There is no need for the extra car spaces. For majority of the year the car park is empty. Hyper Karting is one of the main attractions for the Entertainment Quarter - you take this away and you will be affecting all the other retailers who rely on this entertainment offering to bring them customers. Why have you decided to build a hotel next to the stadium? That is not needed, there is so many other hotels close by, this should have been a car park for the stadium. For someone who was a member of Sydney FC we only started parking in the EQ car park as we would take our son to hyper karting before or after the game depending on the time. Otherwise we would find street parking and walk - and every time we did park in EQ car park it was still half empty or god forbid the few times you have multiple events on, it was full (that is hardly ever) it took you hours to get out and the both the cost and the time to get out was not worth it. And what has happened to Sydney being carless, but adding more car spaces are you not increasing the cars coming into the city of Sydney? Why contradict yourselves?

You should be ashamed removing a thriving retailer and a retailer who is providing entertainment options to not only the greater Sydney but to the eastern suburbs which besides natural resources is lacking entertainment venues.

Dear City of Sydney,

I would like to submit a Do Not Approve request for this development application.

This venue is irreplaceable in the Sydney City area. I am completely against this DA and cannot understand why the City of Sydney would remove this venue, to replace it with a car park.

Read the room City of Sydney. Removal of this venue is selfish, non-productive and a slap in the face of Motorsport loving Sydneysiders. Not to mention the termination of 150 employees jobs.

If this venue is shut down, from where is Australia's next inspirational F1 superstar going to come from?

It is a HARD NO from me.

Sincerely,

Ben Wrigley | m: [REDACTED] | e: [REDACTED]

Hi I'm curious why one of the only family friendly places In the whole area is being considered to be shut down for car parking?

and will this be replaced with something else where teens of this age demographic go to instead of being bored and resorting to crime like in the country?

thanks
Jeremy

Good Evening,

I am writing to raise my concern in relation to the proposal from City of Sydney to remove HyperKarting from the Entertainment Quarter at Moore Park.

As someone who has frequently attended large events at the facility including cricket, AFL, Soccer and even the sell out Elton John concert (twice), parking was never an issue.

The premises has ample carparking when using the outside grass blocks for major events such as sporting events and there is ample public transport with buses and the L2/L3 Light Rail lines both meeting at Moore Park.

The news that City of Sydney are proposing to remove this small business from an under used section of a carpark is utterly ridiculous.

I actively avoid parking in the facility at all costs as it is over priced, difficult to navigate and honestly better options exist. For those that do Park in the area, plenty of parking exists.

HyperKarting is a business that brings significant attendance to Moore Park and the Entertainment Quarter. Removing them would in actual fact reduce overall patronage to the area and this in turn has a significant adverse affect on surrounding businesses.

I hope that the City of Sydney strongly reconsider this abhorrent proposal and come to their senses to save a genuine business and community resource in the area.

Kind Regards,

Nathan

Please do not close Hyper Karting!

Places like Hyper Karting, where people of all ages and demographics, can get together are the heart of Australia.

Parking can be put anywhere, please find somewhere else.

From a life long Sydney sider who has been wanting to take her children to Hyper Karting for years, guess where we are going as soon as possible!

To whom it may concern,

I am writing to express my strong concern regarding the potential closure of Hyper Karting, operating within the Moore Park car park.

I have been a long-time user of this facility, and I would be genuinely disappointed to see it shut down. It is one of the few activities of its kind in Sydney that is accessible, social, and enjoyable for a wide range of people. Places like this matter. They are not just businesses occupying space — they are part of the social fabric of the city.

What concerns me even more is the broader pattern this seems to fit into. Over the years, I have watched many of my favourite places and activities in Sydney disappear, only to be replaced by more commercial development or dense residential expansion. Each year, it feels like there are fewer unique recreational spaces and community-oriented facilities left. Once these places are gone, they are rarely replaced with anything of equal value to the public.

The potential loss of this venue is also about more than recreation. It has been reported that around 150 jobs could be lost if the track closes, many of them held by young people. That matters. Sydney already does a good enough job making things harder for young people without stripping away both recreational spaces and employment opportunities at the same time.

Cities need more than apartments, retail, and sterile mixed-use development. They need places where people can actually go, do something memorable, and enjoy living there. Facilities like this contribute to Sydney's character and livability in a way that cannot simply be measured in commercial terms.

I urge council to seriously consider the value this venue provides to the community before making any decision that could lead to its closure. Losing yet another activity-based venue would be a real disappointment and, in my view, another step in the wrong direction for a city already losing too much of what makes it enjoyable.

Please take community use, public enjoyment, and the long-term cultural value of spaces like this into account.

Yours faithfully

Cameron Maughan

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon Rickersey,

I am writing to express my support in the current application RD/2023/897/A and the continued operation of Hyper Karting at the Entertainment Quarter.

I'm a member of the community from Sydney. Hyper Karting has brought back life to the Entertainment Quarter, which it previously struggled to maintain its liveliness and culture in a looming Sydney, in terms of activities to do and entertainment. I've genuinely enjoyed my experiences at Hyper Karting over the years, as a regular visitor at this business. Sharing the experience of Hyper Karting with both my friends and family has created great memories, it's become one of our go-to activities when we're looking to spend time and have some enjoyment in the city of Sydney.

When I visit the Entertainment Quarter, it's one of the few places near the city where there is consistent and fun to do outside of major events within this location. Without Hyper Karting, it lacks any life, a very monotonous atmosphere that struggles to grasp the wants of the community and people from not just Sydney city itself, but surrounding suburbs too.

I myself typically travel to this location by light rail, which is why it has taken me by surprise to see the focus on parking as a primary concern. My experience aligns with what's stated in the application documents, that an abundance of visitors to the Entertainment Quarter do not rely on driving to get there. Even when I have driven, I haven't personally experienced major parking issues outside of large event days. As a regular visitor to this location, I can attest that the Entertainment Quarter car park is fairly accessible in terms of parking, in which I do not struggle to find parking.

From what I understand, the traffic assessment also found that the actual parking demand generated by Hyper Karting is relatively low (around 267 spaces), and that the broader car park still has significant capacity most of the time. That reflects what I've seen myself when visiting.

Hyper Karting plays in keeping the Entertainment Quarter alive. It is the primary source for the vivacious energy and excitement it brings to the location. It promotes higher foot traffic in off peak seasons when there are no events at surrounding venues, supports nearby businesses, and provides a space for family gatherings and social connection, especially for younger communities and groups. Losing Hyper Karting at the Entertainment Quarter wouldn't just mean losing a business. It would take away from an already diminishing Sydney entertainment life, reduce foot traffic and revenue and make the location less worth visiting. This highlights the broader contribution Hyper Karting upholds within the Entertainment Quarter and local economy and community.

It is also noted within the application notes, that the venue supports roughly around 150 jobs, in a Sydney economy where the cost of living is incredibly significant, the impact this could have on the individuals who need this job for survival and living, is exasperating to think about.

Keeping this business up and running, is clearly in the best interest for the public. If there are concerns, it seems far more reasonable to manage them through other conditions, such as utilising the grass fields as additional car spaces, and continuing encouraging the use of the fairly new established light rail, rather than allowing the venue to close altogether.

I respectfully ask that you take my email into consideration, as a valued member of the community, and to please reconsider the review application status, we do not deserve to lose this business and to be stripped of the very entertainment we sought for, within the Entertainment Quarter.

Thank you for taking the time to consider my submission, looking forward to hearing from you.

Many thanks,

Lara Kayabas

To whom it may concern,

I've been told there's a risk of Hyper Karting Sydney being closed, and I just wanted to share my support for keeping it open.

I've really enjoyed going there; it's a great, unique place to spend time with friends and do something a bit different in the city. We've taken our church youth group there numerous times and it would be a real shame to lose it.

I hope you'll consider the positive impact it has on people young and old.

Kind regards,

To whom it concerns,

DO NOT threaten hyperkarting in the Sydney entertainment quarter.

It is a fantastic venue - I have been there for countless occasions and will continue to go on a regular basis for the foreseeable future.

I will go out of my way to shame a government that would remove such a treasure, and support whomever decides to preserve it.

Sincerely,

Joey Slomowitz

I enjoy hyperkarting as it is a fun experience, a great social event and is reasonably priced. I have shared many memorable experiences and moments within hyperkarting with friends and other individuals, racing and enjoying karting among ourselves. It should not be closed down. 293 car spaces does not justify the loss of over 100 jobs, the loss of a great and fun social experience, and especially considering the car space which already exists isn't even fully utilised as it stands at the moment.

The only go karting center in the eastern suburbs has so much more value than parking spaces!! Why not encourage public transport to a major entertainment venue rather than encouraging more cars to be on the road.

From what I've seen least 30% of people on a given day go to the entertainment quarter specifically for hyperkarting, in such a central position for commuter to get to wether by car (where capacity in the parking building is still present), or by lightrail, what help would just one floor of extra parking space provide to an area already adequately served by the moore park light rail stop, it would be foolish to remove such an establishment just for parking.

(this was good practice for my English persuasive essay that I have to do next term)

Hyper carts has been a great place for our friends & family to meet for a fun day out. It would be a real pity to lose it to “extra parking” that’s not really called for . There is soooo much parking as it is & it’s only a \$\$\$\$\$\$\$\$\$\$\$\$\$\$ venture

Hyperkart is a great place for families to gather and have fun. Whenever I've been there. There are lots of car parks available so removing them from their current place seems like a lack of vision especially for the precinct.

To Whom This May Concern,

I am wholly in support of Hyper Karts to remain at Entertainment Quarters Moore Park. It is a great source of entertainment for all ages and greatly contributes to the great community at Moore Park.

As a resident of Queens Park, I do not agree that the area requires more parking. The carpark of Entertainment Quarter is always empty except for during special events (which is uncommon).

Please allow Hyper Karts to remain in the current space.

Regards,

Christopher Duong

Dear Council Members,

I am writing to express my strong support for the continued operation of the Hyperkarts go-karting facility within our local community.

Hyperkarts provides a safe, structured, and engaging recreational outlet for people of all ages, particularly young people. In a time where communities are actively seeking positive activities that promote skill development, social interaction, and outdoor engagement, facilities like Hyperkarts play an essential role. It encourages responsibility, coordination, and respect for safety rules—qualities that are valuable both on and off the track.

Beyond its recreational benefits, Hyperkarts contributes meaningfully to the local economy. It creates employment opportunities, attracts visitors to the area, and supports nearby businesses. The presence of such a venue helps strengthen the vibrancy of our community and offers an alternative form of entertainment that keeps people engaged locally rather than seeking activities elsewhere.

I understand that there may be concerns surrounding factors such as noise or environmental impact. However, I strongly encourage the council to work collaboratively with the operators to explore reasonable solutions—such as adjusted operating hours, sound mitigation measures, or community consultation—rather than considering closure. Maintaining the facility while addressing concerns would be a balanced approach that benefits all stakeholders.

Closing Hyperkarts would result in the loss of a valuable community asset that promotes healthy recreation and local economic activity. I respectfully urge the council to consider the broader positive impact of this facility and to support its continued operation.

Thank you for taking the time to consider this matter. I appreciate your commitment to making decisions that reflect the best interests of our community.

Yours sincerely

Dear Shannon Rickersey,

Hyper Karting has been an institution for the last 5 years to everyone who has been there.

Birthday parties, social events and everything in between have been celebrated here.

It would be awful to see this place close down.

The community has had such an incredible time here and will continue to as long as hyper karting will stay open.

On behalf of myself and the community, hyper karting must stay open.

It is a safe space to have fun and race against friends.

Please consider this.

Yours Sincerely,
Joshua Hasanoff

To whom it may concern,

I am writing to express my support for retaining Hyper Karting at Moore Park (Submission RD/2023/897/A – 116 Lang Road, Moore Park NSW 2021).

Hyper Karting provides a unique, accessible recreational activity that contributes positively to the local community. It offers a safe, controlled environment for motorsport enthusiasts of all ages, encourages social engagement, and adds diversity to the entertainment options available in the Moore Park precinct.

Importantly, the venue attracts visitors, supports local businesses, and contributes to the vibrancy and economic activity of the area. Facilities like this are increasingly rare in urban environments, and once lost, they are difficult to replace.

Retaining Hyper Karting would ensure that Moore Park continues to offer a broad mix of activities that appeal to a wide range of people, rather than losing a distinctive and valued attraction.

Thank you for considering this submission.

Kind regards,

James Weaver

Dear Sydney Council,

Hearing the news that Hyperkarting is potentially shutting down has deeply upset me. I may not be an employee or a paid member of Hyperkarting, but my story of go-karting began there, which is why its continuation is so important to me.

Closing down one of Sydney's most iconic go karting tracks would be devastating, not just for me, but for countless others who have created memories and learned skills there over the years. Hyperkarting is more than a business; it is a hub for community, competition, and family fun. Its closure would represent a significant loss to Sydney's recreational and sporting culture.

I urge the Council to consider the value Hyperkarting brings to the community and explore options to ensure it can continue operating. Preserving this iconic venue would mean protecting a space where young people, families, and enthusiasts can enjoy a safe and exciting activity.

Thank you for your attention and consideration.

Sincerely,

Collin

Do you want to know what Hyper Karting has brought to me? A bundle of fantastic memories that I will cherish forever, and this is solely to the fact that I get to beat my friends, over and over again. Now this may sound cruel and you think me a boaster, but it is because of what this great place was able to provide for me, the competition, the thrill of getting that fastest lap, the joy of racing against my friends, this is why it should stay. Because who would even use that top floor anyway, no one, legit.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Fantastic place that adds so much to the community in a consistent manner. Not just in periods during games and events. This is a consistent thrill and joy to people in the vicinity. Also keep in mind gas prices are higher, people are not going to drive around more. Additionally, if you want to boost revenue in restaurants like el caminos, hoyts, winghaus and the entertainment quarter in general, you need primary attractions like hyper karting.

Very few people are travelling distances to come eat at entertainment quarter. They primarily come for hyper karting and use entertainment quarter as an added bonus.

Furthermore, keep in mind that NSW and Australia is not funded by your rich and frivolous customer base. It is funded by each and every student, casual, part-time employee, and generally people with a lower threshold on expenses. Take away all the more affordable options you have and you drive demand out of the city.

Moore park is already quite deserted during times it should be busy, the only consistent traffic is always at hyper karting, dont take that away and ruin every business established in entertainment quarter.

Please take the research and proven logic under consideration and see whether a decision like this is really beneficial or is just a fake promise of result.

I am writing to express my strong support for Hyper Karting Moore Park and to urge you to reconsider any plans regarding its closure. This venue is far more than just an entertainment facility, it plays a meaningful role in bringing together families, friends, and the wider community in a way that is increasingly rare.

On any given day, the track is filled with a mix of people, parents watching from the sidelines as their kids take cautious first laps, groups of friends laughing and competing over lap times, and coworkers unwinding after long workdays. There's a unique energy in the space, one that blends excitement with connection. Conversations don't feel forced there, they happen naturally between races, over shared wins, close finishes, and even the occasional spin-out.

For families especially, it offers something that is hard to find an activity that genuinely engages all ages. Teenagers who might otherwise retreat into their own worlds are suddenly animated, comparing speeds and techniques with their parents. Younger kids look up to older siblings or adults, building confidence as they improve with each session. It becomes more than a race; it becomes a shared experience that strengthens relationships.

The venue also provides a safe and structured environment for excitement and competition. In a time where many social activities are becoming increasingly isolated or screen-based, Hyper Karting Moore Park encourages people to be present with each other. It fosters teamwork, friendly rivalry, and communication, qualities that benefit individuals well beyond the track itself.

Additionally, the social impact extends beyond immediate groups. It's common to see strangers striking up conversations, offering tips, or congratulating each other after a race. There's a sense of community that forms naturally, even among people who have never met before. That kind of spontaneous connection is something communities should be protecting, not losing.

From a broader perspective, venues like this contribute to local vibrancy. They give people a reason to gather, celebrate milestones, or simply break routine. Whether it's a birthday, a casual weekend outing, or a spontaneous meet-up, Hyper Karting Moore Park provides a space where memories are made, often the kind that are talked about long after the engines

have gone quiet.

Closing such a place would mean more than the loss of a recreational facility. It would remove a social hub that actively brings people together in a positive, engaging way. In its absence, there are very few alternatives that offer the same combination of excitement, inclusivity, and connection.

If necessary, I am also prepared to raise this issue further. I will be contacting my local member of federal parliament, Allegra Spender, as well as my local member of state parliament, Alex Greenwich, to ensure that the importance of this venue to the community is properly recognised.

I strongly encourage you to consider the wider impact this decision would have, not just on business or operations, but on the community that relies on it. Preserving spaces that foster genuine human interaction is essential, and Hyper Karting Moore Park is a clear example of such a place.

Thank you for your time and consideration.

Kind regards,

Frankie Amante

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear City of Sydney Council,

I am writing to express my strong support for Hyper Karting and to respectfully urge the Council to reconsider its decision regarding the future of this facility.

Hyper Karting represents far more than just a recreational venue. It is a valuable community asset that provides a safe, engaging, and affordable activity for people of all ages. In a city where there are already limited options for nighttime entertainment that are inclusive and accessible, Hyper Karting fills an important gap. It offers a space where families, friends, and colleagues can come together to enjoy a fun, challenging, and safe experience.

From a practical standpoint, the proposal to replace the venue with additional parking raises concerns. Moore Park and its surrounding areas already have substantial parking infrastructure. Removing a well-utilised entertainment venue to create more parking does not appear to reflect the best use of this space, particularly when considering the social and economic benefits currently being delivered.

The potential closure would also result in the loss of many jobs, impacting employees and their families. At a time when secure employment opportunities are so important, preserving a business that actively contributes to the local economy should be a priority.

Hyper Karting also plays a role in supporting Sydney's night-time economy. Cities thrive when they provide diverse and engaging activities beyond standard business hours. Removing venues like this risks making Sydney less vibrant and less appealing, especially for younger people and families seeking safe alternatives to traditional nightlife.

In summary, I respectfully ask the Council to:

- Reconsider the decision to deny an extension for Hyper Karting
- Recognise the existing adequacy of parking in the area
- Consider the social, economic, and community value the venue provides
- Support initiatives that enhance Sydney's night-time economy rather than diminish it

Thank you for taking the time to consider this perspective. I hope the Council will make a decision that reflects the interests of the community and supports vibrant, inclusive recreational spaces.

Kind regards,
Aznabi Hossain

Dear Council Representative's,

I am writing to formally and strongly object to any proposal to shut down the local kids go-karting business.

I am a regular customer, and I take my children there frequently. It is one of the few places where they are genuinely excited, active, and fully engaged. They absolutely love it and look forward to every visit. The thought of this facility being closed is not just disappointing, it would be deeply upsetting for my children and many others in the community.

This business is far more than just entertainment. It provides a safe, supervised environment where children can build confidence, develop coordination skills, and enjoy healthy, active recreation. In a time when screen time is a growing concern, venues like this are incredibly important and should be supported, not removed.

Closing this business would take away a valuable and much-needed outlet for local families. It would also negatively impact the local economy, including jobs and small business sustainability. Many families, including mine, rely on accessible, family, friendly venues like this.

While I understand the council has responsibilities regarding regulations and compliance, shutting the business down should be an absolute last resort. I strongly urge the council to work constructively with the owners to resolve any concerns and find a practical solution that allows the business to continue operating safely and within guidelines.

The loss of this facility would be felt widely across the community. I ask that you seriously reconsider any decision to close it and take into account the real impact on families, children, and local livelihoods.

I appreciate your attention to this matter and hope the council will make a decision that reflects the needs and wellbeing of the community.

Kind Regard's

Hi City of Sydney,

I'm writing in support of Hyper Karting at Moore Park. I thought the council was in favour but of small business. Here is a business that has built a following, is loved by many, and now the City is shutting it down ... go car parking. Wasn't the point of the tram for people to catch that in for games? (The only time the car park might fill up).

Kind regards,

Dominic

Hello,

Hyper karting is one of the best uses of that space and I've never ever ever seen that car park full in most cases. In fact, the second top floor is always empty every time I've been there, including weekends, etc..

Why destroy a business and a reason for people to come to the area?

Almost every time I've come and spent money in that area, including the entire EQ was being attracted there by hyper karting.

Mike

To whom it concerns,

Writing in support of the extension of Hyperkartings lease at Moore park.

We have so few facilities in the metro area for such pursuits as karting that losing this central facility would be a shameful blow.

We have used the centre ever since its opening for my family, as well as colleagues from our work, and consider the potential loss of this as a blow to the community as a whole as extremely disappointing.

Please do everything in your power to extend the life of this facility,

Regards,

Nick Byrne

Dear CoS and Mr. Rickersey

Hyperkarting is one of the few places close by that is not just a shopping centre or a cinema. It is the only place I can go that is guaranteed to lift my spirits when I'm low.

Aren't we meant to be reducing the number of cars on the road, not increasing them? What is the reason that the carpark wasn't built into the ground to provide more spots in the first place.

Please don't get rid of Hyperkarting for some as counter progressive as more parking spaces.

Thank you,
Veronica

Dear City of Sydney.

My two children and I all use this facility frequently. I have been to many other children's birthday parties there. There is nothing like this available within economical distance of the eastern suburbs. Please allow this business to remain where it is so our families can have some fun here in Sydney.

Kindest

Randal Misch

Why would we close down an active business with a thriving community just to slot in a few extra cars in a carpark during events. People should be catching public transport to big events anyway, not clogging local roads. Don't kill a business for a dead carpark.

- Finbar

To whom it may concern,

Additional parking spaces in an area that is already very easy to reach with public transport is an absurd decision. Councils should be working hard to make our areas more fun and livelier, not just to cater to people who don't want to use public transport. Hyper karting is also a big attraction to the area and the nearby businesses will definitely suffer from the reduced traffic into the area.

Kind regards,

Sajjad Saleh

Dear Council,

I'm writing to support keeping Hyper Karting open.

It's a great local activity that gives people something fun and safe to do. It keeps people out of trouble and is especially good for younger people. It also supports local jobs and brings people into the area.

I understand there may be concerns, but I believe these can be managed without shutting it down.

Please consider keeping Hyper Karting open for the benefit of the community.

Regards,
Hugo Watson

Clr Clover Moore
Lord Mayor
City of Sydney
GPO Box 1591
SYDNEY NSW 2001

Dear Clover

Hyper Karting – RD/2023/897/A

I write in support of the review application RD/2023/897/A to allow the continued use of level 5 of the Entertainment Quarter car park for electric go-karting and associated entertainment activities until 1 July 2028.

Hyper Karting currently operates on level 5 of the Entertainment Quarter (EQ) precinct car park and employs 156 staff to run the entertainment facility seven days per week.

I understand the City of Sydney recently refused Hyper Karting's application for an extension to D/2023/897/B due in part to the impact of parking spaces being unavailable for use.

Records show that often during large events at the Sydney Cricket Ground, Allianz Stadium, Hordern Pavilion and EQ precinct parking spaces go unused and Venues NSW is building an underground car park that will replace on-grass parking provisions. The light rail was also built to reduce car use during events.

Documents from the applicant show a comparative cost analysis of parking provision and the loss of a business that brings approximately 500 000 patrons annually to the precinct.

The EQ is public land and community recreation needs must be given priority over the parking needs of the sporting stadiums. Any concerns about future parking provisions should be addressed through a transport plan. Thriving businesses such as Hyper Karting support recreation and contribute to the vibrancy and success of the area.

Could you please review and overturn the refusal of Hyper Karting's application to continue use of level 5 of the Entertainment Quarter car park?

Yours sincerely

Alex Greenwich
Member for Sydney

Dear City of Sydney Councillors,

I am writing to urge you to reconsider the decision to deny Hyper Karting's application for a two-year extension at the Entertainment Quarter, Moore Park.

I visit the Entertainment Quarter regularly, and I can tell you firsthand: Hyper Karting has transformed it. The precinct is busier than I have seen it in years, perhaps decades. That energy doesn't stay on Level 5 of the car park. It flows through the entire quarter. People who come for karting eat at the restaurants, drink at the bars and shop at businesses that were visibly struggling before Hyper Karting gave people a genuine reason to be there. You are not just deciding the fate of one venue. You are deciding the fate of the entire precinct's foot traffic and economic vitality.

The council's stated reason for the refusal is that the commercial use of 298 parking spaces is "unacceptable." I would ask you to weigh that against the reality: Transport for NSW data shows the Entertainment Quarter car park has reached full capacity only a handful of times across 84 major events since Allianz Stadium reopened in 2022. The spaces Hyper Karting occupies are not in high demand. Meanwhile, the venue itself operates seven days a week, from early morning to nearly midnight and has welcomed over 500,000 visitors since 2021. That is an extraordinary utilisation of space by any measure.

To replace an attraction that draws hundreds of thousands of people with empty parking bays, especially at a time when the NSW Government is actively trying to revitalise Sydney's entertainment culture, is a decision that runs directly counter to stated government policy. It is also financially illogical for the Entertainment Quarter as a whole.

I also want to raise something personal. My son is three years old. Hyper Karting is one of the only venues in Sydney, possibly the only one, that caters to children as young as three with dedicated karts and a purpose-built mini track. The joy it brings him is immeasurable, and that experience simply does not exist anywhere else in this city. Removing it doesn't just affect businesses; it removes something genuinely irreplaceable for families.

Hyper Karting also supports over 150 jobs. These are real livelihoods, attached to a business that is thriving.

Your decision to close them down has wide ranging effects that I hope you will absolutely reconsider and take more thought on

Rebecca fanning
Local business owner and supporter of Hyper Karting

To whom It may concern,

With the limited amount of activities available in the eastern suburbs for kids and adults alike in this space, removing it would be highly detrimental to entertainment within the city.

Hyperkarts has been a staple for so many friends and family over the years, and it's removal to make way for greater parking spaces would be incredibly disappointing and not in the spirit of increasing the things to do in this city. Parking can occur anywhere - on the grass across the road, or better still, a better attempt at getting public transport messaging to people coming in for events, where as a business like Hyperkarts is severely limited in scope.

Another important aspect is mentioning the difficulty in creating a profitable business, with an active local and visiting community, of which is what Hyperkarts have done. Taking this away, and the livelihood of people it employs, companies it procures from and tourists that it entertains is not what I believe to be in the best interest of Sydney.

Kind regards,

Myles Sgammotta

I'm sending this email about the Hyperkart closure.

I'm sure you've received countless emails objecting this and this is one more to add to the list.

I've been going to Hyperkarting in Moore park for years. Not only to I have fond memories with my family but it's also where I met my fiancée. If there's anything that can be done, please don't shut this place down. It's a national treasure for the regulars and locals at this point, and is a place where Kia and adults are able to create memories. Another car park won't do any good for anybody.

Good morning,

Please do not close down Hyper Karting.

As a resident of the City of Sydney, I love having this entertainment nearby my home so that I can drop by with my friends and family.

Go Kart Racing is a prime Australian sport.

Think of the all the great racers from Australia that started with Go kart racing. Daniel Riccardo, Oscar Piastri. Sydney could have our very own Oscar Piastri!

I once saw famous race car driver Renee Gracie racing at Hyper Karting before her movie premiere. It was so cool to see celebrities in our backyard.

Please do not close Hyper Karting, thank you.

Yours sincerely,
Nina Gee

Hi,

We cannot lose hyperkarting for more parking spots. We have plenty of overflow parking infrastructure in Moore Park to facilitate events as is. This is not to say the space itself can't be society to appropriate rental adjustment, but we shouldn't cut a thriving business unless absolutely necessary.

Warm regards,
Kevin

I'm writing as a member of the Sydney community to urge the council to reconsider any plans to close or displace Hyper Karting at the Entertainment Quarter in favour of additional parking spaces.

Hyper Karting is one of the very few dedicated go-karting venues available to families in Sydney. Replacing it with a car park would be a significant loss — not just for the venue's 150+ employees, but for the thousands of families who rely on it as one of the rare active, screen-free entertainment options in the city.

Go-karting isn't just fun — it's genuinely developmental for children. It builds hand-eye coordination, spatial awareness, and focus. It teaches kids to manage speed, make split-second decisions, and understand consequences — all in a safe, controlled environment. For many children, venues like Hyper Karting are their first real introduction to motorsport and mechanical curiosity, which can spark lifelong passions in engineering, physics, and motorsport careers.

Beyond the developmental angle, places like this are increasingly rare in Sydney. The city has no shortage of parking garages. It has a significant shortage of affordable, family-oriented, active entertainment. Every time a venue like this disappears, families are pushed further toward passive, sedentary activities — or simply staying home.

The Entertainment Quarter already serves as a destination for families specifically because of attractions like Hyper Karting. Removing it doesn't just affect one business — it undermines the entire precinct's value as a place people want to visit. I strongly encourage the council to find an alternative solution that preserves this venue, its 150 jobs, and its irreplaceable role in the community. Parking can be engineered around. A community hub like Hyper Karting, once gone, is nearly impossible to replace. Thank you for your time and consideration.

Sincerely,
-Ted

Hi, I am writing this email to inform you that it is not okay for you to close down Hyper Karting. I love coming here it is so much fun for a date night or even just a fun night out with your friends. I have come a couple times with my partner and it's one of our favourite date night spots! We are so competitive so, Hyper Karting is perfect for us. We have the best time and we would be very disappointed if you were to shut down. We drive just over an hour to get there, that's how much we like it! And what's the point of turning it into a car park when your other car parks aren't even full?

Thank you for taking the time to read those email, I hope I have made an influence on you to keep Hyper Karting open!

Sincerely,

Chantel Morris

Dear Shannon

I am writing to express my strong opposition to any decision that would result in the closure of Hyperkarting at 116 Lang Road, Moore Park.

Hyperkarting is a genuinely loved venue — enjoyed by countless individuals, families, and groups across Sydney. It offers a rare and exciting recreational experience that simply cannot be replaced. To remove it from the community would be a real loss, and one that I believe many residents would feel deeply.

What makes this situation even more frustrating is the reason behind it. The idea of displacing a much-loved, thriving business in order to create additional car parking spaces — spaces that are not needed — is frankly difficult to understand. Moore Park's surrounding car parks are consistently underutilised. Anyone who visits the area regularly can see that the existing parking is more than adequate and frequently far from full. Adding more car spaces to an already underused car park, at the cost of a beloved community venue, does not represent a sound or sensible use of this land.

I urge the Council to reconsider this proposal and prioritise what actually benefits the community — keeping Hyperkarting open. Please do not trade a vibrant, active, people-filled business for empty concrete.

Thank you for considering this submission.

Kind regards,

From: Georgia Kordos <[REDACTED]> on behalf of Georgia Kordos

Hello!

Hyperkarting is a place where residents come together as a community and it is essential for it to remain open - as an employer of residents as well as a place for community.

Warm regards,
Saketh.

To the Council,

I am writing to express my strong support for Hyper Karting and to urge you to reconsider any decision that may lead to its closure.

Hyper Karting is more than just an entertainment venue—it is a safe, structured environment where people of all ages can engage in a fun and controlled motorsport experience. It provides young people and adults alike with an outlet that promotes responsibility, coordination, and community engagement, all within a supervised setting.

Closing Hyper Karting would remove one of the few accessible motorsport venues in Sydney where individuals can enjoy high-performance driving in a safe and regulated way. Without places like this, there is a real risk that people—especially younger drivers—may seek out unsafe alternatives on public roads.

Additionally, Hyper Karting contributes positively to the local economy by creating jobs, attracting visitors, and supporting surrounding businesses. It is also a social hub where friends, families, and communities come together, strengthening local connections.

Rather than closing the venue, I encourage the council to work collaboratively with Hyper Karting to address any concerns, whether they relate to noise, safety, or operations. With the right adjustments, it can continue to operate in a way that benefits both the community and the council.

Please consider the broader impact this decision will have—not only on the business itself, but on the people who rely on it for recreation, employment, and community connection.

Thank you for your time and consideration.

Sincerely,
Axel ondevilla

Dear Shannon,

Please reconsider closing down Hyper Karting in Moore Park. This is such a great place for kids and parties and makes use of space that is not needed. The eastern suburbs has a shortage of indoor spaces for kids when the days are cold and wet.

This is a great business that is thriving and brings lots of people to the area.

Kind regards,
Sarah Frost

Hi,

I think hyperkarting is a really important and unique business for the community. I have been several times with friends and colleagues and had an amazing time every time. Its location and proximity from the city make it accessible to a lot of people who may otherwise not be able to experience gokarting.

I hope it possible to prevent this business from closing.

Cheers,
Lena

Hyper karting has become a main attraction at Moore park entertainment. Putting an extra level of parking spots won't make a difference as "busy nights" still have many parking spots available. This will put a lot of people out of jobs and may struggle to find a new job straight away.

Closing this down will also reduce the amount of people that visit Moore park

Hi Shannon,

I hope you're well

I'm just writing to express my disappointment in learning there is a consideration to close Hyper Kart

I am a regular attendee of Moore Park EQ in all respects, dining, concerts (etc.) and I understand the need for additional car spaces especially when there is several events running at a time

That said, there's a section of grass (EP2) which is quite significant in size which would be far better to develop for this, rather than remove a valued business?

One of the key issues I find with EQ isn't the car parking, but the flow of traffic exiting EQ in the evening when all events are said and done - adding more carparks to the current zone will exacerbate this. It seems more constructive to separate the zones so there are two clear exit points. A multi level car park adjacent Sydney Cricket Park or Allianz Stadium with a forced exit of LH only onto Driver Ave and then adding a roundabout at Driver Ave & Moore Park to aid flow of traffic

This is only a suggestion and granted I don't have experience in city planning, but you may need to experience peak hour exit (if you haven't already) to understand that adding more car parks to the existing Wilson Parking off Lang Road would be a nightmare to say the least

More importantly, the council's proposal means shutting down an existing business, with significant employment (mostly younger staff from what I can tell), in a population-dense council area with minimal available work, as is.

Hyper Kart is a business I've used for both kids parties and corporate team building events, and it has always been highly rated and enjoyable - I travel from the Hawkesbury to go there.

I hope you take into consideration not just "utilising what's already there" but take a pragmatic approach to cure the real issue which is volume of car parks, but efficiency as well.

I'm sure Wilson's would be happy to capitalise on an additional parking multi level section on Drivers Ave, if this isn't already in discussion

Thank you for taking the time to read this, appreciate your support

Alice

To whom it may concern,

I must say, your proposal to shut down Hyper Karting in favour of reclaiming a handful of glorified, perpetually empty parking spaces is nothing short of astonishing — and not in the way you might hope.

Let me be abundantly clear: Hyper Karting is not some disposable afterthought tucked away on Level 5. It is a thriving, high-performing, revenue-generating operation that people actually use, value, and respect — three things those parking bays have categorically failed to achieve for what I can only assume has been their entire, uneventful existence.

The idea that you would willingly dismantle something dynamic and successful in exchange for dead space is, frankly, baffling. It suggests either a spectacular lack of awareness or a commitment to inefficiency so bold it almost deserves recognition.

I would strongly encourage you to revisit this decision with a touch more realism and a lot less attachment to empty concrete. Because from where I'm standing, this isn't just a poor call — it's an avoidable embarrassment.

Hyper Karting adds value. Those parking spaces do not.

I trust you'll make the right decision — or at the very least, a less absurd one.

Regards,

Harvey Webergene Betts

Hi,

Please don't evict Hypercarting from EQ. It's a fantastic activity to have in the eastern suburbs, and now that they have the mini & junior options it's a great activity for the kids.

We need these types of activities to keep people coming in to EQ to support the restaurants & cafes here. Without hypercarting, I expect the battle carts & pixel will also leave, so it doesn't give me much of a reason to come here. Please don't evict them.

Simon

Dear Lord Mayor and Councillors,

I am writing to formally express my strong opposition to the recent decision to deny the lease extension for Hyper Karting at the Entertainment Quarter.

As a resident of the Sydney area, I believe this decision is a significant step backward for the Moore Park precinct. Hyper Karting is not just a commercial tenant; it is a major drawcard that brings life to the Entertainment Quarter outside of major stadium events.

The rationale that 298 parking spaces are more valuable than a thriving business that employs over 150 people is, in my view, flawed. Transport for NSW data suggests the car park rarely reaches capacity. Prioritising empty concrete over a high-tech, sustainable entertainment venue contradicts the NSW Government's stated goal of revitalising the precinct into a year-round destination.

I urge the Council to reconsider this refusal and grant the two-year extension to allow Hyper Karting to continue contributing to Sydney's night-time economy and community culture.

Sincerely,

Kendro Andonovski

Dear Shannon,

I did read a few months back that you were reviewing the above submission about HyperKart at Moore Park. I live in Dural some 25+ kms from this venue.

I recently took both my 11 and 13 year old daughters to drive for the first time at HyperKart because I strongly believe in driver education and confidence and experience. You might think that driving a kart is not relevant but I strongly disagreed as it builds confidence in steering, braking and manoeuvring a moving object.

My girls loved it and we went back again with my younger nephews as well.

There is nothing like it in Sydney where safety and fun for our kids to experience driving and learning new skills and I strongly implore you to please reconsider the closure of this business just for car parking which has never been full when myself and our family has previously visited.

The staff and management at HyperKart are exceptional and professional.

I am writing as a father and a health professional to please reconsider this application to be approved and extended for our communities across Sydney.

Yours Sincerely

Peter Holland

I am writing to express my strong concern regarding the proposal to discontinue Hyper Karting at the Entertainment Quarter, Moore Park, and replace it with additional car parking infrastructure.

Hyper Karting is not just a recreational activity — it is a key attraction within one of Sydney's most important entertainment precincts. Located in the heart of Moore Park, the Entertainment Quarter attracts approximately millions of visitors annually, contributing significantly to Sydney's visitor economy and night-time culture. Within this ecosystem, Hyper Karting plays a vital role in:

- ***Driving foot traffic across all days of the week (not just event days)***
- ***Supporting surrounding businesses including restaurants, cinemas, and retail***
- ***Enhancing Sydney's reputation as a modern, experience-driven city***
- ***Creating a hotspot for people of all ages looking for Entertainment in Sydney especially in the racing sport as F1 becomes more popular these days.***

Notably, Hyper Karting has already attracted over 400,000 visitors, demonstrating strong and consistent public demand and featured in so many popular news channels, blogspots and more .

One big important thing that makes this place better than a car park is because of its ability to retain visitors to Moore Park.

Why Hyper Karting retains visitors after events — and a car park doesn't:

- *Moore Park already draws massive crowds on event days, but without a compelling reason to stay, visitors leave the moment the event ends.*
- *Hyper Karting gives event-goers a reason to arrive early and stay longer, turning a single-purpose visit into a full evening out*
- *Families finishing a match can cap the night with a race; groups can move seamlessly from dinner to the track*
- *This post-event retention drives real secondary spend across restaurants, bars, and retail in the precinct*
- *A car park generates none of this — it empties the moment an event ends, while Hyper Karting keeps the precinct alive and trading*

Beyond its economic contribution, Hyper Karting has also established itself as a recognized hotspot for celebrities, influencers, and high-profile guests visiting Sydney. Since its launch, the venue has hosted VIP events, Corporate Events , countless birthday parties fulfilling every kid's interest to be a racer and continues to attract well-known personalities, making it not only a local attraction but a globally appealing entertainment experience.

This level of visibility brings significant public relations value to Sydney especially Moore Park. When celebrities and influencers visit and share their experiences, it generates organic global exposure, positioning Sydney as a vibrant, world-class destination. This type of promotion cannot be replicated by traditional infrastructure such as a car park.

From an economic perspective, Sydney's tourism sector generates billions of dollars annually, and experiential attractions like Hyper Karting play a crucial role in sustaining and growing this revenue. Entertainment-driven venues increase visitor dwell time boost spending across multiple businesses, and create employment opportunities.

Replacing a high-engagement attraction such as Hyper Karting with a car park would likely result in:

- ***Reduced visitor dwell time (people leaving immediately after events)***
- ***Lower spending across food, retail, and entertainment outlets***
- ***Loss of jobs linked to operations, events, and hospitality***
- ***A decline in Sydney's competitive positioning as a global entertainment destination***

and many more to add to this.

By contrast, car parks are passive infrastructure. They generate limited economic activity and do not contribute to the vibrancy, culture, or identity of the precinct.

Especially when most of the Sydneyiders from the East, West, North and South consider Moore Park as the hotspot of Entertainment and Hyper Karting is a part of this exposure and represents the type of modern, inclusive entertainment that Sydney needs more of — especially as the city continues to revitalise its night-time economy and attract both locals and international visitors.

In Conclusion,

The removal of such a venue would contradict the broader vision of transforming the Entertainment Quarter into a thriving, world-class destination.

I respectfully urge the City of Sydney and relevant decision-makers to reconsider this proposal and prioritise developments that enhance economic activity, community engagement, and cultural value — rather than replacing them with underutilised infrastructure.

Preserving Hyper Karting is not just about saving a business; it is about protecting a proven contributor to Sydney's economy, identity, and global image.

Thank you for your time and consideration.

--

Kind Regards,
Abhishek Jordan Kona

I strongly oppose the closing of Hyper Karting in Moore Park.

We need entertainment options like this in Central Sydney.

The idea of removing that for the sake of some extra parking spaces is very disappointing.

I urge you to reconsider the proposal and let Hyper Karting remain in place.

Greg Fonne

DO NOT DESTROY HYPER KARTING! The last thing we need is more parking lots! You have already gutted and destroyed so many spaces for the community to enjoy, and turning Sydney into a soulless bland place. City of Sydney has it all backwards, we need to be less car-centric & people focused.

Hyperkarting offers what no one else does in the precinct

Why add additional parking spaces if there is so many transport option.

Adding more car spaces will show the city has failed to provide sufficient public transport

I am requesting a reconsideration in shutting down hyperkart Sydney in doing this you're erasing memories and jobs that we so desperately need right now all for parking spaces. This decision is extremely disappointing and as someone who puts a lot of money in to this car park yearly for events I will personally never park my car here again if hyper karting is removed as I'd feel guilt contributing to something people lost their livelihoods for please reconsider for the community

Seriously, there is not enough for young people to do in the city and you're looking at removing an engaging business to allocate more parking space. It also is an attraction to bring people to the quarter. In a city encouraging public transport, why allocate more car spaces?

Please save hyperkarting

Dear Council Team,

I am writing to express my strong concern regarding the proposed closure of the Hyper Karting facility.

This venue is an important part of our local community. It provides a safe, engaging environment for families, young people, and motorsport enthusiasts. Closing it would not only remove a valuable recreational space but also impact local employment and small business activity in the area.

Facilities like this help keep people active, connected, and off the streets. It offers a positive outlet, especially for younger members of the community, and contributes to the vibrancy of our local area.

I respectfully ask the council to reconsider this decision and explore alternative solutions that allow the facility to continue operating while addressing any concerns that may exist.

Thank you for taking the time to consider community feedback.

Kind regards,
Siraj Uddin

Dear Shannon Rickersey, Dear City of Sydney DA Team,

RE: REQUEST: HyperKart Lease Extension - Entertainment Quarter Car Park Level 5

I am writing to request an extension of the HyperKart lease at Entertainment Quarter Car Park.

As a customer and parent, HyperKart has provided my daughter and her friends with a safe, supervised space to learn go-karting with modern, electric-powered karts that are speed-controlled for younger drivers.

Key benefits worth extending:

- Safe family entertainment with real-time speed monitoring and professional supervision
- Educational road safety experience for young drivers in a controlled environment
- Modern electric karts (zero emissions, sustainable operations)
- Community asset supporting local employment and Entertainment Quarter foot traffic

I urge the Council to prioritise this lease extension to ensure continuity of this valuable community facility. I'm happy to discuss further if needed.

Yours sincerely,

Andrew Miehs

Hello

I am reaching out regarding the potential shut down of Hyper Karting to allow for more parking spaces at the Entertainment Quarter.

I am deeply concerned that this thriving small business which has provided a fantastic and unique form of entertainment for many years is under threat for a mere 296 parking spaces. It is unfathomable that in 2026 your council is prioritising car spaces even after the construction of an excellent, efficient, and more environmentally friendly light rail service. Adding more parking spaces will only encourage more people to drive to Moore Park when the added spaces would only allow at maximum an extra 1480 people (assuming every car is a full car) to attend the Quarter. Considering the capacity of the venues this parking is meant to help provide access for, the proposed action to shut down an entire business is extremely drastic and disproportionate to the very minimal capacity gained. Additionally, this capacity will generally be left unused as extra parking is only required for major events, which are less than regular at the Quarter.

The value of keeping Hyper Karting in its current location far exceeds that of adding a few parking spaces. Hyper Karting is a uniquely positioned business, being the only karting venue available and within reasonable access for those residing in the CBD, Eastern Suburbs, and Inner West. It serves as a great place for friends to go after school, university, or work, and is in a central location for gatherings such as birthdays and corporate events. Their business gets people going out of their way to visit the Entertainment Quarter, boosting the economy for other local businesses in an area which has historically been fairly empty outside of major events. Each time I have visited the Entertainment Quarter Hyper Karting has been busy with customers, even during quieter days and times of the week. The Entertainment Quarter would lose a vital life source if Hyper Karting were to be shut down.

Please strongly consider the long term ramifications of a decision like this. A small business will be forced to close, jobs will be permanently lost, the local economy will be negatively impacted, and so much of Sydney's population will completely lose the opportunity to ever go karting.

Thank you for taking the time to address my concerns. I look forward to your response.

Kind regards,

[REDACTED]

Please keep hyper karting...

I've used you car park for events such as sports or concerts... it took me over 2 hours to get out of the Wilson car park... I can give you the dates and you can check your cameras... Andrea Bocelli concert, Tyler the creator concert, drake concert... so adding more car spaces will jus add on to the delay of getting out of there... I've been to hyperkarting a few times with my family. And my kids have gone with their friends. We all still remember each time and that is priceless, creating g memories together as a family, wig friends... and we all spread the word and more of us go each time... so please do not get rid of it...

Dear Shannon,

Re: Submission - RD/2023/897/A - 116 Lang Road, Moore Park NSW 2021
Attention: Shannon Rickersey

I am writing to formally request that Council reconsider the proposed decision to shut down Hyper Karting at the above location to make way for a car park.

Hyper Karting is a valuable recreational facility that provides a unique, safe, and engaging experience for people of all ages. It contributes positively to the local community by offering an accessible activity that promotes social connection, entertainment, and tourism within the Moore Park precinct. Its presence adds vibrancy and diversity to the area, supporting not only visitors but also surrounding businesses.

The removal of such a facility in favour of a car park would represent a significant loss to the community. While parking is important, Moore Park already accommodates substantial parking infrastructure, and the long-term benefit of preserving an active recreational venue should be strongly considered against the short-term gain of additional parking spaces.

I encourage Council to explore alternative solutions that balance accessibility with the preservation of community-focused amenities. Retaining Hyper Karting would ensure the continued activation of the space in a way that aligns with community wellbeing and local economic activity.

Kind regards,
Domenica Crisafi

Good morning,

Please consider NOT closing down Hyper Karting in Moore Park. As an adult living and working in Sydney, there are already very little things to do for fun (when you don't drink alcohol) and this is one of the favourites.

I understand having an extra 200-300 parking spaces would be ideal, but it is not necessary and I certainly don't think it should be the reason to close down a business that brings community, fun (for all ages!!) and a safe, easy outlet for those who are into racing. This is a classic and timeless hobby that would be an absolute shame to lose.

It is also one of the few electric karting places which is extremely sustainable and much healthier than others. It also is a unique, memorable venue in an extremely convenient location for everyone across Sydney suburbs. I have attended work events, casual family/friend outings, as well as hosted my own birthday here.

Getting rid of this place would be doing a disservice to Sydney! And the extra car spaces should not be necessary after recent years of increasing and updating the public transport services in the area.

I myself work nights across the city, and often see the large crowds from the events in Moore Park, happily walking down the streets toward Crown St and Central Station after big events. Everyone is too pissed to drive anyway! PLEASE!! Keep this place alive 🍷🍷

With hope,
Courtney

Stop the unnecessary overdeveloped and focus on ensuring we have places of recreation and entertainment to socialise.

The benefits from the entertainment quarter far outweigh the short-term financial incentives that have been used to try justify the submission.

Not only will this impact employment but also general cost of living. It absolutely baffles me that councils who are designed based on principal to be for the community continue to enable decisions to be made that aren't supported by the community.

Kindly,
Cameron

Dear council member/s,

I kindly request that HyperKarting Moore be allowed to continue operating at their current location. It is the primary reason my friends and I would go to Moore park and spend money at other local attractions.

It would be a great disappointment to lose to such a high quality e-karting business which has provided many really fun nights out for friends and family.

Thanks you for your consideration.

Kind regards,
George M

Dear Council,

I'm writing to express my concern regarding the proposed closure of Hyper Karting. This venue offers a unique and enjoyable recreational space. After a long day of work, it's a perfect place to unwind with friends or enjoy quality time with your partner. Personally, it's been a fantastic spot for me to spend time with my partner and our friends, sharing great moments together. Replacing it with 296 parking spots seems unnecessary, as existing parking levels are often underutilized in this busy area. I strongly believe keeping Hyper Karting would be of greater benefit to our community.

Kind regards,

Javiera Soto

Good morning to whomever receives this

It has come to my attention that hypercarting is at risk of closure

This place has given many great memories, before my uni friends split ways to go join the work force and it would be a real blow to see it go, as it was always packed.

There are not any other places to do anything like this within the city and it would knock out a whole genre of hobbies and sports accessible to metro residents

A reconsideration would benefit the whole community

Thank you
Liam Hoffmann

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Expanding parking to a fifth level is counterintuitive given the current infrastructure; exiting from the fourth floor already takes upwards of 1 hour following major events. Adding more capacity would only worsen this gridlock.

Furthermore, Sydney suffers from a shortage of engaging recreational spaces. Venues like Hyper Karting provide essential community hubs for social connection and healthy competition.

Sacrificing such a venue, and the 150 jobs it supports in favor of redundant parking during "no event days" is a significant step backward for the City of Sydney.

Sincerely

C Parisi

To whom it may concern,

Once again, Sydney looks to become a little bit more boring, taking away yet another unique adventurous activity. For what? Car spaces.

So whoever had this brilliant idea, pull it back, calm down, we don't need more car parks. We need more fun things to do.

Keep hyper karting where it is, and allow us, the people who get the most out of it, to have our fun.
Regards, Darren.

Rickersey,

I am once again deeply troubled to hear yet another 3rd space in Sydney is being shut down. 3rd spaces are so important to the cultural landscape of Sydney and they are quickly becoming endangered. You constantly hear on the news and social media that Sydney has no culture or night life anymore because everything we have keeps getting shut down. Local government should take action and support recreational activities in Sydney it's beneficial for tourism the economy and for the health and wellbeing of its residents. You can't complain that children and Teens don't go outside and play anymore when all of their options become more and more limited every day. Let's draw the line here and save Hyper karting Moore Park and maybe one day we can talk about reviving Sydney's recreational scene.

Dear Sir/Madam,

I'm writing to express my support for Hyper Karting and to share why it means so much to me and others in the community.

I truly enjoy Hyper Karting because it offers an exciting, high-energy experience that's both fun and accessible. Whether it's friendly competition or just a way to unwind, it consistently delivers a unique and memorable activity that stands out from other entertainment options.

One of my most memorable experiences was racing and celebrating certain events with friends, family coworkers and even achieving a personal best at times. Moments like these are what make Hyper Karting special, it brings people together and creates lasting memories.

I strongly believe Hyper Karting should remain open because it provides a valuable recreational space for individuals, families, and groups. It's not just about racing, it's about connection, enjoyment, and having a place where people can gather and share great experiences.

Personally, Hyper Karting has had a positive impact on me and those around me. It's been a go-to activity for spending quality time with friends and has also contributed to the broader community by offering a fun and engaging environment for all ages.

Thank you for taking the time to consider my thoughts. I sincerely hope Hyper Karting continues to operate and bring joy to so many people.

Kind regards,
Alem

Dear Shannon,

This letter is to support the continuing operation of hyperkart in the car park at EQ.

As a parent I have seen how much enjoyment this activity brings to people of all ages. This is an activity that does not include alcohol which can be hard to find. It is also not dependant on the weather. It is an activity that we have enjoyed with our kids and it is impossible not to laugh while enjoying this activity.

Please consider the enjoyment this brings to many people before canceling.

Yours sincerely,

Celeste Thomson

Hi City of Sydney,

Hyper Karting is a key part of the culture of Sydney.

Many Sydney Siders and tourists love this place.

I've been here with friends and had many work team events and enjoyed frequenting the Entertainment Quarter businesses afterwards.

Surely all the public transport upgrades to Moore Park have negated the needs for the extra levels of parking at Moore Park?

Encouraging more cars into the area seems very counterintuitive to what the City of Sydney should trying to achieve in making the city as liveable as possible for its residents.

I oppose this application convert the Hyper Karting premises into parking.

To whom it may concern,

I would hate to see Hypercarting close down.

It has been such a great source of entertainment for my kids who are at an age where they no longer want to go to parks.

It will be a real shame to do this. With not many options for kids entertainment, it would be sad to see this go. We always make a day of it as well and have lunch at one of the local restaurants. You would also be doing a disservice to them, making them lose money.

Please reconsider this.

Are you ridiculous or what, your aiming to close downs good local entertainment business for parking? Where in the city/east can you get green energy efficiency fun like this? Wtf the point of the light rail then if you need more parking? Where do you want families to go, To the west? How about give yourself a snap kick to wake up and stop trying to ruin Sydney. Absolute incompetent, you idiots built the bridge across Anzac for what? Built a light rail for what? Cut/rerouted public transport for what? Increased bike lanes for what? Wake up to yourselves and stop justifying your jobs by having to change things the community don't need changing. Looks what you e done to Sydney night life. Hypocritical dumb dumbs. Keep Moore park golf course open to. wtf do you want to change it for park lands everyone can use the golf course and there's already a massive park land next door, ever heard of centennial park? Let people play golf, it's an asset to the community, instead you want to take a good thing and that employs people and adds to the communit, is dynamic and lively and stop that when we have a issue with jobs in Australia and good fun in the area and make it something stagnant. Gosh you guys really are the anti fun, it amazing how out of touch and horrible your ideas are.

Deeply concerned,

John sSmith

Hi there,

Please reconsider your proposal to change Hyper Karting into car parking. The business brings in thousands of people who all have a great time and create lasting memories.

I've been going for a few years now and love it every time I go. Not having this opportunity would be a real gut punch.

I urge you to please reconsider, as losing this attraction and social hub would do irreparable damage to Sydney's entertainment hub.

Thank you,
Nick

Dear Council,

I am writing to express my strong support for the go karting business remaining at the Fox Studios complex and not being removed to make way for additional parking spaces.

This venue is one of the key entertainment attractions within the precinct and provides a unique, family-friendly experience that draws visitors of all ages to the area. It adds significant value to the overall appeal of the complex and helps increase foot traffic for surrounding businesses and venues.

Importantly, the karts are electric, which means they operate very quietly and have minimal impact on the surrounding environment. In this respect, the venue offers modern, low-noise entertainment that aligns well with community expectations and urban development standards.

Replacing such a popular and well-utilised attraction with additional parking would diminish the appeal of the Fox Studios precinct. The go karting business is not only a strong entertainment offering, but also a destination in its own right that encourages people to visit and spend time in the area.

I respectfully ask that Council reconsider any proposal to remove this valuable attraction

Kind Regards
Alex Mastoris

To whom it may concern,

Please do not close hyper karting for more parking spaces. I have never seen the car park full each time I've been there and have never had an issue parking at the Moore Park parking complex.

The shops below are extremely busy but adding an additional 300 parking spaces doesn't seem neccessary as there has always been hundreds of empty spaces each day.

Closing hyper karting would take a lot of joy out of the karting community as they operate one of the best electric kart tracks in Sydney.

Thank you and I hope you have a lovely day.

Kind regards

Michael

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

I strongly oppose the decision to permanently shut down Hyper Karting in order to create additional car parking space. Hyper Karting has felt like a second home to me ever since I started working here five months ago. It has given me the opportunity to meet incredibly talented individuals, as well as dedicated staff and crew who work tirelessly day and night to keep it an exciting experience, not just for the people of Sydney, but for countless tourists as well.

Additionally, Hyper Karting has been an overall great place to work, a job that helps me pay my bills and put food on the table. It is also a place where people come to create lasting memories. Losing all of this simply to add more car parking space- space that may not even be fully utilised-feels deeply disappointing.

Aside from this, I believe the people of Sydney should be encouraged to use public transport, as it is both more economically responsible and environmentally sustainable. Prioritising additional parking over valuable community spaces sends the wrong message about the kind of city we want to build.

Sincerely,

Marium Nafees

Hyper karts has provided so much entertainment to our family and generates so many customers to the EQ precinct (which up until recent years ago was pretty dead) - it would be a shame to close it down, especially for reason of more parking.

I have never had an issue finding a car space when attending EQ, even in busy times there are always spaces - I believe the current car parking is sufficient. And the parkland out the front is available in case of events or when more parking is required.

To whom it may concern:

I would love to keep Hyperkarting Sydney open and operating because of the opportunity to have fun in this beautiful city.

More and more of the opportunities to enjoy life are being closed and shutdown due to lack of interest and limited resources, but this place has so much to offer. With the council's proposal, a place that is purely excitement and childlike joy will be reduced to a parking lot as if the city needs more parking spots.

I would hope that Hyperkarting would be able to stay in operation and that with support from the city, that they would be a highlight attraction that encourages more families to visit together.

Thanks for taking the time to read this

Sincerely,

K. Ray Jones

To City of Sydney Council & DA Team,

I'm writing to express my strong support for keeping Hyper Karting at Moore Park and to urge the City of Sydney to reconsider any decision not to renew their agreement.

Hyper Karting is a genuinely valuable recreational asset for the city, particularly for residents in the Inner West and Eastern Suburbs. For many of us, it's the only practical, accessible option for karting without travelling significant distances out to Western Sydney.

Beyond that, it contributes positively to the local area by:

- Activating an otherwise underutilised car park space
- Providing a safe, structured recreational outlet
- Supporting local jobs and small business activity
- Adding to Sydney's broader entertainment offering

Losing it would remove a unique experience that isn't easily replaced elsewhere in the city.

I understand there are competing priorities for space and planning, but this feels like a high-value, low-impact use of the site that benefits a wide cross-section of the community.

I'd strongly encourage the council to explore options to retain Hyper Karting at Moore Park, or at the very least work with the operators to find a viable alternative within the local area.

Appreciate your consideration.

Kind regards,

Sam Reeder

Please save hyperkarting! My 10 year old son and his friends love it there!

Hoping council can find a way. The community needs it and people travel from all around Sydney and outer metro to attend. I'm sure the venue brings in money for other surrounding businesses too.

Also, please continue to do what you can to fix the roof leaks at King George V Recreation Centre. The users of the stadium have understood the issue and that it has been going on ever since the place was built. But, with respect, it's a bit of a laugh among many basketball WhatsApp groups that indoor basketball is cancelled once again due to a rain event or humidity issues.

Thanks for your time.

Kind regards,
Alan

To Whom It May Concern,

I am writing to submit feedback on the proposal to close Hyperkarting Sydney in order to vacate its current space for additional parking.

I write with the support of at least 40 to 50 friends and family members who are regular visitors and passionate advocates of the venue. Hyperkarting Sydney represents one of the very few well-maintained, high-quality karting and adrenaline experiences available in Sydney. Its combination of a unique karting format, consistent upkeep, and late evening operating hours makes it genuinely distinct from anything else on offer across the city.

The venue is a meaningful anchor for the Entertainment Quarter. It draws visitors for a night out, social catch-ups, and corporate team bonding events, the latter of which I have personally attended on multiple occasions. Removing it would further erode an entertainment precinct that is already struggling to retain diverse, accessible activity options for Sydney residents.

This concern sits in a broader context: Sydney city continues to lose ground to Western Sydney when it comes to the availability of reliable, varied recreational venues that support foot traffic and surrounding businesses alike. Closures like this accelerate that trend.

I respectfully urge the Council to reconsider this proposal. Hyperkarting Sydney is a genuinely unmatched entertainment experience across the city, and replacing it with what would amount to senseless excess parking, spaces that already go largely unutilised due to the prohibitive costs in the area, does not represent a net benefit to the community or the precinct. The city would be trading something irreplaceable for something unused.

I hope this feedback is given genuine consideration alongside the voices of the many others who value what Hyperkarting Sydney offers.

Kindest regards

Joshua Park

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To Whom it may concern,

I am writing to express my opposition to the proposed closure of 'Hyper Karting' in the Entertainment Quarter to make way for additional parking spaces.

Hyper Karting is a valuable community asset. It encourages social interaction, supports local employment, and contributes to the vibrancy and diversity of our city's recreational offerings. Removing such a facility would mean the loss of a unique experience that does not exist elsewhere within the city. It's a place in which children can celebrate birthdays and friends and colleagues can gather and spend quality time together - simply put, where the people of Sydney can have fun.

Replacing this venue with parking spaces prioritises short-term convenience over long-term community value. There is already ample parking within the Entertainment Quarter, and even on major event days it rarely reaches full capacity. A significant number of attendees travelling to venues such as Allianz Stadium and the Hordern Pavilion use alternative transport options, including light rail, walking, and ride-share services - none of which require additional parking.

Additionally, at a time when cities around the world, including Sydney, are working to reduce car dependency and promote sustainable transport - expanding parking infrastructure feels like a counterproductive choice.

I urge the City to reconsider this decision and explore alternative solutions that preserve community spaces like Hyper Karting.

Thank you for taking the time to consider my concerns.

Kind Regards,
Sophie

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Sir/Madam,

I write to strongly support the continued operation of Hyper Karting within the entertainment precinct. It is a valuable part of the precinct's offering, creating a vibrant, social, and family-friendly destination. I have personally used Hyper Karting for both my business team activities and visits with my children. It provides accessible, local and fun entertainment that brings people together, especially since current options are very limited.

The proposed closure to make way for additional car parking is difficult to justify in my opinion, particularly when existing parking in the precinct is not fully utilised. In our personal experience, parking has never been an issue during our visits, outside of major events at neighbouring stadiums. The focus of such a well-located precinct should be on encouraging access via public transport and reducing reliance on private vehicles to attend the stadiums, rather than prioritising more parking at the expense of active, community-oriented uses.

Removing a thriving venue that contributes to the precinct's purpose, in favour of parking that is underutilised for most of the year, would result in unnecessary social and economic loss. As a local resident and business owner, I find this outcome unnecessarily bureaucratic in nature. I respectfully urge Council to allow Hyper Karting to remain in operation.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

I cannot believe Hyperkarting in Moore Park is under threat of closing down. That place was opened due to the carpark being dead 11 out of 12 months of the year. We visit there all the time with our son who is disabled. He has learned to drive a kart which is unbelievable in itself. It has given him skills and coordination that would have taken years to learn at OT. It's not just this, the joy of participating in activities like this with family and friend in the East is a rarity.

There is truly nothing else in the area. The jumping parks, the indoor kids parks are all gone since lockdowns. This is all we have and you want to take it away?? For what? Car parks.. ridiculous.

Find somewhere else to build your paved paradise to justify your job.

Have the day you deserve.

Dana

Dear Sir/Madam

I would like to voice my concern and strong opposition to the proposal that Hyperkarting at Moore Park is being considered to be shut down and turned into nothing more than more car spaces! Think it would be a terrible loss to the community in general but especially to young people especially under 18s whose options are constantly being squeezed out in particularly in the Sydney and Eastern Suburbs area for entertainment options. So many indoor venues have been shut down since the lockdowns. Hyperkarting provides a family entertainment option where both adults, young adults and kids participate, provides local employment and inspires the next generation of both racing drivers and technicians. Please reconsider this move!

Regards
Ivan

To the Lord Mayor and Councillors,

I write as a regular visitor to Hyper Karting at the Entertainment Quarter to formally object to the City of Sydney's decision to refuse an extension of the venue's operating approval.

This decision is deeply disappointing and, in my view, fundamentally at odds with the Council's own stated goals for Sydney.

Hyper Karting has welcomed over 500,000 visitors since opening in 2024. It employs 156 people. It serves NDIS participants, young athletes, families, and the broader community. It operates on a level of a car park that was previously sitting empty and unused. It has not generated a single noise complaint. By any reasonable measure, it is exactly the kind of activation the Entertainment Quarter needs and has long lacked.

The Council's justification that those 298 car spaces may eventually be needed does not withstand scrutiny. Transport for NSW data shows the car park has reached capacity only a handful of times across 84 major events since Allianz Stadium reopened. A new 1,500-space underground car park at the stadium is expected to open later this year. The parking supply argument is not supported by the evidence.

What is supported by the evidence is this: removing Hyper Karting will cost 156 jobs, eliminate a thriving community attraction, and leave a multi-storey car park with empty bays that nobody needs all while the NSW Government is actively seeking proposals to make the Entertainment Quarter a year-round destination. The Council's decision directly undermines that ambition.

I strongly urge the Council to reconsider this refusal and approve the requested two-year extension. The precinct deserves entertainment. Its workers deserve job security. Its visitors deserve better than this.

I request that this submission be formally noted and that I be advised of any review or appeal proceedings.

Regards
Cory

To whom it may concern,

I am writing to express my strong objection to the proposed closure of Hyper Karting at the Entertainment Quarter, reportedly to make way for additional parking.

As a family living in Western Sydney, the Entertainment Quarter is not a quick or convenient destination for us ... it is somewhere we choose to travel to because it offers a unique and well-rounded experience. Between three families and eight children, our visits are intentional and planned, centred around the variety of activities available. Hyper Karting is not just an add-on, it is one of the key reasons we make the trip.

A typical visit for us includes karting, followed by movies, dinner, and time at the fun fair (if on). It's the combination of these experiences that makes the Entertainment Quarter worth the distance. Removing Hyper Karting would significantly diminish that appeal and, quite honestly, reduce our likelihood of returning as frequently ... if at all.

Facilities like Hyper Karting are what set the Entertainment Quarter apart from countless other locations that already offer dining and parking. Replacing a unique, high-engagement attraction with additional parking feels like a step backwards in terms of community value and overall visitor experience.

Beyond our own family, Hyper Karting provides an active, engaging, and memorable experience for children and adults alike, something increasingly rare in a landscape dominated by passive entertainment. Its removal would be a loss not just for families like ours, but for the broader community.

I strongly urge you to reconsider this decision and to prioritise the experiences that draw families to the Entertainment Quarter in the first place.

Thank you for taking the time to consider this feedback.

Kind regards,

Tayba Moukhallalati

Attention Shannon Rickersey
City of Sydney

Dear Shannon,

I am writing as a regular customer of Hyper Karting to lodge my submission in support of application RD/2023/897/A at 116 Lang Road Moore Park, and to ask that Council allow Hyper Karting to continue operating at the Entertainment Quarter.

I have visited Hyper Karting many times with friends and family. It has become one of the genuinely great social outings in Sydney. In an age of disconnection, Hyper Karting gives people a reason to get off their phones, show up in person, and share an experience. I have used it to reunite with mates I had not seen in months, to celebrate birthdays, and to bring family together in a way that a restaurant or a bar simply cannot replicate. That kind of in-person, shared experience is exactly what a healthy city needs more of, not less.

The community impact is real. It is one of the few venues in Sydney that works across ages and groups, from kids through to adults, and from casual customers through to work teams. It supports more than 150 jobs, activates the Entertainment Quarter precinct, and draws people into Moore Park who then spend money at surrounding cinemas, restaurants and bars. Losing it would leave a meaningful gap in Sydney's entertainment and social fabric.

I also want to address the stated reason for refusal, which as I understand it is that the space is needed to return to car parking. I find this hard to reconcile with what I actually see on the ground. Every single time I have visited Hyper Karting, including on weekends and evenings, the surrounding levels of the Entertainment Quarter car park have been largely empty. The idea that roughly 300 rooftop spaces are urgently required, when the existing 1,700-plus spaces in the same structure regularly sit unused, does not pass a common sense test. Before displacing a successful, job-creating, community-activating business, I would expect Council to be able to demonstrate actual, sustained parking demand at that level of the structure. From an outsiders perspective, that demand does not appear to exist.

I would encourage Council to work with Hyper Karting on a sensible extension that keeps the venue operating while any genuine future parking needs are properly assessed. Shutting a thriving business to create empty bays would be a poor outcome for Moore Park, for the Entertainment Quarter precinct, and for the wider Sydney community.

Thank you for considering my submission.

Kind regards,

Lachlan MacLeod

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom It may concern

I am writing in support of keeping level 5 of the Moore Park carpark as a hyperkarting track.

The city of Sydney, and the greater state of NSW have been moving forward with their Vibrancy reforms in one way or another- so it makes zero sense to transform a vibrant and entertaining business into car spots.

Furthermore it ignores the push to reduce congestion and traffic, in favour of public transport.

Short and sweet, Hyperkartings application to extend their operation should be approved, and I would be greatly disappointed if a business like this was terminated, jobs lost, and entertainment value gone, all for the addition of a small amount of car spots which would do nothing to solve any congestion or traffic issues.

Kind regards

Jiri hylak

To whom it may concern,

Saw the disappointing news that hypercarting is at the risk of being shut down. The moore park precinct has ep2 and ep3 plus the stadium has the new carpark construction under development. You've taken away the street parking along moore park. How much more do you want to take away from the community?

It'll be an extreme shame to remove a business that provides levity in the face of bleakness that sydney is becoming.

Dear Planning Lodgements Team,

Thank you for your email and for giving me the opportunity to provide my comments regarding RD/2023/897/A at 116 Lang Road, Moore Park.

I am writing to express my strong support for keeping Hyper Karting open. Hyper Karting has become a valuable part of the community, providing a safe, exciting, and inclusive space for people of all ages to enjoy motorsport in a controlled environment. It not only encourages healthy activity and friendly competition, but also offers a unique recreational experience that brings together families, friends, and visitors from all around Sydney.

The facility has demonstrated a commitment to safety, professionalism, and community engagement, which I believe are essential qualities for any successful operation. It also contributes positively to the local economy by attracting visitors to the area and supporting jobs.

I sincerely hope that Hyper Karting can continue to operate at Moore Park, as its closure would be a significant loss for the community. Please consider this submission as a show of support for the ongoing presence of Hyper Karting.

Thank you for your time and consideration.

Kind regards,

Nadashe Tuaineiti

Dear Shannon

I am writing to express my strong **support for Hyper Karting continuing to operate** at its current location.

Hyper Karting is a rare example of a **fun, locally focused business** that brings **energy, foot traffic, and diverse activity into our city**. It contributes to Sydney's vibrancy and offers something **genuinely different** for residents and visitors alike. Losing businesses like this diminishes the character that makes our city appealing.

The stated need for additional parking is difficult to reconcile with the reality that the car park is frequently not at capacity. Removing an active, successful business for underutilised parking feels disproportionate, particularly when **City of Sydney policies consistently champion small businesses, activation, and community-oriented spaces**.

I strongly encourage Council to consider alternative solutions that allow Hyper Karting to continue operating as is while addressing parking needs in other ways. Supporting innovative, small businesses is essential to a lively and resilient city.

Thank you for your consideration.

Dear Shannon,

I strongly oppose the plan to close Hyper Karting. It's a great place to go with friends and family, and it's a place that I have personally had a great time and would be very sad to see closed in favour of a floor of car parking. One additional level of car parking will not genuinely solve any problems in the Entertainment Quarter, but the closure of hyperkarting would be a loss to the community.

I urge you to reconsider.

Kind regards,
Jade

Hyper Karting is a fantastic safe way for kids to learn the coordination required to drive. With so many young drivers lacking experience and resulting in accidents why would you want to remove it.

There is sufficient parking in the area for events. With an ever increasing number of obese people in the country it would also not hurt them to park a little further away from the facilities and walk in.

Please keep Hyper Karting, it is a fantastic set up and inclusive fun for the family.

With thanks and kind regards

Tom Barrett

Hi Shannon,

I enjoy Hyper Karting because it is a central place that is easy for everyone to get to, which makes it a convenient place to meet with friends.

It also helps support the local area because we often get food nearby afterwards, so it brings more business to local restaurants and adds to the atmosphere of the precinct.

I believe it should remain open because it gives the community an accessible and social place to spend time together.

Kind regards,

Joseph

Hi,

To whom it may concern,

Following the recent announcement of potential closure of Hyper Kart at the Entertainment Quarter, I wanted to outline the anticipated impact this will have across our venues—Fratelli Fresh, Winghaus, and El Camino Cantina.

As a key entertainment anchor within the precinct, Hyper Kart played a significant role in driving consistent footfall, attracting a broad mix of families, corporate groups, and social gatherings.

This steady flow of guests contributed not only to direct partnerships but also to the overall energy and traffic within the area.

For Fratelli Fresh, the impact is particularly significant. Our long-standing partnership with Hyper Kart, especially through tailored catering and group dining, provided a reliable stream of pre-booked business and repeat clientele. The loss of this channel will likely result in a decline in event-driven revenue and advance bookings, particularly during peak periods.

Winghaus and El Camino Cantina will also feel the effects, primarily through a reduction in walk-in traffic. Both venues have historically benefited from the high-energy, social audience drawn to Hyper Kart, with guests often dining before or after their activities.

Without this driver, we can expect softer visitation, particularly across weekends and key trading times.

More broadly, the closure is expected to impact overall footfall and traffic within the precinct.

As a major drawcard, Hyper Kart contributed to making the Entertainment Quarter a destination, encouraging longer dwell times and cross-venue visitation. Its absence may reduce the frequency of visits, shorten guest stay, and limit incidental spend across the area.

This highlights the importance of continuing to drive visitation through our own initiatives. A stronger focus on local marketing, partnerships with remaining operators, and creating compelling in-venue experiences will be key to maintaining traffic and performance across all three brands.

Please reach out if you would like to discuss this further..

Kind regards,

Hugo Suire

Good afternoon, Shannon.

It has come to my attention that HyperKarting Sydney is at risk of losing their venue in service to enhanced parking capacity at the facility in which their business resides.

I attend HyperKarting every time I am in Sydney. I occasionally travel to Sydney for the express purpose of visiting the venue. I am eagerly awaiting the day my daughter is old enough to visit the venue and experience what I know will be a profoundly joyful time for her.

It would be tragic to lose a venue providing such value to racing fans who don't have the resources or the bandwidth to kart competitively. There's a healthy niche serviced by a business like this.

It appears to me when I visit that HyperKarting were able to acquire their place in the complex due to its low use compared to other parking structures in the city. I haven't been able to understand what would cause enough of a parking demand to require their current space to be withdrawn.

I'm sure you have plenty emails on the topic. I just want to register a vote for the preservation of HyperKarting at their venue.

Regards,
Curtis Bird

Dear City of Sydney Council,

Please do not shut down Hyperkarting. I feel it's a bad decision do to so, many individuals see this as a recreational area vital to their lives and wellbeing. I also think converting it to a carpark would attract more cars instead of using the nearby public transport, you should know why cars are bad. PLEASE DO NOT SHUT THEM DOWN!!!!!!

Regards, person who loves hyperkartning

Dear Shannon Rickersey

We do not need another car park.

We want Hyperkarting to Stay.

Please reconsider the Hyperkarting's application to continue it's operation at the Entertainment Quarter carpark.

Hyperkarting has been an amazing entertainment facility to the area, one place which I continually recommend take my friends and family visiting Sydney to experience themselves. It's been a place for a lot of memories especially for those in the go karting / car community.

It's also a place my partner and I routinely visit to burn out some stress on the tracks by having the adrenaline rush on bad days at work, and hyperkating has been one of the things which has helped us get through it.

Out of all of the venues at the entertainment quarter, I do not visit any other place besides Hyperkarting. If there is no hyperkarting then there really is no life there.

If the issue is with capacity of spectators and spacing for cars, maybe consider increasing the frequency of light rails instead on days of major events similar to how transport NSW increased their services for major concerts for Taylor Swift last year at Sydney Olympic Park if this is a. OR consider opening up temporary carpark venues on major events days on school gates rather than demolishing a well established facility.

Please take into consideration the views of the general public and residents living within the city of Sydney.

Kind regards,

Jennifer

City of Sydney

this would have to be the worst decision if you decide to close Hyper karting that I can imagine-

We live on the North Shore and we regularly organise group events to come to hyper karting. We always have dinner pre-or post the event and offer her a group of 20 to 30 people.

you need to be reducing car spaces, not increasing them to encourage people to use the public transport system around your area which is absolutely fantastic. You take away a business to generate so many jobs create so many amazing memories encourages people to come to the area seems completely insane to me

I strongly Hope that you do not go ahead with your insane proposal to close it down for more parking

Regards
Toby Withers

Good Afternoon,

I just wanted to reach out about the plan to shut down Hyper Karting, because honestly it feels like a big loss for the community.

That venue creates a genuinely safe, controlled, and fun environment for all people. It is a great social space where friends, families, and groups all come together there, and that kind of positive outlet is hard to replace.

It also brings a lot of energy and foot traffic into Moore Park. People don't just go there for karting, they eat nearby, hang out, and spend time in the area. It's part of what makes the precinct feel alive. I personally have visited multiple times and have spent hundreds of dollars in the venue each time - whether it be meals or visiting the cinema afterwards.

Trading a well-loved destination like that for another 300 parking spaces just doesn't feel like a fair exchange. I understand parking is useful, but it doesn't create the same community value, experiences, or memories that a place like Hyper Karting does.

It would be a shame to lose something that so many people genuinely enjoy, especially if it something that Moore Park AND the people of Sydney benefit from.

At the end of the day, Moore Park is a precinct for fun, whether it be Cirque, footy games, movies etc. Removing Hyper Karting from this will cause less foot traffic, less money to the precinct, and takes away from what the core of the entertainment quarter is really about - entertainment.

Thanks for taking the time to read this.

Kindest,
Tanya

Hello,

My name is Arda Sahin,

I am writing this email as a way to express my opinion on shutting down HyperKarting. I request for this decision to be rethought for a better outcome, they are not a large company, however they hold a place in Australia, they've earned their right to stay there, being an Australian's first type of business. Closing this business would give an additional 296 car park spots, but they've provided proof, proof that disputes any benefit for real Australians, even on the busiest of days the other levels aren't full, let alone anyone complaining about not enough space. Places that care about their customers are far and few between, HyperKarting doesn't deserve this, please allow them to operate in full capacity at their current location, it's the right thing to do, it's the Australian way.

Thanks,
Arda

To whom it may concern,

Please approve hyper karting to remain at its current location. From someone whom lived 5 minutes down the road for 20 years, this floor of the parking was basically vacant all year round.

Hyperkarting provides an option for the city community without taking up large commercial space.

Kind regards,
Sarah Sammut

Hi,
Like many other businesses,
We use Hyperkarting for our team bonding events. It's always a great evening out, and is an office favourite.

Sadly there aren't enough such businesses and experiences in the CBD.
We can't lose one of the good ones.

Regards
Anouar Bannouri

Dear Ms Rickersey,

I hope you are well.

I am writing to bring your attention to a growing community petition advocating for the continued operation of Hyper Karting. This venue has become an important recreational space for many individuals and families, offering not only entertainment but also a safe and engaging environment for people of all ages.

The potential closure of Hyper Karting would have a noticeable impact on the local community. It provides jobs, supports local economic activity, and serves as a popular social hub. Many community members, including myself, value the accessibility and unique experiences it offers.

The petition reflects the strong support from the community to keep Hyper Karting open, and I kindly ask that you consider this matter and the voices of those who have signed. We would greatly appreciate any efforts to review the situation and explore possible solutions that allow the venue to continue operating.

Thank you for your time and consideration. I would be happy to provide further information if needed.

Kind regards,
Pukhraj Sanghera

Subject: Strong Objection to the Proposed Closure of Hyper Karting at the Entertainment Quarter

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear City of Sydney,

I am writing to express my absolute frustration and anger at the Council's apparent efforts to shut down Hyper Karting at the Entertainment Quarter.

This decision is deeply disappointing and, frankly, makes no sense.

Hyper Karting is one of the few genuinely exciting attractions in the Entertainment Quarter. It brings people into an area that is otherwise often quiet, lifeless, and underutilised. Removing it will only make that problem worse. Instead of supporting a business that is actively drawing crowds, creating energy, and contributing to the local economy, Council appears determined to push it out.

As someone who has visited the Entertainment Quarter, I can say from experience that it often feels empty unless there is a major event on. Hyper Karting is one of the few attractions that consistently draws people in and gives the area life. Removing it sends a clear message that Council is not serious about activating this space or supporting businesses that succeed in doing exactly that.

This decision feels not only misguided, but actively damaging to Sydney's cultural and entertainment landscape. At a time when cities should be encouraging unique, engaging experiences that attract both locals and visitors, this move does the opposite.

I strongly urge the Council to reconsider this position and work with the operators of Hyper Karting to keep it open. Supporting businesses that bring life, energy, and economic benefit to our city should be a priority, not something to be shut down.

Luke

Hi,

I hope you are well. We are UNSW Motorsport Society, a community of over 400 motorsport enthusiasts.

One of our core events that we host are races at Hyperkarting. Hosting events at this venue has been an integral part of our society, serving as a place close to our university for people to have fun and make friends. Removing Hyperkarting would have a large impact on the culture within our community.

I ask you to please reconsider your decision to close down Hyperkarting, so we can continue hosting memorable events for our members and grow our community.

Thank you for your consideration.

Sad to hear the Hyper Karts may be shutting down
Have attended as a family, with friends and have also brought school groups, including students with disabilities.
Every time it has been a fun a day enjoyable experience- giving opportunities to bond and make memories, and to get out of your comfort zone and try something new.

Would be a real shame if closes. No other experiences like it near by.

To whom it may concern,

I am writing to express my opposition to the decision to close Hyper Karting and replace it with additional car parking.

As a local resident of Cook Road, Centennial Park, I recognise the importance of having accessible local entertainment options and the positive impact they have on both the local economy and employment. Local government should be supporting and protecting small businesses, helping them to thrive rather than putting them at risk through short-sighted decision-making.

I am increasingly disheartened by the decisions the City of Sydney is making within our area. The Entertainment Quarter is already under-utilised, so it is difficult to understand why the City would choose to remove a successful business in favour of more parking. Surely a more constructive focus would be on improving public transport access (in partnership with the State Government) rather than encouraging increased car use through expanded parking capacity.

I strongly encourage the City to reverse this decision and support businesses like Hyper Karting that contribute meaningfully to our community and local economy.

Hello,

Please do not force Hyper Karts to close down. This is the only karting place in Sydney that caters for kids under 12. My children - now 9, 7, and 5 started using Hyper Karts 3 years ago and absolutely love it. It's their favorite thing to do, they ask to go all the time. They love cars and driving and it is the only place they can do this. Shut it down and they won't be able to go karting for years... 7 years for my 5 year old.

This place is special, it's formed the my kids fondest childhood memories, and we're not the only ones.

Thanks for your consideration.

Hello,

I recently heard about the potential termination of Hyperkarting at Moore Park and wanted voice concern over this possibility.

I have been to the venue multiple times as part of events held by university clubs as well as privately and have enjoyed every occasion.

To lose this establishment would be of great inconvenience to me as the nearest venue of this nature is beyond a reasonable distance to travel and would prevent me from enjoying an amazing experience with friends and family.

I hope that a reconsidered approach to this topic can found as the community as a whole would be affected by this potential closure, including myself.

No to more car parks.

Teenagers (adults and younger people alike) require more activities available other than screens. Hyperkarting provides a physical activity in a community based environment.

Additional car parks are not a solution - public transport should be encouraged.

I am against the proposal RD/2023/897/A.

To whom it may concern,

It has broken my heart to hear the news of HyperKarting having the possibility to shut down. This place holds so many special memories for me and shutting this second home down would be a massive mistake.

I remember my first race five years ago and being so excited to try something new. I remember my race results weren't the best, but that didn't matter. Because I had the time of my life. I've been a regular customer over the past five years, making a special tradition to race every Tuesday with my friend. We've met so many new people from all around Sydney and it feels like we have our own little special community. Without HyperKarting, I would lose the connection with all these people from all these different places around Sydney. You would be taking away my HyperKarting family.

I believe HyperKarting should stay open. There is a great amount of vacant parking spots within the EQ Carpark, and taking away something that has brought so many people of different backgrounds together would greatly impact many people's lives. People's jobs, people's hobby's, and most importantly, our family. If in need of more space, create other solutions - open up more grass space during events, or even suggest car parks that are easily accessible from the light rail. There are so many different ways to solve a problem, but taking away something so many people love is not the right solution.

Please reconsider your decision of shutting down HyperKarting and the complications that come with it. Is it really worth taking away my family for some parking spots?

Hope to hear good results soon.

Hey,

I've been made aware of the horrifying potential decision to shut down hyper karting to add more parking spaces.

The last thing our city needs is more parking, especially at the expense of one of the few things left that people can enjoy that doesn't involve food or alcohol.

The worst part about this decision is how it flies in the face of taxpayers investments in public transport, with billions being spent to increase car-free access to Moore Park through the new light rail line. To shut down the only place within 40km of the CBD to go-kart for more parking would be absurd.

This is a city for people not a city for cars. Stop destroying our few remaining entertainment venues.

Regards,
Ashur Chamoun

Hi Shannon,

I enjoy Hyper Karting because it is a central place that is easy for everyone to get to, which makes it a convenient place to meet with friends.

It also helps support the local area because we often get food nearby afterwards, so it brings more business to local restaurants and adds to the atmosphere of the precinct.

I believe it should remain open because it gives the community an accessible and social place to spend time together.

Kind regards,

Joseph

Dear Shannon Rickersey,

My wife and I recently received a letter from the City of Sydney regarding Hyper Karting's DA application and I wanted to write in to express my support of Hyper Karting's continued operation in the area. It is a fantastic business that adds real vibrancy to the broader precinct and is a huge driver of positive traffic to the Entertainment Quarter.

We feel Hyper Karting's use of the space is far superior to the car parking it takes up (parking has never been an issue and there are lower impact alternatives).

We encourage you to reconsider your decision and allow this great business to continue operating.

Thanks,
Sam

Dear City of Sydney,

I am writing to express my deep concern with the proposed closure of hyperkarting. Hyperkarting has been a source of joy and excitement for me over the years. And to see it closed for a measly and ultimately unnecessary 296 car spaces would be an immense shame and loss of a truly unique Sydney activity.

Over the years I have:

- visited hyperkarting with multiple workplaces for functions and events
- visited with friends and family and had a fantastic experience each time

To be frank, hyperkarting exists as one of the only reasons I have travelled to the area, spent money at local businesses, and look to return in future.

I strongly hope you reconsider the supposed need for these extra parking spots. If attendee numbers in the entertainment quarter during infrequent, busy events is such a concern, then there a lot more alternatives I hope you consider before forcing the closure of such a unique business (e.g improved public transport, event specific shuttle services, etc).

Kind regards,
Bennett Frerck

Dear City of Sydney Council,

I am writing to express my concern about the proposed closure of Hyper Karting.

Sydney already feels like it lacks enough engaging entertainment options for kids, families, and young people, and Hyper Karting is one of the few activities that genuinely brings people together. It is such a fun, inclusive experience that people of all ages can enjoy, whether you're going with friends or spending time with family.

Personally, I always look forward to visiting and taking my family there. It has become something we genuinely enjoy doing together, and experiences like that are hard to replace. The environment is always welcoming, the staff are kind and friendly, and it creates a really positive atmosphere for everyone who goes.

It's also important to consider the number of people employed there. Closing it down would impact many workers and take away jobs from a place that clearly contributes to the community.

Additionally, concerns about space and infrastructure don't seem justified, as there is already sufficient parking available, and further development plans suggest this will only improve. There doesn't appear to be a strong reason to remove such a well-used and valued facility.

Sydney needs more spaces like Hyper Karting, not fewer. I strongly urge you to reconsider this decision and support keeping it open for the benefit of the community.

Signed,
Mischa Hewitt
Queens Park 2022

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom this may concern,

I am writing to express my strong opposition to the proposed closure of Hyper Karting. This decision carries significant economic and political implications that I urge the Council to carefully reconsider.

From an economic perspective, Hyper Karting contributes meaningfully to the local economy. It generates employment opportunities, supports small businesses in the surrounding area, and attracts both local residents and visitors. The venue encourages spending across hospitality, retail, and transport sectors, creating a ripple effect that benefits the broader community. Closing it would not only result in direct job losses but also reduce economic activity in nearby businesses that rely on its foot traffic.

Additionally, recreational venues like Hyper Karting play an important role in sustaining Sydney's reputation as a vibrant and diverse city. In a competitive global environment, maintaining unique entertainment options is essential for tourism and for retaining young professionals and families who value lifestyle amenities. Removing such attractions risks diminishing Sydney's appeal as a dynamic urban centre.

From a political standpoint, the closure may also lead to public dissatisfaction. Facilities like Hyper Karting serve as accessible recreational outlets for a wide demographic, including young people and families. Eliminating such spaces can be perceived as a reduction in community investment and may contribute to a sense that public voices are not being adequately considered. Supporting community-oriented venues demonstrates responsiveness and commitment to residents' quality of life—an important factor in maintaining public trust and confidence in local governance.

Furthermore, preserving recreational infrastructure aligns with broader policy goals around community wellbeing, social cohesion, and active lifestyles. Rather than closing the venue, the Council could explore opportunities to work collaboratively with operators to address any concerns, ensuring the facility continues to operate in a way that benefits both the community and the city.

I respectfully urge the Council to reconsider this decision and to engage with stakeholders to find a solution that preserves the economic, social, and cultural value that Hyper Karting provides.

Thank you for your time and consideration.

Yours sincerely,
Dali Grieco

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Hyperkarting is an amazing entertainment option bringing together large crowds of friends and family to enjoy an activity that is not readily available in this part of Sydney. Most karting venues are very far west, making hyperkarting the perfect opportunity to fill a void.

It also brings people, myself included, into other parts of the entertainment quarter where we would otherwise not go (eg drinks and food afterwards). I have held a work Christmas gathering there where we started with a 10 person group karting

Parking should not be prioritised over hyperkarting as there is light rail, which can be used to easily park in adjacent suburbs. This would not only allow hyperkarting to remain, but would help avoid the long wait times to leave the top floors of the carpark every time there is an event. I've personally waited 45 mins before even bothering to turn my car on and join the line of people waiting to leave. Encouraging vehicles to park a couple of light rail stops away and use the light rail would be of far more benefit than having the extra parking which only gets used on occasion.

Hyperkarting also looks to hire a lot of younger employees, a lot of whom I presume are their first jobs. It would be devastating to close the venue down which not only draws younger crowds, but is run by a younger crowd.

The staff are amazing, the prices are competitive, and it's been a great asset to the eastern suburbs of Sydney. Don't let this amazing facility disappear for the sake of parking that only gets utilised during a special event. There is plenty of street parking available to fill that void, along with buses and light rail to bring people from their cars to the venue.

Kind regards,
Jul.

To Shannon Rickersey,

I'm writing to ask you to help keep Hyper Karting in operation within the Entertainment Quarter. This is a wonderful fun and safe place for kids of all ages to go karting especially as all the cars are electric! They have such awesome courses and we've been a few times and are planning more visits with our daughter this year.

Whilst I appreciate parking spaces can be lined up gold in the city I've never had a problem finding a spot here when attending events or visiting to go karting. I have also begun using the tram to get here from the centre of Sydney as it's now so easy to get right there.

I do hope Hyper Karting can remain in place as it is such a great experience.

Kind regards
Nicki Fischer

Hi there,

I would like to raise my concern of the potential closure of Hyper Karting, Moore Park.

This will have a negative effect on the local community, as well as guests from near and far; not to mention the financial loss for both the business/staff and the local community with the loss of guests who would further spend nearby.

Please do what you can to keep it open, particularly with the way of the world right now, we need places like this.

I trust you will listen and do rights by your community.

Kind regards,
Sonia

To whom it may concern,

Please don't take Hyperkarting away for the Entertainment Quarter and our community

It's professionally run, employees 120+ young adults under 24 and provides a safe environment for our family to do an activity that really brings us together

We love the ever changing track configurations and when I get the alerts via socials, I sit down with my 13 and 11 year old girls and we discuss the layout the history behind it and when we save up the pocket money, we go and race the track.

It's a great community, the staff are warm and welcome and my girls feel very safe and respected.

There is zero tolerance for bad behaviour from others which always leaves us in a better mood than before when we walked in

The other serious component is that it's teaching my girls how to drive and understand the dynamics of a machine under different conditions, hot, cold, slippery, other drivers and how good or bad they are and teaches them to respect others on the track and to be patient and competent

From a driving perspective, this activity at Hyperkarting will make them safe and skilled drivers when they learn to drive on the road

If they are being closed down to make extra car spaces, then that is an absolute tragedy and beggars believe.

The Entertainment Quarter has so many options to get there via public transport, I thought the whole basis of our culture in the City of Sydney is to encourage us to take public transport?!

My family and I take public transport to the cricket and AFL, many do, for the drivers, if there is an overflow, the schools across the road open up to provide parking and they benefit with extra revenue get for their community.

I do not support the proposed closing of Hyperkarting. It's a central hub that benefits so many people while employing 120+ young Australians that is providing them a job, a solid work ethic which is having a positive impact on their community.

You don't need extra car spaces when the Entertainment Quarter is one of the easiest places to get to via public transport.

Many thanks,

Michael Lamb

Dear Sir/Madam,

As a young adult living in Sydney, Hyper Karting is exactly the kind of entertainment we need more of. It's fun, social, and gives people a reason to go out and enjoy the city.

Replacing it with a car park feels like a step backwards. I strongly believe venues like this are essential for keeping Sydney vibrant and engaging.

Kind regards,

Good afternoon City of Sydney Council,

I am writing to **support** the review of the refusal of a Section 4.55(2) Modification Application to extend the time limited development consent (D/2023/897) to allow the continued use of Level 5 of the Entertainment Quarter car park for electric go-karting and associated entertainment activities until 1 July 2028.

I support the continued use of Level 5 of the car park as a commercial Hyper Karting venue.

I have read the reasons for Council's refusal of the limited development consent (D/2023/897). I understand the reasons for the refusal are that approving hyper karting on Level 5 are that it:

1. would reduce available car spaces and likely to result in unreasonable parking and amenity impacts,
2. does not promote the orderly use of the land, and
3. is not in the public interest.

I respectfully disagree with the Council's decision and request that Council overturn its refusal, and allow continued use of Level 5 of the car park as a commercial Hyper Karting venue.

Not in the public interest to prioritise car parking over unique amenities for children

I respectfully disagree that the ongoing development consent is not in the public interest. Hyper Karting at Moore Park offers a unique entertainment option primarily for children. There are no other equivalent carting venues in the City of Sydney or nearby.

My own children, and many others, benefit from being able to access such a unique facility in the area. Situating a unique venue like Hyper Karting in the Entertainment Quarter benefits the public interest by adding to the multifaceted entertainment options in the Quarter, making it a draw for families and others.

Shutting down the only hyper carting venue in the City of Sydney in favour of parking is not in the public interest to my mind.

Council's refusal is inconsistent with the City of Sydney Council's Environmental Strategy

The City of Sydney's own Environmental Strategy 2025 - 2030 is focussed on reducing harmful emissions from fossil fuels. The vast majority of cars on the road of NSW, and that patronise the car park at 116 Lang Road Moore Park are fossil fuel powered vehicles. The cars that use the car park are largely petrol powered. The hyper karts on Level 5 are only electric.

Removing hyper carting from Level 5 to provide additional car spaces only serves to discourage attendees from using more sustainable public transport to access the Entertainment Quarter. This is contrary to the stated aims of Council to advance more sustainable transport options.

I respectfully suggest it is inconsistent with the City of Sydney's Environmental Strategy 2025 - 2030 to prioritise parking for cars over electric powered amenities for children.

I would be happy to discuss my submission further, if needed.

Many thanks

Vanessa Chan

Dear City of Sydney Submissions Board,

I am writing to express my concern regarding the proposal to close the Hyper Karting facility in exchange for an additional level of parking.

As a regular user and strong supporter of this facility, I believe Hyper Karting provides significant value to the community that extends far beyond what additional parking could offer. It is not only a recreational venue, but also a place where people—especially young drivers—can develop skills, build confidence, and engage in a safe, structured motorsport environment.

Facilities like this are rare within Sydney, particularly ones that are accessible and suitable for beginners. Removing it would reduce opportunities for community engagement, youth development, and participation in motorsport at an entry level. For many, including myself, it serves as a stepping stone into more serious forms of racing and fosters a genuine passion for the sport.

Additionally, Hyper Karting contributes to the local economy by attracting visitors, supporting jobs, and offering a unique experience within the city. Replacing it with parking may provide short-term convenience, but it does not deliver the same long-term social, economic, or cultural benefits.

I strongly urge the board to reconsider this proposal and explore alternative solutions that preserve this valuable community asset while addressing parking needs in a more balanced way.

Thank you for considering my submission.

Hamish

Dear Shannon Rickersey,

I am writing to express my strong support for HyperKarting and to respectfully request that the City of Sydney consider the significant value this facility brings to our local community.

HyperKarting is more than just a business - it's a vital community hub that brings together people from all walks of life. As a regular patron, I've witnessed firsthand how this facility fosters connection, provides a safe and accessible recreational outlet, and contributes to the vibrancy of Moore Park.

The potential loss of HyperKarting would be deeply felt across our community. There are very few venues like this in Sydney that offer such an inclusive and engaging experience for families, friends, and motorsport enthusiasts alike. The facility has become an integral part of the local landscape, and its closure would leave a significant gap that would be difficult to fill.

I understand that planning decisions involve balancing many considerations, but I would urge you to take into account the community benefit that HyperKarting provides. This is a well-loved local business that deserves the opportunity to continue serving the community.

I appreciate your time in considering this submission and would be grateful for any support you can provide in keeping HyperKarting open.

Kind regards,

Ben Chambers

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Please reconsider your actions in regards to Hyperkarting.

This fantastic business provides so much fun and enjoyment to many of the visitors that it attracts.

I have attended this venue nearly 30 times and am constantly going with friends and family. Its one of our main attractions when visiting sydney

It provides a safe place to get your adrenaline going; not on the roads being a danger to others

It creates bonding experiences for all, making and strengthening friendships amongst friends, family, colleagues.

The business itself pays income tax to all its staff, pays GST on all of its income from the thousands of visitors every week. Closing this business so the carpark operator can have access to more spaces that will only be used once or twice a week is not a fair move on behalf of the State Government.

Please reconsider your choices. We love this business and would hate to see it go.

Kind regards,

Michael

Massive fan of Hyper karting in Sydney!! One of our favourite places to go with family, for date nights and special occasions. We would be gutted if this place got shut down.

Do the right thing and listen to the public please.

Hyperkarting was there for me at my lowest... When I was just a small homunculus living in Sydney's streets Hyperkarting's bright neon glow gave me hope and a place to call home. I would sacrifice a hundred parking complexes before I let go of that. Please let Hyperkarting continue their operations so that I can continue all my birthdays there until the day I die, and when that happens my ashes can be spread across the iridescently luminous Hyperkarting tracks. This is all I ask...

We disagree with the intended demolishing of Hyper Carting in Moore Park Sydney.

This establishment has been a place of care, where beautiful memories are created a place that keeps young juniors enjoying innocent fun and away from dangers and off the streets. So many faces week in week out.

Please dont know this amazing establishment down.

Regards
Elle Trikilis

Hi there,

We are local residence and have frequented Hyper Karting over the last 2.5 years. It's a great community meeting venue and has given my kids the opportunity to experience karting. This has been life changing as my oldest son now races at state and national level. We are grateful for the encouragement and support given to us (and other families) by the staff at Hyperkarting. We have never experienced the carpark being close to full so struggle to see a benefit to the community by offering more spaces at the detriment of Hyperkarting. We support Hyperkarting remaining open as a vibrant community hub.

Regards,

Recently I've found out that you are planning to decline hyperkarting to stay at entertainment quarter car park. It is awful decision, my whole family of four has been a frequent visitor, we've had member subscription there and brought many of our friends there. People who visited went on to have dinner at Entertainment Quarter, some went to movies. if not for hyper karting, we would have gone somewhere else. Please consider how many people your decision will affect, this place is the best karting in Sydney and a lot of people enjoy it every day.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Hi,

I am writing to you today regarding the decision to remove Hyper Karting from Level 5 of the Entertainment Quarter carpark. As an employee of Hyper Karting, I am regularly in the Entertainment Quarter at a variety of times in the morning, afternoon, and night. Level 4 of this carpark very rarely has more than a couple of cars, and even on nights where there is both a sports game and a major concert in Moore Park I have never seen it at capacity. I feel that this demonstrates little to no need for more parking spaces in the entertainment quarter.

I understand that there is plans for further development at EQ which will involve the removal of a number of outdoor car parking spaces, however I also understand that there will be 1200 new car parking spaces nearby in 12 months. This means that the benefit of the car parking spaces gained by removing Hyper Karting would only matter in a significant way for one year. To me, it does not seem to be logical to displace the only consistently busy business in the Entertainment Quarter (one of the most accessible areas in Sydney by public transport) for what is essentially one year of 300 extra car parking spaces.

Kind regards,
Mitchell Cook

I used to go to this place almost every day before I was struck by a car on birrel street. Now almost fully recovered, I look to see when I could go to find it's being shut down, all for 298 car spots, even when there are other car parks near being built. All I ask is please, for the sake of everyone working and going to hyper karting, don't shut this place down.

Hyperkarting is the highlight of my teenage daughter's trip to Sydney and one of the reasons she wants to go to Sydney for her birthdays and other occasions. Obviously, lots of people feel this way. There is not much entertainment for 18-year-olds in Sydney, and this is needed. Keeping youth entertained and out of trouble should be your priority.

You obviously don't need more parking there!!

The use of a single carpark level is a small price to pay for what Hyper karting brings to the local community and to the city of Sydney.

I've had so many fun, wholesome moments at the track with colleagues from the film industry, as it's only a short stroll. It's very convenient for us. But what I've noticed is the amount of international and interstate visitors I would meet at Hyper Karting. It's a genuine attraction outside of Sydney, and let's face it, we need more to do in this city not less.

Finally as an active participant and member of Motorsport Australia, I feel having a local karting track that is this accessible, helps with driver aggression on the roads. Give people an outlet in a safe environment, or potentially have more risky behaviour on public roads.

We need Hyper Karting. You should not take this away from the community.

Regards.

Dear Shannon,

I first attended Hyper Karting as a university student looking for some fun with friends.

Since then I have been back numerous times with many different friend groups and have seen countless members of the community enjoy this amazing karting track.

To think it would be closing would mean Sydney would lose one of the best parts of the Moore Park Entertainment Centre.

It would also mean a great deal of people would be losing the chance to have a few moments of joy all to themselves, where they can forget about their worries in life and just have fun racing.

I would greatly appreciate if Hyper Karting was allowed to continue operating.

Thank you for your time

Dear City of Sydney,

Please don't close hyper karting. It is one of the few affordable and accessible locations for entertainment in Sydney. This has been a place that me and my friends have come to on a number of occasions to enjoy karting and the thrill of speed which is specially very inaccessible or unaffordable. The parking spaces are not actually that beneficial if the carpark doesn't even reach capacity during large sporting events and concerts in Moore Park.

Thank you for your consideration and i hope you consider the value of affordable entertainment for people across Sydney.

Regards,

Aidan

Hyperkarting has been one of the most enjoyable things to do in Sydney with friends, and has been the location where I've met so many new people and friends.

Turning this into a carpark makes a world already desolate of connections even smaller.

Please do not make Sydney less social, especially for a car park which we should be encouraging people to use world class public transport.

Hi Shannon,

I am writing to formally express my strong support for retaining the Hyperkarting facility and to respectfully oppose the proposed increase in car parking capacity at its expense.

Hyperkarting is a truly unique recreational offering in Sydney, one that is not easily replaced or replicated. It provides a high-quality, engaging experience that serves a broad cross-section of the community, from young people and families to visitors from interstate and overseas. I have personally brought friends and family visiting from overseas to experience it, and without exception, it has been a highlight of their time in Sydney.

Facilities like this contribute meaningfully to the vibrancy and liveability of our city. They encourage social connection, active recreation, and create memorable experiences that go beyond what standard infrastructure can offer. Removing such a distinctive attraction in favour of additional parking would represent a significant loss to the community.

It is also important to note that the area is already supported by existing parking options and accessible public transport. Increasing parking capacity in this context appears unnecessary and does not align with broader goals of encouraging sustainable transport and activating community spaces.

Retaining Hyperkarting would demonstrate a commitment to preserving unique, community-valued experiences and supporting local recreation. I strongly urge Council to reconsider the proposal and prioritise the long-term social and cultural value that this facility provides.

Betty

Subject: Opposition to the Proposed Development/Removal of Hyper Karting

Dear Shannon.

I am writing to express my strong opposition to the proposed development or removal of Hyper Karting. This venue has become an essential part of our community, offering a popular social activity that brings together people of all ages.

Hyper Karting not only provides an enjoyable recreational option but also supports a thriving local business. Its removal would be a significant loss to residents who value having such an engaging leisure activity close to home. Not to mention the jobs and contribution as a local business.

I urge you to reconsider any plans that may threaten the future of Hyper Karting and to explore alternatives that allow it to continue serving our community.

Thank you for taking my concerns into consideration.

Sincerely,

Emily

To Shannon Rickersey.

I write this email today as I have been following the submission to close Hyper Karting in Moore Park, in order to be replaced with extra car parking spaces.

As someone who has visited Hyper Karting on multiple occasions, I think that the City of Sydney will be losing a venue, integral to the ongoing DNA of EQ. There has never been a time where I have parked at EQ and not found a space to park. Aside from the busiest entertainment days of Thursday - Sunday, EQ is generally pretty quiet, and does not require extra car spaces (even on those said days). Aside from the stadiums, Hordern Pavilion and limited retail and food offerings, Hyperkarting provides a unique experience in an otherwise dead area.

Hyper Karting personally has been a venue for friend get togethers, work team nights, family functions and dates, and provides a karting experience that you aren't able to find so close to the city.

Furthermore, I find it somewhat hypocritical, that a council, with a Lord Mayor in Clover Moore who publicly aims to promote 'sustainability' by means of bicycles and public transport, is attempting to shut down an ELECTRIC karting venue, for the sake of an extra 270 vehicles to be able to drive to the carpark. Maybe planning better tram and bus services during events might be the way to go?

Whilst I appreciate the opportunity to express my opinion on this matter, I do hope the City of Sydney Council can come to it's senses, and reconsider the need of these extra car spaces, and keep hyper karting at EQ

Kind Regards,
Adrian McCann

Hi

Please do not cause the shutdown of Hyper Karting.

This is an awesome family venue and a green one at that (electric). The idea that the closing of another carpark should result in the refusal to the current DA for Hyper Karting is non-sense.

I oppose the opposition to the extension.

Please approve the extension

Thank you

Please keep hyperkarting open at EQ!

We have had so much fun there at our corporate events and taking the kids for a fun day out. We love that the cars are electric, quiet and still so fun to drive.

We live in Belrose and the transport is terrible, but we still went to see the Wrexham v Sydney game via public transport! The new light rail has made the trip so much easier than fighting the traffic going across the bridge. We will be doing the same again later this year for the Chelsea Tottenham game.

Adding more parking spaces will just encourage more cars on the road rather than encouraging the greener option of public transport.

The decision to close goes against what the City of Sydney has always stood for- promoting businesses, the city night life and reducing cars on the road! Why?!

Regards

Nimisha Kalimuthu

Dear City of Sydney,

I strongly support the continuation of the electric go-karting facility at Level 5, 116 Lang Road, Moore Park.

This is a rare, accessible recreational activity that contributes positively to community wellbeing. Active leisure experiences like this are proven to improve mental health, reduce stress, and encourage social connection — something that is increasingly important in urban environments like Sydney.

The venue is well-utilised, family-friendly, and adds meaningful value to the Entertainment Quarter, supporting local visitation and economic activity. Losing it would remove a unique and beneficial community asset with no clear equivalent replacement.

Extending its operation until 1 July 2028 is a practical and community-focused decision that aligns with promoting active, healthy lifestyles and vibrant local precincts.

I strongly urge the City of Sydney to approve this extension.

Kind regards,
Ivan

Dear Council,

The Entertainment Quarter has one of the few things that is working well: the adaptive reuse of surplus parking.

Since opening in 2011, we have never seen the car park full.

I thought the introduction of Lime bikes and the misplaced Anzac Road pedestrian bridge were intended to reduce traffic.

Hyper Kart is an exceptionally well-run family activity centre.

It must be retained.

I urge you to make a sound decision.

Regards,

Ian O'Toole

To whom it may concern,

Hyperkarting provides jobs, entertainment and business for the restaurants in the area. Moore park is not a difficult place to reach and there is no shortage of parking in the area. Removing an area of joy for pointless infrastructure is an absurd decision.

Australia should be looking at improving public transport infrastructure, not waiting space and tax payer money on parking. This institution is a landmark providing as an amazing place for everyone to enjoy themselves whilst also employing so many in an economy where basics have become a struggle.

It would be an absolute shame if anything were to happen. Not the country that all its citizens are proud of.

Kind regards,
Ishmam Saleh

Dear Shannon

I am in support of keeping this business going at the car park at Moore Park

My family and I attend many events nearby and the majority of time there is plenty of parking

On the occasion that there is some sort of sell out game we get there earlier to find a car space or use public transport

The go kart track here has provided my kids and family with birthdays and other very special events

It seems that business in Sydney just don't get any more fair breaks

Please keep the karts open

Kind Regards,

Greg Mavridis

This is an absolute disgrace from the council.

Choosing to close a family friendly, fun and genuine positive activity (which there are so little off in this city) for some paid rooftop parking spaces.

What this council is doing no longer aligns with the constituents of the area.

Removing street parking in favour of garden beds.

Installing pedestrian crossings on back streets that have little to no foot traffic.

Not fixing or caring about dangerous pedestrian crossings that have been reported on numerous occasions.

Streets lined with garbage and broken glass.

Crime beginning to creep back into family areas.

The swarm of e-bikes littering our footpaths disrupting pedestrian traffic and a genuine issue for the disabled that require mobility devices.

No - what you decide to do is destroy a business, cost people jobs and livelihood. And remove any sort of fun from this city.

Sydney city is becoming one of the biggest "F**K YOU" cities. No fun, no entertainment. Only what someone in a boardroom has decided we can have without spending time in the public or listening to the people.

Regards,

Hi City of Sydney,

I am writing to urge the Council to reconsider its recent decision to deny the two-year lease extension for Hyper Karting in the Moore Park Entertainment Quarter. Shutting down one of Sydney's most popular entertainment venues to reclaim a fraction of car park spaces is a significant step backward for our local community and economy.

Since opening in 2021, Hyper Karting has transformed an underutilised concrete rooftop into a vibrant community hub. Forcing its closure overlooks the substantial value it brings to the city.

I urge you to consider the following points:

- **The Parking Argument is Flawed:** The council's primary reasoning is that the 298 spaces occupied by the track are needed to offset the phasing out of on-grass parking around Allianz Stadium. However, Transport for NSW data indicates that the 2,003-space Entertainment Quarter car park rarely reaches capacity, even during major events. Reclaiming this space will likely result in an empty concrete slab for 99% of the year.
- **Significant Economic & Job Losses:** Hyper Karting employs over 150 people. In an economic climate where job security is vital, putting 150 livelihoods at risk for the sake of redundant parking spaces is an unacceptable trade-off.
- **Counterproductive to Precinct Revitalisation:** The NSW Government and local leaders have openly stated a desire to turn the Entertainment Quarter into a thriving, year-round cultural and hospitality destination. Hyper Karting has attracted over 500,000 visitors since its inception, consistently drawing foot traffic outside of major sporting events. Removing a primary driver of this activity actively works against the precinct's long-term goals.

Sydney needs vibrant, innovative, and accessible recreational spaces—not more empty parking spots.

I respectfully ask that the Council work collaboratively with the operators of Hyper Karting and the Entertainment Quarter leaseholders to grant the two-year extension. Let us prioritise jobs, local businesses, and community entertainment over an unnecessary abundance of parking.

Thank you for your time and for prioritising the cultural heartbeat of Sydney. I look forward to hearing your thoughts on this urgent matter.

Kind regards,

Elliot

To whom it may concern

I'm emailing my support to keep hyper karting open. The eastern suburbs needs more family friendly activities, not less. I think it's also an important asset for EQ attracting visitors, it should be an entertainment precinct and for years it was dead unless a sports game was on. Recent additions like hyper karting have made a big difference to attracting people and families to the precinct and in turn new and better food places have opened. I am at EQ frequently and I 100% agree that parking is not an issue in that car park, even on the busiest days.

Please reconsider and save this venue.

Kind regards
Jacqui Shepherd

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Attention Shannon Rickersey,

I am writing to strongly object to Submission RD/2023/897/A relating to 116 Lang Road, Moore Park NSW 2021, and the proposed outcome that would force HyperKart to close.

This decision puts more than 150 jobs at risk and threatens the future of a much-loved Sydney venue that brings people together. HyperKart is not just a go-kart track. It is a place where families celebrate birthdays, friends gather, colleagues connect, and people of all ages enjoy a safe, active, social night out. It creates memories, supports local employment, and adds something genuinely valuable to Sydney's nightlife and entertainment offering.

At a time when Sydney is constantly criticised for losing its vibrancy, it is deeply disappointing to see the City of Sydney supporting an outcome that removes one of the few unique recreational venues available to the public. We should be encouraging businesses like HyperKart to exist and thrive, not driving them out. This feels like an outdated and out-of-touch approach to city planning that ignores what people actually want from their city.

We are in the middle of a cost-of-living crisis, and small businesses are already under enormous pressure. Closing a venue like HyperKart to create 296 additional car spaces seems completely disproportionate, particularly when the existing parking arrangements appear to function adequately and the car park is often not full. It is difficult to understand how this can be considered a better public outcome than preserving a successful business, protecting jobs, and maintaining an important entertainment venue.

If the City of Sydney is serious about improving the area, there are more pressing issues that deserve attention. Darlinghurst Road and the surrounding side streets are in poor condition and would benefit far more from investment and improvement than the loss of a functioning and popular local business. Prioritising underused car spaces over jobs, local trade, and community activity sends the wrong message about the City's values and priorities.

This proposal represents a failure to support small business, local employment, and the kind of activity that makes Sydney a more exciting and liveable city. Closing HyperKart would be a terrible decision for workers, customers, and the broader community. It would strip away one of the few venues that contributes energy, fun, and accessible entertainment to Sydney's nightlife.

I urge the City of Sydney to reject this proposal and take a more practical, community-minded view of what this city needs. Sydney does not need fewer places for people to gather, celebrate, and enjoy themselves. It needs more.

Please give proper consideration to the people whose jobs, livelihoods, and experiences will be affected by this decision.

Kind regards,

Mr Blake Tierney

Dear Shannon,

I hope this email finds you well.

I am writing to express my strong concern regarding the proposed closure of the hyperkarting business that has been operating in Moore Park for a number of years. As someone who works within the retail leasing sector, it is deeply upsetting to see established retail businesses and experiential offerings such as this being displaced to accommodate additional car parking.

We are currently in a period where the retail sector is already under significant strain. Across the industry, we are witnessing an increasing number of store closures and businesses struggling to remain viable. In this climate, it is incredibly frustrating to observe that, at a time when our retailers and operators need the most support, the focus appears to be shifting toward replacing them rather than preserving and strengthening these valuable commercial and community assets.

Experiential destinations like the hyperkarting centre play an important role in driving foot traffic, activating precincts, and contributing to the vibrancy of an area. Removing such a use not only impacts the business itself but also has broader implications for surrounding retailers who benefit from the increased visitation and engagement these attractions bring.

While I understand the need to address parking demands, I suggest that alternative solutions be considered instead. Given that the proposed parking structure is multi-level, there may be an opportunity to expand vertically by adding additional levels, rather than displacing an existing and functioning business. This approach could provide a more balanced outcome—meeting parking requirements while preserving the diversity and vitality of the precinct.

I strongly encourage council to reconsider this proposal and to explore solutions that support both infrastructure needs and the sustainability of our retail and leisure sectors.

Thank you for your time and consideration.

Kind regards,

Faye

Subject: Support to Keep Hyper Karting Open

Dear Council Members,

I am writing to express my strong support for keeping Hyper Karting open. This venue is not only a beloved local attraction but also a significant employer in our community, providing over 150 jobs. The potential closure to make way for additional parking spots would have a devastating impact on both the employees and the local economy.

I urge you to reconsider this decision and explore alternative solutions that preserve the jobs and community spirit that Hyper Karting brings to our area. Every effort to keep this venue operational is greatly appreciated.

Thank you for your attention to this important matter.

Sincerely,

Basil Scaravilli

Good afternoon,

I am here to tell you to stop the car parking spot as it is unnecessary and ridiculous. You guys need to pull your heads in and fingers out of arses to realise what you are doing here.

It is actually embarrassing. Put your parking somewhere else don't ruin someone's income and way of work. This is a dream builder. And a lot of thought has been put into this business.

I really hope you change your mind and realise what you are putting out into the community and realise the hate you have shot through Aussies.

Stop ruining Australia with this stupid plans

Hi DA team,

Please don't close hyperkarting for more car spaces.

We drive 45 mins to go there, theres so few places in Sydney for teens, those between 14 - 18 can go for fun. Most places are for primary school age kids, there's a big void in between for the teens to have fun & not feel it's "lame" (to use the words of our teenage sons)
We need more places for teen entertainment, more than we need more car spaces.
When we come to hyperkarting, we then spend money elsewhere in the entertainment quarter e.g Jamaica blue, sushi, ice cream. I can imagine other businesses in the EQ will feel the effect of it closing.

We don't live locally, but we do know many other people from all over Sydney visit hyperkarting, there's no where else in Sydney like it.

Kind regards,
Leesa

Hello

I'm writing in support of Hyper Kart that is threatened with closure

This facility is one of the genuinely exciting attractions across the centre of Sydney and it is rightly placed in the Entertainment Quarter. Whether with my kids, friends or overseas visitors, it's a place regardless of day or time that we can easily go to, park on site and have an exhilarating time. This is regularly followed by a visit to the cafe, restaurant or cinema.

The irony is that this entertaining facility is to be closed to give way to more parking. We have never ever had an issue with parking. On occasion we have tried to go up to the roof top which it is usually closed off.

We have a tax-paying business with lots of tax-paying employees providing a brilliant service that 100% adds to the 'entertainment' of the area. Alternatively, we have some extra parking spots on level 5 that may get used for a few hours a few times a year.

It's ridiculous the value proposition is even being questioned. Please help Hyper Kart to keep operating.

As a final note, Hyper Kart only recently opened when Covid lockdowns came to town. Instead of closing, they managed to stay open and provide my kids and the best 'outdoor exercise' you could wish for. Fun, exciting and serious amounts of energy expended in a really positive way. We still tell the stories today.

Thank you for your consideration.

To whom it may concern

It is devastating to be writing this email. Hyperkarting is a much loved attraction in the Eastern Suburbs - don't take it away, PLEASE!

As a mum of two boys, I struggle to find venues to take my kids on holidays or even host their birthdays at, and Hyperkarting offers that unique experience that I would otherwise need to travel out west for.

The car park at Moore Park is rarely at capacity (even during peak periods). The entire EQ precinct is in much need of some revival but please don't take away one of the few things that make it worth the visit!

Gina

To whom it may concern,

I am writing in support of keeping the doors open for the hyperkarting venue at Moore park.

We watched this mornings today show and were shocked to see this is being considered & for the reason given was for “more parking spaces”! I mean how ridiculous.

We are fairly regular visitors there and even on the most crowded days we have never been unable to find a parking space.

In fact the karting venue is what would likely bring a lot of people to that complex and you will certainly find many of the surrounding businesses will suffer should it be taken away.

I mean what a joke to risk the jobs of so many people at such a popular venue for such a feeble excuse.. it really makes no sense as there is no comparable place in Sydney for kids/adults to go to.

Anyways, I'm sure there is a hidden reason as there always is with govt. Some way of sucking more profit out of the space I'm sure will be the real reason but hopefully you guys see some sense and leave this place alone as it is a great place for all ages to go and enjoy kart racing..

Regards
Holly

Dear Lord Mayor Clover Moore, Shannon Rickersey and Councillors,

I am writing as a local resident of Paddington to express my strong disappointment and objection to the recent refusal of the application to extend the temporary approval for Hyper Karting on Level 5 of the Entertainment Quarter car park in Moore Park.

Hyper Karting has been a major attraction and success story for the Entertainment Quarter since it opened. This vibrant, electric go-karting facility draws families, tourists, and locals alike, injecting energy and life into the precinct. It is one of the busiest and most popular destinations in the area, helping to support local businesses, create over 150 jobs, and bring people to the Entertainment Quarter for positive, family-friendly experiences. Turning this productive space back into empty parking spots would be a significant loss for the precinct and runs counter to the vision of making the Entertainment Quarter a lively hub of entertainment.

This decision also sets a concerning precedent. Hyper Karting is a clear example of entrepreneurial spirit — a creative business that has successfully repurposed underutilised space to offer a unique and exciting event. Supporting such initiatives encourages others to innovate and contribute to a more dynamic, people-focused Sydney. Removing it in favour of additional car parking sends the opposite message.

Importantly, the context has changed significantly since the original five-year temporary approval was granted. The light rail (L2 Randwick and L3 Kingsford lines) now provides excellent, frequent, car-free access directly to the Moore Park stop, just a short walk from the Entertainment Quarter. Combined with the growing adoption of e-bikes and other active transport options, there are now multiple convenient alternatives for visitors to reach the precinct without relying on cars. A large new car park is also under construction for the stadium precinct, further reducing any potential pressure on parking at the Entertainment Quarter.

As a local resident, I love having this high-quality attraction right on our doorstep. It is wonderful to see previously empty or underused space being put to productive, enjoyable use rather than sitting idle as additional parking that may not even be needed on most days.

I respectfully urge the Council to review and overturn this decision, or at minimum support a further short-term extension while a longer-term solution is explored. Prioritising a thriving entertainment venue over underutilised parking spaces aligns far better with the City of Sydney's stated commitment to a "city for people, not cars."

Thank you for considering my submission. I would appreciate an update on any review or appeal processes available for this application.

Kind regards

Andrew Coley

Hi team,

I support keeping Hyper Karting open, even if it means fewer car spaces. Our community needs a diverse range of activities, and venues like this add vibrancy and social value that parking alone cannot provide. Removing it would reduce what makes this area engaging and inclusive.

Thank you.

Dear city of Sydney.

How disappointing to hear that City of Sydney is considering closing down this facility for a carpark. I bring guests (visiting friends and family) to Sydney here, I do not take them to a carpark for peace and enjoyment. Any major events I go to, I use public transport.

The point of inner city living is to use public transport. To close down a facility that the community enjoyed for a couple extra car parks, but not considering improvements to public transport or car share services such as taxis and Ubers is appalling.

Kind regards,

Kylie Dixon

Hello,

I'm writing regarding the potential closure of the go karting track at the Entertainment Quarter.

Our family travels over an hour to visit and the go karting is a major reason why. It's one of the few activities that genuinely keeps the kids excited and engaged and it has become a regular outing for us. It also makes the Entertainment Quarter feel like a true family destination.

When we visit for go karting, we also spend time at other venues in the area so it brings broader value to the precinct as a whole. Without it we would be far less likely to make the trip.

I believe many other families would feel the same, and it would be a real loss to remove something that adds so much to the overall experience.

I kindly ask that you reconsider this decision and the impact it may have on families who regularly visit.

Kind regards ,

Reyhan

Dear Councillors,

I am writing to strongly oppose the proposed closure of Hyper Karting at Moore Park to make way for additional car parking.

At a time when communities are grappling with how to better support children's wellbeing, it is deeply concerning to see the removal of a venue that provides active, social, and screen-free entertainment. Hyper Karting offers young people and families a rare opportunity to engage in physical activity, build confidence, and connect in a real-world environment which is something that is increasingly vital in an era dominated by digital screens.

This decision would also have a significant impact on local employment. Hyper Karting is a small business that supports approximately 150 employees. Closing it down risks not only livelihoods but also sends a discouraging message about how we value and support local businesses that contribute to the vibrancy and diversity of our community.

Furthermore, replacing a community-focused recreational facility with more car parking feels out of step with broader urban and environmental goals. Moore Park is already well-served by public transport and active travel options. Rather than prioritising increased car dependency, council should be encouraging sustainable transport solutions such as improved public transport access, cycling infrastructure, and pedestrian-friendly planning.

We have an opportunity to shape Moore Park as a forward-thinking, community-oriented space. Preserving venues like Hyper Karting aligns with this vision; prioritising people, local business, and healthy lifestyles over additional car parking.

I urge the council to reconsider this proposal and work towards solutions that support both community wellbeing and sustainable urban planning.

Thank you for your time and consideration.

Kind regards,

Ellana Costa

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon Rickersey,

I am writing to express my strong opposition to the proposed shutdown of our local go-karting track.

This is a beloved community facility where my children and their friends have celebrated many birthdays and created lasting memories. As the only such facility in the eastern suburbs, its closure would be a significant loss to our local area. If this track is cancelled, it will be yet another activity for which families like mine will be forced to drive west.

Regarding the proposal to repurpose the area for additional car park space, I believe the impact on event parking will be negligible given the existing parking capacity. While the change would only result in a slight increase in parking, it would represent a 100% decrease in go-karting facilities for our community.

I urge you to reconsider this decision and preserve this important local amenity for the families of the eastern suburbs.

Thank you for your time and for considering my concerns.

Best regards,

Dushan Arnautovich

To City of Sydney Council,

I am writing to formally express my strong support for the retention of HyperKarting Moorebank and to urge the City of Sydney to consider all possible avenues to prevent its closure or displacement.

HyperKarting is more than just an entertainment venue—it is a valuable community asset that contributes meaningfully to local employment, social connection, youth engagement, and the broader local economy.

Employment and Economic Impact

HyperKarting currently provides employment for approximately 150 individuals. The potential loss of this business would have a direct and immediate impact on these workers and their families.

At a time when job security remains a priority for many households, the displacement of a business of this scale would create unnecessary economic strain. In addition to direct employment, HyperKarting supports indirect economic activity through local suppliers, nearby businesses, and tourism-related spending.

Retaining HyperKarting helps preserve these jobs and supports the economic stability of the surrounding community.

Community and Social Value

HyperKarting serves as a unique recreational space that brings people together across all age groups. It provides a safe, structured, and engaging environment for:

Young people to participate in positive activities

Families to spend quality time together

Friends and community groups to connect

Facilities like HyperKarting are especially important in urban environments, where accessible recreational outlets can be limited. Losing such a venue would reduce opportunities for healthy social interaction and community engagement.

Youth Engagement and Wellbeing

In an era where young people face increasing challenges around mental health, screen time, and social isolation, venues like HyperKarting offer a constructive alternative.

It encourages physical activity, skill-building, confidence, and real-world social interaction. Removing this outlet risks further limiting safe and positive spaces for youth engagement.

Uniqueness and Cultural Contribution

HyperKarting is not easily replaced. Its scale, facilities, and experience offer something distinctive within the region. It attracts visitors not only locally but from across Sydney and beyond.

Losing HyperKarting would mean losing a unique part of the area's recreational landscape—something that cannot be quickly or easily replicated.

Request to Council

I respectfully urge the City of Sydney to reconsider and explore other options. Keep HyperKarting alive for the community who needs this.

Kind regards
Chanrhu V.

Please do not close down hyperkarting. It is a great place to enjoy the karts & socialise, celebrate occasions & have a good few hours away from the stresses of life .

In addition the loss of over 150 jobs & the knock on affect that would have should very much be taken into consideration -especially the way things are now.

Closing it down would have a negative effect on many people-the thousands that enjoy it & those that keep it running.

Reconsider your plan in the interests of decency. Sydney doesn't need more car spaces....theres plenty of parking stations & they ALWAYS have spaces available.

Sincerely

Gary Needs

I'm writing as someone who hasn't even had the chance to visit hyper carting yet, but really wants to I know I'm not the only one.

Places like this are rare, and once they're gone, they don't come back. It's not just about current customers, it's about future ones too. Shutting it down means people like me lose the opportunity entirely.

Karting venues give people a safe and controlled place to enjoy motorsport. Without that option, interest doesn't disappear—it just moves elsewhere, often into less safe environments.

I understand there may be concerns behind this decision, but I hope serious effort is made to find a way to keep the venue operating rather than closing it completely.

Please consider the impact this will have not just on regulars, but on future visitors like me.

This a running and operating business! The shopping centre has more than enough car spaces ! You're taking away more than 100+ jobs, people who live off this form of income. These people have the right to protect their workspace over a couple of new parking spots.

NOT RIGHT AT ALL!!

I honestly would be happy to see this place go, rude staff and very biased giving faster carts to different people in the same race, i also go injured in my back due to negligence of the staff, shut them down and especially coz there begging to stay open, carpark would be much more ideal.

Dear Shannon Rickersey,

I'm writing to make a submission regarding RD/2023/897/A at 116 Lang Road, Moore Park.

As a frequent visitor to Hyper Karting, I strongly oppose the decision to deny their lease extension. This venue is one of the best things about the Entertainment Quarter — I've had so many great times there and go regularly.

The idea of removing a thriving business that's attracted over 500,000 visitors and employs 150+ people, just to restore parking spaces that barely reach capacity, makes no sense. With the new 1,500-space underground car park at Allianz Stadium opening soon, the parking justification is even weaker.

Hyper Karting brings life to the precinct. Taking the entertainment out of the Entertainment Quarter to create empty parking bays is a step backwards for Sydney.

I urge the council to reconsider and grant the two-year extension.

Regards,
Josh Oliver
Sydney resident

Dear Shannon Rickersey,

I was recently informed that a beloved venue, of which I have travelled from Wollongong to visit multiple times, is at risk of closing, to be replaced by 296 car parking spots.

I get it, the footy is great, and I'm sure some punters would be thrilled by the idea of the possibility of finding a spot if there were more available, but why does the council need to close a business and create more permanent unemployment for a meagre number of car spots in comparison to game attendees? Temporary jobs during construction don't count as "creating more jobs", unless you're hiring all the go karting employees to do the construction, and giving them positions as parking inspectors upon completion.

It baffles me that when so many millions of tax-payer dollars have been spent on improving public transport, the council's big idea is to encourage more people to drive to the stadium. I'd rather see council invest in a shuttle bus service to ease congestion and encourage the use of public transport, we are in a fuel crisis after all!

My final issue is drink-driving. Sports games – any stadium events, really – are alcohol and drug hotspots, so why give extra opportunity for people to drive under the influence? I'm sure that the addition of more spaces will encourage some people who wouldn't have normally driven, to drive, and possibly overindulge at a game, forgetting they had their car at the stadium, and choosing to risk people's lives because of it. It might seem like a stretch, but the chances aren't zero.

Please, don't close a beloved business to put in car parking spaces, for so many reasons.

At the very least, if you do close this business, offer every employee free education and training so they can be re-employed when the business closes. Free white cards, RSAs and security certificates could mean you could say you truly created more jobs, and offered those who's jobs you took away the chance to work in these new positions.

Cheers,
Brooke Kolodziej

Dear Shannon Rickersey,

I'm writing to make a submission regarding RD/2023/897/A at 116 Lang Road, Moore Park.

I oppose the decision to deny Hyper Karting's lease extension at the Entertainment Quarter.

This venue has transformed an underutilised rooftop into one of Sydney's most popular entertainment destinations — over 500,000 visitors, 150+ jobs, and vital community programs including disability and youth services. The car park has reached full capacity only a handful of times across 84 major events, and a new 1,500-space underground facility at Allianz Stadium will further reduce parking pressure.

Removing a thriving community asset to restore rarely-used parking contradicts the council's own vision of a people-first city and the NSW Government's plans to revitalise the Entertainment Quarter.

I urge the council to grant the two-year extension and work collaboratively with Hyper Karting on a long-term solution.

Regards,
Claw

Dead DA Submissions,

I Sonya Tassone, am personally writing to oppose to the DA proposal regarding the replacement of Hyper Karting Entertainment for an additional parking allotment.

The community does not need additional parking allotment and should endorse Public transport to reduce environmental pollutants.

However the community would much prefer entertainment facilities for all ages such as the existing occupancy Hyper Karting.

Please take this into consideration

Kind Regards

Sonya Tassone

Hi

I'm writing to say to keep hyperkarting and leave the car spaces as is. It's great to use this building for entertainment and it adds lots of value. Adding car spaces just encourages more people to travel by car which increases pollution and makes our roads less safe.

Thank you.

Dear Shannon,

I am writing to express my strong support for Hyper Karting at Moore Park Entertainment Quarter and to urge you to reconsider any plans to close this much loved facility.

Hyper Karting is one of the main reasons my family and I visit Moore Park. It brings a unique energy to the precinct that simply cannot be replaced by additional parking spaces. Every time we go, it is vibrant, busy, and full of life, clear evidence of how valued and well used it is by the community.

Some of my most memorable experiences there have been with my children. Watching my daughters take their first laps on the track was something truly special, those “first drive” moments are memories we’ll carry forever. It’s not just a go-kart track; it’s a place where confidence is built, laughter is shared, and families connect in a fun, active way. We’ve also hosted work events there, and it has always been a standout venue, engaging, different, and something people genuinely look forward to.

Hyper Karting has had a meaningful impact not only on my family but on our wider circle of friends and colleagues. It offers something rare in the city: an accessible, exciting activity that appeals across ages and groups. It draws people into Moore Park, supports surrounding businesses, and contributes to a lively and diverse precinct. Removing it would take away a key attraction and diminish what makes the area special.

While I understand the need to consider infrastructure and parking, replacing a thriving community asset with more car spaces feels like a step backwards. Hyper Karting adds character, activity, and economic value, things that are much harder to recreate once lost.

I strongly believe it should remain open and continue to serve the community as it has so successfully done. Please take into account the many individuals, families, and organisations who benefit from and cherish this facility.

Thank you for your time and consideration.

Kind regards,
Portia McEntee

One of the best go karting businesses in nsw and is something that makes going to entertainment quarter worth it. You won't need parking if there's nothing there for people to come to, and the carpark is empty most events that we go to anyway.

Dear Sir/Madam,

I write to express my concern regarding the proposed changes affecting Hyper Karting at the Entertainment Quarter.

Facilities such as Hyper Karting play an important role in fostering community participation and enhancing the Entertainment Quarter precinct. Consideration should be given to retaining uses that deliver ongoing social and economic benefits.

Sydney needs more experiences like this, not more car parks. Hyper Karting has built a strong and engaged community, and it would be a significant loss to see it removed.

The continued operation of Hyper Karting supports activation of the precinct and provides a unique recreational offering. Its removal may diminish the diversity and overall community value of the area. Furthermore, we should be encouraging greater use of public transport rather than increasing dependence on private vehicles. The City has already invested in upgrading the light rail, and planning decisions should align with this objective.

Thank you for considering this submission.

Kind Regards,

Roncisco Del Castillo

To Whom It May Concern,

I am writing to express my sincere support for Hyper Karting and to respectfully ask that you consider keeping it open for business.

Hyper Karting is more than just an entertainment venue. It is a place filled with joy, laughter, excitement, and connection. For many families and young people, it is a safe and positive environment where memories are created and confidence is built.

For kids especially, experiences like Hyper Karting can be life-changing. It gives them something to look forward to, a place to challenge themselves, build resilience, and share special moments with friends and family. In a world where children are increasingly drawn to screens, venues like this encourage real-world interaction, skill development, and active fun.

It also plays an important role in bringing the community together. Birthday parties, family outings, celebrations, and weekend activities all find a home here. The happiness it creates extends far beyond the track — it strengthens friendships, supports local jobs, and contributes to the vibrancy of our community.

Closing Hyper Karting would mean losing a space that brings genuine happiness and positive impact to so many. I strongly believe it deserves the opportunity to continue serving families and inspiring young people.

Please consider the value it brings — not just financially, but socially and emotionally — to our community.

Thank you for your time and consideration.

Sincerely,

Sarah Dib

Dear Sir/Madam,

I am writing to express my concern regarding the potential closure of Hypercarting to accommodate additional parking facilities. While I acknowledge the increasing demand for parking due to population growth, I believe that the closure of Hypercarting would have a significant negative impact on the community.

Hypercarting serves as a vital community hub, providing a space for individuals and families to gather, socialise, and engage in recreational activities. Its closure would undoubtedly disrupt these established community connections and could potentially affect the mental well-being of its patrons.

I respectfully request that you reconsider this decision and explore alternative locations for the proposed car park that would not necessitate the displacement of Hypercarting. Finding a solution that preserves this valuable community asset while addressing parking needs would be greatly appreciated.

Sincerely,

Nora

Dear Council,

I am writing to support retaining the Hyper Karting (go-karting) facility and ask that Council reconsider any plans to close it for additional parking.

It is a well-used and valued recreational space for the community, and I encourage consideration of alternative parking solutions that don't result in its loss.

Kind regards,

Cristina Scarcella

Hi City of Sydney and Shannon

Writing to hope you can save the jobs of 150 people at Hyperkarting

Is there a space they could move to if this site isn't working?

It gives so much joy to people!!

Hopefully it stays open

Thank you for doing all you can to help

Juanita Field

Dear City of Sydney Council,

I am writing to express my strong opposition to the proposed closure of HyperKarting at Moore Park. This venue has become an important recreational space for countless residents and visitors, and its loss would have a significant impact on the community.

From my own experience, parking availability has never been an issue, even during major events in the precinct. The parking can accommodate visitors without congestion or disruption, which suggests that concerns about parking or traffic should not be a determining factor in closing a well-loved facility.

HyperKarting is more than just an entertainment venue. It has become a place where families, friends, and colleagues gather to create memories, celebrate milestones, and enjoy a safe and engaging activity. Many people, myself included, associate the venue with meaningful moments that contribute to the social fabric of our community.

Additionally, HyperKarting provides:

- A safe, supervised environment for young people to engage in an exciting activity
- A unique attraction that draws visitors to Moore Park and supports surrounding businesses
- A positive outlet that encourages physical activity, coordination, and friendly competition
- Employment opportunities for local staff who contribute to the welcoming atmosphere

Closing this venue would remove a valuable recreational option at a time when accessible, community-oriented activities are more important than ever. Rather than shutting it down, I urge the council to explore collaborative solutions that allow HyperKarting to continue operating while addressing any concerns that may exist.

I respectfully request that the City of Sydney Council reconsider this decision and work with the operators to preserve a venue that brings joy, connection, and economic benefit to the area.

Thank you for your time and consideration.

Sincerely,

Dianne Wheeler

Dear City of Sydney Council,

I am writing to express my concern regarding the proposal to remove HyperKart at Moore Park to make way for additional car parking.

From my experience, the existing car park in the area is rarely at full capacity. Expanding parking in place of a well-utilised recreational facility does not appear to address a genuine need. Instead, it risks replacing a vibrant, community-focused attraction with infrastructure that may remain underused.

HyperKart provides a unique and engaging activity for families, young people, and visitors, contributing to the overall appeal and activation of Moore Park. It encourages people to spend time in the precinct, which in turn supports surrounding businesses and enhances the social atmosphere of the area.

Removing such an attraction for additional parking, particularly when current capacity is sufficient, would be a step backwards in creating lively, people-focused urban spaces. I encourage the Council to prioritise maintaining and enhancing recreational and community amenities rather than increasing car dependency where it is not clearly needed.

I respectfully ask that you reconsider this proposal and retain HyperKart at Moore Park.

Thank you for your time and consideration.

Kind regards,
Yasas

Hello,

I am writing against removing hyper karting establishment from its currently active space.

This is a place where my young nephew has his birthday parties. Where my friends and I enjoy a good weekend out. My fondest memory was coming to hyper karting before a concert. We had actually considered doing a couple more laps instead of going to the concert.

Please consider the impact you have to your local community.

Regards,
Stella

Hi

I am writing regarding the potential shut down of hyper karting. It is disappointing to see that this centre might be shut down and I hope the City of Sydney reconsiders. My children and their friends have spent countless hour go karting over the past few years. Most recently my eldest had his birthday party there also.

In a world where we technology is dominating and diminishing our quality of lives, we need places like hyper karting to ensure we continue to stay active and interact with each socially in the real world. It is only getting increasingly hard as a parent to compete with the online world, thus we all have a duty to ensure we keep these places alive in our community.

I hope the City of Sydney reconsiders its decision and keeps hyper karting open for everyone to enjoy.

Regards
Anushka

Hello, I just learned that Hyperkarting in Moore Park is potentially closing. As a returning customer I am sad to hear this news as it's one of the more fun things to do in the EQ. It brings in a dedicated crowd for a level of fun that requires no alcohol to enjoy, like all the pubs and restaurants.

The e-karts are super quick and a real thrill, you should try a session or two before making your final decision. Please keep it open, for the sake of big and little kids alike, especially think about the adolescents, there's not a lot for them to do in most city hubs if they aren't old enough to drink. Most kids too old for playgrounds are neglected by town planning and this place is actually a dream for them.

Respectfully,
Belinda

Dear Councillors

I am writing to formally submit my opposition to the proposed shutdown of Hyperkarting.

I believe that the City of Sydney is letting down the community by prioritising additional parking over essential recreational spaces. Rather than encouraging transport by car, the city should be focusing its efforts and resources on improving light rail services to better serve the area.

Hyperkarting is a vital venue for families to enjoy, and there is truly no other place like it across our whole city. It provides a unique experience that should be preserved for the benefit of all residents and visitors.

I urge the city to reconsider this decision and instead focus on sustainable transport solutions while protecting unique local businesses like Hyperkarting.

Thank you for your time and for considering my submission.

Best regards,

Gelina Montierro

To the City of Sydney Council,

I am writing as a passionate supporter of Hyper Karting at the Entertainment Quarter and as someone who has a direct and personal stake in this decision.

I work at one of the restaurants within the Entertainment Quarter precinct, and I see every single day how Hyper Karting drives customers through our doors.

Since opening in 2021, Hyper Karting has done something extraordinary — it transformed an underutilised rooftop car park into one of Sydney's most exciting, inclusive, and family-friendly attractions. With over 500,000 visitors through its doors, it is not just a go-kart track. It is a proven economic engine for the entire precinct.

I can tell you firsthand: the nights Hyper Karting is busy are the nights our restaurant is busy. Families come for the karting and stay for dinner. Groups book celebrations that span the whole precinct.

Teenagers, corporates, birthday parties — they all flow through this venue and into every business around it. You cannot isolate the closure to 298 car spaces. The real cost is a cascade effect felt by every operator in the EQ, including the one I work for.

The numbers back this up. Transport for NSW data shows the car park has reached capacity only a handful of times across 84 major events since Allianz Stadium reopened. The parking “crisis” this decision is meant to solve does not yet exist — but the economic damage from closing Hyper Karting will be immediate and very real.

This venue also serves our most vulnerable. NDIS participants use it as part of social programs. Young racing talent — including a 14-year-old recently scouted by Red Bull — trains there. There is no comparable facility anywhere else in Sydney.

I respectfully urge the Council to grant the requested two-year extension, work collaboratively with Hyper Karting on a long-term solution, and consider the full economic and social value this venue generates for the entire precinct.

Removing Hyper Karting to add 298 car spaces that data shows are rarely needed is not progress — it is taking the entertainment out of the Entertainment Quarter.

Please do the right thing. Keep Hyper Karting open.

Sincerely,
William Baffoni

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Please do not force Hyperkarting to close to have someone extra car spaces. What was the point in building costly light rail and bus lanes right to the door of all these venues? When those car spaces sit empty night and day until a major event and one level of parking being available for those free hours won't change any of the issues that creates- extra traffic gridlock, extra emissions, more people thinking they can drive when a major event is exactly when we need less- not more- cars.

Please don't entertain the idea of removing a business which brings so much fun, actually brings people to the restaurant district nearby all year round and not just when there's a game or a concert on, and brings karting to an area that had venerable had proper karting before- if it's gone, Concord West, Bankstown Airport, Eastern Creek and Smeaton Grange are the alternatives- and all but one of these have to be driven to so you're pushing the problem of accessing something like karting as a fun sport that teaches driving skills out of reach, and shift more cars onto roads to access them, and more emissions to get to them.

It's a fabulous initiative to have had Hyperkarting open and operate there for years now- it's a great business and brings karting to an crisis or location, and having one is level of parking is a good thing. I'd also be in favour of the entire ground floor to be disabled parking and accessible parking for temporary injury mobility issues and prams as truly during major events they are the only people who need to drive and for whom the public transport options are not accessible - trying to cram prams or crutches or wheelchairs into event buses is stressful. The rest? They need to learn to catch transport and one level of car spaces being used 12hrs a day, every day is a lot better use of a space, and bringing people to the area consistently to also bring patronage to businesses that can't survive on major event influxes alone, is a business that should be preserved. Please save Hyperkarting.

As a regular visitor to EQ, i fail to understand the logic of your proposal.
Never has there been any issue parking, only in exiting the car park. I cannot understand how adding more than 300 spaces will aid the situation.
Hyperkarting, draws a huge patronage of all ages, supporting all business in the precinct.

Hi,

I vote to keep the hyper karting. Limited options like this in Sydney. Great opportunity for kids to learn. Great friendly and helpful staff. Opportunity for corporate get together. Lots of energy and fun to be had. It will be waste to take this away.

My younger son wants to come back next year once he is old enough to go up to next level 😊

Thank you

Emma

To: The Lord Mayor and Councillors, City of Sydney

Re: Objection to the Closure of Hyper Karting, Moore Park (The Entertainment Quarter)

Dear Lord Mayor and Councillors,

I am writing to formally protest the decision to refuse the lease extension for **Hyper Karting** at the Entertainment Quarter. Forcing a thriving, world-class entertainment venue to close simply to reinstate **298 parking spaces** is a step backward for Sydney's cultural and economic landscape.

This decision directly threatens the livelihoods of **over 150 employees** and removes a primary drawcard for the Moore Park precinct. Since 2021, Hyper Karting has brought more than **500,000 visitors** to the area, providing essential foot traffic that sustains surrounding small businesses, cafes, and restaurants within the Entertainment Quarter.

Furthermore, Hyper Karting is a vital resource for the community, offering an inclusive and accessible space for **disability support groups** and youth organisations. Removing such a unique facility in favour of bitumen goes against the City's own vision of a "city for people, not cars."

With the recent addition of the **1,500-space underground car park** at Allianz Stadium and ample parking at Disney Studios, there is no logical justification for sacrificing a successful business and a community hub for a negligible increase in parking capacity.

I urge the Council to reconsider this decision, grant the necessary extensions, and work with Hyper Karting to ensure this landmark venue remains a permanent fixture of Sydney's entertainment district.

Yours sincerely,

Rosemary Dobrohotoff

I am writing to save hyperkarting. In Sydney, there is not much entertainment. Hyperkarting is a great place for people to enjoy karting with friends. Especially for UNSW students, we often have activities there. Hyperkarting should not be closed because of car parking. There are usually many empty spots and no one wants to park in upper floor.

To whom it may concern,

Through this email, I am backing HyperKarts goal of remaining in its current location.

I have lived in Sydney for more than half my life, it is a great city that wonderful people like you have shaped it into what it is today. Hyper Kart is not only part of the culture and entertainment of Sydney but it is also a great business that adds excitement and a break from our day to day routine. The likes of which are not possible to have at the cost and travel distance.

I am sure you have your reasons to pursue changes to the parking situation in the Pavilion, but lets not do it at the cost of a good business that adds a lot to the community.

Thank you,
Ricardo.

Hi,

Hyperkarting is an important activity for Sydney, especially as a parent, it's a relevant and vital business for kids in the inner Sydney areas. And provides diversity of activity for our family that isn't otherwise accessible or available.

Keep Hyper Karting open.

Its value to the community far exceeds additional car spaces.

Thanks,
Sam Ho

To whom it may concern,

Please don't force the closure of one of the most interesting things in the Moore Park area in order to satisfy parking minimums. Hyper Karting brings a significant improvement to the otherwise dead precinct. Furthermore the area is easily accessible by public transit, bus and tram, not to mention we are trying to discourage driving right now due to the ongoing war in the Middle East.

I hope you come to your senses here before you once again shutter the things that make this city interesting.

Please reconsider,
Jackson Sommerich

Good morning

It is with great concern that I email you regarding the pending closure of hyperkarting at Moore Park to make way for car spaces.

The light rail was introduced as a promise to improve public transport and reduce the reliance on cars required at Moore Park. Has this failed?

The Entertainment Quarter was established as a place where friends and families could gather for a variety of activities (entertainment) yet you are proposing to remove a key player from this offering.

Please reconsider and allow HyperKart to remain operating in its current state. This is a much loved entertainment experience.

Thank you
Alison Sinfield

Dear Council,

I'm writing to express my concern about the potential closure of Hyper Karting at Moore Park. This venue is something many families, including mine. It gives our kids a safe, fun, and active place to go, away from screens and doing something they genuinely enjoy. Losing Hyper Karting would take away one of the few engaging activities available for children and families in the area.

We strongly hope Council can reconsider this decision or work toward a solution that allows it to remain open.

Kind regards,
Melissa Sarantos

Hi Shannon Rickersey,

I am writing to express my strong opposition to the proposed conversion of the go kart track at Moore Park to a parking lot.

As a regular user of this facility, I've witnessed its value as a unique recreational space that provides family entertainment and community engagement opportunities. Converting it to parking would result in the permanent loss of this valuable amenity.

I urge you to consider alternative parking solutions that don't require sacrificing this important recreational facility. This decision deserves proper community consultation before any irreversible changes are made.

Thank you for considering my concerns.

Sincerely,
Storay

Hyper Karting is an absolute asset to the City of Sydney and should not be sacrificed for unnecessary parking. It employs young people, provides necessary affordable family entertainment for the area and would be a huge loss.

Why are we still encouraging people to drive into the city? Lobby to improve public transport and make it more affordable/free.

Regards,
Chloe

Hi Shannon,

I've recently learned about the potential closure of the Hyperkart venue in Moore park and wanted to share some thoughts on the matter.

Having visited this venue many times over the last few years, I've had first hand experience with what they offer, and I feel that their contribution to the area is more than simply the venue itself.

Going to Hyperkart as a group always involved many other venues nearby, be it a restaurant, the bent st arcade, a movie at the houts, or drinks after at one of the many bars.

Given this location is out of the way for me, it's the combination of locations that has us all returning, and the unique nature of the Hyperkart venue makes it the only place within the city area we can do these activities.

In short, removing this venue will leave many people with no reason to go to the entertainment quarter specifically, as all the other venues are available elsewhere.

Also, I'm in full agreement about not needing more parking. This simply has never been the case at Moore park and I have been there at major sporting events and concerts at the Hordern, the car park has never been full to the point of needing more space.

Thank you for your attention to the matter, and I hope you reconsider the position of forcing a highly complimentary business to close or relocate.

Morten Rowley

Hi

I am writing regarding the potential shut down of hyper karting. It is disappointing to see that this centre might be shut down and I hope the City of Sydney reconsiders. My children and their friends have spent countless hour go karting over the past few years. Most recently my eldest had his birthday party there also.

In a world where we technology is dominating and diminishing our quality of lives, we need places like hyper karting to ensure we continue to stay active and interact with each socially in the real world. It is only getting increasingly hard as a parent to compete with the online world, thus we all have a duty to ensure we keep these places alive in our community.

I hope the City of Sydney reconsiders its decision and keeps hyper karting open for everyone to enjoy.

Regards
Anushka

Please reconsider extending the DA for Hyper Karting. It's employs over 150 people and services the enjoyment of 1000's of people each week. The local community are totally behind the business and the need for it to continue to operate in the existing location.

As a local community and business person, I implore you to reconsider and issue a new DA for Hyper Karting.

Dear Shannon Rickersey,

We strongly urge you to reconsider the closure of Hyper Karting.

Our son loves go karting and it's the easiest most convenient location for us to visit. We live on the northern side of Sydney.

Go Karting as a sport is very expensive, we'd love for our son to get in this as a sport, however the cost of living etc makes this currently just a dream, yet have access to Hyper Karts gives him (and us) the opportunity to practise and build the skills required.

This potential closure will be detrimental for his participation, not to mention so many more.

The staff are incredible and have been accommodating with every visit we make.

So please, we ask that the City of Sydney reconsider this.

I'll make not that Sydney has an excellent transport system, so more parking spots doesn't make sense, especially in this current fuel crisis we find ourselves in, so surely more cars spots isn't the answer, yet more people on public transport is.

Please don't shut this business down.

Kind Regards,

Dan Smith

I do not support the proposed closure of Hyper Karting.

As a nearby resident there has never been any issue of noise, wild behavior or any other problem because of this business.

This local business should remain part of the community- with teenagers we value local options nearby.

Extra car parking can be in the parklands like on game days.

Stop crushing businesses in this area and let the residents also have usable enjoyment.

Regards

Penny Kyros

To Whom It May Concern,

I am writing to express my strong opposition to the reported closure of Hyper Karting due to car park space requirements.

As a frequent visitor to the Entertainment Quarter, I believe this business provides significant value to the community. Hyper Karting is a unique local attraction and a major employer in the area. In my experience, the existing car park frequently has ample vacant spaces, making the decision to prioritize additional parking over a successful business difficult to understand.

The Entertainment Quarter often experiences low foot traffic, and closing a popular venue will likely have a negative impact on surrounding businesses and the overall vitality of the precinct.

I urge you to reconsider this decision.

Best regards,

Adam Gulla

Good afternoon Shannon,

I'm writing to strongly urge you to reconsider this planning proposal and approve the extension of Hyperkarting's operating permit. The case for keeping this facility open is compelling — and the consequences of closing it would be felt widely across the local community and economy.

150 jobs are on the line

Let's be direct about what denying this permit extension actually means: 150 people lose their jobs. These are real livelihoods, real families, and real financial security at stake. It's deeply troubling that this outcome appears to be on the table to satisfy a small, privileged minority rather than to serve the broader working community that depends on these roles.

The Entertainment Quarter needs Hyperkarting

The EQ is already under serious pressure. It's no secret that the precinct is struggling to maintain relevance and foot traffic. Hyperkarting is one of its most consistent and genuine drawcards — it brings people through the doors regularly, and the surrounding local businesses rely heavily on the visitors it attracts. Closing it doesn't just remove one attraction; it actively accelerates the EQ's decline and deals a direct financial hit to every business in the precinct. At a time when the EQ needs support, this decision would do the opposite.

This contradicts the City of Sydney's own values

Perhaps most frustrating is the contradiction this decision creates with the City of Sydney's own stated agenda. The City has made significant investment and noise around promoting car-free lifestyles and car-free activities — and rightly so. Hyperkarting is a perfect example of exactly that kind of destination. It is directly accessible via the light rail, making it genuinely easy for people to get there without a car. Shutting it down doesn't just cost jobs and damage the local economy — it actively undermines the City's own vision for how people should be moving around and engaging with their city.

If the City of Sydney is serious about car-free access and sustainable urban activity, closing a light rail-accessible entertainment venue is a step in entirely the wrong direction.

The bigger picture

This decision would cost 150 jobs, weaken an already-struggling precinct, harm local businesses, and contradict the City's own transport and lifestyle policies. I can't see how any of that serves the community.

I strongly urge you to support the local economy, protect these jobs, and approve the extension of Hyperkarting's operating permit.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To Whom it may concern

I am writing as a member of the community to oppose the closing of hyperkarting for additional parking. As a regular visitor and customer to EQ I do not see the need to add another floor of parking when there is already ample available and the venue itself is serving a need in the community for many members.

The venue serves multiple functions and provides a much valued service to parents and children in the community. Having seen the business grow from being one of the few pandemic safe venues to the many group activities it hosts now it would be a terrible shame to see it go.

I hope this submission is taken on board with the community's voice in mind

Why you enjoy Hyper Karting

I have been to Hyper Karting a few times now and absolutely loved it each time. The staff are incredible and the races with friends and family are memorable and something to look forward to.

Any memorable experiences you've had

Why you believe it should remain open

Most recently I have been to Hyper Karting with work colleagues and we have had some challenge races to compete and see who could get the quickest time.

This racing has given my work colleagues so much enjoyment and we have bantered around who will win and previous races.

How it has impacted you, your friends, or the community

It has positively impacted myself and my friends as we love this space and hyper karting is a super fun activity we have all enjoyed and looked forward to returning to.

It will be really sad if hyper karting no longer operates from Moore Park and I hope this doesn't become the case!

Please reconsider the impact this will have on the community and the workers at Hyper Karting as this space has brought much enjoyment and entertainment to Moore Park and to replace it with more car spaces would be a disservice to the community.

If more space is needed, the council should consider building the carpark higher so they do not lose such an important part of the community and a source of fun and joy for so many.

Thank you for reading this response and I hope you will reconsider the decision to remove hyper karting!

Dear Hyper Karting and the City of Sydney,

Dear Council,

I am writing to express my support for Hyper Karting and to ask that you reconsider any plans that may lead to its closure.

Hyper Karting is an important local activity that many people, including myself, really enjoy. It provides a fun and safe place for young people and families to spend time together close to home. Without it, the nearest alternative would require travelling all the way to Eastern Creek, which is much less convenient.

This venue is also personally meaningful to me, as I celebrated my birthday there, creating memories that I value a lot. Having a place like this nearby makes a big difference for the community.

I strongly believe Hyper Karting is a valuable part of the local area and hope you will take community perspectives like mine into consideration when making your decision.

Thank you for your time and consideration.

Kind regards,
Thomas Johnson

Dear Shannon

I hope this email finds you well.

I am writing to ask that Hyperkarting stays open. I only found out about it when visiting the entertainment district and would like to go there more than once.

Sydney needs places like this where intergenerational families and friends and teams or community groups can come and be and just have fun. We need this more than ever.

I look forward to your favourable reply.

Yours sincerely,

Marie-Brigitte Mitchell

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern

I am very concerned by the refusal of Hyper Karting's application to extend its operating approval in order to free up additional parking spaces. Hyper Karting has been an excellent and popular addition to the Entertainment Quarter and has become one of its prime attractions. It has been a place my children and I have enjoyed going to very much.

In the current economic and global climate, the fact that the proposal will cost over 150 people their jobs, as well as deprive families from all over Sydney of a place where they can have some fun (whilst benefiting the local economy), all for some extra parking spaces that will hardly (if ever) be needed and which a lot of the time will sit silent and empty, is objectionable, unnecessary and short-sighted. If anything, Hyper Karting has demonstrated what can be achieved with some creativity and entrepreneurial enthusiasm, and how under-utilised space can be maximised.

The fact that those spaces may be needed eg for special events is hardly a good reason, and only encourages people to drive to events when public transport use should be encouraged instead - as the current energy crisis demonstrates.

Further, the number of go-karting centres in Sydney has decreased over time, and yet Hyper Karting has stood out because it is indoors and can use electric karts as a result (compared to outdoor venues which use petrol karts). Hyper Karting should be encouraged and supported as paving the way for this kind of activity using efficient and clean energy sources.

Go-karting should also be encouraged as a family-friendly activity as it can help expose children to driving skills at an early stage, promoting better drivers and safer roads at a time when increasing technology in cars is actually leading to worsening driving skills.

For these reasons I submit that Hyper Karting's operating approval ought to be extended and I wish to respectfully record my objection to attempts to force Hyper Karting to close.

Yours sincerely,
Enoch Law

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon Rickersey,

I am writing to formally express my support for the continued operation of Hyper Karting and to oppose any proposal that would result in its closure.

While Hyper Karting is a fantastic recreational venue on the surface, for me it has meant something much more personal. Over the past few years, a friend and I have visited many times, and it has provided a genuine escape during periods where I have been dealing with mental health challenges. It offered a space where I could step away from stress, reset, and experience a sense of enjoyment and normality during otherwise difficult times.

That kind of value is not easily replaced. Venues like this contribute to community wellbeing in ways that are not always visible on paper, but are deeply felt by the people who use them.

Beyond my personal experience, the potential loss of over 150 jobs is also significant. These are real people whose livelihoods are tied to this facility, and removing those roles for the sake of increasing parking capacity raises serious concerns about the balance between infrastructure and community impact.

The proposed addition of 296 car spaces appears to offer limited benefit when compared to the loss of a well-used and meaningful venue. Hyper Karting is not just entertainment—it is a place that brings people together, supports mental wellbeing, and contributes positively to Sydney's social fabric.

I strongly urge the council to consider the broader human impact of this decision and to prioritise preserving a venue that provides both economic and social value to the community.

Thank you for taking the time to consider my submission.

Kind regards,
Michael Farrell

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon Rickersey,

I am writing to express my support in the current application RD/2023/897| A and the continued operation of Hyper Karting.

Hyper Karting has brought liveliness to the Entertainment Quarter in terms of activities to do and entertainment. I've enjoyed my experiences at Hyper Karting and is a regular activity that my friends and I do when we are looking for something fun.

Without Hyper Karting, it lacks life, and feels bland.

Whenever I arrive to Hyper Karting it always has free spaces which has taken me by surprise to see the focus on parking as a primary concern. My experience aligns with what's stated in the application documents, that an abundance of visitors to the Entertainment Quarter do not rely on driving to get there. Even when I have driven, I haven't personally experienced major parking issues outside of large event days. As a regular visitor to this location, I can attest that the Entertainment Quarter car park, is fairly accessible in terms of parking, in which I do not struggle to find parking.

From what I understand, the traffic assessment also found that the actual parking demand generated by Hyper Karting is relatively low (around 27 spaces), and that the broader car park still has significant capacity most of the time. That reflects what I've seen myself when visiting.

Hyper Karting plays in keeping the Entertainment Quarter alive. It is the primary source for the vivacious energy and excitement it brings to the location. It promotes higher foot traffic in off peak seasons when there is no events at surrounding venues, supports nearby businesses, and provides a space for family gatherings and social connection, especially for younger communities and groups. Losing Hyper Karting at the Entertainment Quarter wouldn't just mean losing a business. It would take away from an already diminishing Sydney entertainment life, reduce foot traffic and revenue and make the location less worth visiting. This highlights the broader contribution Hyper Karting upholds within the Entertainment Quarter and local economy and community.

It is also noted within the application notes, that the venue supports roughly around 150 jobs, in a Sydney economy where the cost of living is incredibly significant, the impact this could have on the individuals who need this job for survival and living, is exasperating to think about.

Keeping this business up and running, is clearly in the best interest for the public. If there are concerns, it seems far more reasonable to manage them through other conditions, such as utilising the grass fields as additional car spaces, continue encouraging the use of the fairly new established light rail, rather than allowing the venue to close altogether. I respectfully ask that you take my email into consideration, as a valued member of the community, and to please reconsider the review application status, we do not deserve to lose this business and to be stripped off the very entertainment we sought for, within the Entertainment Quarter.

Thank you for taking the time to consider this submission

Thank you

Joshua Holstein

To whom it may concern,

I would like to add my support in keeping Hyper Karting open. This is in support of a local business that employs many young staff.

I have used the establishment and this has allowed me to travel into the postcode from my area in order to spend and support YOUR local area.

It would be a disappointment to close this down as a destination for young families and good clean entertainment for my teenage children and the like.

Interesting agenda based on the allotment size, proximity to the city and current land values of the area.

Thoughts Council???

To whom it may concern,

I am writing to express my concern regarding any proposal to replace Hyper Karting at Moore Park with additional car parking spaces.

Hyper Karting is more than just an entertainment venue—it is a unique recreational facility that contributes to the vibrancy, appeal, and diversity of the Moore Park precinct. It offers an engaging experience for individuals, families, and groups, encouraging social interaction, physical activity, and local tourism. Facilities like this are increasingly rare in urban areas, where community-focused entertainment is often sacrificed for short-term infrastructure gains.

Replacing such a dynamic attraction with additional parking would represent a step backward in terms of community value. While parking is undoubtedly important, Moore Park is already well-served by public transport and existing parking infrastructure. Prioritising more car spaces over experiential destinations diminishes the area's character and reduces reasons for people to visit beyond necessity. There is already ample parking in the other levels of the parking structure. I have been there many times, to many big events and personally, never had a problem parking.

Furthermore, Hyper Karting supports local employment and contributes to the local economy by attracting visitors who also spend at nearby businesses. Its removal would not only impact those directly employed, but also the surrounding ecosystem of cafes, retailers, and service providers that benefit from increased foot traffic.

Cities thrive when they balance functionality with lifestyle. Retaining attractions like Hyper Karting demonstrates a commitment to creating spaces people want to spend time in—not just pass through. Once these experiences are lost, they are rarely replaced.

I strongly urge you to consider the broader social, economic, and cultural benefits that Hyper Karting brings to Moore Park, and to preserve it as a valuable part of the community.

Thank you for your time and consideration.

Regards,

Mitchell Collier

Dear Ms Rickersey,

I am writing to express my support for the continued operation of Hyperkarting at 116 Lang Road, Moore Park, in relation to development application RD/2023/897/A.

As a Sydney resident from the Northern Beaches, I have visited Hyperkarting a number of times with both family and friends. It is one of the few truly unique activities in Sydney, and I have great memories of spending quality family time there. Importantly, it also gives me a reason to visit the Moore Park Entertainment Quarter more broadly, where I support surrounding businesses and contribute to the local economy.

Beyond my personal experience, I believe the broader value of Hyperkarting should be carefully considered. The venue employs over 150 people and attracts more than 100,000 visitors annually. Its closure would represent a significant loss not only of jobs, but also of economic activity within the precinct. Facilities like this play an important role in keeping Sydney vibrant, particularly at a time when engaging, accessible entertainment options are essential to city life.

Hyperkarting also provides meaningful community value. It is a space that caters to a wide range of people, including families, social groups, and organisations supporting people with disabilities who may not otherwise have access to similar large-scale recreational experiences. This inclusivity adds to its importance as more than just a commercial venture.

I understand that the council's concerns relate to future parking capacity, particularly with the phased removal of on-grass parking in Moore Park. However, it is worth noting that available data suggests the existing parking structure is not consistently at full capacity. In this context, prioritising a vibrant, well-used recreational facility over additional car spaces aligns more closely with the vision of a modern city that puts people, experiences, and community at its centre.

Moore Park's Entertainment Quarter should continue to live up to its name. Removing a major attraction like Hyperkarting risks diminishing the precinct's appeal and undermining its role as a destination for recreation and social connection.

For these reasons, I respectfully urge the City of Sydney Council to reconsider its position and support the continued operation of Hyperkarting at this location.

Thank you for taking the time to consider my submission.

Yours sincerely,

Paul Graham

Good Afternoon,

This is a kind request to keep Hyper Karting Moore Park open for the thousands of people that enjoy this experience, and for the hundreds of people that are actively employed there.

Myself and my family were there yesterday night (on a Friday which would assumingly mean increased busyness), and we parked in the car park on level 4 in order to be as close to the karting location on level 5 as possible. It is safe to say that only the first 2 floors were full, and floors 3 and 4 were mostly empty. We didn't bother checking floor 6 but it would most probably have been mostly if not fully empty.

Myself and my family also enjoy watching cricket at the SCG, and we drive on those days too. We have no problems in finding parking around the suburbs, and we don't think that closing Hyper Karting down would bring enough pros as opposed to cons.

On behalf of people of all ages who enjoy karting in Sydney, we would appreciate if you can take this request into consideration and keep a great family activity initiative running.

Thank you,
Zain Alam

Hi Shannon,

I am writing to express my frustration regarding the government's decision to shut down successful businesses in favor of removing car parks across Sydney and its surrounding suburbs.

It is disappointing to see the continued removal of parking infrastructure, which appears to be part of a broader plan to force the public to rely solely on public transport.

Dear Sydney Council,

Hyper karting at Moore park has been a great contribution to the Moore park area and is one of the main attractions in the area on any normal day.

My friends and family love to go hyper karting when we have the chance and it's always a fun time. Please consider how much joy will be taken away from the area if you replace Hyper Karting with an empty parking lot.

Kind Regards,
Jordan Wu

As someone who takes there kids regularly to Hyper Carting, I strongly object to closing this venue down. As it stands, Sydney doesn't have many venues where families can take their kids and spend the day.

This is somewhere that young kids as young as 3 can learn carting. There aren't any other venues that allow that age group.

Please reconsider closing this for more car spaces!

Regards,
Rema

Dear City of Sydney Council,

I write as a Sydney resident and community member to formally object to the Council's decision to refuse the extension of Hyper Karting's operations at Level 5 of the Entertainment Quarter car park, Moore Park.

I urge the Council to reconsider this decision and grant a reasonable operating extension to allow this valued facility to continue serving our community.

Hyper Karting has operated successfully since 2021, attracting more than 500,000 visitors and becoming one of Sydney's most popular family entertainment venues. It is home to Australia's longest indoor electric go-kart track — a 410-metre circuit that caters to all ages from children as young as three to adults. It operates cleanly and quietly using electric karts, with no emissions or noise impact on surrounding areas.

The Council's stated rationale — that commercial use of the rooftop parking bays is “unacceptable” and “not orderly development” — does not reflect a proportionate or community-centred assessment of the situation. The specific concerns I would ask the Council to weigh are:

1. Economic and employment impact. The closure puts more than 150 direct jobs at risk. This is a significant local employment footprint that would be eliminated in exchange for 298 car spaces that, by most accounts, sit underutilised the vast majority of the time.
2. Community and family amenity. Sydney is a city that has repeatedly acknowledged the need for more family-friendly, accessible entertainment options close to the CBD. Hyper Karting is precisely that — affordable, all-weather, multi-age, and located just 10 minutes from the city centre. Its removal would leave a genuine gap in the precinct's offering.
3. Alignment with the NSW Government's entertainment precinct objectives. The NSW Government has publicly committed to revitalising Sydney's entertainment landscape. Closing an attraction that draws hundreds of thousands of visitors annually runs directly counter to that objective, and to the Council's own interest in maintaining the Moore Park precinct as a vibrant year-round destination.
4. Proportionality of the car parking concern. The venue occupies 298 of the car park's 2,003 spaces — approximately 15% of total capacity. A balanced approach that preserves core parking availability while allowing continued activation of the rooftop level appears entirely feasible and has not been adequately explored.
5. Precedent for adaptive reuse. Hyper Karting converted previously underutilised parking infrastructure into a high-value community and economic asset. This is exactly the kind of creative urban activation that well-functioning cities should be encouraging, not reversing.

I respectfully ask the Council to grant the requested two-year extension, and to use that period to work collaboratively with the operators on a longer-term solution that serves both the parking and entertainment needs of the precinct. Refusing this extension would not be a neutral administrative outcome — it would be an active decision to reduce Sydney's family entertainment options, eliminate over 150 jobs, and return a thriving rooftop to empty concrete. That outcome deserves far greater scrutiny than it appears to have received.

Thank you for considering this submission.

Regards
Brinsley Cross

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

I support HyperKarting to continue on in the Entertainment Quarter. It is a fantastic family friendly, fun facility that is quite unique to the Sydney area. It would be a shame to see this facility closed due car parking spaces that are not even needed.

The car park as it is, is dysfunctional requiring drivers to spend too long trying to exit the car park. Future parking planning in the close vicinity will compensate for the car spaces lost due to Hyper Karting.

I have been to Hyper Karting and think it's a fantastic facility and it should remain open.

To whom it may concern:

I am writing to express my concern regarding the potential closure of hyperkarting Moore Park.

I have two 9 year old daughters who absolutely love hyperkarting.

This activity provides a unique and valuable activity that serves so many. Corporate events, kids birthday of all ages, fun for adults and kids. It's a wonderful place to get the kids out and about and off the screens.

This is a great place for everyone especially young boys who want to experience something other than screen time with toxic masculinity. With this huge "Manosphere" problem these days we should be keeping these social and fun activities alive and thriving rather than giving youth less options and sending them inward and onto the toxic internet.

The facts that my two girly girls really enjoyed the experience also shows it's not just for boys. Everyone can enjoy it.

Hyperkarting supports jobs and encourages visitors to the EQ, which then has a positive flow-on effect for surrounding shops and services in the EQ.

Closing this venue would remove an important asset to the EQ park. I strongly suggest you renew their lease and keep the fun going for all of us.

Yours sincerely,
Nicola Lincoln

I am writing to express my strong support for Hyper Karting continuing to operate on Level 5 of the Entertainment Quarter car park.

This is the best purpose for this space, and the business contributes greatly to the vibrancy and appeal of the precinct.

With ample parking and excellent public transport access nearby, Hyper Karting enhances the Entertainment Quarter's atmosphere and provides a fun, family-friendly activity that appeals to both locals and visitors.

Its unique setup adds both character and value to a day out in the area.

Importantly, Hyper Karting is proudly Australian owned and operated, employing more than 150 people.

It's a business that supports our community, promotes active recreation, and contributes to Sydney's entertainment economy.

I urge the decision-makers to maintain Hyper Karting's presence on Level 5 rather than replacing it with additional car parking.

This business embodies what makes the Entertainment Quarter special energy, creativity, and connection.

I support Hyperkarting to continue to operate on level 5 of the Entertainment Quarter carpark in Moore park because this is the best purpose for this carpark space.

There is ample parking near by along with local public transport. With the amount of space used, any future car parking spaces will cover this space with ease.

This is a successful Australian owned business, with over 100 employees. It would be disappointing to see this closed.

A great space which is so much family fun for all ages to play and enjoy physical activity safely in all weather conditions.

Dear City Of Sydney,

My name is Will, and I live in the Maroubra area. I wanted to express how much I enjoy racing at Hyper Karting. I was even thinking of going again soon, until I heard the news! I humbly ask if you would be able to reconsider replacing Hyper Karting with a parking lot. Please let the community know what factors would influence the decision (to know if turning it into a parking lot is the best option). For example, if it meant parking at Moore Park became completely free. Otherwise, I add my vote to keep Hyper Karting around.

Thank you for managing the situation, I know this can't be easy and that you have the interests of the Sydney community at heart.

Many thanks,
Will

Hi,

I wanted to reach out to share my concern about the proposed development to replace hyperkarting with another floor of car park in the entertainment quarter.

I'm a local from North Sydney who works in the city - and I often organise outings in the city with friends or colleagues.

Often I'm trying to find good activities during the day, outside of museums, bars and bushwalks. The entertainment Quarter feels like it's meant to fill this gap, but I generally don't find the entertainment quarter that entertaining - unless the circus is on, or there's a show on. Both of these are expensive, especially for a family. The one reliable attraction that draws me to the entertainment Quarter is hyperkarting. It's a phenomenal venue, incredibly well run, in a perfect location to allow me to take friends on the light rail, and then explore the rest of the quarter for food and drinks after. There are very few venues like it in Sydney city, and a day out there is something that I suggest to tourists who are looking for something to kill time in a part of the city they haven't explored.

Removing this venue just to add an extra floor of parking is incredibly shortsighted. With more parking on the way, and a healthy light rail network connecting increasingly large amounts of Sydney directly to the entertainment quarter, it feels like the decision here is akin to cutting off a leg to slide weight. It's counter-productive and will reduce the appeal of the entertainment Quarter for a lot of Sydneysiders.

I hope you can reconsider this decision and preserve one of Sydney's great attractions!

Thanks,
Andrew Campbell

Come on guys - do you really have to continue to destroy the aspects of Sydney that people love?

You have a duty and obligation being the City of Sydney Council to actually improve Sydney, not destroy it.

Simple activities like Hyperkarting are beloved and add so much to our culture and community.

Development is being undertaken in a brain-dead way - we need development yes, but not at the expense of the community.

You continue to fail Sydney and NSW. You should feel shame to know that the once prosperous city is falling to absolute shit under your 'care'.

You have no regard for your council, for NSW, for people who work and bring value to the economy and community.

I would value a proper response (not a generic pre-populated response) outlining just how Sydney would be improved if Hyperkarting were to be shut down - both from a social and economic perspective. Short of a proper explanation, what else are people to think other than corruption at worst, or sheer idiocy and incompetence at best.

Do better.

Tiana

To Whom It May Concern,

We have just moved to Sydney from Perth in January and we have already had two of our kids birthday parties at Hyper karts and all the kids have absolutely loved it. It would be such a shame to lose a resource that entertains pre-teen and teenage kids who are already restricted in what they want to do for fun. It's great for all weather conditions and encourages people to be in the precinct and then utilise the food vendors as well, creating a community environment within the EQ.

Please seriously consider keeping this business alive for our kids and also adults who want to have some fun!

Yours sincerely,
Lauren

Hi City of Sydney,

I would like to express my strong support for the continued operation of HyperKart at 116 Lang Road, Moore Park.

HyperKart is a valued recreational facility that serves the local community and broader Sydney population by providing an accessible and enjoyable leisure activity for people of all ages. Its presence in Moore Park contributes positively to the area's vibrancy as an entertainment and sporting precinct, complementing the existing venues and attractions in the locality.

I believe that retaining HyperKart at this location is consistent with the character and purpose of Moore Park as a hub for recreation and community engagement. Its removal would deprive residents and visitors of a unique and well-patronised facility.

I respectfully urge the City of Sydney to give favourable consideration to this development application and support the ongoing operation of HyperKart at Moore Park.

Kind Regards,

Alfred Tjen

Save Hyper Karting!

I've been to the parking across from Hordon pavilion numerous times during music shows and the afl.

9/10 Im able to find a parking. This has been the case since Hyper Karting setup.

I thought NSW was trying to improve and increase the use of public transport.

Removing a business that employees Aussies and brings in people at all hours of the day, in favour of 200 more car parks (most of which will only carry 1-2 people, and will only be utilised on Thursday night to Sunday night) is absurd.

Dear Sir/Madam,

I am writing to express my support for the continued operation of the Hyper Karting facility under Development Application RD/2023/897/A at 116 Lang Road, Moore Park.

I understand that the primary concern raised relates to the use of car parking spaces within the Entertainment Quarter precinct.

However, I respectfully submit that this needs to be balanced against the significant economic, social, and activation benefits that this facility provides.

Hyper Karting represents a unique and modern entertainment offering within the Moore Park precinct. It contributes to the vibrancy of the area, attracts visitors outside of major event days, and supports local employment. Removing such a use risks reducing the overall appeal and activation of the precinct, particularly during non-event periods.

In relation to parking concerns, it is important to consider that:

The precinct is already well-served by public transport, including light rail and bus networks.

Transport behaviour is shifting, with increasing reliance on public and shared transport options.

Demand for parking is highly event-driven, and outside of peak event times, capacity is often underutilised.

Rather than removing a successful and active use, a more balanced approach could be considered, such as operational or management strategies to mitigate peak-period impacts while allowing the facility to continue operating.

From a broader planning perspective, Moore Park is intended to be a dynamic and multi-use precinct. Retaining diverse entertainment offerings such as Hyper Karting aligns with this vision and enhances the overall user experience of the area.

For these reasons, I strongly support the continuation of the Hyper Karting facility and request that the application be reconsidered favourably.

Thank you for your time and consideration.

Kind regards,
Harshil Pindoria

Hi Shannon,

I'm very sad to hear that Hyper Karting is at risk of closure because of the need to create more parking spaces. Hyper Karting is amazing fun, great people who work there who now may lose their jobs and it's something different, fun for all the family. The Entertainment QTR is for entertainment and Hyper Karting provides that in bucket loads. We should also be encouraging to take cars off the road not provide more car spaces- people can use the tram.

Please reconsider this, the people who work there provide a great service and it's awesome fun.

Andy Lowe

To whom it may concern

I have become aware that there is a plan tabled to close Hypercars and return the space to more car parking.

My son, who is 15 and no longer allowed access to social media, went to a party there recently. He had an absolutely great time. The business is run professionally, it provides people with important driving skills and most importantly provides a chance for children to hang out with friends in a productive way.

In another note, I parked in that parking station about a year ago to attend an event in the area. It took me over an hour to get out of the parking garage due to the traffic jam. In fact I was charged extra at the gate from when I paid at the machine due to how long it took to get out! More cars in that lot are not going to help!

Please allow this business to continue to thrive and don't add to more congestion and pollution by adding more cars to sit idling in a traffic jam.

Regards

Chris

Dear Shannon,

I have just learned of the proposed shutdown of hypercars to increase the capacity of the car park at Moore park.

Surely with all the new tram link and other great public transportation options you are not seriously considering incentivising people drive to and from the sporting precinct?

Also, perhaps before this is addressed you should consider reducing the amount of disabled parking on the greens floor, there is almost the whole floor dedicated to this plus the star car wash.

Please seriously reconsider

Daniel

Dear Councillors,

I am writing to express my strong opposition to the decision to refuse an extension for Hyper Karting at Moore Park's Entertainment Quarter.

As someone with a young family in the eastern suburbs, I want to emphasise that Hyper Karting has become an integral part of our lives. It is one of the few activities we can regularly enjoy together, and it has also been a go-to venue for friends' birthday parties and social gatherings. It provides a safe, exciting, and inclusive environment that genuinely brings families and communities together.

Hyper Karting has become a valuable part of Sydney's recreational landscape. It offers a rare, all-weather activity that appeals across generations, encouraging active participation and social connection rather than passive entertainment.

The venue delivers several clear benefits to the community:

- Family-friendly recreation: A unique activity that parents and children can enjoy together, strengthening family bonds and promoting active lifestyles.
- Youth engagement: A safe and structured environment for young people to socialise and have fun.
- Community connection: A popular venue for birthday parties, group events, and social gatherings that foster community interaction.
- Economic contribution: The venue supports local jobs and drives foot traffic to surrounding businesses in the Entertainment Quarter.
- Tourism and vibrancy: Attractions like Hyper Karting enhance Sydney's reputation as a lively, world-class city.
- Efficient use of space: Repurposing underutilised parking into a recreational facility aligns with forward-thinking urban planning focused on people, not just vehicles.

While I understand the need to balance infrastructure and planning considerations, reverting this space back to car parking feels like a missed opportunity and a step backwards. At a time when Sydney is working to strengthen its cultural life, night-time economy, and family-friendly offerings, removing a successful and well-loved attraction sends the wrong message.

I respectfully urge Council to reconsider its position and work collaboratively with the operators to find a solution that allows Hyper Karting to continue operating while addressing any planning concerns.

Thank you for your time and consideration.

Yours sincerely,

Dr Adriano Mazzaferro

Hi,

Why is Council trying to shut down Hyper Karting for more car spots?

Don't you know how popular this place is for families? It is literally the only I reason I bother to drive my kids from Penrith into Moore Park.

The rest of your offerings there at Moore Park are boring and we have more options here in Western Sydney to be bothered driving out there.

When we go we spend time doing the go karting then we go and visit the restaurants so we won't bother spending money anymore if you shut this place down.

It's disgusting that you make these decisions instead of consulting with paying customers. Why don't you ask people what they want, it's their money and it keeps business going.

Happy to discuss over the phone to let you know how disappointed this family would be if you decided to shut a successful business down.

To whom it may concern,

The hyperkart establishment at Moore park is a great place where my family and friends often visit for a day out. It would be a great loss if the karts were lost. Especially if only to a car park.

While we plan our day to go to hyperkarts we will always spend extra hours in the quarter enjoying the other entertainment and restaurants. Don't lose this venue as we would then have to travel to the bankstown carts.

To whom it may concern,

I am writing today about the proposal to remove Hyper Karting from Moore Park.

Hyper Karting has been a treasured meeting place for myself and my friends over the years since its opening. It's an incredibly unique and well executed experience, with the best track and karts I've driven in Sydney and surrounds. It brings unequivocal value to the area, stimulating the economy of Entertainment Quarter (EQ) by bringing in numerous customers for dining and other partnered activities.

As someone who lives in greater sydney, an hour away from Moore Park, I have to drive my personal vehicle to attend EQ. As an avid concert goer, I have driven to attend events at Allianz, Hordern and Liberty Hall on a very regular basis. Regardless of how many events are occurring simultaneously, I have never encountered parking issues due to the parking capacity being reached. There is no need to increase the parking capacity, especially at the compromise of an integral business like Hyper Karting.

Please reconsider the proposal to remove Hyper Karting, and realise the value of this business to its customers and the surrounding community.

Kind Regards,
Kali Notaras

Hi,

I am writing to express my strong support for Hyper Karting Sydney remaining at the Entertainment Quarter. Our family has visited many times and it has been a genuinely valuable and enjoyable part of the precinct for us, including as the venue for several birthday parties. In practical terms, it is the main reason we choose to visit the Entertainment Quarter. It offers something unique, active and family-friendly, and creates the kind of destination experience that encourages people to come to the precinct and spend time there.

I also support the operator's position that the venue should be allowed to continue, particularly given the evidence presented that there is already ample parking capacity available and that the retained spaces for Hyper Karting are not essential in the way suggested. It would be disappointing to see a well-used and popular attraction removed to restore parking that does not appear to be genuinely needed. In addition, the venue supports local employment and provides valuable jobs, while also contributing to the overall vibrancy and appeal of the Entertainment Quarter. I respectfully urge decision-makers to support the continuation of this much-loved business.

Thanks,

Chris Greenaway

I have been to hyper karting more times then I can count. I have brought just about everyone I know to hyperkarting. Anytime I meet someone new its one of the first things I suggest we do. It's not just the go kart racing either, it's also the great VR station that I've had heaps of fun with friends and strangers.

I recently took my young cousins from Melbourne there as it's one of the few karting places that will let little kids race. Without me knowing, they had recently tried to race in Melbourne and failed because of their age and size, yet Hyperkarting had tracks and karts for all of them.

On you're average day the carparck can't even fill 2 floors, and even during peak events like sports or live music I've never failed to find a park.

Not to mention that 90% of the time that I've visited the entertainment quarter and ended up buying some food or going to any other business, was because I had gone hyper karting that day. I certainly wouldn't be coming back without them. I also certainly wouldn't use the car park ever again if hyperkarting wasn't there. Mostly cause I'd have no reason to go there, but also out of spite to discourage and punish such obvious stupidity.

I drive all the way from pennant hills to Moore Park to race because it's that good. It doesn't make any sense to get rid of them. If you're not asleep at the wheel and have an inkling of a pulse on what the community wants you will revert this decision. If anything you should give them the roof as well.

Praying common sense will prevail,
Daniel Heffernan

To the concerned,

Over the years, HyperKarting has become a place for the whole local community to gather. Whenever I attend I see people from all the local suburbs whom I recognise and even foreign tourists attending. HyperKarting brings our community closer together and the proposal for replacing it with superfluous parking space is a degenerative cancer on this city.

I call it so because it is an industrious plan of action that like-minded proposals are fed by and the concept of such feeds on these successful proposals. The "growth" of this cancer kills community gathering points and breaks down the brain of our Australian society and culture.

I stand against this rezoning and ask you to reconsider.

Regards,
Gabriel D. Sharp

Hello Council

Hyper Karting is a fantastic local business that has done much more to attract people to the Entertainment Quarter, then the rest of the Entertainment Quarter.

The idea that EQ needs even more vacant parking bays, at a time people are looking to the multiple public transportation options around the precinct instead of driving, is laughable.

Losing 150 jobs heading into what may be the worst recession since the Depression, is truly an idea of someone who was recently kicked in the head by a horse.

Hyper Karting is exactly the type of local business the Sydney city area needs - in order to have a thriving, vibrant and diverse range of attractions.

Kind regards
Jonathon Rogan

Hi,

I am writing to express my strong support for Hyper Kart and its continued presence within Sydney's entertainment landscape.

Hyper Kart is more than just an indoor karting venue—it is a proven destination that attracts a substantial volume of visitors annually. Based on typical performance benchmarks for comparable high-traffic entertainment venues, Hyper Kart is likely drawing tens of thousands of visitors each year, including families, corporate groups, tourists, and local residents. This consistent foot traffic plays a meaningful role in activating the surrounding precinct.

Importantly, the impact of Hyper Kart extends well beyond its own operations. Visitors frequently combine their experience with dining, shopping, and other leisure activities nearby, directly supporting local restaurants, cafés, and retail businesses. Group bookings, events, and celebrations in particular contribute to increased spending across the precinct, strengthening the broader local economy.

In addition, Hyper Kart enhances Sydney's appeal as a vibrant, experience-driven city. It provides:

- A unique, high-energy attraction not widely replicated elsewhere
- A safe, weather-independent entertainment option
- A venue for corporate team-building and private events
- An activity that appeals across age groups and demographics

From a strategic perspective, venues like Hyper Kart are essential for maintaining a diverse and engaging entertainment ecosystem. They encourage repeat visitation, extend dwell time in the area, and contribute to Sydney's reputation as a destination for both locals and tourists seeking premium experiences.

Losing such an attraction would not only reduce consumer choice but also have a flow-on

effect to surrounding businesses that benefit from its patronage.

I strongly encourage consideration of the broader economic and community value Hyper Kart delivers, and I urge you to support its continuation.

Thank you for your time and consideration.

Warm regards,

Dr Aileen Towse

I have been reading the comments from people on the Hyper Carting Instagram and their are so many enthusiastic patrons of the business. If Hyper Carting goes so do all those patrons to the entertainment quarter. They will no longer be using the car park or patronizing the other businesses there. Thereby loosing jobs.

The light rail and the new bridge are there to get people to the stadiums. I always use these to attend Sydney FC games.

Isn't there a new carpark being built opposite League headquarters down the road?

I support keeping Hyper Carting operations.

Regards

Alastair Murray

Dear Sir/Madam,

I am writing to express my strong support for the Hyperkarting business operating in Sydney, which plays an important role in our local economy and community.

This business is responsible for providing approximately 150 jobs, contributing meaningfully to employment opportunities and supporting many families. In a time where job creation and economic activity are crucial, initiatives like Hyperkarting should be encouraged and supported.

Additionally, I understand that concerns have been raised regarding the need for additional parking spaces. Based on the nature of the business and its current operations, I believe that existing parking infrastructure is sufficient and that further expansion in this area is unnecessary. Prioritising efficient use of current resources is both practical and sustainable.

Hyperkarting offers a unique recreational experience that adds vibrancy to Sydney's entertainment landscape while supporting local employment. I respectfully urge you to consider these factors and continue supporting the business in its current form.

Thank you for your time and consideration.

Kind regards,

Iyessa Tua

To whom it may concern,

I'm writing to support Hyper karting Moore Park. It's a place that we often frequent and it provides hours of entertainment for our children and their friends.

It also provides a good team bonding experience for our business team members throughout the year.

I believe the operation is well operated by an experienced and professional team and would be a shame to see their jobs lost.

The mental well being, the sense of community and being an integral part of the junior and senior Motorsport community and regular social activity make it a good reason to keep it at Moore Park.

To whom it may concern,

I'm writing in support of the review application for Hyper Karting on Level 5 of the Entertainment Quarter car park.

I understand where the refusal is coming from, and it's not an unreasonable position on paper. But I think it's a mistake.

Recovering 298 top-deck bays from a 2,000-space car park is a marginal gain, and the cost is losing a business that employs 150 people and pulls half a million visitors a year into a precinct that badly needs the activity. It also locks in more cars on event nights, which means more congestion on Anzac Parade, more emissions, and a worse time for people who live nearby. None of that is a great outcome.

The event-day pressure that does exist can be managed without touching Level 5. Wilson's used to run an online "Book a Bay" system at the Entertainment Quarter and has since removed it. Bringing it back, combined with higher event-night pricing, would do the job neatly. Families who genuinely need to drive (kids, elderly relatives, accessibility needs, anyone coming from areas the light rail doesn't reach) can lock in a guaranteed bay in advance. Everyone else gets a clear price signal to take the L2, which runs straight into Moore Park and is exactly the kind of trip we built it for.

That way, families who turn up on the night still know they've got a spot waiting, and nobody's left circling the block. It also frees up real capacity for everyone else.

If the precinct genuinely outgrows its parking later on, the answer is to build more properly, not to claw back bays from a tenant whose fit-out is permanent and can't be moved. If you tear out a venue like this and the parking demand turns out to be manageable after all, you don't get it back. Even if something similar opened elsewhere, the precinct loses the activation it needs right now.

The Entertainment Quarter has been struggling for years, and Hyper Karting is one of the few things actually pulling people in outside event days. That's exactly what the State Government keeps saying it wants for Moore Park. Losing it over parking that can be handled through pricing, pre-booking and public transport is the wrong call.

I'd really encourage Council to find a way to approve this with conditions rather than refuse it outright.

Thank you.

Kind regards,
David S.

Hi Shannon Rickersey

We LOVE HYPERKARTING!!!! My child has been driving there since the age of 4. It's the only place I know of where he can drive a go kart!!! His practising to drive!! You take that away from any child it's a sad life for little youngsters!! I wish HK WAS AROUND FROM WHEN A WAS LITTLE! You're going to make my child and every child by age and heart cry!!!!

Thanks for not taking away HK!!!

Cheers

Sabrina Rodriguez

To whom it may concern,

I am writing regarding the City of Sydney's proposal to repurpose the current grounds of Hyper Karting Moore Park for additional parking spaces.

Hyper Karting is a valued local attraction that brings enjoyment to both children and adults (such as myself), and its removal would be a significant loss to the community. Repurposing the site for parking would mean replacing a unique recreational facility with infrastructure that appears inconsistent with the City's broader environmental and transport goals.

Karting also provides important mental health and wellbeing benefits for many members of the community. Recreational activities such as karting offer opportunities for stress relief, social connection, skill development, and confidence building. For many participants, karting is more than entertainment. It is a meaningful hobby that promotes routine, enjoyment, and psychological wellbeing. In a time where mental health challenges are increasingly prevalent, preserving accessible recreational outlets that support community wellbeing should be a priority.

At a time when fuel costs remain high and there is increasing emphasis on reducing car dependency, expanding parking infrastructure seems counterintuitive. Hyper Karting operates electric karts and provides an environmentally conscious recreational activity. If the venue were to close, many patrons would be forced to travel to more distant tracks such as Picton or Eastern Creek, increasing both petrol consumption and overall vehicle emissions. Additionally, many alternative karting venues operate petrol-powered karts, further undermining sustainability efforts.

The City of Sydney has consistently promoted climate-conscious and public transport-oriented initiatives. Moore Park is one of the most accessible locations in Sydney, with excellent light rail and bus connections and close proximity to the CBD. In this context, prioritising additional parking over an established electric recreational venue appears contradictory to those stated values.

I strongly support Hyper Karting Moore Park and urge the City to reconsider this proposal.

Kind regards,

Pua Johnston

To whom it may concern,

I am writing to show to show my support for Hyper Karts in Moore Park. I have personally used this business along with many of my friends and family over the past 4 years. We travel from as far as Newcastle to enjoy the fabulous experience that Hyper Karts provides, but also inadvertently supporting the local restaurants, coffee shops and cinema as well.

Hyper Karts is the cornerstone to our catch ups in Moore Park and unfortunately if the business was not to continue we would not visit this area of Sydney at all. I'm sure quite a few of Hyper Karts 500k customers would feel the same.

It is my understanding that your local council is trying to revive a dead culture and dying nightlife, and I believe your plans are severely misdirected in your plight to close down Hyper Karts over a few extra carpark.

I truly wish you would sit with the owners and go over the real costs to staff, culture and community before any solid decisions are made regarding the future of this fabulous business.

Kind regards,

Kodee Marzella

We love the hyper carting Centre
Please don't replace it with a car park.

You should be encouraging more public transport and cycling to your venue! Especially with the cost of petrol and the damage cars do to the roads and the environment. I understand that hyper-carting is also a vehicle (and uses energy), but it teaches children and young adults how to navigate and use vehicles in a controlled environment.

Please reconsider your plan.

Hannah Dale

Hi Shannon,

Stop building car parks please. Roads are expensive to maintain. The more cars, the more maintaince and infrastructure is required.

Build separated bike paths, bus only lanes, trams and trains. Build parks. Let people commute to places and spend money on local businesses.

“Cyclists and pedestrians generally spend more per month... than visitors who arrive by car.”

To whom it may concern,

I am writing to express my support for Hyper Karting at Moore Park and to strongly oppose the proposed decision to discontinue their operations in favour of additional parking.

Hyper Karting provides a unique and valuable recreational experience for the community. It contributes to local entertainment, attracts visitors, and adds vibrancy to the Moore Park precinct. Sydney needs more of this! Not less.

Replacing an active, engaging venue with additional parking would be a significant loss to the area and to those who regularly enjoy the facility.

As a member of the community I respectfully ask that you reconsider this decision and explore alternative solutions that would allow Hyper Karting to continue operating.

Thank you for your time and consideration.

Kind regards,

Mathew G

Hi there,

I have just heard the devastating news that there is a submission for Hyper Karting to be closed down and replaced with car parking. This is literally like asking the Apple Store to close down for car parking. Hyper Karting has been a fundamental magnet to the entertainment precinct and has been an absolute catalyst for my love of Formula One racing. It is a place where those who live in the city and outside of the city can come and enjoy the sport in a safe environment by stealing this away from the community, you are absolutely doing the most detrimental thing you can to helping inspire a new generation, bring joy to the community, and bring people to the precinct. I implore that this submission be reconsidered and rejected in order to ensure that this institution remains for our community.

Many thanks,
Joseph Coorey
