Dear Cr Moore

According to reports on the weekend, the City of Sydney Council will be forcing the closure of the GoKart track at the Entertainment Quarter in Moore Park and converting that space into another car park level.

I am deeply concerned about what this means for (i) those who will lose their jobs, (ii) for the many young (and older) people who frequent the Go Kart track, (iii) the vibrancy of the EQ, and (iv) the message this sends which runs counter to the approach the Council has taken to make our city less dominated by cars.

Sydney needs more, not fewer, activities for young people. Parents across our city want their kids off their phones and being active. This venue is fun, safe, well organised and (so I read) it employs 150 people - many of them young job seekers.

I also work in the nearby film studios, and I am acutely aware that the EQ desperately needs more activities to enliven the area and support its businesses. Moreover, as you know, it is only on very rare occasions that the lower levels of the car park are full. Additional public transport could easily service this to account for the approximately 300 car spots that would replace the Go Kart track. And, as your council is also aware, the new car park at Allianz stadium will replace much of the on-grass parking around Kippax lake.

Your council is trying to remove the influence of cars on our city in so many ways - reduced car spaces in new apartments, more plazas, bike lanes etc. In that context, this moves seems all the more puzzling. I respectfully urge you to reconsider.

Kind regards

Nick Sinclair, Moore Park

Dear Lord Mayor

I read in today's paper that the City of Sydney Council is considering closing the GoKRT track at the Entertainment Quarter in Moore Park and converting it into a parking lot (remind you of Joni Mitchell??). I certainly hope this is a media build up and not a serious consideration.

The city needs more, not fewer things for young people to do . At a time when we want to lure young people away from their phones, this venue is fun, safe and well organised.

Rarely have the lower levels of the car park been full and when they are, it's because of a game at the SCG. Additional public transport could easily service this to account for the approximately 300 car spots that would replace the GoKart.

The Entertainment Quarter needs more activities to bring people there - otherwise it's another of the city's dead zones.

Your council is trying to remove the influence of cars on our city in so many ways - reduced car spaces in new apartments, more plazas, bike lanes etc etc. Why therefore encourage more driving and parking at the detriment of young people?

If this is more than a thought bubble, please burst it.

Yours sincerely
Manuela Epstein

Hi there

I'd like to write to you to express my disappointment in regards to the refusal of hyper kartings DA extension.

My kids absolute love the venue, we travel by metro very regularly and it's an awesome family fun day out. When I mentioned the venue might be closing to my kids they were absolutely distraught! If you could please review this decision in a positive manner that would be hugely appreciated. This venue provides a very affordable value for money attraction which is very much required in this area!

I thank you in advance and for allowing me to voice my feedback.

Kind regards,

Matthew Psaltis

To whom it may concern,

My family and I love going to hyper karts together. It has brought us so much family fun. Plus we use public transport all together to get there.

Please do not let it close down.

Warm Regards,
Aaron Starr

Hi,

I own a property in Cook Rd so am considered a neighbour. I can confirm that on occasion I take my grandkids to the electric go karts on Level 5 and I enjoy the experience. I've never had trouble finding parking so I support leaving the go karts on Level 5 until 1 July 2028

Thank you for the opportunity to provide a comment.

Regards

Alan Hoppe

Dear Council,

I am writing to express my view that the recent decision regarding Hyper Karting is not in the best interests of the community.

Hyper Karting is a fantastic facility and a great feature of the community. It provides a unique recreational activity for families, young people, and visitors, and adds to the vibrancy and appeal of the area. Facilities like this contribute positively to local businesses, community engagement, and entertainment options, which are important for a growing community.

I believe decisions like this should carefully consider the broader community benefit, and in my view, Hyper Karting is a valuable asset that should be supported rather than restricted.

I hope the Council will reconsider its position and take into account the positive impact Hyper Karting has on the local community.

Kind regards,

David

Dear Planning Assessment Team

I am a resident in the local and received a notice requesting community feedback on the refusal in respect of the development application RD/2023/897/A.

I am disappointed to learn that the application to extend the permission for the use of level 5 of the entertainment quarter car park for electric go-karting has been refused. I was especially disappointed to read that one of the reasons for the closure is that the current use of level 5 if the car park is not in the public interest. This is a great business, which I have used, and I know brings people regularly to the area. It adds to the amenity of the entertainment quarter, provides for a great activity and helps build the vibrancy of the area (which has until recently struggled).

With respect to the reasons for the refusal (specifically the loss of parking), I think it is very strange to suggest that the loss of car parking spaces from the go-karting is a problem, when the go-karting is one of the reasons that people come to the entertainment quarter to use parking in the first place. It would be solving a parking scarcity problem by removing demand for the parking, especially where there is significant public transport options available anyway!

I hope the council will reconsider this refusal and keep the business open/keep the entertainment quarter a vibrant space for the community.

Kind regards

Hey, hope you're well.

It will be very disappointing if we see Hyper Karting have to close its doors. As a contractor I have contributed a lot to the development of HK over the past 5 years and have watched it grow from what was a small pop up business into a thriving establishment.

I urge you to take into consideration the effect which closing HK would have on the 100+ staff who are employed there, the greater community who will lose a venue unlike anything in Sydney and also the owner who will undoubtedly be shattered by losing something he has worked endlessly for over the past 7 years.

I say this as a small business owner and someone who is one step removed from Hyperkarting and has no skin in the game, but I can see the positive effects it has on the community.

I have made many friends over the years, both staff and customers who will be deeply saddened and frustrated by the loss of this institution over what boils down to a few car spaces.

I too would be extremely frustrated to see it end, but am staying positive and assuming these further considerations will allow HK to continue operating and provide the community with entertainment for years to come.

Thanks,

Hi

I have visited Hyper Karting a number of times since its opening.

It is a venue without peer in the area, nor in greater Sydney.

It would be an absolute travesty to see it shut down, given those levels of the carpark would very rarely get used anyway.

You're putting many jobs and livelihoods at risk.

I'd urge you to reconsider, and extend the existing arrangement.

Cheers

Ben

To whom it may concern,

I am writing to express my disagreement with the decision to close Hyper Karting on the basis of car park capacity concerns.

From my personal experience visiting the Entertainment Quarter on numerous occasions, I have often observed that the car park is not at full capacity, even during periods when events, concerts, or other activities are taking place. It is not uncommon to see entire levels with significant availability, which suggests that parking demand may not be as constrained as indicated.

In addition, Hyper Karting plays a positive role in attracting visitors to the Entertainment Quarter. Many patrons, including myself, make use of public transport such as the tram to access the venue, which helps reduce reliance on parking while also supporting surrounding businesses like restaurants and cafés in the area.

Hyper Karting contributes not only to the local economy but also to the sense of community by providing a unique recreational activity that draws diverse groups of people. Its presence enhances the vibrancy and appeal of the precinct.

I respectfully ask that you reconsider the decision to refuse or close Hyper Karting, taking into account its broader benefits to both the local economy and community.

Thank you for your time and consideration.

Kind regards

Michael Wan

[PLEASE KEEY MY EMAIL ADDRESS AND NAME PRIVATE]

I would like to raise concerns regarding the proposal to prioritise additional car parking over the continuation of Hyper Karting.

Firstly, allocating more space for car parking does not appear to serve the broader public interest when compared to a unique recreational facility like Hyper Karting, which provides entertainment, local engagement, and economic activity.

Secondly, the current car park egress is already quite difficult and congested. Introducing additional vehicles into this space is likely to exacerbate existing traffic and safety issues rather than improve overall accessibility.

For these reasons, I do not support the proposal in its current form and encourage consideration of the wider community benefit.

G'day,

I'm not one to normally reach out to argue against local council decision-making, but this is a case that I am passionate about.

I am formally reaching out in objection towards the decision to remove the level of parking in Moore park.

Not only is it a band-aid decision for increased parking that has come years after such massive investment (from the tax payer) to improve public transport to and from the moore park precinct, it's one that directly affecting the go kart track and ENTERTAINMET quarter as a whole.

My family and I love visiting the track, which has brought us so much joy in the past.

To hear it might be getting replaced by more car parks that would only suit for 12 days of the year, it has me very concerned in the decision making process.

I hope this is reaching the right people.

Good day,
Luke

Submission in Support of Development Application to Extend Hyper Karting Lease

I support of the Development Application to extend the lease for Hyper Karting, a valued and well-established facility within the Entertainment Quarter.

Hyper Karting is a family-friendly venue that caters to both adults and children, providing wholesome, affordable, and enjoyable entertainment options for families. The facility has made excellent use of the previously disused car park on Level 5, transforming an underutilised space into a vibrant and engaging entertainment hub.

Employing over 150 people, Hyper Karting is a significant contributor to local employment and economic activity. Its continued operation and growth add substantial tourism value to the Entertainment Quarter, attracting visitors from within Sydney and beyond.

Moreover, Hyper Karting enhances the Entertainment Quarter's reputation as a premier destination for entertainment, effectively putting the "entertainment" back into the Entertainment Quarter. The facility is well managed and has demonstrated a strong commitment to safety, accessibility, and customer satisfaction.

In light of these benefits, extending the lease for Hyper Karting will sustain and enhance the positive contributions this facility makes to the local community, economy, and visitor experience. I strongly support the approval of this Development Application and the continued success of Hyper Karting.

Thank you for your consideration.

Timothy Senkalski

Hi,

I'm emailing to express my strong support of Hyper Karting, an absolutely brilliant venue in the heart of Sydney.

The continued operation of this fantastic business on a daily basis far outweighs the car spaces it takes up, which would otherwise only be used incredibly rarely.

Sydney should be a city for people, not cars, and as such I strongly urge council to reconsider their determination of this DA.

Regards,
Peter

Hyper Karting is a great facility to all ages.

It would be a shame to close this down. There aren't many activities for kids these days that does t involve a mobile phone. I regularly visit this place with my nephews via transport an it's a great attraction that's causes no impact on area.

Thanks

To the City of Sydney Council,

I am writing to urge a review of the recent decision regarding the Entertainment Quarter.

For years, this precinct was the pinnacle of Sydney entertainment and a primary destination for families.

While it went through a period of decline, recent additions like Hyper Karting have sparked a significant turnaround, bringing the "spark" back to the area and creating a new generation of visitors. The current decision threatens this momentum.

Please reconsider your position to ensure the precinct continues its trajectory as a premier entertainment hub.

Best regards,
Nicholas

Afternoon,

I would like to raise concerns regarding the proposal to prioritise additional car parking over the continuation of Hyper Karting - a brand built by the trust of over thousands of customers over the past few years. Allocating more space for car parking does not serve the broader public interest compared to a unique recreational facility like Hyper Karting. Additionally, the current car park egress is already difficult and adding more vehicles is likely to worsen congestion and safety issues. There appears to be plenty of parking spaces during events in EQ and adding in more in exchange for a venue which contributes so much to what EQ encompasses definitely does not seem to be the right move in a lot of people's opinions. For these reasons, I do not support the proposal in its current form.

Regards,
Nishant.

Submission in Support of Hyper Karting

I am writing to express my strong support for Hyper Karting and to advocate for its continuation as a valued part of the Entertainment Quarter.

Hyper Karting is a family-friendly facility that caters to both adults and children, offering an inclusive environment where people of all ages can participate in safe and enjoyable activities. It provides a rare opportunity for families to engage in shared recreational experiences that are both exciting and accessible.

The venue also represents an example of adaptive reuse, making effective and innovative use of a previously disused car park on Level 5. Rather than leaving this space underutilised, Hyper Karting has transformed it into a vibrant destination that contributes positively to the precinct.

Importantly, Hyper Karting is a significant local employer, providing jobs for over 150 people. Its continued operation supports these workers and their families, contributing to the local economy and workforce stability.

From a broader perspective, the facility adds meaningful tourism value to the Entertainment Quarter. It has gained recognition through features on well-known programs such as *Sydney Weekender* and *Getaway*, helping to promote the area as a destination for both locals and visitors.

Hyper Karting is also a well-managed venue that delivers wholesome and affordable entertainment. In a time where cost-of-living pressures are increasing, accessible recreational options like this are more important than ever for families.

Additionally, the facility demonstrates a strong commitment to inclusivity by supporting the disability sector. It provides a safe and welcoming environment where individuals with disabilities can participate in recreational activities with confidence and enjoyment.

In summary, Hyper Karting is more than just a venue—it is a community asset that supports families, employment, tourism, and inclusivity. I strongly urge decision-makers to recognise its value and take the necessary steps to ensure its continued operation.

Yours sincerely
Olivia Senkalski

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

I am writing in support of application RD/2023/897/A, which seeks to extend the development consent for electric go-karting at Level 5 of the Entertainment Quarter car park at 116 Lang Road, Moore Park.

I strongly urge the City of Sydney to approve this review and allow the go-karting to continue operating until 1 July 2028.

I am a regular visitor to the Entertainment Quarter, attending the precinct at least 10 to 15 times per year. In my experience, the area struggles significantly with activation outside of major sporting events. When there is no game on at the stadium, the precinct feels flat and lacking in atmosphere. The food and dining venues in particular are poorly patronised — in fact, I will regularly walk to Paddington rather than eat at the Entertainment Quarter, as the dining options are uninspiring and inconsistently run.

What does draw people to the precinct — and what makes it worth visiting in its own right — are entertainment uses like the cinema, the go-karting, and similar activities. These are the kinds of offerings that give people a genuine reason to be there, regardless of whether there is a major event on. They appeal to a wide range of people: families, groups of friends, and visitors of all ages.

Converting the go-karting space to additional car parking would do nothing to address the precinct's activation challenges. The Moore Park area already has substantial parking infrastructure, and more car spaces will not make the Entertainment Quarter a more appealing or vibrant destination. It would simply remove one of the few genuinely engaging things the precinct has to offer.

I respectfully ask the Council to support this review and allow the go-karting facility to continue operating. It is one of the better reasons to visit the Entertainment Quarter, and its loss would be a step in the wrong direction for a precinct that already struggles to generate a consistent sense of life and energy.

Thank you for considering this submission.

Trent Stapleton

Hello

I'm writing to express my support for the extension of Hyper Karting's operations at the EQ car park.

I believe it is in the best interest of the community and I really enjoy going to Hyper Karting. I think Hyper Karting has done a lot to revive social and entertainment activity in that precinct.

Regards

Charlie

Resident and home owner in Paddington

Attention Shannon Rickersey

My name is [REDACTED] living in NSW, and have lived here my whole life. I've always thought of Sydney to be boring, and lack activities we can do all year round, with the only options being Luna Park and some arcades here and there. I was introduced to HyperKarting by my brother, and I immediately fell inlove.

I usually get there by light rail as it's most convenient, however i've never had any issues with driving there as there is always parking to be found on multiple levels. I enjoy the convenience of the area as I can always swing past before a concert/event, or if i'm in the city with friends and i'm feeling bored. It's always brought me joy and peace, being the one thing I can do that isn't repetitive as the tracks are always different, yet something I can rely on to have a good time. I've never experienced any negatives inside or outside the business, and infact found it brings more foot traffic to the EQ, boosting surrounding businesses.

However one of the best things about HK is the fact that unlike fun things in sydney like the easter show or the halloween markets, it's reliable and year round, bringing more life to sydney especially for the night life. This small business is an amazing powerhouse, supporting about 150 jobs and around 300,000 patrons annually, with many regular customers that hold a life loyalty to this business, factoring the amazing service of the employees, the welcoming vibes it presents, and always leaving with a smile on your face. I can confirm this as being one of these regular customers, and can also say from the friends i've made and the people i've seen, the EQ is supported by the light rail much more than cars, with only about 18% of people driving to the venue.

In conclusion, I ask that you please consider keeping this business, as experience and community attraction will always benefit a place more than parking. There is nothing to park for if not the entertainment. I believe your concerns would be better managed through restrictions and conditions, improving your issues whilst also keeping the public entertained and boosting surrounding businesses.

Thank you for taking your time to read and consider my feedback.

Kind regards,
[REDACTED] Greenacre 2190

I was disappointed to hear that the lease for Hyper Karting will possibly not be extended.

My family have been to Hyper Karting and have enjoyed the experience. It is family friendly and a good use of the space in the Entertainment Quarter.

It would be a shame to see such a good facility fold. I would like to see the lease extended.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Hi,

I'm writing in relation to Development Application **DA 2665169** for the site at:

116 Lang Road, Moore Park NSW 2021

I wanted to express my support for the venue and, in particular, for it continuing to operate long term. It's a well-established place that a lot of people in the community use and value — somewhere families can go, kids can spend time, and people can enjoy a casual, social environment.

It would be great to see any changes handled in a way that keeps the venue open and active as much as possible. Ongoing access and continuity are really important for places like this, both for the people who visit regularly and for the overall atmosphere that makes it what it is.

Venues like this play a bigger role than people sometimes realise — they support local jobs, bring people into the area, and provide something genuinely positive for the community.

Thanks for taking the time to consider this.

Kind regards,

Simon McCoy

I support Hyper Karting in their application to extend their lease to utilise Level 5 of the Entertainment Quarter carpark.

This is a great family friendly activity that I have been to. This previously under-utilised carpark has been a great boost to tourism in Sydney. It has featured on Sydney Weekender and Getaway TV programs.

It would be a great loss for the Entertainment Quarter to lose such valuable entertainment. It is an excellent facility and should be allowed to continue in this space.

I sincerely hope that the lease will be extended.

Your sincerely

Alison Senkalski.

To whom it may concern,

I wanted to send an email in support of the application to keep HyperKarting open in the Entertainment Quarter.

We have frequented this business as a family many times and my husband works there so rely on it for our family income.

Whenever we have attended parking is no trouble at all, as many levels of the lot are completely vacant.

I support keeping this family business open, instead of an empty parking lot.

Best,

Rosie

I would like to express my strong support for application RD/2023/897/A relating to the existing Hyper Karting facility.

Hyper Karting has already proven to be a valuable recreational asset within the City of Sydney, offering a safe, well-managed, and engaging environment for people of all ages to enjoy motorsport in a controlled setting. Supporting this application will allow an established and successful venue to continue operating and contributing positively to the local community.

The facility plays an important role in activating the area, drawing visitors, supporting local businesses, and providing a unique entertainment option that is not widely available elsewhere in the city. It is particularly valuable as an all-weather, indoor activity that appeals to families, young people, and corporate groups alike.

Importantly, as an existing operation, Hyper Karting has demonstrated its ability to manage safety, noise, and patron behaviour responsibly. Continued approval will ensure that these high standards are maintained while preserving jobs and ongoing economic benefits for the area.

Overall, this application supports the continuation of a proven, well-run facility that enhances Sydney's recreational landscape. I strongly encourage its approval.

Dear Shannon Rickersey,

I am writing to implore you to amend the decision to close HyperKarting at Moore Park.

Being a local resident I've had so many enjoyable events at HyperKarting. The EQ having an attraction like go karts reminds me what the venue was like when I was growing up! I can't imagine why council would take this away to add a level of car spaces in a carpark that consistently has parking available during concerts, sporting events and other seasonal events. Plus there is already a new carpark being built at the stadium up the road.

As a parent I have been excitedly waiting for my son to come of age to be able to have parties at the go kart track instead of just bringing him to watch our friends and loved ones, I hope to be able to let him experience some of the nostalgic fun similar to what I had in my youth at the entertainment quarter.

All the best,
Molly

Dear Council

Re: RD/2023/897/A

The whole point of the Entertainment Centre is to provide ... Entertainment! Whether you are aware or not, as both an owner/resident and business operator in this vicinity we can absolutely confirm this in-door electric kart track is hugely popular with adults and kids alike. Often when accompanying my two boys we have to book. Frankly I'm of the view refusing to allow this kart track to continue trading in not in the best interest for Sydney's residents and visitors.

Let's be perfectly honest, we don't rank highly in this city when it comes to entertainment, so why on earth close down another venue.

Kind Regards

The Apache Films Team

To: dasubmissions@cityofsydney.nsw.gov.au
Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

I am writing to express my strong support for this application relating to the continued operation of the electric go-karting facility at the Entertainment Quarter.

As a local resident and regular visitor, I have attended this venue many times with friends. It is a unique and valuable recreational facility that provides a safe, engaging, and social activity that is not widely available elsewhere in Sydney. In my experience, it is well-managed and contributes positively to the vibrancy of the Moore Park precinct.

Importantly, the venue supports local employment and provides meaningful jobs for young people. I personally know individuals who work there and benefit from these opportunities, which reinforces the broader economic and social value of the operation.

More broadly, I believe it is important that Sydney continues to support diverse entertainment and recreational uses, particularly those that appeal to younger demographics. Facilities like this help create a more dynamic, inclusive, and engaging city. Without them, Sydney risks becoming increasingly limited in its cultural and social offerings.

I understand that the current application relates to extending the existing, time-limited approval to allow continued use until 1 July 2028 . In my view, allowing this continuation is both reasonable and appropriate, particularly given the existing infrastructure and the demonstrated demand for the facility.

It would be disappointing to see this venue lost due to regulatory or technical constraints, especially when it is already operating successfully and providing clear community benefits.

For these reasons, I strongly support the approval of this application.

—
Thanks,
Seb

Dear Shannon Rickersey,

I just wanted to write to share my strong support for the electric go-karting at the entertainment quarter. Being a long term resident in the eastern suburbs I am concerned that we already lack family friendly, sporting activities and being a father of two kids (8 and 12) we have and continue to love this activity.

I truly hope the facility is allowed to remain.

Kind regards,

Alistair Champion

To Whom it May Concern

This email is in support of the continued use of the Level 5 Entertainment Quarter carpark for Hyper Karting. My family and I enjoy Hyper Karting and have often been patrons of this business. Hyper Karting is an excellent use of the Level 5 carpark, and the whole concept works really well for the Entertainment Quarter especially by using existing infrastructure.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To Whom It May Concern,

I am writing to formally object to the decision to refuse the extension of consent for Hyper Karting at the Entertainment Quarter in Moore Park.

Hyper Karting at Moore Park has been an incredible venue my family has visited countless times since its opening. The Hyper Karting business operation has proven to be a valuable recreational, economic and social asset since opening in 2021. With more than 500,000 customers to date and over 150 jobs supported, it has contributed meaningfully to the activation of the Moore Park precinct beyond peak sporting and concert events. The facility attracts families, young adults, corporate groups and interstate visitors broadening the precinct's appeal and strengthening its viability as a year-round destination.

The recent refusal of Hyper Karting's extension application appears primarily based on the projected need to reinstate the 298 parking spaces currently occupied by the karting track business operation, in light of the phased removal of on-grass overflow parking near Allianz Stadium and Sydney Cricket Ground. However, available utilisation data suggests that the Entertainment Quarter car park has only reached capacity on limited occasions since the reopening of Allianz Stadium. This calls into question whether the immediate removal of an established and high-performing attraction is proportionate to the potential future parking demand.

Importantly, Hyper Kartings business operation has functioned without substantive adverse impacts. There have been no reported noise complaints and its location within a structured car park inherently limits off-site amenity impacts. The operation makes productive use of under utilised built infrastructure without requiring new construction or permanent structural change.

In assessing orderly development, I respectfully submit that consideration should extend beyond the technical designation of a space as "car parking" and instead weigh the broader planning objectives of place activation, employment generation, and community recreation. Retaining Hyper Karting as a business operation within the Entertainment Quarter precinct supports the strategic goals of encouraging diverse uses within established entertainment precincts and reducing reliance on single-event traffic surges as the primary driver of

economic activity.

With the above said, I therefore urge the City of Sydney to reconsider the refusal upon review and to adopt a balanced approach that recognises:

- The demonstrated success and community benefit of the facility;
- The limited historical evidence of parking capacity stress;
- The absence of measurable amenity impacts; and
- The broader strategic ambition to revitalise Moore Park as a dynamic, year-round destination.

The continuation of Hyper Kartings business operation would reflect a forward-looking planning approach that prioritises activation, employment, and community experience alongside transport considerations.

Thank you for the opportunity to provide this submission. I respectfully request that it be taken into full account during the review process.

Yours sincerely,

Mark Jones

Dear whom it may concern/ Shannon Rickersey,

I was shocked to hear of the decision by council to refuse the extension of hyperkarting DA. Even more surprising, the reason cited, for additional parking. I am surprised as parking is a non-issue at the EQ. For even the vast majority of major sporting events, the car park is not even at capacity. Yet, hyper karting is always busy with the activity of families, athletes, and groups of friends. Hyper karting is a safe and social activity that bring people together and one of very few karting venues in Sydney. What's more hyper karting is electric - unlike other offerings in Sydney. It is baffling how anyone could see greater value for the people of Sydney in ~200 car spaces.

I hope you can consider the good that hyper karting brings to Sydney and extend this DA

Kind regards,
Dr Byron Crimmins

Dear council,

I am a local resident who has grown up and lived across the eastern suburbs my whole life. When hyper karting first opened I was so excited to have local electric go karting.

Growing up going out west to petrol run lawn mowers disguised as go karts, having a local clean track that wasn't thick with fumes and deafening engines echoing through a warehouse was amazing. As a father now, taking my child to go karting is something we both love. Something I wouldn't consider for the tracks I used to have to travel to.

Hearing that hyper karting could be shut down is genuinely upsetting and confusing.

As someone who frequently drives to music events at hordern pavilion and liberty hall and cricket games at the SCG and football/union at allianz, I have never entered that car park that contains hyper karting and not been able to find a spot. I've been told there is still access to the roof floor parking, but have never needed it. The idea that these spots are needed for these events is completely inaccurate. I have attended all types of events; parking in that car park, walking past thousands of people lining up to get into hordern to get to at big bash game with over 10,000 people at the SCG. No issues finding a spot at all.

The fact that there is a new car park being built for Allianz makes your decision to close hyper karting even more confusing.

For the last 20 years getting into the city (city of Sydney) has become harder and harder with more bike lanes, bus lanes and trams that don't service where I have lived. The idea that for this specific business you are prioritising cars goes against every piece of transport infrastructure I have witnessed in your council since childhood.

Please amend your decision and allow this business to continue to serve our community.

Kind regards,

David Hutchinson

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Please note I am happy for my name and suburb to be published, but request that my address and contact details be withheld from public record.

Dear Shannon Rickersey and the Assessment Team,

I am writing in strong support of the review application RD/2023/897/A for Hyper Karting at 116 Lang Road, Moore Park, and urge the City of Sydney to approve a continuation of its operation.

I am a Bondi resident and have been a regular visitor to Hyper Karting for several years. Living in the eastern suburbs, it is genuinely local to us - we typically drive to Moore Park, which takes under 15 minutes from Bondi. After our sessions we almost always continue the outing at the nearby markets or local restaurants, making each visit a broader contribution to the precinct's economy and atmosphere.

Hyper Karting is the venue I turn to for the occasions that matter most. My brother lives in New Zealand and visits twice a year - it is the activity we reliably plan together, and it has become a meaningful part of how we spend our limited time. Beyond those visits, I organise group events there regularly: friends' birthdays, bucks parties, and work team outings. It is simply the best option for a shared, active, social experience that suits a wide range of ages and fitness levels. No other comparable venue exists within an hour's drive of the eastern suburbs, and I say that with confidence - I have looked.

I want to highlight that karting is not passive entertainment. Unlike a cinema, it demands physical engagement, genuine competition and real interaction between participants. The social value of that kind of shared activity - people laughing, competing, encouraging each other - is meaningfully higher than sedentary alternatives. For groups, corporates, and families, it offers something increasingly rare: a reason to be present together.

In all my visits over the years, I have never witnessed a safety incident, nor have I experienced any issues with noise or parking that I would consider unreasonable for an entertainment precinct. The facility is well-managed and the staff are professional.

I am aware that both the Lord Mayor and State MP Alex Greenwich have expressed concern about the council's decision to refuse the extension. That bipartisan signal reflects what I suspect many eastern suburbs residents feel: that losing Hyper Karting would be a genuine and disproportionate loss to the community, with nothing available to replace it.

A managed extension - with appropriate conditions if needed, is clearly preferable to closure. Hyper Karting is one of the few year-round active attractions the Entertainment Quarter offers, and its removal would leave a gap that passive retail or dining simply cannot fill.

I respectfully ask that the council give serious weight to community voices in this review and approve the continuation of Hyper Karting's operation.

Thank you for your time and consideration.

Yours sincerely

Dear Shannon,

As a member of Hyper Karting at Fox Studios, I am writing to express my concern and disappointment upon hearing that the venue may be at risk of closure.

Hyper Karting has been an incredibly positive experience for both myself and my son. It has provided us with valuable bonding time and created many memorable moments together. Watching his confidence and skill improve over time, while also challenging myself to improve my own performance, has made it far more than just a casual activity—it has become something we genuinely look forward to.

Beyond the racing itself, the venue fosters a fantastic sense of community. We have met new people, formed friendships, and enjoyed spending time in the precinct even after racing. The staff are consistently welcoming, professional, and passionate, which adds greatly to the overall experience.

Hyper Karting offers a rare all-weather activity in Sydney. Regardless of conditions, it provides a safe, engaging, and social environment for people of all ages. It is the main reason we visit Fox Studios at all—without it, we would have very little reason to return to the area.

From my perspective, it is a unique and valuable addition to Sydney's recreational offerings. It brings people together, supports local employment, and contributes to surrounding cafes and retail businesses.

I would be genuinely saddened to see it close and strongly urge the Council to consider the broader social, community, and economic value it provides. Losing such a facility would be a real loss for Sydney.

Thank you for taking the time to consider this feedback.

Kind regards,
Dan Mousley

Hyper karting has been an important place for people, particularly men, to meet and chat and build connection. Visiting early in the mornings would show this. It has racing and etc, but the true value is the community it allows people (again mostly men) to build. There isn't many places that allow this.

Hello Shannon,

I'm writing offer my thoughts for the above DA submission.

I fully support this proposal.

I'm an electrical sub-contractor to Hyperkarting, located on Level 5 of the Entertainment Quarter (EQ) carpark.

Since its inception, Hyperkarting has injected new lease of life to the EQ precinct. It brings in many paying visitors to the area & had made use of largely unused car parking level.

It has provide part-time employment to myself, but more importantly, full time employment to many people in the operation & management areas of the business.

Its carbon footprint is minimal, compared to other fossil fuelled kart tracks, using rechargeable electric karts.

Its future should not be in question, rather, encouraged to continue to provide high class entertainment in a precinct known as 'The Entertainment Quarter'!

Regards Michael.

Dear Shannon,

I hope this finds you well. I'm writing because I was really disheartened to hear about the potential closure of Hyper Karting at the Entertainment Quarter, and I wanted to reach out as someone who genuinely uses and enjoys the venue.

I live locally and have gone to Hyper Karting on multiple occasions over the last few years - from 6 year old birthday parties, corporate events, parties and with friends / my partner personally. My partner has attended the venue twice in the last two weeks, as he can go with his young nephew, and his dad. There aren't many places in Sydney that can offer genuine entertainment and attraction across ages and demographics. It's also one of the few places where adults can enjoy an activity that doesn't revolve around drinking.

The venue is well connected and serviced by public transport, particularly the light rail which can easily connect people to the CBD, meaning it's a genuine hub for people to meet from across the city, Inner West, Eastern Suburbs etc. I've never had any issues with noise, safety or parking when I've visited, and I'd hate to see it go based on concerns that don't reflect the experience most people are actually having there. It also brings consumer spending into an area that has historically been a bit of a dead zone except for the Hoder - people come for Hyper Karting but stay for a meal, a movie or other activities.

Losing it would leave a real gap in the precinct that I don't think another restaurant or bar is going to fill.

Thank you

Sophie

To whom it may concern,

I am writing to express my strong support for Hyper Karting and to urge you to reconsider any decisions that may lead to its closure.

Hyper Karting is far more than just a traditional venue — it plays an important role in the local community. It provides a unique space where people from all walks of life can come together, often forming friendships well outside their usual social circles. In a time where genuine, in-person connection can be hard to come by, venues like this are incredibly valuable.

It also serves as a much-needed entertainment option in an area that benefits from attractions that draw people in. Hyper Karting brings energy, activity, and economic flow to the surrounding businesses. Without it, there would be a noticeable gap in both entertainment and foot traffic.

On a personal level, the experience of karting offers something that is difficult to replicate elsewhere — a controlled environment where people can safely experience speed and improve their driving skills. It provides an outlet that promotes responsible behaviour by allowing individuals to explore driving performance in a structured and supervised setting, rather than on public roads.

I have had memorable experiences at Hyper Karting, from competitive races with friends to meeting new people who share a similar interest. It's a place that creates lasting memories and positive social interaction.

Beyond the personal benefits, the potential loss of over 150 jobs is significant and would have a real impact on many individuals and families. The value of those livelihoods, combined with the broader community and economic benefits, should not be overlooked.

For all of these reasons, I strongly believe Hyper Karting should remain open. It is a vital part of the community, offering social connection, entertainment, and a safe environment for skill development.

Thank you for taking the time to consider this submission.

Kind regards,
Adam Lackey

Hello.

My friends and I frequency race at hyper kart. That is the one and only reason why we visit entertainment quarter. Whilst there were usually have a meal or beers at the pub.

Taking away hyper karting will also take away customers from the other businesses. Hyper karting serves the community .

There allot of car parking spots being built down the road. Please leave hyper karting alone.

Regards.

David Del Castillo.

Hi There,

I am writing to express my strong support for the continued operation of Hyper Karting on Level 5 of the entertainment Quarter car park, and to encourage its retention as a valued part of the local community.

This business offers a safe, inclusive, and engaging environment that brings together families, young people, schools, local and corporate businesses, and community groups. It has become a destination where people of different ages and backgrounds can connect, participate, and build positive shared experiences within our local area.

This is the exact type of business that should be based in the Entertainment Quarter precinct. It contributes to foot traffic, supports surrounding businesses, and enhances the overall appeal of the location.

Retaining this business would demonstrate a commitment to supporting small business and the value of recreational activities to the community. I believe this is a much better use of community space than additional car parking, when there are a number of transport options available to commuters to the broader precinct. Its removal would represent a loss not only of a business, but also an experience that has proven value to the local area.

I strongly encourage consideration of extending the use of the space for this business. It will continue to deliver a number of social and community benefits that additional car spaces simply cannot.

Thank you for your time and consideration on this matter.

Kind regards,

Daniel Ferrara

Hi Shannon,

This is a response to the decision to not extend the lease for HyperKarting at the Entertainment Quarter in Moore Park and the subsequent DA application that has been submitted to have the decision reviewed.

My daughter is actively employed by Hyper Karting, working 5 days a week for the company, and my husband is an electrician who also provides HyperKarting with his electrical services on a regular basis. I support this DA application for extension of the lease as the company is the employer of more than 150 people.

HyperKarting brings a substantial customer base into the Entertainment Quarter, a business district that would see relatively little passing trade otherwise, therefore substantially supporting other small businesses in the precinct.

On the numerous occasions that I have visited the site, the car park is generally close to empty, only filling to capacity (and an hour long grid lock at the end of events) semi-regularly during large sporting and entertainment events. I would also think the annual rental revenue from HyperKarting would substantially outweigh the revenue received from a few sell out days each year.

As a resident of the City of Sydney's LGA, I am also concerned that the decision to not renew HyperKarting's lease in favour of opening up the carpark floor to more parking spaces is in direct conflict with Clover Moore's vision for a city with reduced car movement. Perhaps the emphasis should be on more public transport access in and out of the Moore Park area rather than increased vehicle movements and the aforementioned grid lock that comes with it at the end of each and every event.

Kind regards,

Helen Thompson

To Whom It May Concern,

I am writing to express my strong support for Hyper Karting and to urge decision-makers to find a solution that allows this incredible venue to remain open.

Hyper Karting is far more than just a leisure facility — it is a genuine community hub that brings people together. I have personally enjoyed karting with friends and colleagues alike, and every single time, the experience has been outstanding. The professionalism of the staff, the quality of the facilities, and the sheer excitement of the karting experience make it truly one of a kind.

Beyond the personal enjoyment, Hyper Karting plays an important role in the wider community. It provides a venue for kids and oldies like me to enjoy competitive karting at the minimal of costs... ie i Dont have to be rich to do this.

It would be devastating to see this venue close over a parking dispute involving 296 car spaces, when so much more is at stake. I sincerely hope that a practical and fair resolution can be found — one that preserves both Hyper Karting and the livelihoods of everyone who depends on it.

If the concern was parking space availability, I urge the city to put more emphasis on the new tram line, make more sense to us public transport rather than driving.

Thank you for taking the time to read my message. I hope it demonstrates just how much this place means to so many people.

Yours sincerely,
Cuong Nguyen
Hyperkarting is my regular gym

Attention: Shannon Rickersey

Hello,

I am writing to provide my support and ongoing use of the Entertainment Quarter car park by Hyper karting. I have attended many sporting events at the Entertainment Quarter and have found there has been adequate parking for all major events I have attended. I have also tried go-karting and it is such a fun and great activity for all ages to enjoy.

As Sydney City, moves to become a more walkable and public transport city and more members of the public utilise public transport instead of private commuting will assist even further with the current capacity of the car parking spaces.

Referring to the S4.55 modification refusal. I believe that the proposal **is** within the public interest as so many members of the community utilise the go karting for a wide variety of different events and caters to a wide range of people of all different ages,

Regards,
Harrison Weir

Hi,

I am writing as a local resident to express my strong support for the continued operation of the electric go-karting facility at the Entertainment Quarter, Moore Park.

As someone who regularly walks to the precinct, I value having accessible and engaging activities available beyond occasional major events. The go-karting contributes meaningfully to the vibrancy of the area and encourages consistent visitation throughout the week.

Removing this attraction does not align with the NSW Government's vision to revitalise the Entertainment Quarter into a year-round destination. The stated objective is to create a lively, activated precinct that attracts both locals and visitors through a diverse mix of entertainment offerings. The go-karting facility directly supports this by driving foot traffic, activating the site during non-event periods, and contributing to the overall experience of the precinct.

From a local perspective, the proposal to remove the facility would result in underutilised space for much of the time and reduce the appeal of the Entertainment Quarter as a place to visit on a regular basis. Retaining it supports both community use and the broader strategic direction for Moore Park.

I strongly encourage approval of this application.

Kind regards,
Evan

To City of Sydney,

To be very honest, 1 floor of parking is definitely not going to solve Sydney's parking issue. Its would be much better if tax payer's money is not used for something this vague. Executives must focus on building better plans for future prospective parkings instead of taking away one of the major sources of entertainment at the entertainment quarter.

I hope common sense will prevail in the lobby.

To whoever is reading this, it is imperative that HyperKarting is not shut down. HyperKarting is a place where people of all backgrounds can come together and race as a community. Each year, hundreds of thousands of people come to HyperKarting to enjoy the services they provide.

It is unfortunate that your end goal is to shut the place down just for another level of parking spaces that provide no extra bonus towards the Moore Park Entertainment Precinct, this creates zero job opportunities for the community, putting more people at risk of being kicked towards the street. Is that really the outcome you want for Sydney, risking people's livelihoods just for some meager parking spaces.

I truly hope that you reconsider the decision to shut down HyperKarting, it would be truly detrimental for the community if the business is shut down to make space for more parking that won't be used most of the year.

Dear Shannon Rickersey

It was very disappointing to see that Council is not renewing Hyper Karting lease of the top level of the Entertainment Quarter parking lot.

Hyper Karting provides for a fun day out for all ages and my kids absolutely love it. Aside from the usual visits to have fun, we have had birthday parties there and twice been there for work-related team building activities. It is also good fun as it can operate regardless of the weather.

It seems illogical to revoke a thriving business' premises in favour of very occasional parking for events. I live in the East and if I am going to an event at or near the EQ precinct, I take transport most often and walk down from Oxford Street, or get an Uber, or get dropped there. Very occasionally for a footy game, I may park on Oxford Street as EQ parking is very expensive and near-gridlocked to get out of at peak times. I certainly have never in my nearly 20 years of living and driving in the East parked on level 5 of the EQ parking - for an event or an everyday visit to the Entertainment Quarter.

I urge Council staff and Councillors themselves to visit that parkade and to see the thriving nature of the Hyper Karting business (which provide employment to youngsters and fun for the whole family) vs the empty nature of that parking garage ~90% of the time; and I strongly urge Council to reconsider and reverse their decision.

Regards

Stacia Super

Dear City of Sydney Council

I'm writing as a parent to ask you to please reconsider any decision that could lead to the closure of Hyper Karting in Moore Park.

Finding activities that are fun, safe, and genuinely engaging for kids isn't always easy—especially ones that the whole family can enjoy together. Hyper Karting has been one of those rare places. It gives kids (and adults) something exciting to look forward to while also being a great way for families to spend quality time together, away from screens.

Losing a venue like this would be disappointing for families like mine. It's more than just entertainment—it's an experience that brings people together and adds real value to our community.

I respectfully ask that you work with the operators to find a way for Hyper Karting to continue operating.

Thank you for your time.

Jasreen

Hi team,

Just writing here to give feedback on hyperkarting in Moore Park. This place is incredibly special to me, it's helped me celebrate a 10th birthday, a 30th birthday and a 40th birthday. It's the most fun I've had in Sydney, without having to drive to the outer reaches of Sydney for another karting experience. It's fun, it's safe. It's actually the only reason I'm drawn into the entertainment quarter, but once I'm there I have always visited cafes and restaurants in the quarter.

Please don't get rid of hyper karting.

And for what.. car spaces? That's a brutally poor excuse. Hyper karting is part of this community and it's the highlight of the entertainment quarter. Please keep it !

Pat

To whom may concern,

Please stop the closure of Hyper Karting as that would be a stupid mistake and would see a lot of job losses and hit to the economy. Also to locals fun and excitement in our lives.

Thanks
Jack

Don't close this down.

You're getting rid of a business that trades all day, every day, just so that you can have more parking for three-hour events every now and then.

Don't you want more people to take public transport? Isn't there a light right that stops out the front? Sydney (city) is already lacking vibe. We don't all want to go to overpriced restaurants and influencer spots. Don't close this down, let some people have some fun!

Nick

To whom this may concern,

Hyper Karting has been such an integral feature to building such a fantastic community and atmosphere at Moore Park, bringing more family and friends together.

Hyper Karting is the only genuine karting experience that Sydney holds, and it could not be in a more designated area, which is so close to the City CBD.

I have enjoyed the facility of Hyper Karting on many occasions and have brought together many friends and family to enjoy as well to bring joy to us all.

Given the state of climate around the world right now, isn't the idea to keep more cars off the road and more public transport to work/sporting events/other events around the city? It does not make sense adding an extra 200 odd car spaces in a carpark that RARELY gets filled to capacity just to make money off parking!

I am strongly supporting Hyper Karting to remain open and trading for many years to come!

Thanks,

Daniel

Dear Shannon and members of the Development Assessment Panel,

I am writing to express my strong support for the continued operation of **Hyper Karting** in Moore Park, and to oppose any proposal that would convert this space into a car park.

Hyper Karting is a valuable recreational and community asset within the Moore Park precinct. It offers a unique, accessible experience that contributes to the area's diversity and vibrancy, attracting a broad cross-section of visitors including families, young people, corporate groups, and tourists.

In contrast, replacing this active use with a car park would significantly diminish the site's social and economic value. While parking infrastructure serves a functional purpose, it does not contribute to the same level of community engagement, employment opportunities, or local economic activity that a destination-based venue like **Hyper Karting** provides.

It is also important to note that the majority of the existing building is already dedicated to parking, with four of the five levels currently operating as a car park. Based on observable usage, these levels are rarely at full capacity. This suggests that existing parking provision is already sufficient and expanding it further would represent an inefficient use of valuable urban space.

Retaining **Hyper Karting** aligns more closely with contemporary urban planning principles, which prioritise activation, experience-based destinations, and the efficient use of space for community benefit rather than passive vehicle storage.

Additionally, Moore Park is already well-served by existing parking facilities and public transport options. Expanding parking at the expense of an established and successful business does not appear to be a balanced or forward-thinking outcome.

I respectfully urge the Panel to consider the broader social, cultural, and economic benefits of maintaining **Hyper Karting** in its current location, and to reject any proposal that would result in its displacement.

Thank you for your time and consideration.

Kind regards,

JAMES TOBIN

Dear City of Sydney

I am writing to express my support for Hyper Karting Sydney and to ask the Council to reconsider any decision that may lead to its closure.

This venue provides a valuable community space and supports over 150 jobs. Replacing it to increase parking—especially when existing capacity is already high—does not seem to deliver greater benefit to the community.

Sydney needs vibrant, social spaces like this, not fewer of them.

I respectfully urge the Council to explore alternatives that allow Hyper Karting to remain.

Kind regards,

Gabriel Hoffmann

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Ms Rickersey,

I am writing to lodge a formal submission in relation to RD/2023/897/A concerning 116 Lang Road, Moore Park.

I strongly oppose any proposal that would result in the closure of Hyper Karting to enable additional parking.

Hyper Karting is a valuable and well-utilised community asset. It provides employment, supports local businesses, and offers a unique recreational experience that attracts families, young people, and corporate groups to Moore Park. It contributes to the vibrancy and economic activity of the precinct in a way that simple car parking cannot.

My family and I recently spent a day there over the Easter long weekend. We travelled in via the light rail from the city, had lunch locally, and enjoyed the Hyper Karting experience. It is exactly the type of accessible, integrated destination that Moore Park should be encouraging — one that supports public transport use and broader visitation to the precinct.

Replacing this type of destination venue with additional parking represents a missed opportunity and, in my view, a step backwards in urban planning. Moore Park is already well serviced by public transport, particularly with the light rail and frequent bus connections. Planning decisions should be encouraging increased use of these services, rather than incentivising greater car dependency through expanded parking.

There is also an environmental dimension that should not be overlooked. Hyper Karting uses electric karts, aligning with the transition to lower-emission technologies. The primary alternative venues, such as those at Eastern Creek, rely on petrol-powered karts and are not easily accessible via public transport, requiring most visitors to drive. Closing Hyper Karting would effectively push people toward higher-emission activities and increased car usage.

Beyond the direct loss of jobs and a popular community facility, the removal of Hyper Karting risks reducing visitation to the broader precinct, with flow-on impacts to nearby hospitality and retail businesses that benefit from its presence.

I respectfully request that this proposal be reconsidered, and that priority be given to retaining and supporting existing community-focused, employment-generating uses of the site. Alternative solutions to transport and access challenges should be explored that align with broader sustainability and public transport objectives.

Thank you for the opportunity to provide this submission. I trust these concerns will be given due consideration as part of the assessment process.

Yours sincerely,
Dave Page

To whom it may concern.

I greatly enjoy hyperkarting as an activity. My uncle and I do not see eachother often, but our quarterly meet up to race is something I hold extremely dear to me. There are no other karting experiences that we are able to both attend as easily as hyperkarting.

I could not imagine how this proposal to close this business has come about, as it is a busy, high energy environment which (as far as I'm concerned) is the only thing people really know Moore Park / the EQ for.

I believe the parking spaces are not anywhere near as important to the EQ simply because of the amount of people who park there FOR hyperkarting. Apart from the fact that you could not convince me to pay the ridiculous carpark price if not for hyperkarting. Perhaps a request to the council to extend the parking limits around the EQ could be a simple solution instead of closing a business that is important to people.

I have worked at the EQ, and I have gone to concerts, restaurants, and shows there. The ONLY thing that makes the EQ stand out is hyperkarting, considering restaurants, concerts/shows, and employment, exist EVERYWHERE. Hyperkarting does not.

Thanks for your time.

Kieran

Dear City of Sydney,

I am writing to express my strong support for keeping Hyper Karting open and to encourage consideration of making it a permanent venue. It is one of the best entertainment attractions in Sydney and a place that many people, including myself, regularly enjoy with friends.

Hyper Karting's electric go-karts make it a modern and more environmentally considerate form of entertainment. It provides a fun, social, and accessible activity that adds real value to Sydney's recreational options and offers a unique experience within the city.

It is also important to note that the nearest alternative go-kart track is nearly an hour's drive away, which makes Hyper Karting an especially valuable local option. For many of us, it is a favourite pastime and a great way to spend time with friends, unwind, and enjoy the city.

Rather than shutting it down, I believe there is a strong case for supporting Hyper Karting as a permanent venue. It is a well-loved attraction that contributes positively to Sydney's lifestyle, entertainment, and social culture, and it deserves long-term support.

I respectfully ask that you reconsider any decision to close Hyper Karting and instead explore the opportunity to make it a permanent part of Sydney's entertainment offering.

Kind regards,
Gus

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

I was extremely disheartened to hear of Hyper Karting at Moore Park potentially being shut to make space for additional car spaces. This seems absurd and counter to other measures to reduce car dependence in Sydney. This is not about accessibility for those that need it, but reeks of greed and short sightedness from a few money hungry and selfish parties.

This venue has become a reliable and accessible source of fun for days and nights out that doesn't rely on going drinking. I brought my friends here on a stag's day when I was my friend's best man, I battled out against my brothers who live interstate multiple times, I had team-building events here with workmates, and I came here with friends after a night of dancing in the rain at liberty hall. I have fond memories here, also do hundreds of thousands of others.

Shutting down this business or otherwise moving it out of this central, sensible, convenient, accessible location is stupid and I am wholeheartedly against it. The City of Sydney should be pushing for MORE conversions of otherwise lifeless spaces like these and should use this business as a case study for what could be.

Please reconsider this proposal to shutter this facility.

Regards,
Jake Spaccavento, Sydney.

To Whom it May concern,

The potential closure of hyper karting has caused much sadness for the motorsporting enthusiasts as well as the general Sydney population. The thought that this joyful place could be torn out from under them for more (or moore..) parking is just ridiculous.

Sydney has some of the best transport infrastructure which makes servicing events easier and should be utilised more often rather than forcing 150 people into finding new work as well as hundreds of thousands of people losing a form of entertainment.

I urge the city of Sydney to rethink this and let the people keep creating memories in this awesome place.

Dear Shannon

Hyper Karting is fun for kids and the community in general.

Its place that's brought so many people together is at risk and created 150+ jobs
Do not get rid of this fun activity just to increase the car park's capacity by 296 car spaces.

Note, this is a car park which already has 1700 spaces and is rarely ever at capacity.

Do the right thing for the community.

Keep Hyper Karting at EQ.

Regards.

Submission in Support of Retaining Hyper Karting

I am writing to strongly support Hyper Karting remaining open within the Entertainment Quarter and not being replaced by additional car parking.

For our family, Hyper Karting has been a huge highlight. Our children, aged 9 and 6, have celebrated birthday parties there and regularly visit on weekends with friends. It is one of the few venues in the precinct that is genuinely designed for children and families, offering an active, safe and exciting experience that keeps them engaged and coming back.

These visits are not isolated; they are often part of a full day out, supporting nearby cafés, restaurants and other entertainment options. Hyper Karting plays an important role in making the Entertainment Quarter a destination rather than simply a place to park cars.

Replacing a well-used family attraction with additional parking would be a real loss to the community. Active venues like Hyper Karting create memories, encourage repeat visitation, and support the long-term vibrancy of the precinct in ways that car parking cannot.

I strongly encourage council to retain Hyper Karting and not displace this valued family-focused attraction, in support of more parking in an already under-utilised car park.

Regards

Beata

Hi City of Sydney,

Please reconsider your decision to deny Hyper Karting to proceed in Moore Park.

As a part of the motorsports community in Sydney I can attest that Hyper Karting has been a key part of my social life.

Hyper Karting has also helped me get into the motorsports industry by supporting my University's motorsports team and providing a platform to socialise. We love Hyper Karting!! The location is prime and the space is much better used for go karting than it is as a car park. My friends and I are only brought to Moore Park for Hyper Karting in the first place, then later we go to the surrounding stores.

Thank you for your consideration, please acknowledge what a huge impact this has on society and the community.

Kind regards,
Kat

Dear Council,

I am writing to formally object to the proposed closure of the Hyper Karting facility.

This venue is a valuable asset to the local community. It provides a safe and structured environment for people of all ages to engage in recreational activity, while also supporting local jobs and nearby businesses. It encourages social connection, offers a positive outlet for young people, and contributes to the overall vibrancy of the area.

For many in the community, Hyper Karting is more than just an driving facility—it is a place where people gather, celebrate milestones, and build lasting memories. Its closure would remove an accessible and inclusive activity that caters to a wide range of interests and age groups.

I understand that councils must balance development, planning, and community needs. However, I strongly urge you to consider alternative solutions that would allow the facility to remain operational. This could include reviewing zoning considerations, implementing noise or operational adjustments if required, or engaging directly with the community and business owners to find a workable outcome.

The loss of this facility would not only impact those who regularly attend, but also reduce the diversity of recreational options available within the area. Retaining spaces like Hyper Karting is important for maintaining a well-rounded and livable community.

I respectfully ask that you reconsider this decision and take into account the strong community value and support behind this venue.

Thank you for your time and consideration.

Kind regards,

Maree

hi,

I'm writing regarding the proposal to shut down hyperkarting from its current location.

I was shocked to hear that such a fun and successful business is at risk of being closed down, simply to reclaim the parking spaces.

When I have attended, there has been ample parking, and so I see little need to reclaim this space.

Additionally, while attending hyperkarting my friends and I went to several of the other businesses in the area for food and drinks.

Please reconsider your decision to reclaim this space, and allow a great business to continue to operate!

Regards,

Adrian

Now why why why would you consider shutting hyper karting down!!! It stimulates night time economy in the area, livens up that whole entertainment precinct too. There is not much fun activities to do in Sydney late at night and hyper karting always hits the spot. It's a disservice to the community that this wonderful place would be shut down!

Please leave it open. One by one these places go until there's none left. Are we not allowed to have fun anymore?

KEEP IT OPEN!!!

To whom it may concern,

I think the proposal to shut down hyperkarting would be unwise financially for the city and unproductive for the community. This location provides ongoing entertainment and engagement for the people of Sydney while also providing a reason for people to visit the ever struggling entertainment Quarter and using the purpose belt light rail that was installed at great cost.

Closing this business in favour of using it for empty parking spaces is not something I am in favour for.

Regards,
Oliver Howden

Hello,

Please do not close down Hyperkarting.

It's a beautiful third place in our city where the community can come together and enjoy each other's company whilst having fun. It's one of few after work activities open til late and is great idea to boost business in the local economy/ EQ precinct .

Many thanks,
Beau

Dear Council,

I write in respect of RD/2023/897/A.

Hyper karting is the first place I ever experienced electric go-karting. I would kindly request the Council to reconsider removing hyper karting from the place.

I'm sure of the fact that the revenue generated from hyper karting will be more than converting the place into a parking space. I have celebrated my birthday and friends' meetups there.

Hello People,

Hyper Karting must stay:

- Whenever we have been on site, the carpark has not even been remotely full
- The people working are hardworking individuals, passionate about their jobs
- We have seen how much joy this organisation brings to thousands of people from all walks of life
- It seems incredible that it has taken so long for this issue to now surface
- It is a unique business model & offers a great experience

Hyper Karting & its associated businesses must be allowed to continue.

Hello,

I am writing to express concern that the above will be shut down. The hyper karting venue is not only great for the local economy but provides fun for my children and friends.

My son started to karting here at the age of 3 and is now almost 5. This business provides very accessible go kart practice for kids and adults alike.

Please reconsider closing this venue, we do not need another carpark, particularly with such ample public transport to the area.

Kind regards,
Aaron M

Dear city of Sydney

I'm writing to you in opposition of the proposal to cancel Hyperkarting's use of level 6 of the current car park at entertainment quarter. It had become a regular staple of family fun for my wife and kids in a safe environment using a space that is neglected 6 days a week and devoid of cars. I urged you to reconsider the social and economic impacts of the current position and enable hyperkarting to continue its business and provide families with fun safe activities that are a point of difference in inner Sydney. There are no other options like HK available within a 10km radius minimum.

Regards

Layton Hinga
Concerned Sydney City resident

Dear Ms Rickersey

I refer to the above mentioned submission number.

I strongly urge you to extending Hyper Karting's permit to allow them to remain in the car park at the Entertainment Quarter, Moore Park.

The car park is a ghost town. Using it for an entertainment purpose means that the building remains in use.

In addition, Hyper Karting brings business to other retailers in the precinct, many of whom would have less patronage if Hyper Karting was not an excellent attraction.

Hyper Karting brings together people from all walks of life, and brings much joy and happiness to many. It gives people of all ages something to do, somewhere to go. A community within itself.

I strongly recommend that Hyper Karting remains in the car park for many years to come.

Sincerely
Michelle Aginsky

Hello,
Why close down a place full of such fun for a carpark?
I have not heard of anywhere else in Sydney or surrounds that has different options for go karting. It is a rare entertainment experience and will take away from the community by replacing it with a carpark. Do cars fill up the existing carpark everyday? I doubt it. Why spend more money on demolishing the hyperkarting entertainment area with a useless, unnecessary carpark. Why not spend that money elsewhere?
I am set to go to the hyperkarting in early June. No way will I miss going there because of the unnecessary close down!!!

Kind regards,
Keep the hyperkarting open and move your carpark elsewhere.

Objection to Proposed Closure of Hyper Karting – Misaligned Parking Justification

Dear City of Sydney,

I am writing to formally object to the proposed closure of Hyper Karting (HK), justified on the basis that the space is required for additional car parking.

Before outlining my concerns, I want to be absolutely clear: I have no financial or business connection to Hyper Karting. I do not receive any compensation, benefit, or incentive related to this matter. This is my independent view as a member of the public who values practical, well-reasoned planning decisions.

The rationale presented does not align with reality on the ground.

The existing Entertainment Quarter car park is demonstrably not at capacity. Replacing a functioning, high-value business with underutilised parking is not a neutral decision — it is a net loss for the community, for employment, and for the local economy.

Hyper Karting is not just another tenant. It is a destination that enables activity that would otherwise not occur. Corporate events, group bookings, and social gatherings depend on venues like this - experiences that cannot simply be relocated or replaced. Removing it does not “free up space”; it eliminates opportunity.

There are also real human consequences. Around 150 people are employed through this business - individuals with families, responsibilities, and livelihoods. Closing HK for the sake of parking that is not demonstrably needed raises serious questions about proportionality and decision-making priorities.

More broadly, this proposal reflects a recurring issue in urban planning: decisions justified by theoretical demand rather than actual usage. Sydney has seen similar missteps before - where changes made in the name of efficiency or optimisation have led to backlash or reversal because they failed to reflect how people actually use spaces.

Equally concerning is the perception that community input often has limited influence on outcomes. Many residents and stakeholders feel that consultation processes can become procedural rather than genuinely responsive. I would strongly encourage the Council to avoid reinforcing that perception in this case by giving this objection the serious consideration it warrants.

I am not opposed to planning for future needs, including parking. However, planning must be grounded in evidence and balanced against existing value. In this instance:

- The parking demand does not appear to justify displacement
- The social and economic value of HK is clear and immediate
- The site currently enables activity that would otherwise not exist

This is, fundamentally, a question of trade-offs -and the current proposal appears to trade a proven, vibrant use of space for a speculative and underutilised one.

I ask that the Council :

- Reassess the actual parking utilisation data before proceeding
- Consider alternative solutions that do not require closure of HK
- Provide a transparent explanation of how this decision serves the broader community interest

Sydney benefits from places that bring people together. Removing one in favour of empty space risks sending the opposite signal.

I would appreciate a clear and substantive response.

Kind regards,

[REDACTED]

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To who it concerns,

I am a regular visitor and member of Hyper Karting at Moore Park and I regularly traveled 45 minutes from my previous residence at Dural to participate in the sport of karting. I am now a resident and rate payer of the City of Sydney and as such would like to express my concern at this facilities potential closure.

Hyper Karting enjoys high participation, is family friendly and actually one of the more affordable forms of entertainment available not only to the local community but those from outside. The decision of council employees to reinstate the location to parking is short sighted and to the detriment of the City of Sydney.

We often talk about wanting the city to be an entertainment hub that has facilities that are available outside regular hours, are safe for the public however this decision does the exact opposite.

I hope that council can see the light and reverse this decision so that we may all continue to enjoy karting while also continuing to limit the impact of cars within the city precincts.

Thank you for your consideration.

Hello,

I am writing to formally express my strong opposition to the proposed redevelopment of Hyper Go karting at Moore park back into a standard car park. While I understand the ongoing discussions regarding urban infrastructure, replacing a unique, high-value recreational space with asphalt and parking bays would be a significant loss for our city's character and community spirit.

As someone who frequently visits the track, I have seen firsthand the joy and connection this venue provides. Most recently, I attended a groom's party there, and the experience was a perfect example of why this place matters. It isn't just about racing; it is one of the few local spots where friends and families can gather for milestone celebrations, creating memories.

The value of a city is measured by its vibrancy and the quality of life it offers its citizens. I urge the committee to consider the long-term social impact of removing this landmark. We have plenty of space for cars, but we have very few places where we can truly engage with one another.

Sincerely yours,
A local citizen and member of our caring community

Hi Shannon, in just emailing to show my support for the business Hyper Karting, which has caused the enjoyments of thousands of people over the last 5 years. I would hate for this to be removed for unnecessary car space. The field is opened up for large events so it has no purpose to add these extra spots as the car park is never full anyway. Hyper karting provides an attraction for people from all over to visit and provide a boost to the local community, the same cannot be said for a car park.

Thank you and kind regards,
Mario krivosic

Hi, it is very disappointing to hear that the council is considering closing Hyperkarting in EQ.

That place has been a great spot that is loved by kids all over Sydney.

My son and daughter both had numerous birthdays there and are regulars at the track. There is no analogous alternative anywhere in Sydney, and closing this spot for the sake of a carpark that will be infrequently used is ridiculous.

Please consider the entertainment value that this business brings to the precinct and allow them to stay. It is invaluable and almost impossible to replicate.

To Whom It May Concern,

I am writing to express my strong support for keeping Hyper Karting open. In South Eastern Sydney, there are very few safe, engaging, and positive recreational options for both young people and adults. Hyper Karting fills an important gap in our community by providing a fun, safe, and well-supervised environment where people of all ages can enjoy themselves.

My daughter will be celebrating her 16th birthday in the coming weeks, and she has chosen Hyper Karting as the place she wants to celebrate with her friends. She is a passionate Formula 1 fan, and this venue gives young people like her the chance to enjoy the excitement of racing in a controlled, safe setting rather than being exposed to dangerous behaviour on the streets, which can make the community feel unsafe at times.

Hyper Karting offers a positive outlet, keeps young people engaged, and provides a safe space for families and friends to come together. It is open throughout the day and night, which makes it accessible and convenient for many households with different schedules.

Closing it down would remove one of the few valuable recreational spaces we have in this area. I strongly urge you to reconsider any plans to shut it down and to recognise the important role it plays in supporting community wellbeing.

Thank you for your time and consideration.

Warm regards,

Kim Cerniglia.

Slowly the government is taking away any joy and activity there is to do in Australia.

You ban everything and stop any fun, and wonder why so many people are glued to their phones, or don't go out and enjoy the country.

And yet again... you're doing the same.

If you shut down Hyper Karting, it just proves how much of a worthless government we have, that don't give a shit about Australians at all.

You may think it's something so little, but you're literally shutting down a business, over what? 100 parking spots? So much for catching public transport...

You're putting many people out of jobs. Over what? 100 parking spots?

Get a grip on yourself. You work for us, we don't work for you. Just remember that.

To whom this may concern,

Hyper karting is a family friendly atmosphere welcoming children from as young as 3 years old.

I took my 3 children aged between 4-8 years old for the first time just last week and they had an amazing time.

It would be such a shame to see this fun place go where it brings many people of the same interests together.

Thank you,
Dina.

Dear Sir/Madam,

I am writing to express my concern regarding the potential decision to shut down Hyperkarting in Sydney.

Hyperkarting provides a unique and valuable recreational experience for the community, offering a safe and controlled environment for motorsport enthusiasts and casual visitors alike. It is not only an exciting activity but also an important social venue where people can gather, compete, and unwind.

Shutting down Hyperkarting would remove a positive outlet for young people and adults, potentially pushing individuals toward less safe or unregulated alternatives. Additionally, the venue contributes to the local economy by creating jobs and attracting visitors, which benefits surrounding businesses.

Rather than closing the facility, I strongly encourage the City of Sydney to consider alternative solutions, such as reviewing operational concerns, implementing stricter regulations if necessary, or working collaboratively with the business to address any issues.

I believe that preserving venues like Hyperkarting is important for maintaining a vibrant, diverse, and engaging city environment. I respectfully urge you to reconsider any plans for its closure.

Thank you for your time and consideration.

Kind regards,

Nik Koncarevic

Dear Sir/Madam,

I am writing to express my strong support for Hyper Karting and to urge you to reconsider any plans that may result in its closure.

Hyper Karting is more than just an entertainment venue—it's a place that brings people together. I've personally had great experiences there, whether it's the adrenaline of racing, the competitive atmosphere with friends, or just having a fun and unique activity to enjoy. It's one of the few places that offers something genuinely exciting and different.

The memories created at Hyper Karting are hard to replace. It's a go-to spot for social events, group outings, and even just a spontaneous night out. Losing it would mean losing a valuable part of the local entertainment scene.

Beyond personal enjoyment, Hyper Karting plays an important role in the community. It provides jobs for over 150 people and offers a safe, engaging environment for people of all ages. Replacing it with additional parking spaces does not provide the same social or economic value that this venue currently brings.

I strongly believe Hyper Karting should remain open. It contributes to the community in ways that go far beyond what a car park ever could, and its closure would be a significant loss for many people.

Thank you for taking the time to consider my perspective.

Kind regards,
Hayden

I just heard you want to turn an epic place where families and friends come to celebrate and enjoy life together, racing the night away, instead of on the streets, into a car park? Surely you got better things to do?

Hyperkart and its community want to be just that a community, right where it's been.

I kindly suggest you find another spot for a carpark. I mean your the city of Sydney. Act like it and find another spot. Hold places of value such as this in high regard. They are what make Sydney great. Not carparks.

Dear City of Sydney Council,

I am writing to express my strong opposition to the proposed expansion of car parking at the Entertainment Quarter. As a resident, I am struggling to understand how this proposal aligns with the City's stated environmental and transport priorities, particularly given the significant impact it would have on HyperKarting — a climate-friendly, community-focused small business that has become a valued part of the precinct.

HyperKarting operates fully electric, zero-emission go-karts and has invested heavily in sustainable recreation. It is exactly the kind of business the City frequently highlights as part of its vision for a greener, more innovative Sydney. Yet this proposal places HyperKarting at risk of closure, despite the fact that the existing EQ car park isn't operating anywhere near capacity. The potential loss of 150 jobs — real people with families, bills, and livelihoods — should be a central consideration in any planning decision.

HyperKarting is not just another tenant. It is an anchor business in the Entertainment Quarter. It draws families, young people, tourists, and locals into the precinct, supporting foot traffic for surrounding restaurants, hospitality venues, and retail operators. Removing an anchor business has predictable consequences: reduced visitation, declining revenue for neighbouring businesses, and a cascading effect that makes the entire precinct less relevant and less viable over time. Decisions like this do not just eliminate one business — they destabilise the ecosystem around it.

HyperKarting also attracts visitors from across Greater Sydney, as well as interstate and international tourists seeking out unique, family-friendly experiences. It is one of the few activities in the precinct that consistently draws people who would not otherwise visit the Entertainment Quarter. Undermining a business with this level of regional pull does not just affect local trade — it reduces the precinct's relevance to the wider metropolitan economy and weakens Sydney's appeal as a destination. The knock-on effects of removing such a drawcard would be felt well beyond the boundaries of the LGA.

Around the world, sustainable motorsport is expanding rapidly, with electric karting and electric racing seen as key pathways for engaging young people in low-emission technologies. HyperKarting is one of the few venues in Australia that offers this kind of accessible, climate-aligned recreation. It stands out as a genuinely sustainable alternative to traditional go-karting venues such as Eastern Creek, which remain fully dependent on internal-combustion engines. At a time when Australians are already dealing with fuel price shocks driven by global instability, it is difficult to understand why the City would consider shutting down an electric, zero-emission motorsport business during a fuel and cost-of-living crisis. Removing a business that actively reduces reliance on fossil fuels — and replacing it with additional car parking — sends the opposite message to the one the City claims to champion.

At a time when Australians are already under immense pressure from rising rents, fuel prices, and the broader cost-of-living crisis, decisions that risk unnecessary job losses are not just local issues. They have consequences for the NSW Government and the Commonwealth, which are both actively trying to prevent unemployment and support industries that contribute to a "Future Made in Australia" economy. Eliminating 150 positions in a sustainable, electrified small business — and risking further job losses through the flow-on effects to surrounding hospitality and retail — runs counter to those broader economic objectives. A decision that destabilises employment in the Entertainment Quarter does not remain a local issue; it becomes a matter that affects state and federal labour market pressures, industry confidence, and the

economic resilience that governments at all levels are trying to strengthen.

This proposal also sits uneasily alongside the City's long-standing justification for removing on-street parking and converting functional two-way streets into constrained one-way corridors to support active transport. Whether or not residents agree with every decision, the message has been consistent: reducing car dependency is essential. Expanding car parking in a high-traffic precinct while simultaneously reducing parking and road capacity elsewhere creates a planning landscape that feels inconsistent and difficult for residents, commuters, and small businesses to navigate.

Many in the community are frustrated by what they perceive as contradictory decision-making under the current leadership. This proposal unfortunately reinforces that perception. It raises legitimate questions about the coherence of the City's environmental strategy and whether the impacts on residents, workers, and small businesses are being fully considered.

Sydney voters are paying close attention to decisions that worsen cost-of-living pressures, eliminate sustainable jobs, or undermine innovative local businesses. These choices matter, and people will remember which leaders protected community assets — and which ones allowed them to be lost.

I urge the Council to reconsider this proposal and to engage in genuine consultation with HyperKarting, its staff, and the broader community. Sydney deserves planning that is transparent, consistent, and aligned with the environmental values the City promotes — planning that supports sustainable businesses rather than undermining them.

Sincerely,
Matthew Ross

Good Evening,

I was saddened to see a post and email regarding the closure of Hyper Karting due to the carpark space being reclaimed.

Do we really need more car spaces? I have been to the entertainment quarter many times and I have not seen the upper levels full ever, even when large sporting events were on. And trust me I know as I travel 1.5 hours from the Hawkesbury to come so no public transport for us! We always park in this carpark and have never had an issue.

I have been here many times over the years for birthdays, dates and more recently getting a chance to drive with my partner who races professionally. As no way in hell you're getting me on a serious race field LOL I prefer the indoor track to others we have gone to as I like the lights and music as silly as that might sound, it really sets it apart for me.

The staff have always been really great, trying to get us into sessions that are less busy so we can go faster and understanding we know how to race so giving us the faster karts LOL On top of this I have had the pleasure of meeting some of the staff off-site when they started endurance karting, young guys who are passionate about what they do.

Please don't shut them down, it will be a massive loss to the local area and it will also impact the entertainment quarter as a whole. I can personally say when I have visited, the dinner or lunch was just an add on to having some races here. Without Hyper Karting I have no real reason to come back to EQ.

I hope this will be reconsidered and they can stay open!

Kind Regards,

Lisa Hilleard

Ms Rickersey,

I wanted to reach out in strong support of keeping Hyper Karting open. As a local resident and regular patron, I know firsthand how valuable this venue is to our community.

Our area already has limited recreational options, and with increased residential density on the way, the demand for quality leisure facilities is only going to grow, not shrink. Venues like Hyper Karting provide something increasingly rare: a unique, accessible, and genuinely fun experience that brings people of all ages together.

Losing HK would leave a real gap in the community that would be very difficult to replace. I sincerely hope the right decision is made to keep it operating, rather than adding additional car parking, which is neither needed nor a meaningful alternative for our community.

Kind regards,
Brooke Kennewell

To whom it may concern,

I am astonished I am even having to write this email. After years of disaster the entertainment quarter is slowly but surely coming to life and finding its purpose.

Hyper carting is a huge part of that success. The car park is NEVER full. If we are talking about closing a day in day out institution for what a handful of major events a year that is surely the wrong approach!

Catch public transport, whatever it takes! I mean the new stadium parking will cover that 5th floor easily!

I think this is a huge mistake and will impact many on a frequent basis including jobs and the overall EQ experience for adults and kids alike.

I know my 5 and 8 year old girls will be devastated.

Thanks for your consideration.

Avi

I think it's silly to close down something that children and adults have a time of their life at. Hyper karts puts a smile on so many people's faces and to close it down to accommodate more parking spaces seems absolutely ludicrous and unfair.

Hyper karts is not just a business it's a place where families go to feel like family. They are welcomed and treated great and I don't think you need more parking in this place. Close down parks or something and make some space for parking or take signs down and allow people to park on the street.

Don't be silly in removing family fun for silly parking spots so you can make more money.

Hi,

I am writing as a member of the local community to express my support for Hyperkart and to request the council's consideration regarding the parking concerns associated with its go-karting activity.

While I am not directly affiliated with the business, I have observed that Hyperkart provides a unique recreational outlet for the community and contributes positively to the local area. Importantly, the operation supports approximately 156 employees, and any disruption may have a significant impact on local jobs and families.

I understand and respect the council's responsibility in managing parking availability, traffic flow, and public safety. At the same time, I believe there is an opportunity to work collaboratively with Hyperkart to address these concerns without requiring a full cessation of operations.

From a community perspective, measures such as better parking management, clearer signage, and adjustments to operating hours could help mitigate the current challenges while allowing the activity to continue.

I kindly request that the council take a balanced approach in considering this matter, supporting both community access to recreational activities and local employment, while ensuring appropriate safeguards are in place.

Thank you for your time and for your continued efforts in supporting the local community.

Thanks,
Bharat

Hi DA Submissions,

I'm writing to share my support for Hyper Kart and to ask that the DA allows the venue to remain open.

Hyper Kart has become a valued part of the local community. It's not just a business - it's a place where families, friends, and young people come together to enjoy a safe and well-run activity. For many people, it's one of the few recreational options around that's exciting, inclusive, and professionally supervised.

Thanks

Dear City of Sydney Council,

I am writing to express my strong support for keeping Hyperkarting Sydney operational and to urge the Council to consider its significant value to the local community.

Over the past several years, Hyperkarting has become an important part of my family's life. All three of my children have celebrated their birthday parties there, and it has consistently provided a safe, engaging, and genuinely memorable experience for them and their friends. As a parent, it is increasingly difficult to find venues that cater meaningfully to a wide range of ages, but Hyperkarting stands out as one of the very few in Sydney that successfully does so.

What makes Hyperkarting particularly valuable is its accessibility and inclusivity. It offers an activity that both younger children and older participants can enjoy together, creating shared experiences that are rare in today's entertainment landscape. In a city where many activities skew either very young or adult focused, this kind of all ages offering is incredibly important.

Beyond personal experience, venues like Hyperkarting contribute positively to Sydney's social fabric. They provide a structured, supervised environment where families and groups can gather, celebrate, and connect. They also support local employment and contribute to the vibrancy of the city's recreational offerings.

Losing Hyperkarting would mean losing more than just a business. It would remove a unique and valuable community space that serves families across Sydney.

I respectfully ask the Council to take these factors into account and to support the continued operation of Hyperkarting Sydney.

Thank you for your time and consideration.

Kind regards,
David Dwyer

To whom it may concern!

Hyper karting is worth more to the area than more car spaces. Removing a key feature of the entertainment quarter would significantly downgrade the area and take away from the idea in the name of "entertainment quarter". If access to public transport was improved instead of adding more carports, more people would likely choose public transport over driving to the venues! Public transport as you well know is better for the environment than individual cars.

Thank you from a hyperkarting fan

Can we have something in this city that isn't apartments or car parks?

Fox Studios is such a soulless husk of a place, the hyperkarts is the only reason to go there.

The Comedy Store, the Cinema, the Hordern - these places are doing just fine with the parking available. They don't need another level of spots at the cost of the only place in that shithole complex where you can hear people actually enjoying themselves.

Don't do it.

PLEASE REPLACE THIS EMAIL TO SHOW YOUR SUPPORT FOR HYPER KARTING

Hyper Karting is currently at risk of closing down, making over 150 people lose their jobs just to increase the car park's capacity by 296 car spaces and we need your help.

If you're a supporter of Hyper Karting, we encourage you to use this email to share your experience and express why Hyper Karting matters to you. Your message can make a real difference.

In your email, please include:

- Why you enjoy Hyper Karting
- Any memorable experiences you've had
- Why you believe it should remain open
- How it has impacted you, your friends, or the community

Every message of support helps show how important Hyper Karting is. Thank you for taking the time to help us keep trading.

Alex C

Dear Ms Rickersey,

I am writing to you as a long-term Sydney parent whose family has been actively involved with Hyper Karting since it first opened. Our son began racing there at just three years old, and the venue has become an irreplaceable part of his childhood and our family's weekly routine.

Hyper Karting is not simply another entertainment venue; it is a true community institution in the Entertainment Quarter. What sets it apart is its unique ability to welcome children as young as 3, allowing them to safely start their motor racing journey in an exciting, electric, and controlled environment. Our son celebrated his birthday there with friends and family, introduced numerous schoolmates to karting, and we continue to visit almost every week, often combining it with the vibrant Saturday markets in the precinct.

In a time when encouraging children to move away from screens and engage in active skill-building activities is more important than ever, Hyper Karting delivers precisely that. It builds focus, coordination, sportsmanship, and confidence while operating reliably rain or shine. For hundreds of young Sydneysiders, it serves as their first real introduction to motorsport, nurturing dreams and healthy ambitions. Closing it down would be a significant loss, especially for the youth of our city, by removing one of the few accessible and safe entry points into this world.

Beyond families like ours, Hyper Karting supports local jobs and draws consistent visitors to the Entertainment Quarter, adding genuine vibrancy and foot traffic to the entire precinct. Converting this high-energy attraction back into underutilised parking spaces feels counterproductive, particularly when the council has long promoted a vision of a city for people, not cars. Hyper Karting embodies that vision far better than empty bays ever could.

I understand the council's concerns regarding parking availability in the Moore Park area. However, given Hyper Karting's proven success since 2021, welcoming hundreds of thousands of visitors, and its temporary approval history, a short extension would allow time for a more balanced solution. Prioritising the return of two car spaces over a thriving community asset that brings people, families, and economic activity to the precinct does not seem to serve the broader public interest.

I respectfully urge you to reconsider the refusal and support an extension or alternative approval that enables Hyper Karting to continue operating.

This decision would protect jobs, preserve a beloved youth-focused venue, and maintain the Entertainment Quarter as a genuine destination rather than just a car park.

Thank you for your time and for the important role you play in assessing developments that affect our community. I am more than happy to provide further details about our family's experience to discuss how deeply this venue matters to families across Sydney.

Yours sincerely

Demetrios Christou

Proud parent and regular visitor to Hyper Karting

Dear City of Sydney Team,

I'm writing to sincerely ask you to reconsider the decision to close Hyper Karting in Moore Park.

This place is more than just an entertainment venue—it's a space where people connect, unwind, and create lasting memories. When I visited, it wasn't just about racing; it was about the experience. I shared genuine moments of joy, met new people, and built friendships that I still value today. Opportunities like that are rare, especially in a busy city where meaningful social connection can be hard to find.

Hyper Karting offers something unique. It brings together people of different ages and backgrounds in a positive, energetic environment. For many, it's not just a one-time activity but a place they return to—whether to celebrate, relieve stress, or simply enjoy time with others.

Closing it would mean losing a vibrant community space that contributes to the social fabric of Sydney. I truly believe places like this play an important role in making the city feel alive, welcoming, and connected.

I respectfully urge you to consider the impact this decision will have on the community. For many of us, Hyper Karting is not just a venue—it's a place full of memories, friendships, and meaningful experiences.

Thank you for taking the time to read this and for considering the voices of those who value this space.

Kind regards,
Jasmeet Singh

To whom it may concern,

I am writing to express my staunch opposition to the City of Sydney's decision to reject the extension of HyperKarting operations on level 5 of the Entertainment Quarter car park until 1 July 2028. Not only does this decision threaten the employment of over 150 (primarily young) employees in a cost of living crisis, but effectively eliminates many Sydney residents' access to a legitimate, accessible and affordable motorsport venue for very little gain.

With almost all Sydney karting venues being found tens of kilometres west of the CBD and costing upwards of \$50 per 10 minute race, HyperKarting has operated as the only affordable (<\$20 at times) and accessible karting venue for a significant proportion of Sydney's population and its closure would heavily restrict access to this sport for all of these residents.

Beyond this, the proposed addition of 296 car spaces used to legitimise this decision is misguided and out of touch with the present state of Moore Park and the Entertainment Quarter. It goes without saying that the dual Allianz-SCG complex comprised of two 40,000+ seat stadiums will simply not benefit substantially from an additional 296 car spaces. The proximity of Moore Park to Central station and the addition of frequent, reliable light rail since the 2019 opening of the L2/3 line improves access to the facilities in a way that this additional parking just never could. To deem a well-regarded business offering affordable, beginner-friendly access to a growing sport less valuable than a 7.7% increase in available parking (taking availability all the way from wildly insufficient to *still* wildly insufficient) is just so disappointing for myself and for many others who frequently make use this venue.

I urge you to reconsider this rejection and to recognise the immense value added to the area by this business: something that could never be equated to such an insignificant increase in parking availability for a venue that has long outgrown the car.

Kind Regards,

Maxwell Forbes

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Sir/Madam,

I am writing as a local resident to express my strong support for the Section 8.3 review application seeking approval for the continued use of Level 5 of the Entertainment Quarter car park for electric go-karting until 1 July 2028.

This facility has become a genuinely valuable part of the local community. My own children absolutely adore it, and it has been the venue for children's birthday parties and family outings. It provides a safe, engaging and unique activity that is not easily replaced elsewhere in the area. From a parent's perspective, it is exactly the type of offering that makes the Entertainment Quarter a destination for families rather than just a transient commercial precinct.

While I understand Council's concern regarding the loss of approximately 296 parking spaces, I do not believe this outweighs the community benefit provided by the facility. In practical terms, the value of an active, well-used recreational venue for hundreds of thousands of visitors each year is far greater than the value of retaining several hundred car spaces that are only intermittently required, primarily during major events.

The precinct is already well serviced by public transport, and many visitors, including families, are increasingly using light rail and bus services to access Moore Park. Outside of peak event periods, it is my understanding that a significant proportion of parking capacity remains unused.

Importantly, removing the go-karting facility would not simply restore parking. It would result in the loss of a vibrant community asset, reduce foot traffic to surrounding businesses, and remove a much-loved activity for local families and children.

In my view, retaining this use represents a far more meaningful and productive outcome for the community than reverting the space to underutilised parking.

For these reasons, I strongly support the application and respectfully request that Council reconsider its decision.

Regards,

Robert Mathews

hi there

As a Sydney local and a regular attendee to hyperkart, I urge you to reconsider extending the licence. Prior to hyperkart, we would hardly ever visit EQ. Hyperkart has driven a lot of traffic to that area and I don't see how bringing an extra car park level would benefit the overall area, esp given the light rail now services that area.

Thanks

Derrick Ttt

To whom it may concern,

What a disgrace to try and close down a business that actually brings people to a precinct that is otherwise becoming defunct - apart from when sports are on at the nearby stadiums and for which public transport has been created for.

During school holidays, for team building days, for birthdays and for family get togethers, we have enjoyed hyper karting as an outing to have fun and bond, and usually follow this with lunch or dinner at one of the restaurants at the EQ.

Without hyper karting, we won't be then also going to the restaurants so the effects will flow over into other businesses- businesses already struggling and that have had a high turnover in recent years.

Black star pastry - gone

The place that was prior to winghaus

Numerous other restaurants that can't survive on the number of people that would only be going to EQ on game days because there is no other reason to go.

Movies? Got to Bondi.

There is nothing like hyper karting nearby and it is for all ages.

Keep it open.

Emma brannigan

To whom it may concern,
Hyper Karting is a one of a kind venue, central to much of Sydney. In the heart of the Moore Park precinct, as you know.

I for one have attended many time with different groups of friends, and the fun we had karting brought us closer together.

The trade off for a few parking spaces is not worth the value of hundreds of thousands of people like my friends coming together to enjoy themselves.

Especially when there are alternative options, like the light rail and Uber available.

I strongly hope you will reconsider shutting HyperKarting.

Sincerely,
Alex Bahn

SAVE HYPERKARTING AT MOORE PARK!!!

We have been hyper carting since the place first opened. It was the ONLY highlight of Covid for our two young boys at the time.

Both of our boys had birthdays there - both of our boys are STILL carting there.

They are now old enough to catch the bus and light rail there. Every school holidays they are there: carting with mates instead of causing trouble with mates and roaming the streets as young teens seem to be doing! AND it means they are OFF THEIR DEVICES! And in environmentally friendly electric carts to boot!

The operators at Hypekarting are first class. Even when we have had to cancel sessions due to illness - they have never had a problem crediting our session for future sessions. Compare this to any other business - cancelling anything pre booked these days means no refund and money lost! The team there has always filled us with confidence.

We live in the inner west - and with both of us parents working - there are no other alternatives that allow our boys to make their own way safely to ... Bankstown carts are way too far - Concord go carts just feel unsafe with petrol carts and fumes.

The light rail has been a game changer for the boys - making it so easy for them to get there on their own. How can government you deliver a light rail and then want to close down the one business that draws an audience to that precinct consistently and not just for a cricket game, footy game or concert!

Our boys - like a lot of others - don't just cart there - they spend (our money) at the various food outlets - which - let's not kid ourselves - struggles to thrive there when there isn't a major event.

And you guys are now wanting to close this place and increase ... PARKING? At a time when we are transitioning away from cars and governments are encouraging public transport (in all forms) ... you want more parking?! This can not be real? In 2026 you really believe that a family friendly, family run business is to play second fiddle to ... car spaces????

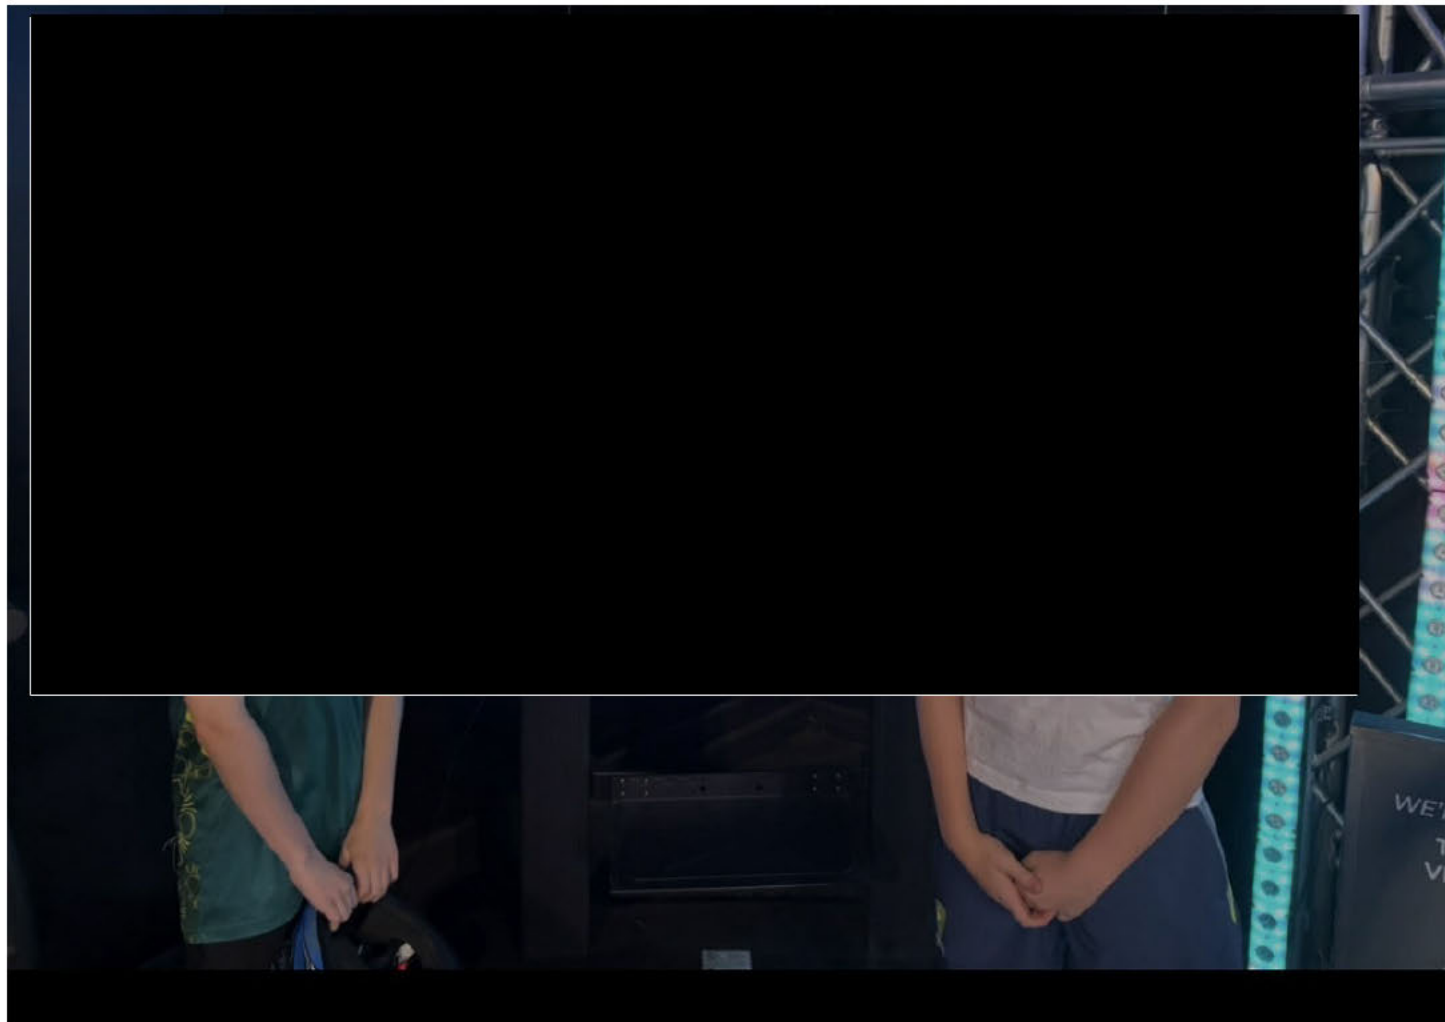

For the sake of the young boys and girls that need something wholesome to do on weekends and school holidays and on those random 'school teacher development' days - keep this place running!!!

Do right thing for the kids (and adults!) and keep this place opened! Sydney needs MORE of these places ... not less!

Thank you for considering my email.

Hi,

It is incredibly disappointing to hear that Hyper Karting is at risk of closing down.

It is a fantastic venue convenient to the cbd for karting. My friends and I have enjoyed many nights out there competing, and I even went on one of my first dates with my now-wife there.

Hyperkarting employs many young people and is a significant draw card to the Entertainment Quarter precinct, also bringing business to surrounding businesses such as cafes and restaurants.

I ask you to reconsider this proposal as so many people enjoy Hyper Karting both for competition and socialising. It would be a great loss to the Entertainment Quarter for it to go.

Yours sincerely,
Chris Lawn

Dear Sydney City Council,

I am writing to express my support for keeping Hyper Karting open. It is a great entertainment venue that provides a fun and safe activity for families, young people, and visitors to Sydney.

Places like this are important for the community because they create jobs, attract visitors, and give young people positive activities to enjoy.

Closing venues like Hyper Karting would mean losing an important recreational space that many people enjoy. I strongly encourage the council to consider the community benefit it provides and look for ways to support it staying open.

Thank you for taking the time to consider community feedback on this matter.

Kind regards,
Cagla Ongel

Dear Shannon Rickersey,,

I am writing to express my support for Hyper Karting. Please do not shut down this facility.

It is a valued part of the community, and I hope that you will reconsider any plans to close it. So many people have been coming to use this track and we don't have any in eastern Sydney.

Thank you for your time and for considering my feedback.

Best regards,

Kieran Bedwell

Closing down Hyper Karting at Entertainment Quarter Moore Park would be a major loss not just for motorsport enthusiasts, but for the wider Sydney community. This venue offers a rare, accessible way for people of all ages to experience high-performance electric karting in a safe and controlled environment, fostering both recreational fun and grassroots interest in motorsports. In a city like Sydney, where space for unique, active entertainment is increasingly limited, Hyper Karting provides an important alternative to passive leisure activities while also supporting local jobs and nearby businesses. Its presence contributes to the vibrancy of Moore Park as a social and entertainment hub, drawing in visitors and boosting the local economy. Shutting it down would not only remove a popular attraction, but also diminish opportunities for community engagement, skill-building, and tourism in the area.

Hello,

I am writing to appeal the decision to close down hypercarting Sydney.

It is one of the more accessible entertainment options near the city for children and adults alike, and one of the main reasons why myself and my peers visit Entertainment Quarter.

We understand parking facilities are important, but so are the reasons why people would visit the quarter to use said facilities.

If there is an alternative which can be found to save Hypercarting Sydney and find alternative parking options that would be great!

Thank you,
Tas

Please do not close down hyperkarting from the carpark. It is such an amazing location and I've been organising events there for years. Brought at least 100 people and been 30+ times myself.

It will make me very sad if it were forced to shutdown and used for car parking :(

To whom it may concern

As a business owner of one of the shops at Entertainment Quarter (Popelino Cafe) I would like to mention the negative consequences that could affect my business if Hyperkarting were to close. We are a small café that relies heavily on the traffic generated by Hyperkarting, as well as on its employees. The large number of people who come because of its operation allows us to stay afloat in this highly competitive industry. We also have six direct employees. Thanks to the customers in Entertainment Quarter, we are able to continue employing these people and avoid the consequences of a future closure if we don't have enough traffic. Therefore, we ask that you allow Hyperkarting to continue operating, as it benefits both the businesses surrounding Entertainment Quarter and the community.

We await your understanding

Fernando Perez

Kia Ora,

As a kiwi who loves Sydney as a city and a place I call a second home, Hyper Karting is one of the most important places that have drawn me to Sydney. Every trip I take to Sydney. I make sure to take as many sessions as possible, which I'm sure for many others is what draws people to your city.

Clearly here it's not just a space for tourism but something that creates community and most importantly, a wonderful third space. It's a unique and fun activity that thousands come to consistently

Please consider the jobs of those who make the HyperKarting community special. Please consider how many people are drawn to Moore Park because of HyperKarting.

Thank you for your time and consideration.

Dear Sydney Council,

Hyperkarting is the only reason why many people including myself head to the entertainment quarter outside of a footy game. It brings people to the area on all days of the week at all times of the day. I regularly go there from the cbd for a lunch time session and then have a few drinks and get food at nearby venues.

It is one of the best things to happen to the EQ and a fun day out for people from all parts of Sydney.

I hope you reconsider and approve the continued usage of the carpark for Hyperkarting.

Cheers,

[REDACTED]

Dear City of Sydney,

I am against the closure of Hyper Karting in the Entertainment Quarter. I've had so much fun there with so many of my mates, we've had great battles there on track. It would be extremely disappointing if Hyper Karting was closed for some extra car parking spots.

Hyper Karting makes the Entertainment Quarter what it is, people come to the Entertainment Quarter for Hyper Karting and end up eating there or visiting other attractions, ITS IS THE MAIN FOCUS OF THE ENTERTAINMENT QUARTER. I have yet to see the carpark full on an off day where there is not a major event on, so what is the point of closing it when there is no interest when there is no major sporting event?

Hyper Karting has created so many memories for not only myself but many of my friends as well. I will be greatly saddened if it does close.

I hope Hyper Karting remains active and running into the far future.

Vinson

This is the Lam family.

We're here to support Hyper Karting!

It's the only place in Sydney where our toddlers can truly enjoy the ride. We visit every month, and always talk about with the kids in just a few more years, they'll be ready for the bigger go-karts!

This is a place we recommend to all our friends with young kids. Because of it, we can easily spend a whole day at Moore Park as a family.

Please don't close this special place.

Regards
Lam

Hello,

Hyperkarting at Moore Park is a fantastic way to have fun for heaps of people who live nearby or come to visit.

We need to rethink how big concrete car parks are used. City of Sydney have championed fewer cars not more with the light rail and public transport to the area.

Moore Park is known as an entertainment destination, so it's fitting that Hyperkarting is kept at Moore Park!

Matiu.

Dear City of Sydney Council,

I am writing to express my strong support for Hyper Karting at Moore Park and urge you to reconsider the decision to close this fantastic venue.

I truly enjoy Hyper Karting because it offers thrilling, electric go-kart racing on Australia's longest indoor track, right in the heart of Sydney's Entertainment Quarter. The futuristic setup with changing layouts keeps every visit exciting and accessible year-round, rain or shine.

I've had multiple memorable trips there with different groups of friends aged 18 to 70, from young adrenaline junkies to older family members celebrating birthdays. Everyone leaves buzzing with excitement and competitive stories. We've had friends travel from all over Sydney to race at this fantastic location.

Hyper Karting should remain open as it provides a unique, family-friendly entertainment option that has drawn over 500,000 visitors since 2021, boosting the local economy and precinct vibrancy.

It has positively impacted me, my friends across generations, and the broader Sydney community by creating jobs for over 150 people and filling a gap for safe, high-energy fun in Moore Park.

The carpark is already a disaster when trying to leave after a significant event; so adding additional parking spots is only going to make it worse due to the poor traffic management plan and inability to clear vehicles quickly.

It really is a mind boggling proposal.

Thank you for considering my submission. Please keep Hyper Karting racing!

Best regards,
Dean Morgan

Please reconsider closing down hyperkarting in Moore Park. There are not enough entertainment facilities (particularly for wet weather) around the eastern suburbs and our kids LOVE hyperkarting. Not to mention I have never had an issue parking at EQ so don't believe more carpark spaces are needed.

Kind regards,
Lauren N.

Dear Lord Mayor Clover Moore and City of Sydney Council,

I am writing as a Sydney resident and supporter of Hyper Karting to strongly urge you to approve the extension of its operations at the Entertainment Quarter in Moore Park.

Since opening in 2021, Hyper Karting has become one of Sydney's most popular and unique attractions. The electric rooftop go-kart track has welcomed over 500,000 visitors, created unforgettable experiences for families, friends, corporate groups, and tourists, and turned the Entertainment Quarter into a genuine destination for fun and connection.

This venue employs more than 150 local people and brings real vibrancy and economic activity to the precinct. Closing it to reclaim approximately 298 parking spaces on Level 5 of a car park that already holds around 2,000 spaces (and is rarely anywhere near capacity) makes no sense. It directly contradicts the Council's stated vision of a city for people, not cars.

Hyper Karting is exactly the kind of innovative, family-friendly, sustainable attraction Sydney needs.

Replacing it with empty car spaces would be a major loss for jobs, community spirit, and the entertainment offering in an area literally named the Entertainment Quarter.

I respectfully ask that Council supports the formal review and grants the short extension so Hyper Karting can continue operating and contributing to a lively, people-focused Sydney.

Every voice counts, and mine is firmly behind keeping Hyper Karting open.

Thank you for your time and for prioritising what truly matters to our community.

Kind regards,
Aco Kovaceski

As a regular visitor to the Entertainment Quarter and a member of the local community, I am deeply concerned that the proposed development threatens the viability of **Hyper Karting**, a facility that provides unique social, recreational, and safety benefits to Sydney.

My objection is based on the following key points:

1. Loss of Vital Community Infrastructure

Hyper Karting is far more than a simple entertainment venue; it is a premier sports and recreation hub. It serves as a cornerstone for:

- **Community Milestones:** A go-to destination for birthdays, family gatherings, and youth engagement.
- **Mental Wellbeing:** A space where residents and workers go to decompress and "cool off" in a safe, controlled environment.
- **Professional Development:** It provides a platform where aspiring racing professionals train for real-world motorsports, contributing to NSW's sporting excellence.

2. Public Safety and Road Awareness

There is a significant, often overlooked safety argument for maintaining high-quality karting facilities. By providing a high-performance outlet for driving, Hyper Karting encourages speed and technical driving to stay off public roads. It is demonstrably safer for individuals to "cool off" and test their limits on a regulated track rather than on our public streets. Removing such a venue risks losing this vital outlet for road safety education and adrenaline management.

3. Misalignment of Land Use

The proposal suggests a need for increased parking or generic parkland, yet the Moore Park precinct is already well-served in these areas.

- **Redundancy:** Adding more car park spaces is a regressive step that contradicts modern urban planning goals of reducing car dependency.
- **Underutilisation:** We do not lack "green space" or empty lots in this immediate vicinity; we lack high-quality, high-engagement facilities that bring people together.

The Entertainment Quarter thrives because of its unique attractions. Replacing a highly regarded and well-attended venue with redundant infrastructure would be a significant loss to the cultural and social fabric of Moore Park.

Not only am I a public attendee of this venue, but also a decorated member of the racing community and retired professional motorsport athlete, I have seen first hand how people learn and develop from services and venues such as Hyper Karting, kids as young as 8 mature incredibly fast compared to everyone else their age, they become more responsible, more independent, completely changing how I view younger generations which seem lost to technology.

Seeing these kids develop gives me hope for the future of not only our community but the world, having venues such as these enables children and adults alike to have these such experiences and lessons, do not be the ones to take this amazing venue from them.

I urge the council to reject this application and protect the diverse recreational offerings that make this precinct a destination.

Best Regards,

Vaughn

Hi there

Closing HyperKart would be an absolute crime. The idea of having the go-kart track spread over a car park top level is genius. We have visited for a birthday event and a team building event. We have also brought the kids and attended as a family. Do not shut them down.

Regards Angie

Hello,

I have been informed that the city is considering to repurpose the venue of hyperkarting. I must say this feels like one of many poor decisions that a global city like ours would be taking. May I ask for further details regarding this consideration? I can personally attest to the value this place has added to me and my family. My 5 year old son absolutely loves the track and the proximity of the location to where we live helps us spend weekends here.

Shouldn't the city consider making places more accessible via public transport than adding more private car spaces, it seems counter productive to our sustainability goals.

I would vote for hyperkarting to stay and continue to provide the fun family entertainment that it does so well.

Cheers,
Mandar Jadhav

PLEASE REPLACE THIS EMAIL TO SHOW YOUR SUPPORT FOR HYPER KARTING

Hyper Karting is currently at risk of closing down, making over 150 people lose their jobs just to increase the car park's capacity by 296 car spaces and we need your help.

If you're a supporter of Hyper Karting, we encourage you to use this email to share your experience and express why Hyper Karting matters to you. Your message can make a real difference.

In your email, please include:

- Why you enjoy Hyper Karting
- Any memorable experiences you've had
- Why you believe it should remain open
- How it has impacted you, your friends, or the community

Every message of support helps show how important Hyper Karting is. Thank you for taking the time to help us keep trading.

Dear City of Sydney Council & Shannon Rickersey,

I'm writing to express my strong support for Hyper Karting continuing to operate in the carpark at the Entertainment Quarter.

Hyper Karting has become a genuinely meaningful activity for me and my family. It's something my son and I regularly enjoy together, and it's given us a fun, active way to spend quality time bonding. In a world where it's increasingly hard to pull kids away from screens, having an experience like this, exciting, social, and outdoors, is incredibly valuable.

Some of our best memories together have come from visiting Hyper Karting. Whether it's the friendly competition, the excitement of improving lap times, or just sharing a laugh after a race, it's created moments that stick with you. It's more than just an activity it's an experience that brings people together.

Importantly, Hyper Karting offers a form of entertainment that is not centred around alcohol. In a city where many social activities revolve around bars or drinking, it's refreshing to have an option that is family-friendly, inclusive, and suitable for most ages in the family. This makes it especially valuable for families, young people, and those simply looking for a different kind of social experience.

I also believe Hyper Karting adds something unique to the local community. It attracts families, groups of friends, and visitors, contributing to the vibrancy of the Entertainment Quarter precinct. It provides an accessible and engaging activity that appeals across age groups, and I've personally recommended it to friends who have also gone on to enjoy it.

From my own visits, I've noticed that the carpark has never been close to full, which suggests that the space is not under pressure and is being put to good use by hosting Hyper Karting. Repurposing part of it for a community-focused activity like this feels like a positive and practical use of the space.

I strongly encourage the Council to allow Hyper Karting to continue operating in this location. It offers clear benefits to families, the community, and the local area, and it would be a real loss to see it removed.

Thank you for considering my feedback.

Kind regards,
Gavin Burns

Hi Shannon, hope this email finds you well.

I am emailing in regarding the potential closure of Hyper Karting at Moore Park.

I have been frequenting the premise for the past year on a weekly basis. It has been a place for me and my friends to have a good time after work and it would sadden me deeply to see it go as we do not have anything similar to it nearby.

The staff there have been more than hospitable to their clients/customers and it would be unfair for them to have to find new employment as I genuinely think they enjoy their work and the environment they have been provided.

I hope you reconsider the approval of the premise.

Kindest Regards,
Vinson Xu

Dear Council Members,

I'm writing to express my strong concern regarding the proposed closure of Hyper Karting.

This venue is more than just entertainment, it's a dynamic, community-driven space that supports local engagement, small business activity, and a unique recreational outlet that is difficult to replace. Its impact extends beyond its walls, contributing to the local economy and offering a safe, structured environment for people of all ages to connect and unwind.

Closing Hyper Karting would not only remove a valued attraction, but also diminish the vibrancy and diversity of our community. I urge you to reconsider this decision and explore alternatives that allow it to continue operating while addressing any concerns constructively.

This is an opportunity to support something that is already working, successfully and responsibly.

Thank you for your time and consideration.

Just another member of the community voicing out to keep Hyper karts alive in Moore Park, this place has been my go to for go karting for the past 3 years. Every time ive come the bottom level carparks were never packed and finding parking was a breeze, so why would you want to shut down such a iconic place for people the meet up and have fun. Plus they always have track variety so it's always something different every time I go compared to other places.

Not to mention with the current fuel crisis you'd really think the 'extra' car spots will be needed at all since a lot of people have opted for public transport.

This is something id highly reconsider and continued to let Hype Karts thrive!

You'd also be forcing hundreds of people to lose their jobs to just by wanting 'extra' car spots.

Regards,
Jamie

Hi

Why are you closing such a beautiful spot that encourages the economy to grow. Hyper karting is a community highlight where friends come to race and when people are encouraged to have some fun safely off the main city streets

Hyper karting as a business must stay in business as there are many beneficial factors that are good for the greater Sydney community.

1. They offer competitive pricing between other go karting businesses and they environmentally friendly. Their go karts are electric.
2. Tracks encourage people to not race on the main roads. Hyper karting is a safe space where we can get the adrenaline rush of racing while in a safe space and off the main city streets. Additionally if we have safe spaces to race each other. This reduces the possibilities of higher performance vehicles on our main roads.
3. Hyper Karting is a main attraction. Hyper Karting a business are operating as a main attraction to the city. They attract people to the entertainment quarter in Sydney where the general public may only visit for the SCG. Allowing hyperkarting to remain operational allows the surrounding businesses to remain afloat especially in this hard social economic time. Businesses are struggling as well as mums and dads across SYD. Having Hyper Karting to be a attraction in Sydney benefits more than having a couple parking spots blocked off

Avenues to work around

If the city of Sydney requires more parking spaces encourage the use of public transport more. The Middle East crisis has encouraged more people to utilise public transportation more and this should be more encouraged. The decrease of use of personal vehicle will allow more parking spaces to be free. Realistically the main use for that parking space is on major events. Major events will require more parking spaces however INCREASE THE WAYS TO GET THE VENUE. MORE BUSES. MORE LIGHT RAIL. Increase the ways to get to the venue. Increase capacity on the lines like the L2 And L3 lines. This mass transportation is being used but add more capacity. Run special service buses to get people there and back to a major hub like central. Increases capacity and the use of public transportation to the venue for stadium use.

ALTERNATIVELY

You could take a slight fraction of the level that hyperkarting operates in to allow vehicles to park on the roof of the car park. Missing one level and only taking a slight bit go the operating area that Hyper Karting utilise FOR ECONOMIC BENEFIT FOR THE GREATER SYDNEY BASIN would allow vehicles to park on the roof of the car park. This could be a semi permanent solution so the city of Sydney can get addition spaces for parking which probably wont even be used at all on off peak times. Working around and with the business is a must to allow both parties to benefit. PLEASE SPEAK TO HYPERKARTING AND WORK WITH THEM TO FIND SOLUTIONS. For all I care you can take my idea. Small area of the business will be taken however they can still operate safely as a business and gain profit and revenue. If more businesses operate in Sydney YOU GET MORE TAX MONEY. THINK OF THAT COUNCIL.

The business Hyperkarting is adding benefits to the surrounding businesses allowing the economy to grow even in harder times. They employ people and they are allowing a safe space that is right in the heart of the city to SAFELY RACE each other with fun track layouts that are changing constantly. Hyperkarting is a benefit to this city and IT WILL BE A SHAME IF THEY CLOSE. If hyper karting is to close under your government just for a couple parking spots I hope they you are aware of the wider impact that you will have on the surrounding businesses within the entertainment quarter. I truly wish you are aware are speaking to relevant bodies to assess the wider economic benefits that hyper karting builds for the entertainment quarter. The entertainment quarter has a staple that encourages people to visit when major events are held.

If you wish to contact me with any ideas or even if I could consult on some ideas please feel free to reach out to myself

Hope you had a great Easter long weekend
Kind Regards
Ryan

Dear Sir/Maam

I write out of concern for the closure of Hyper Karting at Moore Park. It is one of the few places in Sydney, and the only place in inner city Sydney where both kids and adults can enjoy Go Karting. In order for Sydney to be a diverse city offering a multitude of different experiences for all age groups it is essential to make space for activities like go karting. It is extremely shortsighted to remove a well functioning activity and business in favour of parking spaces.

Kind regards

Andy Brown

Hey Team,

Please leave this company alone let them be it's hard as it is with cost of living and every single corner of Sydney is a high rise and every servo has a burger joint, im an owner of a big transport company in NSW, I'm a regular customer 2-3 times a month I visit, every time my stress levels go thru the roof my legs walk me to this joint I race my heart out it feels good, come try it for yourself, the guys down there are so nice so welcoming working trying to earn a living and because you need more car space your going to throw this business out of business that's not fair people come and have a good time all knowing there's no fun places around that area, please re consider your decision and come down and have a race I'm pretty sure the team will give all you council workers a free run on the carts.

Cheers
Bads

Dear Sir/Madam,

I recently visited Hyper Karting at the Entertainment Quarter and wanted to express how impressed I was with the experience. It is one of the few places in Sydney that offers something genuinely unique and exciting for all age groups.

The energy, the crowd, and the overall vibe made the precinct feel alive. It's not just about karting — it's about creating an experience that keeps people staying longer, spending more, and enjoying the area.

Removing such a popular attraction for a car park would take away a big part of what makes the Entertainment Quarter special. I strongly encourage you to reconsider and preserve Hyper Karting as part of Sydney's entertainment future.

Dear Council,

I am writing to formally express my strong opposition to the proposed works that would result in the closure of Hyper Karting.

As a regular customer, I have personally experienced the value this venue brings-not just as an entertainment facility, but as a unique community space that fosters connection, enjoyment, and a sense of belonging. It is a place where people of all ages can come together, unwind, and engage in a safe and exciting activity.

The justification that this space is required for car parking is difficult to reconcile, particularly when the current use delivers clear social and economic benefits. Hyper Karting supports local employment, contributes to the local economy, and provides a recreational outlet that is not easily replaced.

Closing this venue would have a tangible negative impact- not only on the employees and their families, but also on the broader community who rely on and enjoy the service it provides.

I respectfully urge the Council to reconsider this decision and explore alternative solutions that preserve this valuable business while still addressing infrastructure needs.

Thank you for taking the time to consider my perspective.

Kind regards,
Hunter

Hi,

I'm emailing about the potential shutdown of Hypercarkting. This would be a massive loss to the community, speaking as someone who was born and brought up in Sydney and now a mother myself, the community is in need so spaces for fun and enjoyment. Hyperkarting bring joy, connection, sense of community, and we need that in a city like Sydney. We lost Wonderland, the monorail decades back, and continually we lose places with the pretence of efficiency but the places you consider inconvenient are what make Sydney so lively and iconic. This city should be more than a place for people to just work and function, and places like Hyperkarting remind us of that.

Regards,

Fariha Khaled

Dear Shannon,

I hope you don't mind me reaching out, but I felt I had to say something.

I recently heard about the possibility of Hyper Karting Sydney shutting down, and honestly, it hit harder than I expected. It is not just a venue or an activity. It is one of those rare places that truly brings people together.

In a world where everything is becoming more digital and disconnected, Hyper Karting is somewhere people can switch off and be present. The adrenaline, the competition, and the laughter between races create real memories. It is where friends bond, couples go on fun dates, and people step away from their routines for a while.

Places like this are becoming rare.

For many people, it is more than just karting. It is where they celebrate birthdays, unwind after stressful weeks, or simply feel like themselves again. There is something special about the atmosphere you have built. It is exciting, welcoming, and full of life. Losing that would leave a gap that cannot easily be filled.

I can only imagine the challenges behind the scenes, and I respect that decisions like this are not easy. But from the outside looking in, Hyper Karting feels like something worth fighting for. It adds real value to the community, not just economically, but emotionally.

If there is any way forward, any alternative, any chance to keep it alive, I truly hope it is considered.

Because once places like this are gone, they do not come back the same way.

Thank you for everything you have created there. It genuinely means more to people than you might realise.

Warm regards,
Alex

To whom it may concern,

You have spent large amounts of money providing nearby rail services to Moore Park, closing down a legitimate local business for a floor of car parks is essentially saying you've failed. It's saying you haven't done due diligence.

As someone who frequents this venue, as well as the Hordon for gigs and the SCG for sports, I've never had an issue with making the events.

If car parks over local businesses is your answer, then you need to seek better advisement.

Thanks,
Jeremy Burtenshaw

Hi there,

Hyperkarting Moore Park is a great facility that I've frequented many times over the last few years.

There is no equivalent facility so near to the city. It would be a huge loss for it to be closed for parking.

Thanks,
Kento

I would implore council to leave Hyperkarting to continue operating. Not only is it a fantastic venue that brings patrons to the local area for you from all over Sydney, the car park that it resides in is the worst car park in Sydney and when major events are on has taken me over 2 hours on multiple occasions to exit, the car park. Adding more vehicles to this will only cause further delays.

My recommendation would be to find alternate parking solutions for major events in the area, that flow out onto surrounding roads much smoother, and leave a fantastic attraction loved by many to continue to provide entertainment and bring patrons to an area that struggles for foot traffic for the many hospitality venues around the Showgrounds when there are no major events

Hi team,

I am writing to express my strong concern and disappointment regarding the potential closure of Hyper Karting.

Hyper Karting is more than just a recreational venue — it is a unique community asset that provides safe, engaging entertainment for people of all ages. I have personally enjoyed spending time there with friends, and it has consistently been a place that brings people together in a positive and social environment.

Some of my most memorable experiences have been at Hyper Karting, whether it's friendly competition, celebrating occasions, or simply having a fun and active day out. It offers something that very few venues in Sydney do, particularly in terms of accessible, indoor motorsport-style entertainment.

The prospect of closing this business over parking constraints is deeply frustrating, especially considering the broader impact. Over 150 jobs are at risk, and the community stands to lose a valuable social and recreational outlet. Decisions like this should carefully weigh not just infrastructure concerns, but also the economic and social contributions of local businesses.

Hyper Karting has had a positive impact on myself, my friends, and many others in the community. It provides a safe alternative for entertainment, keeps people active, and contributes to the local economy. Losing it would be a significant step backwards.

I strongly urge the council to reconsider this decision or work collaboratively to find a practical solution that allows Hyper Karting to continue operating.

Thank you for taking the time to consider my concerns.

Kind regards,
Steve Moore - [REDACTED]

Dear City of Sydney Council,

I am writing to respectfully ask that you reconsider the decision to close Hyperkarting kart track.

For my family and many others, this track has been far more than just a place to race. It has brought genuine joy to our lives. Watching my kids laugh, compete, and grow in confidence as they race has been incredibly rewarding. Just as memorable are the moments where kids gather trackside, cheering and laughing as they watch parents like me have a go ourselves. It is a rare place where different generations can share in the same simple excitement.

Beyond family enjoyment, the track has also created unexpected and meaningful social connections. On one occasion I found myself racing wheel to wheel with someone who turned out to be an old university friend who had moved abroad after graduation. This reunion only happened because we both happened to be there. Moments like that are difficult to replicate elsewhere and speak to the unique community the track fosters.

Additionally the Hyperkarting track plays a valuable role in supporting grassroots motorsports and engineering pathways. It serves as a practical and accessible environment for my alma mater, the University of Sydney, particularly for students involved in Formula SAE. Facilities like this are essential for nurturing hands-on skills, innovation, and passion in the next generation of engineers and competitors.

In a city where spaces for recreation, community, and hands-on learning are increasingly limited, Hyperkarting's facilities stands out as something truly special. Its closure would mean the loss of not just a recreational venue, but a place that brings people together, supports learning, and creates lasting memories.

I sincerely hope the Council will reconsider this decision and explore ways to preserve and support this valuable community asset.

Thank you for your time and consideration.

Kind regards,

Vincent Vo

Good Evening,

I've just heard the news of the City of Sydney's plan to close HyperKarting. I absolutely object to this preposterous idea.

The fact of the matter is Sydney is still recovering from the COVID-19 pandemic when it comes to activities. When I think of what's left to do here as the entertainment industry returns to normal, HyperKarting was one of the most fun places I have ever been. 100's of jobs for our young people, 1000's of hours of entertainment, all to be ripped up for what, car spaces? How ridiculous. At least you can sleep at night knowing there's a whole level of empty space of car spots during the week!

Shannon Rickersey get your councils act together and do not close this place down. If you really want some more car spaces, stop wasting money on the useless Town Hall square master plan and build some more multi storey car parks somewhere else.

Alex

Do not close down hyperkarts!!! Hyper karting is iconic in the moore park area, everyday hundreds of people go to race including myself. We use it as a way to meet up with friends and family. Getting rid of hyper karts will cause a massive outrage. There are plenty of car parks go look elsewhere.

Please reconsider the action of shutting down Hyper Karting Sydney in Entertainment Quarter.

I myself and so many others have made the trip to Sydney to solely visit this business making it one of the few decent attractions in the city that is very easily accessible.

This business has built a massive brand in such a short amount of time and to get rid of it for a car park space is absurd.

Regards,
Nicholas.

Hi
Please keep hyperkart open, it is a great activity for many generations, is an cultural Contributor to sydney, and excellent to have the space accessible and so close to the city/inner suburbs. Replacing it with car parking is a sad idea and would not even solve a parking issue particularly well.

Please confiding keeping this open

Thanks
Cristy

To whom it may concern,

Hyper Kart is a much loved activity for not only my young family, but many families we know.

To have a service that is local and provides access to ALL Ages is unique to find - kids and adults alike can have the best time ever.

Our family is devastated to hear of the potential closure - especially due to the fact that the car park is never full.

We truly hope you reconsider.

High Five,

Adrian Rokman

To whom it may concern,

I am writing to express my strong support for Hyper Karting and my deep concern regarding the possibility of its permanent closure.

Hyper Karting is far more than an entertainment venue, it is a vital part of the local community. Over the years, it has created a space where people from all walks of life can come together, connect, and share meaningful experiences. The social value it provides cannot be easily replaced.

I have been working at Hyper Karting for the past five years, and during this time it has had a profound impact on my life. It has given me not only financial stability, but also a sense of belonging and emotional security that I had not experienced before. Many of my closest friendships were formed here, and I have witnessed countless others build lasting connections through this shared passion.

Every day, I see people walk through the doors excited to spend time with friends and family. It is a place filled with energy, joy, and inclusivity. Hyper Karting brings together individuals from diverse cultural backgrounds and fosters a genuine sense of unity within the community.

Importantly, I have also seen the positive impact it has on individuals living with disabilities, including those with non-visible or "hidden" disabilities. For many, karting provides not only a sense of excitement and achievement, but also an opportunity to build confidence, develop teamwork skills, and feel included in a supportive environment. This kind of accessible recreational outlet is incredibly valuable and not easily replicated elsewhere.

The proposed closure, which would result in over 150 job losses, would have a significant and lasting impact on employees, their families, and the broader community. Replacing such a meaningful community space with additional car parking, while potentially beneficial in a limited sense, does not offer the same social, economic, and human value that Hyper Karting provides.

I respectfully urge the council to carefully consider the broader consequences of this decision. Preserving Hyper Karting means preserving jobs, community connections, and a unique space that contributes positively to the wellbeing of so many people.

Thank you for your time and consideration.

To whom it concerns,

I am writing to express my strong support for keeping Hyper Karting Sydney open.

Hyper Karting is more than just an entertainment venue it is a unique space that brings people together through fun, competition, and shared experiences. For many individuals, families, and groups, it serves as a go to destination for social connection, celebrations, and stress relief. Its presence adds real value to the local community and contributes positively to Sydney's recreational landscape.

From a broader perspective, Hyper Karting also supports local employment and attracts visitors, contributing to the local economy. Closing such a venue would not only impact staff and customers but would also reduce the diversity of activities available in the area.

There are very few venues that offer the same combination of accessibility, excitement, and community engagement. Losing Hyper Karting would leave a noticeable gap that cannot easily be replaced.

I strongly urge you to consider all possible options to keep Hyper Karting Sydney operating. Whether through operational adjustments, partnerships, or community support initiatives, I believe there is a viable path forward that preserves this valuable asset.

Thank you for taking the time to consider this request. I hope to see Hyper Karting continue to thrive for years to come.

Sincerely,
Jonah

To Whom It May Concern,

I am writing to provide a submission in support of the continued operation of Hyper Karting within the precinct, in consideration of the current appeal proceedings.

I understand that the primary driver for the proposed cessation is the reallocation of Level 5 for parking. If this is a mutually exclusive use, then the decision must be assessed on which outcome delivers the greatest overall value to the precinct.

Hyper Karting is a unique and well-utilised facility that provides an active, engaging and structured recreational environment. It caters to a broad cross-section of the community, including families, social groups, and regularly hosts children's parties and group events. This demonstrates that the venue is not limited to motorsport enthusiasts, but instead provides inclusive access across multiple demographics.

In addition, the facility provides a safe and regulated outlet for motorsport interest, particularly among younger people. This supports positive engagement and helps reduce the likelihood of unsafe or illegal behaviour occurring outside controlled environments.

The value of the facility extends beyond direct participation. From personal experience, my attendance is rarely individual. I consistently attend with three to four additional participants. Each visit typically extends beyond karting to include café or hospitality use within the precinct. This reflects a broader pattern where the venue drives group visitation, increases dwell time, and supports surrounding businesses. The cumulative economic contribution of this activity is not replicated by parking infrastructure.

The facility also supports a substantial workforce, estimated at approximately 150 employees, including university students and younger workers who rely on flexible and accessible roles within the local area. These positions contribute to workforce participation and provide practical experience in operational and customer-facing environments. The removal of the facility would result in a direct loss of these employment opportunities.

While parking is necessary to support access to the precinct, it is inherently a passive land use. In contrast, Hyper Karting represents an active, revenue generating and community focused use that contributes to ongoing precinct activation. Replacing an active use with passive parking reduces the functional and social value of the site.

Given that shared use is not feasible, the complete removal of an established, high value community facility in favour of additional parking capacity represents a disproportionate outcome when considering overall benefit.

In summary, Hyper Karting delivers social, economic, and community value across a wide demographic. Its removal would result in a net loss of activation, engagement, employment, and local business support.

Where a direct trade-off exists, priority should be given to uses that actively generate economic, social, and community value over those that merely support access.

I respectfully submit that continued operation represents a more appropriate and balanced outcome when assessed

against the broader objectives of precinct activation and community benefit.

Thank you for your time and consideration.

Kind regards,
Derryn Lunson.

Dear Sir/ Madam,

Hyper Karting provides an outlet for social development and engagement of adults and children of a wide range of ages. It provides a social glue for intergenerational interactions and cross cultural sharing of fun and memorable experiences for people.

Your argument about needing more car park space has NOT been backed by data of parking utilisation over weekdays and weekends. Car parks are also dead spaces with no societal cohesion based on an exhilarating experience for families and social networks.

With global climate warming accelerating throughout the planet Earth, indoor spaces for social and cultural interactions will become more important and more valuable. Human outdoor activities will become increasingly curtailed by surface temperatures exceeding 30 ° C on land. Past 45° C means death for fit, young human beings. I refer to the jillaroo who died outdoors riding her horse while mustering cattle in the Pilbarra region of Western Australia.

A long term view for utilisation of space in urban areas requires thoughtful consideration by current town planners, as cities are known heat islands.

Best regards,

Elizabeth Li/ aunty Liz,
Regular customer of Hyper Karting,
Regular donor of Climate Council and Greenpeace Asia Pacific,

Dear Councillors,

I am writing to respectfully urge the City of Sydney to reconsider the decision that would force Hyper Karting to cease operations at Moore Park.

From an outside perspective, this appears to be the loss of a high-performing entertainment venue, a significant employer, and a strong contributor to the Moore Park precinct in order to restore rooftop parking capacity. That is a disappointing outcome, particularly when Sydney continues to speak to the importance of vibrant, diverse and experience-led destinations that support both community participation and local economic activity.

Hyper Karting is not a marginal operator. It is a successful and well-regarded attraction that has added genuine value to the Entertainment Quarter precinct, drawn visitors to the area, supported surrounding businesses, and created substantial employment. Decisions of this nature should be assessed not only through a narrow compliance or asset-use lens, but through a broader strategic lens that considers economic contribution, activation of place, jobs, community benefit, and the overall attractiveness of Sydney as a destination.

Importantly, venues such as Hyper Karting also serve a broader public good by providing a controlled, supervised and purpose-built environment for people to enjoy vehicles safely off public roads. At a time when road safety remains a serious community issue, it is difficult to see the benefit in removing a venue that gives people an appropriate outlet for this kind of recreational activity in a managed setting. Facilities that encourage responsible, off-road participation should be seen as part of a safer and more balanced community recreation offering.

I fully appreciate that council must balance competing land use, transport and planning priorities. However, where a business is demonstrably delivering value to the community, local economy and broader public safety outcomes, it is reasonable to expect a more commercially pragmatic and constructive pathway than closure. At a minimum, there should be scope for a transitional extension and genuine engagement on options that preserve both operational requirements and public benefit.

I would strongly encourage council to revisit this matter with a view to reconsidering the current position, working directly with Hyper Karting on an interim solution, and identifying a practical longer-term outcome that avoids unnecessary business disruption and job losses.

Sydney should be backing successful operators that create energy, employment, safe recreation opportunities and positive community experiences — not removing them where a workable compromise may still be available.

I ask that council take a more balanced, strategic and solutions-focused approach in this case.

Kind regards,

Chris Connolly

Dear Council,

I'm writing in support of Hyper Karting at Moore Park.

I've visited Hyper Karting several times and have always really enjoyed the experience. One of the things that makes it special is its location within the Entertainment Quarter - being able to go karting and then easily walk to nearby restaurants or spend time in the area makes it a unique and social experience.

I don't believe there are many places in Sydney, especially so close to the CBD, that offer this combination of activity and surrounding amenities. It contributes to the vibrancy of the area and gives people a reason to spend more time there.

From my experience, the current offering feels well-balanced, and I would personally value retaining unique experiences like this over additional parking.

Thank you for considering my submission.

Kind regards,

Vivian

Hi there,

I would like to express my sincere disappointment to hear about the decision not to renew HyperKarting lease. Having visited this business on several occasions it is quite amazing and one of the star attractions of your so called 'Entertainment Quarter' - without it there is really not much to go there for on a day to day basis.

The carpark is never full outside major events which are on much less often than the enjoyment people get out of HyperKarting.

I would encourage you to reconsider this decision and think about what you will be losing from the area by forcing such a great, family entertainment venue out.

Kind regards,
Daniel Walsh

Removing Hyper Karting for more car park spaces is absolutely nonsense. I've seen the car park to be full only a couple of times, while HK is a major entertainment centre in Moore Park. It attracts many Sydneysiders and visitors to the area, being responsible for hundreds of direct and indirect jobs. Please, allow them to operate. Closing it would be a massive loss to the city.

Regards,

Keoma Borges

Dear Council,

Given its popularity over the past five years Hyperkarting being seen as an “unacceptable” use of parking spaces not only goes against the councils own past judgement (to allow it initially) but also against the nature of why the Entertainment Quarter (EQ) exists in the first place.

What a privilege it is to have something of substance that draws in friends and families together bringing life into the EQ. With the downtrend in night life in many areas of Sydney it's been incredible to experience busy late night karting, a rare night event that doesn't involve drinking. Spurring competition amongst friends and families to come together and enjoy not just karting but the surrounding EQ and ultimately what it means to live in our interesting city of Sydney.

The EQ has had a rich and diverse history from horse racing to public recreation, zoo's and more. With a focus on providing a unique experience for families in Sydney. Hyperkarting is another step in this history and I hope the council looks to continue in this legacy and reverse their decision to not extend HyperKarting's submission

Kind Regards,
Benjamin Sargent

I am writing to oppose the proposed closure of Hyper Karting (HK) at Moore Park.

As a parent living in Sydney, Hyper Karting has been a wonderful and valuable place for my family. My son loves going there. It provides an affordable and accessible way for children and families to experience go-karting without having to travel long distances or incur high costs. Opportunities like this are rare in Sydney.

Hyper Karting is more than just a business. It is a place of joy, confidence-building, and community, particularly for young people. It offers a safe and inclusive environment that encourages participation in sport and recreation.

I am concerned that the closure is being justified by a need for additional car parking, despite the nearby EQ car park not being at full capacity. Replacing a thriving community venue with parking that does not appear to be genuinely needed is difficult to understand.

The proposal would also place around 150 jobs at risk, affecting workers and families who rely on this business for their livelihood.

I respectfully urge Council to reconsider this decision and allow Hyper Karting to continue operating. Preserving HK supports local families, workers, and the broader community far more meaningfully than additional car parking.

Regards,

Gary Chen

Subject: Staff member of Hyper Karting

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Hi City of Sydney,

I am a 17 year old employee at Hyper Karting and I would like to give you my reasons why I love working at Hyper Karting and why it should stay open.

It is a great casual job for people 16+, learning more about the go karting/motorsport industry, learning on the notations on damaged equipment and flat tires, making lots of new friends, and it is a good work experience (especially for my age) for me because it helps learn to build teamwork, time management, deal with complaints or feedback, customer service, and most importantly, providing customers to have a good time on the track, especially with 4 different tracks for different age categories, so all ages can experience.

I enjoy Hyper Karting's control of speed, they set you on a speed you can control and decreases crashes and people who are anxious/nervous as a first timer. I also love how close to the city and public transport it is, so there's not much of a problem having to travel to the western suburbs to go kart.

I believe Hyper Karting should stay open because it brings tourists to experience go karting in Australia, or in NSW particularly, as it is the only electric go karting place in NSW. It also saves a lot of people travel who live in the inner west or the city area to go kart and has accessible public transport like buses and the light-rail.

I hope you take this to consideration.

Kind regards

Scarlett de Roo

Dear Sir/Madam,

I didn't plan to go to Hyper Karting when I visited Sydney and it was a spontaneous decision.

It ended up being the highlight of the day.

Those unexpected moments are what make places memorable. You don't get that from something predictable like a car park.

Kind regards,
Sion

I have been going since it opened and have spread the good word to friends and colleagues who go regularly also. The staff are amazing and if it wasn't for Hyper Karting the Entertainment Quarter would be dead and empty. All the people I know use the precinct for food, movies ect only before or after karting and would go elsewhere to do so if it is shut.

Good evening,

It is imperative that Hyper Karting remains operating at its existing location. Hyper Karting is a venue for all ages and abilities, where so many incredible memories are made daily.

I have personally shared so many irreplaceable occasions with friends and my partner at Hyper Karting since it opened, and have seen first-hand how many more people it brings to the EQ on a daily basis.

I personally know a number of people employed at Hyper Karting that would lose their job that they thoroughly enjoy and source of income if this booming business is forced to close. The closure of Hyper Karting at this venue is strictly against so many accounts of public interest.

Thank you in advance for your consideration of my submission and wishing you a wonderful rest of your week.

Warm regards,

Olivia

Dear Shannon,

I am writing to express my strong support for Hyper Karting and to raise concerns about its potential closure.

Hyper Karting is more than just an entertainment venue—it is a place where people come together to enjoy, compete, and create lasting memories. It offers a unique experience that is not easily replaced, and it plays an important role in the local community.

Personally, I have really enjoyed visiting Hyper Karting. The atmosphere, the excitement of racing, and the overall experience make it a standout destination. It's also a place where friends, families, and colleagues can spend quality time together. Many of my most memorable moments have come from racing there and sharing those experiences with others.

The proposed closure, which would result in the loss of over 150 jobs, is deeply concerning. Beyond employment, Hyper Karting contributes to the local economy and provides a recreational outlet that benefits the wider community. Replacing it with additional car park spaces does not offer the same social, economic, or community value.

I strongly believe Hyper Karting should remain open. It is an important part of the community, and its impact goes far beyond what can be measured in numbers alone.

I urge you to carefully reconsider this decision and take into account the voices of those who value and support Hyper Karting.

Thank you for your time and consideration.

Kind regards,

Chaitanya

Hyper karting brings people to Moore Park. It brings in money to the precinct.

All you're worried about is parking when there is an event at the scg or Allianz. Which is probably once a fortnight on average. So one day out of every fortnight you wish to have more parking. What do you do then on the other 13 days of the fortnight when the car park is empty.

The other 13 days, people are still coming to Moore Park because of hyper karting

Why don't the council build a multi level car park on the empty space of grass outside the order.

Hello,

I wish to oppose the closure of HyperKarting at Moore Park.

We have enjoyed HyperKarting with our four children since it opened, visiting well over one hundred times. It's a fantastic family activity which we can do with all ages and genders in our family - from the 21 and 18 yr old sons to our 16 yr old daughter and 13 year old son. It is a great activity for the older children to do with their friends and they have enjoyed thousands of laps together. We have also been to many children's parties at Hyperkarting - very memorable experiences.

I cannot understand why it is being closed to make room for more parking - never EVER have I seen that car park full - not when I've been for shows, for special market events or for a normal days activity at Hyperkarting. In this day and age, aren't we encouraging people to take public transport for a sustainable future anyway? Is sustainability part of your mandate for the future?

When we come to Hyperkarting we also eat in the EQ, and partake in other activities on offer there, as do all the other customers who use Hyperkarting. Without Hyperkarting to draw us there, the other businesses in the EQ will suffer.

They never seem to be that busy, so this will have a huge impact on them.

Hyperkarting has given us as a family and my children as they grow independent, a safe, enjoyable, cool place to enjoy some fun. I imagine it has done so for many kids, keeping them out of trouble, safe, and enjoying their community.

Please keep this important social meeting place, family fun centre and thriving business open.

Regards,

Felicity

Dear City of Sydney,

I am writing to express my strong support for the continued operation of Hyper Karting at Moore Park and to urge the Council to reconsider any plans that may result in its closure.

For over five years, Hyper Karting has been a standout attraction within the Entertainment Quarter precinct. It has provided a unique and engaging experience for individuals, families, and groups, becoming one of the primary reasons many people choose to visit the area. In a city with no shortage of dining and retail options, Hyper Karting offers something genuinely different - an active, social, and memorable form of entertainment.

Importantly, it serves as a regular weekly activity for many families and friends, fostering community engagement and providing a safe, fun environment for people of all ages. Its presence contributes significantly to the vibrancy and appeal of the precinct, supporting surrounding businesses by drawing consistent foot traffic.

Replacing such a well-loved and well-utilised facility with something like an empty car park would be a considerable loss, not only in terms of entertainment value but also for the overall atmosphere and identity of the Entertainment Quarter. Spaces like Hyper Karting are what transform an area from simply functional into a destination.

I respectfully ask that the Council take into account the strong community value, economic contribution, and unique offering that Hyper Karting brings to Moore Park. Preserving it would ensure the precinct continues to thrive as a dynamic and engaging destination for locals and visitors alike.

Thank you for your time and consideration.

Jake

Dear Shannon,

I want to voice my concern at the prospect of the closure of the Hyper Karting business due to the proposed reclamation of their operating space.

Since its founding, Hyper Karting has become one of Sydney's favourite attractions. The business has taken wasted space and turned it into a cherished venue for parents with kids, young adults, and corporate events.

The company is pioneering homegrown Australian technology in amusement operations. It is led by a young, energetic, and innovative founder who has built something remarkable from nothing.

I implore the council to reconsider its position on this issue, for the sake of the business, its employees, the wider community, and, of course, the Entertainment Quarter, for whom the venue is a major boost of foot traffic to the restaurants and other attractions.

Losing Hyper Karting could only be a setback for the City of Sydney and its goals.

Sincerely,

Nathan

Dear Council,

I am writing to express my strong support for Hyper Karting and to respectfully urge you to reconsider any decision that may result in its closure.

I have visited Hyper Karting many times over the years, especially throughout COVID and in the period since. During a time when options for safe, social activities were limited, it provided an incredible outlet for myself and my friends. The experience of racing together, competing, and simply enjoying each other's company created some of our most memorable moments.

Beyond personal enjoyment, Hyper Karting plays an important role in the community. It offers a unique, high-quality recreational activity that brings people together across all age groups. It supports local employment, with over 150 jobs at stake, and contributes to the vibrancy and appeal of the area.

While I understand the importance of infrastructure and planning considerations, replacing a thriving business and community hub for additional parking spaces does not seem to reflect the broader social and economic value that Hyper Karting provides.

I strongly believe Hyper Karting should remain open. It has had a genuinely positive impact on my life and the lives of many others, and it would be a significant loss to the community if it were to close.

Thank you for taking the time to consider my perspective.

Kind regards,

Daniel

To Whom it may concern,

I did read about the recent dispute in carrying on with the lease agreement for Hyper karts.

Until Hyper karts, I actually had not been to the entertainment quarter ever. I am 38 and live in the Western suburbs of Sydney and come all the way because of how good the experience is. Every time I come, I then go for food and drinks at the surrounding venues.

I have hosted our companies Christmas party every year for three years, hosted many other groups and my sons Birthday which we hired a bus and brought all the families out from Western Sydney to the ET and from all of these events all surrounding businesses benefit from. There are no other go karting experience that is quite like this, and we have Eastern Creek racetrack next to us. Hyper karting and the ET are a full experience now. The Go karting starts with the youngest single driving karts in Sydney, starting at 3 years old, whereas other do not offer this. There are so many reasons why the go karting experience at the ET is what is driving so much foot traffic to the businesses in the surrounding area. If it was to leave, I would welcome them out west as I will be there every other week. The entertainment Quarter will be very much impacted if Hyper karts was to leave or move on. Their battle Kart facility is not the most sort after option, of the almost 100 people I have entertained at Hyper karts; it is the racing that is the winner.

In summary, I think this would be madness to think it would be removed, and this decision needs a serious think about the severity of how this will impact the surrounding businesses.

Thank you,

Ben Lyons

Hi City of Sydney,

I'm writing to you to express why Hyper Karting should not be closed.

First, it brings genuine entertainment to the "Entertainment Quarter." Isn't that exactly the purpose of a precinct like this? It allows people to come together and enjoy activities every day of the week, rather than just on weekends when a game is on.

For a city that prides itself on public transport and cycleways, it makes no sense to close a business like this just to create a few extra parking spots that will sit vacant for over 95% of the year. The city should be promoting public transport and encouraging fewer vehicles on the road, not more.

Lastly, through Hyper Karting, I have made some of the best friends anyone could ask for. Quite a few of us have even taken the skills we learned at the venue and moved into racing as a hobby

Please don't close it, the venue brings so much more to a community than an empty space with yellow lines painted ever will.

Kind Regards,
Joe.

Dear City of Sydney,

I'm writing to express my deep concern about the potential closure of HyperKarting to make way for additional car parking. As a regular visitor and supporter, I believe removing this facility would be a significant loss for our community — not just for racing enthusiasts, but for families, young people, and local businesses alike.

HyperKarting is far more than an entertainment venue. It's a safe, controlled space where people of all ages can experience the excitement of driving, learn sportsmanship, and connect with others in a positive, healthy way. In a city where recreation options are often limited, especially indoors and close to the CBD, this venue brings energy and community life that car spaces simply can't replace.

Beyond recreation, HyperKarting contributes to the local economy. It attracts visitors who dine, shop, and explore nearby businesses — driving revenue for the area. The facility also creates employment for staff, technicians, and support workers, helping sustain small-scale local jobs.

Repurposing this unique place for additional parking sends the wrong message about city priorities. In a time when we should be encouraging active, social, and sustainable uses of urban space, replacing an innovative indoor kart track with more concrete areas for idle vehicles feels like a step backward. We should be striving for a city that invests in experiences and community spaces, not just convenience for cars.

I urge you to reconsider any plans that would force HyperKarting to close or relocate. Please explore alternatives that preserve this exceptional venue, whether through revised zoning, shared-use arrangements, or transport planning that balances recreation with infrastructure needs.

Thank you for your time and for listening to the voices of the residents who love HyperKarting and what it represents.

Sincerely,
Bryce Tickner

Good evening,

My name is Neve Doughty, and it has come my attention that the establishment of 'Hyper karting' is at risk of being shut down to create more parking space. I am sure your facility has already been bombarded by emails, and that is for a good reason.

With the Metro line being so close to Moore park and the multitude of car parking spaces around the Horden Pavillion, it is absurd that even more parking space is deemed necessary, and it is incredibly apathetic to consider closing such an important social space for the community. The karting enjoyers of the Northern beaches, wider community, and especially myself urge you to reconsider or even relocate your development plan.

We ask this of you to protect our beloved social outlet, to avoid overwhelm to the karting establishments of Western Sydney, and to avoid exclusion to karting enjoyers who may not be able to travel to Western Sydney, or whom are too young or inexperienced for their stricter regulations.

As a young females in a male dominated hobby, karting is something that my friends and I adore. However, as we live on the Northern Beaches, Hyper Karting is the closest place that we can go to, and even that is an hour from home. The devastating news that Hyper Karting is at risk of being closed means that my friends and I would have to travel to the borders of Western Sydney, just to pay an even more expensive rate to go karting. My younger sister and her friends are also under the age of 18, meaning that some of the karting establishments in Western Sydney will not even allow them to drive. Karting is something that has always brought my family and friends together, and so to have an karting establishment somewhat close to home is incredibly important to me and to other karting-enjoyers from the Northern Beaches Community.

The Sydney karting community, my friends, my family and I are hoping that you will consider our plea and will not let us down with our request.

Thank you for taking the time to read my message.

Kind regards,

Neve Doughty.

Hi there,

I am writing to express my concern regarding the proposed closure of Hyper Karting for more car spaces. This establishment is not only a source of employment but also an important part of the neighborhood's character and economy.

Closing Hyper Karting would have a significant impact on both the employees who rely on it for their livelihoods and the customers who value its services. It contributes to the vibrancy of our area and supports the sense of community that makes this place special.

Please consider this email and do not move forward with repurposing their space.

Kind regards,

Ali Heffernan

Dear City Council Members,

I am writing in strong opposition to any proposal that would result in the closure of Hyper Karting.

I currently work at Hyper Karting. My income from this role directly covers my rent and living expenses. The closure of Hyper Karting would leave me and more than 150 colleagues without work, causing immediate and serious financial hardship across our community.

It is truly disheartening that this situation has arisen just for expanding parking spaces at the Entertainment Quarter. In my opinion, the value provided by 296 additional parking spaces simply cannot outweigh the livelihoods of the 150-strong workforce at Hyper Karting especially since the light rail stop is less than a 5-minute walk from the EQ.

During my time here as an employee I have realised Hyper Karting is more than a business. It is a place where families celebrate birthdays, friends make lasting memories, and people of all ages enjoy a unique experience together. Venues like this are rare and very hard to replace once they are gone. I implore the Council to attempt to address the parking needs in some alternative form, rather than sacrificing the entertainment venue.

I trust the Council will consider the human cost in making any decisions that would involve the closure of Hyper Karting.

Thank you for your time and consideration.

Sincerely,
Mihir Suman Avalakki
Team Member, Hyper Karting

Attention: Shannon Rickersey

Good afternoon Shannon and Colleagues,

I am writing to provide my support and ongoing use of the Entertainment Quarter carpark by Hyper Karting. I have attended many sporting events at the Entertainment Quarter and have found there has been adequate parking for all major events I have attended. I have also attended Hyper Karting and it is such a fun and great activity for all ages to enjoy.

Sydney City is becoming a more walkable and public transport-oriented city and more members of the public utilise public transport instead of private commuting, which will assist even further with the current capacity of the car parking spaces.

My view is that the proposal is within the public interest.

Kind regards,
Lara Fitton

Hi Shannon

I was disappointed to learn of the refusal to extend the consent for the operation of Hyper Karting at EQ.

This carpark has NEVER been full in the whole time since it opened. There is no way extra parking demand is needed, other than MAYBE on the odd peak-use occasions. Furthermore, any suggestion that car parking should be prioritised over other uses goes directly in the face of environmental progress, which is the responsibility of all levels of government.

Hyper Karting is a community asset of the highest order that adds materially to the attraction of EQ as a precinct, and is a major contributor to the viability of the other businesses in the precinct. The loss of Hyper Karting will have negative implications to the broader use of this important community precinct.

I wish to object in the strongest possible manner to the actions that have been taken by an unelected panel that does not represent the wishes of the people. I urge you to reconsider and reverse this ill-conceived decision.

Regards
Andrew

Dear Shannon,

As a mother of a young child in the eastern suburbs we have been recently introduced to Hyper Karting, by using the 'mini' track for young children.

My son absolutely loves it and it is a great addition to the Entertainment quarter offering, of which we wouldn't visit if it wasn't for Hyper Karting.

Living in the eastern suburbs we are blessed with beautiful beaches and parks such as Centennial and Queens Park's. Despite this there is a real lack of options for children's activities in the area. We often travel long distances to access options such as Tree Tops (St Ives and Baulkham Hills), Indoor activity centres (eg Five Dock) and Bounce trampolining (Northern Beaches), amongst many others including in the outer Western Suburbs of Sydney, all of which involves lengthy travel times.

I do find the lack of child focused activities in the east, which is no doubt in part due to property prices and rents, as incredibly frustrating and would be devastated if Hyper Karting in Moore Park was forced to close, in particular if this was for additional car parking which in my mind is ridiculous given there is always ample capacity there. The only time I imagine there is a need for the parking spaces would be during events at the stadiums, and if we were to lose a much needed and enjoyed activity for our local children, for more parking for the 'footy' I would be both devastated and angry.

I am available at anytime to discuss further.

Kind regards,

Jennifer Griffiths.

Dear Council,

I believe the public interest is positively served by the extension of D2023/897 for continued use for electric go-karting and a section 8.3 review is warranted.

Indeed, the increase in carparking usage prima facie seems as odds with the strategic direction of Council to plan for 'a city for walking, cycling and public transport' (<https://www.cityofsydney.nsw.gov.au/strategies-action-plans/community-strategic-plan>)

This minor exhibition of motorsport is arguably a small piece of cultural infrastructure which Council recognises the strategic need to retain as per its Cultural Strategy 2025-2035 (<https://www.cityofsydney.nsw.gov.au/strategies-action-plans/cultural-strategy-2025-2035>)

In line with Council's Community Strategic Plan (Sustainable Sydney 2030-2050), this usage promotes a 'lively, cultural and creative city' for those in our community who are young and those young at heart - what an enjoyable way to encourage tourism for a sustainable activity in line with Council's strategic aims of 'eliminating fossil gas use' as per its Environmental strategy 2025–2030 (<https://www.cityofsydney.nsw.gov.au/strategies-action-plans/environmental-strategy>)

Yours sincerely,

Sam Bush

Good Evening,

To Whom It May Concern,

Me and the lads have little time off work in our lives. We are a group of registered nurses and doctors working in a busy metropolitan ED (across a few hospitals and care flight services now) who come to hyperkarting to have some fun and get our stress levels under control. Every time we come to the venue the car park is nearly not even 1/4 full.

I personally and my friends who I am messaging on behalf of would really appreciate this venue staying open. They have been providing us with lots of good experiences and memories for a while now and they put in effort in keeping track well maintained and up to date.

Thank you for your attention.

Kind Regards,

Andriy Pyanov

To whomever it may concern

I came across news that Hyperkart is going to be shut.

I have had great experience there.

And since after my marriage I am waiting for perfect time to be there again . And bring friends and family there .

There are lot of jobs lot of people going to get out of business .

A lot of homes going to starve.

Plus Sydney is going to loose such a good place for fun and entertainment.

Please do reconsider the closure of the Hyper Karting rink.

It is rare to see people in western Sydney have opportunities for nightlife and I fear that if you shut down this place you are risking alienation with future voters of your electoral and also diminishing the economic value of the area by its closure.

We do not need more profitable businesses that have a tandem-positive effect with other local businesses that help generate revenue for your local landlords it would be a real shame for patrons to have less of a reason to spend money in your area.

Do better or risk votes simple as.

Dear City of Sydney,

I'm writing to express my support for Hyper Karting remaining open.

I understand that at times it may seem that additional parking could be useful for certain events. However, for the vast majority of the time there is already a large amount of parking available in the area. The occasional need for extra parking, essentially one more level, does not outweigh the value of keeping this business operating.

Hyper Karting brings people into the area, creates jobs, and offers a unique entertainment option in Sydney. It's something that families, groups of friends, and visitors can enjoy. It also adds to the local atmosphere and is a small attraction for people visiting the city.

Personally, the last time I went I brought three of my mates from South Australia who were visiting Sydney for the weekend. We decided to go to Hyper Karting and they absolutely loved it. They all said it was a great experience and something they didn't expect to find in the city.

Places like this are rare and worth keeping. The community value, tourism appeal, and employment it provides far outweigh the limited benefit of a small amount of additional parking.

Kind regards,
Nicholas Barr

Hello Council,

Given the carpark capacity is rarely filled, there must be a solution to share the space.

I have used the Hyper karting facility many times for clients and for leisure and I believe it contributes to our city. Please find a way to make it work and benefit all, thank you.

Regards,
Mark.

Dear Council,

I am writing to express my strong opposition to the proposed closure of Hyper Karting.

Hyper Karting is far more than just a business—it is a vibrant community hub that brings people together, offering a safe, exciting, and inclusive space for individuals and families alike. It provides a unique form of recreation that is not easily replaced, contributing significantly to the social fabric of our community.

The justification for closure—that the space is needed for additional car parking—raises serious concerns. From all indications, the existing EQ car park is not operating at full capacity. Replacing a thriving, well-utilised community venue with underutilised parking infrastructure does not appear to serve the best interests of the public.

Equally important is the human impact of this decision. Hyper Karting supports approximately 150 employees—real people with families, financial responsibilities, and livelihoods that would be abruptly disrupted. Closing the venue would have immediate and far-reaching economic and social consequences for these workers and the broader community.

I urge the council to reconsider this proposal and explore alternative solutions that preserve both the existing parking needs and this valuable community asset. Decisions like these should reflect not only infrastructure priorities but also the wellbeing, employment, and social connection of the people they affect.

Please take into account the significant role Hyper Karting plays in our community and the unnecessary harm its closure would cause.

Thank you for your time and consideration.

Jacqui Ledger

I am writing to share my support towards HyperKarting.

This place means a lot to me, both as a workplace and just somewhere I genuinely enjoy being. It's honestly the most fun I've ever had working anywhere. The environment is something special. Everyone gets along, people support each other, and there's a real sense of community that you don't usually find in jobs like this.

Some of my best memories have come from being there. Whether it's working alongside an awesome team or just seeing how much fun customers have, it always feels like a place full of energy and good vibes. It's not just a job, it's something people actually care about.

It also brings so much life to the Entertainment Quarter. Hyper Karting is one of those places that people go to for fun, to hang out, to make memories. Replacing that with more parking just doesn't feel right. You'd be taking away something unique and meaningful for a lot of people.

It's also really hard to ignore the fact that over 150 people could lose their jobs. That's a huge impact, not just on individuals but on the whole community around it.

I truly believe Hyper Karting should stay open. It's more than just a business, it's a place that brings people together and actually makes a difference.

Thank you for taking the time to read this.

Kind regards,
George Hatzi

Dear Council,

I am writing to express my strong support for Hyper Karting and to respectfully request that you reconsider any decision that would result in its closure.

Hyper Karting is far more than just a recreational venue. It is a valuable community asset that provides employment for over 150 people, many of whom are young workers gaining important skills and experience. At a time when job security is increasingly important, preserving these opportunities should be a priority.

In addition to its employment contribution, Hyper Karting offers a unique and inclusive space for families, friends, and local businesses to connect. It promotes social engagement in a safe, controlled, and positive environment, something that is increasingly important in today's communities.

Importantly, this is an electric go-karting facility, which aligns with broader environmental and sustainability goals. Supporting businesses that invest in cleaner, more sustainable technologies reflects a forward-thinking approach and sets a positive example for the wider community.

Closing a thriving local business to accommodate additional parking raises concerns about the long-term vision for our area. While parking is important, it should be balanced against the social, economic, and environmental value that businesses like Hyper Karting bring.

I respectfully ask that Council consider alternative solutions that allow Hyper Karting to continue operating while addressing any parking concerns in a more balanced way.

Thank you for taking the time to consider community feedback on this matter.

Kind regards,

Vitia Bejsak

Dear City of Sydney,

I am writing to respectfully request that you reconsider the decision to close Hyper Karting.

Hyper Karting has become a much-loved venue that provides a safe, exciting, and inclusive space for families, friends, and members of the community to spend quality time together. It offers an activity that appeals to a wide range of ages and encourages people to get out, be active, and connect socially in a positive environment.

Places like Hyper Karting are increasingly rare — somewhere families can go for shared experiences away from screens, celebrations with friends, and memorable outings that bring the community together. For many people, it is more than just an entertainment venue.

I kindly ask that you consider the strong community value Hyper Karting provides and explore any possible alternatives that would allow it to remain open. Preserving spaces that promote fun, safe recreation for families has a lasting positive impact on the local area.

Thank you for taking the time to consider this request and the voices of community members who value what Hyper Karting brings to our area.

Kind regards,

Sarah G

Dear Ms Rickersey

We have found great social and community benefit from the Moore park hyperkarting facilities and community. An extension of lease for the venue serves many great outcomes as opposed to just parking that is available in many other guises around the complex.

My children love the ability to learn to kart in a safe environment and as a parent the ability to park and have multiple options for food and other entertainment at the same location is incredibly valuable that is not available elsewhere in the inner city

I trust you will consider this broader community good and outcome in your thoughts.

Kind regards

Ralph [REDACTED]

I'm writing to you because I'm genuinely gutted to hear that Hyper Karting might be forced to close just to make room for more parking at the EQ.

The Entertainment Quarter is supposed to be about *entertainment*, and Hyper Karting is one of the only things actually bringing people there. My friends and I go there specifically for the track—we definitely don't go there for the car park.

It feels like a massive step backward to tear down a world-class, electric racing track. we should be encouraging people to use it, not building more levels of concrete for cars that sit empty most of the week.

Please don't let a thriving local business and a great community spot get paved over. Sydney needs more fun things to do, not more places to park.

Council can't be serious to take away a very popular recreation facility for a few upper level car spaces that are rarely used?? The karts also bring in more business for the bars and restaurants at Fox. Isn't it good to let kids have some fun under supervision than causing problems elsewhere with nothing to do. Isn't it the owner of the Carpark that should decide how it is used?

To whom it may concern,

I'm writing in support of the HyperKarting team based at Entertainment quarter. I think this is a fantastic small business and should be supported, instead of ousted for more car parking. It's a perfect activity for this location and should remain there.

NSW Government needs to get its act together with regards to public transport to this venue. Not eliminate going concerns for more parking.

Yours sincerely

Alex Manchester.

Good evening,

Hyper Karts is the only go karting option close to the City of Sydney. I live in Redfern and my sons enjoy this as a holiday and wet weather option. I wish to support Hyper Karts remaining at the Entertainment Quarter. I do not support the extension of the car park given the public transport options available to the EQ, Allianz and SCG (where I am a member of both). This DA runs counter to the significant investment made in public transport and keeping the EQ appealing to wide market segment.

Regards,

Andrew

Hyperkarting at Moore park is a central part of our family's routine. It helps my girls with their confidence and is so much fun. The place is always busy and a great community. You must be nuts to force it shut for car park. You have heaps of unused concrete spaces you can convert. Leave hyperkarts alone.

Besides why suddenly the need for more parking? Shouldn't people be walking or using public transport? Don't enable more laziness.

I wanted to write in support of hyper karting which is the only facility of its type and provides driving skills and enjoyment for all ages over yet another multi story car park.

Many families in the greater area have this as the driving place they can utilise regularly

It would be a huge loss to the area if it were to go . There are few things at the entrainment quarter that provide this kind of interactive fun that is safe for children and young adults . So many are passionate about it in this area

Please note all local schools also use this for constant children's parties

Best
Charlie

Hi,

I have worked for Hyper Karting for nearly two years now, but way before that I was already a loyal customer of the business.

Shutting it down due to car spaces doesn't make any sense since firstly, that car park is never full, but not only that, a new entire car park is being built right next to the stadium.

As an international student, as a motorsport fanatic, but also as an employee, please don't take such a special place away from us.

Businesses and places like this are what make me proud to call Sydney home.

Thank you.

Kind regards,
William

Dear Council Member,

I am writing to express my strong support for HyperKarts in the EQ, and to encourage the City of Sydney Council to consider ways in which it can actively support and promote businesses of this kind instead of transitioning it to car parking space.

Having frequently gone to Hyper Karts with friends/family and corporate events alongside other events at the EQ I can say with confidence that I have never had any issues parking at the location - nor seen the car park full at any time day or night. It seems beyond ridiculous to include additional carapace in an area that has empty spaces and public transport available all for a corporation to marginally make more profits.

Thank you,
Sophie

Dear City of Sydney Council,

Keep hyperkarting at the entertainment quarter. I go there almost weekly & end up having dinner at the local restaurants prior.

If hyperkart leave the entertainment quarter every restaurant & pub will be directly effected negatively as it will greatly lower their customer base.

Dear Shannon,

I am writing to express my strong support for the continued operation of Hyper Karting at the Entertainment Quarter in Moore Park.

This venue represents a highly successful and valuable use of space that delivers clear economic, social, and community benefits. Since opening, Hyper Karting has attracted hundreds of thousands of visitors, created more than 150 jobs, and contributed meaningfully to the vibrancy of the precinct. Its presence aligns directly with the broader vision of activating Moore Park as a year-round destination for entertainment, hospitality, and recreation.

From a user perspective, the argument around parking constraints does not reflect the lived reality. Having attended the venue multiple times, I have not experienced any issues with parking availability or access, including during busy periods. In addition, the location is well-served by public transport, further reducing reliance on parking capacity. It also appears that the car park has only reached full capacity on a limited number of major event days, indicating that the current allocation is both practical and sustainable.

Importantly, Hyper Karting has transformed an underutilised section of the car park into a thriving, high-quality attraction we all enjoy for various personal events (Birthdays, dates, buck's/hen's parties). Not to mention this is a healthy alternative to drinking in a pub. It is not easily replaceable - there are no comparable experiences within a wide radius in Sydney - and it plays a key role in drawing visitors to the area, supporting surrounding businesses and increasing overall foot traffic.

The public response further reinforces its value. I have just noticed that with over 5,800 Google reviews and an average rating of 4.7, it is clear that Hyper Karting is widely loved and strongly supported by the community.

Retaining Hyper Karting is not only a logical decision based on current usage data, but also a forward-looking one that prioritises people, experience, and economic activity over underutilised space. Reverting this area back to parking would represent a step backward in the evolution of the precinct.

I strongly urge you to reconsider the decision and support the extension of Hyper Karting's operation.

Kind regards,
Bogdan Turinskyi

Hi Shannon,

Hyperkarting offers a unique karting experience in Sydney. I don't think shutting it down for more parking is the right solution for Sydney.

Kind Regards

Mark Irwin

Dear Council Members,

I am writing to express my strong support for Hyper Karting and to urge you to reconsider any decision that may lead to its closure.

Hyper Karting is far more than just an entertainment venue - it is a vibrant community hub that brings people together from all walks of life. It provides a safe, engaging space for families, friends, and colleagues to connect, celebrate, and unwind. The social and recreational value it adds to our community cannot be overstated.

Additionally, the potential loss of over 150 jobs is deeply concerning. At a time when job security is so important, removing a business that actively contributes to local employment would have a significant negative impact on many individuals and families.

The proposed replacement - expanding car parking capacity - does not appear to offer the same level of community benefit. With an already substantial number of parking spaces available that are reportedly underutilised, it is difficult to see how this change serves the broader interests of the community.

I respectfully ask that you take into account the social, economic, and community value that Hyper Karting provides. Please prioritise preserving spaces that foster connection, support local employment, and enhance quality of life.

Thank you for your time and consideration.

Sincerely,
Rose Tweedale

Dear City of Sydney team,

I am writing to express my strong support for keeping Hyper Karting open at Moore Park. As someone who regularly visits Hyper Karting with family and friends, I have seen firsthand how valuable it is as a safe, family-friendly activity that is easily accessible from the city.

The venue provides a rare, positive recreational option for people of all ages, and its central location makes it an ideal place for families, young people, and visitors to enjoy time together. Closing it to create an empty car park would remove a vibrant community asset that brings joy, activity, and connection to many Sydney residents.

I respectfully urge the City of Sydney to reconsider the decision and explore alternatives that allow Hyper Karting to continue operating for the benefit of the community.

Thank you for your time and consideration.

Kind regards,
Richard

Good evening

I'm writing to express my support for Hyper Karting at the Entertainment Quarter.

It's a valuable space for the community, giving people a place to come together and enjoy an active, social experience. It's also clearly well regarded, with strong Google reviews reflecting the positive experiences of many visitors.

The location is highly convenient and accessible, making it easy for a wide range of people to visit. Importantly, it also supports surrounding businesses, as many visitors stay in the area to dine, shop, and spend time locally, contributing to the broader local economy.

Overall, Hyper Karting adds real value to the area, and I hope it continues to be supported.

Best regards

Dinar Izmagilov

To Whom It May Concern,

The Hyper Karting tracks and electric karts are a much loved pastime of many kids, teenagers and adults in the community, including my own family. It provides a place for teenagers to enjoy themselves, preventing them from getting up to mischief. There are karts and tracks to suit a wide range of ages. My youngest son drove for the very first time in a kart at Hyper Karting. I look forward to Hyper Karting hosting my sons' birthday parties but the actions of the City of Sydney might, sadly, prevent this.

My work colleagues enjoy it, also. My team at work has had a team bonding evening competing against each other. I look forward to my next work team bonding event at Hyper Karting and I'm sure my colleagues would too. It'd be both a shame and an outrage to close Hyper Karting - just a short trip away by tram for many adults working in the Sydney CBD.

There is no need for extra car parking at the Entertainment Quarter. Whenever I have used the car park, it has not been full. Instead, we should be encouraging more people to catch public transport such as the convenient tram line nearby. With a national fuel supply issue, should we be encouraging more car use?

The Hyper Karting business at the Entertainment Quarter is inimitable - it's truly a unique experience with activities such as Battle Karting where interactive images are projected on the floor for the drivers of the karts to interact with.

The community needs Hyper Karting to remain open at the Entertainment Quarter. Hyper Karting creates joy and happiness for the community whereas allowing more cars to park at the Entertainment Quarter just encourages and would contribute to pollution.

Regards,
Paul Lange

Hello,

I am writing this email in support of retaining the licence for the Hyper Karting venue at the Entertainment Quarter. (Not the car parking quarter).

I strongly believe that it is councils role to prioritise the reduction of car parking spaces overall and invest in and support public transport options, leisure facilities and employment as a priority. I would be interested to know how increasing car park spaces aligns with the council sustainability / net zero targets?

I have attended a work function and children's birthday party at Hyper Karting and believe it is a wonderful use of the rooftop space.

I am aware that there are longer term plans to reinvigorate and redevelop the overall EQ site, but in the interim I would be surprised if adding a few additional parking spaces in place of a vibrant and unique entertainment attraction is going to increase utilisation of the site overall.

The decision to not renew the current lease for Hyper Karting does not make sense, unless there are other factors that have not been publicly disclosed.

Best Regards
Jane Crocker

To the City of Sydney

Hyper karting is an iconic sydney business that delivers great benefit to the community, drawing many people to the fox studios precinct.

Before closing the venue it would be sensible to investigate the impact on surrounding businesses before permanently closing the business.

If the business is forcibly closed, what is sydney council doing to help the employees find alternative employment?

There are many reasons to close the existing grass parking areas. But the net impact of these changes is negative and affects those who are less able to mitigate these impacts to their lives.

This is before considering current economic uncertainties that are increasingly affecting living costs.

Now is not the time for this change. Hyper karting should be allowed to continue operating.

Dear City of Sydney,

I am writing to express my strong support for the Hyper Karts development application (RD/2023/897/A) at 116 Lang Road, Moore Park.

As a karting enthusiast who has personally enjoyed Hyper Karts many times, I can attest to its vital importance as a community gathering space. This venue is far more than a business—it is a thriving hub for socialising, recreation, and entertainment that brings people together from across the region.

Every time I visit, the facility is bustling with families, friends, and enthusiasts enjoying quality time together. Hyper Karts provides an irreplaceable outlet for entertainment and community connection that enriches the lives of hundreds of people regularly.

Beyond its social value, Hyper Karts is also a significant local employer with over 150 jobs on the line. The modest additional parking being requested is a practical and necessary measure to ensure the venue can continue serving our community sustainably.

I strongly urge Council to approve this application and support the continuation of this essential community asset.

Yours sincerely,

Safwaan Shaikh

To whom it may concern,

The decision to potentially close Hyper Karting represents a clear lack of judgement when it comes to what the public actually wants / needs from the entertainment quarter. To strip the precinct of one of its busiest attractions serves little purpose other than to alienate potential visitors for what may seem like a short term gain, but from what I have seen in my years of visiting the entertainment quarter, will prove detrimental to the future of the facility.

The increase in public parking will not increase the volume of visitors, based on my experience in fact it may serve to have the opposite effect. As a membership holder for the Sydney Sixers, me and my dad used to always park in the entertainment quarter carpark when we first started visiting. However we realised the carpark was expensive and slow, often being stuck in there for hours. Such was the enormous wait we would play street cricket in the carpark with strangers until the traffic finally cleared. In recent years, we have simply taken the train/light rail, and found this to be far easier and cost effective. Increasing the capacity of the carpark will only increase the slow exit times, and further discourage new and current users to use the facilities. Nobody will be encouraged to buy extra tickets to events or be encouraged to drive, as these people will have already figured out the parking facilities are unintuitive compared to the much more convenient public transport. You would be serving a target audience of people who won't use your facilities, or people who will, come to learn how impractical it is, and be encouraged to stop using it.

Visits to Hyper Karting has been the only reason I have ever entered the entertainment quarter in the past couple of years. It has served as an excellent experience for both friends and family, and is somewhere I can see myself continuing to visit for many years to come, which I'm certain is the case for a great many people. Stripping the space of its main attraction will prove an extremely terrible blunder, especially at a time where electric go-karting facilities will only increase in popularity due to the ongoing fuel crisis. Conventional petrol karting facilities have already begun to increase their pricing, which will no doubt send customers to Hyper Karting in droves. Depriving the Sydney CBD of a popular facility which only has the potential to become more popular in the very near future makes no sense at all.

I hope some serious consideration is given into the potential consequences this choice could have if the wrong decision is made. From the perspective of someone who frequents your facility, the choice is extremely simple. Strip the facility of Hyper Karting, and I will no longer visit the entertainment quarter, a decision which will be taken by many others like me both young and old. The people who use the new parking spots will come to learn how impractical the EQ parking is and soon they will become parking spots for ghosts. Keep Hyper Karting, and me and many others will continue to visit and spend money at the quarter for many years going forward.

Thank you very much for your attention in this matter.

Regards,

Eric Stuart-Jones

Dear Shannon,

We are alarmed to hear the council wants to shut down Hyper Karting in Moore Park. There is plenty of parking available and it is not always full.

So why this decision to shut the karting when it serves a large constituency of carters from many suburbs apart from Eastern Suburbs. I come from Drummoyne and my group of friends come from suburbs around here like Glagesville, Hunters Hill etc.

You guys shut it down and we have to go all the way to Minto or Wollongong to enjoy karting. Please give it your deepest consideration as it is the step to F1 for the kids as a sport.

Thank you.

Dear Sydney Council,

I am writing to express my concern regarding the closure of Hyper Karting Sydney and the broader impact this decision will have on the community.

While the venue itself has been a much-loved entertainment space, what is particularly worrying is the potential loss of employment for around 150 staff members. This represents a significant number of individuals and families who may be affected, creating financial stress and uncertainty at a time when job security is already a major concern for many.

Beyond the direct job losses, the closure of a venue like this also impacts the local economy, surrounding businesses, and the vibrancy of the area. Hyper Karting Sydney has been a unique attraction that draws people in, and its absence will be felt across the community.

I urge the Council to carefully consider the wider social and economic implications of this closure and to explore any possible alternatives or solutions that could help preserve jobs or support those affected.

Thank you for taking the time to consider this matter.

Isabella Scaunich.

On Tue, 7 Apr 2026 at 19:57, [REDACTED] <[REDACTED]> wrote:

Objection to Proposed Closure of Hyper Karting – Misaligned Parking Justification

Dear City of Sydney,

I am writing to formally object to the proposed closure of Hyper Karting (HK), justified on the basis that the space is required for additional car parking.

Before outlining my concerns, I want to be absolutely clear: I have no financial or business connection to Hyper Karting. I do not receive any compensation, benefit, or incentive related to this matter. This is my independent view as a member of the public who values practical, well-reasoned planning decisions.

The rationale presented does not align with reality on the ground.

The existing Entertainment Quarter car park is demonstrably not at capacity. Replacing a functioning, high-value business with underutilised parking is not a neutral decision — it is a net loss for the community, for employment, and for the local economy.

Hyper Karting is not just another tenant. It is a destination that enables activity that would otherwise not occur. Corporate events, group bookings, and social gatherings depend on venues like this - experiences that cannot simply be relocated or replaced. Removing it does not “free up space”; it eliminates opportunity.

There are also real human consequences. Around 150 people are employed through this business - individuals with families, responsibilities, and livelihoods. Closing HK for the sake of parking that is not demonstrably needed raises serious questions about proportionality and decision-making priorities.

More broadly, this proposal reflects a recurring issue in urban planning: decisions justified by theoretical demand rather than actual usage. Sydney has seen similar missteps before - where changes made in the name of efficiency or optimisation have led to backlash or reversal because they failed to reflect how people actually use spaces.

Equally concerning is the perception that community input often has limited influence on outcomes. Many residents and stakeholders feel that consultation processes can become procedural rather than genuinely responsive. I would strongly encourage the Council to avoid reinforcing that perception in this case by giving this objection the serious consideration it warrants.

I am not opposed to planning for future needs, including parking. However, planning must be grounded in evidence and balanced against existing value. In this instance:

- The parking demand does not appear to justify displacement
- The social and economic value of HK is clear and immediate
- The site currently enables activity that would otherwise not exist

This is, fundamentally, a question of trade-offs -and the current proposal appears to trade a proven, vibrant use of space for a speculative and underutilised one.

I ask that the Council :

- Reassess the actual parking utilisation data before proceeding
- Consider alternative solutions that do not require closure of HK
- Provide a transparent explanation of how this decision serves the broader community interest

Sydney benefits from places that bring people together. Removing one in favour of empty space risks sending the opposite signal.

I would appreciate a clear and substantive response.

Kind regards,

[REDACTED]

To Whom it May Concern,

Dear City of Sydney Council DA,

I am writing in regards to Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021.

Hyper Kart ('HK') is more than a business. It's a place of joy and belonging. And behind it are 150 real people with families to feed and bills to pay - who will lose their jobs overnight if this closure goes ahead. All because of a car park that doesn't even need the space.

I have regularly attended corporate events hosted at HK. It's contribution is not just for children on weekends but provides a venue space mid-week when traffic in the general area is low. Following events at HK, groups regularly spill over into the entertainment center.

I hope all the above will be taken into consideration when renewing HK's lease and access over the space.

Yours sincerely,

Jonathan Lee

Dear City of Sydney

My son is an employee at Hyper Karting Moore Park. Is it true you're trying to shut it down just in order to gain a couple more car spaces?

My son makes his living out of it, absolutely loves that place and it would be a shame to see it vanish.

I myself have gone there to race with him a couple of times and it is great fun, a very nice family venue.

This venue generates more customers for the whole entertainment quarter and really makes the EQ thrive.

Now with the new car park that is being built next to the Allianz Stadium, it would be honestly nonsense to give all of that up for just another hundred or so spaces, and removing one of the nicest options in the EQ.

Thank you.

Ana Paula Graziottin

To whom it may concern,

I'm completely shocked to hear about the planned closure of Hyper Karting at Moore Park. Not only have my children loved being patrons of this business but HK have also supported my preschool by providing us with kart tyres for our sustainability projects. I can't fathom the reason being the need for more parking as not once in the numerous times I've been to Moore park have I ever seen the car park anywhere near capacity and highly doubt with the current petrol crisis this will change.

Please reconsider this plan, maybe look at laying off the person who said there isn't enough parking, and leave Hyper karting where it is.

Thanks,
Naomi Smyth

Hi Shannon

The decision to not renew the contract for a Hyper Karting show a lack of foresight of Sydney City Council.

1. The number of car parking spots this would free up during major sporting events is insignificant compared to the number of patrons attending SCG or Alliance Stadium. The car park will be empty for the majority of the week.
2. Sydney City Council has been actively encouraging the use of public transport (light rail) to attend major events, why the change of stance ? Should you not be liaising with Transport NSW for increased services ?
3. Other businesses in the Moore Park precinct will suffer a loss in income - after my employer's event at Hyper Karting we went 10 pin bowling then went to one of the bars for a drink and dinner. How many other businesses will close as a result of the loss of income.

Honestly, Sydney City Council is required to reverse the decision to allow this thriving business to continue - this is a fantastic place for people to meet and have some great fun.

Louis Richard Geroje Calleja
49 Brown Street
Paddington
NSW 2021

Dear Council Representatives,

I am writing to formally and strongly object to the proposed removal of the Hyper Karting facility at the Entertainment Quarter.

This decision, if implemented, would represent a significant and deeply disappointing loss to the local community. Hyper Karting is not merely a recreational venue it is a vibrant, engaging, and constructive outlet for families and young people. My children, in particular, have developed a genuine passion for the facility. It provides them with enjoyment, social connection, and a safe, structured environment that is increasingly rare.

The removal of such a facility raises serious concerns about the council's broader commitment to supporting family-oriented, accessible, and positive community infrastructure. Decisions of this nature should not be taken lightly, particularly where there is clear and ongoing public value being delivered.

To be direct eliminating a well-utilised, much-loved facility without a compelling and transparent justification risks alienating families and undermining confidence in the council's stewardship of community assets.

I urge the council to:

Reconsider this decision in full

Engage meaningfully with the community before proceeding

Provide clear reasoning and explore viable alternatives that preserve access to the facility

For many families, including my own, Hyper Karting is not an incidental attraction — it is a valued and regular part of our lives. Its removal would leave a noticeable and unwelcome gap.

I would appreciate a formal response outlining the rationale behind this proposal and any opportunities for community consultation or reconsideration.

Yours sincerely,
Louis George Richard Calleja

To whom it may concern,

I'm writing to express my strong support for the review of the DA application relating to Hyperkarting at the Entertainment Quarter, Moore Park.

Hyperkarting is more than just a recreational facility, it is a significant contributor to the economy supporting 150+ jobs. The loss of these jobs would have an immediate impact on the workers as well as the broader community benefitting from the venue.

Prioritising car spaces over an established entertainment venue raises grave concerns about alignment with the city's broader vision. A people focused city should prioritize activities that brings life to precincts rather than increasing car spaces.

The entertainment quarter, by its name is intended to be a destination for entertainment and community engagement. However, removing key attractions like Hyperkarting is stripping the precinct of what makes it appealing.

Additionally, existing evidence suggests that the parking in the area is sufficient with the car parking reaching capacity only a few times in the last 5 years. Moreover, future developments under the Allianz stadium are increasing the capacity further. It really is difficult to see how converting hyperkarting to car spots delivers more public benefit than a thriving and well utilised entertainment venue.

I urge the council to reconsider its position and support the continuation of Hyperkarting, in line with a vision that prioritises people and jobs over car dependence.

Regards
Ansh Nayar

Council, please reconsider the move to shut down Hyper Karting.

Not only are they an incredible business that has made memories, but brought much needed life to the entertainment quarter district that has been lacking for so long.

I would not have dined or otherwise visited the EQ over the last few years if it weren't for Hyper Karting. Shutting them down would have far reaching impacts on local businesses in their vicinity.

Thank you,

Matt Watson

To whom it may concern,

I along with many residents of Sydney, condemn in the strongest terms the proposal to get rid of the Hyper Kart facility on Moore Park. I not only have enjoyed visiting but have taken friends and family there from both overseas and interstate. It is a world class facility and being so close to the city easily accessible. Please consider the impact not only to the community but to the people that would lose their jobs. Please consider this feedback as part of the proposal.

Mark F

Keep Hyper karting alive!!!!

It's community, laughter, joy!!!

Dear Scumbags!!!

I'm writing to you not just as a customer, but as someone who has witnessed firsthand the impact Hyper Karting has had on its community—on individuals, families, and the broader local economy.

Closing Hyper Karting would not simply mean the loss of a business. It would mean the loss of a space where people come together, where friendships are built over shared adrenaline, where young drivers find passion and purpose, and where countless memories are created every single day.

In a time where genuine, real-world experiences are becoming increasingly rare, Hyper Karting stands as something different—something important. It gives people a reason to get off their screens, to engage, to compete, to laugh, and to connect. That is not easily replaced.

From a business and community standpoint, its value goes far beyond entertainment. It provides jobs, drives foot traffic to surrounding businesses, and contributes to the vibrancy and identity of the area. Removing it leaves a gap that no ordinary venue can fill.

If there are concerns—financial, operational, or regulatory—then let's address them. Work with the community, engage with stakeholders, explore solutions. There are always pathways forward when the will is there.

Because once it's gone, it's gone. And with it goes something that cannot simply be rebuilt elsewhere—the culture, the energy, the loyal following that Hyper Karting has earned.

I urge you to reconsider any decision that leads to its closure. Preserve what has been built. Support what continues to bring value. Fight for something that matters.

Hyper Karting is not just a business.

It's an experience.

It's a community.

It's worth saving.

Sincerely,
Chris

Hi there

I am a local resident and oppose the closing of hyperkarting in favour of extra car park space at EQ. Hyperkarting adds a unique entertainment option at the EQ. Adding car park spaces seems ridiculous at a time where cities should be moving to favour mass transit systems. Additional car spaces will only encourage more congestion, pollution and less reason to go to EQ.

Thank you
Vidit

Hi,

I would like to submit that, at a time when we are trying to move towards greener cities. I find it puzzling that an entertainment location, while privately owned, however enjoyed by the community, would be abandoned in favour of parking spaces.

Kind Regards,
Jack

Dear City of Sydney council members,

I am writing to respectfully urge you to reconsider the proposed closure of Hyper Karting, a venue that has meant far more to my family—and many others—than just a place for recreation.

As a parent of two young children, aged five and four, I have witnessed firsthand the incredible impact this venue has had on their lives. What started as a fun outing quickly became something much deeper: a genuine passion for karting. In a world where safe, engaging, and confidence-building activities for young children can be hard to find, Hyper Karting has been exactly that—a rare and valuable space where my children feel excited, capable, and inspired.

Beyond the activity itself, what truly sets this venue apart is the environment created by its staff. The workers are some of the kindest, most patient, and genuinely caring people we have encountered. They go above and beyond to ensure every child feels safe, included, and encouraged. As a parent, there is nothing more reassuring than knowing your children are in such capable and compassionate hands.

Hyper Karting is more than just a business—it is a community hub. It brings families together, fosters confidence in young children, and provides a safe environment for them to explore new interests. Closing it would not only take away a beloved local venue but also remove a meaningful outlet for families like mine.

I understand that councils must make difficult decisions, balancing many competing priorities. However, I sincerely ask that you consider the broader social value this venue provides to the community—particularly to young families. Opportunities like this are not easily replaced.

Please reconsider this decision and explore alternatives that would allow Hyper Karting to continue operating for the benefit of the community it serves.

Thank you for your time and consideration. to my family—and many others—than just a place for recreation.

Kind regards
Shehan Rajakumar

Entertainment quarter doesn't need more car park space - it needs places to gather and to entertain. Hyper karting is an awesome business and venue which allows friends, racing enthusiasts and corporate events to gather and have fun.

Please reconsider the move to close hyper karting to simply regain car park space.

It adds so much to the entertainment quarter.

To whom it may concern,

Just wanted to express our sincere concern about Hyperkarting potentially closing down. My family and I think that having a place as such is an excellent added value to the Entertainment Quarter and that Sydney needs a place like this that welcomes all patrons, Especially in this area.

Not long ago, we celebrated my son's birthday there and we couldn't have chosen a better place. The smiles and simple thrills the kids and parents got out of their experience there was unmatched.

I'd encourage you to take sometime and go for a gokart drive there, enjoy your time and live that experience with your friends before a decision is made.

Please keep this place operating for the sake of all customers and for the sake of the workers who do their best in running this amazing place!

Thank you for your attention to this matter.

Regards,

Joelle

My family have been loyal patrons of hyperkart since 1875. It's such a shame to see an icon, older than both the SCG and QVB, forced closed over something so silly as some extra parking.

The light rail was introduced to disincentivise driving to the eq.

Hourly parking fees were introduced to disincentivise.

Free pt initiatives, rail link busses, personalised drone drops, all introduced to incentivise non-car transit.

So many initiatives exist to bring people to the EQ by public transport.

Now they're being done away with so the pool of parking can be increased by 7%.

And who's going to drive anyway what with the energy crisis

Dear City of Sydney Planning Team,

I am writing to express my strong support for the Section 4.55(2) modification application D/2023/897/B by Carsingha Investments Pty Ltd. Hyper Karting on Level 5 of the Entertainment Quarter car park at 116 Lang Road, Moore Park, provides a unique, family-friendly entertainment option in Sydney.

This electric go-karting facility creates jobs, attracts visitors, and enhances the vibrant Moore Park precinct without compromising parking availability. With the original consent expiring on 1 July 2026, approving the extension to 2028 would preserve this community asset amid growing demand for experiential activities.

Please consider the public benefits and prior operations in your review. Thank you for your attention.

Best regards,
Hugo

Dear Sir/Madam,

We are strongly against the closure of Hyper Karting.

Sydney city council has done everything it can to limit cars coming into Inner Sydney. Now it claims it needs more parking spaces when the car park is never full. We use the car park weekly and we have never had to go any higher than level 3.

On top of this forcing 150 employees to find new jobs in the current climate is not acceptable for an additional 250 parking spaces that will be used once or twice a year.

Our family has been using hyper karting for more than 12 months and it will be missed if it is closed. The next closest facility is over 45 minutes away.

The entertainment quarter needs hyper karting.

To whom it may concern,

I'm writing to share a few thoughts on the upcoming closure of Hyper Karting at Moore Park. It's a bit of a shame to see it go, though I suppose the priority is returning that rooftop to its original state as a car park.

It is worth noting, however, that the car park rarely seems to struggle with capacity as it is. It's an interesting choice to trade a popular, active business for extra empty spaces, especially when the city often talks about reducing car dependency and supporting local entertainment.

If there is any flexibility to let them stay for another year or two, it would certainly be a more useful use of the space than what is currently planned. I'm sure I'm not the only one who would prefer to see people using the area rather than just more concrete.

Regards,

Vik

Dear Shannon Rickersey,

I write to formally object to the proposed development at 116 Lang Road, Moore Park, which would see the removal of the karting track in favour of additional car parking.

This is a deeply disappointing and short-sighted decision that warrants serious reconsideration. Hyper Karting is not a trivial operation. It employs approximately 150 people and represents exactly the kind of entrepreneurial, community-facing business that Sydney should be actively supporting, not displacing. To sacrifice 150 jobs and a thriving, year-round attraction for the benefit of additional car spaces used on a handful of game days per year is difficult to justify on any reasonable cost-benefit analysis.

Car parking that sits largely idle for the majority of the year is not a productive use of valuable inner-city land. The Sydney Cricket Ground and Allianz Stadium host events on limited dates. Hyper Karting activates this precinct 365 days a year. The trade-off being proposed here benefits the few on event days at the direct expense of the many, every single day. The NSW government also funds free public transport on game and concert days. We should not be encouraging driving.

Sydney has an opportunity and an obligation to be a vibrant, entrepreneurial city. Decisions like this send entirely the wrong signal to business owners who take risks, invest in their communities, and create employment. Replacing a 150-person employer with a car park is not progress.

I strongly urge the Council to review this decision and explore alternative solutions that preserve the karting facility and the livelihoods that depend on it.

Yours sincerely

Harry Wilson
Local resident

You CANNOT get rid of hyper karting, it is literally the one TRUE go karting experience with a real competitive nature to it, I've been going with my friends for over a year now, it's our one escape from the rest of this garbage filled world and I'd hate to be completely honest with you but because of what you're trying to do stuff I don't care, the rest of your "entertainment" quarter absolutely sucks, quite frankly it's utter shit. There is NOTHING that is open as long as hyper karting in your entertainment quarter, not even the crappy over priced bowling alley or arcade around the corner are open as early and as late as hyper karting. You lot want to improve the "night life" in the Sydney area and you think taking hyper karting away for an extra level of parking is going to do that?! Straight up you're stupid, the lot of you. Outside of concerts I go to once in a blue moon at the Hordern or liberty hall I don't give 2 shits about the rest of your crappy entertainment quarter unless I'm going to hyper karting & I'm telling you now, me and my mates drive out to hyper karting and use your shitty parking lot we always get stuck in for so long on nights there are concerts & if you get rid of our hyper karting you're not going to get not ONE DOLLAR from me and quite a few other people any more coz your parking lot will be rendered useless to us without hyper karting. So you can shove your "extra level of parking" that'll only make people be stuck for even longer coz no one on lower floors will let them out so they'll have to pay even more for parking up your ass you greedy selfish pigs & leave my hyper karting out of your bull shit. You're taking away so many jobs by trying to do this, you're taking away a great community by trying to do this, me and my mates have been going for so long now we've become friends with so many staff members there so cut the selfish act & honestly from the bottom of my heart, [REDACTED] off. Sincerely, go [REDACTED] yourselves & don't touch my hyper karting. You lot disgust me & many many people agree that you're disgusting, [REDACTED] ???????

Dear, Shannon et al.

I think the decision to close Hyper Karting is a mistake.

This business is not only a popular entertainment option in a designated entertainment quarter, it also is an employer of many young people from the surrounding localities.

This sort of business endeavour should be supported by local government, not closed down. Especially not in the interests of a few more car parks in a world which would be better served by reducing the movements of as many fossil fuel burning vehicles as possible. It's important to note that all vehicles used by Hyper Karting are battery powered.

Please reconsider what seems to be a very short sighted decision.

Thank you for the opportunity to give my opinion on this matter.

Best regards,
Mark Rowley.

Dear Shannon,

I am writing in support to extend the tenancy of the Hyperkarting facility in Moore Park.

I appreciate the importance of parking space for the local area (especially with the further removal of parking nearby), however this facility holds a fair bit of significance for those in the Motorsport community.

There is already so little when it comes to options for karting in Sydney, with the next closest options located in Eastern Creek. These are great facilities - but for many of us, the commute is so long it becomes unrealistic to spend up to 3 hours commuting to and from the venue. This especially becomes an issue for people whose only available method of transport is public transportation (something which the city of Sydney has long been encouraging). Along side this; the karts at Moore park are electric, meaning they make very little noise, pollution and more importantly are a step towards a greener future for Motorsport and our city alike.

I would also like to mention positive impact this facility has on young motorists, providing them an outlet for their competitive spirit and need for speed in a safe environment, and away from other motorists. With hooning on public roads already a prevalent problem in the local area, I would not like to imagine the impact this may have if motoring enthusiasts have even fewer places to practice their hobby in a safe and responsible environment.

Alongside the already well-established argument regarding the loss of 150 jobs, I hope these points I have made outweigh the benefits of some extra car spaces located on the top floor of a parking garage, which will only be filled during the occasional concert, and in doing so, completely going against the supposed 'encouragement' for the use of public transport to and from these large scale events.

Regards,

[REDACTED]

Dear Shannon,

I am writing to express my dismay at the potential closure of the Hyper Kart facilities. It appears that more and more amenities are being closed down across the city and for what? More car spaces when the car park at EQ is rarely full? This would be a great loss to the community for

No additional benefit. The city is gradually becoming more expensive and less attractive. There are so few attractions for kids- please do not take this joyous venue away.

Kind regards,
Olivia

Dear Sir/Madam,

I am writing to express my strong support for keeping Hyper Karting open.

Over the years, Hyper Karting has been far more than just a go-karting venue to me. It has been a place where friends, family and professionals come together to connect, unwind and build relationships. Whether it's friendly competition with mates, team outings with colleagues, or introducing family members to something new and exciting, the venue has consistently provided a welcoming and engaging environment for people of all ages.

Spaces like Hyper Karting play an important role in the community. They offer a safe and social environment where people can disconnect from daily pressures, spend quality time with others, and create lasting memories. In a busy city, venues that encourage genuine social interaction and recreation are increasingly valuable.

Closing Hyper Karting would mean losing a unique space that brings people together and contributes positively to the local community. I strongly encourage you to consider the impact the venue has had on so many individuals and groups who regularly enjoy and support it.

Thank you for taking the time to consider this perspective. I sincerely hope that a path can be found to allow Hyper Karting to continue operating and serving the community.

Kind regards,

Andrew

Attention: Shannon Rickersey

Dear Shannon and City of Sydney

I am a rate payer and work in the City of Sydney.

I write to expressing my support for the ongoing operation of Hyper Karting in the EQ car parking. Even as an infrequent visitor to the race course, I see it is clearly having a positive impact on the centre and it a much higher and better use of the space.

I encourage council to further extend their right to operate in the car park.

Phil Wu

To whoever this may concern,

I am writing to request that you please keep Hyperkarting open in Moore Park.

To close this down for new parking spaces is quite ridiculous, given that hyperkarting is one of, if not the, entertainment quarter's main attraction.

It's open from 7 to midnight and I was literally just there 5 days ago and races were entirely full at 11:30pm. Meanwhile you want to bring back parking spaces even though the car park is virtually empty majority of the year...

It is unique, it brings people to the quarter of all ages, and with growing popularity of racing in Australia with things such as a the formula one, but a lack of places to try it out, hyperkarting is the perfect place. Everytime I mention it to people, it starts a conversation of how they went when they tried it. It just goes to show that so many people go there and give it a go.

So please keep it open. Sydney already lacks a night life and variety of things to do, and this move to close the venue down would be a huge mistake and outrageous.

Make the right decision.

Neelaabh

Hi, the idea of closing hyper karting a fun space where people can get together and have a good time is ridiculous. Another parking lot is not what we need, not everything should be about the money that would be made from parking spots, it should be about what the community wants and enjoys. I hope you don't go through with this decision.

Sincerely Charlie

Hi guys,

It has come to my attention that a local institution is at risk of being closed.

Hyper Karting poses no threats and is super necessity for the community.

It's situation on the top of the carpark is perfect & it should be left in order to give Entertainment Quarter a top attraction.

It provides fun for people of all ages & great business for the community.

It really is disheartening to see that this place is at risk and I dearly hope you can listen to your community.

Thank you for your time.

Kindest regards,

Jordan G

Dear Sydney City,

I write to you today not as a politician, not as a lawyer, and admittedly not as a great gokarter but as a TV producer and a deeply concerned citizen...

While producing a gokart themed episode of LEGO Masters Australia I was tasked with meeting the friendly team at Hyperkarting, so friendly in fact that one of them remains my best friend to this day. Once I met the team they encouraged me to have a go in my first ever race and my god I was hooked. I came into Hyperkarting a lot over the coming weeks to 'test' the challenge and make sure it would run smoothly on the day. I had never tested a challenge so much in my life and of course with the help of the expert staff at Hyperkarting the episode was a huge success.

My journey with Hyperkarting didn't end there because we still work enormous hours on set and it has become a ritual for many of us to sneak over at least once a week to destress and even visit the other offerings of the Entertainment Quarter for food and drinks (but never drinks before gokarting)

When I think of Hyperkarts I don't just think of the adrenaline, the competition, the camaraderie, I think of the birthdays, holiday seasons and new relationships, a real timestamp that decorates the history of our lives.

I hope my letter was entertaining and a reminder of the importance of entertainment in our otherwise dull lives. Please reconsider turning Hyperkarts back into extra parking spaces, It would break my heart.

Sincerely,
Cooper

Please consider an alternative plan to enhance the parking experience at Moore Park, it has already gotten the Light Rail station to alleviate the need to drive in. Meanwhile, the side car park on the field adjacent to this venue has recently been scrapped but the key to parking is taking out one of the main entertainment pillars in "Entertainment Quarter"?!

As someone who frequents the location by all modes of transport losing Hyperkart to parking spaces will only reduce visits to the area. It is an attraction for all ages and provides safe, clean fun and value to the space. It generates jobs and revenue, whereas the additional car spaces won't, Wilson Parking have already committed to AI automation in their management of parking spaces and that has seen even less people engaged in their sites.

This is not a fair trade of resources in the area and smells of corporate influence for council decision making. This is a pathetic excuse of an "enhancement" to the city. Another strategy must be available.

Kind Regards,
Eric

Hyper karting should stay. It provides a space for talent to be developed in karts. A place for people to cut loose and test their skills and to enjoy the rush. The place is well set up that it makes you want to go there instead of other places that may be closer. I prefer to go there and I live in Quakers Hill. Please keep hyper karting.

Hi Shannon,

Please save Hyperkarting (Moore Park). I have been there plenty of times, it is more important to have this venue open than to have parking for the stadiums.

The attendees to the concerts should be using public transport to get to the event, not driving. So this initiative will help reduce traffic congestion.

Regards,

Joseph Chow

Dear city of Sydney,

I love hyper karting with a passion and I will be distraught if this beautiful octane fueled outpost is shut down. I have been coming here for half a decade and it provides me with great excitement and brings families together. I think I can say that almost everyone agrees that the floor is better to be a go-karting venue than un-needed car spaces, and it provides a big boost to the entertainment quarter, in turn making a decision to shut down the venue a double edged sword which will hinder the business of the entertainment quarter. Please take my word into consideration as a voice for the people and a lover of hyper karting.

Kind regards

Louis Toussaint

Hi Shannon,

I hope all is well.

I am writing to express my support for the continuation of hyper cart's use of the space.

I believe that hyper carts adds a unique flair to the entertainment quarter and is a great use of space for families, couples and events.

I have personally been there on a number of occasions for a variety of reasons (bucks party, catching up with friends, etc.) and think it is a great alternative to going to a bar or a cafe.

Finally, I feel like when I drive to entertainment quarter there are often plenty of car parks available, thus I don't believe that hyper carts detracts from people's ability to park at the centre.

For the reasons outlined above I believe that it is a great use of space and should be allowed to continue trading.

Thank you,

Denis Mytcak,

To whom it may concern

As a business owner of one of the shops at Entertainment Quarter (Popelino Cafe) I would like to mention the negative consequences that could affect my business if Hyperkarting were to close. We are a small café that relies heavily on the traffic generated by Hyperkarting, as well as on its employees. The large number of people who come because of its operation allows us to stay afloat in this highly competitive industry. We also have six direct employees. Thanks to the customers in Entertainment Quarter, we are able to continue employing these people and avoid the consequences of a future closure if we don't have enough traffic. Therefore, we ask that you allow Hyperkarting to continue operating, as it benefits both the businesses surrounding Entertainment Quarter and the community.

We await your understanding

Fernando Perez

To the Lord Mayor and Councillors,

I'm writing to oppose the decision not to renew Hyper Karting's permit at Moore Park, and the plan to replace it with more car parking.

I have two daughters. Hyper Karting is one of the few places I can take both of them and have it actually work. One races properly, the other does the mini track, and they both leave happy. We go regularly. It is not a special occasion thing.

So when I looked into why it is closing, I expected a real reason. What I found was parking.

Transport for NSW data shows the Entertainment Quarter car park has hit capacity only a handful of times across 84 major events since Allianz Stadium reopened in 2022. A new 1,500-space underground car park at Allianz is also due to open this year. There is no parking crisis this decision is solving.

What is being lost is straightforward: over 500,000 visitors a year, jobs, disability programs, and one of the only entertainment options in the precinct that runs seven days a week. The replacement is a car park that the data suggests will mostly sit empty.

I am asking the Council to extend Hyper Karting's permit. The venue is working. The parking argument is not.

Yours sincerely,
Felipe Jara Saba

Hi

It would be a shame to entertain closing Hyper Cart at the Entertainment Quarter, a quarter whose "Entertainment" has already been significantly diluted by the lack of diverse entertainment options.

Hyper Cart has been a staple of the quarter and turned a carpark into a summit of entertainment. Being indoors and in central CBD means any weather entertainment which is a rarity here.

It adds a unique and diverse attraction to the area.

Finally I work often at EQ and am a Sydney City Rate Layer (lol living on Lachlan Street in Waterloo), I don't agree with displacing attractions for the want of more car parks when there is ample public transport to EQ and 90% of the time EQ carpark isn't full - in the 9 years I've lived here I've only ever experienced the car park max capacity once.

Please preserve this unique and important attraction which has become the second heart and a recognisable part of Entertainment Quarter.

Thanks
Josh

Dear Sir/Madam,

What stood out to me most was how memorable the experience turned out to be.

Interestingly, I hadn't even planned to visit Hyper Karting — it was a completely spontaneous decision.

And yet, it became the best part of my day and it became I spoke so proudly about having done.

It's moments like these — unexpected and unplanned — that truly leave an impression, unlike something routine or predictable like a car park.

Kind regards,
Nissi

Hello

My child and I are frequent Hyper Karting visitors especially during the holidays.

It is the only karting place we have in our area, otherwise we are forced to go way out west to have a fun driving experience. Closing it will be a shame especially when parking spaces are only limited during sporting events. Truth be told, there are plenty of other parking options as well as our Light Rail option to the Moore Park area from Central as well as Randwick and Kingsford/Maroubra.

It would truly be a shame to lose a space like Hyper Karting for a car parking spaces.

Yours sincerely

Fotis Kalis

Hi Shannon,

I'm writing to you regarding the proposed removal of Hyper Karting at Moore Park, and to strongly urge the City of Sydney to reconsider this decision.

This venue is far more than just a recreational activity. It is a community hub, an employer, and a forward-thinking example of what sustainable entertainment in Sydney can look like. Removing it would have a number of significant negative impacts that I don't believe have been fully considered.

Firstly, the economic impact cannot be ignored. Hyper Karting supports a large number of jobs, both directly and indirectly. From staff operating the venue to suppliers, maintenance teams, and surrounding businesses that benefit from increased foot traffic, this decision risks putting hundreds of people out of work or reducing their income. At a time when cost of living pressures are already high, this feels like a step in the wrong direction.

Secondly, this is currently the only venue of its kind in Sydney offering electric, eco-conscious karting. In a period where there is increasing emphasis on reducing emissions and encouraging sustainable practices, removing one of the few genuinely low-emission recreational options sends a confusing message. We should be investing in and promoting initiatives like this, not replacing them with infrastructure that encourages more car use.

Which leads to another major concern. Replacing this space with additional car parking does not align with the broader goals of reducing congestion and encouraging public or active transport. If anything, this is an opportunity to rethink how people access Moore Park. Improving transport links, encouraging public transport use, or even enhancing pedestrian and cycling infrastructure would be a far more progressive and future-focused approach, particularly given ongoing fuel cost pressures and the need to reduce reliance on private vehicles.

There is also the matter of community value. Hyper Karting has become a destination for families, friends, corporate groups, and visitors to Sydney. It contributes to the vibrancy of the Moore Park precinct and provides a safe, controlled environment for motorsport enthusiasts who might otherwise take risks on public roads. Losing this kind of venue reduces the diversity of experiences available in the city and diminishes what Moore Park has to offer as a leisure destination.

In addition, a significant amount of investment has already gone into establishing this venue. The infrastructure, technology, and facilities represent a substantial financial commitment. Removing it prematurely not only undermines that investment but also raises questions about long-term planning and support for innovative businesses in Sydney.

Sydney should be striving to position itself as a modern, sustainable, and experience-driven city. Retaining and supporting venues like Hyper Karting aligns with that vision. Replacing it with more parking does not.

I strongly encourage you and the City of Sydney to engage with the operators, the community, and local stakeholders to explore alternatives. Whether that is retaining the venue, relocating it within Moore Park, or integrating it into a broader transport and sustainability strategy, there are surely better outcomes than simply removing it.

Thank you for taking the time to consider this. I would welcome any opportunity to discuss this further or to support efforts to keep Hyper Karting as part of Sydney's landscape.

Kind Regards,

Daniel Black

Our uncle visited us for the long weekend, from Perth, and we took him to EQ, with our son, on the Saturday night. We easily got a car space, on level 3, many empty spots around 6pm onwards, there was a concert at Hordon, we ate at Mary's, the place was buzzing, but he couldn't stop talking about how cool it was to go to the karts, how awesome it looked and and fit in and added to the experience of the place. Parking was not an issue, why would you want to close the karts, it works so well there and we cant wait to go back!

Dear Sir/Madam

This is a submission in support of the application by the Trustee for Carsingha Investments Unit Trust to extend the time limited development consent allowing the continued use of the level 5 car park at the Entertainment Quarter for electric go-karting and associated activities until 1 July 2028.

The submissions and arguments advanced on behalf of the applicant in the letter from Colliers dated 24 March 2026 are compelling and in particular, I note that:

- the temporary removal of the 296 car parks does not mean that the requirements of the original approval for the EQ is non-compliant;
- a key consideration for the Council in rejecting the application appears to revolve around considerations for the broader Precinct which is not relevant for the purposes of assessing the application given the EQ approvals and standing are separate from the Precinct more broadly;
- even if the considerations around event day parking and the broader Precinct accessibility were relevant, the retention of the exclusive use of the level 5 car park for the operation of the karting facility would be consistent with the broader policy imperative of incentivising people to access the Precinct via public transport or other means not involving private cars.

In addition to the above, the operation of the present facility from the car park provides a highly valuable means of drawing people to the EQ and is an important activation concept. The popularity of the facility and investment that it has driven is a great example of innovation and driving the highest and best use of space that is underutilised for the vast majority of the time.

The fact that the karts used at the facility are all electric is a further bonus and should be held up as a great example of why renewables and electric powered vehicles should be prioritised over traditional combustion engine vehicles.

I support the application to extend the operation of the facility for a further period of time and believe that the benefits derived from the continued operation (community engagement, activation, support for small business and alignment with Council policy objectives around public transportation) greatly outweigh the perceived negative associated with the continued (albeit temporary) removal of a number of car parks.

Regards

Hugh O'Brien

DO NOT CLOSE DOWN HYPER KARTING! Apart from being at election risk for the area, hyper karting is a staple go karting spot for ALL OF SYDNEY the amount of people it brings to the area alone is enough for it to be kept open. It's literally the ONLY time I go to Moore Park and the same can be said for countless people. Look at all the sites, the number 1 thing to do in Moore Park is hyper karting, TripAdvisor even has it ranked as number 1. Moore Park will be a boring and dead suburb without karting, no one travels across sydney to go to hoyts or golfing, sure there's allianz stadium but games aren't on every night. The one thing Moore Park has for people to travel across sydney for every night is hyperkarting. It's unique as it's the only indoor car park go karting spot, closing it down would be one of the biggest mistakes Moore Park council could make.

Hyper Karts is amazing.

It's a place that I've been attached to and has led me to meeting new friends, both on and off the track. It has also been a very special place, where I've celebrated not only many of my own birthdays, but some of my closest friends and family.

Keep Hyper Karting, one of Sydney's best attractions and places to connect with family and friends!

Objection: Keep HyperKarting Moore Park Going

The decision to remove Hyper Karting and return the space to car parking is a step backwards for the community. My family and I have made some amazing memories through this experience.

HyperKarting has transformed an underused car park into a vibrant, year-round destination, attracting thousands of visitors, supporting local businesses, and creating jobs. Replacing it with empty parking spaces—used only occasionally during major events—is poor planning and ignores the real value this facility brings.

In a precinct that has long struggled with activation, Hyper Karting is one of the few proven successes. It delivers economic, social, and community benefits with no significant negative impacts.

Prioritising cars over people—especially in a well-connected, public transport-accessible area—goes against modern planning principles and the City's own revitalisation goals.

Do not remove what is clearly working. Keep HyperKarting.

Sincerely,
Chris T

To whom it may concern,

My name is Saumya and I am a resident of Macquarie Park. I am writing to express my wholehearted support for Hyper Karting at Moore Park and to urge you to reconsider any decision that may lead to its closure.

I'll be honest Moore Park is not around the corner for me. The commute from Macquarie Park takes time and effort but every single time, Hyper Karting is worth every minute of it. That alone says everything about the value this place holds. It is not somewhere I stumble upon, it is somewhere I choose joyfully time and time again.

Some of my most cherished memories over the past years have been made within those walls, be it birthdays, celebrations, spontaneous catch-ups with friends and family. In a world where it's increasingly hard to find something that brings people of all ages together, Hyper Karting does it effortlessly. It is my go-to for any occasion where I want to strengthen a bond and create a memory worth keeping.

What's more, before Hyper Karting, I had little reason to visit Entertainment Quarter. I simply didn't know much about it. But Hyper Karting brought me there and in doing so, introduced me to the surrounding cafes, restaurants and businesses I now frequent. Hyper Karting doesn't just serve its own customers it breathes life and foot traffic into the entire precinct. The economic ripple effect it creates for neighbouring businesses is something that should not be underestimated.

Closing Hyper Karting would be an irreplaceable loss not just for the people who depend on it for their livelihoods, but for thousands of families, friends and communities like mine who depend on it for joy.

Please keep Hyper Karting open. It matters more than words can fully capture.

Yours sincerely,
Saumya Khandelwal

Dear City of Sydney

I implore you to please NOT revoke the operating licence for Hyper Karting at Moore Park.

We have visited this venue multiple times for birthdays, celebrations and team-building activities, it is a fantastic venue that Sydney desperately needs.

The car park is rarely (if ever) full and to give this space back to dead-use for cars is absolutely wrong on so many levels, it makes no sense.

If you can please consider what is right for Sydney locals then please do not force this venue to close.

Your sincerely

To the City of Sydney Council,

I am writing to formally express my strong opposition to the decision to refuse the operational extension of Hyper Karting on the rooftop of the Entertainment Quarter car park.

As someone who goes to Hyper Karting, I have seen first-hand the vital role this business plays in Sydney's cultural and social landscape. It is more than just a go-karting track; it is a significant employer and a primary drawcard for families and tourists visiting Moore Park.

The decision to shut down this unique entertainment venue in favor of an additional 200 car spaces is particularly difficult to justify given the broader context of local infrastructure. With a new 1,200 space car park due to open shortly near Allianz Stadium, there is no evidence that these 200 rooftop spaces are critical enough to warrant the destruction of a successful local business and the loss of jobs.

Converting a vibrant, community focused entertainment space back into empty asphalt, especially when massive parking capacity is being added nearby, is a retrograde step for the Entertainment Quarter.

I urge the Council to reconsider this decision and allow Hyper Karting to continue its operations, preserving both the jobs of local workers and a key part of Sydney's recreational appeal.

Sincerely,
Tejas Patel

I would like to express my concern about the possible removal of the karting area.

I really love karting. It is one of my favorite activities, and I go there almost every week. I enjoy playing and spending time there regularly. The place is very fun and important to me.

Replacing it with parking spaces does not feel right, because many people like me come to enjoy this activity. It is not just a game, it is something we look forward to.

I kindly ask you to reconsider this decision and keep the karting area. It is a great place that brings joy to many people.

Thank you for your time and understanding.

Dear Shannon Rickersey,

I am writing to express my concern regarding the potential closure of Hyper Karting at Moore Park and its proposed replacement with additional car parking. This decision warrants careful reconsideration given the significant economic and social value the facility delivers to Sydney.

From an economic perspective, Hyper Karting represents a high-performing activation of otherwise underutilised infrastructure. Since opening in 2021, the venue has attracted over **500,000 visitors** and operates seven days a week, contributing consistent foot traffic to the Moore Park Entertainment Quarter (SMBtech). This level of activity supports surrounding businesses including food vendors, retail outlets, and event venues, creating a multiplier effect across the local economy. In contrast, data indicates that the existing car park rarely reaches full capacity, even during major events, raising questions about the marginal benefit of reinstating approximately 300 parking spaces (SMBtech).

The employment impact is also material. The potential closure places over **150 jobs at risk**, directly affecting workers and their families while reducing economic participation in the precinct (SMBtech). In a broader context, this runs counter to ongoing efforts to revitalise Sydney's nighttime economy and entertainment sector.

Beyond economics, Hyper Karting provides substantial social value. It functions as an inclusive community hub, offering recreational opportunities that are accessible, alcohol-free, and appealing to a wide demographic including families, young adults, and tourists. The venue has also supported community and disability programs, including participation by individuals under the NDIS, demonstrating meaningful social inclusion outcomes (SMBtech).

Importantly, the facility contributes to youth development and sporting pathways. It has been used as a training ground for aspiring drivers, with young talent progressing into professional development programs. This highlights its role not just as entertainment, but as grassroots infrastructure for motorsport and skill development.

Replacing such a multifunctional asset with car parking presents a clear opportunity cost. While parking availability is a valid consideration, the evidence suggests that demand is intermittent and increasingly supplemented by public transport improvements and new parking developments in the precinct. Meanwhile, Hyper Karting provides continuous activation, economic output, and social engagement.

In summary, the decision to prioritise static infrastructure over an active, community-oriented, and economically productive venue **risks undermining the broader vision** for a vibrant, year-round Entertainment Quarter. A balanced approach, such as extending the venue's operation while exploring integrated transport and parking solutions, would better align with Sydney's strategic objectives.

I respectfully urge you to reconsider the current position and engage with stakeholders to identify a solution that **preserves the substantial value Hyper Karting contributes to the community**.

Sincerely,

Joshua Vidler

Dear Council,

I am writing to express my strong opposition to the proposed closure of Hyper Karting in Moore Park's Entertainment quarter.

I have visited Hyper Karting on countless occasions, including celebrating my birthdays and as a going away event before I left for my 6-month exchange program in January to name a few. Each time has been an incredibly positive experience, and I have also introduced many of my friends to the venue who have all loved it and since returned themselves. Hyper Karting provides a space for the community to interact and makes karting way more accessible due to the lack of centrality of other karting places in Sydney/NSW. I myself would never have gone if my brother, who is passionate about cars and racing, didn't try it first himself.

The proposed closure being based on the "need for additional car parking" in my opinion is ridiculous. From my own consistent experience, parking at the Entertainment Quarter car park has been easy and I've always managed to find a spot even when major events such as sporting matches were taking place. Based on my experiences, it is difficult to understand how reclaiming Hyper Karting's space for parking is necessary and a justifiable decision let alone the hundreds of employees who would be directly impacted by this decision.

I urge the Council to reconsider this proposal and take into account the already adequate existing parking measures and the broader economic and social value that Hyper Karting provides.

It would also be a massive disappointment if when I return to Australia, I could not go back to Hyper Karting.

Thank you for your time and consideration,

Warm Regards,
Laura Legovich

Dear City of Sydney DA office,

I am writing to formally object to the proposed development application that would result in the closure of Hyperkarting at Moore Park in order to make way for a carpark.

As a member of the community, I find this proposal deeply disappointing. Hyperkarting is a vibrant, active recreational facility that brings genuine joy to thousands of Sydneysiders; families, friends, corporate groups, and individuals of all ages who come together in a shared experience that is increasingly rare in our city.

To replace this with a carpark represents, in my view, a significant step backwards for the Moore Park precinct and for Sydney as a liveable, people-centred city. At a time when our communities are in need for engaging, accessible recreational spaces, the loss of a venue like Hyperkarting should not be taken lightly.

I would urge the City of Sydney to consider the following:

- The irreplaceable community and social value that Hyperkarting provides to the area
- The contrast between an active, people-centred use of the space versus static car storage
- The precedent this sets for prioritising vehicle infrastructure over human experience in our public precincts
- The economic contribution the business makes to the local area through employment and visitation

I respectfully request that this DA be refused, and that alternative solutions for parking needs in the area be explored. Preferably solutions that do not come at the cost of a cherished community facility.

Thank you for considering this submission. I trust that the City of Sydney will weigh the broader community interest carefully in its assessment.

Yours sincerely,

Jonathan

Jonathan & Lily Michael

Dear Shannon Rickersey,

I was recently informed that the Hyper Karting group at EQ are potentially closing down due to apparent car parking needs in the EQ car park.

Personally I think closing this company down would be a huge mistake and a big loss to the community.

Over the years it has been known that EQ was a struggling entity with huge government interventions for revitalising this location for business and community use. In my and many others opinions, Hyper Karting is a great representation of reviving a major part of EQ and bringing in business for the entire area. Not just with Hyper Karting customers, but those customers like myself who would often utilise dining and other options at EQ at the same time.

The company also embodies an environmentally friendly ethos with electric (not petrol) karts that are suitable for all ages. They run a fantastic company that appeals to a massive part of the community that enjoy motorsports and embracing a fun and competitive environment with friends and family. There is nothing like this In Sydney's eastern suburbs or the CBD and it would be a huge loss to see this company be shut down due to apparently requiring more parking. I have yet to see this car park full, even on the busiest days of football games at the SCG and surrounds.

If the parking is the issue, some public transport options that come closer to EQ for members of the public need to be made available. Or centennial park needs to be made available as an alternative parking option for busy game / event days etc.

I have had countless memorable times at Hyper Karting with groups of friends where we have been part of social race events where we can race competitively in a friendly, fun and safe environment. Hyper Karting is a great way for the large and growing number of motorsports enthusiasts like myself to get their competitive needs met in a safe arena and not in an illegal more risky way on public roads where we've seen countless preventable accidents in the past. In my opinion companies like Hyper Karting enable customers of all ages to improve their driving and karting skills in a safe and monitored environment.

With so much talk in the media of trying to get teenagers and youths outside socialising in person and minimising the known negative effects of screen time and social media use, it would be an unfortunate circumstance for something that embodies this concept to then disappear when there is literally nothing available like this even close to the eastern suburbs or CBD.

In an unstable world where employment, economic and housing issues are at the forefront of many people's minds, it would be a huge loss to this company who actively employ over 150 staff who have families, bills and mortgages to pay at the expense of a few parking spaces which will be seldom filled.

Please see that Hyper Karting remains as a permanent fixture of EQ's dynamic community and ecosystem.

Thank you.

Kind regards, Sam Harrison.

Hi,

Just my two cents - the light rail from the city has made Moore Park more accessible than ever by public transport. Increasing parking is becoming less relevant and will only continue to do so as the metro rolls out and our public transit system becomes better than ever. What we need is a city full of soul and great precincts and places worth making the journey though and to, places like hyper karting. What we don't need is one more level on a car park.

A lot of people would be very sad to see it replaced with empty car spaces.

Thanks,
Rory

To whom this may concern,

I am writing to respectfully express my strong support for keeping Hyper Karting operating and to urge you to reconsider any decision that may lead to its closure.

This venue is far more than just a recreational facility. It provides employment for approximately 150 staff members, many of whom rely on these jobs to support themselves and their families. The closure of this venue would have a significant and immediate impact on those employees and the wider local community.

Equally important is the value this venue brings to families and children. As a parent, I have personally seen how much joy and excitement this track provides. My 4 year old son absolutely loves going there, it is one of his favourite activities. Knowing that a safe, enjoyable, and positive entertainment option like this could disappear would be incredibly upsetting for him and many other children who benefit from the experience.

Facilities like Hyper Karting help kids active, engaged, and excited about positive activities outside the home. They offer a fun, social environment that supports well being and creates lasting memories for families across the community.

I strongly believe that preserving this venue is the best interest of both the employees who depend on it for work and the families who depend on it for recreation and enjoyment. Once a venue like this is lost, it is extremely difficult to replace.

Thank you for taking the time to consider this appeal. I sincerely hope you will take the staff, families, and broader community impact into account and work toward a solution that allows Hyper Karting to continue operating.

Kind regards,
Michael

Regards to not renewing Hyperkartings permit to operate, i feel as though it adds quite a lot to the entertainment quarter surrounding, it is a go to for interstate visitors that i host frequently as its a good gateway into a lively sydney evening. The unique experience it provides given its surroundings surely makes it more important than another level of parking to the area. I and i'm sure many others think not renewing them for the sake of parking spots and revenue damages part of our already frail nightlife.

Hyper karting is one of the best go kart tracks in Sydney. Closing it down for car park spots would be a huge mistake as hyper karting is one of the only reasons I actually visit the Sydney entertainment area at More park otherwise I would see no interest in traveling there. Closing it down would be a huge mistake for Australians as well as the thousands of tourists that would visit the venue.

To Whom It May Concern,

I am writing to express my support for Hyperkarting. It would be a significant loss to the community to see them go.

In my view, a parking facility cannot provide the same value to the council and the community that Hyperkarting does. I urge you to consider an alternative arrangement or a new deal that would allow them to remain at their current location.

Please consider letting them stay.

Thank you.

To whomever it may concern,

I am writing to express my strong concern regarding the potential closure of Hyper Karting in Moore Park.

Hyper Karting is a unique community asset that contributes meaningfully to the local area. It provides a safe, controlled environment for motorsport enthusiasts, particularly young people, to engage with driving in a responsible way. In doing so, it promotes skill development, practice and passion.

It also serves as a key community place for friends to meet up or for birthdays to be celebrated. Its value in this regard goes beyond just the go karting experience, and fosters genuine connection.

Beyond its social value, Hyper Karting plays an important economic and cultural role. It attracts visitors to Moore Park, supports local employment, and adds diversity to the area's recreational offerings. In a city where accessible, engaging activities for young adults are limited, its presence is especially valuable.

Closing Hyper Karting would not only remove a popular and well-utilised facility, but also diminish the vibrancy and appeal of Moore Park as a destination.

I urge the council to carefully consider the broader impact of this decision and to explore all possible avenues to preserve this important community space. It's value transcends plain economic contribution to Moore Park, forming an essential component of the local community

Thank you for your time and consideration.

Kind regards,

Hello,

I am reaching in regards to the continuation of HyperKarting making use of the top car park level in the Entertainment Quarter.

The consideration of parking for sporting events and special events is significant, but it should not come at the expense of a different sporting facility.

The requirement of parking for special events is irregular and sparse. Most of the time, the car park is quite empty. HyperKarting runs a fantastic operation, providing high quality racing facilities for adults and children alike.

There is nothing like it anywhere close by, even when compared to the professional racing facilities - I believe that this facility does a superior job.

It is an excellent addition to Sydney's sporting facilities, and a brilliant use of the mostly unused space.

It would be a real shame to the Sydney community to lose HyperKarting from this space.

Kind regards,
Alex

Hi,

Please keep this place. We did a work function there and had a fantastic time.

The people were great and it will be sad to lose something that is fun in Sydney, especially so close to the city.

Please consider keep thins place.

Regards

Chris Karavatakis

To whom it may concern,

I am writing to express my support for Hyper Karting and my concern regarding the proposal that may lead to its closure.

Hyper Karting is a genuinely unique venue that adds energy and character to Sydney's entertainment landscape. It provides an experience that goes beyond typical hospitality or leisure options. It's social, active, and brings people together in a way that few venues can. I've personally had great experiences there, from competitive races with friends to events that have created lasting memories.

What is particularly concerning is the broader contradiction this decision represents. The City of Sydney has consistently promoted the vision of a more vibrant, walkable, and experience-driven city. Venues like Hyper Karting directly support that vision by giving people a reason to stay, socialise, and engage locally. Replacing a destination like this with additional parking prioritises cars over people and undermines those stated goals.

Hyper Karting has been a staple entertainment option for me since its initial inception, and I still remember coming there for some much needed exercise (and mental health break) when we were all enduring a pretty grim covid lockdown in 2021.

Beyond its entertainment value, Hyper Karting also supports a large number of jobs and contributes to the local economy. Losing over 150 roles, along with a well-loved community space, is a significant impact that should not be overlooked.

I strongly encourage you to reconsider this direction and recognise the value that Hyper Karting brings, not just as a business, but as part of what makes Sydney an engaging and enjoyable place to live.

Thank you for your time and consideration.

Kind Regards,
Max Loiterton

Hi Shannon,

I hope all is well and you had a good Easter.

Writing to you about closing Hyperkarting. This is one of the venues that keep that spot alive, turning it into a car park is going to reduce the semblance of life left in that spot. This is a venue me, my friends, and my work team go to for our events and we find the vibe fun and relaxing. Please reconsider this decision.

Thank you!

Kind regards

Dear Council Representative's,

I am writing to formally and strongly object to any proposal to shut down the local kids go-karting business.

I am a regular customer, and I take my children there frequently. It is one of the few places where they are genuinely excited, active, and fully engaged. They absolutely love it and look forward to every visit. The thought of this facility being closed is not just disappointing, it would be deeply upsetting for my children and many others in the community.

This business is far more than just entertainment. It provides a safe, supervised environment where children can build confidence, develop coordination skills, and enjoy healthy, active recreation. In a time when screen time is a growing concern, venues like this are incredibly important and should be supported, not removed.

Closing this business would take away a valuable and much-needed outlet for local families. It would also negatively impact the local economy, including jobs and small business sustainability. Many families, including mine, rely on accessible, family, friendly venues like this.

While I understand the council has responsibilities regarding regulations and compliance, shutting the business down should be an absolute last resort. I strongly urge the council to work constructively with the owners to resolve any concerns and find a practical solution that allows the business to continue operating safely and within guidelines.

The loss of this facility would be felt widely across the community. I ask that you seriously reconsider any decision to close it and take into account the real impact on families, children, and local livelihoods.

I appreciate your attention to this matter and hope the council will make a decision that reflects the needs and wellbeing of the community.

Kind regards
Tommy El

We love hyper carts and would hate to see them go! There aren't many carting places around so really need this business to stay. Please don't send them packing. I've always found a parking spot without issue during big events. The main issue with parking is how slow it is to leave after a big event. Can take an hour. Would be much worse for anyone parking on very top level.

To whom it may concern.

Not renewing HyperKartings lease will be a travesty for the Eastern Suburbs of Sydney.
There is nothing like this anywhere close, my kids and I love it as it is an escape from the hustle and bustle of life.
Having it so close the shops and entertainment of the Entertainment quarter means it is an adventure not just a destination.
Please reconsider the lease and allow families to enjoy this unique entertainment for years to come!!

Kind Regards

Simon Martin

Dear City of Sydney Council,

I am writing to express my strong support for the preservation of Hyper Karting in Sydney.

Hyper Karting provides a unique recreational experience that combines motorsport, community engagement, and safe entertainment for people of all ages. It offers an accessible entry point into karting and motorsport culture, which is especially valuable in a city where such opportunities are limited.

Beyond entertainment, the venue contributes positively to the local economy by attracting visitors, supporting jobs, and activating the surrounding area. It also serves as a social hub where friends, families, and enthusiasts can connect in a safe and controlled environment.

Losing Hyper Karting would mean losing an important part of Sydney's recreational landscape. I strongly encourage the Council to consider the community, economic, and cultural value it brings, and to explore all possible options to support its continued operation.

Thank you for your time and consideration.

Kind regards,

Jackson Norman

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

I am writing to express my strong support for HyperKarting and to respectfully urge Council to reconsider any plans that would lead to its closure.

HyperKarting is far more than a commercial operation. It is a unique recreational facility that brings genuine value to the community by providing a safe, inclusive and engaging environment for people of all ages. Facilities like this are rare and play an important role in fostering social connection, family activities and local tourism.

The justification that the space is required for additional car parking appears difficult to support, particularly if existing parking capacity is not fully utilised. Replacing a vibrant, well-used community venue with underused parking infrastructure does not represent the best outcome for the area or its residents.

In addition, the impact on employment should not be overlooked. The closure of HyperKarting would directly affect a significant number of staff and their families. At a time when supporting local jobs and businesses is critical, this decision would have real and immediate consequences.

HyperKarting contributes positively to the local economy, activates the precinct, and enhances the overall appeal of the area. Removing it would diminish the diversity and vibrancy of the community.

I respectfully ask that Council carefully reconsider this decision and explore alternative solutions that allow HyperKarting to continue operating.

Thank you for taking the time to consider this submission.

Yours sincerely,

Samuel Crane

Dear Shannon Rickersey,

I am writing to formally submit my opposition to the development application regarding the Moore Park area.

I am concerned that the proposed development would lead to the closure of the Hyperkarting facility. This facility is a valuable asset to the community, and its removal would be a significant loss to the recreational landscape of Moore Park.

I kindly request that my concerns be taken into consideration during the assessment of this application.

Thank you for your time and for considering my feedback.

Best regards,

Justin Sue

I didn't graduate with any special degree but Im pretty sure shutting down a place that makes money for empty car spaces that will only get used once a month and will earn significantly less is not a very good business decision.

So keep HyperKarting open.

Unless u can offer an alternative of similar locations, size, quality and price it doesn't make any sense.

Regards

Good morning,

I am writing to express my strong support of Hyper Karting remaining at its current location in the EQ car park.

We regularly attend the EQ with our sons, primarily to visit Hyper Karting, and then stay for lunch or dinner.

Hyper Karting is an excellent use of the 5th level. Please reconsider your plans to turn it into car parking. While parking at EQ can get busy when there's an event on, the light rail and bus network are more than capable of managing overflow.

Thanks,
Dylan

To Whom It May Concern,

I am writing to express my strong concern regarding the potential closure of Hyper Karting. I respectfully urge the City of Sydney to reconsider any decision that would result in shutting down this establishment.

Hyper Karting is more than just a business, it is an important part of the local community. It provides a safe, welcoming space for people to gather, socialise, and support local culture. For many residents, it is one of the few accessible venues that contributes positively to the area's social life and sense of connection.

Closing this venue would not only impact its owners and staff, but also the wider community who rely on it as a place of recreation and engagement. Small and independent venues like this play a vital role in supporting local employment, encouraging economic activity, and maintaining the vibrancy of our city. Shutting down a valued community space should be a last resort, not the first option.

I urge the City of Sydney to take into account the broader social and economic impact of this decision and to support local businesses that contribute positively to our community.

Thank you for your time and consideration.

Sincerely,
Andy Chea

Dear City of Sydney,

Why you would get rid of this business in favour of another level of car parking is absolutely baffling. That whole precinct is one big car park at the best of times and you would be doing serious damage to the entertainment factor of that precinct if you proceed with your silly plans.

To the city of Sydney,

Hyper karting shutting down will make a city with already limited activities for young people a lot more difficult. It's easily accessible and is amazing on foot traffic. When searching "things to do in Sydney" hyper karting is always in the top 10 and is now iconic. Letting that go to waste would be an extremely poor decision and set a very bad precedent for how Sydney supports growing businesses. Please do not let hyperkarting shut down.

Hyper Karting is a place I hold dear. My grandfather used to take my cousins and I whenever he travelled to Sydney before his passing. I continue to go with my mates and girlfriends family regularly. Removing this would be saddening to most likely not only me but many others with similar experiences. I'm attending my grandfathers funeral next week and this message could not come at a worse time. One of the last places I hung out with him. Parking I understand is a need. But unless relocation is on the cards this cannot be. There is sentimental value, aswell as a great attraction for not only tourism but locals and Sydney wide "wannabe" racecar drivers. Coming from the Sutherland shire myself, hyperkarts is a close by way of having fun and remembering my family. Only next week I was planning on going, and many times after that.

I hope this message can help.

Cheers,
Bailey

Hi,

Hyperkarting is one of the main reasons people bother going to the Entertainment Quarter.

Parking spaces are usually easy to find. Pulling them out to give more parking might help with large events but will lower patronage to the area the rest of the time.

Plus if we don't get petrol sorted soon people will be more on public transport anyway.

Please keep hyperkarting open.

If it's not possible to keep them there please find them a suitable space in the EQ itself and provide with a suitable period of rental relief to offset the cost to move.

Cheers,

Kathie & family

We hope Hyperkarting is saved!

Our family loved coming together and having a great time at your venue and we look forward to many more visits at Hyperkart.

It would be a terrible shame and disservice to the community to close this venue down.

On top of this, when we attended there was plenty of parking!

It was Hyperkarting that brought us to the facilities. We then also went for a walk and had dinner at the Mexican place as well, icecream shop and the little corner store (i forget the name) - all of these places we only discovered because we attended Hyperkarting.

SAVE HYPERKARTING!

Yours sincerely

Angela & [REDACTED] families

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon,

I am writing in relation to submission RD/2023/897/A concerning 116 Lang Road, Moore Park, and the proposed closure of Hyper Karting to facilitate additional car parking spaces.

I would like to express my concern regarding this proposal. Hyper Karting provides a unique recreational offering within the Moore Park precinct, contributing to the diversity of activities available to families, young people, and the broader community. Facilities like this are increasingly rare in inner-city areas, and their removal represents a loss of accessible, active entertainment options.

Replacing such a venue with additional car parking raises questions about the long-term vision for the area. Moore Park is already well-served by public transport and is widely promoted as a destination for recreation, sport, and entertainment. Prioritising car parking over community-focused attractions appears misaligned with these goals, particularly at a time when there is growing emphasis on reducing car dependency and enhancing public spaces.

Hyper Karting also supports local employment and brings regular visitation to the precinct, benefiting surrounding businesses. Its closure may have a broader economic and social impact beyond the immediate site.

I respectfully ask that consideration be given to retaining or relocating this facility, or at the very least ensuring that any redevelopment includes comparable recreational opportunities for the community.

Thank you for the opportunity to provide feedback on this matter.

Kind regards,
Rebecca

To whom it may concern,

I want to express my support for Hyper Karting and that I am against the closure of it to accommodate more car parking spaces. Is there not enough public transport in the area? Why create more car spaces by taking away a community and family space. This is very disappointing to see and does not look good for the City of Sydney Council.

Hyper Karting has been part of my family for many years and not only do we visit frequently we also go to the many fabulous cafes and restaurants there. The closure of Hyper Karting would also affect these business and immediately there will be less people in the area daily if this was to close.

The council needs to think about community and families, not car spaces.

Regards,
Stephanie Williams

There aren't many places you can go where all the staff are consistently 10/10 in helpfulness, passion and friendliness which is a testament to how loved and important this place is.

It provides a much needed facility and the benefits outweigh a car park especially when there are transport options

Thank you
Oliver

To destroy what is such a great use of a barely utilised space in order to create more under utilised space is insanity.

Hyper karts is such a great idea, business and fun time. It would be an absolute shame to lose such a great addition to what there is to do in Sydney. Not to mention the loss of jobs that will occur if this ridiculous plan goes ahead.

For once it would be nice to see the city of Sydney not make a stupid decision.

Hi there,

Hyperkarts has been a fantastic venue that my friends and I regularly attend. We grab dinner in the entertainment quarter then spend the evening racing round the track. The continual changes to the track and layouts makes it interesting to keep coming back.

It would be a shame for it to close for the sake of carspots - on event days it takes an hour to get out of the carpark anyway! There is plenty of parking in Sydney Boys High for event days.

I hope that the council can reconsider the place that hyperkarts has in the community and continue to keep it open into the future.

Regards
Darryl

Dear City of Sydney Council,

I am writing to urge you to reconsider your recent decision to deny Hyper Karting's application for a two-year extension at the Moore Park Entertainment Quarter.

Since opening in 2021, Hyper Karting has become one of Sydney's most beloved entertainment destinations — a genuinely unique venue that serves families, young people, and groups of all kinds. Closing it would mean the loss of over 150 jobs, the removal of a major recreational attraction, and a real blow to the surrounding local economy and the broader Entertainment Quarter precinct.

I understand the Council's concern about the commercial use of parking spaces, but I'd respectfully ask: is this the right trade-off for our city? The venue operates on a rooftop level of a car park, and the remaining floors continue to serve the public. The modest inconvenience of reduced parking spaces is far outweighed by the cultural, economic, and community value Hyper Karting provides.

A short two-year extension is not an unreasonable ask. It would allow the business, its staff, and the community that relies on it to plan for the future — and it would give the Council time to work collaboratively on a long-term solution that serves everyone.

Sydney deserves world-class entertainment options. Hyper Karting is one of them. I sincerely hope the Council will reconsider this decision and find a way to keep this wonderful venue open.

Thank you for taking the time to read my submission.

Kind regards,
Jordan House, Prospect NSW

Dear Council Team,

I hope this message finds you well. I am writing to express my heartfelt support for Hyper Karting, a place that has become a vibrant hub for both kids and adults in our community. Over the years, Hyper Karting has offered countless families and friends a unique, joyful environment where everyone can share memorable experiences, enjoy fun activities, and strengthen community bonds.

This venue has not only provided entertainment but has also encouraged healthy competition, teamwork, and the development of valuable life skills among young people. It is rare to find such spaces where all ages can come together and create lasting memories in an engaging and safe setting.

I kindly urge the council to consider the positive impact Hyper Karting has on our local community and to support its continued operation. Preserving this joyful place means ensuring that both children and adults have access to a space that promotes happiness, connection, and wellbeing.

Thank you for your attention and for all you do for our community. I hope you will help us keep Hyper Karting thriving for future generations.

Warm regards,

Hi, please do NOT close hyper karting. There is no second one near the CBD, and it adds so much needed diversity into entertainment in Sydney, which is already lagging behind most European cities.

They bring much more benefit to community than extra parking for polluting cars and people who can't walk half a mile.

Best regards, aussie citizen and Sydney resident
Dmitry

Hello,

Please do not convert the top floor into another car park level. I visit Moore Park regularly and rarely see the car park even remotely full. The hyper karting on the top floor is such an amazing place to hang out with friends and have a fun go kart race. It's truly one of its kind and it will be a real shame if they disappeared just to increase car parking capacity.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Hyper Karting is more than just a venue — it's a place that genuinely brings people together and creates real experiences that are hard to replace.

Personally, I've spent time there with friends, and it's one of the few places where everyone can disconnect from day-to-day stress and actually enjoy something together. It's not just about karting, it's about the shared moments, the competition, and the memories that come from it.

Closing it down to increase car park capacity by 296 spaces , which may not even be fully utilised feels like a significant loss for the community. In exchange, we risk losing over 150 jobs and a venue that actively contributes to social connection and local engagement.

Spaces like Hyper Karting are rare. They provide safe, inclusive entertainment and play an important role in community wellbeing.

I strongly urge the council to prioritise people, local jobs, and community value over unnecessary infrastructure expansion.

Please keep Hyper Karting open.

Regards,

a citizen of Australia

Dear Ms Rickersey,

I'm writing to you to request Council reconsider its decision to reinstate the 298 car spaces on the upper level of the Lang Road parking station, which would require the closure of the Hyperkarting venue.

Hyperkarting is an important part of Sydney's night economy, brings a lot of joy to a wide cross-section of the community, and is an activity entirely consistent with the objectives of the *Centennial Park and Moore Park Trust Act 1983 No 145*, namely:

8 Objects of Trust

The objects of the Trust are—

- (a) to maintain and improve the Trust lands,
- (b) to encourage the use and enjoyment of the Trust lands by the public by promoting and increasing the recreational, historical, scientific, educational, cultural and environmental value of those lands,
- (c) to maintain the right of the public to the use of the Trust lands,
- (d) to ensure the protection of the environment within the Trust lands, and
- (e) such other objects, consistent with the functions of the Trust in relation to the Trust lands, as the Trust considers appropriate.

The Trust was created in 1983 when public transport wasn't as developed as today. The requirement for parking has diminished, particularly for major sporting events. Notwithstanding, the Trust appears to be silent on where parking is required; instead, stating where it is prohibited. To my mind, a space that facilitates parking on the lower levels with entertainment and recreational facilities on the upper levels better aligns with the intended use of the land under the Trust's objectives.

Similarly, while Council is an important stakeholder, the principal authority appears to be the Chief Executive of the Centennial Park and Moore Park Trust and then the Minister, not the planner at CoS. I'd strongly urge CoS to review this decision.

Hi,

I've been going to hyperkarting at Moore park for over 3 yrs now and I have never come across parking issues.

The venue is open all 7 days of the week, 365 days a year and the only problem we've had is reaching the venue when there is a major event happening around. It has nothing to do with parking.

This is probably the only activity me and my wife love doing together cos it's fun, clean and competitive (if someone wants to).

We celebrated our friends and family's birthdays here getting kids and adults both to taste the fun of racing in a safe environment.

It would be a complete failure if this place is shut down especially for parking concerns.

The amount of times I've been there in over 3yrs, it's definitely not worth shutting down the place for parking issues.

Please keep this place running, the staff and customers deserve to have this.

Regards,

Kushagra

Dear Lord Mayor Moore, Shannon Rickersey, and Councillors,

This correspondence is submitted as a formal part of a community-led petition to prevent the closure of Hyper Karting Sydney, currently located at the Entertainment Quarter (EQ) in Moore Park. As the City of Sydney and the NSW Government deliberate on the future of the EQ redevelopment, we urge you to recognize Hyper Karting not merely as a tenant, but as a vital piece of social, economic, and technological infrastructure that is essential to the vibrancy of our city.

1. A Pillar of the Non-Alcoholic Night-Time Economy

Hyper Karting is a rare example of a successful, high-traffic night-time venue that does not rely on alcohol sales. Operating until midnight, it provides a safe and active alternative for young adults and families. Its removal would be a direct blow to the City's goal of fostering a diverse 24-hour economy.

2. Exemplary Adaptive Reuse and Sustainability

The venue's location on the Level 5 car park is a masterclass in urban space efficiency. By using all-electric karts, Hyper Karting aligns with the City's net-zero targets and minimizes the acoustic and environmental impact on the Moore Park precinct. Replacing this with traditional commercial space would be a step backward for sustainable urban planning.

3. Essential Social Infrastructure for an Increasing Population

With thousands of new residents moving into the Waterloo and Green Square precincts, the demand for local, active recreation is higher than ever. Hyper Karting's participation in the NSW Active Kids program makes high-quality recreation accessible to families across the socio-economic spectrum.

4. Economic Innovation and Trip Generation

Hyper Karting is a primary drawcard for the Entertainment Quarter. Its constant innovation—including the new BattleKart, Pixel rooms, and professional recording features—drives the foot traffic that supports surrounding small businesses. A redevelopment that displaces such a high-performing anchor risks the economic collapse of the remaining EQ hospitality and retail sectors.

Our Request:

We request that the City of Sydney use its planning and advocacy powers to ensure that any future master plan for the Entertainment Quarter includes a guaranteed long-term lease or a purpose-built relocation for Hyper Karting within the precinct. The "Entertainment" in Entertainment Quarter must be protected from homogenization and short-term developer interests.

We look forward to your support in preserving this unique Sydney institution.

Sincerely,

On behalf of the "Save Hyper Karting Sydney" Initiative 601

Dear Council,

I am writing to express my concern regarding the potential closure of Hyper Karting.

This venue is more than just a business—it's a place that has brought people together, created lasting memories, and supported a strong sense of community. The possibility of losing such a space is deeply disappointing, especially considering the impact it would have on over 150 employees who rely on it for their livelihoods.

Closing Hyper Karting to increase car park capacity by 296 spaces seems disproportionate, particularly when those additional spaces may not even be fully utilized. The social, economic, and community value of this venue far outweighs the benefits of expanding parking.

I strongly urge you to reconsider this decision and take into account the voices of those who value what Hyper Karting provides. Preserving spaces that foster connection and employment should be a priority.

Thank you for your time and consideration.

Hi Shannon,

Thank you for taking the time to read this submission. When I first heard that they'd put go-kart's into an carpark, I thought that it sounded like a good idea.

It wasn't until I took my son, my nephews, their grandparents, parents and my partner to multiple days out that I truly understood how great of an idea, venue and experience it was to have such a great day out so close to the city, all with the benefit of being able to catch the metro, rail and light-rail from our homes to the venue.

It really is a remarkable venture that I cannot get enough of. I support the continuation of this business in it's current form, and feel like we would be far worse off without it. That is after all the benefit of having the best public transport systems in the world, is that we can re-purpose these spaces for more interesting and entertaining purposes.

Thank you and kind regards,

[REDACTED]

Dear Shannon,

I am writing to express my strong concern regarding the proposed closure of HyperKart Sydney to make way for a car park. This venue is far more than just an entertainment facility—it is a vibrant community hub that brings people together from all walks of life.

HyperKart provides a unique recreational experience for families, young people, and motorsport enthusiasts, offering a safe and controlled environment for enjoyment and skill development. It supports local employment, attracts visitors to the area, and contributes positively to the local economy. Replacing such a dynamic venue with a car park would represent a significant loss to the community's social and cultural fabric.

At a time when cities around the world are striving to create engaging, active spaces for their residents, removing a well-loved destination like HyperKart seems counterproductive. There are alternative solutions that could address parking needs without sacrificing a thriving local business and community asset.

I respectfully urge the council to reconsider this decision and explore options that would allow HyperKart Sydney to continue operating. Preserving this venue would demonstrate a commitment to supporting local businesses, fostering community engagement, and maintaining the unique character of our area.

Thank you for your time and consideration.

Kind regards,

Adam Fraser

To whom it may concern,

Do not close hyper karting for some irrelevant car park. Isn't there enough revenue raising options around the council? Hypercarting a place of enjoyment and one of the only family fun areas around this location. Don't ruin another fun thing to do in Sydney.

Think of the children.

Dear to whom it may concern,

I believe the hyperkartng establishment is a very good venue in a very well established location where many people come from all over the state and country to experience the hyperkarting experience. Please keep this venue open and allow them a longer lease, it means more to the community than just another go karting venue.

thank you.

Hi there,

I have just learned that City Of Sydney council is going intending to not extend the 5-year license that would allow Hypercart citizens to ntinue operating at the Entertainment quarter.

We could me here every month, and this is the mail reason we come to the Moore Park precinct.

I urge the council to re-consider their plan and extend the license for HyperKarting at Moore park. This venue is the only karting place that is well accessible via public transport and removing it would largely affect accessibility to karting facilities for those families that rely exclusively on public transport to get around the city. Besides, the fact that it is undercover is a huge advantage allowing it to operate in any weather.

At a time when it's so challenging to keep kids off the screens and get them to interact with peers in the real world, the decision to remove a business like HyperKart that provides unique engaging experience for the whole family would be short sighted and not in the best interest of community.

Thank you,

Yulia Medvedeva

Hey guys I agree about keeping hyperkarts, not only is it a great place for memories but to cut that many people out of a job, for a car park ? That's wild, help the youth have jobs and get out into the community instead of taking things like this away from us
Keep hyper karts, don't pave a little paradise just to put up a car park!

Hi there

Please don't get rid of the Hyper Karting. It is a fantastic venue for kids and adults alike. There is nothing else like it in the area and provides some much needed and different entertainment.

To remove it for additional car spaces just does not seem like a good use of space.

Many thanks

Daniel

Good evening

Please kindly retain the hyper cart centre at Moore Park.

This facility provides 150 local jobs and a unique attraction for the area.

Given the area is now well serviced by trams and other parking exists in the precinct it would be a huge loss to local economy and jobs to close the centre only to regain a few car spaces.

Kind regards

Karla

Hi there,

As a regular customer, I'm writing to express my strong support for this business.

It's disappointing to see a successful and well-supported venue at risk, especially one that brings clear value to the Sydney community. Why would you choose not to promote and retain a business that is already proven to be popular and beneficial?

If this space becomes available, what is the actual plan for it? Will any alternative realistically deliver the same level of engagement, economic return, and community value that Hyper Kart currently provides?

Decisions like this have real consequences. Please don't be the reason another genuinely good thing disappears from our city.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon Rickersey,

Don't get rid of hyperkarting for some car spaces, it's really the only reason I visit entertainment quarter and by removing it, those empty care spaces will remain empty. Moore Park is one of the most well connected places by public transport in Sydney, it would be a massive step backwards to try to then encourage people to drive there.

If these car spaces are so crucial then please ensure arrangements are made to relocate hyperkarting in the EQ or consider removing "Entertainment" from Entertainment Quarter because that's what you'll be doing.

Regards,
James

I 100% disagree with not renewing Hyperkarting's lease for so many reasons.

*This place brings joy to over 200,000 people per year

*It employ's aprox 150 people.

*It teaches thousands of kids such as mine to drive before being put on our roads.

*It helps bring joy to so many people with mental health issues.

*It helps keep youth off the streets.

*It's close proximity to a heavily populated area help reduce traffic and pollution to motor enthusiasts that would otherwise travel out west to go carting.

*It brings thousands of people to the entertainment quarter who stay there to eat and drink.

*The company has invested a lot of money into setting up. You as a government should be supporting business. Not crushing them.

On top of this. I go the the entertainment quarter a lot and have never not been able to park.

If you keep taking away the entertainment such as carting you certainly won't have any parking issues as know one will visit the place that was designed to be an "Entertainment" quarter as there will be nothing left to do there.

You need to re think this and renew the lease.

This is the only go karting in the inner city. No one wants to drive 45 minutes plus to do go karting. It gives children in the area SOMETHING TO DO. Instead of adding more parking, why not give the kids of sydney a cool, exciting activity to get involved in.

To whom it may concern,

I am deeply distressed to hear that Hyperkarting is at risk of closing down because of a plan to build more parking lots. This place has been a cornerstone of the local community. It is a place where our kids have an opportunity to experience safe fun and activity with friends and family. In a time where opportunities for in person social connection and physical activity are increasingly limited, places like these are more important than ever.

Losing Hyperkarting would not only remove a much loved local attraction, but also diminish the sense of community it helps foster.

I strongly urge that this proposal to shut down Hyperkarting is reconsidered and alternative solutions are explored to preserve this important community asset.

Sincerely

Freddie Hauva

Hi there,

To the respected member of the council, I am hereby writing to vote my support for the hyper karting company. Just because the council needs few more parking spaces doesn't mean they will put an end to one of the places where emotions and memories are made. It's not just about racing. It's someone place to relive their stress, someone's practice ground, someone's way to make friends and someone's way to make a living. Think about all the people this will impact not just a business but all the lives connected to it.

You can find many solutions to a problem of parking, but you won't find a solution to solve someone's mental health, financial growth and overall community's growth.

Yours sincerely,

Bishal Kafle

A member of Hyperkarting community.

Please reconsider closing down hyperkarting, Sydney is a city for people, not for cars and carparks.

Hyperkarting is a place for enjoyment, competition, excitement, and is one of the greatest ways people of all ages and backgrounds can pursue an interest in motorsports safely.

There are precious few venues that can offer all that in Sydney. Don't rob the community of what already exists in such limited capacity for car spaces that won't be utilised for a majority of the time.

Thank you.

-Finlay

Dear Shannon Rickersey,

I am writing to you today to formally express my strong opposition to the City of Sydney's decision to refuse the extension of Hyper Karting's operations at Moore Park.

As a resident who values the vibrant, multi-use nature of the Entertainment Quarter, I believe the closure of this facility would be a significant loss to the community.

It is a shame to consider dismantling a year-round, successful business and employer to provide car storage that will sit vacant for the vast majority of the week. Hyper Karting provides a unique space for socialisation that bridges age gaps. In a city where active, alcohol-free entertainment options are becoming rarer, this venue serves as a crucial hub for friends, families, and colleagues to get together. Providing youth with high-quality recreational outlets is essential for community well-being; removing such a popular facility leaves a void in local active entertainment.

Rather than prioritising temporary parking solutions for cars, I urge the Council to encourage people to use public transport more to attend events.

I ask that you reconsider the extension for Hyper Karting to ensure it remains a fixture of Moore Park.

Thank you for your time and for considering my feedback on this matter.

Kind regards,
Rinu

Dear Council Representative,

I am writing to formally appeal the recent decision to reject the extension of the operating licence for Hyper Karting and to return the premises to its previous use as a car park.

At face value, this may appear to be a straightforward reversion to the site's historical purpose. In reality, it risks turning a currently vibrant, well-utilised space into one that is underused—if not entirely dormant.

Hyper Karting has demonstrably transformed the site into a destination. It attracts consistent foot traffic, supports local economic activity, and contributes to the broader vibrancy of the precinct. It is the kind of adaptive reuse that cities like Sydney should be encouraging—breathing life into infrastructure that might otherwise sit idle.

The alternative—returning the space to car parking—appears increasingly misaligned with both current demand and near-term supply. With the imminent opening of a new 1,500-space parking facility at Allianz Stadium, the local area is about to experience a significant increase in parking capacity. This raises a very practical question: what unmet demand is this site expected to serve?

There is a real risk that the premises will simply become surplus parking—unused for large portions of the day, contributing little to the community, and offering no meaningful economic or social return. In contrast, Hyper Karting provides activation, employment, and a unique recreational offering that aligns with Sydney's ambitions as a dynamic, experience-led city.

More broadly, this decision appears at odds with contemporary urban planning principles, which prioritise activation, mixed-use environments, and the reduction of reliance on single-purpose car-centric infrastructure—particularly in well-connected inner-city precincts.

I respectfully urge the Council to reconsider this decision with these factors in mind:

- The demonstrated success and utilisation of Hyper Karting as an active use of the site
- The forthcoming increase in nearby parking supply (Allianz Stadium's 1,500 spaces)
- The risk of underutilisation if the site reverts to parking
- The broader strategic objective of fostering vibrant, activated urban spaces

Cities are shaped not just by policy, but by the choices they make about how space is used. This is an opportunity to support an initiative that adds energy, diversity, and economic value to the area—rather than reverting to a use that may no longer be justified.

I appreciate your consideration of this appeal and would welcome the opportunity to discuss this further if helpful.

Yours sincerely

Simon Brice

Dear Sydney Council,

I did read a few months back that you were reviewing the above submission about HyperKart at Moore Park. I live in Dural some 25+ kms from this venue.

I recently gave taken both my 11 and 13 year old daughters to drive for the first time at HyperKart because I strongly beyin driver education and experience. You might think that driving a kart is not relevant but I strongly disagreed as it build confidence even in steering, braking and manoeuvring a moving object.

My girls loved it and we went back with my younger nephews as well.

There is nothing like it in Sydney where safety and fun for our kids to experience driving and learn and I strongly implore you to please reconsider the closure of this business for car parking.

The staff and management at HyperKart are exceptional and professional.

I am writing as a father and health professional to please reconsider this application to be approved and extended for our communities across Sydney.

Yours Sincerely

Peter Holland

Hi,

I just want to vouch for Hyper Karting, the site is the best casual (And even a good hardcore (For a rental kart only place) karting place in Sydney, considering the track layout change.) It's fun for younger people but I can also vouch for the 27-35 range as-well, it's in a great location and attracts a good crowd.

I have also been on weekdays, weekends and weekends around major event times and from my observation 1 floor of parking is not the issue here, traffic, queues and others will still be the same with the extra spots. Please reconsider and look at other options such as increasing traffic flow in the area to prevent congestion.

Kind regards,
Ryan

Dear Council Team,

I'm writing to express my strong support for Hyper Karting Sydney and to urge the council to consider the broader value this venue provides to the community before making any decision that could lead to its closure.

Hyper Karting Sydney is more than just a recreational facility. It contributes meaningfully to the local economy, creates employment opportunities, and offers a safe, structured environment for people, particularly younger individuals, to engage in motorsport in a controlled setting. Facilities like this play an important role in fostering interest in engineering, driving skills, and community participation.

From a social perspective, it is one of the few venues that appeals across age groups, providing an accessible and engaging activity for families, friends, and corporate groups. Removing it would leave a noticeable gap in local recreational options.

I also believe it is worth considering whether any concerns raised, whether related to noise, planning, or other regulatory matters can be addressed collaboratively with the operators rather than resulting in closure. A balanced approach that preserves community assets while managing impacts would be in the best interest of all stakeholders.

I strongly encourage the council to work constructively with Hyper Karting Sydney to find a path forward that allows it to continue operating.

Thank you for your time and consideration.

Kind regards,
Aden 🎯🎯

Dear Shannon Rickersey and the City of Sydney Assessment Team,

I am writing in support of Hyperkarting at 116 Lang Road, Moore Park, and urge the Council to allow this business to continue operating.

Hyperkarting is a valuable community venue that provides entertainment and recreation for families, groups, and individuals of all ages. Losing it would mean losing one of the few active leisure experiences available in the inner city.

I would also like to address any concerns around parking. In my experience visiting Moore Park, the car park in the surrounding area is rarely, if ever, at full capacity. The parking spaces in question are genuinely not needed — they sit unused for the vast majority of the time. It would be a great shame to see a thriving, community-loved business impacted over parking resources that are demonstrably underutilised.

I sincerely hope the Council will take community sentiment into account and find a way to support Hyperkarting's continued operation at this location.

Thank you for your time and consideration.

Dear City council,

I am writing to express my strong support for Hyper Cart. I truly love the service it provides and believe that it should not be forcibly removed.

In addition to the value it brings to users, I am deeply concerned about the potential job losses that would result from its removal. Please consider the impact this decision would have on the many individuals whose livelihoods depend on this platform.

Thank you for taking my perspective into account.

Best regards,

Aria A

Hi

Please do not close down Hyperkarting.

It is what makes the area so unique and is one of the only attractions City of Sydney has!

Sydney is already one of the most dead, boring and sanitised cities, hardly a global capital city. Don't know why you would then sanitize it further by remove hyper Karting

If anything, we should be building more attractions and bars, activation around hyper Karting.

Jenixon Lim

Hi Shannon,

I am writing to express my support for Hyperkart and to kindly request that you reconsider the decision to close it down.

Best regards,
Sophy Liu
