- Clarification on queueing arrangements. We've provided clear direction on queueing etiquette to ensure the safe use of public spaces and avoid unattended infrastructure and equipment being left in these spaces.
- amended performance sites in Pitt Street Mall
- designation of special busking sites along George Street.

The proposed changes to Special Busking Sites in Pitt Street Mall are intended to better balance busking activity and impacts on neighbouring businesses. City staff monitor the use of Special Busking Sites and accept feedback from buskers on an ongoing basis.
Supports the cultural value of busking however has issues with noise impacting private properties.	The proposed changes to the Policy are intended to clarify and strengthen enforcement measures related to high volume performances and acts over-staying the maximum performance time and hours.
Request for specific guidance about safety around the light rail track.	Actioned. Information in the Busking Code updated, directing buskers to ensure their audiences gather a safe 2m distance from the light rail tracks.
Request for the Special Busking Site outside Town Hall to be for Low Impact acts only.	Actioned. Given there is limited space for larger group acts and circus performers to safely manage their audience in this location, it has been updated to Low Impact only. High Impact acts may perform diagonally across the road on the QVB forecourt, and other, more open areas along George St.

Some submissions include suggested changes to wording to the policy to address issues with compliance and excess noise. The issues are addressed in the policy and are managed through enforcement of the policy by the City's Rangers.
