhile. We should be densifying our utility, not replacing our community assets.

I hope you will consider the long-term value of keeping Hyper Karting as a permanent fixture of our city's landscape.

Sincerely,

Jessica Wong

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Council,

I'm writing to show my support for the Development Application for HyperKarting at the Moore Park Entertainment Quarter.

HyperKarting brings something genuinely enjoyable and unique to the area. It attracts people who might not otherwise visit Moore Park, helping to boost foot traffic and support nearby businesses. It adds variety to the precinct and fits in well alongside existing attractions.

From what I've seen, the business is well run and operates responsibly, without causing any unreasonable disruption. It's a fun and safe activity for families, friends, and visitors, and it helps keep the area lively even when there aren't major events on.

Businesses like this play an important role in keeping the precinct vibrant and appealing. Losing HyperKarting would take away from what makes the Entertainment Quarter a destination.

I strongly support approval of this application.

Kind regards,
Nicholas Mooney

I'm writing to sincerely ask that you reconsider the decision to close Hyper Karting to make way for a car park.

Hyper Karting isn't just a facility, it's a place where people come together, create memories, and find joy in something unique. Losing it would mean losing a space that brings excitement and connection to so many in the community.

I understand the need for development, but I hope you'll consider the emotional and social value this place holds before making a final decision.

Thank you for your time and consideration.

I strongly encourage you to reconsider closing the hyper karting venue.

This isn't just a recreational space-it's a valuable community asset. It brings consistent foot traffic to the area, supports local jobs, and attracts visitors who also spend at nearby businesses. Spaces like this contribute to a more active, vibrant local economy and help make the area more appealing to residents and visitors alike.

Replacing it with a parking lot may offer short-term convenience, but it removes a unique attraction that delivers ongoing social and economic benefits. Exploring alternative parking solutions would allow the community to retain this asset while still addressing infrastructure needs.

Keeping the venue aligns with long-term growth, community wellbeing, and local economic activity.

Dear Lord Mayor,

My family lives in the city of Sydney and my son goes to the Hyper Karting venue at Moore Park often. He meets his friends there for racing and they then get something to eat in the adjoining shops. It has become an important part of his social life and free time.

I understand that it is being removed because of the car parking spaces it uses. I appreciate and have experienced parking problems at times (though not very often). However, this is not a legitimate reason for Council to deprive the community of this popular venue. Moore Park enjoys good access to bike lanes, buses and light rail.

Council's position to close down a valued entertainment venue because of car parking is fundamentally at odds and totally inconsistent with its vision for the city and the Mayor's sustainability agenda. It should be reversed.

Dear Shannon,

Hyperkarting should not be forced out of their current location.

Just wait until the new carpark next to the NRL building is completed.

People will still come to the footy. They will get there somehow.
Keep using the grass. It will grow back.

Taking away a business that provides so many jobs is just silly, for the sake of some parking spaces in a carpark that is rarely full.

I work for broadcast companies on NRL and AFL at Moore park and yes, I arrive before the crowds and leave after them, but there are spaces on level 2 when I'm parking at 11am on game day. I work on corporate and entertainment events at the Hordern, and again, I've never had to park above Hyperkarting or on the roof.

There just isn't that much normal sustained, daily demand for parking at the entertainment quarter that should justify closing a business.

It's one of the few activities that's adding to the night time economy in that area that isn't just, a restaurant, bar or movies.

I'd love to see Hyperkarting stay there and continue to provide a fun activity for all ages.

Thanks for your consideration,
Jack.

Hi,

I am beyond appalled at the decision to close Hyperkarting and the lack of consultation surrounding the decision.

Hyperkarting is a world-class attraction in a city that has a dearth of such man-made attractions. It's the highlight of a desperately poor Entertainment Quarter, it employs a significant number of people and has a great many customers going to it day and night.

To revert it to a barely used car parking space is a repugnant decision that flies in the face of everything the council itself has been publicly saying about bringing back entertainment, using under-utilised spaces for entertainment, increasing the number of jobs and reducing the number of cars on the road.

Anyone who has used that car park will know it's barely fit for purpose on the rare occasions that it might actually be useful – the access road is completely rammed when traffic is heavy because of nearby events and requires police to intervene on every occasion.

With the success of the light rail and forthcoming large local car park, there's not a single reason that withstands scrutiny for Hyperkarting's closure.

Even having this $30,000 review is an acute waste of taxpayer money and begs questions of what on earth is going on at the council and its planning committees.

Following through with closure would mean everything the council has been saying about reinvigorating Sydney and creating jobs (now and in the future) would be rendered a lie, so this won't go away.

Please stop the madness and stop the closure of Hyperkarting immediately as enough stress, time, money and effort has been wasted on making this ridiculous decision already.

Kind regards,

Nick Ross

Dear to whom may be of concern,

I am reaching out to voice my opinion on the subject of closing Hyper Karting for more car spaces

I have been with Hyper Karting for a few years, coming up to the 4th Year.

This small business venue has brought through so many visitors from across the world and brought the community together, making a lot of friends along the way, strengthening the community.

Many countless jobs are on the line, over 150+ jobs will be lost, just for the sake of more car spots?

How can you justify, closing a small business in the name of more car spaces? The Wilson's car park is barely at full capacity.

Will you personally help all 150+ employees find a new job? Myself included.

I thought you guys were all for supporting small businesses?

Freeing up 290+ car spaces and the car park not being at full capacity on event days is ludicrous.

I personally hope you read through all the submissions and listen to us, the community.

Save Hyper Karting!

Hello Shannon,

I think you need to revalue do we need parking when there isn't a lot of people using the carpark.

We need to allow HyperKarting facilities to stay where they are as it is easy access for everyone to come and get some food, enjoy the surroundings and have fun having a game or party with Hyperkart.

My kids and their friends enjoy coming and racing on the Mario track.

Rethink what you want to do as everyone needs fun and to let of steam in a race.

Dear Council Members,

I am writing to express my concern regarding the decision to close the local go-karting facility Hyper Karting. This venue is more than just an entertainment space—it plays an important role in our community, local economy, and youth engagement.

Hyper Karting attracts a significant number of visitors each year, with reports indicating over 500,000 people attend annually.This level of attendance demonstrates how valuable and popular the venue is, not only for residents but also for tourism in the area. Closing such a high-traffic attraction would have a negative impact on local businesses, employment opportunities, and the overall vibrancy of the precinct.

One of the main reasons cited for closure appears to be related to parking concerns. However, available data shows that the car park has not reached full capacity since 2022, suggesting that the current usage is manageable and not as critical as initially believed. Additionally, with plans for new parking infrastructure nearby, future capacity issues are likely to be further reduced rather than worsened.

Beyond the economic and logistical factors, hyper karting provides a safe and controlled environment for motorsport enthusiasts especially young people to enjoy racing. It offers a constructive outlet that promotes skill development, social interaction, and community engagement in a supervised setting.

Closing this facility would not only remove a major attraction but also take away opportunities for jobs, recreation, and community connection. Instead of shutting it down, I strongly encourage the council to explore alternative solutions, such as revised parking management strategies or operational adjustments, that would allow the venue to continue operating.

I respectfully ask that the council reconsider this decision and take into account the overwhelming community support, the economic contributions, and the manageable nature of the concerns raised.

Thank you for your time and consideration.

Kind regards,
Ayden Littlechild

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon,

I am writing to formally express my strong support for the retention of**HyperKarting at Moore Park** and to oppose any proposal that would see this facility removed or reclaimed for use as a car park.

HyperKarting provides a **unique recreational, sporting and community asset** within Moore Park that cannot be easily replicated elsewhere. It offers accessible motorsport-style activity for a wide range of users, including young people, families, corporate groups and individuals. Its presence contributes positively to the**diversity of activities** available within the parklands and supports Moore Park's role as a vibrant, multi-use precinct.

The facility also delivers **economic and social benefits**. HyperKarting supports local employment, attracts visitors to the area, and drives foot traffic to nearby venues and businesses. Removing an established, well-utilised attraction in favour of additional parking represents a missed opportunity to prioritise community engagement, recreation and active participation over static vehicle storage.

Importantly, reclaiming this space for car parking runs counter to broader objectives around**reducing car dependency**, encouraging public and active transport, and preserving green and recreational spaces for community use. Moore Park already accommodates significant parking capacity during major events; the permanent loss of a recreational facility in exchange for parking sets a concerning precedent for how public land is valued and used.

HyperKarting has demonstrated that it can **co-exist with surrounding uses**, operate safely and responsibly, and contribute to the character of the precinct. Its removal would disproportionately impact users who rely on affordable, inclusive recreational activities and would diminish the overall offering of Moore Park as a destination for more than just event-based vehicle access.

We use it each year as a reward for high performing staff and ask you to respect this tradition.

For these reasons, I respectfully urge you to:

- Retain HyperKarting at its current location
- Explore alternative solutions to parking demand that do not displace existing community infrastructure
- Recognise the long-term social, recreational and economic value of facilities like HyperKarting within Moore Park

T
hank you for considering this submission. I would welcome the opportunity to see Moore Park continue to evolve as a space that prioritises**people, participation and community benefit**, rather than further expansion of car parking.
Yours sincerely,

Helen Yardley

To whom it may concern,

Save Hypercarting!

I'm writing to ask you to reconsider any decision that would shut down Hyper Karting at the Entertainment Quarter.

This is a family-owned business with over 150 employees and a loyal, growing customer base, the kind of place that actually brings life to an area.

What Andrew Richardson has built there is remarkable. The Entertainment Quarter was dormant before Hyper Karting came along, and it's not an exaggeration to say he helped turn it around.

And what's the reason it might be shut down? Car parking. In a city that is actively funding and promoting public transport. A business that uses electric go-karts and has gone out of its way to keep noise levels down so it can keep its doors open at night being threatened over car parks.

These are real jobs, real families, and a venue that people genuinely love. It would be a shame to lose all of that over something so easily worked around.

Regards,
Grace

Hyper Karting is the best gokarting venue there is - and brings so much attention and buisness to the EQ area that it's ridiculous that its being attempted to shut down. I had not even heard of the area or been before hyperkarting but am now a regular. It's such a good use of the space and I've never seen the carpark fully used up even on event days.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Councillors,

I am writing to you as a concerned member of the Sydney community to express my strong opposition to the proposed closure of**Hyper Karting** in Moore Park and the subsequent plan to revert the space into additional car parking.

While I understand the complexities of urban planning, removing a thriving, innovative business in favor of stationary vehicles feels like a significant step backward for the Moore Park precinct. I urge the Council to reconsider this decision based on the following impacts:

- **Significant Job Loss:** Hyper Karting employs a large team of young, energetic locals. In the current economic climate, removing dozens of jobs to make room for empty cars is counterproductive to the City's goal of supporting local employment.
- **Impact on Local Ecosystem:** Hyper Karting is a "destination" business. It draws thousands of visitors to the Moore Park area who then spend money at surrounding restaurants, cafes, and retail outlets. Closing this venue will result in a measurable "trickle-down" loss for neighboring small businesses. I know this because I often have dinner at Watsons EQ or Mary's Pizza after a karting session with my friends.
- **Loss of Diverse Recreation:** Sydney needs more high-quality, all-weather recreational activities. As an**electric** karting venue, Hyper Karting provides a sustainable, low-noise, and modern entertainment option that aligns with Sydney's vision for a future-facing city. It is also a valuable alcohol-free activity that gives people a fun alternative to going out drinking.
- **Underutilization of Space:** Reverting a converted, productive commercial floor back into a car park is a poor use of urban space. We should be prioritizing people and activity over more traffic.

The Moore Park precinct is at its best when it is vibrant and full of life. Hyper Karting contributes to that vibrancy

every day. I ask that the Council works with the business to find a solution that allows them to remain operational, rather than prioritizing additional car spots that offer zero cultural or economic growth to our city.

I look forward to hearing how the City of Sydney plans to support local businesses and preserve the active spirit of Moore Park.

Sincerely,

Greg Beaumont

To Hon Clover Moore AO - Lord Mayor of Sydney, and Shannon Rickersey - City of Sydney Council,

I'm a City of Sydney resident who first went to Hyper Karting for a bucks party a few years ago. Since then, I've been back several times and more importantly I've taken groups, gone with other groups, on a date night and been to both of their venues within the Entertainment Quarter.
The venue has provided me, and others, a space to be able to go and experience some good quality, all weather and safe entertainment close to the CBD. In fact looking online, it seems that the closest go karting is Play Spitfire, Concord West - not close.

While thinking about this email, there were 100 things I wanted to say, but I'll try keep it under just a few topics.

CBD Entertainment
This venue is one of the few affordable things that anyone can do close to the CBD, and somewhere that younger people love to go.

- While Museums and Libraries are exciting, they are really a once and done style place, and not really a 17 year old's birthday party venue.
- Madame Tussauds and Sea Life are $49 & $55 per adult placing a family day out in the higher price range - and again are a one and done venue.
- Luna Park, outside your council area, if I was to book this week, it has an average adult price of $62 for their park pass.

Hyper Karting's races start at $24 with the average 'day' price of $29, and the track changes every few days allowing you to go back and experience something different nearly every time.

Sustainability
Hyper Karting is a 100% electric go-karting experience. With the cost of fuel these days, temporary or not, other venues like Play Spitfire are going to have to either increase their prices massively or go under.
This will further reduce the accessibility of these venues, and your 218,096 (June 2022) residents will also need to make the long trip to access these services, again making the day out rather expensive.
Every council wants to be working towards ZERO emissions, and right now, the City of Sydney has this advantage over others by being able to call Sydney the Home of Electric GoKarting.

The Entertainment Quarter (EQ)

This is probably my biggest one, and it doesn't actually have anything to do with Hyper Karting.
The EQ is in a weird spot where there are always heaps of venues there, food and otherwise, but honestly - I already have 3 cinemas really close to me. I've got arcades, darts, and everything I need living in the heart of the CBD.
There would be absolutely no reason for me to venture to EQ if Hyper Karting wasn't there, and I would argue that there are many others in the same situation.
This would have a serious impact on all other venues in the EQ with the reduced attendance.

My first venture to HyperKarting was with a bucks party (~25 people) and after HyperKarting we went to Strike Bowling, and to laser in the same venue. We then went and ate at El Camino Cantina and ventured to another 2 venues for drinks before heading off.
I would also argue that a high percentage of people that attend this venue would also stay to spend money at other EQ businesses for lunch, dinner or a drink before or after.
Short of HyperKarting, there is no reason for me to go to EQ, meaning that other businesses in the EQ loose out as well.

Lord Mayor, Clover Moore
This proposal was rejected, in part, because the proposal is "**not in the public interest**". I challenge you to provide reasons as to how it isn't.
On the 19 March 2025, when discussing the draft Entertainment Sound Management Development Control Plan, you said Sydney needs "**a nightlife we can be proud of**" and said the proposed reforms would make it easier for venues to trade later and create "**new, fun and affordable options**" for people going out at night.
Then in March 2026, you said the community had asked council to let some areas "trade even later" and that **council had listened**.
While these are not directly related to HyperKarting and this DA, this only strengthens the argument that people in your electorate are wanting entertainment venues that are **fun** and **affordable**. Given my cost examples earlier - HyperKarting meets all these objectives.
Reviews online state "**LOVE this place! A great experience for people of all ages.**" and "**We loved our experience at Hyper Karting! If you want a great family experience and love to go fast, this is the venue for you!**"
How can you let a unique experience that's already in the council area slip by? What value do you attach to attracting these businesses to operate in the council area? What is going to replace the hole in the market their loss will create?
How will you bring 500,000 people to the entertainment quarter in the next 12 months to replace the people that wont attend because Hyper Karting wont be there?

Cars & Parking
Over the last 10 years, the council has done an amazing job of removing cars from the CBD. Every year more and more roads have had a lane removed, are closed to traffic or another measure to reduce traffic implemented.
The idea of 'adding more car parking' to an already empty car park is just ridiculous. The council should be prioritising rideshare services and public transport to the venue. Build a large pick up/drop off bay in that u turn area for this.
Lastly, the price of fuel means people are going to be using their cars less and less.

The long and short of this is the loss of Hyper Karting to the area would have a direct impact on all the other venues in the EQ, would mean that I have one less place to take interstate and overseas travelers to and means I would loose the ability to go Go-Karting close by.

Please reconsider your decision and extend their lease. At a minimum, give them another year and do your due diligence with surveys to patrons about their other spending and travel habits within all EQ venues.
It's not like they will be replaced with another attraction, they will be replaced with car parks - something that doesn't attract any further patrons to the EQ complex.

Thanks

Jay Antoney

Dear Decision Maker,

I am reaching out today because I care deeply about Hyper Karting, and I am genuinely worried about what its closure would mean for so many people — including me.

Some of my most memorable moments have happened at Hyper Karting. It's where I've celebrated milestones, laughed with friends, and created experiences that I will carry with me for years to come. There is simply no other venue in the area that offers what Hyper Karting does.

Beyond the personal memories, I think about the 150+ people who rely on Hyper Karting for their livelihoods. These are members of our community — our neighbours — who could lose their jobs so that a car park can be expanded by fewer than 300 spaces. That trade-off is impossible to justify.

Hyper Karting brings people together. It supports local employment, drives foot traffic to the surrounding area, and gives our community somewhere truly special to gather and have fun. Losing it would leave a gap that no car park could ever fill.

I sincerely hope you will stand with the community and do everything in your power to keep Hyper Karting open. Please don't let this incredible venue disappear.

With respect and hope,
Ryan Allen

To whom it may concern:

I'm writing about the decision that could force Hyper Karting at Moore Park to close.

Honestly, this is unbelievably frustrating. Sydney already doesn't have a huge amount going on in terms of activities that aren't just food or bars, and Hyper Karting is one of the few places that's actually different and fun. Getting rid of it over a parking issue feels completely out of touch, especially considering the parking lot is not fit for purpose anyways, with completely dysfunctional entry/exit points. Adding 300 more spots would only serve to worsen the problem.

From what I've seen, parking there has never actually been a real problem. It just seems like a technical reason being used to shut down something that a lot of people clearly enjoy and use.

It's hard to understand why something popular, safe, and employing people is being pushed out instead of finding a reasonable compromise. Decisions like this make it feel like Sydney is actively losing the few interesting things it has.

I strongly urge you to rethink this or work out a solution that lets it stay open.

Thanks.

To Whom It May Concern,

I am writing to express my deep concern and extreme disappointment regarding the decision not to renew the Hyper Karting venue.

This isn't just about a business closing, it's about the loss of something that has genuinely brought people together. Hyper Karting has been more than just a recreational facility; it has been a place where friendships are strengthened, families bond, and unforgettable memories are created. Personally, I have spent countless hours there with friends and loved ones, and it has always been a vibrant, welcoming space filled with energy and community spirit.

The reasoning behind reclaiming the car park level raises serious concerns. Every time I've visited the venue, finding parking has never been an issue. There have always been more than ample spaces available, which makes this decision feel disconnected from the actual usage and needs of the area. Removing a thriving community hub for additional parking, when parking is not evidently lacking, seems like a step in the wrong direction.

Even more concerning is the impact this decision will have on the people behind the venue. Over 150 jobs are now at risk of being lost. These are real individuals, employees who rely on this workplace for their livelihood. Who will take responsibility for the consequences they now face?

It is also difficult to understand why a business of this scale was permitted to establish itself in the first place if there was no long-term intention to support its continuation. Businesses cannot simply "pack up and move" overnight. They invest time, money, and trust into their location, expecting a degree of stability and fairness.

Hyper Karting is not just occupying space, it is adding value to the community. Its removal would leave a noticeable gap, not just economically, but socially.

I strongly urge the Council to reconsider this decision and explore alternatives that allow both the venue and parking needs to coexist. Preserving a place that brings so much joy, employment, and community engagement should be a priority.

Thank you for taking the time to consider this perspective.

Kind Regards,

Dipro

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

I am writing to object to the proposed closure of Hyper Parking at Moore Park.

We live locally and Hyper Karting is one of the few affordable and enjoyable activities for young people in the area. Our son enjoys it enormously and will be upset if / when he finds out that he will no longer be able to go.

The proposed reason for the closure (ie that the Entertainment Quarter needs more parking) makes no sense to me. Apart from the fact that I have never had a problem parking there, it is bizarre that being able to park trumps actually having entertaining activities to do once you've parked.
Furthermore, aren't you supposed to be encouraging people to use their cars less and use public transport instead? The easier it is to park the more people will use their cars - how does that make sense?
You also certainly haven't cared about parking at other public facilities (Guanyama Acquatic Centre being one recent example) so why the sudden concern about Moore Park?

My suspicion is that this isn't about lack of parking at all and there is some other reason that will no doubt become apparent if the closure goes ahead - if it was 'the revenue generated from parking' I might believe it.

Please reconsider this decision and allow Hyper Karting to continue to operate.

Yours sincerely, Simon Williams

Dear Council,

I am writing to express my strong support for the Development Application to allow HyperKarting at Moore Park Entertainment Quarter to continue operating.

HyperKarting is an outstanding business and a highly valued attraction for many people. My sons have visited numerous times and are always eager to return. The staff are exceptional, and the business as a whole contributes significantly to Moore Park by attracting visitors who also support surrounding businesses.

HyperKarting plays an important role within the Entertainment Quarter, and its contribution to the vibrancy and appeal of Moore Park is invaluable.

For these reasons, I strongly support the ongoing operation of HyperKarting and the approval of this Development Application.

Kind regards,
Margot Mooney

I am writing to state my objection to closing Hyperkarting in the entertainment quarter.
It is a place where my 17 year old son and his friends - kids who are not involved in typical group sports - have been able to enjoy some healthy fun and competition. It is easy for them to get to and is one of the few spots around the eastern suburbs where they can really let their hair down in a safe, alcohol free establishment

To whom it may concern,

My name is Alexander Patruno and I am writing to let you know why you should keep Hyper Karting Moore Park open.

1. This place took me in as my first ever job back in 2024 and has helped me grow as a person, it has improved my communication and teamwork skills as well as it has been my home away from home, a place that I find myself more than my bed. It has created me new friends and connections and all round improved my self as a person.

2. Secondly I found myself there most evenings even when I am not working to race, I race my friends and family when I have free time, this improved my concentration and I believe Has made me a safer driver on the road, As I was driving the go karts before I could even drive my car. I have had kids who are too young to drive improve between tracks starting as young at 2 and have grown up between the tracks and are now as fast as I am.

3. Finally Life without Hyper Karting would be for the worst, its the only go kart track in the area, you have to travel further out from this region to go go karting and its even harder to find an electric track (That is helping the environment) and is indoors, so it operates Rain, Hail or Shine making it the perfect spot for the go kart track.

I personally believe this is the best thing to come to Sydney in the last few years and I believe it would be a shame to get rid of it.

Thanks
Alexander Patruno

Dear Ms Rickersey,

I support the development application **RD/2023/897/A** for the following reasons.

I write on behalf of **Business Sydney**, the peak business organisation representing employers across metropolitan Sydney, to express strong support for the continuation and extension of **Hyper Karting's operations at the Entertainment Quarter, Moore Park**.

A proven Sydney business success story

Hyper Karting has become **one of the most successful and popular attractions within the Entertainment Quarter**. It is not an experimental or untested use; it is a proven operation with strong demand and a clear customer base.

Importantly, Hyper Karting has grown to become **the largest go-kart track in the southern hemisphere** and is recognised as being **among the top ten go-kart facilities globally**. This is a significant achievement for a Sydney-based business and speaks to the quality, scale, and professionalism of the operation.

In a highly competitive global visitor economy, these are exactly the kinds of unique, destination-level attractions Sydney should be working to retain and support.

Supporting jobs, enterprise and economic activity

Hyper Karting directly supports:

- Ongoing **employment opportunities**, particularly for young people in customer service, operations, and technical roles
- **Visitor expenditure** at the wider Entertainment Quarter, benefitting neighbouring hospitality, retail, and entertainment businesses
- Sydney's broader **night-time and experience-based economy**, which is essential to post-pandemic recovery and resilience

Businesses do not thrive in isolation. Successful attractions create a multiplier effect across precincts. Hyper Karting draws people into Moore Park who then spend time and money across the precinct, strengthening its commercial viability and appeal. From a business perspective, discontinuing or constraining a successful operation sends the wrong signal to investors and entrepreneurs considering Sydney as a place to do business.

A vibrant city requires more than offices and car parks

Sydney competes globally for talent, investment and visitors. That competition is not won through office floorspace alone, nor through an over-allocation of land to car parking.

Business Sydney strongly believes that **car parking provision should not be prioritised at the expense of jobs, entertainment uses and successful commercial operations**, particularly in well-located inner-city precincts with access to public transport.

Hyper Karting contributes to the **diversity of uses** that make Sydney an attractive place to live, work and visit. Removing or constraining such uses risks hollowing out precisely the kind of activity that differentiates Sydney from less dynamic cities.

Contributing to Sydney's culture and identity

Beyond its economic contribution, Hyper Karting has become part of Sydney's contemporary urban culture. It offers a unique recreational experience that appeals to families, corporate groups, tourists, and locals alike.

This kind of attraction:

- Broadens Sydney's leisure offering beyond traditional formats.
- Encourages repeat visitation to the Entertainment Quarter; and,
- Reinforces Sydney's image as a city that embraces innovation, sport, and active recreation.

Cities that thrive are cities that allow successful cultural and entertainment uses to evolve and continue, particularly when impacts are managed and benefits are clear.

Conclusion

From a business and economic perspective, **there is a strong case to support the continuation of Hyper Karting's operations at Moore Park**.

Hyper Karting is:

- A proven commercial success.

- A major employer and economic contributor.
- A destination-attraction of international standing; and,
- A positive addition to Sydney's cultural and entertainment landscape.

Business Sydney urges the City of Sydney to give significant weight to these outcomes when reviewing this application, and to support a planning outcome that enables Hyper Karting to continue contributing to Sydney's vibrancy, employment base, and global reputation.

Sydney is strongest when it backs successful businesses that create jobs, attract visitors, and add life to the city. Hyper Karting does exactly that.

Thank you for considering the above and please note that I am happy to meet to discuss this matter further if required..

Warm regards

Paul Nicolaou

Hi,

It would be insanity to close this place.

Sydney has a dearth of things like this. When I think of an event like a birthday or a corporate thing or just some friends, this place is one of the first that pops into my mind.

It's fun, safe very importantly it's accessible. Both accessible in terms of where it is and in terms of how people who might not normally be comfortable with something like go karts can be eased into it.

Genuinely it is an extremely unique place. The conversation should be about how MORE of these sorts of innovative establishments can exist in Sydney. I was frankly flabbergasted to hear it was not going to be DA approved. For what? More car parks? In an area people should be getting public transport from anyway?

If this closes, people will say "well isn't that just the most Sydney thing you've ever heard". That's how jaded people are about the record on approvals and licences for these sorts of places. You have the opportunity to go against our decaying, if not already decayed entertainment culture in this city.

Please, please reconsider.

Kind regards,
Max Oke

My kids love this place.

I do too.

I don't purport to understand your complex decision making process but if you're genuinely interested in community views, I say please keep letting this place operate.

We don't have another similar space to go to.

Please reach out if you wish to discuss this further but I don't believe shutting down hyper Karts is any one's best interest.

It is also a very safe space for women and girls to participate in. A great social and gathering place. My daughter celebrated her 20th birthday there with 9 other friends and the girls had a blast.

Kindly,
Alicia Leise

To whom it may concern,
Please take this email as a submission to keep the hyper karting venue. It provides a great place for my kids and I to do this type of event without having to go 1.5 hrs west. Additionally it's super convenient in the parking complex, is a good use of this space and compliments the surrounding venues. It actually makes us spend time afterwards in the entertainment quarter that we otherwise wouldn't.

Kind regards,
Robert Palin

Hi council,

I am writing to you today to express my deep concern and strong opposition to the impending closure of Hyper Karting. I understand that the venue is slated to be shut down as early as tomorrow to be replaced by additional parking spaces.

Hyper Karting is a beloved entertainment venue and a vibrant hub for our community. It provides a unique, fun, and safe environment for people of all ages to gather, socialize, and enjoy an activity that you simply cannot find anywhere else in the area.

Replacing a thriving, joy-bringing local business with a parking lot would be a significant loss for the community. While I understand the logistical need for parking, the current situation shows us that the current parking if enough as we had 70-90 spots empty even when there was game night and other events.

I strongly urge you to reconsider this decision, halt the closure, and explore alternative solutions for the parking requirements that do not involve destroying Hyper Karting. Please stand with the community and help us keep this fantastic venue open.

Sincerely,

Shubham

Hi Ms. Rickersey and Sydney council,

I am writing to formally express my support for **Hyper Karting** and to urge the Council to re-evaluate their stance and allow this venue to remain open. As a significant drawcard for both locals and visitors, Hyper Karting plays a vital role in the vibrancy of the Entertainment Quarter.

I believe the following points merit serious consideration:

- **Optimal Land Use:** One of the primary arguments for closure involves reclaiming car parking spaces. However, the current parking capacity within the precinct is more than sufficient for existing demand, even on intense event days. Removing a high-value recreational facility to free up unneeded parking spaces would be a counterproductive use of the area's infrastructure. This is particularly the case as a new cark park will be opening nearby in a year with over 1000 new spots. Making the 100 or so spaces taken up by Hyper Karting seem like pocket change.
- **Economic Synergy:** Hyper Karting acts as a major asset within the Entertainment Quarter. It consistently draws large groups, families, and corporate events to the precinct. These visitors don't just visit the track; they provide essential foot traffic for surrounding cafes, restaurants, and retail businesses that rely on the EQ being a multi-destination hub.
- **A Unique Sydney Destination:** In a city that is constantly evolving, Hyper Karting has established itself as a premier, accessible, and fun destination. It provides a healthy, social activity that appeals to a diverse demographic, contributing significantly to Sydney's night-time economy and weekend tourism.

The loss of Hyper Karting would leave a significant void in the Entertainment Quarter, potentially leading to a decline in patronage for neighboring businesses. I strongly encourage the Council to revisit their previous decision and allow the continued operation of this venue, ensuring the EQ remains a premier destination for recreation and entertainment.

Many thanjs,

Zoe Richard

Dear Members of the Council,

I am writing to express my urgent request that the council reconsider the proposed closure of Hyper Karting at Moore Park.

As a regular customer, I wish to highlight the significant impact this closure would have on our local community:

Employment: They currently employ over 150 residents who would face immediate job loss.

Community Resources: Hyper Karting is one of the biggest entertainment businesses in the area and use to provide fun for the community, including people that comes all over Sydney to enjoy a safe, fun environment with friends and family, celebrating birthdays and company's events.

We ask that the council explore alternative solutions for parking spaces, once the business has also invested a massive financial resource to maintain a high standard of service provided to their clients.

Kind Regards,
Ramon Pessoa

Don't take away HyperKarting! People will figure out where to park. There aren't enough places like HyperKarting and it certainly is a drawcard for our family to come in from the Central Coast, stay at nearby accomodation, eat at restaurants and spend $ in Sydney.

It's such a fab place for people to find employment as well, and we can't say enough about how it's run, how great the staff have been and how much fun our kids have had there.

We want to go back again and again. Don't take it away!

Dear Shannon,

I would like to express my support for the continued operation of Hyper Karting.

As a local resident, I have watched Hyper Karting not only become a valuable part of the EQ precinct, but bring it back to life. This space has helped bring so many people and businesses into the area while also creating a more active and engaging environment for visitors.

From what I've seen and heard, existing parking within the precinct does not seem to be reaching complete capacity, even during major events. With the new stadium car park being built, it is difficult to see the need to shut down an established, high-performing and popular business. Prioritising more car parking over this existing business doesn’t match the actual demand.

Hyper Karting also contributes heavily to local employment and provides a unique experience that benefits the wider community. Removing this offering in favour of more parking will reduce the overall appeal and use of the area. You'd be taking the main entertainment out of the Entertainment Quarter. You simply cannot claim to want to keep Sydney nightlife alive and then remove a venue that plays an active role in driving it! Hyper Karting consistently brings people into the area and supports the EQs vibrancy.

I respectfully ask that Council reconsider its position and allow Hyper Karting to continue operating.

Please save hypercarting we use it for work team building events and for the kids parties

Otherwise it's an hour drive to the other decent ones

Also save Moore Park golf and kick out one of the private golf clubs only the wealthy elite of Sydney can afford to use if you want more green space

Regards
Matt

To the City of Sydney,

Do not close Hyper Karting in Moore Park. For too long, councils like you have refused to listen to the people. Well this is one we will not stand for. Nobody has asked for more parking, and you intend to destroy a beloved community spot for such a ridiculous reason. How about build another carpark somewhere around EQ, rather than be so cheap and throw out a small business, heartbreaking both to them and to us. Don’t do it, Moore Park is for the FANS, not you council members sitting in your offices pretending to understand what the common people want and trying to tell us what we need.

Good evening,

I am writing to express my strong opposition to any decision that would result in Hyper Karting being closed to restore parking spaces.

While the site in Moore Park is currently located inside the car park, and may take a level of the parking spaces within Entertainment Quarter, Hyper Karting has clearly become much more than that. It is an active business, a community venue, and a source of employment for a significant number of people. Closing it down would not simply return a 'few parking spaces'. It would remove a place that brings people together and negatively affect the many workers and families who rely on it.

Hyper Karting contributes real social and economic value to the local community. It provides recreation, entertainment, and a space where people of all ages can connect. Venues like this are important to community life in Sydney, particularly when they offer safe, enjoyable activities for families, friends, and young people. With Formula 1 coming to Australia each year, public interest in the sport is only increasing, and Hyper Karting provides an accessible way for people in Sydney to engage with that interest firsthand, including younger children.

Although there are other karting venues, Hyper Karting holds particular value because of its location. There are very few, if any, comparable karting facilities within the city area, making it a unique and convenient destination for residents and visitors alike. Its central location is part of what makes it such an important community asset.

It is also deeply concerning that more than 150 staff may lose their jobs if the venue is forced to close. The impact of this would extend far beyond the site itself, affecting employees, their families, and the broader local economy.

I respectfully urge the City of Sydney to reconsider any proposal that would shut down Hyper Karting. Its value to the community, its unique location, and the employment it provides far outweigh the benefit of restoring the area to parking. I strongly support keeping Hyper Karting open and preserving it as a community and employment asset for Sydney.

Thank you for taking the time to consider this submission.

Kind Regards,
Kristy

Dear Shannon,

My name is Alex Dillon and I'm writing to you as a former employee and customer of HyperKarting to plead you to allow its operation to continue at its current location within Moore Park.

It is an excellently run business that provides jobs to hundreds of young people all over Sydney and provides a much needed entertainment resource for the city. HyperKarting's success has given life to the Entertainment Quarter and has supported the businesses surrounding it. The shut down of HyperKarting would adversely affect the local businesses within the area that rely on the footfall HyperKarting brings to the quarter. Please consider this in any judgement.

I have seen first hand the incredible work this company puts in to provide a joyous experience to the community. It is an inspiration for local enterprise within the area and it would be nothing short of a tragedy to close the business for the sake of a few extra parking spaces.

Kind Regards,
Alex

Dear Members of the Council,

I am writing to express my urgent request that the council reconsider the proposed closure of Hyper Karting at Moore Park.

As a regular customer, I wish to highlight the significant impact this closure would have on our local community: Employment: They currently employ over 150 residents who would face immediate job loss.

Community Resources: Hyper Karting is one of the biggest entertainment businesses in the area and use to provide fun for the community, including people that comes all over Sydney to enjoy a safe, fun environment with friends and family, celebrating birthdays and company's events.

We ask that the council explore alternative solutions for parking spaces, once the business has also invested a massive financial resource to maintain a high standard of service provided to their clients.

Respectfully,

From: Finnaria Murray <[redacted] on behalf of Finnaria Murray <[redacted] <Finnaria Murray <[redacted]

Hello,

I wanted to reach out in support of Hyper Karting at the Entertainment Quarter. I've visited a number of times with friends and it's consistently one of those experiences that draws us to Moore Park area.

It offers something genuinely competitive and social that you can't really replicate anywhere else in the city. It would be a shame to lose it.

I hope the City of Sydney will do what it can to keep it in the precinct.

Warm Regards,

Finn

Dear sir,

I am writing to express my strong support for Hyperkarting and to urge the council to allow them to remain at their current location.

Hyperkarting provides excellent entertainment for the community and offers a safe, wholesome environment for people to enjoy. One of their greatest assets is staying open late, providing an outlet for innocent fun that is often lacking in the area.

Regarding concerns about space, I have noted that the carpark they utilize is never at capacity, meaning their presence does not negatively impact local parking availability. It would be a great shame to lose such a positive and engaging venue for no good reason.

I hope you will consider the value Hyperkarting brings to our community when making your decision.

Thank you for your time and for considering my feedback.

Best regards,

Tram

Dear Shannon Rickersey,

I am writing to express my support for keeping Hyper Karting open at 116 Lang Road, Moore Park (RD/2023/897/A).

Our family has a strong personal connection to this venue. Our son loves go-karting there, and the facility holds many special memories for us. It is an important recreational space for our community.

Best regards,

Pora

Dear City of Sydney,

I am writing to you in support of Hyper Karting in Moore Park. I understand that there are plans to close down Hyper Karting and convert the space into a parking lot, but I would like to join the many voices imploring you to reconsider.

Without Hyper Karting, I may have never tried out go karting (or at the very least, discovered it much later). Its accessible central location uniquely allows friends to come together from all over Sydney to enjoy something new, and activates the wider entertainment quarter as groups explore surrounding attractions and restaurants. The staff are terrific and clearly care about creating memorable experiences, innovating the track and developing game formats that facilitate social outings for friends, families, corporate groups - the list goes on.

I am also rather concerned about the local government priorities such a decision would indicate. Within the context of recent senate discussions about the value of public transport, shutting down Hyper Karting for the sake of increased parking space in the city would be resoundingly counterintuitive.

Rather than encouraging more cars onto the roads in an area well-serviced by public transport, please consider the socioeconomic value presented by allowing Hyper Karting to continue their incredible work.

Regards,
Samantha Riezenkamp

There are places you go… and then there are places that stay with you.

Hyper Karting is one of those places.

It's where stress disappears the second you put the helmet on. Where laughter echoes louder than engines, and where a simple race turns into a memory you replay for years. I've been there with friends on random nights that turned into the best nights, and with family where everyone — no matter their age — felt included, excited, and alive.

It's not just about go-karting. It's about connection. It's about having somewhere to go that isn't just another shop, another car park, or another forgettable space. It's one of the few places that actually gives people something real — joy, competition, bonding, and community.

Losing Hyper Karting wouldn't just mean losing a track. It would mean losing a space that brings people together in a way that's becoming harder and harder to find.

Cities need more than convenience — they need places that make life feel worth living.

Don't let something this special disappear.
❤

Sincerely, a grateful and loyal customer

I strongly oppose the proposed changes that would result in the closure of Hyper Karting. This venue is more than just a business — it's a community hub that brings people together, supports local jobs, and provides a unique recreational experience that cannot simply be replaced.

Removing it to add additional parking spaces that may not even be fully utilised feels short-sighted. In contrast, Hyper Karting contributes ongoing social and economic value, including employment for over 150 people and a safe, engaging environment for families, friends, and the wider community.

I urge the council to consider the long-term impact of this decision and prioritise preserving a space that actively enriches the community over a marginal increase in parking capacity.

Please protect Hyper Karting and the people it supports

Enquiry or feedback details

Describe your reason for contact	I am writing to express my disagreement, as a resident of the City of Sydney, with the recent decision to reject the application by Hyper Karting to continue operating on the top floor of the Moore Park car park. I understand the initial permission was temporary, and the area's zoning remains as a car park: However the Hyper Karting facility provides far more benefit to

	the community than an extra level of car parking would in an area very well served by public transport. The application, currently being reviewed, should be approved permanently.

Hi Shannon
While the promise of EQ years ago was bright, it has decidedly dimmed in recent years. I can't understand why council would take a viable business and close it down.
If the goal is to have plenty of free car parking - then of course you will achieve this because you will have zero people bothering to attend this dying precinct.
Hyperkarting is the only reason I travel from the Shire to EQ. I can get bowling, cinema and fast food locally.
regards
Henry

>> Dear City of Sydney,
>>
>> Please note my disappointment at your intention to shut down Hyper Karting Mike Park in favour of more car spaces.
>> Firstly your car park is not even equipped to deal with the amount of cars it already holds. I was there on Friday and took my daughter to a Pierce the Veil concert - it took an hour to get out of the car park. It is worth than leaving Sydney Olympic Park. I paid for my parking before I left then had to pay for another hour because you aren't even equipped to deal with the spaces you have during key events.
>> Secondly hyperkarting is a big draw park for Moore Park. When I have been I visit the other facilities such as dining or cinema with my family and we make a day of it. My daughter's recent 16th birthday was hyperkarting, el Camino for lunch and Hoyts luxe in the evening. Great day but without the hyperkarting more park isn't even offering anything that we can't get elsewhere.
>> Moore park is also readily accessible by public transport so finding ways to encourage this particularly with the fuel crisis makes far more sense. Hyperkarting is an electric eco friendly way for people to test their driving skills, have fun with family and friends and you want to take that away to either have empty spots sitting there, more jams in your carpark traffic after major events and to encourage people to use more petrol. Strange and disappointing choice.

Enquiry or feedback details

Describe your reason for contact	Hi City of Sydney Council I have just heard of your plans to close HYPERKARTING and I am writing to object this! That place brings sooooo much to the community. It brings people to the Entertainment Quarter, to food outlets and other entertainment venues. It supports 150 valued staff and gives them jobs! We need attractions like this in the area, the movies just isn't enough. I understand parking is important, but with todays petrol prices, everyone is light railing and using public transport. They cannot afford to drive as they are saving their money to come go kart as it keeps them happy. It supports the mental health of many. Plus there is more parking under-way at Allianz Stadium, where they have secured funding to build a multi-storey 1500 space car park which they have commenced. Please RECONSIDER your decision to deny the lease extension. Please let this wonderful place of enjoyment continue. It is such a key part of Sydney. My family attend the track fre-quently and we will be so disappointed if you close this. Kind regards, Katie

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Council,

I am writing to support and help advocate for Hyperkarting to continue to operate at the Entertainment Quarter.

Having grown up visiting the Entertainment Quarter very frequently, I have seen firsthand how vibrant and exciting it once was, filled with a wide range of entertainment options that brought people together. However, over the past two decades, the precinct has noticeably declined, and for many years it has felt underutilised and lacking the energy it once had.

Since Hyperkarting opened, this has genuinely started to change. I have personally visited multiple times since opening for staff events, social gatherings, and casual outings and each time the venue has been busy, lively, and full of people enjoying themselves. It has created a renewed sense of activity and excitement in the area, attracting a diverse range of visitors and contributing positively to the local community.

Hyperkarting is not just a business, it is a key driver in revitalising the Entertainment Quarter. It encourages people to return to the precinct, supports surrounding businesses, and provides a unique and engaging experience that is difficult to replace. It has personally been the only reason I have returned.

Removing such a valuable attraction in favour of additional parking would be a significant step backwards. While parking is important, it should not come at the cost of losing a proven and successful entertainment venue that is actively contributing to the area's revival.

I strongly urge to consider the broader social and economic benefits that Hyperkarting brings, and to support its continued operation as part of a thriving and revitalised Entertainment Quarter.

Thank you for considering my submission.

Kind regards,
Isabella Hucksteppe

Hello,

I’m writing to you today with a simple request from the heart. Our family recently heard the news about the potential changes for Hyper Karting, and I wanted to reach out and share just how much this place means to us and the wider community.

It’s rare to find a spot that truly caters to everyone, but Hyper Karting has become a favorite "home away from home" for us. Whether it’s the thrill of the track or just the high-energy atmosphere, it is one of the few places where our family can disconnect from our screens and really connect with each other.

Here are a few reasons why we find it so special:

A Space for Everyone: It provides a safe, exciting environment for families to bond, regardless of age.

A Community Hub: It brings a unique, modern energy to the area that is hard to replicate elsewhere.

Lasting Memories: Some of our best weekend laughs and "friendly" competitive moments have happened right there on your tracks.

We understand that managing a venue like this involves many moving parts, but we truly believe it adds immense value to our local neighborhood. We would be so grateful if there were a way to keep the engines running so that more families can continue to make memories there.

Thank you for everything you’ve done to create such a fantastic space. We’re rooting for you!

Warmly,

Alfredo Charris

Hyper Karting is a unique and valuable part of the Paddington community that drives foot traffic and supports local businesses.

Replacing it with parking would reduce the overall attraction of the Entertainment Quarter, cost dozens of jobs, and send the entirely wrong message about the local government's attitude to small businesses.

I sincerely hope the council will consider the above in its final decision.

To whom it may concern,

Hyper karting Moore Park must stay. It provides amazing fun and excitement to Sydney, especially the Entertainment Quarter. I've been many, many times and it's an institution that should not be closed.

I hope you can reconsider.

Regards,

Sam

Hyperkarting allowed our family to have lots of memories and was very inviting. It'd be a shame to see it become another parking space when there's more parking going to be available in the very near future. Let the business keep running and making people smile.

Dear City of Sydney Council,

I hope this message finds you well.

I am writing to formally express my objection to the proposed Development Application concerning the closure of Hyper Karting.

Hyper Karting has been a valued recreational facility within the community, providing not only entertainment but also a safe and structured environment for social engagement. Its closure would result in the loss of a unique venue that supports local businesses, creates employment opportunities, and contributes positively to the vibrancy of the area.

From a community perspective, facilities like Hyper Karting play an important role in offering accessible leisure activities for people of all ages. Removing such a venue may reduce diversity in local entertainment options and diminish the appeal of the area for residents and visitors alike.

I respectfully urge the Council to carefully reconsider this proposal and take into account the broader social and economic impacts that the closure would have on the community.

Thank you for your time and consideration.

Yours sincerely,

Hai Anh Le

Hyper karts down at moore park is something i get to do with family and friends and also connect with others. To then hear about the news of them possibly getting taken down for car parks ? is actually disappointing which honestly is worse then feeling sad because to get rid of an amazing place for people to go and have fun it’s almost like your ruining that for people and those who work there. This is is my submission and standing with hyper karts during this time my friends and family have also submitted as well as so many others which shows how much this place should be staying like i said very disappointing because you want more car parks makes laugh actually. I stand with hyper karts and they are here to stay.

The hyperkarting is one of the main reasons we visit the entertainment quarters. Unless there is a game on. Losing the karting would damage the area and decrease visitors. The main reason we go is to kart them because we are there we get a meal and maybe see a movie. No karting mean we would stop going.

Such a shame for a few parking spot but more parking is useless if there isn't a reason to visit it

Dear Sir/Madam,

I would like to formally object to proposal to close Hyper Karting venue at Moore Park.

Our family regularly attends sporting events at Moore Park as well as venues at Entertainment Quarter and I have not experienced need for extra car parking there.

We are residents of City of Sydney and Hyper Karting is the only karting venue within 30km of us for our 2 young boys to enjoy.

Further, it is the only electric karting venue in Sydney I know of which does not create noise and pollution - you would not even know there is karting venue on the roof.

Therefore, I firmly object to the proposal.

Kind regards,

Yanis Elksnis

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon Rickersey, I am writing in relation to Submission RD/2023/897/A concerning the proposed closure of Hyper Kart at 116 Lang Road, Moore Park. I would like to express my strong opposition to this decision and outline the significant impacts it will have on the community.

Hyper Kart has long been a valued recreational venue for families like mine. My children enjoy driving there just as much as I do, and it has provided us with a safe, engaging, and memorable activity that brings people together. Closing this facility to create additional car spaces feels like a step backward, particularly in an area that already offers limited entertainment options for young people.

Beyond the loss of family-friendly recreation, the closure would also result in job losses for the staff who rely on this venue for their livelihood. These are real people whose futures will be directly affected, and their contribution to the local community should not be overlooked. I urge you to reconsider this proposal and explore alternatives that do not come at the expense of entertainment, employment, and community wellbeing.

Preserving Hyper Kart would ensure that families continue to have access to a unique and positive recreational experience. Thank you for taking the time to consider my submission.

Kindest regards

Bruno Silveira

To Whom it may concern,

I am writing to express my concern regarding the decision to deny Hyper Karting the ability to continue trading in their current location to active approx 200 parking spots at the entertainment quarter. I have been a customer of hyper karting for years , and especially valued its offering during COVID. It's a clean, accessible and healthy out let for me , and now something I share with my 6 year old son who has taken to karting . Every time I attend, even on weekends , there is always ample parking available, so to close such a valued business to activate parking that is rarely, if ever needed makes no sense. Especially given the investment in cycle ways around the city, why create more space for cars? I hope the decision body finds reason and prioritises business and community over parking.

Regards

Dear City of Sydney,

Hyper Karting is a terrific experience and it literally catapulted my son and family into Karting. We are now members of Karting Australia and compete in the Australian Karting Championship and it started at Hyper Karting.

Don’t take it away for car parking. Common sense needs to prevail here as many of the patrons that already go the Entertainment Quarter are Hyper Karting Patrons.

Find another solution and leave the business where it is.

Best Regards,

Steven

Hello Shannon,
I would like to voice my support of Hyper Karting with their extension of lease. The venue is something that draws both myself and children to the precinct. We love the electric karts and travel from Narrabeen to visit.
My family range in age from Maddie 9, Harri 11 and Jack 13 and to be able to race at the same time on track is quite unique. We eat locally and try to squeeze in a session before attending soccer or football games. Please keep this venue active and thank you for considering my submission in support of Hyper Karting's renewal of lease.

Dear City of Sydney Council,

I am writing to express my strong support for Hyper Kart in Moore Park and urge you to reconsider any plans for its closure.

Hyper Kart is a cherished community landmark and recreational space for residents and visitors. Replacing this vibrant local business with empty car spaces would be a significant loss to the city's culture. I kindly ask the Council to explore all options to ensure Hyper Kart remains open.

Thank you for considering the impact of this decision on the Sydney community.

Thanks you

To whom it may concern:

I'm writing in regards to Hyper Karting.

I have been there along with my kids and we've always enjoyed our time there.
It's our go to place for a quick bit of fun.

You can't possibly shut down the place to turn it back into a carpark.
The carpark is usually empty all the time anyway.
There's no logic behind closing it down.

Please leave it as it is.
It's working fine and doesn't need to be touched.

Kind regards,

James

Hello,

Hyper karting has played such a bit part in my life with me and my friends. There's nothing else like it in my area and we love going there. I used to work in EQ for 3+ years and have gone there my whole life. I have never once had a parking issue so I don't see why we need to remove hyper Karting for an extra level when there's already parking spots. The only issue is when there's concerts, even then there's a lot of public transport and street parking and the one level of parking will not make a major difference.

Please don't close it down.

To S Rickersey:

Implore you to not shut down Hyper Karting, removal of entertainment venues especially those that service young people and employ people with little work experience or higher education would be foolish.

City of Sydney should focus on developing and improving pedestrian movement & public transport option usage, rather than adding another layer of carpark level where current usage doesn't exceed available parking facilities. Or does the City of Sydney play a pawn to Wilson Parking' commercial interests throughout the city, whereby one day Sydney entertainment is only serviced by corporate interests.

Kind Regards,
Jacob Madden

To: dasubmissions@cityofsydney.nsw.gov.au

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

I am writing to express serious concern regarding the potential closure of Hyper Karting Sydney.

This venue is not just another tenant in the area. It is one of the few businesses actively drawing people in, creating energy, and supporting surrounding operators. Removing it risks hollowing out what should be a vibrant precinct, especially during non-event periods.

It is also difficult to justify the rationale behind reclaiming the car park space. Even during major events, the car park remains largely underutilised. Expanding capacity that clearly isn't needed, at the expense of a functioning and popular business, does not appear to serve any practical purpose.

More broadly, this decision seems to contradict the significant public investment made into light rail and public transport infrastructure in the area. These investments were intended to reduce reliance on cars and encourage foot traffic and accessibility. Prioritising additional parking over an established attraction runs counter to that objective.

Hyper Karting contributes to the activity, safety, and economic viability of the precinct. Removing it without a compelling and evidence-based justification would be a step in the wrong direction.

I strongly urge you to reconsider this course of action.

Kind regards,

Luca Russo

Hi there,

Can’t believe the Sydney council was to shutdown HyperKart but replacing it just to park cars.

We’ve seen how many jobs and “entertainment” this business brings to the “entertainment quarter”. We believe this DA, is not in the interest of the public and families who enjoy this activity!

Hyper karting is to remain and as a trusted customer who shares many incredible memories with my friends and family coming here.

We do not welcome this DA; and do not welcome the Sydney Council to shutdown this business.

All the best,

Dear City of Sydney Council,

I am writing to formally express my strong support for Hyper Karting's application to extend its operations at the Entertainment Quarter in Moore Park.

As a visitor to the area, I believe Hyper Karting is a vital asset to Sydney for several reasons:

It provides jobs for over 150 people and serves as a major drawcard for the precinct, supporting surrounding businesses.
Unique Recreation: It is a world-class facility that offers a safe, accessible, and alcohol-free entertainment option for families, tourists, and young people.

Better Use of Space: Converting this vibrant space back into a largely vacant car park would be a significant loss to the cultural and recreational life of the Moore Park area.

Economic Impact: The track brings over 500,000 visitors to the area annually, helping to revitalise the Entertainment Quarter outside of major stadium event days.

I personally value Hyper Karting because [insert a quick sentence about a fun time you had there, e.g., "it's where my friends and I go for birthdays" or "it's the best indoor activity in the city"].

I urge the Council to approve to allow this local business to continue serving the community.

Sincerely,

Muge Mellissa Tabak

Hi City of Sydney,

I strongly oppose your closure of the Hyperkarting business in Moore park

My children love this
It's a convenient location and I have absolutely never had an issue finding parking at the venue so do not at all understand why you would close a fun, active activity for all ages, with absolutely no argument to do so, no benefit to the community

In fact a loss of jobs and small business, tax paying revenues

Keen to see this lifted and to attend Hyperkarting for years to come.

Regards,
Vivian

As a small Sydney business (16 employees) we have used these hyper karting facilities for two of our 5 company anniversaries . This venue has actually kept us in Sydney versus going to other areas as there is not much on offer in the CBD for healthy team building activity . I also have come to the entertainment quarter on many occasions and have never missed out on a car parking spot , even for sporting events .
I am not sure why council is doing this for only what seems to be a 12 month concern.
It's a great activity for Sydney CBD with light rail access and all the entertainment quarter had to offer and right now the spirit of Sydney is struggling , don't kill it even more .

Dear City of Sydney Council,

I am writing to express my strong support for maintaining the current parking allocation at the Entertainment Quarter and allowing Hyper Karting to continue operating.

Hyper Karting has quickly become one of Sydney's most engaging and unique recreational activities, attracting a wide range of visitors and contributing positively to the local economy and community vibrancy. It offers an experience that is both innovative and accessible, drawing people to the precinct and supporting surrounding businesses.

I would also like to acknowledge and support Andrew Richardson, CEO of Hyper Karting, whose leadership has been instrumental in bringing this outstanding experience to Sydney. His efforts have helped create a destination that resonates with both locals and visitors.

Reclaiming the parking spaces at the expense of such a well-received attraction would be a step backward. Instead, I encourage the Council to consider broader, long-term solutions to transport and accessibility challenges particularly continued investment in improving public transport options to and from the area. Enhancing public transport infrastructure would provide more sustainable and far-reaching benefits without displacing successful local initiatives.

I respectfully urge the Council to preserve Hyper Karting's operation at the Entertainment Quarter and focus efforts on improving transport connectivity for the benefit of all.

Thank you for your consideration.

Kind regards,
Ludo

Dear City of Sydney DA Submissions Team,

I am writing as a concerned resident of the City of Sydney LGA to express my opposition regarding the proposed development at Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 and its potential impact on the Hyper Karting track at the Entertainment Quarter (EQ).

As a frequent customer, Hyper Karting is the primary reason I visit the EQ precinct. My visits consistently include supporting several surrounding local businesses, such as nearby restaurants, bars, and cafes. I believe that any decision leading to the closure of Hyper Karting would negatively affect the economic interests of other businesses within the precinct and the community at large.

The track is a highly popular venue that promotes social engagement and brings significant foot traffic to the area. In my view, the benefits of the proposed development application are negligible compared to the value Hyper Karting provides to the precinct.

I respectfully request that the Council considers this submission when reviewing the application and keeps me informed of the final outcome. As an active local voter, I place great importance on the Council's handling of community matters such as this.

Faithfully,

Shaun Williams

Re: Response to Modification Application to Development RD/2023/897/A
116 Lang Road MOORE PARK NSW 2021

I am writing to express my strongest possible support of Sydney Council's original decision to refuse to allow for the continued use of Level 5 of the Entertainment Quarter car park for electric go-karting and associated activities until 1 July 2028.

In seeking a review of that decision, the EQ lessees, CARSINGHA Investments, have not presented a convincing case for the refusal to be overturned.

In 2023 they entered willingly into what they knew was a time limited two-year agreement with a specified expiry date.

The intended reclamation as open space of the part of Moore Park currently being used for car parking had already been legislated and is part of the long- held overall plans by the Council and other stakeholders for transport use and overall management of the precinct as a whole.

It is untenable for the Council and State government to take half the Moore Park Golf Course for open space while at the same time allowing another section of the same park to be used for car parking in the financial interests of another stakeholder – Carsingha Investments.

It should have been stated at the outset to the 150 workers who will be affected by this decision that these jobs were only temporary. The expiry date of the consent should also have been revealed to them so that they could plan to seek other employment well in advance of the expiry date.

Moore Park is a hotly contested space. How it is used by the various stakeholders must not just be consistent with legal decisions already made but be seen to be equitable.

Given their sense of entitlement**,** who is to say that by July 2028 the lessees would not be seeking to extend their use of Level 5 for another two years and for the same reasons? They find it difficult to accept being regulated at all by local government and have expressed their frustrations vociferously and publicly before. Please don't give in to them.

Dear Sir,

I would like to lend my support to keeping the Hyper Kart track at Moore Park. This is a great entertainment option for kids to get them off screens and doing something enjoyable, a useful skill, and lots of fun. It is also great fun for adults! With the success of 'Drive to Survive' based on Formula 1 racing on Netflix, this is also the perfect time to have this option available to all and in such a local and convenient location.

My family and I live in the Eastern Suburbs, so this is nearby, and my children have loved every time they have visited Hyder Karting - it is a well run operation and I believe, adds a something unique to the entertainment options available locally.

Please approve the extension of their permit to stay at Moore Park.

Kind regards,

Raquel

Dear Council,

I first tried out Hyper Karting at the end of last year, something I'd never done before and it was an absolutely incredible experience. I've been back a number of times and can't wait to go back again.

Though that's only possible if Hyper Karting is saved and can stay operating at the car park in Moore Park.

The experiences and memories made there are something that cannot be underestimated, and if the space is transformed into a few extra car spaces, that value will be lost.

I really appreciate you reading this, and hope that you decide to let Hyper Karting create so many more new memories for people like me.

Kind regards,

Sara

The current venue of Hyper Karting at Moore Park works well for everyone. To shut a business down due to someone's requirement of "needing" more car parking is ridiculous. The parking spots gained vs the business and jobs put out far favours the job market. The city of Sydney is getting far too greedy. Hyper Karts offers multiple cost opportunities for everyone. To see Hyper Karts be shut down over greediness would be very sad.

Cheers,

Dan Burns

To the City of Sydney Council,

I am writing to express my strong support for Hyper Karting and to respectfully request that the business be allowed to continue operating.

Hyper Karting represents a valuable local business that contributes positively to the community by providing employment opportunities, attracting visitors, and activating the local area. Businesses like this play an important role in supporting the local economy and creating vibrant, engaging spaces within the City of Sydney.

The overwhelming level of public engagement and submissions demonstrates that this is not just a business, but a service that is genuinely valued by the community. It is clear that many people support its continued operation and wish to see it remain.

I respectfully ask Council to carefully consider the broader economic and social benefits this business provides, and to support an outcome that allows it to continue operating, subject to any reasonable conditions required.

Thank you for your time and consideration.

Brian v

To whom it may concern,

I'm writing as a Sydney resident and parent to submit my strong support for Hyper Karting at Moore Park, and to object to any proposal that would see it removed to make way for a parking lot.

Hyper Karting is one of those genuinely special Sydney institutions — the kind of place that gives kids, families, and visitors an experience they remember. My own son is turning 10 later this month and chose Hyper Karting as the centrepiece of his birthday party. He is far from alone; the venue is part of countless birthdays, school holiday outings, corporate events, and weekend family traditions across the city.

Sydney has already lost too many distinctive, character-filled businesses to generic redevelopment. Replacing a thriving, well-loved, active-recreation venue with a parking lot would be a genuinely sad outcome — trading something irreplaceable for something entirely forgettable. Moore Park is meant to be a place for people, recreation, and community life, not more asphalt for stationary cars.

I'd urge the City of Sydney to weigh the cultural, social, and recreational value Hyper Karting brings to the area, and to find a path forward that keeps it where it belongs.

Thank you for considering my submission.

Kind regards,

Daniel Bodin

Hi,

I have lived at 127 cook road for the past 10 years, probably one of the closest residential buildings to the hyperkarts.

I do not support the closure.

I hear vehicles on lang road, concerts, sports events from my apartment. All are louder than the karts which I rarely hear.

I support the continued operation of hyperkarts at EQ in the car park.

EQ has continued to improve from what it was over the past 10 years with access to locals, more food opens, concerts and accessibility, don’t discourage vibrancy

Ben

Dear Shannon Rickersey,

I am writing to submit my objection to the proposed development at 116 Lang Road, Moore Park (RD/2023/897/A), which would see the existing Hyper Karting facility replaced with car parking.

Hyper Karting is one of the few recreational venues in the area where families, friends, and colleagues can come together for an active, memorable experience. It's the kind of place where parents bond with their kids, where mates celebrate birthdays, and where workmates actually enjoy a team outing. Losing it to make room for more parked cars would be a real shame.

More broadly, I believe that dedicating valuable inner-city land to car storage is a step in the wrong direction for Sydney. Our city does not become more liveable by sacrificing community recreation spaces in favour of vehicles. If anything, we need more places that bring people together — not fewer. Replacing a thriving social venue with a car park sends the message that cars matter more than the people who live here, and that is not the kind of city I want to see.

I urge the Council to refuse this application and to protect spaces that contribute to the wellbeing and social fabric of our community.

Thank you for considering my submission.

Kind regards,
Oleksandr Anokhin

Dear City of Sydney,

I'm writing to you in light of recent developments that HyperKarting Moore park may no longer be able to operate in their current facilities.

Please reconsider this action as Hyper Karting is one of the few businesses keeping Sydney night life alive and kids off the streets.

Please also consider that currently there is an abundance of car spaces available, and new parking facilities are being developed. The freeing up of these car spots will do no good to the facility but rather cause a wave of lost jobs in the CBD.

Best regards,

Ashlyn Philip

Hi

I'm a local resident and occasional but not regular user of Hyperkarting

I'm writing to strongly oppose councils attempt to evict hyperkarting and reinstate car parking.

As a local resident I find this highly ironic. Cook road despite being heavily metered and restricted is almost always empty with ample parking available.

This parking would only really be useful during peak periods but this is not only poor design but fails against councils own policies of supressing motor vehicle demand.

I'm sure you are all aware of Say's Law, supply creates its own demand. By supplying the extra parking, it will simply induce more people to drive on match day, creating more chaos on the already chaotic and unsafe roads on match day that council fails to manage.

I urge you to not make this incredibly stupid decision to turf out a very successful and valued business that makes our already boring local area a little bit interesting.

I hope you have 150 jobs ready for the young people you will put out of work?

Regards

Raff

Dear Sir/Madam,
I write in support of Hyper Karting remaining in its current location and operations and against any proposal to resume the site for car parking.

My son is 14 years old and he and I have been regular users of the facility for the past two+ years, though mainly my son with me an interested onlooker. Put simply, there are exceedingly few activities for boys ang girls of his age to do in Sydney (though I would also hasten to say that Hyper Karting has a broad appeal to all age groups, from the very young to the very old). My son has outgrown Luna Park, the water park in Western Sydney is too far away, seasonal only and inaccessible by public transport and that is about it. Hyper Karting is centrally located and accessible by public transport. Karting teaches him skills essential to controlling a moving vehicle (steering, braking, vehicle positioning, judgement of speed and distance etc) that will help him to learn to drive in a few short years. And it is fun. I much prefer to encourage him in that than to spend time on video games or hanging at the mall in his holidays.

Apart from that, Sydney does not need more car parks. Indeed it is contrary to the direction of public policy in this regard, which aims at increasing use of public transport and having fewer, not more, cars on the road.

Moore park is called the entertainment quarter for a reason. Hyper Karting for us is the main entertainment attraction there. Car parks are not entertainment.

In summary, Hyper Karting should stay where it is and continue to operate as it is. It provides jobs and much needed all weather, day and night entertainment for all age groups including- and especially - children, teens and young adults. There is nothing else like it in Sydney that is centrally located and accessible by public transport to many. Please do not add to the increasing sterility and boredom of Sydney by closing it down for more car parking.

Yours faithfully

Jim Malins

To whom it may concern,

I am writing to express my deep concern regarding the potential redevelopment of the Hyper Karting site into parking spaces.

Beyond the significant loss of local jobs, this venue serves as a vital hub for "social infrastructure" in our community. On a personal note, I chose Hyper Karting as a surprise location for my second Valentine's date with my fiancé. The experience was so impactful that we've already returned for further events and have been actively encouraging our friends to join us for future outings.

Places that foster love, happiness, and lasting memories are far more valuable to a city's vibrant culture than the revenue generated by additional parking. A city needs destinations worth visiting, not just more places to leave a car.

I urge you to consider the human element of this decision and prioritize the joy and connection this space provides to families and friends over the expansion of parking facilities.
Sincerely,

Amanda

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon Rickersey,

I am writing in relation to Submission RD/2023/897/A for 116 Lang Road, Moore Park.

I wanted to share, on a personal level, how deeply the proposed closure of Hyper Karting would impact families like ours.

Our boys absolutely love Hyper Karting. It's not just an activity for them, it's a place filled with excitement, confidence-building, and special memories. We celebrated our oldest son's 7th birthday there, and it was one of those days you don't forget as a parent; seeing pure joy, laughter, and kids being kids in a safe and engaging environment.

Places like this are so rare. They give children something active, social, and genuinely fun, something that goes far beyond screens or passive entertainment. Hyper Karting has become part of our family's story, and I know we are far from the only ones who feel this way.

It is also very concerning to think that approximately 156 staff members could lose their jobs as a result of this decision. That is 156 individuals and families impacted, in people who have helped create such a positive and welcoming experience for the community.

All of this, in exchange for an increase of around 296 car park spaces, which, from what we have observed, are hardly ever fully utilised, feels incredibly disproportionate. The social and community value of Hyper Karting seems far greater than the benefit of additional parking capacity.

I respectfully ask that you reconsider this decision and explore alternatives that would allow Hyper Karting to continue operating. It is a much-loved venue that brings real value to families, children, and the wider community.

Thank you for taking the time to read this and to consider the perspective of local families like ours.

Kind regards,

Sarah Nowak

Hi, I hope you're doing well.

I'm writing because I recently heard about the proposal to close Hyper Karting to make way for additional parking, and I felt really compelled to reach out.

Hyper Karting isn't just another venue it's genuinely a place where people come together to have fun, de stress, and create memories. For a lot of us, it's one of the few places that feels exciting, social, and different from the usual day to day routine. Whether it's families spending time together, friends celebrating birthdays, or just people looking for a bit of joy after a long week, it plays a really meaningful role in the community.

What makes this especially hard to understand is that there already seem to be multiple levels of parking available. Replacing something so unique and well loved with more parking feels like losing a space that brings real life and energy into the area.

Places like Hyper Karting give young people and the wider community something positive to do. It keeps people engaged, active, and connected. Taking that away would leave a gap that parking spaces simply can't fill.

I truly believe decisions like this should consider not just practicality, but also the impact on the community's wellbeing and lifestyle. Hyper Karting is more than just a business it's an experience, a social hub, and a place people genuinely care about.

I kindly ask you to reconsider this decision or explore alternative solutions that allow both the needs for parking and the preservation of this valued space.

Thank you for taking the time to read this and for considering the voices of the community.

Kind regards,

To whom It may concern,

The ridiculous decision to rob the Entertainment Quarter of one of the best attractions in Sydney, let alone of the entertainment quarter is not making sense.

There is a new carpark about to open in Moore Park or 1,500 spaces, plenty to keep Hyperkarting alive.

Hyperkarting offers awesome entertainment for all ages. My kids are learning to Mario Kart, for real life. They love it, their friends love it, the only ones who don't are council.

Stop the rot and accept the poor decision. Hyperkarting deserves its place, keep it and move on.
