

Relevant Information for Central Sydney Planning Committee

FILE: D/2025/920 **DATE:** 25 June 2026

TO: The Central Sydney Planning Committee

FROM: Graham Jahn AM, Chief Planner / Executive Director City Planning,
Development and Transport

SUBJECT: Information Relevant To Item 5 – D/2025/920 – 216-220 Wyndham Street,
Alexandria

Alternative Recommendation

It is resolved that:

- (A) the variation requested (Attachment C) to Clause 4.3 Height of Buildings in accordance with Clause 4.6 'Exceptions to development standards' of the Sydney Local Environmental Plan 2012 be upheld; and
- (B) development consent be granted to Development Application Number D/2025/920 subject to the conditions set out in Attachment A to the subject report, **and subject to the following amendments** (additions shown in **bold italics**, deletions shown in ~~strike through~~):

(5) BUILDING HEIGHT

- (a) The height of the building must not exceed ~~RL53.08m~~ **RL53.1m** to lift overrun and RL51.9m to the parapet of the building, or as otherwise detailed on the approved elevation plans.
- (b) Prior to the final Occupation Certificate being issued, a Registered Surveyor must provide certification that the height of the building accords with (a) above, to the satisfaction of the Principal Certifier.

Reason

To ensure the constructed development complies with the approved height.

(6) LAND SUBDIVISION

Any proposal for land subdivision, ***other than that specifically approved in this consent***, including any stratum subdivision of the building to separate the commercial component of the building from the residential component, will require a separate application to Council to obtain development Subdivision Certificate under Section 6.15 of the *Environmental Planning and Assessment Act 1979*.

Reason

To ensure separate development consent is sought for land subdivision.

(10) LAND DEDICATION AND LAND TRANSFER

- (a) Land dedicated as public road must be dedicated in compliance with the registered Planning Agreement(s) for the site and must not be encumbered by any Long-Term Environmental Management Plan.
- (b) Public domain works within the land to be dedicated must be sufficiently completed to the satisfaction of Council's Public Domain unit prior to the issue of any subdivision certificate.
- (c) Land must be dedicated unencumbered. All leases, restrictions, covenants, easements and planning agreements must be extinguished prior to, or with the dedication of land, other than those designated as permitted encumbrances in the registered ~~VPA~~ **Planning Agreement** for the site.
- (d) ***The developer shall transfer the future road lot to the City for one dollar when required consistent with the registered Planning Agreement for the site.***

Reason

To ensure land to be dedicated to the City is not encumbered ***and in accordance with the registered Planning Agreement.***

(21) DELETED

(36) DELETED

(40) BASIX CERTIFICATE – DETAILS TO BE LODGED WITH A CC

A copy of the required completed BASIX certificate accepted as part of this Development Consent with respect to the proposed residential building works, must be lodged with an application for Construction Certificate ~~3~~ **4** and the items nominated as part of the subject BASIX certificate must be specified on the plans submitted with the construction certificate application. – See Note.

IMPORTANT NOTE:

Any requirement detailed in the accompanying BASIX Certificate, **MUST** be included as a specific notation or inclusion on any future Construction Certificate plans and specification in accordance with Part 3 of Schedule 1 of the EP&A Regulation, 2021.

Reason

To ensure BASIX commitments are fulfilled in accordance with the BASIX certificate (prescribed condition under clause 75 EP&A Regulation, 2021).

(40) DESIGN MODIFICATIONS

- (a) *The operable windows and panels for natural ventilation proposed to the bedrooms fronting McEvoy Street on Levels 2 to 8 are not approved.***
- (b) *Prior to the issue of Construction Certificate 2, revised window and ventilation details for operable bedroom windows fronting McEvoy Street, supported by a further acoustic assessment prepared by a suitably qualified acoustic consultant, including:***
 - (i) *details of how the windows respond to the City of Sydney Draft Alternative Natural Ventilation of Apartments in Noisy Environments - Performance Pathway Guideline (17 September 2018). If required, noise affected apartments may need to be replanned to achieve compliance. The documentation is to be prepared by a qualified ventilation consultant.***
 - (ii) *preparation of an effective openable area schedule for all habitable rooms, demonstrating consistency with the ADG;***
 - (iii) *preparation of a Plan of Management for the maintenance and cleaning of any alternative ventilation device, if required;***

The revised window and ventilation details are to be coordinated with plans and elevations. The revised documentation must be submitted to and approved by the Executive Director City Planning, Development and Transport, prior to the issue of Construction Certificate 2.

Reason

To ensure compliance with the Apartment Design Guide natural ventilation requirements and the City's acoustic and ventilation requirements and to provide an appropriate level of residential amenity.

(41) DELETED

(48) BICYCLE PARKING AND END OF TRIP FACILITIES

- (a) The minimum number of bicycle parking spaces and end of trip facilities to be provided within the site boundary for the development must comply with the table below.**

Bicycle Parking Type	Number	Requirements
Residential	119	Spaces must be Class 1/2 bicycle facilities

Bicycle Parking Type	Number	Requirements
Residential visitor	12	Spaces must be Class 2/3 bicycle facilities
Non-residential	9	Spaces must be Class 2 bicycle facilities
Non-residential visitor	4	Spaces must be Class 3 bicycle rails
End of Trip Facility Type	Number	
Showers with change area	1	
Personal lockers	17	

All bicycle parking spaces and end of trip facility must be provided on private land. The public domain cannot be used to satisfy this condition.

Notes:

- ~~(i) If a basement storage area on title that is large enough to store a bike and is no smaller than a class 1 bike locker this can be counted as a space.~~
- (b) The layout, design and security of bicycle facilities must comply with the minimum requirements of Australian Standard AS 2890.3 Parking Facilities Part 3: Bicycle Parking Facilities. The details must be submitted to and approved by the Registered Certifier confirming prior to and form part of Construction Certificate 2 being issued.

Reason

To ensure the allocation of bicycle parking onsite that is in accordance with Australian Standards and the Council's DCP.

(54) LANDSCAPING OF THE SITE

Updated landscape documentation and specifications by a registered landscape architect must be submitted to and approved by Council's Area Coordinator Planning Assessments/ Area Planning Manager prior to the issue of Construction Certificate ~~1~~ **2**. The plan must include:

- (a) Details and specifications of proposed structures on the site including, but not limited to, paving, walls, services, furniture, shade structures, lighting and other features;

- (b) The following updates to the planting schedule:
 - (i) Amend the planting schedule to reference the *City of Sydney Tree Species List*, ensuring species suitability, reliability, recommended usage, and alignment with mature tree dimensions to achieve a long-lived, healthy canopy
 - (ii) Specific substitutions required include:
 - a. *Banksia integrifolia* – limited use and considered unreliable on the City's Tree Species List. Substitute with a small-plus tree (minimum mature height 8 m).
 - b. *Eucalyptus 'Scentuous'* (Dwarf Lemon-Scented Gum) – small tree not listed on the City's Tree Species List and will not provide sufficient canopy. Substitute with a medium canopy tree (minimum mature height 8 m).
 - (iii) All new tree plantings must be supplied in containers of at least 100 litres at the time of planting.
- (c) Soil depth and volume diagram for each proposed tree to confirm compliance with the Sydney Landscape Code Volume 2;
- (d) Detailed grading plans around proposed trees on level 2 that ensures:
 - (i) All gradients of mounding are no steeper than 1:4
 - (ii) Raised edging are used where required to reduce mounding and achieve sufficient soil depth
- (e) Detailed drawings of the planters along the ramps between the ground floor lobby and parking area;
- (f) Details of drainage, waterproofing and watering systems;
- (g) Long term landscape maintenance plan.

Relevant drawings cross referenced in the landscape package, such as architectural details, stormwater and hydraulic plans etc, should also be submitted to demonstrate a fully coordinated design.

All landscaping in the approved plan is to be complete prior to any Occupation Certificate being issued.

The landscape maintenance plan is to be complied with during occupation of the property.

Reason

To ensure that the development is supported by a good quality, buildable landscape scheme that meets the City's controls.

(55) DELETED

(56) PUBLIC DOMAIN TREE PLANTING AND MAINTENANCE

A minimum of 4 new tree(s) must be planted in Wyndham Street in association with the development and be included on the Public Domain Plans required to be submitted under condition titled 'Public Domain Plan'. The Plans must also include:

- ~~(a) The proposed through-site link and dedicated land to ensure connectivity and integration with the surrounding area and include planting/s within the northern area of the through-site link to enhance and maximise canopy cover, biodiversity, and streetscape amenity.~~
- (b) Tree species consistent with the City of Sydney Street Tree Master Plan (refer to relevant streets) or other relevant guidance document. Species substitutes will not be accepted;
- (c) Tree pits located and constructed in accordance with the City of Sydney Street Tree Master Plan (Technical Guidelines) or other relevant guidance document. The tree pit design must include structural soils to support pavements in accordance with the Street Tree Master Plan (Technical Guidelines);
- (d) The Applicants nominated tree planting delivery method, being a choice of one of two options:
 - (i) Undertake all tree supply, planting, and maintenance requirements to the required standards and to the satisfaction of the City's Tree Management Officer.

OR

- (ii) Pay a fee for the City to supply, plant, and maintain each required tree on the applicant's behalf. The fee is consistent with the City's Schedule of Fees and Charges.

If the Applicant is nominating to undertake all tree supply, planting, and maintenance requirements, the following requirement must be met:

- (a) Tree(s) must be planted prior to issuing of the Occupation Certificate;
- (b) Tree(s) supplied in minimum container size of 400 litres at the time of planting;
- (c) Tree(s) grown in accordance with the Australian Standard 2303 'Tree stock for landscape use' and meet the requirements of this standard at the time of planting;
- (d) Prior to the tree(s) being planted, certification from the tree supplier submitted to the City of Sydney Tree Team and Public Domain Officer that the tree(s) have been grown and comply with the requirements of AS2303. Any new tree(s) which do not conform will be rejected by the City of Sydney;
- (e) Tree(s) planted by a qualified Horticulturist or Arborist (minimum AQF Level 3);

- (f) Tree(s) inspected and approved by the City of Sydney Tree Team (or their representative) at the following milestones: before planting with planting pits excavated; after planting; and at the end of the maintenance period;
- (g) Tree(s) maintained by a qualified Horticulturist or Arborist (minimum AQF Level 3) for a minimum period of 12 months, commencing from the date of planting. Maintenance includes, but is not limited to, watering, weeding, removal of rubbish from tree base, pruning, fertilizing, pest and disease control and any other operations to maintain a healthy robust tree;
- (h) At the end of the 12 month maintenance period, written acceptance of the tree(s) obtained from the City of Sydney before release of the Public Domain Bond;
- (i) If the tree(s) fail to thrive and successfully establish during the maintenance period, then the City of Sydney will request payment for a replacement tree(s) and establishment period according to the City of Sydney Schedule of Fees and Charges.

Reason

To ensure that details of street trees to be planted are approved, the works are carried out in an appropriate manner and the trees are maintained following installation.

(59) DESIGN FOR ENVIRONMENTAL PERFORMANCE

- (a) Prior to the issue of Construction Certificate 4, the Registered Certifier must be satisfied that those matters listed in the following sections of the approved Design for Environmental Performance report prepared by Introba, dated 23 September 2025, are incorporated into the relevant construction plans and accompanying documentation:

- (i) Section 3 – BASIX

A copy of the required completed BASIX certificate(s) accepted as part of this consent/as amended above must be lodged with an application for a construction certificate and the items nominated as part of the subject BASIX certificate(s) must be specified on the plans submitted with the Construction Certificate **4** application.

Note: Any requirement detailed in the accompanying BASIX Certificate must be included as a specific notation or inclusion on any future Construction Certificate plans and specification in accordance with Division 1 of Part 6 of the EP&A Regulation, 2021.

- (ii) Section 4 – Energy Efficiency and Greenhouse Gas Emissions Abatement
- (iii) Section 5 – Passive Design for Thermal Performance – Building Envelope Design
- (iv) Section 6 – On site Renewable Energy Generation and Storage
- (v) Section 7 – Design for Resilience to Climate Change
- (vi) Section 8 – Designing for mains potable water savings and water efficiency

- (vii) Section 9 – Storm water quality
- (viii) Section 10 - City Greening
- (ix) Section 11 - Promoting Active Transport and Reducing Transport Emissions
- (x) Section 12 - Materials, Embodied Carbon and Circularity
- (xi) Section 13 - Waste Management and Resource Recovery
- (xii) Section 14 - Third Party Certification and Design, Construction or Technology Innovations
- (b) Changes to any commitments as listed in the approved Design for Environmental Performance report must be submitted to and approved by Council's Area Planning Manager/Coordinator prior to the issue of ~~any~~ **relevant** Construction Certificate **4**.

Reason

To ensure the environmental performance of the development.

(64) STORMWATER ON-SITE DETENTION

The requirements of Sydney Water with regard to the on-site detention (OSD) of stormwater must be ascertained and complied with. Evidence of the approval must be submitted to Council prior to issue of Construction Certificate 2.

~~Where an OSD is not required by Sydney Water one may still be required by the City.~~

Reason

To ensure the requirements of Sydney Water are complied with.

(67) PUBLIC DOMAIN LIGHTING UPGRADE

Prior to issue of Construction Certificate ~~2~~ **3**, a concept Public Domain Lighting Upgrade Plan for pedestrian and street lighting in the public domain must be submitted to and approved by City's Public Domain Unit. The Lighting Plan must be prepared in accordance with the Sydney Streets Technical Specifications A5 and B8, Sydney Lights Design Code and Public Domain Manual. This information is available for download from the City's website at <https://www.cityofsydney.nsw.gov.au/development/public-domain-works/da-associated-works>. Advice on site specific lighting requirements must be obtained from City's Public Domain Unit before proceeding with the preparation of any final lighting design proposals.

Reason

To ensure pedestrian and street lighting in the public domain complies with Council's requirements.

(70) WASTE AND RECYCLING MANAGEMENT - RESIDENTIAL

The Operational Waste Management Plan dated April 2026 (TRIM reference 2026/242518) accompanying the Development Application has been approved by this consent responsive to architectural plans Issue C and dated 23 May 2026.

Should the architectural plans be updated, an updated Operational Waste Management Plan must be submitted to Council's City Cleansing & Resource Recovery Unit and approved by Council's Area Planning Manager prior to the issue of ~~any~~ Construction Certificate **3**.

Reason

To document agreed waste management facilities and arrangements and ensure good waste management outcomes.

(73) DILAPIDATION REPORT – MAJOR EXCAVATION/DEMOLITION

- (a) Subject to the receipt of permission of the affected landowner, dilapidation report/s, including a photographic survey of **204-218 Botany Road and 212- 214 Wyndham Street** (and any other properties identified by the qualified structural engineer engaged to undertake the report) are to be prepared by an appropriately qualified structural engineer prior to commencement of demolition/excavation works. A copy of the dilapidation report/s together with the accompanying photographs must be given to the above property owners, and a copy lodged with the Registered Certifier and the Council prior to the issue of ~~any~~ Construction Certificate **2**.

UPON COMPLETION OF EXCAVATION/DEMOLITION

- (b) A second Dilapidation Report/s, including a photographic survey must then be submitted at least one month after the completion of demolition/excavation works. A copy of the second dilapidation report/s, together with the accompanying photographs must be given to the above property owners, and a copy lodged with the Principal Certifier and the Council prior to the issue of any Occupation Certificate.

Any damage to buildings, structures, lawns, trees, sheds, gardens and the like must be fully rectified by the applicant or owner, at no cost to the affected property owner.

Note: Prior to the commencement of the building surveys, the applicant/owner must advise (in writing) all property owners of buildings to be surveyed of what the survey will entail and of the process for making a claim regarding property damage. A copy of this information must be submitted to Council.

Reason

To ensure that mech reports are prepared and to identify damage to adjoining/nearby properties resulting from building work on the development site.

(74) DELETED

(142) AFFORDABLE HOUSING PROVISION

A minimum of 10% of the total number of dwellings is to be provided for Aboriginal and Torres Strait Islander housing.

Reason

To ensure compliance with Section 5.10.2.2.2(1) of the Sydney Development Control Plan 2012

Purpose

To provide an Alternative Recommendation in response to requests from the applicant and to require the resolution of the ventilation and acoustic performance of the windows.

Background

Further information regarding the acoustic windows treatment

At the Central Sydney Planning Committee briefings held on 18 June 2026, further information was sought on the proposed acoustic window systems for windows facing McEvoy Street.

In response, a new Design Modification condition has been recommended, requiring details demonstrating the satisfactory resolution of the ventilation and acoustic performance of these windows to be submitted to the Executive Director for approval prior to the issue of a Construction Certificate for above ground works:

(40) DESIGN MODIFICATIONS

- (a) *The operable windows and panels for natural ventilation proposed to the bedrooms fronting McEvoy Street on Levels 2 to 8 are not approved.***
- (b) *Prior to the issue of Construction Certificate 2, revised window and ventilation details for operable bedroom windows fronting McEvoy Street, supported by a further acoustic assessment prepared by a suitably qualified acoustic consultant, including:***
 - (i) *details of how the windows respond to the City of Sydney Draft Alternative Natural Ventilation of Apartments in Noisy Environments - Performance Pathway Guideline (17 September 2018). If required, noise affected apartments may need to be replanned to achieve compliance. The documentation is to be prepared by a qualified ventilation consultant.***
 - (ii) *Preparation of an effective openable area schedule for all habitable rooms, demonstrating consistency with the ADG;***
 - (iii) *Preparation of a Plan of Management for the maintenance and cleaning of any alternative ventilation device, if required.***

The revised window and ventilation details are to be coordinated with plans and elevations. The revised documentation must be submitted to and approved by the Executive Director City Planning, Development and Transport, prior to the issue of Construction Certificate 2.

Reason

To ensure compliance with the Apartment Design Guide natural ventilation requirements and the City's acoustic and ventilation requirements and to provide an appropriate level of residential amenity.

Further information regarding the timing of transfer of future road lot

On 23 June 2026, further information was sought regarding the timing of the transfer of the future road lot to the City.

In response, Condition 10 *Land Dedication and Land Transfer* has been amended to include part (d) regarding the timing of the transfer as required by the executed Planning Agreement on the site:

(10) LAND DEDICATION AND LAND TRANSFER

- (a) Land dedicated as public road must be dedicated in compliance with the registered Planning Agreement(s) for the site and must not be encumbered by any Long-Term Environmental Management Plan.
- (b) Public domain works within the land to be dedicated must be sufficiently completed to the satisfaction of Council's Public Domain unit prior to the issue of any subdivision certificate.
- (c) Land must be dedicated unencumbered. All leases, restrictions, covenants, easements and planning agreements must be extinguished prior to, or with the dedication of land, other than those designated as permitted encumbrances in the registered ***Planning Agreement*** for the site.
- (d) ***The developer shall transfer the future road lot to the City for one dollar when required consistent with the registered Planning Agreement for the site.***

Reason

To ensure land to be dedicated to the City is not encumbered ***and in accordance with the registered Planning Agreement.***

Further information regarding the provision of affordable housing for Aboriginal and Torres Strait Islander residents

On 23 June 2026, further information was sought regarding the provision of affordable housing for Aboriginal and Torres Strait Islander residents and compliance with Section 5.10.2.2.2(1) of the Sydney Development Control Plan 2012.

In response, a new condition has been recommended (Condition 142) which requires a minimum of 10% of the total number of dwellings to be provided for Aboriginal and Torres Strait Islander housing:

(142) AFFORDABLE HOUSING PROVISION

A minimum of 10% of the total number of dwellings is to be provided for Aboriginal and Torres Strait Islander housing.

Reason

To ensure compliance with Section 5.10.2.2.2(1) of the Sydney Development Control Plan 2012.

Proposed conditions of consent

In accordance with Planning Circular PS 25-001 'Best practice consultation of draft conditions of consent prior to determination', issued on 7 April 2025 by NSW Department of Planning, Industry and Housing, the City of Sydney provided draft conditions to the applicant (City West Housing) on 15 June 2026.

City West Housing provided a written response on 18 June 2026, seeking amendments to the following recommended conditions.

City staff have reviewed the proposed changes to conditions and provide an Alternative Recommendation and amended conditions, where agreed, as below.

1. Condition 1 – Approved Development

The requested removal of the subdivision plan from the approved development documentation list is **not** supported, as the subdivision has been approved by the development consent.

2. Condition 5 – Building Height – by amending (a) to round up the height of the lift overrun to RL 53.1 (one decimal place).

This is accepted for amendment.

3. Condition 6 – Land Subdivision – by inserting additional wording to clarify the scope of the consent, which includes subdivision.

This is accepted for amendment as it clarifies the approved scope of works.

4. Condition 10 – Land Dedication and Land Transfer – by amending (c) to replace the wording of 'registered VPA' to 'registered Planning Agreement'.

This is accepted for amendment.

5. Condition 21 – Changes to Kerb Side Parking Restrictions – by deletion.

This amendment is accepted, as there is no street parking available on Wyndham Street and McEvoy Street in front of the site.

6. Condition 30 – Public Art – by amendment to (c) to require the submission of the Detailed Public Art Plan prior to Construction Certificate 5.

This amendment is **not** supported. The Public Art Plan is to be approved before above ground works, therefore this condition is amended to reference Construction Certificate 2.

7. **Condition 36 – External Lighting** – by deletion.

This deletion is supported.

8. **Condition 37 – Signage Strategy** – by deletion.

This amendment is **not** supported. Condition 28 of the Concept DA (D/2023/884) requires: “A detailed signage strategy must be submitted with any subsequent DA for the detailed design of the building”.

9. **Condition 38 – Signs – Separate DA Required** – by deletion.

The amendment is **not** supported. Standard condition that notes if signage is not exempt or complying, a signage DA is to be lodged for new signs.

10. **Condition 40 – BASIX Certificate – Details to be Lodged with a CC**

This amendment to reference Construction Certificate 4 is accepted.

11. **Condition 41 – Approved Acoustic Report**

This condition has been deleted and replaced with the new Design Modification a which requires further acoustic assessment prepared by a suitably qualified acoustic consultant.

12. **Condition 44 – Materials and Samples Board – Major**

Amendment to delete the requirement for glazing information is **not** supported. A physical materials board with glazing details is to be provided before Construction Certificate 4.

13. **Condition 48 – Bicycle Parking and End of Trip Facilities** – by deletion.

The proposed deletion of note (i) is supported as no basement is proposed.

14. **Condition 54 – Landscaping of the Site**

The proposed amendment to submit the detailed Landscape Plans at CC5 is **not** supported. CC2 is considered acceptable to ensure the on-structure landscape works are finalised before the building structure is constructed.

15. **Condition 55 – Updated Landscape plan (*Deleted*)**

Following coordination with Council’s Landscape and Trees team, this condition has been deleted as it is a duplication of Condition 54 (Landscaping of the Site).

16. **Condition 56 – Public domain tree planting and maintenance**

The proposed deletion of the requirement for planting on the through-site link is supported.

The proposed deletion of the requirement for tree planting to have 400L container sizes is **not** supported. Council’s Tree Officer has confirmed this container size is required to support the viability of the street trees.

17. **Condition 59 – Design for Environmental Performance**

The proposed amendment to submit the updated BASIX plans with Construction Certificate 4 is supported.

18. **Condition 64 – Stormwater On-Site Detention**

The proposed amendment to delete 'Where an OSD is not required by Sydney Water one may still be required by the City' is supported as the proposal includes the provision of an OSD.

19. **Condition 67 – Public Domain Lighting Upgrade**

The proposed amendment to submission prior to Construction Certificate 3 is supported.

20. **Condition 70 – Waste and Recycling Management**

The proposed amendment to require an updated WMP should the plans be updated prior to Construction Certificate 3 is supported, as the WMP has already been approved.

21. **Condition 73 – Dilapidation report – prior to major demolition**

The condition has been updated to include the addresses of neighbouring properties. The dilapidation report should be prepared prior to any earthworks, excavation and shoring (CC1).

22. **Condition 74 – Mechanical Ventilation – requested deletion**

The requested deletion of the condition is supported as air conditioning is not proposed.

23. **Condition 75 – Reflectivity – requested deletion**

The requested deletion of the condition is **not** supported. Standard condition to manage any reflectivity issues.

24. **Condition 76 – Sydney Airport Corporation Approval**

The requested amendment to approval prior to Construction Certificate 2 is **not** supported. Flysafe Airspace Protection Condition (Condition 156) states that Sydney Airport Corporation Approval is required 5 days prior to any substantial building, engineering or construction work.

25. **Condition 115 – Registration of Covenant – EMP/LEMP – requested deletion**

This proposed deletion is **not** supported. Council's Environmental Health Officer has advised that where a LTEMP is required to manage residual contamination remaining on the site, it is necessary that current and future landowners are made aware of the ongoing management obligations.
