To whom it may concern

Please don't demolish Hyper-karting - it is so important for the community, locally and further away. The addition of 270-290 parking spaces is not going to make a huge difference considering there's plenty of parking in the area already.

Kind regards

[redacted]

To remove Hyper Karting from Moore Park Carpark is a kick to the heart to all that enjoy a fulfilled day & night out with friends & family.
It's the ONLY kart racing in the Eastern Suburbs & very convenient for those who travel by public transport.

To take the carpark Park to allow more parking is a joke knowing g that it will not fill to capacity because public that use it will be hit with over charging prices!!!

If you are going to kick Hyper Karting out of the carpark, find them another venue in the Eastern suburbs so they stay.

Thank you.1

Hello,

This email is to register my opposition to the closing of Hyper Karts.

This place is absolutely fantastic! My girlfriend's son had a fantastic birthday there just recently, and there's simply nowhere else like it that's anywhere close to the CBD.

Please ensure this place is allowed to continue operations. It's quite literally called the Entertainment Quarter, which is already a shadow of its former self, and removing entertainment is anti-thetical to its very existence.

Best regards,
Ben

Dear Sir/Madam

I find it very concerning to find out news that council are proposing to close the Hyper Karts facility. My son and myself have used this a number of times. I have also held work events using Hyper Karts as it caters for all ages.

Council should reconsider this proposal not only because of all the jobs that will be lost but also for the community as there is already a severe lack of activities in the area that are not weather dependent compared to what locals have available out West.

I thank you In advance for using common sense to let Hyper Karts stay in the EQ.

Best Regards
Chris Hughes

Hello,

I wish to register my support for Hyperkarting to be able to continue to operate as a community entertainment venue. It brings significantly more value to the area than additional (paid) parking spots which add very limited value.

City of Sydney should be encouraging and continuing to improve public transportation to this area vs providing more parking

Regards,
Megan Anderson

I am writing to formally oppose any proposal to remove or repurpose the HyperKarting venue in favour of a car park or alternative development.

HyperKarting is a unique recreational facility that provides significant value to the community. It offers a safe, structured environment for entertainment, social engagement, and skill-building, particularly for young people and families. Facilities like this are not easily replaced, and once removed, they are unlikely to return.

In contrast, a car park does not provide the same long-term social, economic, or community benefits. While parking is important, it is a utilitarian solution that can be developed in alternative locations without sacrificing an established and well-used recreational venue.

Key points for consideration:

- **Community Value:** HyperKarting is an active entertainment venue that contributes to local engagement and lifestyle.
- **Economic Contribution:** It supports local jobs, drives foot traffic, and benefits surrounding businesses.
- **Irreplaceability:** Unique recreational venues are far more difficult to replace than parking infrastructure.
- **Alternative Options:** Car parking can be developed in other areas or through multi-level solutions without removing existing community assets.

Removing HyperKarting would represent a net loss to the community. Development decisions should prioritise long-term social and economic value over short-term convenience.

I strongly urge you to reconsider this proposal and explore alternative solutions for parking that do not come at the expense of established recreational facilities.

Yours sincerely,

Hi,

Please do not force Hyperkarting to close. They are providing a service to the community and bring so much value. There are few places that allow adults and children alike to have so much fun, and it is so well run.

It is good to preserve those 150 jobs too.

With thanks

Ben Adler

Hi,

It recently came to my attention that Hyper Karting at Moore Park was at risk of closing.

Our family loves hyper karting. We live in rural NSW, and the main thing that our kids insist on to keep us coming back to Sydney regularly is to go to Hyper Karting.

Over the last four years, since our eldest was old enough to drive the kids track, we've made the journey multiple times a year and holds an important place in our families lives.

There aren't many places in Sydney that have a track that really little kids can drive, and that isn't as loud as traditional go karts for auditory sensitive kids. There definitely isn't one as accessible for us as Hyper Karting.

If it is just for more parking spots, public transport is more efficient, better for the environment, and the trams make it easier. Car traffic leaving major events at Moore Park is bad enough as it is.

From a young family who have celebrated multiple birthdays there, made many happy memories and have kids that love this place, please keep hyper karting open.

Thank you for your time and consideration,

Katyana Harvey

To whom it may concern,

Hyper Karting has been a significant part of my life and one where I've made friendships that have lasted to this day. It's been a great place to have some fun, burn off stress from work and just enjoy the company of those around you.

When I moved to Sydney in 2025 I found it difficult adjusting after coming from a small rural town. One thing kept my friends and I entertained and distracted me while I adjust to this change was Hyper Karting. It gave my friends and I as well as thousands of like minded individuals a safe place to have fun.

Hyper Karting is such a unique place and to get rid of it for the sake of extra parking spaces is frankly ridiculous. Think about how many extra people come into the city for Hyper Karting, for birthdays and other special events. No one is coming into the city for car parks.

Regards,
Tom

To whom it may concern,

I am emailing my support for Hyper Karting to remain open and not be denied an extension for the excuse of more parking spaces. As someone who has attended Hyper Karting numerous times, as well as parked in the carpark for other events, I have not seen the carpark anywhere near capacity for this to be warranted.

It is an inclusive space for people of all ages to have fun and find joy, and these types of activities are few and far between in the local area.

Kind regards,
Olivia Dilanchian

Dear Shannon Rickersey,

I am writing to express my concern regarding the potential closure of Hyper Kart due to reported "parking issues".

Growing up, Moore Park was never somewhere I would choose to visit or spend time. However, since Hyper Kart opened, that has completely changed. My partner and I now visit regularly—it has even become a meaningful place for us, as it's where we had our first date. It has brought a new energy and appeal to the area that simply wasn't there before. We hoped that with us planing to start our family. We would be able to take our children there for family time.

From my personal experience, I have never found parking to be an issue, even during busy periods when major venues such as the SCG, Allianz Stadium, and the Hordern Pavilion are all operating simultaneously. The area is designed to accommodate large volumes of visitors, and Hyper Kart's presence does not seem to negatively impact this.

Beyond personal sentiment, I am also concerned about the broader impact of a closure. Hyper Kart provides jobs for many people, and shutting it down would directly affect their livelihoods. It would also remove a unique and engaging activity that attracts people to the precinct and supports the local economy.

Closing a venue like Hyper Kart over parking concerns feels disproportionate, particularly when the area already manages significantly larger crowds for major events.

I strongly urge you to reconsider this decision and explore alternative solutions that allow Hyper Kart to continue operating while addressing any concerns.

Thank you for your time and consideration.

Kind regards,
Michelle

Hi

We operate the café at Australian Film, Television and Radio School in the EQ and have a long established relationship where HK clients utilise our café pre and post race.

Closing the track would have a detrimental effect on, not only our business, but also the other businesses in the EQ.

With EQ rental costs showing no sign of abating, this decision will have far reaching ramifications.

Has a study been done on the occupancy of the car park and an independent conclusion been made including the mitigating factors of surrounding business impact?

I hope this email goes someway towards the submission being reconsidered.

Cheers
Dan Wilson, [REDACTED]

Shannon,

I have to the understanding you are re-assessing the Hyper Karting lease.

I feel very strongly that the business adds material value to the community. It is an important part of the neighbourhood and broader Sydney culture.

I have many fond memories of spending birthdays and family milestones at hyper karting. If you revoke the lease that will strip future generations of Sydney from the opportunity to experience such a unique entertainment offering.

Please do the right thing and keep hyper karting running.

Regards,
Michael

Dear Sir/Madam,

I am writing to express my concern regarding the potential closure of the Hyper Karting facility and to respectfully request that the Council reconsider this decision.

This venue has been an important recreational space for my family and many others in the community. I have personally spent many enjoyable moments there with my children, creating positive memories in a safe and engaging environment. It offers a unique activity that encourages outdoor participation, family bonding, and social interaction, which are all essential for a healthy and connected community.

Beyond personal experiences, Hyper Karting contributes to the local area by supporting small business activity, creating employment opportunities, and attracting visitors. Facilities like this help give the community character and provide alternatives to more passive forms of entertainment.

Closing such a venue would mean the loss of a valuable space that promotes fun, skill-building, and community engagement, especially for young people. In a time where encouraging active lifestyles is increasingly important, retaining places like this should be a priority.

I kindly ask the Council to consider the broader social and community benefits that Hyper Karting provides before making a final decision. Exploring options to support its continued operation would be greatly appreciated by many local families, including mine.

Thank you for your time and consideration.

Yours sincerely,
Constantin Bucur

Subject: Submission - RD/2023/897/A - 116 lang rd Moore park-ATTENTION SHANNON RICKERSEY

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To the City of Sydney Council,

I am writing to express strong opposition to the proposed removal of Hyper Karting at Moore Park Entertainment Quarter in order to repurpose its space for additional parking. This decision would result in the loss of a valuable recreational, economic, and community asset, and I urge Council to reconsider.

1. Community and Social Value

Hyper Karting provides a unique, accessible recreational activity for a wide demographic, including families, young people, and corporate groups. In a dense urban environment, opportunities for safe, engaging, and social entertainment are limited. Removing this facility diminishes the diversity of activities available within the precinct and reduces its appeal as a destination.

2. Lack of Comparable Alternatives in the Eastern Suburbs

There are currently no comparable go-karting venues or similar high-energy recreational activities in the far eastern suburbs of Sydney, either during the day or late at night. Hyper Karting fills a critical gap by offering an activity that is both accessible and available beyond standard business hours. Its removal would leave a significant void in local entertainment options, particularly for young people and groups seeking safe, structured activities at night, when alternatives are especially limited.

3. Economic Contribution

The venue contributes to the local economy by attracting visitors who also patronize nearby businesses, including restaurants, retail outlets, and entertainment venues within Moore Park. Its removal risks reducing overall foot traffic and economic activity in the precinct. Additionally, the business supports local employment, which would be negatively impacted.

4. Alignment with Strategic Urban Goals

Modern urban planning increasingly prioritizes activation of spaces, experiential offerings, and reduced reliance on private vehicle use. Replacing an active entertainment facility with additional parking appears inconsistent with broader sustainability and place-making objectives. Encouraging car usage through expanded parking supply may also conflict with environmental and transport strategies aimed at reducing congestion and emissions.

5. Availability of Alternative Solutions

Before displacing a successful and established operator, Council should explore alternative solutions to parking demand. These may include improved public transport access, shared parking arrangements, or more efficient utilization of existing parking infrastructure. The complete removal of a high-value tenant should be considered a last resort.

6. Cultural and Precinct Identity

Hyper Karting contributes to the identity of Moore Park Entertainment Quarter as a vibrant, multi-use destination. Its presence enhances the precinct's reputation as a place for entertainment and leisure, rather than solely a transit or parking hub. Losing such an attraction risks diminishing the distinctiveness of the area.

Conclusion

The proposed removal of Hyper Karting represents a net loss to the community, the local economy, and the strategic vision for vibrant urban spaces. It would also eliminate one of the very few accessible, late-night recreational activities available in the eastern suburbs. I respectfully request that the City of Sydney Council retain Hyper Karting at Moore Park Entertainment Quarter and pursue alternative approaches to address parking needs without sacrificing valuable community infrastructure.

Thank you for considering this submission.

Kind Regards,

Noa Cthurner

Hi there,

I am writing to voice my concern about the closure of Hyperkarting at Entertainment Quarter.

It is a place of great entertainment. I work at Disney Studios and think it is a great part of the whole precinct.

Please reconsider the closure of Hyperkarting for car parks that will used only a fraction of the time. The inner city will no longer have anything like this, we don't want to lose it.

Thank you for your time
James

Attn: Shannon Rickersey

I write concerning the above-mentioned DA, in support of Hyper Karting.

Having attended this venue I wish to attest to its value to the community and would wish to see this preserved for some time to come.

The local area has ample transport options including parking and public transport, I myself utilised the light rail to attend which was extremely convenient.

We trust Council to support the community on this matter.

Kind regards,
Lachlan Bunn

Hello

I just wanted to make a submission against the proposal to replace Hyper Karting with car park spaces.

Hyper Karting is such a fun and unique activity at the Entertainment Quarter and it would be a shame to get rid of it just for car parking especially when there's a light rail stop nearby and surely a large proportion of people attending for events at EQ are getting Ubers anyway. The only reasons I have even visited the EQ in recent years is for Hyper Karting, seeing something at Hordern and maybe a comedy show. Whenever I have driven to EQ, I have never had an issue finding parking.

I hope the proposal is revisited and doesn't go ahead and hopefully council can find an alternative solution.

Thank you

Beatriz Linsao

Good afternoon Sydney council,

I have spend numerous birthdays and holidays at hyper karting, I've enjoyed time after time with my long distance friends and close family at hyper karting. Hyper karting means more then just a small go karting business, it's how I connect with those I don't see anymore. It's how many of us come together during holidays to enjoy racing without huge expenses, without the restraint of everyone pressuring us. Hyper karting is a place that brings people together and gives not only adults but kids the chance to experience racing, on and around a changing track. Please consider this email and Pleae not a demand, this place mean a lot to a lot of people, I understand the desire for more parking and revenue, but if it's at the cost of a community then I believe there are better options.

Thankyou for your time,
Jake Gilmour

Dear Shannon Rickersey,

Hyper Karting has been a valuable contribution to the city of Sydney since opening many years ago, it brings regular patronage to the Entertainment Quarter.

Go Karting, particularly EV karts are typically out in the western suburbs or regional areas and with Hyper Karting opening at the EQ it has brought the opportunity to regularly visit for our family rather than just the odd holiday experience.

If gives adults and kids the thrills of fast action and has evolved to continue to support customers over the years.

The opportunity for Hyper Karting to open in this venue was amazing and would be a tremendous shame for it to close down just to make way for a few more car parking spaces.

The council should encourage more public transport usage to the area and reduce the need for the additional car spaces and allow this business to continue to operate and contribute to the local community.

Thanks for your time and consideration.

Regards,
Martin Andrew

Attention Shannon Rickersey

Hyperkarting, at Entertainment Quarter -Moore Park is my 14yr old son Go to in the holidays.

He attends Hyperkarting as part of group therapy who develops his social, emotional and life skills due to having Autism and an intellectual disability.

Each time he attends group therapy the teens/young adults get to choose and discuss what they would like to do, plan transport and budget. Hyperkarting is always selected as a common interest and a fun activity they would all enjoy, amongst all their quirky and unique personalities. Plus, the number#1 activity when my son has a 1:1 session with his support therapist.

Please think how this decision effects the community as a whole, we tell teens they need less screen time and e-bikes are dangerous on the streets. We need more interactive/social activities for them to connect.

Many thanks, Corienne Boal

Good day,

I am writing to advise my disappointment that City of Sydney council is considering closing the hyperkarting centre in the Fox Studios Moore Park car park.

We go to the Fox studio car park quite often, to take our grandkids for the go carts and the car park has never been full from what I could see. As well lots of jobs will be lost if this proposal goes ahead.

We hope this proposal is stopped, jobs are retained and some common sense prevails.

To whom it may concern,

I am writing to express my strong support for the continuation of hyper karting in our community, and to urge you to prioritise it over additional car parking spaces.

Hyper karting offers far more than just recreation, it provides a unique, engaging activity for people of all ages, encourages social interaction, and contributes to the local economy by attracting visitors and supporting nearby businesses. It is an important part of our community's identity and vibrancy.

In contrast, increasing car parking spaces does little to enhance community life. Prioritising parking over active, social, and recreational spaces risks making our area less dynamic and less appealing. Even with several concerts and sporting events coinciding the car park is very very rarely ever at capacity.

Removing or reducing hyper karting facilities in favour of car spaces would be a significant loss. I strongly encourage you to recognise the broader benefits hyper karting brings and to ensure its place in our community is protected.

Thank you for considering my perspective.

Kind regards,
Alana Judge.

Sydney is already far too dependent on personal motorised transport. You built an "entertainment quarter" with poor public transport links, away from the rest of the city's entertainment areas. Your incompetence is laughably farcical. The only thing that makes the EQ easily accessible is ride sharing and electric bikes. The one competent thing you've done in the operation of the EQ is surrender dead end multi storey parking spaces to the operation of Hyper Karting. How about you spend your time and energy improving the active transport links and bike parking opportunities, which are frankly pitiful, at and around the EQ, instead of dismantling one of the few business/attractions that provide a unique draw card to the area? Pull your head out of your derriere, and do your job properly, with your eyes open.

Dear Shannon Rickersey,

Shutting down Hyper Karting at Moore Park would be a mistake. If a car park is the only upgrade the local area is going to get then what is the point? There are plenty of parking in Wilson Parking and public transport is viable with both light rail and bus options. Who will the extra parking spaces serve?

Kind regards,
Mandy Wu

Hi Council

I'm a local resident living on Marriott St, Redfern and own a local business operating in Surry Hills with 10 employees.

I would like to make a submission in support of hyperkarting. I have been karting with my family and also taken my employees there on a weekday for a celebratory work function.

I've always known it to be a really inventive enterprise - always evolving and improving the track, the technology and club like social element. It's always packed and they really do try to provide an accessible experience for everyone. Just today I took my 4 year old for his first ever time in a kart (he loved it!)

It seems so destructive and antithetical to everything Clover and the city are trying to do to close it down in favour of car spaces. We should be encouraging more walking, better use of the tram, bike infrastructure and expensive tippy cotter bridge. That level of the carpark will be empty the vast majority of the time, as opposed to the current situation where everyday it serves as a vibrant place where people of all ages come to enjoy themselves while employing loads of staff and being an anchor attraction driving customers to other businesses in the EQ for lunch or to hang out after.

Surely common sense can prevail here.

Regards
Harry Curotta

Dear Ms Rickersey,

I write to formally object to the proposed shutdown of the go-karting venue at 116 Lang Road, Moore Park. This facility is a well-loved and longstanding recreational destination in Sydney, and its closure would represent yet another regrettable loss of fun and community activity in our city.

Go-karting is one of the few genuinely exciting, accessible, and family-friendly entertainment options still available in inner Sydney. It attracts locals, tourists, corporate groups, and families alike, providing safe adrenaline-fuelled fun that appeals across age groups — from teenagers to adults. In a dense, fast-growing city like Sydney, venues like this are essential for relieving stress, building social connections, and offering something more engaging than shopping centres or screens.

In my lifetime I have only seen Sydney become less and less fun. One by one, the unique, lively, and character-filled venues and activities that made the city vibrant have disappeared or been restricted — replaced by high-rise apartments, sterile developments, and endless traffic. Moore Park and the surrounding area should be a place where people can actually enjoy themselves, not just commute through or pay premium prices to live near. Closing a popular go-karting track sends the message that recreation and enjoyment are low priorities for our city's planners.

This venue also supports local jobs, brings economic activity to the area, and contributes to Sydney's appeal as a tourist destination. Removing it would diminish the city's livability at a time when residents are already feeling the pressure of rising costs and fewer outlets for enjoyment.

I strongly urge you to reject any proposal that would result in the shutdown of this go-karting venue and instead look for ways to support and retain active recreational uses at 116 Lang Road.

Thank you for considering my submission. I trust that community feedback like this will be given proper weight in your decision.

Sincerely,

Jamie Michael Munton

Dear Council Members,

I'm writing to express concern about the proposed closure of Hyper Karting to create additional parking.

While I understand the need for parking, removing a recreational facility that supports community engagement and safe motorsport activities seems short-sighted. Spaces like this offer value that parking alone cannot replace.

I encourage the council to consider alternative solutions that preserve the facility while addressing parking needs.

Sincerely,

Rita

Hi,

I am writing in support of hyper karting which provides a significant community benefit. I believe council should be encouraging diversity of entertainment options within the city, in particular in this precinct. Alternative karting venues are not locally accessible and without hyper karting, community are forced to travel afar. This venue is a great option for patrons.

Regards
Anthony Felice

Good evening City of Sydney,

I would like to show my support for Hyper Karting in Moore Park. As a motorsport enthusiast and president of Thornleigh Car Club Inc (est 1954) , Hyper Karting provides a track that is available in all weather conditions, throughout the year, for patrons to enjoy.

I have enjoyed their facilities with my friends, some first timers and some experienced drivers. It provides a fun and safe space to enjoy our sport.

Finding venues to cater for enthusiasts is becoming harder, with very few facilities available in the Sydney area. With councils committing to sports fields, proving spaces for football, rugby and the like, there are disproportionally low motorsport facilities for enthusiasts to use, unfortunately leading some to drive on the streets in an unsafe manner.

Facilities like Hyper Karting are needed, as a space to enjoy motorsport in a safe and controlled manner, provide entertainment (in the entertainment quarter) and create jobs for the community.

Regards,
Matthew Rath

To whom it may concern,

This place cannot be shut down! It has brought so much joy to my son, and our family!! This is one of the best places in Sydney for children, teenagers and adults to explore gokarting! It is the best.

It would be such an absolute shame to see this place go, just to use it for extra parking!!

We went to the Easter show at fox studios today and there was plenty of parking. People can find other parking spaces around the area/stop driving and use public transport/light rail! With so many other options, fuel prices so high - don't encourage people to drive their cars more... support and promote public transport options instead.

Thanks

Yours sincerely,

Amy, a mother to my 6 year old son, Leo - who absolutely LOVES hyperkarting!!!

Dear City of Sydney Council,

I'm writing to express my strong objection to the proposed closure of Hyper Karting. This venue has become a beloved part of Sydney's entertainment landscape and a place where countless memories have been made. It's more than just a go-karting track — it's a space that brings people together through fun, laughter, and friendly competition.

Hyper Karting provides an engaging and safe activity that appeals to people of all ages, families, and friendship groups. It helps keep our city vibrant, offering a unique recreational experience that encourages community spirit and healthy fun. For many of us who live and work in Sydney, it represents a rare escape from the urban rush — a chance to connect, unwind, and celebrate the city's energetic culture.

Closing Hyper Karting would mean losing an iconic local business that adds immense value to Sydney's social and cultural life. I strongly urge the council to reconsider this decision and support its continued operation.

Thank you for your time and consideration.

Best regards,

Robert D

Good evening,

Rather than supporting car dependency in a city with various public transport options, support should be shown to the business that has created life long memories to thousands of Sydneysiders and tourists alike. More car spaces is not a solution, and only eliminates an entire customer base from paying for parking on the premises. Sydney lacks so much of what hyper karting brings to our city. It is an inter generational space where people can just have fun, and one that does not promote drinking alcohol to do so.

Please take this into consideration.

Best,

Mikaela

Dear City of Sydney Council

I am shocked to learn that Hyperkarting is at risk of closing down to make space for more car spots. I am disappointed that 150 people might lose their jobs because of that. We should encourage more people to make use of the light rail and to take public transport instead of driving themselves. I spent countless hours of fun at Hyperkarting and if it closes down, there is no reason for many people to come back to the EQ, meaning the other venues located at Moore Park will suffer too. I hope you will take the feedback from many loyal Hyperkarting customers to heart and reconsider.

Kind regards

Lisa Gebhardt

To those who are reading this email especially to the government. You have no idea how much attraction Hyperkarting brings towards the community over something that will be completely useless in the long run. Like car spaces? How about actually put your heads into problems that need to be focused on?? like the housing crises, increase pay with healthcare and teachers. These are definitely worth looking into than some car spaces, it brings entertainment, tourism attraction and so much more.

Hello

I am writing in regards to the potential closure of Hyper Karting in Moore Park.

One of the most exciting reasons for young kids (and those young at heart) to return to Fox Studios is for the Hyper Karting experience.

I have been once for a birthday party and my friends as well as our kids of various ages had a wonderful time.

I was hoping to bring my cousins there this year for a silly and fun day out (we are all adults mind you!) and in future have Hyper Karting host my son's birthday party.

There is no other place like it that I know of in Sydney. It should be heavily advertised and franchised out because it would make an absolute killing in other suburbs where there are more families.

Please reassess and keep this unique concept going. It is a wasted opportunity to grow it.

**Thank you
Joanne C**

I write to express my extreme opposition to the proposal to shut down the Hyperkarting operation at the Entertainment Quarter.

This is a very popular, much loved venue and a huge drawcard for the area.

I strongly believe it must be allowed to continue.

Yours sincerely,

Robert Weiss

To Whom it may concern,

I am a resident of the City of Sydney who regularly takes my 12 year old son and his friends to Hyperkarting. I was saddened to hear that their application to extend their development consent so they can continue operating Hyperkarting has been refused. I am writing in support of their application for review of the refusal.

Hyperkarting is one of the few venues in our local area available for tweens and teenagers to amuse themselves - away from screens - and burn off some energy. I know my son and his friends would be really disappointed should Hyperkarting close.

I also observe each time we go that the business employs a number of young people, who will presumably be out of work if the business closes. It would be sad to see this happen during a time when many young people struggle to get their foot in the door where employment is concerned.

Lastly, I understand that one reason that may have been given for the refusal of an extension is the fact Hyperkarting occupies a floor of the EQ carpark and therefore reduces the parking available. I frequently park in the carpark - when I take my son to Hyperkarting and at other times - and the only time I have seen the carpark at capacity is when there is a major sporting event at one of the stadiums. Even on the Easter Sunday just passed, with the Family Easter Show in full flight, we were able to find a parking space without any great difficulty. I therefore do not think the reduction of parking spaces Hyperkarting causes is a major issue.

Thank you for taking my comments into consideration.

Yours sincerely,
Bridget Andersons.

Please keep hyperkarting open and support this excellent local business.

They provide a great drawcard to the entertainment quarter and it would be a great loss to have it replaced with car spaces when there is ample event posting in the grass area adjacent to Anzac Pde .

Hi there

Hyperkarting is a great place for the kids to go in Sydney as we do not have a Go Karting place accessible by public transport in Sydney. My kids asked to go hyperkarting every school holiday. I don't understand why we are shutting a place that kids can drive safely, which is much safer and better than E-bikes on the road!

Council should allow Hyperkarting to stay where it is now.

Regards

Susan Lai

To: City of Sydney

Attention: Shannon Rickersey

Subject: Objection to Proposed Closure of Hyper Karting – Moore Park Entertainment Quarter

Dear Shannon,

I am writing to formally express my concern regarding the proposed closure of Hyper Karting, currently operating within the car park precinct at Moore Park Entertainment Quarter.

It is my understanding that this decision is being considered in order to expand parking capacity and address instances of vehicles parking on nearby green space. While I appreciate the importance of protecting public areas, it is important to note that this overflow parking typically occurs during occasional, large-scale sporting events, rather than as an ongoing, everyday issue. As such, removing a permanent and thriving business to solve what is an intermittent challenge does not appear to be a balanced or proportionate response.

Hyper Karting has only been in operation for approximately five years, yet in that time it has established itself as a highly successful and valued recreational venue. It contributes to the local economy, supports employment, and offers a unique and accessible entertainment experience for families and visitors.

On a personal note, this venue holds particular significance for my family. My now four-and-a-half-year-old son had his very first go-karting experience at Hyper Karting, as it was one of the only places that allowed children of his age to safely participate. That opportunity sparked a genuine passion in him, and today he is on a path toward becoming a professional driver. Opportunities like this are rare, and venues like Hyper Karting play an important role in nurturing interest, confidence, and skill development in young people. You can view his profile on Instagram [REDACTED]

Replacing a dynamic, community-focused business with additional parking infrastructure represents a considerable loss of social and economic value. Issues relating to parking overflow are more appropriately addressed through improved event planning, traffic management, and enforcement, rather than the removal of an established and beneficial enterprise.

I respectfully urge the City of Sydney to reconsider this proposal and to explore alternative solutions that preserve both the integrity of public green spaces and the vitality of local businesses.

Thank you for your time and consideration. I would appreciate being kept informed of any developments regarding this matter.

Yours sincerely,

Veronica Moore

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

PLEASE DO NOT remove Hyperkarting at Moore Park.

It is so well located for Sydney suburbs, it is very well run and managed, it employs a lot of people who clearly enjoy their work and who provide excellent service, it is a wonderful opportunity for kids to get off screens and learn varying skills.

And there is NOT an established need for additional parking in the area.

WHY destroy a successful business, and a community facility, for a few surplus parking bays???

Regards

C J (Chris) Conway

Dear Sir/Madam,

I am writing to express my strong support for the renewal of the Development Approval (DA) for Hyper Karting at Moore Park.

Hyper Karting has become a unique and valuable attraction within the Moore Park precinct, contributing significantly to the vibrancy and activation of the area. Its presence offers an engaging, family-friendly recreational option that complements the broader mix of entertainment, sporting, and hospitality venues nearby.

The venue helps draw a diverse range of visitors, including families, young adults, corporate groups, and tourists. This increased foot traffic supports surrounding businesses and contributes to a more dynamic and economically active precinct. In particular, Hyper Karting enhances the appeal of Moore Park as a destination beyond major events, encouraging consistent visitation throughout the week.

It is my understanding that the proposed reason for declining the renewal is to convert the space into additional car parking. However, this appears to be a poor trade-off, particularly given that existing parking capacity in the area is often underutilised outside of major event days. Replacing a vibrant, experience-driven attraction with largely empty parking spaces would detract from the precinct's appeal and undermine efforts to create a lively, people-focused destination.

Additionally, the facility promotes social interaction, safe recreational activity, and community engagement. It provides an accessible and exciting experience that is not widely available elsewhere in Sydney, helping to distinguish Moore Park as a leading entertainment hub.

From an urban planning perspective, retaining attractions like Hyper Karting aligns with broader goals of activating public spaces, encouraging local tourism, and fostering a lively and inclusive environment. Removing such a facility would diminish the diversity of experiences available in the area and reduce its overall appeal.

For these reasons, I strongly support the renewal of Hyper Karting's DA and encourage the relevant authorities to recognise its positive contribution to the precinct's vibrancy, economy, and community life, rather than replacing it with infrastructure that does not meaningfully enhance the precinct.

Thank you for considering this submission.

Yours sincerely,
David Loiterton

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern and Major of Sydney,

I am writing regarding the potential decision to shut down Hyper Karting at the Entertainment Centre.

I strongly believe this would be a mistake for Sydney's inner-city nightlife and broader entertainment offering. At a time when there is significant discussion around revitalising the city and creating more engaging experiences, it seems counterproductive to remove a venue that consistently brings people together and provides a unique form of entertainment.

From personal experience, the Entertainment Centre precinct often feels underutilised, even on nights with AFL, NRL, or major concerts. I have never experienced difficulty finding parking at the multi-storey car park, even when multiple events are running. For that reason, it is difficult to understand how parking constraints alone justify closing a popular attraction like Hyper Karting.

Additionally, this decision appears to contradict ongoing messaging around encouraging public transport use and reducing reliance on cars. Removing a central entertainment option due to parking concerns sends a conflicting message.

Decisions like this contribute to the perception that Sydney lacks vibrant, accessible nightlife and entertainment options. Retaining venues like Hyper Karting is exactly what helps counter that narrative and keeps people engaged in the city.

I strongly urge you to reconsider this decision and explore alternatives that support both infrastructure needs and the continuation of valuable entertainment experiences.

Kind regards,
Jake Loiterton

Hi,

My name is Reece Shannon-Purcell and I am emailing to show support for RD/2023/897/A and stress the importance of keeping Hyper Karting at the EQ.

I am asking for the approval of the review, or a further time-limited approval with conditions.

As mentioned above, my name is Reece, I am a local Sydney resident and regular customer at Hyper Karting.

I have been visiting the Hyper Karting site for the past several years for solo experiences, catch ups with friends and quality family time. I typically go to Hyper Karting a few times a year.

I typically travel to the Hyper Karting site by light rail or by driving my personal motor vehicle. When I do happen to drive, I've never found finding a parking spot to be an issue.

Removing Hyper Karting from the EQ would be a mistake. Hyper Karting brings life to the EQ and if I visit the site, I typically find myself eating / drinking at a restaurant or cafe at the EQ. The activity is something I genuinely look forward to and its central location allows for frequent visits every year. I'd personally find it distressing if I couldn't continue accessing this activity. I wouldn't have any other reason to visit the EQ.

I believe keeping Hyper Karting in the car park at the EQ is a better outcome than returning the area to underused parking (most of the time).

I'm sure concerns could be managed through conditions rather than closure.

Thank you for the opportunity to provide feedback.

Kind Regards,

Reece Shannon-Purcell
Artarmon Resident

Dear Members of Council,

I write in support of the extension of car parking approval for Hyper Karting Sydney and urge Council to reject any proposal that would result in the closure of this venue.

I understand the matter before Council turns principally on whether there is a shortage of car parking in the surrounding precinct.

On that question, the evidence should be assessed honestly and proportionately. By all accounts, the car park in question operates well below capacity the overwhelming majority of the time. What is being proposed, in effect, is the removal of a significant community asset in order to accommodate an edge-case scenario a marginal and infrequent parking shortfall that, on any balanced weighing, does not justify the harm that would result.

Hyper Karting is not a trivial amenity. It is an entertainment and recreation venue that provides meaningful social benefit to the community, a place where families, young people, and groups gather for leisure and connection.

Hyper Karting is not a trivial amenity. It is an entertainment and recreation venue that provides meaningful social benefit to the community, a place where families, young people, and groups gather for leisure and connection. It is also a legitimate employer contributing wages, superannuation, and tax revenue to the local economy. To close it in response to a carparking concern that arises only in fringe circumstances would be to cause real and lasting harm to address a problem that is, at best, occasional and manageable.

Critically, closure is not the only tool available to Council. If there is a genuine, evidence-based concern about peak-period parking demand, there are proportionate measures that address that concern without destroying livelihoods and community access.

These include:

- time-limited or condition-based parking approvals tied to occupancy monitoring;
- signage directing patrons to nearby overflow or public parking options during high-demand periods;
- a requirement that the venue implement a travel demand management plan or active transport incentives for patrons;
- engagement with nearby landowners about shared or overflow parking arrangements; or
- a trial extension with a formal review mechanism at a defined interval.

Any one of these measures would address the stated concern far more proportionately than closure. Council has an obligation to consider the least harmful means of achieving its planning objectives and no such consideration has been satisfied here if the only option on the table is to shut the venue down.

Council is asked to weigh two competing interests:

- the inconvenience experienced by a small number of motorists on peak occasions, against
- the permanent loss of a recreational venue, jobs, and community amenity.

Hyper Karting is, moreover, a genuinely novel and unique asset, there is few comparable facility readily accessible to the local community and broader Sydney community that frequent it, and once lost, it will not be easily replaced.

Those two outcomes are not comparable. The proportionate response is to extend the parking approval, impose reasonable conditions if necessary, and allow Hyper Karting to continue operating.

I respectfully urge Council to give this submission proper weight and to find in favour of the extension.

Yours sincerely,

Robert Bucci

To whom it may concern.

Hyperkarting is a phenomenon in the area. Prior to this opening, we had to travel for a long time out west to drive inferior karts. Please don't turn it back to unnecessary extra parking again.

With thanks.

Michael Dotch

Subject: Submission Opposing the Closure of Hyper Karting Sydney

To Whom It May Concern,

I am writing to formally oppose any proposal to close Hyper Karting, a unique and highly valued recreational venue within the Sydney CBD.

Hyper Karting is not just an entertainment facility — it is an important part of Sydney's urban lifestyle and night-time economy. It provides a safe, controlled, and engaging environment for people of all ages to participate in recreational activity, particularly in a city where options for interactive entertainment are limited.

From a community perspective, Hyper Karting plays a significant role by:

- Offering a safe alternative to nightlife that does not revolve around alcohol
- Supporting social connection through group events, families, and corporate bookings
- Encouraging physical activity and skill-based engagement in a controlled setting

Economically, the venue contributes to:

- Local employment across operations, hospitality, and event management
- Increased foot traffic to surrounding businesses in the CBD
- Tourism appeal, particularly for visitors seeking unique urban experiences

Sydney is a global city, and venues like Hyper Karting contribute to its vibrancy and diversity. Removing such facilities reduces the attractiveness of the city for both residents and visitors, and limits the range of experiences available in the CBD.

If there are concerns regarding compliance, safety, or operational impacts, I strongly urge Council to work collaboratively with the operators to address these issues rather than pursue closure. Solutions such as revised operating

conditions, noise management, or safety upgrades should be explored as alternatives.

Closing Hyper Karting would represent a loss not only for its patrons but for the broader community and local economy.

I respectfully request that the City of Sydney reconsider any action that would result in the closure of this venue and instead support its continued operation under reasonable and balanced conditions.

Yours sincerely,

Ali Nasser

Hi There,

Just writing to ask you to reconsider the closure of hyperkarting / re opening of the carpark.

I'm both a regular customer at hyperkarting, and a frequent attendee of hordern pavillion and other entertainment quarter events.

This area is already chaos to get in and out of during peak periods, the only way in/out during these busy times is by public transport as the car traffic in the area is usually insane.

I say this as someone who actively loves driving, and often prefers to drive places (hence my interest in hyperkarting). Moore park is just not a place to drive to during peak times. Any other method of getting there is so much quicker and easier.

I don't feel that the local area can actually accomodate the traffic, making the additional parking useless as the streets/intersections to get to and from the carpark are completely gridlocked during substantial events.

Hyperkarting is such a great activity and the space is perfect for it, allowing karting during all weather conditions, and at night. It's also more eco friendly and clean (in many ways) due to the karts being electric, and the courses being indoors, meaning you're not just covered with debris like regular karting.

Each time myself and friends attend hyperkarting, we often go to other restaurants in the entertainment quarter afterwards for lunch or dinner. I often see many of the hyperkarting customers doing the same thing.

Please reconsider the closure of hyperkarting. It will kill a great community, business, and may impact other businesses in the area who rely on hyperkarting to bring people into the area for food.

Regards,
Brad.

Brad Campbell

To Shannon Rickersey

I regularly use the parking area around Moore Park and have never experienced difficulty finding a space. I have also visited the Hyper Karting facility, which provides a unique and engaging attraction within this precinct.

As a city that actively promotes cycling, public transport, and access to open space, I am surprised by the suggestion to remove an existing recreational facility in favour of additional car parking. This approach appears to contradict broader urban planning and sustainability objectives.

With a Master's degree in Urban Design and a Bachelor of Landscape Architecture, I find this proposal difficult to justify. Successful urban environments rely on public amenity, activation, and mixed use. Replacing an active, engaging space with passive car storage diminishes the overall value of the precinct.

Rather than removing such attractions, there should be a stronger focus on integrating uses retaining parking where needed, while also enhancing spaces for recreation and community engagement. In fact, if the goal is to create a greener, more liveable city, we should be looking to transform more car dominated areas into active, people-focused environments.

As I know the CofS would be aware the amount of hard spaces that are taken up by car parks in the city to be quite high. I am flabbergasted that it has not been looked at how these could become mix use rather than just "car parks" becoming 'parks' hasn't not been considered previously. The current use for this space is a perfect example of a SUCCESSFUL use of a carpark in a multifaceted way.

I strongly encourage a reconsideration of this proposal and do not support the closure of hyper karting.

Regards,

Georgia Falconer

Hello,

I hope this message finds you well. I am writing to express my objection to the proposed closure of Hyper Karting in Moore Park to make room for additional car spaces. After careful consideration, I genuinely believe that removing Hyper Karting would not result in any significant increase in available parking, and the impact on the community would far outweigh any minor benefits.

Hyper Karting has become a vibrant feature of Moore Park, providing recreational opportunities and fostering a sense of community. Eliminating this facility for the sake of a few extra parking spaces seems unnecessary, especially since it will not meaningfully address parking shortages in the area.

I strongly urge you to reconsider the decision and explore alternative solutions that support both local amenities and practical needs. Thank you for taking the time to review my concerns.

Best regards,

Mathew Mcgrory

Hi,

My name is Mehreen Ali, I am writing to formally submit this email as part of a petition to save Hyper Karting at Moore Park, as the official submission form is currently inaccessible.

I strongly oppose the closure of Hyper Karting, as it is a unique and valuable recreational venue that brings enjoyment to the community, supports local employment, and contributes to the vibrancy of Moore Park. Losing this facility would remove an important entertainment option for both residents and visitors.

Through this email, I am adding my name in support of keeping Hyper Karting open and respectfully urge you to reconsider any decisions that would lead to its closure. I ask that community feedback be genuinely taken into account before any final actions are made.

Thank you for your time and consideration.

Kind regards,
Mehreen Ali

Hey there!

I am writing to express my opinion of hyper karting shutting down to become a car park?!! As a 25 year old who is in love with everything thrill seeking, hypercarting has been a place that i absolutely love, I take my friends, my family there to go and have fun. It's such a shame if it would close as there is nothing like this, Sydney city night life needs OPTIONS! Some of us want to have dinner followed by some fun! Without always getting drunk and partying . I speak for myself but also for many others. Save their jobs, leave us to have fun and let people pour more money into public transport or Uber /taxi to come into our city. WE LOVE HYPERKARTING

I'm writing to push back on the proposal to remove Hyper Karting at Moore Park for more parking.

It doesn't make much sense to replace a unique, active venue with something as generic as extra car spaces. Hyper Karting isn't just entertainment — it's one of the few places that actually gets people out, moving, and doing something social in a controlled environment.

Moore Park already has a fair amount of parking, especially outside of major events. But there aren't many venues like this around, and once it's gone, it's not coming back.

Hyper Karting brings real value:

- It creates jobs and supports local business
- It gives people something different to do (not just shops or passive entertainment)
- It encourages social interaction and skill-based activity
- It adds to the overall appeal of the Moore Park precinct

Swapping that out for more parking feels like a step backwards. There has to be a better way to manage parking demand without removing something that actually contributes to the community.

I'd strongly encourage you to reconsider and look at alternatives.

To whom it may concern,

I am writing regarding the closure of Hyperkarting in the Moore Park car park area. I strongly oppose the shutting down of this venue simply to increase the number of car parks. This car park is never full unless there is an event on at Moore Park or nearby, and this level of the car park is otherwise unneeded during other times. There is already sufficient public transport to the venue.

Removing a business from this location just to replace with a few car spaces is a big waste of time, space, and money, and I see no reason why it should be done.

Kind regards,
Brandon

To the City of Sydney,

I'm writing to express my concern about the closing of Hyper Karting at Moore Park. It has been an amazing place for both recreation and social activities, and I've personally really enjoyed spending time there.

It's not just a go-karting venue, but a space where people can unwind, connect with friends, and experience something unique in the city. Losing it would take away one of the few engaging and accessible entertainment options available in the area.

I strongly hope you reconsider this decision or explore possible alternatives to keep it running. It would mean a lot to many people who value the place.

Thank you for your time and consideration.

I confirm I support the save hyper karting campaign.

It is a fantastic asset to Sydney to have hyper karting available. Why this would be sacrificed to having more car spaces is incomprehensible

Kind regards

Raphael Hudson

Dear Council,

I just wanted to reach out regarding the proposed changes to Hyper Karting.

It would honestly be a real shame to lose or change it. It's one of those places that actually brings people together. I've taken my kids there for their birthdays over the years and it's something they genuinely look forward to every time. It's not just the karting — it's the whole experience of getting out, having fun, and spending proper time together.

Places like that are hard to come by, and once they're gone or changed too much, you can't really replace what they offered.

I just hope this is taken into consideration before any final decisions are made.

Thanks for your time,

Sebastien

Hi there,

I'm writing to ask you to please reconsider removing Hyper Karting in Moore Park.

It's a really fun place and a great way for people to spend time together, whether it's for birthdays or just hanging out with friends. It adds something special to the area that a lot of people enjoy.

I also don't think replacing it with more parking is necessary, as there has always been plenty of parking available when I've visited Moore Park.

I'd really appreciate you taking another look at this decision and considering the value it brings to the community.

Kind regards,

Imogen

Hi

I would like to express my concerns about the closing of hyperkarting Moore park Sydney.

The venue was my bucks party location and was one of the few places in Sydney that isn't a bar or restaurant where people can gather socially. It was such a fun night. I've also been there in the past for many social occasions and it's been great. I strongly urge those in power to reconsider any decision to close or shutter the venue

Hello,

I'm sending this email to support the effort in keeping Hyper Karting open. I'm aware that this is a key place for fun and recreation within Sydney and has positively impacted families and individuals across a wide range of age groups, providing experiences that are unforgettable for many. It truly does not seem justified to close down something so significant for many and eliminate countless jobs solely for parking spaces.

Save hyperkarting! I'm actually going to never come back to Moorpark ever again if you don't extend their lease. I think it's extremely stupid of you. There are so many people who enjoy the experience. I actually went on a first date there and even though it wasn't a good date the only thing that was good about it was I got to Hyperkart.

Do better.

Dear City of sydney council

I am writing to express my deep concern and disappointment regarding the decision not to extend the contract for Hyper Karting, which now faces imminent closure.

Hyper Karting is more than just an entertainment venue — it is a place where families, friends, and the wider community come together. It has provided a safe, engaging, and inclusive environment for people of all ages to connect, unwind, and create lasting memories. For many, it is one of the few accessible recreational activities available locally.

The closure of this facility will not only impact loyal customers but also the hardworking staff who depend on it for their livelihoods. It will remove a valuable community space that contributes positively to social wellbeing and local engagement.

I respectfully urge the council to reconsider its decision and explore possible solutions that would allow Hyper Karting to continue operating. Whether through extending the contract or working collaboratively with the operators, I believe there are options that can benefit both the council and the community it serves.

Please take into account the voices of the many individuals and families who value this facility and wish to see it remain open.

Kind regards,

Thirith

To Shannon Rickersey,

I'm writing this email in hopes you take my objection into account for the application.

To close down Hyper Karting would, in short, be a disservice to your community. I live in the City of Sydney LGA (postcode [REDACTED]), and as a resident of the area you're supposed to be serving, I find it immensely disappointing to see the amount of entertainment and places of enjoyment for your residents (and all of Sydney) that have been closing because of what can only be described as greed.

Everyone I know, knows someone who's had the pleasure of visiting Hyper Karting and making memories there. I have legitimately, in complete truth, had multiple clients of my workplace (the corporate division of one of the Big 4 banks), describe their weekends to me and include Hyper Karting in their details.

You would be taking away a place of excitement, socialisation, and pure joy. It's not the first time my LGA would have done so. I implore you to consider that *acarpark* is not as important as the public transportation system (to which there are multiple forms servicing Moore Park) you have spent billions of dollars on, which you should be encouraging use of instead. If it's residential; you would not be fixing the housing crisis your government has caused with taking away a facility that enhances the lives of thousands, not to mention the value of surrounding properties.

Go-Karting of any form in our area (instead of in Greater Sydney) is few and far between. Do not take away an attraction and push money out to the western suburbs when we are already struggling to keep people interested in what the CBD has to offer. You'd be making a mistake to process and approve this application. I hope you can see that.

Thank you

Hi, I hope this finds you well.

Regarding the situation revolving around the car space confining the well liked business of “Hyper Karting”, it would be a tragic and severe blow to the community as if this place of entertainment would go under in the sake of a slight increase in space even as these urban designs are known to not be the most efficient in parking space management.

Hi Syd City handler,

Let the Hyper kart stay. Why would someone in a right mind would choose to build few hundred more car parking space over a place where people meet, celebrate and enjoy.

I would rather park 5min down and walk up to the hyper kart. If you remove it for more 290s car parking space 500 more will be empty because it was the reason we go there. It was a fun place to be with friends.

There is already so less things to do in the city that are fun and thrilling. Please don't make the list shorter.

Thanks

Hyper karting boy

Hi there, please don't close down hyperkarting

We really don't need like 30 more parking spaces in exchange for a place that brings actual value... Why not just encourage public transport use rather than encouraging car usage, the world is making car usage less and less viable, why not embrace that and change, rather than go backwards for no reason.

Attention: Shannon Rickersey / City of Sydney Planning Department

Dear Shannon Rickersey,

I am writing to express my strong support for the Division 8.2 Review (RD/2023/897/A) regarding the Section 4.55(2) Modification Application at 116 Lang Road, Moore Park. I urge the Council to overturn the initial refusal and grant the extension for the continued use of Level 5 of the Entertainment Quarter car park for electric go-karting and associated entertainment activities until 1 July 2028.

As a Sydney resident, I am deeply concerned by the decision to close a thriving, low-impact community asset. The refusal earlier this year, which cited the "exclusive use of on-site car parking spaces" as having an "unacceptable" impact on parking availability, is fundamentally flawed and contradicted by real-world data.

I respectfully ask the assessing officers to consider the following critical points for overturning the refusal:

The Parking Justification is Factually Unsupported: According to Transport for NSW data, the Entertainment Quarter car park has reached full capacity only a handful of times across 84 major events since Allianz Stadium reopened in 2022. While the Council has pointed to the forthcoming closure of on-grass overflow parking at Lower Kippax and Hordern Pavilion as justification, this event data demonstrates the car park has not reached capacity, even without that overflow parking being factored in as a realistic substitute. The 298 spaces consumed by the track are rarely needed, and closing a vibrant venue simply to reinstate an empty concrete parking deck is a highly inefficient use of urban space.

Significant Economic and Social Value: Hyper Karting is one of the precinct's busiest daily attractions, having breathed much-needed life into the Entertainment Quarter. Since opening in 2021, the facility has safely hosted over 500,000 visitors. Refusing this extension puts over 150 jobs directly at risk, delivering an unnecessary economic blow to the local community.

Zero Amenity Impacts: Despite operating extended daily hours, the electric facility has generated zero noise complaints across its entire operational life. It is the perfect, low-emission tenant for a designated entertainment precinct.

Strategic Misalignment and Broad Opposition: Closing this venue actively contradicts the NSW Government's own push to revitalize Moore Park as a year-round destination. Furthermore, the decision has drawn rare and significant political backlash; Lord Mayor Clover Moore publicly expressed she was saddened by the decision, alongside vocal support from multiple local councillors.

Dangerous Precedent for Precinct Decline: Documented patterns from entertainment venue closures across NSW show that when anchor tenants are removed from mixed-use precincts, foot traffic collapses and surrounding businesses suffer. The city cannot afford to lose another established entertainment venue, particularly one seeking only a modest two-year extension.

The applicant is not seeking a permanent rezoning or to fundamentally alter the use. They are only to extend a temporary consent for an existing, proven operation while long-term plans for the EQ are developed. A car park that is rarely full cannot credibly justify closing a venue with half a million visitors, 150 jobs, zero complaints, and the active support of the Lord Mayor.

I strongly encourage the City of Sydney to correct this error, look favorably upon this review, and approve the extension until 1 July 2028.

Yours sincerely,

Kieran Campbell-Davis

Hello there,

Please find close hyper carting.

We've been hyper carting customers since it opened. With lots of young kids in our family it's been a great day out for us on many occasions. If it closes down it'll be a really sad day for us as we lose another great activity for the kids big and small in the city. It's rare and unique and so important for us all.

Please don't get rid of this for the sake of more car parking. There are fields near by where you can park loads of cars. And lots of public transport options.

Please don't close hyper carting.

Thanks
Fiona

SAVE hyperKart!!! HyperKart is NEEDED!!

Or do you guys just like shutting everything down so our youth have nothing left to do except for drugs and crime??

STOP destroying communities!!

Thank you.

Sincerely,
Jacquetta Saint-Trelour

Hyperkarting is one of the only few remaining activities left in the Sydney metro area.
Sydney is supposed to be an international city full of life, yet the NSW govt and Sydney city council have managed to ruin it.
Lock out laws, noise restrictions, bike lanes, operating hours, capacity issues etc have made our beautiful city BORING. Now you want to close down another activity for a carpark!? Wake up to yourselves

Dear Council,

I am writing to express my strong support for Hyper Karting at Moore Park and to urge Council to reconsider its recent planning decision.

Hyper Karting has become a valuable recreational asset for Sydney, attracting significant community use and offering a unique, family-friendly activity in an area that benefits from diverse entertainment options. Reports indicate it has already drawn hundreds of thousands of visitors, demonstrating clear public demand and community value.

While I understand concerns around parking and land use, the activation of underutilised space for recreation aligns with broader community interests and contributes positively to the vibrancy of Moore Park. In a growing city, it is important to balance parking needs with engaging, accessible experiences that encourage people to spend time in shared public spaces.

I respectfully ask Council to work collaboratively with the operator to find a practical solution that allows Hyper Karting to continue operating.

Kind regards,

Chris Timmer-Arendt

Subject: Support for Hyper Karting – Keeping the Entertainment Quarter Vibrant

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Lord Mayor and Councillors,

I am writing to you as a Clovelly resident to express my strong support for Hyper Karting remaining at the Entertainment Quarter (EQ).

My teenagers visit the venue every school holidays, and birthday parties.

It is one of the few high-quality, all-weather recreational activities available in the East that engages young people and brings families into the precinct.

I am concerned by the proposal to prioritise car parking spaces over this venue.

This move seems fundamentally contradictory to the City's goals of encouraging the use of light rail and bus services and lime bikes.

To remove a major attraction in favour of more parking—at a time when you are encouraging reducing car dependency—is a contradictory step backwards for the Moore Park area.

Venues like Hyper Karting keep the EQ a viable cultural and entertainment hub.

I urge the Council to support its retention rather than sacrificing it for asphalt.

Kind regards,
Anabella
Clovelly, NSW

Save HyperKarting!

Over 150 jobs are at risk, and the precinct faces losing a major, popular, and accessible entertainment venue.

The city should be more focused on increasing public transport options and increasing jobs and small business.

Thank you.

Hi Shannon

There is no real reason why hyper karting needs to go .
It's tucked up top floor of empty carpark .
There electric so no fumes no noise.
And of course fun.
Don't take away fun .
We can't just work and go home
Kids can't just sit on ipads all day.

Thanks for reading

Anthony mastro

Dear Council,

I am writing as a resident of Sydney. We regularly go to the entertainment quarter for many events- music concerts, movies, AFL games/Swans HQ, the sporting club etc.

we have never had issues with parking as most of the time when we go we get public transport. We have had multiple celebrations at Hyper Karting and its a great activity for families.

Sydney doesn't need another corporate owned paid parking area.

Thanks,

Jana

DO NOT REPLACE A THRIVING BUSINESS WITH MORE CAR SPACES!!!

The Moore Park Car Park building has enough spaces for cars.

This is a unique business without any realistic option for relocation any near the area in which it was founded and now booms. Hyperkarting has nowhere else to go and it is PERFECT WHERE IT IS NOW!

Dear Shannon,

I would like to make it known that I reside in the city of sydney (Pyrmont) and regularly attend the entertainment quarter.

I urge you to please rethink your current plans to close hyper carting down. You may not view it as “closing them down”. You may view it as “investing in additional parking”, however closing them down is exactly what you’re doing. I agree additional car parking is required, however there are many ways that this can be achieved.

My strong suggestion is to invest in the future. Construct significant parking facilities underground at one of the close by fields and return the above ground field/turf over the top once complete. In fact why not put a 5000+ bay parking lot underneath a park (the whole place is surrounded by parks) and convert the current parking lot into more entertainment spaces. It’s a win, win situation long term. More infrastructure without taking away from the beautiful parklands, more entertainment spaces by reusing the existing parking facilities, you can make the old parking lot look a lot nice aesthetically, additional parking during major sporting and other events would help, and lots of people do to lose their jobs!!!!

We managed to get the state government to spend a billion dollars on a stadium and a whole lot more on a foot traffic bridge before that. Why not ask for a significant underground parking lot. I’m fairly certain you can make it happen.

Also, can you please put in a big underground parking lot underneath the fields opposite the fish markets. The new fish markets is incredible, but the local parking has taken a significant hit.

Kind regards

Jay Boyle

To whom it may concern,

Please do not shut down Hyper Karting at Moore Park, especially not to create more car spaces. Hyper Karting is an incredible experience for family and friends entertainment, in a well located spot. As well as it appears that the vast majority of visitors to Moore Park attractions utilise public transport, as demonstrated during peak occupancy periods with plenty of car spaces still readily available, even whilst concurrent major events are occurring.

We hope you will reconsider the proposed decision to remove Hyper Karting. It would be truly appreciated by both staff and community to keep it as is.

Yours sincerely,

Sasha Turner Smith

Hi Shannon.

Please please please reconsider the closing down of Hyper Karting at Moore Park for the access of car spaces.

I have been indirectly involved in Hyper Karting since the opening and it's struggle through the covid period. I have (from the outside) watched the skills development of the motivated young people who's work has become so proficient they have moved on to great jobs at larger corporations and in government positions. Many others have continued to work their for love and pride in the job they do.

I have watched individuals, friend groups, and families enjoy the track and facilities. I have seen many kids celebrating special occasions including birthday parties at the premises.

I have seen young people who have found a passion in racing the cars who had now interest in anything before hand.

The precinct is called the Entertainment Quarter. I cannot think of anything more entertaining than the Hyper Karting facilities.

Regards

the potential closure of Hyper Karting. This venue is far more than just an entertainment facility—it is one of the best family-friendly activities in Sydney, bringing people of all ages together in a safe, exciting, and memorable environment.

Hyper Karting offers families and friends a rare opportunity to share quality time, build connections, and create lasting memories. In a city where meaningful, inclusive activities are so important, losing such a place would be a significant blow to the community.

Beyond its value as a recreational space, it also contributes to the local economy and supports jobs. Most importantly, it has become a cherished part of many people's lives—a place where friends gather, families bond, and visitors experience something truly unique about Sydney.

Closing Hyper Karting would not just mean the loss of a business; it would mean losing a vibrant community hub. I strongly urge you to reconsider any plans that would lead to its closure and to recognize the important role it plays in enriching the lives of Sydney residents.

Hi,

I strongly object to the proposal to convert the Hyper Karting space back into public car parking. The current use provides a unique recreational and community asset that supports local businesses, attracts visitors, and adds vibrancy to the area.

As a council ratepayer, I believe this represents a poor decision and an inefficient use of public funding. Reverting the space to parking offers limited long-term value and undermines opportunities for active, engaging urban spaces.

I urge the City to prioritise innovative, community-focused uses over additional car parking.

Thanks
Andy Morris

Hi

I'd like to complain about the parking submission as hyperkating should not be removed and replaced with a car park. We have built many memories and highly enjoy the children's activity every year. It's a unique Sydney entertainment experience one that our kids of all ages have enjoyed on weekends and school holidays. I would like the council to not agree to removing it from its premises and keep it there where citizens and locals like me can enjoy it.

Thanks

I oppose the closure of hyperkarting. Fun and jobs for so many far outweigh a few parking spots for an already empty carpark, with easily accessible public transport. You can't encourage people to catch public transport and then remove the amenity for parking - it's contradictory!

Thanks,

Daniel

Hi

I am writing to submit my support for keeping hyper karting active and operating in preference to creating more car spaces.

I believe drawing more business to the area is more valuable than 296 parking spaces.

Thanks

Ben Adamson

Dear City of Sydney Council,

I strongly urge the Council to reconsider the decision to close Hyper Karting at the Entertainment Quarter in Moore Park.

This popular electric go-karting venue has been a major success, attracting hundreds of thousands of visitors, creating jobs, and providing fun, family-friendly entertainment in the precinct. Closing it to create more parking spaces would be a step backwards for a vibrant Entertainment Quarter.

I respectfully request that you approve the extension of its operating approval so this great local attraction can continue. Thank you for your consideration.

Yours sincerely,
Marv

Dear City of Sydney Council,

I am writing to you not just as a resident, but as someone who truly values what makes our city feel alive, connected, and full of joy.

The potential closure of Hyper Karting at Moore Park is deeply upsetting. For many of us, it's not just a go-kart track—it's a place where families come together, where friends laugh, where kids experience pure excitement, and where our community feels vibrant and alive. In a time where so much of life is busy and stressful, spaces like this matter more than ever.

As a local, I've seen firsthand how much energy and life Hyper Karting brings to the area. It has transformed what could have been just another empty space into something meaningful—something that people actively choose to be part of. Taking that away to return to a car park feels like a step backwards for our community.

This decision doesn't just affect a business—it affects people. It affects the employees who rely on it, the families who enjoy it, and the local businesses that benefit from the foot traffic it brings. It affects the character of our neighbourhood.

Sydney is growing, and with that growth should come more spaces for connection, recreation, and shared experiences—not fewer. We often talk about building a vibrant, world-class city. Places like Hyper Karting are exactly what contribute to that vision.

I respectfully urge the Council to reconsider this decision. Please work with the operators to find a solution that allows this much-loved venue to continue operating while balancing the needs of the precinct.

Please don't let our community lose something that brings so much happiness to so many.

Kind regards,
Sara

To whom it may concern,

I am writing this email in support of Hypercarting Moore Park. Myself, my family and friends were extremely disappointed to hear that you are thinking of replacing hypercarting with more car spots. This means the community would be losing a place where we have celebrated birthday parties and family celebrations. There's also a plethora of public transport in the area. We shouldn't be encouraging more people to drive.

We respectfully ask that you reconsider.

Kindest,
Lilly Kristensohn

Hi,

I'm writing to support Hyper Karting to stay open at Moore Park.

It's such a fun and unique place in Sydney, and it brings a lot of life to the area. It would be really disappointing to lose something people actually enjoy just to turn the space back into more parking.

Hyper Karting gives people somewhere to go with friends and family, supports jobs, and makes the Entertainment Quarter feel more active and exciting. I'd much rather see the space used for something like this than as a car park.

Please reconsider the decision and find a way to keep Hyper Karting open.

Thank you

To whom it may concern.

As a local resident and motor racing enthusiast, I value the ability to go go karting in the city. Without Hyperkarts I would be forced to travel to the unsafe go-karting track out at Western Sydney.

Hyper karts offers a unique go-karting experience which is accessible to 1st timers and experienced karters. It would be an incredibly sad outcome, were this viable and valuable to the community business forced to close as a result of a perceived need for further parking.

Further parking is unnecessary, I've had no issues with it, and there is easily access with public transport to the Entertainment Quarter.

I urge the relevant decision makers to maintain hyper karts lease.

Kind regards,

Kristen Stanton

Dear council,

The decision to revert Hyperkart back into a carpark is completely unacceptable.

I regularly attend major events at Moore park and have never ever seen the current car park close to capacity. Besides, aren't we supposed to be promoting public transport? Tax payers funded the new metro and light rail to make travel into and through the city easier. Why increase Moore parks environmental footprint by encouraging more car traffic? Insanely stupid.

You are meant to be revitalising my city and its night life, not squashing it.

Hi,

I don't understand why you're considering such a great place that brings people together for enjoyed fun.

I'm assuming for more car spaces? Make public transport like every other 1st world city and you wouldn't have this issue. The government has spent \$60-\$80 billion over the past 15 years building toll roads in Sydney alone, invest in public transport, get the cars off the road and you won't be shutting down successful enjoyable business like this one to create a few more spaces, the car park can't even handle the amount of people leaving on busy days as it is.

I do not support closing this business at all, City of Sydney use some common sense!!

Thanks,
Ryan

Hyper karting brings in so many people to Moore park area, it's the only go karting venue within a 1 hour radius, it benefits all the businesses in the area and brings so much joy to every person who participates, removing this venue, removes an option, a place in every families life to do something they enjoy, something they feel is so available, accessible and great to have in their community. The roof parking is never open and this car park is never full, I've been multiple times, for concerts at the Hordern, to watching a movie, to go karting, and finding a park is never ever a task. You can't hear the venue from the ground floor. I honestly do not see a benefit from the removal of this venue, it hasn't bothered anyone, it brings in revenue, it brings in joy, it's never been "in the way". So why remove it?

To whom it may concern,

This is a message to implore you to reconsider your intentions for the hyper karting venue at Moore Park. Sydney is sick of businesses not being able to hold on to their venues, and council action like this is what drives that instability. Please reconsider your destructive decision.

Hyper karting is a source of joy for many people in Sydney, and this easily accessible venue is a convenient option, being so close to the light rail. I would think the rest of the entertainment centre, since the construction for the light rail, would be moving away from parking, not closing down entertainment venues to create more. This decision befuddles me.

Please take the time to reconsider and make use of the light rail rather than encouraging more traffic in the area.

Thank you,
Jack O

To Shannon Rickersey,

I trust you are well. As community member who has visited this establishment numerous occasions, I would please urge you to reconsider shutting down Hyper Karting at Moore Park, entertainment quarter.

As one of only a handful of Electric Vehicle technology-based entertainment venues around Sydney and surrounding suburbs, Hyper Karting provides a great, environmentally friendly alternative to fuel powered karting, and is a fantastic spot for families, not to mention an employer to the local community.

At a time when Australians are doing it tough and looking for ways to relieve the pressures households face due to the current fuel crisis, I would suggest that taking away an entertainment activity based on electric vehicle technology would also be a bad look given the ongoing climate debates.

Other implications include loss of revenue to surrounding restaurants and businesses as patrons who would normally visit Hyper Karting and then go to any number of the surrounding businesses would simply cease.

I am unaware of the reasons behind this potential decision however, I would once again please urge you to reconsider before taking away an environmentally conscious entertainment alternative, revenue and jobs from the community.

Sincerely,
Ben Tudosa

Dear City of Sydney Team,

I'm writing as a regular visitor and a big supporter of Hyper Karting to ask that you please reconsider any plans to shut it down.

Places like Hyper Karting add something genuinely valuable to Sydney. It's one of the few activities that brings together families, friends, tourists, students, and work groups in a way that is active, social, and safe. It gives young people and adults alike a fun alternative to nightlife centered around drinking, and it supports local jobs and nearby businesses at the same time.

Beyond the entertainment side, it has become a real community space. Birthday parties, team events, and casual weekend outings all happen there, and for many people it's tied to great memories with friends and family. Losing it would mean losing a unique venue that helps make the city feel vibrant and welcoming.

I understand the reason for the proposed closure is to return the top level of the Entertainment Park car park to standard parking spaces. While parking is certainly important, it feels disappointing to lose such a unique and well-loved community attraction for something that may have other workable solutions.

I sincerely hope the city will consider alternative parking arrangements. Replacing a one-of-a-kind recreational venue with additional car spaces seems like a significant loss for the community, especially when spaces that create joy and bring people together are increasingly rare.

Please consider exploring a solution that preserves both practicality and the character of the area by keeping Hyper Karting open.

Thank you for your time and consideration.

Kind regards,

Oliver Freeman

Hi,

I'm writing to ask that you do not close Hyperkarting. It has been one of the best parts of Sydney and a truly memorable activity for families to come. Without Hyperkarting in Sydney, I feel that Sydney will be missing something important that would make many people upset especially me. I believe it is one of the most unique and cherished experiences in Sydney and closing it will not just come affect customers that love it like me but also jobs for many. Please reconsider this decision. Thank you.

Kind Regards,
Rida Saif

Dear City of Sydney Council

I am writing to formally request that you reconsider the decision to close [Hyper Karting at the Entertainment Quarter](#).

As a resident and supporter of local entertainment, I believe losing this venue would be detrimental to our community. Hyper Karting is not just a business; it is a vital recreational hub that provides:

A unique, accessible, and safe attraction within the inner city.

Employment for over 150 staff.

A space for community, families, and youth to enjoy a healthy activity.

With [over 150 jobs on the line](#), I urge the council to work with Hyper Karting and the Entertainment Quarter to find a solution that allows them to continue operation.

Please support the retention of Hyper Karting. ●

Sincerely,

Pratham Vasisht
Glebe

To whomever receives this email,

The entertainment quarter provides all sorts of entertainment for all ages in a range of ways. Hyperkarting does this alone, a place that welcomes all ages for all occasions.

In saying this, I question why you would want to shut this down for extra parking spaces, especially in a time like today.

Firstly, why remove something that brings a whole community together, and brings so much joy into our lives.

Secondly, in a time when we should be promoting the use of public transport, wanting to make more car spaces seems not only contradictory to this but just not the smartest idea.

Finally, the hyperkarting brings in customers into the car park so you would be losing revenue into the car park which is ironic.

I appreciate your time to read this email, and the consideration you're taking in this process.

Kind regards
Charlotte Kirkham

Please save this track. I went for the first time last month for my son's birthday party and we loved it. The kids said it was the best party ever and I have been looking forward to going back.

There is plenty of parking not being there when there are events and they always open up those fields for invent parking. This doesn't need to go. There is nothing like this in the area.

To Whoever this concerns,

Why on Earth would you get rid of such a family friendly and fun establishment? All for - what is it? More parking for people who want to get to work only to have their jobs replaced by AI in 2-5 years?

Don't be so short sighted, keep Sydney human and keep it a place where people have more reasons to go out and connect. The city of Sydney is failing in such a heartbreaking fashion when it comes to culture and the loss of such a fun and innocent experience that is suitable for all ages does have a significant impact in the long run.

Let a business like this win for once please Sydney. One that lives for fun just for fun's sake. The place that might inspire the next Daniel Riccardo and give hundreds if not thousands of people a reason to smile. Just let them be and allow for the community to have some fun in these fucking bleak times.

I hope for everyone's sake that a business like this can stay around.

Please don't miss the opportunity to go for a kart yourself and not have a smile on your face. Give yourself the reason to keep it open.

To whom it my concern

Hyper Karting is more than just a venue! it's a place where memories are made. Families laugh together, friends celebrate birthdays, colleagues bond, and young people have somewhere safe and exciting to go. It's one of those rare places that genuinely brings people together.

Losing Hyper Karting would mean losing over 150 local jobs, but it would also mean losing a piece of our community. So many people have celebrated milestones, built friendships, and created lasting memories there. You can't replace that with extra car spaces!! Not needed!

Adding 296 parking spots that may barely be used, at the cost of a thriving community hub, feels deeply disappointing. Our city needs more places that bring joy, connection, and opportunity — not fewer.

Please protect Hyper Karting and the community it supports. Once a place like this is gone, we don't get it back!

Thank you for your time...

Kind Regards

Chanel and family

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To Shannon Rickersey,

Dear Council Members,

I am writing on behalf of my family to express our strong opposition to the proposed closure of HyperKarting.

HyperKarting has been an outstanding venue for both kids and adults, offering a safe, exciting, and unique recreational experience. There are very few places left in our community that provide this kind of active, family-friendly entertainment. It has become a valued space where families, friends, and young people can come together, stay active, and enjoy a memorable experience.

Closing such a well-used and well-loved facility simply to create additional car spaces feels deeply disappointing and, in our view, unnecessary. The social, recreational, and community benefits of HyperKarting far outweigh the limited value of extra parking.

We urge the council to reconsider this decision and explore alternatives that allow HyperKarting to continue operating for the benefit of the community.

Thank you for taking the time to consider our submission.

Kind regards,
Dani and Emma Andres

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Please keep hyperkarting where it is. The more activities there are for young people, the better off the city is. It gives them a fun alternative to being on their phones, and also, it is a space where they can meet up with their friends.

The busier things get, the less opportunities there are like this, as it becomes too expensive to run this kind of business.

Thanks for taking the time to read this.

Dear Shannon,

It's disappointing to see that Hyperkarting is at risk of closure in the entertainment quarter - particularly if the space is to be left empty in an already under-utilised carpark. The track is a lot of fun and a much needed attraction to the EQ, as well as a key provider of jobs in the community - please rethink this refusal.

Kind regards

Nick

To whom it may concern.

Hyper Karting has been a meeting place and great catch up venue for our group of 5 families (26 people) With something for everyone. From the 5year olds, tweenies ages and adults, it is a great venue at a reasonable price. Followed by lunch/dinner and a few drinks at the near by venues. It would be a real shame to loose this in a time when I feel it's very important to get the kids out of the house, experiencing things in 'real life' as opposed to screens. I hope this aids in your decision to keep HyperKarting our #1 venue for years to come!

Dear Shannon Rickersey,

I am writing to express my support for Hyper Karting at 116 Lang Road, Moore Park, and to encourage the City of Sydney to allow this unique venue to continue operating.

Hyper Karting contributes meaningfully to Sydney's goal of creating a vibrant, diverse, and engaging city. It offers a unique, experience-based activity that attracts both locals and visitors, helping strengthen Sydney's reputation as a destination for entertainment beyond traditional dining and retail. Experiences like this are increasingly important in activating the city and encouraging people to spend time within Sydney rather than traveling elsewhere.

The venue also supports the local nighttime economy in a safe, structured environment. It provides an inclusive activity suitable for different age groups, friend groups, families, and corporate events. This aligns with broader city objectives around increasing social connection, activating underutilised spaces, and providing alcohol-optional entertainment options.

Additionally, Hyper Karting contributes to local employment and supports surrounding businesses by increasing foot traffic to the Moore Park precinct. Visitors often combine their trip with dining, shopping, and other nearby activities, which helps strengthen the local economy.

Sydney benefits from having distinctive, memorable experiences that bring people together. Hyper Karting offers something genuinely different and adds to the diversity of entertainment options available in the city. Losing venues like this would reduce the variety that makes Sydney exciting and competitive with other global cities.

I strongly encourage the City of Sydney to support Hyper Karting and allow it to continue operating.

Kind regards,
Tripti Gupta

To Shannon,

Why do you want to close down hyperKarting at more park, we have been going there for birthdays and get together with family and friends for many years. I have been there multiple times during the week and the car park has never been full with a lot of the levels empty. The only vehicles I see parked there are either employees or tradies, the general public and that includes me preferably use the public transport system as it is a lot cheaper than driving and paying for parking.

Please don't close hyperKarting down and remove another Sydney attraction for residents and visitors alike.

Regards

John

I'm so upset you would replace HyperKart with just parking spaces. My gf and I went there for our first date. Even though she has severe eye problems and can't see well and is hot headed they gave her a chance like everyone else. She beat in the race even though I wouldn't trust her to park a car. Leaving this space makes it safer. She may try to park in the new park. Causing damage as well as mental and financial strain against any that choose to park there. Please leave our happy place alone.

I'd wish you to oppose the closing of Hypercarting.

We have spent many birthdays and school holidays enjoying this venue. It is a place where family and friends connect. My son who is 12, suffers from epilepsy. Unfortunately epilepsy restricts the activities he can participate in, such as swimming, rock climbing, nippers, at hypercarting he can feel like a normal kid.

Yours sincerely

Sally Higham [REDACTED]

Dear Sir/Madam

I am writing to express my deep concern regarding the possible closure of HyperKarting in Sydney and its conversion into a car park. This venue has become a unique and much-loved recreational space for families, visitors, and motorsport enthusiasts. It would be a terrible shame to lose such a valuable community asset.

Whenever I visit Sydney to see my children, HyperKarting is a highlight for us. It offers an exciting, safe, and accessible activity that brings families together and supports local tourism. The team who run it have created something truly special — an indoor karting venue that promotes fun, fitness, and friendly competition while showcasing innovative use of urban space.

Converting this venue into a car park would remove one of the few affordable, family-friendly recreational options in the city centre. Its closure would not only impact the staff and business owners but also the wider community who value it for the sense of connection and enjoyment it brings.

I urge you and your department to explore all possible options to allow HyperKarting to continue operating. This is an opportunity to preserve an inclusive, engaging space that embodies the best of Sydney's spirit.

Thank you for your attention to this important matter. I hope the DA Council will support the continuation of HyperKarting for the enjoyment of local residents and visitors alike.

Yours sincerely,
Bronwen Yensch

To: The Lord Mayor and Councillors, City of Sydney

Re: Objection to Closure of Hyper Karting – Loss of Vital Community Hub

Dear Lord Mayor and Councillors,

I am writing to express my deep concern regarding the planned closure of [Hyper Karting](#) at the Entertainment Quarter. While the Council cites a need for 298 parking spaces, this decision completely overlooks the social value this venue provides to our city's most vulnerable groups.

[Hyper Karting](#)

is one of the few high-energy, accessible recreational facilities in Sydney. It serves as a critical hub for **disability support organisations** and youth groups who rely on the electric karts to provide inclusive experiences for their members. Closing this venue doesn't just remove a "business"—it removes a safe, welcoming environment for community connection.

With more than **500,000 visitors** since 2021, the track has proven itself as a cornerstone of the precinct's identity. Prioritising car storage over a community asset that supports 156 local jobs and provides accessible recreation is a failure of modern urban planning. I urge you to grant the two-year extension to allow this vital social infrastructure to continue serving Sydney.

Yours sincerely,
Annarita Foutrel

Hi,

I've been a patron of hyperkarting for years and it's brought so much to the community, I feel as if it would be a true shame to get shut down for such minimal gain. The amount of times I've come with friends and then supported other local businesses by getting food or coffee straight after is something I know many others do and I can't imagine these businesses would be happy with a reduction in patronage.

Please reconsider the closure.

Kind regards,
Justin van Hulsen

Dear Development Approval Team,

I write to formally object to the proposed replacement of Hyper Karting Moore Park, with a parking lot.

The existing facility provides significant social and community value that extends well beyond its primary recreational purpose. For many in the local area, including myself, it has been a place to build connections, strengthen friendships, and engage in a safe, structured activity. In my own experience, it has been a consistent and accessible space where my friends and I have been able to spend time together in a positive environment.

From a planning perspective, the proposed change raises several concerns:

First, the loss of an established recreational facility reduces the diversity of community infrastructure available in the area. Facilities such as this contribute to active lifestyles and provide important social outlets, particularly for young people and working adults seeking local recreational options.

Secondly, replacing the facility with a parking lot appears to offer limited community benefit in comparison. While parking may support surrounding uses, it does not provide the same level of social, recreational, or economic contribution. The current use attracts visitors, supports local activity, and contributes to the vibrancy of the area in a way that passive infrastructure cannot.

Thirdly, the proposal does not appear to align with broader planning objectives that prioritise community wellbeing, activation of spaces, and the retention of recreational amenities where possible.

I respectfully submit that the approval authority should give significant weight to the existing community use and consider whether alternative solutions could be explored that retain or enhance recreational opportunities, rather than removing them entirely.

Thank you for considering this submission.

Dorothy

Dear Shannon,

Hyper Karting at Moore Park should stay because it offers something genuinely unique - an accessible, high-energy experience right in the heart of Sydney that appeals to all ages and backgrounds. It's one of the few activities that blends fun, skill, and a bit of adrenaline in a safe, controlled environment, making it ideal for families, friends, corporate events, and even tourists looking for something beyond the usual attractions.

Beyond entertainment, it contributes to the local economy by creating jobs, driving foot traffic to nearby businesses, and activating the Moore Park precinct both day and night. Venues like this help keep the area vibrant and relevant, especially as cities increasingly look for ways to create engaging, experience-led destinations.

Importantly, Hyper Karting provides an inclusive activity that doesn't rely on alcohol or nightlife culture. - it's about connection, competition, and shared experiences. In a time where people are seeking more interactive and memorable ways to spend their time, spaces like this are valuable.

Concerns around parking can also be managed without removing the venue. Additional parking infrastructure is not necessary, as Sydney High School already makes its grounds available for parking, and the space near Kippax Park can be utilised during peak periods. This demonstrates that practical solutions already exist to accommodate demand without compromising the experience or the surrounding area.

Removing it would mean losing not just a fun activity, but a dynamic part of Moore Park's identity. Keeping Hyper Karting ensures Sydney continues to offer diverse, modern experiences that cater to a wide community.

Thank you and Warm Regards,

Maéva O'Donnell

Hi,

I'm writing to express my support for HyperKarting.

It is one of the few genuinely competitive recreational activities available in Sydney. The city already has limited options for community based competitive experiences, and HyperKarting helps fill that gap. Comparable alternatives, such as the track at Eastern Creek, are not only significantly farther away but also offer a more basic, single-track experience with little variation.

The team at HyperKarting has done a commendable job in building and maintaining this facility. Unless there are clear plans to provide a similar or better alternative in another location, it would be disappointing to see it removed, particularly when the need for additional car parking in the area does not appear compelling.

Regards,

Rahul

Hi,

I am writing to complain about the proposal to add more car park spaces and get rid of Hyper Karting at Moore Park.

Why in the world would you want to encourage more driving for starters?? There is a new light rail which needs to be encouraged to be used over driving. What a ridiculously tone deaf idea to add more car spaces.

I spent some time at the EQ as a graduate of AFTRS, so I have a good idea of what the area is like at any given time of the year. To get rid of one of the few recreational activities is an absolute abomination. We should be encouraging MORE recreational activities in the area. Adding more car park spaces is absolute backwards thinking and the community does not want this.

Strongly reconsider this proposal. Sydney does not need more car park spaces. In a political climate like now, we need to discourage driving. The EQ absolutely doesn't need it! It's a ghost town when there's no major events on. Even when there's major events on, there's still parking spaces available because as common sense has it, people use public transport.

Hyper Karting actually attracts people to the precinct, people who then spend money on retail and hospitality - and guess what, their customers (myself included) use the actual carpark.

Seriously disappointing that we even need to write in about this. The money you'll make is not worth it and you should be ashamed to even consider it.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Hyper Karting in Sydney's Entertainment Quarter (Moore Park) should be allowed to stay open because it delivers substantial economic, social, and recreational value that far outweighs the marginal parking gain from reverting the top floor of the car park to empty spaces.

Since opening in 2021 Hyper Karting has attracted over 500,000 visitors. It's Australia's longest indoor electric go-kart track with innovative features like twice-weekly layout changes, augmented reality BattleKart, and an arcade. It serves families, groups, juniors (with dedicated tracks), and enthusiasts, operating extended hours (often 7am to near midnight). This has helped revive a precinct often described as quiet outside major events at nearby Allianz Stadium, SCG, or Hordern Pavilion.

Major Economic and Employment Impact

- It supports over 150 jobs directly.
- As one of the busiest attractions in the Entertainment Quarter, it drives foot traffic, spending at nearby venues, and tourism/recreational activity in Moore Park.
- Closing it would remove a vibrant, year-round draw in favor of underused parking, contradicting goals to boost Sydney's nightlife, entertainment, and "city for people, not cars" vision.

Parking Concerns Are Overstated

The council's refusal centers on the track occupying 298 spaces out of the car park's ~2,003 total, claiming an "unacceptable" impact on availability for a commercial use. However:

- Transport for NSW data shows the car park has reached full capacity only a handful of times across 84 major events/concerts since Allianz Stadium reopened in 2022.
 - The spaces would mostly sit empty 99% of the time—especially on the top level—while the track operates daily and brings consistent activity.
 - The precinct already struggles with traffic flow during peaks. Reverting to parking doesn't solve broader event parking shortages (which need thousands of spaces).
- this prioritizes empty asphalt over a proven attraction.

Broader Benefits

- Sustainable and family-friendly: Electric karts are quieter, zero-emission indoors, and safer with tech like anti-collision systems.
- Health, skills, and social value: Promotes active fun, racing skills (with junior programs), team-building, birthdays, and events—creating memories rather than just storage for cars.
- Aligns with reviving Sydney's entertainment scene post-lockout laws and post-COVID, rather than hollowing out precincts.

In short, converting a high-traffic, job-creating, memory-making venue into rarely used parking spaces is a poor trade-off for a city aiming to be lively and people-focused. Supporting the extension (or a longer approval) makes far more sense for the local economy, community, and Entertainment Quarter's identity.

Hi

I wanted to express my concerns with the potential removal of Hyper Karting from the tenancy that occupies Level 5 of the EQ car park in Moore Park.

Hyper karting is one of the most unique and successful businesses that have operated in the Moore Park area in years, and its removal will decimate the ability for Council and the EQ to provide compelling activities that appeals to a wide range of ages. There is no other activity like it in the area. The closest karting activity is extremely far away. EQ is slowly become a fleeting shadow of its former self and removal of Hyper Karting will turn it into a ghost town. Council has failed the community in creating a vibrant cultural EQ hub and this further change will be a disaster

The rationale of requiring additional car spaces as the basis of removing Hyper Karting is entirely invalid and alternative spaces are available at Councils disposal.

Unless Council finds Hyper Karting another site in close proximity then they should remain operating at the car park for the foreseeable future

Peter

Please save hyperkarting

It's an amazing place to be for the kids and adults it's great fun.

Don't need more car spaces no one wants to pay for the event parking fee.

They prefer to take public transport also when they do decide to park there it takes to long and way to much traffic resource people to control to traffic. No need to add more parking there is plenty around

Anne McMahon

Dear,

I am writing to express my deep concern regarding the news that Hyper Karting is scheduled to be shut down and replaced with a car park.

Hyper Karting is a significant part of our community and holds a great deal of sentimental value for many people. It is a place where countless memories have been made, and its closure would be a great loss. Furthermore, I am deeply concerned about the impact this decision will have on the many dedicated job holders whose livelihoods depend on the facility.

We believe that Hyper Karting is a valuable asset that should be saved. I urge you to reconsider the plan to convert this space into a car park and instead explore ways to keep this iconic venue open.

Thank you for your time and for considering the voices of those who wish to see Hyper Karting preserved.

Best regards,

Kazi Fahim Omi

To whom it may concern,

I am writing today in support of Hyperkarting Moore Park, as I have just found out they are at risk of being shut down to make room for more car parking.

As a mother of three children, I find this news very disappointing. We live up near Hornsby, where our local bowling alley and Inflatable World venues have been shut down, and great venues for birthday parties and activities to take children to are few and far between. In particular, there are literally zero locations to take kids go-karting, such that we are happy to travel into the city to go go-karting.

Please don't make this venue shut down, we will all be very sad if it is made to close! Not to mention the people who own and run Hyperkarting - it is such a great set up, and they do a fantastic job running it.

Many thanks for reading this email, I'm really hoping it makes a difference.

Sally Harvey

I had a corporate function at Hyperkarting. It was an excellent event. Well run, safe and a lot of fun for all.

By getting rid of Hyperkarting to open up a few more parking bays for the busy periods doesn't make sense. The parking facility is empty the majority of the week and probably most of the time on weekends.

Save the facility and jobs

Gareth King

Hi,

I would like to request that Hyper Karting remains open and does not close down.

As a member of the city of Sydney I think it's important we have activities not only for local community members but also for the rest of Sydney and tourists. Hyper Karting is enjoyed by people of all ages

Please consider to keep hyper Karting open.

Thanks,

Dear City of Sydney

I am writing to express my support for Hyper Carting and to urge you to help save this facility for the community.

Hyper Carting provides a valuable space for local residents, and it is important that we keep it available for everyone to enjoy. I believe that preserving this venue is vital for our community's recreational needs.

Thank you for your time and for considering this request.

To Whom It May Concern,

I'm writing as a local resident in Darlington to express my strong support for Hyper Karting at the Entertainment Quarter, and my concern about the proposal to replace it with additional car parking.

As someone who lives just a short distance away, having an active, family-friendly entertainment venue like Hyper Karting nearby is genuinely valued. It's the kind of place that gives the area energy and character — somewhere you can take friends visiting from out of town, or simply enjoy as part of a social outing in the neighbourhood.

I've visited Hyper Karting on a number of occasions and it's consistently been a great experience — well run, accessible, and exactly the kind of venue that makes inner Sydney a more interesting place to live. Replacing it with car parking would be a significant loss, not just for residents like me, but for the broader community that the Entertainment Quarter is meant to serve.

I strongly urge the City of Sydney to reconsider this decision and allow Hyper Karting to continue operating. Vibrant, active venues like this are far harder to create than car parks, and once lost, they rarely come back.

Thank you for considering this submission.

Kind regards,

Alex

Hello City of Sydney,

I am writing to you after discovering the news that Hyper Karting may potentially close to provide more vehicle parking. Please consider this email a formal vote against this decision.

Hyper Karting has brought so much happiness to me, my friends, my coworkers, and even friends visiting from overseas. Removing it from the Entertainment Quarter will only take away from the energy of this buzzing area. To know that 150 people will be out of a job just to turn this level of the car park into a "concrete jungle" space that may not even be used is incredibly sad to hear.

As someone who regularly drives to the EQ, I can personally attest that there is already plenty of parking available in this car park.

Is there a bigger plan in the works? I don't understand this decision.

I urge you to reconsider this move and keep Hyper Karting open.

Kind regards,

Jenn Bronfenbrener

To whom it may concern,

I frequent Moore park and entertainment quarter. I play padel there, I play basketball there, I have been to comedy shows there, I go bowling there, I go to the movies there and I play tennis across the road there. I have never struggled to get parking. I have been to hyper karting several times and it has always been a good time for me, my friends, and my guests in Sydney. To shut it down for extra empty parking spaces would be ridiculous, and dystopian. There is plenty of parking at entertainment quarter, and the public transport there is pretty good. There isn't another go karting location inside an hours commute. It would be unfathomable to get rid of the only one of something to add extra of what we already have 100s of.

Regards,
Sam.

Hi,

Sydney is becoming so boring.

We focus only on Money over populating areas with apartments.

I've had bucks parties, birthday parties and kids parties here.

Do not close this place just for a car park.

Leave this place alone as its somewhere fun for the kids to go and let lose.

Kind regards,

Alexander Favaloro

Don't close down hyperkarting, it's one of the main go karting places for the entire north and east of Sydney, while also being sustainable as the karts are electric unlike a lot of the other karting places many kilometres away. Another point is that life isn't just about money, no one cares once you're gone how much EXTRA money you made from a decision for a big corporation, life is about making the world a better place and in a comparison between karting and parking we all know which one brings more fun and community to the "ENTERTAINMENT QUARTER".

I've also never seen that car park full in my life, I doubt it will even increase profit margins by any standard.

Regards, Charles

Hi,

This seems a ridiculous approach to take, to shut down a small business that drives traffic to the EQ to create more car parking when the car park is rarely if ever full. Net-net you'll end up with less activities at the EQ (I hear Hyper Karting is actually the largest activity going on there) which means less revenue for the restaurants etc that rely on activities to drive customer flow which will mean less people using the car park outside peak times.

May I suggest you introduce dynamic pricing for the car park as is - cheaper rates at times when it is under-utilised and higher fees when large events are on at the football stadium or cricket grounds such that utilisation rates there are at [95]% to maximise revenue from the existing facility. This is what an economist would do or what someone in the private sector would do that had a profit motive

Best,

To whom it may concern,

I am writing to express my strong support for Hyper Karting and my concern regarding its potential closure.

Hyper Karting is a key part of Sydney's family entertainment scene. It is truly unlike any other venue, offering a unique experience that you simply cannot replicate elsewhere. It caters to all ages in a way that very few places do, making it a standout destination for families, friends, and the wider community.

I've shared great experiences at Hyper Karting with friends and family. It's a place you can return to again and again and still have a fresh and exciting experience each time. Each visit also highlights the continuous effort put into improving the venue, enhancing the overall experience, and maintaining a high standard of customer service that you don't see at many other entertainment venues. Hyper Karting delivers a well rounded experience every time from start to finish.

I believe the proposal to replace Hyper Karting with additional car parking is misguided. Increasing parking capacity does not outweigh the loss of a unique and well established community destination. With the growing use of light rail and other public transport options, the need for additional parking is becoming less critical, making the removal of a venue like this even harder to justify.

I strongly believe Hyper Karting should remain open. Replacing a unique and well loved destination with additional car parking would be a significant loss, both socially and for the character of Sydney. Once something like this is gone, it cannot simply be recreated.

I respectfully urge you to reconsider this decision and recognise the value Hyper Karting brings as a space for new experiences, enjoyment, and community.

Thank you for your time and consideration.

Kind regards,
Ivy Thompson

Hello City of Sydney and NSW Government,

My name is Hugo Foster and I am an upcoming city planner studying at UNSW. This DA amendment has caught my attention as it puts a major threat on the entertainment economy and success of the establishments in the entertainment quarter. A major contradiction to the NSW government and City of Sydney's 24 hr economy plan .

Since establishment in 2021 hyperkarting has been incredibly successful bringing back the entertainment industry in this part of Sydney post covid lockdowns. It is a great use of the car park floor that would not normally be used. Other events and performances that have used level 4 and 6 of this carpark have also been incredibly successful including open air cinemas and dance performances. This use of space has a greater positive impact economically and culturally than paid car parking will ever have.

Large events at the SCG and Allianz stadium should not impact this property. Both state and local governments have made it clear that it is unsafe and inefficient to prioritise any form of private vehicle movement, to, from or around these areas during these events. Transport movement plans for events like Mardi Gras provide valid evidence with major modifications to public transport and pedestrian access like 24 hr public transport operations. Major infrastructure investments like the \$3BN light rail provide further justification. Therefore the handful of times this space might be used for car parking directly incentives private vehicles which is yet another major contradiction to policies supported by voters in NSW.

As a young person in the Sydney urban planning space, I strongly oppose the decision to not renew this business lease and DA.

Kind Regards

Hugo F

Hi Hyper Karting Team,

I just wanted to say how much Hyper Karting means to me, and to ask you to please keep it open.

When I first moved to Sydney, Hyper Karting was the first karting spot I checked out. I didn't know anyone yet, and walking through your doors turned out to be one of my first great memories here. There was this rush of excitement, a feeling of belonging, and suddenly the city didn't feel quite so new and strange anymore. That's why Hyper Karting will always be more to me than just a place to race.

What really sets it apart is the vibe. The energy is amazing—the roar of the karts, the thrill of racing, that edge of competition. Every time I visit, I walk away with stories to tell. Doesn't matter if I'm there to crush my own lap record or just for a few laughs, the whole place makes it easy to forget everything else and just live in the moment.

Some of my best times in Sydney have happened at Hyper Karting. It's the kind of spot where friends naturally come together, joke around, cheer each other on, maybe even talk a little smack, and those moments stick with you. It's more than a race track; it's memories, rivalries, and a lot of laughter that people keep talking about later.

Places like this don't come along often. That's why I think Hyper Karting deserves to stay. Sure, it's a business—but it's also one of the few spots where people can put their phones down, actually hang out, and make real connections. In a world where everyone's staring at screens, that's a big deal.

Hyper Karting means so much to the community, not just to regular racers like me but to families, friends, and groups looking for a genuine experience. If you close, Sydney loses a place full of joy and connection. We really need places like this—it makes the city better.

So please, don't let Hyper Karting just become another story we tell about what used to be. Let's keep the engines humming, the track alive, and give people here the chance to keep making new memories.

Thanks for everything,
Maddox

I am writing to express my strong support for Hyper Karting and to advocate for its continued operation within the Entertainment Quarter.

Hyper Karting is a well-established, family-oriented facility that caters to both adults and children, providing an inclusive and safe environment for people of all ages to participate in recreational activities. It offers a unique and accessible experience that encourages families to engage in shared leisure activities.

The venue is also an excellent example of adaptive reuse, having transformed a previously underutilised Level 5 car park into a vibrant and functional destination. This innovative use of space contributes positively to the overall activation and appeal of the precinct.

Importantly, Hyper Karting is a significant local employer, supporting more than 150 jobs. Its continued operation is vital in maintaining employment opportunities and contributing to the economic stability of the local community.

From a broader perspective, the facility enhances the tourism profile of the Entertainment Quarter. It has received exposure through reputable programs such as Sydney Weekender and Getaway, helping to promote the precinct as an attractive destination for both residents and visitors.

Hyper Karting is also a well-managed venue that delivers safe, affordable, and high-quality entertainment. In the current economic climate, where cost-of-living pressures are increasing, accessible recreational options such as this are essential for supporting community wellbeing.

Furthermore, the facility demonstrates a strong commitment to inclusivity, particularly through its support of the disability sector. It provides a welcoming and accommodating environment where individuals with disabilities can confidently participate in recreational activities.

In summary, Hyper Karting represents a valuable community asset, delivering benefits across employment, tourism, recreation, and social inclusion. I respectfully urge decision-makers to recognise its importance and to take the necessary steps to ensure its continued operation.

Yours sincerely,

Ryan Stack

Dear Sir/Madam,

I am writing to express my strong support for keeping HyperKarting operating in Sydney.

As a parent, I have seen firsthand how much my children absolutely love the experience. It's more than just an activity—it's something they genuinely look forward to, talk about long after, and share with their friends. In a time where engaging, active, and family-friendly entertainment options are so valuable, HyperKarting stands out as something truly special.

It provides a safe, exciting environment that encourages confidence, coordination, and fun. For families like ours, it has become a go-to activity that brings us together and creates lasting memories.

Losing HyperKarting would be a real disappointment for many local families and children who benefit from having such a unique and high-quality experience available in Sydney. I strongly urge you to consider the positive impact it has on the community and to support its continuation.

Thank you for your time and consideration.

Kind regards,
Iain Davidson

I'm writing about potential closing of hyper karting at the entertainment Quarter. As the only karting venue in the inner city, it really is the only place that anyone can undertake this activity without going many many miles away to the western suburbs.

Please do not jeopardise the employment of hundreds of people and the enjoyment of tens of thousands of people in the eastern suburbs, For a few more car spots when we are trying to get people to take public transport anyway.

Thank you
James Page

Hello and to whom it may concern, I am very disappointed to hear that there is a chance that hyperkarting is at risk of shut down. We live in crystal street Waterloo and often attend with our kids and other families to drive the cars. The kids love it.

Please don't close this venue down it is great and there is nothing like it around our area. Infact I feel if hyperkarting was to be shut down it will have a huge detrimental financial affect on the other business at the EQ.

Thankyou for giving me the chance to share my thoughts and we really hope your reconsider the decision to shut this business down

Suzanne

To whomsoever it may concern,

With all due respect, I will cut right to the chase, this place has done more for me than dozens of therapy appointments would ever have done. I have some of my fondest memories here, with friends, with family....I have had some of the best first dates here and this place always had a magical thing about it. Please don't ever mess it up for something as dead and dull as a damn parking lot. It's Sydney, we already have more than enough parking lots. You can't just give into corporate greed and slowly take magical places like this away. This place means too much to too many people.

Kindest regards,

Ari

Hi,

I am writing to express my strong support for Hyper Karting and why I believe it should remain open in Sydney.

Hyper Karting provides an incredibly fun and engaging activity for young kids, giving them something unique to look forward to, especially during the school holidays. It is a vital addition to the local community, offering a safe and exciting environment for children to stay active.

On a personal note, I always enjoy bringing my whole family there for a fun day out. It is one of the few places where we can all enjoy an activity together and create lasting memories.

I hope you will consider how much value Hyper Karting brings to Sydney families and the younger generation.

Best regards,

Pooja Priyanka

Our family has loved Hyperkarting since it opened in 2020. We come over the bridge from manly and it is the only high quality karting facility within 40 minutes of home. Our young nephews have now been for the first time and want to come back down from the central coast to do it again next holidays.

I don't know why it is being shut down and can't work out any reason it should be so please keep it open.

Dear Shannon

I am writing to support hypercarting continuing on the top floor of the car park at the entertainment precinct.

This is a great attraction to the Moore Park precinct. We take our grandkids there and they love it. We live at Cronulla and travel to the hypercarting by car, or if there is a sporting or other major attraction in the Moore Park area we take public transport. This is a very easy place to reach by public transport from around Sydney, so what is the point of more parking spaces other than attracting more traffic?

This reminds me of the Joni Mitchell song 'Big Yellow Taxi' - '...you don't know what you've got till it's gone...They paved paradise and put up a parking lot..'.

Regards

Craig Smith

Hi,

I'm writing to express my concern about the decision to close Hyper Karting.

At a time when there is so much focus on encouraging people especially young people to get out of the house, be active, and engage in real-world experiences rather than spending more time on video games and social media, removing a facility like this feels like a step in the wrong direction. Hyper Karting provides a fun, social, and active outlet that is increasingly hard to find.

Replacing it with a car park that isn't needed only adds to the frustration. It's difficult to understand why a unique and engaging recreational space would be sacrificed for something that offers far less value to the community.

Facilities like Hyper Karting bring people together, support local activity, and give people a reason to get out and do something different. Once they're gone, they're rarely replaced with anything of equal benefit.

I strongly urge you to reconsider this decision and explore alternatives that would allow Hyper Karting to remain open for the community to enjoy.

Kind regards,

Jessica Colley

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Hyper Karting gave me some good memories for a friend's buck's party. It brought a bunch of people together who haven't seen each other for a couple of years to have a good time racing. I got to challenge friends who were great at racing that I didn't think I could hold a candle to and got to let loose some driving skills, and compete, in a way I could never do on the road.

I don't believe a 5th floor of parking is good for Moore Park anyway. After major events, it's already super packed and takes ages to get out. A fifth floor would simply make that unappealing and worse, so it wouldn't serve the purpose intended by opening the fifth floor and wouldn't be worth the investment. On top of that, we already have the relatively new light rail, which has been a big investment to alleviate parking issues. While I understand the practicality of a multi-faceted approach to solving public crowds and transport issues, I don't see a fifth level of parking space that replaces a business that makes people happy being the right solution. Why not invest in additional public transport or create a second building of parking instead that creates more space, spreads more of the traffic so there's less congestion in one building, and creates more parking space, if that's what's desired?

I still believe investing in improved public transport options is the better approach. Failing that, due to costs, a separate building or other solution is better. Closing a valued business shouldn't be the option.

Sincerely,
Keelan

Dear Council Representatives,

I am writing to express my support for the continuation of Hyperkarting and to highlight the value it brings to the local community.

Hyperkarting is more than just an entertainment venue. It plays an important role in supporting local employment, particularly during a time when the cost of living continues to rise. Many individuals, including students and part-time workers, rely on opportunities like this to earn income and manage increasing financial pressures. The business provides flexible job opportunities that are essential for those balancing study, training, or other commitments.

In addition to its economic contribution, Hyperkarting offers a valuable recreational outlet for the community. It provides a safe and engaging environment for people of all ages to socialise, unwind, and participate in an enjoyable activity. Facilities like this contribute to the overall wellbeing of the community by promoting leisure and social interaction.

From a broader perspective, Hyperkarting also contributes to the local economy by attracting visitors, encouraging spending in surrounding businesses, and adding to the diversity of entertainment options available in the area. Losing such a facility would reduce both employment opportunities and recreational choices for residents.

For these reasons, I strongly encourage the council to support the continued operation of Hyperkarting. Its role in job creation, community engagement, and local economic activity makes it a valuable asset that should be maintained.

Thank you for considering this submission.

Kind regards,
Thayan

Dear City of Sydney Council,

I am writing to respectfully urge the Council to reconsider its decision regarding the lease extension for Hyper Karting in the Entertainment Quarter.

Hyper Karting has become a valuable part of the community and offers families a unique and enjoyable activity within the precinct. It provides an excellent option for parents and children attending the Entertainment Quarter, particularly when one parent may be attending a sporting match, concert, or other event nearby while the other spends time with the children. Having a family-friendly activity such as Hyper Karting available in this location greatly adds to the accessibility and appeal of the area for visitors.

The closure of Hyper Karting would represent a significant loss to the local community. It is more than just an entertainment venue—it is a place where families can spend quality time together, children can enjoy a fun and active experience, and visitors can make full use of the Entertainment Quarter as a multi-purpose destination.

In addition, the venue contributes to the vibrancy of the precinct and supports local employment, making it an important asset both socially and economically.

I kindly ask the Council to reconsider the extension request and explore possible alternatives that would allow Hyper Karting to remain operational while addressing the Council's broader planning needs.

Thank you for your time and consideration.

Regards

Maxine McLaughlin.

To: dasubmissions@cityofsydney.nsw.gov.au
Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Assessment Team,

I am writing to formally express my **extreme dissatisfaction and deep concern** regarding the potential closure of **Hyper Karting Sydney** at the Entertainment Quarter, Moore Park, as part of the above-referenced application.

Hyper Karting is not a marginal or low-impact operation. It is a **highly successful, well-managed, and much-loved venue** that attracts locals, families, corporate groups, and tourists alike. Its presence at the Entertainment Quarter aligns perfectly with the precinct's purpose as a destination for recreation, sport, and entertainment. The prospect of its closure is both alarming and, frankly, difficult to justify.

The loss of Hyper Karting would represent:

- A **significant reduction in recreational offerings** for Sydney residents
- A negative impact on **local employment**
- A blow to the **vibrancy and commercial viability** of the Entertainment Quarter
- An erosion of Sydney's reputation as a city that supports innovative, modern entertainment experiences

For many patrons, Hyper Karting is a unique venue that cannot simply be replaced elsewhere. Removing it from Moore Park would be **anet loss to the community**, with no clear public benefit that outweighs the social and economic harm.

I strongly urge Council to **reconsider any outcome that would lead to the closure of Hyper Karting** and to give appropriate weight to its proven track record, community support, and contribution to the precinct. Decisions of this nature should enhance Sydney's lifestyle and cultural fabric — not diminish it.

Please ensure this submission is given serious consideration as part of your assessment process.

Kind regards,

Mark McLean

To whom it may concern,

My name is Lachlan and I am a City of Sydney resident who has been to Hyper Karting several times. I am writing because I am concerned about the recent decision to refuse their application for extension so they can keep operating on level 5 of the EQ car park.

Hyper Karting has been running since 2021 and has brought in more than 500,000 visitors. It supports over 150 jobs and is used regularly by friends, colleagues, families and people who enjoy go karting. It is one of the busiest spots in the Entertainment Quarter and runs most days, not just during big events. It's a great, social, active, and healthy activity, and an exceptionally run business.

The plan to close it so some parking spaces can go back to general parking does not make much sense to me. Those extra car spots would mostly sit empty except for the occasional big event at the SCG or nearby. In the meantime you would be losing a business that actually brings people into the area every week and creates real activity. A business that is one of very few draw-cards to the otherwise tired EQ precinct.

I understand the original approval was temporary, but a two-year extension seems reasonable given how well the venue has done and how many people rely on it. Closing it down feels like the wrong priority, especially from a council that talks about making Sydney a city for people rather than just cars.

I ask that you support the formal review of this decision and allow Hyper Karting to continue operating. It would be a real loss for the precinct and for everyone who uses it, or will use it in the years to come.

Thank you for taking the time to read this. Happy to share more details if needed.

Kind regards,

Lachlan

Dear City of Sydney Council,

I am writing to express my concern regarding the decision to shut down Hyper Karting.

This venue has become an important part of the local community, offering a unique and exciting experience that brings people together.

Hyper Karting is more than just an entertainment venue. It creates a space where friends, families, and visitors can connect, have fun, and make lasting memories. It contributes to the vibrancy of the area and gives people, especially young adults, something positive and engaging to do.

Closing it down risks taking away a source of joy and activity that benefits both locals and visitors. It also has an impact on the local economy, drawing people into the area who may also support nearby businesses such as restaurants and shops.

I strongly encourage the council to reconsider this decision or explore alternative solutions that would allow Hyper Karting to continue operating safely and successfully.

Preserving spaces like this is important for maintaining a lively, welcoming, and enjoyable community.

Thank you for taking the time to consider my concerns.

Kind regards,
Luke Randle

Hi All,

Please don't shut down hyperkarting, it's a great all-ages activity that doesn't involve drinking, and I've had heaps of fun there with friends over the years.

Kind regards,
Alex Findlay - 87 Day St, Leichhardt NSW 2040, Australia

Hi,
Please keep Hyperkarting open. My 9 yr old nephew celebrated his bday there recently. It's of much more value to the community than a few extra car spaces at the entertainment centre.
Many thanks
Pauline Reilly

Dear Shannon Rickersey,

I am writing to you in my capacity as a Director of Beyond Bounds Group, an organization that provides services to participants under the National Disability Insurance Scheme (NDIS). I wish to highlight the significant and positive impact that the Hyper Karting venue located at Sydney Fox Studios has had on members of the local community, particularly individuals living with disability.

Within my time working in NDIS we have encouraged multiple participants to participate at Hyper Karting, mainly as Hyper Karting supports Companion Cards and is all inclusive of individuals with disabilities, unlike other venues. We have never had a negative review from any participants; they always have a great time and feel accomplished for the day.

One of the participants we support, Mr. Shane Drake exemplifies the profound benefits that this facility provides. Shane is currently the record holder for the most laps achieved at Hyper Karting, with an outstanding total of 1,000 laps accumulated over the past two years through his membership.

During his first year, Shane's participation was supported through NDIS funding under community participation. However, following changes to funding arrangements, this support was discontinued. Despite financial hardship, Shane has demonstrated remarkable determination by securing Centrelink loans and pursuing entrepreneurial ventures to maintain his membership, which is ordinarily \$1,100 annually. In recognition of Shane's circumstances, the CEO of Hyper Karting, Mr. Andrew Richardson has shown exceptional compassion by reducing Shane's membership fee to \$500. This gesture has made an enormous difference in allowing Shane to continue accessing the venue.

Shane attends Hyper Karting almost daily. For a person diagnosed with ADHD, Complex PTSD, and an intellectual disability, as well as facing challenges with literacy, finding an activity where he can excel has been extremely difficult. Compounding these challenges, Shane has experienced severe childhood trauma and abuse, which has significantly impacted his ability to form connections within the community.

Hyper Karting has provided Shane with a rare and invaluable sense of belonging. His exceptional skill and consistency on the track have earned him recognition and admiration from other patrons, fostering positive social interactions and greatly enhancing his self-esteem. This environment has been instrumental in improving his mental health and overall wellbeing.

Importantly, Shane has a history of depression and suicidal ideation. His engagement with Hyper Karting has provided him with purpose, routine, and meaningful social connection—factors that have been critical in stabilizing his mental health and reducing maladaptive behaviors that were previously of significant concern.

It is my professional and personal opinion that the continued operation of Hyper Karting is vital not only for Shane but for many individuals who benefit from inclusive, community-based recreational spaces. The potential loss of such a facility would likely have serious negative consequences for his mental health and could lead to a regression in the substantial progress he has made.

I respectfully ask the Council to consider the broader social and community value that venues like Hyper Karting provide, particularly for vulnerable individuals who rely on such spaces for connection, personal development, and wellbeing.

We strongly feel that the Hyper Karting venue is the heart of Fox Studios.

Thank you for your time and consideration.

Regards

Lana Susak (she/her)

To whom it may concern,

I am writing to express my concern regarding the potential closure of Hyper Karting at the Entertainment Quarter and to respectfully urge the council to reconsider this decision.

Hyper Karting is more than just a recreational facility. It is a unique and valuable part of Sydney's entertainment landscape. It provides an engaging, safe, and accessible activity for people of all ages, including families, young adults, and tourists. In a city where inclusive and active entertainment options are increasingly important, venues like this play a vital role in supporting community wellbeing and social connection.

Additionally, Hyper Karting contributes to the local economy by attracting visitors to the Entertainment Quarter, supporting nearby businesses, and creating employment opportunities. Its presence enhances the precinct's vibrancy and helps maintain its reputation as a dynamic destination.

Closing such a facility would not only remove a popular attraction but could also have a ripple effect on surrounding businesses and the broader community. I believe there is significant value in preserving diverse recreational spaces that encourage participation, enjoyment, and local engagement. I ask the council to consider the positive impact Hyper Karting has on the community.

Thank you for your time and consideration.

Kind regards,

Sophie Murphy

Hi City of Sydney Council,

I had a great time at Hyper Karting as I'm sure many others do. The staff were very nice and the place was awesome. It would be a shame and a loss to Sydney's already limited entertainment scene if Hyper Karting were to close down, as well as a loss to the community and also a loss of jobs for the staff.

I hope this email reaches you and I hope to hear that Hyper Karting will stay. Thank you.

Dear City of Sydney,

I'm writing as a parent and a regular Hyper Karting customer to ask Council to grant the two-year extension currently under review, and to keep the venue at the Entertainment Quarter open.

My two young sons love it. It's one of the few places in Sydney where they can do something genuinely exciting, active, and off-screen, with real safety briefings, trained staff, and age-appropriate tracks from the Mini Track up. There is nothing comparable anywhere within an hour. Once it's gone, families like mine don't get another one.

I've read the reasons for the refusal: that the commercial use of 298 of the 2,003 car park spaces is "unacceptable" and not "orderly development.". What's on that rooftop today is:

- 500,000+ visitors since 2021 and over 150 jobs.
- Electric karts, zero noise complaints on record.
- NDIS programs and youth driver development pathways.
- A heavily-used attraction in a precinct the State Government is actively trying to revitalise.

What the alternative looks like is 298 rooftop car spaces that, sit empty outside major event days.

I understand the long-term parking picture around Moore Park is changing, and I'm not asking Council to ignore that. I'm asking for the two-year extension so a proven community asset isn't demolished ahead of a long-term plan being settled.

Please grant the extension.

Kind regards,
Rob Scott

Dear City of Sydney,

It is rare to find such a great family friendly venue with staff and facilities that hyper racing has.

I have worked in events including at Horden Pavilion and both stadium, I can promise you more parking isn't needed off event and will only heavily increase the congestion.

I hope you reconsider.

Thanks,
Tayla

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Lord Mayor and Councillors,

I wish to protest Sydney Council's decision to refuse the lease extension for **Hyper Karting** at the Entertainment Quarter.

Closing a thriving business for a couple of hundred parking spaces simply does not make sense.

HyperKarting employs many young people and will increase unemployment in a time when many jobs are under threat and people are facing higher costs of living. This decision also removes a primary drawcard for the Moore Park precinct. Since 2021, Hyper Karting has brought more than **500,000 visitors** to the area, providing essential foot traffic that sustains surrounding small businesses, cafes, and restaurants within the Entertainment Quarter.

Hyper Karting is a vital resource for the community, offering an inclusive and accessible space for **disability support groups** and youth organisations. Removing such a unique facility in favour of bitumen goes against the City's own vision of a "city for people, not cars."

With the recent addition of the **1,500-space underground car park** at Allianz Stadium and ample parking at Disney Studios, there is no logical justification for sacrificing a successful business and a community hub for a negligible increase in parking capacity.

Could you please reconsider this decision, grant the necessary extensions, and work with Hyper Karting to ensure this landmark venue remains a permanent fixture of Sydney's entertainment district.

Yours sincerely,

John Dobrohotoff

Hello Shannon,

I am emailing you with regard to the possible closure of Hyper Karting at Moore Park entertainment quarter.

In my personal opinion I think this would be a devastating blow to the community at a whole.

You actually have an activity that brings people together for entertainment and enjoyment, many of which have used the metro system to get there, and once their session is over stay within the precinct to avail themselves of both food and beverage outlets.

Actually having somewhere within Sydney that is 'working' as an entertainment venue and you wish to pull the contract to reutilise a carpark space.

Somewhat ironic when so much has been invested within better public transport systems, and the fact that the venue itself runs electric 'green' karts instead of petrol based engines.

If only councils at large were based on logical decisions for the betterment of community. Hmmm if only.

Just to make my position quite clear - I am against the closure of Hyper Karting at the Entertainment Quarter.

Dear Council,

I am writing as a regular patron of Hyperkarting to express my strong support for its continued operation, and to urge the council to do everything in its power to ensure it remains open.

Hyperkarting is far more than just a recreational facility, it is a genuine community hub. As someone who visits frequently, I have seen firsthand the range of people it brings together: families celebrating birthdays, groups of friends catching up, corporate teams building rapport, and young motorsport enthusiasts discovering a passion for the sport. It offers a unique, active experience that is increasingly rare in our area.

Beyond the fun it provides, Hyperkarting contributes meaningfully to the local economy, supporting jobs and drawing visitors to the region. Losing it would leave a real gap, not just for regulars like me, but for the wider Sydney community looking for quality entertainment options.

I respectfully ask that the council consider the significant social and economic value this venue brings, and act in support of its future. Facilities like Hyperkarting are what make our community a vibrant and exciting place to live.

Thank you sincerely for your time and consideration.

A proud and regular Hyperkarting customer

Hi Team,

Shutting down a thriving business for a parking area is unfair to not only the business, but it's staff and loyal customers as well as the community around it.

Please rethink this decision. There is already an issue with increasing prices and the fact alone that 150 employees will lose their jobs should make y'all rethink this decision.

Thank you for your time,
Sophie

Dear Sydney City Council,

I strongly oppose the proposed removal of Hyper Karting at the Entertainment Quarter to make way for additional car parks.

Hyper Karting is a popular, high-quality recreational attraction that adds energy, foot traffic, and economic value to the precinct. Replacing it with more parking reduces the area's vibrancy and runs counter to modern planning priorities that favour active, experience-driven spaces over increased car dependency.

This change would diminish the appeal of the Entertainment Quarter for residents and visitors, while offering limited broader benefit. Existing parking solutions and alternative transport options should be prioritised instead.

I urge the Council to reconsider and retain Hyper Karting as a key part of the precinct.

Yours sincerely,
Tom Gardener

Hi Team,

Disappointing to hear that 296 car spots are being treated as priority over a venue (Hyper Karting) that is very important for our younger generation.

Given the state and local government has invested significantly in improving public transport options to & from Allianz Stadium, the SCG and EQ - I don't understand why you would need to expand a car park that is rarely at full capacity.

The community needs more venues like this - not more parking spaces.

Please use this email as a formal objection of the proposal to remove Hyper Karting.

Thanks
Anthony

To whom it may concern,

I am writing to express my strong feelings against the closing of Hyper Karting in Moore Park.

For my friends and work colleagues it is the only reason to visit the EQ other than for music at the Hordern Pavilion. We love the proximity to public transport links and EQ pubs for drinks after.

Laser tag and bowling doesn't convince half my office to join, or my friends with young children to set aside an evening. Alexandria's climbing gym and pub scene would be the clear alternative.

Thank you for your consideration.

Curtis

To whom it may concern,

I am writing as a concerned community member to formally object to the refusal of the Modification Application to extend the time limited development consent for Hyperkarting at Level 5 of the Entertainment Quarter car park, Moore Park.

I respectfully request that the decision be reviewed, and that the following considerations be weighed carefully:

1. Hyperkarting provides meaningful social and recreational benefit to the community. Hyperkarting is a rare example of an inclusive, non-alcohol-based entertainment venue accessible to a wide range of ages and abilities. At a time when community spaces that promote active, sober recreation are increasingly valued, particularly for younger generations, the removal of such a facility in favour of passive car parking represents a poor outcome for the public interest. The City of Sydney's own strategies emphasise the importance of diverse, vibrant entertainment precincts; Hyperkarting directly supports this goal.

2. The loss of a functioning small business to car parking is difficult to justify on planning merit. Hyperkarting represents local employment and economic activity within the Entertainment Quarter. Replacing an active, community-facing land use with underutilised car parking is inconsistent with the principles of orderly and economic use of land. A temporary extension to 1 July 2028 would allow the business to operate while longer-term precinct planning is considered, which represents a reasonable and proportionate outcome.

3. Increased car parking capacity at Moore Park is not aligned with current transport policy. Moore Park is well-served by public transport, including the CBD and South East Light Rail with stops at Central and Randwick, as well as event bus services during major nearby events. NSW Government transport policy actively encourages a shift away from car dependence. Reclaiming Level 5 of the car park to increase parking supply risks inducing additional car trips and runs counter to these broader policy objectives. Retaining Hyperkarting on that level is a more productive use of the space.

I strongly urge the City of Sydney to reconsider this refusal and to grant the requested extension of development consent to 1 July 2028, and beyond in due course. I would welcome the opportunity to discuss this matter further.

Kind regards,
Daniel Picone

Hello,

Due to the lack of use of the existing car spaces (as shown on hyperkarting's instagram profile where multiple levels were nearly empty during what should have been a busy thursday) there is no intelligent reason to close down a recreational centre providing over 150 jobs, especially when there are more pressing issues that can be focused on.

Car reliance shouldn't be encouraged, especially during the current fuel crisis. Please reconsider your current proposal.

Dear City of Sydney,

I am writing to express my deep concern regarding the potential closure of Hyper Karting and the serious impact this could have on the community.

At a time when Australia is already facing a severe cost of living crisis, the possibility of jeopardising 150 local jobs is extremely alarming. My concern is especially for the many workers who rely on these roles to support themselves, particularly students who depend on casual and entertainment industry work while completing their studies. Both domestic and international students often rely on jobs like these to afford rent, food, and the basic cost of living while studying.

It is extremely concerning to hear that a small business that has already agreed to a lease and established itself within the precinct could now be removed simply to repurpose a car park space. Decisions like this do not only affect a business. They directly affect the livelihoods and stability of the people who work there and the wider community that supports it.

Hyper Karting also offers the Entertainment Quarter a unique venue that stands apart from the many restaurants, bars and cinemas already within the precinct. Not every entertainment experience needs to revolve around food, alcohol, or film. Hyper Karting provides an active, engaging experience that attracts a different audience and adds diversity to the precinct. There is a real question about how many similar hospitality venues can realistically compete within one small space before the market becomes oversaturated.

I have personally spent time at Hyper Karting with friends, bonding and getting out of the house for something engaging and fun. It provides an activity for adults that does not revolve around alcohol, which is something cities need more of. Spaces like this contribute to social connection, mental wellbeing, and healthy community engagement.

Closing a business that appears to be successful and generating revenue raises serious questions about priorities and who ultimately benefits financially from these decisions within the Moore Park entertainment precinct.

This situation is not just about losing jobs. It is about people losing their wages, their ability to pay rent, their superannuation, and their financial stability. In the current economic climate this kind of disruption can have very real human consequences.

I ask you to seriously consider the human impact of these decisions. How would anyone feel knowing that a decision like this could push someone into homelessness, severe financial distress, or a mental health crisis. For some people, losing their job can mean losing their stability, their security, and sometimes even their sense of hope.

In a job market that is already extremely difficult, can our community realistically afford to push another 150 people back into unemployment in such a small local workforce?

I strongly urge you to reconsider any decision that could lead to the closure of Hyper Karting. Businesses that provide employment, community engagement, and unique entertainment experiences should be supported and protected.

Thank you for taking the time to read my concerns. I sincerely hope a solution can be found that protects both the workers and this valued community space.

Kind regards,
Angel Ferraro

Whilst I don't pretend to understand the full picture the CoS may have of this situation, I do however fail to see how the removal of HK from the 'Entertainment Quarter' for the sake of car parks, is a benefit.

Improve the public transport, keep the entertainment.

Dear Shannon,

I am writing to lodge a formal submission regarding RD/2023/897/A for 116 Lang Road, Moore Park.

I would like to express my strong support for the continuation of Hyper Karting at Moore Park and my concern regarding the potential closure of this venue.

Hyper Karting has become a much-loved recreational facility for not only myself and my husband, but for a wide cross-section of the community. It offers a unique, safe, and engaging activity that caters to a broad demographic. From families and young people to corporate groups and social communities. In a city where accessible and active entertainment options are limited, this venue fills an important gap.

Beyond personal enjoyment, venues like Hyper Karting contribute positively to the local economy, support jobs, and activate the Moore Park precinct in a meaningful way. It encourages people to gather, be active, and engage socially in a controlled and well-managed environment.

From our experience, the venue is professionally run, with a clear emphasis on safety, organisation, and customer experience. It is evident that considerable effort has gone into creating a high-quality facility that aligns with community expectations.

The potential loss of this venue would not only impact regular patrons like ourselves, but would also remove a valuable recreational offering from the area. I strongly believe that spaces like this are essential in fostering vibrant, connected communities.

I respectfully urge the Council to take into consideration the positive impact Hyper Karting has on the community and to support its continued operation at Moore Park.

Thank you for taking the time to consider my submission.

Kind regards,

Briden Starr

To Shannon Rickersey and the City of Sydney Planning Department,

I am writing to express my strongest possible opposition to any Development Application or administrative decision that results in the closure of Hyper Karting Sydney. As a resident/frequent visitor to the CBD precinct, I view the potential loss of this business not merely as a commercial vacancy, but as a significant blow to the social and economic fabric of central Sydney.

Hyper Karting is a rare, successful enterprise that provides genuine utility and enjoyment in a city that is increasingly becoming a cultural vacuum. My support for its continuation is based on the following critical points:

- Hyper Karting is a thriving, successful business that employs a significant number of people. In the current economic climate, the forced closure of a profitable entity that provides stable jobs is a counter productive use of bureaucratic oversight.
- The venue serves as a vital "glimmer of light" for the community. It is a primary destination for milestone events— birthday parties, Christmas functions, and corporate team building. These activities are essential for social cohesion and the "delight" that is currently missing from the city centre.
- Central Sydney is at risk of becoming an "empty city" dominated by over-regulation rather than activity. To veto the existence of a high-draw, high-energy recreational facility in favor of further bureaucratic refinement is a disservice to the public.
- There is a growing frustration among the public regarding the role of bureaucracy in stifling successful local enterprises. The city needs more venues that promote active engagement and happiness, not fewer.

I urge the City of Sydney to recognize the tangible value Hyper Karting brings to the Entertainment Quarter and the broader Sydney community. I request that the council exercises its power to protect this business and ensure it remains a fixture of our city's landscape.

The focus of urban planning should be the enrichment of the citizen experience; closing Hyper Karting achieves the exact opposite.

Sincerely,

Matt Moore

Dear Councillors,

HyperKarting at Entertainment Quarter is practically the only reason we eBike every Saturday and sometimes Sunday morning, all the way from Crows Nest.

It also means we usually have breakfast there afterwards and on occasions a whole day of movie & meals. What's more, it's become the favourite place among our family and friends for birthday gatherings and catch ups.

If it wasn't because of Hyperkarting, we'd practically have no reason to go to Entertain Quarter, as everything else is easily accessible in Chatswood or just as easily by Metro, at Macquarie Shopping centre.

Please reconsider the closure of the Hyperkarting. It's an extremely unique and addictive attraction that its nearest competitor is in western Sydney.

Thank you.

Best regards,

Dr. Alex Nafari

Dear Council Representatives,

I am writing to oppose the proposed closure of Hyper Karting at Moore Park.

I have organised two corporate events there, both of which were highly successful. The venue offers a unique experience that attracts visitors to the area, many of whom also support nearby restaurants and businesses.

Closing a thriving destination for a relatively small increase in parking seems short-sighted. Attractions like Hyperkarting are what bring people to Moore Park in the first place.

I urge the council to reconsider and explore alternative solutions that preserve this valuable venue.

Kind regards
Cathareen

Objection to Proposed Conversion of Hyperkarting Premises to Parking

To whom it may concern,

I am writing to strongly oppose the rejection of the lease extension for Hyperkarting in Moore Park, and proposal to revert the current site to back to a parking facility.

Parking is already abundant and offers zero social, economic, or cultural heartbeat to our community. In contrast, Hyperkarting has transformed an underutilized space into a **premier recreational destination** that drives foot traffic, supports local employment, and provides a unique alcohol-free entertainment option for families in the community.

Replacing a vibrant, high-use indoor attraction with a static parking lot would be a significant step backward for the following reasons:

- **Loss of Community Amenity:** The site currently serves as a vital hub for social connection, team building, and youth engagement—needs that a parking garage cannot meet.
- **Economic Impact:** As a major drawcard, this facility brings visitors into the precinct who then frequent surrounding cafes, restaurants, and retail businesses.
- **Urban Vitality:** Converting active spaces into car storage diminishes the vibrancy of our streets and contradicts modern urban planning goals of creating walkable, livable cities.

I urge the Council to prioritise **people over parking** and protect a venue that contributes so much to the character and economy of our area.

Sincerely,
Rose Nguyen
Paddington resident

To whom it may concern

Closing down Hyper Karting will be a great loss to the community of Sydney. We urge you please to keep their business open. There are not many places for young families to take their kids for some cheap thrills that is indoors. In particular, go karting and even more so, go karting that caters for the little kids.

This was my boys' first experience at go karting and it left such an impression and fond memory for us all. To tell them it has closed down would just devastate them.

Please keep their doors open and think of the young hearts who would feel the loss of no more go karting for their age.

Hoping you seriously reconsider.

Thank you for your time.

Dear City of Sydney Council Members,

I am writing to you as a concerned parent and local resident to express my deep frustration and disappointment regarding the reported decision to terminate Hyper Karting's lease at the Moore Park Entertainment Quarter to make way for a car park.

Recently, I took my children to Hyper Karting, and seeing the pure joy and engagement it provided them—and the hundreds of other families there—made it clear that this is a vital community asset. In a city where we are constantly told to prioritize green space, physical activity, and youth engagement, the decision to replace a world-class, all-weather recreational facility with an "empty car park" is, frankly, baffling.

Why Hyper Karting matters to Sydney families:

- **Active Recreation:** It provides a safe, high-tech, and physically engaging environment for kids and adults alike.
- **Tourism & Economy:** It draws people into the Entertainment Quarter, supporting surrounding businesses that rely on the foot traffic.
- **Accessibility:** As an indoor electric karting track, it offers a sustainable, low-noise, and weather-proof activity that is rare in the inner city.

Removing a thriving hub of activity to prioritize more asphalt feels like a massive step backward for Sydney's urban planning. We need vibrant spaces that bring people together, not more vacant spaces for cars.

I urge the Council to reconsider this decision and work with the operators of Hyper Karting to ensure this facility remains a part of our city's fabric. Our children deserve better than another parking lot.

I look forward to hearing how the Council plans to protect local recreational spaces like this one.

Sincerely,

Regards,
Mervin

Dear City of Sydney team,

The decision to reject the application to extend the Hyperkarting use of the EQ car park level makes zero sense to anyone.

This is a venue that offers so much to the community, young and old.

I've been frequently since it first opened and my kids have loved the small track and are only just old enough for the big track. Many families use the venue for birthday parties or just for a fun family time out.

It is a large car park and very rarely fills up unless there is a large sporting event, though, as is always recommended by your council, people should be using public transport or walking to the sporting venues. Opening up more parking spaces just opens up more cars on the road, more traffic, and more pollution.

I know that your whole M.O. is to take as many parking spaces away from the community to open more bicycle lanes that nobody uses cause the cyclists still ride in the middle of the car lanes, so why try to change that by taking away something that brings so much to the community.

Why do you take so much pleasure in taking away something that so many people love? You seem to really enjoy making Sydney a bland, stale, boring and backward city, when other cities are excelling at bringing nightlife and fun activities back to life.

I would highly recommend you reconsider your decision for the good of the community.

Regards

Peter Greenland

To whom it may concern,

Please consider our request to keep Hyperkarting in Moore Park in business. I believe they are at risk of closing down due to the council's plan to create more care spaces at EQ Moore Park. However, this place is one of the activities many kids, family and friends love. It would be such a shame to lose another destination that many people love to visit. Not many of this recreational place like this in the area.

Dear Shannon,

I was surprised to hear that Hyperkarting is at risk of closing to make way for additional car spaces. I would like to raise concerns about the number of jobs and the economic contribution to the community that would be jeopardised as a result.

This venue provides an excellent space for young people to spend their time on weekends and during school holidays, helping to reduce issues and incidents on the streets. We encourage the council to reconsider this decision and to continue promoting the use of public transport among patrons.

Regards,
Danny

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

I am writing to formally express my strong opposition to the planned closure of Hyper Karting at the Moore Park Entertainment Quarter.

As a resident and frequent visitor to the precinct, I believe that converting this space back into a 296-space car park is a significant step backward for our city. Hyper Karting provides a unique, world-class recreational facility that attracts thousands of visitors, supports over 150 local jobs, and offers a safe, alcohol-free environment for young people and families.

At a time when Sydney is striving to revitalise its night-time economy and boost local tourism, sacrificing a thriving community hub for more asphalt is counterproductive.

I urge the Council to reconsider this decision and grant an extension to Hyper Karting's operating approval, ensuring that this vital asset remains part of Sydney's future.

Kind regards,
Conor Clune

Hi! Ever since hyper karting had first came out I have been wanting to go, at the time when I first found out about the place I was still in highschool. Since then, Ive been in and out of the hospital and had financial issues growinfup especially during my last few years of highschool. Only now am I able to mentally and financially experience things as fun as hyper karting, something that can act as pedestal of proof that I had gotten through all of that.

Please dont take that away from me.

Kind regards,

Francine Ariel Dumandan

Please dont close down Hyperkarting..

Hi, Im 19 years old and live in Sydney located in the inner west.

When I was young, I went there for the first time, my first ever non-gasoline karting experience. It was fun and the opportunities were endless. Each cart had a camera to watch back the race, it had a very detailed app where you can see you best lap times, speed etc and even compare yourself to the other people you raced against.

This is the place that inspired me to become the Software Engineering student I am today. I was Intrigued by the complexity of their backend systems and the structural design of the electric karts which sparked my interest in engineering.

I believe in making people happy at little expense. People's health and happiness is what comes before everything.

It is truely an amazing place and closing it down would devastate many...It would also hurt my personal motivation as an engineer.. as if "why build something only for someone to take it away from you".

Please reconsider the choices being made... Dont do it for me, do it so that you and the people are happy..

Dear sir/Madame

My niece and nephew frequently come from Kiama for Hyper Karting as it's one of their favourite Sydney activists. My brother, their father and I also join in the fun!

We hope you reconsider and find a better solution for everyone.

Thank you.

Kind regards

Layla

Dear Shannon Rickersey,

I am writing to express my support in the current application RD/2023/897/A and the continued operation of Hyper Karting at the Entertainment Quarter.

We actually travel from Sydney Olympic Park to the Entertainment Quarter just for HyperKarting. It is the only go-karting attraction in Sydney that caters to children as young as 3 years old. HyperKarting was the place where my child and his friends got their first go-karting experience. My kid and his friends tried the Mini track when they were just 5 years old, and just recently they've moved up to Junior Track. They are now looking forward to trying the Intermediate track in the future, which seems no longer possible. Other than HyperKarting, there is nothing special Entertainment Quarter offers. There are many more entertainment and dining options in our area, and closer suburbs.

Removing this attraction would be a mistake for your suburb. It is a major draw for families all over Sydney, and losing it to gain a few extra car spaces—which would otherwise sit empty outside of occasional events—would severely diminish the area's appeal.

One more thing, we never had an issue with finding parking space whenever we go here - even if we experienced heavy traffic on the way. It is surprising that a council backed parking space requirement is the main reason for a successful business to close.

I do hope you reconsider and retain this vital business for your suburb.

Sincerely,

Clarissa Del Rosario

Hello,

Please keep my personal identifying information private from the public objections website and records. Thanks.

This is a direct comment and objection on the proposed development of 116 Lang Road in Moore Park NSW.

The proposed development is detrimental not only to the workers and internal stakeholders of Hyper Karting, but also to the community and thousands of Sydney tourists and general residents who enjoy the diverse offer of entertainment in Sydney.

Whilst parking spaces are at a premium, even more important to preserve is the livelihood and engagement Hyperkart brings to the community.

Thank you for your time in reading this email.

Cheers,
Oliver

To Clover Moore and City of Sydney Council,

I, Kyda Bryson, am in full support of renewing HyperKarting's lease in Moore Park. As a previous City of Sydney resident for 9 years, I frequented Hyper Kart with friends who were visiting Sydney and have recently begun taking my eldest to enjoy the junior track during holidays. I attend the entertainment quarter for shows and while it can reach capacity on busy evenings, the public transport system has provided a great alternative to reach EQ. I have seen how many patrons the go kart facility brings to the EQ bars and restaurants, of which unless there is a Hordern Pavillion event, football game or similar, leaves the place eerily quiet. Please reconsider renewing it for at least another year. It saves many of us for having to travel further out west to enjoy this activity.

Kind regards,
Kyda Bryson

Dear City of Sydney Council,

I am writing to formally request a justification regarding the decision to close Hyper Karting.

Hyper Karting is a valuable asset to our community, providing consistent entertainment for patrons and creating numerous jobs for local residents. The business operates throughout the year and is frequently utilized by the public.

It appears the decision to close this facility is intended to create extra parking spaces that may only be needed a few days out of the year. There is no clear overall benefit to the people of Sydney in sacrificing a year-round recreational business and employer for occasional parking availability.

I look forward to receiving a detailed explanation regarding the reasoning behind this decision and whether any alternative solutions were considered.

Best regards,

James R

Dear council,

I'm writing to ask you to reconsider any plans that would see Hyper Cart removed or replaced.

Places like this don't just serve a function, they quietly support the rhythm of everyday life. Hyper Cart is convenient, familiar, and valued by the people who rely on it. Losing it would leave a gap that's bigger than it might seem on paper.

I hope you'll take a moment to consider the community impact before making a final decision.

Thank you for your time.

Kind regards,
Ruby

Dear Shannon,

Hyperkarting at Moore Park is a world class go-karting facility that is a star attraction for the entertainment quarter. Removing this facility will reduce the visitor numbers and lose a star attraction for Sydney city. It cannot be justified closing just to increase car parking spaces. There has to be an alternative build project at the site that could practically increase parking without affecting the hyperkarting.

When I've visited Moore Park many times for hyperkarting or the cinema there has never been an issue finding parking. The only time that parking is in short supply is when there is a music event on. However, you just need to look at Olympic park to realise that substantial parking facilities are quickly booked up for such events and visitors should be encouraged to use public transport.

Dear Council Team,

I am writing to express my strong support for Hyper Karting and to ask that council carefully consider practical solutions regarding the current parking concerns.

Hyper Karting is a valued local business and an important recreational venue for families, young people, and the wider community. It provides a unique activity that is not easily found elsewhere and brings people into the area, supporting local businesses and creating a vibrant community space.

While I understand that parking availability is an important consideration, I strongly believe this issue should be addressed through practical traffic and parking management solutions rather than allowing it to negatively impact the future of Hyper Karting. Challenges with parking are common in growing precincts and should be managed in a way that supports both local businesses and community access.

Removing or limiting support for a business that clearly brings enjoyment, employment, and economic benefit to the area does not seem like the best outcome for residents. Alternative measures such as improved parking management, designated event parking, time restrictions, shared parking arrangements, or encouraging the use of nearby public transport should be explored first.

Hyper Karting is an asset to the community, and I respectfully ask council to work collaboratively toward a solution that allows the business to continue operating successfully while addressing parking concerns in a fair and balanced way.

Thank you for your time and consideration.

Kind regards,
Dianne

I'm writing to express my concern that the City of Sydney would change the conditions making it possible for Hyper Karting to exist.

We as a whole city, not just the direct City of Sydney council area are short on entertainment options.

I've taken my kids Karting so many times, and each time we spend money parking, shopping, eating and of course Karting.

I've also attended events at the EQ, and Moore Park and always choose to park in that centre, and have never ever had an issue even at the busiest of times.

Council should be supporting small business, and employment as well as finding as many reasons for people from all across the Sydney basin to visit the City of Sydney.

Change your plans, keep Hyper Karting.

Trevor Long

Dear Shannon,

As a ratepayer in your LGA I support the retention of the HyperCarting business at its present location.

This is a fabulous business at adds value and diversity to the community.

The Councils and State Government has done excellent work in creating various transport options and services to access the Moore Park entertainment precinct and as such the removal of relevant and lawful business that adds value to this precinct to gain a few additional car parks is counter intuitive.

Please keep this lawful business in its present location as it is a highlight of the precinct enjoyed by families of all ages and continues to provide necessary employment for many young people too.

Thank you

Karen Adamson

Dear Shannon Rickersey,

The hyperkart at Moore Park is an important local business for our community. It keeps children off of devices, out of trouble and into a sports hobby within our local community. It is a positive environment for kids in the entertainment quarter encouraging competitive skills with friends. It is also a great space for young kids birthday parties and a safe meeting space for families.

To remove this business is a detriment to our local community and families who utilise this business. As such we are one of these families and appreciate this safe space for our children and their friends.

There is no need to offer more parking at the entertainment quarter.

- There is over flow car park provided on the grass across from the EQ for sports games in the evenings adhoc
- There is a public transport for commuters who visit the local area.
- We are attempting to encourage communities to utilise our extensive upgraded public transport system and local trams.
- We do not want to cause increased traffic and disruption on Lang Road in Moore Park exiting the entertainment quarter.

Thank you,

Sarah Cox

Hi

My name is Annette and my family and I have been utilising Hyper Karting for our entertainment for some time now.

We absolutely love the facilities Especially the fact that the staff are so friendly and passionate about their work; we are always made to feel welcomed; the karts are maintained to a high standard; there's been ample parking spaces available on lower level no matter what time of day we arrive.

We luv the centre so much that we travel for over an hour to attend Hyper Karting. We are back there again tomorrow.

Please please please don't close down the centre. Hyper Karting is our go-to for entertainment.

Kind regards
Annette and family

To whom this may concern,

I want to express my support for Hyper Karting and I kindly implore you to reconsider the closure of this amazing business. It doesn't simply mean a loss of income to over 100 people, it also means the dissolving of a passionate community who has formed strong connections over a shared love of go-karting.

When I went to Hyper Karting with my partner for the first time, he loved it so much he attended sessions regularly and talked about how amazing the other people and the workers were. Even without knowing each other beforehand, racers formed connections complimenting each other after the races and appreciating each others' skills. Hyper Karting is more than a business, it's a place where people can connect and it's a community with many passionate and loyal fans who would be devastated by its closure.

I strongly urge you to reconsider your needs, as each time I've attended Hyper Karting, many car park spaces were empty and I hope that an alternative can be found because this would be an immense loss to the go-karting community.

Thank you for your consideration.

I have heard on the Today show this morning that you intend to ruin a very profitable business, take away jobs and replace the space with a carpark that is not required.

This is a council funding rort at the highest level. This is a council who clearly doesn't value necessary entertainment for people of all ages, doesn't value jobs (which for our youth are extremely hard to find) nor small business who are paying taxes and rates etc to fund necessary infrastructure.

Your decision is wasteful and certainly not in the best interest of the community who you are supposed to represent.

Please reconsider your decision or face higher unemployment of your youth leading to higher centrelink dependence, lower socio-economic living and a lack of funds spent in your district as this brings in hundreds of thousands of people to your district. It is a fun family-oriented venue which is much needed in these hard times.

Hi Shannon Rickersey,

I am writing to express my concern that Hyper Karting may be forced to shut down to allow additional car parking spaces. This should not be allowed to occur.

Sydney needs more and to keep the entertainment and culture it has. Hyper Karting allows people of all ages to have fun and have positive experiences. Why remove that?

What would be the economic impact of job losses by the closure of the business? What would be the culture impact of removing another entertainment venue?

A better use of development would be to improve public transport to the area.

Best Regards,
Kelsey

Subject: Support for Hyper Karting – RD/2023/897/A – 116 Lang Road Moore Park

Dear City of Sydney,

I am writing to express my strong support for Hyper Karting and to respectfully request reconsideration of the decision relating to Development Application RD/2023/897/A at 116 Lang Road, Moore Park.

Hyper Karting has become an important part of Sydney's entertainment landscape, providing a unique, modern and accessible recreational activity for individuals, families, and groups. It contributes positively to the local economy, creates employment opportunities, and activates an existing urban space in a productive and innovative way.

The venue attracts visitors to the Entertainment Quarter, supporting surrounding businesses and enhancing the overall vibrancy of the Moore Park precinct. It offers a safe, controlled and environmentally conscious activity through electric kart technology, aligning with broader goals of sustainability and contemporary urban experiences.

Closing Hyper Karting would not only impact the livelihoods of employees but would also remove a valued destination enjoyed by locals and visitors alike. Sydney benefits from diverse entertainment options that encourage social interaction, tourism, and economic activity.

I respectfully ask that Council reconsider the decision or explore a balanced solution that allows Hyper Karting to continue operating while addressing planning and transport considerations.

Supporting businesses that contribute positively to the community helps ensure Sydney remains a dynamic and engaging global city.

Thank you for your time and consideration.

Kind regards,

Rafael Babao

Dear Shannon,

I am writing to express my dismay that Sydney City Council has refused to extend the time limited consent for the go-karting site at Level 5, 116 Land Road, Moore Park.

I have been a nearby resident of EQ for nearly three decades. Having lived on Cook Road, Centennial Park and now Church St, Paddington I have been a neighbour and visitor to EQ since it was converted from the Showgrounds to Fox Studios and now EQ.

What is at stake here is a limited number of car spaces that would be otherwise be vacant for most of the operating hours of EQ. From my own observations, the car park is rarely full. It takes high capacity events nearby before the car spaces would be utilised. This is exceedingly rare and supported by data supplied by Carsingha Investments Pty Ltd. On top of that, the number of spaces is negligible compared to the 40,000+ attendees at major events and ignores the improved access to the precinct created by the light rail. Furthermore, the council is encouraging the use of cars and traffic congestion by freeing up these limited spaces. The council can't have it both ways: it can't be supportive of public transport over cars and yet simultaneously removing a drawcard business to accommodate more cars to the area at the worse possible times.

EQ, overall, is poorly utilised resource. It needs innovative businesses like the go-kart track to attract people to the area on a regular basis. The venue also gives residents of the nearby high density areas around Green Square a chance to experience a unique form of entertainment in a region bereft of options. Again, Sydney City Council can't be claiming to its support for residents of high density areas while removing innovative businesses for sake of under-utilised car spaces. These car spaces are not residential, they are not crucial to any local amenities: they are a wasteful luxury for a small group of individuals choosing not to use a well-connected public transport system to access Moore Park precinct events.

Sydney City Council claims to be supportive of small business. From documents provided as part of the is DA, the go-kart track provides employment for 150 individuals. These employees are also likely to support the local EQ businesses through the use of other venues such as food and entertainment. Given EQ has poor patronage, removing this local workforce and their customers is going to have a further negative impact on EQ overall.

Finally, it is surprising and disappointing that the council is choosing to favour poorly utilised and unneeded car spaces over the support of a thriving local business. This also goes against much of public policy statements made by Sydney City Council and it's Mayor, Clover Moore.

Your sincerely
Scott Mendham
