Hi. I am in support of hyperkarts staying in business in Moore Park. As the entertainment hub in Sydney there is a lack of fun and physical activities for kids and families to enjoy.

Hypedkarts are so much fun and something different for everyone to enjoy. Please consider their appeal to stay open.

Kind regards, Karita Crossman

This is absurdity at its best. Hypercarting is one of the best features and draws the most attraction to the dying Moore park/ fox studio precinct.

You need to listen to the people. Hypercarting, movies, pickle ball/paddle tennis is what is keeping that area going.

Hi,

I am writing to express my objection to the closure of Hyper Karting to repurpose to car parking. Moore Park entertainment precinct is already well serviced by public transport and reverting the car parking spaces that could only provide parking to a small amount to people relative to the tens of thousands of people utilising the precious urban space for electric go karting is a terrible decision on land use. Keeping the carpark level for go karting is highly beneficial to the area and community. Car parking should continue to reduce in this area as to encourage the use of public and active transport.

Kind regards,
Levin Lam

Hi,

Just submitting my support for the Hyper Karting to continue operating. Myself & my 3 x sons regularly go to the go karting & to be honest, that is the main reason we visit the entertainment quater. It would be very disappointing to lose this great venue. It seems at no point have i ever seen the entertainment quater car park full, so im my opinion i dont believe the extra car spaces are 'needed '.

Regards,
Michael Goss

296 more car spots are not needed, keep hyper karting in business, stop using tax payers money to make unnecessary car spots at the cost of closing down a Aussie small business. KEEPHYPER KARTS OPEN.

We don't need more car parking spaces.

We need more small businesses to support the community and give people activities to do!

Poor form nanny state council.

Dear city of Sydney

I find hyperkarting so fun I've been many times with friends and every time it has been a blast. I know someone who works there and he always talks about how great it is to work at hyperkarting and taking it away is pointless.

There is so much parking at the eq already I've never seen it full what will 1 level add and on top of this there is another carpark in construction at Allianz Stadium. I've never missed that one level at the eq car park, I've never not been able to park and I've had fun at hyperkarting so I think removing them is a decision that makes no sense especially for Sydney's entertainment industry. Hyperkarting is the only thing keeping the eq fun and alive nowadays the rest of the things there are boring and need a revamp and hyperkarting has already revamped

Thank you
Orlando van der Starre

do not close down hyperkarting please

afaik council is always prioritising public transport even on new commercial builds. the EQ is well served by light rail and busses. additional parking spaces go against the trend

hyperkarting is an innovative business that as a parent has benefited greatly by taking my once 3yo kids gokarting in a safe environment. a market served by no other gokarting place. afterwards the varied businesses like bowling and food places get a visit.

hyperkarting is a unique and id say the main attraction or EQ. removing it will hurt the other businesses too.

keep it alive
thankyou

Sydney already suffers from a lack of diverse recreational activities, and Hyper Kart offers a rare high-quality experience close to the CBD. The Moore Park location is uniquely accessible via multiple modes of public transport, sacrificing a premier entertainment venue just to add more parking spots feels like a step backward for the city's offering. We should be prioritizing active entertainment over shoving in more vehicles.

Hi,

I want to send a message of support for hyper carting to be allowed to continue to use its current location at Moore Park rather than the proposed additional parking level. There are few other options like this around and we should be encouraging public transport, not more cars into the venue. The carpark is jammed up at peak times now when people are departing without adding another level.

The carting brings extra business to the food and beverage venues that the additional carparking will not as it will generate little additional attendance.

The location of the carting track is good too, as it is not adjacent to residents.

Regards,

Philip Whitehouse

To whom it may concern,

I am concerned that Hyper Karting is being asked or forced to shut down. I am writing from the US to ask that you reconsider this request or decision.

This is one of the most unique experiences, go karting in a parking lot is straight out of a Fast and Furious movie. My fiancé and I visited during our engagement trip to Sydney, Australia and is a memory that we will never forget.

We plan to visit Sydney again (this would be the 4th time for me, 3rd for her) in the future and are definitely looking forward to visiting Hyper Karting again and would be deeply sadden if it was no longer there.

Thank you for your attention to this matter, Ray Kwong [REDACTED]

To Whom it may concern,

Hyperkarting Australia has opened its doors to the public to promote safe and fun, driving and racing for the past 5 years.

The lack of facilities like this in Sydney as a whole is devastating to every fellow rev-head and driving lover, and to be potentially taking one away would negatively affect any and all of these communities near and far.

As someone who drives an hour to this location, this is a testament enough to how loved and needed this facility is in the Sydney region as a whole.

We shouldn't be taking these things away, we should be adding more.

Thank you for your time.

Hi,

I have visited HyperKarting many times over the last few years with my family and mates. It is a place when fun can be had for all ages at a relatively low cost. Easy to get to and with great operating hours this place is a great asset to the community as well as being a boost to the local economy and jobs.

This business must be allowed to continue and prosper into the future. It must not and should not be forced into closure for the sake of a few extra car parking spaces.

With Council having been on a push for many years regarding the need for less cars to be on our roads and for better use of public transport hubs it seems nonsensical for council to now want to have even more car parking spaces to the detriment of the broad cross section of the community who use this great facility.

Don't close it!

Regards,
Scott Cootes

To the City of Sydney Council,

I am writing to express my strong support for Hyper Karting's continued operation at the Entertainment Quarter in Moore Park, and to oppose any proposal that would see it displaced to make way for additional parking.

Hyper Karting represents a unique and highly valued recreational facility within Sydney. It provides an accessible, family-friendly, and innovative activity that contributes significantly to the vibrancy and diversity of the Entertainment Quarter precinct. Facilities like this are increasingly important in creating dynamic urban spaces that attract both locals and visitors.

The Entertainment Quarter has evolved beyond a simple events and parking hub—it is now a destination in its own right. Hyper Karting plays a key role in that transformation by offering an experience that cannot be easily replicated elsewhere in the city. Removing such an attraction in favour of additional parking would diminish the precinct's appeal and undermine broader efforts to activate urban spaces with engaging, non-passive uses.

At a time when cities worldwide, including Sydney, are working to reduce car dependency and encourage public transport, active travel, and shared mobility, prioritising more parking over unique recreational infrastructure seems counterproductive. Moore Park is already well-served by public transport and event-based transport planning, which should continue to be the focus rather than expanding car parking capacity.

Furthermore, Hyper Karting supports local employment, small business activity, and the night-time economy. Its presence encourages longer stays within the precinct, benefiting surrounding retailers, hospitality venues, and the broader local economy.

I respectfully urge the City of Sydney to support the retention of Hyper Karting at the Entertainment Quarter and to consider the long-term social, economic, and cultural value it brings to the community. Protecting distinctive attractions like this ensures Sydney remains a vibrant, engaging, and forward-thinking global city.

Thank you for considering this submission.

Yours sincerely,

Steve Gandel

Hello City of Sydney,

I am writing to strongly oppose the proposed closure of Hyper Karting at Moore Park.

As someone who has visited Hyper Karting on numerous occasions and recommended it to friends and family, I have seen firsthand the value it brings to the community. It is a unique, accessible recreational venue that appeals to a wide range of people, and contributes meaningfully to Sydney's social and entertainment landscape.

Facilities like this are increasingly rare in Sydney. Hyper Karting provides a safe, engaging, and active form of entertainment that encourages social interaction and offers an alternative to nightlife centred around alcohol. Its presence in Moore Park enhances the vibrancy of the area and supports local visitation.

The loss of this venue would not only remove a well-loved activity, but also reduce the diversity of entertainment options available in the city. Sydney already faces criticism for lacking accessible and exciting recreational spaces, and closing venues like this only reinforces that perception.

I respectfully urge the City of Sydney to reconsider this proposal and explore alternatives that would allow Hyper Karting to continue operating.

Thank you for considering my submission.

To Whom It May Concern,

We were shocked and saddened to hear the plans to close down our most loved go karting track.

I am writing to you not as a statistic, not as a line item in a budget review, but as a parent — one of many in this community who is heartbroken at the prospect of losing our local hyper-kart track.

Please hear me out, because what is at stake is far greater than an indoor track and a set of small engines. What is at stake is the heart of our community's childhood.

I remember the first time I buckled my child into one of those little karts. The wide eyes. The grip on the steering wheel. The look they gave me before pulling away — equal parts terrified and exhilarated. In that moment, I watched my child discover something about themselves: that they were capable, that they were brave, that the world was full of adventure waiting to be seized.

That moment did not happen on a screen. It did not happen in a living room. It happened here — at our hyper-kart track — and it is a memory my family will carry forever.

This track is not a facility. It is a gathering place. It is where birthday parties overflow with laughter. Where children who barely knew each other's names at the start of a race are best friends by the end of it. Where parents stand side by side at the barriers, strangers one moment and neighbours-in-arms the next, united by the shared joy of watching their kids race.

In a time when screens increasingly isolate our children and public spaces seem to be disappearing one by one, this track offers something increasingly rare and precious: genuine, joyful, face-to-face connection.

If this track closes, we lose more than a weekend activity. We lose a tradition. We lose the Friday evening ritual, the "one more race" that stretches into evening light, the smell of rubber and electric sparks that our children will one day describe to their own kids as "the place we used to go."

We lose a safe space — a supervised, active environment in a world desperately short of them. We lose the track where our shy children grew bold, where our competitive children learned to lose with grace, and where every single child, regardless of background or ability, got to feel like a winner.

I ask you to think back to the places of your own childhood that shaped you. The field, the park, the local pool, the corner that was just yours. Imagine being told that place was being taken away. Imagine the loss not just of the physical space, but of everything it represented.

That is what our children face today. They are not old enough to write these letters themselves,

but they feel this deeply. I am writing on their behalf, and on behalf of every family who has ever left that track with sore cheeks from smiling, and children who fell asleep in the car on the way home — content, happy, and tired in the very best way.

I implore the council to reconsider this decision. Explore every avenue — funding alternatives, community partnerships, revised planning — before closing a door that, once shut, cannot easily be reopened. The children of this community deserve better than to have their joy quietly decommissioned.

Please. Keep the track open. Keep the memories alive. Keep our community whole.

Yours sincerely,
Tal Allen

A Concerned Parent and Community Member

This email is in support of hyperkart being able to remain operating from the car park at the Entertainment Quarter.

Our family love the place and there is nothing else like it. To think that they would be displaced for a “just in case” need for parking of so few cars on so few days, just makes no sense.

Please don't go ahead with this change and let us continue to enjoy our time there and keep those great staff employed!

Thank you,
Aylie Brutman

Dear Shannon Rickersey,

I'm reaching out regarding the proposed removal of the Sydney HyperKarting arena, and I would like to express my strong hope that this decision can be reconsidered.

Sydney HyperKarting is a source of great memories for me and my friends, it's a place that provides a fun and positive way to let off steam and hang with friends.

Replacing the arena with a carpark would remove a one of the few remaining good and interesting things about Sydney. It's rare to have a facility that contributes so much to the vibrancy and spirit of city, both the day and nightlife. HyperKarting offers an experience that goes well beyond utility, helping to shape positive memories for both locals and visitors alike.

I truly believe that preserving Sydney HyperKarting would be more beneficial than converting the site into a carpark. It adds value to the community in ways that a carpark simply cannot, and its loss would be felt by many who have come to love everything it represents.

Thank you so much for considering this perspective. I hope you'll agree that some places are worth keeping, not just for their function, but for the joy and sense of belonging they create.

Best regards,

Tom M

Dear Sir/Madam,

This pertains to the above DA to remove HyperKarting as a tenant at the above address.

Keeping this business is extremely pivotal to Sydney's success and the ongoing development to make it a worldwide city.

The experience to go kart is like nothing else and it's such a bonus having such a great activity at the door steps of the CBD. Usually these kinds of activities you'll find way out west and to have this here makes it's much more accessible to everyone.

I've had the best experiences at this place of business and have met some amazing friends and the team at HyperKarting.

Please reconsider and keep this wonderful and unique business at the forefront of Sydney's vision.

Best,
Troy

To whoever it may concern,

Without Hyper Karting, a significant slice of the “Entertainment” is removed from the EQ. It brings me and my friends together and we love how accessible it is for all skill levels to experience the excitement of racing in a safe and affordable away.

I've never seen the parking level below HyperKarting more than 10% full and for the 5 days of the year where the extra parking is needed, there is enough at the grass field next to the light rail stop and at centennial park.

Regardless, the council should be advocating for the use of public transport for large events instead of accomodating for more cars which creates even more delays and risks on our already overcrowded roads.

Shutting down HyperKarting would be a massive mistake, costing thousands of fans of a hobby and a place to celebrate and socialise as well as the 150 jobs it provides.

Regards,
Vincent Vangi

I am writing to express my strong support for the Hypercarting facility and to urge the council to reconsider any plans to revert this vibrant space into a standard car park.

Hypercarting represents a bold, innovative use of space that brings genuine value to our local economy and community. Simply returning this area to asphalt would be a significant step backward. I encourage the council to consider the following benefits of maintaining this site:

- Activating the Parklands: This facility successfully draws people toward an underutilized area, transforming it into a high-energy destination that breathes life into the precinct.
- Vertical Innovation: Hypercarting demonstrates how we can maximize a footprint by building upward, creating a multi-dimensional experience for both residents and tourists.
- A Unique Vision: Our community deserves distinct recreational hubs that set our area apart from neighboring councils.
- Smart Parking Solutions: We do not need to sacrifice local business for parking. A more creative approach would be to open the field for overflow parking on weekends only, maintaining the facility's operations during the week while addressing peak traffic demands.

Converting this site back into a permanent car park would be a waste of a high-potential community asset. I ask that the council continues to support local business and "outside the box" thinking for our public spaces.

Sincerely,

Sam Whitaker

Subject: Submission - Review RD/2023/897/A – 116 Lang Road, Moore Park NSW 2021 - Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Att: Shannon Rickersey

Dear Shannon

I write to lodge an objection in relation to the above-mentioned application, following the City of Sydney's decision to refuse an application to extend the operating approval for Hyperkarting at 116 Lang Road, Moore Park NSW 2021.

The Hyperkarting facility provides a well-utilised recreational use that is consistent with the established entertainment and sporting character of Moore Park. Its continued operation contributes positively to the activation of the precinct, supports local employment with over 150 employees, and provides a lawful, managed recreation option for the community.

The proposed closure would materially diminish the diversity of recreational uses within the Moore Park precinct and is likely to reduce visitation outside major event times. This outcome would be inconsistent with planning objectives that seek to promote active use of public precincts and support a mix of leisure activities.

The proposed closure of the Hyperkarting facility would result in the site reverting to car parking, despite the existing car park being materially underutilised almost all of the time.

For these reasons, I respectfully request the operating approval for Hyperkarting be extended in accordance with the development application.

Kind regards
Ben

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

This is the most popular attraction at the Moore Park entertainment precinct.
The place was rescued from being a white elephant by the opening of this outlet.

It may not be entertainment that suits the aging in-group that appears to be in charge at the moment, but that does not mean it should be shut.

The go kart track means more business for the food outlets, and makes it more likely that the cinemas will be attended (they are otherwise in massive decline, you must acknowledge).

This area will revert to windswept emptiness without the go kart track.

Dear Shannon,

I hope you are well. I wanted to send my sincerest support for keeping Hyper Karting Sydney at Moore Park.

Apart from the fun and exciting activity it provides people of all ages which is undeniable, I'd like to speak to the management of Hyper Karting which speaks volumes of the support it's getting.

I have two sons who have enjoyed hyperkarting as an activity for years. One of my sons started working there last year and I have been nothing short of impressed with how it's run. I have seen him go through training, get regular feedback, progress his skills all in an extremely well thought and positive work environment.

The comments I've read in many of the feeds, don't just speak to the fun of the activity but how great the staff are! This is a true testament to the management and staff who live what they do and do it with pride.

Activities in Sydney are few and far between so when HyperKart moved to EQ it was a game changer!

We'd be so grateful for your support in keeping Kyper Karting Sydney open.

I'd be very happy to answer any queries you may have if needed.

Very best wishes,

Mary

Hi there,

We are local residence and have frequented Hyper Karting over the last 2.5 years. It's a great community meeting venue and has given my kids the opportunity to experience karting. This has been life changing as my oldest son now races at state and national level. We are grateful for the encouragement and support given to us (and other families) by the staff at Hyperkarting. We have never experienced the carpark being close to full so struggle to see a benefit to the community by offering more spaces at the detriment of Hyperkarting. We support Hyperkarting remaining open as a vibrant community hub.

Regards,

Adam Cameron

Dear Shannon,

I am writing to express my concern regarding the decision to close Hyper Karting (HK).

My understanding is that the council had previously approved expansion plans for this site.

If that is correct, the decision to now move toward closure raises questions around consistency and long-term planning.

From a community perspective, Hyper Karting provides a valuable local recreational option for families.

In my experience, parking availability within the EQ precinct has not been an issue during visits or events, which makes the rationale for closure difficult to understand.

More broadly, the decision appears at odds with the council's stated commitments to sustainability and community engagement.

Removing a local recreational venue is likely to push families to travel further afield, increasing both cost and environmental impact.

At a time when many households are already under financial pressure, and local businesses are navigating challenging conditions, decisions like this have wider implications - not only for the business itself, but for employment and surrounding businesses that benefit from foot traffic in the area.

Decisions of this nature should be clearly justified, particularly where they impact community access, local employment, and small business viability.

I would strongly encourage the council to reconsider this decision, or at the very least provide greater transparency around the rationale and any alternative solutions that have been explored.

Kind regards,

Alan

Dear Sir / Madam

I am writing as a nearby resident of Renny Street in Paddington to express my strong support for Hyper Karting and to advocate for its continued operation.

Having a quality local entertainment option within close proximity is incredibly valuable for families in our area. Facilities like this provide safe, engaging, and accessible activities for children and adults alike, without the need to travel long distances. In a dense inner-city environment, this type of amenity plays an important role in community wellbeing and lifestyle.

My family and I have personally attended multiple children's parties at Hyper Karting, and each experience has been extremely positive. The venue is well run, enjoyable, and offers something genuinely different compared to typical entertainment options. It has become a reliable and much-valued destination for celebrations and social gatherings.

It is genuinely distressing to hear that the venue may close. The Entertainment Quarter is already, in my view, an underutilised asset, and Hyper Karting is one of the few attractions that actively draws families and visitors to the precinct. Removing it would be a step backwards.

Our area does not need fewer facilities like this-it needs more. Retaining Hyper Karting would support local families, encourage greater use of the Entertainment Quarter, and contribute positively to the community.

I strongly urge you to support the continued operation of Hyper Karting.

Yours sincerely,
Alan Bennett

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon Rickersey,

I hope you are well.

I am writing to express my strong support for the continued operation of Hyper Karting at the Entertainment Quarter in Moore Park.

Hyper Karting has become one of the most unique and exciting attractions in Sydney. It brings energy, entertainment, and repeat visitation to the precinct, while giving locals, families, groups of friends, and visitors another reason to come to the Entertainment Quarter beyond major event days. It adds real value to the area and helps make the precinct feel vibrant and active.

I understand there may be concerns about preserving parking capacity. However, from my own experience visiting the Entertainment Quarter, the case for replacing Hyper Karting with additional parking does not feel convincing. Even when there are popular events in Moore Park, the expanded car park does not always appear to be fully utilised. By contrast, Hyper Karting is an active attraction that contributes to the identity, appeal, and economic activity of the precinct.

Removing a destination like Hyper Karting in order to prioritise more car spaces would be disappointing, especially when Hyper Karting is exactly the kind of entertainment offering that helps the Entertainment Quarter stand out. It is not just a business; it is part of the precinct experience and something that many people genuinely value and want to keep.

I respectfully ask the City of Sydney to reconsider any decision that would put Hyper Karting at risk and instead support its continued operation. Keeping Hyper Karting open would help preserve jobs, encourage local visitation, and maintain a unique entertainment experience in Sydney.

Thank you for taking the time to consider this submission.

Kind regards,

Aldwin Arambulo

Dear Council Team,

I am writing as a Sydney resident and supporter of Hyper Karting to express my strong support for this business and to urge Council to do everything reasonably possible to help it continue operating.

Hyper Karting is a unique and valuable attraction for Sydney. It provides a safe, engaging and memorable experience for families, children, young adults and the wider community. Venues like this are increasingly rare, and once lost, they are very difficult to replace.

Beyond entertainment, Hyper Karting contributes positively to the local economy, creates jobs, brings visitors into the area and adds to Sydney's diversity of family-friendly recreational activities. It would be a real loss to the community and my family if it were forced to close permanently.

I strongly encourage Council to work constructively with the operators to explore practical solutions that would allow Hyper Karting to remain open.

Please consider the significant community value this venue brings when making your decision.

Kind regards,

Anand Venkatachalam | [REDACTED]

Dear City of Sydney

I came to enjoy and promote Moore Park's Hyper Karting just earlier this year. So I'm saddened to hear it may be forced to close in less than a year.

I've attended the Entertainment Quarter for a number of events, and the parking has never been filled to capacity in the times I have visited.

The decision to not renew a popular attraction for people from all over Sydney for car spaces that are not required is unwarranted.

Furthermore, Hyper Karting also brings my friends and I to eat a meal at the surrounding food attractions. The removal of Hyper Karting is a loss to surrounding businesses.

If there are hidden motives for its forced closure, those reasons should be revealed so they can be either accepted or challenged by the public.

As it stands, there appears to be no justifiable reason for forcing Hyper Karting out of its current space.

Please renew the approval for Hyper Karting to operate in the Entertainment Quarter, providing ongoing fun, business, and entertainment options for many patrons for years to come.

Kind Regards

Andrew Drury

Hi team,

Hyper Karting should be able to stay where they are, the business has been a source of entertainment for myself and family for many years.

It's a fantastic contribution to the community, there are not many places left that offer the entertainment and environment Hyper Karting do.

Regards,
Andrew Horinka

The hyperkart track must remain open. It provides an action experience which is safe and quiet (electric karts). We have used it for business outings and friend outings.

It is easy to get to and gets people away from screens. It is vital to support any recreational activity like this.

Regards, Andrew.

Dear Shannon Rickersey,

I write in support of Hyper Karting at 116 Lang Road, Moore Park. I have attended the venue on multiple occasions, both as a workplace team activity and as a leisure outing with friends, and consider it a genuinely valuable recreational asset for the area.

As a venue easily reached on foot and light rail, it serves the community without relying on private vehicles, which aligns well with inner-Sydney planning priorities. Replacing or reducing this use in favour of parking would be a poor outcome. Car parking generates minimal community benefit and counters efforts to reduce car dependency in well-connected urban areas.

I respectfully urge that Hyper Karting be prioritised over any parking proposal in this location. Thank you for considering this submission.

Kind regards,

Ben Cardenas

Hyper Karting has been a fantastic experience for both work colleagues and my kids! Nowhere else has been able to give my kids the experience this place has and it shows in the excitement on their face every time we mention it!

Please don't shut hyper karting down, it's an iconic karting experience and by far the most accessible and talked about one in all of Sydney!

Kind regards,
Brad

Dear Council Members,

I am writing to express my strong opposition to the proposed closure of our local go-kart track, a valued facility that has long served as a cornerstone of recreation, employment, and community engagement in our area.

This track is far more than just a place for leisure. It provides employment for over 100 local residents, contributing significantly to our local economy and supporting many families. At a time when job security is increasingly important, the loss of these positions would have a tangible and negative impact on our community.

Equally important is the role the track plays in bringing people together. It offers a safe, structured, and enjoyable environment where children, young people, and adults alike can participate in a fun and engaging activity. For many families, it is one of the few accessible recreational outlets that caters to all age groups, encouraging social connection, outdoor activity, and skill development.

As a local resident, I would also like to address concerns that may relate to parking and traffic in the area. In my experience, I have not observed any significant or ongoing issues with parking availability. Additionally, during major events in the surrounding area, parking fees here are often set at a level that is excessively high and difficult to justify, placing an unnecessary financial burden on visitors. This broader context should be taken into account when assessing any claims regarding parking pressures.

Closing this facility would not only remove a beloved community asset but also reduce opportunities for positive, healthy recreation in our area. In an era where encouraging active lifestyles and community interaction is more important than ever, the loss of such a venue would be a step in the wrong direction.

I respectfully urge the Council to reconsider this proposal and explore alternative solutions that preserve the go-kart track while addressing any concerns that may have been raised. Protecting local jobs, supporting small businesses, and maintaining accessible recreational spaces should remain a priority.

Thank you for considering the views of residents who value this important part of our community.

Regards,
Brad Thomas

Dear City of Sydney,

I'm writing to express my support for keeping HyperKarting open and urge you to reconsider plans to replace it with a car park.

HyperKarting provides a unique recreational space for the community, offering entertainment, social connection, and an active experience that a standard car park simply cannot replace. Spaces like this add value to the city's lifestyle and appeal.

Please consider preserving this venue for the benefit of residents and visitors.

Kind regards,
Charlene

Dear City of Sydney Council,

I am writing as a long-term patron of Hyper Karting at the Entertainment Quarter in Moore Park to express my strong opposition to the decision to deny a lease extension for this outstanding facility.

I have been visiting Hyper Karting for many years and it is, without question, the primary reason my family and I make the trip to the Entertainment Quarter. When we visit, we don't just race — we spend time and money across the entire precinct, enjoying the restaurants, bars, and other businesses that make up the quarter. Without Hyper Karting, I have no reason to visit the Entertainment Quarter, and I will not be doing so.

I appreciate that parking availability in the precinct is a genuine concern, particularly as on-grass overflow parking at Moore Park is progressively phased out. However, I understand that Transport for NSW data shows the car park has reached full capacity only a handful of times across 84 major events since Allianz Stadium reopened. This suggests there is room for a balanced solution — one that doesn't require the complete removal of a thriving, well-loved attraction.

I respectfully urge the Council to:

- Reconsider the decision to reject the two-year lease extension
- Engage with Hyper Karting to explore a compromise that addresses parking needs without eliminating the facility
- Consider the economic and social contribution this venue makes to the Moore Park precinct and the broader community

Sydney is actively working to revitalise its entertainment and nightlife offering. Closing one of its most popular and distinctive attractions — to restore car parking that data suggests is rarely needed — sends the wrong message entirely.

I hope the Council will reconsider this decision and work collaboratively toward a solution that preserves both parking capacity and this irreplaceable community asset.

Thank you for taking the time to consider my submission.

To Whom It May Concern,

We came all the way from Perth Western Australia to do the Hyper Karting.
We attended on the Easter weekend

It was so much fun, extremely well organised and great value.
I cannot imagine a reason to shut this group down or relocate them.
The position was fantastic we were able to go and eat and drink afterwards.

Considering we heard about the Hyper Karts from other friends in Perth it clearly evidences the fact they pack a punch in the "things to do in Sydney" scene.

We really hope you keep this and something similar opens up in Perth

Many thanks and kind regards,

Claire O'Donnell

Dear Council Members,

To I am writing to formally object to the decision to reject the operating approval extension for Hyper Karting at the Entertainment Quarter <https://urlscanner.mailmarshal.cloud/?c=16815&d=joPV6Sgy-0SL3hmcqvpun_3hFG9gwkeLDs-717VODQ&s=115&u=https%3a%2f%2fhyperkarting%2ecom%2eau%2f> (EQ). This facility is a vital community asset, and its removal would be a significant loss to Sydney's recreational landscape for the following reasons:

- * **Loss of a Key Attraction:** Hyper Karting is one of the busiest attractions in the precinct, welcoming over 500,000 visitors since 2021. Closing it removes a primary reason for families and tourists to visit the EQ outside of major sporting events.
- * **Job Insecurity:** The closure puts more than 150 local jobs at immediate risk, which is a devastating blow to the local workforce and the economy.
- * **Misalignment with Future Vision:** The NSW Government and Premier Chris Minns have expressed a desire to transform the EQ into a "year-round hospitality, events and culture destination". Replacing a high-tech, eco-friendly electric karting facility with empty car parking spaces contradicts this vision of a "city for people, not cars".
- * **Inclusive Community Resource:** The track is a rare facility used by disability groups and provides an accessible, all-weather activity for various community sectors.
- * **Redundant Parking:** With the opening of a new 1,500-space underground car park at Allianz Stadium, the need for Level 5 of the EQ car park to return to vehicle use is highly questionable.

I urge the Council to reconsider this decision and grant the requested extension to ensure Hyper Karting remains a centerpiece of the Moore Park precinct.

Regards

To whom it may concern,

I am writing as a regular customer to strongly support Hyper Karting's application to extend their operations on Level 5 of the Entertainment Quarter car park in Moore Park.

Over the past two years I have visited Hyper Karting approximately 10 times, travelling from the Northern Beaches each time. It is an excellent facility with friendly staff who consistently deliver a great experience. Importantly, it is by far the most affordable go-karting option in Greater Sydney — their top session price of \$54 is roughly half what competitors in Eastern Creek, Villawood and other western locations charge for similar 10-minute sessions.

The location is also highly convenient, being just a short walk from the Moore Park light rail stop that connects directly to the CBD. After karting sessions, many customers naturally move on to the restaurants and pubs in the Entertainment Quarter. Removing Hyper Karting would likely reduce foot traffic and hurt these nearby businesses, especially on weekday evenings when there are fewer alternative activities in the precinct.

From my own experience attending major events at Allianz Stadium (including both nights of Travis Scott's concerts), I have never seen the Entertainment Quarter car park reach capacity. Even arriving without excessive earliness, I was able to find good parking on Level 3. This suggests the 287 spaces on Level 5 are not under constant high demand.

Hyper Karting has proven to be a popular, family-friendly attraction that supports local jobs and brings visitors to the area. I respectfully urge the Council to approve the extension so this valuable community and economic asset can continue operating while longer-term planning for the precinct is finalised.

I apologise if any part of this submission comes across too strongly — I simply feel very passionate about preserving one of Sydney's most enjoyable and accessible entertainment options.

Thank you for considering my views and for your work on the Moore Park precinct.

Kind regards,

Dale Spelman.

Please save the karting. Its a great place to spend birthdays and the weekends.

We need more entertainment options like this in Sydney.

We also need less car parks. The council should force people to use public transport, please dont make it easier for them.

Thanks,

David

To whom it may concern,

I am writing to express my concern regarding the decision to revoke the licence for Hyperkarting at Moore Park.

I've been attending the venue casually for several years, and it's consistently provided a unique and enjoyable recreational activity. It makes effective use of a space that is otherwise mostly underutilised, while offering a safe and accessible way for people in the city and surrounding communities to experience karting.

Facilities like this contribute positively to the local area by encouraging social engagement and providing an alternative form of entertainment. I believe its removal would be a loss to the community.

I hope that this decision be reconsidered.

Kind regards,

Dean Belcastro.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

I am writing to formally express my concern and disappointment regarding the refusal of the Section 4.55(2) Modification Application to extend the time-limited development consent (RD/2023/897/A). This application sought to permit the continued use of Level 5 of the Entertainment Quarter car park for electric go-karting and associated entertainment activities until 1 July 2028.

Hyper Karting is a well-established, family-friendly attraction that contributes meaningfully to the local economy, draws visitors to the Entertainment Quarter precinct, and provides a safe, engaging recreational option for families, children, and tourists alike. Facilities of this kind are precisely what makes Sydney a vibrant and liveable city.

The Council should reconsider this decision and reflect on its broader obligations to support businesses that activate public spaces, create local employment, and cater to the growing demand for family-oriented entertainment in our city. The Entertainment Quarter is ideally suited to this type of use, and the extension requested — a modest continuation to mid-2028 — is both reasonable and proportionate.

Regards,
Des Lim

Dear Shannon Rickersey,

I am emailing regarding the closure of HyperKarting at Moore park.

Closing hyperkarting would undoubtedly reduce foot traffic in the entertainment precinct. For me, it is the only reason I visit the precinct at all. There are no other go karting facilities nearby myself or close to the CBD for work events. Closing it would remove any incentive to visit the precinct.

Removing HyperKarting for extra parking is misguided. You will only induce demand for parking during short periods (like sporting events) while killing the precinct outside of these infrequent events.

Regards,
Diarmuid

The refusal of this application on the grounds of impact to car parking spaces is contrary to your very own council mandated strategies.

Per council's transport and access strategy it is specifically quoted as:

"We are encouraging people to travel by public transport, bike or foot to ensure our city remains sustainable and attractive while still meeting the needs of businesses that have set up shop in the local area."

With the emergence of the light rail, why are you looking at reintroducing more parking spaces and increasing the congestion in the area. Furthermore, based on the parking data, the notion that the Hyperkart establishment should suffer as a result of <20 days where additional parking is mildy near capacity (i.e. 80%+) is somewhat ludicrous.

Hyperkarting is not only a family friendly and inclusive activity, the karts being electric are not only zero tailpipe emissions but also cause minimal noise. It remains the best use of a largely unused car park level I have ever seen.

Perhaps council time should be better spent on making decisions on how to better improve the access to the surrounding area instead of making decisions that encourage higher traffic congestion, greated carbon emissions and overall degrading the limited night time economy that exists in the EQ at the moment.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Hi,

I hear City of Sydney wants to close Hyper Karting at Moore Park for more parking.

This is pretty sad news as parking in the Eastern Suburbs, in that area, is pretty reasonable, as are public transport options. I've taken my children to Hyper Karting before and will continue to take them as it's an experience that is fun, a little different and great for those who don't like traditional sports. It's what they want for their birthday present each year and a great activity for tweens and teens to participate in.

Please don't close Hyper Karting for parking - there are other options for parking nearby and people can use public transport. If parking is such an issue, put restrictions in place with new builds. There are huge numbers of apartment buildings in the surrounding area that have been built in the past 15yrs, with even more going in and with those apartments, not every one of them has a parking spot - start with changes to this, it would mean more cars off the street and give people the option who don't need it to lease theirs. Many apartments that do have parking only have one spot and, again, the option to add another to their title, or to hire from the strata would be better than forcing resident cars onto streets.

I know, you'd prefer people using public transport, it's simply not a reasonable option for many, which is why parking is important in apartment buildings.

We come from North Sydney to access Hyper Karting and using public transport isn't really feasible - it would take us 90-120 to get there via public transport.

I've also been with my Scout Group (we carpooled), 26 Scouts and they love it! They want to go again in May. The older Scout section also has 28 members and they also want to go. The closest similar opportunity for us is Western Sydney, which is 90-120mins driving and most of those are outdoor tracks so are weather dependent. The beauty of Hyper Karting is when it rains (which Sydney has had lots of in the past few years!) this is an activity that we can get out and do.

Hyper Karting is a fabulous experience for all the people living within a 45-60mins drive to be able to access, and many of those could use public transport to get there. It's also close enough to the city for tourists to use - it's something we look for on our holidays out of Sydney all the time now, the opportunity to go hyper or go karting because it's great for teenagers and families.

Kind regards,
Emma Vozzo

Hi Shannon,

Hyper Karting are wonderful contributors to the local community and to Sydney more broadly. I went karting there as part of my 40th birthday, and it was the most talked about part of the celebration, such a great experience~

Please do not shut them down. 🙏🙏

Kind regards,

Emmanuel Andronicos

Hi,

I'm writing to express my support for keeping Hyperkarting Sydney open and operating.

Venues like Hyperkarting are exactly the kind of small business that makes Sydney's entertainment scene worth showing up for.

They're independently run, they create local jobs, and they offer something genuinely different, the sort of experience that big chains and shopping centres simply can't replicate.

Losing a business like this doesn't just affect the owners. It affects the staff who work there, the suppliers they rely on, and the community that genuinely enjoys having it around.

Small businesses fold quietly, and once they're gone, they rarely come back.

I'd really encourage any decision-makers involved to consider what's at stake here. Not just a karting track, but a locally run venue that contributes to the fabric of the area.

Thanks for your time.

Grischa

Closing hyper karting would result in so many job losses, the removal of something where people can unwind and forget about their daily stresses and slowly kill off the night life in the surrounding area. All for a few car spaces that would only be occupied when other venues in the surrounding area are booked out. The solution isn't closing hyper karting its finding more room and opening other sections to allow for parking.

Best of luck hyper karting team

Don't put a bloody carpark where there is an amazing karting, celebration and video game arcade venue there. Went there for the first time 2 days ago and had a blast with the karts.

There are people there that depend on their jobs at hyperkarts. Imagine if you or your family members had their jobs taken away because of a parking lot lmao.

Best of luck to Hyperkarting

Hello

For entertainment options such as this particularly for younger people close to inner urban locations this is priceless.

I would strongly support reconsidering this business continuing to have this space to provide this service in place if some additional parking to a car park that already provides many parking spots.

Kind regards

Ian Perry

To Shannon Rickersey and the City of Sydney Council,

I am writing to express my support for the continued operation of Hyper Karting. As there are very few high-quality karting venues available in Sydney, this facility is a vital entertainment facility for the community. I urge the Council to consider the value it brings to Moore Park and allow it to remain open.

Thank you for your consideration.

Best regards,
Isaac Lam

Good afternoon city of Sydney council

I'm once again writing to implore you do not shut down Hyper Karting at Moore Park. Not only is it a wonderful social spot and provides Jobs for over 100 people. But it's also a spot that prides itself on being accessible for those living with Disabilities, removing this would make the lives of those who are disabled harder than it already is.

Please make the best decision for everyone involved.

Regards

Jack McCutcheon

Submission in Support of HyperKarting – Moore Park, Sydney

To whom it may concern,

I am writing to formally express my strong support for the continued operation of HyperKarting at its current location in Moore Park, NSW.

HyperKarting represents a high-quality, modern entertainment offering that aligns with the evolving expectations of both local communities and visitors. As councils increasingly look to activate precincts, drive visitation, and support diversified economic activity, venues like HyperKarting play a critical role in achieving these objectives.

Economic Contribution

HyperKarting contributes meaningfully to the local economy through employment, ongoing operational expenditure, and by driving visitation to surrounding businesses. Attractions of this nature increase dwell time within a precinct, benefiting nearby hospitality, retail, and tourism operators. The flow-on economic impact should be considered a key positive in any assessment.

Community and Social Value

The venue provides a safe, structured, and engaging recreational activity for a broad demographic, including families, young adults, corporate groups, and tourists. In a time where active, social entertainment is increasingly valued, HyperKarting delivers an inclusive experience that encourages participation and connection.

Alignment with Modern Entertainment Trends

Across Australia and globally, there is a clear shift toward experiential entertainment—venues that combine activity, technology, and social interaction. HyperKarting is consistent with this trend and contributes to Sydney maintaining its reputation as a leading destination for innovative leisure experiences.

Activation of Space

The presence of HyperKarting activates what may otherwise be underutilised commercial or industrial space, transforming it into a vibrant destination. This type of activation enhances the overall appeal of the area and supports broader planning objectives around place-making and precinct vitality.

Operational Standards and Management

Facilities of this nature typically operate under strict safety, noise, and operational guidelines. If any concerns have been raised, a collaborative approach between council and operator—focusing on mitigation and compliance—would be a more constructive outcome than closure. Retaining the business while addressing specific issues ensures both community standards and economic benefits are preserved.

Risk of Precedent

The closure of a well-established, compliant entertainment venue risks sending a negative signal to current and future investors in the area. Businesses require confidence and stability to invest in high-quality attractions. Supporting HyperKarting demonstrates that council values innovation, investment, and business sustainability.

Conclusion

HyperKarting is a positive contributor to the local economy, community engagement, and the broader vibrancy of the area. I strongly encourage council to work collaboratively with the operator to address any concerns, rather

than pursuing closure.

Retaining and supporting venues like HyperKarting is essential to fostering a dynamic, economically resilient, and socially engaging Sydney.

Thank you for considering this submission.

Dear Sir/Madam,

I write with great concern in relation to the above proposed closure of the Hyper Karting facility to make way for car parking spaces.

I have visited the Hyper Karting facility on numerous occasions, both weekends and weekdays (and even on special event days), and have never noticed the car park coming even close to capacity such that the Hyper Karting facility could be considered to be occupying space where cars would be parked. There is essentially zero benefit to shutting down the Hyper Karting facility. On the contrary, the detriment to the local community is significant as there are no similar racing facilities anywhere near the city such that local residents will lose a rare source of hands-on motorsport action which cannot easily be replaced. On each occasion I have attended, I did not see anyone leave without a smile on their face, such that the loss of the Hyper Karting facility would be immeasurable.

Based on the above, I would strongly urge the Council not to proceed with shutting down the Hyper Karting facility.

Kind Regards

John Lim

Dear ,Shannon Rickersey

I am writing to express my strong support for Hyper Karting and to urge you to reconsider any plans that would lead to the closure of this business.

Hyper Karting is a fantastic social hub within our community, offering a unique space for people to gather and connect. Furthermore, it provides an accessible and affordable go-karting experience right here in the city, which is a rare and valuable asset for local residents.

It would be a significant loss to see such a vibrant business close down. I believe that the proposed need for extra parking space does not justify the removal of a venue that contributes so much to the local culture and social fabric.

I hope you will take these points into consideration and support the continued operation of Hyper Karting.

Sincerely,

Kesh K

Good morning Sir/Madam,

In regards to the hyper kart race area, I request for your support in their business to stay and let them continue.

I would love to visit places that leaves a good lasting impression and memory in life, and one of those amazing place is the hyper kart racing area.

Thanking you for your consideration in advance.

Yours sincerely,

Ledua

Hi

I don't understand where car parking is now an issue in an already overcrowded high rise accommodation situation.

This business has created jobs and a way for kids to have fun but it actually helped my daughter get her license through driving the karts.

It should not be pushed out but stay.

Thanks

I think it is crazy to have Hyper Carting close down.

It is a great local asset fun for friends and family and brings more people to EQ.

I've never had a problem finding a car park in that facility it seems unlikely it is ever at capacity.

Dear Council,

I write in strong support of the renewal of Hyper Karting's lease.

The proposal to resume control of the car park, at the expense of an established and actively used recreational operator, does not appear to represent an efficient or beneficial use of the space.

From direct experience, I attend Hyper Karting 2–3 times per week. Parking availability has never been an issue. Even during peak periods or organised events, there is consistently surplus capacity within the surrounding car park. In practical terms, the space is not being utilised in a way that justifies displacing an existing, well-used tenant.

By contrast, Hyper Karting generates regular and repeat visitation to the area. This has a clear flow-on effect to surrounding businesses, particularly food and retail operators, which otherwise have limited natural foot traffic (to an extent, non-existent, in the circumstances where there are no events on). Many patrons, including myself, attend Hyper Karting and then spend time at nearby venues. Removing this use will likely reduce overall activity in the precinct rather than enhance it.

Hyper Karting also provides a unique and accessible community offering. It is one of the most affordable karting options in NSW and has created a consistent, engaged user base. In my case, it has developed into a regular activity and interest that would not have been possible without this venue. The facility contributes to local activation in a way that a passive car park simply cannot.

In summary, the current use of the site delivers ongoing economic and community benefit, while the proposed alternative does not appear to materially improve utilisation of the space. On that basis, I respectfully submit that the lease should be renewed.

Kind regards,

Mike

Hello, I love to go to hyperkarting and it would be at a great loss to turn it into unused car spots

This place has been a healthy outlet for me and many of my friends and family to do some exercise and have fun together in a good environment.

I also work in the event industry and have worked many times in the entertainment precinct and have never once seen the car park full.

The city of Sydney does not need more car spots but instead needs more businesses like hyperkarting to stay in operation.

Regards,
Nicholas

Hi Shannon and city of Sydney team

Hyper karting is an incredible venue that had been so helpful in bringing work teams together and lowering the anxiety of my kids as they venture towards car driving in real life. It's proximity to the city is critical to its usefulness and it would be a massive blow to Sydney to see it go.

Regards
Nolan

Dear Ms Rickersey,

I am writing to lodge a submission regarding RD/2023/897/A for 116 Lang Road, Moore Park (Hyper Karting Sydney).

I strongly support the continued long-term operation of Hyper Karting at the Entertainment Quarter and respectfully request that the City of Sydney reconsider the current time-limited approval.

Based on the assessment documentation, it is clear that the proposal performs well across all standard planning considerations. The development has demonstrated compliance with noise requirements, minimal traffic impact, and no significant adverse effects on the surrounding environment or residential amenity. Importantly, the operator has also maintained a strong record of compliance since commencing operations.

Given these findings, the primary reason for limiting the approval period appears to relate not to the merits of the use itself, but to future uncertainty regarding parking capacity in the Moore Park precinct following the planned closure of on-grass parking.

While I acknowledge the importance of managing transport and access to major events, I believe it is not appropriate to constrain an established, compliant, and popular recreational use solely based on projected future parking scenarios that may evolve over time. Sydney is actively encouraging a shift toward public and active transport, and Moore Park is already well-served by light rail and bus networks.

Hyper Karting contributes meaningfully to the Entertainment Quarter by:

- Enhancing the diversity of entertainment offerings in the precinct
- Supporting local economic activity and jobs
- Activating underutilised space within an existing structure
- Providing a unique recreational experience not widely available elsewhere in Sydney

Rather than imposing a strict end date, I encourage the City to consider alternative approaches, such as:

- A longer-term approval with periodic review
- Conditional continuation based on demonstrated transport and parking outcomes
- Integration into broader transport planning strategies for Moore Park

This would allow a balanced outcome that supports both precinct accessibility and the continued success of a well-performing local business.

Thank you for considering this submission.

Dear Shannon,

I am writing to express my strong support for Hyper Karting Moore Park and to urge that the venue be allowed to remain open.

Hyper Karting is a valuable part of the Moore Park precinct, providing a unique recreational experience for the community. I believe it is important to preserve such spaces that offer entertainment and engagement for residents and visitors alike.

Thank you for considering my support for this venue.

Sincerely,

Rupert Hoang

Please save hyper karting. It adds so

Much more to Sydney than more car parking spaces, especially now as people can use the light rail to get there and don't need to drive.

Put families first and give more people a reason to go to the entertainment quarter to make sure the whole area stays vibrant.

Thank you

Sarah Carli

Dear Shannon

I have seen on the news that there is a proposal to close down Hyper Karting in Moore Park.

Hyper Karting is a Sydney icon and is one of the best facilities of its kind in Australia.

I am strongly against the proposal to close it down, and am sure many other Sydneysiders would be of the same view.

Please don't hesitate to email me with any questions.

Kind regards
Sean Tang

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To the Councillors and Planning Authorities of the City of Sydney,

I write to strongly oppose the decision to refuse the extension of operations for Hyper Karting.

This decision represents a fundamental misstep in urban planning priorities, favouring underutilised infrastructure over a proven, high-value community asset.

1. Proven Community and Economic Value

Since opening in 2021, Hyper Karting has transformed previously underutilised rooftop space into a thriving recreational hub. It has attracted significant visitation and supports local employment, contributing meaningfully to the Moore Park economy.

Removing this facility would:

- Eliminate jobs
- Reduce foot traffic to surrounding businesses
- Strip Moore Park of one of its few consistent, non-event-based attractions

This is not speculative value, it is already proven.

2. Misplaced Priority on Parking Over Activation

The justification for removal centres on reclaiming parking spaces. However, replacing a vibrant, active destination with dormant parking capacity is not forward-thinking urban planning, it is regression.

Moore Park should be evolving into a destination, not reverting to empty infrastructure that sits unused outside of peak events.

3. Alignment with Government Objectives

The broader strategic goal for Moore Park is to create a year-round destination for culture, entertainment, and community use.

Hyper Karting already achieves this by:

- Driving consistent visitation
- Providing nightlife without reliance on alcohol
-

Offering structured, safe recreation

Removing it directly contradicts these objectives.

4. Social and Inclusive Impact

Hyper Karting provides more than entertainment. It offers accessible, structured activity for a wide range of people, including those seeking safe and engaging social environments.

Facilities like this are essential for:

- Youth engagement
- Social connection
- Inclusive participation

5. No Demonstrated Harm

The venue has operated without significant issues. Noise, safety, and operational impacts have been managed appropriately.

There is no clear justification for removal based on harm.

6. Personal Impact, What This Place Actually Means

For me personally, Hyper Karting has been more than just an activity.

It has been a **go-to place on late nights and quiet days**, when there is genuinely nothing else to do in Sydney that offers the same kind of experience. It is one of the few venues where you can show up with friends, switch off from everything, and just enjoy yourself in a safe, structured environment.

That matters more than it might seem on paper.

Sydney often talks about creating vibrant, engaging spaces, but places like this already exist, and they are rare.

Everything about the venue works. The concept, the atmosphere, the experience. It should not be altered, and it certainly should not be removed.

7. A Reasonable Compromise Exists

This is not an either-or situation.

A balanced solution is entirely achievable:

- Temporary extension
- Partial parking integration
- Inclusion in future redevelopment planning

Outright removal is the least effective option.

This decision risks replacing a successful, community-loved destination with underutilised infrastructure.

Sydney does not lack parking. It lacks engaging, accessible spaces that people actually want to use.

Hyper Karting is one of those spaces.

I strongly urge the City of Sydney Council to:

- Reconsider the refusal
- Engage with stakeholders
- Prioritise activation over inactivity

This is a chance to support something that already works, not remove it.

Kind Regards,
Sharul Kumar

I am writing to request Hyper Carts stay open. It is one of the best things to do in Sydney & adds to the benefit of other businesses. What do you do after an hour of racing? Go eat! At one of the yummy local cafes downstairs. It helps the location is so convenient. To hear Hyper carts could possibly be closing was devastating. My boyfriend (at the time, now husband) took me on a date there. It was one of the best dates. It was a sunday morning , we left the northern beaches at 6 am to get there for our 7 am session. It was such a fun way to start our day. Now being married I look forward to getting to do that in the future. I hope Hyper carts get the support they need to stay open & contribute to making Sydney a better city.

Subject: Submission - RD/2023/897/A - 116 Lang Road, Moore Park NSW 2021 - Attention: Shannon Rickersey

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To Whom it May Concern,

I am writing to formally express my support for the continuation of Hyper Karting at Moore Park and to strongly oppose any proposal for its closure.

Hyper Karting has become a valuable recreational facility within the Moore Park precinct, offering a unique and accessible activity for families, young people, and the broader community. It provides a safe, controlled environment for motorsport enjoyment and contributes positively to local tourism, entertainment, and the local economy.

Beyond recreation, Hyper Karting plays an important role in community engagement. It creates employment opportunities, supports local businesses through increased foot traffic, and offers a social outlet that encourages people to gather in a safe and supervised setting. Facilities like this are especially important in urban areas where accessible, family-friendly activities can be limited.

Closing Hyper Karting would remove a well-utilised and much-loved attraction without offering a comparable alternative. For many in the community, it represents more than just entertainment—it is a place for celebrations, bonding, and shared experiences.

I respectfully urge the council to consider the significant social, economic, and community benefits that Hyper Karting brings to Moore Park. Retaining this facility aligns with supporting active lifestyles, local business, and vibrant community spaces.

Thank you for considering this submission.

Yours sincerely,

Stephanie Cvetanoski

Dear Shannon Rickersey,

I am writing to express my strong support for Hyper Karting Sydney and to urge you to carefully consider the impact its potential closure would have on our community.

Hyper Karting is a truly unique offering within Moore Park. It provides an accessible, exciting, and social activity that brings people together in a way that few venues can. I have personally had wonderful experiences there, and it stands out as a place where people of all ages can connect, compete, and enjoy themselves in a safe and inclusive environment.

At a time when opportunities for in-person connection and shared experiences are more important than ever, venues like Hyper Karting play a vital role in supporting community wellbeing. They offer not just entertainment, but a sense of energy, belonging, and vibrancy that contributes to the broader cultural fabric of Sydney.

Additionally, Hyper Karting provides meaningful employment for many people. Its closure would not only remove a valued community space but also impact the livelihoods of those who work there.

I respectfully ask that Council take into account the social, cultural, and economic value of Hyper Karting Sydney and explore every possible avenue to support its continuation.

Thank you for your time and consideration.

Talia Noon.

To whom it may concern,

Hyper Karting is the best rental karting venue in NSW, and can't be allowed to close.

Having raced professional go karts for nearly 20 years, we need to ensure that places like Hyper Karting remain open.

My first time in a kart was at a rental kart facility when I was 7 years old. Without this, I never would have discovered my passion.

Please reach out if you have any questions.

Kind Regards,
Tim Aebi

Hi,

I was recently informed that Hyper Karting at the Entertainment Quarter level four car park, has a development application that will close down the business if approved. Could I please ask why this application is being considered?

My understanding is that it is for more car park spaces, which seems rather ridiculous considering that car park is never full. The only time is used beyond level two is during Swans games but it would be a shame to shut down such a popular business just for one evening a weekend compared to a business that operates all day every day and late into the night.

Successful Long-term businesses are something to be protected in this economy. What's more, the enjoyment of thousands of customers a month and the employment of hundreds of individuals at the business, should be taken under serious consideration too. All of the above seem far more important to a vibrant city than and extra 200 or so car park spaces in an area far from transport hubs.

Sincerely,

Thomas Metzner

To whom it may concern,

I am writing to address the outright absurdity of this DA to expand parking at the EQ by way of getting rid of Hyper Karting.

Hyper Karting is a fantastic local business that provides a ridiculous amount of fun for so many locals and tourists alike. It is a truly unique business to have in the heart of the city. I would also go so far as to say it is the main attraction at the EQ besides the stadiums and concert venues. It also provides a lot of support to the surrounding businesses, as every time i attend, myself and my friends get a bite to eat before from either Marys or Winghaus, usually followed by a few drinks after racing at one of the pubs that i would never otherwise attend.

There is 0 need for more parking. The government spent billions on getting the lightrail developed. Central station is also walking distance from the stadiums which of course now has added capacity from the metro. I parked at the carpark which hyperkarting is situated in on the night of the rabbitos game as well as the faithless concert at hordern and there were plenty of parks still in that one carpark.

You should be encouraging people to use public transport, not driving.

You should also not be looking to further destroy any ounce of fun left in the Sydney metropolitan area especially at the expense of a thriving local business that has invested a lot into this business as well as its 150 employees and to the city of sydney more broadly.

You are meant to act in the best interests of the people, which there is no way the current plan is fulfilling. Do your job properly and keep hyper karting open.

Warm regards,

Xavier Wilson

Dear City Of Sydney,

Hyper Karting is the only karting track thats near the eastern suburbs. This place means a lot to me and my friends as we had memorable memories of us trying to beat each other at racing. Hyper Karting is what i enjoy most at entertainment quarter and will be the only karting place we all love. It has brought many memories from meeting new people from racing and staff along the journey. We can not shut down Hyper Karting just for parkspace when it is the most iconic part of Entertainment Quarter.

Thank you
Jayden

Hi CoS,

This is a very disappointing proposal. There are little to no 'space' to hold entertaining parties for children within CoS. This facility teaches new skills to children and young teens/adults.

It is very well run facility with nice helpful staff and fairly priced.

Please reconsider the proposal to turn this into parking spaces. I thought CoS was about bike tracks, make up your mind which side you are on!

Kind Regards,

Aisling O'Donnell

To whom it may concern,

Hyper Karts Racing in Entertainment Quaters has been a key source of joy for both me and my family and friends, who use these go karts as a way to connect and enjoy with one another. We believe strongly that Hyper Karts Racing should not be closed down because not only is it a close Entertainment recreation to people in the area, it also brings business to surrounding shops and restaurants as entertainment cannot be started on an empty stomach. We would be deeply saddened to see this place go, especially if replaced for more parking space. We hope you consider how much this place means to us and let Hyper Karts Racing stay.

Hi Shannon,

I'm writing to make a submission regarding RD/2023/897/A for 116 Lang Road, Moore Park.

I've visited Hyper Karting many times over the past few years and it's one of the most enjoyable and unique activities in Sydney. It's something I regularly recommend to friends and visitors, and it has become a genuine attraction within the Entertainment Quarter. It would be very disappointing to see it removed.

The venue clearly brings people into the precinct and adds to the overall experience of the area. Replacing it with additional parking does not seem like the best outcome for Moore Park, especially when the track is consistently busy and actively used by the community.

From a visitor's perspective, Hyper Karting adds life and activity to the precinct and provides something genuinely different for Sydney. Losing it would remove a popular entertainment option without delivering much benefit to the public.

I strongly encourage the City of Sydney to reconsider the decision and allow the venue to continue operating.

Kind regards,
Alex Loke

Hi there,

My nephew goes to Hyper Karting for his birthday every year. Many of my friends with kids use this facility at least monthly. Please don't dismantle this place which is a great "third place" for kids especially.

I understand the need for car parking but you gave the business a foothold to build a viable operation and community only to take it away? Doesn't seem like council have the best interest of the community or small business at heart.

Thanks for your consideration.

Dear Council Team,

I am writing as both a nearby resident and a regular user of HyperKarting at the Moore Park Entertainment Quarter to express my strong support for its continued operation.

The suggestion that additional car parking is required does not reflect my experience. I visit the precinct frequently and have consistently found parking to be manageable, even during peak times. The current arrangements appear to support local demand effectively.

HyperKarting is also one of the most valuable and vibrant entertainment offerings in the eastern suburbs. It attracts families, young people, and visitors, contributing positively to the area's activity, safety, and economic vitality. Losing it would diminish the diversity and appeal of the Entertainment Quarter.

I encourage the council to consider the significant community benefit this venue provides and to support its ongoing operation.

Kind regards,
Andrew Roy

To the City of Sydney Council,

I am writing to formally object to the proposed plan to replace the Hyper Karting facility in Moore Park with additional car parking space. This venue is far more valuable to our local community than just another lousy car park.

Over the years, Hyper Karting has become a beloved entertainment hub. Countless people have made lasting memories there with friends and family, and it serves as a fantastic active recreation space. Losing a vibrant community venue just to accommodate more stationary vehicles would be a significant step backward for the culture and spirit of the Moore Park precinct.

Furthermore, replacing this facility with a car park directly contradicts the goal of encouraging sustainable travel. The council should be actively promoting public transport. Providing more parking only incentivises people to drive, which adds to local traffic congestion. Moore Park is already exceptionally well serviced by public transport, with perfectly fine trains and the light rail providing easy and reliable access to the area. We should be encouraging visitors to use these excellent public options instead of making it easier for them to bring more cars into the city.

I strongly urge the council to reconsider this proposal. Please protect our community spaces and support sustainable transport options rather than paving over our local venues for a car park.

Thank you for your time and consideration,

Aren

Dear City of Sydney Council Team,

I am writing to respectfully request that the City of Sydney reconsider any plans to shut down **Moore Park Hyperkarting**.

Moore Park Hyperkarting is a valued recreational venue that provides a safe, inclusive and enjoyable activity for people of all ages. It plays an important role in activating the Moore Park precinct, encouraging healthy recreation and offering a unique entertainment option that attracts both locals and visitors.

For many members of the community, the venue is more than just a leisure activity; it is a place where families spend time together, friends connect and young people engage in a structured and supervised environment. Closing the facility would remove a much-loved attraction and reduce the diversity of activities available in the area.

I would kindly ask the City of Sydney to consider alternative solutions, community consultation, or potential improvements that would allow Moore Park Hyperkarting to continue operating in a way that aligns with council goals and community interests.

Thank you for taking the time to consider this request. I appreciate the work the City of Sydney does in supporting vibrant, active, and inclusive public spaces and I hope Moore Park Hyperkarting can remain part of that vision.

Yours sincerely,

Arnav

Dear Sydney City Council,

I'm writing to express my deep concern regarding the proposed closure of HyperKarting Sydney. This venue has become an important part of our community — a place where families, friends, and workplaces can come together to enjoy a safe and fun experience in the heart of the city.

Removing this business for the sake of additional parking spaces feels not only unnecessary but also deeply short-sighted. HyperKarting contributes far more to the local area than simple entertainment; it promotes social engagement, tourism, and economic activity. Closing it would jeopardize around 150 local jobs — a serious blow to both employees and the wider community.

Council should be supporting small businesses like HyperKarting, not making it harder for them to operate. These are the kinds of enterprises that bring life and vibrancy to Sydney. I urge you to reconsider the decision and explore alternatives that allow HyperKarting to continue contributing positively to our city.

Thank you for your attention to this matter and for your ongoing service to our community.

Kind regards,

Brett Jones

To whom it may concern,

Hyperkarting provides an opportunity for people based close to the city to experience go karting without the large costs of travelling out west to traditional go karting tracks.

It also provides much needed entertainment for local kids and from surrounding areas.

It would be a huge mistake to close this down to provide more parking.

Regards,
Ben

Dear Moore Park Council,

I'm curious why after five years you've decided to say no and we don't want you here. This place we call Hyper Karting is an amazing experience, and I'm surprised you'd want to get rid of it after so many years. There's no reason to. This business hasn't hurt you or affected you in any way possible maybe the cars park on the grass, but it's not affecting anyone.

I've been to hyper karting countless times and every single time a fantastic experience. This upsets everyone working there having fun there. You can't ignore us and you can't stop all of us having fun we respect your wishes and help Moore park by make putting Moore park back on the map think of how much more popular it has gotten since hyper karting has been there

Please hear our voices and don't shut down the entertainment we all love and cherish

Kind regards Ben Segalla a proud fan of hyper karting

Don't close Hyperkarting the parking lot is never full and there will be more parking in 12 months time so it won't be a problem in the future. I've been going there for years and recently started working there for a second job. I've made many friends from racing regularly there, people I would have never met otherwise. There is nothing like it in the local area which for someone like me who lives near Maroubra means I need to drive minimum 30 minutes on a tolled motorway to get to the next nearest go karting place which can quickly rake up an expensive bill especially with the current fuel prices. I CAN'T EXPRESS THIS ENOUGH PLEASE DON'T CLOSE HYPERKARTING.

Dear Council Members,

I am writing to express my strong support for keeping Hyper Karting operating at the Entertainment Quarter.

Hyper Karting plays an important role as a family-friendly venue that provides a safe, engaging, and active environment for children and parents alike. In a time where screen time is increasing and opportunities for real-world interaction are becoming more limited, places like Hyper Karting give kids a chance to build confidence, learn new skills, and enjoy meaningful experiences with their families.

It is not just about entertainment — it's about connection. Families can spend quality time together, kids can develop coordination and social skills, and it creates positive, lasting memories. There are very few venues in Sydney that offer this kind of experience in such an accessible and inclusive way.

Replacing a thriving family destination with additional parking spaces would be a significant loss to the community. The benefit of a small increase in parking does not compare to the social and developmental value that Hyper Karting provides to families across Sydney.

Additionally, the potential loss of over 150 jobs would impact many local families who rely on this workplace for income and stability.

I strongly urge the council to prioritise community-focused spaces that support families, children, and local employment, and to reconsider any plans that would result in the closure of Hyper Karting.

Thank you for your time and consideration.

Kind regards

Hi,

I'd like to express our strong support behind Hyper Karting. This has been an incredibly valuable option to entertain kids and adults alike with no similar alternative of any quality close to the city.

It would be an incredible shame to lose it just to increase parking availability - which outside of large events - I imagine would be rarely fully occupied.

Kind regards,

Brionny Rogers

Hi,

I'm writing to ask that you please reconsider shutting down Hyper Karting. It's a great place that brings people together and attracts visitors to the city. Venues like this also help support nearby businesses by bringing in extra foot traffic and activity.

Closing it down would not only remove a popular attraction but could also result in lost jobs and less business for the surrounding area. In comparison, gaining a few extra car parking spots doesn't seem worth the loss of such a valuable community and entertainment space.

Please consider allowing Hyper Karting to remain open.

Thank you for your time and consideration.

Kind Regards,

Buddy

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

I'm writing to express my strong support for the continued operation of Hyper Karting at Moore Park and to respectfully oppose any plans for its closure.

Hyper Karting has become a valuable recreational and social asset within the community. It provides a safe, well-managed environment for people of all ages to enjoy motorsport, develop driving skills, and engage in a unique form of entertainment that is not easily found elsewhere in Sydney. Its accessibility and central location make it especially important for locals and visitors alike.

Beyond recreation, the venue contributes positively to the local economy by creating jobs, attracting visitors, and supporting surrounding businesses. It also offers a structured and controlled alternative to unsafe driving behaviors, promoting responsible engagement with motorsport in a supervised setting.

Closing Hyper Karting would mean the loss of a distinctive community space that brings people together, encourages active participation, and adds vibrancy to the Moore Park precinct. I strongly believe that its benefits far outweigh any concerns, and I urge decision-makers to explore solutions that allow it to continue operating successfully.

Thank you for taking the time to consider community feedback on this matter. I hope you will take into account the value that Hyper Karting brings to the area and support its ongoing operation.

Kind regards,
Cal French

Dear Shannon

I recently became aware that the Council intends to take over the lot currently occupied by Hyper Karting in order to create a few additional car parking spaces.

The Entertainment Quarter would benefit far more from expanded entertainment options than from a small increase in parking. Hyper Karting is a popular venue, particularly for corporate events, and it makes a valuable contribution to the precinct.

Requiring Hyper Karting to cease operations would also place 150 employees' jobs at risk.

I strongly urge the Council to reconsider this proposal and allow Hyper Karting to remain open.

Kind regards

Caroline Tsau

Dear Sydney council

I'm emailing today to send my words across that I think it's an absolute joke that ye are trying to get rid of hyper karting hyper karting brings noting but joy to family and friends for outings.

Ye want to get rid of hyper karting for the sake of one floor of a car park spaces that will only be used when there's a few games on.

Hyper karting should get a lot more of a priority the fact it's there 5+ years.

Build a new car park for the games why should a business that hires so many people and brings such joy to family and friends all over Sydney lose out on such a popular business

I hope ye get enough compliments and will come to the correct decision of not closing hyper karting.

Thank you for taking time to read this email

Kind Regards
Chloe Barrett

Keep the hyper karting open. It is quite ridiculous to deprive residents and visitors of a first class entertainment offering for the sake of car parking when Councils are doing everything the can to encourage use of public transport.

Hi there

I live on Cook Road, Centennial Park and I was asked for feedback about this proposal.

I support the proposal for this karting business to remain on the top level of the car park at the Moore Park Entertainment Quarter.

It is a thriving and vibrant business that brings a lot of stimulation to the local entertainment function at Moore Park. Using this space as a car park again is unnecessary and would be a waste compared to the value of how the space is used now.

Thanks
Chris O'Connor

To whom it may concern,

I'm writing this email to oppose of Hyper Karting being shut down to make room for more parking spaces.

I've been there multiple times and without a doubt, every time has been such an enjoyable experience. Another car park is not what Sydney needs. With third spaces and activities being shut down day after day, a place where people can go and have fun is needed especially with current events. There's no reason for additional parking if there's no reason to even visit.

The other businesses in the Entertainment Quater would surely benefit from keeping Hyper Karting open.

I hope you strongly reconsider.

Regards,
Christal

Keep hyper karts open ya flogs half the car park is empty anyway, where's your thinking caps when it comes to taking the most entertaining activity away from the entertainment quarter. Seriously pull your heads in, what value besides lining your own pockets would a couple hundred cars spots do to the EQ if there's shit all else to do.

Hello

I am writing to express my strong support for Hyperkarting.

What has been achieved, turning an under-utilised car park into a thriving entertainment venue is astonishing.

Thousands of people enjoy the activity. It not only provides many jobs, but brings commerce into the precinct.

The car park spaces are simply not needed. When the new car park is finished there will actually be more spaces than are currently available, even once all the grass parking is removed.

How does is this decision in the public interest?

Many thanks for your consideration.

Colin.

Dear Shannon Rickersey,

I am writing to formally object to Development Application RD/2023/897/A, which proposes to expand the Moore Park car park and would result in the permanent closure of Hyper Karting at the Entertainment Quarter.

As a regular visitor to Hyper Karting, I urge the City of Sydney to reconsider this decision carefully before irreplaceable community value is destroyed in exchange for car spaces that will sit largely unused.

Hyper Karting is far more than a go-kart track. Since opening in 2021, it has become a genuine community hub — a place where families, friends, and colleagues come together to share experiences. I held my son's 8th birthday party there and have returned regularly during school holidays with him and his friends. These are the kinds of memories and milestones that a car park simply cannot replace. Closing Hyper Karting takes away a meaningful part of growing up for children across Sydney, and a place I will sorely miss being able to bring my family to.

The closure would result in the loss of over 150 jobs — real livelihoods belonging to hardworking, dedicated staff who go above and beyond to create a welcoming space for people who share a love of fun and freedom on the track. At a time when the NSW Government has publicly committed to revitalising Sydney's entertainment and nightlife, closing a venue that operates seven days a week and has welcomed more than 500,000 visitors since 2021 sends entirely the wrong message.

The proposed development would add 296 new car spaces — spaces that will hardly be used. Data already shows that parking usage in this precinct is low, and a new underground car park is reportedly forthcoming. The idea that 296 additional empty spaces represent a greater public good than a thriving, well-loved entertainment venue is simply not justified.

Hyper Karting transformed previously disused parking bays into something extraordinary and widely valued by the Sydney community. Reversing that in favour of empty concrete serves neither visitors nor the broader vision for a vibrant Sydney.

I respectfully ask that the City of Sydney Council:

- Refuse or defer Development Application RD/2023/897/A pending genuine community consultation
- Reconsider the decision to deny Hyper Karting's lease extension
- Explore a compromise solution that meets any legitimate parking needs without sacrificing 150+ jobs and a beloved community venue

Sydney deserves entertainment infrastructure that brings people together. I strongly urge you not to replace it with a car park that will go largely unused.

Yours sincerely,
Daniella Cvetkovski

Hyper karts has been the best thing about the entertainment quarter in 20 years and I've been going since I was a kid.

I strongly disagree with removing it for car spaces. It has brought life back to the eq that is has been missing. Plus the employees there genuinely care and love their jobs and would be awful if that was taken away from them.

I hope the government reconsider this idea.

Kind regards

Dear Council Team,

I'm writing to express my strong support for Hyper Karting Sydney and to urge the council to consider the broader value this venue provides to the community before making any decision that could lead to its closure.

Hyper Karting Sydney is more than just a recreational facility. It contributes meaningfully to the local economy, creates employment opportunities, and offers a safe, structured environment for people—particularly younger individuals—to engage in motorsport in a controlled setting. Facilities like this play an important role in fostering interest in engineering, driving skills, and community participation.

From a social perspective, it is one of the few venues that appeals across age groups, providing an accessible and engaging activity for families, friends, and corporate groups. Removing it would leave a noticeable gap in local recreational options.

I also believe it is worth considering whether any concerns raised—whether related to noise, planning, or other regulatory matters—can be addressed collaboratively with the operators rather than resulting in closure. A balanced approach that preserves community assets while managing impacts would be in the best interest of all stakeholders.

I strongly encourage the council to work constructively with Hyper Karting Sydney to find a path forward that allows it to continue operating.

Thank you for your time and consideration.

Kind regards,
Dominic Bou-Samra

To whom it may concern,

I am writing to strongly object to the proposed closure of Hyper Karting at the Entertainment Quarter.

This decision is deeply disappointing and, from a community perspective, very hard to justify. Hyper Karting is not just another commercial venue. It is a rare recreational facility that provides families, teenagers, young adults, and groups with a safe, structured, and engaging activity in an area that should be encouraging exactly this kind of accessible entertainment.

Closing it would remove an important local attraction that contributes to the vibrancy of the Entertainment Quarter and the broader community. It offers people a legitimate, supervised, and active leisure option, supports local jobs, draws visitors to the precinct, and helps nearby businesses through increased foot traffic. In a city where people constantly complain that there are not enough things to do, especially for older kids, teens, and families, shutting down one of the few genuinely attractive activities sends the wrong message.

It is also hard to understand why council would move to shut down a venue that is already established, popular, and clearly valued by the public, rather than working constructively with the operator to address any concerns. If there are issues relating to planning, compliance, noise, traffic, or operational matters, then the sensible approach is to resolve them through cooperation and practical conditions, not closure.

A blanket shutdown feels disproportionate and out of touch with what residents and visitors actually want from this precinct. The Entertainment Quarter should remain a place for entertainment, activity, and community engagement, not become another example of unnecessary restriction and overreach.

I urge council to reconsider this course of action and to prioritise a solution that keeps Hyper Karting operating. At the very least, the community deserves transparency around the reasons for the proposed closure, the evidence supporting it, and what alternatives were properly explored before arriving at such a damaging outcome.

Please treat this as a formal objection. I strongly encourage council to preserve Hyper Karting and work towards a practical outcome that serves both the community and the precinct as a whole.

Yours sincerely,

Eli Levi

Hi Team

i'm writing in regards to the potential closing of hyper karts in moore park. i whole heartily don't agree with the possibility of them closing for more parking and revenue for the council

My son would religiously be at hyper karts at least one a month. we have also had his last two birthday parties with the Hyper Kart team

when it's wet and raining it's the perfect activity to get our kids out of the house and isn't super expensive especially given the current crisis i hitting all families at the moment

Council such seriously reconsider the potential closing of this guinea's as I know it will be a potential loss to the Moore Park Entertainment waiter in total as we have dinner there there's not one family I don't know in the east. It hasn't been to hyper karts

Hi there,

I strongly oppose the proposed increase in car park spaces at the expense of Hyper Karting.

Hyper Karting is far more than a business. It is a community hub that brings people together, supports local employment, and creates meaningful experiences for families, friends, and visitors. The loss of 150+ jobs and a unique local attraction cannot be justified by adding 296 additional car spaces, particularly when there is no clear evidence that this capacity is needed.

Replacing a vibrant, people-focused venue with underutilised parking is a poor trade-off for the community. Decisions like this should prioritise social, economic, and cultural value, not just convenience.

I urge the council to reconsider this proposal and support the continuation of Hyper Karting as an important part of our local community.

Thank you for your consideration.

Giles

Dear Council Members,

I am writing to express my strong support for Hyper Karting and to urge you to reconsider any actions that may lead to its closure.

Hyper Karting is more than just a business — it is a valued part of our local community. It provides employment for over 150 people, supports local families, and offers a unique recreational space that many residents enjoy. Losing this facility would have a significant economic and social impact.

It is deeply concerning that such an important community asset is at risk of closing to accommodate additional parking. While infrastructure improvements are important, they should not come at the cost of local jobs, community engagement, and small business sustainability.

I respectfully ask that the council explore alternative solutions that allow Hyper Karting to remain open while still addressing parking needs. A balanced approach would better serve the entire community.

Please consider the broader consequences of this decision and the value that Hyper Karting brings to our area.

Thank you for your time and consideration.

Hi all,
Hyperkarting in Moore park is a great and family fun activity and the only of its kind in the eastern suburbs which would be a huge loss to the people in this area not to mention the people who work here if it closes. I would be very upset if this closes and disappointed so I hope that the decision to close this business down is overturned as it is a great place to go

Dear Shannon,

I hope this email finds you well.

I am writing to you today as a frequent visitor and advocate for **Hyperkarting**. I wanted to take a moment to express just how vital this venue is to the Sydney community and urge you to support their continued operation.

My partner, friends, and I represent a broad demographic of Sydney residents, residing in Hornsby and all the way to Cabramatta. Despite the distance, we regularly make the trip to Moore Park because Hyperkarting offers an experience that simply cannot be found elsewhere. It has become our "go-to" destination to celebrate birthdays and milestones.

Beyond just being a fun day out, Hyperkarting serves several key roles that I believe are worth considering:

- **A Regional Drawcard:** Very few venues can convince a group of people to travel from the Hornsby Shire and the Liverpool simultaneously. Hyperkarting is a massive anchor for the Sydney of City, bringing in foot traffic that otherwise would not visit the area.
- **Support for Local Economy:** Our visits rarely end at the track. Because we travel so far, we pair our races with dinner beforehand and dessert afterwards - contributing to the broader economic health of the Moore Park area.
- **Community & Safety:** In a city where high-quality, alcohol-free (or alcohol-optional) evening entertainment can be hard to find, Hyperkarting provides a safe, inclusive, and high-energy environment for young adults and families alike.

To see such a unique and well-loved establishment shut down would be a massive loss for Sydney's recreational landscape. We would be absolutely devastated to lose this venue and sincerely hope that an agreement can be reached to keep them operating on-site for years to come.

Thank you for your time and for considering the voices of the community who rely on this space.

Kind regards,

Jason Liu

To whom it may concern,

The go karting facility at the entertainment quarter is the last remaining attraction at the place and many people would have no reason to visit the area without it, no doubt other establishments will suffer due to fewer crowds in an already quiet place.

It's a short sighted mistake to remove attractions such as this and the Moore Park golf course as the city is fast becoming a boring place to live if this kind of stance continues to be taken towards entertainment.

I suggest this idea is strongly reconsidered, and with any luck we can make common sense a little more common in this world.

Thanks in advance

Dear City Of Sydney,

Hyper Karting is the only karting track thats near the eastern suburbs. This place means a lot to me and my friends as we had memorable memories of us trying to beat each other at racing. Hyper Karting is what i enjoy most at entertainment quarter and will be the only karting place we all love. It has brought many memories from meeting new people from racing and staff along the journey. We can not shut down Hyper Karting just for parkspace when it is the most iconic part of Entertainment Quarter.

Thank you
Jayden

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Good Afternoon,

I'm emailing about the potential closure of Hyper Karting to revert the space back to a car park at Moore park. As someone who has been to hyperkarting as well as many events at the entertainment quarter, I firmly believe removing hyperkarting would be a disservice to the community. Sydney desperately needs more alcohol free entertainment options, and hyperkarting is a fantastic example of nightlife not fueled by alcohol. Additionally, the car park is already terrible to get out of after concerts due to the design where there's a massive bottleneck to get out - particularly the higher floors and several concerts I've been to the car park doesn't even fill up. Public transport options should be bolstered for events. Adding an extra floor of parking adds little to no value, and the loss of a very good business would not be worth it.

Kind Regards,
Jennifer Cooper

Council should be encouraging sustainable businesses like electric go-karts instead of forcing people to use petrol options.

Council should also be encouraging/improving public transport options rather than opening up more car spaces for people to use. I don't understand the logic of this removing a public entertainment option from an entertainment precinct.

All in all quite disappointed with a Council that I thought was sustainable and community focussed.

Save the go kart track
U bunch of idiots
First it was the Moore park golf club
Now the go kart track which
How about we close your offices and put a pub on them no u won't but I would thank god I am not running this state but some bright spark is and this is what u come up with
Please go hope on your bike go for a ride in the bike lanes u come up with and have a long hard look at your self's

Dear city of sydney council,

My friends and I have come to hyper karting many times over the last few years. We love it there. Its a great place, the staff was always funny, and it's so much fun.

Please do not close it down.

Regards,

Joseph

Why would you close Hyperkarts?

My friends and family love this place! Kids and adults of all ages can come together and enjoy this experience and venue, whether it was for a work event or to watch my kid have their first time driving around and gaining independence.

I think it is criminal that you would even think about removing a place like this that aims at bringing people to places like entertainment quarters, especially since that area just seems to be mainly a place for adults to drink and be stupid. The families who love this place are the people who will suffer...

If your aim is to turn entertainment quarter in to an adult only venue full of drunks go ahead. I remember it being about families....

Kind regards
Josh Y

Dear Sir/Madam,

I am writing to strongly support this petition and to express how important Hyper Karting is to my family and our wider community.

My son is 7 years old, has ADHD, and is a very special kid. Hyper Karting has become a place where he can truly be himself. It gives him a safe, structured, and exciting environment where he thrives, builds confidence, and feels included. Opportunities like this are rare, and removing such a space would have a real and personal impact on children like him.

To be honest, the reason given for closure seems quite unreasonable. There is plenty of space in the area, and every time I have visited, it has not been overcrowded. It feels unnecessary to shut down a facility that is clearly bringing value to so many people.

Additionally, my workplace has held our end-of-financial-year celebrations there for the past three years. It has proven to be an excellent venue for team building and social connection.

Another important point is accessibility. We travel from the Northern Beaches using public transport, and the light rail connection makes it convenient and efficient. Supporting venues like this encourages people to use public transport instead of cars, which is exactly the kind of forward-thinking approach our city should be promoting.

Hyper Karting is more than just entertainment — it is a community space that supports families, children, and local businesses. I strongly urge you to reconsider any decision that would result in its closure.

Thank you for taking the time to consider my submission.

Kind regards,

Julia Hoffmann

To whom it may concern,

It's definitely devastating to learn that yet another facility that brings friends and family together is at risk of getting kicked out to make space for parking.

Hyper Karting not just an entertainment venue, but as a vital community and economic asset. Hyper karting is a shining example of green entertainment that emits next to no noise and environmental impact.

Compared to other major cities, Sydney has very limited safe, engaging, and accessible activities for young adults as it is, and one that is conveniently located 15 mins from CBD, that attracts local and tourist alike are at risk of getting kicked out.

Cities thrive when they offer a diverse mix of residential, commercial, and recreational spaces. Losing Hyper Karting would be a significant step backward for the Entertainment Quarter and the community at large.

I hereby urge City of Sydney to reconsider its decision on the facility and keeping Sydney a vibrant and dynamic place to live.

Kind Regards,
Julie Liang

Dear Members of the City of Sydney Council,

I am writing to express my strong opposition to the proposed closure of Hyperkarting Sydney at Moore Park, and urge the Council to reconsider replacing this beloved recreational facility with a car park.

Hyperkarting Sydney is a unique, family-friendly venue that serves as a genuine community asset. It provides an accessible, exciting leisure experience for Sydneysiders of all ages — from families with young children to groups of adults looking for something fun and different to do. Venues like this are rare in the inner city, and once lost, they are almost impossible to replace.

Moore Park is already a destination that draws people from across Sydney. Adding another car park to the area does nothing to enhance the community's quality of life — in fact, it diminishes it. At a time when councils across Australia are investing in active recreation, entertainment, and people-centred urban spaces, converting a thriving leisure venue into additional parking would be a significant step backwards.

I would ask the Council to consider the following:

- Hyperkarting provides local employment and contributes to the local economy
- It is a rare inner-city recreational option that cannot easily be replicated elsewhere
- A car park offers no comparable community benefit and is at odds with Sydney's goals around sustainability and reducing car dependency
- The loss of this venue would be felt deeply by the many loyal patrons and families who rely on it for entertainment and safely building skills and confidence

I strongly encourage the Council to explore all possible alternatives before proceeding with this plan. The community deserves vibrant, people-friendly spaces.

Thank you for taking the time to consider this submission. I hope the Council will act in the best interests of the community and preserve Hyperkarting Sydney for years to come.

Kind regards,
Kate Boniface

To Whom it may concern,

Hyper karting needs to stay open it is such a fun and enjoyable go karting experience. The staff are amazing and always accommodating throughout the sessions, this is the best go karting place in sydney! I live around Penrith a travel into Moore Park just so that my family, partner and friends can all have an incredible day as well as an awesome experience!

If you have any questions, reply back, but seriously keep this place open!

Kind Regards,
Kiara

Hi there

I am writing to you about the matter above mentioned as hyper karting should not be closed down; it is a business that offers such a unique go kart experience in a safer environment than traditional go karting spots which are usually based outside, where they have potential to be cancelled when wet weather arises.

The experience at hyper karting is like none other and it would be a detriment to the fun community of Sydney; in which, there is hardly anything to do.

Thanks
Lucas

Hello,

Hyper Karting Moore Park is a uniquely located business being in a car park and being the only hobbyist karting location in near the CBD. It's affordable, suitable for a variety of ages and would be a shame to lose an iconic business of EQ.

Do not evict Hyper Karting cost 150 people their employment for 300 odd car spaces. Have a heart.

Kind Regards

Lachlan Kaiser

I work in the city and Hyperkarting is the best after work activity I and many others have. It's also the only reason my friends and I ever go to Moore park.

Seeing this place reverted into an empty concrete patch is disappointing and completely goes against the idea of an "entertainment quarter". I have such good memories in this place, and even recently I got people who had never gone go-karting to come down and try it. And they loved it.

If there's any chance of saving this place, please consider it.

Thankyou.

Hello,

I strongly am against the idea of closing Hyper Karting in Moore Park. It's a genuine assist to Sydney. It's one of the few activities that is suited for all ages and it actually is FUN! In a city where I often hear "there is nothing to do", places like Hyper Karting is exactly what we should be protecting.

I was at HyperKarting 2 weeks ago on a BUSY SATURDAY at 6pm (PEAK TIME!!!) and managed to get a car park spot on the bottom level. Moore Park was busy, full of people and I had no trouble finding a car park. I was surrounded by empty car park spots and I gather all the levels above were also half empty.

Turning Hyper Karting into a carpark feels like a massive step backwards for our city. Sydney is already loosing enjoyable experiences, why would we want to lose more?

It's frustrating seeing councils take away what makes Sydney enjoyable. Boooo councils!

Lillia

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear City of Sydney Council,

My name is Mario Andreone and I am writing to express my strong support for Hyper Karting at Moore Park, and to respectfully urge the Council to reconsider its decision to deny the extension of its operation.

Hyper Karting has become a unique and highly valued part of Sydney's entertainment landscape since opening in 2021. It has transformed an otherwise underutilised space into a vibrant, year-round attraction that brings consistent foot traffic, supports surrounding businesses, and contributes to the broader activation of the Moore Park precinct.

The potential closure of this venue raises several concerns. It places more than 150 local jobs at risk, removes a popular recreational facility enjoyed by hundreds of thousands of visitors, and diminishes the diversity of experiences available within the precinct. At a time when there is a strong focus on revitalising Sydney's nightlife and entertainment offering, removing a proven and well-utilised attraction appears counterproductive.

While I understand the importance of maintaining adequate parking infrastructure, it is difficult to justify prioritising the return of approximately 300 parking spaces over a thriving business that delivers clear economic and community value—particularly given reported data suggesting the car park is not consistently at capacity.

I encourage the Council to explore a balanced and pragmatic solution, such as granting a further extension or working collaboratively with the operator to ensure both parking needs and community activation goals can be met.

Sydney benefits from innovative, engaging spaces like Hyper Karting. Preserving and supporting these types of venues is essential to maintaining a dynamic and liveable city.

Thank you for your time and consideration.

Kind regards,

Mario Andreone

Dear Mayor,

Please do not close Hyperkarting, it's a ton of fun for kids and adults alike, very easily accessible, and using a space that otherwise doesn't ever get used.

I go to EQ twice a week for my girls dancing class and from time to time to go out, and I believe the entertainment in the EQ is arriving at a level that could lead to a transformative experience and turn it into one of the most entertaining night districts in Sydney.

Thanks,

Martin

PLEASE DONT SHUT DOWN HYPERKARTING

I graduated from high school last year I went to boarding school in Sydney however most of my friends were day schoolers who didn't board I now live 600 km from Sydney but visit every so often and the day before I moved me and my friends went to hyperkarting it was the best experience I'd ever had and we all promised that when we were all available we would return to hyper karting to meet, is 296 car spaces worth more than the relationships I have in sydney that so many have, built with hyperkarting, I ask you to please remember that 150+ jobs are on the chopping block but also that limitless memories and relationships hang in the balance of this decision

Hi,

I am writing to express my concern about hyperkarting being closed. It is a great place for teenage boys to drive and have fun with their friends. They get to do the risk taking they desire in a safe and well maintained environment that encourages them to have fun in a safe environment. We have celebrated many birthdays and fun family outings at the setting. It does not make sense to close it down when it is well placed, well runs and well patronised. You are removing an opportunity for our youth to be engaged beyond screens and hanging around bored on street corners. Please do not force closure for hyperkarting - rethink the environment for families in Sydney.

Kind regards,

Mercedes Wilkinson

To: dasubmissions@cityofsydney.nsw.gov.au

Subject: Submission - RD/2023/897/A - 116 Lang Road MOORE PARK NSW 2021 - Attention Shannon Rickersey

Urgent: High

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

For the attention of Shannon Rickersey,

I write to you as the owner of Watson's EQ, a Pub operating within The Entertainment Quarter precinct at Moore Park, to respectfully submit my concerns regarding the potential closure of Hyper Karting — a neighbouring business and valued contributor to the economic and cultural fabric of this precinct.

Watson's has operated at Moore Park since 2021, and throughout that time Hyper Karting has been one of the most consistent drivers of foot traffic to our venue. Patrons who visit Hyper Karting regularly extend their time at the precinct by dining and socialising at Watson's EQ. Conservatively, we estimate this relationship generates approximately \$500,000 in annual revenue for our business alone — revenue that directly supports our staff, our suppliers, and our ongoing investment in the precinct.

Hyper Karting is not simply an entertainment business. It functions as an anchor attraction that activates the Moore Park precinct, drawing visitors who might not otherwise engage with the broader range of businesses here. Its closure would not be an isolated outcome — it would create a ripple effect that diminishes the precinct's appeal and viability for every operator within it.

I respectfully urge the Council to consider the disproportionate economic impact that regulatory action against Hyper Karting would have on surrounding businesses, including my own. If the concerns prompting this action relate to compliance or operational matters, I would strongly encourage the Council to work collaboratively with the Hyper Karting team toward a resolution, rather than a closure that would harm multiple businesses and their employees who have done nothing wrong.

The Entertainment Quarter is a significant asset for Sydney — a precinct that supports hospitality, entertainment, sport, and events in close proximity to the CBD. Businesses like Hyper Karting are what make it worth visiting. I urge the Council to protect that.

I am available to discuss this matter further or to provide any additional information that would assist the Council's deliberations.

Yours sincerely,

MICHAEL WATSON

Dear Ms Rickersey,

Hyperkarting at Moore Park has been a meeting place and source of much joy for our extended family.

It is a healthy recreational activity available to all ages. It is also the only go-carting place in the centre of Sydney, making it accessible to families and young people.

I believe hyperkarting should remain open in its current location, so others can experience the fun we've had there over the years, in its highly accessible setting.

To Whom It May Concern,

To say closing Hyper Karting at Moore Park is the most tone-deaf decision made by another bureaucrat councillor would have to be the understatement of the decade.

Your lot are about to destroy another one of Sydney's main attractions and must stop.

To prioritise having spare car parking to be used once very pancake day for an AFL game, in the midst of a global fuel crisis, instead of prioritising and investing in public transport is totally nuts.

Imagine living in a world where people are able to take reliable public transport to events instead of having to rely on driving their private cars to INNER CITY destinations - totally absurd don't you think!? Quick, better create more car parking that will sit empty 90% of the time, that's a much more sensible idea...

This needs a rethink and fast. Stop destroying attractions and get your priorities in order. Instead of closing businesses that are employing people and generating revenue, spend your resources lobbying the state government to improve the pathetic public transport system so majority of people don't need to drive at all.

Regards,

Miles Austin

I believe this place is one of the only places that makes kids in the eastern suburbs have a way to RACE and interact with friend meanwhile not do it on the Sydney roads.

I strongly believe that getting rid of HYPER KARTING will put Sydney at BIGGER RISK of people speeding more frequently on the roads as well KIDS finding other means of spending their adrenaline rushes during adolescence.

I suggest YOU try your best to mitigate whatever issues you might have with the OWNERS OF HYPER KARTING by possibly finding a middle ground maybe just a compromise with the owners that works BOTH for the public as well as council, in order to keep this club in the eastern suburbs going.

Thank you for your time and consideration,

Regards,

Hi,

I'm really sad to hear that the hyperkarting will be closing. It's the sole reason I visit the entertainment quarter. It provides something different in the Sydney city that would otherwise require a 40-45 minute drive. I am proud to pay membership with them and happy with the utility that it provides. There is ample event parking when it's needed and no reason this should be eliminated for more parking space that would sit mostly under utilized.

Regards,
Nurudeen

To whom it may concern:

I'm writing to provide my support to keep hyper karting open.

This is a fantastic facility, and it is the only place my young 4 year old son can go karting as every other go kart track is for 7 years and older. He has been going to Hyper Karting on their mini track since he turned 3 years old.

Please allow Hyper Karting to stay open, without this my son and many other under 7's won't be able to do go karting and have an opportunity to get into motorsport from an early age.

Dear City of Sydney team,

I am writing to express my strong support for keeping Hyper Karting open at Moore Park. As someone who regularly visits Hyper Karting with family and friends, I have seen firsthand how valuable it is as a safe, family-friendly activity that is easily accessible from the city.

The venue provides a rare, positive recreational option for people of all ages, and its central location makes it an ideal place for families, young people, and visitors to enjoy time together. Closing it to create an empty car park would remove a vibrant community asset that brings joy, activity, and connection to many Sydney residents.

I respectfully urge the City of Sydney to reconsider the decision and explore alternatives that allow Hyper Karting to continue operating for the benefit of the community.

Thank you for your time and consideration.

Kind regards,
Richard

Yo, pretty please could you guys renew the license for hyperkarting to operate. I've been going there since it opened it's a great way to hang with my friends, 99% of the time the car park in the entertainment quarter is under-utilised, with the floors above ground always being 60% empty and hyperkarting does much more with the space and community.

I know this reads kind of ironic but I do sincerely wish for hyperkarting to continue operating, they are a cornerstone of my life at this point and there's no real substitute this close to the city.

Thanks,
Sincerely Rishi

Dear City of Sydney Council,

I am writing to express my strong opposition to any proposal to close Hyper Karting Sydney in favour of additional car parking.

Hyper Karting is more than a recreational facility. It is a unique, accessible experience that contributes positively to the social and cultural life of Sydney. It provides a safe, inclusive environment for people of all ages to engage in an active, shared activity.

While parking infrastructure serves a functional need, it should not come at the expense of distinctive community assets that enhance quality of life. Hyper Karting represents an innovative use of space, supporting both local visitation and the broader appeal of the city as a vibrant destination.

Removing such a facility risks prioritising short-term convenience over long-term community benefit. Sydney should continue to invest in and protect experiences that make the city engaging, diverse, and liveable.

I respectfully urge the Council to reconsider any plans to close Hyper Karting Sydney and instead recognise its value as a meaningful part of the city's recreational landscape.

Kind regards,

Ruadhan Mac Ainmhire

please please please dont get rid of hyperkarting. Literally the best gokarting place in Sydney. Had so much memories with my friends back in uni here. Nightlife in Sydney will never be the same without it. Rather than turning it into a car park for occasional sport events (300 cars worth of people should easily fit in public transport, also in response to the fuel crisis at the moment) and for teenagers doing drugs, keeping it the way it is right now has more social significance (They are full electric as well!).

Closing this facility to create more parking is equivalent to demolishing a local library because the neighborhood needs more self-storage units. While storage is 'functional,' it adds zero soul, health, or vibrancy to the community. We are replacing a place of activity with a place of vacancy.

We need hyper kart to stay open! It has saved my ADHD son !! It's the only thing he loves doing and it's so good for the kids!!

Also - we need it as in the eastern suburbs there is nothing like this around unless you travel way out west.
They are always busy and for my kids sanity and all the other kids it would be absolutely devastating to see them close!!

Hi City of Sydney,

I support the extension of the consent for Hyper Karting to operate in the Entertainment Quarter car park.

It is a significant attraction that has provided a lot of enjoyment for me and my friends. Without it there will be no good karting arena anywhere close to the CBD. As it is conveniently located with good public transport nearby, there is no good justification for converting the space back into car parking spaces, especially because the City has repeatedly expressed its desire to promote the usage of public and active transport.

The City of Sydney should support small businesses and allow Hyper Karting to continue its operation.

Kind regards,
Sasha Lawes

Hi there,
I'm writing to appeal for the closure of Hype karting.
Hype karting was the first karting track I have been to in Sydney and it's always my favorite one given the convenient location.
This place also provided job roles for a lot of persons who do not deserve to lose their jobs.
Please review the decision you make.
Kind regards.
Yao

To Whom It May Concern,

I am writing as a regular customer of Hyper Karting to express my strong support for the business and urge the council to consider their application favourably.

Hyper Karting has been a fantastic venue that I have visited on numerous occasions, whether for a casual outing, a celebration with friends, or just a fun activity with family. It is one of the few genuinely exciting entertainment options in the area, and it always delivers a great experience.

I understand that the business is facing the possibility of closure due to a parking-related issue, and I sincerely hope the council can find a way to accommodate their needs. Losing Hyper Karting would be a real loss for the local community, not just as an entertainment venue, but also as an employer of over 150 people.

I ask that the council carefully consider the positive impact this business has on the community and support a resolution that allows them to continue operating.

Thank you for your time and consideration.

Kind regards,
Suhail Ahmed

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear City of Sydney,

Please note my disappointment at your intention to shut down Hyper Karting Mike Park in favour of more car spaces. Firstly your car park is not even equipped to deal with the amount of cars it already holds. I was there on Friday and took my daughter to a Pierce the Veil concert - it took an hour to get out of the car park. It is worth than leaving Sydney Olympic Park. I paid for my parking before I left then had to pay for another hour because you aren't even equipped to deal with the spaces you have during key events. Secondly hyperkarting is a big draw park for Moore Park. When I have been I visit the other facilities such as dining or cinema with my family and we make a day of it. My daughter's recent 16th birthday was hyperkarting, el Camino for lunch and Hoyts luxe in the evening. Great day but without the hyperkarting more park isn't even offering anything that we can't get elsewhere. Moore park is also readily accessible by public transport so finding ways to encourage this particularly with the fuel crisis makes far more sense. Hyperkarting is an electric eco friendly way for people to test their driving skills, have fun with family and friends and you want to take that away to either have empty spots sitting there, more jams in your carpark traffic after major events and to encourage people to use more petrol. Strange and disappointing choice.

Regards,

Susan

To whom it may concern,

It is with great dismay that I have seen that you plan to shutdown the hyper carting Facility. This place has been a great source of enjoyment and happiness and a place of bonding for me and my kids for the last few years. Shitting it down just to add a few more car spaces is seriously a misjudgment on the part of the council.

Please seriously consider reverting this decision.

Sincerely

Tareck

Good evening Shannon,

I am writing to urge you to reconsider the current planning proposal and allow the extension of the permit that enables Hyperkarting to continue operating. Forcing the closure of this facility would be a massive step backward for the local community, the economy, and the Moore Park precinct as a whole.

Please consider the following critical points before making a final determination:

Traffic and Parking Realities

The assertion that Hyperkarting contributes to an ongoing issue with patrons parking on the grass during events is outdated; this is no longer a continuing problem. If parking capacity is the primary concern, the focus should instead shift toward the exclusive SCG parking facilities, which are heavily restricted and essentially only accessible to the top 1% of Sydney.

Furthermore, the true parking crisis in the precinct is a known infrastructure failure, not a Hyperkarting issue. Working directly on the ground managing ticket scanning devices and network hardware at both Allianz Stadium and the SCG during major events, I see the traffic bottlenecks firsthand. The Entertainment Quarter (EQ) carpark becomes a nightmare on event days because the exit traffic lights only permit roughly two cars to leave every five minutes. Visitors are regularly trapped in the structure for hours. Shutting down a popular local business will do absolutely nothing to fix this poorly managed traffic flow.

Economic Damage and Job Losses

Denying this permit extension will result in the immediate loss of 150 jobs. This is a severe blow to the local economy and the livelihoods of those employees. Sacrificing these jobs appears to cater only to an elite minority, rather than supporting working people and the broader community.

Devastating Impact on the Entertainment Quarter

It is no secret that the EQ is already facing severe challenges and struggling to maintain relevance. Hyperkarting serves as a crucial anchor destination that actively draws regular foot traffic to the area. Forcing it to close will not only kill one of the precinct's most successful attractions, but it will also inflict direct financial harm on the surrounding local businesses that heavily depend on the visitors it brings in.

I strongly urge you to support the local economy, protect these 150 jobs, and approve the extension of Hyperkarting's operating permit.

Regards,

Tobey Luke

Hyper Karting is more than just a business; it contributes to the vibrancy of the community and gives residents and visitors an exciting alternative to traditional leisure activities. Its closure would leave a noticeable gap in Sydney's entertainment options.

I can't believe you're going to Chloes hyper carts. Just a few more parking spots. We never have any issue parking anyway what's a few more car spots going to do? Every time we go to hyper cards, it's so busy and so much fun. It actually is the only reason we go to the entertainment quarter. It would be a huge loss for you if you got rid of that.

Dear Ms Shannon Rickersey,

I believe any suggestion that retaining the electric go-karting be “not in public interest” is unfounded. The venue is well-loved by the community, and Sydney needs more year-round entertainment venues like it.

I find the Colliers letter to be highly compelling, and I ask that its arguments be strongly considered.

Thank you,
Zachary Ficker

I would be devastated if HyperKarting was closed down. There are very few venues close to our area where kids and adults can go and enjoy themselves together and drive meets. The next closest venue I am aware of is in Eastern Creek.

My son and I enjoy karting at the venue and challenging our friends.

Further, as a family that goes to the SCG and Allianz stadium for sporting events, inhale never found the parking in the Moore Park car park challenging, even when there are events at both venues.

Thanks

Narayan Sharma

We need to keep the Moore park go carting because it is the only thing that brings me and many others to Moore park in the first place I have no real reason to go without it. I am sure this is the same for many others and you will then obviously not even need the rest of the parking spots you are clearing space for.

Dear Sir/Madam,

We oppose your decision to not reinstate the lease for hyperkart.

Our sons and their friends are a big fan of this area and entertainment and it is one of the few larger scale forms of entertainment in the eastern suburbs. It enables safe outdoor play which is a healthy form of entertainment for them.

Please allow hyperkarting to stay on in their location.

Thank you
Amber Bondigo

I love Hyperkarting moore park to go with my friends!! It is the only place within public transport of me and with fuel prices now.... They are amazing! Really enriching wholesome experience to do with friends and family and I would be devastated should it be removed and turned into parking.

Please!! 🙏

Save Hyper Karting. The value this adds to our community is priceless.

There is enough public transportation options for this precinct and already ample parking as well.

Please listen to the community and do not close this venue.

Thank you,

The go kart track is one of the only reasons my friends and I visit the city anymore. There's only so many times you can visit the Opera House, or Sydney tower before it becomes boring. But I know there are Sydney locals who frequent this spot, and there are 150+ who work there. The city needs a night life outside of clubbing and drinking, this will not help. Every time I visit the city I use the Moore Park parking garage, and I rarely see cars parked above level 2. Level 3 and up is a ghost town, not to mention Level 5 where the go kart track resides. I pay my parking fee every time I visit, and as it's a condition to leave, I imagine everyone else does too. I know the stadium nearby would benefit from the small increase in parking, but having a year round activity that draws enormous numbers in its own right surely outweighs the few parking spots afforded to the stadium, not to mention the parking on the grass across the street, and the top level of the parking garage which has been barred off. I beg you to reconsider

To whom it may concern

I want to voice my opinion on why hyperkarting Moore Park should remain open and operating, and not be reverted to event carparking.

Hyperkarting is a valuable asset to the community, providing a legal and safe outlet for car, motorbike and racing enthusiasts who want to get together have fun and push the limits of motor vehicles on a closed course, under expert supervision, with first aid officers on site. If the council chooses to stop allowing this venue to exist, they would be encouraging young people to be reckless on the local roads, and supporting the notion that road safety is a trivial matter, not to be acknowledged or addressed, rather prioritising the needs of event attendees who choose to drive to events in the Entertainment Quarter rather than catch public transport.

Hyperkarting provides an attractive and fun workplace for young people in the local community, the employees at Hyperkarting always look happy and enthusiastic about providing a great service. It can be hard to find good places to work, especially that are flexible for young people who are juggling uni and other entry level jobs. Hyperkarting is important to employees and customers, it will be very difficult to replace with comparable replacement, and no doubt the council will not be willing to contribute to replacing to employment opportunity that Hyperkarting is facilitating.

I think a more appropriate stance from the council would be to reinforce the message of prioritising public transport usage by patrons of events held at the Entertainment Quarter, rather than closing down an important part of the community. This is an important place for many people, who see a value far beyond a mere carpark (that will otherwise be empty for the majority of the time)

Thanks you for your time and consideration, regards

Hi city of Sydney,

Please don't close down Hypercarting for a few extra car spaces.

We should be increasing use of public transport, not creating more demand for cars.

My son and I have had some amazing experiences at hypercarting and I'd hate to see this innovative and enjoyable business be removed from this place.

Thanks,
Brendon.

Hello,

Id like to [raise.my.support](#) of Hyper Karting loxated in Moore Park. We are from Western Sydney and attend multiple events each year at the Moore Park Entertainment Quarter. We've checked out out Hyper Karting and are currently in the process of organising an event there with friends now that our children are of a more appropriate age. I think its a great addition to the quarter and as a motor racing fan, believe it offers central Sydney a taste of the sport without having to come out to Eastern Creek.

Happy to take a call and discuss further.

Kind Regards,
Cal

Dear Shannon,

I am writing to try and find a way around shutting down Hyper Carts at Moore Park. My family are frequent users for my now 15 year old son. We have held birthday parties here for him and he has attended other friends parties here over the years. He's also a keen go cart enthusiast and it's so handy to have this close to home, I think the next closest is in Concord. It's such a well used and loved recreation facility and we don't have many in the East. Please reconsider closing it down for the sake of parking, it's important to have adequate recreation amenities in our area for children and teens.

Kind regards
Carli

To whom it may concern,

My boys and my partner have enjoyed much fun at Hyper Karts. The team is fantastic, well organised and super safe and it is a perfect business to have in the Entertainment Quarter, to compliment the other entertainment options on offer.

It would be a real loss to loose this creative, clean energy promoting business.

I don't know of any other karting facilities in the near region.

Please keep Hyper karts open!

Thank you,

[REDACTED]

Hi,

I personally think it will be a massive loss for the community if Hyperkarting closes.

It is a great space for kids, young adults, adults and families. It is so great that you can celebrate your kids party while also adults can have fun having a race too.

We have so many fond memories, from birthdays celebrations to outing with friends.
Like us I think so many other people have such great memories and had great experiences in this place.

There is no other place like this in this part of Sydney.
That caters to a big variety of audiences offering them all an amazing experience.

Plus I think we need to consider the job loss that this will cause to 150+ staff working there. That in this uncertain times and economy can have a major impact on their livelihood.

I really hope you reconsider closing down this space and find another solution to create more car spaces elsewhere.

Kind regards,
Chiara

To the DA submission council,

I must express my frustration and disappointment in the rejection of the submission to extend the DA for Hyperkarts. We should be encouraging and supporting small businesses across the city; this decision is the opposite of that.

Hyperkarts is a well-run business that adds value to the EQ precinct. Personally, I have taken my team to Hyperkarts and used other businesses in the precinct as a result. We would not go to EQ without Hyperkarts.

I also find the argument that more parking is needed hard to understand. The light rail has recently opened, and we should be encouraging more people to use public transport.

Please reconsider this decision. We need unique small businesses that add to the diversity of offers at EQ, not more of the same.

Regards,
Chris Rodgers

Dear council team,

Our family has loved Hyperkarts for years. There are very few other venues in Sydney that provide a great place to gather at any time of day or night, across age groups, genders, abilities and interests. Everybody loves this venue. It would be a great shame and the end of an era to lose it.

Kind regards,

The Goh family (Drummoyne)

to whom it may concern,

i'm writing to express my concern about the proposed removal of hyper karting.

this venue isn't just a go-karting track — it's a place that brings people together. it provides a safe, structured environment for young people and adults to enjoy motorsport, socialise, and spend their time in a positive way. for many of us, it's a regular outlet that genuinely benefits our wellbeing and sense of community.

removing it to make way for approximately 298 car spaces feels like a poor trade-off. parking infrastructure, especially at that scale, often ends up underutilised, while the loss of a unique recreational facility like this is permanent. once it's gone, there's no real replacement for what it offers.

hyper karting also supports local jobs and small-scale economic activity. from staff to maintenance to events, it contributes to the local economy in a way that a standard car park simply does not.

developments should aim to enhance community life, not reduce it. spaces like hyper karting are rare — they give people something to do, somewhere to go, and a reason to stay engaged locally rather than elsewhere.

i strongly urge you to reconsider this decision and explore alternatives that allow hyper karting to remain while still addressing any infrastructure needs in a more balanced way.

thank you for your time and consideration.

RE refusal of Hyper Karting time limited development consent.

This business is the only low barrier to entry go karting venue in inner Sydney. Closure of the business would be a massive disappointment and remove the last easily accessible venue for go karting to inner city residents.

Please allow them to extend.

Concerned City Of Sydney resident,
Emmet

Dear Council Members,

I'm writing to show my support for Hyper Karting.

I currently work at Hyper Karting, and it's been a really positive place to work. It's not just a job, it's somewhere that brings people together and gives the community a fun, safe place to spend time.

The venue plays an important role locally by creating jobs and attracting visitors to the area, which also helps nearby businesses. It would be disappointing to see something like this lost, especially when it's enjoyed by so many people.

I understand the Council has a lot to consider, but I hope you'll take into account the value Hyper Karting brings to both employees and the wider community.

Thanks for your time and consideration.

Kind regards,
Ethan

Hello Shannon

As you would know the Hyper Karting facility is a wonderful asset for young drivers that allows them to drive in a fast and competitive manner away from public roads

It is a great meeting spot for a fun social night out

The closure of this facility for some additional park spots is a travesty

Please reverse the decision and keep Hyper Karting intact

Many thanks

Garrath

I wish to register my disapproval of the Council's proposal to close Hyper Karts in favour of car parking.
We have used Hyper Karts Karts numerous times for 3 generations of our family.

In every time we have visited and used the car park , it is never, ever approaching full capacity. The car park is never full.
We also regularly attend the Markets and the car park is never remotely full.

Please reconsider this proposal.
Thank you
Graeme Farmer

Hi Shannon,

I am writing to express my concern regarding the potential closure of Hyper Karting at the Entertainment Quarter.

I recently became aware of discussions suggesting that this venue may be at risk of shutting down. As a regular visitor and supporter of local entertainment and community spaces, I find this very disappointing.

Hyper Karting is a unique and valuable recreational facility that contributes positively to the community by providing a safe, controlled environment for motorsport enthusiasts and families alike. It offers an experience that cannot easily be replaced and plays an important role in the local leisure landscape.

If the decision to close this venue is not driven by public safety concerns, but rather by considerations such as increasing car parking capacity, I believe this would be an unfortunate outcome. Prioritising parking over an established and well-loved community facility does not seem aligned with fostering vibrant and engaging public spaces.

I would appreciate it if you could provide further information regarding the reasons behind this decision, including whether any safety, financial, or redevelopment factors are involved.

I would also like to express my support for Hyper Karting and the broader community that values and benefits from it. I strongly encourage decision-makers to carefully reconsider any plans that would result in its closure.

Thank you for your time and consideration. I look forward to your response.

Kind regards,
Ilhan

Dear City of Sydney,

I'm writing to express my frustration at the decision to revoke approval for HyperKarting.

This is exactly the kind of outcome that undermines confidence in the City's planning approach. You have before you a proven, privately funded activation that brings people into the precinct, supports a significant number of jobs, and aligns directly with your stated goals around the night-time economy and activating underutilised space. And yet the result is to shut it down.

It is particularly difficult to reconcile this with the City's broader policy direction. There is constant emphasis on reducing reliance on cars, encouraging vibrancy, and making better use of urban space. Replacing an active, popular destination with a largely dormant use like car parking runs directly counter to those objectives.

This is even harder to justify given the transport changes in the area. The introduction of light rail has clearly reduced the need for large volumes of parking, which is precisely why parking has been removed elsewhere across the city. In that context, reverting a successful activation back to parking feels not just inconsistent, but outdated.

From an external perspective, there is no obvious negative impact that would justify this outcome. The operation is contained, it does not meaningfully disrupt surrounding areas, and it provides a unique recreational offering that Sydney otherwise lacks. If anything, it is an example of the kind of initiative the City should be actively encouraging.

Even the Lord Mayor has publicly expressed concern about the prospect of this venue closing. That alone suggests a disconnect between the City's strategic intent and the way decisions are being applied in practice.

More broadly, decisions like this send a clear signal that innovative uses of space, even when they are demonstrably successful, can be reversed without a compelling rationale. That creates uncertainty for operators and discourages future investment in similar activations.

I would appreciate a clear explanation of:

- The specific planning or policy grounds for revoking approval
- Why an ongoing approval could not be supported given the evident benefits
- Whether there is any pathway to reconsideration or reinstatement

Because at present, this looks less like a considered planning outcome and more like a decision that prioritises procedural rigidity over practical, positive outcomes for the city.

Kind regards,
Ilya Zak.

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

I'm writing this email in support of keeping hyper-karting Sydney open.

This venue provides an experience that is both unique and thrilling to the people of Sydney that is incomparable to anything else within a 15-20 km radius. By calling for an end to this business's operations you'd be cutting people's access to a high quality go-karting experience that tens of thousands have enjoyed.

Importantly, many of those people are recurring visitors who don't see this venue as a tourist attraction, or just an experience you have to try once. This is place that customers frequent often, and one that I go to regularly to catch up with mates who I otherwise might not see enough of had there not been a venue like this that offers so much fun.

Please this business operational

James

Our whole family including grandchildren and my special needs son have derived great enjoyment from using this facility over the years.

It would be a huge loss to the community if it were closed

Please do not shut it down

Dear intended,

The following is regarding the closing of the go-karting spot at Moore park.

What you doing bro/shebro, more car park space is gonna do nothing more for Sydney. We need some variety, not more car space for people who lazily avoid taking the lightrail like a normal person would.

Kind regards,

A very concerned person for a place that keeps bringing me back to Moore park.

Hyperkarting is a massive value add to our community. Good for kids looking to be active and take risks without riding e-bikes in traffic!

Good for adults as well.

Way more important than having more places for petrol fuelled cars. People should be encouraged to use public transport when coming to EQ anyway!

Regards

Joe Dusseldorp, Queen's Park resident

To whom it may concern,

Just writing to let you know I am against the submission to turn the hyper karting track back into carspaces. I've been to hyper karting with my nephews and nieces on a number of occasions (a few with my mates as well). It's brought so much joy to kids in the area.

I love nearby the ENT QTR and don't feel like the current car space issue affects our surrounding streets. Please keep it hyper karting and for it continue to bring joy to kids around the area.

Thank you!

Josh Clark

Hi City of Sydney,

Please do not shut Hyperkarting down. We should not be closing this flourishing and joy making business down for the purpose of more parking. We should be allowing a business to thrive and survive whilst encouraging and making accessible good quality public transportation. We should not be making it easier for people to drive and park their vehicles, particularly when we have seen so recently how fragile the world is with regards to fuel usage. Hyper Karting is a key attraction and fixture of the Entertainment Quarter, the whole area becomes less appealing and attractive for visitors if you shut down such a critical entertainment activity.

Kind regards,

Katherine

Hi,

I understand that Hyper Karting is closing down for car park expansion. This venue has always been my favorite spot for fun in the city, the only place where I can truly enjoy quality time with friends. Such activities are rare in Sydney, hard to find, and difficult to replicate.

Although it is situated in a car park further from the cbd, it has successfully cultivated a vibrant, supportive community. Closing the most enjoyable location just to replace it with an empty space that would remain unused most of the time is a poorly considered decision. Not to mention, it attracts more visitors to the area. I strongly hope you will reconsider this decision, which I believe is a mistake.

Hyperkarting is awesome. Great for young kids on the small circuit and then eventually mine will graduate to the big circuit. They will love it.

It would be sad to not get to see that in such a convenient and central setting.

Closing this business would be a major loss to the fun vibe of the area and fox studios. I probably wouldn't go back

Kris

Hi Shannon,

I'm writing to you to voice my support for Hyper Karting, and hoping my message and others save the business rather than it being forced to move out of Moore Park.

I've personally had many great experiences at this business, and know many others that have as well. It's providing a very positive impact on the community - open to all, with great opening hours and a central location so that racing is more available to everyone. It's a fun and healthy outlet for many, of all ages.

The business has also done an excellent job making consistent racing affordable. As far as I'm aware it's the most affordable karting venue in Sydney. So looking into the future, it's also a place that will foster talented drivers in Sydney and surrounds. It offers everyone a unique opportunity to practice a sport that can be otherwise prohibitively expensive.

It's also in the perfect location - Moore Park is an exciting venue offering all kinds of entertainment and experiences. The fact that there's a go karting track there is amazing.

It's a beautiful thing that has been developed - to turn a simple parking lot into a place where many have fun, grow, learn. Etc

I hope you can support this business and keep them in the same location. I believe this is best for the general Sydney community.

Best regards,

Lachlan Walker

Dear City Of Sydney,

Hyperkarting Moore park is a staple of entertainment in the east. It promotes a late nightlife which is so rare in Sydney and the evidence you need for them to stay in business is simply how busy it is. Without hyperkarting Moore park, there is no go karting unless you drive 45+minutes out of the east.

It creates so much joy and fun reflected in the reviews and it would be a genuine loss to see it close.

Please reconsider closing it down for the sake of community value, the most important aspect of a happy Sydney.

Best regards,
Luca

Dear Shannon,

I am writing to formally express my support for Hyper Karting and to urge you to reconsider any plans regarding the closure of the venue.

Hyper Karting serves as a significant asset to the community, and its closure would represent a considerable loss. I hope that a solution can be found to ensure the facility remains operational for all those who benefit from its services.

Thank you for your time and for taking this request into consideration.

Best regards,

There is an enormous lack

Of entertainment for kids and families in this part of Sydney and Hyperkarting is one of the very few places there is.

It is ridiculous to take away a much needed facility for parking spaces when there is lite rail put in place for that reason.

I feel the stadiums need to provide sufficient parking for their events or provide shuttle buses and the people who frequent Hyperkarting should not have to lose such an important part of their lives because of bad planning.

My grand children frequent Hyperkarting and at ages 3 and 5 the benefits it provides them in entertainment, skill and pleasure is immeasurable.

Kind regards

Michelle McKenna

I would be devastated if HyperKarting was closed down. There are very few venues close to our area where kids and adults can go and enjoy themselves together and drive meets. The next closest venue I am aware of is in Eastern Creek.

My son and I enjoy karting at the venue and challenging our friends.

Further, as a family that goes to the SCG and Allianz stadium for sporting events, inhale never found the parking in the Moore Park car park challenging, even when there are events at both venues.

Thanks

Narayan Sharma

To whom it may concern,

My name is Nicolay Alexiev, and I am the father of a six-year old boy who LOVES gokarting at Hyper.

Our weekly visits to the Entertainment Quarter location have grown into a beloved tradition, kindling a passion for motorsport that I'm now nurturing and protecting.

I'm not sure you realise the importance of this location and the role it has played for many Sydney families.

It has come to my attention that Hyper's future is at risk because of the need for more parking spaces.

The argument that Entertainment Quarter is in dire need (I assumed it's dire for the City of Sydney to consider shuttering a beloved business) is absolutely preposterous and indefensible given the proximity to light rail and the many alternative modes of transportation to get there.

Hyper is the single biggest reason we (and I'm sure many other families) even frequent Entertainment Quarter.

So this move from City of Sydney shows complete disconnect from the reality of what locals truly value.

Please avoid making tone deaf strategic decisions and listen to the people you serve and whose money you allocate.

I'm more than happy to provide more context and insight into how Hyper is a net positive for us Sydneysiders and our kids.

Cheers,
Nico

I am writing to strongly oppose the decision that may force Hyper Karting to close.

Closing a successful business that supports over 150 jobs and attracts thousands of visitors, simply to create more parking spaces, sends a deeply concerning message about the council's priorities. Removing a thriving entertainment venue that contributes to the local economy, tourism, and community engagement in favor of additional parking is short-sighted and harmful to local businesses and workers.

Hyper Karting is not just a recreational venue — it is an employer, an economic contributor, and a valuable part of the community. Decisions like this risk damaging the local economy, discouraging investment, and undermining confidence in the council's commitment to supporting businesses and jobs.

I urge the council to reconsider this decision and work with Hyper Karting to find a practical solution that protects employment, supports economic activity, and keeps a successful community venue operating. The community deserves decisions that promote growth and opportunity, not ones that remove thriving businesses.

I expect the council to carefully reconsider this matter and take community and economic impact seriously

Hyper Karting has been the best go kart entertainment centre I've been to, the staff is always so friendly and clear about everything and the parking lot before is the perfect size for an area like that.

I went there on a Friday/Saturday night and everything in the area brought me and my friend so much joy, the hyper karting should stay where it is otherwise the area will lose business and attraction in that area for just more parking spaces, could try to make more accessible public transport to that area like a link between Rosebery's area?

Dear Shannon,

We need to keep Hyperkarting at Moorepark. It is the only electric go kart establishment in the sydney metro area. This makes it much more rider friendly and suitable for a wider range of ages.

It's a fabulous place to race being undercover and suitable in all weather and also easy distance for people who don't live in the west where more others are located.

It'll be very disappointing if we no longer had an electric karting facility that was easily accessible and suitable for young and old. So again please don't get rid of it.

King regards
Rachel

Dear Shannon,

I am extremely concerned to hear that Hyper Karting may be forced to close to make room for more cars.

This business has been a success story in a precinct that has been less than successful for years.

At a time when the council has promoted its green credentials it seems farcical that a successful business would be forced to close for the sake of a potential influx of cars that barely ever eventuates.

I believe council needs to reconsider this proposal for the sake of the precinct and all the jobs and enjoyment that it provides to patrons.

Yours sincerely

Richard Hogan.

Hey, i really enjoy coming here with my family its such a waste to get rid of a place this great.

I have had so many fun memories and its not fair you want to take down a place supporting the community by employing over 150 people... for more parking, what a joke

Keep this place up

To whomever reads this email,

Hyperkarting is an important piece of my adolescent life at this point and I go there frequently, I come there maybe once a month with friends and it's always a good time.

Especially now that people have come to love the place, to replace it with just another parking floor seems kind of tragic and is counter to what makes Sydney so special to me.

Perhaps if it was a limited time requisition for major events if that works better but realistically I'd like to be able to continue to go to hyperkarting year round

Thanks for reading,
Rishi

Dear Councillors,

I am writing to formally object to any proposal or consideration to close Hyper Karting.

This facility is not just an entertainment venue—it is a valuable community asset that provides a safe, structured, and engaging environment for people of all ages. Its closure would represent a significant loss to the local community, small business ecosystem, and recreational landscape of Sydney.

Hyper Karting plays an important role in:

1. Community Engagement and Youth Development

The venue offers a positive outlet for young people, keeping them engaged in a controlled, skill-based activity. In a time where screen time and inactivity are rising concerns, facilities like this provide a much-needed alternative that promotes focus, coordination, and social interaction.

2. Economic Contribution

Hyper Karting contributes to the local economy through employment, tourism, and partnerships with nearby businesses. Its presence drives foot traffic to Moore Park and supports the broader precinct. Closing it would negatively impact not only its staff but also surrounding businesses that benefit from its customers.

3. Safe Motorsport Environment

Motorsport interest is strong across Australia, and Hyper Karting provides a safe and professionally managed environment for individuals to experience racing. Removing such venues risks pushing enthusiasts toward unsafe or unregulated alternatives.

4. Unique Recreational Offering

Sydney is already facing a shortage of diverse, accessible recreational facilities. Hyper Karting is a unique attraction that sets Moore Park apart. Losing it would further limit options for families, young adults, and corporate groups seeking healthy and engaging activities.

5. Social and Mental Wellbeing

Facilities like Hyper Karting contribute positively to mental health by offering stress relief, social connection, and an enjoyable experience. Removing such spaces reduces opportunities for the community to unwind and connect.

I strongly urge Sydney City Council to reconsider any plans that would lead to the closure of this facility. Instead, I encourage Council to work collaboratively with stakeholders to ensure its continued operation and integration into the long-term vision for Moore Park.

Sydney should be investing in more community-focused recreational infrastructure—not removing it.

Thank you for your time and consideration. I trust that Council will make a decision that reflects the best interests of the community.

Steve Micakovski

Please keep Hyper Karting open!! The only karting venue in Sydney that caters not only to adults but also children from 3 years old. My 3 year old boy drives the karts weekly and is loving it. He and many others would be devastated to lose this venue.

One thing that I don't understand is that so many roads have been closed for the light rail, money spent on bike paths/lanes to encourage the public not to drive into the City of Sydney area but now you want to increase car parking???? Doesn't make any sense to me.

It's a fun activity that brings lots of people to the entertainment quarter.
Keep Hyper Karting OPEN!!!

To whom it may concern

Please keep hyper karting available for the local community. There is plenty of accessible parking. Small businesses need all the support that they can get, especially by their own local government. Keep hyper karting open for the long term.

Sarah

hello,

I am messaging to let you know I love this place and I go so often to this vicinity and have never come to park. Only to go hyper karting and eat locally. You're losing more business than you're making by taking away such a treasured business in our local community.

Over 150 jobs will go so some person can park their car for a few hours over countless memories made? Isn't this what you wanted Moore Park area to be? A bustling hub with people being ATTRACTED to visit due to something to do??

KEEP HYPER KARTING.

thanks,

Simran

Hyper karting is one of the best facilities in Sydney, in an age of children focusing on virtual worlds and having low resilience in the real physical world, hyper karting bridges that gap and encourages children to take risks and build courage and confidence by testing themselves in a physical world that's safe and exciting in equal measures.

Cheers, Stuart

To Whom It May Concern,

I was really dismayed to hear of the apparent fate of Hyper Karting in the newspaper.

It seems frankly completely outside of CoS's mission of pushing people to more active transit and place making to turn what is the most successful attraction to join the EQ since I can remember, back into a carpark that sits unused 99% of the time.

The EQ should be allowed to rent the space to Hyper Karting and take that profit, rather than requiring the spaces to be left empty, only for them to be potentially filled a few nights a year, especially when the new car park at the football stadium is nearly ready. The space is already struggling, why not turn the dagger hey?

The Precinct is so well connected by public and active transit, it makes no sense to provide any further subsidy than we do already (because its my rates that go to do all of this), when I nor an increasing number (given how many units are approved with no carspace) of rate payers in the area will get zero use of the parking.

Make the people drive to the train and catch it, it is not in the CoS's best interests to, as John Mitchells 1970 hit puts it, "Pave paradise and put up a parking lot".

Dear Mr Rickersy,

This is a submission regarding the proposal to discs the closure of 116 Lang Rd Moore Park.

Please don't close this fantastic venue! There is plenty of space nearby for carpark, this venue is one of the only really fun venues for parents Sydney wide. It's really important to the community.

I sincerely hope you consider your own children and the families of all Sydney siders before you close one of the only places that is a destination for kids.

Kind regards,
Tracey Adamson

Hyperkarting is an amazing establishment and regarding the fact there aren't many entertainment areas in Sydney, this is the cure for boredom for many locals around, shutting them down would be a negative sight to see and it'd be best to keep them running.

Dear City of Sydney,

I [REDACTED] would like to express my opinion that the closure and forced removal of Hyperkarting Sydney bestows a significant negative impact not only on those employed but also the community. In a world where being active and getting people off their phones is becoming increasingly important, taking this facility away will only give less options to do so. Please reconsider your thoughts with these factors in mind. I personally find gokarting a form of mediation, in which all the troubles we have being switched off for the rounds travelled around the track. The facility provides thus a positive and valuable resource for the community which far outweighs the benefits of additional car parking spots.

Kind regards,

[REDACTED]

Dear Shannon Rickersey,

I'm sending this submission in the hope that the City of Sydney will make the correct decision in keeping Hyperkarting at Moore Park.

I have only kartered once in my life, and it was only last year as part of a work event. I was so worried about it but the team made it the most amazing fun experience that I was so excited and pumped afterwards that I have been waiting for a chance to go back.

I moved to Melbourne 9 months ago without ever returning but when I return for a visit next week I have already booked in for 3 races the day arrive, and I would like to make this a regular event for me and my friends each time I visit.

I have also visited a jarring place in Melbourne and it couldn't compare to the awesome venue and setup that Hyper has at Moore Park.

In terms of community though, why would you want more car parking when you have one that isn't full and you have light rail running directly to the precinct that you should be encouraging more people to use. Isn't Sydney Council on the 'go green' bandwagon so why are you encouraging more cars?

People need some fun in their lives right now so please on the right side of history when it comes to Hyperkarting!

Regards

Dear Shannon,

I'm so sad to hear that hyper karting could be taken away from Moore Park entertainment Complex.

We have been going there for some time now, traveling from Terrigal on the Central Coast, and my son having a few parties there now.

It is such a great place to take the kids and I know all the big kids love it too.

It's a real disappointment for this to be taken away, just so the council can have more car space.

Please don't do this to this amazing business, and to the amazing staff that make this business what it is.

There is plenty of parking around, and whether going to a show, a concert, hypercarting, the movies, I have never struggled to get parking there or at surrounding parking.

My son, his friends & I know a lot of people that visit there from the Central Coast will be so disappointed, if you take hyperkarting away..

Please don't do it..

Kind Regards

[REDACTED]

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

As a local community member to express my concern regarding the potential closure of Hyperkarting Sydney.

Hyperkarting is more than just an entertainment venue — it is a unique recreational space that brings together families, young people, and the wider community in a safe, engaging, and active environment. In a time where inclusive and positive social spaces are so important, venues like this play a valuable role in community wellbeing.

The loss of Hyperkarting would not only impact its employees and business operators, but also the many individuals and families who rely on it as a place for connection, celebration, and recreation. It also contributes to the local economy by attracting visitors and supporting surrounding businesses.

I respectfully urge the Council to consider all possible options to support the continuation of this business — whether through review of decisions, alternative arrangements, or any available pathways that could allow Hyperkarting to remain operational.

Preserving local businesses that contribute positively to the community should be a shared priority, and I hope Hyperkarting can be given the opportunity to continue serving Sydney.

Thank you for your time and consideration.
Kind regards,

Dear Shannon.

Please continue to allow the operation of the Hyper Karting business where it is at the moment as it's a cornerstone of entertainment and fun for families near and far.

It's beyond reason for councils to engage in this revenue raising tactics by closing a business to gain a few more parking spots.

Kind Regards,

To whom this may concern,

My friends and I highly value this gokarting venue as our preferred destination for socialising and recreation. It would be unfortunate if this establishment were to close its doors. I am confident that the local business community would also experience a decline in foot traffic due to the closure of this venue.

Kindly reconsider the proposed changes to ensure the continued operation of this institution.

Kind Regards,
Abrik

Hi,

Please do not trade empty car spaces for a wonderful small business, 150 people's jobs, their stable income, their families wellbeing, a place that brings so much tourism to Moore Park/Sydney!

Do the right thing.

- Adienna Sloman.

Dear Shannon,

I'd like to express my support for Hyper Karting. It's difficult finding active and affordable things for kids to do in the East. Losing Hyper Karting would be a major loss.

We are very impressed with the setup... clearly there has been a lot of investment. My son loves it. It would be a shame if it was forced to close after such a short stint.

Sincerely,
Adrian Atkins

I am writing to support the continued operation of Hypercart.
It's ridiculous that you are terminating it just for more parking on the odd occasion that there is a sporting event.
You are killing the EQ precinct.

Hyper karting Sydney is a fantastic venue that provides joy and entertainment for Sydneysiders all year round. I've personally been there numerous times and have had absolutely ZERO problems trying to find a parking space. In fact more often than not, the car park feels empty when I go there. Even when I've visited the entertainment quarter during peak hours, there's always MORE THAN ENOUGH space to find a park given the multiple levels within the building.

Closing down hyper karting is a distasteful decision and reflects very poorly when it comes to local governments supporting small businesses. It would be a real shame to see this happen. I, along with many other thrills seekers hope you can reconsider your options. Don't be a buzzkill.

Aidan

Dear Sir/Madam,

I hope this message finds you well.

My name is [Your Name], and I am an international student currently studying in Australia. I am writing to express my concern regarding the plan to replace the sports field with parking spaces.

I truly enjoy this place and have visited it multiple times. It is not only a recreational area but also an important space for students and the community to stay active, relieve stress, and connect with others.

I kindly ask you to reconsider this decision. We genuinely need this field, as it serves a valuable purpose for many people, especially students like myself.

Thank you for your time and consideration. I hope you will take our concerns into account.

Sincerely,
[Your ali]

Dear Sirs

The decision to look to shut down Hyper Karting would represent a gross failing of this responsible within government to support the local community.

Hyper Karting provides those of all ages to engage in sporting activity, learning skills, which cannot be experienced elsewhere. But most significantly it allows the youth to develop a love of motor sport in a safe and secure environment. Who knows whether it could lead to the identification of the next Mark Webber, Daniel Riccardo or Oscar Piastri. Having travelled and lived abroad, including in the UK which is concussed to be the open of open top racing, there is nothing like Hyper Karting. Instead of looking to close a venue that gives so much to the community, it should be supported.

Worse still is using the apparent need for parking spaces when even a cursory review would establish that the car park is never fully utilised. This is not a legitimate reason.

Show some leadership and firmly demonstrate that local business, supporting the local community, especially the youth, are supported by the government not attacked.

Regards
Boris Bronfentrinker

Please do not shut Hyper Karting Down.

Just head to the business Instagram page and have a look at the comments people are making based on the threat this great business is facing.

We need more activities across Sydney not less. Closing it down is a massive failure to the public. People that do this just for fun and also people who actually aspire to race cars (safely off the streets of Sydney) will lose out. People that bond with friends over quality time together will lose out. People that work to bring the Sydney community a fun place to escape the daily grind will lose out. Not worth it for a few parking spots.

Sincerely,

Ben Anderson

I saw this and I thought surely this is a joke?

Congratulations council on continually taking away entertainment facilities that keep our children (and adults) safe and out of trouble.

I've visited many times and can also agree that the current car park is almost always empty. It feels like a ghost town.

Here you are tearing down peoples livelihoods and passions.

What a disgrace.

Dear Members of the Council,

I am writing to express my urgent request that the council reconsider the proposed closure of Hyper Karting at Moore Park.

As a regular customer, I wish to highlight the significant impact this closure would have on our local community:

Employment: They currently employ over 150 residents who would face immediate job loss.

Community Resources: Hyper Karting is one of the biggest entertainment businesses in the area and use to provide fun for the community, including people that comes all over Sydney to enjoy a safe, fun environment with friends and family, celebrating birthdays and company's events.

We ask that the council explore alternative solutions for parking spaces, once the business has also invested a massive financial resource to maintain a high standard of service provided to their clients.

Respectfully,

From: Daniel Ostermeyer [REDACTED]

Dear Sir/Madam,

I am writing in support of maintaining the Hyper Karting facility at Entertainment Quarter.

The go karting facility is an excellent leisure facility for young and old alike. I have taken my kids there many times and we would be very disappointed if it was to close.

There are no alternatives for go karting in the Eastern Suburbs - the nearest alternative facilities are a long drive away for us.

It does not make sense to me that a popular leisure facility like this would be forced to close to make way for parking spaces. There is already lots of parking available in the rest of the multi storey car park (this is not usually near capacity in my experience) and in the surrounding area. Entertainment Quarter is also well served by public transport (light rail and buses) and incorporating additional car parking spaces seems to run counter to most recent planning / transport proposals in the City of Sydney.

Yours faithfully,

Daniel Ostermeyer (Waverley resident)

Dear Councillors,

I am writing to express my strong opposition to the proposed closure of the Moore Park Hyperkart Track. The Hyperkart Track is an important and unique feature of Sydney's entertainment and recreation landscape. It attracts a wide range of visitors, contributes to the vibrancy of Moore Park, and supports local tourism and hospitality.

Importantly, the venue also provides employment for a significant number of people, and its closure would negatively impact those workers and their families.

As a regular visitor to the Hyperkart Track, I have consistently observed that parking availability in the area is adequate. In my experience, there is always plenty of parking when events are held. For this reason, repurposing the Hyperkart Track space to "recover" parking does not appear to be an effective or necessary use of the land, particularly when it comes at the cost of losing a well-used and valued recreational facility.

I respectfully urge Council to reconsider the closure and to recognise the social, economic, and entertainment value that the Moore Park Hyperkart Track provides to Sydney. Retaining this facility would better serve the community than removing an established venue that is clearly meeting public demand.

Thank you for considering my views on this matter.

Yours sincerely,
David Bedelis

I am writing to express my strong support for the continued operation of Hyper Karting at Moore Park. As a [local resident / frequent visitor / business owner], I believe Hyper Karting is a vital part of the Sydney community. Since its opening, it has transformed an underutilised space into a world-class entertainment hub that attracts thousands of visitors to the precinct, supporting nearby businesses and providing over 150 local jobs.

The venue offers a unique, sustainable, and inclusive recreational activity that is rare in the CBD area. Losing such a significant landmark would be a major blow to Sydney's night-time economy and tourism appeal.

I urge the Council to support the necessary approvals to ensure Hyper Karting remains a permanent fixture of Moore Park. Sydney needs more innovative spaces like this, not fewer.

Thank you for considering my feedback.

Sincerely,

Elaine Wager

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Hi there,

I strongly believe the decision to shut down one of Sydney's best entertainment centres is absurd. Hyper Karting has created a community of likeminded go karting enthusiasts, who have gone on to compete in competitions and still frequent the establishment. This shows that despite racers being aware of petrol karting and competitions around sydney, they still want to return to Hyper Karting due to its atmosphere and friendly customer service. Countless of friendships and bonds have been formed through the camaraderie found at Hyper Karting. It is an essential venue for socialising and meeting likeminded people.

The amount of foot traffic that has increased in the Entertainment Quarter since Hyper Kartings open, has increased dramatically. Countless surrounding businesses have benefited from Hyper Kartings existence in the Quarter, and would suffer greatly in the event of its closure. Hyper Karting has also often done collaborations with various businesses in the area, to help drive customers to other venues after they race. The shut down of Hyper Karting would create a ripple effect that would ultimately make the Entertainment Quarter a dying spot, just as it was before 2021.

Hyper Karting hires mostly young people, and has over the years hired over 500 people. Finding a job as a young person with no working experience is an incredibly difficult task, and due to the insanely expensive living situation in Sydney, it is essential that young people are able to find a job to simply afford to live. Hyper Karting allows so many young people to work and pay for the essentials. Shutting it down would put so many people out of work, and prevent new young people from being able to find work, as the job market is so saturated.

Hyper Karting also supports many charities, and donates prizes and gifts to foundations, to incentivise their fundraisers. Plenty of these foundations return to Hyper Karting each year, expressing their gratitude and stating how helpful their donations were in supporting their causes. The shut down of Hyper Karting would also in turn affect these charities and foundations, who partially rely on the business to drive donations.

The accessibility and affordability of Hyper Karting also makes go karting a feasible sport for kids and adults of all ages to explore. It's important for there to be opportunities for new sports to keep people moving, and many people discover their love for go karting, just from a simple visit to Hyper Karting. Other go kart tracks in Sydney use petrol engines, harming the environment more than need be. Hyper Karting's electric karts provide a more environmentally sound option. The venue is also in a much more reachable location, being next to a light rail station and many bus stops.

The decision to shut down such a vital venue is simply outrageous and is not considering the community. There is no need for more parking spaces, the car park is almost NEVER full.

Please strongly consider this email.

Dear Sir

My family has enjoyed the Hyperkarting facilities on a number of occasions and have dined in the precinct following the karting.

For us it would be a great shame if this was turned into additional parking.

We have never had problems finding a car space so the decision to increase the parking seems superfluous.

Please do not force the closure of the Hyperkarting as proposed.

Thank you

Frank Antonini

Dear Council Members,

I am writing to express my strong opposition to the proposed closure of the hyperkarting facility in favour of additional car parking spaces.

Hyperkarting provides far more than just entertainment, it is a valuable community asset. It offers a safe, controlled environment for people of all ages to engage in motorsport, develop driving skills, and enjoy a unique recreational experience. For many, it serves as an accessible entry point into automotive enthusiasm without the risks associated with public roads.

Beyond recreation, the facility contributes positively to the local economy. It attracts visitors, supports local employment, and drives business to surrounding shops and hospitality venues. Removing such a destination in exchange for more parking risks diminishing the vibrancy and appeal of the area.

From a broader perspective, replacing an active community hub with additional car spaces sends the wrong message about urban priorities. Modern cities should aim to create engaging, experience-rich environments rather than simply accommodating more vehicles. Facilities like hyperkarting encourage social interaction, physical activity, and local tourism benefits that far outweigh the limited utility of extra parking.

I respectfully urge the council to reconsider this proposal and explore alternative solutions that preserve and support community-focused venues like hyperkarting.

Thank you for your time and consideration.

Kind regards,
Gab

Dear Sydney Council,

I'm writing to show my support for keeping the rooftop go-karting track in Sydney.

I've been there more than 10 times, and every time it's packed with people having a good time. It's one of those places that actually brings people together locals, tourists, friends, families. You don't get that from many places anymore, I am from Melbourne and this go-karting facility is easily the best in the country and ripping it apart and destroying a business for car park level while also getting rid of a large amount of jobs to young individuals.

Replacing it with a car park just doesn't make sense. Car parks are useful, sure, but they don't create energy, they don't bring people in, and they don't add anything to the community. A place like this does. It gives people something to do, somewhere to go, and a reason to stay in the area longer.

Australia is built around lifestyle. People want experiences, not just convenience. Places like this karting track are exactly what make a city feel alive and enjoyable.

I really encourage the council to think carefully before replacing something that clearly works and is loved by the community.

Kind regards,
George Vlahogiannis

Dear Council Members,

I am writing to you today to strongly oppose the proposed closure of Hyper Karting in the Entertainment Quarter.

Shutting down this beloved local venue is the wrong move for our city, and I urge you to reconsider this decision.

Hyper Karting is much more than just a place to race; it is a vital recreational outlet that brings our community together. For our youth and young families, it provides a safe, engaging, and incredibly fun environment to bond. Beyond the entertainment value, it teaches our young people valuable life skills.

They aren't just learning how to drive safely and develop spatial awareness; they are learning about sportsmanship, quick decision-making, and healthy competition.

Furthermore, the economic impact of this closure cannot be ignored. If Hyper Karting is forced to shut its doors, over 150 jobs will disappear. Destroying the livelihoods of so many hardworking individuals is a devastating blow to our local economy.

It is deeply disheartening to learn that a vibrant hub of community connection and employment is at risk of being demolished simply to increase the car park's capacity by 296 spaces.

Trading a thriving, joyous community space for a concrete parking lot-especially for spaces that will hardly be used-is incredibly short-sighted.

Please listen to the voices of the community. We need places that foster joy, connection, and local employment, not more empty parking spaces. Do not close Hyper Karting down.

Thank you for your time and for representing the best interests of our community.

Sincerely,

Gerry Fanos

For our youth and young families, it provides a safe, engaging, and incredibly fun environment to bond. Beyond the entertainment value, it teaches our young people valuable life skills.

They aren't just learning how to drive safely and develop spatial awareness; they are learning about sportsmanship, quick decision-making, and healthy competition.

Furthermore, the economic impact of this closure cannot be ignored. If Hyper Karting is forced to shut its doors, over 150 jobs will disappear. Destroying the livelihoods of so many hardworking individuals is a devastating blow to our local economy.

It is deeply disheartening to learn that a vibrant hub of community connection and employment is at risk of being demolished simply to increase the car park's capacity by 296 spaces.

Trading a thriving, joyous community space for a concrete parking lot-especially for spaces that will hardly be used-is incredibly short-sighted.

Please listen to the voices of the community. We need places that foster joy, connection, and local employment, not more empty parking spaces. Do not close Hyper Karting down.

Thank you for your time and for representing the best interests of our community.

Sincerely,

Gerry Fanos

This has been one of the best uses of space in Sydney. Wilson Parking doesn't need any more parking and this attraction bring so many people to Moore Park

Hi,

Why is Council trying to shut down Hyper Karting for more car spots?

Don't you know how popular this place is for families? It is literally the only I reason I bother to drive my kids from Penrith into Moore Park.

The rest of your offerings there at Moore Park are boring and we have more options here in Western Sydney to be bothered driving out there.

When we go we spend time doing the go karting then we go and visit the restaurants so we won't bother spending money anymore if you shut this place down.

It's disgusting that you make these decisions instead of consulting with paying customers. Why don't you ask people what they want, it's their money and it keeps business going.

Happy to discuss over the phone to let you know how disappointed this family would be if you decided to shut a successful business down.

Regards
Helio Pedro

Closing down Hyper Karting at Entertainment Quarter Moore Park would be a major loss not just for motorsport enthusiasts, but for the wider Sydney community. This venue offers a rare, accessible way for people of all ages to experience high-performance electric karting in a safe and controlled environment, fostering both recreational fun and grassroots interest in motorsports. In a city like Sydney, where space for unique, active entertainment is increasingly limited, Hyper Karting provides an important alternative to passive leisure activities while also supporting local jobs and nearby businesses. Its presence contributes to the vibrancy of Moore Park as a social and entertainment hub, drawing in visitors and boosting the local economy. Shutting it down would not only remove a popular attraction, but also diminish opportunities for community engagement, skill-building, and tourism in the area.

Hi,

I am a local resident living on Cook Rd and am emailing to express my disappointment with the council plans to replace Hyperkarting EQ with additional parking.

I visited Hyperkarting recently to surprise my partner on his birthday, as it was something we had been wanting to do for ages. We went with a big group of our friends and had a very special time. Everyone loved it and we have been talking frequently about going back since. It's also compelling having it at such close distance, meaning I would more likely visit often.

If you remove this entertainment attraction from the EQ, there will simply be less reason for me and my friends to go there, and it will also detract business from other places in the EQ such as restaurants we would go to after visiting Hyperkarting. Therefore, this decision would not only impact Hyperkarting, but the quality of the EQ as a whole.

Thank you for your time.

Kind regards,
Isabel

To the City of Sydney,

I write to you as part of the growing number of community members and employees asking for Hyper Karting (HK) in Moore Park to remain open, as its closure would mean losing a deeply important local institution.

Needless to say, HK has become a key pillar of the Entertainment Quarter (EQ). Having grown up in the Eastern Suburbs, I remember visits to the EQ before HK opened. While the venues operating there before 2021 were of high-value, what should've been a vibrant area was largely empty.

Closing HK would also rob families and community members of an enjoyable venue that offers something for people of all ages.

I also remember what the car park was like before HK opened. [Hyper Karting's recent social media activity](#) quite effectively illustrates how empty the rest of that car park can be even on busy days, but prior to HK the fourth, fifth and sixth levels were virtually vacant all the time.

Crucially, however, I write to you as an employee of Hyper Karting. I first worked there between February 2022 and May 2025 — during which it served essentially as my university job — before I left for a full time job, but returned in late-2025 when my work situation changed.

HK is a wonderful place to work, especially as a university student. The nature of its rostering system allows it to fit perfectly into the busy schedules of its young employee base, many of whom are also students. Overall, it is an important income source for many young people within our community.

On a more personal level, I have formed a strong bond with my colleagues, a few of whom I have gone on to race go karts competitively with and against across New South Wales. These connections would not have been possible without HK.

Given its importance to the Entertainment Quarter and the community, and its role as an employer, and considering all it brings to the City of Sydney, I implore you to do everything in your power to keep Hyper Karting alive.

Kind regards,

Jack MacKenzie

Dear Shannon Rickersey,

I recently learned that the City of Sydney is planning to shut down Hyper Karting to create more parking spaces. Having visited it countless times, I genuinely can't recall the last time it was empty. It supports local jobs, businesses and fosters social connections among friends, family and mates. By attempting to force it out, you're dismantling a vital community culture.

I travel quite a distance to the entertainment quarter, but Hyper Karting is my sole destination. I don't visit the EQ for anything else.

Let me be clear: if you remove Hyper Karting, I won't be attending the EQ. This is a shame because many local businesses there deserve my and others' support.

If you care about local businesses, you'll reverse this decision.

Regards,
Jamie Salgo.

Hi there,

As a frequent user of Hyper Karting I believe that it is a huge mistake to replace this recreational activity which is an escape for so many with a Car Park.

Everyone I know loves hyper karting and would much prefer Hyper Karting there than some extra parking spaces. Please reconsider this decision.

Kind regards,
Jamie Stapleton

Hi Shannon,

I would like to express my strong support for Hyperkarting remaining in its current location. It has become a valued part of our local community and provides a fantastic, safe environment for families to enjoy time together.

My kids absolutely love going there—it's something they genuinely look forward to, and it gives them an opportunity to be active, build confidence, and have fun in a controlled and well-managed setting. As a parent, it's reassuring to have access to entertainment that is both exciting and wholesome.

Facilities like this are incredibly important for families, offering a positive alternative to screen time and encouraging social interaction and outdoor activity. Hyperkarting delivers exactly that, and it would be a real loss to the community if it were to relocate or close.

I strongly encourage you to allow Hyperkarting to remain where it is so that families like mine can continue to benefit from everything it offers.

Kind regards,

Jarrod Bryce

Dear Shannon,

Regarding City of Sydney Council's plans to shut down Hyper Karting Moore Park for extra car spaces.

I urge council to reconsider its decision. I request that Council supports Hyper Karting and let it remain at EQ Moore Park in its space.

Hyper Karting is wonderful entertainment for the area, and one of the best go kart tracks. There is nothing else in the area like it, and other go kart tracks are a significant distance away.

It has been fun for my son to drive there on the small and medium tracks on multiple occasions. In fact, he had one of his most fun times there with his best friend, and we have a photo of them from the Hyper Karting Photo Booth on our fridge right now.

That's a clear example of a positive impact that Hyper Karting has on kids, on friends, having a fun, memorable experience. Indeed, I am looking forward to driving on the same track there as my son as he gets older.

Taking away Hyper Karting would take away a community asset, something that brings the community together.

Also, having worked in the area and used that parking station frequently, and having attended a variety of sporting events, gigs and other events in the precinct (EQ, Allianz and SCG), I question how frequently whether the additional parking capacity would be utilized apart from a small number of major events, to justify its removal. The light rail and overflow parking in Moore Park and Sydney Boys HS should mostly address that need.

I understand and acknowledge that Council has responsibility to plan for a range of community uses and special events. Nevertheless, I ask Council to please consider that Hyper Karting is a great hub for the community, and I hope Council allows Hyper Karting to keep its place there in Moore Park.

Thanks
Javed

To Whom It May Concern,

I'm writing to express my strong disappointment regarding the decision to shut down the Hyper Karting facility on Level 5 of the car park.

This venue has become more than just a business — it's a genuine part of the local community. It provides a place for people to come together, unwind, and enjoy something unique that Sydney doesn't have much of. Removing it in favour of reinstating parking spaces that, from all observable use, are rarely in demand feels both unnecessary and short-sighted.

The impact of this decision goes beyond the business itself. It affects staff, regular customers, local events, and the broader community that has grown around it. Many people rely on this space not just for entertainment, but as a social outlet and a place to connect.

It's difficult to understand why something with such clear value is being replaced by something with far less demonstrated need. Decisions like this risk stripping away the character and vibrancy that make areas like this worth visiting in the first place.

I strongly urge you to reconsider this course of action and take into account the broader community impact before proceeding.

Hi!

I honestly cannot find the questions on Instagram to answer them here on this email - but I will freely write out from the bottom of my heart to say that hyperkarting is a place that makes family and friends come together on any day of the week. Through birthdays and other celebrations to funny moments from the track. You have created a remarkable place to go back to for more memories and a place is now our home.

I will say that I disagree with the decision of shutting hyperkarting forever due to local council's stupid money grab tactics. But think about how Sydney's entertainment and nightlife is truly dying here even the lockout laws are over. Please don't leave us, we have nothing else left to do in Sydney. Don't let the city be less vibrant like it was before during Covid and after.

To whom it may concern,

I strongly disagree with the plan to remove hyperkarting. This is a fun venue for everyone young and old. We need to bring the life back into these areas as businesses surrounding the area also thrive bringing revenue for many. The revenue hyperkart would be making would certainly outway the revenue of extra car spaces when the car park is rarely full during a normal day at best.

Kind regards,
Jessica Armstrong

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon Rickersey,

I write as a member of the community to formally oppose the proposed closure of Hyperkarting at 116 Lang Road, Moore Park NSW 2021, as referenced in Development Application RD/2023/897/A.

Hyperkarting is a valued recreational facility that serves a broad cross-section of the Sydney community - from families and casual visitors to corporate groups and motorsport enthusiasts. It is widely regarded as one of the best go-karting businesses in Sydney (with more than 5800+ reviews on google), and its location within Moore Park makes it a key destination for tourists and a popular venue for events and group activities. Its closure would represent a significant and deeply frustrating loss to the community.

It is extremely disheartening to learn that this beloved venue may be replaced by a car park. Trading one of Sydney's most vibrant and well-attended recreational attractions for additional parking is a very poor outcome for the precinct, for tourism, and for the thousands of people who visit Hyperkarting each year. This decision would prioritise vehicle parking over meaningful community and cultural value.

I wish to raise the following concerns regarding the proposed closure:

1. Loss of recreational amenity - Hyperkarting is one of the few dedicated indoor karting facilities in inner Sydney. Removing this facility reduces the variety of recreational options available to residents and visitors alike.
2. Tourism and events impact - Hyperkarting is a genuine tourist drawcard and a go-to venue for corporate events, birthday celebrations, and group activities. Its loss would diminish Moore Park's appeal as an entertainment destination and reduce visitation to the broader precinct.
3. Community and economic impact - The venue supports local employment and contributes to the Moore Park entertainment precinct. Its closure would have a negative flow-on effect on nearby businesses and the local economy.
4. Lack of comparable alternatives - There are limited substitutes for this type of facility within a reasonable distance of the Sydney CBD. Its closure would leave a meaningful gap in the city's recreational offering.

Replacing a thriving, community-loved business with a car park is not an acceptable outcome. I respectfully urge the City of Sydney to carefully reconsider this proposal and to explore all possible alternatives that would allow Hyperkarting to continue operating.

I am happy to provide further information or participate in any community consultation process regarding this matter.

Thank you for your time and consideration.

Regards,
Joe Bamier

Hi

It came to my attention that Hyper Carting is at risk of closing as there is a proposal for more parking spaces.

I am against that proposal, as the carpark is hardly ever close to full.

The precinct, outside of concerts in Hordern Pavillion, is generally eerily empty and hardly an entertainment quarter. Instead of diversifying and enriching the offer to draw patrons in, you are proposing closure of existing activities. Hyper carts are clean, well run, they employ a lot of people and bring people into the quarters.

Kind regards

Jovan

Subject: Formal Objection: Proposed Closure of Hyper Karting Sydney (Moore Park)

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To the Members of the Sydney City Council,

I am writing to formally object to the proposed closure of Hyper Karting Sydney. Deciding to terminate a landmark recreational facility - and the livelihood of over 150 employees - to make room for additional parking spaces is an incredibly short-sighted move that would leave a significant void in our city's cultural and social landscape.

Sydney is currently facing a shortage of diverse, high-quality entertainment options, and Hyper Karting is essential to the city for the following reasons:

1. A Rare "All-Weather" Destination

Sydney's entertainment scene is heavily reliant on outdoor spaces, leaving families and tourists with very few options during wet weather. Hyper Karting provides a premier, indoor, world-class experience that remains operational year-round. Removing one of the city's few reliable "all-weather" attractions would be a significant blow to Sydney's livability and its appeal as a tourist destination.

2. Vital for Youth and Families

There are very few safe, high-energy, and engaging environments for young kids and teenagers in the inner city. Hyper Karting is one of the best options for Sydney's youth, offering a controlled environment that promotes coordination and healthy competition. Losing this venue removes a crucial outlet for young people at a time when we should be investing in more youth-centric infrastructure, not less.

3. Devastating Employment Loss

The closure would result in the immediate loss of over 150 jobs. These are roles held by locals who contribute to the vibrancy of the Moore Park precinct. Sacrificing the livelihoods of 150 people to accommodate more stationary vehicles is an unacceptable trade-off that prioritizes asphalt over people.

4. Protecting the Entertainment Quarter's Identity

The Entertainment Quarter was designed to be a hub of activity and excitement. If the Council continues to prioritize parking over actual entertainment, the precinct loses its purpose. A world-class city is defined by its experiences, not its parking capacity.

Conclusion

I urge the Council to reconsider this proposal. Hyper Karting is a cornerstone of Moore Park that serves kids, families, and workers alike. Please do not trade away one of Sydney's best entertainment assets for a few more parking spots.

Sincerely,

Justin Calvi

To whomever it concerns:

Hyperkarting is the only cheap and accessible place for go-karting in Sydney. There is almost no alternative to an affordable karting experience this close to the CBD. The loss of hyperkarting risks the loss of the greatest attraction to the Moore Park entertainment quarter and will be a major blunder in the long run.

Let Hyperkarting Stay

Kids love it

Nothing else like it.

Birthday party's, school holidays.

And loads of fun for teenage/middle age group.

Not much else being drawn to at entertainment quarter. Restaurants always dead when we go. We make sure we give business when we do travel there to kart...

Hi,

Why is Council trying to shut down Hyper Karting for more car spots?

Don't you know how popular this place is for families? It is literally the only I reason I bother to drive my kids from Penrith into Moore Park.

The rest of your offerings there at Moore Park are boring and we have more options here in Western Sydney to be bothered driving out there.

When we go we spend time doing the go karting then we go and visit the restaurants so we won't bother spending money anymore if you shut this place down.

It's disgusting that you make these decisions instead of consulting with paying customers. Why don't you ask people what they want, it's their money and it keeps business going.

Happy to discuss over the phone to let you know how disappointed this family would be if you decided to shut a successful business down.

Regards
Kristina Farrugia

Dear council.

In a world that requires a shift to green, discouragement of unnecessary driving is essential. Moore park is one of the most accessible entertainment quarters via public transport. And unfortunately for you guys at council who haven't yet, everybody else can see this incredible feature, and it's for this reason that the Moore park car park is hardly ever filled to capacity.

Furthermore, it is the pinnacle entertainment centre of Sydney. Those cars that you are trying so hard to accommodate? Many of them are there for hyperkarting!!! How can you be benefiting the coming and goers of Moore park by removing their destination and reason to attend?

Think logically.

Hello City of Sydney Council

I am shocked to hear that you are proposing to close Hyper Karting.

Hyper Karting is an Institution in Moore Park. It is a fun space for young people (and old !) to unleash their inner racing driver in a safe, vibrant, and professional environment.

The staff who work there are young, and for many they have started their Customer Service careers there. Some have stayed on and have been trained to move to Managerial roles and others have used their experience as a springboard to other jobs/careers. Where will the **150** currently employed staff go? Where will the future of tomorrow's Customer Service Stars be able to work and train in such a fun and nurturing environment?

The Council should be encouraging the public to use public transport, not increasing car spaces. Especially in this current environment where the cost of fuel is astronomical. Surely it makes sense for patrons attending Moore Park precinct events to be using public transport and leaving their cars at home?

I strongly urge the Council to prioritise this space for the Community to be able to go kart in a safe environment with caring Customer Service staff, rather than setting aside car spaces which will inevitably sit empty.

Yours Sincerely

Maria Wrigley

Hi Team,

Please don't let us lose Hyperkarting did to some development.

It's one of the last remaining vibrant entertainment hubs of the East.

Whatever you're building can be built instead of any of the unused boarded up housing, not in place of Hyperkarting.

Kind regards,

Marianna and Mark

To the City of Sydney Development/Planning,

I'm writing to express my support for Hyperkarting remaining in Moore Park.

Hyperkarting is a fantastic venue and a really valuable attraction for the area. I've been more than 15 times, including for several work functions, and it has always been a great experience. It clearly brings people into Moore Park, and many visits also flow on to nearby restaurants and businesses.

Losing a unique and popular venue like Hyperkarting in favour of more car parking would be a real loss for the community, and for the precinct. I respectfully ask that the City of Sydney support Hyperkarting staying where it is.

Kind regards,

Max Matthews

To whom it may concern,

I respectfully ask that you reconsider the decision to close Hyper Karting.

For many years, Hyper Karting has been more than just a recreational venue — it has been a place where families, friends, and communities come together to create lasting memories. It offers a rare space where people of all ages can connect, have fun, and build relationships in a fun and engaging environment. Losing such a place would mean losing an important part of our community.

It also plays a vital role in supporting local jobs, strengthening not only the local economy, but also the livelihoods of hundreds of individuals.

Although I'm sure you have your reasonings and desired outcomes from your decision, but this would diminish the character of our spaces we live and work in and call home.

I strongly encourage you to reconsider any decision that prioritises financial gain and profit over wellbeing, connection and sense of community, which at the end of the day and in a much broader sense, is much more important. There is always 'another way', please also consider environmental impacts that your decision may contribute to. Take inspiration from other countries and their innovative solutions.

Thank you for your time and consideration.

Kind regards,
Maya Njegovan

Dear City of Sydney Council,

I am writing to formally express my opposition to the proposed closure of Hyper Karting at Moore Park.

Hyper Karting has been a valuable part of the Moore Park Entertainment Quarter for years. Personally, I have visited many times celebrating birthdays with family, spending time with friends, and consistently having a great experience. It is one of the few activities in the area that offers something genuinely engaging and memorable.

Beyond personal enjoyment, Hyper Karting contributes significantly to the broader precinct. It brings consistent foot traffic and adds vibrancy to surrounding businesses, including restaurants and entertainment venues. In many cases, it has been a key reason for choosing Moore Park as a destination over other options in Sydney.

The proposal to remove such a unique and well-used attraction in favour of additional parking seems counterintuitive. Reducing experiential offerings diminishes the overall appeal of the precinct and risks negatively impacting nearby businesses that benefit from the activity it generates.

I strongly urge the Council to reconsider this decision and explore alternative solutions that preserve Hyper Karting while still addressing infrastructure needs. Retaining diverse and engaging attractions is essential to maintaining Moore Park as a thriving and competitive entertainment destination.

Thank you for re-considering.

Yours sincerely,
Melvin Rivera

Hello Sydney of Sydney,

I am a firm supporter of Hyperkartings importance for our community especially in such an accessible space the heart of Sydney. It is an incredibly unique form of entertainment, fueled by passion and love for the racing scene of all types, and is a strong part of the reason why the entertainment quarters of Moore Park is worth visiting for.

Please reconsider the future plans, especially knowing the messaging that a beloved facet of our community was destroyed over something as soulless as a few extra car spaces.

Nancy H.

Hi there,

I'm writing to express my strong support for Hyper Karting and its continued operation. It's a unique and valuable entertainment venue that brings energy, community engagement, and local economic activity to the area and far outweighs the limited benefit of underutilised parking spaces.

I'd strongly encourage council to reconsider any plans to shut it down and instead support businesses that are actively contributing to the vibrancy of the precinct.

Kind regards,
Nathan Lee

To whom it might concern,

Hyper Karting is an amazing addition to the Moore park precinct and should be saved.

As the farther of 4 young kids our family has enjoyed many fun days at Moore Park with the hyper kart facility being the main attraction. With the venue being indoors also means the its isn't affected by weather and its the only karting track in NSW that allows kids under 8 year old to participate.

Please allow Hyper Karts to stay open!

Kind regards,

Nathan Lovett

To whom it may concern,

The proposal to replace something that adds to the character of Sydney with more car spaces is incredibly short sighted. Instead of replacing Hyper Karting with car spaces, wouldn't it be so much better for Sydney City, the environment and traffic to incentivise people to take public transport instead?

Keep something that adds life to the city of Sydney and do more to reduce car use in the city.

Thank you.

Regards,
Pawan

Dear Sir/Madam,

It is rather disappointing and disheartening to hear that Hyper Karting will have to close down soon in order to make room for more carparking spaces in an area which is already well-served by public transport.

I have been to Hyper Karting a couple times because it is the only go-karting facility in the Sydney metropolitan area that does not require a membership and/or full drivers license, and as a learner's license holder, it has helped me learn how to safely operate 4-wheeled motorised vehicles at speed and gain confidence with driving full-sized automobiles. Plus it's also fun!

Closing Hyper Karting, without offering an alternative venue location, would deprive the Entertainment Quarter of a popular venue which isn't linked to the occasional sports event or concert and give people less of a reason to come to Moore Park anymore.

Please reconsider the decision to close Hyper Karting.

Kind regards,
Perry

This place cannot be shut down. To lose 150 jobs for a carpark extension is a simple developer dream, but HK has been an adventure that takes you to another world of enjoyment. It's fairly priced fun away from the alcohol and gambling push, which most venues encourage.

Hello

Hi Angie not to close the hyper carting at Moore Park. I recently had my 50th birthday there where 26 people came and we hide out several sessions. Most people were about my age and my daughter is 15. My Daughter beat everyone in time and based on that we had the best day that is a convenient location easy for parking restaurants next to it it will be such a shame for that place to close I need you to leave it open thank you.

Dear Council,

As much as I do find it frustrating sometimes finding a car park at Moore Park on a busy night, I have never get not managed to eventually get one.

I think it's short sighted and unnecessary to force a successful and much loved business to close just for new car parking spaces.

Please could alternative solutions be pursued instead.

Kind Regards,
Robert Reynolds,
2095

Hi there,

Please don't close down HyperKarting!

They have helped to create many amazing memories between families, friends and the community. Their staff are incredible and work so hard to provide such amazing experiences.

This would be devastating if they had to close down.

Thanks,

Robyn Shuttleworth

Hi,

I'm writing regarding Submission RD/2023/897/A to request that Hyperkart not be closed.

It's honestly one of the most fun things in Moore Park and a place a lot of people genuinely enjoy. It adds a lot to the area and would be a big loss if it shuts down.

Please consider keeping it open.

Thanks
Saumya

Dear City of Sydney,

I'm writing to express my objection to the proposed closure of Hyper Karting (HK), which I understand is being considered to make way for additional car parking.

Just to be clear, I have no financial or business connection to Hyper Karting. I'm simply sharing my perspective as a member of the public who values practical and well-considered planning decisions.

From what I can see, the reasoning behind this proposal doesn't seem to reflect the current situation on the ground.

The existing Entertainment Quarter car park doesn't appear to be operating at full capacity. Replacing an active, well-used business with parking that may not be needed doesn't feel like a neutral change—it looks more like a loss for the community, local jobs, and the surrounding economy.

Hyper Karting is more than just another tenant. It's a destination that supports activities that wouldn't otherwise happen—corporate events, group outings, and social gatherings. These kinds of experiences aren't easily relocated or replaced, so removing the venue effectively removes those opportunities.

There are also real impacts on people. Around 150 individuals are employed through this business, many of whom rely on it for their livelihood. Closing HK for additional parking, especially when the need isn't clearly demonstrated, raises concerns about whether the trade-off is proportionate.

More broadly, this proposal highlights a common issue in urban planning—decisions based on projected demand rather than actual usage. Sydney has seen similar situations before where changes intended to optimise space didn't align with how people actually use it.

It's also important that community feedback is genuinely taken into account. Many people feel that consultation processes can sometimes be more procedural than responsive, and I'd encourage the Council to ensure that isn't the case here.

I'm not against planning for future needs, including parking. However, those decisions should be evidence-based and balanced against the value of what already exists. In this case:

The need for additional parking isn't clearly demonstrated
The social and economic value of HK is immediate and tangible
The site currently supports activities that would otherwise not take place

Ultimately, this is a question of trade-offs, and it seems like a proven, vibrant use of space is being replaced with something more uncertain.

I would ask the Council to:

Reassess actual parking usage data before proceeding

Explore alternatives that allow HK to remain
Clearly explain how this decision benefits the broader community

Sydney benefits from places that bring people together. Removing one in favour of underused space risks sending the opposite message.

I would also appreciate it if my identifying details associated with this submission could be kept private.

Thank you for your time, and I look forward to your response.

We have had some amazing fun times in Hyperkarting, both with work and family. It's our main reason for going anywhere near the area as we live in the northern beaches so it is a bit of a drive for us.

Sydney has enough parking. Don't take one of the best all weather activities for families out for more parking space.

Yours Sincerely

Simon Barrow

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Sir/Madam,

I'm writing to express my support for retaining the HyperKarting facility and to respectfully oppose any proposal to replace it with a car park.

HyperKarting offers a unique recreational experience in Sydney, providing a safe, engaging, and social activity for both residents and visitors. Facilities like this contribute to the vibrancy of the local area, support tourism, and encourage active leisure in a controlled environment.

Replacing such a venue with a car park would remove a valuable community asset and reduce the diversity of activities available in the area. While parking is important, it would be disappointing to lose a distinctive and well-used facility that brings enjoyment and economic benefit to the community.

I encourage the council to consider alternative solutions that preserve HyperKarting while addressing any parking needs in a more balanced way.

Thank you for your time and consideration.

Kind regards,
Stu

Dear Shannon,

Re: the proposal to close HyperKarting and increase parking at EQ, I would like to register my disagreement. I believe we have a responsibility - especially given the current global crisis - to improve public transport options, not increase car parking and car traffic in this already congested area. I am also concerned about the considerable job losses from HyperKarting that would result. This would be devastating for the young people employed there who rely on their incomes to survive in Sydney. The decision to close HyperKart and increase car parking is lose-lose.

Best,

[REDACTED]

I am writing in full support of the above application to extend the use of electric go-karting at Moore Park. The Council's objections / refusal argument are flawed in its over reliance of the disputed 296 carparking spaces as part of the whole precinct.

The submitted traffic assessment logic is sound.

The major public benefit to the site is largely overlooked in discussions that are overly focused on empirical outcomes.

As part of the EQ, Hyperkarting is one of the major anchors / drawcards to the precinct from Inner Sydney, Eastern suburbs and wider Sydney overall.

Its activities draw significant footfall from demographics well beyond the reach of most of the tenants in the precinct and it makes significant patronage contributions to the Food and Beverage tenants by association.

Its operating hours contribute to a stronger day night economy aspiration, that is the stated objective of planning authorities.

This activity is part of the strategic solution to an entertainment precinct that has always underdelivered due to unsuccessful retail master planning. Carparking is not the problem.

For these reasons alone this innovative and adaptive reuse of mostly underutilised car parking spaces is justification for approving an outcome that adds to public benefit.

Yours Faithfully

My favourite go karting place

Come in regularly and it's the only reason why I'd come to the entertainment quarter. I'd easily spend an extra 100 to stay there for a few more races with mates and we always have fun afterwards. Love that they let you use your own helmets too. And the track layout changing every week is so cool because the Bankstown one doesn't do that (or let you do a bunch of stuff for that matter)

Hate to see this place close because I can easily spend 1 day just going around the track over and over again

To CofS DA Submissions,

I am writing to express my strong opposition to the proposed closure of **Moore Park Hyper Karting** and to urge the City of Sydney Council to support its continuation at the Moore Park site.

Moore Park Hyper Karting is a **unique recreational facility** that contributes meaningfully to Sydney's cultural, social, and economic landscape. It provides an accessible motorsport experience within the inner city—something that is increasingly rare due to space constraints and rising development pressures. Its presence enhances Moore Park's role as a diverse, multi-use recreational precinct that caters to a wide range of age groups and interests.

Community and Social Value

The facility is used by **families, young people, tourists, corporate groups, and motorsport enthusiasts**, offering a safe and controlled environment for karting that complies with relevant safety and noise regulations. It encourages social connection, active recreation, and skill development, particularly for younger participants who may not otherwise have access to motorsport pathways.

Importantly, Moore Park Hyper Karting offers a legitimate, structured outlet for motorsport interest, which helps discourage unsafe or illegal driving behaviours elsewhere. This aligns with broader road-safety and community wellbeing objectives.

Economic and Employment Contribution

The venue supports **local employment**, including casual and part-time jobs for students and young workers. It also contributes to the local economy by attracting visitors who patronise nearby businesses such as cafés, restaurants, and public transport services. Its closure would negatively impact these economic flows and remove a long-standing attraction from the precinct.

Fit Within Moore Park

Moore Park has historically been a destination for **sport, entertainment, and active recreation**, and Hyper Karting is consistent with this character. The facility coexists alongside major sporting venues and entertainment infrastructure, and its operation does not detract from public access to green space or broader community use of the parklands.

Request to Council

I respectfully ask the City of Sydney Council to:

1. Reconsider any decision that would result in the closure of Moore Park Hyper Karting
2. Recognise the venue's long-standing community, recreational, and economic value
3. Engage with operators and the community to explore solutions that allow the facility to remain viable and compatible with future planning objectives

Removing facilities like Moore Park Hyper Karting risks narrowing the diversity of recreational opportunities available in Sydney and undermines the inclusive, vibrant character of Moore Park as a destination for all.

Thank you for considering this submission.

Sincerely,

From: annarita foutrel [REDACTED]

To: The Lord Mayor and Councillors, City of Sydney

Re: Objection to Closure of Hyper Karting – Loss of Vital Community Hub

Dear Lord Mayor and Councillors,

I am writing to express my deep concern regarding the planned closure of [Hyper Karting](#) at the Entertainment Quarter. While the Council cites a need for 298 parking spaces, this decision completely overlooks the social value this venue provides to our city's most vulnerable groups.

[Hyper Karting](#)

is one of the few high-energy, accessible recreational facilities in Sydney. It serves as a critical hub for **disability support organisations** and youth groups who rely on the electric karts to provide inclusive experiences for their members. Closing this venue doesn't just remove a "business"—it removes a safe, welcoming environment for community connection.

With more than **500,000 visitors** since 2021, the track has proven itself as a cornerstone of the precinct's identity. Prioritising car storage over a community asset that supports 156 local jobs and provides accessible recreation is a failure of modern urban planning. I urge you to grant the two-year extension to allow this vital social infrastructure to continue serving Sydney.

Yours sincerely,

From: Anne Neville [REDACTED]

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Hi Shannon,

If I am understanding the facts correctly, this seems an absurd decision being made by council. If anything, with the go-carting facility being on the top level it makes excellent use of the facility of which you would no doubt be receiving some form of revenue from. I, too, have never seen the car park at full capacity and have actually appreciated this as I know I'm guaranteed to get a park! If revenue is an issue, increase the car parking charges and add a levy to the businesses in the precinct. Councils are good at adding levies as a form of revenue generation.

And from a family perspective I find the go carting an invaluable wet weather activity for my boys. It's indoors, safe and keeps them active and off their screens.

With this decision of closing down the go carting facility you are doing the community a great disservice. Especially to those of boys. The facility has been a lifesaver for us.

Thank you for reviewing my submission.

Kind Regards,
Anne

To whom it may concern,

I hope you are well,

I am emailing on behalf of the thousands who absolutely adore Hyperkart. This place is not only of great importance to the locals, but is a space of memories, nostalgia and the heart of the community.

We plead that you do not close Hyper Karting, on behalf of not only the workers, the members, but all who love this place.

Thank you for your consideration and we hope that you listen to the voices of the community in this matter.

Kind regards,

Anya Blair

On behalf of the Moore Park and Surrounds Youth Leadership Association (MPYLA)

Hello,

I have been informed that there is a risk of closing the Hyperkarting entertainment venue for the purpose of car park expansion.

As a father of two and a frequent visitor, I strongly oppose this proposal. The venue is unique not only for Moore Park but for the entire Greater Sydney region as there is no comparable establishment. It is also arguably the most entertaining and valuable venue in Entertainment Quarter, which is dominated by restaurant and cinema chains.

If this proposal is still being considered, I would request a further evaluation that takes into account the venue's broader value.

Andrew and the team at Hyper Karting have worked tirelessly to create an inclusive and innovative entertainment experience and in doing so have brought thousands to the EQ.

I urge the city of Sydney to reconsider this decision based solely on how many car spots it's taking up.

Kind regards

Ben Grossberg

Hello City of Sydney,

I was very disappointed to hear that Council is not seeking to allow Hyper Karting to continue operating at their current location. Since Hyper Karting opened I have used their facilities on over 25 occasions, not only enjoying a first class karting facility but also bring benefits to the immediate area spending money on car parking there and enjoying meals and drinks at the various restaurants and cafe's within the Entertainment Quarter precinct. Whilst a few of my visits were just for me, on most occasions I came along with friends, family and work colleagues to enjoy using Hyper Karting (both main go kart track and the newer Battle Karts Arena) and enjoy some food and cold drinks after.

Whilst I can appreciate the primary use of a car park is to park cars, on all of my visits I have driven there (as using public transport from Hornsby LGA is not convenient for me as I would need to take Bus, Metro, then Light Rail each way taking 60-90 minute each way) the car parking facility has never been near capacity with me being able to obtain parking easily on the lower 3 levels.

As I live in Hornsby LGA , Hyper Karting has been directly responsible for bringing my business and support to the Entertainment Quarter precinct to which I would not otherwise have visited.

Whilst there are other hire karting venues in and around Sydney, Hyper Karting is the best and the closure of Hyper Karting will have a large impact not only on the business owners and employees, but also the many other businesses in the Entertainment Quarter who directly benefit from the patronage that Hyper Karting brings. The benefits Hyper Karting bring in almost every day of the year surely has to outweigh the loss of one level of parking on a handful of days when car parking is at capacity to support high profile sporting or concert events at the adjoining stadiums.

I please ask that Sydney City Council reconsiders their current stance of not allowing Hyper Karting to continue operating beyond the current consent period. Please extend the consent period for a further 5 years (or more) and I will continue to bring my support and patronage to Hyper Karting and the Entertainment Quarter businesses .

regards

Bretton Coghlan

Dear Members of the Council,

I am writing to express my urgent request that the council reconsider the proposed closure of Hyper Karting at Moore Park.

As a regular customer, I wish to highlight the significant impact this closure would have on our local community:

Employment: They currently employ over 150 residents who would face immediate job loss.

Community Resources: Hyper Karting is one of the biggest entertainment businesses in the area and use to provide fun for the community, including people that comes all over Sydney to enjoy a safe, fun environment with friends and family, celebrating birthdays and company's events.

We ask that the council explore alternative solutions for parking spaces, once the business has also invested a massive financial resource to maintain a high standard of service provided to their clients.

Respectfully,
Christine Pereira

Do not close down Hyper Karting. It is not worth closing down an iconic activity in EQ for a couple hundred car park spaces. Make public transport more accessible that's your issue. The car park is full enough as is during packed out venues, with people taking nearly 2 hours to clear it from top to bottom. Save the go karting. It is one of the only reasons people come to EQ during the week.

Good Afternoon,

I am very sad to hear the news that Hyper Karting could be closing.

Hyper Karting is such a fun activity and it makes for a great day out with family and friends. I've been here many times and want to continue visiting into the future. No other activity compares to this in the entire Sydney region. I have brought friends from overseas to visit and Hyper Karting was a highlight of their visit to Sydney.

This is extremely sad, I hope you will reconsider.

Many people will be very upset by this decision.

Ultimately it is the wrong decision.

Kind regards,
Daniel Bailey

We have used Hyper Karting on numerous occasions and it's great fun and exciting for all ages & no way should this be closed down with the pathetic excuse that it's taking up valuable car parking spaces! I have also used the car park to see bands, sporting events & even when driving up to Hyper Karting when events are on the car park never seems to be 100% full, so I do actually you're doing a disservice to the all the people who have enjoyed coming to this place over the years.

To whom this may concern,

The loss of hyper karting would be devastating for the local city of Sydney community and the staff who are employed at hyperkarting. The decision to turn this space into parking is a confusing one, when we have such great public transport to the area, and when we live in a time where encouraging people to not drive is more important than ever.

It would once again be another loss in activities available for people to do on the city, as Sydney continues to face the devastating consequences of the old lockout laws, and the current cost of living crisis. I hope this email reaches you well and will be considered when a final decision is made about the future of hyper karting. Thank you.

Hi Shannon,

I am writing to support Development Application RD/2023/897/A for 116 Lang Road, Moore Park.

I strongly support the extension of the electric go-karting facility. There is no reason to remove the track as it is a great use of the space and provides something genuinely fun and different to do in Sydney, which is something the city really needs more of.

In my experience, the facility is well run, does not cause any disturbance, and makes good use of an area that would otherwise just be additional parking. There has never seemed to be any real shortage of parking in the Entertainment Quarter, and there are consistently plenty of available spaces, so retaining this use does not appear to come at the expense of parking availability. The proposal represents an appropriate and beneficial use of land within an established entertainment precinct.

It is also an environmentally friendly and innovative concept, using electric karts rather than traditional fuel-based systems. It is great to see a locally founded Sydney business creating something unique and successful, while also providing jobs and opportunities within the community.

I have personally been there multiple times and really enjoy it, and I think it adds to the vibrancy of the area.

It would be disappointing to see it removed when it is clearly a positive and popular addition to the precinct.

Thank you for considering my submission.

Kind regards,

Emma Ash

Dear City of Sydney Council,

I am writing to express my genuine concern and disappointment regarding the proposal to convert the Hyper Karting track into a car park.

Hyper Karting is more than just a recreational venue, it is a place where people come together to enjoy themselves, create memories, and connect with others in a positive and active environment. I have personally visited the track and can say that it provided a unique and exciting experience that is not easily replaced. It is rare to find spaces that offer that kind of energy and sense of community.

To see such a well-loved and distinctive facility potentially replaced by a car park feels disheartening. While I understand that urban development and infrastructure are important, I believe it is equally important to preserve spaces that contribute to the social and recreational wellbeing of the community. Losing Hyper Karting would mean losing a place that brings joy, engagement, and character to the area.

I respectfully ask the Council to reconsider this decision or explore alternative solutions that would allow Hyper Karting to remain. Many people, including myself, value what it offers and would be deeply disappointed to see it go.

Thank you for taking the time to consider my perspective.

Kind regards,

Grace Cover.

To City of Sydney

Do you care about your rate payers?

Why are you not allowing the ONLY place in South East Sydney where your rate payers can take their pre teens for a cool birthday party!

Any alternate area with cool birthday activities is whoop whoop. The Western suburbs. Homebush.

We do NOT want to go there.

We pay our rates here. We want to keep this venue at Moore Park. There is NOTHING else in this area.

I'm sick of searching for cool kids activities and they're almost all at Homebush. NO. DO NOT want to go there!!

If parents lose Hyperkating you're going to rub a LOT of rate payers the wrong way!!

Kind regards

Dear Councillors,

I am writing as a local parent and community member to strongly urge the Council to reconsider any decision to close down Hyper Karting at Moore Park.

This venue has become an important recreational space for my children and their friends. It is a safe, supervised environment where young people can spend their time positively—building skills, confidence, and social connections through racing. Since its opening, Hyper Karting has provided a modern and inclusive activity that appeals to families and teenagers alike.

From a broader perspective, it is difficult to understand the rationale for closing an electric go-karting facility at a time when petrol shortages and sustainability concerns are front of mind. Hyper Karting represents exactly the kind of future-focused, low-emissions recreational infrastructure we should be supporting rather than shutting down.

I respectfully ask the Council to consider the significant community value of this facility—particularly for families—and to explore alternatives that allow Hyper Karting Moore Park to remain open.

Thank you for considering the views of local residents.

Kind regards,
Jade Fong

Dear Shannon,

I'm writing this email in support of keeping Hyper Karting open. As a regular visitor I was saddened and disappointed to hear it may be closing and also for the reasons why.

I've been visiting the Fox Studios/Entertainment Quarter precinct for decades and have seen it go through peaks and troughs. Hyper Karting adds a lot to the precinct and in reality doesn't take anything away. It provides important jobs, offers a unique experience for the area and brings people to the precinct which benefits all the local business'. I go at least once a week with friends and we then go for lunch or dinner at one of the local restaurants. It provides us with a fun activity and a chance to bond and talk. My therapist actually commented on how important it was as an activity for myself and my friends and I can only imagine that it offers the same for countless people. It's not just karts driving around in circles - it's so much more.

If Hyper Karting were to be removed it would take away an important community offering and for what - more parking spaces? I'm sure you have the data however the parking station was rarely full or even close to it before Hyper Karting opened and nor is it now. The parkland is obviously important and a great space and yes, maybe it shouldn't be used for parking during major events. Without it I believe there are still ample provisions for parking in the area and the improvements to public transport to the area recently only negate the need for more parking spaces.

Thank you for your consideration.

Jeremy

Subject: Opposition to Hyper Karting Lease Extension Denial - Entertainment Quarter

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

I'm writing to express my strong opposition to the decision to deny Hyper Karting's lease extension at the Entertainment Quarter.

As a regular visitor and Sydney local, Hyper Karting is one of the best entertainment venues in the city. I've had countless great experiences there — it's genuinely one of the few things that makes the Entertainment Quarter worth visiting outside of stadium events.

The idea of tearing down a thriving venue that's brought over 500,000 visitors and created 150+ jobs just to restore parking spaces that are rarely at capacity makes no sense. Especially with the new 1,500-space underground car park at Allianz Stadium opening soon, the parking argument doesn't hold up.

This decision takes the entertainment out of the Entertainment Quarter. I urge the council to reconsider and work with Hyper Karting on a compromise that keeps this venue alive.

Josh Oliver
Sydney resident

Dear City of Sydney council,

I would like to let you know that the Hyperkarting go carts at Moore Park have been so much fun for my family and I. I would like you to know that we would miss it terribly if it were to go.

When my daughter turned 15, we brought her and her friends to Hyperkarting for her birthday, then took them to lunch in the EQ. It was so much fun. The girls all thought it was the coolest birthday idea. One of the party guests then went back the next week with her Dad, because he was so jealous she'd gone go-carting without him! All these quality family moments brought to you by a safe and inclusive activity.

The only other go cart track around like it was at Bankstown, so we preferred to go to this one closer to home. And we have been back! Our photos on social media encouraged other friends to go with their kids. It's a bonus, too, having the food outlets and space at the EQ. So you see, Hyperkarting is a bonus for the Entertainment Quarter as racers work up an appetite!! Please keep Hyperkarting at Moore Park.

Kind regards,

Karen and the Owens Family

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Shannon,

I would like to request the Hyperkart remains open for my family. It is a convenient location for us to enjoy a day out, as it is close to the city and all the restaurants and other amenities. It is my children's favourite activity and brings them great joy.

If it were not close, we would not be able to visit. I strongly advise that it remains open.

I have attended many games and events at the EQ and surrounding areas and have never experienced any issues with car parking.

I am unable to understand the reason for its closure, as it would make Sydney less appealing to families and increase the cost of travel.

Regards,

Kim Clayton

To whom it may concern

Please add this as a formal submission in support of RD/2023/897/A.

I trust that the review will conclude that the original decision was incorrect and allow the continued use of Level 5 of the Entertainment Quarter car park for electric go-karting and associated entertainment activities until 1 July 2028.

Kind regards

Laura O'Brien

What a disgrace you want space for more car parking when it's not needed what is needed is hyper karting for families and friends to be able to enjoy what fun there is in these uncertain times. You will be taking away peoples right to fun and enjoyment . Workers will lose there jobs who love what they do . Please squash this proposal as it's not needed you don't even fill up the car spaces currently there . Common use some common sense

Cheers Leslie

To whom it may concern,

I understand there is a DA to change the access for the hyper Kart business in the EQ. As the owner of a business and leader of a large community that frequent that business, I am compelled to email and seek review to ensure the business continues to operate.

Her Karting is responsible for keeping bad/fast driving off the street. This is not to be underestimated and should be considered in any changes to this business I strongly suggest.

Happy to discuss with anyone council side accordingly.

Thanks
Lex

To Whom It May Concern,

I am writing to express my strong opposition to the proposed closure of the go-kart track in Sydney. This decision is not only disappointing, but fundamentally misguided.

Sydney is a growing, global city that should be investing in diverse, accessible entertainment options—not stripping them away. Attractions like this go-kart track provide valuable recreational opportunities for families, young people, and visitors alike. They contribute to the city's vibrancy, support local jobs, and offer safe, engaging alternatives to less constructive forms of entertainment.

Closing yet another attraction sends the wrong message: that Sydney is content to become less dynamic, less appealing, and less accommodating to its own residents. At a time when many cities are expanding their leisure and tourism offerings, this move feels like a step backwards.

If there are concerns driving this decision—whether financial, regulatory, or otherwise—those should be addressed transparently and creatively. There are always alternatives to outright closure, and those options deserve serious consideration before removing a valued community asset.

Sydney does not need fewer things to do. It needs more. I strongly urge you to reconsider this decision and explore ways to preserve and support this facility rather than eliminate it.

Sincerely,
Liam O'Donnell

To whom it may concern,

I strongly oppose plans to close Hyper Karting. I had numerous work-related and personal events there and hope to continue these in the future. The space brings joy to a wide audience and improves the city as a whole. It would be an incredible disappointment to shut it down, and contrary to the city's plans to improve entertainment. Replacing it with a car park, incentivising non-green forms of transportation, would also be a huge step backwards.

I urge you to reconsider.

Kind regards,
Mariusz Skoneczko

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Ms Rickersey,

I am writing to express my strong disappointment regarding the recent decision to refuse the two-year operating extension for Hyper Karting at the Entertainment Quarter in Moore Park, and to urge the council to reverse this ruling upon review.

While I understand the council's rationale for reclaiming parking spaces in light of the upcoming phase-out of on-grass parking around the precinct, prioritising empty car spaces over a thriving community attraction seems incredibly short-sighted. The Entertainment Quarter car park rarely reaches full capacity, whereas Hyper Karting has successfully brought hundreds of thousands of visitors to a previously underutilised rooftop.

Accessible, local venues like Hyper Karting are vital. They provide a rare, safe environment for people to experience the thrill of racing right here in the city, offering a unique recreational outlet that Sydney desperately needs to retain.

Removing a popular, active entertainment venue that brings life and economic activity to the precinct, in exchange for 298 parking spots, runs counter to the vision of a vibrant, forward-thinking Sydney.

I respectfully ask that the council re-evaluate the real-world usage of the Moore Park parking facilities and approve the extension for Hyper Karting so it can remain open to the public.

Thank you for your time and consideration.

Sincerely,
Mark Crowhurst

To the local council of concern, the minor addition of car parking spaces will not fix the issue at hand. Rather than closing down a small local business that will leave many people unemployed aswell as a decrease in social outings contributing to locals having some fun target the real reason that is the overbearing need for individual car transport. If public transport were to be subsidised or free aswell as a better developed urban infrastructure Sydney as a whole would require less individual transports such as cars.

The closing of this venue would make myself and many others reconsider being a part of your local council as you are supposed to help local residents not work against them, by trying to increase a few car spots that wouldnt even be fully utilised rather than lower the total number of cars on the road you directly work against your own community.

Hi Shannon,

I hope you're well.

I'm writing to share my concerns about the potential closure of Hyper Karting in Moore Park and the proposal to replace it with a car park.

From a community perspective, Hyper Karting is much more than just a business. It's a space where families, young people, and groups come together for birthdays, social outings, and team events. In a city where there are already limited accessible, alcohol-free entertainment options, losing a venue like this would be a real setback for the community.

There is also a significant employment impact to consider. Over 150 people would lose their jobs if the venue closes, many of whom are young workers, students, or locals relying on this income. Replacing the venue with a car park would not provide comparable employment opportunities, resulting in a clear loss for the local economy.

The venue has also proven to be highly popular, attracting hundreds of thousands of visitors since opening. It contributes to the vibrancy of the Moore Park precinct and supports surrounding businesses through increased foot traffic and visitor spending. Removing such a well-used and valued attraction in favour of additional parking, particularly when parking capacity concerns appear to be manageable does not seem aligned with the needs or preferences of the community.

More broadly, decisions like this contribute to the gradual loss of unique and engaging experiences in Sydney. Hyper Karting offers something different and inclusive, and its closure would be felt well beyond just its immediate users.

I strongly encourage consideration of the broader social and economic impacts before proceeding with this proposal. Retaining spaces like Hyper Karting helps support local jobs, community connection, and a more vibrant city.

Thank you for taking the time to consider this feedback.

Kind regards,

Nas Kumar

To whom it may concern,

I am writing in support of continuing the use of the carpark for Hyper Karting.

It is the main reason I visit the area. If it was not there, I would not have a reason to go. When I do visit, I also spend money at nearby food outlets and other entertainment venues, so it supports more than just one business.

There is nothing else like Hyper Karting nearby. It offers a unique experience that you cannot easily find anywhere else, and that is what brings people to Moore Park. It also helps bring more people into the area, which benefits other businesses nearby. Without it, I believe visits and spending would drop.

If Hyper Karting was removed, I would likely stop going to Moore Park altogether, along with the extra spending that comes with each visit.

The main reason given for the removal of Hyper Karting is to return the use of those car spaces which Hyper Karting occupies. The NSW Government and indeed Sydney City have spent countless millions on the L2 and L3 Light Rail and forcing people to public transport through other projects (closing George St entirely, etc), I cannot believe there is not more of a push on those few days per year when there is large events being hosted at Moore Park.

I feel the reasons to retain Hyper Karting far outweigh the reasons to remove Hyper Karting and I encourage the council to support retaining Hyper Karting at Moore Park.

Thanks,
Nic

Subject: Hyper karting closure

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To whom it may concern,

The recent decision made to close the hyper karting venue in Moore park is a foolish one, from the perspective of someone who grew up abroad in a much more exciting city with plenty to offer, Sydney was a joke to me.

The very first few times I started hanging out with friends and going out took me to only 3 places, the gym, the pub and hyper karting for a racing session. Smiles, laughter and a ton of rude words directed at my mates led to me making some memories there I won't forget, it has always been a good time and it's fun for the whole family.

The entertainment quarter would absolutely be less entertaining without hyper karting, let alone the whole city of Sydney, which in my opinion already needs an upgrade in terms of exciting events/activities. If hyper karting goes, there will be jobs lost and lots of angry citizens.

I hope I can be another voice convincing you of why not to shut it.

Regards,

Oliver Longe

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear City of Sydney Council,

I am writing to formally express my strong disagreement with the decision to reject the lease extension for Hyper Karting at the Entertainment Quarter. I am a supporter of this venue and believe it should remain at its current rooftop location.

Hyper Karting provides a unique, world-class entertainment experience that is rare in the Sydney CBD area. Since 2021, it has transformed an underutilised parking structure into a vibrant hub that supports over 150 local jobs and draws significant foot traffic to the Moore Park precinct.

Closing this venue would be a major loss for Sydney's night-time economy and for the families and young people who rely on it for safe, accessible recreation. The current location is ideal because it makes clever use of existing infrastructure without disrupting the surrounding area.

I urge the Council to reconsider this decision and work with Hyper Karting to ensure they can continue operating at their current site.

Kind regards
Omur Akdemir

Hi,

I'm a gamer who loves go karting and brought to Hyper Karting some friends who are neither gamers or avid Go Kart'ers and they are raving about it! It was so much fun. I wish we had one in Brisbane because it would be booked out.

Please keep this going!!!

Kind regards,

Rosie

Hey,
Please save hyper karting, my best memories of my first year of uni has been at hyper karting.
For many of my mates, it was the first time we ever got into karting and have been a fan ever since. Losing such an iconic location, close to the city would not only hurt the local community but would also lose EQS overall appeal.
Please SAVE HYPER KARTING.

Thank you.

Regards,
Sam

To whom it may concern,

Hyper-kart has hosted many great memories for me. Many first dates, many birthdays, many going away parties on top of just going over there and settling racing scores between mates.

In fact all my cousins are gathering for the first time in years and we are planning on coming to this great venue.

It'd be a real shame to see this go just to accompany parking. Sydney is already short of social activities.

Please do not do this.

Thanks

Sammeer

Hi there,

We would like to support hyper karts remaining open and retaining the current space that they have. They're already very limited things for families to do in Sydney, there is always parking available at this venue so it would be a shame to lose you yet another thing for families to enjoy.

Our family hopes that you rule in favour of it remaining as it is. All the best with your decision.

Regards,

Sasha de Bilde

To whom it may concern,

I am writing as an employee of Hyper Karting to express my deep concern regarding the proposal to shut down its operations at Moore Park.

For me and over 150 others Hyper Karting is not just a workplace but a primary source of livelihood. The potential closure would mean a sudden and significant loss of employment for many individuals who depend on this business to support themselves and their families.

It is especially disheartening to see a thriving and growing business being considered for closure to make way for additional car park spaces that, from my experience, do not even reach full capacity during major event days. This raises serious questions about the necessity and long-term value of such a decision.

Beyond employment, Hyper Karting plays a meaningful role in the community. On a daily basis I witness the excitement, joy and connection it brings to people of all ages. Families, friends and enthusiasts come together here creating lasting memories. It is more than just a venue, it is a space where the community engages, celebrates and unwinds.

Hyper Karting also contributes positively to the local economy through job creation, tourism and ongoing business growth. Losing such an establishment would not only impact employees but also the wider community and economy.

I sincerely urge you to reconsider this decision and take into account the human, social and economic impact that closing Hyper Karting would have.

Thank you for your time and consideration.

Yours sincerely,
Saumya Khandelwal
Employee at Hyper Karting

Hi there,

How are you?

I'm deeply disappointed that HyperKart is being forced to shut down and just return to being a bland lifeless parking lot level. Firstly, I think what is being failed to consider is how useful that lot was prior to the brilliance of HyperKart. Prior to the fun that is curated on level 5 via VR and Electric GoKarting, was nothing at all. Days of just nothing, and certainly days of nothing generating revenue. That level of the car park was hardly used and a matter of fact, and if it was... it was a miserable experience of being stuck trying to vacate it after a gig or a match.

What is in its place now is incredible! HyperKart has shown me (and my fellow rev-heads) my limits as a driver and a budding competitive driver. It created fun moments with friends, and bonding moments with family. Matter of fact: my now wife and I had our shared bucks/hens party there. All our friends had such a riot, that it created a new competition that lives on.

Now, you might see this as a strange email, and granted... it is (because of writing romantically about Go Karting is truly foreign). However, the situation that is currently at play is the loss of fun and also, the destruction of a successful business that services such a large and broad community. From kiddos to the young at heart, this place has given everyone a jolt of life. So, with that being said: please reconsider your idea of returning the space into a drab parking lot. It's more than that now: it's an escape for us all, a field of battle, and a pleasurable source of fun.

Lastly, I hope this finds you well, but alas, I will have to depart with some sad words - if this place closes, you're only perpetuating the sadness that is the loss of Sydney's soul. It's loss of culture, and most unerringly - it's loss of fun. This city has had such a strange identity crisis, and it's strange that a lot of it has to do with prioritizing systematic rules and procedures over fun, culture and the common man.

Please make the right decision, I/we all implore you. Please, let HyperKart remain open in its wonderful space.

Warmest regards,
Seb

Subject: FW: Reconsider the Hyper Karting Decision – This is the Wrong Call for Sydney

From: Karl Kovarik [REDACTED]
Sent: Saturday, 11 April 2026 9:43 PM
To: City of Sydney <council@cityofsydney.nsw.gov.au>; Media Team <MediaTeam@cityofsydney.nsw.gov.au>
Subject: Reconsider the Hyper Karting Decision – This is the Wrong Call for Sydney

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

To the City of Sydney Council,

I'm writing as a Sydney resident deeply frustrated by the council's decision to refuse Hyper Karting's application for a two-year operating extension at Moore Park.

Let me be direct: replacing a thriving, zero-noise-complaint entertainment venue with empty parking spaces is exactly the kind of decision that makes people lose faith in local government. You are not managing infrastructure — you are removing something genuinely good from this city.

Hyper Karting has attracted over 500,000 visitors since 2021. It employs more than 150 people. It runs programs for NDIS participants, some of whom attend hundreds of sessions a year as part of their social development. It has produced young racing talent being scouted for Red Bull development programs. It generates foot traffic that benefits every surrounding business in the Entertainment Quarter. And it has done all of this without a single noise complaint.

The council's stated reason — that using 298 car spaces for a commercial activity is 'unacceptable' — does not hold up. Data shows parking demand in the precinct during major events does not justify prioritising those spaces over a functioning, well-loved business. A new underground car park is already set to open nearby. The arithmetic does not support this decision, and nor does any reasonable weighing of community benefit.

I am asking the council to:

1. Reconsider the refusal of the lease extension
2. Engage genuinely with Hyper Karting to find a workable long-term solution
3. Recognise that 'orderly development' should not mean trading a vibrant entertainment precinct for an underused car roof

Sydney is a city that constantly talks about activation, liveability, and attracting people back to its public spaces. Closing Hyper Karting contradicts every one of those stated goals. I urge the council to make a better decision here — one that reflects what this city actually wants to be.

Yours sincerely,
Karl
Glebe Resident

To: City of Sydney <council@cityofsydney.nsw.gov.au>
Subject: Keep hyperkarting open

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear City of Sydney,

I'm writing to strongly oppose the proposed closure of Hyper Karting at Moore Park to make way for additional parking.

This facility is not just another commercial venue—it's a unique recreational asset that brings energy, community engagement, and genuine enjoyment to the area. I've personally visited multiple times, and it consistently delivers a high-quality, memorable experience that is difficult to replicate elsewhere in Sydney.

Replacing a vibrant, active-use destination with more parking is a step in the wrong direction. Cities should be moving toward creating engaging, people-focused environments—not reducing them in favour of more space for cars. Hyper Karting contributes to Moore Park as a destination, encourages social interaction, and provides a safe, structured activity for a wide range of people.

There are already numerous parking options servicing the precinct. Removing a distinctive attraction to marginally increase parking capacity undermines the broader value Moore Park offers to residents and visitors alike. Once a facility like this is gone, it is unlikely to return.

I urge the City of Sydney to reconsider this proposal and prioritise retaining amenities that actively contribute to the cultural and recreational life of the city. Hyper Karting is exactly the kind of venue that makes Sydney more dynamic and enjoyable.

Please do not replace it with something as low value and easily substituted as additional

parking.

Regards,

Sheree

Dear Council Team,

I'm writing to express my concern about the potential closure of Hyperkarting. Venues like this are incredibly important for our community, especially for young people.

They provide a safe, engaging space where kids can be active, build confidence, and socialise in a positive environment. In a time when many children are spending more time indoors, places like Hyperkarting offer a valuable and healthy alternative.

Closing such a venue would remove an important outlet for families and youth in our area. I strongly encourage you to consider the broader impact this decision may have on the community.

Thank you for your time and consideration.

Kind regards
Sheree

Hello,
The closure of the Hyperkart facility will lead to 156 staff members losing their jobs. As if the economy isn't hard enough. Not all of them would be able to get new jobs straight away, bills keep coming and the loss of their job for a carpark that doesn't fill just isn't fair. Please consider moving the carpark elsewhere or coming up with a solution that accompanies all parties to ensure everybody is happy. Isn't council supposed to be about the community? Making it a better and safer place for everyone? Taking people's jobs away for basically no reason doesn't sound like that.

Thanks

Dear Members of the City of Sydney Council,

I am writing to express my support for the continued operation of Hyper Karting at the Entertainment Quarter in Moore Park.

Hyper Karting is a unique recreational facility that provides an enjoyable activity for families, friends, and visitors to Sydney. It offers a safe and engaging experience that is not commonly available within close proximity to the city. Many members of the community value the opportunity to participate in activities such as this within an accessible location.

The venue also contributes positively to the surrounding precinct. Visitors to Hyper Karting often spend time at nearby restaurants, cafes, the cinema, and other local businesses before or after their visit. As such, the facility helps attract people to the Entertainment Quarter and supports the broader local economy.

Hyper Karting is also uniquely positioned close to central Sydney. Located approximately 3 km from the CBD, it is easily accessible for residents and visitors alike. The only comparable indoor electric karting venue is Entertainment Park at Bankstown Airport, which is approximately 22 km away. Without Hyper Karting, there would be no similar facility conveniently available to communities in the inner city and eastern suburbs.

For these reasons, I respectfully request that the Council and the Local Planning Panel consider the strong community interest in retaining Hyper Karting and allow it to continue operating at the Entertainment Quarter.

Thank you for your time and consideration.

Yours sincerely,

Thomas

Dear City of Sydney,

I am writing to express my concern regarding the potential closure of Hyper Karting.

This venue provides an outstanding recreational experience and offers a positive, engaging alternative to other social activities. For many, including myself, go-karting is an enjoyable and constructive way to spend time with friends, and I visit Hyper Karting regularly—at least twice a month.

The quality of the experience is exceptional, from the well-maintained karts to the regularly updated track layouts. In my view, other venues do not come close to delivering the same level of enjoyment and professionalism.

I understand that concerns may have been raised regarding parking availability; however, in my experience attending during major events nearby, there has consistently been sufficient parking available. This suggests that parking may not be a significant issue.

I respectfully urge you to reconsider and renew Hyper Karting's lease so that the community can continue to benefit from this valuable facility.

Kind regards,

Thrishan Pillay

Hello,
Hyperkarting has been the source of plenty of joy; from bucks parties, Christmas parties to birthday parties, we've been plenty of times and it's been great.

We don't need more parking spaces; we instead need to improve our public transport system as Sydney is trending towards a path of overpopulation which we are managing by reducing culture and fun.

I've lived in London for the last few years and they don't have beaches or as many huge national parks but they do have excellent entertainment which increases their local gdp and tourism.

Please reconsider this decision.

Thanks,
Tim

Good day.

I am but an Australian who has heard of a plan to expand the quantity of parking there by replacing the Hyperkarting venue.

I would like to request you reconsider that, as these parking spaces will always have vacancy considering it is in Moore Park. There is also another car park available near the light rail near the Hordern Pavilion.

Due to these factors, I believe it would be best to keep Hyperkarting instead of turning it into parking spaces, as I believe that the jobs and experiences brought by Hyperkarting will far outweigh the benefits of a few extra empty parking spaces.

As a frequent visitor of the area, I have never once seen a car parked on the roof of the building Hyperkarting is situated in, suggesting there is no current need for extra parking spaces in that area.

Thank you for listening to my concerns.

King regards

Hyper karting MUST STAY OPEN

You cannot let the jobs of 156 staff members go to waste their livelihood in this economy matters!!!!

In this economy The city should focus on expanding the area expanding its facilities its tourist attractions not hindering them, causes less interest in the Entertainment Quarter altogether.

The restaurants in the Entertainment Quarter are also supported by the business of karting customers who utilise the food facilities what are they to do if you begin closing facilities they will run out of business themselves and be forced to shut!!!!

CONSIDER THE CONSEQUENCES

CONSIDER THE COMMUNITY

It's simply impossible to consider closing A KARTING CENTRE TOP 10 IN THE WHOLE WORLD AND THE BEST IN THE SOUTHER HEMISPHERE ITS A BIG ATTRACTION TO SYDNEY WHY REDUCE THE CITYS COMMUNITY OVER SOME EMPTY PARKING SPACES if they close you've lost my business for the Entertainment Quarter and thousands of other locals too !!!!!

ITS OUTRAGEOUS

THANK YOU

Dear there,

I am writing to express my strong support for maintaining Hyperkarting at its current location and to voice my opposition to the proposal of converting this space into a car park.

Hyperkarting provides a unique recreational value to the community that a parking facility simply cannot replace. It serves as a significant local attraction, drawing visitors to the area and supporting the local economy. Beyond the economic benefits, it offers a high-quality entertainment venue for families, friends, and enthusiasts, contributing to the vibrant social fabric of our city.

While I understand the ongoing need for infrastructure, I believe that preserving active, engaging spaces like Hyperkarting is essential for the character and appeal of the neighborhood. Replacing such a popular destination with a car park would be a loss for the community.

I urge you to reconsider the current proposal and look for alternative solutions for parking that do not involve the removal of Hyperkarting.

Thank you for your time and for considering my perspective on this matter.

Best regards,

Yung Sen Riady Budiman

Dear Shannon Rickersay,

I am writing to express my strong support for keeping Hyperkarting Sydney open and to highlight the significant value it brings to our local community - particularly for young people.

Hyperkarting is far more than just a recreational venue, it provides a safe, structured, and engaging environment where kids and teenagers can develop confidence, coordination, and a sense of responsibility. In a time when many young people are increasingly drawn to screens and sedentary activities, facilities like this offer a rare and important opportunity for active, real-world engagement.

For many families, Hyperkarting is also a place where meaningful connections are built—between parents and children, among peers, and within the broader community. It fosters social interaction, healthy competition, and teamwork in a controlled and supervised setting.

Additionally, it introduces young people to motorsport in a safe and accessible way. This can spark long-term interests in engineering, mechanics, and performance driving—pathways that extend well beyond recreation.

Closing such a facility would remove an important outlet for youth activity and community engagement in Sydney. Retaining and supporting venues like Hyperkarting demonstrates a commitment to fostering active lifestyles, youth development, and inclusive recreational spaces.

I respectfully urge you to consider the broader social and community impact before making any decision to close this facility. Its value extends far beyond entertainment - it is an investment in our community's wellbeing.

Thank you for your time and consideration!

Kind Regards
Zolia Yu

Dear Council,

I am writing in regard to the closure of Hyper Karting. Hyper Karting is a unique experience, and it adds to the culture of Sydney in so many ways. It is one of the greatest entertainment spots for youngsters, and I myself was going to check it out soon. I hope that I will get the chance to do that in the future.

Kind regards,

[REDACTED]

Why on earth would you get rid of an extremely entertaining attraction for so many people! It's in an amazing location and gets the attention it deserves. It's a highlight of Sydney's entertainment activities and you have the chance to showcase it further and what other fun activities would be left without it on that same level.

Kind regards

Hey there,

I strongly disagree with the removal of hyper karting, kids these days are already losing their childhoods to online gaming and virtual reality. Time to stop ruining the nightlife of Sydney and start re building it

Hi there,

I just wanted to reach out about the plan to close Hyper Karting at Moore Park.

Honestly, this feels like a really disappointing decision. Hyper Karting is one of the most fun things to do in that whole area — it actually gives people a reason to go to the Entertainment Quarter and makes the precinct feel alive.

Every time I've been there, it's been busy and full of energy. Without it, the area risks going back to feeling pretty flat.

If the issue is needing more parking, surely there are better solutions than shutting it down. Build a new car park, expand parking elsewhere, or look at alternative options — but replacing something like Hyper Karting with parking feels like a step backwards.

And if it really can't stay where it is, then at least work with the operators to find another central Sydney location and help facilitate a move. It would be a shame to lose it entirely.

Sydney already struggles with having enough genuinely fun, unique things to do — this is one of the few that actually delivers.

Would really encourage you to reconsider.

Thanks,
Sam

Hello,
In regards to the potential closure of hyper karting at Moore park. Please don't ruin a great business and fun pastime just for more car parking. 98% of the time that car park isn't full anyway and currently a massive car park is being built on the other side of the football stadium to accommodate extra parking.
Thanks for your time, kind regards. Ben

Hi team,

Throwing my support behind keeping Hyperkarting open!

Love this place! My son and I as well as our friends have been so many times. Had parties there as well!

Nothing else like it around and it's a great place to go.

I have lived in the area for nearly 20 years and the parking there is barely ever full enough to even need to shut this business down. It's ridiculous. I have never needed to go past Level 3 for parking ever!

Hyperkarting is a year round business that brings in people from all over for fun. Leave them alone to run their business.

Dear Council,

I've been going to Moore Park recently to take part in Hyperkarting with my 4-year-old son and his friends many times over the last six months, and it's one of his favourite things to do right now.

Hyperkarting is a great example of enterprise stacking. We can park right below, then head straight to EQ afterwards for lunch and ice cream. I have also noticed over the years, and I have worked at Fox studios, that the carpark is mostly always empty.

Before Hyperkarting, we would very rarely visit Moore Park, and if we did, it was just for the cinemas .

Please consider allowing them to keep their space.

Regards,

Daniel Barry and a very worried 4 year old [REDACTED]

I am writing to express my strong support for the continued operation of Hyper Karting at the Entertainment Quarter in Moore Park. The decision to deny a short two-year extension to their operations is, in my view, a short-sighted one that prioritises car parking over a thriving community asset. I urge the City of Sydney to reconsider this decision and work collaboratively with Hyper Karting to find a solution that allows the venue to continue operating.

Sydney has a well-documented and long-standing shortage of amusement and entertainment facilities. Since the closures of Wonderland Sydney in 2004, Fox Studios Backlot in 2001, and Sega World in 2000, the city has lost venue after venue without replacement. Today, Luna Park remains essentially the only traditional amusement facility in the entire Sydney metropolitan area — a city of over five million people. For a global city that markets itself as a world-class destination, this is an embarrassing gap in our recreational offering. Closing Hyper Karting only widens it further.

Hyper Karting is not just another business — it is one of the few genuinely unique, accessible, and affordable entertainment experiences left in inner Sydney. With tracks catering to children as young as three through to adults, it serves families, corporate groups, birthday parties, school holiday crowds, and tourists alike. It operates rain or shine, uses clean electric karts, and brings life to what would otherwise be a vacant rooftop car park. The venue directly employs over 150 people, and its closure would have real flow-on effects for surrounding businesses in the Entertainment Quarter precinct.

The justification that this rooftop space must revert to car parking does not hold up to scrutiny when weighed against the social and economic contribution Hyper Karting makes. Parking is important, but the Entertainment Quarter already has extensive parking facilities across multiple levels. Converting an active, job-creating, community-serving entertainment venue back into empty bitumen is a poor use of public space and sends the wrong message about what kind of city Sydney wants to be.

I strongly urge the Council to reconsider this decision, engage constructively with the operators, and explore a compromise that preserves both adequate parking and this valuable entertainment venue. Sydney cannot afford to keep losing the few fun, family-friendly attractions it has left. Hyper Karting deserves the opportunity to continue operating, and the community deserves a council that prioritises people and experiences over empty car spaces.

Kind Regards,

James Jelly

Subject: FW: Moore Park Business Closure - D/2023/897/B

From: Greg Beaumont <[REDACTED]>
Sent: Monday, 13 April 2026 1:32 PM
To: Michael Soo <[REDACTED]>
Subject: Moore Park Business Closure

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear Michael,

I am writing to you as a concerned member of the Sydney community to express my strong opposition to the proposed closure of **Hyper Karting** in Moore Park and the subsequent plan to revert the space into additional car parking. As Senior Area Planning Manager I have confidence you'll be able to resolve this issue.

While I understand the complexities of urban planning, removing a thriving, innovative business in favor of stationary vehicles feels like a significant step backward for the Moore Park precinct. I urge the Council to reconsider this decision based on the following impacts:

- **Significant Job Loss:** Hyper Karting employs a large team of young, energetic locals. In the current economic climate, removing dozens of jobs to make room for empty cars is counterproductive to the City's goal of supporting local employment.
- **Impact on Local Ecosystem:** Hyper Karting is a "destination" business. It draws thousands of visitors to the Moore Park area who then spend money at surrounding restaurants, cafes, and retail outlets. Closing this venue will result in a measurable "trickle-down" loss for neighboring small businesses. I know this because I often have dinner at Watsons EQ or Mary's Pizza after a karting session with my friends.
- **Loss of Diverse Recreation:** Sydney needs more high-quality, all-weather recreational activities. As an **electric** karting venue, Hyper Karting provides a sustainable, low-noise, and modern entertainment option that aligns with Sydney's vision for a future-facing city. It is also a valuable alcohol-free activity that gives people a fun alternative to going out drinking.
- **Underutilization of Space:** Reverting a converted, productive commercial floor back into a car park is a poor use of urban space. We should be prioritizing people and activity over more traffic.

The Moore Park precinct is at its best when it is vibrant and full of life. Hyper Karting contributes to that vibrancy every day. I ask that you work with the business to find a solution that allows them to remain operational, rather than prioritizing additional car spots that offer zero cultural or economic growth to our city.

The conclusion of the Modification Application Assessment D/2023/897/B states "*The continued occupation of 296 on-site spaces for the commercial activities results in a reduction in publicly available on-site parking and is **not in the public interest.***" As a member of the public I can confirm that this is **incorrect** and is in my interest.

I look forward to hearing how the City of Sydney plans to support local businesses and preserve the active spirit of Moore Park.

Sincerely,

Greg Beaumont

To whom it may concern,

I am writing to support Hyper Karting remaining at the Entertainment Quarter.

My son visited Hyper Karting during the school holidays and absolutely loved it. He still talks about it.

As a parent, what stood out to me was that it is not just another inner-city outing based around shops or food. It is something active, memorable and genuinely exciting for kids and families, and there is very little else like it in this part of Sydney.

I understand council is considering the future use of this space because of parking needs. However, I think it would be a real loss to remove a unique recreational attraction that has already been operating lawfully through formal planning approvals. Hyper Karting has clearly added something valuable to the precinct over a number of years, and that should be weighed properly against the benefit of simply returning the space to more parking.

Places like the Entertainment Quarter should offer more than just car access and event overflow. They should also include experiences that give families and visitors a reason to come, stay and enjoy the area.

Hyper Karting does exactly that. It brings energy and variety to the precinct, and once something like this is gone, it is unlikely to be replaced with anything as distinctive or accessible.

I also understand that the current issue is not because Hyper Karting was there improperly, but because of a time-limited approval linked to wider parking considerations in the Moore Park precinct. That makes this a policy choice, not a correction of something inappropriate. In my view, council should choose to support a proven, family-friendly use that adds to the character of the area.

I also think this decision should be looked at through the lens of how people access Moore Park more broadly. This is not an isolated suburban site with no transport alternatives. Moore Park is already well served by light rail, regular bus routes and walking access from Central. In that context, I do not believe the best outcome is to default this space back to additional parking if that comes at the expense of a unique, proven and family-friendly attraction that adds genuine value to the precinct.

I respectfully ask council to support retaining Hyper Karting at this site, or to work with the operator on a pathway that allows it to continue.

Yours faithfully,

Richard Duke

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Dear City of Sydney Council,

I am writing to express my strong opposition to the proposed closure of Hyper Karting at Moore Park. This decision, which reportedly stems from the refusal to extend its operating permit, risks dismantling far more than just an entertainment venue—it threatens a vibrant community hub that has become an integral part of Sydney's social and cultural fabric.

Hyper Karting is not simply a go-kart track. It is a dynamic, inclusive space that has attracted over 500,000 visitors and contributed meaningfully to the local economy. It has created jobs, supported local businesses, and provided a safe and exciting environment for people of all ages. Removing such a venue in favour of reclaiming parking space reflects a deeply flawed prioritisation—one that places cars above people, and convenience above community.

In a city that prides itself on innovation, sustainability, and liveability, this decision feels not only regressive but also selfish. Hyper Karting represents the future of urban entertainment: electric, environmentally conscious, and socially engaging. It offers zero-emission karting and immersive experiences that align with modern values. Yet, instead of nurturing this forward-thinking initiative, the Council appears willing to erase it for the sake of additional parking—despite evidence suggesting that parking demand in the area is already manageable and new infrastructure is underway.

Beyond economics and infrastructure, the most significant loss will be felt within the community itself. Hyper Karting is a place where friendships are forged, strengthened, and celebrated. It is a venue where people come together—not just to race, but to laugh, compete, and connect. For many, including myself, it serves as a rare and valuable third space: somewhere that is neither home nor school, but a vital social environment.

I personally go to Hyper Karting occasionally to hang out with my friends, and those experiences are genuinely meaningful to me. In a time where so much of social interaction has shifted online, having a physical space where we can meet, engage, and create memories is incredibly important. There is something uniquely special about standing on the edge of the track, helmets in hand, joking about who will come last—only to end up arguing over lap times minutes later. It is chaotic, competitive, and unforgettable.

One particular memory stands out. My friends and I had planned a visit during the holidays, and what started as a simple outing quickly turned into one of the best days we've had together. None of us were especially good at karting, but that didn't matter. We laughed at every spin-out, celebrated every small victory, and spent hours just being present with each other. It wasn't about the racing—it was about the connection. That kind of experience cannot be replaced by a car park.

Closing Hyper Karting would strip away a space that supports mental wellbeing, social interaction, and community engagement—especially for young people. It provides an outlet for stress, a break from academic pressure, and a setting where people can simply enjoy themselves. In doing so, it contributes to a healthier, more connected society.

Additionally, Hyper Karting has played a role in fostering interest in motorsport and engineering. It has even been used as a training and recruitment ground for university teams such as UNSW's Redback Racing, demonstrating its value beyond recreation. This highlights its broader contribution to education, skill development, and innovation.

The potential loss of over 150 jobs further underscores the gravity of this decision. These are real people whose livelihoods are at stake—individuals who contribute to Sydney's economy and rely on this venue for employment.

The closure would not only affect them but also ripple through the wider community.

It is difficult to understand how such a decision aligns with the City of Sydney's stated goals of fostering community, supporting local businesses, and enhancing urban life. Instead, it sends a message that spaces designed for human connection are expendable, while infrastructure for vehicles takes precedence.

I urge the Council to reconsider this decision. Cities are not defined by their parking capacity, but by the experiences they offer and the communities they nurture. Hyper Karting is one of those experiences—a place where people come together, where memories are made, and where Sydney feels alive.

To remove it would not just be a loss of entertainment, but a loss of identity.

Please prioritise people over parking. Please listen to the voices of the community. And please allow Hyper Karting to continue operating as the vibrant, meaningful space it has become.

Yours sincerely,
Aneesh

Hi Shannon Rickersey

As a property owner and rate payer in the City of Sydney, specifically in Redfern, I'd like to offer my support to the above mentioned submission and ask that the

I've been a regular karter at Moore Park over the last couple of years, going with friends and family. Hyper Karting is a huge draw card for the precinct and to be honest one of the key reasons I visit the area.

I regularly spend time at other vendors in the precinct either before or after my time karting, which simply wouldn't happen if I wasn't karting.

I understand there is a plan to grow the precinct to increase more entertainment options, I find it counter intuitive that the most popular entertainment vendor in the precinct would be shutdown.

Thank you for your time

Jeremy Nelson

Dear Council,

I am writing as a local resident to express my strong opposition to the proposed closure of Hyper Karting in favour of additional parking.

I am genuinely shocked and dismayed by this proposal. Hyper Karting is not simply a business. It is a community institution. As a nearby resident who has visited many times with my children and friends, I can attest firsthand to how much this venue means to the people who use it. It is consistently full of life, laughter, and families making memories together.

The parking justification does not hold up to scrutiny. I regularly attend sporting events and other activities in the area and have never experienced a parking shortage that would warrant the destruction of a thriving entertainment venue. Trading a vibrant, active community space for a carpark would be a deeply poor exchange, one that prioritises vehicles over people.

What concerns me most is what this decision says about our area's vision for itself. Our city's nightlife and family entertainment options are already limited. Hyper Karting is one of the few genuinely bright spots, a place that draws people in, keeps families engaged, and gives young people somewhere fun and safe to spend their time. Removing it would leave a void that a stretch of asphalt simply cannot fill.

I urge Council in the strongest possible terms to reverse this decision and instead explore alternative solutions to any perceived parking needs, solutions that do not come at the cost of one of our community's most valued assets.

Thank you for considering this submission.

Yours sincerely,

A Abrahams

****Email is in my personal capacity and does not represent my employer****

Hi all,

I would like to write to my support for HyperKarting continuing to operate at its current Moore Park venue (in my personal capacity as someone who resides near the venue and has been a repeat customer at HyperKarting).

In my view they are a tremendous cultural addition to the area (for the City of Sydney as well as the entire city of Sydney more broadly).

We are a city already in significant shortage of “interesting things to do”. Hyper Karting seems to me like an ingenious win-win for everyone (with a creative use of carpark space – and doesn’t preclude several floors of parking on the floors below). How incredible is it that we have an awesome unique activity for all ages (karting) this close to the CBD.....in a super accessible venue (with parking).....that is making the entire EQ area much more lively.

I do not possibly understand what alternative use for the space would be an improvement vs. HyperKarting in that location. (Surely the council is not thinking of turning it back into more parking.....)

Many thanks,

Mark Lin

Hi

I am writing in support of the kart facility at Moore park.

I have attended this place on a number of occasions and it is a community facility that is far more valuable than a couple of hundred parking spaces that will be very rarely used.

The Karts are environmentally friendly family oriented and a fantastic asset for the general Sydney community. It also employs a significant number of people, these are uncertain and worrying times and killing jobs is the last thing the community needs right now. Please reconsider this proposed to force its closure. It would be a massive disservice to the community.

Hi submissions team,

I'm writing to request that you review your decision not to extend Hyper Karting's license to use the parking lot at Moore Park.

This is a truly unique attraction, one me and my whole family have enjoyed numerous times and it would be such a huge loss to the city. And for the sake of what - a few more parking spaces to cater for polluting road traffic which is in decline due to the oil crisis anyway?

Moore Park is well-served by public transport. There is no good reason to prioritise private transportation over the significant public amenity provided by this fantastic small business.

I urge you to reconsider the decision and extend their permit.

Kind regards,

Cam Adams

HYPER KARTING DESERVES TO STAY!!!! THE BEST KARTING IN SYDNEY ITS A TOURIST ATTRACTION TO THE AREA NOBODY IS IN MOORE PARK UNLESS THEY ARE KARTING or going to a the kid Laroi concert !!!!

Most people (including me) visit the Entertainment Quarter just for go karting, otherwise the place is pretty much a ghost town!!!!

More important than a few extra parking spaces that will remain empty why not have the upper level used for something fun and exciting and unique... who else runs a go karting centre in a car park!???? that unique positioning is what keeps the Entertainmet Quarter busy there's so many people who love Hyper Karting as

a place of Friendship
a place of fun and enjoyment
a place of community

Plus karting is the only activity in the area open late on weeknights which brings people to the quarter

I visit karting at least once a week and it's one of my favourite spots in the entire city because it gives you something to do during the week when the rest of the city is shut

DO NOT GET RID OF HYPER KARTING FOR SOME EMPTY PARKING SPOTS I BEG YOU I KNOW 50 people alone that love that spot and would never wish it to close for a few extra spots that won't even get used

Unless there is a big event The car park doesn't get busy enough on average for more spots to be necessary!!!!!!!

You would be taking away a key asset to the area of Moore Park just the same as if you decided to close the golf course
!!!!!!!!!!

PLEASE SAVE HYPER KARTING

Thank you for reading

Good afternoon

Just wanted to submit my support for the Hyperkarting at the Entertainment Quarter.

I've had numerous enjoyable times with friends and it would

Be a shame to remove more 'entertainment' from an area named to provide exactly that.

The restaurants and bars in the EQ benefit from this being on site and the area needs more entertainment options NOT less and the light rail stop services the area

Hope you agree and let the status quo continue in a car
Park which is empty most days on most levels

Many Thanks

Matt Whitaker

I am writing to express my strong support for Hyper Karting (hyperkarting.com.au) and to respectfully request that the council reconsider any decision that would result in the loss of its approval to operate.

Hyper Karting has been a valued recreational facility for myself, my friends, and many others in the community. It provides a safe, structured, and enjoyable environment for people of all ages to engage in a unique activity that promotes social connection, friendly competition, and stress relief. In a time where accessible and engaging local entertainment options are increasingly important, venues like this play a meaningful role in community wellbeing.

From my experience, the facility has been well-managed and offers a controlled alternative to more risky or unregulated activities. It gives people—especially young adults—a place to gather, have fun, and stay engaged in a positive setting. Removing such a venue would not only impact regular patrons like myself, but also reduce the diversity of recreational options available in the area.

I understand that councils must carefully balance operational concerns, but I encourage you to consider the broader community benefit that Hyper Karting provides. If there are specific issues prompting this decision, I would strongly support working collaboratively with the operators to address them rather than closing the facility altogether.

I hope you will take community feedback like mine into account and explore ways to allow Hyper Karting to continue operating for the benefit of local residents.

Thank you for your time and consideration.

To Whom it May Concern,

I am writing to express strong support for the continuation of Hyperkarting's lease at the Entertainment Quarter (EQ). As one of the precinct's most successful and consistently activated venues, Hyperkarting provides significant community, economic and place-making benefits that would be lost if the site were converted to additional parking.

1. Alignment with City of Sydney Strategic Objectives

1.1 Sustainable, Low-Emission Recreation

Hyperkarting operates fully electric karts, producing no on-site emissions and minimal noise. This directly supports the City of Sydney's sustainability and climate-action goals, which prioritise low-impact recreation and reduced transport emissions.

1.2 Activation of Under-Utilised Precincts

EQ has long struggled with low visitation and inconsistent tenancy turnover. Hyperkarting is one of the few attractions that reliably draws families, young people, corporate groups and tourists throughout the week. Its removal would undermine the city's broader objective of activating key cultural and entertainment precincts.

2. Economic and Social Benefits

2.1 Proven Driver of Foot Traffic

Hyperkarting attracts a broad demographic that would not otherwise visit EQ. This increased foot traffic supports surrounding businesses, improves precinct vibrancy, and contributes to the viability of other tenants.

2.2 Local Employment and Youth Engagement

The venue provides stable employment opportunities, particularly for young people. Replacing an active employer with additional parking would reduce job availability and diminish the social value generated by the precinct.

2.3 Accessible, Safe Indoor Recreation

Electric karting offers a rare, safe, weather-proof activity suitable for families, teens, adults and corporate groups. EQ has limited attractions of this nature, and the loss of such a venue would reduce recreational diversity for local residents and visitors.

3. Land-Use Considerations

3.1 Parking Supply vs. Precinct Activation

EQ already contains substantial parking capacity, and demand has declined in recent years due to changing travel patterns and reduced precinct activity. The carpark is under-utilised and rarely reaches capacity. Converting a thriving recreational venue into additional parking would not meaningfully improve transport outcomes but would significantly reduce activation and community use.

3.2 Opportunity Cost of Removing a High-Performing Tenant

Hyperkarting is one of the few tenants that consistently generates visitation and revenue. Removing a successful, low-impact attraction in favour of passive infrastructure represents a poor use of strategically located land within a designated entertainment precinct.

4. Conclusion

Hyperkarting delivers measurable community, economic and environmental benefits that align with the City of Sydney's planning priorities. Its continued operation supports activation of the Entertainment Quarter, provides sustainable recreation, and contributes to the precinct's long-term viability. Replacing it with additional parking would diminish the area's vibrancy and undermine the city's strategic goals.

For these reasons, I strongly urge Council to retain Hyperkarting as a key tenant at the Entertainment Quarter.

Kind regards,

Daniela Thompson

Hello

I'm writing to add my voice to the chorus of people who have opposed the closure of Hyper Karting.

It's a fantastic venue and I've had a great time there in the past as I'm sure have many others. It significantly adds to the facilities at the Entertainment Quarter.

I note the owner of Hyper Karting has also gone on the public record confirming that even when there is a blockbuster sporting contest at the nearby football stadiums, the existing carpark does not reach capacity. This fact alone would suggest that it is not necessary to increase the capacity of the carpark, especially given this would come at the cost of a small business and hundreds of jobs.

In fact dare I say that it would probably be prudent to discourage cars from converging on the entertainment quarter, rather than encourage it. From personal experience, the Sydney Swans playing at the SCG causes local traffic in the region to grind to a halt. The area is well served by public transport already and it would be a much better public policy decision to further encourage the use of public transport as an alternative to facilitating an even greater number of private vehicles parking in the Entertainment Quarter than the roads surrounding it were built to handle.

Yours faithfully

Brett Watts

Hi there

We are frequently karting at Hyper Kart in Moore Park, it really offers a unique experience in Sydney and so close to the CBD. Other experiences at Moore Park can be found elsewhere within short distance. It would be a real shame to lose something so unique at this location, I would have no other reason to make it out to Moore Park without it.

Best regards,

Carl Mazzolo

Good afternoon City of Sydney

I am writing in support of the HyperKarting venue in retaining their tenancy at the Moore Park Entertainment Quarter.

The HyperKarting venue has provided plenty of benefits to the wider community:

- 1) Creation of 150 jobs
- 2) One of the main attractions for visitors in the Entertainment Quarter - without HyperKarting, the precinct is very quiet.
- 3) To the previous point, the HyperKarting venue offers massive boost to the local economy in terms of patronage of nearby food and beverage amenities in Entertainment Quarter by ways of visitors of HyperKarting.
- 4) Provides residents in the Eastern Suburbs as well as visitors to the CBD a safe and viable karting facility that is easier accessible by public transport - karting facilities in Sydney are usually in the Greater Western Sydney area and NOT accessible by public transport.

Furthermore, the argument to permanently closed down HyperKarting in favour of more car parks is not solid as there is already construction of a larger car parking precinct nearby in Moore Park.

I hope that City of Sydney reconsider their plans to permanently shut down HyperKarting and grant them a two year extension while all parties explore alternate options for parking.

I look forward to hearing from you regarding this

Lawrie Han

Hi there,

I am writing to raise my concerns regarding the closure of one of the GoKart venues. I have been there in few occasions including my visit to EQ markets and have never experienced any issues finding the parking. I believe venues as such are critical to the local amenities as well as the locals. I would sincerely request you to review your decision to expand on car park at this time.

Regards

Good Afternoon,

Just wanted to say that it would be such a shame to close Hyper Karting. I've been many times, including my Bucks party and it's so much fun.

It's a rare thing to have go karting so close to a city.

It's also probably the most optimal utility of space for a go karting track possible to be in a multi-storey car park.

I think a lot of people make a day of it - go to hyper karting then head to Entertainment Quarter for lunch/dinner and a few drinks (again, I have done so many times...) or head back to the city via walking or light rail.

I don't really see the need for the increase in car parking. I've parked many times in the complex and I've parked on ground floor every time. For major events the light rail is readily available for use.

Thanks,
Matthew Slee

CC: [REDACTED]

Subject: Submission in Support of RD/2023/897/A – Retention of Hyper Karting at 116 Lang Road, Moore Park NSW 2021

Caution: This email came from outside the organisation. Don't click links or open attachments unless you know the sender, and were expecting this email.

Attention: Shannon Rickersey

Dear Shannon Rickersey,

I am writing as a father of four young children living in Sydney to strongly support the review and approval of RD/2023/897/A.

We are regular visitors to Hyper Karting at the Entertainment Quarter and believe its closure would be a significant loss for families and the local community.

Hyper Karting has become one of our favourite family outings. The electric go-kart track is safe, exciting, and genuinely fun for kids of all ages. My children look forward to it every time – it's active, engaging, and creates lasting memories without the noise or fumes of traditional karts.

As a parent, I appreciate that it's an, inclusive activity right in the heart of Moore Park that encourages families to spend quality time together. It's exactly the kind of community asset that makes the Entertainment Quarter feel vibrant and welcoming rather than just a car park and stadium overflow zone.

I understand the application relates to extending the temporary consent for the track on Level 5 of the car park. From what I have read, the main reason for refusal is the loss of 298 parking spaces and the view that commercial use of parking areas is not "orderly development," especially with on-grass parking being phased out. However, as frequent visitors we simply do not experience the parking issues being cited. The precinct remains easy to access, and Hyper Karting actually brings families into the area who then enjoy the broader precinct.

Turning the space back into under-utilised parking (the car park is rarely at capacity outside major events) feels like a step backwards when the NSW Government is actively seeking to transform the 11-hectare Entertainment Quarter into a year-round destination for hospitality, events and culture.

Losing Hyper Karting would also put more than 150 local jobs at risk and remove one of the precinct's most popular attractions (over 500,000 visitors since opening). It would be a shame to lose this great community opportunity for kids and families at a time when Sydney needs more family-friendly entertainment options, not fewer.

I urge the City of Sydney to approve the extension (or a reasonable further period) so that this successful, low-impact attraction can continue. It aligns far better with a "city for people, not cars" than leaving a rooftop level empty most of the time.

Thank you for considering this submission. I am happy to provide any further information if required.

Yours sincerely

Troy Swan

Hi,

My family strongly oppose the suggestion to close down Hyperkarts for the sake of some extra parking spaces. It has a unique offering, catering to so many families around the area. It brings more customers to the area which also benefits other businesses in the precinct.

The extra parking spaces are far less important than the jobs Hyperkart offers to their employees and the joy it brings to their customers.

Kind Regards

Camilla Hardy

Good afternoon,

I would like to express how sad i am when i heard Hyper Karting will be closed.

Hyper Kart is such an amazing place to forget my stress by making my adrenaline ups. My friends, my partner, and my self really enjoy this kind of place in inner city. Such a relieve that we can have fun without have to go to Strathfield, Ryde, or somewhere else only to find something similar.

At the other hand, i would like to say, please don't close this place just to build more parking spots. Lots of people catching the tram and bus to Moore park. Should not be good if the car spaces will be just an empty place later.

I would be happy and really appreciate you if i hear that Hyper Karting will stay there and you changed your mind to build more parking space.

Thank you very much.

Best regards,
Aurelia Putri

Hi

Sending my support for keeping this great venue operating. I have been karting for years and it's a great place always accommodating. I how take my kids there they are one of the only places that young kids can drive carts on there own. My kids love going there.

Parking has never been an issue when I have gone to other events. Please keep the track there.

Thanks
Tristan

Hi ,

Hyper karting was amazing when i visited and the staff were so helpful when i was there to help my differently abled sister fulfil her wish to self drive in kids karking. Thank you and i think they should bethere as there was no other place where i could allow my sister who is 16 but physically and mentally like a small child to have her dreams fulfilled to self drive her kart

They shoulddefibately stay. Rave and sarah was really helpful. And the young manager worling on 6 th april after 5 pm. Thank you and Ravi you are amazing person.

Regards

Rubi k

To whom it may concern,

I would like to express my support for hyperkarting remaining open.

As a local resident, I have enjoyed visiting this both as an individual and with groups of friends - it is a unique attraction for the area and it would be disappointing to see it close.

In addition, I have never had issues with getting a parking spot at the entertainment quarter. Rather than adding a few parking spots we should be encouraging people to use public transport.

Best Regards,
Luke Meehan

Dean Shannon,

I'm writing in support of Hyperkarting More Park.

I have personally used the venue many times, and I have brought our entire CBD-based workforce to Hyper Karting for a mid-year event.

It's a great venue that is well managed and one of a kind in the CDB-Eastern suburbs area.

I would also submit that it gives younger drivers an outlet to drive fast rather than having them do it dangerously on our roads.

I submit that Hyperkarting is of value to the community for the above reasons. **Please keep the venue open.**

Regards,
Dean

This institution has been a wonderful opportunity for me to spend time every school holiday with each of my 3 grandchildren. I have been able to watch and enjoy the development of skills required to operate fast moving vehicles and to make quick decision making to avoid difficult situations. [This has been evident as I can see the control skills improving each year]

The downside??

My 2 eldest grandsons now consistently lap faster than me,
I was no slouch, having raced in sedans at Warwick Farm, Oran Park, Amaroo Park and Winton.

HyperKarting has many benefits.

- 1] Keeps adults and children off the street
 - 2] Creates skills and friendly completion,
 - 3] Promotes interaction with peers. [Keeps children off devices for a short time]
 - 4] Assists parents and grandparents to have fun and meaningful time together with their children as families,
- Plus
Plus.

It's too good an institution to shut down without offering another facility in close proximity offering the same or similar benefits.

Please do not shut this down
Thank you
Chris

Dear Council Members of the City of Sydney,

I am writing to express my strong support for the Hyper Karting venue and to respectfully oppose the recent decision to close it down.

This venue provides a unique and valuable recreational space for the community. It offers safe, engaging entertainment for people of all ages, including young children in my family who greatly enjoy and benefit from the experience. Facilities like this encourage active participation, social interaction, and family bonding in a controlled and enjoyable environment.

In contrast, replacing such a venue with additional car parking spaces does not provide the same level of community value. While parking is important, it is difficult to see how it would better serve residents compared to a vibrant, family-friendly attraction that brings people together and contributes to the local economy.

Hyper Karting represents the kind of engaging infrastructure that makes Sydney a more livable and dynamic city. I strongly urge the Council to reconsider this decision and explore alternative solutions that preserve this much-loved community asset.

Thank you for taking the time to consider my views.

Yours sincerely,
John Kan

To whom it may concern,

Closing HyperKarting at The Entertainment Quarter would be a massive oversight in my opinion. It is a wonderful venue, constantly busy and one of the only real reasons to visit the area outside of game times/Fringe Festival period.

There will be considerable knock on impacts for all the retailers at the site and will lead to an even more deserted complex.

I implore you to really really stop. Think. Look at the facts and reconsider the move to close the track. It is short sighted and naive.

Kind regards,

Olivia

Hi
Please don't close this place
There is already not enough places for kids to go to. We travel all the way from Mount druit every school holidays for the kids to play and we come multiple times
Once you close this place up where can we go?
The more places you close the more places kids will start to go onto the streets
Not only that, what about all these staff who will lose their jobs? Will you hire them?

Regards
Diana

Dear Sir/Madam

Re: RD/2024/897/A– Proposed Removal of the Hyper Kart Facility at the Entertainment Quarter Moore Park

I am writing to object to the proposed removal of the existing go-kart facility and its replacement with an expanded car park.

I am a resident of the eastern suburbs and regularly use or value local recreational facilities in the area. This go-kart venue represents one of the very few accessible, active recreational options available locally, particularly for young people, families, and groups.

My concerns are as follows:

1. Loss of Recreational Infrastructure

The proposal would remove a well-established recreational facility without providing any equivalent replacement. The eastern suburbs already have limited options for active, affordable recreation, and this change would further reduce opportunities for community engagement, physical activity, and social interaction.

2. Lack of Community Benefit

While additional parking may provide some convenience, it does not offer the same long-term social, health, or economic benefits as a recreational venue. The replacement of a unique activity with a passive use like parking represents a net loss to the community.

3. Inconsistency with Community Wellbeing Objectives

Local planning frameworks typically emphasise the importance of maintaining and enhancing recreational spaces and promoting active lifestyles. Removing such a facility appears inconsistent with these objectives.

4. Precedent and Cumulative Impact

Approving the removal of recreational facilities in favour of car parking risks setting a precedent that prioritises vehicle storage over community spaces. Over time, this can erode the character and liveability of the area.

For these reasons, I respectfully request that Council refuse the application or require that any redevelopment includes a comparable or improved recreational facility.

Thank you for considering my submission.

Sincerely,
Joanne Martinez

Dear City of Sydney Planning Department,

I am writing to formally express my strong opposition to the proposed closure of Hyper Karting at the Entertainment Quarter.

As a resident of the Greater Sydney area, I believe Hyper Karting is a vital recreational asset for our community. It provides a unique, safe, and accessible venue for young people and families to engage in social activities. Given the scarcity of high-quality indoor sporting and entertainment facilities in the city, losing such a popular destination would be a significant blow to Sydney's vibrant culture.

Hyper Karting is more than just a track; it is a hub for community engagement and one of the few places that offers modern, electric-powered recreation that appeals to a wide demographic.

I urge the DA office to consider the social and community value this venue provides and to find a solution that allows Hyper Karting to remain a staple of the Moore Park precinct.

Thank you for your time and for considering my feedback.
Sincerely

Honestly this is ridiculous that hyperkarting is at risk of closing down. It's quite literally one of, if not the only go karting venue that is accessible and also affordable.

With how few activities there are to do in Sydney, even more so at night, closing it down for more parking spot is simply stupid.

Hi,

We're very keen to throw our support behind the continuation of the lease for HyperKarting at EQ in lieu of more car parks.

That business has been a great source of joy for our family and children over the years, with many birthday's and gatherings held there.

Whilst I understand you have many other considerations to take into account, we feel the loss of this business would be a net loss for the area and community.

We thank you for your time and consideration,

Edward and Di Tanzil

Hyperkarting is a great place for family and friends to meet and have fun. I'm a local resident and know for sure the carpark is never full enough to suggest hyperkarting should not renew its lease to operate to allow for more parking space. If it wasn't for the people that attended hyperkartng going to the shops and cafes in the EQ before and after races a lot of them would have closed long ago from lack of patronage. More people go to EQ for Hyperkarts than any other reason

Regards
David
